

Dark Ages 381

Chapter 381 - Pleading

Biology, Li Jiajia took Qin Tiange to the laboratory.

“General, we have the least achievements in biology department at present, only one.” Li Jiajia said a little embarrassed, and carefully looked at Qin Tiange.

Seeing that he was not talking, Li Jiajia whispered, “At present, the biggest achievement of the biology department is the perfect production of super genes. There are no side effects, and it can be used for production, but it is not yet energy-producing.”

“Oh, super gene, is this it?” Qin Tiange was prepared, so he was not too disappointed.

Biology is actually three research subjects, one is super serum, one is super gene, and the third is artificial biology research.

In fact, speaking of artificial creatures, this kind of biotechnology is still unfamiliar, and has many limitations and hidden dangers, and has been unable to overcome the problem.

“Look at the general, this is the latest super gene.” Li Jiajia took out a syringe from a sealed ice crystal box, which contained the super gene.

Qin Tiange took it to look at it, and only listened to Li Jiajia’s introduction: “This super gene, we have fused a part of the super serum, and obtained the perfect fusion, and successfully produced this perfect super gene.”

It turned out that this result is a fusion of super serum, a perfect super gene, which can give an ordinary person super power after injection, and even further enhance evolution, which is truly perfect.

However, everything is not perfect. This kind of thing also has limitations and flaws. It is perfect, but no flaws have been found.

Qin Tiange looked at him and asked, “After this super gene injection, can it be enhanced with drugs?”

“Theoretical data is feasible. Super genes can absorb all kinds of energy to boost the strength and growth of people who are injected. It seems to be unlimited, but I guess there should be a limit. It may not be able to improve after reaching a certain level.” Li Jiajia said her guesses and concerns.

These data are all calculated based on self-calculation. They are very accurate and the error will not be too great. Therefore, they are still flawed.

However, it is already very good. Once the super gene is injected and combined with various drugs, the growth potential of a person who wants to come will be much stronger.

“How many super genes can be produced?” Qin Tiange is most concerned about this issue.

Li Jiajia stroked his glasses and said, "At present, we can only produce one thousand of these super genes a year, and the number is not large."

"Sufficient, speed up production, be prepared, and it will be used soon." Qin Tiange explained that Li Jiajia arranged production as soon as possible.

Soon after putting this super gene in place, Li Jiajia took Qin Tiange to another laboratory.

She pointed to the previous laboratory and said, "General, our third research project is artificial biotechnology, and there has been a lot of progress."

"At present, we have mastered the biological cloning technology, which is basically mature, and the latest biological creation technology is stepping up to eat it." Li Jiajia explained.

The cloning technology is mature, but the biological reconstruction technology is not mature, and it is just beginning to study and learn.

However, she said, "At present, our three departments have researched and produced the first genetic bioremediation module."

Speaking, she took Qin Tiange to a sci-fi streamlined biological cabin, and the three departments jointly created the first gene repair cabin.

Qin Tiange carefully looked at the two-meter-long and one-meter-wide huge biocabin, which is used to repair damaged muscles and genes, and even to restore the degree of broken limbs.

Li Jiajia proudly introduced: "This is the common result of the three departments. The gene cabin, combined with the current gene therapy technology and biological limb repair technology, can achieve the point of rebirth of any hand. . "

"Of course, the decapitation cannot be repaired." Li Jiajia finally explained.

In fact, this repair cabin is the biggest achievement of the biology department at present, but it was produced in conjunction with the other two departments, so she dare not take credit.

"Very good, if it has been tested, it will be produced immediately after finalization, and a large gene repair center will be established in the base to provide wounded recovery." Qin Tiange finally smiled.

This is a great achievement, and it is also an extremely important result, because currently there is no medicine that can regenerate amputated limbs, and it can only be done with genetic biotechnology.

With this thing, there is no fear of injury during the war, and even if your hands and feet are broken, you can quickly recover under the repair of biological gene technology.

In fact, this principle is completed by its own gene cloning technology, and the wounded's own gene cell clone is recovered in conjunction with bioremediation technology, which is not too magical.

Science and technology are the primary productive forces of mankind.

“Very well, you didn’t let me down. This is a reward for you. Later on Du Jing, you go to get the hardening medicine, pill washing medicine and longevity medicine.” Qin Tiange smiled with satisfaction and took out the A simplified version of the brain-domain development potion was given to Li Jiajia.

The latter was excited, his heart was relieved, and he was fined without penalty, and the reward was good.

“That’s right!” Suddenly, Qin Tiange looked extremely serious and said, “I have something. If you want to do research with Jiji, be sure to give me thorough research. If necessary, you can work with the other two departments.”

With that said, he solemnly took out a heart, a black heart, still beating vigorously, making Li Jiajia look stunned.

“This is ... the heart?” Li Jiajia was dumbfounded, staring at the heart that was still beating.

Yes, this is a heart, which is from the core of the eight-winged fallen angel deity. That heart that has become a living body is known as the immortal heart.

“This is a kind of idol that has undergone a spiritual change and birth consciousness. Such a mysterious heart was born in the idol. It is called an undead heart. You should study it carefully and not destroy it.” Qin Tiange cautioned Li Jiajia seriously.

The latter looked ecstatic, nodding his head again and again, assuring: “The general is at ease, I will not destroy this heart, and I will definitely study the mysteries thoroughly.”

“Also, this is a piece of immortal bone. It is a strange and powerful bone evolved from the resurgence of a skull. It is called immortal. You study it together.” It is immortal.

“It’s so magical to immortalize the heart and bones?” Li Jiajia’s complexion shook, completely subverting the previous concept.

The statue generates consciousness, and the skeleton self-recovers. How is it different from myth?

“Master, you don’t even care about me.

Suddenly, a light and shadow appeared in the laboratory, a pretty charming figure appeared in front of him, pouting, his face unhappy.

Xunji came out, but was very unhappy, because Qin Tiange had never said a word to her since entering the underground base, let alone see her, so naturally angry.

“Okay, okay!” Qin Tiange couldn’t help crying and explained, “I was going to call you out, but you ran out by yourself.”

“Master, Jiji wants a body, okay?” Jiji suddenly said this sentence, looking at Qin Tiange pitifully.

She looked tense, her eyes sulking, her little hands clumped together, and apparently she had a lot of courage to raise this issue with Qin Tiange again.

Yes, she wants a body, a real body, and she wants to have a real and perfect body, which is a strong obsession born after the self-evolution of intelligent programs.

Hearing this sentence, Qin Tiange was silent, Li Jiajia on the side kept silent, but didn't want to mix it in. The matter can be large or small, and it must not be involved.

After a long silence, Qin Tiange slowly looked up, looking at his pitiful appearance, and suddenly a smile.

“Yes!” Qin Tiange said two words, without waiting for his excitement to cheer, but then said, “It can be, but you must thoroughly study this immortal heart and immortal bone, and if it is done, it will give you Be a body. If you ca n't, you ca n't be a monster. “

“Oh yeah, thank you master!”

Ji Ji immediately excited and cheered, and the figure of light and shadow rushed up immediately, holding Qin Tiange and kissing hard, but it was unreal.

However, it is enough to prove that Jiji is really happy at this moment. She can finally have a true and perfect body.

Although this is conditional, she must complete the task explained by Qin Tiange, but she is not worried at all, and believes that she is enough to study the hidden mystery of that heart and immortal bones.

“Master, thank you for giving Jiji the opportunity to set foot on a complete life form. Thank you Master, Jiji loves you.” Jiji said with a look of tears in his face.

Qin Tiange couldn't help crying and yelled: “Be serious, you're a super artificial intelligence, but I will be a good assistant in the future. I can't be so immature.”

“Yes My master!” Xi Ji looked at him, but suddenly said with a smile: “Master, tell you, in fact, Ji Ji has grown up and is already familiar.”

As a result, she threw a wink at Qin Tiange, and the ordinary man couldn't bear seeing that ecstasy, but Qin Tiange was determined and his face did not change.

“Okay, hurry up, don't talk nonsense, inform me immediately if you find out anything, remember, don't destroy it, otherwise, don't say you want the body, just a gene cell, I won't give it to you.”

Qin Tiange finally warned Jiji and Li Jiajia seriously and left the biology department with satisfaction after seeing both of them made serious assurances.

For the time being, the three underground research departments are the current situation. As for whether they can achieve higher and higher achievements in the future, it depends on their efforts and Qin Tiange's efforts.

After inspecting the three departments and arranging everything, Qin Tiange stepped out of the underground base and came to the Lianhua Mountain with satisfaction.

He was about to see the little fairies, and he hadn't seen them for more than three months. It wasn't clear what happened to the little fairies and the group of flower demon and tree demon on the Lotus Hill.

Chapter 382 - Divine Land Raising Fairy

Qin Tiange came to Lianhua Mountain, ten miles away from Taolin.

Immediately after arriving here, all the peach trees immediately produced an inexplicable tremor, their branches and leaves waving, and they bent gently, as if saluting Qin Tiange.

I saw a peach-colored lotus rushing out of Taolin, and flew in front of him, and the lotus leaves quickly entangled Qin Tiange and kept spoiling.

Three months later, the goblin finally advanced to five-star level, which made Qin Tiange sigh inwardly. It was really not easy.

"Well, you little fairies, don't be coquettish, am I here to see you?" Qin Tiange scolded and touched the largest seven-color lotus, unable to help comforting him.

The goblins are very happy. They were naturally happy to see Qin Tiange, but they have not seen each other for three months. Although they have grown to a five-star rating, this is already very good.

After all, this refined lotus has seven lotus flowers of various colors, and the lotus seeds mature every once in a while, which leads to a larger energy for its evolution.

If there is no powerful energy supply, it is really not easy for the goblin to want to advance, but now it is different. Qin Tiange returned this time, but with a **** land and a fountain.

He wanted to see what the little fairies who were rooted in the gods' land could transform into, after watering the springs.

"Little guy, is this a mature lotus seed?" Soon, Qin Tiange was surprised.

I saw that the lotuses closed by the little fairies had spontaneously opened, and the thumb-sized lotus seeds exuded a strange fragrance.

These are mature lotus seeds, some red, watered like flames, a blue, sapphire crystal, the remaining pink, black, cyan, and purple lotus seeds.

Qin Tiange looked surprised. Looking at the different colored lotus seeds, the energy contained in them was different, even the medicine properties were different.

"Thank you little guy." Qin Tiange touched the fairy but the largest but immature Lintai, and laughed: "I brought you something good ..."

With that said, Da brought the goblin to a place in Lianhua Mountain, and took out a foot of ***** soil and put it on the ground. What 's strange is that the golden soil actually melted into the ground.

Uh ...

The leprechaun trembled suddenly, countless lotus leaves trembled, and seemed extremely restless, even wanting to take root directly on the wide land of God.

Seeing this, Qin Tiange said with a smile: "This is the Divine Land. I will prepare it for you to take root. Later you will take root here to survive. You cannot escape from the Divine Land until you are transformed. Do you know?"

He said with a serious expression, admonishing the little fairies, rooted in the land of the gods, and unable to leave the root system until they appeared.

"Thank you..."

Just listening, a milky voice came out, very faint, but it made Qin Tiange hear it very clearly, it was from the seven-color lotus of the little fairy.

Qin Tiange was surprised. He looked at the seven-color lotus and suddenly laughed: "Okay, I didn't expect that you could already speak. Although it is still young, it is a good phenomenon."

"Go, God's soil is prepared for you." Qin Tiange finished, the little fairy flying with a cheer, the roots spread out, and plunged into the god's soil on that side.

Suddenly, the golden light diffused, the entire lotus was dyed golden, and looking extremely gorgeous, even the little fairy had an inexplicable change.

Immediately afterwards, all the lotus leaves of the goblin wilted, as if dying. Even the seven lotuses began to fade and looked strange.

Qin Tiange knows that this is not death, but that the little fairies are transforming themselves, life and death, from death to life, that is the new life, and a brand new growth and transformation.

It was a kind of deep metamorphosis, a new metamorphosis from the inside out, a brand new growth, as if retreating from the old and weak body to grow a stronger body.

"Very good, let me help you." Qin Tiange smiled and took out a bottle of golden liquid, which is really the spring of God, and directly poured it on the seven-color lotus.

Suddenly, the golden ***** spring was absorbed by the lotus flower, producing a strong golden light, swallowing clouds and misting, turning into a touch of golden clouds hanging over the lotus of the little fairy, which was extremely amazing.

The goblin fell asleep, it was experiencing a kind of false death, as if it were going to return to the seed state and grow from the earth again.

Gradually, even the last seven-color lotus was withered and withered, gradually retracted into the land of the gods, completely disappeared.

call!

Seeing this, Qin Tiange knows that the leprechaun has completely returned to a seed, absorbing the energy of the **** earth and the water of the **** spring to transform into a stronger, higher-level seed, and then grow again.

Of course, this takes a long process, after all, if the goblin wants to obtain a higher level of life, it must start to metamorphose from the original form seed.

Three golden **** springs were successively irrigated, and Qin Tiange stopped satisfactorily. He looked at the full and flawless lotus seed in the **** soil and was very satisfied.

The little fairies are transforming. The movements here have attracted the attention of countless fairies on the Lianhua Mountain, even attracted by the breath of the **** earth and the breath of the **** spring.

The peach tree arrived, and the pretty student stood not far away, and did not dare to move. A strange flower came, dragging with mud and roots, and not far around Qin Tiange.

Peony flower demon, lily flower demon, rose demon are all here.

Bang ...

At the top of the mountain, a huge willow tree rose up, twined into two tree feet, and rushed fast, shaking in all directions.

An old face appeared on its trunk, full of anxiety and longing, and ran madly to Qin Tiange not far away and stopped, staring at the sacred land.

“Boss, master, me, can I take root here?” The old Liu asked enchantingly, even his title changed.

There, Taoshujing couldn’t sit still, a hazy face appeared on the trunk, and a clear and moving voice came out.

“Master, I want to take root here too ...” Tao Shujing said carefully.

Next to it, a cherry tree demon sprinkled a piece of cherry blossoms, a human face appeared, and he opened his mouth, thinking about taking root here.

The Peony Flower Demon, the Rose Flower Demon, and the Lily Flower Demon all expressed their respective ideas, indicating that they wanted to take root here.

Divine earth’s appeal to these fairies is too strong. Flowers and trees were originally rooted in the soil to extract the essence of energy. Now when you see a divine land, naturally they have a huge attraction to them. If it were n’t for Qin Tiange’s presence, it might go crazy.

“Do you want to take root here?” Qin Tiange smiled and looked at the flowers and tree demon gathered around him.

As for the new ones, they are not born, because these fairies do not allow other flowers and trees to be born into essences, so these are the only ones.

“It can be, but you must take root around it, otherwise, interview.” Qin Tiange converged with a smile and said his conditions directly.

These fairies can only take root outside the Divine Land and draw the mysterious energy in the Divine Land from the side, otherwise they will affect the transformation of the Little Fairy.

“Okay, just by the side.” The old Liu Demon agreed first, and the old tree face smiled. It immediately spit out a large ball of green liquid and said, “Master, this is my three months. The accumulated liquid of life is dedicated to the owner. “

The old Liu Demon flattered himself, spit out the liquid of life that he had accumulated over the past three months, and gave it to the master Qin Tiange.

Qin Tiange collected it with satisfaction and laughed: “Yes, yes, since you are so sensible, I will not hide it.”

Then, he took out a test tube of golden liquid and threw it to the old Liu Demon, saying, “This is the fountain of ***** water, which is good for you.”

“Thank you master, thank you!” The old Liu Demon shivered with excitement, and two willow branches wrapped around the test tube, swallowed into his mouth.

“Oh ...” Absorbing the spring of the god, the old Liu Demon couldn’t help but utter a brisk moan, groan, and the trunk trembled, causing Qin Tiange’s eyes.

At this time, the peach tree spirit, the cherry blossom demon, etc. couldn’t sit still, and directly presented the good things they had accumulated, all presented.

“Oh, it’s all right. Since that’s the case, you’re indispensable.”

Qin Tiange collected these things one by one, and his smile was even worse. He said, “You take good roots around the gods’ soil and guard the place.”

After speaking, he took out some ***** spring water one after another and gave these fairies a branch. Then he watched them take root around the body and absorb the mysterious energy of ***** earth and ***** spring water to transform themselves.

Divine soil, with magical effects and mysterious power, is most suitable for flowers and trees to transform themselves, and even enhance and make up for the original defects and achieve perfect evolution.

Qin Tiange knew that it was time to leave as he watched a splendid flower and tree root here.

“Leprechaun, sleep well, try to make up for your own defects, and it should be more perfect and powerful after re-growth.” Qin Tiange muttered, then took out the ***** fruit tree, carefully planted on the edge of the ***** earth, and irrigated some ***** spring Turn around and leave.

In the ***** earth, a crystal seed trembled a little, and soon fell silent, absorbing the vast divine power around, transforming itself.

The old willow tree, peach tree spirit, cherry blossom demon, and several flower demon have all fallen asleep and plunged into a deep level of transformation.

I wonder, to what extent can they grow up after absorbing the mysterious power transformation in the land of God?

Qin Tiange raised **** spirits with **** land, but didn't know what could be raised, anyway, it was an attempt.

Chapter 383 - The king asked me to visit the mountains

To the northwest of the base, a vast area of land has been reclaimed into huge fields with golden rice planted on it.

Jin Chancan's rice is almost approaching the harvest, and it is the third harvest.

Golden rice is the unique and only food product in the Shenzhen city base at present. It contains rich nutrition and energy. Even long-term consumption can significantly improve the physique of ordinary people.

This vast paddy field was originally cultivated by countless people in the base, but then the monkey king decided to take over the job.

Therefore, all are reclaimed by monkeys. In addition to rice fields, huge orchards are also reclaimed here.

Various fruit trees have been planted and have grown, waiting to bear fruit.

No insect dares to come here, because when it comes, it will be destroyed by the dense monkeys.

Just kidding, but here the base helped the monkeys set up a residential house and let these monkeys settle here.

There are food supplies, fruit supplies, and even the remuneration for their labor. All orchards have their share. Naturally, they work hard to maintain and protect them.

As the Monkey King went south and north, he actually went out to look for other monkey groups, and brought those monkey groups back with confidence. Gradually, the number of monkey groups grew even larger.

At present, the entire monkey population is more than 500,000 monkeys of various kinds, even a few gorillas, which can be regarded as the most powerful warrior of the monkey king.

With the weapons and equipment provided by the base, the monkey king is getting stronger and stronger, and he is also evolving fast. The soldiers are stronger and they are stronger. This is what a generation of monkey kings should look like.

when! when! when!

In the field, a monkey was watching, while opening its mouth and singing a song while tapping the gongs and drums.

That's right, this monkey is singing.

“The king asked me to visit the mountains ... The sun blinked at me, and the birds sang to me. I am a little goblin who works hard and does not stick to people. Do n't ask me where I came from, do n't ask Where do I go, I will pick the most beautiful flowers and dedicate it to my grandfather ... “

“Oh, I almost forgot, the King asked me to visit the mountains ... I turned the world around, played my drums, struck my gong, and life was full of rhythm ...”

Dangdangdangdang ... 咚, 咚咚咚 ...

A monkey sang and gongs and drums while singing. The scene made Qin Tiange, who had just arrived, twitch his mouth, his heart was speechless and funny.

He secretly said: “It seems that the monkey king is really willing.”

Qin Tiange learned that the monkey king invited several humans to teach from the base. Yes, he taught monkeys to read.

Monkey King, advancing with the times, even know how to invite humans to teach monkeys to read books, especially those little monkeys, who need reading and wisdom.

In the words of the monkey king, if you don't read books, you won't become talented. If you don't keep up with the times, sooner or later you will be eliminated.

“General!”

Suddenly, the little monkey was shocked when he saw Qin Tiange and immediately stopped. He even stood upright and made a non-standard military salute.

Qin Tiange was stunned, and instinctively returned a gift. Then he came to his senses, and the monkey even learned the etiquette of the army?

With this question in mind, Qin Tiange hurried through the rice fields and came to the area where the monkeys lived. The rows of neat and clean houses seemed to be the gathering place for individuals.

However, if you look carefully, all monkeys live here, and these monkeys stand and walk on their two feet, even wearing various clothes and looking extremely strange.

“The general is coming, the general is coming!”

Seeing Qin Tiange's arrival, a group of monkeys inside cheered immediately and stood on both sides, standing upright and saluting, making Qin Tiange's heart more weird, but he had to return the gift.

Well, the monkey populations are militarized, and this study is too fast, right?

“At the beginning of a person, nature is good, **** is similar, and Xi are far apart ...”

From a distance, I heard aloud readings, and I saw that in a square, a group of little monkeys sat neatly and read the “San Zi Jing” in unison.

Yes, a group of monkeys was reading the San Zi Jing, heard this, and saw this, Qin Tiange was so safe that no old blood spewed out.

Otherwise, monkeys study so hard. Think about the fact that many people in humans do n't even learn. Many people have a chance to learn but they do n't learn well.

Look at the tens of thousands of little monkeys reading in unison, the sound is deafening and the scene is shocking. The teachers who teach these monkeys are inexplicable.

They have taught good students and met bad students, but they have never seen monkeys reading, and even taught these monkeys themselves.

“King, King, the human general is here.”

Soon, the news of Qin Tiange’s arrival, a monkey came to report to the monkey king.

At this moment, the Monkey King is dancing with big iron bars and practicing continuously. The strong wind pressure rolls up the rubble within a few dozen meters, forming a huge wave.

The Monkey King has become more and more arrogant. He has reached the limit of six stars, and is fierce and violent, which means that his digital super warriors are not opponents.

“Are the generals here?” The Monkey King stopped immediately after listening, and the rubbles rolled around immediately scattered.

With a surprise on his face, he went out quickly, and when he saw Qin Tiange coming forward, he immediately greeted him.

“Welcome general!” The monkey king, wearing purple gold armor, even made a military salute.

Qin Tiange pumped violently, secretly squeezing a sweat, thinking with tears and laughter: “Where did this monkey king get out of, and he managed to militarize all the monkeys?”

Moreover, the monkey king originally called him the boss, but now he directly calls the general, more like the title of a superior who sees his superiors.

The monkey king put down his hand, and then smiled: “The general invited in. I haven’t seen him for three months, and the general’s spirit is brighter.”

It said, a pair of Jin Chancan’s eyes stared at Qin Tiange, and he felt a war in his heart, and wanted to fight Qin Tiange.

Qin Tiange naturally felt the raging warfare, and laughed secretly in his heart, and said directly: “Since the monkey king, since you are interested in a war, let’s discuss it.”

“Okay, it’s my intention!” Monkey King exclaimed with joy.

Soon, the two came directly to an open field, the two of them were facing each other, the breath condensed and collided, and there was a trace of sparks in the air.

“General, be careful!” Suddenly, the Monkey King attacked, and a lightning bolt quickly hit it.

Qin Tiange followed the panic but did not panic, with a hum of euphoria, daring to meet him. The two figures collided swiftly with a loud noise.

There was a snoring sound, the figures crossed, and then they quickly killed each other, and they slammed into a ball.

The Monkey King is fast and powerful, and Qin Tiange is faster, and the power is naturally terrifying. The waves of the mighty force are sweeping out.

Euphorbia smashed, even the Monkey King was so brave that he didn't dare to do so. After several times, he had to be hard. The consequence was that his hands were numb.

Huh!

The two silhouettes were lightning fast, and they fought again. In the end, the monkey king lost a battle, and the whole was flying out.

This fight lasted for an hour. The battle between the two powerful men caused a crowd of monkeys to watch, but they were shocked to see their monkey king was suppressed by Qin Tiange.

"That's our loyal human general?"

Not far away, a large chimpanzee snorted, looking a little shocked and unbelievable.

In the near future, a huge panda lazily rolled and scorned: "What do you know as a black man, the king said earlier that the strength of humanity is not only reflected in wisdom, but also force, so honestly, Don't mess it up. "

"Yes, I see a human weapon that can level three mountains directly to the ground, and there are even rumors that there are more powerful weapons." An old monkey said inexplicably.

Since learning human knowledge, these monkeys who had escaped from the discipline immediately became quiet and honest.

Not only the power demonstrated by Qin Tiange's base, but also the scene when the various weapons were tested were seen by the monkeys, and finally this group of monkeys who did not accept discipline was completely deterred.

Don't think that the monkey group is divided by the monkey king. In fact, at first, the monkey group was roaring, and even refused to accept the discipline, clamoring for the base to occupy it.

The results are self-evident, but all monkeys who spoke such words were killed by a monkey king with a stick, and the force of the base was deterred, and the monkeys finally came down.

Bang!

Suddenly, the battle center exploded, setting off a billowing smoke, crackling stones and crackling on the surrounding monkeys, and they hurt so much that they avoided dispersal.

"The general is worthy of the general, I served."

In the dust, the Monkey King came out with a stick, and his armor was a little broken, but it was not a big deal, but he was a little bit embarrassed.

But people with good eyes could see it. It lost, and it lost to Qin Tiange. The Monkey King had to sigh in his heart. The leader of this human base is truly a strong man, and now he is not an opponent.

“The Monkey King is not weak, and progress is fast.” Qin Tiange stepped out of the smoke, except for a little bit of smoke.

This battle was actually nothing more than discussion and temptation. It was the monkey king who tried to Qin Tiange, and it was also Qin Tiange who was trying to test the monkey king.

Now, he understood the details of the monkey king, and naturally deterred the king of the demon monkey that was getting stronger.

“General, please inside!”

The Monkey King smiled and resumed free and easy, and asked Qin Tiange to enter directly. I haven’t seen each other for three months. It is really necessary to talk between the two in detail once, and even renew some agreements.

For example, some plans of the Monkey King are to send his son-in-law into Qin Tiange’s army, which can not only sharpen, but also increase the exchange and integration between the monkey group and humans.

Yes The Monkey King decided not only to fully study human knowledge, but also to make a bold move, that is, to integrate into it and consider himself as a new human.

“Do you want to integrate into human society?”

In the room, Qin Tiange was surprised and looked at the decisive Monkey King in front of him.

This is incredible. It is tantamount to the Monkey King treating himself as a brand new human. How much determination is this?

Qin Tiange didn’t speak, and banged his fingers rhythmically on the table, thinking about this question quietly, and thinking seriously.

Monkey King, it is good or bad to integrate the clan into human society. Qin Tiange is unclear for the time being, because this situation did not happen at all.

There are many wars and conflicts between humans and mutants, and there is no peace between races because the mutant species are extremely ferocious.

However, the monkey king’s proposal and request opened a door for Qin Tiange, allowing him to see a scene from a different past life, which seemed highly feasible.

Chapter 384 - Army attack, 3-line operation

During a five-hour conversation with the Monkey King, the two exchanged views with each other, and finally reached an agreement to allow the Monkey King family to integrate into the base human society.

This is an innovative measure. After careful consideration, Qin Tiange finally agreed to try and opened a new chapter in the end of humankind.

The Monkey King is wise and knows how to make his own group more prosperous. He even sees the future strength of human beings, which is the mainstream in the last days.

The more the monkey king learns about human knowledge, the more he feels that humans are still the mainstream species on earth. Therefore, the monkey king is determined to integrate his family into human society, regardless of each other, and even consider himself a member of humankind.

This is a great decision. It is also a completely new attempt. It may fail, but at least it has the courage to try and practice.

Maybe in the future, these monkeys will fade their hair, and even become like human beings, they will truly distinguish themselves from each other and may become new human members.

Leaving from the Monkey King, Qin Tiange hurriedly returned to the base without even having time to ask the Monkey King if the dead parrot had returned.

As soon as he returned to the base, he immediately rushed to the base's top management and officially held the first high-level summit in three months.

"Everyone is here, and we are starting the meeting now."

In the base's highest conference room, all the high-level gatherings were gathered, all of them were looking at Qin Tiange on the theme, the base leader, the youngest general in China.

I saw that Qin Tiange looked serious and swept all the people present, so he slowly said the main content of the meeting.

"There is something to announce."

Qin Tiange was simple and clear, saying: "I just reached a consensus with the Monkey King, and the whole monkey population will gradually integrate into our human society. Anyone's opinions and ideas can be talked about."

As soon as this word came out, everyone was shocked, especially those who were present could not have imagined that the monkey king would want to integrate his family into human society.

They turned around and looked at the Monkey King, who was attending the high-level meeting of the base for the first time, but this monkey.

"Hello everyone!" The Monkey King stood up generously, with extremely standard salute, not unlike a monkey at all, but more like a human.

Yes, the Monkey King has learned the knowledge and etiquette of human beings. It has a great heart and is extremely intelligent. This is a great move.

All the seniors stood up and saluted in unison, and sat down in amazement, thinking differently in their hearts.

But most of them were surprised and unheard of. Monkeys have to integrate into human society.

It is not the case that humans raise monkeys in peacetime, but the two ethnic groups live on an equal footing, just like the Huaxia ethnic minority.

But there is one more monkey group, a monkey group with wisdom, and a monkey group that knows how to learn and grow is not much different from humans.

"We agree!"

“No comments!”

Soon, everyone was in favor of this decision, and no one objected, not only the potential shown by the monkey population, but also that they already had wisdom that was not weaker than humans.

In addition, all seniors knew that the Monkey King had asked humans to teach monkeys. They were originally worried, but now they do n’t worry.

The Huaxia nation has always had a strong inclusiveness, accommodating a total of 56 ancient and powerful nations, becoming the oldest and most powerful nation in the world.

Now, what’s the problem with an extra monkey? They all believe that with the inclusiveness of the Chinese nation, it is bound to accommodate the emerging and intelligent race of the monkey race.

“This is a good thing, we naturally raised our hands in favor.” Zhuo Tianfan smiled inexplicably and expressed his own opinion.

Why oppose? Since the beautiful monkey king has this mind and courage, and wants to be integrated into the Chinese family, it cannot be rejected, and not only is it not rejected, it is also welcome.

This represents the strength of the Chinese nation, and will even play a good lead role for future intelligent races.

Look, the monkeys are all powerful and integrated into the Chinese nation, so other transfiguration fairies must have a role model.

The truth is that with the power of role models, there will be a drive and comparison. All seniors realize that maybe China Huaxia will present a different scene in the future.

“Since there is no objection, from now on, the monkey group will officially become an important member of my Chinese nation.” Qin Tiange announced the matter directly.

Of course, he can’t represent the entire nation, but he can represent the entire base. Therefore, the first thing the monkey group needs to do is to integrate into the human society of the base.

“Next, the second thing I want to say is land reclamation.”

Qin Tiange then talked about this matter, that is to open up wasteland. The base is now strong and stable enough, and it is time to forge ahead.

He directly asked his self to call up a virtual map and appeared in front of everyone.

“General, this is the picture of all new drone detections coming back.”

I am in a military uniform, a little less charming, a little more embarrassing, but more beautiful and moving.

She pointed at some aerial images and said, “This is the direction of Guancheng. There are dozens of gathering places, large and small, with a total of one million people.”

On the screen, looking from the sky, the entire Guancheng city has fallen, but there are dozens of gathering places, large and small, still struggling to survive.

Zombies are everywhere, mutant beasts run rampant, and the situation there is terrible. Not only Guancheng, but also Huicheng, Xiangjiang and other places have clear information back.

“There are so many detections at present, but unfortunately the satellites have been destroyed in the end, otherwise we can detect intelligence on a global scale.” Ji Ji said with regret.

Then she turned and laughed, “However, the base is now stepping up the development of a new satellite technology, and it has reached the final stage.”

Qin Tiange nodded and said, “I will not mention satellite technology for the time being. Now, let’s talk about how can these areas be recovered?”

Guancheng and Huicheng have fallen, and they have become corpses. If you want to recover them, you must clear the countless zombies there.

This is a big problem, but Qin Tiange doesn’t want those places, but the people who have survived there.

“General, I think it should blossom on three sides. Guancheng, Huicheng, and Xiangjiang can all launch an attack at the same time to eliminate the zombies there.”

Nie Teng stood up, expressed his opinions and suggestions, and then sat down and calmed down.

I saw that Li Zhi also stood up and said, “General, I don’t know why, all the zombies in Shenzhen City have almost disappeared. At present, Shenzhen City is the safest.”

“We agree that third-line operations can be done.”

One general after another stood up, expressing their own wishes and suggestions, all of which could be achieved by third-line operations.

Because the zombies in Shenzhen were gone, they disappeared inexplicably, and more than ten zombies had not been seen for more than two months.

In addition, camera probes were installed in all corners of Shenzhen City, and no traces of zombies were found no matter day or night.

“Zombies have disappeared?” Qin Tiange thought quietly, but in fact he had noticed the situation when he returned.

In his opinion, it should have been made by the Ziyi corpse, and he faintly remembered the scene where the Ziyi corpse came to attack the base.

At that time, the corpse baby’s words were still in his ear, making him never calm down. Qin Tiange was not a fool. He naturally heard the meaning of the questioning words of the corpse infant.

However, at the time, in front of the countless people in the base, he naturally could not respond, and he had a sense of instinctual rejection in his heart, and he had to let the corpse baby leave.

It seems that the corpse infant left the city of Shenzhen with the corpse of Shenzhen City, it is not clear where he is now.

Withdrawing his thoughts, Qin Tiange's face looked calm and said, "Since the intelligence has been confirmed, it is time for the army to attack."

"Yanji, how many newest tanks does the military factory currently have?" Qin Tiange suddenly asked.

Xu Ji Xuying immediately converged his smile and answered seriously: "General, at present, the military factory has completed the production of 5,000 new super I tanks, and new aircraft of various models are under development."

Qin Tiange frowned slightly, feeling dissatisfied, too few. He thought for a moment and said, "First, the Second Land Reclamation Army is equipped with 1,200 new combat vehicles each."

"The remaining 3,000 chariots are equipped for Li Weiwei's guard regiment." Qin Tiange made adjustments.

"Yes!"

Everyone replied solemnly, no one felt disappointed and inappropriate. The city defense regiment did not need these field equipment, so no one showed any dissatisfaction.

"I order!"

Qin Tiange suddenly stood up, gave an order, and saw all the high-levels standing together, staring at him in silence, waiting for the next order.

"Order the first and the second wasteland forces to attack Guancheng and Huicheng respectively, clean up the zombies there, and be sure to bring all survivors back."

Qin Tiange's order was given. Nie Teng and Li Zhi, the heads of the wasteland reclamation team, immediately took the lead with excitement. They were in a mood, and finally had a chance to show their skills.

This is the first large army battle and the first battle. It is the most important battle on their journey, and its significance is extraordinary.

Both of them knew that this was not just a recapture battle, but also an assessment battle, not only the overall internal combat capability of the Legion, but also the capabilities of their two regiment leaders.

If the performance is poor after this war, Qin Tiange is likely to be kicked. After all, the army needs talents, not mediocre talents.

"As for Xiangjiang ..." Qin Tiange said this, and remained silent for a while, and finally ordered: "Order the First City Defense Regiment as the main offensive, the Guard Regiment, the Air Force Department, the Mech Department, the

Warship Department, and the Women's Special Operations Department.
Combat. “

“Yes!”

All the generals shouted in unison and looked excited, and finally set off. Wancheng is in charge of the First Land Reclamation Group, while Huicheng is in charge of the Second Land Reclamation Group.

As for Xiangjiang, which is near the base, it is the coordinated operations of various arms. Although many troops have just been formed and trained, they do not have corresponding weapons and equipment.

For example, the Air Force Department does not have a plane, the Warship Department does not have a warship, and the Mech Department does not yet have a mecha armour. Naturally, people are fighting.

This is an experience of running-in battles between new arms and legions. The opportunity is rare. Qin Tiange decided to have a big training.

“I will not participate in this operation, and each general will go back and prepare separately. If the operation is successful and the performance is outstanding, I will notify the capital and ask for your success.”

Qin Tiange uttered this motivating word with a serious face, which excited all the people who had never been officially banished.

“However, ugly words are at the front. If you have failed in this battle, or even people who have performed poorly, then don't blame me for not remembering the old feelings, and not supporting the mediocre in the army.” Qin Tiange warned the senior generals severely.

“Yes, you are guaranteed to complete the task!”

Everyone looked stunned, and they all took orders to leave the meeting room and waved their preparations to lead the army. Just after everyone left, only Qin Tiange and the Monkey King were set up in the meeting room. There is this artificial intelligence.

“Sun Wutian, give you a task.” Qin Tiange suddenly said this sentence.

After listening to the Monkey King, she was shaken and surprised, “General, please say, what task, Grandpa Sun is absolutely beautiful.”

Qin Tiange looked at him and promised that he smiled and said, “Yes, I plan to let you take your monkeys to this area.”

“Guangning City?” The Monkey King saw a sigh, where was Guangning City.

Qin Tiange's eyes were clear, and he nodded and said, “It's Quang Ning, where there are a huge number of monkeys in the 100,000 mountains. Your task is not only to conquer all the monkeys there, but the precious medicinal materials and spirits in them are brought back to me. I do n't need to say more about the others? ”

After speaking, Qin Tiange handed over a storage ring, and when the Monkey King heard it, he received it with a renewed spirit. Without saying a word, he hurriedly returned after saluting, ready to take the monkey army to the 100,000 Mountains in Guangning. Inside, hunt down the monkeys there.

Chapter 385 - The ambition stage, the world of the strong

In the base, the dispatch of several troops caused a great response, and the survivors throughout the base were shocked.

“What’s wrong, the army is dispatched, is there any war to fight?”

On the street, many people looked at the thousands of new super chariots driving in the past in shock, followed by a neat team, uniform armor system, uniform steps, and a solemn military capacity, shocking.

The army was dispatched, and many ordinary people speculated that there was a war, otherwise it would be difficult to see several armies at the base dispatched together.

A million troops went on a military expedition. This was the first large-scale expedition of the base, and naturally attracted the attention of countless people. The street was full of people, but no one dared to enter the military passage.

These are special tunnels specially constructed for military use, which can only be viewed from the side, and they can not even enter in normal times.

“Brother, these armies are very powerful. The weakest are all one-star intensifiers. Oh my god, there are millions.”

In the crowd, a man and a woman were horrified, and they were shocked as they looked at the several large legions that kept walking past.

The two were Mo Yan and Bai Yu brothers and sisters. Since following Qin Tiange to the base, they have been arranged in a residential area.

Now, seeing the base army dispatched, the two brothers and sisters are shocked. What both brothers and sisters couldn’t believe was that the weakest one in the army base in Shenzhen City was a one-star strongman, and two-stars were not uncommon.

Powerful and shocking!

The brothers and sisters really realized that the difference between the bases in Shenzhen and the strength of their internal legions was beyond imagination.

Moreover, if you look at the management in the base, it becomes clear that almost no one commits a crime, because there are dense monitoring everywhere, no dead end.

“It seems that the big brother Qin we know is not as simple as it seems.” Mo Yan muttered to himself.

Bai Yu frowned secretly, saying, “Brother, what plans do you have, whether to live here as a poor people or ...”

“Of course I joined this base and integrated it. I want to see that the strength of our brothers and sisters is not weaker than those of the middle and upper level masters, and there will always be opportunities to get ahead.” Mo Yan thought and decided.

The military expedition not only shocked the many survivors in the base, but also greatly shocked some people’s bad thoughts that grew after the increase in strength.

Who dares to confront such a powerful army?

“Master, the Legion battles on the third front. Is it really good for you to be away?”

In the conference room of the base, Qin Tiange and Xun Ji quietly looked at the drone monitoring screen.

Xun Ji’s worries are superfluous. Qin Tiange’s idea is to use this campaign as a goal to sharpen the ability of the internal senior generals to assess. If he fails, he will withdraw.

“Yanji, you help me look at it, the entire record, all the unqualified people write down for me, and I will personally award and punish when I come back.” Qin Tiange said these words blandly.

He has to record his entire journey. During the battle, anyone who is unqualified will be recorded, and the reward and punishment will be combined after the army returns.

“Understand, my master.” I already remembered carefully.

She controls the latest unmanned reconnaissance aircraft, monitors three combat lines throughout the process, and records all military and individual performance.

Qin Tiange nodded, and then released a surveillance screen, which was a scene from the drone aerial photography.

It is a medium-sized gathering place, with a rough estimate of more than 100,000 people. The location is in the area around Guancheng, and it is built around a small town.

“The dark and **** doomsday is the stage for ambitionists, and it is the world of the strong.”

Looking at the small gathering places, the emergence and rise of the star-studded, each ambitionist is emerging on this stage of doomsday.

They gathered a large number of refugees and survivors, took control, formed forces, and formed large-scale gathering places.

“Master, look, there is movement in that gathering place.”

Suddenly, Jiji released a picture above, which is the gathering place observed by Qin Tiange, a medium-sized base with more than 100,000 people.

Qin Tiange moved his face, frowning secretly, looking at the picture taken by the drone, gradually lowering and drawing closer, and soon saw a lot of movement in the base.

“What are they trying to do?” Qin Tiange frowned slightly.

...

Guancheng, a small town on the outskirts, has a gathering place.

At this moment, a large number of survivors are coming out of the gathering place, watching a group of people ***** with ropes, being escorted by hundreds of armed men and walking out of the gathering wall.

“Oh!”

In the crowd, many people showed an expression of grief and indignation, watching the band of bound people being escorted by a group of burly men wearing armor and holding a sword.

“Chen Feng, you are evil and you will be punished!”

Suddenly someone in the detained crowd roared to the sky, full of sorrow and indignation, and those eyes were filled with invincible hatred.

Some people in the crowd sighed, “Chen Feng’s demon forced these people to contribute their own women and daughters and bury them alive without giving them.”

“Demon, don’t die!”

“Animals, who is going to get rid of this scum, and give us justice?”

The crowd was filled with sorrow and resentment, and over a hundred thousand people in the entire gathering were filled with sorrow, and even despair was gathering.

The controller of the gathering place, named Chen Feng, was 23 years old. After the last days, he got a lot of opportunities, so he gathered a group of people and controlled a large number of survivors to establish the gathering place.

He believes in obedience to me, and perishes against me. The killing is constant and decisive. After gaining powerful power, he has infinite self-confidence and believes that he is the master of this doomsday.

“Shh, don’t say it, the demon is out.”

There was a sudden commotion in the crowd, and when a group of people came up on the street, a young man with a high toe was headed up, and his nostrils were upright.

His face was proud, I was heaven, I was like an emperor, and even the armor on his body was printed with a cricket-like five-claw golden dragon.

“I, Chen Feng, destiny is here, so if you don’t obey the order, you should be guilty of sin!”

Chen Feng came up and said this to the hundreds of imprisoned poor people, a cold and cold tone in the solitary high, like a high king.

He despised the crowd and hummed, "A group of low-level garbage, asking you to dedicate a few women, it is worthy of you. I think Chen Feng sees your women and daughters as blessings you have repaired in your lifetime, and you don't even recognize them."

"Come here, bury me alive, to emulate you!" With a big wave of his hand, Chen Feng ordered hundreds of people buried alive.

"Do not..."

"Demon, you must die!"

"I'm the ghost who won't let you go."

Hundreds of people roared and shouted, but unfortunately their legs were severely interrupted by burly men, and then they were thrown into the excavated pit, directly filled with soil, and buried alive.

"Damn, when are we going to endure?"

Finally, many people in the crowd couldn't bear it. Today, hundreds of people were buried alive, or dozens of people were killed, or this woman was taken away, and that daughter was taken away.

How can they live on such a gathering day?

"We killed this demon."

"Brothers and fellows, are you willing to continue like this?"

Someone stepped forward, roaring with grief and indignation, and touched the hearts of countless people. Huaxia children are bloody, but they only know how to hide them.

Now being oppressed by this, some people have wife and women around, and the beautiful ones are ordered to be sent up by Chen Feng. Those with daughters are even more miserable and taken away directly.

This kind of person, just a demon who is free to live, will only oppress the people, and even use **** means to suppress and kill some troublesome resistance. Although the suppression has been suppressed for a while, the patience limit of all people has finally reached its peak.

"Brothers, cut him down!"

"Vow not to be a slave!"

"kill!"

As hundreds of people were buried alive in front of countless people again, at this moment, more than 100,000 survivors in the gathering place finally endured to the apex.

Left and right are also dead, and horizontal and vertical are also persecuted. It is better to cut down the demon now, kill him, and get rid of this scum.

"Damn, dare to rebel and kill them."

When Chen Feng saw that the crowd was crazy, he immediately became furious, and directly ordered that thousands of powerful men around him implement iron blood suppression.

He believes that only iron and blood means can survive in the last days, kill everyone cold, kill everyone fear, and even kill all men, he can control and even enslave them as he wants.

Unfortunately, he was wrong!

“Kill kill!”

The entire gathering place was completely chaotic, with more than 100,000 people holding wooden sticks and iron bars, and even picking up stones and rushing up.

They are crazy, because the anger in their hearts has already reached the apex. Who wants their wives and daughters to be forcibly taken away to be humiliated?

Who wants to be buried alive tomorrow? Who wants to be embarrassed all day long, afraid of being accidentally hacked, and who is willing to follow such a person to continue to live in the last days?

“Sir, have the electromagnetic guns been repaired?”

Looking at the gathering place of the riot, Qin Tiange gently asked, and Jiji answered directly, the electromagnetic gun had been repaired.

Hearing the repair, Qin Tiange faced a bit of coldness, and hummed, “Give me a shot at that person and beat him into powder.”

“Observe, my general!”

Jiji immediately took the lead, mobilized the electromagnetic muzzle to point at that base, and adjusted the orientation with no one to monitor, accurately positioning Chen Feng at the center of that base.

This good-killing survivor, who does whatever he wants, does nothing evil, suddenly feels a cold heart palpitation and fights a cold war.

“What’s going on?” Chen Feng looked suspiciously, and looked around. The tens of thousands of survivors who were violently killed did not really look at him.

All the intensifiers are in his hands, one by one, following his misinformation, thinking that he can do whatever he wants to be strong, and grab others’ wives and daughters to abuse and play.

This kind of means is necessary in Chen Feng’s view. If a woman wants to be strong, she will have to play with any woman, and her followers will enjoy it together, and it will naturally form a habit. call out!

Suddenly, a distant void crossed a scorching beam of light

“No ...” Chen Feng looked blankly, roaring again and again, and the roar of fear was drowned by the beam of light.

With a loud noise, Chen Feng was located on the spot, and everything was gasified on the spot within 300 meters. Chen Feng, including the hundreds of guards, were all turned into gas on the spot, without even a trace of powder left.

After the earth shook, the light spread and countless electromagnetic energy rushed away, hitting everyone in a radius of three kilometers into coke.

A sudden blow hit the entire gathering place instantly into silence, and countless people stared blankly at the huge pothole, the arc flashed, and the smoke plummeted.

Chen Feng was dead, hundreds of guards were dead, and thousands of armed men were electrified into coke, exuding the smell of burnt paste, irritating everyone's nerves.

“Doomsday, the ambitionist's stage is good, but it is the world of the strong.”

Looking at the powdered Chen Feng, Qin Tiange murmured to himself, thinking of the ambitions of countless ambitionists in the last days, but the ones who could rise up belonged to the real strong.

Chapter 386 - Poor parrot, Phoenix shows up

The strong are not only powerful, but also heart and mind.

Without strong strength, it is not a strong person, but with strength but without a strong heart, it is also a weak person, but with strong strength but without a generous heart, it is not a strong person, but a strong villain.

Little people, maybe you can mix well for a while, but if you really want to get up, it is a foolish dream, after all, the eyes of the masses are clear.

For others to be happy and sincere, and to follow you in business with sincerity, you must truly have a strong tolerance, and even have a convincing mind.

Killing without cause, using your strength to do whatever you want, thinking that you are unparalleled in the world, invincible in the world, that you are the sky and the emperor in the last days, then you are not a strong person, but a fool.

Anyone who walks to the top of the pyramid will not be a villain, because you don't get the public's approval, and sooner or later you will overturn the boat.

“Yanji, you monitor the third-tier army. I will leave for a while before I have any problems.”

Looking at the people in that base suspiciously, all of them didn't dare to move, Qin Tiange stood up, left a word, and turned away.

It is enough to hand over to Jiji to monitor the record. He will leave for a while to prepare in advance for the task of entering the assessment stele.

At present, Qin Tiange's level is three stars, his strength is the strength of eight hundred people, but it is not the limit, he feels that his limit should be around the strength of a thousand people.

After leaving the meeting room, Qin Tiange first came to the residential area outside the base, entered a community, and knocked on the door of a room.

“Brother Qin?”

The door was opened by Bai Yu, who was a bit surprised to see Qin Tiange, but quickly let him go and let him in.

The person who came is Qin Tiange, and here is the place where Mo Yan and Bai Yu brothers and sisters brought back.

“What, are you still used to living here?” Qin Tiange sat down and asked the two with a smile.

The brothers and sisters looked at each other, and Mo Yan said with a bitter smile: “General, we did not expect that our life-saving benefactor turned out to be the youngest general in China, and to build such a huge base myself.”

“I don’t know if the general came to our two brothers and sisters, what’s the command?” Mo Yan’s words revealed a trace of separation and restraint.

Yes, with different identities and different understandings, a gap naturally arises. Qin Tiange can no longer be called casually, with a hint of awe.

It’s like an ordinary person, and a kind of oppression in the face of the military superiors, naturally arises.

Not to mention that two brothers and sisters can despise everything when they have strength. In fact, in front of Qin Tiange, they are nothing, and the three-star rating is absolutely inconspicuous.

However, it is because they have some talents, thinking that there is still a secret force in the base, which is why Qin Tiange brought them back.

“I want to ask, are you interested in helping me do things?” Qin Tiange smiled, and opened his eyes to ask.

Mo Yan, Bai Yu, one of the four major killers of the previous Assassin League, known as black and white impermanence, strength can not be underestimated, are all ten-star strong.

The siblings have this ability, so Qin Tiange got his mind and wanted to form a secret team as soon as possible.

“General, please say that our brother and sister have nothing to say.” Mo Yan said, agreeing on behalf of his sister.

There is no way, the situation is better than people, they have no room for rejection, because they do not understand what bad consequences would be.

In addition, Mo Yan does not exclude Qin Tiange from doing things. It is clear from looking at the powerful force of the entire base.

If you want to climb higher, you must have a good stage. This is exactly the right place. You agreed directly with Mo Yan.

Next, Qin Tiange talked with the siblings all morning, and no one knew what the three had talked to.

Near noon, Qin Tiange left with satisfaction, leaving Mo Yan and the two brothers and sisters in the room silent and silent.

“Brother, do you really want to know clearly?” Bai Yu asked with a complex complexion.

Mo Yan was silent for a long time before exhaling, “Sister, you should know that we have no room to refuse.”

“Moreover, this is the right place for you and my brother and sister to show their talents and accomplish their careers. Why don’t you agree?” Mo Yan saw it very clearly.

To achieve a career, strength and talent are indispensable, and the stage is more important, although the two believe that relying on the strength of the brother and sister will definitely be able to make a career in the end.

However, the Shenzhen City base has strong force and an orthodox military background, and everything is justified, the stage is wider, and the cause that can be achieved is larger.

Therefore, Mo Yan felt that this was an opportunity. If he grasped it well, he would be able to make his mark on the Huaxia stage and even the world stage in the future.

Bai Yu nodded and said, “Since he has given us this task, it proves that the base does not yet have talent in this area, so this is an opportunity for our siblings, but I don’t know how he can see that our siblings are killers?”

Yes, the two brothers and sisters are killers, and they are also rarely known as killers in the world, known as black and white impermanence.

It doesn’t matter how Qin Tiange sees it. The most important thing is that the siblings seized the opportunity, which was enough.

“Let’s go, we have to work. What is the future? Just look at the hard work and struggle of you and my brother and sister.”

Mo Yan was full of spirits, took the slender little hand of Bai Yu’s young girl, left the room directly, left the residential area, and disappeared into the vast crowd.

No one knows that in the silence, an extremely secret power was born in the base, which belongs to the secret power.

This power is in Qin Tiange’s hands and extends to every corner of the interior of Huaxia outside the base. If necessary, you can use this new hidden power to do something inconvenient for yourself.

“The dark part has been established, the base forces have basically taken shape, and only time has accumulated and developed.”

At the base, Qin Tiange strolled among the crowd and quietly thought about what happened next. The construction of the base has been basically completed, and various departments are close to maturity.

As long as there are no accidents or changes, the development of the base will follow this model, and it will take time to precipitate and accumulate greater potential in the future.

After doing these things, Qin Tiange just thought about his own strength, and it was time to rise to the limit of Samsung level.

He has arranged and planned well, and after the ultimate combat effectiveness is improved, he will directly enter the assessment stone for assessment.

As for the major corps in the three-line operation, he was not worried at all. He had his own self-monitoring behind him, so he was naturally at ease.

“I don’t know what happened to White Tiger?” Qin Tiange sighed, remembering that he was riding White Tiger.

There is also the dead parrot who has not returned in three months, and does not know where he is with Suzaku, which really makes him a little depressed.

Thinking, would n’t you wait for the dead parrot to come back and fasten it with an iron chain?

“Ah sneeze!”

As far away as a volcanic island in Nansha, a feathered macaw sneezes, dangles, and is suspicious.

“Strange, who scolded me?” The macaw snarled in grief, muttering, “God, come and save me, pity me.”

The macaw looks extremely miserable, and his feathers are slippery, like a hairless fat chicken, looking extremely weird.

Why is it so miserable?

Just listening to the macaw lamenting: “Good Suzaku, my good daughter-in-law, please forgive me, I will never dare.”

“Suzaku, take me away from this ghost place, I swear I only love you, I really only love you, and I don’t like Phoenix any more.” , Smelled tears.

However, a flaming suzaku hovering in the sky raised his head indignantly, not looking at the light-haired macaw.

Its hair was pulled out one by one by Suzaku, because it took Suzaku to soak a fire phoenix.

This time, Suzaku can be irritated. The originally shy and delicate Suzaku turned directly and became very hot. It hit the parrot fiercely, and even pulled out its feathers.

Suzaku’s character was already hot, but he just fell in love with the macaw. As a result, the parrot died, and he took Suzaku to soak the Phoenix. The picture was beautiful, and the consequences can be imagined.

Not only was he given a lesson by the fire phoenix, but he was also severely beaten by Suzaku under the anger, and directly plucked his hair and threw it on this uninhabited island.

“Good Suzaku, I know I’m wrong, I’ll never dare again. I only love you in this life, please take me back to see the boss, we must not be back for so long, he must be very angry.” Macaw begged hard. , Even moved out of the boss Qin Tiange.

Hearing Qin Tiange, Suzaku had a meal, and a moment of hesitation flashed in his expression, but in the end it felt better to go back once.

I haven't been back for more than three months, just to give this dead parrot a memorable lesson and leave it here for more than two months.

cry!

Suzaku made a long rumbling sound and rushed down in a flash of fire. His claws grasped the parrot, which was bare, and flew away.

The parrot was sore and sweaty, and was caught in the flesh by Suzaku's sharp claws. It felt as painful as a knife, but it didn't dare to say a word.

"Oh my God, am I wise and I will be destroyed on Suzaku. Am I getting the legendary wife-in-tube inflammation?" The macaw couldn't help crying.

But at the moment when Suzaku spread his wings and soared A gorgeous fire rushed into the distance, the flames were flaming, and the heat was rolling.

"Crying ..." Suzaku was grumpy and gave a long warning, warning.

Over there, the fire flashed, and a divine bird with red flames and feathers came down, revealing a noble, natural divine bird, which was actually a phoenix.

Yes, this phoenix is exactly the phoenix that the macaw sensed, and brought Suzaku to hurry to want to soak.

"Oh, Suzaku, run fast and go back to the boss to suppress her."

Upon seeing the arrival of the Phoenix, the macaw was persuaded immediately. There was nothing he could do, and now his feathers had been stripped away by his daughter-in-law, and with a little panic among the anger, she let Suzaku speed up.

Suzaku shouted angrily, but still turned around, accelerated his wings, and turned into a red light disappearing here.

cry!

Fengming nine days, the phoenix turned into a flame of light to catch up, as if looking for the dead parrot to vent their anger, venting the violent anger in her heart.

Chapter 387 - Limit, 0 people

Before Lianhua Mountain passed on the stone monument, Qin Tiange quietly checked the exchange list. He soon found that the exchange price had been reduced by half.

Yes, the exchange price of the items above has decreased.

"Stone stele, is it spiritual?" Qin Tiange muttered to himself, thinking about this question, and even thinking of the larger assessment stone, is there any spirit?

Otherwise, why does the price of the above things decrease with the end of time, for example, the price of one-star and two-star things is almost half less.

This is a good phenomenon. It allows more people to redeem things, as if they have been formulated long ago, and the price will be reduced to a certain extent.

After thinking about it for a while, I finally couldn't think of a reason. In the previous life, even the three emperors and the five emperors never studied the mystery of the stele, let alone Qin Tiange now.

"My archery is getting stronger and stronger, and I need a stronger bow." After thinking about it, Qin Tiange turned to look for a powerful bow.

His archery has reached a very high level, and with the current strength, the general bow will be broken.

"I can't pull the nine-star war bow right now. For the time being, a six-star war bow is just right, and I will wait for the promotion of Samsung's limit."

After thinking about it, Qin Tiange found a six-star war bow. Looking at the information above, he found that there were many six-star war bows exchanged.

Black Jade Battle Bow: Six-star, exchange price 2000 two-star crystal nuclei.

After watching it for a long time, Qin Tiange looked at a mouthful of black jade war bow, looked satisfied, and directly exchanged it. It cost 2,000 two-star crystal nuclei.

This black jade war bow is black in body and crystal clear, as if made of ink jade. The bow string is smelted and woven with special materials, which is full of toughness.

Hum!

Gently pulling away, letting go, Black Jade Battle Bow issued a very strong buzz, which caused a lot of pain in the ears of the nearby people, and their face changed greatly.

They looked at Qin Tiange holding the war bow in his hands, one by one, they were shocked. At a glance, they knew that it was not ordinary, and when comparing the style of the war bow on the stone tablet, they immediately understood that it was a six-star war bow, and they were very envious. .

"Three 300-pointed arrows, 240-pointed arrows, 150-pointed arrows, 56-pointed arrows are enough." Qin Tiange exchanged a series of graded arrows.

As for ordinary steel arrows, one-star and two-star arrows, the military factory can barely build them, and they can be obtained from there without exchange.

After exchanging things, Qin Tiange left under the envious eyes of a group of people and came to the top of Lianhua Mountain.

This is a restricted area. No outsiders are allowed to enter. Only the area where the stele is located is open. As for other areas, it is explicitly prohibited.

call out!

At the top of the mountain, Qin Tiange drew his bow and took an arrow. With a bang, the sharp arrow went out of the air and clicked through a rock and penetrated it.

But amazingly, the arrow turned around and flew back to Qin Tiange's body, inserted into the ground one meter away.

Hum!

Pull the bow again, this time it is also a sharp arrow, and immediately released the fastened arrow, and saw an arrow screaming away, quickly spinning around in the air, giving a rock behind Qin Tiange to Penetrated.

The magical skill of the arrow can make the arrow bend, incredible!

However, Qin Tiange was dissatisfied. The three arrows were fastened, the bows were pointed at the sky, and the three arrowheads were smashing through the air.

In the blink of an eye, the three sharp arrows disappeared and disappeared into the sky, but soon, an arrow screamed from above the sky and stabbed into the rock with a click.

Immediately afterwards, two other arrows flew back, but one sharp arrow went wrong, almost stabbing Qin Tiange himself.

"It's still a little bit worse." Qin Tiange looked at himself with a sharp arrow in his position, and couldn't help frowning.

He has mastered a kind of arc control of archery, which can turn the arrows to shoot and hit the target.

This can be said to be almost magical. It is rumored that neutron bullets can turn, but it was the first time that I heard arrows turning.

If anyone saw the arrow from Qin Tiange at this moment, he would be inexplicably shocked. A sharp arrow was shot. Instead, he circled around him and shot into the target. Really stunning. call!

For a long time, Qin Tiange breathed out a sigh of relief and smiled with satisfaction. Not only was he satisfied with the power of the Black Jade Bow, but he was also very satisfied with the progress of his archery.

After receiving the battle bow and arrow, Qin Tiange began to prepare for cultivation. The second form of mysterious body technique, lying on the knee of a beautiful woman, with various potions, gradually fell into a deep cultivation.

At the top of the mountain, purple gas comes to the east, green gas is transpiration, and they are intertwined into a hazy woman's ghost image.

Of course, this is a ghost image, but it has a magical picture. She is dancing, dancing all over the country, and then dancing all over the country, and finally sits slowly behind Qin Tiange as if she is tired, letting him rest on the knee of the beauty , Plunged into the realm of mysterious cultivation.

Light and shadow were faint and purple. Qin Tiange during the cultivation was not aware of this beauty's ghost image, but only knew that in the realm of cultivation, he felt the mystery of the mysterious body technique and raised the limit of strength in the body.

Before cultivating, he drank a variety of prepared potions, even wasting a ***** fruit and spring water, in cooperation with a drop of ***** blood from the immortal heart.

This kind of information can only be achieved by Qin Tiange. In order to raise the current strength limit, he has to make a capital.

However, the effect is really obvious. Starlights gradually emerged in the body, continually converging, shining extremely, and new starlights emerged from time to time.

More and more, with more and more stars, it means that his power is getting stronger and stronger. One star represents the power of one person. From 800 stars, it's bright and gradually becomes 900. Continue to grow.

Qin Tiange's body was lying in the arms of an illusionary beauty like that, with his headrest and knees quietly cultivated, completely covered by the starlight.

900, 910, 920, 930, and finally, when the sun goes down and the big moon rises, Qin Tiange is still practicing.

This practice passed overnight, and when the dawn was born early in the morning, the purple qi was more concentrated, and even the hazy beauty's ghost image was solidified.

At this time, Qin Tiange's practice reached the most critical moment, and the energy of the drug such as the Shengguo in the body reached the truncation of the final outbreak.

boom!

Suddenly, a slight roar burst from Qin Tiange's body, the bones trembled, and the cells hummed softly, giving out a cheerful cheer.

Suddenly, a very faint crackling sound came, as if some kind of barrier was broken, and then an extremely condensed breath emanated from within itself, rolling up flowers and trees within 10 meters of the circle and even rocks were rolled into the air.

Lying on the knees of beautiful women, wake up to the power of the world!

Qin Tiange woke up faintly, the whole person only felt that his energy and spirit had condensed to the extreme, and the starlight in his body quickly retracted and imprinted on every part of the body.

Suddenly, he just felt an unprecedented strength filling his body, extremely contented, extremely divine, as if a punch could break a mountain.

"The power of a thousand people has become." Qin Tiange muttered, without the joy of imagination, but a faint sense of loss.

Yes, the feeling of loss is born from the heart. Qin Tiange felt a little bit, and he had an instinct to tell him that this time it was really the limit.

Three stars, the power of a thousand people, reached the limit, can no longer break through even the slightest, if you want to continue to improve, you must be promoted to Samsung to reach four stars.

"Okay, it's time to enter the assessment."

Qin Tiange sighed and had to think with regret that it was time to enter the stele for assessment and be promoted to four stars.

However, he was already very satisfied. Thinking about it, his eight-star power in the previous life, that is, 1,300 people, was really not strong at the time.

Now the three-star is almost catching up with the eight-star in the previous life. I have to say that in this life, he has walked ahead of everyone, and has taken a road that no one has reached in the previous life.

The road to the limit, breaking through the limit from the one-star level, the achievements that people can't imagine.

Only by breaking the limit can he be a lot stronger than others, and even force his peers to be suppressed. It is also easy to suppress people who are higher than him.

“The three great masters of previous emperors It is rumored that when one-star was used to improve their power as much as possible, they had the potential to prove emperor.” Qin Tiange thought secretly, in fact, It is not clear how powerful the three first-ranking masters of previous lives are.

Because he never had the opportunity to meet those top-level characters, even rarely saw the opportunity, let alone see them do it.

Qin Tiange packed his things and murmured to himself: “The next step is to enter the assessment stone and complete the three-star death assessment.”

After completing this practice, Qin Tiangema kept on going to the central square of the base. In front of the huge towering assessment stone, he was ready to enter the Samsung level task assessment.

cry!

At this moment, a horrifying sky and phoenix came from the distant sky, shocked the entire base, countless people looked up, and saw a colorful light and howling rushed into the base, and a huge stream of flames came from behind, swelling in, Many people were horrified suddenly.

“That's it?” Qin Tiange looked up suddenly, his face a little startled, and his eyes shrank as he saw a large blaze of fire coming from afar.

Chapter 388 - Phoenix dance 9 days, Kirin roars

“what is that?”

In the base, countless people looked up and suddenly felt inexplicable.

I saw a flaming big bird grabbing a hairless parrot and rushing into the sky over the base, followed by a huge flame, as if a cloud of fire rolled over.

cry...

Fengming was so surprised in all directions that the cloud of fire was a huge divine bird with a red body, a wingspan of 18 meters, and a length of 20 meters, as if it were a burning flame.

The divine bird rushed into the sky above the base, opened its mouth to spit a flame, billowed, and spread out, as if the heavens were in flames, scaring many people to scream.

“Boss help, boss help ...”

In the sky, the macaw screamed and looked at the tumbling flames behind him. It was a phoenix fire, and the heat waves billowed.

The entire base was shaken, and countless people were shocked. Looking at the divine bird rushing into the sky above the base, they spit out the phoenix.

“Phoenix?”

Someone was horrified to see that the divine bird was exactly the phoenix in ancient Chinese legend. A phoenix broke into the sky over the base?

But how did the same flaming peacock chased by Phoenix look like a Phoenix?

It was Suzaku, grabbing the parrot and quickly fled into the base, but watching the vast Phoenix Shenhuo was about to be drawn under the base, the temperature of the Shenhuo was extremely high, and ordinary people and even intensifiers could not resist it, and it was burned to the ground.

At this time, in the middle of the base, before the stone monument was examined, Qin Tiange looked surprised, looking at the divine bird phoenix that rushed into the base, looking shocked.

“Dead parrot, where did you get a divine bird Phoenix?” Qin Tiange’s face changed slightly, watching the endless phoenix fire that swept down, can’t help getting angry.

Whether it is Phoenix or not, dare to come to his base to scatter the wild, then it will not be tolerated.

Roar!

Hearing only a roar, a roar, the endless Cangyan swept up, hitting the phoenix ***** fire straight.

Two flames collided, and a rumble of sound shook the entire base. Everyone looked in horror. A pale flame, an orange-red magic fire, and constant collisions and collisions canceled each other out. cry!

Watching the spitfire that he exhaled was blocked by an inexplicable flame, the phoenix, the phoenix bird, was very angry, and he heard a long beep from the sky.

In the center of the base, Qin Tiange’s eyes burst into two cold mansions, and he hummed, “It is no wonder that the seven-star fire and phoenix bird is dared to come to the wild.”

That divine bird Phoenix turned out to be a seven-star mutant, awakening the ancient Phoenix gene in the body, and really had a little bit of Phoenix power.

No wonder as a five-star, close to six-star Suzaku and macaw fled back so horribly, turned out to be a seven-star ***** bird Phoenix.

Divine Phoenix, a level with the dragon, if the six-star green scale demon python successfully encountered at the beginning, it is a seven-star.

Roar!

A beast roar came, and a fierce air was sent straight into the sky. Heyan emptied and saw a huge unicorn jumped to the top of the 99-meter-high examination stone and glared at the ***** bird in the sky. Phoenix.

It was a unicorn, stepping on the auspicious clouds, covered with black, black jade scale armor, exuding a fierce atmosphere.

cry!

For a while Fengming, the divine bird in the sky was stunned, staring at the top of the Moyu unicorn staring at the top of the stele, with majestic and terrifying breath.

Qin Tiange directly transformed into a unicorn, and roared at the godbird above the sky, warning him seriously.

“Kirin, dare you stop me?”

The divine bird spoke, and the clear words passed down, showing an anger, and the bursting temper was the character of Phoenix.

Roar ... Qin Tiange howled and hummed, “This is my place. How can you tolerate the wild? Leave immediately, or you will stay forever.”

“Cry ... Take the trick!” Phoenix cried fiercely, and his temper had burst. The fire-type creature had the worst temper, such as the same flame, and started to fight.

Fire Phoenix opened his mouth and sprayed a mighty flame of fire, the flames were raging, and the heat wave was rolling. Many people were scared and screamed.

I saw, that Mo Yulin opened his mouth and roared, spit out a black flame and rushed towards the sky, hitting the phoenix fiercely.

Bang!

The two flames collided with each other, and eventually both broke apart and disappeared, leaving only the little sparks still splashing.

The terrible collision caused a huge shock wave, and many people in the base were shocked. All of them were inexplicable and terrified.

“Phoenix, Kirin?”

Someone exclaimed, looking at the phoenix flying above the base, and then looking at the huge Moyu Qilin towering at the top of the stele, it was hard to believe for a while.

Qin Tiange was furious and shouted, “Since you don’t leave, leave it.”

Originally he did not want to compete with this seven-star Firebird Phoenix, but the other party had a bad temper and started a fight if he didn’t agree, which angered Qin Tiange.

Even if it is a seven-star ***** bird Phoenix, the most powerful means of Phoenix is Phoenix God Fire. The other power levels are not very high. He himself is not afraid of flames, plus the power of a thousand people who has just exceeded the limit, naturally he wants that. Only Phoenix Levi.

Suddenly, the body of Mo Yuqilin transformed into Qin Tiange’s body turned black, and it turned into a silhouette and vacated.

“Suzaku!”

Qin Tiange turned back to his body. The man screamed in the air, and saw that Suzaku, who had escaped from the base, immediately dropped the hairless parrot on his paw and dived down from a height of 100 meters. Ge's body.

“Ah ... Suzaku, don't ...”

The poor parrot was thrown directly by his daughter-in-law Suzaku, and fell freely from a height of 100 meters, smashing a pit, and lying there counting the stars.

At this time, Suzaku caught Qin Tiange and fluttered his wings to the phoenix. In fact, Suzaku is also hot-tempered, otherwise he won't beat the parrot hard and pull out its feathers.

Now being chased and killed by the Firebird Phoenix over the base, I feel that I can't stand my face. When I saw Qin Tiange, the boss was soaring, he rushed to kill him directly.

“Dominate the world!”

Suddenly, Qin Tiange waved the halberd, and the strength of two thousand people cooperated with the ghost and **** and struck the body of that **** bird and phoenix fiercely.

A violent shaking came, and a fire burst out, and the divine bird uttered an extremely painful cry, which was beaten by the ghosts and gods hundreds of meters away.

Humph!

Qin Tiange Li was on the back of Suzaku, and said with a look of disappointment: “Toasting without eating and drinking, don't think that you have awakened the Godbird gene, and you can be proud of the world if you break through the seven-star star. Today, I make you pay a heavy price . “cry!

Suzaku screamed and rushed away with Qin Tiange's mouth open, and his mouth opened with a spit of flame, killing the **** bird Phoenix.

Suzaku and Phoenix, in fact, do not seem to differ much in appearance, but they are essentially different.

The phoenix can nirvana, but the suzaku does not, so the two are different.

boom!

Divine bird opened its mouth to spit fire, raging in flames, smashed the flame of Suzaku, and even swept through all the way.

However, this flame was waved by Qin Tiange's halberd, shattered, and a little spark flew into the void and gradually extinguished.

“Cry ... you are not a unicorn, you are a human.” God Bird Phoenix was finally angry, as if deceived, very angry.

She looked at Qin Tiange and felt the breath of the Swiss beast unicorn, but it was definitely not unicorn, she felt cheated.

Under the anger, the divine bird rushed straight forward without a word to give this human a hard lesson.

“Good job!”

Qin Tiange didn't panic and rejoiced. He sipped aloud, his body suddenly emptied, and he flew forward to the phoenix Phoenix.

When others were at high altitude, endless blue light burst out suddenly, and the purple gas came to the east, turning into a huge and majestic phantom.

“King of heaven!”

With a deep, heavy drink, I saw that the ghost of the shadow violently slammed away, banged, first hit the beak of the Phoenix, bursting into bursts of sparks.

However, in the second form of the powerful ghost and god, the king came to the world, revealing a mighty power, and the might of power was unreasonable.

boom!

The divine bird spit fire, but the flame collapsed and spread in an instant. It fluttered its wings, and its claws grasped at the huge virtual shadow fiercely, forming a horrible collision.

With only one bang, Godbird Phoenix was severely beaten and flew out. The claws were covered with cracks, and the blood leaked out.

The second form of ghosts and gods, the power of King's Paradise is beyond imagination, and the horror lethality is that the seven-star ***** bird Phoenix cannot be stopped.

cry!

Suzaku dived down and caught Qin Tiange's body, the latter withdrew the halberd, took out a jade battle bow and drew an arrow.

In the base, countless people only heard a humming sound, and saw the sharp arrows swept through the air, pierced the air, and blasted towards the ***** bird Phoenix.

The divine bird screamed and opened its mouth with a spit of magical fire. As a result, a shocking scene appeared. The arrows turned around, avoided the magical fire, and blasted directly to the body of the Phoenix from the side.

Ding Ding Ding ...

After three beeps, the arrows were popped up, and the feathers of the God Bird Phoenix were extremely hard and protected by a powerful fire, and those arrows were quickly melted and cleaned.

Seeing this, Qin Tiange snorted coldly, took out two six-star arrows and a mysterious purple-gold arrow, and at the same time pulled the bow and aimed at the ***** bird Phoenix.

Suddenly, Phoenix sensed a crisis of life and death, exclaimed, and fluttered his wings to escape at full speed, but it was too late.

I heard only three beeps, and three arrows flew through the air. Two six-star sharp arrows tore a pair of her wings and feathers, and each of them broke a phoenix.

And the third purple arrow mang, seeing a terror killing, directly penetrated her abdomen, penetrated her back, and brought out a hot phoenix.

cry....

The phoenix was wounded, and a scream screamed, a scream of screaming, making many people unbearable.

However, Qin Tiange was unmoved and suddenly rose into the air. He stepped on Xiangyun and quickly rushed to the phoenix bird that was injured by the purple arrow.

I saw that he held his right hand on the hilt of the sword, and the ancient sword came out of the sheath with a horrible sharp edge across the neck of Divine Phoenix.

Once struck by an ancient sword, even if the bird is strong, it will be cut off. At the critical moment, the bird has a seven-colored glow, which is a kind of flame.

This is the destiny of Phoenix, the most precious source. It is transformed into an energy that directly **** its wings, and it turns into a colorful light and disappears in front of Qin Tiange, leaving him with a sword.

“Phoenix Huahong, you run fast!”

Qin Tiange saw the phoenix run away, humming with dissatisfaction, the other side was too fast, and almost disappeared in a moment, leaving only a colorful red glow across the sky, extremely gorgeous.

This is the Phoenix’s life-saving secret technique. Escape with the destiny of fire, even Qin Tiange don’t want to catch up with the other party, but this time destroyed the **** bird Phoenix, I dare not come again.

Falling from the air, Qin Tiange looked curiously at a small pool of hot blood on the ground, like a flame, which was the phoenix on the bird.

Chapter 389 - Biotechnology, ancient Phoenix?

“Boss, I’m bitter ...”

In the central base, a hairless parrot, holding Qin Tiange’s legs and lying there crying and crying, was very sad.

Qin Tiange’s mouth trembled, his eyebrows raised, and he smiled and asked, “I said, what’s the matter with you, all your feathers have been pulled out?”

He really laughed in his heart. The parrot was gone for three months, and when he came back, it turned into this look, and he couldn’t help laughing.

The parrot was crying sadly, but carefully glanced at Suzaku, and then mourned: “Boss, Suzaku bullied me, you can decide for me.”

Well, the dead parrot sued in front of Qin Tiange. Qin Tiange listened slightly and turned to look at Suzaku, who looked down and shrugged aside.

“How did Suzaku bully you?” Qin Tiange was really curious.

I only listened to the parrot saying, “Boss, Suzaku plucked out my beautiful and pretty feathers. This is domestic violence, domestic violence, and I will take her off.”

boom!

How do you know, Qin Tiange kicked the parrot and hummed, “What did you just say? Suzaku off?”

Qin Tiange was furious, but Suzaku was awakened by an ancient gene creature. He is a six-star variant peacock with the Suzaku gene and ability, and has great potential.

But this dead parrot is going to rest Suzaku, isn't it going to drive it away? Just kidding, how did he allow this to happen?

“Say, did you do something sorry to Suzaku, honestly explain, otherwise I will bake you.” Qin Tiange Han asked with a face on his face.

The parrot realized that the boss didn't help him, but instead turned towards Suzaku. This time, Parrot bitterly bowed his head, admitting the mistake: “Boss, I'm wrong, I shouldn't take Suzaku to soak that Phoenix.”

“What?” Qin Tiange was stunned, and then cursed with a smile: “You are a fat chicken, and it is yours to be pulled out.”

He was a little bit crying. How dare this dead parrot do it. Take Suzaku to soak a phoenix. Is this a death?

Qin Tiange looked at Suzaku, who was ashamed to answer, but was silent. Suzaku was awakened by the holy beast gene. He has a good temper. Now he looks ashamed to answer, but the parrot is an example.

“No wonder, that phoenix chased you down. It turned out to be a ghost you had originally wanted to restore you a feather. Now it seems unnecessary.”

Qin Tiange said, not giving the parrot a chance to refute, and smiling at Suzaku: “Little Suzaku, this parrot is given to you, educate him well, don't let him do this kind of thing again.”

“Yes, brother, Suzaku will take good care of him.” Suzaku suddenly raised his head, a surprise flashed in his eyes, and spoke directly.

In fact, Suzaku was able to speak for a long time, but she never wanted to say anything. Now that she saw Qin Tiange protecting her, she immediately recognized her brother.

Well, the poor parrot was abandoned by Qin Tiange and directly sent to Suzaku for education, so that it knows how to care for the family.

“Boss ... don't wow ...” The macaw panicked, panicking, trying to catch up, but was lifted up by Suzaku, flew into Lotus Hill, and then there were bursts of heartbreaking Scream.

Qin Tiange listened to the scream of the parrot, shook his head silently, and ignored the dead parrot, and let Suzaku educate him well.

He came to the underground base in diameter and found Li Jiajia who was busy.

“Li Jiajia, put the matter at hand first, I have a task for you.”

As soon as Qin Tiange came, he opened his door and immediately let Li Jiajia stop. He looked solemnly and took out a bottle of hot blood, which was the blood of the Phoenix God.

“This is the blood of the phoenix. Just now the phoenix and the phoenix broke into the sky above the base and was injured by me. This is the phoenix blood in its body.” After Qin Tiange explained, Li Jiajia understood.

She stroked her glasses and asked, “General, do you want me to clone the Phoenix with gene biological cloning technology with these Phoenix **** blood?”

“Yes, that’s what it means.” Qin Tiange nodded and asked earnestly: “With our current technology, can we do this?”

“Master, you have to be careful.”

At this moment, the self-imposed shadow appeared, and a serious warning appeared. She said: “Master, there is a great danger in the cloned organisms themselves. These cloned organisms have no subjective consciousness, only those ancient memory fragments hidden deep in the gene cells.”

Qin Tiange frowned secretly, he naturally knew this, cloned creatures, without self-consciousness, only ancient gene memory fragments in gene cells.

In other words, cloned creatures are violent, full of lethality and destructive power, and cannot be controlled at all, so Qin Tiange has always disagreed with cloned creatures, and even cloned humans are absolutely not allowed.

The cloned person is not that person, but the ancient memory fragment in the cloned gene wakes up.

“What I want is not the Phoenix, but the blood of the Phoenix.” Qin Tiange looked serious and raised his true intentions.

What he wants is not one or more phoenixes, but he intends to clone them and kill them to get blood from them.

After hearing this, Ji Ji immediately said, “Master, if you only need the blood of the Phoenix, our current technology is to clone a Phoenix, but that is just a vanity. There is no Phoenix’s ability at all. Even the blood is likely to be Different.”

“Yes, General.” Li Jiajia also explained: “Cloning is very simple, that is, gene cells are copied, but the copied energy cells have different energy content coefficients.”

“Unless there is a source of energy that is homologous to Phoenix, a Phoenix can be truly perfected.” Li Jiajia explained.

Qin Tiange was lost in thought, but he felt a little disappointed, but his own self said: “Master, there is a way, maybe it can be achieved.”

“Oh? What method?” Qin Tiange was shocked.

I saw, Jiji gently waved his hand and laughed, “Master, if you are willing, use this star core full of hot energy as the source of energy supply. The cloned phoenix may be an infinitely close creature.”

“Is it the nucleus?” Qin Tiange thought secretly, and finally gritted his teeth and decided to do it.

From the moment he saw Phoenix Blood, there was a certain kind of power trembling in his body, as if he was eager to have Phoenix Blood, which is the power of Kirin’s transformation.

Nine changes immortal blood is integrated into the body, eager to absorb the phoenix blood, that is to say, it is hoped that the immortality will be carried out a second time in the near future, the phoenix change.

This allowed Qin Tiange to see the method of rapidly evolving the unchangeable blood of the nine changes. As long as the corresponding biological blood is obtained, it is possible to complete the transformation and enter the next change.

“Let’s start, let the other two departments help, I need blood from all over Phoenix.”

Qin Tiange looked serious, and immediately recruited researchers from the other two departments. The entire research department immediately set out to join forces to prepare to clone the phoenix.

Underground bases, countless personnel began to work in an independent laboratory. Three days passed in a row, and all preparations were completed.

“General, we can start!”

Outside the laboratory, Wu Lao, Du Jing, Li Jiajia, and others looked serious and stared at a figure in front of the laboratory. It was Qin Tiange.

He has been waiting here, and even the assessment has been postponed. He wants to see if he can clone the real phoenix Phoenix. If it succeeds, then the phoenix will have hope.

“Start!”

With an order, the God Bird Phoenix clone project began.

In the laboratory, a group of hot phoenix blood was placed in a special sealed device, with a cloned biological cabin next to it.

Not far away, the mysterious star core is stored in the energy supply system, and the fiery energy inside will be used as the energy supply for cloning the phoenix.

Uh ...

In the laboratory, a group of scientific researchers seriously launched the cloning plan, and the entire cloning details were controlled by the ego. No one dared to care.

As time passed by, the instrument extracted infinite energy from the nucleus and began to supply the phoenix.

In the biological gene warehouse, biological cloning equipment, gene printing technology under the control of his own, began to simulate the phoenix gene, and print out a real **** bird phoenix.

Hey, Didi ...

In the clone printing cabin, there are constant sounds of subtle sounds, and there is a gleam of light constantly interlaced and printed, and a little cell is copied by the clone.

Soon, as more and more cells were printed out, a fiery high temperature gradually passed through the entire biocabin.

Everyone held their breaths and stared inwardly. The more cells there were, the more they turned into a fiery red energy body.

In this energy body, a small phoenix is gradually made, like a phoenix embryo, and it grows again.

“Master, something is happening ...” At this moment, Jiji sent a warning, so that everyone’s heart could not help raising it.

I only listened to her tone solemnly: “During the cloning process, a mysterious transformation suddenly occurred. I could not figure out what it was. I only knew that the phoenix that was supposed to be cloned suddenly turned into the fireball in front of me, and the phoenix was inside.”

“Is this the Phoenix Nirvana?” Qin Tiange squinted his eyes and stared at the huge fireball inside.

Inside, there is a small phoenix looming, huge energy flowing in, constantly absorbing and growing and growing, looking like a phoenix nirvana.

Perhaps this is the mystery of the Phoenix Nirvana. Even the clone cannot control it. It must follow the mysterious mystery of the Phoenix Nirvana.

“Increase energy supply.” Qin Tiange suddenly ordered everyone to supply energy.

I saw that the nucleus of the star suddenly burst into an extremely horrible energy, and the hot breath even leaked out of the laboratory, making many people sweat.

The energy increased, and a viscous, fiery red energy body spewed out of the star nucleus, boundless and full of fire bursts.

boom!

The biological capsule exploded abruptly into flames, the blazing flames diffused in the laboratory, and countless instruments were burned on the spot.

Even the iron and steel inside were melted, and the temperature of the flame was extremely fierce and terrifying, which was shocking.

“Phoenix, look, that’s the phoenix ...” Suddenly, a researcher pointed at the raging flames in the laboratory and exclaimed.

In the flames, a huge phoenix gradually emerged, immersed in the blazing flames, reborn in the fire, and emerged nirvana.

cry...

An extremely clear cry came, which was Fengming, showing the ancient charm, as if a real ancient Phoenix was reborn.

However, this phoenix was showing a fierce magpie, looking not like a divine bird phoenix, more like a fierce magpie, showing the idea of killing and destruction.

“Secretary, open the secret room!”

Qin Tiange gave a low drink, and suddenly moved, and walked over to the door of the secret room. He opened the door and let him enter.

Chapter 390 - The ancestor's true blood, life and death?

boom!

The door of the secret room opened, and a vast flame burst forth immediately. The hot air waves rolled out, shaking many scientific and technical personnel to the ground.

Fortunately, Qin Tiange blocked most of the flame's force without causing damage. He rushed into it diligently, and the door closed.

cry!

In the closet, an extremely fierce Fengming came and saw that a phoenix with a length of three meters and a wingspan of two meters was quickly smashed up.

The oncoming fire phoenix is exactly the cloned phoenix, and its feathers are burning with the blazing phoenix fire, and the temperature can melt steel.

The entire secret room began to distort, the air was completely burnt, and even the phoenix was going to swallow the star core.

“Dare you!” Qin Tiange drank, waving his halberd, endless blue and violent, Cangyan burst out, the ghosts and gods attacked in the first style.

With a bang, the chamber vibrated, and the special alloy created the chamber to crack a huge crack, and the special glass produced cracks and spread.

hiss!

“So powerful energy fluctuations.”

Outside, a group of scientific and technological personnel changed their faces and looked at the fire in the secret room. The two flames were intertwined, and a phoenix was faintly fighting with a shadow.

The narrow closet finally restricted the fierce phoenix, which was finally suppressed by Qin Tiange, with violent halberds and feathers flying.

Cry ... The phoenix wailed, sending out a more fierce breath. It had no self-consciousness, and the cloned creatures were all memory fragments of ancient genes.

This is a fierce beast, full of thoughts of destruction and killing. He only knows killing, but does not have his own consciousness.

Qin Tiange's face was serious, and the halberd danced imperviously to the wind, his body was burning with burning flames, and swept across to fight those phoenixes.

He was surprised to see that his body flashed quickly, and the halberd rushed through the flames, breaking through the flames and inserting the flames into the body of the Phoenix.

cry...

The phoenix was wounded with a cry and a fierce struggle, but unfortunately it was useless. Qin Tiange would not give it a chance, let alone swallow the star core, and pull out the ancient sword directly and severely chop the neck of Phoenix.

With a click, blood and water spewed out, and the flames were more boiling and violent, but it soon went out.

As the Phoenix was cut off, the flames in the laboratory finally extinguished. Except for a star core and the body of the Phoenix, the contents inside had already been burned into liquid and ashes.

“Yanji, what happened just now?” Qin Tiange looked at the dead corpse of Phoenix and asked solemnly.

I saw that my own ghost appeared and looked at the corpse of the Phoenix, explaining: “Master, during the cloning period, the mysterious ancestor power from the Phoenix gene caused an unchangeable and irreversible mysterious mutation, just like a phoenix. Nirvana. “

“That is to say, just this phoenix is the memory of the ancient ancestor in the phoenix gene, and then reborn from the instinctual nirvana, resurrected by the endless energy supplied by the star core?” Qin Tiange said secretly frowning.

Xunji nodded, this is the explanation, but now the Phoenix is killed, everything is meaningless.

“Look at the master, the corpse of the Phoenix has melted ...” Suddenly, he pointed at the corpse of the Phoenix and it melted.

Yes, the feathers of that phoenix’s body melted into a mass of liquid, and the flesh and bones of the body melted one by one, gradually turning into a ball-sized liquid, emitting colorful light.

“The true blood of the ancestor of the Phoenix?” Qin Tiange beamed his eyes and looked at the huge blood with surprise, which is the true blood of the ancestor of the Phoenix.

He cloned and copied the genes of the Phoenix with the blood of the injured Phoenix, stimulated the awakening of the ancient Phoenix ancestor’s memory, and completed a rebirth of Nirvana. It was considered that he successfully cloned an ancient Phoenix and killed the other.

However, I did not expect that this phoenix turned into a mass of true blood of the ancestor after death, shining with colorful gods’ light. It is the blood of the ancient ancestor of Phoenix, the ancient blood of blood, showing a hint of coercion.

The original phoenix blood was gone, and the corpse of the phoenix was gone. Only the ancient blood of the phoenix and its colorful blood were left.

“Master, this group of blood should be the phoenix blood brought by the host just now. It is estimated that the energy of the nucleus has been absorbed to

produce the phenomenon of returning to the ancestors. Only then has Nirvana scene, but I have guessed that the phoenix just now is not real, but This blood returned to the ancestors and turned into the true blood of the first ancestors.

“Su Ji suddenly expressed his guess.

Qin Tiange thought about it, but didn’t care, it was enough to have the Phoenix blood. He originally wanted to clone a phoenix to kill the blood, but now he has a group of phoenix ancestors, which is perfect.

“Okay, I will take away the blood of God. I still have some corpses suspected to be dragons here. You research and see what you can find.”

Soon after, Qin Tiange collected the group of phoenix ***** blood, and then took out some broken dragon corpses that had been stored in the space bracelet.

These are the underground creatures that were killed by the engineering robots after the explosion in the base. They are suspected of being dragons and dragon balls, but they used the nourishing medicine at first.

After leaving some dragon corpses, Qin Tiange hurriedly left the underground base and appeared on Lianhua Mountain.

“Suzaku!”

As soon as he came out, Qin Tiange drank softly, his body jumped tens of meters high, and he saw a flaming shadow falling from the top of the mountain, catching him steadily.

It was Suzaku who came, and when she heard Qin Tiange calling, she dived down from the top of the mountain and caught Qin Tiange’s body.

“Suzaku, take me to the nearest active volcano.” Qin Tiange stood on Suzaku’s back and gave a direct command.

Suzaku whispered and said happily, “Oh, brother, wait, Suzaku will take you to the nearest crater soon.”

After finishing speaking, Suzaku fluttered his wings and flew to the sky as fast as lightning, leaving only the top of the Lotus Hill to burst into tears.

“Boss, Suzaku, don’t leave me!” On the top of the mountain, the hairless parrot was standing there, covered with wings, yelling constantly.

Unfortunately, it was a tragedy. It was dropped by Suzaku and soon disappeared with Qin Tiange. Poor parrot, now finally realize the truth that if you don’t die, you won’t die.

...

In the southern mountain of Beijing, a gorgeous light flashed above the sky, and Suzaku brought Qin Tiange.

She landed quickly at the crater, which is the nearest active volcano, and naturally brought Qin Tiange.

“Suzaku, you’re guarding the crater.”

Qin Tiange explained to him that he lost a five-star mutated nucleus to Suzaku and jumped into the volcanic magma.

Suzaku grabbed a five-star crystal nucleus with a happy expression, swallowed it, and quickly lay down on the ground, quietly digesting, but still watched vigilantly, guarding Qin Tiange.

boom!

The volcanic magma fell into a silhouette, setting off huge waves, and the magma splashed all around. Qin Tiange drank in the volcanic magma and took a comfortable bath.

Immediately afterwards, he took out the splendid colorful blood, which was the blood of the Phoenix. As soon as this thing appeared, Qin Tiange felt a strong desire for the unchangeable blood in his body.

It was a longing to be absorbed, without hesitation, Qin Tiange directly swallowed this huge group of phoenix **** blood one by one.

Hot, hot, as if swallowing a sun, burning a fiery fire in the body, with colorful light, that is the phoenix **** fire, from the ancient Phoenix gene's talent.

“Ah ...” Qin Tiange couldn't bear it, and gave out a low hissing sound, his scale armor quickly emerged, turned into a unicorn, and sank into the magma.

Inside the body, the nine undead blood is madly engulfing that phoenix **** blood, constantly transmuting and transmuting, as if to enter the second transformation.

The phoenix **** blood is extremely ancient and mysterious. It is not clear whether these legendary feats really existed in ancient times, but they actually appeared at this moment.

Qin Tiange regardless of these, as long as it is useful to himself, what can increase strength is a good thing.

Goulum Gollum ...

The volcanic magma boiled, and suddenly rolled up, and suddenly a huge lizard ran out, which was a fire dragon.

The creatures originally hidden in the volcanic magma suddenly panicked out of the magma, screaming and climbing up the crater, and fled.

But as soon as they came out, they were swallowed one by one by the Suzaku guarded here. Yes, Suzaku looked small, but it really swallowed the flame monitor.

cry!

Suzaku rejoices, staring at these continuously emerging dragons, directly opening his stomach and eating, eating one, swallowing one, and no flame dragon can escape from Suzaku.

In the end, when no more fire dragons came out of the crater, Suzaku was satisfied with a full meal, and Meimei lay there and continued to guard.

“It’s delicious, as if I’m ready to advance to the seven-star level.” Suzaku crooked his head, thinking about finally suppressing the impulse to be promoted and guarding it seriously.

It felt that after eating the five-star mutant crystal nuclei and swallowing dozens of flame dragons, it finally reached the advanced stage.

But Suzaku did not advance, but waited for Qin Tiange’s appearance, and it was her responsibility to guard this big human brother.

boom...

Suddenly, a magma erupted from the crater, extremely fiery, as if it had erupted, but not so.

Suzaku bathed in the flame magma, he didn’t even care, but enjoyed it, staring at the volcanic magma.

There, a unicorn-colored unicorn tumbling madly and looked very painful. The intense pain from the genetic level made Qin Tiange unable to resist rolling in the magma.

The blood of the phoenix was absorbed into the blood of the nine undead, or was swallowed up. However, the genetic talents that belong to the blood of the Phoenix gods are beginning to integrate into Qin Tiange’s body, producing inexplicable changes.

Nine changes are immortal The first change is the Kirin change, the second Phoenix change, Qin Tiange is at this critical stage at this moment, after crossing it can enter the Phoenix change.

cry...

Suddenly, there was a whisper of wailing in the volcano, like a phoenix, ancient pride, with a natural and noble breath.

At this time, in the volcanic magma, the unicorn figure disappeared, replacing a huge egg with a horrible flame, black flames, white Cangyan, and orange-red phoenix fire.

The three flames are intertwined, constantly colliding together, as if fighting for dominance, forming a fierce battle.

That huge egg, with a figure sleeping in it, was Qin Tiange, who was now caught in some ancient and mysterious comprehension.

This realization comes from the ancient genetic talent of the Phoenix **** blood, the Phoenix Nirvana. He even gained the power of the Phoenix Nirvana talent, directly falling into Nirvana like a Phoenix, and entering the final stage of the Phoenix transformation.

Nirvana is reborn. After that, you will be transformed into a Phoenix and gain the ancient talents of Phoenix.
