Chapter 28 - If you want people to perish, you must make them crazy

“Qin Brother, there are helpers over there on the football field.”

I just beheaded a dozen zombies with several mutant insects outside, and the team was resting, and saw a boy running hurriedly, saying something like this in Qin Tiange’s ear.

Hearing what he said, Qin Tiange blinked his eyes, the corners of his mouth turned up inconceivably, and said secretly, could those people not help?

自然 He naturally knew that after burning out the weeds on the football field and extinguishing the threats inside, the group of people hiding in the dance classroom on the third floor certainly couldn’t help running to see the heritage stone monument.

This is what he expected, without much surprise, but Moda looked a little dignified.

“Brother Qin, we know that group of people. They are a group of students in class three and six. The leader is Huang Feilong, nicknamed Huang Mao. He is a bully in our school. Dad is a bully in the town. He is at school on weekdays. There is no evil in it. “

Moda’s words made Qin Tiange clear, but he didn’t speak, and a boy beside him showed a fierce look.

He moved forward and wiped his neck, and gently asked, “Brother Qin, do you want your brothers to do them?”

Moda nodded in agreement, saying, “Yes, brother Qin, let’s say, as long as you give an order, the brothers must have done them, lest those people do us bad things.”

In fact, the boys of Moda already know the secret of the stele, and the girls all know the secrets of the stele as well as the girls. Qin Tiange has not concealed this group of people now because he cannot hide it.

I saw Huang Mao and others discover the secret of the stone stele. The group of Moda immediately felt a strong threat, not to mention that the two parties would not deal with it in the school.

不 “Not in a hurry!” Qin Tiange waved his hand gently, looking at the direction of the football field, and suddenly chuckled: “If you want people to perish, you must make them crazy!”

“Let them gain a little strength, then their ambitions expand, their self-confidence expands, and finally it is the time for them to go to extinction. Keep them first, and I still have some people to help me complete the plan. Just a few of you are not enough. “Qin Tiange said, Moda naturally did not oppose them, and dare not have any thoughts.

In fact, seriously, Moda knows very well that if it was not Qin Tiange, these people would still be waiting to die, not to mention the discovery of the heritage stele. Even if they found it, they would not have much ability to hunt zombies and mutants.

Now it's different. Qin Tiange gave them an armored weapon, and Qin Tiange gave them a boost of strength.

I have nothing to pay for, only those who are not stupid at the scene know that Qin Tiange is using them, but they also have rewards.

Qin Tiange understands the truth. If you want a horse to run, you must feed the horse grass. There is no good. Who wants to help you to do things, or is it a life-threatening thing?

“Ready, we are about to step out of the campus. The zombies in the campus are almost cleaned up. There are only some mutant creatures hiding in the grass or woods. Just be careful.”

Qin Tiange said, his eyes have been fixed on the campus gate, which is a bustling street area outside the town. In the past, it was a huge trading market with dense crowds and most zombies.

“Tian Ge, this is all the brain crystals dug out, as well as some mutated basic meat, all here.”

Tamarix came up, and several girls packed sacks with the brain crystals they unearthed. There were more than five hundred crystals. Almost all the zombies on the campus were cleared.

There are also some genetically evolved meats that have evolved from mutant organisms. For example, mutant ants do not have crystal nuclei, only basic meat, and some insects do not have crystal nuclei, but they have strange basic meat.

These meats, whether they are fresh or tender, or taste or have medicinal effects, are the best supplements for human beings in the last days, and are necessary for strengthening the body.

After harvesting these harvests, Qin Tiange glanced at everyone and said, “You go to the dining room to rest first, and you are ready to make a meal. Also, clean up these mutant piglets, and have a good meal today. , And then we will kill the campus. “

He left the bodies of ten mutant piglets, Qin Tiange and Moda and Chen Xi walked towards the school entrance.

Yan Liuxuan, the beautiful teacher's eyes flickered slightly. After watching the three of them leave, she instructed a group of students to work together to quickly carry the corpse of the mutant piglet into the school canteen and prepare to cook.

Roar!

At the gate of the school, a middle-aged security guard roared like a beast in the security room, suddenly rushing out, and Zhang Yawu's claws rushed to Qin Tiange who came up.

没 He didn't do anything, there was a bit of fierce flash on Moda's face next to him, and he quickly stepped forward, raised a knife and slashed fiercely at the security head that turned into a zombie.

With a click, the sharp steel knife with great power split open the head of the security zombie and split directly into two halves.

Moda, this burly boy, has reached eight times his strength as an adult man. This is the powerful effect that he only achieved when he obtained the one-star quenching agent twice and drank the enhanced version of the quenching agent.

As for Chen Xi, this beautiful woman who has been very silent, seems to be marginalized intentionally, and has not shown color, but silently accumulated her own strength.

She followed Qin Tiange and usually didn't speak and kept silent. All the students didn't know her very well, only she came with Qin Tiange.

Howling ... Howling!

Outside the campus, hordes of zombies are surging, and vehicles collide and park on the street. Many vehicles are in turn blocked in the middle of the road. Many zombies are looking for prey.

Throughout the town, countless zombies are surging, densely packed, blood on the ground, many are already thirsty, some minced meat is scattered, and the intestines hang on the car glass, as if in a terrible hell.

Through the large iron gate, the three of Qin Tiange saw the scene in the town. Moda was shocked, his hands and feet were cold, and he was afraid to hold the steel knife. Only the knife can make him feel a touch of warmth.

"This is the end?" Chen Xi stared blankly, looking at the dense zombies on the streets outside, scalp tingling, pale and bloodless, and was frightened.

I mean Qin Tiange is a little dignified, staring at the countless zombies on the street, suddenly there is something bad in my heart, can my plan be realized?

There are too many zombies in this small town. This school is close to the only trading market in the town. The flow of people here is the most dense and the most.

He is thinking about how to hunt down the zombies in the town and complete his advanced plan. This is the most critical issue.

Wu Qin Tiange found that there were too few of them, and it was nothing compared to the dense crowd of zombies in the small town outside.

How many zombies are there in the town? fifty thousand? 100,000? Or 200,000? This is not only the resident population of the small town, but also the population of the surrounding countryside, because the disaster happened to be a three-day market day, and the population was particularly dense.

"Tian Ge, is your plan to clean up the zombies of the whole town?" At this time, Chen Xi, had to ask questions like this.

Qi Qin Tiange didn't say anything, but stared at the center of a small square in the town, where a towering tree stood there, roughly calculating at least a hundred meters.

That is a banyan tree, originally a hundred-year-old banyan tree in the town, but under the dark energy erosion after the disaster, this banyan tree has undergone a horrible change, which is what Qin Tiange is worried about.

“Some trouble.” Qin Tiange rubbed his eyebrows secretly, feeling very tricky, not to mention the dense zombie corpses, which are the numerous and powerful mutant creatures, as well as the terrible old trees of previous lives. These are the most terrible. s things.

More than just trouble, it is desperate. The town has become a terrible corpse city. How does Qin Tiange complete his five-day plan here?

Twenty-five days, one day has passed, and four days remain. Can he complete his first plan after rebirth?

boom!

At this moment, a gunshot came from the campus, and the densely packed zombies in the town suddenly gave a meal, and then looked towards the school gate.

Qin Tiange’s complexion changed, pulling Moda and Chen Xi into hiding in the guard room immediately. The whole person looked cold and exudes horrific murderous power. Both Chen Xi and Moda felt his cold kill at this moment. How strong it is.

“It’s really looking for death. I wanted to take advantage of you. It seems that these people are anxious to die.”

Qi Qin Tiange froze with his eyes cold and stared in the direction of the canteen. The sound of the guns just came from there, needless to say that something had happened.

“go!”

Holding the knife, Qin Tiange left the school gate with a murderous look on his face, and the three rushed towards the canteen. Many zombies outside the campus found the three and rushed over.
