

## Dark Ages 36

### Chapter 36 - 2 Star Iron Corpse

A huge figure came out slowly from the entrance of the market, three meters high, his muscles turned red, and he was tangled with blood vessels, looking extremely scary.

This zombie is a two-star zombie. Its three-meter-high body looks like an iron tower, with a silky iron luster on its muscles.

**“Two Star Iron Corpse!”**

Qi Qin Tiange looked dignified, staring at the huge zombie that came out, confirming that it was a two-star iron corpse.

This kind of zombies has evolved from one star to two stars in the beginning. It is as hard as steel, it is called iron corpse, and it has two stars.

**“Everyone fights and retreats, the two-star iron corpse comes.”**

Qi Qin Tiange immediately ordered and slashed a zombie rushed to death, ordering the team to retreat quickly, and fight back, entering the campus.

At this time, the two-star iron corpse had already stared at Qin Tiange and others, or the moment they stepped out of the campus, the two-star iron corpse in the market had already stared at them.

Roar!

Twenty-two star iron corpses suddenly roared to the sky, making a roar like a beast, a pair of Sen Bai stared at this side with red mans eyes, full of iron teeth Sen Bai.

Qi Qin Tiange felt a little dignified in his heart. He felt a strong threat from the two star iron corpses, which was extremely strong. This was a crisis induction sharpened by previous lives.

He can be sure, that two-star iron corpse is stronger than him, very incredible. In fact, there is no fuss. In the market, there are many stalls selling chicken, duck and fish.

Before the end of the world there were many people selling poultry such as chickens, ducks and other poultry, as well as a dozen fish ponds built in the market. The fish inside were mutated by flesh and blood.

This town can give birth to a two-star iron corpse so quickly. In fact, the credit is still the mutated chickens, ducks, and fish. The chickens and ducks cannot be run in a cage. After the mutations, they are eaten by zombies, and the fish is easier. Originally kept in a pond, their bodies swelled after mutation, but there was no water source for them to continue to survive, and they became food for zombies.

The zombie who ate the flesh and blood of the mutant creatures, the evolution speed accelerated, and then a two-star iron corpse appeared in the market.

Roar!

The corpses of crickets danced wildly. On the street and in the market, with the roar of the two-star iron corpse, they even came to the campus autonomously.

The two-star iron corpse is different from the surrounding one-star zombies. It has given birth to simple wisdom and can be regarded as a new high-level overlord.

Zombies have levels, strengths, and strong zombies can lead other weak and similar. Just like this moment, the two-star Iron Corpse sent a large group of zombies to the campus.

It feels delicious. It comes from the body of Qin Tiange and others. The strong blood from the body after being lifted is definitely a very strong temptation.

Boom!

Suddenly, the two-star iron corpse kicked with both feet, the whole body was raised, and suddenly fell in front of the gate of the campus, the concrete floor shattered, showing a three-meter pit.

“My God, is that two-star iron corpse?”

There was a boy who swallowed drooling and was frightened. The powerful performance of the two-star iron corpse shocked the students. Although their physical fitness improved, they were absolutely vulnerable in front of the two-star iron corpse.

This is the gap. The two-star mutant creatures encountered earlier, such as the mutant dog, have just mutated and improved. In the two stars, they are the worst and the weakest.

The two-star iron corpse in front of him was as hard as steel, his strength was frightening, and fortunately he could catch it with the naked eye.

“Everyone fights and retreats, using the defense of the teaching building to hack and kill ordinary zombies.”

Qi Qin Tiange suddenly stepped forward, left the team, and issued this order. This is for Moda and others to fight and retreat, use the teaching building to defend the zombies, and kill the ordinary zombies brought by the two-star iron corpses. As for himself, he will focus on the two-star iron corpses.

Everyone here, only he has the ability to compete with the iron corpse, but he can only contend and want to kill this two-star iron corpse, Qin Tiange feels that he must pay a huge price and may even fall.

Moda and others evacuated to the teaching building, relying on the teaching building's defense, arrayed and killed ordinary zombies rushed up.

Alas!

Suddenly, a boulder flew across the sky and hit the top of Erxing Iron Corpse severely, attracting the attention of the zombie.

It roared to the sky, slammed the right arm with a hard punch, and thundered, and the fist broke the huge stone.

“It's so strong, it's at least forty-five times as powerful as an adult, and it's even stronger than 45 people.”

He feels that this two-star iron corpse is full of strength, and it is absolutely forty-five times as scary as an adult, and even higher.

In the previous life, the limit of one star level was one hundred times the power of one hundred people, but without the power of one hundred people, they can also be promoted to two stars, but the potential is different, so the strength is too different.

For example, a one-star person with a force of one hundred people who is promoted to two stars is definitely much stronger than a one-star and ten-person force who is promoted to two stars. It will grow even higher in the future. Yes.

At present, Qin Tiange's physical fitness is 30 times that of 30 people. In the face of the two-star iron corpse of 45 times his physique, he feels Alexander.

Roar!

Tuan Erxing's iron corpse was furious and was irritated by a huge rock from Qin Tiange. He jumped on the spot and instantly crossed a distance of hundreds of meters. He fell suddenly on the ground not far in front of him and smashed a large pit.

The stern gas wave rolled, gravel splattered, and a three-meter-high iron corpse stood in front of it, and that terrible breath was choking.

Humph! Qin Tiange quickly retreated, sneered, turned around and speeded up, ran on the campus avenue, and the iron corpse roared behind him, and caught up without hesitation.

It has a little consciousness, but it is definitely not high. After being provoked by Qin Tiange, he immediately chases up with anger, regardless of the humans on Moda's side.

"Come on, come on, see how I kill you!"

As she ran, Qin Tiange swept back to catch up with the two-star iron corpse, showing a cold smile on the corner of his mouth.

What about the two star iron corpses? What about forty-five times? He also wanted to kill the zombies, and everything that blocked his plan, be it humans or zombies, must be killed by him.

"What are you doing? Don't get out now?"

Suddenly, Qin Tiange's face changed during the running, and it was found that a figure running in front was Chen Xi, the former emperor.

Seeing her not leaving, Qin Tiange was so angry that she spoke angrily. Just as he was thinking about continuing to scold and a fragrant wind blows his nose, then a soft red lips blocked his words, his eyes widened, looking at the sudden attack Chen Xi, can't believe her Come here at this time.

"Take care, I wait for you!"

After a long kiss, Chen Xi's sudden kiss made her blush into an apple, turned around shyly, and made a light leap, and soon disappeared into the corner of the teaching building, leaving Qin Tiange alone stupidly there.

Roar!

A ferocious roar came from behind him, shocked Qin Tiange Han Mao to stand upside down, cursing, and his body burst out at a maximum speed.

With a loud bang, a big pit appeared in the original position behind him, and was severely smashed by the three-meter-tall two-star iron corpse.

If I hadn't evaded quickly, I must have been miserable in the end, so Qin Tiange secretly persuaded a cold sweat, really thrilling.

"This \*\*\*\* woman almost killed me." Qin Tiange couldn't help crying and laughing, but he was attacked by mistake.

At the juncture of crisis, Chen Xi, the beauty emperor of the past life, counterattacked, and suddenly kissed him and gave him a funeral, almost real farewell.

"Chen Xi, you wait for me, my brother must catch you to fart, fart hard."

Qin Tiange growled angrily, then turned and ran, and the three-meter-tall two-star iron corpse was chasing and roaring.

At this moment, in the corner of the teaching building, Chen Xi was flushed, listening to Qin Tiange's howl, her heart almost jumped out of shame, she was too daring, and did n't know what. The ghost attacked Qin Tiange before leaving. Take a look.

"This stinky man, old lady is waiting for you!"

Wu Chenxi cursed, blushed and speeded up, went downstairs, and quickly ran out of the campus, and disappeared here in an instant. No one except Qin Tiange knew that she was gone.
