

Dark Ages 561

Chapter 561 - Tiger girl, cancel the contract

Roar!

Lianhua Mountain, a tiger howling shook the world, the whole base was alarmed.

“What happened, what happened?”

For a while, many masters in the entire base were horrified and looked at the direction of Lianhua Mountain, where there was a horrible atmosphere.

In this roar of tigers, the sky was filled with killings, and terrible killing gas continued to gather in the sky. It was as if there were thousands of legions fighting.

However, there was a pain and panic in the sound of the tiger howling, which seemed a little helpless.

Uh ... roar!

The tiger roared into the sky, and in the void, the endless killing air came over, converging into one, turning into an unreal white tiger.

This white tiger is snow white, between the two long white eyebrows, a king character exudes a brilliant purple-golden light, killing it through the sky.

I saw a white tiger rushing up the Lianhua Mountain, angrily screaming at that huge virtual shadow, full of anger.

“It’s a white tiger!”

“It seems to be General Qin’s mount. Do you want to transform?”

Many people know this white tiger, which is Qin Tiange’s mount white tiger, but most people do n’t understand it. They were shocked to see it.

That white tiger is Huniu Xiaobai, who is in the key stage of transformation and already has ten stars, but it seems that transformation has run into trouble.

Roar!

I saw, Hu Niu roaring to the sky, a king character in the eyebrows bloomed immensely, and it was chilling to kill the sky.

The white tiger took the lead, and his body was full of strong evil spirit.

Bang ...

With a loud noise, two white tigers collided with each other with a virtual reality, and a terrifying blast erupted.

The two white tigers, the real one is Huniu, the unreal one is intertwined by the endless killing spirit, the eyes are scarlet, showing endless killing and violence.

This illusive white tiger is filled with ancient breath all over and around him, as if a white tiger from ancient times came down.

Huh!

Huniu roared, soared to the sky, and killed the huge white tiger directly in a ball, disrupting the void cloud.

“Ancestral ghost?”

Qin Tiange, who had just returned, looked stunned and looked at the white tiger fiercely fighting in the sky. At a glance, he saw the ghost of the white tiger fiercely fighting against Huniu.

Seeing this, Qin Tiange understood that it was apparently that the white tiger recently awakened the last trace of white tiger genetic power, which led to the ghost image of the white tiger ancestor inside, and the ancient holy beast white tiger ghost image remnants directly gathered to form such a picture.

“Xiao Bai, smash it, swallow it, and you will have the holy beast genes and abilities completely. This is the test of the white tiger holy beast after you awaken as the white tiger gene.”

As Hu Niu was irritable and irritable, a gentle voice came from her ears, which calmed her flustered and irritable heart immediately.

Speaking naturally is Qin Tiange, when Huniu saw his moment, her violent energy converged immediately, her mood calmed, and her eyes showed a calm and killing light.

“Hmm ... I see!”

Huniu roared with excitement, and then took the initiative to kill it, erupting her own most powerful force, spurring the heavens to kill, and the fighting force became even more fierce.

It seems that because of Qin Tiange's arrival, Xiaobai was stimulated, and the fighting power erupted far surpassed before. He directly defeated the white tiger's ancestor Phantom.

It is not that the white tiger ancestor's ghost image is not strong enough, but it was originally formed by the endless killing of the memory of the white tiger sacred animal's genetic memory in the small white body, which is equivalent to a test from the ancestors. All capabilities.

If you don't pass, it is considered that the genetic perfect awakening fails, and some of the ability of the holy beast will be lost, and even the gene bursts to death.

Watching Xiaobai fight in the air, Qin Tiange didn't step in. This is a level that Xiaobai's evolution must go through.

The white tiger ghost image is the ability from the ancient holy beast white tiger gene. Once Xiaobai successfully defeated this ancestor ghost image, swallow it, you can completely obtain the ability and majesty of the holy beast.

Huh!

The two white tigers fought fiercely, shivering in the void, the pieces collapsed, and a black wind rolled up and swept open, killing them through the sky.

Uh ...

I saw that the sky's killing air came together, and quickly gathered on the backs of the two white tigers into a pair of wings, wings of killing.

“Kill!” Xiao Bai roared, and the wings of killing on his back shook, sending out bursts of astonishment, and the spirit of killing shook Gao Tian.

Opposite, the ancestor of that white tiger holy beast was equally horrible. A pair of killing wings stirred all directions, bringing about a horrible killing, ancient and desolate, revealing the unstoppable will of terror.

After all, Xiaobai was still too tender. Seeing that he was about to lose, Qin Tiange frowned, feeling bad.

Once Bai Hu defeated, it was tantamount to complete failure, which was not the situation Qin Tiange wanted to see.

“Little white, ate it.”

Suddenly, Qin Tiange threw out a small bottle and blasted towards the White Tiger. A closer look reveals that it is a peculiar bottle of liquid with imposing energy.

This is the ginseng fruit that Qin Tiange sent from Zhenyuan. It is made by adding various precious medicinal materials and spirits, and the energy is extremely huge.

Huh!

White Tiger opened his mouth to swallow the bottle of medicine, and a moment of horror broke out. A huge momentum that belonged to the ten-star peak exploded, shaking everyone.

Xiaobai drank the medicament, spraying a torrent of terrible energy all over his body, his fur was instantly torn apart, his flesh fluttered, and he looked terribly scary.

“Yeah ...” Xiao Bai, who was fuzzy in flesh and blood, issued a young girl's voice, and saw that the spirit of killing came together and directly surrounded it.

The painful white tiger screamed in the sky, and suddenly a tiger flew and crushed the ancestor's virtual shadow into the air with a bang, and the two white tigers merged into one.

“Bai Hu emerged, killing and cutting, Xiao Baihua successfully formed, ten-star, bursting combat effectiveness.” Qin Tiange looked at the changes in the sky, a smile appeared on his face.

Bai Hu transformed successfully, finally relieved.

Huh!

An extremely high-pitched tiger howl came, and innumerable killings swarmed from all directions, converged into a sea, and then suddenly contracted and disappeared into a young girl.

The young girl, wearing a white tiger shirt and holding the blade of killing, was full of excitement on her little face, with endless killing and violence in her eyes.

She is a white tiger, and she finally succeeded in transforming herself into a body that was far stronger than before. The breath radiated out could make the nine-star strengthener feel depressed and unable to bear a trace of resistance.

Even ten-star masters are alert, watching the tiger girl in the sky, bringing endless threats to the sky, murderous.

“Master, I succeeded!”

Huniu jumped in excitement, standing in front of Qin Tiange, his face flushed, and he looked at him like an invitation.

Qin Tiange smiled comfortably, reached out and touched her hair affectionately and said, “Congratulations, Huniu, you are finally transformed.”

There was inevitably some emotion in his heart. Bai Hu transformed successfully and turned into a girl who looked twelve or three years old and could not continue to be her mount.

Now that he has successfully transformed, he can't continue to be a mount for him. It's not good at all, and Qin Tiange always gives some respect.

Huh!

I saw him pointing at his eyebrow, and immediately a drop of bright red blood directly hit Huniu's eyebrow, which belonged to Baihu's original efforts.

“Master you ...” Huniu was surprised, staring blankly at Qin Tiange, feeling the kind of free madness in her soul, as if she had completely lost 桎梏.

She knew that Qin Tiange returned her freedom. Since then, she doesn't have to be bound by blood deeds. She is completely a free and easy-going tiger girl.

“You can't be a mount when you're transformed, otherwise, let other holy beasts see your joke, work hard to cultivate, and strive to become a white tiger king as soon as possible.” Qin Tiange encouraged and patted her head, that sincere smile Let Huniu move instantly.

“Master wow ...” Huniu's eyes were tearful, and she suddenly burst into Qin Tiange's arms, wow crying.

She was so touched that when she met such a host, she was actually resistant at first, but gradually found out that Qin Tiange was also a good host.

Unexpectedly, after growing all the way to today's transformation, Qin Tiange directly took the initiative to cancel the blood deeds between each other, which was to be backwashed by the power of the contract.

In Huniu's mind, in order to give her freedom, Qin Tiange must have withstood the power of blood deeds and broke the power of blood deeds.

“Hahaha ... Look at you, why are you crying at every turn so that people don't laugh at you when you see it?” Qin Tiange smirked and patted Huniu to comfort him.

He quipped: “If you look at you, if other holy beasts see your grandfather killing the white tiger holy beast and cry so much, you will laugh out big teeth.”

“I don’t care, who dares to laugh, I pulled their skins.” Hu Niu said with a fierce fist.

Immediately, she lowered her head and wiped her tears with embarrassment. Then she looked up nervously and asked, “Master, you gave me freedom. Are you going to suffer the backlash of blood deeds?”

Her face was worried, and her eyes were deeply moved, but she was more worried that Qin Tiange was bitten by the blood deed.

Seeing her worried look, Qin Tiange laughed: “Don’t worry, the blood deeds have no effect on me.”

This is not a big word but it determines the taboo field and realizes the power of time. Qin Tiange is really not affected by any contract at this moment.

No contract can enter the core of his soul, and he is directly crushed by time. Qin Tiange has long realized this.

“Also, since you have transformed, don’t call me the master in the future, um, call me brother if you don’t dislike it.” Qin Tiange looked at Hu Niu with a smile.

When the latter heard it, his eyes were bright, he looked at Qin Tiange excitedly, and shouted crisply: “Brother, Huniu has a brother.”

Huniu was so excited that she flew up into the sky, rolling continuously above the clouds, and she was so happy that she was so happy.

Seeing this, Qin Tiange failed a few times, shook his head, didn’t care, turned and entered the Lotus Mountain, just to see a petite figure fluttered into his arms.

“Dad, Lianer misses you ...”

The words of the little fairy came to life, making Qin Tiange’s heart warm. It was so nice to have a daughter, so that he thought to himself, shouldn’t he have one with Chen Xi?

Chapter 562 - Energy hood, powerful defense

Looking at the little fairy tired in her arms, wondering if she would give birth to Chen Xi? At last Qin Tiange shook his head and laughed, dispelled the thought, and stopped thinking about it.

Huh!

At this point, the white tiger who had played enough flashed forward, a pair of big eyes staring straight at the goblin, with a strange smile flashing in it.

“Lianer, come call my aunt ...” Hu Niu said with the same expression as the little adult, with a proud expression.

As soon as this word came out, the little goblin was quitting, and Jiao hummed, “Contrary to you, you want to call my sister, tell her to know?”

“No, you have to call my aunt, your father is my brother, and I am your aunt.” Huniu arrogantly argued.

The little fairy with a tiger face on her face and stared at Hu Niu reminded: "Did you forget, who asked my older sister to come before? Don't you admit it, watch me beat you for teeth."

"Come and come, who is afraid of who?" Huniu was just transformed, and she was so murderous, naturally unconvinced, she immediately clamored for a fight.

The little devil was furiously elaborate, feeling that her majesty was provoked. Before she was the oldest sister of White Tiger, now she has turned against her. Is this okay?

"Look at me beating you for defeat."

The goblins were furious, and the two little loli directly emptied into the air, killing them high above the ground, agitating the Quartet clouds, forming a terrible thunderous sound.

Seeing this, Qin Tiange was stunned, and his heart was inevitably weird. He didn't expect that the two little guys were so hot-tempered that they started fighting.

"Really ..." Looking at the two little guys fighting fiercely, Qin Tiange couldn't help crying and laughing, but he didn't bother to know that it was not serious to know that the two little guys were playing.

It was a disbelief in the appellation, and then he fought. As for whether he would be injured, he was not worried at all.

"Lao Liu, leave it to you." Qin Tiange suddenly turned his head and said something to the old Liu demon.

The latter looked shocked, and said earnestly: "My son, please tell me, the old slave must do well."

Qin Tiange nodded slightly, and then smiled: "In fact, nothing is wrong, just let you go to the outer city to set up a Baihua Pavilion, specifically to accommodate those demon tree spirits like peony and lily."

"As for the detailed plan, I'll ask someone to give it to you, just follow the plan above." Qin Tiange watched the old Liu demon carefully.

"Yes, son, the old slave must do well." The old Liu Yao was cheered up, and was very happy, and finally he was in his early days.

Baihuage is a collection of fairies like peony and lily. As for what it is used for, Qin Tiange did not say.

"Master, the base's electromagnetic energy shield has been assembled and can begin testing performance ..."

At this time, his own figure flashed to the front and directly informed the news that a major scientific research in the base was successful.

The design of the electromagnetic energy shield was completed and it was completely made, which made Qin Tiange feel a little excited.

This electromagnetic energy shield has amazing defense power and can block any energy attack. As long as the protection energy is sufficient, it can theoretically defend any attack.

Qin Tiange looked at his own self and asked, "Instruct the staff of various ministries to prepare for the experiment. I want to see if I have actually accomplished this result."

With his order, a group of scientific and technical personnel were busy in the underground base, and even above the ground base, a huge energy transmission tower was erected on the suspended platform.

"Post an urgent message now."

At this moment, there was such a voice in the base suddenly, that was the voice of self-confidence, which spread directly to the whole base, and everyone heard it.

When everyone heard this, they were shocked, guessing what happened to the emergency?

"what happened?"

"Is there any disaster?"

As countless people guessed at the base, his own voice was directly transmitted through the sound reinforcement equipment in each corner of the base.

"According to General Qin's order, the base will enter a first-level state of alert, test a new energy hood, and ask you to maintain order. Don't panic."

As soon as the words were finished, the entire base fell into silence, and then a burst of cheers broke out. Many people breathed a sigh of relief, which turned out to be a false alarm.

"Electromagnetic energy shield?"

"I went, and this thing was also made. It seems that the technology development of our base has far surpassed other bases."

"Still our base is the best."

For a while, many residents in the base talked a lot, all of them were very excited. The stronger the base, the safer they will be, and they will be able to do what they want to do, but struggle hard.

A good environment can bring people stability, and a strong base can bring a strong sense of security to the people. The base is equal to their backing.

"Start the quiz!"

With the order, countless people saw that a strong electromagnetic light energy suddenly appeared over the base, competing with the artificial sun.

Millions of people throughout the base brushed their heads together, looking up at the huge electromagnetic energy lit up above the base, the horrible energy fluctuations, and even the ten-star powerhouses felt their heart beating.

"So terrible energy fluctuations. Once it explodes, even ten-star powerhouses will be injured. It is incredible."

A ten-star strong man muttered to himself, staring blankly at a huge electromagnetic energy condensed from the base above the sky.

I saw that the energy suddenly spread like an umbrella toward the base in all directions, turning it into an electromagnetic light curtain, slowly covering the entire base.

Glorious, the electromagnetic energy light curtain forms a protective cover, which encloses the entire base to form protection.

“Test other data strengths!”

Qin Tiange stood on the suspended platform, and behind it were scientific researchers, or the senior members of the base, who came to watch the test.

Soon, as his order was issued, a huge air battleship suddenly appeared in the dock of the floating platform.

Even a huge and extremely aerospace aircraft carrier took off, slowly passing through the electromagnetic energy wall under the ***** of nine frigates, without hindrance.

“Success!”

Seeing this, many scientific researchers couldn't help cheering and embracing each other, and they seemed extremely excited, and finally successfully developed this electromagnetic energy shield.

This electromagnetic energy shield can pass through from the inside, but not from the outside, but is blocked outside.

“Oh my God, the Sky Mothership?”

At the moment when the spacecraft carrier took off, countless people cheered and looked excitedly at the huge air fleet, an airship carrier, and nine air battleships. The scene was extremely spectacular.

Seeing this, the spies sent by many parties were shocked by the scene in front of them. The other forces have not yet risen above the air battleship, and as a result, an air and sky mothership has been created here.

“Order the First Fleet and fire on the energy hood.”

Qin Tiange looked dignified and issued this order. All the senior personnel and scientific and technical personnel were waiting seriously, looking at the first fleet in the sky.

I saw that the spacecraft mother turned around quickly, and ten giant electromagnetic energy guns under the ship's body aimed at the base and began to recharge.

The main guns of the nine air warships were also aimed at the base and began to quickly recharge. The strong electromagnetic light attracted the attention of countless people, watching this scene blankly.

“What's wrong, why is the main gun of the fleet aimed at us?”

Many people are apprehensive. If it was n't for the base 's message, it 's testing the electromagnetic energy shield, and it 's really panic.

Despite this, many people are still frightened and looking at a large electromagnetic energy cannon that is shining brightly.

call out...

Finally, dozens of main guns roared together and made a roar, and a beam of horror beams came down, and the glare almost made it impossible to open their eyes.

Just listening to the loud noise, the entire base was shaking slightly, countless people closed their eyes in horror, and the electromagnetic light explosion in the sky was too strong.

As the huge shock ceased, the glare disappeared, and everything was calm again, and everyone couldn't help looking up.

“All right?”

Countless people were stunned, staring at the electromagnetic energy shield and being bombarded by dozens of main guns without any damage, defending the bombardment of the fleet.

Seeing this, let alone the other people in the base, those high-level people are holding their arms, staring at the electromagnetic energy shield stupidly.

Some tech people are calm, as if they had expected it. According to their calculated data, the sky and sea fleet is full of firepower, and it is impossible to bomb the electromagnetic energy shield.

“Master, it has been tested. The defense coefficient of the electromagnetic energy shield is very high. The round of the main artillery bombardment of the fleet just consumed less than one hundred thousandth of the energy, and it will be restored immediately.”

The sound of his own voice was exciting, the design of the electromagnetic energy shield was completed, and the last barrier of the base was made.

Qin Tiange was extremely satisfied, bowed slightly to those scientific and technological personnel, and expressed his gratitude. For these scientific researchers, Qin Tiange never hesitated.

“As the order goes down, we will send someone to the three places of Shanghai, Beijing and Guangcheng to install this set of electromagnetic energy shield system. By the way, call for publicity, and let the forces of the major bases come to negotiate the purchase.”

Qin Tiange directly ordered to start the commercial promotion of the construction of electromagnetic energy shields, and spread it to the whole land of Huaxia.

Immediately afterwards, he said, “As for the miniaturized electromagnetic energy shield, it immediately started to install into the first fleet.”

“understand!”

All the high-level personnel left to work on the next things and plans, and the scientific researchers went back to the intense work and began to assemble the miniaturized electromagnetic energy shield system for the first fleet.

With this, in the future, the base's armed forces will become stronger and more powerful and terrible.

As Qin Tiange's news spread here, it immediately set off a stormy sea in the major bases of Huaxia, which once again shocked the world, and triggered another round of fierce arms race in major bases of Huaxia.

Just as Qin Tiange was about to turn away, he struck a golden light and shadow in the distance, the speed was very fast, and he came to the base not far away in a blink of an eye, and bumped into the electromagnetic energy shield.

"Uh ... wait ..." Qin Tiange opened his mouth to remind, but it was too late.

Chapter 563 - Poor monkey king

boom!

The sound of a violent crash came to the attention of many people, looking up one by one, they were suddenly stunned.

I saw a golden-haired monkey on the sky lying on the electromagnetic energy shield without any image.

Zizi's electromagnetic energy flickered, burning the golden monkey constantly, and his hair was curled up.

"Wo Yi, Sun Wukong?"

An exclamation erupted from the base, watching the Monkey King who was lying there being electrocuted like a sheep mad, which was the Monkey King returning from the 100,000 Mountains.

It had been hurrying to meet Qin Tiange, but it never occurred to him that there was a layer of electromagnetic energy shield here, and it bumped into a tragedy.

"Ah ... it hurts my grandson." The Monkey King screamed and was shaken by the strong current of the electromagnetic energy shield.

The ten-star Monkey King was extremely powerful, but he was caught there when he hit the electromagnetic energy shield. The fierce electromagnetic energy hit his body, and his golden hair was curled up.

"Really Sun Wukong?"

"The previous Guanyin, now Sun Wukong has appeared, shouldn't he even run out like Buddha?"

Many people in the base were in a daze, mumbling to themselves, watching the golden-haired monkey who was so smoked that he was electrified, his clothes were exactly the same as those of Monkey King Qi Tian.

Before the appearance of Guanyin, it caused a great sensation. Now even Sun Wukong is out, naturally wondering if the Buddha will come out someday?

In fact, many people in the base know that this monkey is not Sun Wukong, but a golden ape who worships Qitian Dasheng.

“Closing the protective cover ...” Qin Tiange twitched his mouth, telling Ji to close the electromagnetic energy cover, which caused the Monkey King to fall off.

It's not that the Monkey King cannot get rid of this electromagnetic energy absorption, but it knows that this is Qin Tiange's base, and even seeing the other party, naturally he doesn't want to mess around.

Although the electromagnetic energy is very strong, it also hurts the fur, and even the golden hair is only crimped, which is not a big deal at all.

“General, why didn't you tell this thing earlier?” The Monkey King turned somersault and fell in front of him, and said with a sad face.

Qin Tiange held back a smile, and said with a stern face: “You monkey, I just reminded you clearly, but you were too fast, and you ran into your head.”

“Uh ... it really seems like it.” The Monkey King was embarrassed, scratching his head only to be depressed.

But Qin Tiange asked a different topic and asked, “Aren't you just back, what's the matter with me this time?”

“Oh yeah, I almost forgot.” The Monkey King patted his head and took out a ring directly. “General, this is what I brought back from the Shiwandashan, all kinds of treasures.”

“Okay, good.” Qin Tiange took it with a smile and didn't check it, but handed it over to his own wife and brought it to Du Jing.

He looked at the Monkey King in front of him, and with a sudden thought, he said, “Wu Tian, do you want to eat undead peach? Do you want to eat ginseng fruit?”

Hearing this, Sun Wutian stayed for a while, suddenly remembering that there weren't these two things in the Journey to the West?

It thought of shining its eyes here, staring at Qin Tiange and anxiously, “General, quickly say, where are the undead peaches and ginseng fruits?”

“Should you have these two things, General?” Said, the Monkey King looked at Qin Tiange with a grimace, as if he could swallow him.

Seeing the eager look of this monkey, Qin Tiange said with a smile: “I have eaten one undead peach, and I have not eaten the ginseng fruit, but it is refined and made into medicine, do you want to eat it?”

“The drug is okay. As long as I don't die, the peach and ginseng fruit, tell me, where are these two things?” Monkey King shook his head and looked at him with a look of eagerness.

Qin Tiange smiled secretly, but did not play the maze, but passed a word directly into the ears of the Monkey King with his thoughts.

“The immortal peach is in Kunlun. As for the ginseng fruit, it is hidden in a secret place. I don’t know the entrance, but I guess it won’t be too far away from Kunlun.” Qin Tiange quietly passed on such a sentence.

After listening to his eyes, the Monkey King was about to leave but was stopped by Qin Tiange: “What are you anxious, I haven’t finished it.”

“The general said quickly, I have to rush to find the undead peach.” The Monkey King scratched his head impatiently.

Seeing it like this, Qin Tiange can only warn: “I told you this, but not to tell you to steal it, but to let you go to Kunlun instead of me and visit the ancient existence with undead peaches. It’s up to you how you eat the peaches. “

“What?” The Monkey King was shocked, as if remembering something exclaimed: “No, General, shouldn’t the person you say be the Queen Mother of the West?”

Qin Tiange shook his head and thought for a while and said, “I’m not sure if she is the Queen Mother of the West, but she’s under the Kunlun Yaochi.”

“You listen, go there, you do ...” Qin Tiange quietly instructed Sun Wutian, let the latter nod his head frequently, his eyes bright.

In the end, Sun Wutian patted his chest and promised, “General, rest assured, I will do it for you.”

“Go old grandson!”

After finishing speaking, the Monkey King vacated the ground, turned over some somersault, and left the base of the base instantly, appearing directly thousands of miles away from the base.

Thousands of miles are already considered very fast, but compared with the real Qitian Grand Saint, others struggle one hundred thousand miles, one heaven and one earth.

“Hey ... I don’t know what expression Zhenyuan would see when this monkey came to ask for ginseng fruit?” Qin Tiange muttered with a strange look.

Why should Sun Wutian go to Kunlun? In fact, he has faintly noticed that Sun Wutian has an extremely ancient power hidden in his body.

This power reminded him of the Sakyamuni Buddha who returned from Nirvana. Looking at Sun Wutian, is that power in the body just the legacy left by the rumored Qitian Dasheng?

Regarding this, Qin Tiange didn’t know the bottom, so he asked Sun Wutian to go to Zhenyuan or Yaochi to see if they could see anything.

If it is really related to Qi Tianda Sheng, it may be normal for Sun Wutian to get an undead peach or ginseng fruit. If not, then it may not eat two immortal fruits.

The poor Monkey King didn't understand that he was pitted by Qin Tiange, and rushed to Kunlun in a silly way, all the way up the clouds and fog, thinking excitedly that he could eat the legendary undead peach and ginseng fruit.

“Yanji, the nano-satellite monitors the movement of Kunlun Mountain all the way, and reports to me if there is any situation.”

Watching Sun Wutian leave, Qin Tiange commanded to his self, and the nano-satellite monitored every movement of Kunlun Mountain.

Xun Ji took the lead, and Qin Tiange himself flew up into the air and rushed directly into the atmosphere, seeing two little loli fighting fiercely.

“Convinced?”

The little fairy was flying around on nine lotus platforms, hitting the opposite Hu Niu with one blow and hitting her with a howl, angrily.

Looking at these two little guys, Qin Tiange couldn't help but was speechless in his heart.

“Don't accept it!” Hu Niu grinned, wielding the blade of slashing and attacking, swept by the savage savage.

When she saw her dissatisfaction, the little devil was angry: “Well, you're a tiger girl, dare to talk to your elder sister, but you still don't want to, just watch me hit you.”

Boom Boom Boom ...

The two little loli fought wildly, and the clouds in the sky were smashed. The atmosphere was torn apart by the aftermath of the battle, revealing the starry universe outside.

They fought fiercely without even noticing that a large number of meteorite rain was coming from outer space of the earth, and they were very close to the earth, the speed was getting faster, and the fire was shining into the sky.

Ok?

Qin Tiange's gaze was gazing at the earth's outer space orbit, and huge meteorites were blasting towards the earth wrapped in long flames.

It seems that in one day, these meteorite rains will land on the earth. Seeing this, Qin Tiange's eyes flickered, staring at these huge meteorite rains, thinking whether to destroy them all in space?

Thinking of this, Qin Tiange contacted Jiji directly and asked, “Jiji, can the current weapon system destroy these meteorites in space near-Earth orbit?”

Unfortunately, his own answer disappointed: “Master, it can't be done yet, even the large electromagnetic main gun can't do it. Even if some small meteorites are broken, those large meteorites will not be broken.”

“Also, the master has one more point. The nanosatellite detected unknown energy fluctuations on these meteorites.” Huang Ji's tone was somber.

Qin Tiange nodded, naturally knowing what these energy fluctuations are, meteorite rain is not just an ordinary meteorite.

He knew that many of these meteorites contained hidden treasures, strange treasures, and various strange treasures from the Tai galaxy.

Even here, there are some powerful alien organisms hidden in the meteorite. As the meteorite falls into the earth, these alien organisms will come out of the meteorite.

“Order the base and enter the highest alert level.”

Qin Tiange watched silently the large meteor shower that was approaching the earth, and ordered the base to go directly to the highest alert level and prepare for the war.

Subsequently, Qin Tiange connected the three bases of Shanghai, Beijing and Guangcheng, conveyed the news, and attached the meteorite rain picture taken by the nano satellite.

For a time, the high-levels in the three major bases were shocked. Looking at the picture transmitted by Qin Tiange, everyone couldn't help raising a chill, cooling from head to toe.

At this time, countless surviving humans on the earth, as well as various mutated creatures, have produced conscious fairies, such as flowers and trees without exception, all looked up at the dark sky.

“Oh my god!”

“Meteor shower?”

Someone murmured, watching the beautiful fire, densely covered with starry sky, and quickly came through the starry sky.

The beautiful scene made many people indulge in it, but as the dense flame quickly approached the earth and got closer and closer, finally, the humans on the earth found something wrong.

“It's a meteorite, a meteorite rain!”

“It's over, it's over!”

Seeing the huge fireball rushing into the air, it rushed into the atmosphere and heard the horrible trembling sound.

One after another huge meteorites, thousands of densely packed meteorites rain, directly covering all corners of the earth.

Everyone was scared, countless creatures were panicking, all kinds of mutant species were roaring wildly, and skyroaring.

Chapter 564 - Meteorite disaster, alien species invasion

Huge flames of light hit the sky, dragging a long tail flame, emitting hot light and heat, and blinking on the earth in a blink of an eye.

Boom boom boom boom!

A large number of meteorites fell from the sky and hit the surface, causing horrific damage instantly, as if the sky and the earth collided, the entire earth shuddered slightly.

Countless creatures roared in horror, fleeing scattered, watching meteorites falling from the sky, bombarding the ground with a terrifying explosion.

Some creatures didn't have time to escape. They were hit on the spot by a meteorite into powder, and many were lifted up by powerful shock waves.

The billowing waves, the flowers and trees were uprooted, the mountains fell, the rivers flowed back, and the entire world fell into a terrible destruction.

Massive meteorites hit each other at high speed, causing horrific damage and bringing a devastating blow to various creatures on the planet.

Looking out of space, a huge flare of fire is constantly rising on the surface of the earth, as if the huge flare of atomic bombs exploding.

boom!

In a certain deep mountain, a meteorite blasted down and smashed a mountain with a blast, forming a terrible crater.

Inside the crater, the fire was soaring into the sky, and all the flowers and trees within a kilometer of the crater were all turned into ashes, even if some fine trees were seriously injured.

“Ah who will save me”

During the huge explosion, a millennium tree demon shouted wildly and pulled up his roots to run away, but was quickly smashed into fragments by the terrible energy of the meteorite.

There are still many places around the world like this. With the advent of meteorites, Earth's creatures are plunged into disaster again, and countless humans mourn.

Some survivor bases were directly destroyed by the impact of meteorites, causing numerous deaths and injuries.

However, some large bases and forces still have a little ability to prevent and counteract the meteorite that came down.

“Order, all missiles lock on target, launch!”

When he went to Beijing, the leader of Chen Guodong looked at the virtual screen in front of him, and meteorite whistled, and immediately issued a launch order.

As this order was issued, inside Huaxia and the underground missile bases, one by one the firing shafts ignited instantly, and the missiles already prepared were blasted off in an air.

Faced with a meteorite rain falling from the sky, humans began to fight back, especially the Shangjing base, which directly launched a missile carrying a large equivalent of a nuclear warhead.

boom!

A missile blasted into the sky, intercepted a meteorite above the clouds, pierced it directly, exploded, turned into a huge sun, and the flames soared into the sky.

A powerful nuclear explosion directly smashed the one-kilometer-diameter meteorite on the spot, turning it into dozens of meteorites of various sizes scattered around.

With this bombing, the impact of the meteorite became smaller, and it did not have much lethality when dropped, which is equivalent to successful interception.

Xiu Xiu jeer

At the same time, there was a sudden flare of fire at each of China's major bases. Some large forces directly launched missiles, while some base forces took out hidden laser weapons or purchased electromagnetic weapons from Shenzhen. The energy cannon fired directly.

Bang bang

All of a sudden, on the ground of Huaxia, major bases entered a large counterattack. All anti-aircraft weapons were fired. Missiles, laser cannons, and electromagnetic guns whistled through the sky, bombarding the falling meteorite.

As a result of Qin Tiange's stimulus, the major bases of Huaxia began to increase their competition for the development of armament technology.

This has caused many bases to have good power and be able to counterattack. Although some bases cannot break the meteorite, they can weaken the impact of the meteorite.

Over China, missiles exploded and nuclear warheads exploded, and the dim sky was completely lit.

Inside a meteorite, alien creatures hidden in the meteorite screamed in horror, but were blown into powder by a 5 million-ton equivalent hydrogen bomb.

“Master, this is the surveillance screen”

At the Shenzhen city base, Qin Tiange stared at his self-monitoring video with a serious face. On it was a three-kilometer-sized meteorite with the goal of going to Beijing.

As a result, they were bombarded with three missiles, and three 5 million-ton equivalent nuclear warheads exploded, tearing the meteorite on the spot.

Many unknown alien creatures hidden inside were instantly annihilated by the high temperature of the core of the hydrogen bomb explosion, leaving only a small part blown up and lowered into the forest.

“Master, there are eight giant meteorites over the base, the largest one is ten kilometers”

Suddenly, a warning sound of self-confidence came, causing anxiety to the entire high-level of the base, all of them changed greatly, and ten-kilometer-sized meteorites hit it. What is the concept?

It was tantamount to a planet collision, and it might even wipe out the entire Shenzhen city base and even more than half of China.

Of course, Qin Tiange knows that this is impossible. At present, the core mass of the earth is increasing, absorbing endless dark energy, and its magnetic field is gradually strengthening.

When the outer meteorite hit it, the impact force was first reduced by the external magnetic field of the earth, and the dark energy in the air was burned to reduce the speed of these meteorite. It is basically impossible to destroy the base of Shenzhen City.

“Lock them up and blow them up!”

Qin Tiange gave an order. Immediately, countless people in the entire base saw that, above the suspended platform, a super huge electromagnetic energy cannon slowly extended their muzzles, aiming at the horrors that came from the sky and howled fast. Flare.

A super-large electromagnetic energy cannon is set up every three hundred meters above the city wall of the Shenzhen city base. The entire base has 3,000 super-large battery-powered battery turrets, all of which are started, and eight huge meteorites are charged against the sky.

“Fire!”

With an order, more than 3,000 large electromagnetic turrets erupted, and a blast of huge electromagnetic beams of light burst the sky.

Suddenly, three thousand horrible electromagnetic lights directly bombarded the eight meteorites and smashed the seven petite meteorites into powder on the spot, exposing the situation inside.

The surface of the meteorite is actually some relatively hard alien meteorite iron composition, and the inner core is a mysterious energy, hiding various treasures and spiritual materials.

This energy blocked the bombardment by the electromagnetic light, turned into light, spread out, and wrapped around various spirits and fell to the earth.

Or, the unknown unknown species hidden inside is scattered by those energies, hiding in the mountains and swamps of the earth, or hiding in the sea.

“Order the major mech squads to immediately capture those rays.”

Looking at the scattered light clusters, Qin Tiange knew that the various extraterrestrial spirits and treasures brought by the meteorite could not be ignored.

Rumbling

At this moment, 30,000 meters above the base, a ten-kilometer-sized meteorite was bombarded with dense electromagnetic light, and the surface exploded, revealing the inner core.

The originally burning meteorite was blasted off the surface, and it turned out that crystals of various sizes were scattered, shining with an amazing light.

Seeing this, Qin Tiange squinted his eyes and secretly said: “This is the crystal of life, which can keep the creature asleep and dead for a long time.”

“Master, these crystals can’t be broken. Some of them have hidden the fluctuations in life.”

Soon, I heard amazing news that this inexplicable crystal of different sizes could block the bombardment of electromagnetic energy cannons, and there was life fluctuation in it.

“Order, the first fleet was dispatched, be sure to bring all these crystals back to me.” Qin Tiange gave another order.

I saw a huge warship flying out of the air dock, escorting an empty spaceship and flying towards the inexplicable crystals scattered.

“Go ahead, lock down those meteorites and knock them out directly after they pour into the atmosphere.”

“Yes!”

Thousands of electromagnetic energy cannons are recharged at the Shenzhen City Base. Under the control of their own monitoring, all meteorite bombarded from the Shenzhen City Base and even the Guangcheng Base were smashed into the sky by bombardment one by one. .

The meteorite was shattered, but the hidden things or unknown creatures fell into the forest and no one could find them.

Even nano-satellites are blocked and monitored by the inexplicable magnetic field of those things, and those things cannot be seen.

At this time, a huge meteorite bombarded in the mountains 100 kilometers southeast of the base of Guangcheng, causing considerable damage.

The flames dissipated, and a crystalline egg emerged from the crater. This egg was crystal-clear, as if made of crystal.

Click!

With a crisp sound, the egg cracked, one arm extended from it, and then another arm extended, tearing the crystal egg a little.

“Finally here, is this one of the oldest places of origin of the human race?”

A handsome man with crystal-clear hair came out of the eggshell, his eyes glowed with crystal luster, and looked around, muttering to himself.

There was a crystal in his eyebrow, which shone incomparably, showing huge energy fluctuations.

“Huh, what is the origin of the ancient race of humankind, this will be the hunting ground for our young warrior of the Celestial Tribe.” This mysterious young creature directly took out a signal-like thing and launched a strange space wave in the direction of space. Disappear instantly.

“Huh? Master, the nanosatellite captured an unusual mysterious signal fluctuation.”

At the moment when the youth transmitted the signal the nanosatellite caught the anomaly, but was unable to capture the specific signal and source.

Qin Tiange frowned when he heard it, and said, “You strengthen the monitoring. These meteorite rains have hidden extraterrestrial creatures. This is just the beginning. The greater calamity has just begun.”

“By the way, I told you to make the gene detector you designed?” Then Qin Tiange inquired about his situation.

She quickly gave her the answer, she said, “Master, has been successfully researched. Based on human genetic information, we have made such a detection system. As long as it is installed on the base’s defense system, it can identify whether it is human or All kinds of mutants, even unknown unknowns. “

“Very good!” Qin Tiange nodded with satisfaction, looking at the monitoring screen, each meteorite was smashed and turned into a light rain.

As a large amount of meteorite rain bombarded the Earth, some were shattered, and some were bombarded, causing a huge disaster.

This is the Meteorite calamity, but the greater disaster that comes with it has just begun.

Chapter 565 - Ancient humans

With the last wave of meteorite rain falling, no more meteorite rain appeared in outer space, and the major human survivor bases on Earth finally breathed a sigh of relief.

The meteorite catastrophe caused a lot of damage and casualties. Of course, all kinds of evolved species and even humans have the ability to defend against these disasters and minimize disaster losses.

For example, like Qin Tiange ’s base, there were no casualties at all, and no meteorites had even fallen from the base, and they were all broken in the air.

Not long after, the first fleet that went out to collect those scattered crystals returned, and returned to the base with hundreds of mysterious crystals.

“General, mission accomplished!”

In the dock, Shao Feng, commander of the First Fleet, saluted seriously and reported that the mission was successfully completed.

Qin Tiange nodded, allowing people to bring hundreds of large and small mysterious crystals into the underground base city.

“Lao Wu, these crystals are a kind of life nucleus, which can make a living thing sleep and stay immortal in the long years. Let me study it carefully and see if we can make and synthesize this strange crystal, which is extremely important for our future space travel. Meaning. “

Entering the underground base, Qin Tiange immediately issued an order to Wu Lao and others who were already waiting here.

Hundreds of crystals were sent directly to the laboratory, and a group of super scientists here went crazy to study the mysteries and see if they could be synthesized.

This mysterious crystal, called the crystal of life, contains a certain magical power that can keep a life immortal in a long sleep.

If such a mysterious and powerful thing can be produced, there is no need to worry about the length of time in future space navigation.

Of course, sailing in the sky in the future cannot be the current speed, but a faster and more convenient space wormhole technology.

Qin Tiange thought for a while, and cautioned: “However, research must be cautious. There may be hidden alien species in the crystal. Those living organisms are very powerful and must be cautious.”
“understand!”

Mr. Wu assured him earnestly: “General, rest assured, we will thoroughly study all these crystal structures and properties, and then make them.”

Mr. Wu left with a group of scientists, took hundreds of crystals, and entered the prepared laboratory to start a crazy experiment.

Qin Tiange stood outside the laboratory and watched hundreds of crystals being brought into the laboratory. Thousands of scientists worked together to conduct research.

Xiji cooperated with her, with her powerful computing power and various detection methods, she began to conduct preliminary inspections of these crystal nuclei inside and out.

“Master, find out.”

Soon, his self-excited came forward and reported the situation. I saw that she gently waved a virtual screen with the largest three-dimensional view of the crystal, and dense data analysis emerged.

Qin Tiange frowned, “Did you find something?”

I nodded my head and said inspiringly, “Yes, the biggest crystal in this big crystal has found life fluctuations. It has a 99% similarity with human genetic information. It is suspected of being a human outside the sky.”

“Similar to the fluctuations in human genetic information?” Qin Tiange squinted in surprise, his eyes narrowed.

He immediately walked into the laboratory and came to the largest crystal nucleus. Wu Lao next to him was excited.

Wu Lao said excitedly: “General, this crystal nucleus contains a mysterious and powerful magnetic field, and even has a powerful life energy. It really can make a person sleep for a long time without dying.”

“However, during our initial testing, we found a message similar to our human genetic fluctuations, which may be from humans outside the sky.” He said that he was full of excitement.

The discovery of extraterrestrial humans is tantamount to overthrowing the possibility that humans are apes’ evolution. This discovery is of great significance to these scientists.

Of course, what Qin Tiange wants is not to trace the origin of human beings, but to understand whether the creatures inside are threatening. Whether he is a human outside the sky or not, even if it poses a threat to him, he will be killed without hesitation.

“Are the ancients outside?” Qin Tiange murmured to himself, his eyes tingling with a hint of silver, a little black particles interwoven and surging, seeing through the crystal.

Suddenly, a huge crystal up to nine meters in height emerged in front of him, a figure looming, lying quietly inside, not sleeping.

“Yanji, cast out the scene inside.” Qin Tiange’s eyes flashed and he ordered.

Soon, through a variety of high-intensity monitoring technologies, Jiji projected everything inside through the crystal.

Looking at the projection on the virtual screen, everyone in the room froze and remained silent. The figure that appeared inside was no different from human beings. If there was, there was an extremely ancient breath on this person.

“Is she really an ancient alien?” Wu Lao looked dignified, because from the projection felt a majestic and mighty pressure.

That’s right, not only him, everyone felt the terrible pressure revealed from the sleeping woman, terrifying.

Qin Tiange’s eyes flickered, staring at the mysterious woman in the crystal of life, the ancient humans from the sky, the breath exuding in his sleep, so strong?

“The king, the emperor, the first emperor, or a higher rank?” Qin Tiange’s expression was extremely serious, and secret passage brought back a trouble.

The atmosphere in this crystal is too strong, even far beyond the rank of the first emperor, which made Qin Tiange somewhat unexpected and began to worry.

“You study carefully, and you cannot wake up the ancient human in the sky. We don’t know if she is an enemy or a friend. Once you wake up and kill, we have few people to stop.” Qin Tiange suddenly gave a death order.

It is impossible to move this crystal or even wake the people inside. This woman is suspected of ancient human beings in the sky.

Qin Tiange never dare to take risks before he can figure out whether the other party is an enemy or a friend. Once released, it is friendly and okay, if the enemy is miserable.

“Master, come and look at a crystal with strong life fluctuations, and”

There, my own voice came, standing in front of an equally huge crystal, the eight-meter-high crystal was shining with a mysterious luster, showing a strong breath of life.

Qin Tiange came here, with silver awns in his eyes, black dots flickering, penetrating the crystal obstruction, and seeing a figure lying inside.

“Huh?” Qin Tiange’s face changed suddenly when he saw the figure, and suddenly he felt an inexplicable tremor in the space bracelet.

He deliberately invaded the bracelet, and immediately saw a bead floating, trembling trembling, and buzzing.

“Star Seal?” He looked slightly changed, not expecting that the blue-blooded creature with the planet seal would tremble autonomously.

Subsequently, Qin Tiange stared at the huge crystal in front of him, the figure lying inside was exactly a blue-blooded young man, handsome and enchanting, with a terrible breath.

“Yanji, can you detect when the creatures are awake?” Qin Tiange asked suddenly.

I have a serious look, and my brain’s intelligence quickly calculates, and quickly concludes that the creatures in it may wake up in a year.

Hearing this news, the surrounding scientific and technological personnel are all cautious, including Qin Tiange himself find it a little tricky.

“Don’t move this crystal nucleus for a while, and check all these life nucleuses to see how many creatures there are?”

Qin Tiange quickly gave an order to conduct a comprehensive inspection of hundreds of life crystals brought back to see how many foreign organisms were hidden inside.

Soon, with the life crystals being tested, the inside of them was detected by the self, and the shadows of many creatures were really found.

“What kind of creature is this?”

The crowd stood in front of a crystal, six meters high, and a faint shadow could be seen looming inside.

This shadow is not human. There are dense tentacles all over the body. A head looks like a human, but there is a closed eye on the eyebrow.

Qin Tiange was surprised to find that this creature had no hands, no feet, only dense tentacles, and looked at the scalp.

“What kind of creature is this?”

Another crystal hides an inexplicable creature. The creature inside looks like a horrible monster with a big mouth, a small tail, five giant feet, sharp tusks, and a thick paw, covered with a thick layer The thick cuticles are sleeping.

There are creatures hidden in the four crystal nuclei, one of which may also be an ancient human outside the sky, which makes people feel heavier.

This is only alive from the meteorites crushed from the base of Shenzhen City, and there must be countless such unknown creatures on the entire Chinese land.

“The invasion of alien species is a calamity for us humans and a calamity for the organisms of the earth.”

Qin Tiange murmured to himself, looking dignified, and feeling the pressure. He had never understood these secrets in previous lives, or even how powerful these life forms were.

At a glance now, I immediately realized that what I had seen in previous lives was nothing but superficial fur. The real secret had never been understood.

“Order the troops, preferably in preparation for war.”

Thinking about it, Qin Tiange issued a war preparation order, and it was really a base, and the major legions immediately prepared for the war.

The military factory started frantically, producing a variety of new weapons and equipment day and night to create a powerful armed force.

“The other crystals that do not hide the alien organisms are for research purposes. As for the four crystals with unknown alien organisms, I took them away to avoid accidents.”

After pondering for a while, Qin Tiange decided to take away the four nuclei with hidden foreign organisms, and didn’t want to stay in the base, otherwise, if something went wrong, the entire base would be finished.

“You study carefully, I’ll take it first.”

Speaking of this, Qin Tiange waved a wave of black particles, wrapped with four crystal nuclei, and drilled directly into the space cracks, into a turbulent space.

“start!”

Watching him leave, the rest of Wu Lao and other scientists went crazy, one by one began to study these mysterious crystals.

At the same time, many people in Huaxia’s major bases also got these mysterious crystals. Some people were curious and cut them. But they found that there was some kind of spirit in them. After eating, they let some people leap forward. Yue became the top master.

This time, everyone was crazy, the news spread throughout Huaxia, countless masters went out in search of the mysterious crystals brought by these meteorites.

Chapter 566 - Prepare to testify with brute force

In the chaotic space, Qin Tiange was alone, wrapped in four huge crystals and entered here.

He didn’t want to keep these four unstable factors at the base. That would be very dangerous. If the contents suddenly wake up, it would be a disaster.

“What to do?”

In the turbulent flow of space, Qin Tiange was wrapped in black particles, looking at the four huge crystals floating in front of him, faintly seeing the four sleeping creatures inside.

One of the women was suspected of being an ancient human, but he did not know whether the other party was an enemy or a friend. Once he came out, it was not what he wanted to see.

As for the other unknown creature outside the sky, at first glance, it was very fierce, so terrible, it was a trouble to release it.

And that blue blood tribe creature made Qin Tiange wary, because the blue blood tribe fetish obtained from the assessment task trembled autonomously, which caused his attention.

“The blue blood tribe is sealed by a star. Why can’t it be blocked when encountering the blue blood creatures?” Qin Tiange frowned secretly, watching the space bracelet constantly trembling to fly out. Planet seal.

He had to wrap the space bracelet directly with space particles before the planet’s seal gradually subsided.

The last alien creature covered with tentacles, Qin Tiange also felt that most of the enemy’s components could not be released.

That way, how to deal with it has become a problem that bothers him at present, and must be handled properly to avoid unnecessary danger.

Qin Tiange stared at the four crystal nuclei, his eyes flickered, and he murmured, “If this is the case, throw it into the outer space interlayer.”

The gap in the outer space is when Qin Tiange realizes that the space particles have reached a certain level and captures a space interlayer, which is extremely scary and reveals mystery and unknown.

He had never been involved in this point, because it was very dangerous to dare to enter, thinking that throwing the four crystal nuclei into it, even if he failed to destroy the four souls, he could be trapped inside for a long time.

“seal!”

Qin Tiange suddenly frowned when he thought about it. He drank aloud, and saw a bunch of silver light pouring out, and then turned into a string of silk to entangle the four huge crystals.

It was a taboo of time, which directly sealed the four crystals. Then, Qin Tiange pointed out, and the endless black particles boiled and roared, attracting the turbulent surrounding space and turning into a terrible storm that bombarded a certain space node. .

boom!

After a loud noise, a barrier emerged in the space mezzanine. The black paint outside the barrier was an outer space mezzanine. It was not clear what was there.

Qin Tiange didn’t hesitate, condensed a sharp blade of space to split the black paint barrier, saw a crack, and threw all four mysterious crystals into it.

Huh!

Suddenly, within a crystal, the sleeping woman suddenly opened her eyes, and two beams of light broke out of the crystal, radiating towards Qin Tiange.

Sudden changes caused Qin Tiange’s complexion to change slightly, a ray of silver awns blooming in his brows, a thumping blow on two eyes, and he disappeared instantly.

In the crystal of “You Bold”, the sleeping ancient woman was so angry that she saw Qin Tiange throw her into the outer space mezzanine.

She was awakened in advance by the instinct crisis. When she saw this scene, she immediately wanted to break the crystal, but was temporarily blocked by the time taboo. She could only cast two eyes and wanted to crush the **** with her will.

Unfortunately, Qin Tiange was not a good stubble and broke her two beams of will. She could only be swallowed into the outer space with resentment and unwillingness.

Click

At the same time, three other vigilances came at almost the same time, and the sleeping creatures sensed the crisis and immediately woke up, shocked to see the surrounding environment.

“Empty void?” A cry came, and then a pale blue flame boiled and burned from a crystal, rushing toward Ye Qing.

Cang Yan, this is the second time Qin Tiange saw Cang Yan, the blue blood tribe’s fetish was sealed, it is normal to mobilize Cang Yan, but this blue blood young strong man has Cang Yan?

“Human race, you **** it!” The angry roar of the blue blood clan master came from the crystal, but it was impossible to break the crystal, because there was an extra layer of time taboo.

His face was blank, and he stared at Qin Tiange, remembering his features.

“You’re fine. He will return after a while. This place will definitely cramp your soul.” The young blue blood finally roared, engulfed in the void of the space mezzanine.

“Jack!”

In a crystal over there, creatures full of tentacles were roaring, one tentacle was dancing madly, and a mouth-green liquid was sprayed out of the mouth. It was forbidden to corrode time.

Unfortunately, he was soon swallowed into the void of space, and there was only an angry roar:

“You wait, the emperor will make you worse than death.”

“Human, how dare you?”

The last unknown creature was roaring, and his five feet were madly slamming. He wanted to break the crystal nucleus, but it couldn’t do it anymore. He could only make an extremely angry roar towards Qin Tiange.

The four powerful alien life forms are all extremely powerful. Qin Tiange believes that these life forms definitely have the power of the Emperor.

“Fortunately, I didn’t release it” Looking at the four crystal nuclei that were completely engulfed, Qin Tiange secretly pinched a cold sweat.

Fortunately, he is cautious enough, otherwise he will face the horrible existence of the four first emperors, and he will die if he does not die.

However, Qin Tiange frowned quickly, because he knew that this was only part of the story. It was not clear how many such terrible alien life bodies this meteor shower brought.

The invasion of alien species is the most terrible. Whether before or after the end, it is a huge disaster for native life species.

“My strength is not enough. It seems that I have to find a way to break through and testify to the king, but I don’t know if the assessment stone tablet is still rejecting me?” Qin Tiange muttered to himself, watching the black outer space barrier disappearing in front of him .

He thought that he must improve his strength. The most important thing is to seal the king. The only way is to enter the assessment stone.

Qin Tiange turned into black particles when he thought of it, went through the turbulent space, returned to the world of this world, and went directly to the assessment stone.

“Hope you don’t refuse me anymore”

Qin Tiange stood in front of the assessment stone, staring quietly at this huge stone, slowly reaching out and pressing it up.

Suddenly, a horrible force emerged, and the light flashed, and Qin Tiange was ejected. There is no doubt that he was rejected again, and if he could not enter it, he could not prove the king.

Seeing this, Qin Tiange looked gloomy, staring at the assessment stone, and a terror storm was brewing in his heart.

“Very well, you refuse again, don’t you think I can’t break through the ten-star testimony without your assessment?” Qin Tiange looked cold and really angry.

He didn’t believe it, could he be the king only after the stone stele was evaluated? So, how do those mutant creatures fail to enter the assessment?

This stele is just a record of the name and title of the king of the seal. He really can’t be promoted without being assessed. Qin Tiange will not believe it anyway.

“Without you, I will be the strongest!”

Qin Tiange Lengheng turned around and stepped into the turbulent space, disappearing here.

As soon as he left, the examination stone flashed a little light, mysterious. Then there was such a voice inside the stele.

“Sister Bei Ling, don’t you really give him a test?”

A clear and ethereal word came out, but unfortunately, no one here could hear it.

Even those ten-star masters, no one who came to the assessment heard this mysterious voice.

“You don’t understand!” Another voice came, with an unpredictable breath, hard to figure out.

Just listening to this voice said: “Actually this is one of the assessments, after which he will be eligible to own you and compete with candidates from other places of origin.”

“Sister, other fragments of my body are in other places of origin. I don’t know who got them?” An ethereal woman’s voice came again.

“Okay, let’s get started. Many people have entered the king-level assessment.”

The stele’s light was hidden, and there were no abnormal changes, as if everything was just illusory. Unfortunately, no one could hear or sense it.

For these, Qin Tiange was not clear at all, and he didn’t need to be clear, he was feeling a anger in his heart.

“If you don’t evaluate me, then you will break the legend with brute force.”

In the turbulent space, Qin Tiange’s eyes were cold. He returned to the base and put the ice silkworm into the artificial zero space of the underground base. Then he took out the picture of his arm and placed it in the underground base. Phase, once completed, you can transform into real flesh and blood.

As for him, he went into the chaotic flow of space by himself, preparing to improve his strength level, and wanted to break through with brute force.

“Come on, I won’t go out without breaking”

Qin Tiange gritted his teeth, took out the patriarch’s effort, swallowed it all in one bite, and then took out the skull, opened his mouth and swallowed the vast and pure soul power.

Suddenly, Qin Tiange was wrapped in two forces, the energy of the patriarch’s hard work swept up and down the body, and the power of the soul erupted, completely overwhelming his soul consciousness.

Qin Tiange, who was stimulated, gave up his assessment plan directly, and wanted to use brute force to break the rumor that the only way to enter the assessment was to prove the king.

In previous lives, no one has ever heard that one can promote the king without evaluation, but Qin Tiange doesn’t think so, can’t he be king without evaluation?

Just kidding, how did those mutants become king? How did those zombies become the corpse king and even the emperor corpse, or even the corpse emperor?

How do monsters seal the emperor? In this way, Qin Tiange realized that what he had learned in the previous life was too one-sided, and he might even be confused by the top-level powerful people spreading false news.

“what”

After swallowing two ancient and powerful energies, Qin Tiange finally couldn’t bear it, and his head roared loudly, his body smashed into pieces, turned into countless black particles, and merged into the chaotic flow of space.

Chapter 567 - Block the king list

Qin Tiange tried to break through the barriers of the level with brute force, but was torn up by powerful energy, fell into death, and stepped over to open the sea and the sky, but he never lost it.

Without relying on the power of Feng Wangbei, breaking the barriers of ranks by himself and forcibly closing the king, this is Qin Tiange's intention after being rejected.

And when Qin Tiange fell into death, the outside world was already in full swing.

“what happened?”

“Why does the assessment stone tremble?”

At this time, among the major human forces on the outside of the earth, a huge change in the huge appraisal stele has turned out to be trembling.

The stele trembles, emits a dim light, and diffuses continuously, attracting the attention of countless humans.

No matter whether it is Huaxia or overseas, all the assessment stones have undergone strange changes, resulting in unknown changes.

Buzz ...

The ninety-nine-meter-high assessment stone is constantly buzzing and shining, covering all major human bases, as if shining in a row.

In the darkness, the light of the stele is particularly dazzling, causing panic among many people.

“Sister Bei Ling, someone wants to break the taboo you set, will it be him?”

At this time, in the inner space of the examination stone, two mysterious figures emerged, looking at a place in the void, where there were dense silk threads, forming a large net, covering something.

“Should be ...” One of the figures made a sound, she was the Beiling.

Yes, this is the spirit of the stele, or the spirit of the stele inherited from the stele, is this dim figure.

As for the next one, I do n't know, just listen to Bei Ling said: “Look, his destiny line is disappearing a little bit, either dead or breaking his life.”

Bei Ling suddenly pointed at a mysterious silk thread, and it disappeared on the big net.

The fate line disappears, there are only two possibilities, that is, death, and there is another possibility, which is to break your own life.

That destiny line, which represents Qin Tiange's own destiny, was actually captured and even detected by Bei Ling. This is incredible.

But now that fate line has disappeared, as if it never happened. In this case, the monument cannot be predicted, and it can no longer sense or even capture any information about Qin Tiange, including information about predicting the future.

Either Qin Tiange is dead now, or he has successfully broken his fate, and since then his fate is unpredictable and the future is unpredictable. No one can capture any of his information.

“Sister Bei Ling, look at it, the king’s taboo is broken ...” A loud exclaim came and saw above nothingness. The huge network was suddenly broken by an inexplicable force.

This force broke through the blockade of the net, skyrocketed, and swelled up, as if the wind rose, without any pause.

Bei Ling froze, watching as the power broke the taboo of Wang Wang and broke the barrier directly.

“The owner once said that only the person who broke the taboo of Feng Wangbei was qualified to compete for that position. I did not expect that this person really broke the taboo. Moreover, he broke through directly with brutal means ...” Bei Lingnan Whispering, remembering something.

Beside him, another murky figure was surprised: “Sister Bei Ling, someone has completed the assessment of the king.”

“Oh?” Bei Ling woke up and looked into the grey space, where there was a mission world, the world of assessment missions she created.

I saw that in this mission world, a figure completed the assessment, separated from the mission world, and came to a huge platform.

“Feng Wangtai?”

The young man looked around and suddenly saw three quaint characters appearing next to it, which was Fengwangtai.

In the middle of Fengwangtai, a portal emerged with brilliant light, and he could not help but walked directly in and disappeared here.

“what?”

“what is that?”

At the same time, countless humans watching the changes in the assessment stone suddenly noticed that there was a change in the assessment stone, and a group of names appeared on it.

Yes, it’s a set of names!

“The King List?”

“Ishikura, title: King of War!”

Such a list suddenly appeared on the appraisal stele, and there was also a name and title, which left countless people dull, one by one staring at the name that appeared on the stele.

Many powerful people suddenly trembled in their hearts and suddenly realized that they knew what level was above the ten-star level.

“A king above ten stars?”

“King, hahaha, I see.”

“I want to be assessed, I want to be king!”

Finally, countless people were boiling, one by one, rushing to the assessment stones in a crazy way, especially those ten-star masters, all eyes were red, and they directly chose the king-level assessment task.

With the changes in the evaluation of the stele, the reality of the king list immediately caused the movement of countless strong men, one by one could not sit still, and someone succeeded as king.

The strong have the arrogance of the strong and naturally do not want to be overpowered.

“Look, there is someone on the King List ...”

At this moment, under the list of Kings of Suddenly, names appeared one after another, which shocked many people.

Li, title: Evil King!

Witch Night, Title: Witch King!

Chen Xi, title: King Xi!

Ye Xuan, title: Fire King!

Mu Xue: Title: Ice King!

Lei Cangtian, Title: Thunder King!

Gu Yan: Title: Sword King!

Dustless: Title: King Buddha!

Wuliang Taoist (common name: Zeng Xiaole), title: Dao Jun!

One name after another emerged, followed by Li Yan, Wu Ye, and Chen Xi, and they appeared almost a second apart.

Then ten minutes later, Ye Xuan, Mu Xue and other talents appeared on the list of kings one after another, one by one, the names were shining, showing a king of coercion.

“Oh my God, so many king-level powerhouses?”

Seeing these names appear on the list of monarchs, the whole of China suddenly shook, and what appeared here were only king-level masters inside China.

As for overseas ones, there is no assessment stone on the inside of Huaxia, which may be distinguished.

Once there were so many king-level masters at once, many people couldn't sit still immediately, especially the young masters with big powers, all looking dull.

“what?”

Suddenly, somebody found the problem, carefully checked the list on the king list, and found no one's name.

“Qin Tiange is not on the list?”

“He’s not on the list?”

“Hahaha, Qin Tiange, you have finally been suppressed.”

Seeing that Qin Tiange’s name did not appear on the list, many people who had been suppressed by him laughed wildly.

Xiao Fei, Qin Feng, and others were very excited, but soon became gloomy, because some people succeeded in the king, but they are still ten stars.

Seeing this, these people couldn’t sit still, rushed into the assessment stone immediately, and chose Fengwang assessment directly.

“Tian Ge, why didn’t you make the list?”

Above a certain gathering ground, a graceful figure floated, staring quietly into the void in a daze, exuding a strong breath, wearing a royal robe on his body.

This is one of the rewards obtained by the queen, she is the queen’s Chen Xi, silently watching the starry hair bun, because she saw that there was no Qin Tiange’s name on the king list.

Moreover, his personal terminal could not reach him, which made her worry.

“Why without you?”

In a snow-covered gathering place, a shadow of Qian Ying stood quietly in front of the assessment stone, a snowy hair fluttered slightly, and there was no doubt on his face.

She is Mu Xue, known as the Snow Woman, and the Queen of Queens also saw that there was no Qin Tiange’s name on the list of kings.

Because for a long time, Qin Tiange has always felt an inscrutable feeling in her eyes. Even now, in retrospect, she feels that her current monarch level may not be able to defeat each other.

But why did such a powerful person not have a king?

Somewhere in the base, a priest wearing a robe of Daojun looked at the list of Feng Wang thoughtfully.

“Without that great deity, Ben Daojun seems to have surpassed him?” Wuliang Taoist thought about this, but was not sure.

Then he shook his head and muttered, “No, that guy is better than us at all. He cannot be crowned without reason. There must be fraud and care.”

The shameless priest shook his head, turned around and flickered, disappearing in front of many people.

“Qin Tiange, what the **** are you doing?”

The fire king Yexuan quietly looked at the list of the kings of the assessment stone, thinking about what ghost Qin Tiange was doing, but he did not block the king.

“Did he choose the difficulty of death?” Ye Xuan was shocked when he thought of it.

Because Ye Xuan knew that if Qin Tiange wanted to win the king, the assessment task could be passed in minutes. Could he choose a task of different difficulty?

The Wang Feng list appeared, and a stone stirred up thousands of waves, causing the surviving humans throughout China and even overseas to boil.

With the success of a personal kingship, the curtain slowly opened, and the kings joined together, and finally the world of war for the herds arrived.

Many people understand that the next era will be the age of kings. Who can dominate this world and who can order this era is the true king.

On the Beijing base, the three old people gathered in high-rise buildings and looked at the appraisal stones in the distance. The king list above was clearly visible.

“Leader, King List was born, many people have made the king It seems that we will have a trouble.” Xia Ming said solemnly.

Chen Wu, on the other side, said the same: “The presence of the leader and the king is tantamount to completely disrupting the current situation in China, and General Qin did not appear on the list.”

Chen Guodong’s eyes flickered and his complexion looked. On the list of Wang Feng, only the three kings of Ye Xuan, Chen Xi and Mu Xue knew each other, and the others did not.

In their opinion, the powerful Qin Tiange should have been on the list, but he didn’t even make it to the list.

“The kings together, God, I hope you don’t let us down, my old bones really can’t last for a few days.” Chen Guodong sighed and murmured to himself.

He knew that with the emergence of master-level masters, the situation of Huaxia that had been difficult to create before would be completely broken, and his leader could not support it.

“Leader, things are not good, Admiral Qin cannot be contacted.”

Suddenly, Xia Ming said this, making Chen Guodong and Chen Wu look slightly different, because they tried to contact Qin Tiange, but found that they could not be contacted, and even asked the artificial intelligence confidant that they could not contact.

Chapter 568 - Kings Gather in Beijing, Someone Must Be Leader

Qin Tiange disappeared. For a time, a dark tide began to flow in Huaxia, and there were some fluctuations in major bases.

But the surface is still very calm, and no one jumped out, even those powerful kings have chosen to be silent.

Time passed day by day, a month passed, Qin Tiange did not appear, and new names appeared one after another on the list of kings. Many people succeeded as kings and stepped onto the monarchy.

However, there is no Qin Tiange’s name on it, which makes many people can’t help panic, but more people are excited.

Two months later, Qin Tiange still didn't show up and couldn't be contacted. Even, his name was still missing from the list of Kings, and some people couldn't sit still.

After three months had passed, the undercurrent inside Huaxia finally reached its peak and reached the critical point of the outbreak.

“Hahahaha, I am finally king”

A horror laugh spread across the entire base of Haishi. Numerous people looked up and saw a strong person suspended there.

That was Xiao Fei, the strongest player in the entire maritime market, and finally succeeded in winning the king. His face was uplifted, and his heart was extremely happy, because he succeeded in winning the king, and there was no one on the list of kings that made him palpitated.

“Qin Tiange, see you are not dead this time?” Xiao Fei looked somber and sneered.

He looked up and looked at the direction of Shangjing, gradually showing a trace of enthusiasm, flying directly to Beijing.

At the same time, a horrific atmosphere erupted in the major forces such as Shencheng and Lancheng, and the atmosphere of the powerful who belonged to the king level broke out, alarming all parties.

One king after another appeared, Qin Feng, Zhou Jian, Mu Ye, and Yi Shuihan. These young generals dispatched to the base of Shanghai.

Three months later, Qin Tiange still did not show up, let these people be sure that he has been completely suppressed.

At that time, Admiral Qin, who was famous all over the world, did not appear on the list of Kings this time.

Not only these people, but many of the powerful kings have begun to move, one after another, they have bred an ambition.

Before that, there was the pressure on Beijing and there was a nuclear bomb deterrence, but now it is different. After reaching the king level, you are not afraid of the nuclear bomb threat at all, because you cannot bomb each other.

“That position, it's time to change.”

Some masters looked at the direction of the base of Shangjing, soared directly into the sky, and rushed to Shangjing.

Major bases and major forces have taken action one after another. This time, the undercurrent is even more fierce, affecting the whole of China and sweeping through major bases.

Guangcheng enters the state of combat readiness, Jingnan enters the alert, and the major legions are preparing for it nervously, as if they have anticipated what will happen next.

“Old comrade-in-arms, I can do nothing.”

In Guangcheng, the old General Qi Shao was gray-haired, looking at the direction of Shangjing, weak and helpless.

In southern Beijing, Mu Hua, a veteran general, looked dignified. Standing beside him was Mu Xue, the powerful king.

“Xueer, go to Beijing, make sure your Grandpa Chen is safe.” Mu Hua said this in a dignified tone.

Mu Xue’s expression instantly became cold, and she said lightly, “Grandpa, what do you do if I leave, if a king comes, then you”

“Come on, leave me alone, Shangjing can’t be messed up, or the world will be disrupted.” Mu Hua directly ousted Snow Girl and sent her to Shangjing

The Shenzhen City Base had already entered the state of highest combat readiness when Qin Tiange could not be contacted, and countless electromagnetic energy guns were on.

The First Sky Fleet is on standby at any time, and the major legions are fully armed and preparing nervously, the breath of war is approaching.

“Say yourself, can’t you reach me?”

Over the base, on the suspended platform, a group of high-level eyes stared, looking at Jiji asking whether Qin Tiange had been contacted.

Unfortunately, I shook my head and let everyone down. But Jiji laughed lightly: “Don’t worry, the general will be fine.”

“I’m worried about going to Beijing. Once the general is away, there will likely be a huge mess, and even the whole of China will be caught in a war.” Zhuo Tianfan reminded cautiously.

In fact, they are not worried about the safety of the base, because the Shenzhen City base is not what outsiders want to shake, even the king-level strong can’t.

“Is Brother Qin not back yet?”

A young girl wearing a long green dress came and asked softly, she was Xi Xi, and she came back from the outside. She was full of oppression and she was really a king-level master.

And beside her, she walked alone, wearing a long black dress, exuding a weird atmosphere, she was Long Xiaoqian, and became a generation of kings.

The two testified that the queen rushed back immediately. In the entire base, not only were they two king-level masters, they were one.

“Isn’t my dad back yet?”

At this moment, a petite figure flashed, followed by a large group of powerful monsters.

She is a little fairy, with a strong breath, she has successfully broken into the king level, belonging to the demon king level.

“This dare also dare to come to our base to scatter and die!”

Suddenly, there was a vibration in the sky, and then a loud drink came. Everyone looked up and saw a broken figure falling from the sky and slamming on the suspended platform.

It was a young man with a torn body, fuzzy flesh, and an extremely strong breath, and turned out to be a king-level master.

Unfortunately, he is an ordinary king. He wanted to come here to seize power, but unfortunately, he ran into the Monkey King who just broke through, and the result was miserable.

Huh!

A piece of gold fell smoothly, and the person who came was the Monkey King, carrying a huge golden stick, and looked at the king-level master who was beaten to death with a look of disdain.

“You guys”, the king-level master was terrified. He didn’t expect that there were so many king-masters hidden here. He regretted it and wanted to speak for mercy.

As a result, the uncle on the side lifted one foot and stepped on, and clicked, and the king-level master’s head was crushed on the spot, and then a star nucleus was dug out and stowed away.

“The Monkey King, the general commanded, if he did not return, you take your men to Guangcheng, stationed there, there must be no mistakes.”

Xi Ji killed the king-level master, said something seriously, then waved a virtual light curtain.

Above, it is the information arrangement left by Qin Tiange, but it is just a video, some arrangements are recorded in advance.

Upon hearing this, the Monkey King looked at Qin Tiange in advance and unexpectedly expected the current situation, which was incredible.

“Okay, grandson!” Seeing here, the Monkey King had no doubts at all. He left the base with a few somersaults and led his men to go directly to Guangcheng.

“Miaoshan, this is for you by the master.” Jiji passed a message directly to the quiet Miaoshan.

She has long been a monarch and came here to set up a heterogeneous biological administration, which is exactly what Qin Tiange signed with her at the beginning.

Miaoshan opened the message and looked at it. She suddenly held her face and looked strange, then nodded and said nothing, and turned and left the base.

A group of high-level generals looked at each other. Although they were all ten-stars, they failed to win the king. The assessment failure was normal. They wanted to rest and adjust to the assessment.

“Phoenix, you make a trip to the south of Jing’an, hold it there, and you can’t let any king level go to destroy it.” Xi Ji asked with a strange look.

As a result, everyone looked at each other because Fire Phoenix was not here. He was awkwardly looking and was about to speak. As a result, the sky flew over a flame of fire, and his descent fell down.

A glamorous woman wearing a fire robe appeared in front of everyone, and saw her gently worshipping the ghost image reserved by Qin Tiange.

“Fire Phoenix understands that I am waiting for you to come back.” Fire Phoenix, she turned out to be Phoenix.

After speaking, Fire Phoenix nodded to the crowd, turned into a blaze of flames, and disappeared into the distance, leaving everyone with a dull look.

When they watched the video left by Qin Tiange, they were a little stunned. Could he not know the prophet?

“Xi Xi, you and Long Xiaoqian went to Beijing, and remember, no matter what, you must support the moment when the host returns.” Xi Ji looked at Qin Tiange’s virtual shadow message and said another.

Xun Xi and Long Xiaoqian nodded their heads, vacated directly, and disappeared here.

“Dad, what about me?” The little fairy looked at Qin Tiange’s virtual image, and asked queerly.

It is a pity that Qin Tiange only reserved a video to arrange what happened after he left. Naturally, nothing is known about the prophet.

“Little master, the master is only here to take pictures.” Xi Ji whispered.

The little fairy listened, and her mouth was flat, unhappy.

“Everyone, for now, the general is out of touch. My ego doesn’t know where he went, he just knows that he has gone to retreat.”

Li Ji’s words were a little dignified, she said: “At present, a large number of ten-star masters have begun to enter the assessment in the base, which means that some people can successfully pass the assessment and seal the king. Everyone is ready, and once someone is the king, please come directly.

“Yes!”

Soon, the Shenzhen city base calmed down, and the internal preparations were tense. Everyone foresees that there is already a dark tide and an upsurge in Shangjing, and a storm is coming.

An undercurrent that has swept Huaxia has erupted. Next, whether Huaxia can remain stable in this undercurrent is still unknown.

Because at this moment, the Beijing base can be described as a gathering of powerful men, and the kings have come together, and one by one the king-level masters have continuously gathered here.

Many king-level masters have a purpose that is to peep at the leader. In their opinion, as a king, how do you surrender to others?

Strong men from all sides gathered, and the kings gathered in Shanghai, making the atmosphere of the entire Shanghai base appear extra heavy and depressing.

“Leader, it seems we can’t get through this level.”

In the Beijing conference room, a group of senior generals gathered, each with a solemn expression, all looking at the leader Chen Guodong.

Among the generals present, the only one who succeeded in defeating the king was Wu Changkong, who has become a king-level master.

“Someone can’t wait and wants to sit in this position.” Chen Guodong sighed and stood up slowly.

He looked at a middle-aged man next to him. He was the only monarch. He couldn’t support the scene. The situation was not good in the face of the next king-level masters who came from all directions.

“Leader, King Xi and Fire come and say they want to see you.”

Just then, a soldier hurried to report the news. Chen Xi is here, Ye Xuan is here too, and they both came to sit in Beijing.

Chapter 569 - 18 Kings, forced to abdicate

Chen Xi and Ye Xuan both walked into the meeting room. They looked at each other and nodded slightly. They were greeted.

“leader!”

The two came in, saluting Chen Guodong, Chen Xi could still make sense, but Ye Xuan let many of the generals present in his heart approve.

The other party became a king, but did not have a sense of pride and complacency, and still respected the leader of Chen Guodong.

In fact, the most important thing in Ye Xuan’s mind was Qin Tiange’s existence. After all, it was impossible to wake him up without his slap to slap his pride.

Moreover, Qin Tiange supports the orthodoxy of Beijing and supports the leader of Chen Guodong, which is enough for him to take it seriously and take it seriously.

“Welcome the two kings.”

Chen Guodong laughed loudly, without the heavy feeling of wind and rain, but he felt calm and calm.

Ye Xuan saluted and said earnestly: “Leader, now the masters of all the kings who have been promoted are heading directly to Beijing, and they are also asked to prepare.”

“Anyway, what should come is still coming.” Chen Guodong waved his hand indifferently.

He smiled: "At present, there are three of your king class sitting in Beijing. Although it is said that you cannot face the coming king class powerhouses, but I believe that there are still many powerhouses who are aware of the current serious situation and that China cannot be confused.

"Grandpa, they're here."

At this moment, Chen Xi suddenly looked, turned and looked outside, a look of dignity. She has sensed that all powerful breaths are coming, all are king-level masters.

Ye Xuan and Wu Changkong also felt the same. The three looked dignified and knew in their hearts that this time they would have a ***** battle.

"King Xi, if the meeting starts, you will take the leader directly away." Wu Changkong stood up, exuding a strong breath.

His words made Chen Guodong frown, and said unpleasantly, "You are not right. As a Chinese leader, how can you abandon the military and civilians and flee alone?"

"Go, let's go out and meet these kings for a while." Chen Guodong walked out with a smile on his face.

Behind him, Chen Xi and Wu Changkong guarded him side by side, and Ye Xuan stood not far away, exuding a powerful breath, and the king-level power swept away.

boom!

As I saw, outside the base of Shangjing, all kinds of horrors swept away, and from a distance, they rushed into the sky above the base instantly.

"Shangjing, here I am."

A figure emerged, standing proudly in the air, with a sneer on his face, looking down at the base of Shangjing, ignoring the major army groups that were nervous and alert.

This is a king-level powerhouse. It is famous on the list. It is Xiao Fei who came to Beijing first. It is not clear whether he is too fast or other people have deliberately slowed down.

Uh ...

Not long after, sounds of breaking air came from all directions, and soon, one after another, powerful figures appeared over the base, with a mighty sky.

These people, without exception, are all king-level powerhouses, and there are more than twenty king-level masters.

"Qin Feng, Zhou Jian, Mu Ye, Yi Shuihan, you are all here." Xiao Fei looked at the people coming from all sides, looking a little cautious.

Except for those who he knew, others knew it, but most of them didn't even know it, so I was a little surprised.

More than twenty king-level masters came and gathered in Beijing. What the ***** did the fools see? They were all heading for that position.

“Thunder King, why don’t you learn a lesson?”

At this time, a bland voice came and everyone looked around and saw Chen Guodong walking out with a group of high-level bases.

Ye Xuan was talking, staring directly at a powerful figure in the sky, surrounded by thunder, as if a thunder **** was born, extremely terrifying.

He was Lei Cangtian. He listened to Ye Xuan’s words, his face changed slightly, and he remembered that Qin Tiange slapped and flew at the beginning, and it still feels fresh.

“Huh!” Lei Cangtian sneered coldly: “Fire King, you don’t need to scare me, Qin Tiange is not on the list of kings now, you are afraid of him, I am not afraid of him.”

“Really, I hope you can remember this sentence.” Ye Xuan looked at him with a hint of sarcasm and stopped talking.

“I’m here to watch the play.” Lei Cangtian’s face changed, his eyes flickered, and he thought for a while, and finally dropped aside and watched.

Seeing his performance, many of the new king-level powers were dismissive and looked down on Lei Cangtian’s performance.

“A small Qin Tiange was so afraid of this, if he dared to show up, I would have strangled him with one hand.” A young king said arrogantly.

He was wearing a python robe, with a strong oppression, and was a true king-level master. Of course, the king level is also divided into strong and weak, he is the most common king level master.

“Yes, no Qin Tiange, his name is not on the list of kings, it is simply ridiculous.”

“I think he mostly hid and didn’t dare show up.”

One king-level master turned out to be ridiculous and ridiculous, so that Chen Xi listened to the cold face, and the figure disappeared without a word.

Just listening to the bang, the guy who was the first to humiliate Qin Tiange flew up, his face was pale, and his eyes looked at Chen Xi inconceivably.

Just now Chen Xi shot, and he was blown away with a single blow, and suffered a lot of shock, and his heart was frightened and angry.

“Who dares to humiliate my man again? Today, I will fight to kill a few kings and see who else dare to say?” Chen Xi’s face was overbearing, and the powerful killing intention swept the Quartet, shaking many kings.

Of course, it just shocked some weak-level king-level masters. These are ordinary kings, and their strength is not very strong.

The real strong ones, such as Shicang, Liyu, Wu Ye, etc., didn’t say a word, and even stood by and watched, meaning nothing.

“Chen Xi, I didn’t expect you to be king.”

At this moment, Xiao Fei’s figure fell, standing not far in front of Chen Xi, looking at Chen Xi with a smile on his mouth, a ray of scorching in his eyes.

He arched his hand gently and smiled: “Chen Xi, you see now, who is the man who really deserves you, Qin Tiange has fallen.”

“You want to die?” Chen Xi’s eyes were cold, revealing her strong murderous power, and she did not hide it.

This made Xiao Fei look very poor, almost broke out, but still endured. He smiled and didn’t care, but stepped forward and arched his hands gently toward Chen Guodong. Even the soldiers’ basic etiquette was gone.

“General Chen, I have been admiring Chen Xi for a long time. I came here today to ask for a marriage. I also asked Chen to agree to the boy’s reckless request.” Xiao Fei said this in front of everyone directly. Come.

He came to ask for a kiss. Some kings looked at each other and did not understand what this guy was doing, but Zhou Jian showed a sneer.

Qin Feng hummed, he didn’t come up to blend in at all, he was not stupid, Chen Xi as a king-level master, how could he promise him?

Chen Guodong was expressionless and didn’t answer at all. The other party has no respect for his leader and even directly persecuted it. The meaning is obvious. In this case, why give a good face?

“Xiao Fei, since you want to die, you will be the first to kill you today.”

Chen Xi came forward, chilling his face, and a silver battle humming, sending out a terrible trembling sound, showing the king’s coercion.

She was angered, and there was a horrible murder in her heart. Xiao Fei’s words had completely angered her, not only insulting her reputation, but also humiliating Qin Tiange and contempt for Chen Guodong.

“kill!”

A soft drink, accompanied by a silver lance stabbed with lightning, cracked the air, and swallowed a three-footed sharp pointed at Xiao Fei’s brows.

Xiao Fei snorted, waved his knife and split a horrible knife gas, snorted, the knife and the gun collided, and both were pulled back by a huge shock.

He retreated ten meters, while Chen Xi stepped back three steps, and the two of them made a verdict.

“Chen Xi, you’ve gone a little too far.”

At the moment Chen Xi continued to do something, a powerful figure emerged, Qin Feng came out, stood here, and locked Chen Xi with his breath.

“Chen Xi, you’d better not continue, otherwise we don’t mind suppressing you first.”

“Yes, I’m not here to see you flirting with Xiao Fei.”

A series of strong figures rushed out, and the breath swept through, locking Chen Xi, all king-level masters, one by one.

Ye Xuan flashed out, standing not far from Chen Xi, looking dignified, watching the eight kings jumping out.

“Chen Guodong, times have changed, the world is the strongest, you, it’s time to come down.”

At this time, a young monarch-level powerhouse stepped forward, with an arrogance on his face, as if he was high above him, looking down at Chen Guodong, the leader.

In particular, his words were very straightforward and directly forced Chen Guodong to come down. As a leader, he was no longer able to sit down.

“Yes, the world is the strongest. The leader must be the strongest. You retire.”

The two king-level strong men came down, looking at everything, looking down at Chen Guodong and others below, ignoring Wu Changkong, the king-level bodyguard.

In their opinion, Chen Guodong had only three princely masters on this side, and there were twenty-three princely masters on this side.

“Who dares to persecute the leader?”

At this moment, a cold and indifferent word came, and the void was falling, and then a beautiful snow-white figure stepped in, and the void was frozen into ice crystals at each step.

The comer was Snow Girl, Mu Xue, the ice king, who directly blocked the two king-level masters, and an ice phoenix fluttered around her.

“Ice king, dare you stop us?”

The two young kings were furious and were about to explode. As a result, there were a few strong breaths in the distance.

Two beeps, everyone looked up and saw the two women land quickly.

“Xi Xi, Long Xiaoqian, met the leader, came to Beijing on the order of General Qin.”

The caller was Xi Xi and Long Xiaoqian, who just came and uttered such moving words.

Qin Tiange filmed them? For a moment, the king-level experts present were all stunned. They instinctively looked at the huge assessment stone in the center of the base. Above, there was no Qin Tiange’s name on the list of kings.

“What about two more?”

Someone snorted, and Wang Wei was violent and flew directly. Immediately afterwards, all strong figures came out, and eighteen kings came together to threaten them.

“Chen Guodong You are old and you can enjoy your old age.”

“The position of leader should be assumed by us as king-level powers.”

“Nice, step back immediately, or don’t blame us for being cruel.”

A group of eighteen kings, including Xiao Fei, Zhou Jian, Mu Ye, Qin Feng, Yi Shuihan, and other 18 kings stood out, forcing Chen Guodong to abdicate.

Persecuted by the kings, Chen Xi, Xue Nu, Ye Xuan, Xi Xi, Long Xiaoqian and others all retreated to Chen Guodong, guarding vigilantly.

The 18th emperor persecuted, Chen Guodong was facing huge threats and great pressure, but looked at these people without changing his face, and was a little disappointed in his heart.

At this time, everyone in the entire Shangjing base didn’t know that, in the outer orbit above their heads, a nanosatellite quietly locked the Shangjing base and completely filmed the scene.

The eighteen kings persecuted the leader, and the whole process was filmed without any leakage. It was sent to all bases except the Shangjing base, and countless people’s personal terminals popped up at the same time.

Chapter 570 - The king seizes power and is ugly, want to kill the leader?

“what is this?”

A huge virtual light curtain emerged from the major bases of Huaxia. What was playing on it was the scene of the Shanghai base.

This was a live broadcast. The eighteen kings forced the leader to abdicate. Seeing this, everyone’s face changed greatly, and he suddenly realized that it had changed.

“They actually persecuted the leader?”

Within Huaxia, everyone with a personal terminal jumped out of this live broadcast and saw what the kings were doing.

Everyone was shocked. Looking at everything in Shangjing, they couldn’t believe it. Someone persecuted the current leader.

“They are all king-level masters and are on the list.”

“How can they do this?”

“This is seizing power.”

Some people who are enthusiastic, patriotic and national are showing their anger, looking at the eighteen king-level masters on the screen, forcing them to go up.

The powerful power is that across the virtual screen, it seems that you can feel the terrible coercion, let alone the numerous soldiers and civilians in Shanghai.

They were so angry that they hated the coming kings, and even boldly forced the leaders to abdicate, it was simply lawless.

“Chen Guodong, give me a word, do you retire or not?”

Xiao Fei’s face was cold, and he took a step forward, and he was so full of spirits that he had reached the limit of patience.

He believes that Chen Guodong has no ability to continue to take the leadership position, and only the strong can take up that position.

Nowadays, everyone who succeeds in becoming king has a bad mind, and they all want to sit in this position and order Huaxia to lead the world.

“If you do this, aren’t you afraid that someone will come to drive you down in the future?”

Chen Guodong asked a question lightly, his eyes were calm, he looked at the eighteen kings who had been persecuted up front.

As soon as this word came out, the entire Huaxia quieted down. Countless people looked at the virtual screen silently, looked at the old leader, looked calm and calm, there was a kind of Taishan collapsed in front without changing its color, but it showed a wave of The majesty of the superior.

“It is my fault that I am honoured by my compatriots from all over China who look down on me as an old man and made me a leader, but failed to bring you a stable and ideal life.”

Chen Guodong said, bowing deeply to the front, with a hint of shame, he said, “I am ashamed of the people everywhere in China and I am ashamed of your compatriots. China is currently able to come to this step, and it is entirely by General Qin. Credit. “

With sharp eyes, he swept across the eighteen kings in front of him and said, “Dear fellow citizens, let’s take a look. Now the national disaster is taking the lead, foreigners are staring at each other, and even more alien races have invaded my earth, but you want me to abdicate. Nothing. “

“But you really have the ability to do this position. My old man offered both hands to support him as the leader. But if you do this, you don’t put the leader in your eyes. Even the leader can persecute the subordinate. You can’t sit. There is actually no difference in this position. “

“Today, you can persecute my old man, and the same day will persecute the next leader. What is the significance of such a leader?”

Chen Guodong’s words caused countless people in Huaxia to fall into a long silence, and people couldn’t help thinking about this issue.

You can disrespect Chen Guodong as a leader today and even forcefully force him to leave. After that, no matter who is the leader, there is no difference in the eyes of others.

A leader is a navigator who leads the entire nation to prosperity and prosperity, but what’s the point if the leader is not respected within the nation?

What Chen Guodong said, now is the first leader after the end of Huaxia, others are still in place. You people have no one in sight, and they came directly to force the palace.

“I’ll give you another chance. Now go back. Today’s things, I don’t think all of you will take it to heart.”

In the end, Chen Guodong said this sentence, no more words, and quietly looked at the eighteen king-level masters in front.

Their faces changed, their expressions were horrified, and they stared at Chen Guodong, not sure what his words were for.

“Less nonsense!”

Xiao Fei looked disdainful and sneered coldly, “Chen, what use are you talking about this nonsense? Even if all the people in Huaxia hear and see it, what can they do?”

“Yes, we are king-level powers. They should be high. What are they?”

“Doomsday, the strong are the most respected. Whoever refuses to accept it will kill him!”

“Rebels, the door is full!”

One king after another, the words of arrogance and arrogance spread out, immediately angering countless Chinese compatriots watching.

These kings seem to have everything in sight, and they seem to think that becoming a king is one that is too powerful to be defeated.

“A bunch of garbage, and want to be a leader?”

“Where are the other kings, why not defend the stability of our Chinese nation?”

For a time, countless compatriots were indignant throughout Huaxia, and they could not bear the practice and statements of the Eighteen Kings.

Over there, Chen Guodong showed disappointment and murmured: “Such a person can even seal the king, and I’m blind when I look at the assessment stone.”

Hum!

Chen Guodong’s words aroused a mysterious atmosphere of surging and tumbling in the upper sky of Shanghai Jing, and suddenly produced a violent fluctuation, a loud noise, and the assessment stone monument trembled a bit.

The surging breath is the luck of the base in Shangjing, or the luck of the entire Chinese nation.

Since Chen Guodong is currently the supreme leader of China’s Ming Dynasty, his words are equivalent to representing the entire nation. Suddenly, China’s national luck has produced a horrible backlash.

This backlash was not directed at Chen Guodong, but at the assessment stone, which almost scared the spirit of the stone inside.

“Sister Bei Ling, luck is back, oh my god, why is this so?”

In the mysterious space of the appraisal stele, a panic scream came, and saw the spirit of the stele was hit by a huge luck, as if tortured it.

The kings were all evaluated by her. As soon as the king was promoted, she immediately ran to Beijing to persecute the leaders. What is it called?

What the leader is, on behalf of the whole China, can be said that Qi Yunchanglong, his words will affect the unlucky Qiyun unconsciously.

“It seems that the kings have done too much, even persecuted the current leaders. Whatever they say, they represent the entire Chinese nation. These people are so disappointing.” The imprisonment is constantly being tortured by that majestic luck.

Her face was bitter, her hazy face was not clear at all, the only thing she could see was the bitter smile.

“Sister, I seem to be doing it wrong. No wonder the host has warned me once, not to limit, not to pull up seedlings to help, this is trouble.” Bei Ling said with regret.

“What now? What about canceling the assessment system now?” Another figure panicked.

Due to the backlash of Chinese luck, Bei Ling was trapped, and even tortured by China’s long and horrifying horror luck. Once she did not answer the question, she might even be imprisoned forever. At that time, luck would erase her consciousness a little bit.

Most of this incident was caused by her. When the king was promoted and evaluated, there were a large number of 18 kings who went to persecute the leaders. Isn’t this what she cultivated?

“It’s too late, there’s nothing you can do, let it be!”

Bei Ling muttered to herself and was completely decadent. She was very strong, but she never dared to move the overall luck of the Chinese nation. Once struggling, this luck would completely disintegrate. By then, the entire nation’s luck would be exhausted and disasters would occur. Difficult, she could not bear the consequences.

Because the task of inheriting the stele is to bring the human heritage of this era, not to destroy and destroy, once it is done, it will be completely wiped out.

“Ok?”

At this point, Chen Guodong, who had finished the sentence, looked faint, and in his consciousness a vague sense of mysterious breath was suddenly felt.

He originally thought it was an illusion, but suddenly realized that it was not an illusion. He was a mature man and he remembered the sentence he had just made, and suddenly looked at the assessment stone over there.

“Forget it, the stele is the cornerstone of human inheritance. Without it, we Huaxia may have been destroyed at the beginning of the last days. We shouldn’t blame it. Maybe this is a test of the Chinese nation by God.”

Chen Guodong muttered to himself, letting Chen Xi and other people look at each other, it was unknown, but in an invisible place, the spirit of the stele, which was imprisoned by air transport, immediately restored freedom, and the national air flow disappeared Already.

No one knows that Chen Guodong didn’t know about this mysterious change, but just consciously realized that his sentence was inappropriate, and he changed it.

As a leader, some words cannot be arbitrarily spoken, because he represents the entire nation, with every luck and every word.

“Forget it, since you want my old man to retreat, then retreat. Anyway, I have this thought, let you fight.”

Suddenly, Chen Guodong sighed and uttered this sentence directly. The whole person seemed to be many years old, suddenly like an old man in the twilight, no longer a leader.

“Hahahaha”

“Chen Guodong, you are finally willing to abdicate.”

Xiao Fei came up with a big laugh, contempt, and looked at Chen Xi and others with contempt. No matter how ugly their faces were, it was no longer important.

When Chen Guodong retreated, the leader’s position could only belong to those king-level powerhouses. As for how to compete for this position.

Xiao Fei sneered, turned and said to the seventeen kings: “Leadership is vacant. Now, this position should be held by a person with the highest status and strength.”

“Xiao Fei, you’ve talked too much, and the leader should be seated by my Qin Feng. The power of my Qin family is much stronger than the strength of the Xiao family.” Qin Feng came up with a sneer.

As a result, the sixteen kings over there quit, the two of you when they didn’t exist?

“Go, back off first!”

Chen Guodong whispered a word, and slowly withdrew directly under the ***** of Chen Xi and others. He has abdicated, and no one would dare to come and do it.

If you want to do it, you must weigh a few king-level masters here, even if ten kings join forces to siege, they will pay a heavy price.

“Chen Guodong, do you want to leave?”

At this moment, a king-level master suddenly blocked himself and blocked the way. It was a king-level strong man who had never seen before, with a smile on his face.

When he made this move, Xiao Fei and others immediately immediately came to realize that Chen Guodong would not die, so these people don't want to lead the whole Shangjing, let alone Huaxia.

“Chen Guodong, you must die!”

Finally, Xiao Fei and others immediately realized that they were standing in front of each other. He had a somber face, and his eyes were full of Morin's murderous power.

The eighteen kings refused to let Chen Guodong leave.

Their movement immediately exploded the whole of Huaxia. Numerous compatriots were angry. Looking at the ugly faces of these people, they deeply realized that these so-called kings turned out to be so ugly.

For the sake of power, he drove the current leader directly to death, and even pushed Hua Xia into a chaotic situation. No one of this kind would support him in his position.

“Do you dare to kill the leader?”

The snow woman looked cold, swept by the cold, and froze all around.

King Xi, Long Xiaoqian, Chen Xi, Ye Xuan, Wu Changkong and other king masters all showed their anger, Chen Guodong abdicated, even to kill them?

“Let 's go, my old life will coexist and perish with the Beijing base. Let 's go, my old man is not worth it.”

Chen Guodong sighed, waved his hands, and hurried people directly, allowing Chen Xi and other kings to leave immediately, and even he secretly ordered to take away the major legions of Beijing.

“Want to leave?” Xiao Fei sneered, pulled out a simple lance, and hummed coldly: “Today, you guys don't want to leave alive. It is not our style to let the tigers return to the mountain. Cutting the grass and rooting is the right choice Yes, weeds and roots! “

The eighteen kings rushed in and rushed out one by one. They wanted to directly kill Chen Guodong and the masters guarding him, and even the king-level powers wanted to kill here.

“Kill, defend the leader!”

Chen Xi and other six monarch-level masters were angry, and powerful forces poured out. They must work hard to defend the security of the leader Chen Guodong.

“Huh, you're looking for death!”

Xiao Fei hummed coldly, waving an ancient gun, and was about to kill him. A **** battle at the king level was about to erupt.

“I see, it's you!”

At this moment, a cold and indifferent word came from nothing, without a trace of emotion, revealing the bitter killing.

“Who?”

Everyone's face changed, and they looked at it.
