

Dark Ages 261

Chapter 261 - The fall of the guard area

The gate of the base opened, and a huge white tiger rushed in outside, strode forward, and trot all the way into the base.

“Brother Qin!”

“boss!”

A group of high-level leaders greeted in the base, looking excited, one by one watching Qin Tiange who came in riding the white tiger, finally relieved.

Qin Tiange nodded slightly and said, “Everyone, go back and talk.”

After speaking, he drove Baihu to take the lead and entered the base. Later, Zhuo Tianfan, Nie Teng, Liu Ye and other base leaders followed, and a large group of people walked into the base because of the attention of countless people.

“Look, is that a tiger?”

“Oh my god, someone is riding a white tiger?”

“Who is he?”

For a moment, the crowd of survivors in the base was shocked, and gathered around, looking at the huge white tiger passing by them, looking a little scared.

White tiger, three meters high and more than five meters long, mighty and majestic, exuding a unique breath belonging to the king of beasts, the smell is pungent and shocking.

In particular, the people riding on the white tiger puzzled many people and speculated about his origin and identity.

The entire base was densely packed with people, and dozens of millions of survivors gathered to form a crowding phenomenon.

“Why are there so many people suddenly?”

On the way, Qin Tiange wondered, watching the whole base be filled with people, and he couldn’t help but feel surprised, too fast?

He smiled bitterly. There were too many people in the base. He rode a white tiger to speed up, and quickly returned to the conference room with the top of the base in the countless surprises of many people.

Someone was guarded here. Naturally, nobody approached, and Bai Hu lay quietly outside, staring at the conference room with wide eyes, warning outsiders not to approach.

“Tell me what’s going on at the base. There are too many survivors.” As soon as Qin Tiange sat down, he asked this question.

Zhuo Tianfan smiled bitterly and explained, "In fact, we didn't expect so many survivors to come. It was just two days ago, and suddenly a large number of survivors surged in. I feel like they were driven by zombies. same."

"Yes, these survivors come in groups of three or five, all fleeing for their lives, more and more, and finally forming a huge scale, followed by countless zombie pursuit."

Nie Teng also frowned when talking about this, feeling a bit weird, as if the zombies had specifically driven these people over.

Hearing this, Qin Tiange's brows were deep and he felt that something was wrong. Where would zombies drive humans to come together?

"Don't you want to hit it all?" Qin Tiange guessed secretly, but unfortunately there was no clue.

He dropped the idea and immediately asked: "Talk about the current number of people in the base. I think it seems that the entire base can no longer accommodate it."

"Boss, this is the case. Originally, our base only accepted hundreds of thousands of survivors, but as the guard area transported hundreds of thousands of survivors through the newly constructed underground passage, this situation has now resulted." Zhuo Tianfan explained.

It turns out that this is the case. The base originally had the limit to accommodate hundreds of thousands of survivors, but hundreds of thousands of refugees were suddenly evacuated from the side of the guard zone, and this situation was formed.

Qin Tiange's complexion changed slightly. Looking at the high-rises around him, Shao Feng and Hu Yan had disappeared, and they were probably in the security zone now.

"Is something wrong in the guard area?" Qin Tiange asked seriously.

Unsurprisingly, Zhuo Tianfan took out a document and said, "This is sent by Commander Chen, saying that it will be given to you when you return."

Qin Tiange fetched the file and opened it for review. The above briefly described the situation in the guard area and the 1.5 million soldiers who had just received it.

For the time being, there are only soldiers in the entire guard zone, and all ordinary survivors have been evacuated, and they have all evacuated to their base.

As for the underground passage, he built it secretly after discussing it with Chen Wu, just to prevent accidents. I didn't expect to use it just after it was built.

"Report ..."

Suddenly, a soldier rushed in with a look of astonishment, but quickly uttered an amazing news.

"The guard area has fallen!"

Hearing the news, everyone in the room suddenly stood up, his face turned wild, and was shocked by the news.

The guard area has fallen? Qin Tiange couldn't lift it. How can you say that the reinforced concrete fortifications were built in the guard area, and it fell within two days?

“Brother Qin, a large number of soldiers are evacuating at the moment in the underground passage.” The soldier said the news again.

Qin Tiange stood up and said solemnly: “Everyone comes with me. It seems that the guard area has really fallen.”

As he walked out, with the white tiger outside the door, the same group of base leaders hurried to the place where the underground passage was established.

As soon as I arrived here, I saw a large number of soldiers coming out from underneath the road, one by one stained with blood, with injuries. Some soldiers had even been seriously injured and unconscious, and were carried out.

“What about the commander?” Qin Tiange came up and grabbed an officer and asked.

The latter was sad and cried: “The commander is leading the most elite combat division in order to allow us to evacuate smoothly.”

“Asshole, did you let the commander die?” Qin Tiange looked angry, but ignored the officer.

He turned around and shouted, “Li Weiwei, lead me to the dead camp.”

Qin Tiange talked about fun. He rode directly on the white tiger, drilled into the constructed underground tunnel, and drove directly to the police area along the tunnel.

Later, Li Weiwei immediately reorganized his army and led the 3,000 dead men's battalions to follow, one by one with a mask on his face, unable to see his face, and wearing blood-red armor, which was a unit dedicated to the killing.

Along the way, Qin Tiange saw the soldiers who had evacuated one after another, rushing into the tunnel in a hurry, and saw Qin Tiange riding white tigers, one by one.

“Get off, get off!”

If Qin Tiange had a cold face, and his heart was very angry, Commander Chen Wu had a vital effect on him. He must not die, otherwise all his plans would not be realized.

The more he thought about it, the more angry Qin Tiange ran on the white tiger, while yelling at the retreating army to make way.

Later, Li Weiwei led the 3,000 dead men's battalion to chase wildly, even those retreating troops had to make way, and he knew vaguely that this was to support Commander Chen Wu.

This made many retired soldiers feel ashamed, but had to execute the withdrawal order and evacuate quickly and orderly without any panic.

They volunteered a way to let Qin Tiange ride a white tiger and lead the dead camp to pass quickly, hurry up, and finally came to the guard area.

“Commander, withdraw!”

The guard area was filled with zombies, endless, and the entire base was filled. The only thing left here was the elite division of thousands, who were guarding the entrance of the underground passage and fighting relentlessly.

“Commander, withdraw!”

An officer yelled, crying, and was about to die. Thousands of elite soldiers stayed here, and after Commander Chen Wu died in person, these soldiers were mad.

Seeing that the zombies were about to be killed here, they would not be able to leave without leaving, but Chen Wu had no intention of evacuating, looking sadly at the guard area occupied by the zombies, and was completely occupied. We're fucked! “Chen Wu murmured to himself, holding his sword, bleeding all over, it seemed as if he was ten years old, and the guard zone he guarded fell.

Roar!

Finally, the soldiers could not stop the crazy attacks of the zombies, their defensive positions were breached, and an instant innumerable zombies came in. Commander Chen Wu was the first to bear the brunt.

A huge zombie rushed into the air and pointed directly at Chen Wu, not far from him. The mighty gigantic giant claw shot down fiercely, and the sound of the wind was about to be filmed on the head of Commander Chen Wu.

“Well ... I'm Chen Wurong and my whole life, and I have been loyal to the country today.” Chen Wu muttered to himself, silently watching the zombie giant claws that fell down, without a trace of panic, but a relief and regret.

The soldier, loyal to the country, he has finished his life completely.

“Sin beast, look for death!”

At this moment, a violent drink came from behind, and a white shadow flashed, and a loud noise was heard. The giant body was knocked out and his head smashed.

Chapter 262 - Secret negotiation

With a bang, the five-meter-high zombies were directly hit and fly, their heads exploded, and they fell to the scene and died a dozen meters away.

At this time, Chen Wucai woke up from shock and saw a three-meter-high white tiger standing in front of him.

On the white tiger, riding a young man holding a halberd in his hand, it is impossible. The person who came was Qin Tiange, who rushed here at the last juncture, drove Bai Hu to the rush, and a halberd broke the giant's head and rescued Chen Wu.

“Commander, withdraw!”

Qin Tiange didn't turn his head back. His words clearly passed into Chen Wu's ears to let the latter know that he wouldn't be able to evacuate. The other party came to save him.

He didn't say much, but turned around and evacuated into the tunnel. He just saw Li Weiwei and others rushing out to lead Qin Tiange to 3,000 dead men.

"Everyone, retreat and evacuate!"

Qin Tiange shouted, his voice spread throughout the defensive positions, all the surviving soldiers knew immediately, Chen Wu retreated.

Seeing their commander evacuated, the group of soldiers who had been desperately trying to withdraw immediately and retreated, and soon retreated into the tunnel with the help of Qin Tiange and the three thousand dead men.

"Li Wiki, evacuate!"

Qin Tiange watched that all the troops had been evacuated, and immediately ordered Li Weiwei to take the dead camp into the tunnel. He rode a white tiger across the tunnel and stopped the mad zombies.

boom!

The halberd swept, the flesh flew away instantly, the blood and water spurted, and all the zombies were crushed relentlessly and smashed into a slum.

Qin Tiange was like a ***** of war, riding a white tiger motionlessly, and blocked himself at the entrance of the tunnel. Euphoria swept up and swept away dozens and hundreds of zombies in front of him.

Taking advantage of this gap, Bai Hu turned around and slipped into the tunnel, followed by the tunnel iron door slowly closing.

Roar!

The corpses roared and smashed madly, dozens of zombies rushed into the tunnel, but were unfortunately killed by Qin Tiange's violent bombardment.

He stared blankly at the closed door. Through the last gap, he saw the scenes of violent roars of zombies outside, his tight heart string finally relaxed.

"Commander, you are too risky. As the highest commander in the security zone, as the life and death of millions of soldiers, it is unwise for you to do so." Qin Tiange turned and jumped down to the White Tiger and came to the commander of Chen Wu. He just trained directly.

There is no way, the old commander is too stubborn. Even after his death, he is simply dead. If he dies, not only millions of officers and soldiers will not lead it, but Qin Tiange's follow-up plan will not be realized.

“Well, I’m old. I wanted to be loyal to the motherland, and didn’t want to be trained by you.” Chen Wu smiled and felt depressed, but in fact he accepted Qin Tiange somewhat.

Qin Tiange is right. Once he is dead, there must be no one to lead the millions of officers and soldiers. Qin Tiange will not do it. What will these officers and soldiers do then?

Moreover, Qin Tiange is also very difficult to handle himself. With different identities, he cannot order the million officers and men. How could he not be angry?

Fortunately, he arrived in time and rescued Chen Wu, finally relieved.

Qin Tiange pulled Chen Wu in a bad mood, and fled along the tunnel to the Lianhua Mountain Base, and sealed the tunnel completely before leaving.

Out of the tunnel, a large number of officers and men waited nervously, seeing Qin Tiange coming out with the injured Chen Wu, relieved one by one.

“salute!”

All officers and men are densely packed, at least tens of thousands of people salute, but Qin Tiange salutes him, which is his gratitude.

“Commander, you almost killed me.” Qin Tiange said unhappy to Chen Wu.

The latter looked puzzled and asked, “Why did I kill you, aren’t you good?”

“You don’t want to think about it, you are dead, can I order these more than one million officers and men?” Qin Tiange thought silently in his heart, naturally he wouldn’t say it clearly.

He shifted the topic and said, “At present, the guard area has fallen, and then our base is the next. This is the last defense. If we fall, the entire Shenzhen city will fall completely.”

“Commander, go and settle your officers and soldiers by the way, and help maintain the law and order inside the base. After all, there are suddenly surging millions of survivors. There will always be various problems. I don’t want to mess up inside the war.” He looked serious and made a request.

Chen Wu, with a serious face, did not quit, and immediately took his army down. He settled the wounded and maintained law and order, all relying on these soldiers to do his best.

After watching Chen Wu leave, Qin Tiange’s originally calm expression immediately dimmed, his eyes flickered continuously, it was not clear what he was thinking.

In fact, he was a little worried at the moment. He turned around and waved his hands to a group of high-level officials to come to the meeting immediately. This was the last secret meeting before the base civil war.

“The current situation is beyond our control.”

In the conference room, Qin Tiange reminded him solemnly. “Today, millions of survivors have poured into the base, and our major battle groups add up to about 100,000 people.”

“Moreover, Commander Chen Wu holds a million troops, which are all elite. The elite soldiers who can fight with their weapons are not comparable to us.”

This is the problem that Qin Tiange is most worried about. They originally developed base forces well, and the major battle groups add up to 100,000 people. However, with the influx of millions of survivors, many intensifiers exist. This is an unstable factor.

In addition, the fall of the security zone has led to the withdrawal of more than one million officers and men to the base. The entire base is overcrowded, completely crowded, and many problems have occurred in public order.

The most important thing is that Qin Tiange didn't know how to order these people to take part in the battle, how to consolidate the million survivors and the million officers and soldiers into a force to fight this calamity together.

“It's difficult!”

Zhuo Tianfan and others frowned and meditated. There was no good way, because they knew that identity mismatch was a problem.

Not a soldier, you can't be one with the soldiers, let alone order to lead the army, it is simply a delusion.

The army has an army system. Only high-level military personnel can order these troops. Otherwise, you cannot command these soldiers even if you are strong.

“Since everyone can't help it, that's it ...”

Seeing that everyone had no choice, Qin Tiange gritted his teeth and suddenly made a decision, which caused a group of high-level curiosity to come forward and listen carefully.

“Everyone remember, you must do what I say, first this way, then this way ...”

Qin Tiange whispered in the ears of a group of high-level executives and arranged the tasks little by little. After listening, they were stunned and looked at each other.

“Brother Zhuo, the first step is for you to preside.” Qin Tiange looked at Zhuo Tianfan seriously.

The latter looked dignified and nodded and said, “Yes, there are still a lot of retired soldiers in the team, let them do their best.”

“When the meeting is over, everyone will perform his or her own duties. We must keep in mind that we must inform our people in secret immediately. We must achieve unity. Whether or not we can really succeed depends on your performance.”

After Qin Tiange stood up, he looked seriously and looked at all the high-level officials present. Outsiders don't know what the senior officials of the base are discussing in secret. They only know that more and more zombies outside the base have begun to attack.

Out of the conference room, Qin Tiange hurriedly walked up to Lianhua Mountain, and quietly entered the underground secret base.

Chapter 263 - Super serum leaked

Underground base, biological research area, Qin Tiange came here and met Li Jiajia, a busy biological researcher.

“Boss, you happened to be here. There was a little accident in our biological research.” Li Jiajia said this when he came up.

She led Qin Tiange directly to a laboratory, pointed to a huge instrument broken inside, strewn some weird liquids everywhere, like blood but not like, exuding an extremely strong **** smell.

“What’s the matter?” Qin Tiange asked a pungent smell as soon as he arrived, strange.

Li Jiajia looked embarrassed and touched her glasses before she said, “Yes, we did experiments two days ago and wanted to synthesize super serum, but we didn’t expect a small accident during this period, which caused the experimental equipment to explode and lead to the synthesis. Super serum leaked. “

“Super serum?” Qin Tiange’s face changed slightly, and he felt faint.

Sure enough, Li Jiajia explained: “Super serum is a kind of artificially synthesized super blood. It is a super serum produced by cloning a blood sample of a mutant organism and genetically removing the bad gene chains.”

“Tell me directly, what’s the use of these super serums?” Qin Tiange’s face was not good-looking, and he vaguely guessed what.

Li Jiajia looked serious, she whispered: “Super serum has powerful gene repair ability, but it has a fatal flaw, which is a strong fatal temptation, especially a deadly attraction for bloodthirsty creatures.”

“That is to say, the sudden attack of hundreds of millions of zombies was caused by the leakage of these super serums?” Qin Tiange asked, looking blankly, looking at the bowed girl.

The latter nodded, did not speak, and did not dare to look at Qin Tiange’s face, because she knew that the biology and genetics had made a big disaster this time.

It is indeed a disaster, the leakage of super serum has no effect on humans and other species, but it has a fatal attraction to zombies, which has led to the endless crowd of zombies.

Qin Tiange pinched his eyebrows and felt a little depressed. He felt like he was rocking his own feet. He dared that the sudden advance attack of the zombies was the cause of the genome.

“Forget it, pay attention to your own experiments in the future.”

Qin Tiange said nothing, hurriedly turned and left, leaving Li Jiajia alone looking at the broken instrument in a daze, without being reprimanded and blamed, and without any encouragement, there was only one reminder.

He left the biological gene area in depression, hurried to the drug research area, and met Du Jing who was busy.

“Uncle, at present we have produced 30,000 cents and one star of hardened body preparations. There are not enough medicinal materials and manpower to make so much.” Du Jing saw Qin Tiange and directly said the pharmaceutical results here.

Thirty thousand points and one star hardening agent is already the limit of the entire production team, not only the shortage of medicinal materials, but also the shortage of manpower.

“Okay, I'll take these potions.” Qin Tiange took the 30,000-point star hardened potion in stock and turned to leave.

He didn't say a word, hurried to come, hurried to go, making Du Jing a little bit crying, but she knew it was a very difficult time.

Soon, he came to the Ministry of Science and Technology, where hundreds of old people were discussing intensively.

“Old gentlemen, what happened to my previous arrangements and plans?” Qin Tiange came and asked directly.

The old Wu headed the discussion and nodded and said, “The Trass coil you requested has already been produced and installed, and the entire base wall has been installed with these things. Fortunately, there are dozens of robots, otherwise this project simply cannot be done. It will be done shortly. “

“Also, within three kilometers of the base, three electric power pylons have been constructed in each of the four directions of the southeast and northwest, and super-intensity currents can erupt at any time.” Wu Lao said solemnly that Qin Tiange had already planned. .

Hearing that the plan was completed, the originally tense heart was finally completely relaxed, Qin Tiange smiled and bowed deeply to the old people.

“Thank you all, this difficult time is finally expected to pass.” Qin Tiange thanked him, and then left in a hurry, leaving a group of old men to continue fiercely discussing scientific knowledge.

Qin Tiange left the Ministry of Science and Technology and entered a high-level secret room.

“Master, I have missed you so much. You don't even come to see myself, and they are so boring.”

As soon as I stepped into the secret room, I heard my own grievance, and then looked at the computer screen. A cute half-man and half-fox appeared on it.

Qin Tiange shook his head and said earnestly: “Don't be serious, be serious, I have something for you and I need your help.”

“Master, please say that Jiji serves his host wholeheartedly.” Jiji converges and is serious.

Qin Tiange then asked, “Can you control the energy output device in the base now?”

“Yes, master!” Jiji answered seriously, saying, “The energy output of the entire base is controlled by Jiji, but Jiji cannot control those robots. Their intelligence is higher than that of Jiji, please be careful of the master.”

“A robot?” Qin Tiange frowned slightly, feeling a little upset. Those engineering robots were in trouble, and no one could invade their chips. One can imagine how high the intelligent defense level is.

“But the owner, this is a sub-system device that I have modified. Can I use this subsystem to connect with myself anytime, anywhere?” I suddenly pointed at a watch on the table.

This thing was what Qin Tiange entrusted to Jiji to study, and wanted to see if he could control those robots, but he failed.

However, Xunji implanted his own subsystem intelligence in it, so that Qin Tiange could contact the Xunji ontology intelligent system anytime and anywhere.

Qin Tiange brought his watch, said goodbye to his unwilling self-sacrifice, and went straight out of the underground secret base. There is nothing to help him through the current difficulties.

“Biological genetic research is a bit dangerous. It seems to pay attention.” Qin Tiange thought about this question while walking out of the underground base.

In this incident, most of them had accidental leakage of Li Jiajia’s production of super serum, which caused a huge corpse wave.

However, he knew that there would be a tide of corpses even if there was no leakage of the super serum, but it was only early.

This made him realize that biological gene technology is a very dangerous technology. If it is not good, it will cause huge disasters and losses.

Coming out of the underground base, Qin Tiange saw dense crowds of people who were crazily searching for and exchanging money in front of the heritage stele.

The corpse tide is about to attack, and some survivors who have just arrived at this base are immediately excited to hear that there is a stone stele here.

“That’s great. I finally redeemed my storage gear.”

A burly man danced with excitement and redeemed a storage ring. There were many others like him.

They are all survivors, killing the zombies and collecting the crystal nuclei. After coming here, they can finally be useful.

Everyone was crazy about redemption, but Qin Tiange was helpless. He shook his head and turned away from here. He found the little fairy in Taolin and made some orders and arrangements.

After that, he hurried out of the Lotus Mountain and returned to the conference room, inviting busy core personnel such as Zhuo Tianfan.

“Distribute these potions to their respective teams, improve their strength, and hope to survive the next war.”

Qin Tiange had no nonsense, and directly divided the thirty thousand points and one star quenching agent, which surprised a group of people present.

“Boss We have been promoted to two stars. After the assessment, we will not use these potions, so we will give all of them.” He was promoted to two stars the day before yesterday and passed the assessment.

No wonder, Nie Teng was wearing a different armor and weapon at the moment. He turned out to have been awarded an assessment reward, but I don't know what other rewards?

“Are there any physical rewards?” Qin Tiange asked in silence.

Nie Teng, Li Zhi, Yang Xiaolin, Liu Ye, Li Weiwei and others shook their heads, saying that there is no so-called physical reward at all, only some weapons and equipment.

Despite disappointment, Qin Tiange didn't say much and was about to continue speaking, but saw a soldier rushing in.

“Brother Qin, the corps is about to attack.” The man came out with this amazing news.

The corpse is about to attack!

“Are you here?” Qin Tiange murmured and stood up, looking solemn, shouting, “You all, act now as planned, and start.”

Chapter 264 - Remnants of Chess, National Anthem, Burning War

On the wall of the base, Qin Tiange and others came here, standing high, looking at more and more zombies outside the base.

“These zombies ...” Looking at the densely packed zombies outside, a group of high-rises were shocked.

They saw that the zombies gathered outside the base formed a relatively neat formation, and even some zombies had weapons in their hands.

Yes, zombies with weapons are giant zombies that are huge, five meters high, carrying huge steel pipes one by one.

“Zombies are learning.” Qin Tiange looked dignified, staring at the corpses gathered thousands of meters away from the city gate, and slowly walked in, maintaining the formation, like an army.

He understood that this was the learning of zombies. As the zombies continued to evolve, some special zombies became the leader of zombies, leading a group of zombies.

Moreover, the most terrible thing is that these zombies have simple consciousness and thinking ability, and gradually learn, such as the conscious gathering of zombies now, forming an army-like scale.

“Trouble is big.” Commander Chen Wu who walked up looked ugly beside him. Observers continued to move towards this side. One queue after another seemed a little scattered, but it was a real terrible progress.

If zombie evolution learns like the human army, then it will be a great enemy of humans.

A species that knows how to learn and progress is the most terrible. Zombies have no self-awareness, but as they continue to evolve, they gradually develop new consciousness and wisdom.

Take a look outside the base, a squad of zombies, although still scattered, is definitely not a good sign.

“Will zombies also learn?” Nie Teng and others changed their expressions and felt that things were big.

Like a group of senior military officers next to Commander Chen Wu, he looked ugly and had a deep understanding of the zombie society for the first time.

Not only did you learn to use weapons, but you also learned how to gather together, move forward neatly, and launch offensive effects.

“Zombies are here.”

“Can it be held here?”

At this moment, dozens of millions of survivors inside the base were flustered and a little disturbed, especially the survivors who had evacuated from the guard area.

The fall of the guard zone is their experience. Now they are facing it again. It is unclear whether this base can be kept. What will be their future destiny?

“go!”

Qin Tiange turned and walked directly down the city wall. He brought a group of high-level leaders to the central square of the base, in front of the huge assessment stone.

Here, a huge flagpole was erected up to 100 meters high, which was a flagpole Qin Tiange had ordered to make.

Countless people came to hear the news, crowds in the square, hundreds of thousands of people packed the entire square, all watching the sudden appearance of Qin Tiange and others.

“Raise the flag!”

Suddenly, Qin Tiange turned around, stood in front of the assessment stone, looked serious, and gave an order with a loud scream. It was unclear why the commander Chen Wu was beside him.

Well, why did Qin Tiange suddenly raise the flag? When everyone was confused, he saw the central square of the base, and a guard of honor appeared slowly and neatly.

The first veteran, holding in his hands a neatly stacked red flag, was a national flag stained with blood.

“Myself, open all the eye expanders in the base.”

Raising his wrist quietly, Qin Tiange whispered something to a watch-like thing, and then, Jiji immediately opened the eye-opening device installed in the entire base.

The guard of honor arrived, and the eighteen people wore neat guards of honor guards. They did not understand where Zhuo Tianfan got these things, anyway, he looked neat and capable.

“Raise the national flag and play the national anthem!”

Suddenly, a crisp sound came from the base, spreading throughout the base, waking up the base, or millions of people who didn’t know why, stopped together.

A five-star red flag rose against the wind, slowly rising, the broken national flag, stained with black and red blood, was more solemn and sacred.

“Get up, people who do not want to be slaves, cast our flesh and blood into our new Great Wall, the Chinese nation has arrived, the most dangerous time ...”

At this time, several surrounding teams suddenly and neatly sang the national anthem, the sacred national flag, and the solemn national anthem, which could not help making people feel a fiery blood.

Commander Chen Wu froze, instinctively stood up, raised his hand to salute the national flag, his face was solemn, watching the sacred and mutilated national flag rise, he couldn’t help singing the national anthem.

“salute!”

Suddenly, millions of people in the entire base stopped together and heard a salute. Immediately, among the crowd, soldiers stood neatly and uniformly, facing the side rising slowly in the center of the base. Flag saluting.

Millions of soldiers, almost instantly, made instinctive moves, stood upright, saluting the flag.

Immediately after, millions of soldiers sang the national anthem in unison, their voices were neat and loud, and the earth was shaking. With the intention of controlling the sound reinforcement equipment, everyone in the base heard it.

Millions of people sing the national anthem at the same time. What is that scene? Inside the base, some retired soldiers and some veterans went through one after another, singing the national anthem.

Gradually, more and more ordinary people joined, one by one solemn staring at the rising national flags, slowly singing the national anthem.

In the end, the entire base, men, women, and children, sang the national anthem at this moment, and all of them suddenly calmed down.

The people who were scared of the matter suddenly became hot, and their hearts were tumbling with hot blood, and they continued to boil. With the singing of the national anthem, their mental appearances changed.

The flesh was boiling, countless people sang and sang and opened their throats, shouting their inner fears, and shouting their own inner timidity. Suddenly, everyone in the entire base seemed extremely uniform.

“The momentum is condensed, the people gather, and the battle is won!”

Listening to the roar from the four sides of the entire base, Qin Tiange’s mouth smiled inexplicably, watching countless people singing the national anthem, and more than two million people sang at the same time. The sound pierced the clouds and shocked the outside. Slowly approaching zombies.

Next, Commander Chen Wu’s eyes moved, and his delicate flicker kept flashing. Looking at the young man, he suddenly felt a glowing light shining all over him.

“It’s old, it looks like it’s time to retreat.” Chen Wu looked with emotion and looked at the millions of military and civilian choruses around him. Driven by the solemn and sacred national anthem, everyone’s hearts seemed to condense at this moment. , Billowing into the sky.

The horrible momentum of that kind of people, Tai Shan moved, is that Commander Chen Wu has never seen it, this time it was an eye-opener.

He did not expect that Qin Tiange would come up with such a thing, and directly used the national flag, the national anthem to drive all the military and civilians in the entire base, up and down, and temporarily condensed into a group.

The national flag slowly climbed to the top, and the top of the 100-meter-high flagpole hunted against the wind, exuding a solemn and sacred breath.

As the national anthem was sung, everyone stood silently, looking up at the flagpole one meter higher than the assessment stone, and a broken five-star red flag at the top fluttered upwind.

Suddenly, Qin Tiange embarked on the flag-raising platform, awakened countless people, and brushed his eyes together.

“My name is Qin Tiange, and I am the founder of this base. At present, the enemy, I begged you as the creator of the base. It is a man who took me arms to fight and defend the base.”

Huh!

Qin Tiange said, pulling out a bronze sword, the sword pointed directly at the sky, and his breath broke out at this moment, killing and frightening.

“People are here!”

Suddenly, a roar spread throughout the base, and a roar of Qin Tiange almost detonated the blood of countless officers and men.

“People are in the flag! People are in the flag!”

Along with Qin Tiange’s roar, in the crowd, a number of huge teams ripped their throats and shouted, as if specially trained.

That was the battle group of Nie Teng and others. Holding up their weapons one by one, they shouted in unison. At the moment, it caused the inner resonance of millions of officers and soldiers, and they couldn’t help roaring up their respective weapons.

The national flag is paramount in the minds of soldiers inviolable and has extraordinary significance.

At this moment, Qin Tiange’s “people are in the flag” completely ignited the war intentions of millions of soldiers, and even resonated with all the survivors, feeling only blood.

“war!”

Seeing that, Qin Tiange yelled, his body jumped up, and saw a white figure rushing forward, catching him steadily.

It was a white tiger. Qin Tiange rode the white tiger and carried a large halberd, and rushed to the city wall. The base was still echoing the word “battle” full of killing.

“Battle! Battle! Battle!”

A million elite troops moved, and almost without the command of Chen Wu, the commander directly picked up the weapon and rushed to the wall around the base to participate in the battle.

“This boy, it seems that I really want to retire ...” Commander Chen Wu smiled bitterly, watching millions of soldiers and civilians respond directly to his combat orders, feeling a sense of loss in his heart, and a touch of relief.

Military and civilian unity, up and down, this battle will win!

Chapter 265 - Central decision

In Beijing, China’s highest military command center, a group of generals stood silently watching on a large screen.

“Head, this is the image from the latest detection of the drone.” A correspondent pointed at the screen and introduced it.

I saw that the video playing on the screen was exactly the scene taken by the drone. A huge steel base with a wall of 50 meters high.

Outside the base, dense crowds of zombies, like an army of zombies, swarmed neatly towards the base.

It was the Lianhua Mountain Base in Shenzhen City, which was filmed and transmitted back to Beijing by an unmanned reconnaissance plane, so that these top Chinese military generals could see it.

“What do you think?”

Inside a group of generals, a general who was over fifty, led by a general who spoke lightly, had a Chinese character face, was not angry, and had a decisive battlefield temperament.

He is currently the supreme general of the Central Army of the Huaxia Capital, General Chen Guodong, and general military defense of the capital.

“The chief, the old Chen of the Shenzhen Municipal Security District, has already sent a message by telegram, referring to this base, and seeing that the situation is really unusual.” A 50-year-old veteran general frowned.

Numerous generals looked at the screen, and dense zombies launched an attack. On the base side, the wall was full of people, and a fighting team entered the battle.

This is a zombies besieged by a drone on the scene, so that many generals present at the scene look serious, watching the screen on the screen.

“Lao Xia, what do you think of that young man?” Chen Guodong suddenly turned back and asked an old man next to him.

At this time, an old man who was not talking next looked up and looked at the screen. The particularly prominent white figure was a white tiger. It was Qin Tiange who was riding on the white tiger.

The old man was wearing a military uniform, wearing a vicissitudes of his face, his eyes were shining brightly, and his spirit was full of energy. He was the deputy chief of the military of Beijing and Lieutenant General Xia Ming.

“Qin Tiange, male, 22 years old, grew up in an orphanage since he was a child, and graduated from junior high school ...”

A piece of information was read out, and it was all Qin Tiange’s detailed information. It was collected from the national population database and found.

The level of detail, even what has been done, is clearly documented. A very ordinary person has made Huaxia Supreme General frown.

At this point, only listening to Lieutenant General Xia Ming said gently, “This young man is not easy. He can build such a huge base in a short period of time. It can be said that I was surprised.”

“Then what do you think of the young man’s request?” Chen Guodong asked the chief counselor in a serious tone.

Xia Ming shook his head gently and said, “I don’t see any intention on him. He said it was closer to us, but no one knows what the young man who rises from the troubled world really thinks.”

“It’s good to have this kind of heart!” Chen Guodong smiled lightly: “At least he doesn’t exclude us. Today’s world is weird and changeable. We need such young people to set an example.”

“But his request is a general, isn’t he on an equal footing with Lao Chen? Is his ambition a bit bigger? It wouldn’t be great if he had a white-eyed wolf.” Chief Counselor Xia Ming had a different opinion.

He had read the secret telegram from Chen Wu, which clearly informed the situation in Shenzhen City, and also briefly mentioned Qin Tiange’s affairs. The most important thing was to attach a request from Qin Tiange.

What request? Just to have a high-ranking general rank, and to open up to be a general, naturally make the Beijing Central Military senior level somewhat dissatisfied.

A frivolous kid in your area, who was so out of breath that he admired the admiral. Is it really your high-level military army here?

Chen Guodong pointed at the screen and said, “Take a closer look. Think about what he said just now, and look at the 1.5 million officers and soldiers and more than 1 million survivors in the base now. Look at them at this moment. You’ll know how well it performs. “

The generals looked carefully, recalling the earth-shattering roar just now, and the slogan “People are in the flag”, as if they were taking an oath.

That’s right, the “people are in the flag” just now is an oath. The deceased defends the dignity of the country, and the national flag is the face and dignity of a country.

An ordinary person took this oath. What about the 1.5 million officers and men? As Chinese soldiers, they have their own honor and mission, and they have their own pride.

You ordinary people can swear to defend the national flag in this way. Then, how can they as soldiers stand behind themselves, so that all soldiers are inspired by the will to fight desperately, just for that broken flag? inverted.

“He wants to control the army. The young man’s heart is very big, but he has this ability. The only thing he lacks is an orthodox military identity.” Chen Guodong murmured this sentence. , Basically guessed Qin Tiange’s idea.

Xia Minghuoer was startled, and said suddenly: “No wonder he spoke to the rank of general, and it was also the orthodox general who was directly conferred by the Central Military Commission, and can really command the army.”

“The 1.5 million soldiers who should have been laid off were what he proposed to take over. This young man seems to have a plan, and we must take this person seriously.” Chen Guodong said his thoughts and understanding.

Qin Tiange, who has risen from the beginning of the last days, has built a huge base in a short period of time, and it can be said that he must have some excellence.

“So, the seal?” Xia Ming felt uneasy in his heart.

Huaxia has never had such an interim appointment. It is not an exaggeration to even temporarily order the generals.

Once the Central Military Commission agrees to the candidacy, then Qin Tiange is a true Chinese military general and senior general.

“Seal!” Chen Guodong directly clapped the board. He said: “We need such talents, not only to seal, but also to send a transport aircraft to parachute a batch of weapons and equipment to support Shenzhen.”

“By the way, let Lao Chen look at the young man over there as an observation and guidance.” Chen Guodong made a decision.

Soon after the order was issued, a large transport plane at the Beijing Air Force Airport immediately took off and headed towards Shenzhen.

The plane was filled with a large number of weapons and ammunition supplies. It was Beijing’s aid to Shenzhen City, and there was a book order mandate letter directly under the Central Military Commission.

...

Countless zombie siege in Shenzhen City, Lotus Mountain Base.

Howl ... oh!

The corpses fluttered and roared wildly, and one zombie rushed towards the city wall, trying to fold the corpse wall to climb up to the 50-meter-high steel city wall.

However, they were greeted by dense bullets and bows and arrows, and a base defense battle thus began, and the war began.

Just ten minutes into the battle, the 50-meter-high wall was climbed up by countless zombies and zombies, and the zombies piled up into a channel and rushed to the base.

boom!

Qin Tiange was holding a white tiger, and a halberd swept away several zombies, and suddenly his eyes caught a small shadow flying overhead.

Ok?

At this point, Qin Tiange, who was riding a white tiger, suddenly felt his head and saw a small unmanned reconnaissance plane flying over his head, attracting his attention.

Take a closer look at that is the unmanned reconnaissance aircraft of the Huaxia military. Qin Tiange thought for a moment, and immediately understood the origin of the drone.

“Is the unmanned reconnaissance aircraft directly under the military from the Central Capital?” Qin Tiange looked at the unmanned reconnaissance aircraft constantly hovering above him, and couldn’t help guessing its origin.

As if I found Qin Tiange seeing the drone, the hovering drone suddenly made a dive posture, flew directly to Qin Tiange’s head ten meters, hovered hovering, and turned twice, as if in greet.

“Oh, is that the one in Beijing?” Qin Tiange smiled, waved his hand at the drone’s shooting screen, and saluted a standard military salute.

The capital, command center, Chen Guodong, Xia Ming and other veterans were surprised, looking at Qin Tiange, who saluted them, one by one on the screen.

“A very interesting young man, Lao Chen, your granddaughter is blessed.” Xia Ming whispered a sudden smile.

Chen Guodong’s face remained unchanged and he didn’t say anything, but the smile at the corner of his mouth couldn’t help revealing it. Looking across the screen, he looked at the young man quietly, thinking of his granddaughter who was working hard in the maritime market. A person.

Chapter 266 - Airdrops, letters of appointment

Roar!

Thousands of zombies came flooding under the city wall, stepping on the corpse wall, laying a passageway up to 50 meters high, so that the zombies rushed up.

Zombies are also advancing. They are learning. The city walls may not be able to stop them. The guard zone is in this situation.

“Blast the corpse wall!”

Chen Wu’s face changed slightly, and he saw this again, and immediately ordered a large number of officers and soldiers at the location of the city wall to blow up these stacked corpse walls with bombs and grenades.

Boom boom ...

As the grenades exploded, the minced meat flew across, and the flames exploded, and a huge corpse wall was blown open and broken.

Unfortunately, countless zombies rushed up after the bombed section, and continued to be stacked into a corpse wall to supply the zombies behind.

At the east gate of the base, Qin Tiange rides a white tiger with a dignified expression, watching more and more ordinary zombies stacked into a corpse wall, filling the 50-meter-high steel city walls.

Each zombies stepped on the same kind and stacked together, forming a terrible wave-like attack, surging and endless.

“kill!”

Qin Tiange Li Xiao, the halberd swept, smashed the zombies rushed up, guarded this wall of the wall, surrounded by dense crowds of figures, wielding a sword to start hand-to-hand combat.

Only some soldiers used guns to shoot and killed only one zombies. Unfortunately, they faced the endless tide of zombies like tide, and everyone felt the pressure.

“Boss, I can’t stand it. The wall over there is about to fall.”

Soon, a soldier rushed in, blood stained, and a lot of rancid meat hanging on his body, looking very embarrassed.

Qin Tiange looked up and saw that a section of the city wall was about to collapse and was impacted by numerous zombies. A team that resisted there and some organized teams were about to fall apart.

“Order the garrison, rockets, explosives, grenades, and use them all, blow up the corpse wall, dead camp, and kill me.”

Qin Tiange gave this order, and then rushed to that area on his own, riding a white tiger, and Euphorbia whistled, slamming down, and instantly killed several zombies.

He brought three thousand dead men to death, and after a fight, he finally killed the surviving zombies. Finally, he used a plasma bomb to blow up the stacked corpse wall and blocked a corpse from rushing up.

“Nie Teng, hold here, I’ll look elsewhere.”

Qin Tiange dropped this sentence and drove Bai Hu to leave directly. He ran across the city wall and immediately stepped forward to support when he saw the dangerous place.

Three thousand dead men became a fire-fighting team. They went wherever they were in danger. As a result, the soldiers in the entire dead men’s camp were almost tired after half an hour.

Seeing this, Qin Tiange felt that this would not work, and he must think of a way.

“Look, boss, there is a plane!”

Suddenly, Li Weiwei looked up and pointed at a distant sky. A large plane was flying over here.

Qin Tiange was surprised. At a glance, he saw that it was a large military transport plane. Needless to say, it must be the transport plane sent by Beijing.

Sure enough, as the large transport plane approached the sky above the base, it suddenly opened the lower belly cabin, and huge boxes were thrown down.

The boxes were huge and quickly dropped from the air. At midair, they opened the parachute and slowly descended into the base.

“Airdrops from Beijing.” Qin Tiange murmured, suddenly expecting something in his heart, it seems that the situation in Beijing has stabilized, otherwise no such source of air investment will come.

At this time, Commander Chen Wu also found these batches of airdrops, full of thirty huge boxes, and slowly landed inside the base.

Soon, a small team immediately collected these materials and carried them to Qin Tiange, opening them one by one.

“It’s weapons and ammunition, Commander Chen, immediately change clothes.” Qin Tiange said nothing, and directly changed clothes to Chen Wu, who was walking quickly.

He waved his hand without hesitation, and immediately a large number of soldiers came up to receive these weapons and ammunition, and immediately cast them into various troops to support the defense.

“This is a document of the Central Military Commission.”

Soon, Chen Wu found a document in a special box, a special appointment document from the Central Military Commission.

“Here is a set of military uniforms. Alas, your boy, do you know someone from the central government? Otherwise, how can you airdrop materials and appointments all at once? This is the first time.” Commander Chen Wu was somewhat surprised.

He was surprised by himself. He didn’t expect that the Central Military Department actually agreed to Qin Tiange’s request, directly sealed it, or sealed it on the spot, and brought a batch of airdrops.

“Appointed Qin Tiange as Deputy Commander of the Shenzhen Municipal Security District of the Ministry of Defense of China, with the rank of General and the assistance of Commander Chen Wu to lead the Shenzhen military and civilians to resist the doomsday crisis.”

A red document was signed directly by the Central Military Department, which directly seized Qin Tiange as a senior Chinese general and led the military and civilians in Shenzhen. This was considered as a base that recognized Qin Tiange.

The central documents came at the right time. After reading the documents, Qin Tiange directly picked up the temporarily prepared military uniforms and replaced them without any regard.

“Your boy, it ’s really different to put on military uniforms.” Chen Wu watched the new military uniforms and personally put him on the rank of General Admiral.

This is a life-long system. It enjoys all the benefits of the Huaxia military system and has military positions with real power. It can be said that Qin Tiange’s plan has been realized.

“Thank you, Mr. Chen, the Central Committee was in danger, and I naturally did everything I could to fulfill my due diligence, and I will not lose the face of this military uniform.” Qin Tiange looked serious and directly promised.

After he finished speaking, riding a white tiger and running all the way, he quickly circled a large circle above the base wall and issued a new combat order.

This time, Qin Tiange could justify his orders to the three armies. There would be no more soldiers who would not listen to the orders. With the book appointment on the central system, he was General Huaxia.

“I hope I read the right person.” Commander Chen Wu looked at Qin Tiange’s back and murmured something.

He read countless people, but just couldn't see through the young man Qin Tiange, he always felt that there was a fog blocking it.

Not only him, but Chen Guodong, who was far away from the center, looked at the screen in front of him and muttered to himself. This decision can be said to be a great determination.

“At the end of the day, the heroes are coming together, ambitious people are about to move, the mountains and rivers are discolored, and the nation is alive. Can my Chinese nation pass this test?” Chen Guodong was fascinated and muttered such a sentence.

In the context of the last days, it is the best time to test the entire Chinese army and civilians, whether you are a hero whatever you are, the poor, or the powerful, you will face a huge test and choice.

Is it ambitious to keep splitting and seize the king, or is it insisting on military and civilian unity and national unity? In the minds of every Huaxia child, there is such a choice, just like at this moment, Qin Tiange made his own choice, and Chen Guodong also made his choice.

Qin Tiange's approach is to start, Chen Guodong saw the current crisis, and even saw Qin Tiange's ability, this is the only attempt.

“Myself, activate the electromagnetic energy gun to recharge, aim at the corpse wall and destroy me.”

At this moment, Qin Tiange stood in front of the electromagnetic energy turret, and said this sentence to the wrist watch gently.

“Master, the charging of the electromagnetic gun is complete!” Immediately, the artificial intelligence of the underground base received the information, and immediately activated the charging of the electromagnetic energy gun. Endless electrical energy gathered at the muzzle, emitting terrifying electric light.

“Fire!”

With an order, the electromagnetic energy cannon fired, firing the first electromagnetic energy bomb, and instantly hitting a huge corpse wall.

Chapter 267 - Electromagnetic gun power

boom!

With a loud noise, the ground slightly vibrated, and endless electromagnetic energy exploded, blowing up hundreds of zombies, and hundreds of zombies were powdered on the spot.

A corpse wall collapsed on the spot, and many zombies were flooded with plasma, all black and screaming.

“My God, what weapon is that?”

Everyone who saw this scene on the city wall, regardless of the military and civilians, was stunned by the power of that artillery.

After a blast, thousands of zombies were scrapped on the spot and turned into powder. Hundreds of zombies were severely wounded, blackened, and sent a mourn, which has been abandoned.

The stump of the stump fluttered everywhere, the electromagnetic light jumped, and it went off for a long time. The power of electromagnetic energy cannons shocked the world and boosted the morale of countless resistance soldiers and civilians on the city walls.

“Electromagnetic energy cannon, that’s an electromagnetic energy cannon. That’s great. The base has this big killer!” Some young survivors jumped up with excitement.

They can see that this thing is the super weapon in the science fiction world, the electromagnetic energy cannon, the power is huge, the lethality is extremely horrible.

boom!

Another explosion of electromagnetic energy exploded, blasting a corpse wall, smashing thousands of zombies on the spot, lifting this wall of crisis and inspiring people.

The roar of electromagnetic energy cannons not only aroused the excitement and cheers of the people in this area, but also the attention of all the personnel who participated in the war at the entire base.

“Electromagnetic energy gun, this kid really has this killer.” Commander Chen Wu said with a look of surprise.

He carried a sword and led an elite army to defend a section of the city wall. He saw the moment when the electromagnetic energy gun fired, and it was terrifying.

“Brothers, kill!”

Many people roared, waved their weapons, and slashed the zombies that rushed up, even driving the zombies off the wall.

Outside, a pair of zombie walls stacked on top of each other were bombarded by electromagnetic energy cannons, which completely dismantled the danger of the base.

The electromagnetic energy cannon, which has no dead angles of 360 degrees, can bomb any point around the base. As long as there is danger, the artificial intelligence gun will immediately fire on that side.

With endless energy supply, this electromagnetic energy cannon is like a horrible killer. It keeps roaring and roaring constantly, blasting a large number of zombies over and over.

Seeing this, all those who are afraid are completely quiet, one by one with high morale, and the sound of shouting is deafening.

With such a powerful weapon guarding the base, everyone was assured that they let go of their hands one by one, and all the zombies who rushed into the wall were hacked without exception.

Of course, the base also suffered great casualties. The elite officers and soldiers were okay. Ordinary people were a little messy, or they were accidentally struck and killed by zombies.

Blood, stained the city walls, the outside of the steel wall was covered with countless pieces of r, black blood was poured out, and the pungent stench radiated, but no one cared.

This war is a matter for everyone in the entire base. Most of the young men participated in the battle, while the women transported supplies under the city walls to treat the wounded.

The old man took care of the children and hid in the base defense facilities. They would not come out, but there were still some young teams who did not participate in the battle.

“Li Wei, I will record in detail all the young people who have not participated in the war. I will be liquidated after the war.”

On the city wall, Qin Tiange rode a white tiger and looked down at the base. Many young survivors did not participate in the battle, but hid in the base and refused to go to the wall to participate in the battle.

Whether it's fear, don't worry about it. In short, after this war, these non-participants will be liquidated.

“Yes!” Li Weiwei chopped a zombie's head, and didn't answer back, with three thousand dead men closely following Qin Tiange around and supporting all parties.

As Qin Tiange was truly admired, his status was sufficient to lead all the soldiers here, so he ordered those soldiers to obey.

Soldiers are obedient to obey orders. Now that Qin Tiange has been promoted by the Central Military Department, his detailed identity information is already in the military system. He is already one of the Chinese generals, and is naturally a high-level military official.

“General, there are more and more zombies. Even if there are electromagnetic guns, there is no way to support them. Let us kill them.”

At this time, a lieutenant rushed up, and after saluting, he immediately proposed this and asked the team to kill them and clear the zombies outside the city wall. Sooner or later they would be broken.

Looking at the lieutenant's face with absolute determination, as if he was dead, willing to lead the army to take risks, it was tantamount to a death squad.

This is to sacrifice themselves for the safety of the base, to risk their lives to clean up the zombies outside the city walls, and to find ways to blow up the accumulated zombies.

“No!” Qin Tiange didn't want to refuse, joking, he managed to find this level of identity, these soldiers are the strongest and most powerful force in the base in the future. As long as they are properly trained, they can become the most powerful. The Legion is not overstated.

Moreover, he asked the more than one million soldiers to have a more important plan, naturally he refused to let them sacrifice too much, that would be his loss.

Since the capture of the Central Committee, Qin Tiange has regarded this one million soldiers as his own legion. How can he let them die?

“Hold it up, the war has just begun. Are you as if you were dying of your country?” Qin Tiange snapped and drove Bai Hu directly to kill him.

Roar!

The zombies roared and rushed up the city wall, but were protected and bumped out, incidentally swept by Qin Tiange’s halberd, killing dozens of zombies.

These are ordinary zombies. The powerful zombies did not rush up, but watched silently in the corpse, not only roaring, commanding the corpses to rush up frantically.

Qin Tiange naturally knew the purpose of these zombies, that is, to fill the 50-meter-high wall completely with countless zombies.

Use the body of the zombies to completely fill the 50-meter-high steel city wall, so that the army behind the zombies can attack aggressively.

“Come on, as many as possible!”

Wielding the Euphorbia, Qin Tiange slashed the zombies rushing up, while watching the zombies gathered outside with a smirk.

He didn’t seem to be worried at all, and he seemed to be in a good mood, which affected the nearby combat teams to a certain extent, boosting morale and slashing wildly.

The killings are taking place, the **** assassination, the first huge battle between zombies and humans begins.

In the entire Shenzhen City, almost all the zombies above the sixth floor came, and there were countless zombies rushing behind. There was a momentum to completely drown this base.

“what...”

The screams kept coming on the city walls, and many people were killed and bitten by the zombies, and even some people were pulled into the walls by the zombies and were directly torn by the corpses.

In the air, an unmanned reconnaissance aircraft has been hovering, transmitting the tragic battle situation here to the Beijing headquarters.

“Can you survive it?”

Beijing, the Central Military Command, Chen Guodong looked serious, looking at the fierce killing on the screen, anxious to go to support now.

Unfortunately, that was a dream. The fighters in the Beijing military airport could not support it, because Beijing was also not peaceful.

“Zhenshi’s zombies are weird. It seems like they have gone mad, and it is necessary to put an end to that base. It seems to have an unusual atmosphere.” Xia Ming solemnly raised his guess.

Among a group of senior generals, most of them were originally against the candid Qin Tiange ordinary young boy, and now when they saw that the base was about to be drowned by countless zombies, they could not help but feel a chill.

“You see, that wall is about to fall.”

Suddenly, Chen Guodong was pointing at a section of the wall taken on the screen. From a high altitude, the wall was flooded by countless zombies, including many huge zombies.

These zombies all held weapons and quietly killed them directly in the corpse. As a result, they were caught off guard by this and couldn't hold it on the spot.

“Did Shenzhen City become the first city to be doomed?”

At the command center, many people looked ugly, looking at more and more zombies that flooded the city walls. The iron and steel city walls were declared broken and the defense was broken.

Shenzhen City, is it really doomed to fall and fall?

No, Qin Tiange is not so easy to lose, he still has a hole card. Seeing the fall of the base wall, he knew that the defense was at its limit.

“Myself, start the device and energize the Teras coil.”

Qin Tiange looked serious, and gave an order to his own self. Instantly, the entire base of the city wall suddenly burst into a burst of electric light, sparks splattered, and turned into a large number of lightnings.

“That is?”

The command center, Chen Guodong, Xia Ming and other senior generals were shocked. With the scene shot by the drone in the sky, everyone was shocked.

Chapter 268 - Shock, artificial lightning

Around the walls of the base, suddenly a terrible electric arc lit up, more and more, more and more bright, making a terrible crackling sound.

It was a high-voltage lightning, a type of artificial lightning, with millions of volts of current, forming a large network of lightning, covering the entire thirty-meter area around the base.

Boom

Lightning roared, drowning those zombies, and numerous high-voltage currents raged, turning each zombies into coke on the spot.

The pungent odor spread, making it unbearable. On the city wall, everyone retreated in horror, watching the sudden emergence of numerous high-voltage currents, staggered one after another, and turned into beautiful lightnings that wrapped the entire base.

“Oh my God!”

Everyone was stunned, watching the 30-meter lightning zone that suddenly appeared outside the base, completely covering all the zombies in that area.

The millions of volts of high-voltage current and powerful destructive force directly destroyed the zombie defense, turning a large number of zombie electricity into coke, and sparked terrible sparks.

Bang bang bang

Lightning raged, constantly coiling back and forth in the zombies, hitting the zombies' body, causing horrific killings, either being broken into pieces or being turned into coke by electricity.

For a while, the shouting of the entire base stopped, and everyone stood back, watching such a shocking scene from afar.

"Tlass coil, artificial lightning" Chen Wu muttered to himself, such a word came up in his head, and knew the reason for all this.

It was Qin Tiange's long-awaited installation of Teras coils by scientific and technological personnel, which provided infinite electrical energy from endless energy, converted it into horrific lightning, and smashed countless zombies outside the city walls.

Lightning intertwined, like a protective net, firmly guarding the area 30 meters outside the wall of the base, and all the zombies were electrofocused.

"Tlasz Lightning Circle, they actually made this thing, and applied it to the base defense first, incredible!"

"But where do they get the power supply?"

In Beijing, the headquarters, everyone was stunned, watching the shocking scene shot from a high altitude on the screen, a huge circle of lightning, firmly covering the entire base.

These lightnings did not hurt anyone inside the base, only the area 30 meters outside the base was a terrible lightning strike area.

The picture taken from a high altitude was extremely shocking, and everyone in the capital headquarters saw this scene stunned.

In particular, some technicians are even more shocked. This kind of thing must rely on strong electrical energy to convert into high-voltage lightning. However, after the end, the power grid is completely paralyzed. Where does the electrical energy come from?

Seeing this, many scientific and technological personnel in Beijing were immediately excited and saw some hidden mysteries. The Lotus Mountain Base has a powerful energy supply.

"Head, we must find out the source of energy supply for this base, which is absolutely important to us." An old researcher proposed with excitement.

Indeed, if the Lotus Mountain base really has an energy supply system, then this powerful new energy is definitely the most urgent need of Beijing.

With energy, more weapon systems can be restored, so Chen Guodong realized the importance of the matter and immediately made an order.

“Immediately send a small team, **** the commissioner, and arrive in Shenzhen by special military aircraft. Be sure to talk to the new general and figure out where their energy comes from.”

He issued the order, sent someone to the base there, and wanted to talk to Qin Tiange, a new admiral, and see if there was any new energy.

Everyone feels that they are inseparable from each other. They can supply the energy requirements of electromagnetic energy cannons, and they have built such a large Truss Lightning Defense Circle. There is definitely a new and powerful energy system.

Roar!

At this time, countless zombies became coke on the periphery of the base, and the piled up corpse wall passages were crushed and disintegrated.

With the roar of lightning, the area 30 meters outside the base wall was completely emptied, and many zombies were turned into powder, which was completely burned into ashes by lightning.

“Yanji, it’s okay!” Quietly ordered, and the raging lightning outside the base wall suddenly disappeared.

Qin Tiange asked his self to stop the power supply, the lightning disappeared, exposing a scorched scene outside, the ground was broken, and it was all turned into coke.

The thick smoke was rolling and the pungent scorch was unbearable. If I had not seen a black zombie body turned into this, I really don’t believe the shocking scene I just saw.

“Battles, come back and get ready to fight!”

Qin Tiange waved his halberd, riding a white tiger, and rushed across the city wall with a sound command to wake up those combatants in a daze.

No matter whether it is a soldier or an ordinary person, it has been too shocking to wake up from the shock of artificial lightning.

“Why don’t you start with such a defensive weapon?”

Some people couldn’t help whispering, feeling upset, and looking at the disappearing lightning defense circle, many people were very uncomfortable.

Why is this thing not used? Many people have begun to complain about Qin Tiange, especially those survivors who participated in the war. The loss of each team is not small, and it is naturally unhappy.

Unfortunately, they are useless, Qin Tiange does not need it, because he needs this battle to run through the major teams in the entire base.

Regardless of the military and civilians, they must run through the baptism of war in order to achieve true coordination and perfect cooperation.

If it was used in the beginning, there would be no chance for them to get close to each other. How can they sharpen and cooperate, and how can they completely control the entire base?

Qin Tiange needs people to gather together, sacrifice is inevitable, die a part, sharpen the entire base, and grind into a complete individual is what he wants.

As for the sacrifice, he could only say sorry in his heart. There was no death. How did he get a new life?

“Howling!”

Outside the base, the densely packed corpses stopped, and among them, some particularly burly giant zombies roared horribly at the base, showing a rage.

Yes, angry, those zombies led the corpses, watching the countless men who were turned into coke naturally angry.

Unfortunately, their anger is useless, and they can only drive the corpses to continue their crazy attacks, and rush out on the blackened corpses.

“kill!”

Looking at the zombies that surged up again, Qin Tiange Li Xiao, took the lead in killing the white tiger, and fiercely slashed against the zombies stacked in the corpse wall.

Around, a team returned to its original position, continued to defend, the killing was still under way, and the **** killing had just begun.

In order to sharpen all the people in the base and to achieve a tacit understanding, Qin Tiange had to be ruthless and hone all the people in the base with **** and cruel wars.

The corpses attacked madly again and again, and even high-level zombies joined the siege, causing huge casualties, but Qin Tiange remained unmoved. As long as the base defense was not broken, then the lightning defense circle would not be used.

Only through the baptism of blood can the base stand firmly in the darkness of the last days and survive firmly, otherwise, it will not achieve much in the future.

“So cruel guy!”

“Enough!”

In the base, some teams that did not participate in the battle saw it very clearly. One by one, they were shocked by Qin Tiange’s fierceness, and were a little hairy.

The electromagnetic energy cannon fired for a while and then stopped. The lightning defense circle could be opened permanently, but he stopped the defense against the zombies attack.

Everything is to better control the entire base, and to better sharpen all personnel in the entire base, Qin Tiange intends to sacrifice some people to complete his grand plan.

Bases, millions of soldiers, millions of survivors, of which fish and dragons are mixed, and it will not be so easy and simple to truly control it.

Taking this into consideration, Qin Tiange made such a decision, a fierce war to sharpen and eliminate some of the problems and barriers of the internal personnel, allowing him to better control the entire base.

“Head, isn’t this person a bit harder, is the sacrifice too big?” Some people in Beijing Command couldn’t stand it.

They felt that Qin Tiange was too fierce, even with a strong defense, but using countless zombies to solve some internal problems, it seemed a little ***** and ruthless.

“Today’s world, not harder, how to survive?”

Chen Guodong looked dignified and stared at Qin Tiange, who was on the front line constantly rushing around the screen. The young man was a soldier, and when he sat down, the white tiger was completely red with blood.

He naturally knew Qin Tiange’s intention of this approach, and he also understood that only in this way can he control all personnel in the entire base quickly and effectively.

Otherwise, once the backlog becomes more and more serious, it will be difficult to solve it at that time. It is better to take advantage of this opportunity to have a big cleansing, big integration, and solve all problems at once. image of.

“kill!”

“Cut these disgusting things!”

Countless people roared, killed the mania, forgot the time, and forgot the fear. Only the full-fledged killing intentions needed to be vented, killing all the zombies that came up.

Someone was dead. Someone filled up behind and continued to hack and kill, one by one, and forgot about the lightning defense circle.

Miserable, a fierce killing, the entire base wall was stained with blood. In the base, the wounded mourned, groaned and groaned, some hands were broken, some feet were missing, and some were even injured died.

“Ugh”

On the city wall, Commander Chen Wu looked at this scene, his face was ashamed, as if many fighters and combatants had fallen, his heart was bleeding.

However, he did not say that he would not jump out to stop Qin Tiange’s actions, because he knew very well that this was the best way.

To survive in this terrible and dangerous end, everyone must undergo the baptism of blood and fire to grow and adapt quickly.

In troubled times, when we use heavy scriptures, when there are extraordinary measures, sacrifice is impossible to avoid. As long as we do n’t hurt our muscles and bones, everything is within an acceptable range.

Therefore, Commander Chen Wu just sighed and chose to remain silent.

Chapter 269 - Flying corpse

Outside the base, there are countless zombies in the four directions of southeast, northwest, and countless.

On the city walls, the killing was fierce. Many people died tragically under the minions. More zombies were killed outside or above the walls.

Uh ...

In the distance, a low, horrifying roar came, as if the beast roared, with a faint color.

Above the sky, a large dark cloud came toward this side, darkly covering the sky.

“Emergency situations!”

In the Beijing Command Center, a picture transmitted by the drone caught the attention of senior military personnel, staring at the screen one by one.

I saw a large cloud of dense clouds appearing on the screen, making the scalp tingling.

“What’s that?” Xia Ming and other senior generals looked horrified, looking at the footage shot by the drone.

The dark clouds rolled and kept surging, but if you look closely, they are not dark clouds at all, but a huge zombie flying beast.

Yes, a second-infected mutant creature turned into a corpse, mostly flying birds, one with a large body, muscles turned out, and its feathers had already fallen out.

These flying corpses, all with their feathers falling off, had only a pair of flesh-wings, born with a sickly cuticle, and turned into bat-like wings, constantly flapping.

“They are in trouble!”

Chen Guodong looked gloomy, looking at the densely packed giant flying corpses, realizing that there was trouble on the Shenshi base.

Moreover, it was an extremely horrible trouble. Look at the huge number of flying corpses, and swarmed up in groups, shocking Qin Tiange who was fighting.

“Flying Corpse?”

On the wall of the base, Qin Tiange looked up, his expression suddenly changed, his pupils contracted, and he looked at the numerous flying corpses that surged in the distance.

Not only that, some large beast zombies began to appear on the ground, and all the mutated creatures became infected with secondary infections and became zombies.

Most of these zombies were bitten by zombies, or creatures that liked to eat carrion, were infected with mutant venom, causing the mutation to become zombies.

Qin Tiange looked dignified and looked at the dense flying corpses in the sky. Most of them were made of flies, and he became a very stingy body completely like a monster.

“Crap!”

“There are flying mutant corpses?”

All of a sudden, everyone was scared by the scene on the walls of the base. Numerous flying corpses appeared, causing a great commotion.

The base must face corpse attacks from both the sky and the land at the same time. The situation is not good. Many people can't help shaking and looking pale.

“General, we don't have air defense forces. How can we resist?”

At this time, a lieutenant hurried up and reported to Qin Tiange solemnly. They had no ability to fight against the flying corpses in the sky because there was almost no air defense force.

Throughout the base, all the combatants felt heavy pressure, and the breath of death made them breathless.

The zombies on land can still deal with it, but with the countless flying zombies in the sky, it is really complete.

Commander Chen Wu rushed to the scene immediately after discovering the situation, with a heavy complexion, and there was a sense of perseverance in the decisive battle.

“Admiral Qin, do you have any way?” Chen Wuyi asked seriously.

He hoped that Qin Tiange would have a way to fight, otherwise, he would really be completely dead. There would be no guarding force in the entire Shenzhen City, and the fall was doomed.

Qin Tiange didn't speak, staring grimly at the masses of flying corpses approaching the sky, most of which were mutated flies.

There are too many flies, and their body is huge. After being transformed into a corpse, they have expanded ten times. The whole body is large and gigantic. The five-meter body gives endless fear and oppression.

“Say yourself, activate the energy pedestal tower, and kill those flying corpses.”

Watching the countless flying corpses near the base, Qin Tiange directly ordered his self to activate the energy base electric towers set up around the base to attack the flying corpses on the sky.

At the moment he ordered, Chen Wu and a group of senior officers around him were surprised, thinking in his heart that there was really a defense?

Not to mention, Qin Tiange really has a defense against the threat from the sky, and that is to build a constructed energy base electric tower together with the Trass group.

Zitz ...

I was surprised to see that there were two huge energy towers on the buildings in four directions from the southeast and northwest of the base, one kilometer away from the base.

Suddenly, these energy towers emit strong electric light, turning them into a series of huge lightnings, striking the mutant corpses flying above the sky.

Sudden lightning strikes, millions of volts of electricity turned into lightning and smashed into the sky, interwoven into a dense network of lightning, covering a large area in the sky.

Instantly, dumplings rose under the sky, and a flying mutant corpse was hit by the lightning and dropped on the spot.

The energy electric tower is a discharge device based on the principle of the Teras coil, which is equivalent to an electric energy defense tower.

As long as the power is sufficient, the defense tower will continuously release millions of volts of powerful current, which is converted into lightning by the energy tower to attack, which is very scary.

Boom ... Perak!

A thunder came, lightning thundered across the sky, and artificial lightning appeared across the base, released from the energy tower, and covered the area within a kilometer.

hiss...

Huh!

With the interweaving of lightning, countless corpses screamed again and again, no matter the sky or the ground, they were subjected to terrible and devastating blows.

This artificial lightning that has been pressurized and transformed is very powerful, and up to one million volts of current is transformed into lightning, which is extremely lethal.

The most terrifying thing is that these lightnings are endless. As long as the energy is sufficient, the energy sources will release endless lightning to attack the enemy.

“That kid, really has a hole card.”

In the Beijing Command Center, Chen Guodong showed a smile to Xia Ming next to him, and cursed Qin Tiange that he could hide, even with this card.

Energy defense towers appeared in some sorts before the end of the day. For example, there is a light energy defense tower in the red alarm game. In fact, the principle is the same.

Watching the dense flying corpses beating down, the sky gradually lost those terrible flying corpses, and most of them were hit by the sky and fell to the ground.

However, it was still struck by lightning on the ground, and was eventually turned into coke. The entire area of the base was covered by lightning, which was even more spectacular and horrible than the city's defense network.

As the lightning gradually extinguished, the energy supply was cut off, revealing a scorched earth, densely packed with scorched zombies and flying zombies, all of which smelled of scorching smoke and bursts of smoke. Already.

“I wanted to sharpen the team with zombies, but I did not expect this accident.”
Qin Tiange looked unhappy, looking at the flying corpse that was emptied.

Only a small number of sparse pulls flew over the defensive net and came to the sky above the wall, killing them madly and angry.

“fighting!”

A roar awakened the fighters in a daze, waved their weapons, and immediately went into battle.

Most of the flying corpses were wiped out, and a small number flew over the base and fell down to attack, but the base's defensive personnel were no longer afraid.

With two layers of protection, what are they afraid of?

“kill!”

“Kill them all!”

Shouting and screaming, on the four doors of the base, a large group of fighters roared madly. In the defense area, a small team of women was walking through to clear the dead bodies and the wounded on the wall.

“You see, the zombies stopped attacking.”

Suddenly someone exclaimed and found out that the zombie outside seemed to stop the attack.

In fact, countless zombies that were emptied within a kilometer of a circle, even the stupid zombies, would stop attacking.

“Have you stopped attacking?”

Qin Tiange rode a white tiger to the edge of the East Gate city wall, standing high, looking out into the distance, and seeing the thick black smoke, he saw the zombies stopped there.

“Somewhat wrong.” Soon, Qin Tiange felt that something was wrong. It stands to reason that even if all the flying zombies and zombies within a kilometer above the ground had been killed, there were not many, and the offense should not stop. .

hiss!

Suddenly A huge mutant corpse above his head whistled and dived down, took Qin Tiange and sat down to the white tiger, which was a flying corpse flying over the lightning defense net.

Haw's big mouth opened, and his teeth were deep. Eight giant claws pierced straight down. The sharp claws seemed to be able to penetrate steel.

Woo!

Suddenly, a spear of horror turned into a ray of light, whizzed, and flew straight out of the heavenly spirit from the mouth of the flying corpse beast.

With a bang, the huge corpse fell to the side, and a white tiger's dissatisfied paw patted it, completely crushing the flying corpse's head and killing the party constitution.

Qin Tiange didn't even look, and stared more and more dignifiedly outside the base. The crowd of zombies stopped.

“Uh ... hoo!”

Suddenly, a terrifying growl came from afar, the sound was rolling and deafening, like a thunder that scared everyone in the entire base.

Chapter 270 - Overlord in the Corpse

With a loud roar coming, the prestige was so loud that the corpse was quiet.

Boom! Uh ...

Immediately afterwards, there was a slight roar on the ground in the distance, as if there were huge things walking and running, and the ground shook slightly.

“That is?”

Many people have dilated pupils, their eyes are round, and they stare at a behemoth as they come out of the street corner.

The eight-meter-high body was covered with muscles and turned upside down, forming a huge and horrible body. The two giant hands lifted and swept, and a few zombies blocking the road were scattered on the spot and scattered .

It passed by with its feet, and all the zombies automatically gave way, shaking trembling, and the zombies that were too late to be stepped on have been ruthlessly trampled into mud, the scene shook the heart.

It was an extremely scary zombie. Its huge body was full of oppression, like a hill, and brought endless pressure.

It had a huge tail behind it, sharp and terrifying, full of lethality. Some zombies were flicked by it fiercely, and they were instantly broken into pieces of meat, terrifying.

A behemoth appeared, it was like the overlord in the corpse, high above it, full of domineering and cruel, all the zombies stopped, looking particularly afraid.

“Is it the leader of the corpse group?” Commander Chen Wu looked dignified, looking at the terrible zombie and couldn’t believe it.

But I have to believe, because the fact is in front of me, many people are stunned, looking at the giant zombie that keeps coming, can’t help getting hair.

That was the horror that emanated from the zombies. It was extremely strong and not comparable to ordinary zombies.

Qin Tiange squinted his eyes, constantly looking at the zombie, eight-meter-high body, full of dense golden scales on his muscles, just like King Kong.

“Five-star Jinjia corpse, the overlord in the corpse, did not expect it to appear so soon.” Qin Tiange looked a little dignified, but not worried.

Five-star gold armored corpse, no matter how strong it is? Don’t forget that he also has a large electromagnetic energy gun, which is enough to kill zombies below five stars, including a five-star gold armored zombie overlord.

This kind of zombie has the potential to become a corpse king, and it is not impossible to grow into an emperor corpse. As long as it does not fall, that is the lowest level of corpse king.

In previous lives, the number of corpse kings was extremely large, more than double the number of human king-level masters.

However, the level of zombies is strict, and there are more corpse kings than humans. However, those corpse kings do not allow other zombies to become kings. Therefore, all who can become corpse kings have devoured the same kind and killed the zombies of the same level.

The cruel evolution will not increase the number of corpse kings. Once the corpse king finds that his zombies have been promoted, he will be swallowed by ruthless killing immediately.

This five-star gold armored corpse already has the potential to be the king. It is worthy of being the overlord in the corpse, and it is no wonder that it can lead a large number of zombies.

However, Qin Tiange discovered that the four sides of the entire base, only the direction in which the armor overlord of the gold armor appeared, produced a quiet effect for the corpse.

As for the zombies in the other three directions, although there was some turmoil, they did not seem to be as quiet as this side. Maybe this Jinjia corpse could not fully control the corpse.

“Are there any other zombie overlords?” Qin Tiange secretly wondered, but couldn’t help guessing.

Unsurprisingly, as a zombie overlord appeared on the east gate side, a terrible zombie appeared on the other three gates.

These zombies are extremely powerful and terrible. They have reached a five-star rating. I do n’t know how many of them have evolved.

Roar!

At the South Gate, a roar of corpses came, suddenly causing a huge movement, the zombies were quiet, and then a strange zombies came out of the corpse.

“Lightning Zombie?”

Qin Tiange, who arrived at the South Gate, changed his face slightly, watching the corpses spread out a huge space to accommodate a small zombie passing through, surrounded by a trace of electric arc, looking extremely terrible.

That is a kind of talented zombie called elemental corpse, which has certain elemental abilities in itself, such as the zombie with electricity on it.

It doesn’t look big, but on the blue muscles and skin, the current is coiled, and the eyes are white from time to time, but blue.

Lightning zombies are as fast as lightning and can release terrible currents throughout their body. They are extremely powerful and difficult to kill.

“Unexpectedly, such a deep city hides such a lightning zombie, and it is no wonder that the previous society will be the first to fall.” Qin Tiange looked a little dignified.

First, five-star gold armor corpses, and then five-star lightning zombies. Then, in the next two directions, are there some special and powerful zombies?

With a touch of weight, Qin Tiange drove the White Tiger to the North Gate, just to see the zombie group automatically give way to a passage.

A three-meter-high black figure slowly walked out, dragging a heavy iron chain, tied to the back with a cross, half of a human body hanging on it, blood dripping.

“A variant of the zombie from the church ...” Qin Tiange frowned, looking at the zombie, and found nothing special.

But he knew that this zombie was a zombie turned from a priest from a church, with some peculiar ability, otherwise he would not become the overlord of a corpse.

Humph!

Qin Tiange Lengheng stared at the zombie and ignored it. He left here on a white tiger and rushed to the base of Ximen.

Soon, he came to Ximen, a dense crowd of zombies outside the city, neatly arranged, standing there motionless.

“what’s the situation?”

As soon as Qin Tiange came, he saw that Li Zhi, who was guarding here, was injured, and a young soldier riding a giant Pippi shrimp was surprised to look at him and sit down on the white tiger.

That was Zhang Ji. Li Zhi was included in his team and became his left arm and right arm. The battle was very brave and crazy. He rode Pippi shrimp and killed the Quartet.

Li Zhi was pale and pointed to the quiet corpse outside. “General, there seems to be a weirdness in the zombies outside. I just saw a purple shadow just now.”

“Purple shadow?” Qin Tiange could not help frowning.

Looking up, there was no purple shadow in the dense zombies, which made him feel uneasy.

Qin Tiange suddenly felt a chill on his back and a cold hair stand upside down, his eyes were slightly condensed, and the silvery silver gleam flickered in his pupils, constantly scanning the corpses outside.

Ok?

Suddenly, something strange came up from the sky, suddenly looked up, and suddenly saw a huge flying corpse standing in the air, the huge body of fifteen meters seemed extremely terrifying.

It was a flying bird, whose feathers had fallen off long ago, the muscles were turned out, and a pair of fluttering wings flapped continuously over the corpse.

“What zombie is that?” Qin Tiange narrowed his eyes into a slit, staring at the huge corpse circling in the sky, exactly a small figure standing on the corpse’s head.

The petite figure, wearing purple clothes, stepping on amethyst boots, a purple hair dancing in the wind, amethyst pupils stared at the city wall, and locked Qin Tiange’s figure firmly.

“Roar!”

Suddenly, the little purple figure suddenly opened his mouth and made a terrible growl, showing a resentment, his fists clenched, and looked very angry.

The moment the Qin Tiange appeared, the purple figure seemed very irritable, which made Qin Tiange a little surprised.

“Zombies like humans? Is it the King of Zombies?” Qin Tiange’s face changed slightly. This surprised him.

Most zombies like humans are zombies of the corpse king level. At this moment, I suddenly saw a little girl like a human being riding a flying corpse and almost thought it was the corpse king.

“No, is she ... the corpse baby?”

The next moment, Qin Tiange Meng remembered something and saw a purple corpse on the eyebrow of the little girl. He was very familiar. Wasn’t that the corpse baby he wanted to kill in the Maternal and Child Health Hospital at that time?

“Not good!” Seeing this, Qin Tiange’s heart sank, and he sighed unluckily. In the four gates of the southeast and northwest, a lord appeared in the corpse, especially the one on the west side. It was exactly the corpse baby that he wanted to kill and couldn’t control.

Overlords appeared among the four corpses. Can the Lotus Mountain base have settled this calamity?

The five-star corpse hegemon, once slaughtered into the base, is a one-sided slaughter. Apart from Qin Tiange, no one can compete. One is fine, but four came.
