

Dark Ages 61

Chapter 61 - Full load of zombies

boom!

In front of the car door, Qin Tiange chopped down a zombie, raised his foot fiercely, kicked and flew one of them, then squatted down with his sharp, wide-bladed knife pointed straight into the top of the plug, piercing a zombie that came up.

Roar ... there are more than a hundred zombies in the carriage. These zombies were originally passengers in this carriage. Unfortunately, the doomsday came suddenly, and many people in the carriage turned into zombies. Then, many people were bitten. After the zombies, I didn't have to run.

Qin Tiange swipes across the board with a swipe, the black blood squirts three feet in front, a cricket's head rolls down, and it is trampled by rushing zombies.

"Brother Qin, here we are!"

At this time, two people jumped in outside the door, holding the steel shield, and immediately pulled out the steel knife behind him, rushing up and slashing.

Following Qin Tiange, there were eight boys, one by one rushing out of the steel knife, pressed against the steel shield, the steel knife waved, his head rolled down.

In the tenth carriage, the doors on both sides were opened, and several boys rushed in to join the hunting operation. One by one, they slashed the zombies in the carriage, blasted with black blood, and splashed all over the carriage.

Roar!

The corpses snarled, opened their teeth and claws, looking extremely terrifying. Unfortunately, Qin Tiange and others are even more terrible. There must be a zombie head moving between the wielding of the steel knife, or being beaten up.

Zombies were hacked and killed. In the small compartments, those zombies could not carry out much activities at all. They could only rush up together, but they were cleanly and cleanly chopped.

More than a hundred zombies were quickly killed by Qin Tiange's beheading, leaving only one place of corpses and heads full of cars.

Click!

He smashed a zombie's head lying on the seat. Qin Tiange looked at the whole compartment and found that all the zombies had been killed.

Careful inspection, even the toilet of this car was not overlooked, and after finding no missing zombies, several people threw the corpse's head and other things out of the car.

"Get ready, clean up the next carriage, everyone must come together as soon as possible."

I glanced at the locked doors on both sides of the carriage, Qin Tiange said what he planned to do to clear the zombies on the train.

First, starting from the eleventh carriage, Qin Tiange took eight boys to the doorway to the eleventh carriage.

Click ...

Xun pried open the door with a knife, Qin Tiange opened the door, and a group of zombies swayed in front of him.

Roar!

I suddenly saw a live person appear, and the corpses rioted immediately. There were hundreds of zombies in the eleven carriages, and they were squeezed densely in the carriage.

Without any hesitation, he brought the knife forward, and cut off the head of one of the beautiful women wearing **** flight attendant costumes. Immediately afterwards, the eight boys raised their shields and smashed them hard. The steel knife slashed them. For a while, the flesh flew and splashed on the glass of the carriage, giving off a foul smell.

“Kill!” Each of the eight boys has strengthened ten times their physical fitness. This is the weakest group at present.

The most powerful people are Moda, Liu Ye, Long Xiaoya, Qiqi, Wu Xiaoyu and others. Moda is 25 times the limit, Liu Yan is 25 times, Long Xiaoya is 23 times, Qi Qi is 20 times, and Wu Xiaoyu is 20 times.

These people are considered to be the mainstay, but don't look at the eight boys in front who have only strengthened ten times their physical fitness, it can be very sharp to kill zombies, as long as they do not encounter zombies with more than two stars, there is no problem.

In the 11th carriage, hundreds of zombies were quickly cleared and it took only ten minutes.

“Qin brother, brain crystals are here.” Eight boys killed the zombies, dug out the brain crystals and came to Qin Tiange to make a difference, has formed a habit.

Qin Tiange didn't say much, collected hundreds of crystal nuclei, and continued to the next compartment. But before they passed, the door over there opened, and a group of people rushed in. It was Yang Xiaolin and others.

The car they climbed into was twelve, most of the boys were behind the tenth car, while the girls were after the fifth car.

Because the condition of the carriages in front was unknown, Qin Tiange did not let them climb up to those carriages. There seemed to be many survivors there, but the train seemed to be controlled.

“Go, keep clearing the zombies on the train.”

Qi Qin Tiange didn't say much, and led a group of people to clear the zombies one by one, one thirteenth, fourteenth, fifteenth, sixteenth, and so on.

The eight carriages at the end of the train were cleaned up, and all the zombies were killed. After digging out the brain crystals, they all left the train.

“How's the situation?” In the last compartment, Qin Tiange saw Moda and others, and then stepped forward and asked the situation.

“Brother Qin!” Moda nodded, and quickly introduced: “No one in the sword shield hand has fallen, they are all here.”

“Long rush is also here.” Yang Xiaolin also said that the long gun team is here.

Only Liu Yan’s team did not know the situation. The girls were the first to get on the train. Now they do n’t know what to do, but with their current strength, there should be no problems.

Qi Qin Tiange took them to the tenth carriage, and just saw the door of the ninth carriage opened, Liu Ye came out with a group of girls.

I soon, with the arrival of each girl, the car was full, and all the boys and girls looked at Qin Tiange in front of them, and no one spoke.

“Are all people here?” Qin Tiange asked the situation as Liu Ye arrived with a group of girls.

However, Liu Yan shook her head and stood up, telling her situation: “Tian Ge, Xiaoya, and a dozen other girls did not seem to see us. We came up from the eighth carriage. She went to the fifth quarter, The sixth compartment, the situation over there is unknown. “

Oh? After listening to frowning slightly, Qin Tiange nodded and said, “Let’s go and see. With the strength of Long Xiaoya and those dozen girls, we shouldn’t have trouble.”

Bringing everyone together, Qin Tiange took the lead to the seventh compartment door connecting door, the door was closed tightly, and a low-pitched roar of the corpse came faintly.

Click!

I inserted a steel knife and pried the door slightly open. A narrow aisle came into my eyes, and there were sleepers on both sides of the carriage.

“Be careful!” Qin Tiange sounded one after another, carefully stepped forward with a star blade, and stepped into the sleeper compartment.

In the sleeper compartment, a row of straight beds are beds, each bed has three floors, and every six beds are a compartment, covered by curtains.

He stepped forward, and Qin Tiange jumped open a sleeper curtain with a knife. There were two zombies, a man and a woman, lying on the bunk bed and biting a fragmentary body.

The male zombie held a spine in his hand and slammed into his mouth. The female zombie took a gut and sent it to his mouth. It was a joy to eat.

flutter!

The figure flickered, then the blade of light passed, and the female zombies’ heads soared, and the black blood sprayed over the bed. Sudden changes caused the male zombies to be shocked. looked up and issued a fierce growl.

It’s a pity, as soon as it started snarling, it was stabbed into the mouth with a sharp wide-edged knife and killed in front of the bed on the spot.

I dug out the brain crystal, Qin Tiange quickly exited, at this time, the crowd has begun to clean up these zombies one by one.

Huh?

Suddenly, he walked to a berth and stopped. He felt something wrong. He opened the curtain quietly and took a look. There were three zombies in the four berths.

But I didn't expect that there was a survivor on the bed on the left side of the upper third floor. It was a female, very young, looking only about twenty-six, sixty years old, with a **** face and a fashionable dress.

She was curling up on the upper bunk, blocked by two sheets of quilt, and curled up, looking at the zombies below through the gap of the quilt.

Seeing the curtain open suddenly, she frightened her. When she saw a black armor appearing in front of her, she was stunned, and she didn't even notice the quilt caught.

Immediately after the quilt fell off, her figure was immediately revealed, and immediately alerted the three zombies inside. Qi brushed her head and snarled at her, rushing madly to pull her down.

“Ah ...” A sharp exclamation, the woman closed her eyes in fear.

But instead of waiting for the zombies to tear, she heard a few dull sounds. Then, she remembered that someone broke in, opened her eyes, and found out that the three zombies that came up were dead, and her head was moved.

Suddenly, the mysterious man in armor was digging out three strange crystal nuclei in the zombie's head, looked at her and turned away.

“Wait ...” the beauty shouted instinctively, but unfortunately Qin Tiange kept walking and ignored the beautiful and **** young woman.
