

Dark Ages 511

Chapter 511 - Throw it all out

Lianhua Mountain is closed except for the area where the heritage stele is located. It is closed to outsiders and cannot be approached by outsiders.

Chenchen Chen came to Lianhua Mountain in a sullen mood. He had wanted to relax in this park, but as soon as he reached an area, he saw a white tiger lying on his back.

“White tiger?” Chen Huan was surprised, his eyes shone.

In the grass in front of me, a huge white tiger lay there, as if sleeping, exuding a strong tiger power.

Xu Xing felt the arrival of Chen Xi, Bai Hu opened a pair of tiger eyes, glanced at her, and then continued to close and sleep.

“This is my brother-in-law’s mount white tiger?” Chen Yan’s eyes turned straight and he heard Qin Tiange had a white tiger mount. When he saw this white tiger, he guessed that it should be the rumored one.

Then, she opened her mouth, exposed two little tiger teeth, and muttered, “Tell you to bully me, then I will bully your mount, Xiaolonglong, come out and teach the white tiger.”

He said, as soon as she waved her hand, she saw a ray of light emerge, and then a violent terror emerged suddenly, and the arrogant and domineering Yangtian roared loudly.

Howling ... Tyrannosaurus roaring, looking very excited, because it finally came out. It was brought into the painting world by Chen Kun, and he was almost bent to death, and now when he came out, he shouted excitedly.

But the roar was unbelievable, but it annoyed the white tiger over there.

Huh!

He only heard a tiger howling, the sound of waves rolling, and the tyrannosaurus looked scaredly, and saw a white tiger three meters high and eight meters long standing up, his eyes were cold and fierce.

The King Emperor Tyrannosaurus was vigilant, but it had a cruelty. It was an ancient tyrannosaurus, and its genes were all killing and cruel factors.

“Go up, hit it!” Chen Yan’s little face was excited, and he greeted the five-meter-high Tyrannosaurus to go up and hit the white tiger.

Suddenly, the Tyrannosaurus moved, and assaulted with his legs rumbling open, opened his mouth wide and bitten hard at the white tiger.

Roar!

The white tiger roared, raised a tiger’s claw, and patted it hardly. A slamming sound made the head of the tyrannosaurus crooked aside, and its body was about to fall down.

The blow from the palm of the tiger’s palm contains horrible power, and even the six-star Emperor Tyrannosaurus was almost shot on the ground.

Alas ... Tyrannosaurus resounded, and the sharp claws of his forelegs were severely removed, but unfortunately he was stunned to escape by Bai Hu.

Bai Hu, just completed the advanced a few days ago, successfully entered the seven-star level, and it is still extremely powerful. With Qin Tiange feeding a lot of spirits to White Tiger, his talents have been greatly improved.

No, the six-star Emperor Tyrannosaurus was directly violently beaten by the white tiger, and the tiger's claws were slammed hard.

"Xiao Longlong, fight, fight back ..." Chen Yan screamed and drank over there, his face full of anxiety and annoyance.

Alas ... The tyrannosaurus is terrible, and its huge body is crushed by the white tiger. Even the ancient species, the tyrannosaurus tyrannosaurus, is still unable to resist in the face of the seven-star white tiger.

After a short while, the tyrannosaurus bleeds seven bleeds and lay there with a cry of wailing. Fortunately, the white tiger did not kill the tyrannosaurus.

Because she had been reminded by Qin Tiange for a long time, knowing Chen 's identity would not hurt her. As for this pet tyrannosaurus, it was unlucky and she was stunned and lying there.

"Dare to come here to scatter and kill you." Bai Hu hummed, and raised his huge tiger's palm.

I heard this, Chen Yi was embarrassed on her face, some blushed, and Bai Hu could even speak, which means that she was much stronger than her Emperor Tyrannosaurus.

Her little tyrannosaurus was actually born just a short while ago, and all of them were promoted with medicinal materials. At this moment, Chen Hao realized that something was wrong.

"Your Tyrannosaurus is rising too fast ..." At this moment, a cold word came from behind, turned and looked around, only to find that it was Snow Snow.

Mu Muxue was cold and exuding cold, and looked at Bai Hu and said, "If you go on like this, the Tyrannosaurus will be ruined. Didn't your brother-in-law tell you?"

I listened to Mu Xue's words, Chen Yi was even more embarrassed, and she regretted it. In fact, Qin Tiange had already told her, but she was easy to forget.

Now it's okay. Tyrannosaurus looked at a six-star, but was violently stunned by a seven-star white tiger. There was no backhand. The gap between them was huge.

"Sister Xue, why are you here?" Chen Yan asked in surprise.

Mo Muxue's eyes flickered slightly, looking at the top of the Lotus Mountain, where there was a strong fluctuation of the energy of fire element, and the ice phoenix on her shoulder became extremely irritable after entering this base.

She did not leave with Mu Hua, but stayed here. She wanted to see what made Bing Phoenix irritable. When she came here, she finally understood.

“There is a fire phoenix here ...” Mu Xue’s cold tone made people afraid to approach.

Around me, many people looked at it from a distance, Chen Yue was startled, but soon remembered that his Tyrannosaurus was seriously injured.

“This is a forbidden area, and no outsider can enter without the command of the owner.” As soon as he stepped forward, he heard Bai Hu say this.

Chen Chenxian looked embarrassed, lowered her head, and whispered: “I’m sorry, I was wrong just now, can you please tell my brother-in-law about this?”

Bai Baihu listened to his head crooked and thought for a while, but finally nodded and didn’t care, but this tyrannosaurus was choked by her, which seemed to be honest.

“Long Xiaolong, look at you, so weak, how can you protect me in the future?” Chen Yun said with a look of unhappiness, which made Tyrannosaurus very wronged.

The tyrannosaurus reluctantly fainted, and fainted. After being filled with some medicine, Chen Xuan recovered his wounds in the middle of the painting.

The pitiful Emperor Tyrannosaurus, originally rich in bloodline genes and ancient and powerful, was promoted by Chen Yipu’s seedlings.

“I want to ask, is there a phoenix here?” At this moment, Snow Girl came up and asked a question softly.

Wu Baihu gave her a crooked head and gave her a glance. It was more correct to pay attention to the ice phoenix on the shoulder of Xuenv, exuding its strong ice.

“You’re right, there is a sycamore tree on the top of the mountain, where is the home of a phoenix brought by the owner.” Bai Hu said this and ignored it.

However, she suddenly turned back and warned: “You better not step into other closed areas here. Some places will be shot on the spot if you break in.”

“So serious?” Chen Kun was startled and patted his proud chest.

She did not expect that there was such a mysterious place here. No outsiders were allowed to enter. Once someone forcibly broke in, she would be shot on the spot.

There were many intensifiers who did not believe in evil. As their strength became stronger and stronger, they finally wanted to explore the secret of Lianhua Mountain and were killed on the spot.

What kind of sting was slaughtered was naturally those fairies, no matter whether they were five-star, six-star, or seven-star intensifiers, whoever dared to break through died there.

“Sister Xue, let’s go.” Chen Yuan directly proposed to leave. Although she is small, it doesn’t mean she doesn’t understand.

Since Qin Tiange does not allow outsiders to enter those areas, there must be secrets, and she will certainly not destroy some of her brother-in-law’s orders.

“Wait!” As soon as Chen Xi and Xue Nu turned around to leave, Bai Hu spoke to them.

Chen Yan and Xue Nu turned around, looked at Bai Hu with curiosity, and only listened to Bai Hu said, “Just the host sent me a message, telling me two of you to go to the store to replenish the potion and some supplies, and then practice along the ancient Silk Road. Can’t come back for less than ten stars. “

“What?” Chen was surprised, dumbfounded.

It seemed that Snow Girl recovered coldness after listening to it, as if nothing was moving, but a flash of light flashed from time to time in those cold eyes, proving that she had a great fluctuation in her heart at this moment.

After hearing the news, both of them were a little surprised, but soon, Chen realized that it was Qin Tiange’s intention.

“Bad brother-in-law, you know how to bully me.” Chen Xuan sulked, and was unhappy.

However, she did not dare to violate Qin Tiange’s decision. Obviously, her sister also agreed, otherwise he would not let him call Bai Hu to convey this decision.

She Chenxuan and Xue Nu came to a store in the base, and after replenishing some various medicines and materials, they both left the Shenzhen City base.

“Ten Ge, Chen Yuan is still young, is there really no problem with this?”

On the wall of the city, a man and a woman are watching the back of Chen Ye and Xue Nu leaving. The man is naturally Qin Tiange, and the woman is Chen Xi.

Regarding Chen Xi’s worry, Qin Tiange comforted softly: “Relax, it’s because of Chen Xiao’s youngness that I forced her to go out to practice, otherwise I will always follow you and sooner or later, I will wear off my will, let her learn Only by living independently can we cope with the changing situation in the future. “

“So you deliberately attracted Snow Girl to stay, the purpose is to let her go out with Chen Yun to practice?” Chen Xi glanced at him with a charming white face, a flash of playful face flashed.

She suddenly breathed in Qin Tiange’s ear whispered: “Tiange, sister Mu Xue seems to like you very much.”

“Nonsense!” Qin Tiange looked at her with a serious face, and gently crossed Chen Xi’s waistline, and said earnestly, “Xiao Xi, you can’t say such things in the future.”

“I know!” Chen Xi kissed him with a smile, but there was a smile in his pupil.

Qi Qin Tiange was ashamed in his heart. He did not expect that Chen Xi suddenly came to such a sentence, which caught him off guard, and did not even understand why this chick said such a sentence?

“Xi Xi and Long Xiaoqian are also time to go out and practice. It is not a thing to stay in the base ...” Soon, Qin Tiange thought of this. As a demon in the previous life, Xun Xi was an emperor. , Just like Chen Xi.

As for Long Xiaoqian, it is the Miao Xinjiang Witch Sacrifice, which can be described as the ancient Miao Xinjiang witchcraft. This is worthy of cultivation. Adding some strange mysteries exchanged on the stone monument can definitely grow into a strong generation.

“Xiao Xi, put down everything you have at hand, go out and practice it yourself.” Suddenly, Qin Tiange made a decision.

Wu Chenxi, can't be trapped in a base, Su Cheng, maybe to her is a cage that limits her.

“I have taken over the city for you, you are ready to go out and go to practice for yourself.” Qin Tiange's words were full of harshness, as if there was no doubt.

“Okay, I listen to you, but I decided to leave tomorrow ...” Chen Xi shook her head gently, buried her head in his chest, and hugged Qin Tiange, the man she loved.

“Tiange, I can't bear you ...” Chen Xi said, raising her head, looking at him with blurry eyes, a touch of charming charm in her eyes.

Chapter 512 - Sun Holocaust, Ice Age

In the early morning of the next day, Qin Tiange stood on the city wall, facing the morning glow, and quietly looked at the backs of several people who left in the distance.

Wu Chenxi left, packed up early in the morning, and took the various preparations Qin Tiange had prepared for her to leave the base, go out for a formal training, and look for her chance.

I first sent Chen Yi, the young auntie and Snow Girl, out. Now, Qin Tiange has driven Chen Xi out to practice, and if he wants to be a strong man, he must go through the storms alone. Opportunities are reserved for those who know how to find and grasp, and not for those who are lazy who only know the snail house and do nothing.

I was Long Xiaoqian and I Xi were both kicked out by Qin Tiange early in the morning, and now they still looked stunned.

“Sister Xiaoqian, why did Brother Qin kick us out, did we do something wrong to make him angry?”

I walked outside the base, and I Xi Qiao's face was still a stupid look. I didn't understand why Qin Tiange suddenly rushed them away, and I was inevitably sad.

Long Xiaoqian smiled bitterly, looking at Xi Xi in the circle, and explained, “Isn't he very clear, tell us to go out and practice, looking for opportunities to become a strong admired by everyone.”

“Is Brother Qin saying this?” Xi Xi was so foolish, he didn’t even notice what Qin Tiange said.

只 She only remembered that she was called out by Qin Tiange early in the morning and rushed out. As for what she said, she didn’t hear it clearly, as if she had really said it.

“You ah you.” Long Xiaoqian couldn’t help crying and waving, and saw a huge golden yellow urn rushing out of the grove next to him, up to 11 meters long.

蜈蚣 This 蜈蚣 came, lie in front of Long Xiaoqian, the two stepped on the back of this 蜈蚣, and finally looked at the direction of the base, vaguely saw the figure looking over here.

“Brother, take care, I must be the strong one you said.” Long Xiaoqian secretly vowed, and finally turned around, urging the golden lad to leave quickly.

After all, Xiaolong Xiaoqian was unsuitable for management. She was a witch sacrifice and was good at witchcraft and poison. Qin Tiange had arranged for this.

She is different from her sister Long Xiaoya, who is a teacher after all, and she does not want to go out, and she does not want to go out. This is the result Qin Tiange had asked Liu Ye and Long Xiaoya earlier.

They only want to teach children in the base. Others can improve their strength and can’t but also force them. Qin Tiange didn’t force them on their ideas.

But Long Xiaoqian is different from 𠂇 XI, so they can only be driven out after staying for a while. As for whether they can become strong in the future, how high they can achieve depends on their personal efforts and fortune.

“Master, the nano satellite suddenly detected a bad phenomenon.”

On the wall of the city, Qin Tiange was about to turn around and go back. Suddenly there was a voice of his own in his wrist, which made him frown.

了 What did the nanosatellite find? I only listened to my self-explanation:

“Master, have you noticed that the sun in the sky is much dim?”

I heard this, Qin Tiange suddenly looked up and found that the light of the sun was much dimmer than before.

“The sun is robbery?” Qin Tiange narrowed his eyes and flashed the thought.

He saw the dim sun, and naturally remembered the third disaster of the previous life, the solar disaster, or the glacial disaster.

After the flood, humans have just gradually recovered from the disaster, but with it came another catastrophe.

This calamity came from the sun. I don't know why. The sun that had been boiling suddenly changed inexplicably, as if it had fallen into a dormant period.

Yes, the sun is dormant and gradually dim, which causes the temperature on the earth to drop sharply, and gradually forms a terrible disaster.

The previous life is called the Ice Age, and it is coming.

"Yiji, what did you find?" Qin Tiange's face was calm and there were not many waves. He wouldn't be surprised if he had expected something.

I saw my own projection emerged, showing a virtual light curtain, above which was a picture of the sun taken by nanosatellites in outer space.

Above, the huge fireball is extremely bright, but it can be clearly seen that this brightness is gradually dimming.

The sun is going to sleep, the boiling flame and magma on the surface of the body are gradually extinguished. With the shooting distance of nano satellites, it is enough to see clearly that the entire sun is fading at a speed visible to the naked eye.

Seeing this, Qin Tiange has understood that the third calamity of the last day and the sun calamity are also ahead of time. This calamity has a great impact on human beings, especially various plants, and the loss of sunlight is equivalent to losing the energy for survival.

"How's the progress of the artificial sun project?" Qin Tiange looked calm and asked his own question.

Fu Ji answered seriously: "Master, currently we can't make a stable artificial solar light source, the only possibility is to use that star nucleus for research, transform it, and then create an artificial sun."

"Is the plan feasible?" Qin Tiange frowned secretly, remembering that he had three star cores.

One was obtained before, and is being researched in an underground base, and the other was obtained after slaughtering the powerful Silver Star clan.

There is one more puppet, which was obtained from the bomber Dongli at that time. Both of the newly acquired star nuclei were damaged, the surface was cracked, the internal energy was incomplete, and it could not be used to make artificial sun.

He only listened to his own words: "The current plan has entered the final stage. As long as the final core technology is overcome, an artificial sun can be created."

"Very good, implement it as soon as possible. When the sun is completely extinguished, you must create an artificial sun, and then place it over the base to ensure the production of food." This is Qin Tiange's plan.

The artificial sun is to ensure the production of food. Without the sun, even the golden rice should not grow.

Wu Qin Tiange then laughed and said, "If you can, make more artificial suns and sell them to other bases, I believe they will not refuse."

"Yes, master!"

He responded, then disappeared, went back and intensified his time to study the artificial sun, and quickly produced artificial grain out of the supply base for food planting.

The sun is dim, and the temperature on the earth has gradually decreased. This change has attracted many people with interest.

Shu Shangjing, Leader's Office.

"Leader, General Qin sent a confidential copy." Outside the office, a communications female soldier hurried in and handed in a confidential copy.

This is a message conveyed through formal channels, which Qin Tiange called 旦 ji to pass, the purpose is to give Shanghai a chance to prepare.

Yun Chen Guodong opened the confidential document to view, his face changed slightly, and the content above was extremely amazing.

"The sun is dormant?" Chen Guodong looked solemnly, checking the secret.

He walked quickly to the window, looked up at the sun in the sky, and found that it was much dimmer than before.

No wonder the weather has become a bit cold in recent days, and even the temperature is continuing to drop. This is the sun's inexplicably dormant period.

"Pass me the secret order, gather all the people in the General Institute of Science and Technology to prepare, and I will contact General Qin later to pick them up." Chen Guodong immediately issued the secret order.

工程师 All engineers, numerous scientific and technical personnel, and top talents in various fields were immediately assembled and mobilized urgently to prepare for Shenzhen.

This is Qin Tiange's request to the important person again, saying that there is a way to make artificial sun, but lack of scientific and technological personnel, Chen Guodong made a decision after seeing it with great determination, Chen Guodong realized that currently only Shenzhen There can be a way to solve this problem.

At the same time, Guangcheng, Lieutenant General Qi Shao, who had just returned, secretly sealed the street and looked dignified, knowing that the matter was serious.

"Did you just go through the Great Flood and go through the Ice Age?"

Lieutenant General Qi Shao looked solemnly and mumbled to himself.

Human beings have just experienced the great flood, and countless people died in this disaster. However, they did not expect another brand-new disaster, and the sun was dormant.

Once the sun is dormant, the earth will inevitably fall into a dark and icy world, and then it will not only be ice and snow, but it will be dark.

Jingnan, Admiral Mu Hua, who had just returned, changed his expression, looking at the confidential message that was passed, his eyes flickered.

“The real dark ice age is here!” He murmured to himself.

Soon, General Mu Hua ordered that the talents of all parties in the base be gathered immediately and sent secretly to the Shenzhen City base.

With the major bases receiving a confidential copy from Shanghai, the major forces throughout China have shaken, many people think this is a joke.

But everyone knows that this is true, because the sun dims day by day, the temperature of the earth continues to decrease, and as it enters winter, snow scenes begin to appear in the north.

Even some areas in the south have begun to experience heavy snowfall, and the entire earth has begun to fall into the cold ice age.

“It’s time to cultivate. Only by improving our strength can we cope with the changing world in the future.”

Qi Qin Tiange looked at the sun in the sky, silently thinking, turned and left, and went back to prepare for some practice.

He already has a group of human ancestors from the last era, not only lacks energy training and promotion, but also has a huge soul power, naturally there is no need to go out.

As long as you lower your heart to cultivate and improve, you will inevitably get promotion. It is a matter of time to improve your strength.

Before I went back, Qin Tiange moved to the assessment stone monument, reached out his hand, tried it, and it disappointed him.

I was disappointed that the assessment of the stele still refused him to enter the task assessment.

“Reject me, although I don’t know why, but I have a clear conscience of doing things. If you really don’t let me enter the task, why don’t I not assess?” Qin Tiange said blankly.

He snorted softly: “Seal the king stone, without assessment, how to prove the king? Are you restricting my growth?”

The assessment of the stele is also called the seal of the king. If you want to prove the seal of the king, you must enter the stone to pass the assessment and leave the name on the monument.

But the stone tablet refused Qin Tiange’s assessment, wasn’t it to limit his growth, wouldn’t he be able to prove the king in the future?

Before examining the stele, Qin Tiange tried again and found that he was still rejected. He was naturally in a bad mood, but he didn’t bother. He asked himself what he was doing.

I glanced at this towering stone monument, Qin Tiange turned without hesitation, and went back to conscientiously cultivate and improve his strength.

Chapter 513 - Zizhulin, Goddess of Mercy to be born

In the early morning five days later, on the top of the lotus mountain, Qin Tiange put on the second form of mysterious body technique and fell into deep cultivation.

A stream of purple gas came to the east, converging into fog, condensing into a cloud shadow, turning into a hazy purple graceful figure, dancing constantly on the top of the mountain.

Then, the purple ghost stopped and sat behind Qin Tiange, letting him pillow, as if an emperor was lying on the lap of a beautiful woman.

Weird scenes, Qin Tiange, who has been engaged in cultivation, has never seen it, and he does not know how to produce such wonderful scenes during cultivation.

On the sky, the essence of the sun is falling, but it is getting weaker. As the sun dims, the essence of the sun is getting less and less.

For the past five days of cultivation, Qin Tiange has never absorbed the energy of the ancestor's efforts, but gradually stabilized his current practice with physical skills.

知道 He knows that cultivation can't be rushed. Everything must be laid on the ground. To do anything, we must first have a solid foundation, otherwise don't think about how much success we have.

Grunt ...

He finished his practice another day, and the purple figure spread out and turned into green smoke into his body. Qin Tiange woke up from the practice.

Standing on the top of the mountain, Qin Tiange shook his fist gently, only feeling transparent, with an inexhaustible force surging in his body, as if he would growl at any time.

“This is strength. Only strength can make people feel at ease and intoxicated.” Qin Tiange murmured to himself, looking up at the sky, the sun was more dim.

In recent days, the weather in Shenzhen has changed, and the air has become colder, as if a cold current was blowing from the sea, and winter is coming.

“Snowing...”

Suddenly, there was a little snow up and down the sky, a little bit of crystal splashing, and it felt cold on the skin.

It's snowing in Laoshen City. It's very rare. At the same time, people have to be surprised and realize that the world has changed.

In the base, many people looked up and looked at the falling snowflakes, and froze.

“Snow?”

“How can it snow here?”

In the base, countless people were in a daze, and many people were talking about it. They didn't understand why Shenzhen, a subtropical region, even snows?

At the same time as millions of survivors in the base debated speculation, the base's senior management issued an announcement.

“The sun is dormant, is this a catastrophe?”

With the announcement of this news, it immediately caused a huge sensation. Many people did not believe it, but it was quickly confirmed that this was true.

People with bright eyes can see and even feel the change. The sun is really dim. As the weather becomes colder, this winter may become infinitely longer.

Because, as the sun sleeps, the earth will enter a dark cold ice age.

After this news was announced, it caused a lot of confusion, but soon, with another news from the base, all the flustered hearts were settled.

Qin Tiange asked people to announce the news, one is to explain the current weather, the sun is about to sleep, but it does not cause people to panic, the base can make artificial solar light sources.

With this heavy news, countless people exploded the pot and made the sun. The news was announced, and the spies from various parties hidden in the base immediately passed it back, causing an uproar, and many big forces were shocked.

“Shenshi has the ability to make artificial sun?”

In Erhai City base, General Xiao Fei's complexion was blue, watching the news from the spies, and he was very depressed, so don't mention it.

He originally thought that the gap between him and Qin Tiange was not very large, but now it seems that it is far from simple as he sees.

Laoshen City can even make artificial suns. Does Haishi have this ability? Not to mention the maritime market under the control of the Xiao family, even other power bases do not have this ability.

Although with the start of a sci-tech arms race in each major base, they set up their own scientific research teams and exchanged a lot of science and technology products from the heritage steles for research.

But after all, time is limited. Except for the forces that realized this from the beginning, other forces have failed to keep up.

“My dear, I will be in retreat for a while, and I shall not be disturbed if there is no promotion.”

At the base, Qin Tiange was about to announce a retreat, raise his current level, and say hello to his own self.

But Dan's next sentence made him temporarily dismiss the idea of retreat.

“Master, please take a look at this first.” 姬 Ji said, calling up a virtual monitoring screen for Qin Tiange to see.

When the latter looked, his pupils shrank, and he was surprised by the scene on the screen.

“This is ...” Qin Tiange murmured, squinting his eyes, and the flickers of light continued to emerge, apparently he was not at peace.

On the picture, there is a huge idol, which is forty meters high, and emits a golden light, showing endless Buddha light.

“Wanghai Guanyin?”

Wu Qin Tiange saw that it was a statue of Guanyin looking at the sea, and the location was exactly a statue of Guanyin standing on the Lianhua Mountain in Guangcheng Jing District.

This was nothing, but what made his pupils shrink was that the goddess of mercy Guanyin had already developed a sense of wisdom, and it was still the kind to be transformed.

“I haven’t heard of the transformation of this deity in the previous life, it seems I have never seen it. Why is it now transformed?” Qin Tiange looked a little dignified.

He stared at the picture, the whole body crystal-like as a jade, like a real human idol, was a real mutant idol, which gave birth to spiritual intelligence, and was born in the last step.

There are endless Buddha lights permeating around the statue, vast and boundless, showing a strong and peaceful atmosphere, covering a radius of ten kilometers.

There is a huge gathering place in that area, but there is no gathering place here. This is beyond Qin Tiange’s expectations.

“Master, this gathering place has gathered at least hundreds of thousands of survivors, built around this goddess of goddess of mercy looking at the sea.” His own words came and made him understand.

Qi Qin Tiange murmured in his heart, and murmured, “No wonder he can enter the transformation stage so quickly. It turned out to be the worship of hundreds of thousands of people.”

Sure enough, he guessed quite well, since Wanghai Guanyin has developed a sense of wisdom, exuding a peaceful Buddha light, driving out nearby mutants and zombies.

This has led to the asylum of the survivors in this area. After the end, many people think that it is the manifestation of Goddess of Mercy. It is self-evident that more and more refugees gathered here, and gradually formed a huge scale.

In this way, countless survivors gathered and were sheltered by this statue. Hundreds of thousands of people are grateful for their thanks.

This goddess of worship Haiguanyin, after absorbing the huge will from hundreds of thousands of people, became stronger and stronger and gradually reached the edge of deformation.

Because the energy magnetic field fluctuates frequently here, it is only detected by the nanosatellite, which is then transmitted to Qin Tiange for viewing.

“I’ll go there.” Qin Tiange immediately decided to go there.

This is a big event. There is a strange change in an idol, and it even grows to the stage of metamorphosis without knowing it. This is an incredible thing.

Once the deified form of the idol is born, it must be a ten-star creature. This must be taken seriously. Qin Tiange then eliminated the idea of retreat and went directly to see it.

Boom ...

At this moment, a strong burst of light burst into the picture, with runes intertwined, and the light of the Buddha burst out in all directions.

The statue of Guanyin Guanyin has undergone abnormal changes, blooming with immense Buddha light, and a huge golden wheel behind it has gradually separated from the statue and turned into a true golden Buddha wheel.

佛 This mouthful of Buddhist chakras is like a large round of sun hanging over the endless Buddha light, bathing in countless people in this gathering place, and it has a feeling of washing the spinal cords and reborn.

Of course, this is an exaggeration, but these Buddha lights can eliminate diseases and prolong life, improve the physical quality of human beings, and other effects, causing enthusiasm for countless people to worship.

“Avalokitesvara is working!”

“Avalokitesvara is working!”

Hundreds of thousands of people worshiped in the gathering place, and the scene was so spectacular that it caused countless willingness to gather and boil, gradually being absorbed by idols.

The face of Guanyin image became clearer, and his cheeks became rosy, like a real person. Looking at the bomb can be broken, it is truly inexplicable.

The goddess of mercy Guanyin came alive, and she slowly opened a pair of closed eyes. The golden golden runes were brilliant and the light of the Buddha was vast, spreading out like the ocean.

“My name, Miaoshan, why don’t the strong look at you? Please show up ...” The idol said, saying the first sentence. She called herself Miaoshan.

After saying this, the Goddess of Mercy suddenly raised his head, his eyes shining through the golden light, looking at the void, as if he saw Qin Tiange over the virtual screen.

She felt that someone was peeping at her, and immediately appeared to wake up. Although it was unclear who was peeping, she could definitely wake up the goddess of mercy.

“It can be found that satellite exploration is indeed the spirit of the goddess of mercy Guanyin who is about to be transformed. Once born, the weakest is a ten-star. It is a matter of desperation to succeed the king in the future.” Qin Tiange looked serious.

His eyes flickered and he stared at the goddess of mercy Guanyin on the screen. This self-proclaimed goddess of goddess of mercy Guanhai really gave him a tremendous pressure.

“Yiji, can you project my body over?” Qin Tiange asked suddenly.

I saw that I had nodded immediately: “Okay master, as long as it is possible to post your images with nano satellites, it is OK.”

投影 “Projected in the past, I want to talk to this forthcoming alien life Qin Tiange said calmly.

Soon afterwards, Ji Ji projected Qin Tiange’s body and projected it over the area with a nanosatellite, which just appeared in front of the Goddess of Mercy.

Huh!

Suddenly a projection suddenly appeared, which scared the idol, and looked at the sudden appearance of this figure in suspicion without any breath.

“Sir, what are you doing here at this dojo before you are peeping?” Miaoshan quietly asked.

At this time, many talents in the surrounding gathering places found that not far from the statue of Guanyin, a clear projection emerged, like the arrival of a real person.

But that is not a real person. Qin Tiange’s visit is nothing but a projection. He glanced at the surrounding environment and saw a huge purple bamboo forest, where there is a bamboo demon that is full of purple light.

“That is the disciple of this seat, Zizhu.” Miaoshan said lightly.

Qi Qin Tiange understood that a purple bamboo in this purple bamboo forest turned into a demon, but did not know why he became a disciple of this statue.

“Zhuzhulin?” Qin Tiange looked at a stone monument there, which was engraved with a few large characters, which was the Nanhai Zizhulin.

He saw this and couldn’t help laughing, but the smile aroused the vigilance of the deity and felt a touch of danger.

“What is Your Excellency’s intention?” Miaoshan’s expression was a little dignified, the stranger came with a hint of danger.

She hasn’t completely changed her shape, and the idol of the body cannot be moved. Once it is moved, it is equivalent to moving the basic source, which has a huge impact on her.

“I’m here to talk to you about cooperation.” Qin Tiange said with a calm expression on his hands.

Chapter 514 - Xenobiotics Authority

“Cooperation?” Miaoshan glanced at Qin Tiange faintly and said nothing.

She is surrounded by a strong Buddha light, imposing, and the golden wheel behind it trembles slightly, emitting a radiance of light and showing pressure.

Silent for a long time, Miaoshan finally spoke: “If you want to negotiate, you also have to be sincere. Your Excellency came to meet with you, would you be too underestimated?”

Yes, she thinks that Qin Tiange has no sincerity and doesn't come by the essence, which is a kind of disrespect and even contempt for her.

"Yes, then I will see you in true body." Qin Tiange's mouth slightly tilted, and the projection disappeared instantly.

Immediately afterwards, a distant void struck a shadow, and it came instantly. In the blink of an eye, he came to Miaoshan's presence, stood in the air, and quietly looked at the huge idol in front of him.

"Can we talk now?" Qin Tiange asked with a smile.

He was calm and full of breath, as if he were an ordinary person. However, Miaoshan felt a threat from him, very strong.

When I saw Qin Tiange himself, there was a slight change in Miaoshan's expression, and Jin Cancan's eyes showed some solemnity.

"How do you want to cooperate?" Miaoshan opened his door.

Qin Tiange glanced at the dense survivors in the gathering place over there, most of them looked at the Goddess of Mercy statue with a frantic look.

In the eyes of those people, this is the manifestation of the Goddess of Mercy, sheltering one side, saving suffering, and protecting them all the time.

This surprised Qin Tiange, but he didn't agree with him. It's a good thing to take refuge in one side, but it's a bit overwhelming to protect them all.

Nowadays, with the background of the Doomsday, the evolutionary wave is becoming more and more fierce. Hundreds of thousands of people here are still ordinary people. Only a small number of people are unwilling to make every effort to achieve evolution and strength.

This is what Qin Tiange doesn't want to see. You said that you protect one party, but you can't restrict human growth and evolution. You should even guide humans to become stronger.

If the entire Huaxia people were sheltered by these alien creatures, then there is no need to worry about the zombie mutant creatures outside, etc., as long as they are protected with peace of mind.

In the future, how will humans evolve to survive?

"You let them lose the chance of evolution. Tell me, did you shelter them or harm them?" Qin Tiange asked this sentence instead of mentioning the cooperation.

Wu Miaoshan listened to the slight trembling of his body, the light of the Buddha was diffused, and a gleam of fine light flashed in his pupils. Obviously Qin Tiange would not ask that.

"Rescue all living beings and give them comfort, what's wrong with this?" Miaoshan said this lightly.

玉 Holding a jade bottle in the palm of her hand, the looms of treasure looming, showing strong coercion, is obviously a real treasure, but it is still being bred.

Qi Qin Tiange ignored this pressure and calmed his tone. He said, "It is true that you have great mercy and great sorrow to save the world. You have countless merits, but how can you explain this by limiting them to gain strength to evolve themselves?"

"Since the asylum party has been protected, the danger has been blocked by this seat, why do you need to have strength and do more?" Miaoshan said softly.

In her opinion, with her guardian, the people here do not need the so-called power at all, they just need to live here in a stable manner.

Qin Tiange was expressionless and his voice was aloof. He said, "Look at the world today, zombies, mutated creatures, and all kinds of alien creatures like you have appeared one by one. As competition becomes stronger, you have limited human evolution here, which we humans cannot agree with. "

"What we humans need is self-improvement, not relying on any living beings and races to give alms and shelter, even if you are really a **** or Buddha." Qin Tiange said to take a step forward.

His breath erupted, and a blast of anger erupted, breaking through the vast Buddha light that pervaded the surrounding area, and isolating the 100-meter square into a vacuum zone.

"Look, what are the hundreds of thousands of people here? It's still as weak as before, how can you let them live in the last days?" Qin Tiange asked harshly.

He is extremely disgusted with such means, asylum can be saved, suffering can be saved, but you can not limit the evolution of these people to become stronger, this is strangling rather than helping.

Without your goodness, these hundreds of thousands of people would not be able to survive, would n't they be raised as pets?

"Shan 哉! Shan 哉!" Miaoshan muttered, refusing to refute.

其实 She actually knows this very well, but she just doesn't want hundreds of thousands of people here to become stronger. Who will come to believe her once it becomes stronger?

How can you gather your will if you do n't believe and worship?

"You came to fight with me?" Miao Shan's words turned a bit cold and killed.

Her idols are huge, full of crystals, and immense amount of Buddha light. It seems to have something to do. Qin Tiange's words have touched her core interests.

"I 'm here just to warn you not to go too far. Doomsday is coming down and inheriting the sky. The humans of the last era did not allow offspring to be captive and enslaved by any race. If you do too much, then you dare to restrict human evolution, then It is our enemy. "Qin Tiange gave a serious tone and gave the most serious warning.

Regardless of whether she is a real Buddha or a fake, in short, as long as it restricts humans and hinders human evolution in this era of rapid biological evolution, it is human enemies.

“Last epoch ...” The look of Miaoshan changed, his eyes flickered, and he seemed to understand these ancient secrets.

Seeing her expression, Qin Tiange thoughtfully moved, and thoughtfully, suddenly said, “Although I don’t know if you have recovered the consciousness left by the Guanyin Bodhisattva of the last era, but if you want to obtain the human will, The will of humanity must be upheld. “

“You even know the secrets of the previous period, but you say so much, you just want me to surrender?” Miao Shan’s face was a little cold, his eyes were full of coldness.

After hearing her answer, Qin Tiange narrowed his eyes, and he was secretly wary: “This spirit of the Goddess of Mercy Guanyin seems to know some of the secrets of the previous period. Did the Guanyin Bodhisattva really exist, or was it the previous period? A strong man that appeared in even more distant epochs? “

He turned his mind sharply, but his face remained the same, and he said, “One of the purposes of my coming is to warn you that no creatures and beings in the evolution of human beings can be blocked, and carefully crushed into powder.”

He said, Qin Tiange glanced at Miaoshan’s look, and then said, “As for the second purpose, I actually came to talk to you. Are you interested in joining the Xenobiotics Administration?”

“Xenobiotic Management Bureau?” Miao Shan stunned, looked at Qin Tiange in surprise.

The two talked here, while hundreds of thousands of survivors in the gathering place talked about it, and they were shocked and curious about Qin Tiange’s arrival.

“You said, who is that person that can fly?” Someone asked stupidly.

Next to me, many people were shocked by the arrival of Qin Tiange, and some people wondered if he was the same ***** as Guanyin?

“He can fly, is he immortal?”

“I think it’s possible, after all, the Guanyin Bodhisattva with great compassion and compassion is all manifested. Now there is a flying person who is still talking to the Bodhisattva, it must be a god.”

The sound of discussion in the crowd came to Qin Tiange and Miao Shan’s ears. Qin Tiange felt that these survivors were a group of sad people.

“Limited to this area, and became a bird in a cage. It is safe to look at, but it is really sad that it has lost the possibility of evolution.”

Qin Tiange murmured to himself, shook his head constantly, for the hundreds of thousands of survivors, he didn’t really think much about it.

If you believe in gods and Buddhas, you might as well believe in yourself, worship God and worship Buddha, and ask God to pray for Buddha is better than ask yourself, after all, people have to rely on themselves.

Like the survivors here, he was willing to be sheltered by the spirit of the goddess of mercy Guanyin, and contributed his own belief in willingness to abandon the path of evolution.

“How do you think about it?” Qin Tiange floated there quietly, looking at Miaoshan dully, waiting for her answer.

The latter’s expression changed, with a trace of anger flashing from time to time, and it was not clear what she was angry at. Qin Tiange was the most clear about what Miaoshan was angry at.

“What if I don’t agree?” Miao Shan said sharply.

After listening, Qin Tiange’s mouth was slightly tilted, and he looked up and down at the 40-meter-high Guanyin statue in front of him. His whole body was crystal-clear like jade, his body was rosy, and his blood was fluorescent. To complete the metamorphosis.

“No, there will be twenty 5 million tons of equivalent hydrogen bombs blasting down at you that day. I believe this will be enough to kill you.” Qin Tiange said blankly.

When he said this, Chen Guodong and Xia Ming, who were far from Shangjing, faced each other, and he was thundered by him.

“This boy, it is really ... using a hydrogen bomb to threaten the birth of the Goddess of Mercy,” Chen Guodong said with a bitter smile.

In fact, he had already received Qin Tiange’s request long ago. The Shanghai Rocket Army had already prepared for the offensive. Twenty missiles were loaded with super-equivalent hydrogen bombs and locked in the area where Miaoshan was located.

“Lao Chen, do you really want to launch? There are hundreds of thousands of compatriots there.” Lieutenant General Xia Ming frightened.

Chen Guodong shook his head and smiled bitterly: “Don’t worry, the kid shouldn’t be really explosive. If he does, don’t think about it in the future, but lock the opponent with a satellite, and then lock it with a deterrent of nuclear bombs. On the other side, I think it was a threat to scare He was right, at the Beijing missile base, twenty missiles were locked at the moment of lockup, and an extremely strong sense of crisis pervaded her mind, making her panic-stricken. Can’t stay calm.

On the sky, if there is no lock, the sense of crisis comes from there, making Miaoshan resentful but helpless, knowing that this is Qin Tiange’s threat.

“If you want to gain human will, you must contribute to humanity, join the heterogeneous biological authority I set up, or I will destroy you now.” Qin Tiange made an ultimatum.

Sunda explained in a serious tone: “Actually, this department is managing those alien creatures, eradicating evil and hostile alien creatures. It is very easy and free, and it can also manage countless alien creatures.”

Qiu Miaoshan’s expression was erratic, and the chakra behind him buzzed and shivered, sending out an infinite amount of Buddha light, and the whole gathering place was shrouded in the sky light.

Countless survivors sat down with serenity, chanting, praying, and praying. The scene was extremely spectacular, but Qin Tiange shook his head a little.

I lost the spirit of self-improvement and only knew that I prayed to God and worshiped the Buddha. These people have lost the perseverance and ambition to move forward and are destined to be eliminated in the end.

Agree or not? Miaoshan was hesitant and hesitant. She even wanted to kill this person, but she didn’t dare to act violently. The source of the locked crisis became more and more intense, and there was a breath in her heart that made her heart tremble.

“Ok?”

“what?”

此时 At this moment, Miaoshan and Qin Tiange suddenly issued a suspicion, turned suddenly, staring at the area in the southeast direction, where a terrible breath was forming.

Chapter 515 - 1 evil Buddha

To the southeast of the Purple Bamboo Forest, a blast of blood soared into the sky, revealing endless evil intentions. Updates are fast without ads.

“It’s the direction of Gaoming District ...” Qin Tiange looked a little serious.

The insidious breath came from the direction of Gaoming District of Buddha City. The blood burst into the sky, as if an evil alien was about to be born.

Wu Miaoshan looked there, his face changed, and said, “I remember this breath, he was swallowed up by an avatar on the Xiqiao Mountain.”

“Engulf?” Qin Tiange’s pupils shrunk, glanced at Miaoshan, wondering what could swallow a avatar spirit of the Goddess of Mercy?

There was a ray of killing on Wu Miaoshan’s face, and his tone was flat: “Yes, there is an evil Buddha there. As soon as he was born, he began to deceive humans or other lives to approach him, and then he was ruthlessly devouring flesh and blood to strengthen himself.

“If you feed on people, that’s the enemy.” Qin Tiange said quietly, sweeping his eyes at the changing goodness.

She seems very resentful, but she is helpless, because she has never been able to find the other person to settle accounts before she is born.

I now feel that the terrible breath of the evil Buddha seems to be born soon, which makes her a little anxious. Once the other party is born before her, she will face the attack of the evil Buddha.

“Myself, call for monitoring.”

Quickly, Qin Tiange ordered his self to call up the monitoring picture there. Then, a virtual screen emerged, where the blood was shining all over the sky and gathered into a mass of blood-colored clouds over the Xiqiao Mountain Scenic Area, covering the scene there.

“Master, there are inexplicable magnetic field fluctuations there, and nano satellites cannot capture the real situation in the blood cloud.” 姐 ji’s words were a little dignified.

The area where the blood is soaring into the sky cannot be photographed. A terrible inexplicable magnetic field affects the shooting monitoring of nano satellites.

Qin Tiange blinked his eyes, and looked at Miaoshan and said, “Miaoshan, I will deal with this evil Buddha first. You should consider the matter I mentioned just now. I hope you can make a decision when I return.”

As soon as the chanting voice fell, Qin Tiange lost his entire trace, leaving only the huge goddess of mercy Guanyin with a constantly changing expression.

金 Golden eyes twinkled in her eyes, and she crossed the distant distance, and saw a figure appearing in the area of Xiqiao Mountain where the blood was shining.

“How strong is this person?” This is Miaoshan’s doubt at the moment.

She would like to know how powerful Qin Tiange is. She was still hesitant to do something with this, but now it seems that she does not have to take risks.

There is a evil Buddha to be born, Qin Tiange is going to suppress this evil Buddha, just to let Miaoshan see his strength.

“Good evil ...” When he came here, Qin Tiange looked dignified, looking at the **** clouds rolling in the sky.

This is the **** Buddha light, showing endless evil, and it seems that the breath emanating from Miaoshan seems to be two extremes.

“Amitabha, mortal, why don’t you worship me?”

Suddenly, a bloodless voice came from the blood, and a wicked will filled with evil will directly impact Qin Tiange’s knowledge of the sea.

He looked at the evil will, and dared to impact his knowledge. Qin Tiange sneered, his silver foxes flickered in his brows, and he clicked and shattered the will.

“Ah ... shit!” A scream came from under the cloud of blood, and the blood boiled, and then quickly swept in one direction, and soon a huge blood-colored Buddha statue was revealed.

佛 This Buddha statue is twenty meters high, dazzling with blood, and there are endless evil thoughts in his eyes. There is a **** Buddha wheel behind him, exuding bright blood.

He is an evil buddha. Just a moment ago, he was crushed by Qin Tiange with his strong will and time taboo.

“Mortal man, dare to blaspheme the deity, are you looking for death?” The evil Buddha looked fierce, but unfortunately could not scare Qin Tiange himself.

He looked up and down the evil Buddha, and looked at the numerous broken bones scattered around, most of which were human remains. Needless to say, it was all this evil Buddha tempted many surviving humans to come and devour flesh and blood.

“Killing our human beings, taking our humans as food, I think you are looking for death.” Qin Tiange’s indifferent words revealed a murderous act.

“Hehe ha ha ha ha ha ha ...” Hearing this, the evil Buddha couldn’t help laughing wildly, chuckling: “Boy, don’t you know that I am a man who eats people?”

The evil buddha said with a grin: “Only human flesh and soul will accelerate the growth of this deity. It is still short of energy. I didn’t expect you to come to the door, then it will become the last nutrient of this birth.”

“Crazy!” Qin Tiange snorted coldly, a ray of silver awns emerged from his brows, and then a mysterious force radiated, covering the range of a kilometer, forming an absolute field.

“Not good ...” The evil Buddha exclaimed.

发现 He found that within a kilometer’s radius, all blood was frozen, and even he himself fixed the moment, as if suppressed by an inexplicable force.

This is a taboo field. Qin Tiange said nothing, but the taboo field came up. It can be said that he is very cautious about this evil Buddha.

“The Wrath of the Emperor!”

There was a gurgling sound, accompanied by a low drink from Qin Tiange, and he was surprised that the ancient sword was empty, and a huge virtual shadow chopped on the head of the evil Buddha.

With a bang, the chakras bloomed with immeasurable blood, which blocked this terrible blow, but it was very bad that the chakras’ blood was dim and then collapsed.

Boom!

Xuan Yijian was cut off, and the Scarlet Buddha Wheel was split into pieces, but it successfully blocked Qin Tiange’s mortal blow, and the evil Buddha took back his life.

“Damn ...” The evil Buddha was furious, and the blood around him gathered and turned into three heads and six arms, and he slammed hard with all kinds of weapons.

His body can't move, but his six arms can, and he can extend to attack the enemy, just like now, the six arms are attacking Qin Tiange frantically.

Qin Tiange sneered, while sneering: “If you are born, I still don't want to scold you for a few minutes, but after all, you have not yet been born completely, not a real creature, but a statue.”

“Look for death!” The evil Buddha was furious, and his six arms grabbed six blood-colored weapons and split wildly.

Looking at the six arms killed by wielding a weapon, Qin Tiange was expressionless, without any change, as if he had turned a blind eye.

“Town!”

Suddenly shouting, accompanied by the surging mysterious force around, Qi Qi suppressed the evil Buddha.

Yin Mang staggered, a force of taboo broke out, directly suppressing the entire evil Buddha. At this moment, Qin Tiange rose into the air, and with both hands held up the ancient sword, he severely inserted into the evil spirit's cover.

There was a rattling sound, blood spewing and spattering, the body of the evil Buddha returned to normal, and an extremely scream was made.

“Ah ... jerk, what is that power?” The evil Buddha's instinct was frightened, frightened and furious, and he was just inexplicably suppressed just now.

He didn't understand at all what power it was, but unfortunately Qin Tiange could not tell him, because it was his latest taboo power.

“You can die!” Qin Tiange sent the entire sword into the celestial spirit cover of the evil Buddha.

The evil Buddha screamed, and a scarlet letter on the eyebrow suddenly flew up. He thundered and flew Qin Tiange above his head, surprise him inexplicably.

“Go to death!”

Thousands of flying Qin Tiange, the evil Buddha issued a roar, six arms gathered together in front of his chest, condensed an extremely scary scarlet character.

The word “” has endless evil intentions and contains horrible lethality. It can be said that the evil Buddha's strongest blow has reached a ten-star blow.

Boom!

The word eruption broke out and bombarded. The taboo fields around it collapsed in one inch. Two forces were colliding. The power of taboo wanted to ban the word.

However, in the end, the field collapsed, and the 卐 word hit hard.

He only heard a loud bang, and Qin Tiange was banged into the mountains and forests by the words. He smashed a high tower into pieces, the smoke was rolling, and the rubble penetrated.

After a long while, the dust was scattered, a figure crawled out of the ruins, the armor was broken, and the military uniform became a cloth hanging on the body, looking extremely embarrassed.

“Not dead?” Upon seeing the evil Buddha, his eyes almost glared.

Qi Qin Tiange didn't even die, but he looked a little bit embarrassed, his face paled, and no other scars were found.

I do not say that the evil Buddha was shocked, that is, Miaoshan, who was far away from the purple bamboo forest, was moved by it, and looked at Qin Tiange's eyes a little differently.

“It 's so strong, not only the strength that makes me palpitate, but also all kinds of mysterious powers, this person is not capable of enemy.”

A ten-star strike can't even kill Qin Tiange, even looking at it with only a slight injury is over.

Actually, they all misunderstood, not that Qin Tiange was not injured. He was almost killed by that blow just now. If he had not recovered from the undead body, he might have finished it.

Ten stars is not a joke. Fortunately, this evil buddha is not a real ten star, because he has not yet been born, at most it is half a foot into the ten star.

Nothing happened, that is, he has not completely transformed, he is still a statue, unable to move, once the foundation is moved, that is to find his own way.

“What else do you do now?”

Qi Qin Tiange gently wiped out a ray of blood on the corner of his mouth, watching the evil Buddha who was almost staring out, still in shock.

I was the strongest hit, and this human being could not be killed. This was enough to scare the evil Buddha and even cause confusion.

Why is he confused, because he can't run, yes, the sad evil Buddha is the spirituality of a statue.

Because his statue is connected to the ground, he can't move by himself without being completely transformed into flesh and blood. If it is forcibly truncated, it will be a self-destructive future.

“I don't believe it, you die for me!”

Finally, the evil Buddha was completely insane, full of evil light, and gathered together into huge ***** slogans, and blasted at Qin Tiange fiercely.

The thousands of blood were shining, the words were bombarded, and the endless killings were revealed one by one, completely covering Qin Tiange.

Rumbling rumbling. . .

Words are flying and terrible explosions are heard, and the whole Xiqiao Mountain Park is shaken, as if a magnitude 10 earthquake.

Chapter 516 - Destroy the foundation and kill the true spirit

The rumbling of Xiqiao Mountain Park, the explosion came, and the ground and the mountain collapsed, generating skyrocketing dust.

The rubble continued to pierce through the air and flew out, smashing in the distance to stir up dust, showing that the power of the explosion was extremely terrible.

In the smoke and dust, a 20-meter-high statue was lingering with blood, and the characters were coiled around, constantly bombarding, causing violent explosions.

I bang bang bang. . .

With the explosion, the entire Xiqiao Mountain turned into ruins. When the explosion stopped, the smoke and dust dissipated, exposing this park that was blasted into ruins.

“Hoo ... hoo, die, are you dead?” The evil Buddha was dressed up in rough air and expended huge bombardment, thinking that the kid should be dead.

“Hahaha ... has finally died.” Just as he thought Qin Tiange was dead, he could rest assured that a figure came out of the smoke.

Tao Lairen’s naked upper body, uniform muscles, and a sense of endless power, a strong breath permeated his body, and it was Qin Tiange.

Uh. . . The evil Buddha saw this and laughed abruptly.

He stared, horrified: “Not dead, how is that possible?”

Yes, Qin Tiange didn’t die. It scared him. It was incredible. He didn’t die under such bombing. What power can kill him?

Qi Qin Tiange walked calmly and chuckled, “Why, wasn’t I disappointed that you couldn’t kill me?”

A series of bombardments just now really killed him, but the immortal was not just talking, it really supported his ability to immortal.

“immortal?”

Yuan Yuan, Miaoshan watched here, seeing that Qin Tiange could withstand such a fierce blow without dying, and finally saw a little mystery, the other party had an immortal body.

At this point, the evil Buddha also guessed, and, already feeling this, he has to say that he was a little panicked at this moment.

He has not completely transformed, and his strength cannot exert his full strength. Only when the transformation is complete and completely separated from the statue’s puppet can he become a ten-star alien creature.

It’s a pity that he was almost, enough to complete the transformation. Thinking of this, the evil Buddha’s eyes were so fierce that he made a decision, that is, risky transformation.

“Open!” With a loud howl, accompanied by the blood, the evil Buddha statue was full of evil light.

I saw that the body of the statue quickly transformed, the hands and feet turned into real flesh, then the upper body, the head turned into flesh, the flesh was gradually filled with flesh, and the rock surface fell off, revealing the real flesh and blood body inside.

“Want to metamorphose?” Qin Tiange looked cold and hummed coldly:
“Adventure metamorphose in front of me, you are trying to die.”

As soon as the chanting voice fell, Qin Tiange’s figure disappeared, and then he appeared in front of the evil Buddha.

There was a loud noise, the stones were flying, and the statue was broken a corner, but the flesh and the rock revealed the real body of flesh.

The evil Buddha is transforming, risking to be killed, and has to make a final transformation directly. Once completed, it is a ten-star, and completely get rid of the statue’s puppet.

This is what Qin Tiange does not want to see, so he launched the fiercest offense without hesitation.

“Kirin changes!” With a low drink, as Qin Tiange entered the Kirin transformation, the endless force of the earth poured out, directly entangled the statue, and did not let the evil Buddha escape from the ground.

Immediately afterwards, Qin Tiange waved the halberd to gather the strength of a total of 200,000 people.

With a click, a vacuum air blade was formed, which was split directly from the head of the evil Buddha and split from head to toe.

“No ...” The body was cut off, the evil Buddha shouted with a terrible roar, revealing a kind of unwillingness, the body cracked, and blood spewed out.

The blood light overflowed, and with the emergence of blood water, the body of the evil Buddha was split in half by the vacuum blade, but the adhesion was not willing to split.

“Dead!” With a violent drink, the evil Buddha trembled, and saw a large halberd hit his shoulder.

With a sound, another piece of flesh broke up, rocks fell off, blood flowed out, and bones were clearly visible.

The evil buddha was about to take risks to transform, but was beaten by Qin Tiange so miserably that the two hits almost cost him his life.

It’s not over yet. I saw Qin Tiange turning around and pricking at it with a click, pierced through one of the evil Buddha’s eyes, inserted deeply, and pierced through the back of his head.

“Ah ... you wait for me.” The evil Buddha uttered a sorrowful sorrow, and after snarling, his body suddenly exploded, and turned into a beam of blood.

That is the true spirit of the evil buddha. He even destroyed the foundation. The true spirit wanted to escape, so as to find the opportunity to rebirth.

But unfortunately, Qin Tiange was well prepared. Just after the blood rushed up, he was blocked by a mysterious force.

“No, what is this power?”

There was a burst of panic and roar in the blood of the puppet blood, a roaring red shadow kept roaring, he was the true spirit of the evil Buddha.

I did not expect that I had just broken the foundation and destroyed the body of the Buddha, and escaped directly from the true spirit, but was suppressed by a force of taboo that had long been ambush.

“Oh, I really want to die!” Seeing this, Qin Tiange couldn’t help laughing.

He didn’t expect that this evil Buddha eventually destroyed his foundation and directly blasted off his own body. The true spirit broke away from the restrictions and wanted to escape. Unfortunately, he was suppressed by the taboo area.

He looked at the broken statue of the evil Buddha, pieces of **** pieces of gravel, many of which had become flesh and blood, with clear bones and dense veins, but fortunately the undead Buddha’s heart was preserved.

“Town!”

A word came from a town, and the silver and silver mansions interspersed with each other, and the true spirit of the evil Buddha was suppressed and imprisoned there instantly.

At this time, the true spirit of the evil Buddha saw that Qin Tiange had already come to him and looked at his true spirit lightly.

“Give me up, I don’t want to die.” The true spirit of the evil Buddha looked terrified and shivered. He was afraid, and asked for mercy, but Qin Tiange broke it into the abyss in the next sentence.

He only heard Qin Tiange snorting and said, “How many human flesh and blood souls have you devoured, and now you have today, and now you want me to forgive you, how can these resentment devoured by you rest?”

Actually, this is just an excuse. Letting go of this evil Buddha’s spirit is just a joke.

“no, do not want...”

The evil spirit of the evil Buddha screamed in horror, and after hearing only one sound, Qin Tiange pulled out the ancient sword and gently pierced the true spirit of the evil Buddha with one sword.

Suddenly, a terrible force came from the ancient sword, which directly smashed the true spirit of the evil Buddha, swallowed into the ancient sword, and was digested by the ancient sword.

No matter how the true spirit of the evil Buddha struggles, it cannot change the fate of being swallowed up. In the end, it is swallowed up by the ancient sword and there is nothing left.

Qin Tiange sighed with relief when he killed this evil Buddha. Fortunately, he did not let this evil Buddha completely metamorphose, which would certainly be miserable.

As soon as the true spirit of the evil Buddha died, Qin Tiange came to the original statue of the evil Buddha and saw the broken statue fragments all over the ground. He felt a regret in his heart and carefully put away the heart of the undead Buddha.

“Unfortunately, the evil Buddha finally destroyed its foundation and damaged the undead heart. It was of little use.” Qin Tiange saw so much heartache that an undead heart was destroyed and became a dead heart.

邪 That evil buddha is also fierce enough, even if the self-destructive foundation is to run away, unfortunately it was miscalculated, and finally Qin Tiange suppressed the true spirit and beheaded and devoured.

After killing the evil Buddha, Qin Tiange searched here for a while, but turned around and left to leave after finding no abnormalities.

Zizhulin, returning here again, Miaoshan's expression changed somewhat, looking at Qin Tiange's eyes are different.

I witnessed the killing of a powerful evil Buddha in my own eyes, and Miaoshan's heart was extremely jealous of Qin Tiange. Being able to kill an evil Buddha means that she can kill her now.

The evil buddha was in the transformation stage, but was interrupted by Qin Tiange, and then he fought directly. In the end, he forced the other party to destroy the foundation and the true spirit escaped. Unfortunately, he couldn't escape.

This is enough to make Miaoshan, the spirit of the goddess of mercy Guanyin who is also ready to be transformed into a world, seem extremely vigilant.

“How are you thinking?” Qin Tiange asked in a bland tone.

Miao Miaoshan's expression was complicated, she looked at Qin Tiange steadily, she didn't know what she was thinking, but the only thing she could guess was that she was afraid of Qin Tiange at this moment.

In fact, why shouldn't Qin Tiange ***** at these alien creatures? Once the successful transformation is completed, the transformation is ten stars. It is only a matter of time before the future success of the king.

How can you ignore such a powerful alien species? Naturally, you are extremely vigilant and jealous, so when you discover that the goddess of Goddess of Mercy at Wanghai has formed a sense of wisdom, Qin Tiange immediately ventures to threaten each other with a nuclear bomb.

Fortunately, he ran out of an evil Buddha and let him complete the bombardment. It was a powerful deterrent and warning to Miaoshan Miaoshan did not speak, and Qin Tiange did not speak again, both Looking at each other in this quiet way, each other's breath is constantly strengthened, the power is turbulent, and the killings appear.

的 The atmosphere between the two is more and more dignified and tense, and the war is about to begin.

“Well, I agree with your invitation.” In the end, Miaoshan broke the silence.

She directly agreed with Qin Tiange's invitation and promised to join the so-called xenobiotic management bureau, which she had to promise.

Because she knew that once she didn't agree, Qin Tiange would not hesitate to attack and kill her completely like killing the evil Buddha.

Uncontrollable and powerful aliens are the most intolerable for Qin Tiange. Once the madness is initiated, it is really a disaster for the entire human race.

"Wise move!" Qin Tiange's stretched face finally relaxed a little, and a smile appeared on the corner of his mouth.

Wu Miaoshan agreed with his proposal to join the Xenobiotics Administration, which is tantamount to accepting Qin Tiange's jurisdiction.

"Speak without a word, sign this agreement."

The next moment, Qin Tiange took out a scroll and threw it over. Miaoshan took it for a quick look. His face became colder and cold, and even a little bit of anger.

"What do you mean, why did you want me to sign a contract?" Miaoshan looked cold and stared at Qin Tiange's eyes.

Qi Qin Tiange calmly said, "This is just an equality contract, which restricts you from doing things that are not good for humanity in the future."

"Agree to sign the contract, if you don't agree, you will have a fight, but then it is not the contract, but the master-servant contract." Qin Tiange's light tone made Miaoshan a little hairy.

Chapter 517 - Breakthrough, unprecedented strength

A contract floats in front of Miaoshan, exuding a simple atmosphere. The content above is an equal contract, and the two parties signing the contract must not violate it.

This was found from the base warehouse before Qin Tiange came, and the purpose is to limit the strange creatures born of the goddess of goddess of mercy Guanyin.

"I sign!"

In the end, Miaoshan decided to sign the contract because she felt the threat from Qin Tiange.

If she did n't sign, it is likely that the **** battle broke out the next moment, and she just slaughtered an evil Buddha of the same level.

Huh!

With two drops of blood falling on the contract, the scroll turned into a surplus of blood, and rushed into Qin Tiange and Miao Shan's eyebrows in two.

This is to merge into the soul and form a contract, but one of the forces of the contract that rushed into Qin Tiange's knowledge of the sea was suppressed by the force of taboo, and then crushed and worn away.

The power of that contract was directly obliterated and could not affect Qin Tiange's soul consciousness, as it was the case before.

Seeing this, Qin Tiange secretly said, "It seems that I don't need to be constrained by the power of the contract in the future, it is very good."

He smiled on his face and was not constrained by the power of the contract, but Miaoshan could not do it. Signing the contract meant that he could not violate the above rules.

But Qin Tiange was unconstrained. This is the terrible power of taboo. The power that the power of contract cannot restrain can be directly destroyed.

Looking at the wonderful signing of the contract, Qin Tiange smiled and said: "Since you have joined the Xenobiotics Management Bureau, I will be your boss in the future. This is for you. Complete the transformation as soon as possible and come forward after transformation. Find me."

He said, he threw out a heart, which is the undead heart of the evil Buddha, but unfortunately the source inside has been irreparably wounded and is dead.

However, it still contains powerful power, and a splendid Buddha power, which is more than enough for Miaoshan as the final transformation power, and the origin is exactly the same.

Because the evil Buddha has devoured an incarnation of Miaoshan, so she has no obstacles in refining and absorbing this immortal Buddha heart, Miaoshan will surely succeed in her transformation.

He took the heart of the Buddha, and Miao Shan's complexion was extremely complicated. Looking at the leaving Qin Tiange, he felt a sense of being deceived.

"Why do I always feel cheated?" Miaoshan was in a bad mood and felt like he was cheated.

It's a pity that the contract has already taken effect. She can't do it just to regret it. She can only do it honestly.

"Transform into shape first!" Miaoshan finally gave up all thoughts, crushed the Buddha's heart with one hand, swallowed it directly into the belly, and absorbed the vast Buddha's power inside.

This is to enter the final transformation. As long as it is completed, it is a ten-star heterogeneous life body, soaring freely and freely, no longer restricted by the statue body.

Moreover, once she completes the final transformation, the ontological idol will inevitably turn into a powerful body, which is equal to the body of the law, full of powerful power.

This point is the power of these heterogeneous life forms. Once they have successfully transformed, it is to leave the world wide for free.

When Qin Tiange saw this, he came to take advantage of the opponent's failure to come out and use force to deter and force the other party to sign a contract.

If you wait for Miaoshan to complete the transformation, don't try to threaten the other party, because the ten-star power is beyond imagination, even if the 5 million tons of hydrogen bomb is blown down, you may not be able to win the other party.

The creatures after ten stars can be called humanoid nuclear bombs.

“It's okay, I found it in time ...” Void in the distance, Qin Tiange's tense mood finally finally let go.

Actually, this time he was a little unreliable in his heart, otherwise he would not let Shang Jing use the missile with a nuclear warhead to lock the magic.

来 Even if he came to persecute the other party this time, he didn't dare to force it too fast. Like the evil Buddha, he finally ventured and risked his transformation. If the situation was not handled well, it would be a disaster.

Anyway, Miaoshan sheltered hundreds of thousands of survivors. Qin Tiange definitely did not dare to kill Miaoshan blatantly. He could only control it.

Well now, signed a contract, it is impossible for Miaoshan to do things that are not good for him, unless she can break through the limits of the contract.

“Go back first, everything is strength. If you have enough power to directly defeat it, do you have to do everything to threaten the other party?” Qin Tiange sighed.

身体 His body crossed the void, and soon returned to the base and entered the retreat of the underground base.

Qi Qin Tiange felt that only with the improvement of strength, all problems would be solved, no matter what kind of creatures he encountered in the future, if he had the strength, he would directly convince the other.

As biological evolution accelerates, powerful organisms are sufficient to protect against the threat of nuclear bombs. In fact, seriously, the lethality of nuclear bombs is mainly radiation.

However, with the strength of the living body, the radiation has no effect at all. As for the power generated by the explosion, the stronger the biological resistance, the stronger the resistance.

At eight stars, I am basically not afraid of the threat of small equivalent nuclear bombs, and even nine stars are not afraid of the threat of medium equivalent nuclear bombs.

I have been rated ten stars and are basically immune to the threat of 10 million tons of nuclear bombs. Even the threat of large nuclear bombs is not afraid, because you can't bomb each other.

As for the king level, in previous lives, a king had been bombed by a nuclear bomb, and it was unscathed. The scene really gave the world a new understanding of the king.

Not to mention the great Emperor-class powerful men who are more powerful than the king, and the more terrible first emperor-level, these are basically super humanoid nuclear bombs, and one punch is enough to destroy a big city.

In the closet room, Qin Tiange sat quietly cross-legged, completely recovering the strength and energy he had consumed in the war with the evil Buddha, and completely repairing the traces of the body's hidden scars.

After doing this, he took out a group of things glowing with blood, and it was precisely the hard work of the strong men from the Era.

心 This hard work contains extremely terrifying energy, both in quantity and quality beyond his imagination. You must be careful to absorb it, otherwise a bad one will explode.

Murmur!

Qin Tiange carefully separated a small drop of effort, just a drop of peanut rice size, but it contains infinitely huge energy.

As soon as he entered the entrance, it turned into a **** torrent that swept the whole body, as if not a drop of blood was swallowed, but a brutal and overbearing dragon.

Rumbling. . .

There was a constant roar in the body, Qin Tiange gritted his teeth and endured the erosion and erosion of the huge torrent of energy in his body, destroying all the way, but recovering all the way.

This is an outrageous force, too terrible, extremely old, and it is not something he can easily swallow now.

If this effort had not been refined by the Power of the Era, even weakened a lot under the erosion of years, he might not be able to swallow it.

With just one drop, his powerful body was cracked, and the immortal body could not be recovered quickly enough to be repaired. It must be said that it was terrible.

That's why, Qin Tiange felt that his physical strength was skyrocketing, his muscles became stronger and stronger, and the immortal body became stronger and stronger in the physical body's wound recovery.

The so-called break and stand is the current situation, first destroyed by ancient energy, and then recovered to become stronger, a little bit of metamorphosis.

细胞 All the cells that died in the destruction were eliminated, leaving the most perfect and powerful cell genes, a little bit of change in death, and evolution.

秦 Qin Tiange originally reached the limit of the six-star rating. His promotion was just a matter of course. It didn't take long for him to swallow the effort and the six-star barrier was broken.

With the promotion of the level, a fierce increase in strength was brought about, and the power doubled at once, which brought a huge burden to Qin Tiange's body.

Originally, the capacity to accommodate this force has reached its limit. The physical body cannot bear more power before it has its limit, but now the strength is broken and the body cannot accommodate it.

Xu Xingxu is a biological gene's self-instinct. The flesh is burst into being at the moment. Some of those ancient forces are integrated into the flesh, strengthening the body that is about to collapse.

I do n't know how long in the past, there is a mysterious energy wave everywhere in the secret room, the self-initiation of the taboo realm, Qin Tiange floating quietly inside.

His mind and even his will are immersed in the mystery of ascension. His body is surrounded by a dense nebula, which is getting richer and denser, and the clouds seem to hide stars.

The seven-star star marks Qin Tiange's evolution and takes another step forward. His physical, strength, and other qualities have received extraordinary transformation.

Huh!

For a long time, Qin Tiange opened his mouth and sighed, hissing, and the walls made of the super-ice crystals in the back room were punched out of a hole. It was breathtaking to become a sword, and its power was shocking. Then Qin Tiange Opening his eyes, he saw two sharp eyes suddenly cut through the air, cut the super ice crystal wall in front, and made two shallow marks.

"Finally promoted, seven-star." Qin Tiange murmured to himself, slowly stood up, five fingers open and gently gripped.

There was a thunderous thunder, and the air was exploded. Qin Tiange felt more and more that his strength was beyond his own budget.

With his current strength, Qin Tiange feels that his punch is enough to blow half of the base. The strength of 200,000 people is unprecedentedly powerful. It is real power, not the illusory feeling brought by the skyrocketing strength.

"The strength of 200,000 people, I don't know if I can fight against the ten-star creature?" Qin Tiange shook his fist and lost his thoughts.

With the current seven-star power, can it compete with ten-star powerful creatures? This is unknown, as it has never been beaten.

As for the evil buddha who killed, in fact, it is not a ten star, because most of the opponent's power is still in the transformation stage.

"First adapt to the current strength, and then increase the limit of physical strength, it is safe to make a breakthrough." Qin Tiange finally made a decision.

After adapting to the current soaring power, he will increase the strength of the discipline, otherwise he may be completely blasted by the soaring power, which is fun.

I left the underground back room, Qin Tiange was going to the Ministry of Science and Technology to see those talents from the Science and Technology General Hospital that had been returned from Shanghai.

However, at this time, a message came from Jiji, and he had to dispel the thought.

: ,, gegengxin !!

Chapter 518 - Restricted areas and secret areas appear

“Myself, what is it?”

In the secret room, Qin Tiange looked dignified, staring at the surveillance picture released by his self.

I saw that there is a planet in the picture, which is the earth, and it is the whole picture of the earth taken by nano satellites.

He said solemnly, “Master, I have calculated that the earth is expanding and that a mysterious magnetic field has begun to appear in space orbits around the earth.”

“The earth swells?” Qin Tiange just recovered after hearing it, as if he had expected it, but this mysterious magnetic field made him take it seriously.

He Ji explained: “Master, according to my calculations, the earth is currently in a high-speed expansion stage, which is likely to cause collisions of continental plate movements and even cause terrible disasters such as tsunami earthquakes.”

Qin Tiange nodded, he said, “This I know, it should be the role of dark energy. The earth’s center absorbs infinite dark energy. The mass itself is increasing. It is normal for the plate to move and collide. thing?”

“I have no idea that the nanosatellite is being affected by a certain magnetic field, and this magnetic field is gradually being strengthened, which may cause the nanosatellite to lose its effect completely.” Qin Ji made Qin Tiange realize that the problem was serious.

After the Earth absorbs dark energy, its mass is increasing, followed by a movement of the Earth’s continent plate, an earthquake and tsunami, and a new continent collided.

But I did not expect that there is a mysterious magnetic field outside the earth, which can affect nanosatellites, and may even make nanosatellites completely useless.

“Is there no way to avoid it?” Qin Tiange was a little reconciled. The nanosatellite is an important part of the Sky Eye Plan and even the Sky Penalty Plan. If it fails, what else to play?

Xi Ji shook his head and said, “Master, it is not yet possible to analyze the force of that magnetic field. It seems to be a magnetic field emitted by the Earth itself, which is getting stronger and stronger.”

“Also, master, this is a surveillance picture from a recently launched nanosatellite. You better have a look.” Then, Jiji opened another virtual light curtain.

This is a picture from another nanosatellite, not the earth, but a surveillance picture above the moon.

Xi Ji pointed at the dark piece of the picture and said, “Master, in the area on the back of the moon, nano-satellites can’t shoot anything, as if there is a mysterious energy blocking any detection methods.”

Qin Tiange’s expression was unsteady, staring at the darkness on the light curtain, which was the monitoring picture taken by the nano-satellite. There was nothing in it, which was impossible.

But the fact is that even the ultra-high-tech nano-satellites can not photograph the situation on the back of the moon, which is beyond Qin Tiange’s expectations.

However, Ji Ji’s next words were even more amazing. I saw that she opened another light curtain, and another monitoring screen emerged.

“Master, this is the surveillance picture from our latest nanosatellite probe launched to Mars.” Ji Ji pointed at the picture.

This is a nano-monitoring satellite recently launched to Mars. It has not yet reached Mars and has traveled two-thirds of it. It is now on its way to Mars.

This nanosatellite has its own propulsion system and flies at a speed of 200,000 kilometers per hour in a cosmic vacuum. As for how to do it, it is a new space technology.

However, this nano satellite captured such a scene on the way.

“Meteorite rain?” Qin Tiange’s pupils shrank, staring at the black dots on the screen, floating and moving like ghosts in the dark and cold universe.

Xi Ji said with a serious expression: “The host said yes, according to my comparative calculations, that is a large meteorite rain, and the direction of progress is the earth.”

According to the calculation of the running trajectory and route of these meteorite rains, we finally got the answer, the target is the earth.

This large meteorite rain is numerous, and according to the calculations made by Ji Ji, there are at least millions of meteorites, forming a torrent in the universe and rushing towards the earth.

Qin Tiange looked dignified, and murmured, “Are you out there?”

When he saw the meteorite rain, he knew that the extraterrestrial starry sky was hard to come by, and a large meteorite rain visited the earth from outer space.

Among these meteorites, the largest one is tens of kilometers long, and the small one has a volume of thousands of kilometers. Once millions of meteorites hit the earth, it will cause unimaginable disasters.

Of course, the meteorites that crashed into the earth in the previous life did not cause much death or injury, but what was carried on the meteorite was the biggest disaster.

“Calculated how long will these meteorite rain reach the earth?” Qin Tiange asked seriously.

Just listen to Jiji said: “Master, according to Jiji’s calculations, these meteorite rains will take one year to reach the Earth’s near-Earth orbit.”

“A year?” Qin Tiange frowned secretly, and sure enough everything has changed.

But he didn’t care, just come, anyway, he has nothing to fear, just be prepared to take precautions.

However, Jiji quickly gave another important message: “Master, recently, nanosatellites have not been detected in many places.”

“Oh?” Qin Tiange looked intently, watching Jiji opened the monitoring map of the earth area, and drew several areas on it.

These areas, large and small, are distributed throughout the entire globe, and there are many in China.

“Master, this is more than 100 kilometers southeast of Kunlun Mountain. It is blocked by a mysterious and powerful energy magnetic field, and it is impossible to detect what is inside.” Jiji pointed to the first location in the area where Yaochi of Kunlun Mountain was located. A radius of more than 100 kilometers has become a blind spot.

Qin Tiange squinted his eyes and looked at the white area. Some kind of mysterious magnetic field blocked the detection of nanosatellites, reminding him of the jade coffin in Yaochi Tiangong.

“Any more?” He didn’t say more, but asked another area.

Soon, Jiji pointed out another area, which is the largest desert area in China, the Taklimakan Desert, and there is a mysterious energy to isolate it.

Seeing this, Qin Tiange’s pupils shrank, remembering the memories of previous lives, where the restricted area in Huaxia was located.

“Does the restricted zone start to emerge?” Qin Tiange muttered to himself.

Then he turned his eyes and saw another area, which is the most famous mysterious place of death, Lop Nur, in Huaxia.

This area has a strong magnetic field, which also hinders the detection of nanosatellites, as if the sky’s eyes were blocked by some kind of energy.

Qin Tiange knows that here is also a place called the restricted area. Inside are countless fierce evil spirits wandering. All creatures and human beings who have entered are swallowed up souls. The previous life is called the soul-eating restricted area.

The pictures taken there are hazy, like a black cloud cover, it feels weird.

“Master, and here, one hundred kilometers northwest of Shangjing, recently there was an inexplicable magnetic field activity.” Fu Ji pointed to an area and explained.

She detected intense magnetic energy activity here, and the satellites were so severely disturbed that she couldn’t even shoot anything here.

Qin Tiange looked solemnly, and looked at the unobservable locations one by one found. Huaxia, foreign, the sea, and the entire earth, densely packed locations have mysterious power to prevent shooting detection.

Amazon, Devil's Triangle, Death Valley's terrible restricted areas one after another have begun to emerge.

Looking at these areas that can be monitored by satellites, Qin Tiange felt a little dignified, feeling that the restricted area and even the secret realm were coming out.

“Master, I'll tell you a bad news ...” Suddenly, Jiji said this sentence with a bad look, making Qin Tiange feel surprised.

“What's bad news?” Qin Tiange chuckled in his heart.

I saw that Jiji opened a light curtain with a dark piece on it, and then suddenly a light flashed, and the picture disappeared completely.

“Master, the nanosatellite heading to Mars was destroyed by unknown energy.” Jiji said the news solemnly.

This is just what happened. The nano-detection satellites flying to Mars were destroyed by unknown energy as they approached Mars' outer orbit.

Qin Tiange looked dignified, and asked, “Yan Ji, can you calculate where the energy came from?”

“Energy attack from Mars.” Ji Ji quickly calculated and finally determined the location. That energy came from Mars and directly destroyed the approaching nano-satellite.

When he heard this, Qin Tiange narrowed his eyes and secretly resentfully said: “It must be an alien race, and there is an alien race on Mars.”

Even Qin Tiange speculated that the one-way wormhole on the back of the moon also had an alien life race coming.

This made him feel the pressure in his heart. He had encountered two alien life forms before, one was the Silver Star family, and he had nine stars in his underage.

That east departure is also from the outer space race, and it is also a race after humans have intermarried with the races of the stars.

“Dear oneself, temporarily stop the Mars exploration program and accelerate the development of anti-matter energy technology applications.” Qin Tiange issued this order with a serious expression.

The Mars exploration program was cancelled. As for the moon, no attack was found for the time being. Although the nanosatellite could not be photographed, it was still safe.

Qin Tiange already foresees The alien race is not far away. With the millions of meteorite rain near Mars coming to the earth, the terrible alien creatures carried on the meteorite will make him extremely Valued.

Threats not only from outer space, but also on the earth's native land, those huge lands and mysteries that fell from the sky after the end of the day have all surfaced.

“Master, come and see this ...”

Just when Qin Tiange was about to leave, Jiji released a surveillance picture, which was a surveillance picture above the sea.

I saw the waves on the sea, the waves clapping at a height of 100 meters, the rumbling sounds spread all over the place, the clouds gathered in the sky, the thunder was rolling, the lightnings were intertwined, as if a scene of doom.

. . .

Suddenly, an extremely high-pitched dragon yin came out of the sea, and then the sea exploded, and a cyan dragon soared in the clouds and soared into the sky.

“Qing Chen, Hualong?” Qin Tiange's eyes flickered, staring at the blue dragon that soared for nine days on the monitoring screen, still old acquaintances.

Chapter 519 - 9 stars, Qinglong

A dragon yin shocked the world, and the waters of Bafang were boiling, causing a horrible wave.

It was a barn, a cloud of clouds rising over the sea, agitating the sea, forming a terrible tsunami that flooded countless islands and reefs.

In the sky, thunder clouds rolled, lightning intertwined, an apocalyptic scene.

Huh!

Qingyu roared, soaring in the mist, soaring into the sky, and rushed into the clouds, leaving the endless thunder to smash on the body.

The kilometer-long dragon body, head horns, tooth decay, swallowed endless thunder and lightning, bathed in thousands of thunder.

thunderbolt. . . A lightning splattered and bombarded the body of Qingyu, the scales were broken, the flesh splashed, and it looked terrifying and terrifying.

It is using the Thunder to cleanse its body and shed an old scale armor, just like a python moulting to get a new life.

Seriously speaking, this barnyard is actually the evolution of the green snake. Now it has finally reached the limit of eight stars and is about to break into the nine stars.

Once the dragon was turned, the clouds drove, and soared for nine days. This was the pursuit of Qingying. It gained a lot of opportunities in the deep sea and became the hegemon in this area.

Now, it is the key to transforming the dragon. It is exactly a large thunder cloud over the sea today, allowing it to transform with the help of the thunder and become a real green dragon.

“Is there a green dragon?”

In the purple bamboo forest of the South China Sea, the goddess of mercy Guanyin suddenly awakened, opened his eyes, glowed with golden light, and saw the scene on the sea.

With a touch of surprise, Miaoshan watched the barking thunder bathing, transforming her body, and turning into a green dragon.

Once transformed into a green dragon, it will be a nine-star, and with the completion of the body's star core, that is, Dragon Ball condensation, it will soon be able to enter the ten-star. At that time, it will naturally become a grade with the success of the wonderful world. .

“Is he?” Suddenly, Miao Shan's gaze was fixed, and she saw a figure crossing the sea and came to the sea.

It was Qin Tiange who came from the base and saw such a scene.

On the sea, the sky was rolling, and the sound of rumblings spread throughout the sea. Above the thunder cloud, a thousand-meter-long barnyard kept circling in it, writhing with its body and bathing in thunder.

“Qing Ye, is it finally about to become a real dragon?” Qin Tiange looked solemnly, staring at the ever-rolling Qing Ye above Lei Yun.

The kilometer-long body was smashed by endless thunder and the scales were broken, flesh flew, and the yellow dragon blood fell down and burned on the sea.

This is dragon blood, the real dragon blood. Nothing spontaneously ignites. When the water boils and burns, the seawater cannot be extinguished at all.

“It's you, dare you come?”

Above the thundercloud in the sky, the barnyard found Qin Tiange, and stared at him with a pair of scarlet dragon eyes, the cold and violent killings permeated.

For Qin Tiange, this young man was extremely hated. He had never killed each other after several fights. Now it is the key to transforming the dragon, and the other party appears again.

嗷. . . A high-pitched Dragon Yin came out, the sea rolled over, setting off endless waves, and rushed directly to Qin Tiange.

Qingyu was roaring, and an endless tsunami struck Qin Tiange. We can see how much he hated Qin Tiange.

Unfortunately, this tsunami couldn't shake Qin Tiange at all. Even if the tsunami hits him, he stayed calmly, emitting an air field outside his body, and isolated the tsunami coming from the rumble.

“During the dragon, you dare to shoot at me, are you really tired?” Qin Tiange waved his hand gently, the rolling tsunami stopped immediately, and then clashed and scattered.

Seeing this, Qing Pu's pupils shrank, revealing her fearfulness, realizing that this human being could not be underestimated, and failed to kill each other several times.

“Abominable human, do you dare to obstruct the King's Hualong?” Qing Yan snarled.

However, Qin Tiange shook his head gently, and raised a corner of his mouth, whispering softly: “Don’t get me wrong, I’m here to witness you as a dragon, and will not prevent you from becoming a green dragon.”

“It’s strange to believe you,” Qing Yan said with a disdainful expression, mockingly: “Don’t talk nonsense, just come up if you want to do it.”

Qin Tiange looked at the rolling Lei Yun and shook his head: “It is not good to be arrogant and arrogant. Even if you turn into a green dragon, I will kill you easily.”

Yes, after being promoted to seven stars, Qin Tiange has this strong self-confidence and can crush this barley that is about to be transformed.

Even if it is a nine-star blue dragon, Qin Tiange has the absolute confidence to kill each other, which is one of the reasons why he dares to come here.

Another reason is that the shock of the unchangeable blood of Nine Transformers revealed an endless desire to devour the blood of Qinglong.

When Qin Tiange saw the Qinglong Hualong, the immortal blood hidden in his body immediately sent a strong signal to let him understand that killing the Qinglong had become a foregone conclusion.

噉. . .

Qingyu roared, and Long Yin came in, and Thunder Cloud was stirred upside down. The endless thunder fell on Qingyu’s body, and constantly helped it to break the original dragon body. The scale armor broke and grew again. Powerful and perfect cyan dragon scales.

I saw that the kilometer-long body gradually became blurred under the bombardment of the Thunder, and it was gradually elongated in the Thunder.

Qing Yan’s leather armor was shattered, the internal flesh and blood began to metamorphose, the bones became stronger and harder, the body gradually stretched, and a large green dragon scale was derived from the flesh.

Yin. . .

Suddenly, an extremely high-pitched dragon yin spread across the sea, causing countless creatures in the ocean to panic, and some even trembled directly on the bottom of the sea.

Long Yin came out, accompanied by a mighty dragon mighty, a huge blue dragon head protruded from the sky and thunderclouds.

A pair of dragon horned owls, the sky above their heads, the brilliance of blue and blue, the two longan are like two **** spring eyes hanging in the void, revealing the murderous murderousness, revealing the fierce light.

Qingyu has been transformed. First of all, the head of the dragon is completely transformed into a blue dragon. The dragon must shake, looking down at Qin Tiange below, showing strong arrogance.

Qingyu and Qinglong differ by one word, but the difference in strength between them is ten thousand miles. Xu is never an opponent of the dragon.

Just like before, Qing Ye saw Qin Tiange a little bit jealous, but now she looks a bit arrogant after turning into a Qinglong, with a pride in her eyes, she despise Qin Tiange as a human.

“Humble human, your death is here.” Qinglong said indifferently, without a trace of emotional fluctuations, as if the dragon soul had been transformed.

In the gene, the genetic memory and power belonging to Qinglong are awakening, constantly flowing out, spreading in the dragon’s body, strengthening the power of Qinglong.

Click!

I saw a huge dragon claw probing out of the thundercloud, and five sharp claws caught a large group of blackened thunderclouds coiling on the dragon claw, all lightning intertwined, looking extremely terrifying.

With the thundercloud shaking, another blue dragon claw protruded, and thundercloud was attached, set off a violent and cruel atmosphere, full of destruction.

The blue dragon was completely transformed from the thunder cloud. At that moment, a dark cloud of thunder clouds was automatically attracted, condensed around the blue dragon’s body, forming a foil.

Yun Conglong, wind from tiger, the blue dragon in front of him really achieved the level of driving Lei Yun for himself, as if he was born with an instinct.

Even the thunderous sky was completely absorbed by Qinglong’s double horns, emitting a strong blue-purple thunder.

Huh!

With the sound of a dragon yin, the world was shocked, Longwei spread, and the sea instantly fell into a dead silence, and then the rumbling tsunami set off thousands of tsunamis, and the tumultuous roar opened.

Qin Tiange has been watching quietly, never moving, even the expression on his face has not changed, as if he didn’t care about the power of this blue dragon at all.

Qinglong Qiang is strong, but Qin Tiange is not afraid, but exudes an excited emotion, his eyes are full of warfare.

Seven-star, nine-star abuse, what kind of scene is that? Just thinking about it, Qin Tiange felt that his blood was boiling, and the blood that changed from immortality even sent out the strongest signal that swallowed Qinglong.

“Very well, you have finally completed the transformation and become a dragon. It is really gratifying.” Qin Tiange said suddenly a smile, stepping up the air step by step.

At the sight of Qinglong, his eyes flickered with two beams of horrible blood, and he hummed, “Humble humans, blaspheme my king, and you will be my king’s puppet in the future.”

This blue dragon suddenly changed his mind, instead of killing Qin Tiange, but wanted to enslave him as his own servant.

As for Qinglong's words, Qin Tiange just smiled, and kept walking, step by step into the sky and clouds, facing the two-kilometer-long Qinglong.

The mighty dragon was coming to his face, and the terrible coercion felt as if an ancient mountain was resting on his body, which was extremely uncomfortable.

However, Qin Tiange walked steadily, stepped on the void and went straight up. He was not affected by this pressure at all, as if he didn't care about these breaths.

"A little skill, but unfortunately, you can't escape this time." Qinglong raised his head proudly, opened his cage mouth, and suddenly spit out a bright pearl.

"Dragon Ball, Star Core?" Qin Tiange stepped a foot, looking at the bead that Qinglong spit out. It was the Dragon Ball, or the star core that Qinglong condensed.

This is a dazzling star core with a strong heat wave, a blue dragon flame boiling and roaring, and the temperature is extremely high.

"Jiuxing Dragon Ball, gather!"

Suddenly, Qinglong showed a smirk Suddenly roaring in the sky, he saw an endless thunder from the sky gathered, and rumbling into the dragon ball.

Suddenly, a ray of light lit up in the heavens and the earth, and the endless light radiated, as if a small sun fell on the earth.

Qin Tiange's eyes were shining, staring at the bright and dazzling light source, a dragon ball was completely formed. This is not over yet. Around this huge dragon ball, there are even eight smaller beads, which are also the same. Dragon Ball.

"Good guy, there are nine Dragon Balls condensed. It seems that you have obtained a lot of opportunities in the deep sea." Qin Tiange looked surprised and looked at the nine Dragon Balls that had been condensed.

One of the largest dragon **** is the size of a basketball, and the eight small dragon **** are only the size of a fist. They circle and circle around the largest dragon ball, emitting terrifying power waves.

Huh!

When Jiuxing Dragon Ball was 10%, Qinglong gave out an excited dragon yin, opened his mouth and swallowed the nine Dragon Balls. Instantly, bursts of blue light erupted on the entire body, and the dragon scales shone, revealing terror.

The nine-star blue dragon has completely transformed.

Chapter 520 - Sailing Dragon

"Human, if you kneel down and ask for forgiveness, your king will allow you to be the first servant!"

Qinglong lifted the proud head of the dragon and looked at Qin Tiange who came out of the air, and there was a contempt and solitude in his eyes.

Dragons have noble blood, and naturally have a high-minded feeling of contempt for everything, as if heaven and earth are the only ones.

This Qinglong is no exception. It has just been transformed, and the inheritance in Qinglong's genetic memory has also been perfectly inherited.

"Pride, arrogance!" Qin Tiange rushed into the air, waved his hand through the sky, and hummed, "If you ask for mercy now, I might forgive your life, so I can barely accept you as a mount."

"Blaspheme my king, look for death!" Qinglong burst into a rage, and then roared down.

It was really angry. The human being was so arrogant that he asked for mercy and wanted it to be a mount. It was simply a shame.

As a proud blue dragon, how can you not be angry?

Bang!

Qinglong swooped down, and the dragon's claws slammed down, pointing directly at Qin Tiange's body. Once he was shot straight, he would be seriously injured if he died.

The world rumbled, and Qinglong's claws shot down, but Qin Tiange was not afraid. He waved his fist and punched him hard.

Listening only to a horrible loud noise from the "Boom", the world was deaf, and the terrible air waves swept up, setting off endless waves to beat the sky.

Then banged, Qinglong's claws popped open, Qin Tiange's body slightly backed down and stopped. He shook his fist, a smile appeared on the corner of his mouth.

"It turned out that this is the mystery of the nine-star power, the pressure of the magnetic field of the star core, suppressing the low-level life." Qin Tiango muttered to himself, and learned the core mystery of the nine-star.

In fact, seriously, after the star nuclei condense, a strange magnetic field force will be generated, just like the stars' self-gravity and gravity.

"What a powerful force, is this human already a nine-star?" Qinglong was startled, a claw went down and was bounced off.

It all felt incredible, secretly guessing whether Qin Tiange had been promoted to the nine-star rating early, but he quickly rejected it, and the other party did not have a nine-star rating.

"You, you have only seven stars?" The next moment, Qinglong shouted in horror, shocking the whole sea.

It sent out terrifying dragon power, countless creatures lying on the bottom of the ocean lying on the bottom, trembling, none dared to escape.

As for Qin Tiange, he ignored this Longwei and didn't care, it was as easy as a breeze.

“Why, Seven Stars can't hit you?” Qin Tiange crooked his head and smiled.

He lost track of his body for a moment, and reappeared. He had reached the left of Qinglong. The halberd waved, split the thunder cloud that surrounded him, and bombarded Qinglong's body.

There was a squeak, the spark splattered, Thundercloud was smashed, and the arc of the wire coiled and flickered out gradually.

I saw that Euphorbia bombarded a blue dragon claw, and the violent force smashed Thundercloud, cracked the dragon scale, and shook the dragon claw.

But unfortunately, Qin Tiange's body was also shaken by the huge dragon force for dozens of meters, and then he saw a blue dragon claw shot down.

“Go to death!” Qinglong shouted angrily, his claws shot hard, and the air was burst.

The wind and waves screamed, and the air within dozens of meters was shot into a vacuum by dragon claws, and terrible pressure struck.

At the critical moment, Qin Tiange held up his halberd, a bright light soared into the sky, and a huge ghost appeared, holding the halberd to hit the blue dragon claw.

With a bang, the claws of the blue dragon were knocked open, and the two quickly separated. Qin Tiange stepped on the void and carried a large halberd, looking calmly.

On the opposite side, a two-kilometer-long blue dragon crosses the void, surrounded by horrible thunderclouds, compressed into the atmosphere of thunderclouds and surrounding the blue dragon, setting off its arrogant body, emitting endless power Pressure.

Huh!

Qinglong roared, was blocked by Qin Tiange twice, and was really provoked. It opened its mouth and suddenly burst out a hot cyan flame, which was the blue dragon flame.

The hot blue dragon flame swept through, the sky was vast, and Qin Tiange was completely submerged in it. The dragon's breath was burned and the sky was destroyed.

cry. . . There was a sudden blast of phoenixes from the green dragon flame, and then a gray **** phoenix soared, and opened its mouth to swallow up the blue flame that swept the sky.

“Shenfeng?” Qinglong was startled, staring at a pair of dragons staring at the Shenfeng who had soared for nine days, the whole body was burning with gray flames.

This gray **** phoenix constantly coiled and fluttered, swallowed up the blue dragon flame, and fluttered around Qin Tiange's body, looking extraordinarily handsome.

“kill!”

Qin Tiange drank swiftly, the figure disappeared, and the body of Qinglong on the other side suddenly trembled, and roared loudly, and was hit by a spear in the waist.

With a bang, the blue dragon was hit high, the dragon scales at the waist collapsed into several pieces, the dragon's blood was yellow, and it splashed onto the sea, causing the sea water to boil.

“My King hates Phoenix!” Qinglong opened his mouth and roared, the dragon yelled, and the sea was roaring and roaring constantly.

It dived angrily, banging into the sea at once, and the endless tsunami rolled up, and the rumbling vacated towards Qin Tiange.

The **** phoenix kept screaming, exhaling endless flames, and completely evaporating the rising seawater into water vapor.

“I thought it would be enough to hide in the sea?”

Qin Tiange sneered, stepping forward, waved the halberd to smash a mighty tsunami in front of him, and then broke through the wind and rushed directly into the sea.

At the bottom of the sea, a two-kilometer-long green dragon was standing there. The dragon's eyes were glowing with blood, revealing the murderous and brutal murderous power.

Seeing Qin Tiange daring to rush into the sea, Qinglong immediately swung his tail, broke his body and broke the sea water, opened his mouth and swallowed at him.

boom!

Qin Tiange danced with the halberd, and the sea water around it was turned into a waterspout, which slammed into Qinglong's forehead.

Just listening to the loud noise, the dragon horned urn, collided with the halberd to produce a gorgeous spark, and the violent force shook the surrounding seawater.

Qin Tiange and the huge blue dragon fought fiercely on the sea floor, rolling up a rolling wave, the dark tide surged, and the reefs on the sea floor were blown into powder.

Huh! The blue dragon roared, the claws of the dragon flew, and the dragon's tail violently bombarded it. Even if it was as strong as Qin Tiange, it was difficult to parry it.

Seven-star, facing the nine-star Qinglong, the two turned out to be a tie, no one can help, this is enough to make Qinglong startled.

“This is impossible, why can the seven-star star compete with the king?”

Qinglong grew more and more frightened and couldn't help snarling.

Because of its huge body, it was repeatedly bombarded by Qin Tiange. That power contained 200,000 people. Even the nine-star Qinglong was vomiting blood and was very depressed.

“Hmm ... change for me!”

Finally, the Qinglong could not bear it. After the roar, the entire dragon's body suddenly shrank, and then turned into a blue light, turning into a youthful appearance.

Yes, the blue dragon is transformed. He can transform early. After the achievement of the blue dragon, he has the ability to transform, like instinct, but he has not changed into a human appearance before.

Because it hates humans, but now it's different. He was vomited by Qin Tiange. His body was too large and became a burden. Many times he couldn't avoid being beaten by scales.

"My King killed you!" Qinglong's youth, the firstborn dragon horns, the scarlet eyes, revealing the brutal Long Wei.

He was wearing a set of blue dragon armor all over his body, his hands were covered with blue dragon scales, his claws were sharp, and he killed him with a wave.

锵锵 锵锵. . .

The two silhouettes staggered with each other, sparks collided, dragon claws flew, and the halberd hurled across the air, stirring the sea and forming a huge vortex.

From the surface of the sea, it can be clearly seen that a huge whirlpool has formed in this sea area. Countless marine creatures have fled in fear, even some powerful and sharks have to escape.

At the bottom of the sea, the two powerful men battled fiercely, and the blue dragon transformed into an adult form became more powerful and faster, and they had a tie with Qin Tiange.

"Qinglong, ask you again, submit to me, or die!"

A halberd shook open claws, Qin Tiange said expressionlessly, and the sound passed into the ears of Qinglong through the tumbled water.

Hearing this, Qinglong's nose was crooked, and thunder and lightning were blooming on the top of her head, and she rushed up with a roar.

"Go to death!" Qinglong shouted angrily, his claws seized two terrible thunders, and thumped in front of Qin Tiange.

Looking at the terrible blow from Qin Tiange, Qin Tiange's face was dignified for a few moments. Euphorbia buzzed, and assassinated with a click, and swept sharply, hitting the dragon claws.

The blaze of thunderous lightning flashed around the halberd and poured into Qin Tiange's arm, but unfortunately could not cause him any harm.

Rather, it was a young man formed by Qinglong. His claws were stabbed by the halberd's sharp edge, the scales were cracked, and blood water flowed out, making the sea water boil.

"Unwilling to surrender, then you will die."

Up to now, Qin Tiange has lost his patience. As the voice just fell, his eyebrows glowed, and a mysterious breath radiated away, making the opposite dragon look wild.

"Bad!" Qinglong secretly said badly, and was about to step back, only to find that his body was imprisoned by some force.

Suddenly, a large halberd came across, plopping through Qinglong's chest and piercing his body.

Huh!

Qinglong screamed was hit hard by a halberd. Nine Dragon Balls broke out in the body. The endless dragon power broke away from the mysterious restraint and gained freedom.

Qin Tiange pulled out the halberd and stepped back. He was not in a hurry. He looked at the blue dragon who broke free of his imprisonment, his chest was pierced, and blood poured out, revealing the color of yellow.

“What power is that?” Qinglong looked terrified, thinking of the imprisoned power just now.

He has a fresh memory of this power, and he feels it deeply, as if his body is solidified all at once, and even his consciousness is frozen.

The feeling was so bad that he felt the threat of death and was almost killed. Had it not been for the Dragon Ball in the body to erupt, he might have fallen in a flash.

“Your way, you’re done with me!”

Qin Tiange was expressionless, stepping up to the halberd step by step, his body filled with a mysterious breath, and the boiling sea water stopped strangely.

Wherever he went, everything was settled, the eyes of the blue dragon stared, and the dragon’s soul was shaken.
