

Dark Ages 431

Chapter 431 - Emperor Little Tyrannosaurus

“Brother-in-law, what egg do you mean?”

In the yard, Chen Xun sat at the stone table with his hands on his chin, staring at a huge stone egg on the table.

It's been three days since Qin Tiange rescued her, and this little Nizi has been hiding for three days before she was willing to come out. No, as soon as she came out, she took Qin Tiange and asked Dong Wenxi, wondering what the stone egg was. thing.

Beside her, Qin Tiange was drinking leisurely, Chen Xi went to the base to deal with the matter early in the morning, and only he and Chen Zhen were at home.

“It should be a dinosaur egg ...” Qin Tiange glanced down at the stone egg and said his guess indifferently.

This stone egg is a fossil, but there is still vitality in it. Under the erosion of dark energy, some wonderful metamorphosis has occurred. Not only did the ancient creatures inside get energy supply, but also inexplicable metamorphosis.

Look at the surface of this stone egg, dense black scales, and look like dragon scales, you don't need to look to know that it is an amazing thing.

Chen Yun was dissatisfied, muttering: “Brother-in-law, how can I get this egg to hatch quickly, I can't wait to have a pet.”

Since obtaining this stone egg, Chen Zhen has always wanted to hatch the creatures inside, using crystal nuclei, and even various medicinal spirits to keep the creatures inside.

But all were unsuccessful, except that sometimes the stone egg could absorb the energy placed in the crystal nucleus next to it, there was no change any more, which made her anxious.

Qin Tiange shook his head, put down his glass, and laughed: “You want to hatch so much, you know that the longer it hatches, the higher its level will be.”

“I don't care anyway, I want a pet anyway.” Chen pursed his mouth, and was very dissatisfied. Taking a stone egg all day was trouble.

Looking at her expression, Qin Tiange couldn't help crying and laughing, and finally thought about it, but decided to help her hatch this mysterious stone egg.

“Let's see, I'll see if I can make it.” Qin Tiange said, standing up, looking carefully at the stone egg covered with dragon scales.

I saw that Qin Tiange took out some agar slurry and put a drop directly on it, and the stone egg was absorbed.

Buzz ...

After inhaling a drop of agar slurry, the stone egg immediately trembled, and kept shaking on the table, as if longing for those agar slurry.

“Yeah!” Chen Yan Qiao’s face was amazed and couldn’t help exclaiming.

Qin Tiange was equally surprised. He looked at the rocking egg and thought about it. He continued to pour a drop of agar slurry, one drop after another, and the whole agar slurry was completely absorbed.

After absorbing so much agar slurry and jade liquid, the dragon scales on the surface of the stone eggs trembled and erected, as if the creatures inside were very happy.

The two looked surprised. Qin Tiange took out a glass container and dropped a drop of turquoise liquid, which was the essence of green jade.

One drop, two drops, ten drops, the whole stone egg bloomed a ray of green light, and the scale armor was shining brightly.

“Interesting!” Qin Tiange chuckled, put away the green jade essence, and took out a drop of white fat chalcedony.

As a result, the stone egg trembled on the spot, trembling violently, and after inhaling a drop of white fat chalcedony, it even produced a more mysterious change, and a strong breath was revealed.

The stone egg trembled, the life wave became more and more intense, and the scales trembled, as if about to be born.

“Brother-in-law, is the stone egg cracking?” Chen Yan stared with wide eyes, staring at the stone egg momentarily, looking forward to it.

But Qin Tiange shook his head, guessing: “It shouldn’t be so fast, it’s working hard enough, absorbing energy to build up the bottom line, and it’s not time to be born.”

He guessed very well that the creatures in the stone eggs were accumulating energy details, and the moment they were born, if they had enough energy, they might be born early.

Thinking of this, Qin Tiange dripped a few drops of white fat chalcedony one after another, but he didn’t see any signs of birth, it was speculated that there was insufficient energy.

“Try the emperor chalcedony?” Qin Tiange thought secretly, took out the container containing the emperor chalcedony, and carefully dropped a drop.

In just one drop, the emperor chalcedony contains huge energy, extremely violent, full of destructive energy, and most people will explode when swallowed.

However, the stone egg was absorbed, but it did not explode, but it was more amazing. The light said that the scale armor was shining, and gradually, a crack appeared on the surface of the stone egg.

Click!

With a crisp sound, Chen Yan’s face was joyful, watching the stone egg crack, and the autonomous crack cracked, as if to be born.

Qin Tiange squinted his eyes, closed the emperor chalcedony, stared at the cracked stone egg, and was born early under the violent power of the emperor chalcedony.

He didn't know if it was good or bad to let the creature inside the stone egg be born early, but at least the creature inside was about to come out.

Click, click ... Click, the cracks spread, and the shell of the stone egg interspersed quickly, and finally a small piece of the egg shell cracked, exposing a dark mass inside.

"Come out ..." Chen Pu looked excited, his face flushed, and he squeezed his fists, staring at the stone egg.

Inside, something was creeping, struggling hard, squeezed out of the cracked stone egg gap.

With a click, the stone egg cracked, and a dark-painted creature stuck out a head, full of fangs, and black horns in the head.

"Dragon?" Murmured Qin Tiange, surprised and with such an expression, this creature looked like a dragon.

As the ancient creature fully drilled the stone egg, the whole creature was exposed, and the basketball-sized creature was dark and covered with dense black scales.

At the first glance at this creature, Chen Jiu, Qin Tiange was equally astonished, staring blankly at this born ancient creature.

"Imperial Tyrannosaurus?" Qin Tiange said in surprise, it is an extinct ancient species, Tyrannosaurus, and it is still the most powerful Emperor Tyrannosaurus.

Tyrannosaurus, also known as Tyrannosaurus Rex, is the top dinosaur in the dinosaur family, and the Emperor Tyrannosaurus is the king of Tyrannosaurus.

Chen Yan was dumbfounded and said suddenly: "Brother-in-law, is this a tyrannosaurus? Doesn't it look like, does the tyrannosaurus have dragon scales? Also, it has a black horn on its head, as if the tyrannosaurus said in the textbook. . "

"You believe in textbooks, are there any zombies in the textbooks, and other weird creatures and various things?" Qin Tiange rolled his eyes.

Now that the end of the world is catastrophic, everything is possible. There are only scale armors, what's so strange about the horned Tyrannosaurus Rex?

Uh ...

A tender roar came, and the little emperor Tyrannosaurus opened his mouth and growled, and then took a bite to eat the cracked eggshells.

Yes, it was eating eggshells, bite-by-bite, and it was crispy and crunchy, and all the eggshells were eaten by it.

After eating the eggshell, the little tyrannosaurus suddenly gave up a faint black light, and the scale armor became brighter. The short horn on the head became more mysterious.

He opened his eyes, and at first glance locked Chen Chen in front of him. With a hint of joy in his eyes, he flew directly, scaring Chen Chen's instinct to take a step back.

“Well ...” The little Tyrannosaurus roared disappointed, and the immature roar showed a little bit of emperor’s ointment, but felt a little aggrieved.

Chen Yan reacted, and the little Tyrannosaurus had already signed a blood deed with her long ago, and naturally there was a strange touch, and finally she came to her senses.

“Hee hee, (* ^ __ ^ *) ... so cute!” Chen Yan picked up the little tyrannosaurus, his face filled with a happy smile.

This little tyrannosaurus is only one foot tall, yes, you read that correctly, it is one foot tall, which made Qin Tiange suspect that it was ripening and caused premature birth?

He sweated secretly in his heart, but did not mention this matter, as long as Chen Yi likes it, whether it is premature birth?

Poor little tyrannosaurus, when it was born normally, had at least five stars when it came out, and it was super powerful.

But now I can see that not only the body is only one foot high, but also the rank is only one star, which is really weak and pitiful.

Qin Tiange looked at Chen Xun who was in love with the little tyrannosaurus and reminded him: “Chen Xun, the little tyrannosaurus has just been born and is still very weak. You will need to find many things to feed it so that it can grow quickly.”

Chen Xuan came to her senses, turned her head to look at Qin Tiange, her eyes twitched, and when she saw her expression, Qin Tiange knew what she was thinking.

“Don’t think about those Qiongjiangyuyu just now. I haven’t gotten rich to that extent. It’s too extravagant. That’s the treasure of preparing medicine for you and your sister.” Qin Tiange rolled his eyes and dispelled the young aunt’s mind.

Chen Yun muttered in dissatisfaction: “If you don’t give it, don’t give it, stingy ...”

That being said, in fact, she knew the weight, Qin Tiange could use those things to help her ripen the stone eggs, and hatching the little tyrannosaurus was already a pet to her.

In addition, Qiongjiangyu liquid, green jade essence, white fat chalcedony and even emperor chalcedony are all used by Qin Tiange to prepare them to enhance their own potential and strength.

There is such a brother-in-law What is dissatisfied?

“You can feed it with crystal nuclei, you can also let it eat the meat of some mutant creatures, and gradually let it hunt and eat the creatures themselves, and cultivate its fighting instinct.”

Qin Tiange began to explain carefully, and instructed Chen Zhen how to raise this little tyrannosaurus, and could not raise it as a puppy. In that case, it would be sad that a generation of ancient tyrannosaurus overlords would become as meek as a puppy.

“I know brother-in-law, thank you brother-in-law ...” Chen Xie said thank you with a smile, then made a cute grimace, spit out a little fragrant tongue and hugged the little tyrannosaurus.

Watching her go out, Qin Tiange couldn't help crying and sighing, sighed in the heart, the little aunt raised a little tyrannosaurus. Will her character become more violent than the tyrannosaurus in the future?

After getting rid of the mess, Qin Tiange returned to the room and started to prepare some potions for Chen Xi and Chen Chen sisters.

Immortal medicine, he was refined and prepared as early as the base, waiting for maturity, and some other medicines, such as to strengthen the physical body of the two sisters Chen Xi and Chen Yan, so that they get the ability of ice muscle jade bone.

Chapter 432 - Ready to meet parents

In the morning, a ray of sunlight came in through the curtains, and a little bit of gold fell.

On the couch, Qin Tiange gazed at Chen Xi gently, looking quietly at the morning glow outside the window, thinking about Chen Xi's madness last night, his mouth slightly tilted.

"Tian Ge ..." Chen Xi murmured unconsciously, her eyes were hazy, awake like a dream, and she looked extremely seductive.

Especially her flawless skin, ice muscle jade bone, as if carved by beautiful jade, it is natural, it makes people love at first sight.

Last night, Qin Tiange prepared a medicinal solution for her and Chen Yan. After soaking and taking, both sisters gained the ability of ice muscle jade bones, and the physical fitness was greatly enhanced in all directions.

With Chen Xi's current four-star strength, he made a breakthrough again, already having the strength of 1,300 people.

The second evolution gave her a lot of benefits. Of course, the greater benefit was the immortal medicine she took last night.

An immortal medicine that has matured with that kind of spiritual blood has a mysterious power that Qin Tiange does not understand. For example, Chen Xi's current body contains powerful spirituality.

Chen Yi, the little aunt, also took an immortal pill, and Qin Tiange's family was generous enough, otherwise he could not really do it.

"Tian Ge, how nice it is to have you!"

Chen Xi wakes up completely and draws circles on his solid chest. The whole heart is full of happiness, and Qiao's face is filled with that contented smile.

"Silly girl!" Qin Tiange smiled and didn't answer.

She felt that meeting Qin Tiange was her greatest luck in her life. From the beginning, she was abducted. From the moment Qin Tiange suddenly attacked the two gangsters, Chen Xi quietly imprinted the young man's appearance. .

As she got along, she gradually fell in love with this mysterious young man. Although she was separated in school at that time, a couple of relationships had been established at that time.

Today, Chen Xi's entire heart has long been here for Qin Tiange. As for the others, she cannot enter her inner world.

Thinking about everything Qin Tiange has done for her, whether it is the Sucheng base or the growth of this strength, is related to Qin Tiange, even he spent a lot of treasures to promote.

Of course, Qin Tiange didn't think so. Without her own efforts, even consuming more things would be useless.

The two hug each other, silent, but they don't know each other, they have a tacit understanding, and happiness is actually very simple.

Qin Tiange looked at the sunrise outside the window and suddenly said, "Chen Xi, the current situation of the Sucheng base is very dangerous, and the waters around the base are numerous. With the continuous rains, it will cause floods. You must be vigilant."

Chen Xi raised her head, her eyes sparkled, and suddenly smiled, "Husband, marry the chicken, follow the chicken, marry the dog, follow the dog, or you can preside over the things at the Sucheng base."

Snapped!

Qin Tiange patted her shoulder gently, cursing with a smile: "Su Cheng is a career you created in the first hand. As your man, I can only support you silently behind your back, so you can be a strong woman with peace of mind. Your husband, I will depend on you in the future. "

"Well, no seriousness!" Chen Xi gave him a smirk and gave him a charming look, which made Qin Tiange feel excited, but still depressed her heart.

Chen Xi sighed quietly: "Everyone else thinks that his woman can be gentle and savvy, that he is well-educated, and be a good wife and mother at home. You are better, but you want your wife to support you."

Qin Tiange laughed straight and didn't care: "That's someone else, you guys, I like to let my wife raise?"

"Don't you want to raise me?" Qin Tiange looked at her with a smile and gently raised her chin to kiss it.

For a long time, the two separated, and Chen Xi said that she was speechless and her eyes turned weak. Regarding Qin Tiange's idea, she was crying and laughing. She had never seen a man who said that eating soft rice can still be honest and righteous.

In other words, Qin Tiange has the confidence. Think about it, Chen Xi doesn't know that his man has built a huge base.

Of course, Jingcheng didn't send a message to her, but just said that there is now a young general in Huaxia. As for what it is called, it doesn't know what it looks like.

I do n't know what her grandfather was thinking about, anyway, Chen Xi is still not clear about Qin Tiange 's current achievements and identity.

“Well, when will we take the time to return to Beijing, I have decided to take you to see my grandpa. Regardless of whether he agrees or not, I will recognize you in this life and this life.” Chen Xi suddenly raised her head and said seriously. sentence.

She identified Qin Tiange as the only man in her life, and thought of taking him back to meet her grandfather. Regardless of whether the family agreed, she decided Qin Tiange anyway.

After hearing what she said, Qin Tiange thought a little, nodded and said, “Let’s go, see a time to go to the capital to see the old man, but I need to be prepared.”

The preparation he said was naturally a gift. When I came to see my parents, how could I go empty-handed?

“There are too many waters around Sioux City. At present, there are signs that a big flood will come. You must be fully prepared.”

Qin Tiange suddenly reminded Chen Xi in a serious tone, so that the latter realized that there was something strange about it. He mentioned it twice.

He had never seen him raise such an incident many times, Chen Xi immediately realized that what Qin Tiange should know was reminding her to take precautions.

“Flood?” Chen Xi looked dignified, staring at his man, his eyes more and more invisible, always mysterious.

However, she did not follow up, nor did she detect the secrets of her man’s heart, because she knew that Qin Tiange would say if she wanted to say, and that she could not say if she did not want to.

“I see. I will proceed to prepare for the flood disaster.” Chen Xi jot down this matter and planned to hold a high-level meeting of the base to discuss this matter.

In fact, she has noticed that Taicheng Lake in Sucheng is densely populated with waters. The entire Sucheng is like a city built on water.

If this problem is not handled properly and precautions are not taken, once the flood skyrockets and Taihu Lake collapses, then the entire Sucheng base will be flooded.

“I heard that there are new energy sources in the south of Beijing. Please see if you can get these new energy sources for Sucheng.” Qin Tiange suddenly mentioned this information.

Chen Xi stunned, looked at him strangely, and then nodded and said: “Indeed, I just heard about this recently. Jingnan base has new energy, and it is still unlimited energy.”

“I’ve sent someone to negotiate in the past. I don’t know what the situation is. Grandpa Mu who wants to come should agree to my request.” Grandpa Mu said that Chen Xi was General Muhua.

Qin Tiange laughed secretly. If Chen Xi knew that those new energy sources were actually created by her, I don’t know what I felt?

Why didn't he tell Chen Xi his identity and things about the base? In fact, many things were not necessarily good.

Since Chen Xi has a base, let her develop freely and rely on her own hard work, which may not be beyond the achievements of previous lives.

If you let her know the power and influence of Qin Tiange, although it can reassure her, it is easy to have dependence and even affect her future growth.

Only pressure and a sense of crisis can make Chen Xi step by step to the peak of life, surpass the achievements of previous lives, and become a stronger person.

"Okay, you should get up, Chen Chen should get up, you have to go about your business and work hard to make progress, your husband will depend on you in the future."

Qin Tiange joked while he was wearing clothes, Chen Xi glanced at him charmingly, and didn't care that his perfect figure was displayed in front of him. He cleaned himself and put on clothes and armor.

After some washing, Qin Tiange walked out of the door and was surprised to find that the table was full of food earlier.

Yes, these are early. The steaks and bone soup are all made from the meat and bones of mutant organisms.

"Brother-in-law is awake, come and have breakfast!"

In the kitchen, Chen Yun ***** an apron, carried a barbecue, and sweated his forehead, looking at how strange it was.

Qin Tiange looked weird. Looking at her busy, she would make breakfast? Moreover, he took a piece of steak and took a bite, it was tender and delicious, and tasted good.

"Oh, Chen Ye, your cooking skills are good. I didn't expect you to know how to cook. It's strange." Qin Tiange sat down, admiring while eating, saying Chen Ye was a little embarrassed.

At this moment, Chen Xi came out, staring at the table earlier in surprise, and looked strangely at her sister.

She said, "Chen Yun, didn't you say you wouldn't cook?"

"Sister, I really can't cook, but I can learn." Chen Yan smiled proudly and proudly.

After the three had eaten breakfast, Chen Xi hurriedly left to go to a high-level meeting of the base to discuss the base's precautionary preparations.

As for Chen Yan, Qin Tiange was not attached this time, but hurriedly finished the barbecue, picked up the silver battle, and took her little Tyrannosaurus out.

“Brother-in-law, I bring enough food to hunt the zombies southeast of the base. You don’t have to wait for me to come back for lunch.”

Chen Heng went out in a hurry, and after leaving an explanation, he took the little tyrannosaurus away, and saw that Qin Tiange could not laugh or cry.

“It’s so frizzy, but the little Tyrannosaurus’ breath is getting more and more fierce and fierce.” Qin Tiange stood at the door, looking at the distant little aunt, the little Tyrannosaurus beside him caught his attention.

This little tyrannosaurus was born two days ago, the breath became more and more violent, the breath of the fierce beast permeated, even Qin Tiange and Chen Xi did not touch it.

Tyrannosaurus, cruel and fierce, is the true ancient extinct beast, not to mention the terrible emperor tyrannosaurus after the mutation, how will it grow up in the future?

Qin Tiange is looking forward to the growth of Little Tyrannosaurus, at least to make Chen Yi less dangerous, of course, without the tempering of the crisis, people will not grow quickly.

“I should also practice, and prepare some gifts, go to Beijing to meet Chen Xi’s parents ...”

Looking at him alone, Qin Tiange began to think, going out to practice, preparing gifts, and heading to Beijing to meet Chen Xi’s parents.

The place of practice is naturally the best choice of volcanic magma, because his physical strength, coupled with the transformation of the Phoenix into the body’s genes, the least feared is the flame.

Huh!

As soon as he thought about it, Qin Tiange rose into the air, flew directly out of the base of Sucheng, and flew towards the crater near Jingnan.

Chapter 433 - Ice silkworm breaks cocoon, meets Snow Woman again

Fang Shan, came here again, Qin Tiange found that the heat of the crater was much weaker, and it was thought that the last time it turned into a phoenix absorbed many fire elements in the magma.

“The magma is going to cool?” Qin Tiange stood at the crater, staring in surprise at the way the magma was about to cool down.

He was speechless, and an active volcano that he had visited twice would turn into an extinct volcano. It is estimated that after this practice, it must be completely cooled.

“As a phoenix, it is really difficult to practice with the element of fire ...”

Qin Tiange shook his head with a bitter smile, and had to sigh, it is really difficult for Phoenix to cultivate and improve with the element of fire, except for those volcanoes that do not go out.

He jumped into the volcanic magma, Qin Tiange lay directly there, and practiced quietly, using the instinct of the Phoenix to draw infinite elements of fire, to enrich his transformation ability of the Phoenix.

As for the unicorn transformation, he has not yet discovered the mystery of it, and it is not clear how the unicorn is cultivated. It may be feasible to use other energies, but he has not mastered the unicorn's talents.

"There are too few sources of fire, and this practice has no effect at all." Soon, Qin Tiange frowned, somewhat dissatisfied.

Because it can't absorb too many sources of fire, the progress of the cultivation has no effect at all. If Phoenix wants to be more capable, it must continue to strengthen the cultivation.

"Right!" Suddenly, Qin Tiange remembered something and took out a shrinking star, which was the seal of the planet.

The flames lingering and burning, giving the illusion of being high above the ground, inviolable, and sealed with the blue blood tribe.

Qin Tiange looked at the seal of the planet, suddenly opened his mouth, and Gu Rong sent out a force of horrible devour.

With a bang, the planet trembled, and a wave of Cangyan was rushed out, absorbed by Qin Tiange, and swallowed into the body.

Suddenly, he felt that the talent of the Phoenix in the body was boiling, and the chaotic flames roared happily, engulfed the blue flames that poured into the body, and constantly strengthened himself.

Feeling the flames of chaos getting stronger and stronger, Qin Tiange was ecstatic and effective, so I have to say that this is a good way.

There is an endless number of Cang Yan sent out by the sealed seal of the planet, allowing him to draw enough Cang Yan's power to strengthen the talent of Phoenix.

For example, Chaoyan Flame first grew up, originally from the fusion of Cang Yan, now it absorbs Cang Yan to strengthen itself, just like the same origin, relaxed.

"Haha, the flames taste good." Qin Tiange laughed as he devoured infinite Cangyan.

Does the flame smell? Naturally there isn't, but for him with a phoenix, the flame is like supremely delicious, really delicious.

Phoenix grew up eating flames. Fire is the basic food of Phoenix, and naturally inherits this talent.

Absorbing the endless blue flames, the flames of chaos are more and more simple, revealing the meaning of desolation, as if from the ancient great chaos.

Uh!

Suddenly, Qin Tiange hit a full stomach, sprayed a mass of Cang Yan, and could no longer swallow it. It felt very swollen and saturated, and ate.

Yes, he's full, and looking so depressed that he's full? Looking at the narrow planet in his hand, there was no change at all, Qin Tiange had to marvel at the power of the fetish inside.

He closed the seal of the planet, and this time found that he could practice with Cang Yan, and he would not need to find a volcano to practice in the future.

Ok?

When Qin Tiange was about to leave and go back, his expression moved, and he felt some icy feeling in his hair. It was only at the touch of his hand that he found it was ice silkworm.

He was surprised to find that the ice silkworm had emitted a terrible cold, lowering the temperature of the entire volcano, and soon the boiling magma went out.

call!

The cold air swept through, and the volcano's original hot air instantly cooled, the magma turned into hard rocks, and then gradually frozen into ice.

As the cold air became heavier and denser, the entire volcano became an iceberg, covered with thick glaciers, crystal clear, and the cold air was pressing.

The temperature in the volcano has reached a terrible low temperature of more than thirty degrees, making Qin Tiange inexplicable.

"Ice silkworm wants to break the cocoon?" Qin Tiange flashed the thought in his heart.

Soon, the cocoon on the palm of the hand changed, and cracks spread, with a little sign of life emerging inside, getting stronger and stronger, as if a little life was about to be born again.

Bing silkworm is about to rebirth, completing this life and death change, making Qin Tiange feel a little happy, and finally waiting for the ice silkworm to transform successfully.

Click ...

Gradually, a sound of crisp sounds came, and a silkworm cocoon was cracked, and a fat silkworm baby was drilled out of it.

This baby silkworm is crystal-clear, like ice crystals, and eats quickly along the silkworm cocoons.

When it ate up all the cocoons, the body grew a circle, the size of a thumb, the whole body was crystal clear, exuding a strong cold, enough to freeze everything around.

But strangely, Qin Tiange's hands showed no signs of freezing, and the ice silkworm rolled back and forth on the palm, looking very excited and celebrating his new life.

"Congratulations, little guy!" Qin Tiange teased the ice silkworm with a smile, and the latter happily climbed up Qin Tiange's shoulder, but quickly frightened back into his palm.

Uh ...

The ice silkworm hissed and seemed to be anxious and afraid, as if there was something in Qin Tiange's body that made him afraid.

This reaction was far beyond Qin Tiange's expectations, and he was puzzled, thinking that it was the phoenix's talent and fire that made it scared?

Ice and fire are incompatible. Perhaps this is the reason, but Qin Tiange thinks that there should be more than that, maybe there are factors he does not understand.

“Okay, don't be afraid!”

Helpless, Qin Tiange had to comfort this ice silkworm, completed the fourth life and death change, and successfully evolved into a four-star ice silkworm.

The four-star ice silkworm, the talent of Xuanbing, is extremely powerful. The entire volcano has been frozen into an iceberg. I have to say that the ice silkworm is terrible.

If it waits for it to complete the ninth change, or even the tenth change as the ice silkworm king, where it passes, the absolute zero-degree space of ten miles, it is almost impossible for biological resistance.

Qin Tiange took the ice silkworm, jumped out of the crater, and looked at the mountains that were frozen into icebergs. He couldn't help crying and laughing. A good volcano was not only absorbed by him, but even turned into an iceberg by the ice silkworm.

Ok?

As he was about to leave, Qin Tiange suddenly turned and stared down the mountain, suddenly feeling a icy breath rushing quickly.

This breath made him very familiar. He was stunned for a while, standing on the top of the mountain and looking down, and soon saw a white figure appeared in sight.

“Is she, Snow Maiden?”

Qin Tiange was surprised that the comer turned out to be Snow Girl, but I didn't expect to see her here. In fact, he didn't know that Snow Woman came here to see the powerful power of dilute ice silkworm when she felt the power of dilute ice silkworm. When she saw an iceberg in the distance, she was shocked.

Snow Woman naturally knows that this mountain is a volcano, and now it has become an iceberg. There must be powerful ice-based creatures here.

But as soon as she rushed to the top of the mountain, she saw a man, a familiar and lingering person.

“Is it you?” Snow-girl looked, her hair fluttered, and a little flash of surprise flashed in her eyes.

She didn't expect to meet Qin Tiange here, the two just stared at each other like this for a long time, and the atmosphere was a little weird.

Xue Nu is not good at words and is inherently indifferent, but Qin Tiange does not know what to say, which has caused this awkward situation.

“This is ...” Soon, Snow Woman looked away and noticed the rare ice silkworm on Qin Tiange’s palm, with a surprise on her face.

Qin Tiange smiled secretly in his heart, looked at the Snow Woman, and then looked at the Ice Silkworm. Sure enough, she saw the Ice Silk staring at the Snow Woman, seemingly right.

In fact, this is caused by the same origin of the ice silkworm and the snow woman, attracting each other, which has caused inexplicable attraction.

Snow Girl liked Ice Silkworm at first glance, and Ice Silkworm hesitated. Although Snow Girl’s frost talent made her very comfortable, Qin Tiange was its master.

“This is the ice silkworm.” Qin Tiange briefly introduced.

Snow Woman’s eyes flickered. Actually, she liked the ice silkworm very much, but she would never ask for it, because she did not speak well, and she would not take the initiative to speak.

However, Qin Tiange naturally will not give it to her. After all, this was given to him by Long Xiaoqian.

Moreover, he is not willing, one is that his friendship with Snow Girl is not so good.

“Since it’s okay, I’ll go first.”

The Snow Woman dropped a sentence, looked at Bing silkworm for a final look, turned around and leaped away, and went straight down the mountain.

Watching her say just leave, hurried to come, hurried to go, making Qin Tiange smile bitterly, had to say that the Snow Girl was really too cold.

“I don’t know such a woman, who can impress?” Qin Tiange shook his head funnyly, put the ice silkworm on his hair, and jumped directly into the sky, disappeared in a blink of an eye.

As for the encounter just now, it was just a chance encounter. There was actually nothing to say about Qin Tiange with Snow Girl, after all, the friendship was not very deep.

Just after he left A snow-white figure appeared again. It was the snow girl who left. She stood on the iceberg, looking at the back of the air flying complexly, she didn’t know what she was thinking.

“He, getting stronger and stronger.” Xue Nu muttered to herself, indifferent tone, indifferent expression, no way to guess her inner fluctuations.

Snow Woman looked at Qin Tiange, who disappeared from the sky, then looked at the volcano that turned into an iceberg, her eyes flickered, her mouth opened, and the endless icy air poured into her body immediately.

Soon, the iceberg melted and all cold air disappeared.

Absorbing all the mysterious air here, the cold air emitted by Xue Nu’s body is a little bit richer, which makes her even more fond of the ice silkworm. I really hope to get such an ice silkworm. Unfortunately, that is Qin Tiange. Pets.

Ugh...

Snow Woman's eyes flickered, the figure suddenly flickered, and the snowflakes disappeared in the sky, only a faint and cold sigh echoed in the air, showing a trace of loneliness and coldness.

Her heart was cold, no one could understand, maybe no one could melt the frozen heart.

Chapter 434 - Doubtful, into secret

In the evening, in front of the table, Qin Tiange ate praises from Chen Yu's cooking.

"Yes, the taste is just right, the chef's craftsmanship."

Qin Tiange smiled and praised, making Chen Xuan almost proud of herself, but fortunately she knew how to hold her back and maintain her image as a lady.

Chen Yi was embarrassed and said, "It's not there anymore. It's just occasionally frying snacks in school."

Chen Xi looked at the two with a smile, with a happy smile on her face, feeling the family happy.

"Chen Xi, I want to ask you something."

Eating and eating, Qin Tiange put down his chopsticks, picked up a glass of wine and sipped, looking at Chen Xi with a serious look, his tone was a little dignified.

Chen Xi looked at his face, realized that it was not easy, and nodded, "Tiange, what do you say, I must tell you."

At this time, Chen Kun was curious, looking at her sister and brother-in-law, her eyes were twitching, and she was curious.

I saw, Qin Tiange gently put down his glass, and frowned, and asked, "I want to know, who was behind us who kidnapped us?"

This question has always troubled Qin Tiange himself. Regardless of his past or present life, he has not figured out who kidnapped him and Chen Xi.

At that time, the conversation between the two kidnappers in the car involved the person behind the scenes, and only mentioned the person named Shao Shao.

After Chen Xi heard the dignity behind her, she thought of the bad encounter at that time, and her eyes were full of cold murderous tricks.

Humph!

She snorted before saying, "I have been investigating this matter, and I have basically determined who is behind the scenes."

"Xiao family?" Qin Tiange muttered.

Sure enough, Chen Xi nodded, surely: "Yes, it is the Xiao family, Xiao Fei, he is the man behind us who kidnapped us."

After listening, Qin Tiange frowned and looked at Chen Xi. There was a doubt in his heart that he couldn't understand clearly in the previous life.

"Xiao Fei kidnapped you, you said it in the past, but why do you kidnap me as an ordinary person who has no background and no money?"

This is his biggest doubt. Xiao Fei's kidnapping of Chen Xi also said the past. After all, Chen Xi is the jewel of the Chen family in Beijing.

The Xiao family and the Chen family have always had no small conflicts, no matter whether they are political opinions or others, they have more or less conflicts.

But why did Xiao Fei kidnap Qin Tiange?

"This, I really don't know." Chen Xi hesitated, and finally shook her head.

In fact, she is not very clear, why Qin Tiange was abducted together, what is there on his body that can attract Xiao Fei?

"Wow!" An exclaimed cry came, and Chen Zhen's expression was shocked, exaggerating: "No, brother-in-law, you and my sister were kidnapped?"

She was shocked and normal, because she didn't even know that her sister had been abducted, and she was abducted with her brother-in-law. It looks like a fate.

Chen Xi shook her head helplessly, not wanting to say more about this matter, unless Qin Tiange asked, she didn't want to mention it.

Qin Tiange was in deep thought, banging his fingers on the table, thinking about all the processes of his abduction.

Unfortunately, he couldn't think of why he was kidnapped?

"Before you were abducted, where were you?" Qin Tiange suddenly thought, asking this question.

Chen Xi thought about it and said a place. Unfortunately, Qin Tiange was disappointed. The two people were no longer in the same place, even far apart.

"It's weird. It seems that you must grasp the younger Xiao family to understand the beginning and end of it." Qin Tiange sighed and wondered if he would go to the sea and directly arrest the younger Xiao family. Interrogation.

"Don't be impulsive!" Chen Xi's face changed slightly, dissuading, "Tian Ge, this matter is not so simple. It may be impossible to ask Xiao Fei after catching that. Moreover, I have found that there is a bigger hidden feeling in it Perhaps, Xiao Fei is not the real master. "

Oh? Qin Tiange's eyes flickered. Thinking about this question, he finally felt that there were a lot of strange things in it. The biggest strange thing was why he was abducted?

If he doesn't figure this out, maybe Qin Tiange won't be at ease. He wants to make it clear, otherwise he will feel uneasy.

Chen Xi 's identity, the kidnapper also said in the past, but why a Qin Tiange man who grew up in an orphanage was abducted?

The whole matter is full of doubts, making Qin Tiange's head bigger, even the super brain can't analyze the reason.

It's too weird, even without a head. It feels like I'm being followed by some people, but I don't know why I'm focusing on myself. This feels bad.

"Forget it." Qin Tiange shook his head and hummed softly. "Let it go in advance. As long as the strength is strong enough, any conspiracy will be invalid for me."

"Sister, brother-in-law, is the hero saving the beauty?" Chen Yan asked gently in her sister's ears, her eyes shining brightly.

Chen Xi couldn't help crying and laughing, only nodded, it was a hero to save the beauty, when Qin Tiange decisively and severely slaughtered the two people.

Moreover, the hairpin had been carefully kept by her. It was her stuff and the weapon used by Qin Tiange to kill the two bastards, which had extraordinary significance.

"Hero saves the beauty, let's make a promise with each other?" Chen Xiao little girl muttered, looking at her sister and Qin Tiange, she didn't know what she was thinking.

"Tian Ge, I'm full, and there's another important meeting, so I'll go first." Chen Xi stood up after eating, explained a word, and hurried away.

Looking at her in a hurry, Qin Tiange sighed, wondering if it would be good or bad to press a base on her like this?

"Brother-in-law, shall we go out tomorrow to hunt mutant creatures for the little overlord?" Chen Chen asked Qin Tiange as he ate.

The latter thought for a while, and finally shook his head. He said, "Chen Yun, I can't be with you tomorrow. I guess I'm going to leave. There are still some things to deal with."

"What?" Chen Zheng stood up, and Chen's bowls and chopsticks fell to the ground, only to find that he was a little too fussed, and he sat down.

She looked unhappy: "Brother-in-law, you really have to leave tomorrow, can you stay a few more days before you leave?"

Qin Tiange shook his head with a smile. He said, "I really have something to deal with, and I will come again when I have time. Why aren't you nervous?"

"I, I just ... just ..." Chen Yan opened his mouth, but finally didn't say it.

She was lacking in mood, absent-mindedly eating meals, and soon drank down her chopsticks and went straight to her room.

Seeing that she was in a bad mood, she didn't even clean up the chopsticks. Otherwise, she was tinkering with these two days. She cooked the food and cleaned the chopsticks.

“This little niece.” Qin Tiange shook his head secretly and had to clean up the table and wash the dishes. Then he lay on the sofa quietly, thinking about the next thing.

There are many things that need him to think seriously, such as the development of the base, and the improvement of its own strength, various things.

The main thing is that he is about to leave. What he wants to do now is to find a secret place to explore.

He remembered that there was an entrance to the mystery, and that mystery was not very dangerous, and it was safe to enter it with its current strength.

“Mystery, treasure ...” Qin Tiange thought quickly, thinking of some known treasures from that secret place.

In previous lives, many people have entered various mysteries, but in summary, you will find that there are dozens of mysteries found in the whole of China.

And some secret realms finally emerged and turned into horrible restricted areas. Here is the origin of the restricted areas of previous humans.

However, some restricted areas descend from the sky, just like Huangquan Forbidden Land, where there is a huge land that fell from outside the sky, forming a restricted area.

Secret areas, restricted areas, crisis and opportunities coexist, and people with good luck can get good opportunities. From then on, people who have bad luck and bad strength will definitely die.

“Hangcheng West Lake has a secret entrance, but it is too dangerous to go ...”

Qin Tiange dragged his chin and thought quietly. There was a secret place on the west side of Hangzhou City, but the previous life learned that it was extremely dangerous, and he was dead and even disabled.

That mystery was very dangerous. For the time being Qin Tiange didn't want to get involved, but thought about some other mysteries, suitable for the place he is currently in.

After thinking about it, he finally found that the secret that had been settled before was the best. Although it was also dangerous, it was not very large.

“Just go to that secret place ...” Finally, Qin Tiange decided to leave tomorrow and go to that secret place to find treasure.

Qin Tiange smiled and grabbed an ice silkworm from his hair, and laughed: “Little guy, come into a secret place with me tomorrow, and you will definitely get good things this time.”

Ice silkworm is closely related to the mysterious zone to be entered tomorrow, and that mysterious zone is completely ice and snow.

For the ice silkworm, that is its home field. There is ice silkworm. Maybe you can find unexpected good things in that secret realm?

With such expectations, Qin Tian Ge Meimei took a bath and came out, seeing Chen Xi coming back from the outside, looking tired.

“What’s wrong? What problems did you encounter?” Qin Tiange frowned secretly, stepping forward to hold the lady, and gently asked.

Chen Xi shook her head and sighed, “It’s not the Xiao family over the maritime market. The news from the Xiao family just said that we would merge Su Cheng into the maritime market, it was annoying me.”

“Oh, my appetite is so big.” Qin Tiange couldn’t help sneering.

For the Xiao family he didn’t underestimate, but he didn’t look down. If he didn’t want to provoke him, he ignored them for the time being, but didn’t want to run out and let Chen Xi merge Sucheng into the city. ?

This is the tone to be annexed, and I don’t know where the miracle comes from. I dare to say such words. Is it really powerful enough to cover the sky with one hand?

“Okay, don’t worry about these words. With the power of Sucheng and your strength now, don’t be afraid of the threat of the maritime base. If they dare to swallow them by force, then be prepared to be attacked by nuclear weapons.” Ge said these words flatly.

Although these words are very bland, they reveal a horrific murderous, nuclear strike, these three words have let Chen Xi for a long time.

She looked at Qin Tiange strangely, but she couldn’t figure it out. How could he say such a word, nuclear strike, what is his ability to say this?

Does Qin Tiange have this ability? Yes, the number of nuclear bombs is still quite large. There are more than 90 small, pollution-free, super-concentrated hydrogen bombs obtained by more than 90 demolition robots.

Once Qin Tiange is anxious, he will throw no hesitation on the enemy without hesitation. This super-concentrated hydrogen bomb is extremely terrible. What kind of scene is a 100,000-ton hydrogen bomb?

Chapter 435 - Arctic mystery, 0 next Baidu

One night passed, and the next morning, waking up in the morning, Chen Xi looked at the empty pillows around her, and there was an inexplicable loss in her heart.

Qin Tiange left, Chen Xi woke up without seeing him, knowing in his heart that he was gone.

Chen Xi looked at the bits of broken gold falling from the sun in the window, thinking about the madness last night, and thinking about the bits and pieces that have been together these past few days, could not help but be stupid.

Ugh...

For a long time, she sighed sighily, and then she got up to wash and dress neatly, just to see Chen Yan breaking in with two panda eyes.

“What about brother-in-law?”

Chen Xun broke in in her pajamas, her eyes were like a panda, apparently she did not sleep all night, but she was still very mental, but her dark circles were a little worse.

Looking at his sister in the room, Chen Yun knew that Qin Tiange’s brother-in-law had left, and she really left.

“Leave again, really, can’t you just say hello every time you go?” Chen Yan looked dissatisfied and turned away from the room with a sigh of anger.

Chen Xi shook her head and smiled bitterly. She didn’t say much. In fact, she was in a very low mood, but under a strong self-pressure, she ate breakfast and continued her busy day.

As the base ruler, Chen Xi has many things. Like Chen Chen, she is not idle. She has an orthodox major and naturally has her own work to do.

Qin Tiange knew that he had to leave, but he had to leave because he still had a lot of work to do.

Wenrou Township, heroic grave, this sentence makes sense, Qin Tiange does not want to fall into Wenrou Township and cannot extricate himself.

Doomsday is very dangerous. You must move forward step by step and you cannot stop. Otherwise, you will either be eliminated ruthlessly or fall into the doomsday.

...

Jingnan, Jiangning District, Tangshan Ape-Man Cave ...

Qin Tiange left early in the morning and came to this ancient ape-man site, knowing that there is a secret entrance here.

The top of the ape-man cave is cast with three bronze statues of the ape-man cave. Below it is a huge cave. This is the ape-man cave.

Strangely, there was a hint of ice and cold in the cave, extremely cold, much colder than the outside.

“Sure enough, there is a secret place ...” Qin Tiange watched the cave cold, with a smile on his face, and determined that there was really a secret place entrance.

As he had guessed, the rumors of the previous life were true. Although they had not entered, at least they had heard of these things.

He looked around, without hesitation, lifted his foot into the cave, and a moment of cold air rushed towards him.

In the cave, the frosty air was very strong, and the further it went, the stronger the frosty air, and even a trace of frost covered the rock surface.

“The cold air came from here.”

Not long after Qin Tiange entered, a white figure came down from the mountain, with snow flowing, his eyes cold, and looking at the cave, the comer turned out to be a Snow Girl.

She came here and had to say that she was lucky and could sense the cold fluctuations here, which seemed to benefit from her own talent.

Snow Girl didn't stop, walked directly into the cave, and went straight in the direction of the cold air.

In the cave, Qin Tiange walked swiftly, and the dim cave could not block his sight, and quickly walked through the cave in all directions.

There are huge and bright stalactites everywhere, dense and dense, with a little bit of fluorescence flashing in the night, it is particularly conspicuous.

Of course, Qin Tiange didn't pay attention to this, but noticed that as he walked inside, the chill became more intense, and the ice silkworms hidden in his hair jumped out and shouted.

“Relax, we'll be there in a moment.”

Qin Tiange comforted the ice silkworm, speeded up the pace, passed the ladder created by the artificial excavation in front, climbed up, and soon entered the depth of the ape-man cave.

Inside, the rocks were almost covered with frost, and the cold frosty air couldn't stand the entrance of most people.

Of course, for Qin Tiange, this cold frost is like pediatrics, and the temperature is only three to four degrees.

His strong strength gave him absolute confidence, without fear of any challenges, and went straight to the core of the frozen cave.

There, there is a wide area, surrounded by frozen ice, each one is extremely sharp, revealing the cold mang.

The temperature here is even lower, and even a low temperature of about 30 degrees is unbelievable.

“The mystery is here ...” Qin Tiange stopped and looked at the dense ice crystals in front of him.

In the central staggered area of these ice crystal spikes, a cold chill is emerging, freezing everything around.

In the cold air, a trace of ripples, faintly visible, that is the entrance to the mystery, which is Qin Tiange's target, the extremely cold mystery.

The extreme cold secret is a peculiar secret, the temperature is extremely cold, and the temperature is extremely low, and it is really unbearable for ordinary people to enter it.

Click! Click!

Qin Tiange's halberd waved and chopped off the ice crystal spikes blocking the road in front, and saw the strange ripple that spewed the cold air, which was the entrance to the extreme cold secret.

With a hint of joy, he stepped directly into it, standing against the cold, passing through the rippling secret entrance and disappearing here.

Huh?

Soon after he entered, Snow Girl arrived, looking at the entrance to the mystery in wonder.

She blinked her eyes, staring at the ice crystals scattered on the ground, and then looked around the entrance of the mysterious area that was blowing cold air, which had just been artificially destroyed.

“Someone has come!” Xue Nu looked dignified and carefully sensed the breath left in the air around him, but unfortunately it was weak, as if the man had deliberately converged.

However, in the end, she caught a breath of familiarity and stopped for a while.

“Is he?” The Snow Woman murmured, her eyes lit up with a gleam, and she walked straight into the entrance to the mystery without saying a word.

She sensed that familiar atmosphere, guessing that it should be Qin Tiange’s, and the cold heart lake couldn’t help a wave of fluctuations.

...

Extreme cold secrets, covered with glaciers everywhere, crystal icebergs towering, snow-capped, everything is covered with a thick layer of silver.

call...

The cold wind is cold, the frozen person cuts through the bones, and scratches the skin and feels like a knife cut. In such a harsh environment, ordinary humans and creatures simply cannot survive.

I was surprised to see a ripple on a huge glacier, and suddenly a figure emerged from the space. It was Qin Tiange.

Holding the halberd, he swept around vigilantly, and saw the ice and snow here. There was no sunlight, only the icy cold wind and snow.

“It’s so cold ...” Qin Tiange looked surprised and secretly felt the temperature in the ice secret, at least one minus Baidu.

Yes, the temperature in the extreme cold secret zone is below minus one Baidu. The terrible low temperature has caused the terrible scene here.

Throughout the mystery, it is these glaciers that are as hard as steel, which is truly incredible.

Ding Ding!

Qin Tiange struck the glaciers on the ground with a spear, and the sound of golden iron and iron clashes came out. Although the ice was broken, it was enough to see that these glaciers were extremely hard.

Some ice cubes are harder than steel, and even some special ice crystals are stronger and stronger than steel. I have to say that the magic of the great universe creations.

These mysteries should have landed on the earth from the sky after the advent of the doomsday, attached to the earth’s space orbit, and formed large and small mysteries.

It is strange and mysterious, which has caused countless human desires for exploration. Unfortunately, secret places are extremely dangerous places, and many people die in them.

“Here, there must be some kind of extremely cold treasure with strong cold.”

Looking at this extremely cold secret, Qin Tiange made such a guess, he looked forward with a glance, and jumped away with the halberd.

He moved quickly above the glacier, leaping past, looking for opportunities and treasures that might exist here.

Qin Tiange didn't know at all, after he entered this secret realm, Xue Nu followed her into the extreme cold realm.

Unfortunately, although the two people entered the same entrance, they appeared in different places.

Therefore, Qin Tiange did not see Snow Girl, and after entering, Snow Girl did not see Qin Tiange, and the two began their own treasure hunt in this frozen secret.

Uh ...

After entering the extreme cold mystery, the ice silkworm seemed extraordinarily active, barking constantly, looking excited and comfortable.

Yes, Bing silkworm likes this kind of environment the most. It is flying around Qin Tiange happily, crossing this side and running over there.

But soon, the ice silkworm stopped, as if sensing something, rushed to the barking in front of Qin Tiange, looking very excited.

“You guy, what did you find?” Qin Tiange was surprised, asked a question, and then communicated with the ice silkworm with Phoenix talent.

“Master, master, I feel there is something good over there ...” In the sea, the immature voice of Bing silkworm surprised Qin Tiange.

He murmured secretly, could Ice Silkworm still be unable to find treasure? With a hint of doubt, Qin Tiange let the ice silkworm lead the way and quickly hurried in one direction.

There is a towering iceberg, a huge mountain as high as several kilometers. It doesn't look like the product of the earth, it must come from outer space.

Beneath the iceberg There is a huge valley in the snow and ice, hiding some kind of treasure.

Uh ...

“Master, that thing is in it, it smells delicious ...”

The ice silkworm's immature words kept telling, urging Qin Tiange to enter it quickly, there was something good in that ice valley.

Listening to the tender words of Bing silkworm, Qin Tiange was speechless. Before he saw it, he knew whether it was delicious or not. Is it some spiritual thing?

With a touch of expectation and excitement, Qin Tiange quickly rushed into the ice valley with the ice silkworm, and soon came to the center of the ice valley.

To his surprise, there was a strange liquid in the ice valley. Yes, it was a liquid that was not frozen.

“What kind of liquid is it that can keep it from freezing at minus one degree below Baidu?” Qin Tiange was surprised and looked at that little liquid.

But at this time, the ice silkworm was excited to scream, attracted Qin Tiange’s attention, and saw that above that little liquid, there was a strange snow-white plant growing.

Chapter 436 - Bing Xinguo, flawless

A peculiar plant, crystal clear, flawless white, three inches tall, hanging three ice crystal-like fruits, the size of a thumb, exudes fragrance.

“Bing Xinguo?”

Qin Tiange was surprised. Looking at this plant, it is Bing Xinguo. It grows in extremely cold places and absorbs the cold and grows. It has a magical effect.

This kind of iced heart fruit does not need to be used as medicine. It only needs to be picked and eaten after maturity. Once you take this kind of iced fruit, you can get a strange ability.

It is learned from the pharmacist’s inheritance knowledge that this kind of ice heart fruit is extremely rare and unmatched. Eating a piece of ice heart fruit can give people a powerful state of mind.

Bing Xinguo, you can get a wonderful state of mind, known as flawless and pure heart, as pure and immaculate as ice.

Flawless and innocent is an extremely mysterious state of mind. In this state of mind, one can gain a strong comprehension.

“Well, I didn’t expect it to be Bing Xinguo.” Qin Tiange said, looking at the ice silkworm, he could sense such a treasure.

If he really couldn’t find it, Bing silkworm could find it, and I have to say that Qin Tiange had unexpected surprise.

Without hesitation, he went straight up and pulled up the three-inch-high ice-heart fruit tree, and at once, the whole fruit tree was withered strangely.

When Qin Tiange saw this, his heart moved, he instinctively took out a jade box, and gently caught three crystal clear ice heart fruits.

The fruit tree was transformed into a few pieces of ice crystals, scattered and completely disappeared. It was really amazing.

“It’s a pity ...” Qin Tiange secretly regretted it. He wanted to take it back and try to see if it could be cultivated in the **** soil.

Fortunately, there are three crystal ice heart fruits, one is enough to allow him to obtain that wonderful and extraordinary state of mind.

Gently picking up an ice heart fruit, Qin Tiange was surprised and found that his fingers had formed a thin layer of ice crystals. The terrible cold air invaded his body, but was burned by the chaos flame.

Grunt!

After swallowing Bing Xinguo, Qin Tiange felt that what he swallowed was a piece of Wanxuan ice, which was extremely cold, and then melted into a torrent of black ice and poured into the heart.

There was a strange and crunching sound, and the whole mind became dull, as if frozen for a moment, and there was a slight pause in thinking.

But soon, a wonderful scene happened. Qin Tiange felt that all his thoughts were frozen and disappeared, leaving only a purely flawless mind.

“If the heart is clear, the sky will not be shocked!” Qin Tiange murmured to himself, looking extremely indifferent, as if everything could not be shocked before everything.

At that moment, his state of mind entered into a state of absolute purity and timelessness, as if it were ice crystals, very mysterious.

Perhaps this is the so-called state where the heart is clear, and the sky is not scared, and it is a great help for Qin Tiange.

With the flawless Bingxin and the super brain, Qin Tiange felt at this moment that a kind of perception in his mind was sprouting.

He found that the third form of swordsmanship that had already touched the threshold had a lot of comprehension in an instant. Emerged.

Huh!

Almost instinctively, Qin Tiange drew his sword and heard only a bang, and a huge glacier in front of him turned into a ***** powder.

Yes, a sword splits a glacier several hundred meters high into powder, and a little bit of white ice crystal powder is flying away, and it is rolled around by the cold wind.

Qin Tiange froze, the whole person fell into the realm of the timeless Bingxin, without a trace of fluctuations in his mind, like an ice mirror, extremely transparent.

call!

For a long time, Qin Tiange woke up from that understanding and looked at his masterpiece, but there was no expression of joy on his face, even a little fluctuation, as if relentless.

This is the timeless Bingxin, no thoughts are born, as if all thoughts that should not have been frozen at this moment.

“Interesting Bingxin fruit ...” Qin Tiange said lightly.

Soon, he woke up from that wonderful ice state of mind and returned to normal, only to understand the power and terrible of this state of mind.

It's like a terrible mentality of absolute calm, even relentless, and the whole person seems to have lost all emotional fluctuations at that moment.

“Unexpectedly, I quickly realized the third style of swordsmanship. The power was beyond my expectation.” Qin Tiange murmured to himself with a trace of emotion.

The third form of swordplay was realized by him.

Looking at the ice crystal powder rolling around, the hundreds of meters high glacier disappeared, and the sword was even more powerful.

The first style of swordsmanship is unparalleled, the second style has the king’s majesty, and the third style reveals endless destruction, as if the emperor was furious and the blood splashed for thousands of miles.

Qin Tiange thought for a while and murmured: “The third form, through a wave of destruction and killing, is the so-called emperor’s anger, and the blood splashes thousands of miles, it is called the anger of the emperor.”

I don’t know if it’s instinct, anyway, Qin Tiange thought of this name subconsciously, and I have to say that he felt weird.

Uh ...

At this time, the scream of Bing silkworm woke him up, looked up, and found that the ice silkworm was swimming in that strange liquid.

Yes, the ice silkworm swims in it, jumps happily, then dives into the liquid, and soon all the liquid gradually decreases, and finally disappears.

There, the liquid disappeared, leaving only a faint icy silkworm, transparent throughout, exuding a strong cold, freezing the air.

The ice silkworm slammed into a full spit, flew up to Qin Tiange’s head, and curled up in his hair and fell asleep.

“Ice silkworm seems to be ready to fall into a cocoon again.” Qin Tiange was surprised and found that the ice silkworm was approaching the stage of cocooning again.

This made him curious, what kind of effect can those strange liquids not be frozen into ice in the extreme cold secret?

It is a pity that it was absorbed by the ice silkworm. Otherwise, you can take a little research and study, but it is already a great gain to get three ice heart fruit.

Qin Tiange is not greedy. He was thinking that there should be many cold treasures in the extreme cold secret, and even a lot of ice-based spirits.

“Little guy, don’t go to sleep first, and then induction to see if there is any treasure?” Qin Tiange suddenly remembered, and immediately called the sleeping ice silkworm.

This ice silkworm squirmed lazily, and after screaming twice, finally got a careful and spiritual induction to see what treasure there was.

Huh!

Soon The ice silkworm trembled and seemed to be anxious, screaming constantly, seems to sense something.

Qin Tiange communicated with the talent of Phoenix, and soon understood the meaning of the ice silkworm, and even said that he sensed some biological breath.

In fact, Qin Tiange has already sensed the biological atmosphere without the need for induction and reminders from the ice silkworm, and his face is somewhat dignified.

Because, he felt the dense biological atmosphere around him, a huge number, extremely amazing.

“What is it?” Qin Tiange looked dignified, soared straight and leapt, rushed out of the ice valley, and stood on the top of a glacier and looked around.

Soon, he saw a large number of creeping things around, and knew at first sight what it was.

Wow ...

Ice debris was flying, a three-inch-long bug crawling fast through the glacier and snow, rushing over to Qin Tiange.

Chapter 437 - Mysterious Ice Worm

“Xuanbing Worm?”

With a surprise, Qin Tiange swept across the densely packed insects, all of which were transparent and shining with the color of ice crystals.

This is the Xuanbing Worm. It looks like a thumb, but is very scary. It can eat any creature.

Mysterious ice worms, which grow in extremely cold places, are not afraid of frost and cold, and can even breathe cold and freeze the surrounding environment, which is extremely scary.

The most frightening thing is that the Xuanbing insects appear in groups. Of course, they will only stay in the snow and ice, and they will not appear in the tropics or other places without snow.

Uh ...!

The ice silkworm gave out a sharp hissing, showing anger and warning, and instantly caused the dense crowd of mysterious iceworms to pause and even riot.

But soon, those Xuanbingworms recovered abnormally and continued to pour up, as if something was controlling them.

“There is a King of Xuanbing Worm.” Qin Tiange soon realized that there was a powerful King of Xingbing Worm to control, otherwise, the hissing sound of the ice silkworm would definitely stop these Xuanbing Worm.

Hiss ...

The ice silkworm was angry, and jumped up from the top of the head, making a few rounds and making two laps, instantly crushing dozens of mysterious ice insects, and finally stopped these mysterious ice insects.

Qin Tiange stood on the mountains and rivers, and looked at the mysterious iceworm that stopped densely all around, and then looked at the ice silkworm that seemed very angry. It sent out an extremely sharp hissing sound towards the distance, and it spread far away.

hiss...

At this moment, there was a sharp sound of insects in the distance. Immediately, countless mysterious ice bugs rushed up like crazy.

Seeing this, Qin Tiange basically determined that there was a worm king in Xuanbing Worm, which controlled countless Xuanbing Worm to kill him.

Hum!

Qin Tiange's halberd trembled, and it was necessary to burn these mysterious ice insects with chaotic flames. But at this moment, the ice silkworm moved, turned into a silver mang to go through the air, and shuttled back and forth within a 100-meter circle of Qin Tiange, setting off a wave of cold air.

A loud bang made the surrounding area immediately turn into a wall of ice sculptures, blocking the attack of these Xuanbing Worms.

The ice silkworm was hissing, and opened a mouthful of cold, freezing around, and many mysterious ice bugs were frozen into ice sculptures.

However, these mysterious ice bugs are not afraid of the cold air at all, and they are even extremely fierce.

Hiss ...

The swarm of hissing, hissing, rushing to the ice silkworm, seemed to bite it to death, one after the other, coming forward one after another, endless.

Qin Tiange found that the ice silkworm was extremely angry, rushed forward, and opened his mouth to tear and bite a mysterious ice bug, and it snapped into two sections.

In just a moment, the ice silkworm was drowned by numerous mysterious ice worms. The dense mysterious ice worms flooded there like a tide, and gradually turned into a huge mysterious ice ball.

Where all mysterious ice worms flocked to bite the ice silkworm, the ice hockey became larger and larger, and Qin Tiange had to step back to make way for the place.

"Little guy, can you help?"

Retreating to a glacier, Qin Tiange passed a thought in his heart, but Bing silkworm's response surprised him.

"Master, don't need to help, I will defeat them, and even defeat their king." Bing silkworm's immature words came with a sense of pride.

Yes, the ice silkworm is very proud. It has a strong self-esteem. These ordinary one-star and two-star Xuanbingworms dare to fight against it, it is just trying to die.

Click, click, click ...

A crisp, biting sound came, and the dense black ice bugs converged into a huge ice ball, rolling there, rolling back and forth, and the hissing sound was deafening.

They are biting the ice silkworm, but they are bitten by the ice silkworm one by one. How much it bites, even swallows and bites the iceworm, eating it.

Ice silkworm, which has successfully transformed into a four-star, is preparing to enter the fifth life and death change, but encounters this group of mysterious iceworms, and naturally eats as a snack.

Huh!

Suddenly, Qin Tiange's body moved, reached out and grabbed a mysterious ice worm to return to its original position, pinched the mysterious ice worm, and observed it carefully.

Mysterious iceworm with thumb size, full mouth fangs, crazy opening and closing, want to bite Qin Tiange's finger, but it can't bite.

This mysterious ice bug is crystal-clear, and it feels extremely cold, even freezing a layer of ice crystals on its fingers, which has to be said to be terrible.

Click!

With a pinch, Xuanbing Worm exploded directly, and an ice crystal liquid splattered out. It was Xuanbing Worm's blood, which penetrated the cold air, instantly frozen around and turned into a piece of ice.

"Interesting ... unfortunately unconscious." Qin Tiange found it interesting, but unfortunately these Xuanbingworms were not as conscious as the ice silkworms.

These Xuanbing Worms are like unconscious worms. They are extremely ferocious. No matter how powerful the ordinary Xingbing Worms are, they cannot give birth to their wisdom.

In addition to one, it is the Xuanbing Worm King, and only the Worm King will be born without the weak human consciousness.

In front of it, the huge ice hockey ball rolled bigger and bigger, and thousands of mysterious ice worms came, converging into such a mass, rolling and surging in the ice and snow.

Dense worms drilled around and looked at the scalp, the timid person might be scared to death at first glance.

However, Qin Tiange saw it with interest, and felt that the ice silkworm's breath was getting stronger and stronger. It was speculated that it had swallowed the Xuanbingworm and obtained some kind of metamorphosis.

Sure enough, with the passage of time, the number of mysterious ice worms surged to 100,000, and finally the entire ice valley was filled, turning into a worm valley that swarmed.

Hiss ...

A scream of insects pierced the sky, and the hissing sound was full of ferocious, all ancient species, extremely ferocious.

Surprisingly, such a powerful and cruel Xuanbing Worm was devoured by the bite of the ice silkworm, and no Xuanbing Worm was its opponent.

No matter how many, Xuanbing Worm still can't beat the ice silkworm. It has swallowed. I don't know how many Xuanbing Worm. The whole body gradually expands, crystal clear, like Xuanbing structure.

hiss!

Finally, a horrifying worm crowded from the mountains and rivers in the distance. There, there was an exceptionally large bug standing on the top of the glacier.

Qin Tiange lifted his eyes, a flash of surprise flashed in his pupils, and that was the King of Xuanbing Worm.

The insect king was crystal-clear, exuding a strong cold, and the air was frozen by the cold emitted by it into snowflakes.

The king of insects appeared, and countless mysterious ice worms receded, retreating like tide water, leaving only the corpse of mysterious ice worms, and one ice silkworm that glowed all over.

hiss!

The ice silkworm hissed at the insect king over there, full of arrogance and provocation, as if the two insect kings were fighting.

There, the king of Xuanbing Worm shook his head, his mouth full of fangs, with the color of ice crystals, his mouth spit violently, and a long black ice was frozen out.

boom!

Suddenly, the king of Xuanbing insects moved, and the entire glacier collapsed instantly, causing the snow and ice to fall apart.

It launched a violent attack and directly killed the ice silkworm. This ice silkworm who dared to provoke it must die.

As the King of Insects, you have a proud heart and powerful power, otherwise it would not be possible to become the King of Insect Swarm.

hiss!

The ice silkworm also moved, hissing, and lost two traces of it, colliding directly with the Xuanbing Worm King on the opposite side.

Just listening to the roar, the sky blew, two bugs collided in the air, and huge wind and waves rolled up and rolled into the sky.

The Xuanbing Worm King is extremely powerful, with a body size two times larger than that of the ice silkworm.

However, the ice silkworm is not weak. The two collided in the air, gradually biting into a ball. You bite me, and I bite you.

Bang bang ...

The two bugs hit the ground from the air, drilled into the ice and kept biting together, and after a bite, ice debris flew.

hiss...

Xuan Bingworm Wang Sheng fiercely, hissing and biting the ice silkworm, the tusks' tusks went down, and the ice silkworm was bitten seriously.

Strangely enough, the ice silkworm was able to recover quickly on its own, and the injury was restored in the blink of an eye. The mouth bit the mysterious iceworm and clicked, swallowing a large piece of ice crystal flesh.

The worms are fierce. Either you swallow me or I eat you. The ice silkworm and the Xuanbing insect king actually bite each other and devour each other, looking extremely scary.

Qin Tiange had to be sighed. The battle for hegemony between the insect kings was really full of blood and cruelty, either you died or I died.

Both bugs are fierce. Whether it is the Ice Silkworm or the Xuanbing Worm King, only one of them can survive.

Looking at the Xuanbing Worm King's breath became more and more intense. On the other hand, the ice silkworm was weaker, and the opponent was more than one. The level was not in a grade.

Qin Tiange can see that this Xuanbing Worm King is a powerful seven-star worm. The ice silkworm is only four-star. It can be considered amazing to compete with the King of Worms.

He thought, when the ice silkworm couldn't support him, he shot and killed the Xuanbingworm King directly. But as soon as his thoughts were born, a word from Bing silkworm came.

"Master, don't help me. I have to defeat the Xingbing King in person to control those Xingbingworms."

Bing silkworm is proud, without Qin Tiange's help, you must defeat the Xuanbing Worm King yourself, crush the other party, and even devour the other party to evolve yourself.

Only by defeating the insect king in person can he get the recognition of those Xuanbingworms. Of course, Qin Tiange doesn't think so.

Look at the Xuanbing Worm around him. Once the Xuanbing Worm King loses, don't think it will definitely let his tens of thousands of Xuanbing Worm directly attack the ice silkworm.

Hiss ... A scream of sorrow came from, and I was surprised that the king of Xuanbingworm was bitten by the ice silkworm, and a large piece of ice crystal flesh was swallowed.

It suffered a heavy blow, a stream of blood filled with cold air, and the Xuanbingworm King under the fury directly ordered the Xuanbingworm army to attack.

Booming ... A roar caused a large avalanche phenomenon. The army of more than 100,000 mysterious ice bugs rioted and came up under the command of mysterious ice king.

As a result, the dense mysterious iceworm once again turned into a huge ice hockey ball, constantly wriggling and tumbling in the ice valley, hissing and bursting into it and biting the ice silkworm.

The Xuanbing Worm King actually tried to eat the ice silkworm with more deceit and less, because its instinctual induction had a breath in the ice silkworm.

hiss...

An angry hissing sound came out, and I was surprised to see that a ray of ice flames rose, the burning flames boiled, and the surging black ice insects were burned into slag.

That is a unique talent of the ice silkworm, Nirvana Ice Flame, a strange power obtained from the strange transformation of the Phoenix Nirvana.

Chapter 438 - Frost Monster

As soon as Nirvana Bingyan came out, it caused huge damage instantly, burning a mysterious ice worm into ice slag, and dripping crystal ice worm blood condensed away and inhaled into the body of the ice silkworm.

hiss...

The swarms screamed and screamed, struggling, trying to escape these terrible ice flames, but still couldn't escape the fate of being burned into liquid.

The mysterious iceworm was absorbed by the ice silkworm's talent Bingyan into the essence to absorb, which could anger the Xuanbingworm King. On the spot, an infinite cold was blown out to freeze the ice flame.

Strangely enough, instead of being extinguished, Bingyan burned a bit more fiercely after encountering the cold. It seems that the cold air is the burning nutrition of Bingyan.

Click!

I was surprised to see that the ice silkworm opened his mouth to bite the Xuanbing Worm King and never let loose, so he bit the Xuanbing Worm King so hard that a whole body of ice flames enveloped the Worm King.

Bing Yan and his body, the insect king cried in horror, and found that the hard and cold mysterious ice armor was burned.

It struggled hard, the biting teeth bit the ice silkworm biting and twisted into a ball. As a result, it could not get rid of the ice silkworm and was bitten by it.

The ice silkworm and the insect king bite each other and fought fiercely. The scene flew flesh and blood, each with scars, but the ice silkworm was more resilient.

He quickly recovered under the cover of Bingyan. On the other hand, the King Xuanbing Worm gradually weakened, and Xuan Bingjia melted completely.

Hiss ... With a terrible hiss, Xuanbing King fell down weakly, wailing and showing unwilling thoughts.

The powerful King Xingbing Worm doesn't lose the wisdom of ordinary humans, but unfortunately it encountered this ice silkworm who followed Nirvana with Qin Tiange and had already produced a strange transformation.

For example, Nirvana Bingyan is a talented ability derived from the transformation of Phoenix Nirvana, much like Phoenix Nirvana.

Of course, this Nirvana ice flame of Ice Silkworm is just the opposite, full of coldness and destruction, unlike the scorching fire of the Phoenix.

Hiss ... His ... His ...

The insect king wailed and fell down, and was finally swallowed by the ice silkworm bite by bite. In the end, countless mysterious ice bugs wailed.

Among the dense black ice bugs, there are some of the most powerful black ice bugs. They are madly culled to kill the ice silkworms. They are the guards of the black ice bug king.

Unfortunately, these loyal Xuanbing King guards were burned one by one by Bing Yan into the essence, and soon they were swallowed and absorbed by the ice silkworm.

As the king of the insects died and was swallowed by ice silkworms, all the Xuanbingworms began to panic and fled, leaving no one to dare to stay.

As soon as the insect king died, the Xuanbingworm dispersed without control, fled quickly, and some ran into the ice.

The ice silkworm hissed, and wanted to control these mysterious iceworms, but soon it found that it was about to fall asleep and went directly to the fifth death.

It eats too much. I don't know how many mysterious iceworms it has swallowed. In addition to a seven-star mysterious iceworm king, it must immediately cocoon into life and death, or it will explode immediately.

In the end, the ice silkworm had to give up the intention to control the swarm, and let them leave to escape. Instead, they ate the last few insect kings to guard the corpses, flew into Qin Tiange's hair, and concealed. Began silking.

“Master, oh ... I'm too full ... well ... to sleep ...”

This sentence came from the ice silkworm intermittently, and then fell completely into a deep sleep, a trace of mysterious ice flame boiling and burning, forming a silkworm cocoon into life and death.

Qin Tiange couldn't help crying or crying. Looking at the ice silkworm that was directly sleeping on the cocoon, he felt helpless, and then he fell into metamorphosis. I have to say that the ice silkworm is strange. As long as the energy is sufficient, he can immediately fall into metamorphosis.

Of course, metamorphosis is risky, but he believes in the talent and potential of the ice silkworm. Since following him into the Phoenix Nirvana, the ice silkworm has become different.

Without much worry, Qin Tiange looked at the scattered Xuanbing Worm and was about to leave here, but he suddenly felt a slight vibration from the glacier beneath his feet.

Rumble ...

Icebergs trembled, ice and snow collapsed, causing huge avalanches, and even many glaciers cracked directly, causing the terrible phenomenon of fractures and landslides.

Qin Tiange was horrified, watching the glacier trembling under his feet, getting more and more violent, and gradually he felt something wrong.

“The glacier is rising?” Qin Tiange looked horrified, feeling that the glacier at his feet was slowly rising.

The next moment, a strong wave of life came from the glacier under his feet, which caught Qin Tiange’s attention and his face changed slightly.

The glacier at the foot has fluctuations in life. You can guess without thinking about what mountain range this glacier is, but a behemoth.

boom!

After a loud noise, the mountains were undulating, and several huge glaciers were uplifted. After a closer look, I was horrified to find that it was a huge creature.

“The Frost Beast?” Qin Tiange stood on the constantly glaciating glacier, and looked at a huge monster standing upright at his feet. It was the Frost Beast.

He even stood on top of the Frost Beast. It was incredible that what made him chill was that he had not sensed any life fluctuations before.

The Frost Monster is one thousand meters high. It is covered with thick black ice armor, exuding a strong cold, and vomiting frost. It freezes everything and is called a Frost Monster.

This monster is extremely scary. One is its defensive power. The thick black ice armor is difficult to break and hurt the monster. A terrible cold can freeze a thousand miles.

Huh!

The Frost Beast roared and looked very angry, unclear why he was angry, but he woke up from his deep sleep.

Standing on the glacier with its shoulders raised, Qin Tiange looked dignified, staring at this angry and roaring frost beast, speculating in his heart that it should be related to those black ice bugs.

Mysterious ice bug, is it a parasite on the skin of this frost beast? This speculation was quickly confirmed. On the body of the Frost Beast, a mysterious crawling crawling on the body of the Frost Beast, is making Xuan Bingjia for the Frost Beast.

“That’s it!” Qin Tiange knew it when he saw it.

The frost beast is covered with hard and extremely hard black ice armor, which is constructed by countless black ice bugs. Now the king of black ice bugs have been killed and numerous black ice bugs have been burned to death, which naturally shocked this sleeping frost beast. .

Xuanbing Worm is the craftsman on the surface of Frost Beast. He constantly provides the production and repair of Xuan Bingjia to strengthen the Frost Beast.

In Qin Tiange’s opinion, the strength of the Frost Monster was beyond imagination, and he could not feel how powerful the Frost Monster was.

Roar!

Suddenly, a roar came, and the cold billowed, accompanied by the rumbling sound of horror, and nearly sent Qin Tiange to Zhenfei.

However, he stood here steadily, but his face was gradually dignified, staring at the frost beast, the other party found him.

A huge head, a sloppy face, resembling ice crystal structure, a pair of crystal-like eyes, hung in the void like two lanterns.

The frost beast waved a palm against his shoulder and slammed a bang, the glacier shattered, and even the mysterious ice armor on his body cracked a gap. You can imagine this How horrible it is.

Huh!

Qin Tiange dodged quickly, leap into the air, and quietly looked at the terrible frost beast in front of him, roaring and slapping at him.

The huge palm, like an ice sculpture, cracked the air with a click, and banged on an ice and snow peak in front.

Just listening to the loud noise, the iceberg shattered on the spot, scattered into countless pieces of powder, and was scattered into pieces with a slap.

boom! Boom boom ...

The Frost Beast was furious, waving his palms, and constantly patted the tiny figure, but unfortunately he was avoided by the other side.

Comparing Qin Tiange with the Frost Monster, it is like a mosquito and an elephant. The two are not comparable at all. If he is not fast enough, he may be shot dead.

The horrible frost beast, slap down, a huge pothole was punched in the ice and snow, the mountains fell, and the glacier was destroyed.

A rumbling avalanche came, the sky shook, the frost beast shouted and chased Qin Tiange, his feet on the glacier, and he immediately collapsed.

That kilometer-high body is simply a behemoth, and there is no way to start, because it is covered with dozens of meters of black ice armor.

The defense power of these Xuanbingjia is extremely amazing, and the defense power becomes stronger the more they go inside, that is, Qin Tiange wields the halberd, which can only smash more than ten meters, less than half under full force.

boom!

Qin Tiange dodged quickly, and people were flying in the air, standing straight down, looking down at the kilometer-high frost beast. What surprised him was that the other party could not fly?

Yes, Qin Tiange found that the Frost Beast is powerful, but it is weird and cannot fly. It seems to have some powerful effect in the secret area, making the Frost Beast unable to fly.

“Since you can’t fly, you also **** power.”

Qin Tiange snorted, and a fiery flame rose from his body. The chaos flames burned, gathered on the halberds, and shot down with a bang.

“Dominate the world!”

The outrageous shot was an overwhelming blow. The huge dim shadow was hazy, and it was shot down from the sky with a boundless chaotic flame, and it was split on the frost beast's head.

With a bang, Xuan Ice was shattered, and the Frost Beast roared, and his body was almost bent to kneel, but it was blocked by it after all.

What shocked Qin Tiange was that the overbearing halberd only smashed the thick black ice armor on the head of the Frost Beast, and could not reach the other party at all.

Moreover, the mysterious Xuan Bingjia that smashed and recovered in a blink of an eye under the dense interlacing of countless Xuan Bing insects.

“Xuanbing Worm, Frost Beast, the two complement each other, which is a little troublesome.” Qin Tiange frowned.

The mysterious armor that shattered the frost beast was even repaired by countless mysterious insects, which is a little difficult.

Uh ...

The frost beast roared fiercely, his mouth opened in the sky, and a horrendous cold current spit out suddenly, sweeping the sky, and drowned Qin Tiange's place.

Chapter 439 - Ancient Fowl, Ice Phoenix

The cold current swept across the sky, high above the sky, Qin Tiange was not shocked and rejoiced, his eyes flickered with two amazing rays.

“Good job!”

Qin Tiange gave a low drink, his body was burning with flames, chaos flames boiled, and he carried the halberd wrapped with gray flames and hit hard.

He saw the frost beast opened his mouth and spewed an endless cold current. He grasped this moment in his heart instantly, and Euphorbia broke through the endless cold current and rushed straight into the frost beast's mouth.

boom!

The cold current rolled down, but Qin Tiange broke open from the center, his body struck down in the cold current, and the halberd swarmed sharply, wrapped in endless chaotic flames, and broke all the way down.

Just hearing a click, the Frost Beast's mouth instinctively closed, and as a result, a huge fang was broken by Euphorbia, and a hole was penetrated.

Qin Tiange rushed into the mouth of the Frost Beast with the halberd, transpired in flames, burning, and ran straight down the beast's throat.

Huh!

The beast roared, and found that the little bug had actually penetrated its mouth, and fell down its throat into its huge stomach space.

The frost beast roared wildly, and a horrific cold spewed out, trying to spit out Qin Tiange who entered it.

It's a pity that no matter how roaring it is or how to spit cold breath, it is useless. Qin Tiange's halberd inserted into the wall of its throat, staring at the vast cold current.

Click! Click!

In the monster's throat, Qin Tiange hung there, clutching the halberd with both hands, burning with a gray chaotic flame, burning against the horrific cold current.

This cold current was sprayed from the belly of the frost beast, with strong wind pressure, and the strong impact accompanied by the horrific cold brought him a huge impact.

When his chaotic flames couldn't support it, the ice silkworm with a cocoon on his head instinctively sent out a talented ice flame, which merged into the chaotic flames, and a sudden transformation occurred.

"Huh?" Qin Tiange was surprised, and felt that Bing Yan's autonomous integration into Chaos Flame even strengthened the level of Chaos Flame, and even produced an inexplicable metamorphosis, which was even more powerful.

Chaos, representing the five elements of yin and yang, has incineration and hotness, as well as coldness, and one yin and one can be called chaos.

At this moment, the chaotic flames that blended with the ice flames have just completed the initial growth. The mighty power easily blocked the endless cold current, as stable as Mount Tai.

"It seems that I still don't know enough about the talent and fire of God." Seeing the change of Chaos Flame, Qin Tiange thought in his mind.

Thinking, his arms suddenly burst into terror, holding the halberd inserted in the wall of the monster's throat, and pulled the man along the throat, sliding along the throat of the monster to open a huge scar.

Uh ...

Outside, the Frost Beast screamed screaming, covering his throat with both hands, his expression a little stern and painful.

Its throat was scratched by Qin Tiange from the inside, and on top of the wound was a horrible chaotic flame attached to it, not afraid of cold current erosion, but drew cold to strengthen itself and burn.

The beast roared, rolled painfully in the snow and ice, and broke glaciers. Wherever the body passed, the glaciers must collapse and shatter.

The sky shook and the powerful Frost Beast entered Qin Tiange's throat, which prevented it from exerting its power.

Because of the huge body of the monster, Qin Tiange had the opportunity to take advantage of it, and even destroyed it from the inside. Chaos flame almost ran along the throat pipeline of the frost beast, roaring raging, burning the entire beast's internal organs.

Bang!

The Frost Beast suddenly rose into the air, slammed down, and kept rolling, extremely painful. The internal organs of the body were burned by chaotic flames, and the severe pain made it intolerable.

Uh ... roar!

The mighty Frost Beast is an ancient ferocious species, and it is difficult to give birth to spiritual intelligence, only a brutal will to kill and instinct.

This monster is terrible, but it also has weaknesses. For example, the body is its weakness. Of course, ordinary creatures must be frozen by the cold current and then swallowed and digested.

However, Qin Tiange is different. He has a phoenix fire, and his talents are chaotic flames. The ice silk flames blended with the ice silkworm's talent became more hazy, as if it was not a flame, but a kind of chaos.

Uh ...

Suddenly, with the roar of the beast, the nose and mouth bleed, and a cloud of gray flames was sprayed out, and there was the chaotic flame after transformation.

At this moment, the beast was tumbling and mourning in the snow and ice, his expression was painful, his cry was shocking, and it was shaking for hundreds of miles.

Soon, more and more chaotic flames emerged from the beast's nose and nose. The flames burned, and the fire spread uncontrollably, directly covering its huge body.

Howl ...! With an extremely screaming roar, the frost beast sprayed cold currents, trying to extinguish the flames on the body, and even the source of the cold current in the body suddenly burst out. The endless cold swept the body's internal organs, and wanted to extinguish the burning flame .

But unfortunately, the flame of chaos still burned, and even became more and more prosperous, which directly burned the body of the Frost Beast's internal organs, and instantly turned into a strange liquid.

Refining, yes, Qin Tiange turned the frost beast into chaos flame in the body of the beast, just like the essence of tempering medicine.

He had a whimsy, could he treat the Frost Beast as a medicinal material? Do it as you think, the endless chaos of flames sweeping over, enveloping the frost beast.

From the inside out, the endless chaotic flames boiled, and continued to burn and then burn, a little bit of the frost beast completely melted.

First, the outer mysterious ice armor was melted, and numerous ice bugs were burned into ashes. Soon, as the mysterious ice armor was broken and melted, the body of the frost beast began to show signs of melting.

Alas ... A weak and lamenting wailing came out, and the Frost Beast rolled over, and finally fell weakly there, motionless, and let the chaotic flame burn and refine inside and outside the body.

It was burned alive, and watched as its body was refined into a stream of pure energy fluid.

The powerful and ancient Frost Beast, this killing beast, was even refined by Qin Tiange Sheng with chaotic flames.

I have to say that Qin Tiange's method is really terrifying. If he is able to play against the Frost Beast by his current ability, it is only a matter of time before defeat.

But from the inside, it's different. Just like now, the powerful and ancient Frost Beasts have been incinerated into energy essence by him.

"I didn't expect Chao Chaoyan to have this ability, to burn the essence." Qin Tiange couldn't help but marvel at the monster.

Watching the body of the Frost Beast being burned into chaotic flames by energy liquids, I have to be impressed with the power of chaotic flames, and even have the ability to extract the essence of biological energy.

Soon, a frost beast that was one thousand meters high was just smelted alive, leaving only a large mass of energy liquid floating quietly in the rolling chaotic flames.

Huh!

A figure rushed out of the flame, floating quietly, staring at the chaotic flame boiling in front of him without blinking, burning a large amount of energy essence in it.

This is the terrible essence extracted from the kilometer-high frost beast, and its energy, including the power of genetic potential, has been extracted.

In such a situation, even Qin Tiange himself couldn't help getting hair, this ability has to be said to be really scary.

Of course, this is one of the reasons why the Frost Monster belittles the enemy, and it is impossible to guess that Qin Tiange rushed into his body from his mouth, and even the ability of Chaos Flame to resist the cold current erosion in his body, which was burned from the inside Die it, and the fire refines it.

"Good things, whether human or biological, taking these energy quintessentials can enhance your strength and even your potential."

Qin Tiange licked his lips, excited, and looked at a large stream of energy liquid quenched by Chaos Flame, that is, all the energy essence of that frost beast.

He has no doubt that if he takes this energy essence, he will definitely break the current level of strength and raise his strength to the limit of four stars.

"Close it up first, find a place to take it." Qin Tiange put up with excitement, dispersed the burning chaotic flames, and went directly to collect the essence of this huge energy.

cry!

At this moment, a fierce cry came from the sky, and it was shocking.

Qin Tiange's face suddenly changed, and he suddenly looked up, and saw a frost sweeping over him. The goal was the energy essence in front of him.

“Look for death!” Seeing this, Qin Tiange was furious, and Euphorbia rolled away with an infinite chaotic flame.

There was a loud bang, the frost torrent collapsed, the chaotic flames dispelled the terrible cold current, and it gradually disappeared.

cry!

In the sky, a huge venomous bird came across in the sky, with a wingspan of 20 meters, a body length of 29 meters, and a crystal body, like an ice crystal carving.

“Ancient fierce bird, the ice phoenix?” Qin Tiange's face changed slightly, his pupils could not help shrinking, and he secretly surprised that the person who came was an ancient fierce bird.

The so-called ancient venomous bird is the venomous bird that looks like a phoenix in front of it. It is not a phoenix, but it is shaped like a phoenix, and endless dark ice is gathered. It is extremely cruel, without consciousness, and without the nobleness of the phoenix. Some are just Vicious killer.

Because it looks like a phoenix, it is also called an ice phoenix, in fact, it is an extremely cruel and terrible ancient venomous bird.

cry!

A cry, with a fierce fierce vigour, the ice phoenix hovered in the air, Xuanbing's wings, a wisp of strange frost, wherever he passed, the air was frozen into a bit of ice.

call!

Suddenly, the ice phoenix swooped down with a flapping wings, fast as lightning, and rushed directly towards the refined energy essence of the beast. The goal was this.

“Dare to come and grab my stuff and kill!”

Qin Tiange was furious, roared, his body turned into a firelight, and a phoenix came out from the flame, shaking the earth.

Immediately afterwards, an ancient **** phoenix with a chaotic flame rushed out of the flame and soared for nine days, hitting the ancient fierce ice phoenix that was down in the sky.

Two phoenixes, one ice and one fire, hit each other directly in the air.

Chapter 440 - Divine Bow, Divine Arrow, Extreme Power

, The fastest update of the darkest * latest chapter!

boom!

The sky blew, the flames flew, and the broken ice broke apart. The two phoenixes collided quickly, their wings hit each other, and they banged.

Qin Tiange turned into a **** phoenix, burning wildly in the sky with chaotic flames, the ice phoenix was fierce and surging, the endless cold was violent, the wings were rolled, and the sky was hail.

cry!

The roaring birds croaked and rolled up with numerous hailstones, but all were blocked by Qin Tiange's chaotic flames and burned into steam.

Two phoenixes, one ice and one fire, were against each other. Two terrible energies collided and fought against each other in the sky. In the end, Chaos Flame was even better.

“Kill!” Qin Tiange shouted, shaking his wings, and the endless chaotic flames rolled away, banging on the cold sky, collapsing the defense of the Ice Phoenix, and directly hitting it.

Suddenly, Bing Fenghuang was wounded, his black feathers shattered, and a scream was made.

Ice Phoenix is very powerful. After being injured, he opened his mouth and breathed in the endless frost, and he recovered instantly.

It has no intelligence, only fierce instincts, a pair of red eyes, staring at the original energy of the frost beast below.

It was this energy that attracted it, but it was unfortunately stopped by Qin Tiange. In his instinct, he felt the arrogance and fear of Qin Tiange's incarnation as a phoenix.

cry!

The ice phoenix soared and lingered, swooping down again and again, trying to capture the original energy of the frost beast.

However, Qin Tiange was defeated again and again, and Xuan Bing's feathers shattered several times, but he still could not completely defeat it.

“Don't go, then don't go.”

Seeing that the ice phoenix was still circling, Qin Tiange snorted, and the phoenix was transformed and restored to human form, so it floated above the sky.

I saw that he quickly took out a purple-gold battle bow, and raised a chaotic flame all over, aiming at the ice phoenix in the sky as he pulled the bow.

A fire and sharp arrow condensed and burst out. The sharp arrow penetrated and turned into a **** phoenix soaring for nine days, hitting the ice phoenix above the sky.

cry!

The fire and phoenix sang, and the infinite flame was directed at the sky. The strong oppression caused the ice phoenix's vigilance, and a huge cold current was blown up against the open mouth.

With a bang, the cold current was smashed and turned into boundless ice crystals. The phoenix turned into a phoenix that broke all the way and hit the ice phoenix's body.

Cry ... a scream, the ice phoenix wailed, the two wings were broken, the black ice feathers were shattered, and drops of cold blood were dripping.

It was wounded, but this injury was quickly absorbed by the endless frost and recovered, and the powerful breath became more intense and terrible, and it did not leave.

Qin Tiange watched the ice phoenix not only did not leave, but swooped down, and rushed to the source of the frost giant's original energy again, suddenly angry.

“Look for death!” He gave a sigh, took out a purple-golden arrow to pull the bow, and rattled. The purple-golden bow matched the purple-golden arrow, as if it were a set.

The magical bow and the magical arrow instantly gave out a strange resonance, surrounded by a trace of purple gas, and the golden edge was endlessly vomiting.

collapse!

I was shocked to see that Qin Tiange let go, his bow bowed and shattered, the sharp arrow broke, and he clicked, and the body of the ice phoenix even shattered for a little while.

The purple gold arrow piercing penetrated the body of the ice phoenix, and passed through without any hindrance, and flew back to Qin Tiange's hand after a circle.

cry!

The ice phoenix was frightened, and there was fear. The red eyes blinked fiercely, but at the same time a little flash of fear and fear flashed.

It knew that it was scared. For the combination of Zijin God Bow and Shen Jian, it hit it with a single arrow, and the wound was difficult to heal, and there was some power to prevent it from healing.

Seeing Qin Tiange pulling his bow again, the ice phoenix screamed in horror, fluttered his wings, soared into the sky, and fled in the cold frost.

collapse!

Another scream, the body of the ice phoenix trembling during the escape, was once again penetrated by the Zijin Jianmang, and two heavy wounds caused its arrogant flames to dissipate directly, leaving no anger, leaving only the boundless fear to flutter and fled away go with.

Cry ... Bing Fenghuang screamed in horror. The wound on his body could not heal, and he was finally scared. He flew his wings and dared not stay.

“Want to run?” Qin Tiange grabbed the purple gold arrow that flew back, waiting to be pursued, but soon remembered that the origin of the frost beast had not yet been collected.

He rushed down quickly and directly collected the huge origins of those frost beasts. When it took a lot of time to collect the energy of these origins, it was too late to hunt down the ice phoenix. It ran away.

“It’s a pity ...” Qin Tiange chased as he frowned, watching the icy phoenix escaping, thinking that if he could kill this icy phoenix and refine its original absorption, it would definitely make the phoenix’s ability to change. Go one step further.

Unfortunately, Ice Phoenix was hit hard by two arrows and fled.

After chasing for a while, and no longer felt the breath of Ice Phoenix, Qin Tiange had to stop and regret to give up.

Ice Phoenix fled. This is a loss, which makes Qin Tiange feel depressed, but there is no way. If the Ice Phoenix is hunted down first, the origin of the Frost Beast may be taken away by other things.

After all, he felt a lot of breath in the vicinity. Originally because of the appearance of the Ice Phoenix, and after he finally damaged the Ice Phoenix, some hidden biological breaths quietly disappeared.

I wanted to be scared away. If he chased down the ice phoenix, the source of the frost beast would be captured by those hidden creatures.

“Forget it!” Qin Tiange eventually didn’t care, and ran away. There was still time, as long as he found the ice phoenix, it was not too late to kill.

Packing up her mood, Qin Tiange continued to hunt for treasures in the extreme cold secret, and of course, hunted for some ancient species in the hidden secrets to see what they could get.

He turned to hunt for powerful creatures in the secret realm. Most of the spirits are surrounded by powerful beasts or poisonous insects.

Sure enough, in a valley, Qin Tiange found a seven-star Xuanbing creature, which was guarding a small strange plant.

collapse!

A slamming cry, accompanied by a purple mang through the air, fluttered, pierced a whole transparent ice crystal monster with an arrow, and instantly killed the spot.

Looking at the dead Xuanbing creature, the limbs are thick, the tail is sharp, the cold and cold mans are flashing, the mouth is full of fangs, his eyes are like ice crystals, and he feels a kind of chill.

“God bow, **** arrow, the combination of the two can actually kill seven-star creatures in seconds?” Qin Tiange looked at the **** bow in his hands with a look of astonishment, purple light faint, Jinmang shuttle, looking at the extremely ancient god.

The Zijin Shenjian, with its simple atmosphere, seems to be a set with the bow, which has to make Qin Tiange doubt that both are a set.

The Zijin Arrows were won by lottery, and the Shen Gong was obtained in the assessment task. There seems to be some connection between each other, and they cooperate with each other.

Qin Tiange thought, and murmured, “I don’t seem to have really exerted the power of this bow and arrow.”

This is his inner feeling, thinking that he has not really exerted the true power of the magic bow and the magic arrow, maybe it is that his level of strength is insufficient.

But now it is very good. With the cooperation of the Shen Bow and the Shen Arrow, the general tyrannical creature can also be severely wounded by him, looking for a chance to kill.

For example, the ice phoenix just now, as an ancient fierce bird, is extremely powerful and horrible. If Qin Tiange used the phoenix to fight for a while, the chaos flames would suppress the cold current of the other party, and it may not be able to compete at all.

In addition, he finally wounded the ice phoenix with a **** bow and a **** arrow, but ultimately failed to kill this ancient bird, but you can imagine its strength.

After collecting the corpse of this creature, Qin Tiange came to the plant guarded by it, looked closely, and immediately recognized what it was.

“Bingling grass contains strong cold, and with various medicinal materials, it can make Xuanbing medicament, and the harvest is good.” Qin Tiange dug out this strain of Bingling grass.

Uh ...

Suddenly, there was a terrifying beast roar in the distance, the sound was rolling and deafening.

Qin Tiange stood up, looking suspicious, staring at the direction from the roar, faintly feeling a terrible fierce gas permeating.

Without saying a word, he rose to his feet, quickly flew over there, and soon reached the depths of a glacier.

boom!

As soon as I stepped into it, I saw a glacier smashing and turning into countless pieces, and the cold rolled and the snow rolled out.

Qin Tiange's body is shrouded in chaotic flames, blocking these icing ice and cold currents, rushing into it, standing on a glacier and looking ahead.

It was a valley, extremely huge, with ice and snow in it, and the cold billowing, freezing the surrounding air and frost.

Roar!

In the valley, a roar came out and was shocked to see that two huge beasts were killing each other, twitching with each other, and stirred the whole ice valley.

Qin Tiange was shocked when he saw the two beasts that were killed, but the two beasts were the same, they looked like polar bears, but they didn't have a trace of hair and only a thick layer of black ice armor.

This is a frosty bear, with a huge body and a body of 100 meters. It is extremely scary. It slammed into a landslide, and the glaciers were crushed by both bodies.

On the body of the Frost Bear, there are densely packed sharp black ice spikes spreading over the black ice armor, full of lethality, and even more amazing defense.

boom!

One bear's paw slapped fiercely, and the other frosty bear's face cracked, blood was flying, and the cold air was shining.

The two beasts roared biting and writhing into a ball, both of them had red eyes, and there was no intention of stopping, but the bigger and the worse.

Uh ... Suddenly, a frosty bear screamed, his neck was bitten by the other, and the blood murmured wildly, looking scary.

The giant bear struggled, rolled to the ground, and fiercely counterattacked, but gradually it became weaker and soon lost its voice.

“Two giant bears are fighting for spirits.” Qin Tiange then realized that two Xuanbing giant bears were fighting for spirits.

In the middle of the valley, a three-foot-tall tree grows, with black ice-colored fruits hanging from it.

Huh!

At this moment, the victorious Frost Bear stood up, howling violently, and the sound of waves rolling dozens of miles, proclaiming that it had won.

Huh!

At this moment, a figure quietly descended from the sky, and the halberd buzzed and trembled, swallowing the three-footed sharp edge into the giant bear's forehead.
