

## Dark Ages 31

Chapter 31 - Here comes the zombies

“My name is Ge Xiao (xi) Xiaoya, Ge Ye is my Miao surname, Han’s surname is our Miao totem dragon as the surname, you can also call me Long Xiaoya.”

that is, Long Xiaoya came forward and introduced himself generously. She is a Hmong girl who can sing and dance. She came here to teach music and dance not long after she graduated. I never thought that it would be a year since I first arrived. The whole world changed yesterday.

I was originally confined to a dance classroom by a group of students, and even faced infringement by Huang Mao and others all the time.

Fortunately, there were two male teachers who had been secretly in love with her to protect her, otherwise Huang Mao would have dealt with it. The most thrilling thing was the talent. Huang Mao and others killed the two to protect her directly after changing the gun. Their suitors were almost violated by them.

It was one of the female students who ran away, and led Huang Mao and others to chase him down. When he arrived at the dining hall, Qin Tiange, a foreign youth, was killed.

Now, the first reason she stood up was because these two days, she deeply realized the sadness and weakness of the lack of strength.

If you have enough strength to protect yourself, how can you be easily bullied? If she had powerful strength, how could Huang Mao dare not respect her?

“Ge Xiaoya? Long Xiaoya?” Qin Tiange said silently, looking at Long Xiaoya in front of her, surprised that she was a Miao girl.

It’s no wonder that she can be a music and dance teacher. It turned out to be a girl of the Miao family who can sing and dance, but she can stand out at the moment when she can stand up with the first choice.

The first person to eat crabs is always the one who eats the best, so Qin Tiange recognizes this Miao girl.

“Okay, you can get a steel crossbow yourself. As long as you kill three or more zombies by yourself, then even if you are qualified, you will be rewarded with a hardened potion.” Qin Tiange said that he would not care about her.

Xiao Long Xiaoya was surprised and curious about what the hardening potion he said, but when she looked at the envy of many students around, she immediately realized that it was a good thing.

Thinking of this, she instantly grasped that the so-called quenching agent should be the key to strengthening strength.

“Thank you, I will prove myself.” Long Xiaoya Qiao blushed, assured firmly.

She said, she received a steel crossbow and a few bundles of steel arrows from Liu Ye. The two teachers were friends, and naturally whispered on the side, while looking at Qin Tiange from time to time.

can you tell me about him?" Long Xiaoya looked curiously at Qin Tiange over there, and asked Liu Ye about him.

Heliu Yan heard her ask, and looked at her with her eyes, suddenly asked: "Xiaoya, shouldn't you like him?"

Xiao Long Qiao Qiao blushed and narrowed her eyes, but her eyes were still staring at Qin Tiange.

"I advise you not to have this idea. The person is terrible. Do you know that? I will tell you ..." Liu Ye looked at it, and immediately started cracking.

Next, the team expanded and more than 50 people were added. Qin Tiange thought for a while, and finally decided to pass on the stele to exchange a batch of weapons and equipment, and the armed team, so that he could hunt for him better and faster. Kill the zombies, collect brain crystals and even mutate crystal nuclei to complete the plan.

Thirty-three boys, plus a dozen undead, a total of forty-three who had been brought by Huang Mao, Moda split 25, as a sword shield hand to expand the team. The remaining eighteen boys were gathered into a lance team.

Hagi originally had thirty swordsmen and thirty-one with Moda, plus twenty-five newly joined this time, which was a team of seventy-six people.

Wu Chang is also in demand for 30 people, led by a more obedient boy. His name is now known as Yang Xiaolin until Qin Tiange.

Twenty-three people plus eighteen new members this time are forty-eight people. Together, all the boys are one hundred and twenty-four.

As for girls, there were forty-three people, now there are twenty-one more, and they have expanded a lot, and there are sixty-four people.

Bring Liu Yan, Long Xiaoya, and two other female teachers, there are 68 women. Of course, Chen Xi is not counted, she is not in this school.

The entire team, one hundred and twenty-four boys, sixty-eight girls, can be said to have doubled in size.

The strength of the team does not mean an increase in strength and combat effectiveness, but a weakening, but Qin Tiange does not care about these. He needs more people to expand the team. It is enough to complete his plan in just four days.

I bought some armored weapons and equipment to supplement the team. At the end, Qin Tiange blended some hardened medicaments, diluted them and distributed them to newcomers to drink, enhancing their physical fitness and strength.

When all the newcomers took the diluted hardening agent, Qin Tiange stepped forward and warned solemnly: "Now, you have already obtained the advance in advance, this is what I paid for you, and

you must hunt enough Zombies have been compensated by Brain Crystal, otherwise, you are waiting to wear small shoes. “

As soon as this word came out, Long Xiaoya didn't feel anything, but was very happy, and at least initially recognized Qin Tiange's leadership.

But some people don't want it anymore. That's a female teacher. She stepped forward and said, “Don't we get this powerful medicine to increase strength without hunting those zombies?”

“Yeah, aren't you too domineering?” The two female teachers didn't seem to want to hunt and kill the zombies, so they jumped out and opposed it.

Qin Tiange didn't understand their names, and he didn't even bother to ask them, because if they didn't look at them, if they were as young and beautiful as Long Xiaoya and Liu Yan, and obedient, he could not remember them.

Humph!

When he heard the two talking, Qin Tiange sneered in his heart. Just as he wanted to step forward and teach the two teachers how to be obedient, a student hurried outside.

“Qin Brother Qin Brother, something bad!”

The student was the one he sent to follow. At the moment, he hurried to make Qin Tiange hesitate to teach the two female teachers and stared at the breathless student with a serious look.

“Drink water first, and say slowly, what did you find?” Qin Tiange said lightly, and asked Liu Ye to get a glass of water, he asked hurriedly.

The student was grateful, and murmured the glass of water. After breathing, he slowly spoke of what he saw.

“Zombies, I saw dense crowds of zombies, who were rushing into the campus outside the iron gates of the campus, and the gates could not stand up.” The student said this amazing news.

Qi Qin Tiange's eyes narrowed, and he secretly guessed that it should have been attracted by the two gunshots. He was well prepared.

“Let's go and see. Everyone is ready here to fight at any time.”

After Qin Tiange said, he went straight out, followed by Chen Xi and Moda. The three came out of the dining hall door, and before they could go to the school gate to check, they heard a loud noise coming.

**Boom ...**

There was a huge noise at the gate of the campus, and then Qin Tiange and the three saw the huge iron gate pushed down by students.

Outside the campus, a large number of zombies poured in, and hundreds of thousands of zombies rushed into the campus like a tide.

“Ready to fight!”

Seeing this, Qin Tiange immediately backed up to the door of the dining hall, and gave a loud command to fight.

The tide of corpses is pouring into the campus, and a battle of corpses is about to begin!
