

## Dark Ages 591

Chapter 592 - The first dead body, grab you without discussing

“Well, what about people?”

Above the nothingness, the gray air flow rolled, two powerful figures emerged quietly, looking for something.

These two are naturally two strong men of the last era who have quietly followed up. They are left to the present day by the last era, and they can be described as means.

Qin Tiange didn't want to confront these old things for the time being, so he disappeared and let the two guys chase them away.

“It runs really fast.” One of them was shrouded in dark clouds, and he couldn't see Zhenrong. He saw only eight giant hands, and he could crush the space with a slight movement.

The other one, in the hazy mist, two heads can be seen, four eyes are looking at the traces around, but unfortunately, even a little breath has not been left.

“It really ran away, this Terran boy is a bit able, but the Fang Yin's power is strong, but he has no ability to play it.” The eight-handed old monster hummed.

Next to him, the two-headed creature was dissatisfied. “If you miss this time, you may need to kill him outside.”

“If it weren't for Yaochi, Zhenyuan, and Shakyai who obstructed it, we would have sent our army.”

“No rush, time is running out, the younger generation's experienced army sent by this tribe will soon arrive here. The human race is the inferior creature hunting the adulthood for the younger generation.”

“Let's go and find out, what baby is here.”

The two ancient creatures turned around and left here, and disappeared in a blink of an eye.

And shortly after they left, a shadow appeared quietly in a void not far away, and a chaotic air flow emerged.

The person who came was Qin Tiange. In fact, he didn't leave, but quietly lurked in the space interlayer, hiding in the air flow of nothingness and chaos.

“Ancient creatures have been left from the previous period. It seems that the task of these old things is to attract the young hunting army of all ethnic groups. Want to use the earth's humanity as the younger generation ritual of their ethnic groups?”

Qin Tiange stood here, watching the distance murmured to himself, lost his thoughts. He didn't like these alien races.

Not only unfamiliar, but with instinctual vigilance, not to mention that the other party wants to use humans as prey, so that the younger generations of all ethnic groups can hunt for humans and obtain adulthood.

This kind of hunting activities may be common among the starry hundreds, and even some weak races are destined to become the hunting targets of the hundreds.

And the human race, since the defeat of the human race in the previous era, almost collapsed, resulting in the current human cowardice, causing hundreds of people to think of hunting for the human race.

“Come on, come as much, kill as much.”

Qin Tiange snorted, turned around and disappeared, and lost his trace in a blink of an eye. He didn't have much to say about the races from outer space, and killed them when they came, until they dare not come.

At present, the most important thing is to enhance one's own strength. Only strong strength can cope with the infinite army of foreign races that are pouring into the earth.

“Master, there is an early corpse in front, would you like it?”

As I was on my way, I suddenly heard a reminder from Renhuang Yin, let Qin Tiange take a sip, turned without hesitation, and rushed in that direction.

Not long after, Qin Tiange came to a turbulent airflow and stopped, watching the tumbling gray airflow in front, revealing the endless destruction.

“In there?” Qin Tiange frowned secretly, and the original corpse was in a large chaotic air flow ahead.

This corpse should have flown from the Treasury of the first heaven, hidden inside, it seems to have a little bit of instinct. Once a new consciousness is generated, it is equivalent to a new first life.

boom!

Just as he was stepping inside to find it, suddenly, the chaotic air flow in front exploded, and two wolverine figures flew out, each holding one side of a corpse, and couldn't let go.

“Get away, this is mine!”

An eight-legged creature is roaring. The upper body is no different from a human. The only difference is that the lower body has eight feet.

Its breath is very tyrannical, it is a first-class creature, extremely tyrannical. On the opposite side, there is also a first-class creature following it to \*\*\*\*\* this first-generation corpse.

“Eight feet, let go quickly, or you're welcome.”

This creature has three hands and a tail, but there is only one eyeball on the face, which is a one-eyed three-handed creature, very fierce.

“Human race, get out!”

Over there, the two saw Qin Tiange outside, Qi Qi yelled at him, full of contempt and warning.

Watching the two creatures roar, Qin Tiange's mouth evoked a cold arc, and he took the ancient sword step by step.

“Look for death!” The eight-legged creature saw Qin Tiange stepping up, and he was so angry that he kicked one of them fiercely.

I saw the figure flicker, the sword mark was scratched, and that foot fell down, and was directly cut off by a sword.

“Ah ... you ...” One foot was cut off, the creature shouted, opened his mouth in anger, and spewed a horrible energy towards Qin Tiange.

This energy is extremely violent, and contains very powerful corrosion and destruction. Once infected, the first emperor crying.

However, in the face of this terrible torrent of energy, Qin Tiange not only did not hide, but he waved the ancient sword and smashed it up.

Click!

With a crisp sound, a faint sword mark reveals indestructible power, the torrent of energy was chopped into two from the middle, and swept across Qin Tiange's side without damage.

He broke through the torrent of energy and came to the eight-legged creature. The ancient sword stabbed gently, scaring the other party to retreat immediately, giving up the original corpse.

“Dead!”

Over there, the other Emperor, who was holding the first-generation corpse, was angry and yelled. Two hands left and right slammed on Qin Tiange's head, which meant that he would break him.

Facing the left and right pinch, Qin Tiange looked calm, the ancient sword softened, and instantly drew a faint black sword mark, revealing Tian Tianwei and cutting everything.

With a flutter, both hands fell down on the spot, falling in unison, and the blood couldn't stop spraying, making the three-handed creature stunned.

“How is that possible?” His face was horrified, and the one-eyed one was full of shock. The first emperor's blow was chopped off by the opponent?

The severe pain kept him awake and quickly let go, because the ancient sword had scratched his neck, and once he didn't hide, his head might fall.

From Qin Tiange's offense to heavy hitting, the two forced the two Emperors to retreat. The whole process took only five seconds, and the first-generation corpse fell into his hands.

“Yes, I want it.” Qin Tiange grabbed the first-generation corpse with one hand and watched that the complete corpse was shaking, and an ancient and powerful force broke out, trying to shake him away.

It is a pity that corpses are corpses. Even the strongest are dead bodies. They cannot exert their due power and can only be suppressed by Qin Tiange and put away.

“Asshole, dare you grab our first-generation corpses?”

“Give it up!”

The two first emperor-level creatures were furious, and saw Qin Tiange even \*\*\*\* the corpse of the first generation they found.

Once the corpse of the first generation is obtained and the complete genetic power of the first generation ancestor is extracted from it, it is possible to completely return the bloodline gene to the ancestor, and it will not be impossible to achieve the first generation ancestor.

Such treasures have been taken away, how can we not let the two first-class creatures become angry?

“Grab you without discussing!” Qin Tiange snorted softly, flashing his sword and disappearing in place.

Suddenly, the two first emperor-level powerhouses were full of hair, and they turned around and blasted behind them. A click in the hollow and hollowed out, and a figure emerged from it, which was Qin Tiange.

He carried the ancient sword in one step, and sharply cut the necks of the two first emperors.

Jingle!

The two first emperors were very good, and they joined hands directly, each holding a powerful imperial soldier, and fiercely slashed up.

“kill!”

“Kill this Terran!”

The two major life forms erupted, the anger was soaring, and the killing spirit shook people’s hearts. Under the joint efforts of the two first emperors, it really brought a little pressure to Qin Tiange.

But there was also a little pressure, which was not a big deal for him. It was a little bit of trouble and it took a lot of time to suppress the two first emperors.

“ban!”

While the two first emperors were not paying attention, Qin Tiange pointed out, and instantly, the two souls were imprisoned there, and they could recover in just one second.

But it was only one second, enough for these two first emperors to die three or four times.

Flutter!

Sure enough, an ancient sword pierced the brows of one of the first emperors severely, smashed the opponent’s soul consciousness, and killed the spot.

Then, Qin Tiange opened his right fist, and his five fingers turned into a sharp blade, pierced into the brain of another emperor, and passed into the emptiness of the sea, holding a vague shadow.

“Ah ... my emperor is not willing!”

That phantom was the soul of this first emperor, and Qin Tiange penetrated into the sea of knowledge with mysterious force and grabbed his soul with five fingers, smashing and crushing the opponent's soul completely.

The two first emperors were easily beheaded and killed by Qin Tiange in this way, snatching away the first-generation corpse that the other party was fighting for, and even their corpses were taken away.

“Master, hurry up, that place is going to close, and if you don't go, you have to wait for another epoch.”

At this time, the imperial urging voice from the Emperor Seal sent Qin Tiange's face slightly changed, and immediately radiated away, turning into black particles and disappearing.

He didn't expect that the human emperor seal said so, wouldn't it mean that place, only once in an era?

Once I missed this opportunity then we have to wait until the next era. Is Qin Tiange having that patience?

Even if he does, he won't wait. The fool waits for the next era. Who knows if he can live for such a long time?

“where?”

Qin Tiange's extreme speed broke out, almost turning into black particles, rushing wildly in the vanity chaos Pangu world.

He followed the direction of the Emperor Yin Yin Ling, and wished he could speed up several times and dozens of times faster.

However, here is the chaotic and broken Pangu world. There are crises everywhere, and if you are not careful, you will fall here.

Fortunately, not long after, Qin Tiange came to the place where Ren Huangyin said, and stared at the scene in front of him.

Rumble ...

In front of it, a gray mist rolled, like a violent stream of destruction, constantly surging and surging, revealing a terrible breath that destroyed everything.

Chapter 593 - Pangu Forbidden Land

Before the gray chaotic airflow, Qin Tiange looked serious, staring at the gray airflow that was roaring and rolling in front.

“Are you sure you're in there?” He asked a bit uneasily.

I saw a light shining from the emperor's seal above him, saying: “Master, that thing is in it, there is only one chance to get it.”

“If you can't get it?” Qin Tiange asked, squinting his eyes.

“If you can’t get it, you will fall into it.”

The words of the Emperor Yin Qi Ling made Qin Tiange’s heart cautious, staring at the boiling gray airflow, showing endless fury, full of destruction.

He tried to throw a powerful weapon into it, and as a result, it was smashed into gray powder by the gray air.

This weapon is a ten-star weapon. Although it is not a weapon of Wang Bing, it is at least very close. But such a powerful weapon was annihilated.

“Master, it is now!”

Suddenly, Renhuangyin heard a low drink, which made Qin Tiange’s instinct leap into the grey rolling airflow in front.

I saw that the boiled air flow stopped for a moment, and an unsearchable gap emerged, which allowed Qin Tiange to pass through and disappear here.

boom!

As soon as he entered, Qin Tiange felt the endless violent air flowing around him, and wanted to crush him.

Black particles, time taboos rushed out, this suppressed the violent air flow around, galloping all the way.

“Left, right, go up, rush over”

Ren Huangyin reminded again and again, finally, Qin Tiange’s body accelerated, turned into black particles, passed through a torrent in front, and came to a place.

He stood on the cold ground, looking at the solitude around him, wondering what was going on.

“Where is this?” Qin Tiange’s pupils flickered, looking at the surrounding environment.

At first glance he felt like he was inside a cave, and the cave was a little too big.

“Master, you have already come out. This is the core of Tianzhu Mountain in the Pangu continent.” The words of Emperor Yin Yin made Qin Tiange almost thunder.

Fortunately, Qin Tiange held back, staring at it quietly, and only listened to Qiling Ling, “Master, you must come here from the broken Pangu world to come here.”

“Master, that thing is here, depending on whether you have any chance to see or even get it.” After finishing the emperor seal, he turned into a ray of light into the sea of his eyebrows and went straight to silence.

Qin Tiange’s thoughts swept away, and he saw that the seal of the emperor in the sea was silent, as if sleeping.

He ignored it, but looked at the surrounding scenes, which was completely a huge earth palace cut out in the center of Tianzhu Mountain.

As soon as Qin Tiange's body moved, he was about to take off in the air, but he couldn't fly a few times, which surprised him.

**"Can't fly?" Qin Tiange was surprised and had to give up flying and run away at the fastest speed.**

Ten minutes later, Qin Tiange came to the huge city, staring at another horror totem pole in front of the gate, blocking the entrance and exit of the gate, and depicting some of the oldest characters.

**"Forbidden area in Pangu?"**

On the totem pole, the four ancient and vicissitudes of characters are precisely the forbidden area of Pangu.

These four words are ancient and reveal a kind of ancient charm of the oldest years, as if it has been immortal for tens of millions of years.

On this totem pole, there are dense and weird patterns, as well as some hazy figures. The years have eroded here very seriously, and it is no longer clear.

Hum!

Qin Tiange lifted his feet and was about to bypass the totem pole, but was blocked by a mysterious light and bounced off his body.

Huh? Feeling he was bounced off, Qin Tiange stunned and looked at an invisible light in front of him, which was some kind of energy guardianship.

He stretched out his hand and touched it lightly, but found that it seemed to hit a wall, which was very solid, even if he couldn't shake it with all his strength.

**"What is the law?"**

Qin Tiange was very curious, while stroking the invisible protective power, he could not shake, but he could clearly feel the reckless ancient charm and power.

He looked carefully here, and even came to the other three doors to look at it. It still looked like this and couldn't enter it at all.

When asked about the Emperor Seal Seal, the other party only replied, relying on himself, leaving Qin Tiange speechless, but he had to say that he really needed to rely on himself.

Opportunities naturally depend on oneself. How can others help you get the chance?

Calm down, Qin Tiange carefully observed, and soon discovered a phenomenon. On the totem poles of the four city gates, each one has a strange groove, which looks like a palm print.

**"Is this a mechanism?" Qin Tiange looked at a palm print on a totem pole, stretched out his hand to open five fingers, and pressed his palm gently, just matching.**

Suddenly, a light burst out inside, directly fixing Qin Tiange's hands and even his body, no matter how he struggled, he couldn't escape.

When Qin Tiange's complexion changed greatly, and the secret passage was not good, a sting came from the palm of his hand, and then the blood in his body seemed to be drawn out.

"What's going on?" Qin Tiange looked horrified, looked at the totem pole, and suddenly felt that his body blood was pouring from the palm of his hand into the totem pole.

Suddenly, the whole totem pole was lit with blood, and it exudes a strange atmosphere.

"The blood gene concentration in this family is 1%"

Suddenly, a set of data suddenly appeared on the totem pole in front of him, so he floated in front of Qin Tiange, making him feel dumbfounded. Before he could see anything, he saw the imprisonment power disappear and restore freedom.

He pulled back his palm and looked at the numbers in front of him. He hadn't figured it out yet, but found that there was a gap in the power of the forbidden law.

"Examination?" Qin Tiange rolled his eyes secretly, which is too much, it feels like going through security.

He shook his head with a bitter smile and walked directly into this emerging gap, which has always been the blood concentration that allowed him to pass.

But Qin Tiange was dumbfounded by that data. Is his blood vein concentration only about 1%?

"My own family? Is it a human family? Or" Qin Tiange frowned secretly, some not sure, what he had already guessed.

When he stepped into the forbidden area of Pangu, a throb from the blood gene caused his whole body to boil and burn, unable to keep calm.

"What affected me?" Qin Tiange's face turned red, and his blood was really boiling, burning a little.

Yes, his blood was inexplicably burned by himself, and was directly affected by a vast and simple atmosphere.

Chi Chi rip

Outside of his body, a mass of blood was boiling, Qin Tiange stepped toward the center of the city step by step, feeling the blast of his body.

He felt instinctively that there was a faint call in his blood, as if some ancient force was calling him.

The vast ancient city, barren and dead, is dilapidated, as if it were a restricted area.

Sonorous

In the front, as Qin Tiange walked away, the blood in his body boiled on the moon, and there were sounds of crickets, as if the blood was melted from gold and iron.

He had burned a total of 99% of his body's blood along the way. Yes, 99% of the blood was burned and only 1% of the pure blood remained.

These blood, with a certain mysterious atmosphere, sent out horrible fluctuations of power, so that Qin Tiange not only felt weak, but became stronger.

“Strong, simple, is it really what I guessed?” Qin Tiange looked shocked, feeling the roaring blood in his body, showing endless power.

This feeling, as if he could explode a star with one punch, is incredible, making him a little tremor.

“Huh?” Suddenly, Qin Tiange felt that he had reached the center of the forbidden area and saw a simple stone monument, which was inconspicuous.

However, Qin Tiange felt an ancient power once realized from the stele, which was extremely powerful.

“It's that kind of power, it really exists.” Qin Tiange looked excited and even excited.

With his eyes brightened, he stared straight at the stele in front of him and walked up step by step.

However, he soon discovered that there was endless pressure on the stele, and the pressure increased exponentially with each step closer.

When he reached the 100-meter area, he could not move anymore, and was completely unable to move.

“Ah go up!”

Qin Tiange yelled, like a beast, his body suddenly swelled, his armor shattered and scattered on the ground, exposing his perfect body, which was as tall as a foot.

Step by step, walking down to earth, Qin Tiange approached the stele a little bit, and finally, as he approached the ten-meter position of the stele, a burst of crackling sounds came from his body, and then a wailing sound came.

cry

A \*\*\*\* phoenix rises into the air, but smashes in the void. Then, a unicorn growls fiercely and is crushed. Two ancient and pure forces are immediately sucked into Qin Tiange's body.

Seeing this, Qin Tiange froze. I did not expect that the one-hundredth of blood in the body of could not tolerate the genes of Shenfeng and Kirin, and swallowed it directly.

Hum!

Just then, the quaint stele in front hummed, and then the pressure disappeared. Qin Tiange walked for a few steps before he saw the quaint stone monument standing in front of him. The breath emanating from him was not like a stone monument, but a giant giant.

“Pan Gu Bei?”

Qin Tiange looked at this ancient stone stele, and it was not clear why such a word popped up in his mind. It was the Pangu stele.

He looked in horror at the simple stele in front of him, and couldn't see any difference. The only thing he said was the sight of the stele was like seeing a terrifying horror.

Was wondering, suddenly a monument appeared from the Pangu monument, directly covering Qin Tiange, and then the light disappeared in place, as if it had never appeared.

**“Pangu tribe, bloodline primary examination begins”**

When Qin Tiange's consciousness was hazy, he faintly heard such a cold and indifferent word passed into the mind, and then lost his consciousness.

Chapter 594 - Pangu Tribe Elementary Assessment: Kaitian?

**“Pangu Nationality Primary Assessment: Kaitian!”**

Awake in consciousness, Qin Tiange heard this cold and indifferent utterance, and almost spit out blood.

What did he hear, and the voice said that it was going to start? Kaitian, yes, it's Kaitian, not a shop or a car, but Kaitian!

Furthermore, Qin Tiange has the urge to faint, who is so stunned that Kaitian is regarded as a junior assessment?

**“Pangu tribe? Kaitian, are you kidding me?”** Qin Tiange looked ugly, glanced around, and he was in a gray world with only nine feet wide.

Yes, Qin Tiange found himself inexplicably appearing in a weird space, only nine feet wide, as if it were a circle here.

**“Well, no, how do I feel like I'm in an egg?”** Qin Tiange suddenly froze, staring blankly at the tumbling gray airflow.

This is chaotic gas, very pure, there is an impulse to be absorbed, and the remaining one percent of the pure blood in the body is eager.

Moreover, he turned around here and found that there was a gray wall around it, smooth and invisible to the outside. He only knew that he was inside a round egg with a length of nine feet.

Qin Tiange was speechless, looking at the gray chaos around him, and then looked at the nine-foot-wide egg, let alone be an egg.

He didn't expect to enter the forbidden area of Pangu, and unexpectedly came to such an assessment, and, it seems, his previous guess was correct.

The Pangu tribe, the blood vein gene in his body, even owns one percent of the Pangu tribe blood, which shocked his heart, but also made him cry and laugh.

**“Is Pangu a group, not a person?”** Qin Tiange was lost in thought, thinking about the Pangu family.

The voice just now, cold and indifferent, has no emotion, just like a robot cold.

But the Pangu tribe it said caused a lot of mystery to Qin Tiange, especially now that this assessment, can you think that every Pangu tribe has to undergo a preliminary Kaitian assessment?

Isn't it true that everyone of the Pangu tribe has to go out of an egg?

Thinking of this, Qin Tiange couldn't help rolling his eyes and secretly said: "It is said that the great \*\*\*\* Pangu was born from chaos and nothingness, split an egg, and the world was born. Is this legend just a preliminary assessment of the Pangu people?"

"How do I open the sky?" Qin Tiange looked at his body, everything was gone, his body was naked, obviously his clothes had been torn.

He still maintains a tall body, a strong body, with a touch of ancient and desolate breath, an ancient charm, and is very powerful.

No weapons, no utensils, and nothing else for him, how to open the sky?

boom!

I saw Qin Tiange struggling with his strength and punching furiously, hitting the eggshell. As a result, the huge force shocked him to the other side, and lay there with no image.

"Keke Pangu tribe, are they all so cattle?"

Qin Tiange trembled up, a little speechless, looking at the eggshell in motion, he thought about how to get out.

However, he soon noticed that here is full of pure chaos. Perhaps this is the key to the assessment.

He noticed it before, but for the time being, now it seems that this Pangu tribe's assessment task for the sky must be opened by the power of Pangu to pass the assessment.

"Absorb these pure chaos first" Qin Tiange immediately smiled with a smile on his face, and opened his mouth to devour the chaos here.

A pure chaos, simple and vast, contains endless energy, with a violent atmosphere, as if everything can be destroyed.

Qin Tiange took a breath of chaos, and as a result, one percent of the Pangu blood in his body boiled immediately, and he swallowed this pure chaos without any hesitation.

Suddenly, Qin Tiange felt that the concentration of blood vein genes seemed to increase a little, and he did not know if it was an illusion. His body seemed to have grown a little bit.

"Pangu was born of chaos, opened the sky, opened the sky" Qin Tiange muttered to himself, comparing the Pangu \*\*\*\* in the myth and legend.

At this moment, isn't he just re-embarking on the old road of Pangu God? He thought, how many Pangu clan in the universe, each Pangu clan is so bullish, the primary assessment is Kaitian, what is the assessment above?

Rumbling

Inside the tall gray eggshell of Jiuzhang, Qin Tiange devoured the boiling chaotic essence around him. Gradually, the blood in the body was strengthening, and the concentration became more pure.

The original concentration of 1% is gradually increasing. Although it seems to be infinitely more numerous than the turtle, this is indeed an improvement.

Qin Tiange realized that the power he had awakened was actually the power of Pangu, a powerful force belonging to the Pangu tribe.

Consuming chaos, purifying Pangu blood, and increasing the level of blood gene, is increasing a little bit.

Gradually, Qin Tiange forgot everything, absorbed the chaotic atmosphere around him, and raised his body a little bit, one, one, two, one, and three, slowly and resolutely raised up, his breath became more and more simple. With a certain charm.

In the egg shell, the chaos gas gradually decreased, and was absorbed by Qin Tiange into a nutrient of the pangu gene, as if the pangu gene was specifically to eat chaos gas.

No wonder, after awakening this ancient power before, no matter what you take, you can't improve even a trace, but you have a feeling of being polluted.

It turns out that the Pangu tribe eats chaos essence, which is the daily ration of the Pangu tribe. Once the chaos essence is lacking, the Pangu tribe will become a little accustomed or even weakened.

During the cultivation, Qin Tiange suddenly came up with an idea. Is the Pangu tribe so powerful? Is it because chaos essence is lacking that led to the extermination of the tribe?

Otherwise, from the perspective of the powerful Pangu tribe, who is among the Pangu tribe?

This idea was fleeting. Qin Tiange didn't delve deep into it, no matter what he was doing. Now his strength is getting better. Even if there is no chaos and spirit in the future, it will be a lot of trouble to find it.

rumble

In the eggshell, the chaos essence became more and more scarce, and it gradually became thinner. I don't know how long it has passed. In short, Qin Tiange felt as if he had been practicing for thousands of years.

As he absorbed the essence of chaos, his body continued to expand, and he could no longer keep sitting on his knees. He gradually had to curl up, because the body had expanded to a height of nearly nine feet and nine feet, and the egg could not hold him.

**"How long have I cultivated"**

I don't know how long in the past, when Qin Tiange woke up, his whole body changed, no matter the temperament or the breath, the earth-shaking changes took place.

His long hair and waist almost covered his whole body. His tall body and strong muscles were connected one by one, full of explosive power, and flawless.

In his eyes, there was a vicissitude of vicissitudes, as if he had slept in chaos for countless years, and the cultivation woke up, not knowing how long it had been in the past.

“Well, the space is small, so uncomfortable.” Qin Tiange frowned slightly, watching himself curled up into a ball, and the entire space inside the eggshell was filled.

There was an inexplicable irritability in his heart that gradually turned into a kind of violence, as if this egg blocked his body from growing.

“open!”

Without saying a word, Qin Tiange Li Xiao, the body moved, suddenly stretched, his arms against the egg shell fiercely, trying to spread the egg.

Unfortunately, this egg is very hard and not as fragile as imaginary, so Qin Tiange had to be sighed with emotion. The Pangu clan’s attack assessments were so abnormal.

“Drive me!”

Qin Tiange did not get discouraged, squatted down, punched the top of his head with a punch, a loud bang, and the eggshell trembled, emitting a burst of light.

Seeing this, Qin Tiange’s pupils were brightened, there was drama in the dark road, without hesitation, condensing the power of Pangu in the body, and punching the eggshell with a punch.

Bang bang

One punch after another, Qin Tiange himself did not remember how many punches he swung, anyway, there were thousands of punches per second, but the eggshell was still solid and unbreakable.

Seeing this is not okay, Qin Tiange frowned, his long hair flew up, he danced without wind, and his whole body changed inexplicably.

He slowly closed his eyes, consciously immersed in the genetic power that was not well understood, and the supreme power that split the heavens and the earth gradually radiated out.

To open the sky, there must be the power to open the sky. Pangu Kaitian, perhaps the Pangu people have realized from the beginning and continued to cultivate and grow.

Suddenly, Qin Tiange opened his eyes, and two beams of gray light burst out, hitting a wave on the eggshell.

“Open the sky!”

A violent drink, accompanied by Qin Tiange’s momentum condensed to the apex, and the whole body of Pangu blood boiled, the power of Kaitian, which had just been awakened in the gene, condensed in his fist and punched up.

With a bang, the eggshell trembled, and gradually, a slight crack appeared open! “

Qin Tiange’s eyes flashed, his fists waved, and he was wrapped in a cloud of gray gas, and the violent force hit the tiny fissure fiercely.

The crackling sound came, and the cracks spread and continued to spread. These cracks appeared on the entire egg shell.

“Open the sky!”

Qin Tiange roared suddenly, his fists smashed up fiercely, and his strength turned into an extreme punch, and Pangu’s power to open up broke out.

After the loud noise of the dragon, the eggshell was finally broken, Qin Tiange’s body stood upright there, and there were numerous broken gray eggshells scattered around.

Shell breaking success!

“Primary assessment: passing the test, it took 999 years, Pangu blood concentration: 9% ,: Evaluation: Barely passed, rewarded three minutes into the Pangu blood pool”

Just when Qin Tiange was relaxing and excited, his smile climbed up to his face, a cold and indifferent word was conveyed into his mind, making him smile stiff and vomiting blood on the spot.

Chapter 595 - Ten% of Pangu blood

After hearing the evaluation of this voice, Qin Tiange smiled stiffly on his face, and a blood spurted out, which was called a depression.

“999 years? Barely passing?” Qin Tiange was dumbfounded and froze.

He had no idea that it took him 999 years, almost a thousand years before he broke the shell out of the egg.

Moreover, such a result turned out to be just barely passing, almost driving him crazy. Pangu clan, why is Niucha so abnormal in the assessment?

“By the way, what does that reward Pangu blood pool for three minutes mean?” Qin Tiange suddenly looked, thinking of this question.

Before he could react, he saw that the gray space around him had changed, and the whole person landed freely and fell into a huge pool.

This is a blood pool on one side, but in Qin Tiange’s eyes, what kind of blood pool is this?

Bang!

The endless blood waves slammed into the sky, rolled up hundreds of feet high, and issued a horrible rumbling sound, leaving Qin Tiange completely stunned.

I saw a huge wave standing hundreds of feet high, slamming him into the \*\*\*\* ocean, and drinking a few mouthfuls of \*\*\*\* liquid.

Grunt!

With a sip of blood entering the body, the pangu blood in Qin Tiange’s body boiled and became completely violent, even absorbing the ancient mysterious energy of the blood, and constantly strengthening himself.

A single sip of blood actually increased his blood concentration in Pangu by one-thousandth, making Qin Tiange realize that this was a good place.

“swallow!”

Qin Tiange opened his mouth and swallowed, and Gu Longlong’s madness swallowed the bright red blood around him. This mysterious blood could raise the blood rank of the Pangu tribe.

This made Qin Tiange excited, but he knew that time was short, and the voice said that he could only stay for three minutes.

This is the reward for passing the assessment. In only three minutes, he burst into full force, devouring the boundless scarlet ocean.

When I go down, I can’t swallow too much, I can only absorb it a little bit, otherwise my body can’t hold these mysterious blood at all.

Because Qin Tiange tried, no matter what method was used, he couldn’t get the blood, couldn’t load it, he had to swallow it, and let the blood of the femoral veins be absorbed and purified.

Gradually, the ninety-nine percent of Qin Tiange’s blood, which was originally missing from his body, was gradually filled, and throughout the body, Pangu blood was flowing.

Let’s call it Pangu blood. Qin Tiange believes that the current blood is an ancient blood that belongs to the Pangu tribe.

The whole body’s blood volume has recovered, but the purity and concentration are still a little over nine percent, infinitely close to ten percent.

“Swallow, swallow, swallow!”

Qin Tiange was crazy, and he could not wait to swallow a little more of this blood, because at this moment, the Pangu blood gene in his body was successfully promoted to 10%.

When it reached ten percent, a mysterious and powerful force was born from the body, derived from the bloodline gene, radiating all over the body, and there was an impulse to scream.

Strength, tyrannical strength filled the whole body, making Qin Tiange’s body even bigger and stronger. The body that was nine feet tall and nine feet tall suddenly swelled and reached ten feet tall.

Just as Qin Tiange was about to continue to devour, a mysterious force wrapped him around, and then he threw out Pangu Blood Pond at once.

“Unfortunately, time is up.” Qin Tiange sighed, knowing that the time was up. Three minutes was short, which only allowed him to raise his blood to 10%.

However, he was already satisfied, watching the pangu blood pool thrown out, inexplicably returned to a gray void.

Huh!

Suddenly, a ray of light suddenly flew out of the gray chaotic airflow. Qin Tiange instinctively reached out to catch it, opened it, and found out that his space bracelet had a simple symbol.

This symbol, simple and desolate, reveals an indomitable will, and naturally, Qin Tiange has a word in his heart.

plate!

Yes, this is an ancient image text, more like a symbol, exactly, a disc!

I saw that the word flashed, and imprinted on Qin Tiange's eyebrow, and was deeply imprinted there, gradually disappearing.

Qin Tiange froze and suddenly realized that there was a message. The word had little effect. The only effect was that he could return to the forbidden area of the Pangu tribe again.

“Haha, well, it seems I can come back in the future.” Qin Tiange was so excited that he couldn't help laughing.

Because of this “Pan” word, Qin Tiange is most happy to be able to return to the forbidden area of Pangu again and accept the next level of assessment.

However, at what level can he come back to evaluate again, this point Qin Tiange does not understand, perhaps at that level, the word “pan” will send him back.

Pan, Zi represents the identity of the Pangu tribe. Qin Tiange is now officially a member of the Pangu tribe, although it is still weak.

Huh!

Suddenly, a light flashed, Qin Tiange only felt a flower in front of him and appeared on the Pangu continent, just in front of Tianzhu Mountain.

“Is this out?” Qin Tiange looked stunned, looking at the towering Tianzhu Mountain in front of him, for a while he couldn't accept it.

He was thinking about looking for some more opportunities in Pangu, but he came out unexpectedly. He was a little disappointed in his heart. This time when he entered the Pangu world, the only biggest gain was to improve the grade purity of the Pangu blood gene.

But soon he calmed down, his face returned to calmness, and he felt the violent force in his body carefully, which was pure power.

boom!

Photographed with a single palm, a peak in front was immediately turned into a pile of powder, which was smashed into powder by Qin Tiange's palm.

Qin Tiange's infatuation with that overwhelming power is the real power and unstoppable.

Brushing Qin Tiange's body quickly shrank, changing from his body to his original shape, and taking out a new set of armor to wear.

For a while, his temperament changed noticeably, his breath seemed more quaint, and he felt a sense that he could not see clearly.

“I don't know what happened to Chen Xi?” Qin Tiange looked at Tianzhu Mountain, where the Pangujie portal had disappeared.

He didn't know how long he had gone in, thinking, did the Pangu junior assessment take 999 years, was it synchronized with the outside?

If this is the case, Qin Tiange couldn't bear the chills in his heart, and looked at the injection system on his wrist, which was just blocked.

"Yanji, how long have I been away?" Qin Tiange contacted Jiji nervously.

Soon, his own figure appeared, looking at Qin Tiange in amazement and saying, "Master, haven't you just left for a few days?"

"Also, the base is currently settled on the eastern plain of the Pangu continent. There are a large number of ancient organisms here, which facilitates us to collect the genes of these ancient organisms for research." Qin Tiange reassured Qin Tiange.

It turned out that it had only been a few days since the outside, and that was assured. It would be a tragedy if we had been in the Pangu Forbidden Land for the past thousand years.

For thousands of years, the vicissitudes of the sea are enough for Qin Tiange to be thrown away by this doomsday era and even eliminated.

Fortunately, nothing happened. He was relaxed, and the whole man was filled with a strong self-confidence, so strong that he could feel it.

"I'll go back now." Qin Tiange nodded, closed the communication, and prepared to return.

He felt instinctively and wanted to call the Emperor-level Dapeng. As a result, the connection disappeared, shaking his face.

"Emperor-level Dapeng is dead?" Qin Tiange was speechless.

He shook his head, didn't bother, turned around and walked, and disappeared in Tianzhu Mountain for a moment, no one knew he was out.

In the Pangu world, major creatures, ancient creatures, and alien powerhouses are fighting for opportunities in it, and it seems that they have not come out of it.

This made Qin Tiange have some thoughts, and is waiting to go back and think about it before making a decision.

He knows that most of the hidden powerful creatures have quietly entered the Pangu world. This is the only opportunity to enter the Pangu world. Those strong ones have no reason to go in.

This made Qin Tiange tempted.

In a blink of an eye, Qin Tiange returned to the location of the base, which is just a plain on the Pangu continent, which is vast and boundless. The preliminary estimate is that it has at least the same area as China, and even is larger.

On the plain, the fresh grass is rich and rich, and there is a strong ancient atmosphere everywhere. This is an ancient energy belonging to the Tertiary Period.

Roar!

A fierce roar came, and it was seen that a huge ancient creature was eating flowers and trees on the plain.

Yes, this is a veterinary paleontology with a huge body. Some of the largest dinosaurs, brachiosaurus, confused dragons, diplodocus, triceratops and other herbivorous paleontology.

However, there are also more ferocious ancient creatures here, such as some Tyrannosaurus and Allosaurus, which are extremely huge and ferocious.

Qin Tiange stood high, looking at the four sides of the base, and some paleontology had a keen interest and vigilance on this huge base.

Especially those powerful and violent ancient creatures are hostile to the base. Killing could make them feel that there are a lot of delicious food in the base leader! “

Qin Tiange's figure fell, just to see Jiji coming with a group of high-level people, everyone on a newly built suspended platform, looking out at various strong horizontal ancient creatures.

“Did you find anything?” Qin Tiange looked at the high-ranking group and asked directly.

Here, however, the original system of Qin Tiange and the original high-level of the Shanghai base were merged into one unit.

Qin Tiange is actually not very familiar with the Pangu continent. He only knows that there is an ancient energy ore hidden here.

This kind of energy ore is not many, but it is extremely precious, because this kind of energy ore contains precious third-generation ancient energy, which can slowly transform the living beings, make blood veins return to ancestors, and genes return to ancestors.

“Leader, the ancient energy ore you want me to explore has been discovered by small exploration robots, and it is just below this base.”

Xun Ji whispered the news so that Qin Tiange's eyes brightened.

Chapter 596 - A stone, mass production of hydrogen bombs, antimatter weapons

“Leader, this is the ore ...”

Under the base, a few hundred meters deep, several mechs are digging, clearing a huge and empty space.

Qin Tiange came here with his uncle, and saw some ore piled up on the ground. The whole body was black and yellow, exuding an ancient atmosphere, emitting a wave of energy fluctuations.

This energy is the ancient energy that can make the creatures return to their ancestors. It has a wonderful effect. Once these energy are absorbed, the blood vein genes can be returned to their ancestors.

“An ancestor ...” Qin Tiange picked up a piece of yellow ore, the size of a fist, and the whole body was crystal clear, and there was a light of black yellow inside.

The energy ore like this has an extremely ancient origin. It is rumored to be a product of the energy veins of the Tertiary Period. Because the energy in it can make creatures return to their ancestors, they are called ancestral stones.

Ancestor stones are scarce on the Pangu continent. I do n't know if they are consumed clean. In short, there are not many such stones.

“How many ancestors were found in this vein?” Qin Tiange asked directly.

Xiji tilted his head and wondered, “Master, is this energy ore called ancestor?”

She continued: “According to the current exploration, it is estimated that there are only about 1,000 ancestors in the entire vein.”

“A thousand?” Qin Tiange frowned slightly, feeling too few.

According to his knowledge, a thousand ancestor stones are not enough to make an emperor-level bloodline return to ancestors, at most it is to complete one thousandth transformation.

If you want to completely transform into the ancestor gene, you must have a sufficient number of ancestor stones, at least 1 million ancestor stones are required to be worthy of being a second-generation ancestor.

As for the promotion of a great ancestor, there must be more ancestor stones, or the essence of the ancestors.

“Continue to find, be sure to find such large veins that hide a huge number of ancestors.” Qin Tiange directly ordered Yanji to send an exploration robot to continue the search.

He didn't believe that even on the huge Pangu continent, there was even a huge amount of ancestral stones stored in this area, which must be found.

Once the ancestors are found, in the future, China 's strongest promoted to the first emperor level will have the heritage to return to the ancestor genes, and when a few first-level ancestors master the scene.

As for the previous life, Qin Tiange had no idea at all whether he had an ancestor, or that he had never heard of an ancestor.

The things of the previous life are completely cut off here. Qin Tiange understands that it is now and everything in the previous life will be cut off completely.

“Master, it will be excavated in three days. All the ancestors will be cleared out. Then we will move to another place to find the ancestors.”

Xiji made plans to dig out the hidden ancestral stones here, and then relocated the base to other places with ancestor stones.

Qin Tiange nodded and instructed: “Are there any recent developments in the Ministry of Science and Technology?”

After hearing this, he opened a virtual screen and pointed at the information listed above.

“Look, master, this is the latest nuclear weapon development plan. The final truncation has been completed. The nuclear weapon has been miniaturized and extremely heated. It has completely eliminated the killing of nuclear radiation and turned to the latest generation of hydrogen bombs developed by destroying the enemy with high temperature. . “

When Qin Tiange heard the news, he saw a strange rocket on the screen, which was a shoulder-mounted rocket.

“How powerful?” He was most concerned about the issue.

I only listened to the introduction: “Master, this new generation of small-scale hydrogen bombs, no radiation, the use of ultra-temperature technology for explosion power, far beyond the ordinary hydrogen bomb, and the temperature within a hundred meters of the explosion circle is more than 100 times the central temperature of the sun.”

“Death force, three can directly kill the ten star powerhouse.” Ji Ji carefully said the test data of this group of tests.

Three small new-generation hydrogen bombs can kill a ten-star creature. This is data that has been tested without falsification.

Ten-star creatures have reached a certain level after this point. It is really difficult for a nuclear bomb to kill these creatures.

Because the maximum lethality of a general nuclear bomb is a momentary high temperature, followed by the shock wave and the final radiation, and because the launch speed is very slow, it usually does not hit the opponent at all, so it is difficult to kill these high-level creatures.

The new generation of hydrogen bombs is different. It is developed solely by nuclear weapons, which reduces the impact of explosions and radiation killing, and directly increases the temperature killing.

“Master, here is a set of data we tested, two ten-star dinosaurs ...”

I have released a video, which is a data video just tested the day before yesterday, recording the terrible lethality of this new generation of hydrogen bombs.

I saw a soldier wearing a nano-super ice crystal armor, carrying a launcher, and firing a hydrogen bomb at a ten-star creature several kilometers away.

boom!

There was a loud noise, accompanied by a super-horrible strong light burst, and then a scream came from the strong light. The ten-star dinosaur rushed out and was blown to the body by another hydrogen bomb that came on. Fly dozens of meters.

The scope of the hydrogen bomb explosion was only one hundred meters, and within a hundred meters, it was completely smoothed by the terrible high temperature, and even the sand and rocks melted on the spot.

It was a kind of super high-temperature killing. It had absolutely no other killing power. When the third hydrogen bomb exploded, the ten-star dinosaur was melted with a strong high temperature.

“Very good. Began mass production. Equipped with major artillery artillery units, be sure to use this hydrogen bomb as a conventional artillery shell. In addition, it must be equipped with a super hydrogen bomb of more than 5 million equivalents. The nuclear weapons routineization will be carried out directly.” Qin Tian Ge directly ordered.

This order is extremely horrible, and even the use of nuclear bombs as conventional weapons is to destroy the world?

“Master, I don’t think this is necessary.” I have different opinions.

“This kind of weapon is a transition,” she said. “If you want to kill the king and even the emperor, or even kill the first emperor-level creatures, you must have more advanced weapons.”

“I feel that the anti-material bomb we are currently developing is the development path of future super weapons, and nuclear weapons can be developed as another straight line.” I have given my opinion.

But Qin Tiange sighed and said, “I do n’t understand what you said, but you have to understand that we are running out of time. According to my guess, a large number of alien races are likely to have approached outside the solar system. This is a danger. signal of.”

“Without powerful conventional weapons, how can we wage a war? Unless you and the Ministry of Science and Technology can develop more powerful weapons in a short period of time, you must mass-produce these new-generation hydrogen bombs, and even develop me super Large-scale, I need powerful weapons that can destroy those emperors and emperor-level creatures. “Qin Tiange said firmly.

His own eyes flickered, and he lowered his head for a while to think, and suddenly said, “Master, in fact, the Ministry of Science and Technology has already extracted antimatter and has conducted an annihilation test of positive and antimatter, but ...”

She said hesitantly, explaining: “But those in the Ministry of Science and Technology believe that once an excessive amount of anti-matter bombs are made, the entire planet will be destroyed.”

“You don’t have to worry about this problem and tell them that to develop and manufacture anti-material bombs as a nuclear deterrent before the end, we need not only our own strength, but also a strong external deterrence force.” Qin Tiange didn’t care about this issue at all.

The mass of the earth has increased thousands of times, and it is still growing slowly. The nuclear bombs are not enough to destroy the earth, so nuclear bombs can already be used as conventional weapons for transformation and use.

As for the anti-matter bomb, a horrible weapon that only exists in theory, it is rumored that a little bit of anti-matter can completely disappear the entire earth.

That's a joke, how much material is the entire earth? How much is it? How much antimatter can you extract to destroy the earth?

If all 1g of antimatter is annihilated, its annihilation energy  $\Delta E = 2mc^2$  [and the mass of the positive matter annihilated by antimatter must also be 1g, so  $\Delta m = 2g$ ]  $\approx 2 \times 0.001\text{Kg} \times (3 \times 10^{10}\text{m/s})^2 = 180000000000\text{KJ}$

The 1KgTNT explosive explodes, and the energy it releases is about 4.2 million joules, which is 4200KJ. In other words, the energy produced by the complete annihilation of 1g of antimatter is equivalent to  $180000000000\text{KJ} \div 4200\text{KJ} / \text{Kg} \approx 42857.143\text{t}$ , that is, the complete annihilation of 1g of antimatter is equivalent to approximately 43,000 tons of T, N, T explosives.

Not to mention this amount, even if it is ten times and one hundred times more, don't want to blow up the earth, it is delusional.

Qin Tiange thought for a while and said, "Since antimatter has made new progress, you must develop a test bomb for me, and first extract 500g of antimatter as the initial type of antimatter bomb."

"Yes, understand my master!"

Ji Ji immediately took the lead and conveyed the new command of Supreme Leader Qin Tiange to develop conventional nuclear weapons and make the first anti-material bomb.

Suddenly, Qin Tiange's consciousness moved, and a clear and anxious voice came from the sea to make him frown slightly.

"Yanji, you go down first, I have something to deal with." Qin Tiange said suddenly.

I nodded, no more questions, left the ground, and went back busy. Watching her leave, Qin Tiange himself penetrated into the underground kilometer, hit a hole and sat cross-legged.

"what happened?"

Knowing the sea, Qin Tiange's will appeared, looking at the emperor's seal floating in front of him, and asked a little bit dissatisfied.

"Master, come and help me, I can't swallow the true spirit of the Emperor's Jade Seal." The imperative voice came from the seal of Emperor Huang.

Hearing this, Qin Tiange stunned: "Isn't the instrumental spirit of Tiandi Jade Seal swallowed up by you?"

"It's not the master, it's not the instrumental spirit, but the imprint of the true spirit of the first emperor, I can't swallow it." The human emperor's imprinted instrumental spirit said this.

Qin Tiange was so dangerous that he didn't vomit blood, and he was extremely speechless. You said that you were so greedy, and now you want to directly swallow the imprint of the true emperor in the emperor's jade?

Chapter 597 - Heaven Emperor Brand, 100,000 Ancient War Souls

In a gray world, Qin Tiange's figure emerged quietly and came to the space where the instrumental spirit inside the imperial seal was located.

It's like a chaotic world that hasn't been opened up. It's weird with gray gas everywhere, it's weird, but it makes Qin Tiange a little surprised.

"There are so many spiritual fluctuations, here it is ..." he murmured, and before he continued to sense, he saw a violent fluctuation ahead.

With a bang, the chaos gas exploded, revealing a huge figure, majestic and majestic, and the magnificent sky was covering the Three Realms.

It was a huge phantom, wearing a robe of emperor, full of brilliance, and a turbulent and unsettling space in the instrumental spirit space that was overwhelmed by the imperial seal.

"Master, come on!"

As soon as an exclamation came, I saw the Emperor's virtual shadow in front of him, and a graceful figure was suppressing the Emperor's virtual shadow.

This graceful figure was the instrumental spirit of the Emperor Seal. At the first sight of her, Qin Tiange's pupils shrank, because she felt a familiar taste.

He didn't think much about it. A flashing body came to Qi Ling, watching her painful suppression in front of the thousands of tall ghosts, her face was full of pain, and it was very difficult.

"Do you dare to swallow the first days of Heaven?"

Qin Tiange frowned secretly and said a word of dissatisfaction. He originally thought that when the emperor's jade was broken, the imprint would dissipate. He did not expect to be swallowed by the emperor's seal.

However, it seems that the instrumental spirit of the Emperor's Seal not only could not swallow the imprint of the first emperor, but could not suppress the other side, and it was likely to be swallowed in turn.

Of course, Qin Tiange knew that it was impossible. Even if the Emperor Yinji could not swallow each other, she could spit out the Emperor's imprint, but she was too greedy.

"Master ... please help me ..." Qi Ling said, looking at Qin Tiange pitifully, his eyes made him feel more familiar.

Qin Tiange squinted his eyes and looked at her. He didn't say that it was flawless, but the key is that his eyes made him feel familiar.

"Okay, if I didn't get some benefits this time in the forbidden area of Pangu, I might not be able to help you even, the first emperor was not so active." Qin Tiange could not help but agree.

After all, the imperial seal of the emperor allowed him to enter the forbidden area of Pangu, which was enough to allow Qin Tiange to promise her to destroy the first emperor's imprint.

"rise!"

With a loud shout, Qin Tiange's body armor was cracked, then his body swelled up, his muscles bulged, and his body was very tall.

Shizhang is really worth mentioning in front of Qianzhang's imprint of Tiandi, but Qin Tiange's breath is not weak at all.

“Power of Pangu, drive!”

Qin Tiange's eyes flickered with a gray light, and a vast ancient power poured out of his body. The blood of Pangu boiled, and the forces belonging to the Pangu tribe swept wildly.

With a loud bang, Qin Tiange rose into the air, and fisted his fist and smashed it directly. There was no trick at all, but the most brutal punch.

when!

The fist bombarded the Emperor's virtual shadow, and a loud noise came out, as if the sky bell was roaring, shaking the entire nothingness world.

I saw that the Emperor's imprint shuddered, and was shaken by a punched body, and ripples appeared, but it was not broken.

“The power of Pangu, Kaitian!”

The next moment, Qin Tiange was angry and shouted, pulled out the ancient sword and rose in the wind, the huge ancient sword condensed the power of the Pangu tribe generously, and cut it out with a sword.

A sword split, as if Pangu opened the sky, and a click, the emperor's imprinted shadow finally produced a crack, gradually spreading, and was finally split by a sword.

“Herald? Not ...”

The cracked Heaven Emperor spit out a few words, his closed eyes slowly opened, as if just waking up.

He glanced at Qin Tiange indifferently, his eyes lighted with endless indifference, high above him, overlooking the Three Realms.

“The first emperor?” Qin Tiange looked serious, staring at each other.

The two confronted each other like this, for a long time, the split Emperor's virtual shadow slowly merged, and spit out a sentence indifferently: “Is the Emperor Fei, but dares to challenge the Emperor Tianwei, is it the courage of the emperor to give you?”

“A stigma, do you think you are the first emperor of the year?” Qin Tiange was expressionless, not afraid.

He looked directly at the emperor in front of him, and said calmly: “Don't say that you are just a ghost. Even if you are the true first emperor returning, I dare to draw your sword.”

“Off!”

The Emperor Xingying gently killed him with a fingertip, and was pressed down by endless majesty, as if the heavens had fallen down, and Qin Tiange was to be killed.

“kill!”

As soon as the words fell, Qin Tiange held up his sword, Pangu’s blood boiled, the tendency to open the sky condensed, fiercely split the void, and a click, chopped Tiandi’s finger.

Then, Jianmang’s might remained undiminished, and once again split the body of the Emperor into two halves, but did not disappear.

“The power to open the sky?” The two halves of the Heavenly Emperor opened their mouths at the same time, and half of their bodies were able to speak at the same time. This has to be said that the imprint was a bit strange.

The Emperor Xingying’s body merged at once, and his eyes burst into two beams, staring at Qin Tiange, and murmured, “Isn’t the Pangu clan completely extinct, chaotic fragmentation, pangu extinction? Is there still a pangu clan in the world The aftermath of the? “

Qin Tiange listened to his murmur, his pupils shrank, and he looked at the ghost of the Emperor, and seemed to understand some of the secrets of the initial era. Unfortunately, he was just a brand.

“What about the Pangu tribe, alas, it can be destroyed just like that.”

Heaven Emperor Wuying was domineering, fell down with one palm, and pressed down severely towards Qin Tiange Gai, with a loud thump that engulfed him in nothingness.

Qin Tiange’s face was flushed with red muscles, his hands clenched against the palm of that emperor, and looked very strenuous.

In the early days of Emperor Tian, there was a branding of ghosts, but there was still such a mighty power that it was no wonder that the Emperor Seal could not suppress and devour each other.

“I am Pangu. Nothing in the world can hold me down.”

Suddenly, I saw Qin Tiange screaming in the sky, and there was a terror in his body, ancient and vast, like the rebirth of Pangu.

Everyone in the Pangu tribe is Pangu. Everyone has the will to open heaven and the unyielding will. Nothing can overpower the will of Pangu.

Qin Tiange roared, and within his body, Pangu’s blood was boiling and burning, turning into a gray imaginary image appearing behind him, holding the gray war sword directly to chop it up.

“cut!”

With a deep scream, the void was shattered. Then, the battle sword fell, and the Emperor’s Shadow was cut into pieces from beginning to end this time.

Boom, suddenly there was a strong suction on the void in all directions, and the broken Emperor’s imprint was swallowed one by one.

The imperial seal of the Emperor is blushing and full of scent, as if incarnate as a female emperor, and is about to return.

It was she who swallowed the emperor's imprint and gained a temperament and power that belonged to the first emperor, and gradually extinguished it.

"Thank you master!" Qi Lingqiao came forward, bowed respectfully.

Qin Tiange recovered, wearing a new set of armor, speechless in his heart, wondering if he had to break his clothes every time Pangu blood broke out?

"Master, this is a set of ancient battle armor. It is a treasure I collected. Now I give it to the master."

I saw that Qi Ling waved his hand and took off a set of black warframes from nothingness. The whole body exuded a simple atmosphere, but he could not see anything special, but had powerful ancient energy.

Qin Tiange was surprised, took it over, and wore it directly on his body, immediately feeling the extraordinariness of this set of armor.

"Okay, I like this set of armor." Qin Tiange looked happy, put on the armor and immediately knew all the capabilities of this set of ancient armor.

With it, Qin Tiange is most satisfied when his body grows bigger in the future. As for defense?

Don't make a joke, Qin Tiange's current physical defense is better than any armor.

"You swallowed the emperor's imprint, and you have resentment with the first emperor. It seems that there will be another terrible enemy in the future." Qin Tiange said quietly.

He thought for a while and asked, "Yes, what do I call you?"

Qi Ling lowered his head and said a little embarrassedly, "Master, you can call me Linger."

Qin Tiange nodded, not paying attention to his real name, and only asked: "I feel a lot of soul fluctuations here, tell me what it is?"

He said, staring at Linger with her eyes, she flashed her eyes and explained in a low voice: "Master, in fact, these are the guards around the first-generation tribal emperor. After the death, the thoughts turned into ancient war spirits and became attached to the seal of the emperor, becoming an alternative war spirit. "

"An alternative ancient battle soul?" Qin Tiange's eyes flickered, and his heart was startled.

He looked at some dodging instrumental spirits and asked, "Tell me, what are the functions and abilities of these ancient war spirits?"

I saw Linger said in a crisp voice: "Master, these ancient war spirits are immortal. They have no self-consciousness. They only know that if they are killed, they can be resurrected in the emperor's jade.

“But once you die, you must reunite the soul, which is the weakest soul, only two stars.” Qi Ling’s words made Qin Tiange feel shocked and happy, but a little disappointed.

How useful is the two-star ancient war soul? Qin Tiange smiled bitterly in his heart, and said, “These ancient war spirits are so weak. What is the use?”

“Master, they can grow, as long as their soul power is enough, they will continue to improve and break through.” Qi Ling introduced seriously.

She said: “A total of 100,000 ancient war spirits here are the most powerful war spirits left by the emperor of the first generation.

“Soul power?” Qin Tiange listened, his eyes gradually lightened.

He glanced at Qi Lingling and suddenly asked: “Tell me, why do you feel so familiar to me, have we ever met?”

As soon as this word came out, Qi Ling was silent, and his heart was very tangled, because Qin Tiange guessed well, in fact, he had seen each other for a long time.

“Master, we have met a few times ...” Linger looked up and looked at Qin Tiange seriously.

After listening to her confession, Qin Tiange already understood why he felt very familiar when he saw Linger. It turned out to be the other party he had already seen.

“That’s it!” Qin Tiange understood, looking at Linger’s eyes a bit complicated, and couldn’t help sighing.

“Take me to see the 100,000 ancient war spirits!”

Qin Tiange said, let Qi Ling directly take him to the area where 100,000 ancient war spirits are located, and see what these so-called ancient war spirits look like?

Chapter 598 - Enter the restricted area, push sideways

Soul Eater Forbidden Zone, all creatures will die if they step into it. This is the Soul Forbidden Zone, which contains endless evil spirits.

Huh!

Outside the restricted area, a figure quietly emerged, quietly looking at the dark and dark area in front of him, full of ghosts and flames, completely covered in ghosts.

“Did the ghost ancestors in the restricted area enter the Pangu world?”

Qin Tiange quietly watched the Soul Eater forbidden zone, and sensed carefully, guessing whether the ghost ancestors had entered the Pangu world?

He came here naturally for the 100,000 ancient war spirits in the seal of the emperor. This is a powerful ancient war spirit left over from the first era, immortal, immortal, and immortal.

These ancient war spirits currently only have the two-star level. They are the lowest ancient war spirits. Once they die, they will be resurrected from the seal of the Emperor, but their strength will be exhausted and they will return to the two-star level again.

However, once the ancient war spirit has grown and reached the ten-star level, it can gradually transform from the soul and derive a brand new body. This is enough to impress Qin Tiange, thinking whether to cultivate the 100,000 ancient war spirit come out?

These ancient war souls once grew to a horrible level. Once cultivated, they reached their heyday, and Qin Tiange felt a little palpitated.

One hundred thousand ancestors, or a more powerful level, are unknown, but he knows that cultivating one hundred thousand ancient war spirits now has an extremely important role in growing up.

“Come on, kill me.”

Qin Tiange took out the human emperor’s seal and hung it over his head, and then stepped into the soul-swallowing restricted area. Instantly, endless yin swept across.

Oh oh ...

As soon as I entered the room, I saw a cry of ghosts coming forward, as if countless grieving spirits were screaming and mourning, and the voice was irritating.

Qin Tiange was expressionless, stepping into the soul-swallowing restricted area step by step, walking towards the evil spirit.

“kill!”

A palm shot, a loud bang, a large group of flying spirits in front of it exploded on the spot, dropping black soul beads.

Qin Tiange’s figure flickered into the air, rushed directly into the evil spirit group, swept across, and killed thousands of evil spirits.

These evil spirits are very weak and can not form resistance at all. Even if the number is not useful, soon, the soul beads on the ground are absorbed by the emperor’s seal.

Oh oh ...

In the restricted area, endless resentment spirits fluttered, evil spirits roared, and continued to surge towards Qin Tiange without any consciousness at all.

But no matter how many evil spirits pour out, Qin Tiange kills no one, leaving no one.

boom!

When Qin Tiange gently pinched an eight-star evil spirit, he saw the voice of the instrumental spirit in the seal of the Emperor.

“Master, the 100,000 ancient war spirits have reached five stars and can recover a little combat power.”

Listening to this, Qin Tiange’s eyes were cleared. He didn’t know how many evil spirits he killed, and finally the 100,000 ancient war spirit in the seal of the emperor was restored to five stars.

“Come out, let me see, how strong are you guys?” Qin Tiange picked up Ren Huangyin and threw it forward, and he saw a splendor of light.

A bang, a neat square array appeared in front of him, and 100,000 ancient war spirits in ancient armor appeared in the restricted area.

“kill!”

Qin Tiange’s long sword pointed directly at the restricted area. Suddenly, the hundred thousand ancient war spirits were uniform and fast. They even rushed into the area.

He saw that there were countless evil spirits gathering there, flying from sky to sky, ranging from five-star, eight-star, nine-star and even ten-star.

These evil spirits, who do n’t know where to get the soul energy, can ascend so fast. This makes Qin Tiange very curious and wants to find out the secret of this soul-eating restricted area.

Bang ...

Uh ... ohh ...

One hundred thousand ancient war spirits ran into it, and at the same time, countless grieving spirits mourned, even being smashed and devoured by these unconscious ancient war spirits who only knew to kill.

Yes, there are hundreds of thousands of ancient war spirits, wielding the ancient war soldiers, hacking all the way, no evil spirit can stop their footsteps.

That neat pace, like a whole, makes people feel that the soul of 100,000 ancient wars is totally a whole, and the power that erupts is earth-shattering.

“Awesome!”

Qin Tiange’s pupils were brightened, watching the dense evil spirits in front of him crushed and devoured by the hundred thousand ancient souls. All the grieving spirits had no resistance.

One hundred thousand ancient war souls, as if born by these evil spirits, continue to advance, slaying and devouring, and then continue to slaying and devouring.

boom!

The restricted area rioted, and a greater number of evil spirits poured out inside it. Powerful grievances began to gather, and a large number of nine-star grievances gathered to form a huge battlefield.

This is an evil spirit ghost formation, composed of countless resentment spirits. It seems to be under some control, and the powerful evil spirits are already aware.

“Interesting.” Qin Tiange saw the countless evil spirits that formed the ghost formation. A ghost formation side surrounded the 100,000 ancient war spirit groups and began to siege.

Rumble ...

The battle was staged, and ten million-strong ghost arrays drowned 100,000 ancient war spirits, and the traces of ancient war spirits were completely invisible.

Qin Tiange floated in the air, watching quietly, without going to help, but wanted to see if the 100,000 ancient war spirits could defeat this tens of millions of grudges and evils?

Oh oh ...

“Kill kill kill!”

The resentment was soaring, the ghosts were full of horror, and a horrible shouting and killing sound shook the sky, causing a violent shock in the restricted area.

Tens of thousands of evil spirits fought madly, forming a ghost array, crushing the hundred thousand ancient war souls, but a thrilling scene appeared.

boom!

With a loud noise, countless resentment spirits were blown up, and a neat square array was seen. One hundred thousand ancient war spirits killed the ghost array together, and a million ghost arrays were penetrated on the spot.

Immediately afterwards, this is the instinct of the ancient war spirit, turning around and killing it back, once and again, killing millions of ghosts in the ghost array crying.

The ancient war spirit, facing these evil spirits and evil spirits, is the spirit of killing more and more, and the more powerful the battle is, finally crushing and crushing the millions of ghosts and killing the millions of ghosts inside.

“Kill, kill!”

The evil spirits shouted, the evil spirits roared, and the remaining millions of evil spirits went mad. They all rushed together to tear up these ancient war spirits.

These evil spirits have a feeling. As long as these ancient war spirits are torn up and devoured, then they will get a wonderful evolution, and it is unknown what evolution.

Anyway, 100,000 ancient war spirits appeared in the restricted area, and naturally attracted countless resentment spirits from all directions, unconsciously trying to devour 100,000 ancient war spirits.

Qin Tiange watched quietly without interfering, because he sensed that the breath of 100,000 ancient war souls became more and more powerful and arrogant. He was soaring to the sky, shattered countless evil spirits, and swallowed the soul beads.

Starting from the first two-star, it has soared all the way, breaking through one level after another, as if the soul power is enough, breaking through is as simple as eating and drinking.

This is the strength of the ancient war spirits. They were very tyrannical before their death. After death, the war spirits followed the first-generation tribal emperor, conquered the Quartet, and became more terrifying.

Seven stars ... eight stars ... nine stars ...

Finally, when 100,000 ancient war spirits were killed among millions of evil spirits, they have been upgraded to nine stars overall, which is incredible.

Even Qin Tiange was shocked to see that it was the ancient war soul that was directly crushed and could not be blocked by any evil spirit.

“See my queen!”

Suddenly, one hundred thousand ancient war spirits came, and they bowed uniformly on one knee, the sound of rattle shook through all directions, and one roar revealed the endless evil spirit, killing and cutting for nine days.

One hundred thousand ancient war spirits have even reborn a brand new consciousness, and their consciousness has been restored as the level rises.

Yes, consciousness is restored, but there is no corresponding memory. It is completely blank, just like a newborn baby who only recognizes the person holding the seal of the emperor.

“Please, everyone!”

Qin Tiange gently raised his hand, and saw the 100,000 ancient war spirits standing up in unison, all without squinting, looking at him quietly, with a loyalty in his eyes, as if not afraid of death, this is True loyal, only loyal to the emperor of the human race.

Now, they have identified Qin Tiange as the contemporary emperor, because he holds the seal of the emperor, which is enough to conquer these hundred thousand ancient war spirits.

There is nothing more direct than this. The ancient war spirits have just born their consciousness, and each of them is like a newborn baby. If properly cultivated, it will be an outrageous card in the future.

“Generals, follow me into the restricted area.”

Suddenly, Qin Tiange pulled out the ancient sword, and Jian Feng pointed directly at the core of the restricted area, bursting out with anger and sweeping out.

“Follow my emperor and set foot in the restricted area!” With a bang, the hundred thousand ancient war spirits roared together, waving the soldiers, keeping up with Qin Tiange’s pace, and for a while he was so angry.

The restricted area was boiling, and countless evil spirits were shocked by this horrible evil spirit, and one after another, some powerful ghost kings appeared.

“Fighting spirit?”

A ghost king came out of the sky, rolling in the wild ghost fire, causing Sensen, watching the hundred thousand fighting spirits appearing here, all with agitation.

The fighting soul is a special existence. Once swallowing these fighting souls, it is bound to condense a mystery of immortality of the soul, and comprehension is equivalent to having an undead soul.

“Swallow these war spirits!”

One ghost king after another appeared With more than thirty ghost kings, led by a dense crowd of evil spirits and fierce ghosts, rushed wildly.

Here, I saw more than thirty ghost kings killing with infinite fierce ghosts, Qin Tiange's expressionless face, the ancient sword waved gently, and the hundred thousand ancient war spirits rushed out behind him.

A loud bang came, and the 100,000 ancient war spirits ran directly into it, crushing them all the way, slaying countless grieving spirits, nine-stars, directly chopping down the ten-star evil spirits, swallowing them clean.

Even in the face of those powerful ghost kings, the 100,000 ancient war spirits can still cope with it, and even an ancient battle formation besieged more than thirty ghost kings.

“No time to grind with you ...”

Seeing more than thirty ghost kings appearing, Qin Tiange moved, and stretched out a hand to grab one of the ghost kings with a vacant grip.

“Ah ...” A ghost king screamed in horror, his body was crushed by an inexplicable force, and he was crushed on the spot.

Bang, a ghost king was pinched to death, flesh and blood fluttered, and the remaining ghost king was awakened, only to find the existence of Qin Tiange.

Chapter 599 - The battle flags are all my emperor's territory!

“Damn, is he?”

When the ghost king was scared, he saw Qin Tiange's existence and naturally recognized him. It was the last time he came to the penalty area to almost kill a ghost emperor.

Now I saw him running to the restricted area, and he was almost scared to death. More than thirty ghost kings, all of them huge, had gathered the ghosts and had flesh and blood.

“run!”

Without any hesitation, several ghost kings who had seen Qin Tiange's prestige turned away without a word, wanting to run into the core of the restricted area.

But will Qin Tiange let them escape? Moreover, it is not so easy to think of being trapped in the ancient battle array by the ancient war spirit of 100,000.

“kill!”

As soon as Qin Tiange screamed, he saw 100,000 ancient war spirits turning together, turning into a horrifying strangulation machine, trapping more than thirty ghost kings in the battlefield in the battlefield.

Suddenly, a ghost king accidentally cut off his body with thousands of war spirits and flew flesh, so that these ancient war spirits were bathed in the powerful ghost king's flesh, and the breath became more fierce.

“Master, if you can find the drums of war, one hundred thousand war spirits could be stronger.”

At this time, the voice of Linger came from the seal of the emperor, reminding Qin Tiange that if he could find the ancient war drums of the human race, he would definitely make the hundred thousand war spirits stronger.

Drums of war belong to an ancient type of warfare. Generally speaking, war drums throb, which can increase the morale of the army and even erupt an endless force.

The war drum referred to by Linger is a kind of war drum with mysterious power. Once throbbed, the soldiers in the entire battle array will change inexplicably, and the power will increase greatly.

Qin Tiange nodded, and suddenly asked, "Tell me, were you in the assessment task space?"

Qi Ling was silent for a long time before he chuckled: "Master, that Cangshan family, Yun Ying is me, that is my first time to test my master."

"The second time, Qin Ji is me" Linger's voice was weird.

Qin Tiange shook his face, and his heart was stunned. No wonder Linger's eyes were somewhat familiar. It turned out to be the daughter of the chief of the Cangshan tribe who had given her a name.

As for the second time, Qin Tiange was speechless because Qin Ji, the imperial princess, was also played by the Emperor.

He suddenly thought of asking: "It means, in fact, that Pangujie was opened by you and Beiling, and you deliberately led me in?"

"No, master, no one in Pangu can open it." Qi Ling explained.

She said: "In fact, it was because Sister Bei Ling sensed that Pangujie was about to be born, so she let me enter in advance, and then attracted the host to go."

"In other words, did you finally refuse me to enter the assessment?" Qin Tiange squinted his eyes and stared at the imperial seal floating in front of him.

Qi Ling was silent, and after a long time, he said quietly, "Master, there is no difficulty in entering the assessment based on your ability, and Sister Bei Ling has nothing better as a reward."

"The ancient swords, \*\*\*\* bows, clan movements, and blue blood clan artifacts are actually hidden in the quest space as a reward from Sister Bei Ling. They can be obtained by virtue of personal opportunities, including me, which also exist in the quest world, but you missed A chance. "Qi Ling said, seemingly playful.

After listening to Qin Tiange for a while, did he see the Emperor Yin? If you think about it, he suddenly understood that when he helped Qin Ji restore the country, he once saw the Imperial Jade Seal. At that time, he didn't care about it. He did not expect that it was the seal of the emperor and missed it.

If Qin Tian Gordon was on the throne, he might get the jade seal, which is the seal of the emperor, but he didn't, but pushed Qin Ji directly.

"Hehe" Qin Tiange smiled and stopped thinking.

The evaluation of the imperial seal and the inheritance stele is to select a candidate, and one of them is rejected for assessment, and the other is that there are not many treasures of the inheritance stele.

Do n't believe it, according to the instrumental spirit of the Emperor 's Seal, the inheritance has been opened three times, but after each opening, it takes the heritage of the past generations to accumulate. In this era, all generations The heritage is already almost spent.

This is the clan emperor of the previous era remembering whether to leave something for the next generation, so there are a lot of good things, otherwise, it may be consumed by each clan emperor.

“what”

Finally, a ghost king could not bear it in the battlefield, and was torn by countless ancient war spirits, and his body was turned into flesh and blood fragments, allowing the ancient war spirits to devour and absorb.

“Damn, why are these war spirits so powerful?”

A ghost king shouted, his strength broke out, and the ancient war souls besieged and besieged, but soon they were blocked by the surging ancient war souls.

These ancient battle souls, as a whole, the power that struck them was completely dispersed to the one hundred thousand battle souls and could not be killed at all.

Click!

Not long after, one ghost king was crushed by the 100,000 ancient war spirits, killing more than 30 ghost kings with powerful ancient battle formations, the flesh and blood flew, and the 100,000 war spirits were absorbed and devoured madly, and the body gradually began to emerge A hint of flesh.

“Ten stars.” Qin Tiange moved his mind, watching these ancient war spirits, is about to break through the ten stars.

Seeing this, he didn't hesitate to reach out and grabbed directly, a loud noise, countless ghosts and ghosts collapsed, and soul beads poured into the ancient battle array and were absorbed by the hundred thousand ancient battle spirits.

boom!

Suddenly, a hundred thousand ancient war spirits exploded together with a horrible evil spirit, and the body was stunned, and it became a solid entity.

Gradually, these ancient war spirits spawned flesh and blood, a new flesh and blood body, giving them a powerful flesh to protect the soul.

How strong the soul and how strong the flesh is, this is the terror of the ancient war spirit.

“Master, that ghost emperor has come out.”

Suddenly, Qi Ling came to remind him that when Qin Tiange looked up, he saw a terror in the core area of the restricted area.

Suddenly, a ghost emperor appeared, looking at the hundred thousand ancient war spirits who swept the evil spirits in the restricted area, his eyes widened, he couldn't believe it.

“An ancient war spirit of human race?”

“The Emperor’s Undead Guard?”

This ghost emperor looked at it with a staring look, and looked at the hundred thousand ancient war spirits in horror. Naturally, he heard of this immortal guard who belonged to the tribal emperor.

At this moment, all the emperor’s undead guards have appeared. Doesn’t it mean that the clan emperor of the human race is born?

He looked up instantly and saw Qin Tiange over here, frightened and almost collapsed.

“It’s him?”

“People’s Seal, how is that possible?”

The ghost emperor was so frightened, he screamed, and stared at Qin Tiange in wonder, thinking in his heart that he was the emperor of this generation?

In addition, someone’s imperial seal represents everything, and perhaps Qin Tiange is a candidate for this generation of clan emperors.

As for why, because the seal of the emperor was incomplete, she was broken, and other fragments were at the birthplace of some other ethnic groups.

“Run!” The ghost emperor turned directly, burst into the restricted area and ran straight.

He didn’t dare to stay at all. He almost died in Qin Tiange’s hands the last time. This time he saw the other side seemed even more horrified.

This scared the ghost emperor and ran straight, but he was too late to run.

“Want to run, late!” Qin Tiange sneered, reaching out into the void.

With a click, the space in front of the ghost emperor shattered, and a hand stretched out, pinching his neck and dragging directly into the space.

When he reappeared, he found in horror that he had been caught in front of Qin Tiange, the fingers on his neck were fastened, and a mysterious force poured into his body to imprison him.

“The Emperor Rao Ming” just opened his mouth and begged for mercy, but was crushed by the influx of forces, and was pinched to death on the spot by Qin Tiange.

This ghost emperor let him run away the previous time, but this time it reappeared but fell to his hands. I have to say that this ghost emperor was a bit unlucky.

After killing this ghost emperor, flesh and blood was beaten into the battlefield of 100,000 ancient war spirits, which inspired the evil spirit of ancient war spirits to be more intense.

As for the emperor-level soul bead, it was put away by Qin Tiange. He thought, would you give your woman some background to grow?

“Go, push across the restricted area!”

Qin Tiange took a step and instantly stepped into the core area of the restricted area. The sky was flying and the wind swept away, and the entire desert became a ghost.

In the core of the restricted area, there was a dark and horrible atmosphere. In the darkness, ghostly fires fluttered and swayed, giving off a cold air.

Oh oh

When the cry of ghosts came, they saw a powerful group of evil spirits gathered together, forming a huge formation.

“Ghost” Qin Tiange looked coldly, looking at the core of the restricted area, and there were even more buildings, like a deadly city.

In these cities, the collapsed houses and the ruins of the city were occupied by these evil spirits without exception.

“kill!”

There was hardly any hesitation. Qin Tiange’s ancient sword sharpened his fingers, and the 100,000 ancient war spirits struck out and strove forward, as if nothing could stop their footsteps.

“Kill! Kill! Kill!”

Hundreds of thousands of ancient battle spirits, roaring all together, an ancient battle flag was erected, and a flying red character was written on the fluttering flag, man!

people!

Herringbone crickets, through the slaughter and cutting, after completing the physical derivative of the 100,000 ancient war spirits, they seem to have experienced a rebirth, restored some memories, and directly hung a human war flag.

“The battle flags passed are all my empire!”

With a swift drink, I saw an extremely burly general in the hundred thousand ancient war spirits, holding a simple warfare into it, and a huge battle flag flying behind him.

“Take the penalty zone!”

“kill!”

The 100,000 ancient war spirits have fully awakened and awakened part of the ancient memories. Of course, it is not the ancient war spirits before, but the inheritance of ancient memories.

With this inheritance, the fighting power of the 100,000 ancient war spirits skyrocketed, crushing it directly and rushing into the core of the restricted area, as if vowing to set foot in this restricted area.

“Human War Banner?”

“The Emperor’s Immortal Guard?”

In the restricted area, with the invasion of 100,000 ancient war spirits, many powerful ghost kings, even some ghost emperors, and even the ghost emperor opened their sleepy eyes.

When you saw that \*\*\*\* battle flag, the imperious ghost emperor in the restricted area couldn't sit still.

Chapter 600 - Killed in the restricted area

“Human, are you so arrogant that you are not afraid of falling?”

In the restricted area, an evil ghost emperor emerged, surrounded by seven fierce evil spirits, known as the seven evil spirit emperors.

The fierce body was sweeping, rumbling and shaking the world, causing all the ghosts to cry, shaking the earth, and many survivors closest to the restricted area heard it.

“what sound?”

“too horrible!”

Not far from the restricted area, some survivors looked horrified, and heard countless ghosts mourning, as if from ghosts in Hell.

Anyone who hears this kind of fierce ghost growling, without exception, is pale and frightened, and is not consciously afraid.

“Look, what's that?” Suddenly someone pointed in the direction of the restricted area, where there was so black, a horrible shadow emerged, which was the Qisha Ghost Emperor.

Alas ... Qisha suddenly screamed, waving two ghost hands and slamming a silhouette before the sky, but was smashed out by that little silhouette.

There was a loud bang, soaring into the sky in the restricted area, and the ghosts were scattered, revealing the body of the ghost emperor, which was miserable.

He was photographed with a single palm, his body was raging, his blood was bleeding, and he looked miserable, making many ghost emperors who had just woke up dumbfounded.

Grunt!

“Is that a leader?”

Outside the restricted area, many people saw Qin Tiange's trace and saw him slap flying a horrible ghost emperor.

In particular, those who knew Qin Tiange, the current leader, without exception, were stunned looking at the direction of the restricted area, and, with the involuntary mobilization of nano-satellites, came directly to a live broadcast.

Suddenly, the entire territory of China was boiling, and countless people were shocked. They all cheered as Qin Tiange, the leader, flew a ghost emperor.

“Kill, set foot in the penalty zone!”

With a finger at Qin Tiange's ancient sword, a hundred thousand ancient war spirits rushed across ten miles in an instant, crushing countless fierce ghosts and spirits, killing in the restricted area and shaking, the ghost king shuddered.

One hundred thousand ancient war souls crushed all the way, pushing hundreds of miles across, I don't know how many evil spirits and ghosts have been killed, but I didn't see a ghost king dare to come out and stop.

They were scared, watching the Qisha Ghost Emperor being slapped down by Qin Tiange, now still lying there, unable to move, looking frightened, waiting for the next fate.

“Qi Sha was photographed with one palm?”

“Why is this man so arrogant?”

At the core of the restricted area, all the powerful breaths awakened. They are all the most powerful group of first emperor spirits in the soul-stricken restricted area.

Each fierce evil spirit exudes the first emperor's breath, found from the places where they slept, and looked at Qin Tiange in the restricted area.

He was fighting after 100,000 ancient battle spirits, but anyone who dared to run out and block the battle spirits was slapped to death by Qin Tiange.

“My ancestors rescued me ...” The ghost emperor finally calmed down, screaming violently, the world shivered, and all ghosts were shocked.

Humph!

Qin Tiange snorted coldly, “Even if the ghost ancestor came out, he couldn't save you.”

As soon as the voice fell, I heard a click. The ghost emperor's body shattered into pieces, and the flesh was swallowed up by the hundred thousand battle spirits, leaving only a dark emperor-level soul bead.

Listening to the howl before the death of the ghost emperor, even those who watched the live broadcast in several times could not help shaking, the power of the ghost emperor was too scary.

The first imperial power is generally difficult for strong men under ten stars, and ten stars are blown away in one breath, not to mention the imperious ghost emperor.

“too horrible!”

“Is that the first emperor?”

“The leader can shoot the first emperor?”

For a while, in Huaxia, countless people were silent, staring at the sky over the restricted area, and led Qin Tiange, who pushed 100,000 ancient war spirits across the restricted area.

Suddenly, inside Huaxia, everyone had a thought in their hearts that the leader was invincible.

Never thought that this new leader had such a terrible fighting power, and he directly pushed the 100,000 strong horizontal war spirits, then directly pushed the restricted area, and the ghost emperor could not stop it.

At this moment, Qin Tiange's prestige is in the midst of China, and no one can match it. Its powerful and invincible image directly impresses people's hearts, and no one dares to give birth to a slight heart.

Even those heroes who had just become kings were silent, watching Qin Tiange's invincible heroine, shaking his head one by one with a bitter smile, extinguishing the thought of competing with the leader. []

There is no way, when you are so strong that others cannot catch up, you can only look up, all conspiracy and scheming will disappear, and you will naturally be in awe and support from the bottom of your heart.

“Human, you’ve done too much.”

Watching the 100,000 ancient war spirits pushing across the restricted area, it seemed that they would enter the core area. Finally, the ten ghost emperors couldn't sit still, and could not bear it.

They don't believe that Qin Tiange can cope with the ten ghost emperors at the same time. If so, then escape directly.

Looking at the ten ghost emperors that appeared in front of him, Qin Tiange's mouth slightly tilted, and he murmured, “Finally, I was willing to run out, thinking you were afraid to die.”

“court death!”

“Arrogance!”

The Ten Great Ghost Emperors were angered and angered by Qin Tiange's remarks. They had never seen such a arrogant and arrogant people.

“Let's go together, kill him!”

One of the ghost emperors drank swiftly and took the lead in raising a problem. A gust of ghost fire burst into his brow, then turned into a long and stern ghost gun.

Hum!

The ten great emperors joined forces to directly obliterate Qin Tiange, the terror force rolled over, completely shrouded in a radius of ten kilometers, and formed a Jedi.

In the face of the top ten ghost emperors joining forces to kill and kill, Qin Tiange looked calmly, waving his fist, and directly took the initiative to face it.

boom!

As soon as the boxing came out, the ghosts disintegrated, and he saw a ghost emperor's arms twisted and inexplicably discounted. His powerful boxing force destroyed his body a little, his bones were cracked and almost killed.

“Ah ... go to die!” Li Xiao came from behind, with a ghost attack.

Qin Tiange turned around and punched a sharp ghost gun in the middle, and a crunchy crunch came, the violent ghost gun was directly broken by his fist, and it was scattered into pieces.

The ghost emperor was sluggish, and it was too late to retreat. Qin Tiange punched through his heart, and his powerful body shredded his ghost.

“kill!”

Qin Tiange vacated the sky, and when he took a picture, he saw a ghost emperor holding up his sword in front of him in a panic.

I didn't see the wind, and I hacked all the way to the ghost emperor's head. Immediately it bloomed, blood and water sprayed dozens of meters across, and the whole head was almost split in half.

“Well ... he's too strong to be the first ancestor. Hurry up.”

A wounded ghost emperor was terrified and shouted, turned around and ran, and directly drilled into the core of the restricted area, afraid to fight.

The other ghost emperors saw that the situation was not good, and immediately turned around and fled. There was no way. The three ghost emperors were severely damaged just after they met, and they will definitely be killed by the other one.

“Want to leave and stay!”

Qin Tiange snorted, disappeared step by step, caught up with a ghost emperor, raised his hand to pierce the opponent's body, and dug out a dark soul ball.

flutter!

In the distance, another ghost emperor had a stiff body and was pierced by a figure from the back. His soul bead was dug out on the spot. The body collapsed into a powder and disappeared.

“Run away!”

Seeing this scene, in the core of the restricted area, the other ghost kings, emperors, and even the emperor who watched were frightened, and they were horrified and retreated directly into the core area of the restricted area.

Even other evil spirits retreated quickly. The dense evil spirits and ghosts receded like a tide, and the sky and the sky quickly contracted, and the restricted area was shrinking.

boom!

“what...”

Another ghost emperor was about to run back to the core of the restricted area, but Qin Tiange, who was caught up, was slashed with one palm, leaving only one head, and he dug out the soul crystal.

One by one the tyrannical ghost emperor died in the hands of Qin Tiange, let alone the countless fierce ghosts in the penalty area, terrified, and the countless survivors of Huaxia were stunned.

The leaders are too sturdy and powerful, and they are invincible in their opinion.

Only Qin Tiange knows best. He is not invincible, but can crush these emperors, first emperors, and even half-ancestors at this stage.

As for the ancestor class, he believes that he will not bombard each other as easily as now. The ancestor has the powerful ability of the ancestor, which belongs to the ancient genetic power.

Of course, Qin Tiange is not afraid of any ancestors, because he has initially awakened the genetic power of Pangu's blood, which belongs to Pangu's power.

Click!

The figure flashed, and another ghost emperor fell into the restricted area, spilling the blood of the ghosts of the sky, so that the hundred thousand ancient war spirits were bathed in the flesh and blood of the first emperor, becoming more and more powerful and horrible.

He killed five first emperor-level ghosts, and finally, the remaining five ghost emperors ran into the core of the penalty area and rolled back.

Looking at the narrow range of the restricted area, Qin Tiange could not help frowning, but did not have the imaginary joy, but had a heavy meaning.

“The Emperor Ghost is just an appetizer, half-ancestors, the first ancestors are the dinner ...”

Qin Tiange murmured, staring at the shrinking restricted area, countless ghostly backwards, curled back like a tide.

Inside, the dense ghosts and ghosts all roared and uttered a terrifying mournful sound.

Wow! Wow! Wow ...

At this time, the hundred thousand ancient war spirits were neatly striding forward, singing and advancing swiftly, pushing all the way to the countless evil spirits in the restricted area, cutting and killing countless times, it is not clear how many evil spirits were killed.

Rumble ...

A rumbling sound came from The parties in the restricted area quickly contracted, black gas surged, becoming richer and more terrible, and there were a huge number of evil spirits gathering in it.

There is also a king-level evil spirit who is leading the team, and the emperor level is leading a group of kings and controls countless evil spirit teams.

As for the ghost emperors, except for the five ghost emperors who fled back, the ghost emperors inside were silently lurking, and no one dared to act rashly.

“Damn, my ancestors are not here, can we let this tribe settle our soul-eating restricted area?”

A ghost emperor reluctantly roared, his heart was strangely angry, but he didn't dare to act rashly, because once he moved, he was totally out of action.

And they watched Qin Tiange lead the 100,000 ancient war spirits into the core area, and finally, these ghost emperors realized that this would not work.

“Go, retreat into the ghost gate, and wait for the ancestors to return from Pangu World.”

“Back, back!”

Finally, countless resentment spirits in the restricted area receded, and quickly retreated into the so-called ghost gate under the leadership of a group of ghost emperors and ghost emperors.
