

Dark Ages 41

Chapter 41 - Last day

In the early morning of the next day, when Qin Tiange and others came to the football stadium, they saw that the corpses were all gone, and the zombies inside the seven big pits also disappeared.

“what happened?”

Moda and others were shocked and inexplicable, one by one, hesitated, looking at the seven empty pits, where are the corpses of zombies? Even the corpses piled up on the football field were gone, leaving only a little bit of wreckage on the spot, exuding a faint stench.

Yan Liuxuan brought a group of girls to look forward, one by one surprised, she vaguely understood why it was so, but not sure.

“Don’t make a fuss.” At this time, Qin Tiange came up and explained: “Those corpses were eaten by mutant insects in the middle of the night.”

“Eat ... is it clean?”

Everyone was taken aback. They were shocked when they saw that the flies had taken the body of the zombies, leaving only a bunch of skeletons, but now there are no skeletons left.

In fact, it is not surprising that many insects eat even bones. For example, ants are one of them. Mutated ants have amazing amounts of food. They can never eat picky food.

“Be ready, today, one day, the goal must be to kill enough 10,000 zombies.”

Qi Qin Tiange looked so shocked that he said some frightening words, and it was shocking to kill enough 10,000 zombies.

When most people listened to it, they thought it was a dream, but Moda and others showed excitement without worrying at all, but eager to try.

“Qin Brother, two boys are missing.”

At this moment, Moda suddenly stepped forward and said quietly in his ear. Qin Tiange’s eyes narrowed, his flickering and cold, his heart was full of murder.

He knew the two male classmates he said. After returning last night, the two men were gone, or the two female teachers were missing.

Liu Yan, who was aside, said immediately, “Tian Ge, the two female teachers seem to be hiding in the teacher’s building. Would you like me to call them down?”

She hesitated for a moment, and finally said, “Also, Chen Xi seems to be gone, I don’t know when it will be gone.”

“Chen Xi doesn’t have to worry about it, she left early!” Qin Tiange waved his hand, then sneered: “As for the two female teachers, let them go first, and then clean up later, and Moda, your two male classmates also No need to find them, they want to come and fooling around with the two female teachers. “

“These two **** let me see that they must have slaughtered them.” Moda was so angry that her two younger brothers betrayed him.

“No problem, everyone is ready, I’ll go and lead the zombies.” Qin Tiange didn’t care and left.

As for the two male students who left, in fact, their promotion was only more than doubled. Last night, Qin Tiange relented hard and directly improved the strength of everyone. The lowest girl had ten times as much. physical fitness.

The highest person is Moda, Liu Yan, and Yang Xiaolin. The physical fitness of Moda has reached 21 times. Liu Yan is about 20 times. Yang Xiaolin is almost 19 times.

The three are the strongest, but they are far worse than Qin Tiangelai. At this time, although his physical quality is still thirty times, his combat power can definitely kill Moda and others, that is, he has 30 adults. The power of 30 people, plus 15 years of fighting experience in the previous life, these people are naturally not opponents.

“Well, the medicinal effect is no longer there. It seems that I must find more advanced medicinal materials to improve the medicinal properties of the medicine as soon as possible, otherwise I cannot continue to improve.”

On the way, Qin Tiange’s face was not good, because last night, he spent all his blood sacrifice and blended the enhanced version of the medicament. As a result, he took one of the enhanced version of the medicament, only to improve his physical fitness. It is impossible to improve at all.

Thirty times, the power of thirty people, this is the limit of Qin Tiange’s promotion at present. Unless he can find more advanced materials than the blood sac, the current medicinal properties cannot be improved.

The strength could not be improved for the time being, and saw two female teachers lead away two boys, which made Qin Tiange extremely unhappy.

When he came to the trading market, Qin Tiange lifted a small car on the roadside and smashed it out without a word. A loud bang drew the attention of a large number of zombies.

Instantly, countless zombies rushed, screaming at him wildly. Dozens, hundreds, and even thousands of zombies came up together, and the scene was that individuals would numb their scalp.

But Qin Tiange didn’t care at all, his face didn’t change a bit, but he attracted more zombies, and then Shi Shiran led them back.

“Brother, that kid has appeared again, my God, why didn’t he die?”

Di, on the second floor of the market, a large group of people were watching the movement in the window, and a large group of zombies ran away and roared, chasing Qin Tiange’s figure and leaving the market.

I saw here, that Di Bo boss Hu Ge, who just came out of the women’s heap, was dumbfounded, staring at Qin Tiange and leaving the zombies with his eyes wide.

Yesterday, it seems that he led a large number of zombies, at least two thousand or more, but today they appeared again. Does n't it mean that the other party is not dead, where are the zombies that have been taken away?

As countless zombies poured in from the gap in the football field, more and more, the seven big pits filled up, and soon Hu Ge and others here finally understood!

“Brother, look, the school is on fire again.”

Suddenly, a younger brother saw a raging fire on the school football field, just like the one seen yesterday.

At this moment, they suddenly realized that they were shocked to find that Qin Tiange, who had just led the zombies, seemed to be killing them.

They guessed very well. On the school's football field, Qin Tiange calmly issued instructions, leading the team to click and kill the attracted zombies.

The number of zombies that were brought back this time was larger. Seven big pits were quickly filled, and then they were burnt and burned, killing thousands of zombies at once.

Next, the short soldiers battle, this time it is easier, because everyone's overall strength has been improved, it is easier and easier to kill the zombies.

In this way, Qin Tiange became mad, attracting zombies over and over again to burn the pits, and then led to the burning pits. During the period when the gasoline ran out, he used the white phosphorus incendiary heartily.

It took two days to kill each other. Four days have passed since the end of the world. In these four days, Qin Tiange's team was extremely crazy. Everyone got red eyes, leaving the crowded zombies on the market empty.

Yes, it was killed. How many zombies did they attract and how many zombies did they kill? In fact, everyone does not have a concept. They only know that if they kill and kill, kill and kill, everyone will throw up.

The crickets were pitted for three days in a row. Fortunately, the zombies' bodies were eaten by countless mutant insects at night, otherwise let alone pits, and cleaning the corpses was a problem.

Uh ...

Until the early morning of the fifth day, Qin Tiange brought the team again early in the morning.

“Today is the fifth day, and the last day of the heritage stele appears ...”

Looking at the bodies in the seven big pits in front of them disappeared again The corpses piled up on the football field also disappeared. Qin Tiange couldn't help feeling a little urgent and nervous. Today is the last day. After that, the stele will disappear. , It will appear a month later, and not in place.

He is not going to blame today, because the zombies on the market side are basically attracted, all that can be attracted have been attracted, and the others are too far away to be cost-effective.

Today, Qin Tiange decided to take the team to kill and slash those zombies in front of him, striving to slash more zombies in the last half day.

“Go, today our task is to hack and kill 10,000 zombies in half a day. There are rewards for completing the task. If you don’t complete it, then you will take care of it.”

After Qin Tiange said fiercely, he took the lead and walked out of the campus. In the back, Moda and others flexed their muscles, one by one showing excitement, without any fear, instead they had a crazy and morbid desire to kill.

I was as excited as the girls, holding the steel crossbow, carrying a dozen bundles of steel arrows, wearing neat iron armor all over their bodies, looking too scary.

“A good group of students have been trained by him into a group of fighting and killing lunatics.”

Behind him, Liu Ye looked at Qin Tiange in front of him. He couldn’t help crying and laughing. His own group of obedient students were led by the man into a group of lunatics. They shouted every day to kill zombies, even girls. Uncomfortable.

All of this comes from the young man who took the lead, a young man with a mysterious background, who has always made them wonder.

Uh ...

“Brother, that kid has appeared again, and this time brought a lot of people out.”

At the same time, Di Bar on the second floor of the market, the people in that Di Bar found the traces of Qin Tiange and others, as soon as they appeared, they were discovered by Tiger Brother.
