

Dark Ages 371

Chapter 371 - Immortal

Demon God Demon, the horrible demon rumor in the rumor, can kill God on the top and kill the dragon on the bottom.

Of course, this is just an exaggeration, but you can also see the terrible nature of the demon demon. It is rumored that it is inaccessible to fire and fire.

“This is the demon demon?” Qin Tiange was curious, looked at the one-meter-high black cocoon, and various maggots surrounded by it, climbed up autonomously, and was absorbed by the cocoon and devoured, really weird.

Looking at this scene, Long Xiaoqian, as a witch sacrifice and puppet master, naturally realized the terrible nature of this big cocoon.

“Brother, there really is a demon maggot, and it is rumored that Miao Xinjiang is the most powerful maggot, if it can be controlled ...” she said, looking a little excited.

No way, as any witch sacrifice magister, I want to have one of the most powerful maggots. The previous ice silkworm was her most powerful baby maggot, but she chose Qin Tiange. This huge cocoon immediately moved.

“Don’t be busy!” Qin Tiange reached out, stopped Long Xiaoqian, and looked a little dignified.

He stared at the cocoon and warned: “Did you not realize that the maggots climbed onto the cocoon and were swallowed clean?”

This time, both people found something wrong. The densely packed roundworms crawled up and devoured the cocoons.

As maggots, they are extremely brutal and terrible. Even if they are not opponents, they bite each other like crazy until they die.

The only explanation for this situation is that these maggots are under control and let countless maggots climb up to cultivate the demon owl in the ***** cocoon.

“Is there any other witch sacrifices in the tomb of Jiuli Zu?” Long Xiaoqian’s face changed greatly, and he immediately realized that it was not good.

This speculation is amazing. In the tomb of Jiuli Zu, never heard of the existence of a living person, everyone who came in was dead.

In addition, all the witch sacrifices left a legacy before death, and went directly to the ancestral tomb to wait for death, burying the ancestor Chi You.

“Brother Qin, Sister Long, I feel an extremely unknown breath, which is near us, which is terrible.” Xi Xi suddenly spoke, her face pale.

She seemed to have a wonderful induction, she could sense a terrible breath, or even a few terrible breaths nearby, extremely cold and horrible.

Qin Tiange's words surprised Qin Tiange's heart, glanced at her, and nodded, "Xi Xi's response is good, there are indeed many strange breaths hidden around him, not humans, let alone living people."

This is amazing, is n't it human, not alive, is it dead?

Uh ... wow!

Suddenly, there were a large number of various tapeworms around, and the number was huge. I don't know where they came from.

These maggots have one characteristic, and instead of attacking each other, they flock to the giant tadpole cocoon, with black light looming and shining through.

The cocoon swelled and swallowed countless tapeworms, then gradually expanded, and then quickly contracted, so the cycle went back and forth, watching the scalp tingling.

"Back first, let's take a look and talk."

Qin Tiange quickly made a decision and stepped back immediately. The three jumped onto a boulder and looked at it from a distance.

Below the cocoon is actually a huge tomb in which the rumored remains of Jiuli's ancestor Chi You are buried.

Around it, nine huge copper pillars stood up, depicting dense lines, revealing a mysterious atmosphere, ancient and vicissitudes, but could not understand.

Qin Tiange has been looking around for four weeks, feeling a terrible breath, quickly gathering quietly.

"Be careful, those things appear." He reminded him, looking grim and staring sharply at the corner of the tomb.

There was something coming out of the cave, step by step, very slow, but it really came out.

hiss...

"How?" Seeing this, Long Xiaoqian couldn't help taking a secret breath, looking horrified, watching the figure coming out.

It was a skeleton, and his clothes were tattered, and he could still see the clothes worn as a witch ritual, the tattered clothes, revealing the dark skeleton.

Yes, it was a skeleton, and it was really shocking to be able to come out on its own.

"Walking skeleton?" Qin Tiange squinted his eyes and looked at the black skeleton that came out, the whole body was dark.

Immediately afterwards, one after another, the skeletons came out, as if with consciousness, so that the three of Qin Tiange's faces changed.

One by one, some clothes were completely rotten, leaving only a dark skeleton, still dark, horrifying.

These bones are all witch sacrifices buried here for generations. How can they still be left behind?

“They are still alive?” Long Xiaoqian looked shocked, and was frightened by this scene.

As more and more strange bones came out, hundreds of bones gathered around the ***** cocoon, each raised a pair of sensible black bone hands, mouths opened and closed, as if reading a spell .

“This is the sacrifice of the dead soul, some kind of ancient resurrection ritual.” The next moment, Long Xiaoqian's complexion changed, recognizing that these bones were doing some mysterious ritual ritual.

The Soul Sacrifice is a mysterious ritual of resurrecting the soul, which is very scary. It is rumored that this ritual can summon the dead soul to awaken, and through some specific rituals, the dead soul can climb out of the endless abyss and resurrect.

“Is that the cocoon is not a monster, but these dead witch offerings want to revive the Jiuli ancestor Chi You?” Qin Tiange suddenly made such a guess.

After hearing this, both Long Xiaoqian and Xun Xi felt chilly, their backs were cold, and their foreheads were sweating.

Resurrecting Jiu Li Ancestor Chi You? If this is true, it would be horrible. Who is presiding over this ritual? Is it the ceremonial presidency of these dead witch sacrifices?

“No!” Qin Tiange quickly realized that something was wrong, and whispered, “These witch sacrifice bones have no consciousness, and there should be something behind the scenes that manipulates it all.”

He saw through at a glance that these sacrifice bones surrounding the cocoons did not have any consciousness, so guessed that there should be a black hand behind the scenes to manipulate everything.

Huh!

Just as his voice had just fallen, hundreds of bones turned around, empty eyes staring directly at this side, showing a whisper of breath.

“Hehehe ... hahahaha ...”

At this moment, there were a lot of horrible laughter in the entire tomb, extremely sharp and harsh, making people feel dizzy when they heard it.

Long Xiaoqian's complexion changed slightly, and a ray of black gas rose from his palms, with a spell in his mouth, resisting this weird laughter.

Xi Xi is inexplicable, and the body is full of a green light, which is not affected by these things at all.

It was Qin Tiange, who looked at the direction inexplicably, his eyes flickered with silver awns, and through the darkness, he saw a dark shadow emerging there.

“Living people’s breath has been around for two hundred years, and finally there are living people coming in again.”

I saw a hoarse, low voice, like the sound of grinding teeth, making people’s bones inexplicably soft extremely ugly.

“Who are you?” Long Xiaoqian drank swiftly, questioning: “This is my tomb of Jiuli Li, why are you in my clan?”

“The tomb of Jiuli, quack quack ...” The voice burst into an unpleasant smile, and then slowly came out of the darkness.

It was wrapped in a tattered black sacrifice robe, showing only two arrogant black hand bones and some bone positions on the body, which turned out to be a skeleton.

However, what surprised Qin Tiange was that he saw an inexplicable purple-gold light on the bone, which was at the position of his chest and spine.

A bit of purple-golden light shines out, exuding a strange luster, causing Qin Tiange’s vibration.

“Do not destroy the bone?” His pupils shrunk, and he saw clearly that it was a section of bones. The purple-gold bones were transparent with crystal light, and the whole body was transparent and very mysterious.

It is an immortal bone, known as immortal, which can restore the bones, just like the skull in front of them.

It turned out to be an immortal!

Chapter 372 - God's career

Immortal, rumors of heaven and earth heterogeneity, it is difficult to appear.

This thing is a bone resurrection, known as immortality, because the body’s bones have some kind of mutation, immortality.

From the knowledge passed down by the pharmacist, there are sporadic records of immortal bones. Immortal bones can be used as medicine, which can make bones immortal.

“Brother, what is the immortal bone?” Long Xiaoqian looked horrified, staring at the bone and asking his doubts.

Yan Xi also looked over, widening her eyes and looking curious, but she wasn’t even scared at the moment?

Hehe! Qin Tiange smiled inexplicably twice, explaining: “The so-called immortal bone is like the bone in front of me, which is transformed into a bone after death and remains immortal. For some reason, it has been revived, and it is called indomitable. Bone destruction. “

“Look at its chest cavity, a section of bone on the back, purple-gold, and the whole body is transparent, that is, immortal bone, ground into powder, and said

to keep human body bones immortal.” Qin Tiange said, eyes. There was a hint of fineness in it.

He smiled and smiled happily, because this immortal appearance, instead of panic, showed a happy expression.

Qin Tiange’s words and his expression made that immortal extremely uncomfortable.

“I hate your expression. I will have to torture you well and take out your bones and remove them piece by piece.” The immortal said hoarsely.

In his hollow eyes, there were two blood-colored flames, like the fire of the soul swaying and beating in it, which was extremely strange.

The sturdy atmosphere, the black mist, enveloped the immortal bone, and only the purple-golden skeleton was particularly prominent.

“Go on, kill them!”

I was surprised that the immortal waved the bone hand, and immediately, the dense crowd of maggots rushed around and rushed towards the three of Qin Tiange.

“Are maggots, what can I do?”

Qin Tiange sneered, raised his hand and waved out Cang Yan, and a loud rumbling came, and the endless Cang Yan swept across, burning all the poisonous insects and puppets incinerated into ashes immediately.

The terrible Cang Yan, from the blue blood tribe in the seal of the planet, is not clear what it is, but the Cang Yan revealed is extremely terrifying.

All of a sudden, thousands of maggots around were burned to ashes, and the bones of two of them who were in charge of the ceremony were burned to powder.

“Damn, what kind of flame is this?” The immortal horror, who looked at the ashes that were burned to ashes, were maggots reared by witch sacrifices of all ages.

Moreover, in the tomb of Jiuli, countless roundworms multiply each other, producing a variety of strange new breeds of roundworms, which is even more terrible.

Some maggots were not even afraid of the fire, but they ran through Cang Yan and rushed directly to Qin Tiange, but he was broken by a sword.

Gradually, none of the maggots in Cangyan came forward, and they were thrown back by the immortal bone, and they dared not approach.

“Hey hey, a little skill, but you are also destined to be my nutrient for me to re-grow the bleeding body and muscles.” Immortal said hoarsely, the laughter was dark and terrible.

Seeing this, Qin Tiange sneered and hummed, “If the bones above and below your body have been transformed into immortal bones, maybe I will run away when I see you. Unfortunately, you do n’t have the ability to dare to run. Come out and let me see. “

Immortal bones. After the bones of the body recover, a small section of bones will first become metamorphoses, and then the whole body will slowly degenerate. Finally, when all bones are metamorphoses into immortal bones, it will completely get rid of the body’s skeletal restrictions and restart. A new flesh and blood body grows.

At that time, immortal bones will become immortal corpses, which are immortal creatures, brand new alien species, extremely difficult to kill.

Even if the physical body is broken, the bones are still immortal, and even if the whole body bones are broken, it can still be restored and restored to integrity, which is the terrible part of indestructible bones.

But unfortunately, the immortal bone in front of him has not yet grown to that extent. Perhaps because of the dark energy after the end of the day, it will have a strange transformation and become an immortal bone.

Just look at the hundreds of skeletons. Only one is immortal. Although other skeletons have undergone strange changes, they have not been able to produce immortal bones, and they have no consciousness. They are controlled by this immortal bones.

“Back up, be careful, I’ll go up and fix this immortal.”

Qin Tiange’s mind turned sharply, admonishing, and his body leaped away, rushing directly to the immortal.

He is going to cut and kill this immortal bone and obtain the purple-gold section of immortal bone. This is absolutely a heaven and earth singularity. How can he miss the opportunity to come to the door?

“Look for death!” Seeing Qin Tiange rushing up, the immortal bone was angry, and he waved the bone hand and hit directly.

With a snoring sound, the sparks splattered, and a blazing flame ignited above the bones, the dark flame exuding a gloomy atmosphere.

This flame can corrode the soul and surprise Qin Tiange, but don’t forget that his body already has a soul flame.

Bear!

Surprised, a black flame slammed, burning fiercely, revealing endless coldness, burning the soul will.

It was the talented fire of the eight-winged fallen angel, which swept directly across, and the two black flames collided with each other, intertwined with each other, and it was difficult to understand.

“It’s a bit interesting.” Qin Tiange was surprised, looking at the melanitis that could compete with his own black flame, a little surprised.

On the opposite side, the immortal bone was even more shocked. His talented flames could not burn each other, and it seemed that this person also had powerful flames, or two.

A kind of Cangyan it has seen, but the black flame in front of it is like a magic fire from the abyss of hell, burning, which is comparable to its talented flame.

“Kill!” Qin Tiange drank violently, and Euphorbia smashed it, making a loud noise, but was blocked by a black bone hand.

However, the violent power finally shook the immortal bone back two steps, nothing more, the black bone hand was extremely hard.

Qin Tiange had to give a secret praise. It is indeed something that is said to be indestructible, and it is really powerful. If the whole body is transformed into purple golden indestructible bones, what horror?

“Roar ... kill kill kill!” Immortal Bone was angry, making a hoarse and deep roaring sound, continued to slam up, his hands turned and slammed Qin Tiange.

However, its fierce attack was easily resisted by Qin Tiange, and even the calm counterattack, Euphorbia overturned, bringing up a black flame, which swept the mighty, the entire Jiuli tomb was shrouded in black flame.

The two figures collided swiftly, and a burst of rumblings came out, sparks sparkling and scattered above the void.

One person and one bone fought fiercely, hit the air from the ground, fell again, and then entered the deepest point of Jiuli’s tomb, approaching the ***** cocoon.

“Ghosts and gods, dominate the world!”

Suddenly, a loud drink came from the tomb, and it was seen that Mantian Heiyan shrank into a body, and fell into a figure, and the air halted.

A bang, a fierce halberd, trembled his hands without breaking the bones, and the cracked tortoise cracked, and his body fell apart.

“No ... this is impossible!” Boneless roar, unbelievable.

It is said to be immortal and its bones are powerful. Even the steel is easily torn apart, but it is cracked by the other party. It can hardly be believed that this is true.

Qin Tiange chuckled and hummed, “There is nothing impossible. You are just a bone resuscitation. If your body bones are transformed by a third, I will now retreat, but unfortunately you do not have this opportunity.”

“Ah ... I don’t believe it. I’m immortal. You can’t kill me.” Immortal bones screamed screams, but was pinned by Qin Tiange’s halberd, and pierced in the past.

Click!

The halberd nailed the immortal forehead and inserted it straight into the rock, and nailed it there, making it useless.

“No, please let me go. I still have a lot of things to do. I have to resurrect the great ancestor Chi You ...” Finally, the immortal begged for mercy.

In his hollow eyes, two blood-colored flames beating fiercely, and they were stabbed by the halberd’s death.

What scared him the most was that Euphorbia had a weird suction that directly acted on its brows and soul consciousness and wanted to devour its soul.

With a buzz of halberd, a huge amount of blue light bloomed directly, sucking the fire of the immortal soul on the spot and swallowing it clean.

boom!

Lost the soul, the Immortal Bone fell to the ground on the spot, and the black bones quickly blasted out a burst of black smoke, which soon disappeared.

There was a loud noise, and as the bones died, the hundreds of bones spread apart, disappearing into black gas.

On the ground Only a section of purple-golden bones is left, that is, a section of indestructible bones that has completed metamorphosis in the body.

“I can’t destroy the bone, it’s my hand.” Qin Tiange faced with a surprise, picked up the piece of unimmortal bone and quickly put it away, only to be relieved.

Immortal, that is something that previous lives dare not imagine, and I haven’t even heard of it. He would n’t be immortal without the knowledge of a pharmacist.

Now, when I encounter an immortal bone that has just undergone transformation, I will naturally destroy it and take the real immortal bone from it.

Click ...

Just as he was immersed in excitement, a crisp clicking sound came not far away, shocking him to stand upright.

“Age is careful, the demon demon is about to break out of the cocoon.”

Over there, Long Xiaoqian exclaimed in a panic, reminding Qin Tiange that he suddenly turned around and saw that the one-meter-high black cocoon actually cracked.

The demon devil is about to be born. What is a creature called a deity?

Chapter 373 - What about the good monster?

Click! Click!

The cocoons cracked, and lines of marks spread quickly, with light shining out, looming, and extremely mysterious.

“Are you going to be born?”

In front of the cocoon, Qin Tiange looked dignified, staring at this huge black cocoon, the cracks and crumbles spreading, and a burst of crisp sounds came out.

Around her, Long Xiaoqian had a solemn complexion, and was constantly chanting ancient mantras in her mouth, and a ray of black gas leaked from her two fingers, radiating into it, just immersed in the **** cocoon.

This is a maggot control technique in witchcraft. It can control those maggots that are taking shape. It is mysterious and has unknown secrets.

“Brother Qin, I feel that the contents inside are alive, as if, like a baby.”

Suddenly, Xi Xi opened her mouth aside and said this sentence without a head, which made Qin Tiange feel a little surprised.

She said like a baby?

He looked weird, staring at the cocoons that were constantly cracking in front of him, and soon, a faint light radiated from the cracks, not dazzling, but very soft.

Moreover, the breath revealed from the cocoon did not make any sense of evil, but it has a sacred and pure breath.

Weird, quite weird, Qin Tiange couldn't help whispering, “What the ***** is this, a cocoon on the outside is very evil, but the breath revealed inside is extremely sacred.”

This cocoon is really a freak. Is it possible that the monster in it is pure? When thinking of this, Qin Tiange felt weird. Will the monster be pure?

Just kidding, he shook his head and stared at the cocoon, the cracks getting bigger and bigger, and finally a click, finally dropped a black shell.

Flip, flick ...

As more and more black shells shattered and fell down, gradually, there was more and more soft light inside, as if there was a light inside.

The cocoons peeled off piece by piece, and finally, when all the shells completely fell off, a dim light ball appeared in front of the three.

This bald head was breathed with a sacred breath, as if what had just been peeled off was an evil one, and what remained was sacred and pure.

“Look, there's a little thing in it.” Xi Xi exclaimed, finger pointing at the light, full of surprise.

Qin Tiange squinted his eyes, and through the light, saw a small figure curled up in the center of the light, like a baby who had not yet grown up.

The curled figure was only three inches tall and pitifully small, making it hard to believe.

Huh!

Suddenly, the light spread, revealing the little thing inside, and it was really displayed in front of everyone.

“Oh ... ah ...” A three-inch-tall villain stretched his waist slowly, like an elf who just woke up.

She rubbed her confused eyes and looked at the three of Qin Tiange, blinked a glance at Qin Tiange and Xun Xi, and finally locked Long Xiaoqian.

“Mom ...” The little guy suddenly cheered in surprise, flew to Long Xiaoqian and kissed him hard.

Qin Tiange’s brain crashed and he looked at the born worm? Yes, this is a devil, but isn’t it a bug?

What about bugs? What about the good monster? How is it a three-inch-tall elf?

Yan Xi was dumbfounded, looking at the little thing flying around, really a reduced-size real person, a three-inch-tall body, black hair split to the back waist, and a set of black dragon scales spontaneously appeared on his body. A, wrapped around her tiny body.

What is most unbelievable is that this little guy, the exquisite little face, is almost transparent, as if carved by beautiful jade.

“Mom ...” the little man yelled milkily again.

Long Xiaoqian was in a circle, and she didn’t know what to do, her brain was rattling, and her mother echoed in her head.

Okay, what about good monsters? Why is she a villain and she called her mother as soon as she came out?

“I ...” Long Xiaoqian opened her mouth and wanted to say something, but she didn’t know how to describe her mood at the moment.

Qin Tiange was full of black lines, and spit out, “What about the evil devil who is good, and what evil is good? If he is good, he can kill God, and how can he swallow the dragon?”

There was a burst of weakness in his heart, and he was ready to fight a long time ago to take a good look at the magical power of the so-called Demon Demon God. He dared to claim to be a ***** that could be slaughtered, and he could swallow the dragon.

It’s just that the situation is wrong. The script is wrong?

“You, the demon god?”

Finally, Qin Tiange couldn’t help but speak, staring directly at this little guy, how could he not be connected with the demon god.

“Mom, who is he?” The little boy crooked his head and said this.

Then, she did not shake Qin Tiange, flew to the broken cocoon that broke into countless pieces, and picked up a piece of cocoon with a small hand and clicked.

Yes, this little guy is willing to eat those pieces of cocoon, as if eating potato chips, which is called crispy and delicious.

“I’m going ...” Qin Tiange secretly squeezed a sweat, and quietly asked, “Xiao Qian, is this the demon **** that you said?”

“Uh ...” Long Xiaoqian was sober, looking at the little guy eating the cocoon shards. She was quite weird. She even had a daughter?

Long Xiaoqian’s face changed, and he smiled bitterly: “Brother, I don’t know what’s going on. This is recorded in the book of witch sacrifices. It only says the demon and the demon, but it doesn’t say what the devil looks like.”

“But, do you think it’s a bug?” Qin Tiange nodded and looked at the three-inch-tall girl who was eating happily.

This is a bug, clearly a three-inch-tall girl with exquisite facial features, even wondering if she is a pocket villain?

“Should ... maybe?” Long Xiaoqian wasn’t sure, and was very tangled.

But Xi Xi crooked her head and suddenly said, “Brother Qin, Sister Long, I feel a peaceful atmosphere from her, it should not be a monster.”

“Mom, what monster?”

At this moment, a light flashed, a three-inch-tall villain flew in, floating not far in front of Long Xiaoqian, looking at her curiously, holding a small piece of black cocoon in his hand, like eating potato chips. Just bite and bite and eat.

Qin Tiange’s mouth was drawn continuously, so it was dangerous to spray blood without a smile. This little thing said that she was a demon devil and almost no one would believe it.

“Why are you calling my mother?” Long Xiaoqian tangled and had to ask.

The little boy crooked his head, as if wondering, and said, “Mom, if you are my mother, I will call your mother.”

puff!

Qin Tiange laughed without holding back, almost smiling, and Yan Xi aside covered her mouth and chuckled, her eyes narrowed into a seam, and she giggled.

“Mom, this person has a scent that is so annoying.” Looking at Qin Tiange laughing more than once, the little guy suddenly came with such a sentence.

Uh ... Qin Tiange’s laughter came to an abrupt end, his skin was shaking, his eyebrows were jumping abruptly, and his forehead and blue tendons were raised.

Why doesn’t this little guy sound right?

“Pokemon, who’s your hate?” Qin Tiange glared, glaring at the little fellow.

As if the momentum scared her, she hid behind Long Xiaoqian’s head immediately, clutching her hair tightly with both hands, exposing half a small head and looking at Qin Tiange.

“Brother, don’t scare her, she’s still young.” Long Xiaoqian’s mother overflowed with love and immediately guarded this little thing.

Qin Tiange thought, of course, she was still too young, she couldn’t be any smaller, could she be a little smaller?

Three inches tall, three inches tall. There is a beautiful elf that is only three inches tall. What do you think about it?

“Let’s go!”

Looking around, Qin Tiange no longer stays, and decides to leave this tomb of Jiuli. All he has to do is done, and the things are obtained.

Long Xiaoqian got the desired demon deity. Although it didn’t look like a worm, at least she was the rumored demon deity that could swallow the dragon.

As for Qin Tiange, not to mention, encountering an immortal bone and obtaining a piece of immortal bone that has been completely transformed is naturally a big gain.

As for whether this grave is really buried with Chi You’s remains, these have nothing to do with Qin Tiange.

Why didn’t Qin Tiange dig about Chi You’s body, and he wasn’t stupid, digging Chi You’s grave in front of Long Xiaoqian and Xi Xi?

Chi You, how to say, is one of the ancient ancestors of Huaxia. Even if the battle with Huangdi fails, it is still the ancestor of Huaxia. This is an unchangeable fact.

Digging his ancestor’s tomb, Qin Tiange was not stupid enough to get to this point, so he got the benefit and left Jiuli Zu’s tomb directly.

“Come back, come back!”

“No, are you really safe?”

“I can’t believe that someone could come out of Jiuli’s forbidden area?”

When Qin Tiange, Long Xiaoqian, and Xi Xi returned, everyone was shocked and incredible.

Many people think that the three of them are gone forever, and they must die in it, but they did not expect to return alive in the end.

For a while, the entire Miao Xinjiang spread immediately, and the stories of Qin Tiange, Xi Xi and Long Xiaoqian became more and more outrageous.

...

In the early morning of the next morning, two pretty figures stood quietly on the top of the mountain where Miao Jiang lived, Long Xiaoqian lived. One of the young girls had a snake head, which was Xi Xi.

Next to it is Long Xiaoqian in formal attire wearing a suit of witch sacrifices, standing side by side, with a pocket elf sitting on his shoulder.

The two of them stared at the cliff without blinking, where a young man was lying there quietly, motionless and weird.

“What is Brother Brother doing?” Long Xiaoqian was surprised, and there was a glimmer of beauty in her eyes. Looking at Qin Tiange by the cliff, it was not clear what he was doing.

Xi Xi opened her eyes with curiosity and looked at the snake tail gently. She looked very leisurely, but was curious what Qin Tiange was doing?

In fact, Qin Tiange is practicing the body technique, from the first form of the mysterious body technique to the second form.

I saw that Qin Tiange was drunk at the moment, holding his sword in both hands, and lying quietly on the edge of the cliff. If he looked closely, he would be surprised to find that his body was three inches high from the ground, and he fell asleep on the ground. Void.

surprise!

Long Xiaoqian and Xun Xi were curious, both looked at each other, then walked up and down.

Chapter 374 - Drunk beauty knees

On the edge of the cliff, Qin Tiange greeted the morning sun to practice the body technique, lying on his side with his sword in his hands, facing the rising sun in the distance, a ray of golden light shining, and gradually the figure began to haze.

The mysterious body technique entered the second form. Since he returned from the tomb of Jiuli, he felt that he could touch the second form of the body technique.

The powerful body and strength were the reason why he was able to complete the second movement of the body technique, coupled with his constant understanding, he finally entered a deep level of cultivation.

“It’s weird ...” Not far away, Yan Xi coiled on a stone, dragged his chin with both hands and looked curiously at Qin Tiange in cultivation, feeling very strange.

Long Xiaoqian was inexplicable, watching Qin Tiange practice, posing like this, as if drunk and asleep.

Huh!

Gradually, Qin Tiange’s body overflowed with a ray of glow, purple gas, and quickly gathered from the east, like absorbing the purple gas from the sun and condensing in his body.

The body was hazy, surrounded by purple gas, and looked extremely sacred. A mysterious breath came out of his body, which was amazing.

What’s even more puzzling is that the purple gas that is constantly transpired outside his body suddenly grows more and more intense, and finally condenses into a ghost image.

Yes, it was a purple ghost, like a person, hazy and indistinct, but enough to see the graceful silhouette, a woman of all ages.

The hazy purple figure even flew around Qin Tiange, dancing gracefully over the cliff, splashing a little purple light.

As Ziqi came to the east and continually gathered, this figure gradually solidified, but his face was still very vague, and he did not understand what the worldly woman looked like.

Long Xiaoqian and Xun Xi looked at each other, looking at the purple hazy figure dancing innocently, feeling obedient in their hearts.

This figure seems to be dancing to Qin Tiange during the practice, gathering a ray of morning glow in the distance, surrounded by continuous transpiration, colorful, as if wearing a neon costume.

Gradually, this hazy figure seemed to be tired of jumping, and suddenly leaped, and sat down behind Qin Tiange's head.

Huh ... I saw Qin Tiange's body suddenly rising a bit, and then he slowly lay on this dim shadow.

Suddenly, an overbearing breath came out, shocking the Quartet, showing the endless sense of overbearing, as if a hegemon woke up.

"His ... Brother Bree's breath is so terrible!" Long Xiaoqian's face changed slightly, and his steps stepped back unconsciously.

She suddenly felt that Qin Tiange's momentum suddenly changed, from an elder brother next door to a world-heavy overlord, and the endless domineering will condense around.

Yan Xi widened her eyes and looked curiously at Qin Tiange, who fell into a deep sleep practice, and then looked at the dim shadow he was resting on, like a worldly woman.

boom...

When the hegemonic will condensed to the extreme, a shudder came out suddenly, and then the hegemonic intentions converged, turning into a more mysterious breath.

This noble atmosphere, arrogant, like a born king, is gradually growing.

The domineering breath has become a more mellow and long-lasting breath of the king, as if Qin Tiange is entering a certain transformation, and a deep-level will transformation.

He was originally like a decisive and overbearing overlord, but now it has gradually settled down, turning into an arrogant and noble king, as if a generation of kings grew up.

"Wake up the power of the world and lie on the knees of a beautiful woman!"

Suddenly, Qin Tiange murmured unconsciously in his sleeping practice, his voice revealing a trace of loneliness and loneliness. The king was lonely, and his breath was a bit lonely for a while.

That was the manifestation of the heart. In the second form of comprehension of the practice of body technique, Qin Tiange suddenly realized a true meaning of the king, and his domineering intention became the king's will.

The king, lonely, born lonely, is like the emperor claims to be lonely. In fact, it is a metamorphosis of the heart. From ancient times to the present, the emperor is lonely, even the harem of three thousand beauties.

Emperors have no friends, because their hearts have changed, they have become lonely, and they are different.

“Age he ... Do you want to be king?” Long Xiaoqian was startled, looking at Qin Tiange who murmured the words unconsciously, shocked.

The phrase “wake up the power of the world and lie on the knees of a beautiful woman” shows a loneliness, which represents Qin Tiange’s comprehension in cultivation at this moment.

The road of kings gradually opened for him. He had already embarked on this rugged and bumpy road. This was a **** road, paved with corpses.

The road was full of killings, corpses, death, loneliness, women, and authority all emerging in his heart.

call!

Suddenly, the glorious figure gathered by the purple qi turned into a mass of purple qi essence spreading out, and then poured into Qin Tiange’s body, there was a crackling sound of fried beans.

The sound of Kakaka kept coming out, and Qin Tiange slowly stood up. Facing the east, his body became more and more powerful and mysterious.

For a long time, when Qin Tiange opened his eyes, there were two gleams of light shining inside, with a pride of the king, staring directly at the sun in the sky.

“This is the second form of mysterious body technique, lying on the knee of a beautiful woman?” Qin Tiange was still immersed in the mystery of that body technique.

He did not expect that the first realization of the mysterious second form of cultivating body technique would cause great changes in his body, mind, and even consciousness, resulting in inexplicable transformation.

The first form of mysticism, the sky, is full of domineering, as if a hegemon has just risen, it is full of domineering.

However, with the cultivation of the second type of mystic body technique, this domineering meaning has been condensed and tempered into a longer, more mellow and noble breath.

That kind of powerful, but not overbearing, is the meaning of the king. The second form of mystic body surgery, lying on the knees of a beautiful woman, is like a king. When he is awake, he controls the power of the world.

Isn’t this the life of a king everyone dreams of?

“Brother, you ... seem to have changed.”

At this point, Long Xiaoqian came up quietly, stood beside her, looking at Qin Tiange with her head sideways, her heart trembled, feeling that Qin Tiange had changed.

At this moment, he revealed a more mysterious atmosphere, more attractive, as if born with an attractive charm for women.

“Ha, why have I changed?” Qin Tiange woke up, his momentum suddenly converged, and he returned to his original appearance, smiling at Haha Xiaolong, who was curious around him.

Xi Xi also walked to him, curious, “Brother Qin, I feel like you have gained some kind of sublimation, as if you have become different.”

“Is that so?” Qin Tiange smiled and said nothing, knowing his own affairs.

“Mom, he got worse and worse.” Suddenly, a clear word came from Long Xiaoqian’s shoulder, leaving Qin Tiange’s head full of black lines!

Long Xiaoqian looked awkward and scolded: “Little Yiyi, don’t talk nonsense.”

Xiaoyi, the three-inch-tall elf pursed and said, “What is true? He is a bad guy, bullying his mother, and a bad guy!”

Long Xiaoqian blushed, anxious to find a gap to drill in, and quickly put Xiao Yiyi into a delicate sachet.

Giggle ... Bian Xi already smiled and bent over, out of breath, the two small peaks and chests on the chest constantly trembled, attracting attention.

Qin Tiange rolled his eyes and couldn’t wait to strangle the little elf. He didn’t mess with her. Why did he say he was a bad person?

Neither of the two beauties mentioned Qin Tiange’s unconscious whispering during practice just now, nor did he even talk about the worldly ghost image transformed by the purple qi, and they did not dare to ask.

“By the way, how are your two basic body practices?” Qin Tiange asked suddenly.

Basic body surgery has been imparted to Long Xiaoqian and Xun Xi last night, and Xun Xi, a half-human and half-demon girl, has been able to control the power of body awakening with his mention.

As long as you are thoroughly familiar with it, you can put away the power and change back to your original appearance, without having to sway around with a mysterious snake tail.

“Xiao Qian, Xi Xi, I may be leaving.”

Facing the morning glow Qin Tiange suddenly said this sentence, which made Long Xiaoqian and Xun Xi tremble in their hearts, their faces slightly changed.

Qin Tiange is leaving? When Long Xiaoqian heard him say this, her heart was instinctively anxious, and a strong reluctance filled her heart.

“Brother, can’t you stay for a few more days?” Long Xiaoqian Qiao’s face was full of loss, looking forward to Qin Tiange in his eyes, hoping that he would stay for a few more days.

Yan Xi also raised his head to meet his gaze and said, "Yeah Brother Qin, you can stay a few more days, and I have a lot of things to ask you."

Qin Tiange thought for a while and said, "Let's do this, I will stay for three more days, and give you two pointers, just to make some medicines by the way."

"Oh yeah!" Xi Xi waved his little hand excitedly, looking very happy.

Long Xiaoqian showed a smile, facing the rising sun, concealing a loss in her eyes, in fact she did not want Qin Tiange to leave.

But Qin Tiange has his own business, and he hasn't been back to the base for a long time, so he is going to go back and look at it. After all, as the head of the base, it is not good to stay away for a long time.

Chapter 375 - King's Land

In the early morning three days later, three figures came out of the wooden house on the top of the mountain, headed by a young halberd, followed by two slim girls

"Brother, take care!"

Although Long Xiaoqian was full of perseverance, she still had a sweet smile on her face. The girls of the Miao family dare to love and hate, and have no mother-in-law.

Yan Xi's eyes were a little red, and the water vapor was transpiring, looking at Qin Tiange eagerly, as if saying that you should not leave.

Qin Tiange sighed inwardly and smiled bitterly: "What's wrong, it's not life or death, but there will be time in the future."

"Bad guy, hurry up and walk far away ..." Xiao Yiyi showed her small head out of the sachet, suddenly spit out her tongue and got back again.

Qin Tiange's eyebrows fluttered abruptly, but he kept cursing, but he didn't care.

"Okay, it's not early, I should go, you don't need to send me." Then, he turned slightly down the mountain and left here.

Looking at the back of Qin Tiange's departure, Long Xiaoqian's mood was extremely low, and there were tears in her eyes. This young man who had known each other for a long time actually lived in her heart long ago.

"Brother, Bing silkworm is Xiao Qian's cultivated affection. It was a pair, but before you could find another one, you were abducted ..." Long Xiaoqian muttered to herself.

It turned out that the rare ice silkworm was a kind of love cultivated by Long Xiaoqian. It should have been a pair, but before it had time to attract another ice silkworm to appear, Qin Tiange appeared and abducted her love ice cream. silkworm.

From that moment, the strings in her heart were gently flicked, and as Bing silkworm followed Qin Tiange, it was as if her entire heart was occupied by the mysterious young man.

The rare ice silkworms are full of love, but they are single, which means that Long Xiaoqian can only silently have single lovesickness. Unless Qin Tiange accepts her in heart, it will never be possible.

“Brother, I won’t give up!”

Suddenly, Long Xiaoqian shouted loudly at the front back, let Qin Tiange’s body down the mountain in front of him, paused for a few breaths, and finally waved down without going back.

“treasure!”

A precious word came from afar. Qin Tiange left without taking away a cloud, but took away the whole heart of Long Xiaoqian, a Miao Xinjiang witch sacrifice.

Feelings of love, Bing silkworm was taken away by him, but also her untouched heart, but leaving a lonely back.

Long Xiaoqian’s eyes were hazy and the water vapor was transpiration. The night before, she summoned her courage to confess to Qin Tiange, but in the end she was disappointed.

The girls of the Miao family dare to love and hate, and never hide their feelings. Love is love, which directly indicates the heart. But she was disappointed. Qin Tiange told her explicitly that she already had a woman.

“Sister Long, Brother Qin really has a sweetheart?” Wu Xiqiao’s face was a bit inexplicable, her eyes shining with an unknown glory.

She looked at the back, there was something in her heart that was sprouting, and she was foolish. She didn’t know what it was, she just felt endless loss.

At the foot of the mountain, Qin Tiange stopped and turned back gently, looking at the two figures standing motionless on the top of the mountain, watching him silently.

“Why ... what is it?” Qin Tiange sighed and laughed again and again.

He never knew Long Xiaoqian’s friendship, although he didn’t understand why he fell in love with him in just a few days, which is somewhat inexplicable.

But Qin Tiange couldn’t accept it, because he already had Chen Xi, how could he continue to harm other women?

Although men like three wives and four wives, not everyone thinks so, and Qin Tiange is one of them.

To be honest, he approached Chen Xi at the beginning, and even intentionally or unintentionally revealed his mind, in fact with a hint of utilitarianism.

How to say Chen Xi is a great man of the previous emperor level, and is also a beautiful woman, naturally made him feel excited, and Qin Tiange was utilitarian at the time.

But now Chen Xi has become his woman. As a man, she must have the responsibilities and responsibilities, and she cannot fail her own woman. Therefore, she can only fail the friendship of other women.

“Hope time dilutes everything.” Qin Tiange murmured and turned away.

He hoped that time would dilute Long Xiaoqian’s affection for him, but this idea was a bit extravagant, because the ice silkworm was in his hands, and Long Xiaoqian’s heart was here.

The ice silkworm is the feelings cultivated by Long Xiaoqian. This thing was taken away by him, which means that Long Xiaoqian’s heart will always be with him.

“Brother, Treasure, I will be stronger, and then I will go to you.”

On the top of the mountain, Long Xiaoqian greeted the breeze, moving towards a farther and farther back, and suddenly murmured to say this sentence, representing her determination.

At this moment, she made up her mind to become stronger and went to Qin Tiange. As for now, she dare not keep up, because she doesn’t want her sweetheart to be disgusted with herself.

Women, once in love with a man, they will think for him wholeheartedly. This is the case of Long Xiaoqian, a passionate and daring Miao family girl.

“Sister Long, everyone is gone, let’s practice it.”

At this moment, Xi Xi regained her gaze, and the future demon queen suddenly burst into a strong thought and became stronger.

Yes, she has to be stronger. As for why she is stronger, only her own heart knows that even Long Xiaoqian is not clear about her careful thinking.

The two turned around and went back to prepare hard to improve their strength. Yan Xi walked, suddenly looking back at the last glance down the mountain, the figure that had long disappeared, flashed inexplicable anger in his heart.

“Brother Qin, you **** ... actually said I was young, where am I young, obviously not young, hum, and said I was not strong enough to take me, you wait, I will show you “Yi Xi thought in her mind, angry.

Why do you have this kind of thought, you have to ask her and Qin Tiange himself. There seems to be some little secret between the two.

The two young Miao Xinjiang girls practiced so hard, constantly improved their strength, and became stronger and stronger again, and they didn’t know how much they could achieve in the future.

As for these, Qin Tiange no longer knows. He has thrown away all his troubles at this moment, opened his speed and ran, and rushed along the looming highway towards Shenzhen.

Along the way, Qin Tiange specifically searched for zombies or mutant beasts to kill, and used killing and fighting to sharpen some of his fighting abilities.

For example, he now feels that it is time to comprehend the second form of the ghost and halberd, and even the second move of the sword of the overlord, archery, etc., all need to realize more powerful combat skills.

The ghost and halberd is very easy, because the ancient halberd has already imprinted a whole set of ghost and halberd into his mind, and it was impossible to realize that it was not enough.

Now with the increase in strength, my eyes grow, and even after my own ability to perceive soaring, I can finally see those things.

The second type of ghosts and halberds is more powerful and more lethal than the first type to dominate the world. There is a nobleness in the domineering, like a born king.

“Ghost and God Halberd II, King’s Land ...”

Qin Tiange took the halberd, walked all the way, sharpened the second form of ghosts and gods with countless zombies and mutant creatures, and came to the world.

In the first form, it shows endless hegemony, as if a overlord swept the world. In the second form of ghosts and gods, the style of the king is not lost in the hegemony. Some kings inspect the charm of the world, and their lethality is more powerful and horrible.

As he practiced and understood the second form of mystic body art, behind the knees of the drunken beauty, a hint of the King’s breath was revealed on his body, which made it easier and simpler for him to understand the second form of the ghost and halberd, as if it would be born. .

Perhaps this is the super brain, plus a kind of understanding of its own, which caused this situation. It didn’t take long for Qin Tiange to fully understand all the mysteries of the second version of the ghost and ***** coming to the world.

Falling into a deep understanding Qin Tiange was walking on the streets, and the crowds of zombies came, but seemed to ignore them.

His eyes were blurred, as if the soul was out of touch, and he had not seen the countless zombies rushing up around him, and his teeth were about to tear his body.

“Ghosts and Gods, Kings Come to the World!”

Suddenly, I was surprised to hear a deep, drunk drink, a blue glow rising from the sky, with a black gas, a ray of golden light, intertwined in the void, and turned into a dim shadow, showing endless power. Pressure.

That was the power of the king. In the hegemony, the king’s style was not lost. The rumbling momentum was suppressed, and all the zombies within a hundred meters lay on the ground.

Bang!

With this huge virtual shadow holding a halberd, a halberd, the earth collapsed, creating a huge pit with a diameter of thousands of meters.

All the zombies within a kilometer range were turned into powder, and several buildings were lifted up and shattered, and a plume of dust burst into the sky, rolling apart.

The second form, King’s Land, is done!

Chapter 376 - 3 eyes of zombies, black and white

Guancheng, Central Avenue, two people fled quickly, chasing a weird zombie behind, the body is purple-red, with three eyes on his head.

Roar!

This zombie roared, his breath was terrible, it was a five-star star, he was a super zombie, and he had already had good wisdom.

In front of it, a man and a woman ran away. The man was a young man of about twenty-three years old. He was dressed in black clothes and black armor. The woman looked ten years old.

boom...

Suddenly, the three-eyed zombies in the back leaped suddenly and landed in front of the two, blocking the way.

“Sister, you go quickly, I’m blocking it!”

The young man was determined to stop his sister behind him, trying to block the zombies and give his sister a chance to escape.

He held two black spikes in his hands, with barbs, and a chain link at both ends. The weapon looked extremely weird.

“No, I won’t go!” The woman was young and beautiful, hot, but refused to leave.

She pulled out a bright silver short rifle around her waist, with a chain attached to the tail of the gun, wrapped around her arm, and stared at the three-eyed zombies in front of her vigilantly.

The young man shouted, “Hurry up, I vowed to protect you and let me go.”

Roar!

At this moment, the three-eyed zombies roared, showing a sloppy smile, full of black teeth, **** stench, and exhalation can make people faint.

It raised a stout arm, and the fuchsia giant claws slapped at the two brothers and sisters fiercely, and a sharp whistling sound came from the air.

“Kill!” The young man changed his face and drank forward, two sharp spikes in his hand before the giant claw.

Just listening to the sound of a scream, the spark splattered, and then the young man in black vomited blood on the spot and flew out, hitting the ruins ten meters away and couldn’t get up.

“Brother ...” the girl exclaimed, her face full of anger, her arms out of her hands, and she screamed at the third eye on the forehead of the three-eyed zombie.

The chain rattled, but the sharp short rifle was shot directly to the side, and even the chain was caught by the three-eyed zombie.

“Sister runs ... keke ...” In the ruins, the young man was panicked, and screamed with blood.

He had cracked eyes, watching the three-eyed zombies yanking the iron chain, pulling his sister forward, and sharp claws pierced her belly fiercely.

“No ...” The young man gave a heartbreaking roar, but he had no choice but to watch as the giant claws were about to pierce his sister’s stomach.

The woman had a terrible face, turned her head back, and showed a faint smile, as if she was saying goodbye to her brother.

Between life and death, she looked away.

As soon as she was about to close her eyes and wait for death, a sharp whistling came from behind. After a loud bang, she felt like she was lifted up by a huge air wave and fell heavily on the street not far away. .

A spear of halberds continued to roar from a distance, inserted in front of the three-eyed zombies, just cut off the chain, blocking its claws, and the powerful impact shocked the woman and the three-eyed zombies.

The severe pain made her snor, and the corners of her mouth were bleeding. The impact was just too violent, which caused her to be injured, but better than being killed.

Alas ... a terrible roar came, and she was so surprised that she opened her eyes and looked at the place where she was.

The next scene shocked the siblings.

boom!

A figure flashed, his fist waved, and a bang, three eyes of the zombies were severely beaten and flew out by the figure, yes, he was hit by a punch a dozen meters away and smashed into a store.

Then they saw clearly that the young man was a young man wearing black armor with a simple halberd inserted next to it, and a large pit appeared on the ground.

Roar!

In the shop, the three-eyed zombie howled, his claws flung open the cement board pressed on his body, burst out, and roared wildly at the youth in front of him.

Humph!

The young man snorted coldly. He pulled up the halberd on the ground and shook it gently. The halberd buzzed and the air around him shook.

The man who came was Qin Tiange. He hurried all the way from Miao Xinjiang. After five days, he finally came to Guancheng, but he didn't want to see the five-star super zombies.

This saved the two men easily, but the biggest factor was the three-eyed zombie in front of him. An independent eye was born on the forehead, and the fuchsia eyes were wicked with evil breath.

“Three-eyed zombies, alas, is my luck so good?” Qin Tiange looked at the three-eyed super zombies in front of him, with a smile on his face.

The three-eyed zombies are unique because that eye has some powerful power, but what he cares most about is that this evolved eye is actually a strange crystal with a mysterious power inside.

Huh!

The three-eyed zombies growled and waved their claws and rushed to kill the human.

Super zombies, most people must retreat when they encounter them, but Qin Tiange is the monster standing in front of them.

I saw the sound of Euphorbia buzzing, turning into a black light, stinging like lightning in the heart of the lost three eyes.

With a click, the body of the three-eyed zombies paused and stood in front of Qin Tiange, his heart completely pierced by the halberd.

But it didn't die. Instead, he waved his claws and slammed on Qin Tiange's forehead. If he did shoot, he would break his head.

"Go!" Qin Tiange drank swiftly, fisted with his left hand, and slammed in the past with a bang. The violent fist punched the three-eyed zombies and smashed them into the street more than ten meters away, struggling. not coming.

"Well ... roar!" The three-eyed zombies struggled to get up, his face grim, and the third eye suddenly lit up a fuchsia light.

With a loud bang, the fuchsia light burst out and came towards Qin Tiange. That fuchsia light, like a laser, was so fast that people couldn't respond.

Seeing a stun, Qin Tiange's chest was irritated with a black mark, and the armor melted a small piece on the spot, exposing a cave with white skin.

Unscathed, yes, Qin Tiange was blasted without any damage, it was incredible.

Even the three-eyed zombies were dumbfounded, staring at the young human in front of them, how could they fail to figure out that their talents did not work for him?

"You can die!" Qin Tiange coldly hummed, and saw the figure flashing, and Euphorbia screamed and chopped on the neck of the three-eyed zombies, clicking with a crisp sound, the cricket's head rolled down, and the black blood spurted his feet It stopped for one minute.

This super zombie died and was killed by Qin Tiange three or two times. The powerful force shocked the siblings who got up and stared at Qin Tiange blankly.

"Who is he?"

"Amazing!"

The brothers and sisters looked at each other and saw the shock in each other's eyes. It was unbelievable that even when they met such a powerful person, the five-star super zombie was easily bombed by him.

The two looked at Qin Tiange and saw that he had dug out the third eye of the three zombies, which was the third eye of the nucleus in the zombie.

Qin Tiange stood up, smiled with satisfaction, and then came towards the two siblings.

He looked weird, came to the two to look at the brother and sister, and secretly said, "These two seem to be one of the four big killers in the previous Assassin Alliance, impermanence."

He was right, the two brothers and sisters in front of him were the famous black and white killers of the previous life, one of the eight killers in the Assassin League, impermanence.

Impermanence is not a single person, but two people, a pair of brothers and sisters, many people call them two, black and white impermanence.

"Thank you friends for saving for justice. In the next Mo Yan, this is the sister-in-law Bai Yu, and the big gratitude does not say thank you. If we use our brothers and sisters, we will never quit."

The young man's name was Mo Yan, next to his sister Bai Yu, the two were inseparable, but they were not brothers and sisters, but cousins.

Qin Tiange looked strangely to him, because he could see that Bai Yu had a little affection in Mo Yan's eyes. Yes, that was the only look between lovers.

"Where are you going, why did you meet this super zombie?" Qin Tiange nodded, begun to understand, and then asked questions in his heart.

The two brothers and sisters are talents, and they are talents in the assassination. I don't know where they will go. Have they joined the Assassin Alliance?

Even, Qin Tiange is thinking now, has the Assassin Alliance been formed? Mo Yan and Bai Yu looked at each other and shook their heads together.

I only heard Mo Yan said: "Our brother and sister originally wanted to go to Guangcheng, but encountered a lot of trouble midway. After coming here, I encountered this super zombie and fled all the way. Fortunately, he was rescued by Gong we."

"Going to Guangcheng?" Qin Tiange understood, and suddenly thought and laughed: "I'm going to Shenzhen, where there is a huge base, can your brothers and sisters be interested to see it together?"

Mo Yan and Bai Yu froze for a while, then immediately fell into meditation, Qin Tiange did not bother, such a person is very opinionated, naturally need to think about it.

"Okay We will go to Shenzhen with the benefactors to see." Finally, Mo Yan agreed.

As for Bai Yu, he was led by his brother and he listened to everything. Naturally he didn't object. Bai Yu would follow wherever he went.

After hearing the two promised, Qin Tiange smiled and said, "Don't call me a benefactor, it's awful. My surname is Qin, just call me Tian Ge."

"Thank you Brother Qin!"

Mo Yan, Bai Yu brothers and sisters thanked Qi Qi, thanked him again for his life-saving grace, and there was no neglect. The life-saving grace was very heavy for the brothers and sisters with clear grudges. .

“Let’s go to Shenzhen. When you get there, you shouldn’t be disappointed.”

A smile appeared on the corner of Qin Tiange’s mouth, holding the halberd, and left Moocheng with Mo Yan and Bai Yu, a strange pair of siblings, to Shenzhen.

There, but his base camp is where his forces are located. I do n’t know how the Shenzhen City base developed during this period of departure?

Chapter 377 - Shock, super base

Shenzhen City, Base City, and Qin Tiange couldn’t help shaking it when he came back again in March.

“Is this Shenzhen?”

Mo Yan and Bai Yu brothers and sisters were stunned, staring at the huge city in front of them, the towering wall, one hundred meters high.

The walls of the city are dark, but they are translucent and shiny. They are made of super ice crystals.

The black black ice is a super ice crystal developed and produced by a group of scientists in the base. It is officially used and the construction of the city base is perfect.

“It seems that in the three months I was away, the base changed dramatically.”
Qin Tiange sighed.

He has to admit that the group of old scientists in the base is really powerful. Although he has the scientific and technological inheritance knowledge provided by him, he can still see that group of scientists is powerful.

The base wall cast by the super ice crystals is 100 meters high. This is the blueprint that Qin Tiange asked his self to calculate.

In front of the city gate, a team of soldiers stood guard neatly, all with solemn faces and spirits, staring sharply in the direction outside the city gate.

They are fully armed and wearing a complete set of ink-yellow armor, all of which are newly created by Super Ice Crystal. They have a uniform system, and a small five-star red flag is branded on their chests.

“General?”

Suddenly, the soldiers standing guard looked at each other and saw the three men coming up, led by Qin Tiange.

Throughout the base, all soldiers knew Qin Tiange. This city was created by his own hands. Although he had not participated in much construction, the biggest credit was still given to him.

Who made him the leader of the base, Admiral Huaxia, and the entire base was originally built by him.

His prestige is unmatched in the Shenzhen city base. Two million soldiers are in awe and respect for him. The army gathers together, let alone the people.

In the Shenzhen City, the military and civilians are united. That is the up-and-down mind. No one dares to think about it because those unstable factors have been removed early.

In the original tide of corpses, tens of thousands of young men did not participate in the battle, and even quietly collected those spoils. In the end, these people somehow died outside. It is certainly related to Qin Tiange.

Such a powerful and cruel general who dares to give birth to bad thoughts might as well dig a grave and bury himself.

“salute!”

Thirty soldiers stood neatly, saluting Qin Tiange, solemn face, and neat military appearance, can be described as the most powerful army in China’s current major bases.

“Tough work!” Qin Tiange stood still, in return of a standard military salute, making Mo Yan and Bai Yu brother and sister behind him dumbfounded.

Their hearts shook and looked at Qin Tiange’s eyes differently. These soldiers seemed to know Qin Tiange, and they called on his general, with awe and support in their eyes.

It is enough to see how high Qin Tiange’s identity in this Shenzhen city base is, it is likely that he is the leader of the Shenzhen city base.

Taking the dull siblings into the base, they saw rows of neat rows of steel houses made of steel.

These were supposed to be cast with reinforced concrete, but due to the production of super ice crystals in the base, the remaining large quantities were temporarily lost. They can only be used to cast residential areas. The residential areas are neatly arranged in the entire base. .

Divided into several large areas, all are residential areas, unified management here, dense monitoring probes are placed everywhere, if anyone does something bad, the army immediately came to the door within a minute and took away.

“Yes, it looks like it’s time to open up wasteland.”

Along the way, Qin Tiange looked satisfied and was pleasantly surprised by the development of the entire base.

Unexpectedly, I did not return in three months, the entire base changed greatly, and the interior can accommodate a full five hundred perfect people’s life is more than enough.

Today’s Shenzhen market has long since disappeared, replacing this huge superbase that has risen in the last days.

“What do you think of this place?” Qin Tiange turned back with a smile, and asked the two brothers and sisters Mo Yan in a daze.

The two were sober from the shock, secretly swallowing saliva, Mo Yan exclaimed: “Brother Qin, I didn’t expect Shenzhen City to become like this. It looks more powerful than Guangcheng. Who built this huge base?”

He said, looking curiously at Qin Tiange, both the brother and sister guessed that it should have something to do with the powerful young man in front of him.

Sure enough, Qin Tiange acknowledged with a smile: "This base was set up by the millions of soldiers and civilians under the auspices of Shenzhen City after the end."

He didn't say that he built it by one hand, but gave this credit to the soldiers and civilians in all bases. Without them, it would be impossible for Qin Tiange to build this base.

"This is the outer base, and there is an inner base in front, but it has been evacuated there, freed up for military facilities, military production, etc."

Qin Tiange pointed to the center of the base, where there was an inner base, which was the initial base originally established, and now it has completely become a military industrial base.

Mo Yan and Bai Yu were already stunned. They were widening their eyes and looking at a certain direction of the base, where an engineering mech up to 50 meters tall stood.

"Mecha?" The two were dumbfounded, looking at the huge mech, as if they were building internal facilities, and it was shocking.

Qin Tiange smiled and did not explain that engineering mechs are one of the most important forces for the base to be established so quickly. Without engineering mechas, it is almost impossible to complete such a large project in a short time, so those engineering mechas cannot do much. No.

The base is too big, and it takes at least half an hour to walk to the inner city. Qin Tiange thought about it and contacted his self directly.

"Yiji, send a car to pick me up." Qin Tiange ordered directly to Jiji.

I saw that my own projection appeared on my wrist, with a playful smile, and said, "Master, I already know that my master is back, the vehicle has already left, and it will arrive in ten seconds. Please wait patiently."

With that said, it didn't take long before I saw a bright black-haired vehicle rushing across the spacious street, looking like an armored vehicle, all of which were super-crystal ice-made chariots.

These armored combat vehicles are new-type equipment vehicles made by imitation armored vehicles newly developed by the base. They are very powerful and are equipped with a lot of weapons and equipment.

Click!

The door is open, and there is no one in it. It is actually unmanned. In fact, it's normal. There is an artificial intelligence in the air.

Qin Tiange took Mo Yan and Bai Yu to the car. Soon, the super chariot turned around and quickly whistled away, causing the crowds around to exclaim and speculate.

"That's the latest chariot. The young man seemed to be General Qin ..."

"It's General Qin!"

For a while, the people in the base boiled, and one passed ten, and one hundred passed. Those who saw Qin Tiange were bragging. They saw the myth of the base, the mysterious general.

Qin Tiange is not at all clear about his status in the minds of the military and civilians in Shenzhen. In fact, as early as the moment when the tide came, the broken national flag was raised, and the moment he sworn in the flag Since then, all military and civilians have recognized and supported this base leader.

Qin Tiange returned For a while, the entire high-level base immediately put down their work and gathered together, waiting quietly in front of the meeting room lobby door.

When a super chariot stopped slowly and a young man came down from it, it was Qin Tiange.

“Welcome the general home!”

All of a sudden, all the seniors roared and looked excitedly at the young admiral finally willing to return.

It 's not easy. There is an impulse to cry in a group of seniors. The admiral who likes to wander around is finally willing to go home. Let the seniors think in their hearts. This time, you still go out to play. A lot of things in the month are placed in Qin Tiange's dedicated office.

There were a lot of documents stacked there, and dense and dense things needed him to approve, because he was outside for three months, and the number of connections was not high, which led to a high level of grievances among their seniors.

Now seeing Qin Tiange coming back, he immediately laughed in his heart, imagining what kind of scene Qin Tiange saw when he saw the pile of documents?

Not to mention, Qin Tiange had just returned, but was stunned by the pile of documents in his office.

Chapter 378 - Be a quiet and serious man

“No, you guys, so many files piled up?”

In the office, Qin Tiange looked at the neatly stacked documents in the house, all of which required him to sign and approve.

These things have been piled up for three months, and they can be filled in a large truck in the office.

Qin Tiange was speechless. Looking at the high-level bases who wanted to laugh behind him, he couldn't help but voiced. There are artificial intelligence. Why use these files?

“Okay, now that I'm back, I'll be a quiet, serious, responsible man, and handle my business properly.”

Qin Tiange said with a chuckle, sitting in the office, and began processing these backlogs of documents.

“Narcissism!” Hu Yan rolled his eyes secretly.

Not far away, Du Jing covered her mouth, smirked, her face flushed, her body trembled gently, and the two peaks and crests on her chest continued to rise and fall.

I saw that Qin Tiange looked seriously and browsed through the documents one by one. The speed was so dazzling that he immediately approved them after a quick glance.

It was as if he hadn't taken it seriously, but it wasn't. Qin Tiange took it seriously. With his super brain's reaction speed and understanding ability, he could clearly understand the meaning expressed in each document at a glance.

"Oh, I said why so many documents, all of you major war groups came to ask for supplies."

Qin Tiange said without raising his head. He continued to instruct these documents, leaving a copy of the signature on the table beside him.

Hu Yan quickly compiled the documents and issued them to the senior leaders of the major battle groups present, several of whom were new faces.

They are the new heads of the four urban defense regiments, Colonel Wu Feng, the first regiment, Colonel Zhang Tie, the second regiment, Colonel Chen Yu, the third regiment, and Colonel Lu Jun, the fourth regimental leader.

As for the guard group, it is a direct unit under Qin Tiange's hands. At the beginning of the formation, it required 50,000 people, but the actual number is currently only 10,000.

The head of the group is Li Weiwei. He was the only one of the 100 dead who had survived to the present. He has been promoted to the head of the security group.

The entire police regiment is trained by dead men, so there are not many personnel selected in the army, and they are selected from the survivors in the base.

"General, don't you take a closer look and approve it?"

Looking at Qin Tiange's reply to the document, Hu Yan couldn't help reminding him, worried that he hadn't checked the document carefully.

But Qin Tiange said without raising his head: "I have read it carefully, some proposals are not reasonable, so I do n't give instructions, and I do n't want to submit such proposals next time, otherwise you go to the corner to reflect and reflect."

He said, raising his head, sweeping the top of the base in front of him, took a document and asked: "Look at what is written in this document, even if you open your mouth, you need to be equipped with a 50,000-handle laser knife. You are a military factory like a hen. Do you want to lay eggs?"

"Go back and reflect for yourself," he said, tossing the document aside and continuing to comment on the accumulated documents.

Soon, most of them failed, and many of the requests and instructions were unreasonable. Even Qin Tiange looked straight at his eyebrows and couldn't help glancing at the silent group of seniors in front of him.

"Everyone wants advanced equipment, okay, then you can kill me more zombies, get more crystal nucleus and let the Ministry of Science and Technology have money to research."

Qin Tiange's face was depressed and dark, and he glanced across the group of bowed generals in front of him, afraid to speak one by one.

Each of these generals is vying for orders from the military factory, and new weapons orders are being passed up, waiting for Qin Tiange's instructions.

However, there are some things that are not yet available for production, and even in the experimental stage, and they are all clamoring for what they want and what they want.

"Look at you, each one is actually three stars, isn't it laziness? It seems that in my time, you have learned to be lazy and slippery." Qin Tiange tapped his finger on the table and looked at the person in front of him. A group of high-level bases.

All of them are three-stars, but this makes Qin Tiange very dissatisfied, because the combat effectiveness of these generals is only less than one hundred to 120 men, which is really quite dissatisfied.

As soon as Qin Tiange patted the table, he sternly said: "Give me all back. After five days, if you do not reach the strength of 150 people within the three-star rating, all go back to the corner."

"Yes, general!"

A group of seniors saluted together, immediately turned around, and ran away from the office, Hu Hudu bowed his head with awkward expressions, silently arranged the documents, and dared not speak.

The generals returned, and Qin Tiange felt relieved and continued to work on these backlogs.

"I haven't been a quiet beautiful man for a long time." Qin Tiange muttered with emotion while signing the documents for approval.

This made Hu Yan, who was filing the documents next to him, grimace and almost fainted. How could there be such a cheeky person in his heart?

All the documents, Qin Tiange completed the instructions within a day, which was a lot easier.

"It's finally over. Next time you pile up your files for me again, I'll let you all go to the corner." Qin Tiange said with a look of depression.

Then, he stood up and said to his wrist: "Yi Ji, immediately prepare a new personal terminal for me, connect all the personal terminal systems at the base of the base, and communicate anything to me in this way in the future."

"Don't work on these files in the future, and look at the headache." Qin Tiange stretched his back and left Hu's office under the watchful eye.

puff!

After seeing him go, Hu Yancai laughed loudly, and giggled, "Look that you still always run out. Do you know what's wrong this time?"

In fact, they are not ignorant of this group, but deliberately, thinking about their identity when Qin Tiange returns, don't see them all day long, or even go out for three months.

He is General Huaxia, the top leader of the entire base. How can he always run outside?

“Gu Ji, tell me about the current development status of the entire base, just a brief introduction, not too detailed.” Qin Tiange went to the direction of Lianhua Mountain, connecting Ji Gu.

He needs to explain to him the current situation of the base, otherwise his eyes will be discredited and he won't know how to do it?

“Master, the first phase of the construction of the base has been completed, and it has been on track as a whole. The total number of major internal legions is about two million.”

I have slowly introduced the current situation of the base. The major combat groups, the total number of combatants currently is about two million.

No more, no less, but it just fits the current situation of the base. As the base military plant is improved and strengthened, more and more new equipment will be shipped out of the factory. By then, a larger combat army can be formed.

Xiaoji Xiaomei smiled charmingly before proceeding: “Master, the total population of the base is now 4.38 million people. The entire base is divided into four residential areas, and monitoring equipment has been placed in good order. No one commits crimes. . “

Of course, no one dared to commit a crime. Once it was done, it would be found immediately. Soon, a patrol team dropped from the sky, took it directly, and never appeared again.

Anyone who dares to cause trouble in the base, or kill and set fire to them, has been cleaned up one by one, as long as the people who have been taken away never appear again. Everyone knows that this end is because no one dares to cause trouble in the base.

Look at the dense monitoring equipment throughout the base, no blind spots in all directions, even if the personal information terminal equipment just released for mass production has been monitored.

“Tianyan has been laid out, and the base defense is perfect.” Qin Tiange listened and couldn't help laughing.

There is self-monitoring, no matter who is in the base, they dare not even think about it, or even do a bad thing, because monitoring is everywhere.

“Owners still have it. At the military factory, development and production of the first generation of war mecha is intensified. Two prototypes have been produced and are being debugged and tested.” Jiji said another exciting news.

The fighter mecha was finally developed. It was transformed and produced in accordance with the style of the engineering mech. Its size is relatively small, only ten meters high, and it is the first prototype.

“Furthermore, the research level of the space warship is nearing the end, so it is necessary to produce samples for training and investigation to collect data.” Fu Ji said, and he was proud of himself.

She proudly said, “Master, these are all calculated by my own hard work, and designed in conjunction with scientific and technical personnel. Isn’t that very good?”

After Jiji said a proud face, the expression was like saying, the master praises me quickly, and praises Jiji quickly.

“Yiji is really powerful!” Qin Tiange exaggerated with a smile, making Xiji more excited.

She then said happily: “Master, the technology of the spacecraft carrier has been fully penetrated, so it is the anti-gravity technique and the anti-gravity technique system.”

“Furthermore, the electromagnetic energy protection system ordered by the host is now very eye-catching, and it is being tested. It may take a long time to actually apply to complete the development of the energy hood system.” Fu Ji said with a little regret in his heart.

She went on to say: “Antimatter energy technology is very esoteric. Even the improved computing power cannot be analyzed, and even antimatter cannot be extracted. Instead, the existence of dark matter has been discovered, data has been stored, and research has been increased.”

“Master, the robot has been completely dismantled. It contains a self-destruct system. It is a super-concentrated, pollution-free small nuclear energy bomb.”

Finally I have said a message that the robots have been completely disassembled, have been completely dismembered by the scientists, and have taken out the self-destruct systems, which are ultra-concentrated, pollution-free small Nuclear bomb.

When he heard this, Qin Tiange was surprised, but his own words surprised him a little.

I only listened carefully and said, “Master, I researched deeply based on the mysterious bead you gave me, and found that it contained an extremely terrifying energy, very huge, like a small sun.”

Qin Tiange looked sullen and asked, “Do you mean the bead I gave you for research?”

That bead was a very hot bead obtained from the body after the alien creature was killed with a nuclear bomb in the land of heaven.

It contains an immense amount of energy, like a small sun, which stunned the researchers.

“General!”

Soon, Qin Tiange came to the underground base and met hundreds of scientific and technological personnel, including Wu Lao, who was busy.

Chapter 379 - Battleships, mechs, and the future

In the laboratory of the Ministry of Science and Technology, a group of scientific and technical personnel are busy, and when they see Qin Tiange coming, they just say hello and continue to work hard.

“Lao Wu, what are the achievements of the Ministry of Science and Technology?” Qin Tiange called Wu Lao, the person in charge of the Ministry of Science and Technology.

Wu Lao recently looked a little bit embarrassed, as if a lot older, Qin Tiange couldn't help frowning at this.

“General, the Ministry of Science and Technology has only a few achievements at present, the others are still in the research and discussion stage.” Wu Lao said gently.

He breathed a sigh of relief before continuing: “At present, we have reduced the size of our first-generation fighter mech using engineering mechs as samples.”

“Look, General, that is the prototype.” Wu Lao pointed at a ten-meter-high mech in the laboratory ahead.

Qin Tiange looked up. The mech was dark and glittering with ice crystals. It was cast from super ice crystals. It was light in weight but far stronger than other special metals.

“The first generation of war mechs was named Chaowu I. If the general felt that it was necessary, it could be changed at any time.” Wu Lao looked at Qin Tiange.

He just shook his head and smiled: “Just named after the super-wu I type, this is the brainchild of Wu Lao and yours, it is taken for granted.”

Wu Lao nodded, but he didn't really care about this. He introduced: “This machine is the first generation of mecha that uses the latest super ice crystals and fuses non-ferrous and rare metals.”

With the introduction of Wu Lao, Qin Tiange gradually understood that the performance and parameters of this war mech and its combat purpose.

“Weapons are made of ice crystals and special war knives, and are also equipped with a battle gun and a bow that can only be equipped with cold weapons.” Wu Lao explained.

At present, this mech cannot be replaced with a hot weapon, because the electromagnetic energy cannon has not been thoroughly manufactured, and even the laser weapon is still being cut off.

But even so, Qin Tiange is already very satisfied, with such a mech, it is definitely a great help for the soldiers.

Moreover, as human beings continue to evolve, the subsidies for organic armor will become more powerful, and fighter armor is a means of subsidy.

“When is energy produced?” Qin Tiange was most concerned about this issue.

After hearing that, Mr. Wu shook his head with a bitter smile and said, “The generals don't think too simple. We propose that this first generation of mecha should not be made too much and should be used as a prototype or experimental training.

“We are preparing to cooperate with the self-shooting holographic neural connection control system for this mech, but at present there is no clue and it takes time.” Wu Lao explained Qin Tiange to understand.

He nodded and didn't say more, as Wu Lao came to another large laboratory, it was even bigger, and there was a giant monster being assembled inside.

“Is that the first generation of air-to-space battleship?” Qin Tiange looked surprised, and looked at the huge thing in the laboratory, which was exactly a battleship.

This battleship is an air-space battleship. The latest research on the first-generation battleship style has assembled an overall outline. As for the internal and other power systems, force systems, etc., there is no trace.

Wu Lao faced with pride and laughed: “Yes, this is the first generation of air and space warship you said. We combined our calculations and plans to finalize this model.”

Looking at Qin Tiange, the entire battleship was like the destroyers before the end of the day. The two were turned over and welded together, but they looked very smooth overall, full of streamlined beauty.

Air and space warships, based on destroyers, designed this model. The upper and lower sides are completely closed and the interior is hollow. In fact, the source of inspiration is the submarine.

It's just that the submarine swims in the water, and the space battleship flies in the sky. The two are not in the same position.

“In the first generation of air-to-space battleships, we already have a firing plan. The internal power system uses the current infinite energy. We are planning to use anti-gravity engines and equipped with various electromagnetic energy artillery being developed.”

Mr. Wu introduced his air-to-space battleship lightly. He is currently in the dress and is preparing to build a sample for experiment.

Sky and space battleships, all black, are also made of super ice crystals and a variety of special non-ferrous metals to create a super battleship in all directions.

“But ...” Wu hesitated. “The current anti-gravity technology is divided into two areas. The first is the anti-gravity engine, which is only suitable for combat in the internal space of the earth and cannot enter space orbit.”

Qin Tiange nodded and said, “Will the second stage be used for space near orbit or outer space warships?”

“Nice!” Wu Lao explained with a smile: “At present, our anti-gravity technology is just in its infancy and we can't really achieve large space warships. Therefore,

we will study separately and classify the second phase of research into anti-gravity. Engine. “

“The anti-gravity engine can get rid of the gravitational influence of the internal space of the earth and achieve free flight in the sky. The anti-gravity phase is to get rid of the gravitational influence of the earth and the gravity of the object and rush directly into space as a phase plan for the shooting of a space battleship.” Wu The old man explained it this way, no matter how stupid people understand it.

Qin Tiange nodded with satisfaction, sighing inwardly: “It’s okay to forcibly invite this group of elderly people, otherwise it will really be a huge loss. Unfortunately, I don’t know the location of Huaxia Science and Technology General Hospital, or there are countless scientific staff there .. . “

“General, you see, this is the laboratory where we are currently studying antimatter energy, but there has been no substantial progress.” Wu Lao took Qin Tiange to another laboratory, gave a brief introduction and left.

This is the laboratory for the study of antimatter energy. After leaving a glance at Qin Tiange, these technologies are still too advanced to be involved.

“General, we have recently discovered a flaw in new energy sources.” As he walked, Wu Lao said the news.

Qin Tiange was surprised, without interruption, but quietly waiting for Wu Lao to explain.

Just listen to Wu Laomei’s eyebrows: “At present, new energy sources seem infinite, but the intensity of this energy source is limited.”

“The current new weapon energy preparation is still within our ability, but if it involves space operations, such as space warships, space carriers, etc., this stage cannot use the current new energy because of insufficient capacity.” Wu Lao pointed out seriously at this point.

In other words, emerging energy seems to be unlimited at present, but one of them is that it cannot be used as an energy supply for large space battleships such as space battleships.

“Is this the case?” Qin Tiange frowned secretly. Recently, he has not studied technology, so he does not understand this aspect.

Wu Lao nodded and said solemnly: “Yes, new energy cannot be used as energy supply for space weapons, and more powerful new energy must be used.”

“For example, antimatter energy, dark matter energy, or the mysterious star core we are currently developing.” Wu Lao pointed out their opinions seriously.

He directly told Qin Tiange that at present, new energy sources can only be used for the internal use of the earth. In outer space, it is impossible.

Wu Lao naturally saw that Qin Tiange’s series of movements had developed towards space, and also had this ability, technology and potential.

“Star core?” Qin Tiange was inexplicably surprised.

Later, Wu Lao took him to a secret laboratory, where the dense equipment was connected to a special device, and a bead floated in it.

This bead, which is orange-red in color, emits intense light and heat. It is the strange bead obtained from the alien organism that Qin Tiange gave to the Ministry of Science and Technology for research.

“General, where did you get this bead?” Wu Lao looked solemnly, asking for details.

Qin Tiange did not conceal it, and explained the process of the alien creature he encountered in the land of heaven, and made it clear how to kill.

“An alien species?” Wu Lao looked in horror, looked at Qin Tiange, and suddenly said, “General you can come back alive, or even kill that alien creature, in my opinion really incredible.”

Oh? Qin Tiange was surprised, saying, “That alien creature is not very strong in my opinion, and a small equivalent nuclear bomb was killed.”

“No, no, no!” Wu shook his head directly and said solemnly, “General you are wrong. If you really found this bead from that alien creature as you said, it would not be possible to kill it with a nuclear bomb. other side.”

Wu Lao said, pointing to the mysterious star core, saying, “We studied this bead and found that its structure is exactly the same as the planet, and we even suspect that this is the core of the sun, a star core.”

“It contains a huge amount of unmatched energy. Once it explodes, it is more terrifying than a super nuclear bomb. If it is really such a star core born inside an alien organism, do you imagine it will use the energy in it? Wu Lao looked dignified and looked at Qin Tiange.

The latter’s pupils shrank, and her heart was shocked. How could this mysterious bead contain such a huge energy inside?

“Isn’t this bead born of the extraterrestrial creature, but it was swallowed up and hadn’t had time to digest it?” Qin Tiange frowned secretly, muttering to himself.

Wu Lao nodded affirmatively: “You can think so, really as the general said, it is that the extraterrestrial creature swallowed this thing and did not digest it. If it is the core of its self-born energy, it is estimated that you will not be alive now. “

Qin Tiange secretly squeezed a cold sweat, smiled awkwardly, and then asked, “What use is this bead Can the super strong energy in it be used?”

Wu Lao shook his head and denied: “We do not intend to use this star core, but it has greater value.”

He said he was extremely excited and explained, “We studied the structure of this star core, and we could even copy it and create a super-energy star core.”

“If this super energy star core is successfully developed and produced, then we have already thought about the future space battleship energy system.” Wu Lao said confidently.

Qin Tiange was surprised, looking at the star nucleus floating in the device, and suddenly a thought flashed through his heart. Could it be a body of energy cultivated by living things?

“General, I’ll take you to see a great result, that is the powerful energy core we have modeled based on the star core.”

Immediately, Wu Laoshen took Qin Tiange mysteriously and entered another secret laboratory, which contained the biggest achievement of the Ministry of Science and Technology.

This caused Qin Tiange’s curiosity as to what kind of energy core it was, and it was made by imitating this star core, and he was quite looking forward to it.

Chapter 380 - Artificial sun, achievements of various departments

In the laboratory, a scorching breath rushed towards his face, which surprised Qin Tiange.

“That’s it?” He stepped forward in surprise.

There was a special device there, surrounded by dense lines, and this fireball was suspended in it.

Yes, a fireball, glowing, like a shrinking sun, but extremely unstable, as if it would explode at any time.

“General, Mr. Wu!”

In the laboratory, an old man was staring at the fireball and saw Qin Tiange and Wu Lao come in and nodded and said hello.

Wu Lao stepped forward and said excitedly: “General, this is the latest achievement, imitating the core of energy made by that star core.”

“We call it, the artificial sun!” Wu Lao said, looking satisfied.

This is an artificial energy core, much like a small sun, containing huge and violent energy, which is extremely scary.

“Artificial sun?” Qin Tiange secretly startled, looking at the boiling fireball, like a magma, more like a small sun.

Wu Lao introduced with excitement: “This artificial sun contains a huge amount of energy, enough to supply the two bases with energy for two hundred years.”

After listening to Qin Tiange’s eyes narrowed, his eyes flickered, and he was really surprised. This group of scientific and technological personnel actually created such a thing.

The artificial sun contains enough energy to supply two current bases for two hundred years, which is considerable energy.

Moreover, this energy is extremely large and cohesive, and it is much stronger than the energy displayed by new energy sources.

“Wu Lao just said that the energy core of the space battleship is the artificial sun, right?” Qin Tiange suddenly had this idea and asked in surprise.

Wu Lao and the old man nodded to each other and laughed: “Yes, this is our latest achievement. The strength of the energy provided by the artificial sun is calculated to be just enough for general large space warship applications. The artificial sun is the core of energy. “

“However, at present, this artificial sun is not stable. We often have to extinguish it, otherwise there will be a danger of explosion. Of course, the probability of the explosion calculated by ourselves is one in ten thousand people.”

Wu Lao explained that the calculation procedure of the self-employed had concluded that the artificial sun was not very stable and had a 1 in 10,000 chance of exploding.

As a rigorous scientific experiment, Wu Lao felt that they must be foolproof, and they must eliminate that 1 in 10,000 chance.

After all, they have time. In the future, the space warship application is still far away. Now the base’s new energy and new battleships use new energy to provide enough.

“Extinguish it, temporarily record the data, and then continue your research.” After Lao Wu introduced it, he extinguished the artificial solar core directly.

Soon, as the device was opened, the intense energy core inside it immediately extinguished and gradually disappeared.

At present, a group of scientific and technological personnel of Wu Lao have mastered the technology of making and destroying these super energy sources, so as to achieve safe and efficient use.

“Very good, Mr. Wu. I’ll ask someone to send you something later as a reward to everyone in your Ministry of Science and Technology.”

Qin Tiange left with a satisfied smile. The Ministry of Science and Technology did not let him down. Various new weapons and equipment are being developed and tested. It will not be long before they can be officially produced.

Imagining the future requires strong scientific and technological technology as the backing. The development of the future base has determined its direction. Qin Tiange is completely relieved.

After leaving the Ministry of Science and Technology, Qin Tiange went directly to the lane, called the escalator, and came to the drug department. He met Du Jing who was already waiting here.

“Uncle, you are here!” Du Jing smiled and looked at him playfully.

Qin Tiange nodded, and smiled: “Why, wait for your uncle to come. Is there any surprise for your uncle?”

“Of course, the guarantee is a surprise!”

Du Jingjiao laughed, turned and took Qin Tiange into the pharmacy department, and came to a finished product room.

This is the place where the finished pharmaceutical products are stored, all of which have been successfully developed, and all are stored here.

“Uncle, you see, this is the result of the past three months in the Department of Pharmacy.” Du Jing converged with a smile and took Qin Tiange to visit the finished pharmaceutical products one by one in the finished product room.

She picked up a potion and introduced it: “This is a longevity potion. We have formulated various potions based on the liquid of the plant’s life to successfully develop a potion to increase human life.”

“This is a one-star longevity medicine that can last a person’s life for ten years. At present, we can only make two-star longevity medicines.” Du Jing introduced with a serious look.

This is a huge achievement. Longevity medicine is actually a kind of pharmaceutical formula in the inheritance knowledge that Qin Tiange gave her.

Qin Tiange saw this, nodded with satisfaction, and smiled: “Very well, you have done a good job, package these longevity medicines in triplicate and give them to the scientific and technological personnel of the Academy of Science and Technology. Their reward. “

“Furthermore, send some one-star hardening agent and pill washing agent each.” Qin Tiange directly sent these medicines as a reward to Wu Lao’s group of scientific and technical personnel.

Du Jing knew it and nodded happily. She said, “Fortunately, we can currently develop a two-star pill washing agent. Although the number is not large, it is enough to reward those old gentlemen.”

Having said that, she recruited a young female researcher responsible for the distribution of the drugs and asked her to take them to the Ministry of Science and Technology.

Next, Du Jing and Qin Tiange took a look at the pure metal wall, opened a hidden door, and entered the interior.

“Uncle, there is a surprise here.” Du Jing smiled mysteriously.

She came to this secret room, carefully opened a password device, and took out the contents stored in it, which was a test tube.

“Uncle, this is a surprise I specially prepared for you this time. Can you see what can be seen?” Du Jing was a little playful, blinking at Qin Tiange.

He smiled and took the box, which contained a potion, crystal clear, a mysterious liquid.

“This is ... an immortal medicine?” Qin Tiange’s pupils shrank, looking up at Du Jing, his face changed a little.

The thing in his hand turned out to be an immortal medicine, which was the same as the two immortal medicines he had prepared before.

This is the first finished product, or a poison, but it is a real immortal medicine. As long as it can precipitate and grow, it is a real immortal medicine.

“Good niece, terrific, didn’t let me down.” Qin Tiange smiled and was very happy.

He thought about it and laughed: “I don’t need this thing, you keep it, prepare all kinds of energy and medicinal supplies to cultivate this immortal pill, and then, take it yourself.”

This is a decision made by Qin Tiange after thinking. Since Du Jing has the ability to make an elixir, it will be given to her as a reward.

As for the future, there must be more immortal pills coming out, thinking to myself, it is time to prepare several immortal pills. After all, he has Chenxi, a woman, and must prepare an immortal pill for his woman.

“Thank you Uncle!” Du Jingqiao face Rong Run, extremely excited.

She didn’t expect that Qin Tiange would give it directly to her. This is an undead medicine. It was the only one she had made with Qin Tiange and learned from her pharmacist.

“By the way, how is the development of medicaments in the brain domain?” Qin Tiange suddenly asked this question.

That is the brain domain development medicine, but Du Jing is a simplified version, it is for her research and production, to see if it can be produced in volume.

As for the full version, it was in Qin Tiange’s hands, he did not take it out.

Du Jing looked serious, and quietly closed the door to the secret room before he said, “Uncle, the drug is terrible. Once leaked, the consequences will be serious.”

She looked dignified and looked at Qin Tiange, and proposed: “Uncle, I don’t think this thing is energy-producing, and can only secretly produce a small amount, for the internal core personnel, to give credit to those who trust the system.”

Qin Tiange thoughtfully, looking at Du Jing, his heart became more satisfied. She can think in this way and prove that she has learned to think about the interests for Qin Tiange, and even that she considers the overall interests for her own forces, which is very good.

“Rest assured, I have a sense.” Qin Tiange smiled with satisfaction and said, “You just talk about how much of this medicine you have made.”

“Thirty copies, more are failed products.” Du Jing looked a little lost, and failed to make thirty finished products after countless failures. It was really difficult to make.

Qin Tiange thought about it and said directly: “You take one by yourself and give one to Wu Lao of the Ministry of Science and Technology and let him take it secretly. The others will be temporarily saved as a reward for personnel inspection.”

“Yes!” Du Jing agreed solemnly.

After thinking about it, Qin Tiange said again: "Give me a copy first, I'm going to see it in the biology department. I don't know if there is any achievement in Li Jiajia."

Du Jing took a simplified version of the brain-domain development medicament. Qin Tiange took a closer look and left without taking the medicament.

He is going to take a look at the biology department, and he already has some ideas in his heart, and is ready to ask Li Jiajia, the person in charge of the biology department.

Although she was removed from the identity of the person in charge on the surface, it was actually just a form. After all, the biology department saved her one of the most talented people.

It didn't take long for him to come to the Ministry of Genetics and Biotechnology, where he met the busy engineer Li Jiajia, the chief engineer of the Ministry of Biology.

"General!"

Seeing him coming, Li Jiajia put down her affairs and saluted immediately, very seriously.

In fact, she was very afraid of Qin Tiange. Moreover, the change of temperament after the official Chinese military general's identity changed her heart, which even made him feel indignant.

That's the temperament of a superior, very unique. It's not like people who are in this position, or people who have been transformed in spirit.

"Jiajia, what have you achieved recently in Gene Biology?" Qin Tiange opened his eyes and asked directly for the results.

Li Jiajia's face relaxed, so she took Qin Tiange into the core area of biotechnology with a smile, and introduced him some achievements in biology.

Of course, biological genes are more mysterious and profound, after all, what are the results?
