

Dark Ages 291

Chapter 291 - Crab tide

“Crab tide, crab tide!”

Lu Jun’s face turned wild. He watched a large number of sea crabs pouring out of the water. His body was huge and the smallest one was the size of a washbasin.

These sea crabs came ashore and the crab tide came and directly occupied the entire port.

“Run ...”

The port is in a mess, and many of the ships just out of the sea are in bad shape. Sea crabs climb onto the fishing boats, killing madly and devouring humans.

These sea crabs are fierce in nature, and are even more cruel after mutation. They have an amazing appetite. They will swallow and bite when they see a living creature.

For a while, dense sea crabs appeared in the sea water of the port. It was fiery and red, and looked extremely scary. The sea water was rendered dark red.

“Let’s run away, Jiulongzhai can’t keep it.”

Qin Tiange sighed and directly reminded Lu Jun and others to escape, Jiulongzhai could not keep it.

He is very clear that with the crab tide coming ashore and without fortifications to deal with the threats at sea, it is naturally impossible to stop at least a million huge sea crabs.

The fall of Kowloon District is a foregone conclusion. In the entire Jiuzhai Village gathering area, there are at most 100,000 survivors. How do you face the millions of crab surges coming from the sea?

“Escape, escape inland.”

Lu Jun yelled and ran first, not afraid to stay. A group of people fled off the ship and fled directly to the inland.

In the port, countless people turned and ran away in panic, not because they were not timid, but because there were too many sea crabs climbing up in the sea, and they were very cruel.

An ordinary sea crab, the size of a washbasin, can be killed by ordinary people, but a sea crab that is thicker than a water tank is different. It is more powerful than an adult.

What’s more, there are a lot of giant sea crabs in the sea crab group, all of which are blue-gray armor, pliers waved, and steel is cut off.

“The Jiulong Village is finished.” Qin Tiange looked at the fleeing crowd, shook his head secretly, and turned to leave with a spear.

He was not in the mood to face the millions of sea crabs, even if he didn’t dare to wander in the circle surrounded by millions of sea crabs, that was a death-seeking act.

Sea crab, originally a human food, is one of the favorite seafood of Chinese consumers, but unfortunately now, humans have turned into sea crab food.

“Crab tide is coming, crab tide is coming!”

At this time, a group of panic-rushing people rushed in the center of Jiulongzhai, screaming in horror while running.

They were people who escaped from the harbor. They all looked terrified and ran out of milk to rush here. They didn't even dare to stay. They rushed out of Jiulong Village and fled inland.

“what happened?”

“what happened?”

Numerous people in Jiulongzhai were shocked. Unknown. So, watching the crowds fleeing wildly, they speculated what happened.

Because the gathering place was too noisy, most of them didn't quite understand what those fugitives were shouting, but a few people heard it.

“Crab tide?”

Everyone who heard these words was shocked, and looked horrified, and saw countless huge sea crabs popping up on the coastline of the port.

Each sea crab waved two huge pliers and came across. No one could stop it. All the people caught up were swept up and eaten by sea crabs.

“what...”

The crab tide poured in, and the whole Jiulongzhai panicked. Countless people were frightened and fled in screaming. I wished that I would have two more legs. Unfortunately, I could not run the crab's eight feet.

In a building, Qin Tiange watched the dense sea crabs flood into Jiulongzhai Village, kill them when they saw them, tear them up and swallow them, the scene was extremely bloody.

Looking up, the whole port is filled with these sea crabs, and the sea crabs on the ship, the sea, the bottom of the water, and even the land are occupied by dense sea crabs.

“Run away, run away!”

Jiulongzhai fry pan, countless people ran away, rushed out of the defense wall of Jiulongzhai, dare not stay inside.

The coastline has no decent defense at all, and no one prevents humans from fighting the crab tide, because no one wants to fight the millions of scary sea crabs.

It's nothing to be small, the key is that today's sea crabs are too big, and humans feel scared let alone confrontation.

“If we don't adapt to the cruelty of the end, humans will be eliminated ruthlessly sooner or later.” Qin Tiange shook his head secretly and did not go on to save people.

He wasn't great enough yet, just glanced at it and saw a lot of sea crabs climbing up the wall, he knew he should go.

As for the life and death of the people in Jiulongzhai, in fact, it has nothing to do with him. I was originally thinking about seeing if I could conquer this gathering place. Now it doesn't seem to bother me.

One crab tide was enough to destroy this Jiulong Village, Qin Tiange shook his head, turned around and jumped, jumping quickly on the top of the building, and quickly rushed out of Jiulong Village.

Dangdangdangdang ...

There was a rush of alarm in Jiulongzhai Village. Countless people rushed to report, and flocked out of Jiulong Village. Behind, a crowd of crab tide came in, catching up with a group of fugitives and madly killing.

Flee, apart from fleeing, none of the people in Jiulongzhai dare to fight the crab tide, even the three famous celebrities in the gathering place dare not.

The sea crab rider ran away, riding a sea crab pet to flee wildly, and didn't dare to stop for a moment, let alone save people.

The other two strong men, Qin Tiange, had never seen him, and led his men to flee wildly. No one dared to stay to counter the crab tide.

“The Jiulong Village is finished.”

Meng Yu rushed out of Jiulongzhai Village, looking at the screams of screams and shouts from the fortifications, a cry of unconsciousness in her heart.

He knew that Jiulongzhai was over. Looking at him, a large group of people ran away in a panic, and didn't even dare look at the back.

Throughout the Kowloon area, the coastline is densely packed with sea crabs. This time the crab tide is unprecedented in size and completely occupied the entire Kowloon coastline.

As for Xiangcheng Island, the situation is unknown. Qin Tiange wanted to come there, and there is no better place. The only safe place is inland.

Uh ...!

At this moment, there was a terrible horror of roaring sounds in the distant harbor and sea area, as if a dragon was groaning.

This roar, the sound of thunder and tumbling, not only shocked people, but also made the densely packed sea crabs even more panic-stricken.

“That is?”

On the top of the building, Qin Tiange, who was about to leave, changed his face slightly and turned suddenly, looking out at the sea outside the port, where the waves were soaring and he patted more than ten meters of waves.

I was surprised to see that a giant rushed up from the sea, jumped ten meters high, and then plunged into the water, setting off a stormy sea.

Qin Tiange's pupils shrank, catching a horror scene. He saw a huge incomparable blue figure jumping out of the water, and then dived into the sea.

The exposed body was glaring with blue light, the scale armor was extremely large, and the whole body was at least several meters thick.

“Qing Ye?”

Qin Tiange was startled and looked at the behemoth which turned over the river like a blue dragon.

It was a giant snake with a blue body, and there was a row of sharp fins on its back. A blue dragon was put in it, howling.

The crab tide was in chaos, and rushed to the shore even more crazy, as if afraid of this behemoth, looking extremely crazy, crab tide, in fact, escaped.

“No, it's the blue-scale demon python, has it entered the sea?”

The next moment, Qin Tiange's face changed greatly, and he saw clearly that the huge figure writhing in the sea turned out to be the green scale demon python he encountered.

It has entered the sea, along the river and into the sea, the rich resources in the sea have given this green scale demon python a horrible evolutionary speed, and it has grown to this step.

Uh ...

In the sea, a huge wave, a roar came, and the blue-scale demon python roared, and there was a cyan horn on the huge skull, and his eyes were arrogant and cold.

It is even more terrifying, like a dragon like a cricket, and it is scary!

Chapter 292 - 6-star, barley!

“Oh my God, what is that?”

“Jiaolong?”

The emergence of the green pheasant immediately caused greater panic. Not only the crowd of sea crabs panic, but also the human panic.

The huge waves on the sea, a huge blue-scale demon python was roaring, and swallowed a huge sea crab with open mouth.

The blue eyes were staring at the shore, and the endless sea crabs were rushing up the coast frantically, as if they were caught up by the blue scales.

“Wo, run away!”

Meng Yu was so horrified that she looked at the huge barley that climbed up from the sea, and the whole person almost fell off the back of the sea crab.

Too scary. The barnyard was huge, with a body thickness of five meters, and the largest head was even six meters thick, swallowed by a sea crab.

It was chasing the sea crabs, swallowing all the way, like a bottomless pit, eating wildly and swallowing. I don't know how many sea crabs have been eaten. I always feel that its stomach has not changed.

“Six stars, such a powerful evolutionary speed, this green scale demon python is even more terrifying. It has almost reached the edge of the cymbal when it has reached the edge of the puppet.” Qin Tiange looked dignified, staring at the bar. The blue-scale demon python that devoured sea crabs.

He didn't expect that a green scale monster python he encountered at the time actually entered the sea along the river. Perhaps there was not enough food in the river, which was not enough for its huge appetite.

Once in the sea, the numerous creatures in the ocean are enough for this green scale demon python to devour and evolve madly and grow to this step today.

Qin Tiange's face was dignified, his eyes flashed with light, and he stared at the green scale demon python that had climbed ashore. The little demon python had almost evolved into a green pheasant.

Six-star, I don't know how many creatures this greenscale demon python swallowed in the sea, so this evolutionary level is incredible.

In the sea, there is only this blue scale demon python. The original green snake python group was gone, and Qin Tiange faintly guessed that even the food should be eaten by the ethnic group after eating insufficient food.

Uh ...

The green cymbals were screaming, the huge body was crushed over, there was a huge sea crab fighting back, the pliers waved against the green pimple's scale armor, but unfortunately there was a burst of sparks, and the green cymbals could not get on.

Seeing this, Qin Tiange knew that he had to go, and he couldn't really fight the blue scale demon python with such a terrible evolution.

“Unlucky, even if you encounter this demon python, it's better to go first!” Qin Tiange murmured secretly, turned around and jumped away quickly.

He didn't dare to stop, originally the crab tide was enough for him to drink a pot, and now he suddenly killed a green scale demon python that was about to turn away, and stared at it?

Six-star, that is a key level, ordinary creatures, whether they are humans, mutants or zombies, as long as they reach the six-star, it is the pinnacle of early evolution.

As long as you cross the past, that is the seven-star, there is already a trace of mythological characteristics, such as the blue scale demon python, once promoted again, into the seven-star, then it is an out-of-the-box dragon, known as the green dragon.

Qin Tiange dares to touch a six-star demon python that is about to be turned away? Just kidding, you may not be able to run without waiting now.

Wow ...

The crab tide was panicked, countless huge sea crabs rushed to the coast, and the sea crabs that were still in the water quickly retreated and ran back into the ocean.

The green scale demon python crushed all the way, and swallowed it with its mouth open. No matter it was human, sea crab, or even all kinds of creatures, it swallowed one by one whenever it encountered it.

It has reached the key to evolution. It must devour a large number of mutant creatures to gain energy accumulation, and only wait for one turn to soar and soar.

Roar!

In the mountains, a white tiger seemed irritable, standing on the top of the mountain anxiously, and continuously digging the ground. The tiger's eyes were full of uneasy emotions, as if it felt something that made it extremely disturbing.

That is the breath of the blue scale demon python, which is extremely scary. It already has a trace of the nature and characteristics of the dragon, which can naturally be sensed by the white tiger.

“Xiaobai, let's go!” Qin Tiange returned here, immediately turned over and jumped on the back of Bai Hu, and directly ordered the restless Bai Hu to leave.

The latter knew, turned and roared, and leapt down from the top of the mountain. It didn't want to stay here at all.

However, Xiao Bai's growl and the breath of the King of Beasts were noticed by the blue-scale demon python.

Hiss ... oh!

Suddenly, Qingying raised her head and snarled with an open mouth, and her eyes showed a hint of surprise, because she saw a delicious prey.

The white tiger, four stars, was full of strong blood and energy fluctuations all over his body, and was naturally followed by the green scale demon python.

In particular, Qin Tiange, a human being on Bai Hu, has a breath in his body that makes him excited, and he can't wait to swallow the white tiger and Qin Tiange.

Temptation, a four-star white tiger, and a human with a fatal attraction all over it, the green scale monster python gave up swallowing the sea crab group directly, but rushed in crazy.

On its body, a faint look of about four feet was growing out, and a bit of toes had been seen growing up in the tail.

This green scale demon python was extremely fast, its huge body was crushed over, and it smashed countless buildings, rushed out of Jiulongzhai, and went straight to Qin Tiange's trace.

Huh!

The green scale demon python screamed with excitement, terrified Shino, terrified the fugitives who had stopped to rest.

When they saw a blue demon python running across the mountains, rolling over, the 300-meter-long body was constantly twisting, as fast as lightning.

Grunt!

A group of people were stunned, looking at where the blue-scale demon python passed, the trees collapsed, the rocks fell, and the scene was shocking.

On the ground, a huge trace was crushed, as if crushed by a large bulldozer. It was amazing.

“Your sister, you are chasing after me?”

At this time, Qin Tiange, who was riding on a white tiger, changed his face and looked at the blue-scale demon python rumbling after him.

He didn’t expect this green scale demon python to hunt him down, wasn’t it too much? In fact, it is not at all tangible. The blue-scale demon python has been the key to the promotion of the seven-star star. It continuously swallows various marine life in the sea. If it is not more terrible and dangerous, it will directly enter the deep sea.

However, in the deep-sea area, there are not only various large marine predators, but also mutant shark groups variant whale swarms, etc., and even some ancient creatures hidden in the deep ocean have shown signs of activity one by one. .

The green scale demon python dare not venture into the deep sea, where there is greater danger, so I thought about predation in the offshore area and waited for advanced tadpoles.

When you see a four-star white tiger, you naturally want to swallow it, not to mention that the most attractive person is Qin Tiange, a man with a fatal attraction.

“Want to eat me to evolve?” Qin Tiange understood, his face was ugly, this green scale monster python wanted to eat him and white tiger to evolve.

Thinking of this, he couldn’t be happy at all, because the blue scale demon python in the back was too big and scary.

“Little white, accelerate!”

Qin Tiange gave a low drink, the white tiger roared fiercely, and his limbs ran madly on the street, getting faster and faster, but the blue scale monster python behind was faster.

hiss...

Suddenly, a roar came from behind, and then the crisis shrouded. Looking back, Qin Tiange could not help but change his face.

Chapter 293 - Sang, ask for support

boom...

The blue-scale demon python opened his mouth and sprayed a dark green torrent, rolling and rushing.

It was a horrible venom, blue and turbulent, as if a large stream of flames were raging and violent, which immediately drowned the white tiger and Qin Tiange himself.

Roar!

Bai Hu roared, his limbs leaped suddenly, and he jumped tens of meters away instantly. He almost escaped the flood, and was almost robbed.

Qin Tiange was riding a white tiger, his forehead was sweating down, and he couldn't help secretly being angry. He didn't want to work hard, but the blue scale demon python had iron heart to swallow him.

“Myself, determine my location, prepare the electromagnetic energy gun, and ask for support.”

I saw that Qin Tiange raised his wrist and said something to a watch-like device, which directly contacted the artificial intelligence in the base.

Uh ...!

“Master, the location is determined, and the electromagnetic energy gun is fully charged.”

The voice of my own self was uploading from the wrist, and there was a hint of flattery in the solemnity. It connected to its own subsystem and determined Qin Tiange's position.

At this moment, at the base level, senior officials at all levels suddenly noticed that a huge electromagnetic energy cannon suddenly started and was directly charged.

This discovery shocked the senior officials of the base, and they contacted their own inquiries and asked about the situation.

“Myself, why did you launch the electromagnetic energy gun?”

Zhuo Tianfan hurried to a screen and asked directly, looking grim and nervous.

A large group of high-level members rushed behind, all in a hurry, and the electromagnetic energy cannon suddenly started to charge, indicating that there was a sudden situation.

Sure enough, with his self-explanation, everyone knew that Qin Tiange was in trouble and directly connected to him to order the electromagnetic energy gun.

The lethality of this thing is amazing, with an effective range of 600 kilometers. The distance from the base to the Kowloon area of Xiangcheng is more than 20 kilometers.

“His, what's that?”

With the emergence of a light curtain, exactly what Qin Tiange ran away from was shown above, which was taken from Qin Tiange's wrist-mounted device.

I saw that the picture was shaking, loomingly capturing the horrible scene behind Qin Tiange, and a huge young man was chasing Qin Tiange.

“The general is in trouble ...”

At the first sight of Zhuo Tianfan and others, the danger was not scared to death. The barley was extremely scary regardless of its size or breath.

At this moment, Qin Tiange fled on a white tiger wolf, and the green prince behind chased him all the way, making him extremely annoyed.

“Give yourself, lock it, fire!”

Qin Tiange turned around, raised his wrist directly, and aimed at the green pheasant, allowing him to locate according to the picture, and the electromagnetic energy cannon locked the position of the green pheasant.

He needs electromagnetic energy cannons to support him. Although it is not clear whether he can kill this green pheasant, he feels that the six-star green scale demon python will soon be able to kill him.

Inside the base, an electromagnetic energy gun screamed, and a horrific beam burst out, hitting a certain location in the Kowloon area of Xiangcheng.

Suddenly, the blue-scale demon python instinctively sensed the crisis, looked up, and saw a beam from a distance hit it.

boom!

The beam of light arrived in an instant, and bombarded the location of the blue scale demon python, which destroyed the hill pack on the spot, the mud and stones penetrated, and the dust billowed.

The powerful air waves knocked down the trees within a few hundred meters of the ground, and even some closer trees and rocks were shattered.

The electromagnetic energy gun was fully open, fully adjusted to the maximum power, and a small hill bag was blown up on the spot.

Hiss ... oh!

In the smoke, a terrible roar suddenly appeared, full of anger, and it was the green scale demon python.

It rushed out of the smoke and dust, its huge body crushed the forest, and stood there, covered with blue scale armor shining brightly, and it only got on a little scale armor.

hiss!

In the base, a group of high-level people saw this scene and couldn't help pulling down the air. Looking at the blue scale demon python, the scale armor broke a lot, but it was not seriously damaged?

Yes, the green scale monster python was not severely injured, it only hurt a little scale armor, the blood did not flow much, and there was a little burnt mark.

“Jiji, missed, keep firing!”

Qin Tiange looked grim, and directly ordered his self to continue firing. He knew that he had missed a shot just now, no matter it was impossible to only hurt the opponent's skin.

As he ran on the white tiger, he ordered his own self, opened fire, and blew up the blue-scale demon python that chased him.

Huh!

The green owl was hissed, his huge mouth opened, and a dragon's breath spouted at Qin Tiange. The dark-green dragon's breath was exposed to the horrible corrosive force, and the rocks and the ground were corroded and cleaned.

At the moment when the poisonous breath swept through, a remote beam of light from the remote control rushed quickly, and the rumbling broke up the dragon's breath, hitting Qing Qing's body instantly.

Just listening to the bang, Qing Qing was knocked to the ground, and her huge body kept rolling, which seemed to be particularly painful. It was hit by electromagnetic energy cannons.

“Well ... hate ...”

In the smoke, a dragon roar came, accompanied by two angry words, which made the high-level petrification on the spot petrified on the spot, stunned.

They widened their eyes and looked at the roaring demon python on the screen, and they even spoke, yes, it was talking.

The six-star rating has already given it wisdom that is not weaker than human beings, and it is normal to speak. Once it is successfully transformed, it is a real dragon blood creature.

“Say yourself, keep firing!”

Qin Tiange looked dignified, constantly urging his self to fire and support himself, so that he could escape smoothly. As for the anti-killing of the young man, don't be stupid.

Through the two bombardments just now, Qin Tiange knew that the electromagnetic energy cannon would be difficult to kill the green cricket, because the other party could evade, and his green scale defense was amazing.

One shot was in the middle of the body, and it only broke the green scales, injured a little flesh, and burned a small piece of flesh.

It is not that the electromagnetic energy cannon is not strong enough, but that this green cricket is too defensive. The six-star demon python will soon break through the seven stars and successfully transform into a maggot, which is naturally extraordinary.

The higher the level, the more terrible these mutant creatures are. Once they become true dragons, then they can really rise above the clouds and drown the river.

There are very few dragon blood creatures. There are not many dragons that can be transformed into dragons in the previous life. Of course, no one knows whether they are in the deep sea.

boom!

Another beam whistled from the base, and instantly penetrated the air, hitting the location of the Bluescale Demon Python.

It is a pity that it has already taken precautions and naturally hides easily, but it seems a little vigilant and fearful, and the pursuit speed is much slower.

In this way, with the support of the base's electromagnetic energy cannon, Qin Tiange and Bai Hu finally distanced themselves, and soon left Qingyu far behind.

Uh ...

Qingyu roared and snarled angrily, appearing extremely angry, seeing the prey ran away, naturally angry.

However, it has to dread and guard against the continuous screaming of electromagnetic energy cannons. The power of this large weapon is terrifying. Once it is hit multiple times, it will definitely be over.

One shot will break its hard scale armor. If you hit it again, it goes without saying that it is as powerful as a green lotus demon python.

In the end, it stopped hunting, reluctantly coiled around a mountain, making a horrible roar, shaking the earth.

In the distance, Qin Tiange rode a white tiger and stood on a mountain, quietly looking at the madly roaring blue-scale demon python, and his pressure was even greater.

“The strength is too weak, and the promotion must be accelerated.”

With a dignified face, Qin Tiange secretly decided to speed up his improvement, otherwise, he really couldn't keep up with the speed of the creatures that have evolved by constantly killing their prey.

As can be seen from a green scale monster python, there are still many such mutants in the world, and they will continue to kill and devour other species and even the same species to obtain faster evolution.

Of course, these terrible creatures are in the minority after all, and those who can make their appearances are some extremely fierce and bloodthirsty creatures, and the number will not be large.

If there are too many creatures like the Greenscale Demon Python, don't worry, humans will sooner or later die.

After closing the communication, Qin Tiange quickly left on a white tiger, and soon lost his trace. Only the distant blue scale python in the distance was roaring and roaring.

Chapter 294 - Super ice crystal

There was a group of people in a meeting in the grand building. In addition to the people sitting on the main seat looking real, others looked a little hazy, like a ghost.

That's right, it's a ghost!

“Everyone, this is my first meeting remotely.”

On the theme, Qin Tiange looked serious, and swept through a group of high-level officials gathered at the scene. They were all ghost images, which were released through the self-subsystem.

At the same time, in the conference room of the base, high-level personnel from the base of Yigang gathered and sat side by side, quietly watching a phantom on the theme, which was Qin Tiange.

He is not in the base himself, but he can project his own body image through artificial intelligence, and have meetings with senior officials.

“Zhuo Tianfan talked about the current state of the base.” Qin Tiange faintly opened his mouth.

Aside, Zhuo Tianfan immediately stood up and solemnly said: “General, the base is currently being stepped up construction and relocation, and most of the survivors have moved to the outer base. The relocation will be completed within two months.”

“The main base is being stepped up as a military factory. At present, the most important thing we have is steel, which is not much anymore.” Zhuo Tianfan said this.

There is not much steel in the base, even if it is collected in the Shenzhen city, it is not enough for the construction and application of the entire base, not to mention the need to build weapon armor and so on.

Qin Tiange thought a little bit, and turned his head and asked, “Wo Lao, is there any good news from your Ministry of Science and Technology?”

Mr. Wu, who is in charge of science and technology research at the Ministry of Science and Technology, stood up and said, “At present, our Ministry of Science and Technology has thoroughly studied the synthesis of several special steels, but the cost is high.”

“The only special material that is cheap and can be produced in large quantities, we are stepping up to overcome these difficulties.” Wu Lao said, paused.

Qin Tiange thought suddenly, and suddenly asked, “Is Wu Lao’s low-cost material meant super ice crystals?”

“Yes, the general is great.” Wu Lao had to sigh.

Qin Tiange seems to know a lot. For example, the artificial intelligence self-made by him is a real high-tech product.

Moreover, he also knows a lot of scientific and technological knowledge, perhaps all the knowledge passed on by the science and technology ball, so Wu Lao had to be surprised by the huge brain capacity of Qin Tiange.

“What is a super ice crystal?” Liu Yan and others were curious and came over.

I saw, Wu Lao clapped his hands, and a virtual screen appeared in the center of the meeting room, showing a large piece of ice crystals.

He pointed to the ice crystal and said, “Look, this is the super ice crystal. We have just made a preliminary sample, and the effect is very powerful.”

“This super ice crystal is ice, but it is not ordinary ice, but an extremely powerful special ice crystal. Its strength exceeds titanium alloy. Its toughness, impact resistance, burn resistance, etc. have many advantages.”

Wu Lao said with a look of surprise: "This super ice crystal does not melt even at a high temperature of 8000 degrees Celsius, and is very light in weight. It can withstand various pressures and blows. Only a small slice can be opened. "

"so smart?"

A group of high-level executives were stunned. Is there such a powerful ice crystal? They suddenly thought, how amazing is the defense if they are made into armor with such super ice crystals?

Qin Tiange was contemplative, then said, "Wu Lao, has this super ice crystal production and synthesis technology been completely consumed and can it be mass produced?"

"Not currently, there are several technical difficulties, and some key core technologies have been castrated. We are intensifying research and reasoning out." Wu Lao carefully stated the current status of this technology.

Super ice crystal technology is a super-strength, super-new material technology. At present, only preliminary samples are made, and they are still inferior products, not finished products.

Only after thoroughly digging into this technology and even figuring out the core secrets that have been castrated can they be truly applied.

"Intensify our research and work with our partners to calculate the core technology and mass-produce this super ice crystal as soon as possible. Our first batch of sky warships will be made with this super ice crystal." Qin Tiange immediately took the board and let the Ministry of Science and Technology step up the study.

Wu Lao nodded and took on this task, naturally it is clear that this is the top priority. If the super ice crystal plan is completed, then the polar steel in the future will no longer be missing.

Steel is too ordinary. Once the super ice crystals are mass-produced, the future base will use countless super ice crystals to build things.

This super ice crystal can be used for both the weapon and the base itself, but it takes a little time to overcome the difficulties.

"In recent days, there have been heavy rainfall. The base must be prepared for flood control. I feel that a major flood will come."

In the conference room, Qin Tiange looked very solemn and warned the base's senior staff severely.

The news made everyone look at it for a long time. But seeing Qin Tiange's solemn expression, everyone realized that it seemed necessary to be prepared.

Only Qin Tiange knew that the second calamity of the last days was an unprecedented flood. Of course, that was only the second year of the last days.

At present, obvious heavy rainfall has begun to appear on the whole of China and even on the earth, and it often rains heavily on both sides for three days, which is a sign.

“Grains must be cultivated as soon as possible, and as many can be cultivated as possible. The survivors at the base are organized to cultivate good fields and plant grain reserves.”

“The Floating City is planned to be carried out as soon as possible, and our central core base will serve as an early test of the Floating City.” Qin Tiange explained several things in succession.

Next, a group of senior executives discussed the development of the future base, the development and training of major battle groups, etc., and discussed and summarized them one by one.

“Liu Zheng, how is the college building currently? How is the teaching progress?” Qin Tiange asked this question at the end of the meeting.

I saw Liu Ye stood up and responded seriously: “General, the college is basically completed, the teaching is proceeding in an orderly manner, and attempts have been made to teach children to learn physical skills three groups of morning, evening and evening Learn.”

In the past, schools had broadcast gymnastics. Now these have been cancelled and replaced by physical exercises, and the children’s basic physical exercises are taught a little bit.

After listening to her, Qin Tiange nodded slightly, and then said, “Primary body technique is popularized in the college, and all the teachers and students of the college must practice.”

“Furthermore, to introduce basic body techniques into the major battle groups, we must ensure that everyone is familiar with the practice of this type of body technique.” Qin Tiange pointed out seriously that the major battle groups must learn physical techniques.

Not only that, but also to study and learn from each other, to make progress together, and to train out a stronger battle group.

“Okay, the meeting is here for the time being, and everyone is here.”

The next moment, Qin Tiange looked a bit wrong, and announced the adjournment, hurriedly ending this remote meeting.

After closing the projection system, Qin Tiange stood up, picked up the halberd, walked to the window with a dignified expression, and looked down quietly.

“It seemed like something was coming ...”

Qin Tiange quietly looked out the window, frowning frantically, and was very alert. During the meeting just now, he felt a weird breath, which was definitely not human, but not like a zombie, it was weird.

It was because of this breath that he hurriedly ended the meeting and was vigilantly looking at the situation outside the building.

Ok?

Suddenly, a red shadow emerged from the street corner in the distance, quickly, and ran towards the distance.

Chapter 295 - Blood corpse

Qin Tiange's eyes narrowed, and he continued to flash Yinmang, seeing a blood-stained shadow flashing on the street corner, although fast, but could not escape his sight.

“Zombie?” Murmured, Qin Tiange speculated that the **** shadow should be a zombie, but why is there something wrong with the breath?

Thinking, he immediately got up, picked up the halberd, and mounted the white tiger to catch up immediately. He always felt that the **** shadow seemed to be coming at him, not knowing why he had left.

White Tiger was fast, along the faint breath left behind by the **** shadow, chased for more than an hour, and finally stopped in front of a mountain.

“Into the mountain?” Outside the mountain, Qin Tiange rode the white tiger, with contemplation, constantly thinking about the **** shadow thing, even went into the mountain.

This is a bit wrong. Most zombies will not enter the mountain because there are more mutant creatures in the mountain. Once the zombies break in, they will become the rations of the mutant creatures.

In particular, some poisonous insects have the greatest love for the carrion of zombies, and the crystal nuclei attract these mutant poisonous insects.

“Isn't it a zombie?” Qin Tiange asked another question.

Soon, he decided to catch up, always feeling something wrong. He was faintly aware of the smell of zombies, but different, as if a little more.

After thinking about it for a long time, he finally thought of a point, that **** shadow, a breath of living people than ordinary zombies.

Yes, the breath of a living person is a little weird and amazing. Isn't it a contradiction for a zombie to have a living breath?

“Xiao Bai, catch up.” Qin Tiange looked cold, holding the halberd, urging Bai Hu to hurry up to catch up.

Bai Hu leapt, and went straight into the mountain, following the little breath left by that **** shadow, and quickly chasing up.

I don't know if he intentionally attracted Qin Tiange to come. The **** shadow that remained along the way was very obvious, which was a bit wrong.

“Be careful, that thing seems to have brought us on purpose.”

Qin Tiange patted the white tiger, reminding this sentence, he already guessed that the **** shadow was deliberately attracting them.

Although the purpose is not clear, it is definitely not a good thing. Be careful about everything.

After listening to it, Bai Hu slowed down, and chased carefully, while watching the bushes and bushes around, while chasing up along the breath.

Not long after, Bai Hu came to a cave with Qin Tiange and stopped, staring at the black cave in front of him, revealing a dreadful light.

Feeling dangerous, White Tiger was wary of what was hidden in the cave and seemed a little restless.

“Go, let’s go in and take a look.” Qin Tiange didn’t hesitate, and a wave of Euphorbia made Bai Hu take him into the huge cave in front.

The cave is dark and there is almost no light, but it has no effect on Qin Tiange’s current vision and can see clearly.

As soon as I stepped into the cave, there was a strong **** smell coming out, and I almost thought that there was an attack. As a result, a dark wind was blowing on the face with a thick **** smell.

“So strong **** smell, what’s in it?” Qin Tiange looked surprised and had to be alert.

He raised the halberd, and the white tiger seemed very irritable along the way, but the tiger teeth were faint, but instead of making a sound, he suppressed the urge to growl.

The further you go, the richer the **** smell, no need to choose at all, just go in along the thick **** smell, and soon came to a spacious underground cave.

Tick, tick ...

The cave was very quiet. From time to time, there were sounds of crisp dripping water, which looked particularly sultry in the dark and silent cave.

Even more frightening is that the **** smell in the cave is so strong that it is disgusting, especially in this huge cave space, there is a faint **** mist everywhere.

After walking through this huge cave, along a natural passage, Qin Tiange and White Tiger came to the end of the cave, where the **** mist was more dense.

Roar...

In the **** fog, there was a faint roar of groan, as if the beast was hiding in it, exuding a sense of anger.

“Blood mist, corpse gas, is it blood corpse?”

Bai Hu stopped, Qin Tiange showed contemplation, and suddenly thought of a possibility. There is **** mist everywhere, that is, corpse gas, and the **** smell in the air is particularly strong, revealing a peculiar breath of zombies, but there is a touch of living breath mixed with it, it is weird.

Roar!

Suddenly, the blood mist tumbling, and a roar came, followed by the blood shadow culling, with the sensational murderous power, straight to Qin Tiange’s head.

It was a blood-stained shadow, extremely fast, and ordinary people had no time to respond to the sudden attack, but Qin Tiange and others were prepared.

Huh!

The halberd stabbed in a sideways blow, and the ***** shadow pounced in the middle blocked the opponent's surprise attack and forced the ***** shadow to manifest.

It's three meters high, with red blood throughout the body, two eyeballs revealing the sensational redness, staring directly at Qin Tiange and sitting down with a white tiger, full of bloodthirsty.

"Sure enough, it was a blood corpse. I didn't expect to run into a blood corpse?" Qin Tiange saw the blood shadow being forced out of the prototype, and immediately felt amazed.

He guessed right, Blood Shadow is a blood corpse, and it is also an extremely powerful blood corpse, at least a four-star blood corpse.

The so-called blood corpse, in addition to artificial breeding, also has a kind of spooky metamorphosis produced by the natural birth of a zombie mutation. The whole body is blood red, known as the blood corpse.

This type of zombies is extremely special, because they have already acquired a great deal of wisdom and had the ability to think while mutating.

In front of this four-star blood corpse, definitely has the wisdom of not weak human beings, and those ***** pupils are full of coldness and deceit.

"Hehehehehe ... another delicious dish was delivered to the door." The blood corpse smiled and his teeth were glowing with blood.

It spoke a creepy word, but Qin Tiange was unmoved and stared at the blood corpse in front of him.

"You led me here, did you just laugh at me?" Qin Tiange crooked his head and said with a scornful look: "You laughed awfully, and you looked awful, it seems that you were an ugly monster in your lifetime, No wonder you will become like this ghost. "

Roar!

As soon as the words fell, the blood corpse shouted in anger, staring at Qin Tiange fiercely, a pair of blood claws struck the rocks next to it, and cut hard rocks like tofu on the spot.

It symbolically licked his scarlet claws, and he smiled: "Human, you come to my place, that is equal to my mid-course meal, don't try to run."

"Run?" Qin Tiange said with a scornful look: "Only your four-star blood corpse can make me escape? Unless you are a six-star blood corpse, it is possible."

"Roar ... speak, then you die."

The blood corpse was furious, and roared and slammed it up. The speed was lightning fast, and it came quickly, but unfortunately it was greeted by a heavy, unmatched halberd, which fell on the head.

boom!

The blood corpse's claws are held high to block the sudden halberd, and the heavy and violent force makes it unable to resist sinking into the rock, and its feet are completely sunken.

Anger, endless anger erupted from its heart, with a bang, the blood corpse's two claws shook fiercely, pushing the halberd above its head, and retreating quickly.

“Hey, hey, hey ... you're going to die, and be my nutrient.”

The blood mist swelled, and the blood corpse concealed the figure, but a horrible laughter continued to be heard through the fog.

“Pretend to be a ghost and you have this ability.”

Qin Tiange looked disdainful, suddenly dancing the halberd, slamming forward, and an invisible pressure suddenly rushed away, breaking the ***** mist of flying sky.

boom!

The blood mist exploded, revealing the real scene ahead. There was a huge pool full of thick, ***** liquid.

It was blood. A blood pool appeared in front of the eyes, and the blood corpse stood in front of the blood pool, staring at Qin Tiange with eyes, as if treating a lamb to be slaughtered.

“Blood Corpse, Blood Pond, Baby, is it training spirits?”

Seeing this scene, combined with the words of the blood corpse just now, Qin Tiange narrowed his eyes, his brain was thinking quickly, and he immediately thought of the key question. What kind of spirit does this blood corpse seem to be training.

Sure enough, after careful observation, Qin Tiange saw a ***** thing on a raised rock in the middle of the blood pool.

Chapter 296 - Blood Jade Ganoderma

A mouthful of blood pool, nine meters wide, full of blood, there were several pale corpses floating in it, exposing their heads and not staring.

Even more weird is that these corpses are gradually melting and become part of the blood pool, turning into a blood-red solution, absorbed by the bright red stone in the center of the blood pool.

“Blood jade, ganoderma?”

Qin Tiange narrowed his eyes and flashed a shock, the stone turned out to be a large piece of blood jade, standing in the middle of the blood pool.

What surprised him was that there was a strange thing growing on the blood jade, like a ganoderma lucidum, full of blood and crystal clear.

He looked at the ***** corpse in front of him, saying strangely: “Unexpectedly, you actually planted Ganoderma on blood jade?”

Blood jade Ganoderma lucidum, this unique way of cultivating spirit grass and its weirdness, must use the flesh and blood of the living body to form a blood pool, and then use the blood jade to absorb the energy in the blood pool to feed the ganoderma grass that is parasitic on blood jade.

This is called the blood jade ganoderma lucidum, the method is weird and scary, and the spirituality planted is even more weird, like a living thing.

“Hey ...” The blood corpse showed black teeth and sneered: “You should know that this is blood Ganoderma, then you should know, just send a living person to the blood sacrifice, and I can plant the best The blood Ganoderma lucidum can completely replace the carrion and corpse gas when it is eaten, and thus be reborn and become the king among the corpses. “

Blood corpses, cultivate blood Ganoderma, in order to transform themselves, transform a rotten flesh into a living body, completely get rid of the rancid smell of zombies, and evolve into a more terrible zombie, just like a living person.

Qin Tiange was stunned, no wonder that there was a trace of living breath on this blood corpse. It turned out to be this way.

However, he immediately smiled, staring at the blood Ganoderma and said, “Thank you very much for your generosity and generosity, and even brought me here. This strain of Blood Ganoderma is very useful to me.”

“To thank you, I will send you on the road with the strongest blow without pain.”

Qin Tiange sneered, his voice disappeared, and his body disappeared. Opposite, the blood corpse changed slightly. I did not expect the other party to be so fast, but it was not bad either.

Huh!

Euphorbia turned into blue light, flashing continuously in the dark underground caves, bursting into splendid sparks, the figures were staggered, and a bang was heard, and the blood corpse was hit on the wall.

“Ghosts and halberds, die!” Qin Tiange held both halberds and whispered, a thick blue mist rising from his body, and then the stars were intertwined with the halberds, and an instant of overwhelming power broke out.

With a bang, a huge cyan shadow continued to pass, and the halberd was hazy, sticking straight into the chest of the blood corpse.

Just listening to the thump, the blood corpse’s chest cracked, was penetrated by the halberd and stuck into the rock, and nailed there firmly.

“Hou ... ***** ...” The blood corpse roared, struggling desperately, but unfortunately Qin Tiange did not give it this opportunity.

The corners of his mouth sneered, Qin Tiange twisted his hands with his halberd, and a crackling sound came, and half of his body was smashed.

Immediately afterwards, Euphorbia turned into a green awn, pierced through its head, and the speed was so fast that the blood corpse could not respond, and it was impossible to escape. It pierced the brain on the spot and died.

The four-star blood corpse was killed by Qin Tiange in few rounds. I have to say that this blood corpse was unlucky, and this is the end of the underdog.

It thinks that Qin Tiange is not strong, that is, White Tiger is a little stronger. Most of his mind is on the side of the dormant White Tiger, and Qin Tiange is killed cleanly.

“Huh, this is to despise my end, do you really think that my white horse is worthy of your vigilance?” Qin Tiange sneered, provoked the dead body of the blood corpse to the edge of the blood pool, and directly dropped the blood pool.

Grunt grunt ...

There was a sudden burst of blood bubbles in the blood pool, and the blood inside was boiling. Soon the blood corpse completely melted, even the four-star blood crystal nuclei melted.

At the same time, the blood in the blood pool was flourishing, and the central blood jade fluoresced, constantly absorbing the huge blood energy to support the spiritual wisdom on the blood jade.

The blood jade ganoderma is about to mature. If it has absorbed enough energy, it will be a little bit close to maturity.

The nine-inch-high ganoderma lucidum, which is above the blood jade, absorbs the nutrients provided by the blood jade, and opens nine leaves, the branches are crystal clear, transparent as jade, and the ***** luster flows inside. This is the blood jade ganoderma.

Huh!

Suddenly, the blood jade ganoderma made a light noise, and the nine leaves seemed to be exhaling, and a burst of ***** mist spewed out, constantly transpiration, just like swallowing clouds.

At this time, the blood jade ganoderma is fully mature and ready to be picked.

Qin Tiange took joy, let Bai Hu stay beside him, and he quickly crossed the blood pool, his figure was dexterous in the air, the moment he held the blood jade in his hand, even the blood Lingzhi was included in the space bracelet. .

As soon as he stepped on the wall with his feet, he turned back and landed steadily. Then he took out the blood jade to look at it. As soon as it was released, the blood jade was completely broken.

After a few clicks, the blood jade shattered, scattered all over the ground, and turned into a useless stone, leaving only a nine-leaf blood jade ganoderma lucidum.

Ganoderma lucidum is warm throughout the body, as if it is a kind of flesh and blood, with dense small blood vessels inside, as if beating and breathing, constantly spitting ***** mist.

“Good stuff, you can add medicine again, you can refine medicine again, and you can increase a lot of strength at that time.” Qin Tiange looked at the blood jade ganoderma, the more he looked at it, the more he liked it.

This thing is a treasure. As long as you cooperate with several kinds of spirits, you can train a good potion to enhance your strength.

Close it carefully, Qin Tiange then looked into the blood pool, the thick blood was constantly rolling and bubbling, weird blood pool, I wonder how the blood corpse found here?

“It is rumored that an undead heart can absorb blood ...” Qin Tiange murmured, and suddenly took out a black heart the size of a human head, still beating constantly, very weird.

Taking out the undead heart, Qin Tiange threw it directly into the blood pool. At that moment, a small ***** tornado was shaved in the whole blood pool, forming a ***** swirl around the undead heart.

Soon, the blood in the pond turned into a whirlpool, constantly pouring into the undead heart, exactly to be swallowed by the undead heart.

Such a weird scene, Qin Tiange couldn't help being surprised, looking at the undead heart, frowning secretly, really doubting that the eight-winged fallen angel had died, but the soul was swallowed and smelted, naturally it was dead.

An undead heart has strange and magical effects. For example, it draws infinite blood of creatures, and generates a more magical and powerful blood inside it, immortal blood.

After a few breaths, the blood in the entire blood pool was gone, leaving only a huge black heart floating there, constantly beating, and bursting heartbeat sounds, shocking.

Taking back the undead heart, and taking a closer look, Qin Tiange gradually found out that this undead heart was a little different, as if he was carrying something, revealing an extremely powerful oppression.

“Is it really possible to brew undead blood?” Qin Tiange was surprised, and immediately closed the undead heart with joy.

Regardless of whether it is true or not, the immortal heart is definitely of great use. Qin Tiange has already figured out how to use this heart. Now seeing that the immortal heart can draw blood, it seems that a stronger blood is brewing. According to rumors, Immortal blood.

Thinking of this, he was even happier, and really should thank the deity of the eight-winged fallen angel deity.

“Xiaobai Let's go!”

Qin Tiange rode a white tiger out of this cave, and he is thinking about a problem that is to prepare to go to Pingzhou, Foshan.

There is Huaxia 's largest jade market and Huaxia 's largest jadeite distribution center. Qin Tiange had this idea in his heart since he obtained blood jade ganoderma.

“Jade has a spirit, and it contains the essence. Many people in the previous life drove out a variety of essences from the jade. Even rumors have it that someone once drove a jade elf and didn't know the truth.”

Riding a white tiger, Qin Tiange fell into memories, and his heart was fiery. He thought of all kinds of jade stones under the scouring and mysterious effects of dark energy, and a variety of essences and spirits were born.

Even some jade stones have gained chance and become jade elves, which is tantamount to an all-natural being and spirit.

“There is nothing wrong with the base for the time being, it would be better to go to Foshan now ...”

In the end, Qin Tiange gritted his teeth and made a decision directly. To go to Pingzhou, Foshan, where there are a large number of jade raw materials, it is definitely a great opportunity not to be missed

Chapter 297 - In the big era, who is up and down?

At the Humen Bridge, a white tiger rushed fast, much faster than an ordinary car. With a four-star rating and a five-star white tiger about to be promoted, the speed is naturally fast.

On the bridge, scrapped cars, wandering zombies, and hordes, but could not stop the ferocity of Qin Tiange's hands and the white tiger.

boom!

One halberd killed two zombies blocking the road in front of him. Qin Tiange jumped up a broken car and smashed the corpse in the front, killing two on the spot.

It took only two hours to get to the Humen Bridge from Shenzhen, but there were too many corpses on the Humen Bridge.

In addition, the Nansha District across the bridge is full of corpses, densely packed, and it is difficult for ordinary people to kill them.

“Little white, kill it!”

Qin Tiange was so cold-faced that he killed his zombie and killed the zombies on the bridge.

The white tiger roared, and the halberd was heavy. The combination of the two was like a meat grinder, killing its head and rolling its flesh.

Roar...

The corpses are surging, and how many are killed, most of them are ordinary zombies, because they can eat too little, so the evolution rate has been slow.

Only some zombies have good luck and eat a lot of mutant creatures or humans, which has accelerated the evolution speed to become advanced zombies.

On the entire bridge, there were dozens of zombies with two stars to Samsung, but the number was not large, and it was not Qin Tiange's opponent, and it was quickly killed.

Killing the past step by step, Qin Tiange was not in a hurry, digging the nucleus while killing, it took half an hour to cross the bridge, leaving a broken body along the way.

Roar...!

As soon as he crossed the bridge, Qin Tiange felt that the corpse in front was moving, and he was roaring wildly, rushing in one direction.

Dense zombies rushed over, and only a few rushed towards Qin Tiange, but were chopped and killed at their feet.

"Is anyone there?"

Looking at the movement of the corpse, Qin Tiange could not help guessing that someone seemed to be in that direction, otherwise it would not attract a large number of zombies.

He rode a white tiger to quickly catch up, slashing the zombies all the way, and after running across the street corner, White tiger suddenly ran up the wall of a building and reached the top of the building.

Looking down from here, I saw zombies crowded in all directions, rushing towards a huge convoy in the distance.

"Fleet?"

Qin Tiange was surprised and looked at the convoy surrounded by countless corpses. The number was large and some were modified large vehicles.

In addition, there are many armored vehicles in the convoy, surrounded by numerous zombies.

On the top of the building, Qin Tiange looked at the convoy. He couldn't see the side for a long time. He didn't know how many vehicles. He could only see dozens of huge modified trucks on this road, all welded with steel reinforcement.

"This team seems to be coming from the direction of Zhongshan and Jiangmen, isn't it ..." Qin Tiange frowned, guessing that this huge team came from Zhongshan and Jiangmen.

At this point, the convoy stopped moving forward and docked with each other to form a defensive circle. Someone in the car raised a gun and fired, and a heavily armed person immediately formed a defense.

"Notify the team behind that there are a large number of corpses in front and ask for support."

In the convoy, a leading middle-aged person used a walkie-talkie to convey the situation here. The convoy encountered a large number of zombies.

Dozens of vehicles in front of them all gathered together to form a defensive circle to resist each other and kill the surviving zombies.

However, there are too many corpses, killing one to herd, densely packed, as if endless, and it is scary to look at.

The support of the following teams arrived, but due to the movement here, more and more zombies came up, and as a result, a large number of the teams behind to support them were trapped in the corpses.

Hundreds of large modified trucks formed ten defensive convoys, each surrounded by dense zombies.

From a height, Qin Tiange accurately captured that in some vehicles, survivors, women, and children shivered in the car shivering, and did not dare to make a sound.

“It really turned out to be a fugitive. It seems that Zhongshan and Jiangmen have changed, and they may have fallen.” Qin Tiange sighed, guessing that nine or nine would not leave.

Hundreds of large trucks, most of them are loaded with a large number of survivors. Women, children, and the elderly are few, the most are young and strong, one by one armed, resisting the siege of the zombies.

“Captain, the situation is not good. We are running out of ammunition. It will take time for the big troops to come. But we can’t support that time.”

In the convoy ahead, several armed men shot wildly, but there were too many zombies, and their ammunition was insufficient, and they were about to dry up.

The middle-aged captain looked dignified, picked up the walkie-talkie and said, “Here is the vanguard team, here is the vanguard team. We encountered a large corpse siege, ammunition was scarce, and we asked for support.”

Rustling ... rustling ...

There was a rustle from the intercom, but unfortunately no one responded, as if the communication was blocked, so that everyone present was in a heavy mood, and they could not contact the large troops behind.

“Captain, you can’t keep it!”

Someone yelled, snarled wildly, and the submachine gun Kaka clicked through the bullets. No more bullets were fired. They could only use the steel spikes to assassinate those zombies from the protective layer in the car.

However, as the ammunition dried up, the corpses swarmed up, completely submerging the fleet defense circles.

“Say yourself, the electromagnetic gun covered this area and destroyed all the zombies 30 meters away from the convoy.”

Suddenly, Qin Tiange connected his self, opened the video positioning, and let him turn on the electromagnetic energy cannon to lock this area.

“The position is locked, the electromagnetic energy cannon is recharged ...” A voice of self-confidence came, a touch of charmingness in solemnity.

At this time, the people in the convoy were panicked and drowned by the corpses, which meant that they were completely played. It was impossible to kill them. It didn't take long for the vehicle to be overturned and then brutally demolished by the zombies. Tragic death.

“It's over ...”

“We were drowned by the corpses.”

In the team defense circle, many survivors looked panicked. Even the fighters seemed very scared and felt like they were finished.

I fled all the way and encountered countless dangers, but I managed to kill here, but I was about to bury my body.

“Request support, request support!”

The middle-aged man held the intercom and shouted again and again, his throat was hoarse, a pair of tiger eyes faintly weeping, and his heart was sad.

boom!

Just when everyone was desperate, a huge shock came and a thunder exploded, and the corpse exploded, and countless zombies were burned to the ground.

Immediately afterwards, a terrible roar kept coming, the earth shook, the high-rise building collapsed, a billowing smoke was set off, and the corpse was blown up.

“what is that?”

In the convoy, someone saw through the car window a huge beam of light hitting the distant sky, and instantly covered the area of the convoy 30 meters away, one after another, blasting all the areas outside the corpse. .

boom!

Suddenly, a beam of light struck the edge of the building where Qin Tiange was located, almost smashing the building.

Qin Tiange trembled his face and said silently, “Did you, did you do it on purpose?”

“Master, I have no intention, but there is a small problem with the electromagnetic energy. It seems that the internal parts have failed, um ... it is broken.” As soon as I heard his voice, the huge beam of light whistling from the sky disappeared. .

Yes, the large energy cannon in the base was broken and failed. Several consecutive super-strength fires were fired, and the internal parts couldn't withstand the full power bombardment and broke down.

“Broken?” Qin Tiange stunned, then speechless, but looking at the zombies that were blown up all around, it was broken.

He believes that Wu’s group of scientists will be able to repair it and even use the large electromagnetic energy cannon to develop the electromagnetic cannon that belongs to them.

“Who supported us and saved us?”

In the convoy, groups of survivors were stunned, watching the huge pits that were blown up all around, the building collapsed, turned into ruins, and numerous zombies were buried.

After being bombarded again, the corpses became chaotic, and the number decreased greatly. Almost 90% of the zombies were blown up.

“We are saved.”

“Quick, kill these zombies.”

In the end, cheers erupted from everyone in the convoy, and most of them burst into great enthusiasm and began to kill scattered zombies nearby, which quickly and completely lifted the crisis.

The head of the team, the middle-aged man, frowned, looking at the top of the only building in the distance that had not collapsed, a white tiger stood proudly.

“Did he save us?” The middle-aged person flashed this question in his heart, and saw Bai Hu leap forward, carrying a young man quickly to the team, causing a lot of commotion.

“Where are you from?” Qin Tiange asked directly when he came.

Although the middle-aged man was puzzled, he still honestly answered, “We fled from Zhongshan, and some came from Jiangmen to prepare for the Guangcheng Military Region.”

“Has it fallen?”

Hearing this news, Qin Tiange’s face was complicated. Needless to say, Zhongshan and Jiangmen fell, originally the Shenzhen Stock Exchange took the lead, and then the cities fell.

Now, under his auspices, Shenzhen City has established a huge and solid base, defending against the tide of corpses, stubbornly taking root, and not falling.

Now, other cities have begun to fall in succession. This is the largest refugee wave in the last days. A large number of fugitives have begun to appear between cities in the whole of China, flocking to larger cities, or fleeing the army Guarded military area.

Others, ambitious, consciously gathered a large number of fugitives in the middle, forming forces of all sizes, gradually annexing and expanding, and eventually established scattered gathering places.

Large and small gathering places form forces, and will be blooming all over China. At that time, a group of heroes will emerge, and a dark, bloody, chaotic, and disorderly era will come.

A big era is coming, and with the fall of many cities, refugee flows gather together, gradually forming forces of all sizes.

In the future China, who will rise and fall?

“Yes, what happened to the beams of light just now?”

The middle-aged man looked at Qin Tiange and suddenly asked this question, and all the survivors who got off the car looked at him with hope in their eyes.

Qin Tiange glanced across the convoy, and saw all the refugees who were looking yellow, needless to say, their food should be finished.

“Just now, it was a large electromagnetic energy cannon from the Shenzhen city base. I called the base gunfire to support you.” Qin Tiange didn’t conceal it, and directly told the truth.

But that was the sentence, but a large group of survivors at the scene were stunned, staring at the young man stupidly, turned out to be the artillery support he called for?

Chapter 298 - Yi Zi Er Shi, human tragedy

Instead of heading to the Guangcheng Military Region, the convoy continued to cross the Humen Bridge directly and headed towards the base location as Qin Tiange said.

“Captain, Shenzhen has a huge population and more zombies. Are we really going to Shenzhen?”

“Yes, is that man’s statement credible?”

In front of the team, the middle-aged captain of the vanguard was pensive, listening to the questions and concerns of the players around him. In fact, he was more worried.

But a while ago, the gunfire support was not an ordinary artillery, but a new type of super weapon, a magnetic energy gun.

A base with such a weapon, at least the defense strength will not be weak, and can accurately locate from the base, and even cover the blow, it can be said that the strength is absolutely amazing.

“Don’t forget the artillery fire just now. It was a magnetic energy gun. Do you think he would deceive us?” The middle-aged man said lightly, persuaded everyone, and even convinced himself.

Qin Tiange showed them the route, and even called a battle group in the base to come in, just to enlarge his base.

Such a huge fleet, a pioneer team consisting of hundreds of large trucks, has at least 30,000 people. Such a huge team is only a pioneer team, and the number of refugees behind will not be small.

This force naturally needs to be gathered, otherwise it would be a pity if it was broken on the way to the Guangcheng Military Region.

Even after the road is blocked, there is no hope of going forward. This large number of refugees will choose small towns to establish bases, forming large and small forces.

If you can meet it, naturally let it go. First gather in the base and expand the base of the population, so that you can develop your own forces faster.

“Self-confidence, order to the high-level of the base to expedite the clearance of the safe area within 30 kilometers of the base.”

At the top of a building, Qin Tiange rode a white tiger and watched the convoy passing the Humen Bridge quietly.

On the one hand, he instructed his own self and ordered the high-level of the base to clear the area 30 kilometers away from the base as soon as possible as a safe area.

“Okay, what else does the master say?” Ji Ji’s voice full of charm came without seriousness.

After thinking about it, Qin Tiange said again: “It’s temporarily gone. I’m going to Foshan. You can help me look at the base.”

“Observe, my master!” Jiji responded seriously.

Qin Tiange waved his hand, watching a charming figure projected on his wrist, and said, “Okay, I’m gone, tell me anything.”

“Master, Xunji will miss you, why not!” Xunji fluttered a playful kiss, which aroused Qin Tiange’s eyes.

Qin Tiange’s artificial intelligence makes Qin Tiange speechless, yelling, but fortunately it is not a real person, otherwise there is a fox essence around, a man can’t hold it.

With a bit of bitter smile, Qin Tiange rode Bai Huyue down the roof of the building, disappeared here quickly, and headed for Foshan area.

As for those who were fleeing, he was out of control, and left it to the top of the base to do his work.

...

Running along Panyu Avenue, before dark, Qin Tiange finally came to the south of the bridge in Panyu District, which is close to the central area of Panyu, with a lot of zombies.

However, with the outbreak of corpses in various places, which led to the fall of multiple cities, the fugitives fled to the bases of major military regions in China.

A large number of fugitives appeared in Panyu District, fleeing from all directions, and gathered into a group of refugees to flee to Guangcheng.

“Well ... delicious, delicious!”

In a cultural park, a large number of refugees rushed into the park. When they saw the green grass, they grabbed it and sent it to their mouths. They dug grass roots and ate leaves. The whole park was in a mess.

The refugees were all ragged, their skin was yellow and their skin was thin. They were obviously undernourished. They had been hungry for a long time. They fled all the way and ate all the grass roots.

“this is mine!”

Some even fought for two wild fruits, twisted into a ball, and kept screaming that it was their own.

In the entire park, there were no zombies and no mutants. It was just a group of survivors who fled here, rushing in, digging and eating leaf bark, etc., and it was hard to believe.

In fact, this is normal. There is no food in the shops in the city. Human beings must eat if they live.

Eating grass roots and sassafras bark is not bad. Some people’s minds are distorted, their eyes are red and they eat human flesh.

“Pharaoh, discuss something with you.”

In the corner of the park, a few people gathered together to discuss something quietly.

Just listening to a middle-aged man with yellow skin and licked his chapped lips, he cried, “We haven’t eaten any meat for a month, and we haven’t eaten any rice. How can we survive these turf roots?”

“What if you don’t know the bark?” Someone said sadly.

The thin middle-aged man suddenly let out his eyes and stared at the silent Pharaoh, saying, “Pharaoh, isn’t your daughter about to starve to death?”

“What do you want?” Pharaoh suddenly stood up, staring at him with vigilance.

The middle-aged man licked his lips and proposed: “Look, that little ***** in my family is going to starve to death. Her old lady has been watching me for a while and it’s better, you and I switch over, I slaughter your one You slaughtered the little ***** in my house. How about we exchange and cook? “

“You, do you want to eat someone?” Pharaoh looked startled, and several others were frightened.

But, soon, they all showed an intentional look, all of them were red with hunger, thinking that they were not eating their own flesh anyway, what were they afraid of?

“Several of us have children at home. It’s burdensome to bring along, and to starve to death sooner or later, it’s better to switch to cooking now.” The middle-aged man’s eyes were very permeable and his words were transparent.

Pharaoh looked hesitant, but still gritted his teeth and said, “Okay, but they must be exchanged separately. Children can be reborn when they are gone, as long as they don’t starve to death.”

“Okay, agree!”

“Then we go to prepare and do it quietly at night.”

These people talked in a whisper and reached an appalling agreement. They even exchanged their children to cook food, which was simply inhuman and outrageous.

Yizi eats food, it should have only existed in the ancient times of barren, famine, catastrophe, but in modern civilized society, this kind of thing happened.

In the last days, human civilization and etiquette were completely torn up. All morals were defeated in this last day, and people's hearts were completely changed.

The tiger poison does not eat food. These people even exchange their children for slaughter and eat them as food. It is impossible to imagine that their hearts have been completely twisted.

Night fell, and in the houses near the park, groups of survivors curled up, trembling, waiting hard for the night to pass.

Suddenly, a few ghostly figures shuttled back and forth between several rooms, quietly carrying the sleeping children away.

In the park, several piles of fire were suddenly lit. There were cauldrons and cauldrons. Several men were busy in front of their cauldrons, and the cauldron was full of meat.

Vaguely visible fingers, and a head floating, his face was immature, still a child.

"It's fragrant, it's too fragrant!"

The middle-aged man was happy, sniffing the scent of meat in the pot, his saliva was flowing all over his eyes, and his eyes seemed green and infiltrating in the night.

They are actually cooking human flesh exchanging their children to eat, this demon behavior is really outrageous.

As these people were preparing to enjoy a delicious meal, a huge white tiger slowly walked outside the park, which was particularly striking in the dark.

"eat human?"

On the white tiger, Qin Tiange's face was frosty, and his eyes were murderous. Looking at the cauldrons in the park, the human meat was boiling, and his heart was boiling.

He was curious as to why there was a fire in the park. When he came to see it, he did not expect to see such a tragedy. Some people openly exchanged their children for killing and cooking. This kind of people can no longer be called people, but a wild beast.

"Who?"

The middle-aged man was startled suddenly, and when he saw a dark shadow coming under the fire, he was startled and couldn't help yelling.

"Human heart changes, moral mourning, national sorrow, national sorrow ..."

Qin Tiange walked up expressionlessly, mumbling to himself, holding a halberd, stepping into the park step by step, waving with his hand, and cut off the middle-aged man's head.

Chapter 299 - Doom is an opportunity and a test

"You you you, who are you?"

Seeing that the middle-aged man was killed, several others suddenly panicked and became guilty of a thief, looking a little scared.

The Pharaoh was holding a kitchen knife in his hand, his blood was stained, and there was a bowel on the ground, which was disgusting.

In the light of fire, these people looked very embarrassed, wearing human skin, but inside they were a living demons.

Doomsday is not only a disaster, but also an opportunity. It is also a test that tests the human heart, tests human nature, and tests the entire nation.

“Human nature is lost. What are you still doing?”

Qin Tiange was expressionless, came with his halberd, and scared the men in panic, while Pharaoh showed embarrassment.

“What do you know?” He shouted with a loud roar, “We are all starving, but we are just exchanging some meat to eat, you are nosy.”

“Brother, do not regret and fear when you have done it, go together, slaughter his bacon and take it on the road, and it will be safe in Guangcheng.” The old king immediately called and drank a few others to kill Qin Tiange. This nosy guy.

When a few people heard this, it was the same principle. They immediately waved the cleaver, and rushed up with mad face. They wanted to hack the guy and eat it on the road.

“kill!”

The first Pharaoh rushed up, looking crazy and embarrassed. He had already lost his humanity. He was a demon with a distorted personality and a distorted soul.

They are dressed in human skin, but they are no longer human, but more terrible than zombies.

Woo!

A blue light passed, the euphorbia crescent broke, and Pharaoh’s neck was cut. Suddenly, blood and water spewed, his head soared three feet high, and murmur rolled in the fire.

Qin Tiange was killed without expression, and his footsteps were wrong. He staggered away from a man, and Euphorbia took a head and took off.

Like a ghost, he couldn’t catch the shadow at all, and saw the heads of the crazy people who had rushed up, and the headless body rushed forward a few steps before it fell to the ground.

For eight people, Qin Tiange gently shakes the halberds within a short time of breathing, shaking off the blood on the crescent.

He walked to a cauldron and silently looked at a little head floating in the cauldron. It was a little girl with white eyes and a long mouth, which seemed extremely painful.

Before she died, she didn’t believe she was killed, and she was killed by an uncle who usually looked kind to her neighbor.

“Well ...” Qin Tiange looked at it, and suddenly sighed, a hint of helplessness, and another thing that was unclear.

He is not a good person, but he definitely has his own bottom line, knowing that he is still a human.

Qin Tiange is fierce and ambitious. He doesn't know how many people he killed for his own benefit, but he never forgets that he is a personal person.

After the Doomsday, some people think this is an opportunity, and Qin Tiange himself thinks the same, but Doomsday is not only an opportunity, it is a disaster, and it is also an unprecedented test.

Just like the legendary great flood died out, the test of human nature is, under the last days, the human heart is unstable and even distorted.

Huh!

Pushed to all the cauldrons and piled up the dead bodies inside one by one, Qin Tiango silently looked at the children who had been brutally killed to cook, and couldn't help raising a trace of sadness in his heart.

Is this a tragedy on earth or a national sorrow?

Did the ancient Chinese people become so uncomfortable in the last days, or is it true that the human heart is like this?

Bear!

Qin Tiange suddenly raised his hand, a group of black flames rose, the flames burned, and it looked extremely cold in the dark night.

“Little guys, rest in peace!”

Muttering, Qin Tiange waved and dropped a black flame, which immediately enveloped the pile of incomplete corpses, and soon melted and disappeared, turning into a cloud of smoke and flying, constantly flying.

This slick of smoke, constantly tumbling in front of Qin Tiange, turned into a personal face, immature face, very helpless.

“Go ...” Qin Tiange sighed and looked at the faces turned into green smoke, in fact, the remnants of the bodies of the dead children.

As if he understood what he said, the little children turned into grateful gratitude and quickly dissipated in the air.

Qin Tiange knows that it is the soul, which is a strange ability in the fire of the talent of the eight-winged fallen angel that he acquired. It can make a dead person condense, but he cannot save people.

Looking at the dissipated souls of a few little fellows, Qin Tiange looked cold and rode a white tiger straight to the residence of the refugees outside the park.

In the night, one ugly transaction after another, some people quietly attacked others, and slaughtered them as food.

Some people are afraid that the fire will attract others, hiding in the corner, cruelly eating raw food, **** mouth, and living a demon is more terrifying than a zombie.

Hey ... Kaka!

In the corner, there was a sound of chewing, a dark shadow was eating raw meat, and a broken body was lying under his feet, who was killed by him.

Among the fugitives, there are people missing continuously, and they don't care about each other, because one by one, they will be dead all day long. Who cares about the missing people?

Therefore, this resulted in the existence of one more demon who quietly slaughtered the same kind of food to eat in the night, talking and laughing during the day and killing a companion who was hungry at night to eat.

puff!

The man was eating and eating, and suddenly his head was chopped off by a bluish light. His mouth was still swallowed instinctively, and his mouth was **** and looked extremely terrifying.

Qin Tiange stepped out of the darkness, followed by a white tiger. He looked at the dead body, and looked at the places where the fugitives gathered, one by one in the dark corners. I don't know how many people were eating the same kind.

“Doomsday is not terrible, terrible is the distorted human nature.” Qin Tiange murmured to himself, walking step by step in various dark corners with halberds, hacking and killing man-eating demons in the dark night.

He was not a good man, but when he saw such a situation, he naturally resolved it, and the demon in the dark one after another was killed.

After killing these people Qin Tiange left here on a white tiger and ignored the refugees who were still asleep. They didn't know that there was a group of cannibalistic demon hidden around them.

Along the way, a few people disappeared every night in the refugee group, but they didn't know that a group of devil sharpeners Huo Huo peered at them in their sleep.

Before the end, countless people do not know the value of peace and peace. They spend their days idle and complain about the country and the nation. But when the end comes, these people will find it terrible.

One day, you don't know if you were slaughtered by your fellows, friends, and even relatives in your sleep, and used it as food. This is human nature.

Only after experiencing the **** era of darkness and disorder can one find the value of order, and the rareness of wakefulness and peace.

On the land of Huaxia, I don't know how many demons are hidden in the night, and how many refugees in the ranks have such demons in human skins.

Numerous refugees curled up in the night, screaming, mourning, and scolding. The ambitionists were contemplating their own future. The civilians shivered, the poisonous beasts roared and roared, all these intertwined into a doomsday.

Chapter 300 - Witch jade clothes, spirit corpse!

Early in the morning, Chaoyang woke up!

Rushing all night, Qin Tiange looked a bit dusty, and the white hair on Bai Hu's body was stained with a layer of gray, and a little black blood splashed on the fur, exuding a foul smell.

Hurrying at night is not very peaceful, it is very dangerous. If it is not for the strength, Qin Tiange would not dare to do so. Fortunately, it is safe all night.

There are many mutant creatures in the night, and some of the most mutant insects appear in the night, swarming out in groups and seeing scalp tingling.

"Little white, take a rest and take a bath."

Soon, Qin Tiange rode a white tiger and stopped in front of a small stream. There was no danger looking around. The stream was shallow and the water was clear.

He immediately turned over, walked into the water, and took off the rancid armor stained by the black blood on his body and washed it carefully.

The white tiger jumped into the stream, jumped happily, and constantly played with water, washing the blood on his fur.

The white tiger who loves cleanliness can't stand the burial blood dirt on his body. After entering the water, he plays there, and he is very happy.

After cleaning the grill and taking a bath in Meimei, Qin Tiange came to the shore with satisfaction and started to make barbecue.

Roar!

Seeing his barbecue, the white tiger, who was playing in the water, immediately jumped up and rushed up, arching Gong Qin Tiange like a coquettish, like he was saying, I also want to eat.

"Okay, just talk." Qin Tiange laughed and cursed.

Immediately he brought in the dry wood to make a fire, took out a mutant wild cat killed last night, chopped the skin and started grilling.

Qin Tiange's barbecue technology is not good, but at least it can be eaten, and Bai Hu really likes to eat barbecue. He had eaten raw meat once and has never eaten it again.

The mutant wild cat, one meter long, is not enough for a white tiger meal. It can only be regarded as an early meal, but it is also good.

After the meat was roasted, Qin Tiange ate only one cat leg, and the rest was eaten to the white tiger, and the bones were not spit out. It was really a food.

Full of food and drink, Qin Tiange rode on the white tiger and continued on the road. After this, Foshan Pingzhou was in front of him.

"Hurrying all night and finally arrived."

Walking on the desolate street, Qin Tiange sighed, and finally came here.

This is the largest jade trade place in Huaxia. Naturally, it is here for the raw jade.

After the end of the day, the scouring of dark energy caused a wonderful change in the interior of these jadeite rough stones. It seems that there is some strange power in action, and many jade and strange treasures were born inside the jade.

In the previous life, many people were keen to find the jade rough, just because someone inadvertently opened a treasure, and then set off a wave of hunting for jade rough.

All kinds of bizarre treasures and weird psychic materials have been opened out, which really makes people eye-opening, the world is big, and everything is strange.

Roar!

In the street ahead, several zombies began to sway from the corner, and began a new day hunting career.

Zombies instinctively hid at night, only to come out during the day to slosh, reducing the end to be devoured by mutants.

The zombies swayed over, smelled the lively breath of Qin Tiange, and even smelled the fresh flesh and blood of the white tiger, and immediately roared and rushed up.

They wanted to have a full meal, but unfortunately encountered a stubble, and was killed by Qin Tiange dancing the halberd three or two times.

“Gambling Stone Street ...” Soon, Qin Tiange rode a white tiger and stopped at a street entrance, in front of which is China’s largest gambling stone base.

Inside, there are various jade and jade rough stones from Burma, which used to be the most prosperous and largest gambling base in China.

Here, it can be described as a piece of heaven and a piece of hell. Someone gets rich overnight, and some people go bankrupt overnight.

Gambling with stones is heartbeat. At present, the entire Gambling Street is long and deserted. There are no silhouettes, and only a lot of zombies are swaying inside.

Huh!

I was surprised to see a white tiger rushing in and passing by, and the zombies were hit and flew without exception, hitting the ground and struggling to get up.

As Qin Tiange’s halberd waved away, his crickets’ heads were chopped off, and soon, the streets of Gambling Market were empty.

Roar...!

At this moment, the white tiger seemed extremely disturbed, his limbs were low, and he was constantly digging at the ground, his mouth screaming low.

Qin Tiange frowned slightly when he saw the strange shape of the white tiger, and his eyes swept forward. It was an emerald rough stone shop.

“Xiaobai, what did you find?” Qin Tiange asked gently.

Bai Hu approached the shop step by step, and there were some jade rough stones scattered in front of the shop, but unfortunately they were all junk.

This shop is very large. It contains various kinds of rough jadeite stones, scattered on the ground, blood stains everywhere, and already thirsty.

After jumping off the back of the white tiger, Qin Tiange took the halberd, walked slowly into this shop, and watched the situation inside the shop vigilantly.

He felt an unusual breath, like corpse gas, but not like it, it felt like a breath of aura.

Yes, an aura that made him curious and surprised, walked into the shop carefully, there is a yard.

In the courtyard, there are several huge rough jadeite stones, the largest one weighing three tons and the smallest one weighing hundreds of pounds.

Ok?

Just stepping into this place, what Qin Tiange noticed was not these jadeite rough stones, but a figure standing in the center of these rough stones.

Yes, there is a figure there, standing quietly still, wearing a jade flashing jade armor.

“Golden jade clothes?” Qin Tiange looked up and down on the figure and was surprised to find that it was a set of gold jade clothes.

He was right, it was a set of jade clothes, made of fine jade pieces wrapped around gold wire.

How come there is a figure wearing a jade robe?

“No, it’s a zombie!” Soon, Qin Tiange found something wrong. The figure wearing a gold robe was not a human, but a zombie.

This zombie, even wearing a fine set of gold-line jade clothes, set off that exquisite and graceful figure, and it can be seen that it was a female zombie.

Qin Tiange knew a little thought that this should be an imitation specially made by the Jade Conference held on Jade Street, just for propaganda.

At that time, I found a well-known beautiful and ***** female model of China, and wore this imitated golden jade dress to exhibit.

It’s a pity that the end is coming, so undead, this model turned into a zombie. As a result, wearing a golden jade clothes, there was a wonderful change inside.

Due to the influence of jade, this zombies gave birth to the spiritual wisdom early, and can also absorb the cherished aura of the variation in the jade.

At this moment, the zombies was absorbing the rich radiance of the jade from the huge blocks of rough stones in the yard.

Roar!

As if he felt Qin Tiange coming in, the zombie turned around, opened his mouth and roared, shocking the people, and scary.

“Ice muscle jade bone?” Qin Tiange’s complexion changed slightly, looking at the zombie who turned around, wearing a gold robe and a jade Fengxia crown on his head guazi face , The skin is fair and delicate, as if carved from beautiful jade. The real thing is the ice muscle jade bone.

What surprised him was that this zombie was no different from others. Except for the crystal jade claws on both hands, no one could see that she was a zombie.

“Living person?” The jade corpse tilted its head and looked at Qin Tiange, scarlet eyes showing a trace of bloodthirsty cruelty.

“Spirit corpse?” Qin Tiange narrowed his eyes and spit out two words. Euphorbia trembled lightly and hummed. The breath was constantly intertwined and condensed. He looked at the female corpse in a gold silk jade opposite. .

Both confronted each other with great vigilance. The jade armor corpse sensed the strong threat brought by Qin Tiange, and Qin Tiange also sensed the unique aura of the opposite body.

That’s jade, it absorbed the jade aura to evolve itself. This is the most unique type of zombies. It can’t be called a zombie, but a spirit corpse.

Jade can raise people, can raise corpses!

That golden jade suit just brought up such a unique, beautiful and charming spirit corpse, which is truly amazing.
