Chapter 341 - 1 stone egg with dragon scales

Uh ...

In the early morning, by the Taihu Lake, the water was soaring, a black boa constrictor was splashing and rolling happily in the water, biting a huge mutant fish and swallowing it.

However, this fierce boa constrictor swam to the shore, his eyes were scared, and he looked at the man and the woman on the shore.

“This python has awakened a little dragon gene, which has a little potential, but I don’t know if it can successfully become a dragon.”

On the shore, Qin Tiange looked at the trembling python in front of his eyes calmly, and spoke the comment lightly.

The next Chen Xi glanced at him charmingly, and then said, “It’s already good, think about who can have such a python as a mount?”

This is also the case, Chen Xi can have this python as a mount, in fact, it is already very good, as for the better, unless you meet or can surrender.

“Its horns have grown back, and then let it live in Taihu Lake, let it evolve itself, and call for help if necessary.” Qin Tiange explained gently.

Chen Xi’s expression changed slightly, and he suddenly turned to look at him, and asked, “Are you going to leave, wouldn’t you like to stay longer?”

She felt that Qin Tiange had the intention to leave, and helping the boa constrictor to recover was one of the signals. Moreover, the strength of Chen Xi and Chen Lai had been greatly improved. The self-preservation was more than enough. The future achievements depend on themselves. .

“Yes, I am going to leave.” Qin Tiange turned around, holding the lady gently, smelling the aroma of her hair.

Chen Xi was bitter in heart, almost blurted out to follow him, but finally swallowed back.

Because she knew that the man wouldn’t agree and would even be disappointed. Chen Xi didn’t want to disappoint his man, but he couldn’t bear to say anything.

“It doesn’t have to be this way. The days are long. We have time. We will meet the capital as soon as I handle some things, and see the old man.” Qin Tiange smiled and comforted.

Chen Xi reluctantly squeezed out a smile, looking a bit far-fetched, she said, “Are you really not willing to take over the Sucheng base?”

“You know, marrying chickens and chickens, marrying dogs and dogs, you are my man, and my career is yours.” Chen Xi asked again earnestly.

Unfortunately, Qin Tiange smiled and said nothing, and it was impossible to take over the base of Sucheng. This is Chen Xi's best experience place, and he owns a larger base, and naturally will not take over Chen Xi's Sioux City base.

"The base of Sucheng is regarded as your training site. In the future, I hope to see your name on the assessment stone."

Qin Tiange patted her shoulders with a smile, and spoke lightly to encourage Chen Xi to understand that his man was ironed and about to leave.

Despite her disappointment, she cleared up the depression in her heart, took a delicate jade pendant from her neck, engraved with the word "chen" on the front, and the word "xi" on the reverse.

"This is the only thing my mother has left for me, now for you, forget me!"

Chen Xi said as she brought Qin Tiange to her, and her lips were gently printed.

"When will we leave?" Chen Xi asked, blushing, and blushed.

Qin Tiange thought for a while, and finally said, "Wait a minute. Whatever I say, I have to prepare a gift for Chen Hui. After all, when I first meet, my brother-in-law always prepares a gift for my aunt."

"Just spoil her, and be spoiled by you carefully." Chen Xi gave him a white look, but she was still very happy.

Qin Tiange waved his hand indifferently, and smiled: "It's nothing to pet. I have my own measure and won't let her lose her goal."

"You go back first. I asked the python to take me around to see if there were any good mutant creatures. I caught it and went back to make a gift for Chen Mao." Qin Tiange said, stepping on the wide back of the python.

Chen Xi stood on the shore, watching the python dragging Qin Tiange away, for a while, he was a little bit fascinated, and the owl did not leave.

It took a long time before she lost her turn and cleared her mood and went back.

Uh ...

In Taihu Lake, Boa opened his mouth and screamed slightly, as if talking to Qin Tiange, as if to say something to him.

Qin Tiange didn't care at first, but the mana yawned twice, which caught his attention.

"What do you want to say to me?" Qin Tiange asked, staring at the python.

The python yelled, his body swimming quickly, crossed Taihu Lake, came to the opposite bank, and climbed directly.

It was to take Qin Tiange to somewhere, which caused his attention and curiosity, and let the python take him away.

Three hours later, the mandarin python brought Qin Tiange into a mountain forest, climbed quickly, overturned stone mountains, and entered a valley that had not yet been touched by humans.

“Why did you bring me here?” Qin Tiange looked at this pristine valley with some speculation in his heart. Why did the python bring him here?

The pristine valley is home to a variety of ancient plants, some of which have even been declared extinct outside, but there are still here.

This caused his curiosity, and he saw the boa hissing, hurriedly crossing a valley along a crawling path, and stopped in front of a huge cave.

Karst caves are large, with long-lasting rock formations that can even date back to the late Cretaceous.

The python entered the hole, which was very dark, but it could not affect the sight of the python and Qin Tiange at all.

All the way down the cave, about 300 meters, the python stopped, coiled up in an ancient cave space, and lay quietly on the ground.

Qin Tiange jumped down from the boa constrictor and looked at the cave with surprise. It can be guessed that it has been formed here for at least tens of millions of years.

None of this was what he cared about. What made him cared was that there was a round stone egg in a groove in front.

Yes, Qin Tiange confirmed that he was not mistaken, it was a stone egg. The size of a basketball, covered with a dense layer of tiny scales.

“A stone egg?” Qin Tiange was curious, glanced at the boa constrictor, but he did not expect it to come here for this egg.

He determined that the stone egg full of black fine scale armor was definitely not the egg of the python, because this egg was connected to the rock below, and looked more like a fossil egg.

“Is this a fossil of a dinosaur egg?” Qin Tiange flashed a thought in his mind and looked forward in surprise.

Soon, what surprised him was that there was a breath of life in this stone egg, which was shocking.

A fossil egg has a breath of life? This surprised Qin Tiange inexplicably have to pay attention to this suspected dinosaur fossil egg.

The bottom of the stone egg is sticking to the rock part, which has been weathered, but the surface of the egg shell is bright and bright, and the small scales are dense and dense. It feels very shocking.

“The creatures inside are still alive and may be ancient extinct species.” Qin Tiange observed this bold guess for a long time.

Gradually, a smile appeared on his face, and he murmured, “I was still trying to catch something to make a gift for Chen Yun. It seems that this stone egg is just right.”

There are still life fluctuations in the stone egg. Although it is very weak, it can never hide Qin Tiange's keen sense.

He took out a test tube filled with green liquid and gently poured a drop of liquid on the surface of the stone egg. Immediately, the stone egg absorbed the drop of green liquid.

Suddenly, a stronger wave of life erupted inside the stone egg, and it even produced a slight tremor, as if very happy.

“There is a play, but I don't know what paleontal egg?” Seeing here, Qin Tiange basically determined that the stone egg was still alive, so he was relieved.

The only curious thing is, what kind of creature is in the egg?

Click!

I saw that Qin Tiange pulled out the ancient sword, and directly cut off the part of the rock egg that was connected to the rock, and dug out the stone egg that had been sleeping for countless years.

Holding this stone egg in both hands, Qin Tiange couldn't help his heart, but thought of preparing a gift for Chen Yi, and finally gave it to her.

“Forget it, I have white tigers, more macaws and suzakus, and even little fairies. There are already a lot of them, and this stone egg will be given to Chen Yi.” Qin Tiange muttered to himself, and finally decided to leave to Chen. Hey that little aunt.

After collecting the stone eggs, Qin Tiange turned around and never found out, so he let the python take him back quickly.

Chapter 342 - Smelt 1 furnace magic potion

At the Sucheng base, Chen Xi was in a daze in the yard.

“Sister, sister ...”

Suddenly Chen Chen hurried in, opened his mouth and asked, “Where is your brother-in-law, where is my brother-in-law, I have practiced a triple-strength trick.”

She said she was still excited and raised the bow in her hand. The little face was excited, and she was very cute, but soon she realized that her sister's face was not right.

“Sister, what's wrong?” Chen Yan put a smile on his face and had an unknown feeling in his heart.

Sure enough, Chen Xi turned slowly, exhaling softly, and said, “Your brother-in-law, he has already left and left Sioux City.”

“What?” Chen Xi jumped up after hearing it, exclaimed: “Why did your brother-in-law leave, how could he leave?”

Chen Xi looked at her strangely: “Why are you anxious when your brother-in-law is gone?”

“No, nothing!” Chen Xun’s face was not good-looking, and he hurriedly explained: “Sister, you see, my brother-in-law just arrived, and he didn’t bring a small gift to others for the first time, so he left, what can I do?”

“A gift?” Chen Xi couldn’t help crying, then pointed to the stone table in the yard and said, “Look at it for yourself, it’s the gift your brother-in-law just left, saying it was for you.”

“Really?” Chen Kun was surprised and turned to look, there was a basketball-sized stone egg on the stone table.

The outer surface of the egg is full of dense dragon scales, which looks extremely weird, with a strong breath of life inside.

Chen Xi said complexly: “Your brother-in-law said that this stone egg was given to you as a meeting gift. As long as you pour it with blood, you can sign a blood deed with the ancient creatures in the stone egg, and slowly wait for it to hatch later. There are pets. “

“Stone Egg?” Chen Yan stared wide, staring at the stone egg flickeringly, turning around it, but unfortunately couldn’t see anything.

There was nothing special except that the stone egg was full of strange tiny dragon scales, but she happily hugged the stone egg and left.

“Even if my brother-in-law has a conscience, then I don’t remember to hate him, hum ...” Chen Yan raised his head and held the stone egg away.

Seeing this, Chen Xi smiled bitterly, remembering Qin Tiange’s explanation before leaving, and couldn’t help sighing secretly.

“This **** actually made me recapture the four cities of Wuxi, Changzhou, Jiaxing, and Huzhou. Is it too much for me?” Chen Xi was speechless, thinking of Qin Tiange’s explanation.

Before Qin Tiange left, explain to her some things, such as setting a small goal for her, that is to regain the nearest cities.

When she does, Qin Tiange will naturally appear. If she can’t, the date of meeting will be delayed later.

Here Chen Xi is thinking about the next development plan of Su Cheng, and in the room, Chen Min beats the stone egg with a pillow.

“Smelly brother-in-law, bad brother-in-law, demon brother-in-law, don’t tell me when you’re gone, kill your conscience, kill your dead demon, **** ...”

Chen Qin waved the pillow, beating the egg, as if beating Qin Tiange.

If Qin Tiange knew it, he would have to vomit blood three liters, but unfortunately he didn’t know.

...

At this point, Qin Tiange has come to the southern mountain of Beijing. It used to be an extinct volcano but was hit by dark energy after the end of the day. The underground magma was actively boiling, causing the extinct volcano to become an active volcano.

Why Qin Tiange came here, naturally, relied on the underground fire here to refining a furnace of worldly medicine.

“Beyond the front is the Dharma Wall, and then it is Tianchi, and then the alchemy well ...” Fangshan Scenic Area, on a stone road, Qin Tiange looked at the front, and the mist was transpiration. The air here was filled with dense anger.

He soon arrived at the Damocchi, crossed the sheep’s intestine trail in front, and reached Tianchi.

Fangshan Tianchi, the lake is clear, but the mist on the water is transpiration, and the water vapor is intertwined, forming a cloud covering the sky, looming and revealing a mystery.

Ok?

When he reached the mountainside, Qin Tiange looked suddenly, and suddenly looked down Tianchi, and saw a dark shadow floating on the lake from a distance, and soon disappeared.

That dark shadow was huge, causing a dark tide under the lake, as if there were huge things wandering in Tianchi.

“What was that shadow?” Qin Tiange frowned slightly, looking at Tianchi, but unfortunately he couldn’t see anything again.

He shook his head and ignored it. This time he came here for refining medicine. Everything else is not important. As for whether there are any large mutant organisms in Fangshan Tianchi, he doesn’t care.

Except for large mutant pythons, the creatures in the water generally do not go ashore, because they are aquatic species, and they are really not used to it and even difficult to live without it.

After Tianchi, Qin Tiange soon came to the alchemy well. It is rumored that there were immortals here to worship the alchemy, and there was an ice pond next to it.

“The alchemy well is actually nothing special.” Looking at a dry well in front of him, Qin Tiange showed disappointment.

He thought that this so-called alchemy well was directly connected to the underground volcanic magma. However, he didn’t know it. He left in disappointment and quickly leapt up the mountain.

The more he went up the mountain, the more he felt that the temperature in the air was rising, and there was a smell of sulfur in the thick smoke.

That’s right, that’s the unique breath of volcanic magma, the smell of sulfur.

Sure enough, Qin Tiange came to the crater that was originally dead. Now, here is filled with a strong fire, hot waves rolling, smoke rising, covering the sky.

“The volcano has come alive.” Qin Tiange stood on the edge of the crater and looked at the huge volcano. The fiery red magma was boiling and began to show signs of eruption.

He looked around the crater. After careful investigation, he finally saw a huge rock platform under the crater, close to the ten-meter cliff.

“It’s there.” Qin Tiange looked slightly pleased, and his body rolled over and jumped down the crater.

He jumped into the crater from top to bottom, and landed quickly, his body smartly turned over in the air, and landed steadily on the huge rock platform.

Here, just ten meters from the magma beneath the volcano, you can clearly see that the fiery red magma is boiling and rolling, bubbling.

“Yes, the ground fire is full of gas, and it should be able to attract a strong ground fire force. Fusion of my Cang Yan may really be able to make a pot of magic medicine.”

Looking at the intense fire around him, Qin Tiange faced with a touch of satisfaction, and finally determined that he would start refining medicine here.

Boom!

A huge furnace appeared. Instantly, in the magma below the volcano, a flame suddenly rose up inexplicably, converged quickly under the furnace, and condensed into an orange-red flame that continued to burn.

The furnace is amazing, and it can absorb the power of the flame autonomously and heat the furnace body. I have to say that this is a god.

Qin Tiange looked amazed, watching the constant influx of smoke inhaling under the furnace, which was ground fire.

The temperature of the furnace increased, and it became more reddish soon, exuding a wave of hot air, the breath was extremely inspiring, and most people could not approach the furnace body.

“let’s start!”

Qin Tiange looked serious, never dignified and serious, this is the first time to refining a world of potion.

This kind of magic medicine The main medicine is the golden ***** fruit, the ***** blood in the immortal heart, and the water used is naturally the water of the ***** spring, plus various precious medicinal materials and spiritual subsidies, it is bound to convert gold Shenguo’s medicinal effects are exerted to the extreme and turned into a magical medicine.

He wanted to use the majestic energy of the divine medicine to scrub the flesh and increase the strength limit of the flesh. He was not sure if it would succeed.

The process of refining divine medicine is extremely complicated, and even exceeds the refining process of immortal medicine, and even exceeds the refining process of developing drugs in the brain domain.

It took three days and three nights for Qin Tiange to finish all the preparations. After the refining of the medicinal materials was completed, it was officially possible to start refining the fusion of timeless magic drugs.

“let’s start!”

Qin Tiange murmured, took out the ***** spring water and filled it with the furnace, and then re-distilled the essence of the refined medicine into the ***** spring water in the furnace a little bit in proportion.

Grunt grunt ...

The golden yellow spring, boiling water bubbling, came a wave of grunts, the gold gas transpired, and turned into a cloud continually coiling over the furnace, forming a strange scene.

Chapter 343 - Cultivate Super Flesh

The crater, the transpiration of smoke, the clouds lingering, constantly transformed into various auspicious signs.

A scent of sulphur filled the volcano, suddenly a scent of fragrance came out, and the atmosphere was refreshing, as if there was something fetish coming out of it.

I saw a figure standing on a megalithic platform ten meters high from volcanic magma, looking at a huge furnace full of a golden yellow liquid.

“Divine medicine, is about to be completed ...” Qin Tiange faced with a touch of excitement, and he worked hard for 7 days and 7 nights, and finally finished.

This magic potion is not used to eat or drink alive, but to exercise the body, improve strength, and wash bones and skin.

Qin Tiange is very clear that if he wants to have more powerful power, his body must be able to withstand those soaring powers.

The power in the body is like water. If you want to hold more water, you must make the body into a more powerful water tank to accommodate greater power.

As early as when he was promoted to the three-star level, Qin Tiange felt faintly that his body felt a sense of surpassing the load. During the battle, he would always feel the pain in his body, as if he could not bear the power of the internal explosion.

The force of eight hundred people has caused the physical body to undergo extremely horrible tears and shocks. If you want to continue to improve, you must first increase the physical strength.

This is what Qin Tiange wants to prepare and refine a large furnace of magic medicine, in order to wash the flesh, refine the bones and skin, and create a super flesh.

“It’s time to go in.” Qin Tiange looked at the continuously evaporating golden clouds and permeated the entire crater.

He knew that he could now enter the furnace and begin to refine the flesh. However, he suddenly took out several huge iron chains, wrapped around the furnace, tied a steel spear, and inserted it fiercely on the surrounding rocks of the volcano.

Then, the furnace was locked by nine huge iron chains and hung steadily on the surface of the volcanic magma. It was only three feet high from the magma, and the flames were burning under the furnace.

Seeing this, Qin Tiange nodded with satisfaction and it was time to start.

I saw that he quickly took off his armor and clothes, exposing his perfect body, well-balanced muscles, and full of a strong sense of power.

Wow!

Leaping forward, Qin Tiange jumped into the boiling gold solution without hesitation, and drowned over his head instantly.

Under the furnace, the continuous flame transpiration absorbed it, turning it into a blazing fire, and even burning a pale flame.

Grunt grunt ...

In the furnace, the gold divine fluid boils endlessly, exuding a strong gold atmosphere, containing an incomparable force of terror, showing powerful coercion.

The magic medicine was completed, but Qin Tiange was in the furnace, trying to sculpt the bones and bones to create a super body, gaining greater potential and talent.

In the furnace, Qin Tiange curled up quietly inside, like an infant, enduring endless suffering.

How painful it is to refine the flesh, almost the whole body is under the impact and tear of violent medicine.

If he were not immortal, he would not dare to do so, otherwise he might die if he made a mistake.

In fact, this pot of magical medicine is not a real magical medicine. Qin Tiange treats his physical body as a magical medicine, thoroughly washing and transforming the physical body.

If one knew that he dared to practice himself this way, he would definitely be shocked, but Qin Tiange himself knew that although it was dangerous, he could raise his physical strength level.

He found this method based on the pharmacist's inheritance knowledge. He used medicinal solution to boil himself and wash his body. He had already helped Chen Xi and Chen Chen sisters to do this before.

The medicated bath has a very good and powerful effect, but Qin Tiange is not satisfied, and feels that he should use a more violent method to improve himself, such as now, directly into the furnace to train.

Of course, the golden divine fluid in the furnace continuously inhales the body fur, the internal organs, the bones and the muscles of the body during the refining process, constantly increasing its physical strength.

This exercise does not enhance the strength of the body, but merely tempers the strength of the body, and treats the body as a **** iron.

Hum ...

Suddenly, a buzz came from the furnace, and it was faintly visible that the golden divine fluid inside it was gradually decreasing.

A faint figure can be seen faintly, with a painful complexion, almost every cell in the body is torn, and the physical body is gradually cracking apart.

The blood and water flowed, mixed with the magic medicine constantly interwoven, merged with each other, and then poured into the broken body to repair the scar.

In this way, Qin Tiange was immersed in the furnace, constantly practicing his physical body with magic medicine, and finally obtained some kind of transformation in this brutal way.

Regardless of the superficial or deep genetic transformation, he has gained a powerful and mysterious ascension, as if he was slowly transforming towards a higher level from a mortal.

Below the furnace, the magma was boiling and rolling continuously, raising a terrible flame, the temperature was getting higher and higher, as if attracted by the furnace.

In the furnace, Qin Tiange has reached a critical moment when the physical body is dead and the aging and weak gene cells, bone fragments, etc. are stripped from the body.

Gradually, his body was wrapped in gold divine fluid and turned into a golden yellow cocoon, and some broken body fragments were continuously peeled from it.

At first it was just fur, then bone fragments were scattered on the bottom of the furnace, and finally all the internal and external debris, even flesh and blood fragments, were stripped out and piled up into a small pile.

Kakah Kakah ... There is a sound of bone breaking in the furnace, as if the people inside have been smashed into pieces.

Gradually, when a full furnace of gold divine fluid gradually decreased, a golden cocoon was exposed, and the whole body of Jin Chanchan was extremely dazzling.

In the golden cocoon, a hazy figure loomed, curled into a baby, and slept quietly, it was Qin Tiange.

His body was undergoing self-transformation, absorbing the infinite power of golden magic medicine, and finally completed the transmutation at this moment.

Click!

I was surprised to see that the golden cocoon suddenly cracked a pattern, then spread, more and more, and finally broke completely in the furnace.

In the furnace, Qin Tiange curled up his body. The flawless flesh was more crystal clear, and the original ice muscle jade bone was amazing enough. Now it is more powerful and horrible.

In his flesh, the original crystal-like bones were now tinged with a wonderful golden luster, twining around the bones, like gold **** bones.

Grunt grunt ...

At this time an unusual boiling came from the volcanic magma, the magma rolled, and there were huge things floating slowly underneath.

It was a sloppy head, extremely huge, rising slowly from under the hot magma, revealing a huge and sloppy head.

The two eyeballs were the size of a sea bowl, and the whole body was turquoise, showing a cold blast, and the dense scales flashed red.

The only thing that emerged from under the magma stared at the mouth of the furnace hanging on the three feet of magma, eyes full of greed and longing.

Gradually, this huge thing lifted its head and stood high, staring at the figure in the furnace and the remaining half of the golden divine liquid, slowly opening the fishy mouth and mouthing towards the figure in the furnace.

This inexplicable creature was hidden in the magma, it was incredible. It can live under volcanic magma. How could there be living things under that high temperature magma?

Huh!

Almost at the same time, Qin Tiange, who was curled up, opened his eyes, and two beams of Jin Mang blasted out, staring blankly at the huge blood mouth.

Chapter 344 - Lava Monitor

With a snap, both arms stretched out like lightning, grabbing a huge fang of the jaw of the fishy mouth.

hiss...

A roar came, and the inexplicable beast that floated up from the magma was steadily grasping both teeth with both hands, no matter how it struggled.

Qin Tiange slowly stood up from the furnace. His perfect body was full of strength. He grabbed the two upper and lower fangs in the beast's mouth with his arms, and just looked at the strange weirdness so close. Lava creature.

"Lava giant lizard?" Qin Tiange murmured in surprise.

He sensed the crisis and instinctively snatched his hand to grab the two biting fangs, only to find a lava dragon lizard.

Yes, this creature that emerged from the magma is a genetically mutated monitor lizard, covered with fiery red scale armor, able to withstand the high temperature erosion of the magma.

hiss!

The dragon growled and snarled, struggling madly, but Qin Tiange firmly grasped the fangs with his arms, unable to move.

With arms outstretched, strength surging and a kind of domineering, the lava dragon lizard struggled to no effect at all.

“Want to eat me?” Qin Tiange’s mouth suddenly flickered, exposing Sen Leng’s radian.

When he saw a low drink, his arms were strong, and there was a strong force all over his body, and he tore open with a click.

As his arms were torn apart fiercely, the lava giant lizard’s mouth, which was one meter in length, was torn in half in this way.

Blood squirted, spilled into the magma, stirred up a little smoke, and was burned to ashes by lava.

Qin Tiange only found out that this lava dragon lizard had a body length of five meters. He had wanted to eat him in one raid, but his mouth was torn in half.

The strength of the body is horrible!

At this moment, Qin Tiange put down the dead monitor lizard with a touch of enjoyment, only feeling very comfortable. As far as he feels, today’s physical body is stronger than the previous ice muscle jade bones. Even if the three-star weapon looks unscathed, it has to be shocking.

“This is super flesh, perfect body.”

Qin Tiange laughed, and jumped out of the furnace gently, jumped into the tumbling lava, and took a bath in it.

Yes, he took a bath in the magma without any injuries. He didn’t even feel any stings. He just felt that the hot magma was very gentle, like a hot spring.

“Hey, now it is really powerful.” Qin Tiange laughed while grasping the rolling magma to wipe his body.

He felt that his physical body was now truly perfect and powerful. Although he looked so powerful in the past, he could not exert his due strength after all.

For example, before he had the power of 800 people, in fact, seriously, this power could not be fully exploded, because the physical instinct of protection prevented him from exerting this violent power.

Once the physical endurance limit is exceeded, it is the terrible end of the body explosion, so most of the power in the body will be hidden by itself and cannot be exerted.

As for now, after training himself with divine medicine, Qin Tiange finally broke out of his due strength, and it was effortless to tear a four-star lava dragon lizard with his bare hands.

There is no increase in strength when training the body, but the physical body is transformed into a super body, but it contains a terrifying talent for power.

Seeing that its own strength does not increase, in fact, the internal combat effectiveness has improved a lot, and it is possible to explode its own maximum potential and strength without any fear. The situation is naturally different.

In the past, 10% of the force could only exert 50%. Exceeding it would cause physical collapse, so the genes in the body locked up the extra power.

Now, with the perfect development of the physical body and the cultivation of a super-strong physical body, Qin Tiange can finally burst out without fear of hurting himself.

boom!

Gently fisting, an invisible force burst out, setting off a huge wave of lava and scattered around.

hiss!

Suddenly, a fiery red figure rushed under the magma, opening his mouth to bite at him sharply, the speed was too fast to capture.

Looking at Qin Tiange again, his face was as calm as ever, and his eyes were full of murderous power, staring at a fishy mouth that was rushing up, which was exactly the lava dragon lizard.

boom!

Dancing his fist, he struck the mouth of this giant lizard with lightning, and his jaw was all smashed, causing the lizard to scream and roll back and forth in the magma.

Qin Tiange leapt forward, riding on the neck of this lava dragon lizard, waving his fists, throwing hundreds of punches at the moment of bang, banging the dragon's head on the spot.

Grunt grunt ...

At this time, the magma rolled more violently, and the figures under the ground were tumbling, constantly emerging, and they were all lava giant lizards.

These mutant monitor lizards, instead, live in volcanic magma. They have five-meter-long bodies, thick limbs, crested skulls, and dense, dense cuticles.

What is even more amazing is that these lava dragon lizards have born a pair of dragon-wing-like wings, with a trace of flying dragon characteristics.

“Dare you come out?” Qin Tiange looked at the magma floating around his head, and there was a hint of killing on his face.

He snorted, his body vacated, then stomped down, and banged, the lava exploded ten meters high, and one of the lava dragon lizards broke his head on the spot.

Immediately afterwards, he turned around, avoiding the mouth of a giant lizard that bit his mouth, and turned around with both hands, grabbed the giant jaw's jaw and threw it severely into the air.

boom!

With a punch, the lizard smashed a half of his head in the air, and blood and water mixed with his brains spilled under the magma and was soon burned into smoke to dissipate.

Hiss ... Finally, the giant lizards under the magma were frightened, and after a long hiss, they quickly disappeared into the magma and disappeared.

“Hum, bullying and afraid of hard!” Qin Tiange grumbled dissatisfied, and then jumped into the lava to continue bathing.

After flushing in the magma for a while, Qin Tiange jumped contentedly on a huge red chain.

Looking at the light golden liquid in the furnace, Qin Tiange murmured: "There is still a little magic medicine, but the effect is almost completely absorbed by my body. It is useless."

The magic potion in the furnace was almost absorbed and the rest was just incomplete scraps, which had little effect.

What's more amazing is that there are even a bunch of dark things in the furnace, all of which are bone fragments, muscle fragments, and so on. They have shed old skins like snakes shed skin in exchange for powerful new flesh .

Put away the pale golden liquid, lift up the tripod and pour all the fallen garbage into the magma, and it will soon be melted clean.

Qin Tiange then collected the furnace and the bodies of several lava dragon lizards, pulled out his spear, and recovered eight huge iron chains. Then he returned to the rock and dressed neatly.

"It's time to go." Looking at the boiling magma, Qin Tiange muttered, and his body flew out of the crater.

Outside, the thick volcanic ash soared into the sky, but the temperature of the volcano seemed to drop a lot. It was thought that the furnace absorbed the power of the flame inside.

After completing his own affairs, Qin Tiange ignored these and went straight down the mountain, regardless of any changes in this volcano.

Along the way down the mountain, Qin Tiange felt that his body had never been the same, and he had never been more relaxed. There was a surge of violent power hidden in his body, which could be released at any time.

This is the terrible place of perfect body and super flesh. After transformation, he has exceeded the imagination of ordinary people. Potential, background, talent, etc. will become different from now on.

Chapter 345 - Two-Headed King Kong

A silhouette appeared quietly in Beijing South City and Qinhuai District.

"The number of zombies in Jingnan is not large. Either they were cleaned up by the Jingnan base or some super zombies were born and gathered."

Qin Tiange stood on the empty street, watching the scattered zombies wandering, thinking that he had never seen many zombies along the way.

He felt that this phenomenon should be caused by the cleanup of the base in South Beijing or the emergence of some super zombie leaders to gather the corpses among the zombies.

The latter is more likely. Over time, some super zombies will be born in the corpses, swallowing each other, and want to become more powerful zombies and even corpse kings.

Humans gather to form resistance, and it is difficult for zombies to hunt more humans. There is no other way than to launch a tide of corpses.

And there is another way to get accelerated evolution, and that is to devour the same kind, and zombies will swallow the same kind of nuclei to evolve without hesitation.

Roar!

The two zombies screamed in front of them, and the stench blew on their faces. Qin Tiange gently lifted the halberd and waved, only to hear a bang, and the upper bodies of the two zombies were blown up on the spot.

The force of eight hundred people completely broke out and condensed into one. What a terrible phenomenon, just like now, with a gentle wave, two two-star zombies were broken into the upper body.

Qin Tiange walked and stopped all the way, slashed the zombies he saw, and collected these nucleuses that gradually evolved into two stars.

The corpses have generally evolved, and now are at least two-star zombies, but humans have begun to resist and counterattack.

With the advent of the permanent heritage stele, humans have accelerated their own strengthening and armed forces, and it is not so difficult to fight against zombies.

Of course, this requires a strong armed force. Most ordinary cities are difficult to resist the attack of the corpses, and ultimately can only be lost and fallen.

Throughout China, according to Qin Tiange's guess, most of the small and medium-sized cities have been completely occupied and turned into corpses.

The zombies are gathered in the city to wander, instinctively do not want to enter the old forest of the mountains, because there is a paradise for mutant creatures.

Soon, Qin Tiange crossed the block and came to Jingnan Century Plaza.

Roar!

As soon as it arrived, I heard a sound of fighting from a distance, and from time to time there was a roar, and I was shocked.

Qin Tiange's face moved, and he jumped up onto a big tree and looked at the Century Square in front. There was a lot of smoke and a number of people were besieging a huge zombie. The two sides fought fiercely.

"Double-headed King Kong?" Qin Tiange squinted his eyes and looked at the huge zombie. He was six meters tall and had two heads. The whole body was blue-gray, as hard as Jin Gang, so it was called double-headed King Kong.

This is an extremely terrible mutant zombie. The two heads are large and small, the big tadpoles are terrible, the tusks are exposed, and the small ones seem to have just grown up.

Qin Tiange saw at first glance that this double-headed King Kong was absolutely five-star and a super zombie.

But what surprised him was that the three people who rounded up the two-headed King Kong on the square, despite being embarrassed under the attack of the two-headed King Kong, still did not fall back.

I have to say that the vast land of China and the huge population, there are many masters in the end, especially in the early days of the endless stream of masters.

Unfortunately, many people fell on the way later, causing huge losses to Huaxia and causing loss of strength.

One is the internal environment of Huaxia and the vastness of the land, which has caused communications to be blocked in the post-apocalyptic period, and the armed forces of all parties have risen to form a scene of internal chaos.

This is the internal friction that caused most of the rising masters in Huaxia to fall, only to cause the Chinese talents and masters in the end to appear somewhat sporadic and not in line with the status of a huge country.

Huh!

With a loud scream, he saw a teenager with a cold face waving a huge wolf gun and straightly taking out the stomach of King Kong with two heads. He is very strong, with his three-star strength, he can have more than thirty powers, but he is not a two-headed King Kong opponent.

“Wang Jiaqi, attack its smallest head ...”

Suddenly, someone on the side whispered, and Qin Tiange turned to look at him, and saw a burly man wearing armor, holding a tomahawk in his hand, and a wave of air wafted.

He is not weak, the same level as Bai Yan, and the three people cooperate with each other, it seems that such a tacit understanding has long been formed.

“Hu Longjun, you hit his joints, I’m pitted in the front!” The burly man yelled, waved his tomahawk to kill, and confronted the enemy.

To his left, there was a young man named Hu Longjun, who had no weapons and hit his two-headed King Kong’s feet with his fists.

He has strong punches, with a pair of diamond gloves, his fist roaring, his body cleverly drilled between the two-headed diamond’s feet, and constantly punched each other’s joints.

“His boxing skills are good, he should practice orthodox national skills ...” Qin Tiange nodded secretly, that Hu Longjun boxing is really good.

boom!

I saw that the burly man facing the enemy face up with his tomahawk, and the two-headed King Kong boxed and flew out, marking a dozen meters away.

“Captain!” Wang Jiaqi and Hu Longjun both changed their faces and exclaimed.

But at this time, the two-headed King Kong seemed to be irritated, because it sensed a terrible dangerous atmosphere hidden nearby.

Roar!

With a fierce roar, it slaps in front of Wang Jiaqi on the right, and the latter raises his gun to resist, and even people with guns continue to shake back.

Then he kicked and kicked, and there was a huge muffled sound. He saw that Hu Longjun's body was flying out of the body, and he fell into a ruin from a distance.

“Damn!” The burly man was furious, struggling to get up, picking up a Tomahawk and blocking it in front of the two-headed King Kong.

Roar!

The two-headed King Kong corpse opened his mouth, growled, and stunned, but the burly man was surprised that it didn't seem to yell at himself.

Along the eyes of the two-headed King Kong, the three men looked at them in unison, and saw a figure standing in the big tree not far away. The two-headed King Kong looked at him.

“Who is he?” Wang Jiaqi frowned slightly, with a hint of doubt on his face.

Roar!

Just when the three were in surprise, the two-headed King Kong snarled suddenly, two horrific red lights burst out in their eyes, two heads roared together, and their bodies swelled and launched a violent attack on Qin Tiange.

The two-headed King Kong, who felt the most powerful threat from Qin Tiange, was immediately identified as the first source to be killed, so he rushed forward without hesitation.

The huge body leaped high, and his fists waved violently, watching Qin Tiange be about to be beaten there.

“Be careful!” The man carrying the giant axe exclaimed, but the next scene completely shocked the three of them.

boom!

I saw, Qin Tiange slowly waved a fist to hit, the air burst, two big and one small fists hit hard together.

With a bang, the tree shook, and the trunk cracked, and then the three saw the entire arm of King Kong with two heads exploded.

Huh!

A scream came, and King Kong's entire arm exploded, and his body slammed to the ground. Looking at the top of the tree, the man was still standing there motionless.

He just punched and banged the arms of King Kong with two heads, but he didn't move?

“Five stars, you dare to presume in front of me, but seeing that you give me one more super crystal nucleus, I am happy for you.”

On the top of the tree, Qin Tiange said something softly, the voice had just disappeared, and he saw that he had stepped on the largest head of King Kong with two heads.

Click!

His head was crunchy, and Qin Tiange stepped on it with one foot, followed by another kick. He stepped on the smallest head and killed the two-headed King Kong.

“I take this crystal nucleus, are you okay?” Qin Tiange asked, picking up a strange crystal nucleus in the smallest head.

“Ah ... oh!”

At this moment, the three talents on the other side suddenly realized, looked at the dead two-headed King Kong, and then looked at Qin Tiange with a calm face in front of him, one by one.

Five-star double-headed King Kong. They besieged for a long time and were almost buried, but how could they be easily killed when they ran into each other's hands?

The three even suspected that the double-headed King Kong was a five-star, was it a fake?

“It was killed by you, and the crystal nucleus is yours, so you don't need to take care of us.” The burly man was generous, and said with a huge axe.

Just kidding, the other party is a super master. He punched two-headed King Kong's arm with one punch, and crushed his head with both feet to kill such a five-star super zombie. It was absolutely terrible.

“By the way, my name is Niu Man. Those are my two brothers, Wang Jiaqi with a gun, and Hu Longjun with a fist. He is practicing Chinese arts.” Niu Man introduced them trivially.

Looking at the three people in front of them, they are all three-stars, and their strengths are not much different. Moreover, Qin Tiange's performance nodded in approval.

“My name is Qin Tiange, and I will give you this five-star crystal nucleus. I want this small one.” Qin Tiange threw a five-star crystal nucleus, which was in the largest head of King Kong with two heads. Crystal nuclei.

As for the small one, it was put away by Qin Tiange. He knew the preciousness of this crystal nucleus. Because the double-headed King Kong corpse is very rare, it is difficult to touch it. I did not expect to touch it here. Got one.

“Thank Brother Qin!”

Niu Man was surprised and did not refuse, because it was a huge wealth, enough for the three of them to exchange good things to enhance their strength.

“Yes, Brother Qin, where do you fight to see if you are not from the Jingnan base.”

After collecting the five-star crystal nuclei, Niu Man asked curiously, and at a glance, Qin Tiange was not from the base in Jingnan.

Such a master, he should have heard of it when he was in the Jingnan base, so he only guessed that he was not the one in the Jingnan base.

“I just came here. Naturally, I am not from the Jingnan base. Why not take me to the Jingnan base?” Qin Tiange smiled and said suddenly.

“Okay!”

Niu Man and Hu Longjun immediately clapped and agreed, and without a word, took Qin Tiange directly to the Jingnan base. Among the four, Wang Jiaqi was relatively quiet, as if shy, a shy little boy.

Chapter 346 - 8 super masters

The Beijing South Base, located by the Qinhuai River, has a towering reinforced concrete city wall that is thirty meters high. It is currently the largest base that Qin Tiange has seen.

Jingnan has always been prosperous, and it is one of the most important cities in China. It was once a generation of Kyoto. Unfortunately, it has suffered huge damage in the end.

Many houses have collapsed, and a huge base has been rebuilt along the Qinhuai River in southern Beijing, where many survivors live.

According to Niu Man, there are at least three million survivors in this base in Jingnan, and the military is extremely powerful.

“Brother Qin, Jingnanli has eight super masters like you.”

In front of the gate of the base, Qin Tiange and others were slowly entering the base in and out of the team, and Niuman beside him warmly introduced the news he knew.

His words surprised Qin Tiange inexplicably. He noticed a word in his words, super master?

“What is a super master?” He asked curiously, and did not understand.

Niu Man was surprised that he didn’t know it, and then explained: “In fact, this is what other people in the base call these super powerful people.”

“The so-called super master is the same level, but the ability to overpower people at the same stage, even if they can cross the challenge is called a super master.” Hu Longjun said aside, let Qin Tiange understand.

Super masters, in fact, are some people with particularly powerful combat capabilities. For example, everyone is a three-star, but the power they have is different.

Some people’s three-star rating is only the strength of more than 30 people, just like Niu Man and others, only about 39 people.

And some people have more and stronger power in the three-star level, as Niu Man said that there are eight super-strong in South Beijing, all of which are three-star, but their strength is generally in the range of more than 90 to one The strength of more than a hundred people is very powerful.

These people are more powerful than others when they are one-star, so they will be more powerful after being promoted, and they are called super masters.

“Brother Qin, take a look. That is the first master of the military in the base of South Beijing. The iron gall gun and the white cricket are the most powerful.”

Suddenly, the silent Wang Qi was excited, pointing at the base in front, and a neat team was coming quickly.

It was an army, and it was neat. Its energy was absolutely heaven and earth compared to ordinary people.

Especially a young man headed by the most noticeable, because he rode a giant wolf, and also a double-headed mutant wolf.

“Two-headed wolf, white pheasant?” Qin Tiange muttered in surprise.

That young man was riding a two-headed wolf, and the two wolves were terrible heads. The body, which was close to two meters, was extremely large and covered with hair like steel needles.

Qin Tiange knows that this two-headed wolf is a three-star, absolutely powerful, and the young man who is called the iron gallbladder is precisely the white cricket.

Qin Tiange knew this white cricket. He had heard his name in previous lives. He was a powerful king in the early days of Huaxia, but unfortunately died in a battle.

Ok?

Suddenly, in front of the team that was about to step out of the gate of the base, Bai Zhi looked awkward, and suddenly turned his head, his eyes sharply locked an arrogant figure in the crowd.

His eyes narrowed slightly, and there was a faint flash of light. When he saw Qin Tiange in the crowd, he locked him at first sight.

Roar!

The two-headed wolf looked a little impatient when sitting down, and made a low hissing sound at Qin Tiange in the crowd. The two wolves bowed down, and the wolf's eyes were filled with astonishment and fear.

Bai Yan frowned secretly, looked at Qin Tiange, then nodded indifferently, saying hello.

He felt the strength of the other side faintly, so he nodded, after all, this move caused the vigilance of the city gates and even the troops behind him, and nodded to say hello to resolve the sudden rude behavior staring at the other side.

“Strength is good.” Qin Tiange smiled and nodded, behaving in response to his gestures, and didn't care. Neither the identity nor the strength of the other party could be compared with him. Naturally, he did not account for this.

“Brother Qin, you, do you know Baiyou?” Niuyan stared, surprised.

Hu Longjun and Wang Jiaqi both looked, but saw Qin Tiange shaking his head, indicating that he didn't know each other.

“I don't know, then why did he nod at you?” Niuban scratched his head, somehow.

They saw it very clearly just now, Bai Su suddenly stopped, his cold eyes stared sharply at Qin Tiange, and finally nodded, which resolved the tension in front of the city gate.

“Let’s go!” Watching Bai Ye leaving the base with his team, Qin Tiange smiled, turned around and walked into the base in South Beijing, not paying attention to these.

As for the surprised eyes of many people around him, he didn’t care at all, but Niu Man, Hu Longjun, and Wang Jiaqi were all excited, and he felt that Qin Tiange knew Bai Xi.

It ’s normal to think about it. Qin Tiange is also a super master. It ’s no surprise to know Bai Ji, who is also a super master.

“Brother Qin, can you help our brother a little bit?”

Niuban quickly caught up, with an embarrassing expression on his face, uttering these words in a rush, his old face was a little red.

This was his first time asking for help, but he had no choice but to ask. Qin Tiange was curious. The three were not weak. What could I ask for his help?

Qin Tiange nodded a little while thinking: “What do you talk about first, see if I can help you, if I can’t do it, there is nothing I can do.”

“Don’t worry, it won’t be a big deal, just a little busy.” Niu Man raised his smile immediately, and scratched his head with a smile.

He was a little embarrassed, but still brazenly said, “Brother Qin, I think you must know Bai Yan. The three of our brothers have just recently arrived at the base in Jingnan, and I very much hope to join the military and make a contribution.”

“Yeah Brother Qin, can you tell us something about Bai Ye, we want to join his strong army of iron gall.” Wang Jiaqi suddenly said excitedly, as if he worshiped Bai Ye.

Hu Longjun on the side smiled bitterly: “Brother Qin, don’t mind. When Qi Qi came here, he encountered a little trouble. It was Bai Ye who resolved it for him, so he has always been grateful and admired by him. Qi influence. “

“Join the army, register directly at the base’s registration office, and you can enter after the assessment. Is it so difficult?” Qin Tiange felt weird. Since he wants to join the army, there must be a registration site and an assessment site in the Beijing South Base.

Niu Man smiled awkwardly: “Brother Qin, you don’t know. We’ve been there already, but we said that the army is full and we don’t want anyone for the time being.”

“The army is full?” Qin Tiange froze for a moment, then shook his head, absolutely not convinced.

Just kidding, the entire Jingnan base has more than 3 million people, and even if the army has a million, that's not going to be full.

What's more, Qin Tiange guesses that there are definitely no more than one million regular soldiers in the entire Beijing base, maybe there are still half a million soldiers.

"Okay, I'll look at the situation and tell you something." Qin Tiange thought a little and agreed directly.

How can these three people say that they are not weak and that they can enter the army and be able to build a career? Perhaps, in the future, the Huaxia military will have a few more powerful players.

As for why not ask the three of them to go to Shenzhen, don't be stupid. Who would be stupid to run from Beijing Nandayuan to Shenzhen?

"Hurry up, you won't be watching late."

Suddenly, there was a riot in the crowd on the street. Many people were excited and hurried in one direction.

Qin Tiange and others were curious as to why these people were suddenly anxious, as if they were rushing to see what was lively.

"Hey, big brother, what are you going to do?" Niu Man asked a hurried young man directly.

The other party was originally annoyed by being pulled, but when they saw that Niuban and others were not easy to provoke, he immediately explained: "You don't know yet. I heard that the two super masters in the base are confronting each other, right over the base's central square Yuhuatai duel."

The man hurried after finishing speaking, leaving Qin Tiange in surprise.

Niuban was even more excited, and shouted: "Let's go, the two super masters are duel. After watching a good show, there will be no place for late."

After speaking, he hurried to make Qin Tiange cry and laugh, shook his head, and had to keep up. In fact, he didn't even care about the so-called super master showdown.

The two super masters confronted each other. The news instantly burst the entire Jingnan base, causing a sensation, and the military had to send troops to maintain order immediately.

Chapter 347 - Jade Face Scholar, Blood Slaughter

Beijing South Base, the central square is crowded with crowds of people, all came to hear the crowd, all looking excited and looking forward.

"Super master showdown, rare to see!"

"Yeah, it would be nice if I were also a master."

In the crowd, many people whispered and looked excited, some were envious, and some were disdainful or jealous.

The crowd of people at the scene almost crowded out the entire central square. Fortunately, high-level bases sent troops to maintain order, but there was no major problem.

Even some two-star masters and arrogant people must be honest, and you must go to the army directly unless you are a fool.

“You said, who won this showdown?”

Suddenly, someone in the crowd raised this question, which immediately caused many people to speculate and talk about it.

After finally getting into the crowd, not far to Yuhuatai, Qin Tiange looked at Niu Man and others with excitement and felt helpless.

What’s so good about two people fighting, I really do n’t understand it. It’s better to think about how to strengthen yourself when looking at other so-called masters fighting.

“Brother Qin, I’ve figured it out. It’s the Jade Face Scholar and the Blood Slayer from the Eight Super Powers who face each other.” Hu Longjun quickly squeezed over and said excitedly.

As soon as Qin Tiange heard, his eyebrows jumped twice, and he muttered, “Jade face scholar? Bloodslayer ghost seeing sorrow?”

Aren’t these two ten-star powerhouses who have been fighting for ten years in previous lives?

In the previous life, Huaxia had two strong men who fought against each other, and no one was defeated. This fight was a full ten years, and each time they met, they started fighting.

These two guys, Niubi, coaxed, arguing that the world was the first, until they fight to the other strong to testify to queen, and finally stopped for a while.

But later, the two were unable to win the king because of the delay, and the anger was particularly strong. As soon as they met, they poured anger on each other, fighting for three days and fighting for five days.

“It turned out to be these two guys.” Qin Tiange couldn’t help crying and laughing.

In previous lives, he had seen many confrontations between the two, lacking in interest, but in fact, that’s not the case.

After losing interest, Qin Tiange began to wait and see in the crowd aimlessly, to see if other masters in the Jingnan base came.

“Look, here they are.”

Suddenly, an exclamation broke out from the crowd, and suddenly a person jumped on the Yuhua platform, fluttering in white, holding a jade fan, personable, like a beautiful boy.

He was dressed like a scholar in ancient times, with a gentleman sword on his waist, and he was righteous, his appearance really looked like a decent figure.

“Jade face scholar!”

Some people drank and said that the identity of the person was one of Jingnan's eight super masters, scholar Jade and Li Haoran.

Jade face scholar, three-star, combat strength is not weak, there is a strong force hidden in the body, can have more than ninety people strength.

Qin Tiange nodded secretly. Being able to have this strength at this stage is already considered good.

It is almost equal to the power of 30 people in one star, the power of 60 people in advanced two stars, and the power of more than 90 people in three stars.

“Scholar, you still look so rotten, looking irritating.”

Suddenly, a rude voice came and saw Yuhua jumping up from the platform. He was burly and majestic, with a huge back, carrying a huge ghost-headed sword, sharp and sharp.

He was Lin Tu, the ***** slayer, nicknamed Ghost, and he slammed a sharp knife on the ground, sending a slight vibration.

“The three-star rating is about the same as that of the jade face scholar Li Haoran, which is half a catty. No wonder the two have not killed in ten years.” Qin Tiange looked at Xue Tu Linjun and secretly guessed the strength of the other party.

The jade face scholar jade fan shook slightly, and said with a smile: “Blood slaughter, you can't get along with me for a little thing, do you really think you are invincible to the whole of Jingnan?”

“Oh!” Blood Tu snorted, disdainful: “You hypocrite, I just passed by accident and broke your good for stealing a woman, and kept chasing me. Do you think I am bullying?”

The two said the same thing, they didn't know the truth, but they caused the gossips in the city to look curiously at the two on Yuhuatai.

The jade face scholar was said to be shaking slightly, humming softly, “Blood slaughter, stop talking nonsense. I heard you slaughtered a whole village of zombies, let me see what you have.”

“My aunt, hypocrite, you asked me to fight today, in fact, for your own reputation, you want to step on me?” Xue Tu looked disdainfully, and looked at the scholar Jade on the opposite side.

Today's Vietnam War was actually made by a Jade Scholar, and the news was also released by him. Blood Tu himself did not agree at all, and did not even know when he agreed to the other Vietnam War.

However, I did not get used to this jade face scholar, went straight to the challenge, and wanted to learn this ***** thing.

Huh!

The jade face scholar is very dull, and slowly pulls out the sword on his waist, which depicts the word “gentleman”, which is the gentleman sword.

“Blood slaughter, come on, let me see the power of your ghost knife.” The jade face scholar rushed away with a sword and turned into a white shadow, very fast.

On the opposite side, Blood Tu Lin Jun gave a grin, and the ghost-headed knife slammed the ground fiercely, and the whole person took advantage of his power to vacate the sky, holding up the ghost-headed sword to split Huashan.

Jingle!

The two were duel, and the speed was as fast as lightning. Most of the people around them could not see the figures, but they could only see the shadows staggering and flashing, and then came deafening.

Qin Tiange looked at it twice and found that the strength of the two of them is in fact no different, and if they go down, they can’t tell the difference, and they may even lose both.

“I don’t know of other super masters in the Jingnan base. How many are military members?” Qin Tiange suddenly thought of this problem.

Neither Jade Scholar nor Blood Slayer is a military person, but a poor master who rises from ordinary people. It can be said that it is not easy.

Qin Tiange thought for a while, and secretly said, “The senior management and masters of the Jingnan base should be watching this duel.”

He guessed very well. At this moment, a group of high-level generals are broadcasting live to the viewers in the highest conference room of the Jingnan Base.

Around Yuhuatai, there are many cameras installed, and the duel scenes of the two super masters are played in the conference room.

“You said, can you incorporate these two people into the military system?”

In the conference room, a veteran suddenly spoke and asked gently. He was gray, his eyes narrowed and he watched the live broadcast in the conference room.

On the Yuhua platform, the two powerfals fought fiercely, and no one could help.

“Admiral, I find it very difficult. These people are a little bit brave when they are powerful. They don’t look at our base military.”

“Yes, there have been many three-star masters who have shot at our troops and even dared to rob the army loot openly.” Some generals have a bad face and have great opinions.

It is probably because some people have become blindfolded after they have gained strength, and they think that their fists are the truth, and even more, they directly rob the military of the trophies after they go out to clean up the zombies.

“I think we should find a way to integrate them into the system. As more and more masters rise among the masses, the masters in our army are a bit weak.” A major general slowly said his opinion.

Masters, no one can disapprove. It is possible to solicit one by one, and more and more folk masters will rise over time, and it will be difficult to solicit again.

“Open some positions at appropriate time, set up a few more external troops, strengthen psychological guidance and education, strictly train and manage, and strive to gather civilian masters and turn them into guarding bases. Our base will have a bad impact. “

The veteran general directly issued an order to include the civilian masters in the base of Beijing South into the system, and even began to rectify the interior and eliminate all sources of threats to the base.

“Well, the meeting is here, everyone is going to prepare.”

As he announced the meeting, a large number of officers in the conference room immediately got up, picked up the materials and left, leaving only the old general and a middle-aged man.

“Mr. Lao, what do you tell me to leave?” The middle-aged man asked strangely.

The old man was named Mu Hua, commander of the Beijing South Base, and general. He established the entire Jingnan base, holding 500,000 elite troops in his hand, which can be described as a strong force and a powerful force.

I saw, Mu Hua gently opened a surveillance camera recording screen, pointing at a figure above.

“Mr. Xu, see if he looks a lot like the person in the secret photo from the Beijing side?” Mu Hua pointed at the person monitoring the screen.

This is the surveillance picture from the city gate. Several people are displayed on it, one of them hit a red circle. The person above is Qin Tiange.

“Huh?” The chief Xu looked surprised, looked closely, and really found that it was similar to the information in the secret from the capital and the person in the photo.

No, it’s just like a mold depicting it. With Admiral Mu Hua taking out a small photo, it is exactly Qin Tiange’s photo.

“It really is him!”

The two looked at each other, they saw a trace of surprise, and then they were a little confused. Qin Tiange didn’t build a huge base in Shenzhen. The news came from Beijing a few days ago.

“Strange!” General Mu Hua muttered, guessing.

Chief Staff Xu pondered for a while, and asked, “Will the old general invite the Chinese emerging star to come and tell?”

“No need!” Admiral Mu Hua directly rejected. He said: “We have no idea what the new Huaxia youngest person will do in the future, and if he doesn’t want to see us, then it’s not good to invite others with great fanfare. “

“Look at the situation first, but I always feel that I will soon meet this Chinese star who only knows his name but does not see him.” Admiral Mu Hua had a feeling in his heart that it would not take long for him to drink Qin Tiange meets.

Perhaps because of induction, in the crowd of the square, Qin Tiange frowned secretly, watching the two masters on the Yuhua platform fighting, suddenly lost the patience to watch.

“I should meet the generals at the Jingnan base and visit the Supreme Commander of Jingnan. At least I have to say hello.”

Qin Tiange thought for a while, and felt that he should visit the high-level military personnel of the Xiajingnan base, familiarize himself with some things, and walk around inside.

As a Chinese new star general, naturally I have to walk around and communicate with the old generals, at least to know, and to go further, we must have these relationships.

Thinking about this, he turned around and squeezed out the crowd, leaving three cows and others waiting to watch excitedly, without even knowing that Qin Tiange was gone.

Chapter 348 - Mu Xue, Snow Woman?

A young man came in front of the No. 1 compound in Xuanwu District, Beijing.

“Please show your credentials!”

In front of the compound, four heavily armed soldiers were guarding, one of them stopped Qin Tiange and asked for his credentials.

This is the residence of Admiral Mu Hua, Supreme Commander of Jingnan. It is impossible for outsiders to approach, and it is necessary to have an identity to come here.

In addition, there are troops guarding the entire ten-meter radius around the No. 1 compound. Ordinary people cannot pass at all, and they must have documents when they can come to the gate of the compound.

“This is my certificate!” Qin Tiange said nothing and took out his certificate and handed it to the other party.

It was a unique admiral of the admiral. When the soldier opened it, he was shocked, and then suddenly he felt suspicious at first, but soon he had to admit it was true.

“Head!”

The four soldiers saluted together and did not give way. The soldier who stopped the road explained: “Although you are carrying the certificate, we must report to the admiral before making a decision whether to let you in. Please forgive me.

“I’ll take the chief to rest in the front yard. You go to the Admiral.” The soldier directly called another person to go to the Admiral. Someone visited.

Qin Tiange didn't care. He followed the suspected fox soldier into the compound and came to rest in a pavilion in the front yard.

Bring him here, the soldier did not leave, but stood quietly, standing upright, serious and meticulous.

"Really, it's very difficult for young people to trust others, can't Huaxia have a young general?" Qin Tiange laughed secretly, shook his head, and wandered in the yard.

The soldier saw Qin Tiange wandering in the courtyard, like a statue, and followed him step by step.

In the garden, there are many flowers and plants, the fragrance is charming, but Qin Tiange suddenly felt a cold from somewhere.

Ok?

Qin Tiange's face flickered, his eyes flickered, and he stared at a courtyard over there. The slightest coldness came from inside, which aroused his curiosity.

With a hint of doubt, he was about to step into it, but the soldier seemed to remember something and immediately stood in front of the entrance to stop him.

"The chief is sorry. Inside is the living area of Admiral Mu's family members. You must not step into it without permission." The soldier was serious and bitter in heart.

He stopped the young man suspected of being a Chinese general twice. If this is a real general, he would probably cry to death.

Qin Tiange frowned slightly and said, "If you don't go in with me, if the old General Muhua blame me, I will help you."

After speaking, he directly bypassed the soldier and walked into the front yard. There was a small lake with clear water and a pavilion in the water.

As soon as he entered, he felt a icy frost blowing on his face. The soldier who chased in changed his face slightly, and couldn't help trembling.

His only one-star constitution was eroded by this frosty atmosphere, and a moment of stiffness appeared, and his lips became purple.

"You go out first!" Qin Tiange waved his hand gently, and a force brought the soldier out of the courtyard.

He looked surprised, step by step towards the lake in front, where the mist transpired, frost and cold air swept continuously, freezing the lake.

The entire lake surface was frozen into ice, and a thin layer of frost hung on the ground, flowers and trees, and the temperature was very low.

"is her?"

When he came to the small lake, Qin Tiange finally saw that there was a snow-white figure standing on the frozen ice, and the snow fluttered like a fairy.

She was the Snow Woman that she had encountered in the mysterious realm of the gods at first, which surprised Qin Tiange's heart, how secretly was she?

Why is Snow Girl here? This is Qin Tiange's question at this moment. While he was guessing, the Snow Woman on the ice suddenly opened her eyes, and two beams of cold light penetrated.

"Is it you?" Snow Girl was surprised, but the next moment, she shot her hand and raised her hand to hold a thick and frosty frost.

Frost struck his face, Qin Tiange woke up, watching the snow and ice sweeping across him, although he was not disturbed in his heart, raising his hand was a fight back.

boom!

A high-pitched muffled sound came from the two men, and a frosty force came in, which would invade Qin Tiange's body.

However, before this frost force invaded the body, Qin Tiange's hands ignited a raging flame, and the collision of fire and ice produced a huge explosion.

There was a loud noise, and the frozen lake blew a gap on the spot, and the lake whizzed up and scattered into a water curtain.

"Three feet frozen!"

Suddenly, the snow woman drank coldly, her hands danced continuously, the snow fluttered, and the water drops scattered around were immediately attracted to it, turning into ice crystals, with a sharp edge whistling towards Qin Tiange.

As the ice crystals passed, the air was frozen and snowflakes were falling.

On the ice, Qin Tiange stood proudly, holding one halberd without moving, looking at the sharp ice crystals that continued to flow, his body raised a mass of blue inflammation, covering the whole body.

Poppy poppy ...

I saw, the flying ice crystals collided with Cang Yan, and the sound of copying beans burst on the spot, and the Cang Yan melted and burst.

"I didn't mean to offend, I just came in and took a look. I didn't expect to meet you here."

With a gentle wave, Cang Yan melted all the ice crystals, and Qin Tiange explained with a touch of apology that he had no intention of offending.

After all, it was he who broke in and naturally lost money, and it seemed that Snow Girl was living in this No. 1 compound, which caused Qin Tiange's surprise and speculation.

Snow Woman, her previous life's identity has been a mystery, and no one has known her origins, not even her real name.

Maybe someone knows, but not to say, it was because Qin Tiange didn't know what Xuenue was called until his death.

Humph!

The Snow Girl hummed softly, and a slight wave of frosty face appeared, and her heart was actually very calm.

She looked at Qin Tiange quietly and was surprised to meet him here, and it was quite unexpected that she met her at home.

"Xer, what happened?"

At this moment, a few people hurriedly walked in outside the courtyard, headed by a gray-haired old man, full of spirit and walking.

He is the Supreme Commander of the Jingnan Base, General Mu Hua!

Mu Hua walked in quickly and saw Qin Tiange at first glance, then looked at Snow Snow and realized that nothing happened.

"Presumably, this is the youngest and most legendary Qin Tiange of China at present. Qin Tiange?" Mu Hua looked up and down Qin Tiange, and suddenly said this with a smile.

"Don't make fun of me, Mu Qin." Qin Tiange shook his head with a smile and laughed at himself: "In the eyes of others, I am the youngest general, but in the eyes of veteran generals, I can't get on the stage, you said, yes No? "

"Hahahaha ..."

After listening to this sentence, Mu Hua laughed, and came up and patted Qin Tiange's arm, pulling him directly to the pavilion on the lake.

"Your boy, don't give me sloppy eyes, honestly explain, you are not tossing in your deep market, how come you come to Jingnan?" Mu Hua, the old general, seemed not to take Qin Tiange as an outsider at all, and directly pulled up Homely.

Qin Tiange was surprised, and suddenly felt that the old Chinese general also got along well, and he knew immediately what to do in the future.

"You may have misunderstood Mu Lao. This time I really came to visit your old one. This is a little gift I prepared. For the meeting, do n't refuse it, or I will walk away." Qin Tiange said With a serious look, take out a delicate box.

Mu Hua's eyes flashed a fine light, did not refuse, put away aside with a smile.

"Right, Mu Lao, is this?" Qin Tiange suddenly raised his eyes and looked at the snow woman who had been quiet and indifferent to Mu Hua.

Mu Hua looked at Xue Nu, and then looked at Qin Tiange. There was a strange light in her eyes.

“This is my granddaughter, Mu Xue. I have been a lonely character since I was a child. I rarely talk to people. Even my grandfather can hardly say a few words to her.” Mu Hua introduced the origin of Xue Nu’s identity, and it really was his granddaughter.

Qin Tiange secretly groaned, wouldn’t he be so clever? He looked suspiciously at Mu Hua, the veteran general, and looked at the frosty Snow Woman, without any slight fluctuations in his eyes, as if born with indifference.

“Mu Xue, Xue Nu?” Qin Tiange murmured, not knowing that Mu Hua captured his expression.

“By the way, Admiral Qin is young and promising. It seems that he hasn’t had an object yet?” Mu Hua suddenly raised this strange question.

Qin Tiange was drinking tea and almost did not spit it out. He secretly said, does this veteran general want to be a matchmaker?

Thinking, he glanced at the Snow Woman secretly and immediately said, “Mu Lao has no idea, I already have a sweetheart.”

“That’s it!” Mu Hua could not help flashing a little disappointment in her heart.

He was suddenly in a hurry and wanted to see if Qin Tiange had a marriage match. If he didn’t, he could pull a line for his granddaughter, but he was disappointed.

Snow Woman heard Qin Tiange’s words, her eyes fluctuated a bit, her cold expression was a little colder, and she was surrounded by a trace of frost.

She silently added tea to Mu Hua and Qin Tiange. I didn’t know whether it was intentional or not Qin Tiange’s cup of tea always contained a strong frost.

But when Qin Tiange didn’t see it, he drank it directly, and there was nothing at all. On the contrary, he felt a icy coldness, and he felt refreshing and comfortable.

Snow Woman’s eyes flickered, and she stared at Qin Tiange, who had saved her life in a secret place.

“It’s a pity ...” Mu Hua secretly regrets that a Chinese talent like Qin Tiange had satisfied him. Now he is more satisfied with the real person. He meant to rub with him and his granddaughter. Quit this mind immediately.

“Your boy, recently, we are the celebrities in our army. Many old guys are thinking about seeing you. I didn’t expect you to come today.” Mu Hua looked at Qin Tiange with a smile.

Qin Tiange smiled without saying a word, drank his tea, and then chuckled: “Mu Lao, we all understand people. Today’s world is very sinister, and people’s hearts are more sinister. Many ambitionists have already seen a dark disorder. The time has come. “

As soon as this word came out, Mu Hua's turbid eyes immediately bloomed two beams of brilliance, and the whole body burst into anger, even the Snow Girl was taken aback, never seeing her grandfather like this.

Chapter 349 - Ambitious

"Ambitionist ..." Mu Hua whispered slightly, and suddenly asked, "Are you one of those ambitionists?"

As soon as the words fell, the temperature in the air suddenly dropped, the cold air rose, and the atmosphere was dignified and depressed. It seemed like a gunpowder barrel would be exploded at any time.

Qin Tiange drank tea slowly, not in a hurry, as if he didn't feel the changing atmosphere around him, his expression relaxed and relaxed.

"Good boy, good in heart, no wonder this achievement." Mu Laodu had to give a praise.

I saw, Qin Tiange gently put down the tea cup, and laughed: "Mu Lao, everyone has ambitions, depending on how big this heart is, and where this heart is facing."

"Oh?" Mu Lao smiled, and the heavy atmosphere suddenly dissipated. He laughed: "Your boy, don't hide your ambition at all, aren't you afraid of being suppressed?"

"A soldier who doesn't want to be a general, is not a good soldier!" Qin Tiange said softly, in fact, there was another sentence in his heart. He didn't want to be an emperor's general, not a good general.

But he didn't say it. Some things he could say, some things he couldn't.

"I agree with this statement." Mu Lao nodded gently, his eyes flashed, and suddenly said, "I heard that you have developed a new type of energy in Shenzhen?"

"Well, let's find a quiet place, how about a good discussion?" Qin Tiange thought about it and made this suggestion.

Mu Hua knew what he meant when he heard it, that is to say, now he came to visit as a junior gift, and had an informal status.

If you want to talk about shooting at the Shenzhen City Base, you must reply to your identity and talk in detail. This is Qin Tiange's idea.

"Okay, then you come with me to the study."

Mu Lao directly, simply got up and left, and took Qin Tiange to the study to discuss in detail. Mu Hua veteran would like to get the news from the capital. There is new energy in Shenzhen.

Jingnan needs a new type of energy, and it is still wireless and even unlimited energy. How can it not be exciting?

“Xueer, you are outside, no one is allowed to approach.” Mu Lao went to the door of the study, and ordered the snow girl around him to stay outside.

Mu Xue nodded faintly, just stayed outside and didn't let anyone approach.

As for Mu Hua, he took Qin Tiange into the study, and the two of them talked for four hours. The Snow Girl couldn't help being curious. What secrets did the young and old talk about?

Four hours later, there was a cheerful laugh in the study, and I saw the old General Muhua blushing and smiling, and came out with a smile together with Qin Tiange.

“Xueer, you go to prepare dinner. I want to leave Tian Ge for a home-cooked meal at home.” Mu Lao smiled, and directly ordered Xue Nuo to prepare meals.

Xue Nu heard this for a moment, and looked at Qin Tiange with his eyes. There was something strange in his eyes that made Qin Tiange uncomfortable.

“What's wrong with grandpa?” Xue Nu turned and frowned secretly, thinking about what happened to his grandpa today.

She knew very well that her grandfather had never left any outsiders to eat at home, let alone let her prepare dinner in person, which contained a mystery?

“Tian Ge, walk around, walk with me, wait for a home-cooked meal.” Mu Hua pulled Qin Tiange and left.

He took Qin Tiange out of the No. 1 compound, arrived at the military camp, and took him around the entire military camp to introduce some of the situation in the Jingnan base.

“This is basically the case in our southern Beijing. The dark tide is over there, and our southern Beijing is not very peaceful.” At the corner of the barracks, Mu Hua and Qin Tiange walked next to the rows of main battle tanks, introducing the current situation in Jingnan. .

Jingnan is not so peaceful on the surface, Mu Hua said: “You should not know yet, Jingnan is not me alone, there are two major forces controlling Jingnan, one of which is the Xiao family, the other One is the Bai family. “

“Baijia?” Qin Tiange thought about it and thought of someone, but he wasn't sure, so he didn't ask it.

As for the Xiao family, Qin Tiange is naturally clear, but they did not expect that even the Beijing South Base was intervened by them, which had to be surprising.

It is no wonder that the Xiao family in the previous life was so bold and arrogant that it wanted to subvert the capital. It seemed to be well-prepared or even sufficient.

Thinking of the terrible civil war in the previous life, Qin Tiange couldn't help but look dignified, there were countless deaths and injuries inside Huaxia in that war, and there were too many masters lost.

“Mu Lao, the Xiao family’s hands are too long, shouldn’t it be cut off?” Qin Tiange froze, and suddenly offered his own opinion.

After Mu Hua frowned gently and stopped, the two of them came to the Qinhuai River and looked at the torrential river water. They were silent for a while.

For a long time, General Muhua sighed slowly and sighed, “It’s not that I don’t want to cut this hand, but to move my whole body with one shot. If I’m not sure to completely cut off this arm, it will lead to infinite. Trouble.”

“Mu is always afraid that the Bai family will suffer from it?” Qin Tiange immediately understood his concerns.

With a little contemplation, he said, “Well, I’ll help you to remove all the secret hands of the Xiao family at the Jingnan base. Mu Lao, you should solve the Bai family’s problems yourself. It should be clear if you want to come to the Bai family. At present, it is still the central Beijing city. . “

“Well, I’ll wait for you.” The old General Mu Hua laughed twice, looking very happy, as if a few years younger.

This young, old and young man just stood by the turbulent Qinhuai River, talked in detail, exchanged their views and experiences with each other, and talked more and more speculatively.

Qin Tiange’s performance made Mu Hua, the older General, more and more he liked it. He sighed and regretted that he had a woman, otherwise his granddaughter would be blessed.

“Grandpa, General Qin, the food is ready.”

As the two talked, a graceful figure came quietly, and the indifferent and cold words revealed an icy cold, which awakened the two.

“It’s Xueer, the food is ready?” Mu Lao came to his senses, and they talked here for another two hours.

The content of their conversation was very extensive, covering all aspects, and even Qin Tiange said everything he knew, such as some inherited knowledge.

Of course, all secret things will not be said, and he is not stupid.

“Tian Ge, go, go back to dinner first.” Mu Lao smiled, and took Qin Tian Ge with the Snow Girl back to the No. 1 compound.

Home-cooked meals were eaten by three people, Qin Tiange, Mu Lao and Xue Nu. The atmosphere was a little weird. Qin Tiange seemed a little restless. How did this feel like a blind date?

After eating a bowl of rough rice in a hurry, Qin Tiange hurriedly left and left Mu Lao unwilling to stay for a while.

“This boy, why did you run away in a hurry?” Mu Lao’s face was dissatisfied, and there were still many things to communicate with Qin Tiange, a Chinese star.

He even wanted to ask him some questions, but unfortunately he ran away, which made him feel sorry.

As for the Snow Woman, looking at Qin Tiange in a hurry, there was rarely a smile on Bingshan's face. Even though it was just a faint arc of the corner of his mouth, it was still stunning.

Unfortunately, no one has the opportunity to appreciate it.

Leaving the No. 1 compound in a hurry, Qin Tiange stood on the corner of the street, secretly sweating.

He looked at the direction of the No. 1 compound, and couldn't help but smile bitterly: "This old General Mu is a little enthusiastic I feel a little over-enthusiastic."

Qin Tiange thought for a moment, then smiled and turned to leave. He already knew in his heart what the old General Mu Hua had forced him to have a meal, in fact, in order to observe him more closely.

Sure enough, when he left, Mu Lao looked serious and asked lightly, "Xer, what do you think of this person?"

After listening to the snow girl fell into silence, her eyes flickered, and she spit out two words: "Mystery!"

Yes, Qin Tiange is full of mystery everywhere, and Mu Lao also feels it, and he can't help but be confused. Why can such a young man not see the details of the other party?

Mu Lao, who has read countless people throughout his life, feels that Qin Tiange has a layer of fog blocking him. The more he wants to detect, the more he can't see anything.

"Forget it, this kid was finally seen by me, and that alone was enough to reassure me." Mu Lao laughed again, murmured to himself, turned away and returned to the barracks.

Leaving Snow Girl alone, staring at the sky in a daze, not sure what the frozen heart was thinking.

Chapter 350 - Weird assassination

Late at night, everything is silent!

A corner of the Beijing South Base suddenly flashed a dark shadow, the body wrapped tightly, showing only two eyes.

This dark shadow is very fast, like a ghost, constantly shuttles over the streets of the base. Even some patrol teams have never found him.

Huh!

The dark shadow soon came to the No. 1 compound, and looked around quietly, hiding hidden whistle, all guarding the senior commander of the southern Beijing, General Mu Hua.

Heiyang looked for a moment, his body leaped silently, with the rapid flash of night, to avoid the dark whistle one after another, did not alarm anyone into the courtyard.

"Huh? Did you feel anything just now?"

At this moment, the captain of a squad warrior in the No. 1 compound looked indifferent, feeling a wind blowing, and felt unusual.

However, a group of players did not feel it, shook their heads one after another, and finally left it alone.

In the darkness, there was a dark shadow hidden in the flowers and grass, he quietly approached the main bedroom in the courtyard with a dagger in his hand.

Inside was the Supreme Commander of the Jingnan Base. At this moment, General Mu Hua had rested.

Squeak ...

The window was quietly opened, and the dark shadows flashed in, silently, but no sound was revealed.

He approached the sleeping General Mu Hua in the bedroom softly, and raised his dagger quietly, sharp and dazzling, and looked particularly sultry in the night.

assassin!

This man in black turned out to be an assassin who came to assassinate the old General Mu Hua at the base in Beijing.

“Who?”

Suddenly, the sleeping General Mu Hua sighed and opened his eyes with a sigh, revealing an air of killing.

He is a veteran on the battlefield. Zeng Jing has participated in the China's self-defense counterattack against Vietnam. He is an accomplished veteran and is definitely a veteran.

The drink was full of evil spirits, shocked the hidden soldiers from all sides, and rushed into Commander Mu's bedroom immediately.

“who!”

“assassin!”

There was a burst of drink in the bedroom, and a powerful fighter shot. After the drink, it alarmed the entire compound No. 1 and even the two elite guards in the vicinity.

I saw the sound of fighting in the bedroom. The men in black were powerful. They rushed those soldiers who came in to the ground a few times and waved their daggers in front of the old general.

“kill!”

Suddenly Mu Hua pulled out a sword and slashed it with a buzzing sound. The crunching sound of the bell and the sparkling sparkle were extremely dazzling.

He looked at the old man, but in fact he was not weak, and his combat effectiveness should not be underestimated. After blocking the assassin's attack, Mu Lao, a veteran in the field, launched a violent attack.

The sword was wide open and closed, revealing a savage evil spirit, forcing the man in black back.

Seeing that more and more guards gathered around him, the man in black suddenly threw a dagger at Mu Lao, whistling sharply.

With a flutter, Mu Lao tried to dodge, but his arm was still scratched.

“Stop him!”

“Where to go!”

In the dark, there was a burst of drinking, and the entire courtyard of No. 1 was brightly lit, illuminating the darkness, and seeing the figure of the man in black clearly.

As I saw, in a bedroom not far from Mu Lao’s bedroom, there was a sudden icy air.

“Three feet frozen!”

When Jiao drink came, he saw a frost spreading and banging on the man in black, hitting him all up high.

The man in black flipped a few times in the air, and jumped out of the No. 1 compound by force, rushed into the darkness, quickly dodged, and disappeared into the vast night.

“Head, the assassin ran!”

A second lieutenant was ashamed, came to Mu Lao, bowed his head, and reported the news that the assassin ran away.

The guards of the two platoons couldn’t keep the compound No. 1 and even let the old commander be assassinated in secret, it was a shame to them.

“Go and find out who is going to assassinate me.” Mu Laohan gave the order with a face on his face, and a group of guards nervously surrounded the No. 1 compound.

This night, the Jingnan Base was destined to have many people sleepless all night. The Supreme Commander of Beijing, General Mu Hua, was stabbed in secret and injured.

The news spread quickly and immediately caused the fryers of the entire Jingnan base, and countless people were awakened by their men in their sleep.

“Mu Hua was assassinated?”

“Died?”

Some people in Jingnan base were shocked when they received the news, and then asked anxiously. Has the old general in Jingnan died?

Unfortunately, these people are about to be disappointed. The old general is not dead, and the assassin just scratched Mu Lao’s arm without any problem.

“Grandpa, that assassin seems ...”

At this time, in the courtyard of No.1, Snow Girl covered her face with frost, her eyes looming, came to Mu Lao and opened her mouth gently, and wanted to say something, but she was interrupted by Wa Lao.

He shook his head slightly, and said, "Mo said, Mo thought, waiting quietly."

After Mu Lao finished speaking, Xue Nu seemed to understand something in her heart, her face changed slightly, and her grandpa's eyes looked a little different.

"Did it be ..." Xue Nu's eyebrows frowned, and Xuefa fluttered gently in the night, as if she were a fairy.

The next day, the whole Jingnan shook, and countless people awoke and heard an explosive news, even several versions of the news.

"what?"

"Commander Jingnan was assassinated?"

"Serious injury?"

Rumors spread one after another in the base in Jingnan, as if they were intentionally spread out by people with intentions, causing the entire base to boil.

Countless people are panic-stricken, and more are inexplicable. Who is so brave and dare to assassinate the old commander of southern Beijing?

Not only was the base in Jingnan boiling, but some other bases in China also received the news.

"Mu Hua's old man was assassinated and seriously dying?"

In the city, an old man looked at a secret newspaper and was surprised that he couldn't help laughing.

He is the ruler of the Xiao family, the founder of the maritime base, the contemporary grandfather of the Xiao family, and the old general accompanied by the Rong Ma army brigade.

When he heard the news that Mu Lao was assassinated and seriously injured, he couldn't help being excited, realizing that an opportunity had come.

"The subordinates in the south of Beijing were ordered to tell them to wait for the opportunity." The elderly Xiao family directly issued the order.

Soon, there was obviously a strong undercurrent in the Jingnan base, surging and surging, and many interested people felt a storm coming.

At the same time, Beijing Command ...

"Head, Jingnan urgent secret report!"

A soldier hurried in and presented an urgent secret report to Chen Guodong.

He picked up the secret newspaper and opened it. He looked closely. The more he looked, the more ugly he was. His eyes almost burst into flames.

"Junk stuff!"

Chen Guodong patted the table, shocked Lieutenant General Xia Ming, who was processing the document, and walked over quickly.

“What happened, why is it so angry?” Xia Ming was faintly aware.

Chen Guodong directly threw the secret report to him, and hated: “Look at yourself, those people are simply daring and assassinate me as a veteran of China’s outstanding achievements. It is simply lawless.”

“What, Brother Mu was stabbed and seriously dying?” Lieutenant General Xia Ming changed his face, shaking his hands slightly, inexplicable.

The news was so shocking that it made it difficult for the two old generals to accept it for a while. It turned out that the old general Mu Hua was seriously injured by the assassination.

One stone provoked millennial waves, whether it be Jingnan, Beijing, or major base forces, as long as they received the news, they were all shocked and shocked.

“General Mu is dying, Jingnan is in danger!”

Beijing, Chen Guodong and other veterans face bitterness, thinking that the Jingnan base is in danger.

Just when all parties were shocked by the news, General Jing Mu, who was seriously dying of death, was rumored to be seriously injured by external rumors in Jingnan Base, the No. 1 compound, while chatting with a young man for tea.

“Your boy, I’ve lost my mind, it seems that he can’t help it.” Mu Lao sighed while drinking tea.

Sitting opposite him was Qin Tiange. The two drank tea and chatted. They didn’t care that the south of Beijing was already under the tide, and the danger was approaching.

On the side, Snow Girl was making tea for the two, and Meimu swept across the calm Qin Tiange from time to time. She tried to speak many times, but swallowed back.

“Head, the major legions have changed.”

At this moment, a captain hurriedly rushed to tell the news solemnly, and there was an inexplicable change in the major army groups in southern Beijing.

After hearing this, Mu Lao’s eyes flashed a fine light, waved his hand to let the captain leave, and then he drank tea leisurely.

“They’re going to do it,” Mu Lao said lightly.

Qin Tiange’s mouth slightly angled, and he drank the tea before saying, “It’s good to solve it together. If it can’t be solved, I can shoot in the dark.”

“Okay, then I’ll take care of these things and let Cher accompany you.”

Mu Lao suddenly stood up, wearing armor, carrying a sword, and strode out of the meteor. The old general was about to start.

Jingnan will usher in a big cleansing. No one knows that this old general Mu is not as seriously injured and dying as outside rumors, but instead he is more energetic and stronger.

All of this is thanks to Qin Tiange. He knows that he needs allies to support himself in the future, so he must find reliable cooperative allies.

At the Beijing South Base, Mu Hua veteran is just the right candidate. Moreover, the veteran general in the previous life died early and made people regret.

Even many times Qin Tiange doubted whether the death of General Mu Hua would be secretly done. This speculation is inseparable.

“The affairs of the Jingnan base should not have any major problems. The Bai family did not dare to act arrogantly. After removing Xiao’s hand, Jingnan was completely in the hands of your grandpa.”

In the compound, Qin Tiange took over the tea cup handed down by the Snow Woman. The frost filled it and it became frozen into snowflakes. It felt refreshing to drink it.

Snow Girl didn’t speak, she sat quietly, and a strange gleam of light flashed from time to time in her eyes, which made Qin Tiange extremely boring.

“It’s here and I should go now.”

Speaking, Qin Tiange stood up and said with a smile: “Snowgirl, I used your ***** fruit to make the divine medicine you made last night. You remember to take it yourself. In addition, you gave yourself the medicine yourself Going to prepare and wash your body will give you the ice muscle jade bone. “

“There will be a period later!”

As soon as the words fell, Qin Tiange had long since disappeared, leaving only one sentence echoing gently in Xuenui’s ears for a long time.

She stood here, silently looking at the departing back, her eyes glowing, indicating that she was extremely disturbed at the moment.
