

Dark Ages 59

Chapter 59 - Ready to go

The liquid of life contains powerful vitality. One drop is enough to make people prosper and even restore the vitality of a person's body.

“This is the liquid of one star ...” Qin Tiange looked excited, took it quickly with an empty test tube, and carefully caught these turquoise liquids.

This is the fluid of life, with many functions. It is the main formulation of several powerful medicaments, such as life potency medicaments, such as brain domain development medicaments.

It was because of knowing that this precious and rare liquid of life was produced after the tree mutated, Qin Tiange hurried to find this mutated century-old banyan tree.

I now see these turquoise liquids of life, it's no wonder that they are not excited, and carefully use the empty transparent test tubes to pick up these liquids of life.

He lamely filled ten potions and obtained ten doses of one-star liquid of life, but he kept moving and continued to cut the hard trunk and outer skin of the banyan tree.

I soon found a liquid with more vitality in deeper positions, turquoise, liquid with a bit of golden luster, which is also the liquid of life, but it is the liquid of higher life.

“The liquid of the two-star life, sent!” Qin Tiange looked excited, and carefully caught it with an empty test tube, a whole liquid of the two-star life.

The quantity of this more advanced liquid of life is very small, only one, but it is definitely a good thing. The liquid contains extremely powerful vitality, and even smelling it can make people refreshed and refreshed.

Beside him, Liu Yan and others looked stupid, one by one stunned.

Carefully put away the two-star liquid of life, Qin Tiange looked forward, staring at the hollowed-out trunk, which was approaching the center of the tree. He vaguely felt that this banyan tree, which had evolved into a Samsung class, had definitely produced a solution of Samsung's life.

“There should be ...” Carefully searched, inch by inch, and really found him soon.

It was a drop of golden liquid, brilliant and immaculate, giving people an extremely gorgeous feeling. That drop of golden liquid is the liquid of three-star life. Just one drop is much more precious than one-star or two-star.

Although only one drop disappointed him, Qin Tiange was very satisfied. After all, this banyan tree has just evolved into Samsung for a short time, and it is not easy to produce a drop of golden Samsung liquid of life.

I carefully collected this drop of golden liquid, and Qin Tiange was satisfied. This time, he killed the banyan essence, and it can be said that the harvest was full.

There are ten drops of liquid for one star, one for two stars, and one drop for Samsung. One-star liquid of life can be used to formulate one-star potion. Naturally, two-star potion is used to prepare two-star potion, and Samsung's is the main drug for Samsung potion.

Of course, drinking this way is as useful to the human body, but it is a waste. In Qin Tiange's view, waste is shameful, and the tree demon is hard to kill. People in previous lives know that now he can kill the other party when he has not evolved to a higher level, even by accidentally exploding the root system.

After a while, it is really difficult to kill these tree demon. Once these tree fairies have evolved to a higher level, you can then pull up your roots and move at that time. Have you ever seen a wild running tree?

I dugged out all the liquid of life, and the trunk of the banyan tree dried up immediately. All the branches and leaves were turned into withered yellow and black. Even the ugly human face that originally appeared gradually disappeared and completely died.

If Qin Tiange did not take away these liquids of life, then the trunk will continue to take root and sprout under the emanation of the powerful liquid of life over time. The most terrible thing is that these trees have become fine.

"Leave, the task is completed, let's go back first." Qin Tiange finished all this, and got up and left.

Wu Zheng, who was in a daze, Moda, Liu Ye, and others were shocked, and came to their senses one by one, leaving him quickly following one by one.

Walking on the huge trunk, the dense banyan tree whiskers are wrapped with white bones, all human skeletons.

These bones were originally after the end of the day, people here climbed up the banyan tree to avoid the zombies, but never thought that the banyan tree was the most terrifying thing, and it was sucked into a dry body at once, leaving only one bone.

Under the blasted ground, a dense pile of bones buried with zombie, mutated creatures, and human bones looks like a mass grave, which is extremely scary and scary.

"Tree demon, really scary!"

Stepping on some broken bones, Liu Yan and others felt hairy, and felt that the trees that had become fine were too scary. Look at this mutated banyan tree. In just five days, it has absorbed so many humans and zombies?

There are so many bones in the ground, even if there are no 20,000, it will make you scalp.

I went back to Di. Qin Tiange called everyone and discussed what was going to leave.

Uh ...

In the lobby of Didi Bar, everyone gathered together. Liu Ye, Moda, Long Xiaoya, Yang Xiaolin and others were sitting opposite Qin Tiange, and everyone was looking at a large map.

This is what Qin Tiange found from the middle school, and his eyes are locked on the location of Shenzhen City. He decided to leave the town as soon as possible and go to Shenzhen, where the big stage is surging.

In the previous life, he was in Shenzhen City, and he knew best about it, knowing that there would be a fixed appearance of the next inheritance stele.

“Everyone is ready, we will start as soon as possible and go to Shenzhen.” Qin Tiange looked at it, and suddenly said such a sentence.

He continued: “If you don’t want to go, I don’t ask, you can stay, and people who want to go to Shenzhen with me should get ready as soon as possible.”

“Are you going to Shenzhen?”

After listening to Qin Tiange’s words, Liu Ye frowned first, and he was a little hesitant. She didn’t want to go to Shenzhen, but wanted to go home and take a look.

Her home is in Guangzhou. The two places don’t look very far apart, but you need to look at the current world where zombies are rampant and mutant creatures are raging. Can you go back safely?

“Yes, it’s the deep market!” Qin Tiange didn’t look up, looked back at the map, and stared carefully at the area where Shenzhen was located, as if he had returned to the **** and windy days of previous lives.

He soon woke up, his eyes glanced at everyone calmly, and he said, “Make a choice as soon as possible. I don’t want to go if you don’t want to go. If you want to stay, you still have to go to Shenzhen. You choose.”

“I follow Brother Qin!”

“me too!”

The boys Limoda and Yang Xiaolin were the first to lead the way. The other boys looked at each other one by one. Most people naturally follow Qin Tiange.

As for a small number of people, what can they do? Can a person survive in this small town? In the end they still had no choice.

“I will go wherever Brother Qin is!” This is what Qi Qi said It is very simple.

Wu Xiaoyu and others looked at it. No one is stupid, staying in this town? Just kidding, they know that there are not many survivors here. Even if there are, they are so pointless. Even in the countless new rural areas nearby, there are many huge farms where there are the most animals.

I stay here, sooner or later, the main thing is that they don’t know the direction of the next strengthening. Following Qin Tiange is different, at least he knows how to strengthen himself in the future and how to make himself better.

“It’s okay to go to Shenzhen, but how do we go?” Long Xiaoya asked at this time.

Yeah, no problem to go, but how to go is a problem.

Tamarix also frowned slightly, saying: “This small town is well connected, water and land are unobstructed, and there is a high-speed kilometer and a railway.”

Oh? Qin Tiange was wondering what way to choose to leave. It is definitely not good to go by water. There are countless mutated terrible fish in the water, and even some mutated aquatic creatures are extremely scary.

Let 's go by land then. The highway is okay, but now the flowers and trees are growing crazy. The current highway is likely to be blocked.

In the previous life, Qin Tiange hid here for two days, and finally ventured into a car. He ran away on a high-speed road with a car. When he met the fleeing team halfway, he hid together in a county for three months. In the end, some rescue teams from Shenzhen came to enter Shenzhen.

However, in this life, he did not want to do this, because he knew that he would encounter countless horrible things along the way, not only dangerous but also troublesome, but how to leave?

Oh oh oh ...

At this moment, a sound of whistle came from far away, once and again, it seemed that there was a rhythmic whistle, which made everyone in the room stunned.
