

Dark Ages 621

Chapter 621 - The secret of the golden page, the true spirit is a fragment?

In the turbulent space, Qin Tiange sat cross-legged, ignoring the chaotic space storm around him, thinking quietly.

“Why is my true spirit broken?”

“Without a previous life, what exactly is the previous life that I have reborn from?”

One after another, one after another, is chaotic and difficult to answer, there is no answer at all, and even with 100% brain development, you cannot interpret the mystery of your rebirth.

Qin Tiange thought quietly, from entering the ghost gate, meeting Naihe Bridge, and seeing the mysterious woman in front of Sansheng Stone, her words were still in her ear.

He has no previous life, and this life is incomplete, the real spirit is broken, and a lot of questions are coming out of his brain, and he can't understand it.

“What is my true spirit?” Qin Tiange's eyes flickered, his eyes closed slowly, and he entered the space of understanding the sea.

He has never seen his true spirit. Even among the creatures of various races, there are not many real spirits that can be seen. Only those who are tyrannical can see the true spirit of themselves.

Qin Tiange has never seen his true spirit. As for the illusory body of consciousness, it is just a figure that has been transformed.

He didn't even know what the soul looked like. This time, suddenly a strong thought came into being. He had to look at his soul and even the true spirit.

Buzz ...

In the sea, thousands of golden symbols beating and dancing, surrounding that page of gold paper, constantly flashing golden light, extremely mysterious.

This kind of symbol is very old, and it contains some kind of rationality, exuding a mysterious ancient charm, which cannot be seen through or touched.

“Ground books, maybe only it can answer the doubts in my heart.” Qin Tiange's consciousness turned into a body, and he looked at the countless golden symbols in front of him quietly.

With a firm expression, he walked directly into these endless golden symbols and carefully realized one by one.

This is to find the answer in the earth book symbol. Perhaps only the mysterious earth book can answer his doubts.

Qin Tiange wholeheartedly, completely immersed in the ocean of golden symbols, and drew a little bit of the truth from it.

It was difficult at first, but gradually, with the start of 100% of the brain domain, the time and space forbidden area permeated, and the entire brain quickly resolved these mysterious symbols.

“Soul, samsara ...”

A whisper came out to know the sea, shaking the entire space of the sea, as if there was some inexplicable power at work, the golden symbols kept buzzing, and the mysterious light fell.

Qin Tiange was immersed in the mystery of the symbol, as if he saw endless mysteries, heaven and earth are most reasonable, and soul mysteries are all open to him.

When he realized the first golden symbol, Qin Tiange held himself, because what he realized turned out to be a soul rule.

“Ground Book, is the soul rule hidden?” Qin Tiange remained silent.

He struck a bolt of lightning in his heart and thought of a question: “Is the life and soul of everything in the universe all woven?”

The rules of the soul are like the rules set by the computer. They are like weaving out. Who is to weave the souls of all living beings?

“Tiandao? Weaving soul?” Qin Tiange looked a little dignified, as if he had touched some horrible secrets.

Then, he converged and continued to immerse himself in those symbols, madly analyzing and comprehending the meaning of the golden symbols.

One, two, three, more and more golden symbols were thoroughly understood by Qin Tiange, and he gained more and more mysteries. After he realized all the symbols, all the golden symbols in the sea disappeared mysteriously. .

Qin Tiange sat idly, staring at the only page of gold paper left in a bun, his eyes constantly flashing some strange light.

In the countless golden symbols of the earth book, he realized what had happened and why the whole person changed.

“Ground Book ...” Qin Tiange murmured, his eyes fixed on the last page of gold paper, and the beating symbol on it was the last page of the Ground Book, which contained the most critical things.

He took a deep breath, opened his mouth and swallowed this page of gold paper into his mouth, and realized the mysterious mystery recorded in it with a strong will.

Huh!

The body of consciousness trembled, sending a burst of maggots, and gradually, that sheet of gold paper melted and melted in his will.

The entire body of consciousness exudes a dazzling golden light, revealing an old, vast, endless, eternally terrible breath, as if immortal.

“Originally, this is the mystery hidden in the book of earth?” Qin Tiange slowly opened his eyes, two beams of golden light penetrated through nothingness, the golden symbol of beating heart, the pressure of terror made the emptiness of the sea trembled.

It took a long time for the strange changes in Qin Tiange’s consciousness to quietly dissipate, and the dense golden symbols on his body gradually disappeared.

“Let me see, what is my true spirit?”

Qin Tiange stood up with a solemn complexion and rushed directly into the deepest level of knowledge of the sea, where there was a void.

This space, known as the subconscious space, is the underlying consciousness of human beings, which is the mysterious area where the true soul of the soul is located.

Generally speaking, most creatures cannot set foot here, because you cannot see or even sense the existence of this space.

The two Qin Tiange did not have this ability, but since I realized all the golden symbols imprinted on the ground book, and finally melted and absorbed the last page of gold paper that was torn off, the whole person became different, with a clear sense of the existence of that space.

“open!”

Qin Tiange waved it with a palm and clicked, and the sea in front of him knew nothing about the sea, revealing a dark world, where his subconscious spirit space was.

Only when you step into the subconscious space can you see the true self.

With a touch of solemnity, Qin Tiange stepped into this mysterious area. To see what his true spirit is, why is it broken?

Huh!

The dark subconscious space is gray, as if Hongmeng hadn’t been judged. At the beginning of the world, there was no sound and no color. The gray feeling was just an illusion.

Because there is nothing here, no, to be precise, there is nothing but the soul and spirit.

Stepping into this place, Qin Tiange felt different, as if wandering for many years and suddenly returning to his long-distance hometown, he felt a kind of warmth.

“This is true spirit space?” Qin Tiange muttered to himself.

He blinked his eyes, staring deep into the subconscious world, where there was a familiar and mysterious wave, which was the breath of the true spirit.

Without hesitation, Qin Tiange stepped out, and an idea came into a void, watching the mist of gray mist quietly in front of him.

“This is my true spirit?”

When he saw his true spirit for the first time, Qin Tiange was stunned, because what he saw was not his own appearance, but a piece of broken pieces, exuding a grayish atmosphere.

In front of it, there is a piece of debris floating, which is as large as nine feet long, quaint, with an ancient atmosphere and a mysterious mist.

Taking a closer look, Qin Tiange himself didn't understand what a fragment of this thing was. It looked like a fragment of something, but revealed his most familiar atmosphere, the fluctuation of the true spirit.

This is his true spirit. There is no misunderstanding, no illusion. It is the true appearance of the true spirit of the self.

“My true spirit turned out to be a mysterious fragment?” Qin Tiange felt like he couldn't even cry.

He felt furry, wasn't he human? Why is his true spirit a fragment, but not the true human spirit that human beings should have?

Inside the mist that appeared in front of him was the true soul of his soul, the center of the whole soul, the highest true spirit.

Gently, Qin Tiange touched the gray mist with his hand, and for the first time came into contact with his true spirit.

Wow ...

As soon as it came across, a moment later, the shard of true spirit exuded a ray of light, sucked his consciousness into it, and disappeared.

Qin Tiange only felt that he seemed to be inhaled somewhere, and his consciousness was a bit painful, as if he had been torn, and the endless pain would be overwhelmed.

“what...”

In the turbulent space, Qin Tiange, sitting cross-legged, suddenly opened his mouth and screamed, his body crashed into the chaotic space storm.

Then, a series of golden symbols gradually appeared on his body, and they were continuously imprinted on the surface of the skin, sending out a burst of sounds.

His physical changes were not as violent as the changes in his internal soul. Qin Tiange felt pain, as if being broken into countless pieces by any force.

Qin Tiange himself was a bit shocked. He didn't expect to return to the True Spirit Fragment, but he saw some fragmented and scattered memories and was very confused.

What's more, with these memory fragments comes endless suffering, the kind of pain in which the soul is torn and the true spirit is crushed.

Gradually, Qin Tiange lost his consciousness and was completely integrated into his shard of true spirit. He did not know whether he was dead or alive.

Qin Tiange saw the fragments of his true spirit, but got an unexpectedly old and broken memory, which belongs to the true spirit.

He didn't know that at the moment when he entered the fragment of the true spirit, returned to himself, and re-understanding himself, a huge ancient text suddenly appeared in the sea.

plate!

An ancient "pan" character emerged, rising in the wind, rumblingly exuding the ancient and desolate charm and coercion, suppressing the space of understanding the sea.

This is the text of the Pangu tribe It is a gray font that emits chaos. This is a chaotic ancient text with great power.

Bang ...

With the emergence of this chaotic text, at the moment, the cognition of the sea seemed to be crushed, and it turned into a scene of chaos and chaos.

Immediately afterwards, this mysterious "pan" character passed through the air, rushed directly into the subconscious space, and was imprinted in the fragments of the true spirit, sending out a burst of ancient divine sounds, shaking time and space.

With the fusion of the brand characters, the mysterious fragments of the real spirit gradually changed, even absorbing the mysterious symbols in those books, and repairing themselves little by little.

Yes, the true spirit is repairing itself as if it is recovering as it was, but it is very slow, it is really very slow.

Qin Tiange did not know that his true spirit was being repaired. His true spirit was just a fragment.

And what is his true spirit, what secrets are hidden, why is it broken, why is there no past life, and is this life incomplete?

Chapter 622 - 3 major deities, Asian unification

In Europe, the holy city of Athens, Greece, a huge mountain floats on the holy city, emitting infinite light, and a majestic temple stands on it.

That's the temples!

The entire palace is three thousand feet high, golden and brilliant, and the glory shines, shining on the world, as if the ancient gods came.

"Falling to King Zeus, the frontline human forces collapsed, the centaur demons captured a northern giant city, and the Cyclops have taken the south and are about to invade the Aegean Sea."

In the temples, powerful figures stood there. They were extremely tall, generally more than five meters, and there were some powerful humans here.

In the temples, the **** Zeus, and the temple gods, these are the gods of the temples that gave birth to spiritual wisdom after the last days, and thus became the highest Greek gods and the ruler of the Greek region.

Zeus, up to Jiuzhang's body, is full of oppression, magnificent, holding the eternal gun, his eyes swept across the gods and some powerful men.

Sitting next to Zeus was his wife, the goddess, Hera, the unparalleled beauty, and the goddess in charge of (marriage).

“The Centaurs have captured a giant human city, can’t you have any way to stop these foreign demons?” Zeus was furious, and his words were full of rage.

Below, Poseidon stood out, arching a hand with a trident. He said: “The great King Zeus, the foreign army is too powerful, and the commander inside is extremely horrible and cannot be stopped at all, even if our twelve main gods go to intercept it, they are not opponents.

What he said was the fact that the strongest statue of these gods who returned from the awakening was Zeus, who was born first. At present, he is already an emperor-level power and is close to the first emperor-level.

The twelve main gods below are all king-level. The strongest ones are close to the emperor-level. How do you face the commander of the alien Ma race?

With a somber face, Zeus snorted, “Can no one stop these aliens from invading our Greece?”

“Your Majesty Zeus.”

At this moment, a graceful figure came out, wearing a battle armor, holding a rifle of victory, and showing a heroic and refreshing temperament all over her. She was Athena, the goddess of wisdom who integrated beauty and wisdom.

The young Athena stood out and said with an arched hand: “His Majesty Zeus, not only our temples have been robbed at this time, but even the Odin gods have also encountered a powerful alien demon invasion. At present, the gods and the human united forces are losing ground.”

“King Arthur, the Celtic god, led the twelve round table deities and led the human coalition. He also suffered a fiasco. At present, the three major gods have been invaded by foreign demons. The situation is precarious. I propose to join the other two gods. The strength of the system, together to fight against the invasion of foreign demons. “

Athena’s voice was crisp and ethereal, showing a force of war killing, powerful, deafening, and continually reverberating in the temple. She also had an identity, known as the goddess of war.

This made Ares, the **** of war, unhappy, and turned away with a depressed expression, standing there stupidly alone.

After listening to the other gods in deep thought, those powerful human masters looked at each other, and there were hundreds of human masters gathered here, the lowest being ten-star strong men.

The highest thirteen humans are kings, known as the thirteen kings of Greece, who rule the thirteen cities and are under the jurisdiction of the audience temple.

“Sir Zeus, I have something to report.”

At this time, among the Greek human masters in the hall, one of the thirteen kings stood out, hesitating, as if hesitating.

“King Larissa, do you have anything to say?” Zeus bowed his head slightly, looking at one of the human kings.

I saw King Larissa walk out and bowed slightly, saying, “The videos of drones that had been spilled in the past showed us the invasion of alien races. With advance preparation, we were not caught off guard. “

“And I saw that those unmanned fighters had Peugeot Oriental Huaxia imprinted on them. I guess that it should be a drone from Huaxia. We may be able to resort to the power of ancient Eastern China.”

After he finished speaking, the entire temples were silent, Zeus had a complex complexion, and looked at the direction of the Oriental Asian plate, looking a little daunted.

As the **** king of the temples, it is natural to know the terribleness on the Asian eastern continent, where the gods join together and the immortals are conquered. It is said that this is the case. It is not clear whether the external forces are to be destroyed .

“Well, who of you is willing to travel to the East China Sea continent thousands of miles away to seek support?” Zeus asked calmly, looking calm.

The gods in the audience immediately bowed their heads, and left and right hoped, but did not respond, as if they did not hear, they did not want to go to the east.

Just kidding, now I’m going to the East, I don’t want to say a long way, and I have to go through various tribulations and dangers, and even hang up before I go to the East.

Zeus looked at the gods who did not dare to speak, even the thirteen human kings looked down at their toes, which made him unhappy.

“Her Majesty Zeus, let me go to the East, and invite powerful Oriental deities.”

Finally, Athena stepped forward and called directly, and went to the eastern continent to invite the powerful gods of Huaxia.

“Okay, Athena, you immediately set off for Huaxia, the sooner the better.” Zeus was ecstatic, but did not show it.

“I’m willing to travel to the East together!”

At this moment, a figure stood out, and Artemis, the beautiful hunting god, stood up to go with the Athena to the Oriental Huaxia.

The two goddesses are heading to the east. Now, the other gods in the temples can’t sit still, especially the male gods who secretly love the two virgin gods.

“Okay, here you go.” Zeus waved his hands and let Athena and Artemis set off immediately to Huaxia East.

As the two goddesses Athena and Artemis went to the East China, the other two ancient gods were discussing how to resist the invasion of foreign demons.

“My King, it seems that only the mysterious East China has the ability to come to support.”

Britain, Celtic theology, among the kings, King Arthur sits high on the throne, and the twelve round tables below are waiting for silence, one of them put forward his own opinion.

Here, there are also ten master-level masters of manpower, all of whom have injuries, apparently just experienced a ***** battle.

“My King, the East has always been strong and mysterious, and the gods there are the strongest, and there was the news of alien invasion from China before.”

King Arthur, wearing a mask, could not see her true face, but it was enough to see from her exquisite figure that she was a woman.

She holds a long sword inserted in the stone scabbard in her hand, which is one of her sabers, an artifact: the sword in the stone.

The other holy sword was hung on the waist. It was a horrible sword symbolizing the killing of war.

“Who is going?”

For a while, there was silence on the round table. No one spoke, his head bowed quietly, and no one wanted to go to Oriental China. It was too dangerous.

“Since no one is going, I will go by myself.”

Finally, after a long silence, King Arthur slowly stood up, exuding a strong breath, and as the great master, ruled the entire British land.

...

In Sweden and Norway, King Odin and his gods are discussing how to fight the invasion of terrible and powerful foreign ethnic forces.

“King Odin, our hope is in the East ...”

In the temple, a beautiful goddess gently said this sentence.

She is the goddess Geoffrey, who knows the past and the future, has extremely mysterious and powerful ability, and is a mysterious deity among the Odin gods.

Odin finished frowning and said, “Did you see something?”

The other gods turned around to see that Thor, who was wounded, and Vulcan Rocky, who was gray-faced and dirt-faced, apparently the gods had just gone through a battle.

I saw, the goddess Geoffrey raised her head gently, a pair of silver-white eyes twinkling with strange light, as if seeing through the past and the future.

She looked calmly: “His Majesty Odin, only the power of Oriental China can fight against those powerful alien demons, and I am willing to go to the East and ask for the support of the Oriental forces.”

“Very well, you set off immediately!”

Odin didn't want to, he waved his hand directly, let her go to Oriental China to ask for support.

The goddess Geoffrey bowed gently, then turned around and disappeared into a cloud of smoke.

“Your Majesty, what a great thing!”

At this moment, a figure hurried in, and Nato worshipped.

He looked terrified and said, “His Majesty Odin, the earthly python was killed, and he was directly roasted by the other ...”

“Jack!”

As soon as this happened, Vulcan Rocky was furious, because the earthly python was his son.

“Gather all the human coalition forces, and immediately join the other two major deities to jointly fight against invading demons from outside.”

Odin directly gave an order. For a time, the three major European gods united, and the gods and the human army began a fierce resistance.

For troubled Europe, there are also many wars in the East Asia. Because of the continuous war in Asia, the major expeditionary forces in China have begun to travel to various parts of Asia to conquer Asia.

This expedition caused the hearts and minds of countries inside and outside China in Asia to tremble, but in the end it still could not withstand the sweep of the Chinese army, and disobedience was ruthlessly destroyed.

For a time Huaxia ushered in an expeditionary army returning triumphantly, returning with surrendered survivors from all over Asia.

With the return of the main force of Shanghai, the formation of two air-to-air motherships led the army to join the Asian reunification war. In the end, no resistance force exists in Asia.

Unification in Asia has been achieved, and all disobedient people or forces have been leveled out. There is only one voice left in the entire Asia, that is, Hua Xia, Supreme Leader Qin Tiange.

During Qin Tiange's retreat, with the reunification of Asia, survivors from all over Asia were dispersed and gathered, and began to build ninety-nine huge battle cities centering on Huaxia, guarding China.

Each battle city has a population of two million, and it is a mixed population of people from all over Asia. Adding to the 500,000 troops recruited by the elite army, it can be described as overbearing.

Inside Huaxia, a huge war fortress has begun to be built, which is the first generation of war fortresses in the space fortress. It can fly in the air to fight, and even fly into outer space near-earth orbit.

At the same time, a message came from the frontier base of the Pangu continent, and countless masters who entered the Pangu world finally came out.

Chapter 623 - Half demon struck, Dongli came to confess?

The Pangu continent, the Tianzhu Mountains, rippled in space, and then rushed out of it with strong breath.

“Finally came out!”

“Hahaha ... who is the ancestor’s opponent?”

One by one, strong and powerful creatures emerged from the Pangu world, each with a strong and unparalleled breath, even they had been promoted to the ancestor level.

They completed the bloodline gene return to the ancestors in Pangu Realm, successfully broke through, and became the second-generation ancestors. The overbearing strength made these creatures extremely excited.

“Hmm? Hundreds of stars are here?”

There was a ray of Buddha light, and I saw Dust stepping out of the Golden Lotus Terrace, and suddenly swept around, sensing the breath belonging to the Starry Hundreds, and it had already landed on the earth.

Not far aside, the unscrupulous Taoist looked around in surprise, and a group of powerful foreign army was surrounding the Tianzhu Mountains.

“The immense Tianzun, alien aliens invaded?” Wuliang Taoist froze, and then his eyes turned round, and he laughed.

I saw him take out a black bush, opened it with a click, and a horrible corpse gas burst out from it. He thundered through an alien army blocking the road in front, blasted on the black bush, and disappeared in a blink. not see.

“Amitabha, foreign invasion, all living beings are suffering ...” Dustless hands folded, and a bright cloud of light spread across his body, which instantly turned into a golden light that broke through the foreign army blocking the road and went away.

“Stop them!”

Outside, a powerful army of foreign clans besieged Tianzhu Mountain and guarded it to kill the creatures from the Pangu realm.

They want to **** the treasures and resources that these people have obtained in Pangu World. This is their only root in the earth.

“How long has it been, so many alien races?”

At this time, the Chinese human masters who came out of the Pangu realm were startled, and saw the huge army of extraterrestrial races densely surrounded by them, all surprised.

Chen Xi looked dignified and looked at the alien army who was blocking the road in front. There were several first-level masters blocking it.

“You guys, go out and return to Huaxia!”

Hundreds of Huaxia masters who originally entered it, now there are only a few thirty, and the rest have fallen into it.

Headed by Chen Xi, these thirty alive Chinese masters have, without exception, gained tremendous opportunities, their strengths have advanced by leaps and bounds, and the lowest one is the Emperor.

Among them, there are 20 emperors, 18 emperors, and there are actually four ancestors. One of them is Chen Xi, and the other three are Shicang, Liyang, and Wuyun.

In the four ancestor classes, the blood gene successfully returned to the ancestors and gained a huge improvement in the Pangu world. This is the four people who have gained the most this time.

boom!

In just a moment, the army of aliens blocking the road was crushed by Chen Xi and others, directly breaking through the blockade, killing them, and disappearing in an instant.

“Rush out and return!”

At this time, on the other side, a group of strong foreign powers appeared, one by one, and the huge gains were obtained from the Pangu world.

They are all strong, and obviously the weakest are all Emperor-level strongmen, and even there are several ancestors who are from different continents.

They killed the siege of a foreign army and dispersed, returning to their country.

These strong men came out of the Pangu world and returned to all continents, and they will set off a stormy sea, because with them, these strong men returned.

The original ruling class will inevitably be the first to withstand the shock, it is likely to be subverted, and even a chaotic civil war will follow.

Just like the current Europe, this time from the Pangu world, there was a successful breakthrough of the ancestor class. When he returned to Europe, the rule of the three major deities was likely to be broken.

“It turned out to be Pangujie. We are late.”

Outside the Tianzhu Mountains, a series of strong horizontal shadows stared gloomily at these various creatures and some ontological creatures from the Pangu realm, all of them were incomparable.

Obviously, the commanders of these alien vanguards are depressed, because they arrived late, and they have no part of it after the Pangu world opened.

Well now, those powerful creatures who entered Pangu Realm came out, and they could only watch, and they couldn't stop each other, let alone kill.

“Xi Xi ...”

At the summit of a mountain range, the commander of the Half-Demon army fled eastward, his eyes flickered, and he stared at the graceful figure killed by Chen Xi and others.

Seeing this, Dongli can't sit still, because Xi Xi's current strength has broken through the rank of the first emperor, and he will soon be able to return to the ancestor of the bloodline gene, and even soon become a semi-ancestor.

When thinking of Xi Xi's breakthrough so fast, Dong Centrifugal was shocked and urgent at the same time. Once Xi Xi broke through the ancestor level, he was the same level as him.

At that time, it would be impossible to control Yu Xi, even to take her away.

"Order, send troops immediately and follow me into Huaxia."

Dong Li gave a cold hum, and the cold voice ordered that he directly led the densely packed countless half-demons and hurried toward Asia where Hua Xia was located.

He is about to forcibly intercept Xun Xi to leave. As for Qin Tiange, he has been left behind at this moment.

These half-demon moves naturally attracted the attention of other foreign army, but it was fun to see them going towards Huaxia.

"The half-demon has entered the Asian continent. It seems we have a good show."

"The vanguard army of the previous Dragon Dragon family was destroyed, and it was destroyed there."

Some foreign ancestors watched Dong Li leave with countless half demon, all with a look of hope, and wanted to see if he could open the situation on the Asian continent.

They are looking forward to, if these half-demons can stand there, then they will lead the army of all ethnic groups together without hesitation.

Huh!

A dragon roar, accompanied by a huge tyrannosaurus rushing out, stepped on a lot of blocked foreign warriors, swallowed thousands of foreign warriors in one go, and the fierce power was unstoppable.

Rumbling ...

Over there, an old black mammoth nose slammed and smashed a group of alien army soldiers blocking the road. As a result, the king level and the emperor level were all broken by a nose.

These ancient creatures have dominated the Pangu continent for countless years. After entering the Pangu realm with one stroke, they have strangely given birth to spiritual intelligence and completed the transformation of life.

"roll!"

The fierce roar of that tyrannosaurus roared loudly, strutting its head, ignoring the blocking foreign army, and stepping on it step by step.

None of the alien races dare to stop. Looking at these ferocious and ancient creatures that gave birth to wisdom, there is no one to stop them, even the first ancestors are unwilling to go up and stop them.

“Get back!”

Finally, the ancestor-level commander of each group was helpless and ordered a retreat. After all, this would be useless to stop these horrible creatures.

With the retreat of the army of various ethnic groups, all kinds of life from the Pangu Realm have left here, either to the continents or to live in seclusion in the Pangu Realm.

“We first built a city on the Pangu mainland and waited for the big troops to come.”

Seeing that it was impossible to stop the horrible creatures from the Pangu realm, and even the fierce creatures in the Pangu continent had completed the bloodline gene return to the ancestors. A fierce ancestor-level ancient creature rushed out, killing and killing. Delivery.

“Marshal Bao Bao found that the army of half-demons was living in a human-based base thousands of kilometers to the east.”

Just then, a weird creature with three eyes first came up quickly and reported this surprising news.

Dongli, led by countless half demon, directly surrounded the floating base settled in the Pangu mainland.

“Let’s go and see. Others stay to build the city and work together to build an interstellar portal to get the big troops.”

The commanders of these alien clan directly ordered that the vanguard armies of various ethnic groups work together directly to build a huge interplanetary gate to attract the follow-up army of all ethnic groups.

In fact, they were surprised. They did not expect that someone in Pangu had built a huge base, which made them curious.

Suddenly, more than a dozen patriarch-level strongmen immediately set off, leaving a huge army of various ethnic groups, rushing towards the floating city that Huaxia established in the Pangu mainland.

.....

At this point, outside the city, densely populated by half-demons, a huge number, at least millions, overwhelming, dense demon gathering, demon winds, dark clouds billowing, squeezing over the base, surrounded by water.

The floating base propped up a flashing electromagnetic energy shield, and huge electromagnetic artillery on the city wall was being charged, aiming at the Supreme Demon outside.

“Why are these half-monsters here?”

On the city wall, Chen Xi looked a little stunned, and looked at the countless half-monsters surrounded by it for a while.

Do these half-demons think that they can eat this base with an ancestor? You know, when they come back, the whole base is equivalent to having four ancestors.

“Alarm, four directions from the southeast and northwest of the base, and found that a dozen powerful energy bodies are approaching, and it is expected to arrive in an hour.”

With the self-warning warning from the base, Chen Xi and other talents realized that it was not good, and the commanders of the major pioneers of the alien race came to this side.

“Sister Xiaoqian, do you think that person is leaving?”

At this moment, on the city wall, Xi Xi looked at the half-demon group outside suddenly, there was a figure standing proudly, it was Dongli.

Long Xiaoqian faced a frost, and hummed, “I did not expect him to be a half-demon, but we still accepted him because of it, and led these half-demons to attack us.”

“Sister Xiaoqian, I feel that he came at me.” Wu Xi’e frowned slightly, with such a strong premonition.

“Xi Xi, come out to see me.”

Suddenly, there was a big drink from outside, shaking the Quartet, and saw Dong Li’s figure emerged, looking quietly at Xi Xi on the wall.

He said earnestly: “Xi Xi, you are noble, you should not be mixed with these dirty people, come out, come back with me, I will take you to the stars, and see what is the real powerful creature.

“We can go to the starry sky to see the beautiful nebula and watch the star fall, and we will witness together to make a happy land for the half-demon family.”

Dong Li said more and more emotional, that even a girl with a heart of stone would be tempted, and, with his handsome face, that temperamental temperament, could really attract many young girls.

For example, many human girls in the base moved their faces and looked enviously at Xi Xi, the young girl was the target of Dongli.

“I’m going, this guy came here to confess?”

Shicang, Liying, and others rolled their eyes, and several people were about to step out. Wanting to chop up this gibberish guy, Xi Xi must not let him take him away.

Because of Xi Xi’s ability, the existence of Xi Xi in Pangu Realm allowed Chen Xi and others to gain great opportunity and promotion, and to guard her at any cost.

“Ah ... Damn Terran!”

“I promise to destroy you!”

At this moment, as far away as the center of Tianzhu, an extremely angry terror roar came, shocking most of the Pangu continent, countless creatures looked horrified, and looked around.

Chapter 624 - Ghost Master, Ghost Mother, First Grand Patriarch, Master of the Forbidden Zone

A loud bang came, and then the world suddenly filled with a cold and cold atmosphere, everything was horrified, and looked at it in shock.

In the distance, a piece of shady soil unfolded slowly, laying up rumblingly, as if a wicked continent from **** had arrived.

hiss...

As soon as a roar came out, there were endless figures flowing out of the dark soil, densely packed, and riding on ghost horses.

That's the ghost soldier!

“Yin soldier?”

The ancestors of other races were startled, watching the overwhelming influx of soldiers, their faces turned wild, and they quickly retreated.

Yin soldier, a horrible term, is extremely taboo in the Starry Hundreds because it is the strongest arm of the evil spirits.

In the Starry Hundreds, most races hate evil spirit races, because everything will be swallowed up by the Yin soldiers.

The ghost soldiers are the ones who swallow the blood of thousands of souls as nutrients. They are the most eye-catching for the human race, because once the human flesh is swallowed, the ghost soldiers will become more and more weird.

“Why did the evil soldiers run out?”

An ancestor of the foreign race looked dignified and looked at the shady soil spreading in the distance. The endless invading soldiers poured out, uniform and uniform, and galloping in the sky.

The number is difficult to count, and the breath of each Yin soldier is extremely tyrannical, especially some of the leading captains, generals, etc., the breath is the most terrifying.

“No, they did not come from the wormhole of time and space, but came here with the fragments of the ancient battlefield of the human race.”

Soon, some ancestors could see that these ghost soldiers did not land recently, but landed on the earth with the debris of the ancient battlefield outside the sky.

Thinking of this, the major alien races became tense, because this ghost soldier was much more arrogant than their vanguard army of various races.

The lowest one is a ten-star warrior. It is difficult to count. The terrible warrior, once blocked by creatures, will be swallowed up ruthlessly.

“Withdraw temporarily, the Terran is in trouble.”

The ancestors of the alien races retreated immediately and did not dare to come forward to block, because in the broken shady soil behind the Yin soldiers, there were dozens of terrible breaths hidden.

Some breaths are more terrible than their ancestors, which has attracted the attention of many experts, staring at the broken shade of earth that flew in.

“The ghost door is broken and the shade is gone. It’s a good thing for the human race.”

In the dark mist, a horrible breath emerged, showing endless fierceness, and a pair of huge eyes revealed the mist, which made the back chill.

“That’s, ghost mother?”

An ancestral creature was startled, looking at the eyes of Sensen, and his heart was cold and sweaty.

A terrible ghost appeared in the dark soil, which was one of the strongest evil spirits in the dark soil, the ghost mother, who quietly walked out of the forbidden area and entered the Pangu realm.

Her breath was overwhelming, so many ancestors could hardly breathe, and looked horrified, looking at the terrible ghost mother, shrouded in thick mist of ghosts.

“Ghost mother, the human race has broken the ghost gate and destroyed the yin earth. This revenge must be reported.”

At this moment, another extremely cold word came, everyone looked at the sound, and another terrible thing emerged in the broken shady soil.

That huge body was full of oppression, covering the sky, and his eyes were like two blood lakes hanging in the sky, revealing the murderous murderous power.

“Ghost Master?”

“The ghost master and the ghost mother are two powerful evil spirits whose evil spirits were suppressed by the human race in the ancient battlefield. They were not dead and alive.”

“After the ancient battlefield was broken, they came to the ancestral land of the human race. I did not expect that these two terrible things have not died yet.”

“Also, it seems to have recovered a lot, and it is not clear what was obtained from Pangu.”

For a time, the pioneer marshals and ancestors of the various races were all moved, watching the ancient ghosts and ghost mothers appearing in the two ancient evil spirits, horrified.

The most terrifying thing is that the breath emitted by the ghost master and mother ghost surpasses the ordinary ancestral creatures, and even surpasses the ancestors of the first generation, which is exactly the breath of the first ancestors.

“Two early ancestors, trouble.”

At this time, on the wall of the base, Chen Xi and other Chinese powerhouses looked dignified, watching the overwhelming invading soldiers, especially the two most terrible ghost masters and ghost mothers, with the most terrifying breath.

Everyone knows that it was the first ancestor and it was extremely scary.

“You, the leaders, and the eighteen ancient human sages are in retreat, and we can only rely on ourselves.”

Xunji stood up and warned solemnly. Qin Tiange and the eighteen sages did not appear in the retreat. Now, they have to rely on themselves.

Hearing this, Chen Xi and others looked slightly changed. Although it was not clear what level of Qin Tiange was, or even what the eighteen sages were, at least I knew that Huaxia did not currently have masters to deal with the first generation of ghost masters and mother ghosts Ancestor.

“What do you do?” Chen Xi frowned, looking at her self.

Everyone looked at her, it seemed that this artificial intelligence life had some way. In fact, where do they know, there is nothing they can do about them.

She smiled bitterly: “Don’t look at me. I can’t help it. I can’t think of any way out of the host.”

“Bad soldier, hateful!”

Outside, many half-demons were horrified, watching the influx of invaders, and couldn’t help backing away. Dongli was even more irritable and secretly hated. He could only wave angrily and led the half-monster away.

He wasn’t stupid, how could he fight against the Yin soldiers, although his plan was interrupted, but soon a hint of sneer appeared.

“Exactly, let the ghost master and ghost mother destroy these people, and I happened to take away Xi Xi quietly.” Dongli eyes stared at Xi Xi on the wall.

Yan Xi’e frowned, looking at it here, looking a little disgusted. She was worried: “Sister Chen Xi, the Dongli came at me. If I can’t stop it, then I will go out and follow him.”

“No!”

Two soft drinks came, and Chen Xi and Li Ji both refused. Chen Xi knew that Xi Xi’s ability was absolutely vital to the entire human race.

But Ji Ji knew that the importance of Xi Xi even had a vital link to Qin Tiange’s future starry sky plan, and only she could vaguely understand some of Qin Tiange’s plans.

Therefore, Xun Xi can’t make mistakes, no one can rob them. This is Qin Tiange’s account of her. It is a big deal to destroy the enemy with anti-material bombs.

“Order, the legions are ready to fight!”

“Activate the electromagnetic energy cannon, laser cannon, laser cannon.”

His own order was issued one after another, and the order was transmitted instantly. In the polar regions, new giant artillery towered, and the muzzle exudes a faint light of energy.

These are all new weapons. They are newly developed powerful weapons. What is more frightening is that one missile was pulled out and aimed directly at the outside.

“Get out of stock anti-material bombs!”

Finally, Xunji coldly ordered the warehouse of the military factory, and saw that a series of air-launched missile launchers flew out, and the warheads loaded on them were the most powerful anti-material bombs.

“Has antimatter come out?”

Shicang, Liyang, Wuyun, Yexuan, and others looked at each other with a grin in their hearts, but they did not expect to enter the Pangu realm, and Huaxia even produced anti-material bombs.

Rumble ...

At this moment, a piece of broken overcast soil was pressed up outside the base, and endless invaders poured out, and the entire base was surrounded by water.

The ghost master and the ghost mother both appeared, and the rows of horrible fierce spirits and horrible breaths behind them were all ancestor-level fierce ghosts. The cold atmosphere was pervasive, and the ghost fire swept the sky.

“Two ancestors of the first generation, 36 ancestors of the first generation, and 89 second generations of the ancestors, the evil spirit tribe must have obtained great gains in the Pangu world this time.”

Looking at the evil spirit tribe soldiers, and the two ghost masters and ghost mothers, there are 36 generations of first-generation ancestors and 89 second-generation ancestor-level evil spirits. How terrible?

“Human race, destroy my shady homeland. Today, I want to destroy all human races.”

The ghost master roars and is fierce. He is one of the masters of the soul-eating restricted area. Next to him is his wife, the ghost mother, surrounded by nine huge baby faces, hissing and screaming. The soul surged higher and higher. As if to destroy all living beings.

Nine sons and ghost mothers are also one of the masters of the soul-eating restricted area. Their strength is horrible. They were originally suppressed by the human race in the ancient battlefield outside the sky. If nothing else, time can let the ghost master and the ghost mother die.

But unfortunately, the ancient battlefield in Tianwai shattered and landed on the earth, and the ghost masters and ghost mothers who were suppressed in the ancient battlefield landed on the earth with the fragments of the ancient battlefield, and thus recovered.

This time quietly entering the Pangu realm, it has obtained huge gains, thus restoring a lot of strength, at least for the time being, it has returned to the realm of the early ancestors.

Uh ...

Suddenly, the sound of drums of battle came from the air, revealing the cold and savage spirit, as if the magic drum from Jiuyou Hell was shocking and shaking the soul.

“Eradicate the human race!”

“kill!”

The ghost master took out a **** flag and waved it, and a huge black ghost flag was inserted in the air. Instantly, countless Yin soldiers launched a storm.

The invaders surged and attacked, and the war began.

“Fire!”

At this time, countless giant artillery in the base lit up the horror, the scorching electromagnetic energy guns roared, and beams of light whistled out, lasing into the sky.

Suddenly The beam of electromagnetic energy penetrated through the bodies of countless female soldiers and melted these terrible female soldiers.

Electromagnetic energy contains magnetic force, and it has some suppressing and killing effects on spirit bodies such as evil spirits, as if it was born to restrain evil spirits.

Boom boom ...

For a time, artillery fire roared in the base, thousands of tens of thousands of horrific beams of light hit out, the sky was penetrated, and that huge beam of light was clearly visible in space.

The ghost soldiers roared, the ghosts and horses hissed, and they were smashed by a horrible electromagnetic beam of light. In the face of evil spirits, the electromagnetic gun's killing effect was extremely amazing.

“Launch a hydrogen bomb!”

“Fuck me fiercely!”

His face was cold and solemn, and he directly ordered that, in an instant, hundreds of thousands of missiles loaded with nuclear warheads were blasted away, and instantly packed into a dense army of invaders.

A thunderous bang came, one after the other, hydrogen bombs exploded, and the glowing ball of light exploded into the air, lighting up the Pangu world and shocking countless creatures.

Chapter 625 - 100 million people participated in the war, who committed me Huaxia, although strong will be stingy!

Nuclear explosions also saw nuclear explosions. The horrible fireballs burst instantly, and the powerful high temperature directly melted countless female soldiers.

Yin-Yang phase, Yin-Ying soldier, belongs to the evil and evil things. It was intensely heated by the nuclear bomb, and it melted 1000 times the temperature of the center of the sun.

All the creatures were stunned by the nuclear explosion, especially those half-demons, with a chill in their hearts, that humans have mastered Zhixing technology?

“Zhixing Technology, how could human beings master the technology belonging to Zhixing?”

“Why are the brains of Zhixing planning?”

Dong Li looked horrified, watching the horrible nuclear bomb exploded, shattering numerous invaders, and immediately thought about whether the creatures of Zhixing wanted to plan.

Otherwise, where do people come from to master Zhixing's high-tech technology?

“You said, are these technologies that belong to Zhixing, are those dead merchants sold to human races?” Some foreign ancestors made their own guess.

A dozen alien vanguard commanders looked dignified and looked at the powerful nuclear bombs fired from the base. The modified hydrogen bombs had almost no radioactive pollution. Only the super high temperature directly shattered numerous invaders.

“A **** product of the star.”

Watching the innumerable Yin soldiers melt, the ghost mother howled, extremely angry, because she also knew how powerful these technology weapons were.

It is rumored that some superstar weapons in the Zhixing family can flatten half of the galaxy in an instant, and even disturb the space and time, which is extremely scary.

“Well, there aren’t too many of these weapons, kill them and swallow up all humans.”

The ghost master hummed, and a black battle flag swept across, blasting off the aftermath of those nuclear explosions and extinguishing the power of the nuclear bomb.

Seeing this, Xun Ji and others had their pupils contracted and looked at the ghost master who could extinguish the power of the nuclear bomb by waving a banner.

“The hydrogen bomb inventory is gone.”

At this time, the leader of the missile unit sent news that the hydrogen bomb inventory was gone. The news came, making Chen Xi and others look dignified, but Jiji was calm.

“kill!”

“Destroyed the human race!”

The invaders raged, and a new round of offensives began, with a larger number, sweeping over and over, and rushing into the base’s defense circle.

She watched the endless influx of soldiers, and ordered: “Enable electromagnetic defense, open the electromagnetic circle, create a thunderstorm field, and kill the soldiers with the power of the thunder.”

Rumble ...

Suddenly, a thick electromagnetic aperture lit up in the base, and numerous electromagnetic rays flickered and interlocked, forming a large area of electric light around the base, and the thunder flickered.

At the same time, each ball of electromagnetic light was struck into the high-altitude clouds and immediately exploded, turning into countless lightnings, constantly intertwining and winding above the clouds.

“Juyun bomb, fire!”

With another order, new missiles were launched and blasted off the base. The endless dark clouds gathered and became more and more. Eventually it turned into a rolling black cloud, rolling and surging. lightning.

This is a man-made lightning storm. At the moment, artificial lightning clouds are shrouded in altitude at a height of dozens of kilometers in the base area, and lightning is intertwined.

thunderbolt!

A purple lightning slammed and slammed, tearing the bodies of more than a dozen female soldiers on the spot, strangling instantly.

Sky mines, full of masculinity, are an absolute nemesis for evil things, while sky lightning produced by artificial lightning storms is extremely scary.

That kind of powerful lightning ball, lightning emerged, as if countless days of thunder came together in an instant, stunned.

The yin and yang are opposite, but at the same time they are attracted to each other. As the yin soldiers appear, the masculine Tianlei splits down towards the yin soldiers.

Boom boom ...

Tian Lei rolled and poured down instantly. The endless thunder destroyed a large number of Yin soldiers. Even the ghosts and horses shattered and strangled, and they saw the dozen foreign commanders with shocked faces.

“Can you kill the ghost soldiers like this?”

An ancestor was dumbfounded and looked at the thunderclouds rolling around the base. The endless thunder destroyed the invaders who rushed in. None of them could pass through the defense circle.

“broken!”

Just as Tianlei was raging, in the distant earth, the nine sons and daughters roared, and nine huge human faces and spirits surrounded by them suddenly rushed into the thunder, and thundered and thundered.

The mighty power has broken the thunderstorm rolling in the sky, which is incredible.

Seeing that the thunder defense was broken, in the end, only the electromagnetic defense circle was left. All lightning intertwined and coiled up, hitting the influx of puppet soldiers, and the noisy electromagnetic force broke out, tearing up a **** soldier.

However, there were too many Yin soldiers, and they swarmed in completely and rushed directly to the base, in all directions, densely packed, looking at the endless.

“Antimatter bomb, blow up that shade of earth.”

Suddenly, Jiji calmly ordered, and ignored these invaders who rushed to the base, but issued instructions to the base’s suspended missile launch vehicle.

Suddenly, nine special missiles blasted out and dived into the shade instantly, drawing the attention and vigilance of the ghost master and the ghost mother.

At this moment, both the ghost master and the ghost mother sensed the crisis, their faces changed greatly, and they did not care for many directly raising their hands to blast their respective Xeon blows.

Click!

Several missiles exploded, and the special warheads contained inside were detonated, causing a horrible annihilation of the positive and negative material.

The crunching sound of Kaka Kaka kept coming, and a terrifying scene appeared. There was no terrible vibration in the center of the explosion, only the space that was constantly collapsing into nothingness.

“Positive and antimatter annihilation?”

The ghost master screamed, screamed violently, a black flag danced, rolled up endless ghost fire, and wanted to destroy these terrible annihilation forces.

However, unfortunately, both the positive and negative matter are annihilated, all matter is instantly annihilated and disappeared, faults appear in the space, and a large area of shady soil is directly turned into nothingness, including the soldiers inside.

“Ah ... I can't spare you!”

The ghost mother screamed, and three of the nine devils outside the body were instantly annihilated by the power of the antimatter explosion.

The terrible antimatter annihilation force, like a black hole, swallowed endless matter, and the entire broken shady soil was annihilated on the spot.

“terrible!”

Dong Li looked pale and looked at the material swallowed up by the antimatter annihilation force. The shady soil was gone, and the Yin soldiers were swallowed up, leaving only empty nothingness and continuous collapsed space.

Even the Pangu continent was affected, and the ground continued to weirdly disappear, as if it had been wiped out.

The power of terror has deterred those more than a dozen patriarch-level commanders, all backing away, avoiding them far away.

Eight black caves were devouring the surrounding material, and finally, under the violent resistance of the ghost master and ghost mother, they finally stopped devouring and annihilating.

“Jack!”

Looking at the destroyed Yin soil, countless Yin soldiers were destroyed, completely disappeared clean, seeing here, the ghost master and ghost mother are extremely angry.

Unexpectedly, he had suffered such a huge loss before he broke into the human race base, which is unbelievable.

“Kill, kill everyone!” The ghost master went crazy.

The ghost mother Li Xiao said, "Ah ... I want to extract the souls of all the peoples and burn them for ten thousand years."

The two forbidden areas dominated, led a large group of ghost ancestors to kill, and killed with only the remaining millions of ghost soldiers, and personally killed them.

"The ghost master and mother ghost are crazy!"

"Poor two old ghosts, this is where the enemy is undermined." A foreign commander sneered.

To the evil spirit clan, in fact, they are not as good as these races. It is natural to be happy to see the ghost master and the ghost mother eating crickets.

However, my heart is a little dignified, because the human race has mastered the science and technology of the Zhixing tribe, even the anti-matter conventional wisdom weapon, which is a huge threat.

The growth of the original human race's individual strength is terrible. Once you master the technology of the Zhixing race, the combination of the two will feel horrible.

This is like the combination of the human race and the Zhixing race, and the terrible fighting power that erupted is far beyond everyone's imagination, and even a little scary.

"You, the blood battle is here."

As soon as Yiji's hands were shaken, two terrible light blades emerged, revealing a super terrifying temperature, exceeding 10,000 times the central temperature of the sun, allowing her to condense firmly and block into two lightsabers.

"Dear everyone, let the foreigners see the pride of our Chinese nation!" Next to it, Chen Xi flipped the palm of his hand and took out a quaint silver war rifle, which exudes a strong killing gas. It is an ancient treasure obtained from Pangu.

"Come on, we Chinese people, who are we afraid of?"

"Kill him upside down!"

Various strong figures emerged, rushed out of the base, and a group of strong men returned from Pangu, led by Chen Xi, finally broke out, and a **** battle was inevitable.

They knew that they were not the opponents of the two ancestors of the first generation, but they did not hesitate to meet them, trying to make the last drop of blood.

"Mechanics, follow me!"

At this moment, Ji Ji wielded his blade of light, his face was cold, and he directly entered the combat mode. Instantly, a hot air wave swept away.

In her body, one after another the terrifying energy cores, which are the manufactured energy cores, are densely embedded in the body, erupting endless power, as if the sun is compressed by her In every acupoint of the body.

“kill!”

With a loud drink, accompanied by a large group of warriors wearing mechs rushing out of the base, the number was small, only 100,000 mech warriors.

These are the last details of the current Pangu mainland base.

Rumble ...

One hundred thousand mechs blasted out violently, and each of the fighters was robust and agile, with an aperture of electromagnetic energy blooming, and the defender's insidious body attacked.

“It is the fighter of the Zhixing clan.”

A group of alien commanders were depressed. It seemed to them that the Terrans seemed to have fully mastered the technology of the Zhixing races.

“The Pangu mainland frontier base is being invaded by foreign enemies.”

“Comrades, it is time to test our Chinese nation.”

“It's a man. Let's support the frontier base of the Pangu mainland and kill foreigners!”

“Kill the aliens!”

“Kill the aliens!”

At this time, all major bases in Huaxia had received their own letters Looking at the frontier bases of the Pangu continent being invaded by foreigners, all of the people in Huaxia were boiling.

Even the whole of Asia is boiling!

Countless Huaxia strong men participated in the battle, stepping into the quantum portals opened by major bases, crossing the barriers in an instant, and arrived at the frontier base of the Pangu mainland.

“Brothers, our Chinese people are not afraid of any race!”

“Those who commit me against Huaxia, though they will be strong!”

“Those who commit me against Huaxia, though they will be strong!”

Suddenly, a roar came from the base, and the sound grew louder and louder, and a burst of blood flew into the base for nine days.

The next moment, a crowd of people came from the base, all of them from all over China. They were all angry and angered, and rushed out to fight.

One million, ten million, eighty million, one hundred million, a full one hundred million Chinese people rushed out of the base, overwhelmingly, seeing Dongli and millions of half-demon terrified, they turned around and ran.

Chapter 626 - Human blood and evil spirits, Xixi ability: river of life

boom!

One hundred million Chinese people rushed out, their blood was so high that they flooded all directions, and made countless creatures in Pangu mainland tremble.

That share of who I am, the kind of immortality, the indomitable, fearless death momentum, condensed into a force, shaking the earth.

“Wo!”

Dong Li turned pale, and ran and ran. Millions of half-monsters ran straight and ran. There was no way. Suddenly, a hundred million Chinese people rushed out. They were all crazy, killing them without fear. .

“The tribe is terrible.”

“Don’t be afraid of death.

“I have smelled the blood of the ancient people.”

A dozen alien patriarch marshals retreated hundreds of kilometers at once, all of them horrified, watching the hundreds of millions of Huaxia people pouring out of the base over there.

They were completely stunned, remembering for the first time the majesty of the ancient human race, the vastness, the fearlessness of the blood of any race, the indomitableness, and the spirit of war.

“Everyone, the sword is bloodied, kill the evil spirits!”

Along with a loud scream, countless Chinese people were enthusiastic, blood-stained with long knives, and unstoppable, dyed red weapons with tragic and hot blood, and slashed the evil spirits.

The ancient human race, the blood, never extinguishes. Once the war is burned, the blood stains the sky, the sword stains the heart and blood, and all evil can be cut.

“kill!”

The shouting and screaming shook the earth, shocked the entire Pangu continent, and felt that the beast belonging to the Chinese people, even the ferocious beast, were dormant.

At this moment, the Huaxia nation swore the first time to the alien race. We are unyielding, and we are not afraid of any race. Anyone who violates our Huaxia, although strong, must also kill.

“Ants!”

The ghost master watched a hundred million Chinese people killed, his face was somber and he snorted coldly, and then gathered the broken shady soil behind him, condensing endless yin.

“Golden soldiers, kill!”

At the same time, the ghost mother also fired into the turmoil, and suddenly, a forceful yin soldier re-emerged, killing from the broken turmoil, dense and endless.

These are the evil spirits that are dominated by the two forbidden areas. They are gathered by tyrannical forces. The number of evil soldiers is huge.

Rumble ...

Terran, Yin soldier, two forces collided violently, with a bang, the Pangu continent trembled slightly, the horrible atmosphere tumbled and interspersed, and they continued to collide and kill.

The blood of the human race is strong, the evil soldiers are raging, the heat is hot, the cold is intertwined with each other, and they are not interceding with each other, they are evenly divided.

“Kill, kill me Hua Xiawei!”

The strong roared, the sword was stained with blood, chopped down one after another, and slashed the Quartet, marching forward, and no one flinched.

Participants forgot about life and death at the moment when the battle began. There was only one idea: to kill the other party and destroy the enemy.

“Xi Xi, can you do it?”

At this time, in the middle of the battlefield, a group of human race masters guarded a petite figure, which was Xi Xi.

Everyone looked at her, and saw Xi Xi nodded solemnly, saying, “I try. It may be difficult to use such a large-scale river of life for the first time.”

“It’s okay, just do your best.” Chen Xi grabbed her little hand and comforted her, and said in her ear: “Xi Xi, Brother Qin said, you are the most important person in our entire China, and he is also a sinner An indispensable person. “

boom!

Chen Xi’s words, if a thunder, exploded in Ji Xi’s mind, the figure of that profound soul emerged, it was Qin Tiange.

Xi Xi stayed, echoing Chen Xi’s words in his heart, did Qin Tiange ever say this?

Regardless of not saying, but Xi Xi directly determined that Qin Tiange had said that, an instant, a mood that had been suppressed in her heart broke out.

“Brother Qin said I can, then I can do it!”

Xi Xi murmured to himself, suddenly a bright light bloomed from her body, revealing a strong air of life, immediately attracted the attention of many powerful people.

“what?”

“So strong of life.”

“That is...”

A dozen patriarch-level alien commanders were stunned. From the perspective of the eyes, when they saw the night full of immense light, the body had changed, and the human body was displayed in front of the world.

Seeing this, these ancestors had no change in color, and were horrified, looking at the night that was full of rich life.

“Damn, Xi Xi’s identity is exposed.” In the distance, Dong Li, who fled away, was gloomy and growled angry.

I saw, Su Xi suddenly flying up, floating over the hundreds of millions of Huaxia people, holding up his hands, as if condensing something, a powerful wave of life came.

“The river of life, now!”

Suddenly he sang aloud, and then he saw that beneath the earth and above the sky, a force of life suddenly emerged in all directions, turning it into a huge river.

It was a long river of life, directly enclosing hundreds of millions of ethnic troops, one by one as if wearing the battle clothes of life, the whole person was shaking, and the combat effectiveness soared by 30%.

“The river of life?”

“She is the son-in-law?”

A loud scream came, and many powerful creatures that were attracted were shocked. Watching Xi Xi even condensed a long river of life and directly integrated into the army of hundreds of millions of Chinese people.

Suddenly, the human race erupted, and the fighting power suddenly increased by more than 30%. Each of them was fierce and fierce, as if suddenly they could not use up their power.

“Wo, kill!”

“The son-in-law?”

“Hahahaha, my descendants of our mother-in-law and daughter-in-law appeared.”

“Brothers, kill!”

Seeing Xi Xi’s appearance, hundreds of millions of people flashed a thought directly in their minds, that is the son-in-law’s descendants, directly thinking that Xi Xi is the son-in-law’s descendants.

Feeling the surging vitality in the body, the strength is sufficient, the combat effectiveness is bursting, one by one, he is constantly excited, constantly wielding weapons, and killing the infinite Yin soldiers.

boom!

Many human races were penetrated by the Yin soldiers, and they were about to die, but they found that their wounds were healing, and they were not hurt when they were injured?

Yes, there is no pain. Piercing the heart will not die. Instead, the essence of life instantly repairs the wound and restores it.

“Son-in-law, son-in-law!”

For a moment, hundreds of millions of people roared, the sound of the waves was soaring, and the warfare soared, and everyone’s eyes became red because they found out.

Being wounded by the enemy without dying is unbelievable, and naturally inspired everyone’s determination to fight more fearlessly.

“kill!”

The outbreak of hundreds of millions of people is equal to 100 million dead men. How terrible that is, the invaders have been killed one after another.

However, if you look closely, you will find that as long as someone is attacked and damaged, you will see that the river of life condensed by Xi Xi is weakening, and it is decreasing.

It turned out that Xun Xi’s ability was to bless the entire group with the river of immortality. As long as the river of life is not exhausted, it can already be an army of immortality.

That ability was discovered by Qin Tiange inadvertently, and he immediately made a decision in his heart.

“Xi Xi, you are here, we are going to block the ghost master and ghost mother.”

Chen Xi came up, gently wiped Xiang Xi’s forehead, said softly, then turned, and rushed to the opposite side of the battlefield.

“Xiao Qian left to protect Xun Xi, others killed with me and stopped the ghost master and ghost mother!”

With a swift drink, Chen Xi rushed up first, and behind them, Shicang, Liyu, and others broke out of their extreme forces, each of which launched the strongest combat power and rushed up.

On their bodies, they are all covered with a battle suit of life. As long as the river of life is not dry, they are unbeatable.

Unless someone kills Xi Xi, or the river of life is exhausted before this terrible ability disappears, never think about killing someone protected by the river of life.

“It turned out to be a river of life, a means of son-in-law.”

“Kill that contemporary son-in-law.”

The lord of the ghost was so angry that he and his mother raged together to kill Xi Xi. As a result, Chen Xi and others flashed to block the way and launched a fierce attack directly.

“court death!”

For a time, a ***** battle was staged. Four Chinese ancestors, with a dozen first emperors, madly stopped the two main restricted areas.

As for the rest of the ancestors, they were madly stopped by other masters. They killed themselves and piled up directly with the number of people.

“Stop them!”

“Jane until the leader returns.”

Chen Xi immediately spread his voice throughout the battlefield, attracting the attention of hundreds of millions of Chinese people who were fighting fiercely below. Some of the king-level masters were determined to vacate and joined the battle circle.

“kill!”

A series of strong figures rose into the sky, and all the people above the king level vacated, one by one, madly besieging the ghost ancestors and holding them.

The fierce battle of the strong, bursting out a terrible wave of waves, shaking the earth, causing terrible consequences, the space was beaten into turbulence.

boom!

The ghost master slashed in one hand, dozens of strong vomited blood on the spot, his bones were broken, but he was firmly blocked, and the life suit blocked most of the power, and even recovered his injury.

This group of people continued to kill after the vitality of their lives was restored, regardless of the fact that they had to change their lives.

“Junk stuff!”

“Then kill you first.”

The ghost master and the mother mother were furious. As the first ancestors, their strength was quite horrible. Those who played below the ancestor level had no power to fight back, and even the four ancestor levels such as Chen Xi were mistreated.

If it hadn't been for the river of life, they would have been bombarded and killed for a long time, and now they are still able to persevere.

However, at this time, Xi Xi was in a bad condition, the corners of his mouth were bleeding, dripping blood dripped from his nose, and ticking off, his body was shaking constantly.

She is suffering tremendous pain, the river of life is under numerous attacks, and it is decreasing.

“Xi Xi, what's wrong with you?” Long Xiaoqian looked panicked, looking at Xi Xi's appearance, could not help worrying.

Xi Xi shook her head, gritted her teeth and did not speak, her gaze was firm, and she had a figure in her heart that made her stubbornly persist unwilling to lose.

“Xi Xi, come with me!”

Suddenly, a figure quietly came over the battlefield and appeared directly in front of Yun Xi, making her and Long Xiaoqian look greatly changed.

The person who came was Dongli, and he came quietly to take away Xixi forcibly.

“roll!”

Long Xiaoqian faced, blocking in front of Xun Xi, a weird black scepter was standing in front of him, and a little black gas surged around, and a terrible thing emitting only black mist quietly appeared around him.

“Mom, there are bad guys, watch me hit him.”

At this moment, a clear voice came, and a nine-inch-tall girl turned and turned into a beautiful warrior wearing a battle armor and holding a spear.

“Look at the gun!”

This beauty, punctured by a single shot, cracked in space, stabbed directly at Dongli’s eyebrow, sharp and swollen, scaring his heart almost jumped out.

Chapter 627 - Monsters come to help, terrifying

With a click, the tip of the gun swallowed, tearing the space, and stabbed in the east from the center of the eyebrow, only three millimeters away. The sharp head cut the skin of the center of the eyebrow.

“Ah ...” Dong Li exclaimed, his body flew back quickly, and he avoided the blow.

He looked horrified, looking at the extra graceful figure in front of him, which was the demon monster that Long Xiaoqian got.

The three-inch-tall guy had grown to nine-inch-tall, but she did not expect that she could be transformed into a peerless beauty, holding a general turquoise fight.

“Bad!”

The beauty was drinking tenderly, and her voice was so immature, as if it were an adult body, a two-year-old child’s voice, wielding a shot to pierce through the void, leaving Dongli full of black lines and blue tendons.

“Let’s die!” He howled, a spirit of anger rising from behind, and turned directly into a horror demon wheel.

With a short slap, the demon wheel collapsed, was pierced and broken by a shot, and then the stab was stabbed in his chest, almost piercing the heart, scaring him pale.

“Kill you!” Xiao Yi Yijiao drank, and the spear wrapped in a mysterious force, which could pierce the space barrier, and instantly drew it on Dongli’s cheek.

With a bang, Dong Li was beaten and flew away, his cheeks cracked, blood and water spurted, and his nose was crooked.

“Ah ... I want you to die!”

Dong Li was so angry that she was furious, but did not wait for him to erupt, and Xiao Yi showed up behind him with a fierce shot.

He smashed into the sky, crashed into the ground, set off a huge smoke and smashed a huge pothole.

“Yeah!” Xiao Yi Yijiao sang, her body disappeared suddenly, and then there was a horrible shock coming from the ground, and the ground rolled and exploded.

Someone was blasted out, thrown up high, vomiting demon blood, his face was pale, his eyes were full of fear.

Dong Li was snored. As the ancestor, he was abused by a nine-inch-tall villain, and he had no resistance.

“Ah ... you wait, I'll be back.” Dong Li screamed angrily, and then turned away and fled.

However, Xiao Yiyi was already standing in front of him with a smile, and a shot stabbed, and a clicky hole penetrated his shoulder, provoked Dongli, and shot him over his stomach.

boom!

Poor Dongli, was beaten together by Xiao Yi, the whole body bones were cracked, the heart was almost pierced several times, his left face was broken to the right, and he began to suspect that the demon was born.

“Ah ... the demon star is broken, oh.”

Finally, the tortured Dongli exploded a star nucleus, which directly turned into a demon force, and disappeared in a blink of an eye, and fled.

He was tortured to death, almost lost his life, and eventually ran away.

“Oh, why did you run away, Yi Yi hasn't hit enough?” Xiao Yi Yi looked dissatisfied and looked very angry.

But the next moment, her body trembled, and she woke up to her original nine-inch height, her face pale, and her breath seemed a little weak.

“Yi, are you okay?” Long Xiaoqian flashed immediately, hugging Xiao Yiyi gently, and asked with a worried look.

Xiao Yiyi smiled weakly and said, “Mom, Yi Yi is tired and wants to sleep ...”

Talking, she just fell asleep like this. The power that Xiao Yiyi just exploded was not lasting, but was a kind of torture by the power of the future.

Yes, Xiao Yiyi has a secret power in her body, she can borrow her own strength in the future, it is extremely mysterious, but unfortunately it cannot last.

cry...

At this moment, there was a shocking phoenix from the sky, and then, a blaze of flames swept through the sky.

The flames of the sky were raging and raging for nine days, attracting the attention of many powerful people.

“It's Phoenix ...”

“Here comes the Phoenix!”

Finally, someone cheered in surprise, and saw the huge flame of the Phoenix swooping down in the flames that swept across the sky, and opened his mouth to spit out an endless phoenix fire.

Suddenly, the phoenix **** fire drowned countless Yin soldiers, burned on the spot, and disappeared into smoke.

“Ha ha ha ha, this handsome guy is back.”

Then, with a wild laugh, a colorful bird was born, instigating colorful wings, swept down by a colorful flame, drowning the Yin soldiers.

It was a colorful parrot, and it came back. Moreover, the breath was extremely tyrannical, and it rushed directly into the army of the Yin soldiers to kill and kill them. Wherever they passed, the colorful **** flame burned countless Yin soldiers.

cry!

Behind the colorful parrot, a dazzling divine bird dived down, wrapped in the sky, and sprinkled with horrible flames.

It was Suzaku, and Nanming Lihuo was burning all over his body, and the colored flames burned the soldiers one by one.

Three ancient divine birds appeared, rushing all the way, burning the Yin soldiers piece by piece, watching them startled.

Even more startled, with the emergence of three divine birds, led by the fire phoenix, colorful parrots and suzakus, left and right, followed by a large dense cloud, and various roaring birds covering the roar of the sky. Come.

“Hahaha, here comes the reinforcements, kill!”

Seeing this, hundreds of millions of Huaxia people laughed and slashed wildly. For a time, they defeated the Yin soldiers and suffered heavy losses.

Especially with the emergence of the fire phoenix, even the emperor-level evil spirits could not stop it, and it was completely slaughtered on one side.

Bang!

To the west, a horrible voice suddenly came, and a horrifying killing swept away, and the soldiers who were passing by were beaten into smoke.

“kill!”

A white figure emerged, holding a snow-white battle, smashing the sky, rushing into the army of the army of soldiers and killing them. Wherever they went, no one army could compete.

Bai Hu’s main killer, Huniu came, and her strength was overbearing, and none of her soldiers was her opponent.

“Hey, grandson!”

When Huer flashed a golden light, he saw a monkey with a golden body, sweeping it with Optimus Prime.

The Monkey King Sun Wutian is here, carrying a huge Optimus Prime, and behind him are nine dozen dozen tall black apes, roaring and fierce.

Behind them, a monkey in armor alone appeared, densely packed, rushing out of the base and joining the battle directly.

“Baby, kill!”

Li Xiao, the beautiful monkey king, waved Optimus Prime and slammed away all the opponents, aiming at two ancestors.

With a bang, three figures staggered, Sun Wutian’s demon power was shocking, and he even shocked the eyes of the two ancestors when he was alone.

“Purdu sentient beings!”

Suddenly, a Buddhist horn came out of the base, and a ray of light spread, and the invaders that surged in were suddenly burned to ashes.

A graceful figure emerged quietly, holding a jade bottle, and aimed at numerous Yin soldiers, swallowed in.

Miaoshan came, leaning on a golden chakra of Buddhism, stepping on the golden lotus, holy body, with a kind of compassion, he directly subdued countless invaders.

“Dash, you look for death!”

Thirty-six generations of ancestors who followed the master of the ghost raged, and eighteen rushed out immediately to kill the strong men who came to support China.

“Get back!”

Suddenly, with a tender drink, a lot of lotuses came across, a click, the void collapsed, and then a huge green lotus emerged and pressed against the heads of eighteen generations of ancestors.

Above the green lotus, the little devil’s face was cold and cold, and his eyes were full of slaughter. At the foot of the green lotus, nine lotus flowers of different colors all around bloomed instantly, covering all directions.

“Divine land, forbidden!” The little demon drank savagely, hitting one side of the divine land, even wrapped in eighteen generations of ancestors, rushed into the space, and disappeared.

The emergence of the little fairy, who directly held the eighteen generations of ancestors into the turbulent space of the land with God’s soil, made people have to shock her arrogance.

“Goddess scattered flowers!”

Suddenly, twelve graceful heavenly girls descended from the sky, falling endless petals, delicate and delicate, but containing terror and murderous power.

I saw that the Twelve Heavenly Girls dispersed directly, and the middle area became a world, looming, as if nine heavens.

As soon as the Twelve-Day Girl appeared, she directly enveloped the twelve second-generation ancestors with the nine-day wonderland, and then disappeared into the void.

“Damn!”

Looking at the 30 ancestors who were taken away, eighteen generations of ancestors and twelve second generations of ancestors were taken away.

The remaining eighteen generations of ancestors were furious and killed in an endless fierce fire, and were about to launch a killing ring. As a result, a figure blocked the way.

“Your opponent is me.”

Xunji waved a pair of light blades, expressionless, and a stream of data flashed in his eyes. The entertainer was completely a machine full of destruction.

Her body is made by herself, cloned from immortal bones and immortal hearts, and the core of energy is an artificial sun placed in each acupoint.

That’s right, there are countless artificial suns densely packed on my body. As the core of energy, the whole body can burst out of energy beyond imagination.

boom!

I saw her body suddenly light up, a scorching air flow sweeping through it, with the light blade transecting, the space was burned through.

The eighteenth generation of ancestors frightened and fought back, and found in horror that the power of self-denial was too violent, and it was simply not human.

She is not a human at all, but artificial intelligence The body is a terrible artificial body, which contains horrible energy. Hundreds of thousands of artificial suns are compressed in the acupoints of the body. You can imagine that scene ?

“burst!”

I had a cold drink, and an artificial sun suddenly burst into my body, and the double-edged blades ignited a horrible flame. It was 10,000 times higher than the center of the sun, and cut directly through the body of a generation of ancestors.

“Ah ... she’s not a creature, not a creature ...”

“Get rid of her!”

The ancestor of the beheaded generation screamed in horror, shocked the other fifteen generations of ancestors, and looked at his own expression differently.

With a click, the light blade was cut off, and the first-generation ancestor was directly chopped off by his own self.

“You, you are the star ...” The ancestor’s words did not finish, and the body disappeared into a ash.

“Kill!” Qi Ji sipped coldly, wielding a pair of horrifying light blades, and killed the remaining fifteen generations of ancestors, completely unleashing the terrorist power contained in the dense artificial sun.

Chapter 628 - Self-explosion, star power

“Starburst!”

With a yell of drink, accompanied by the self-inflicted temptation, hundreds of thousands of artificial solar energy sources in the body erupted at the same time, giving off endless energy.

boom...

A super horrible light burst out of my body, and how much energy did hundreds of thousands of artificial sun burst out?

Just look at the current self-confidence. You wave the light blade of your arm, the endless light and light are released, and the space is burned through.

With a click, the sword had been cut, and the space in front of it was burned through. Then the bodies of the two generations of ancestors turned into an ash, which was burned directly.

The powerful first-generation ancestors were burned, and the super-horror energy was burned before they could resist.

“Ah ... the power of the stars.”

“Come on!”

The remaining 13 generations of the first ancestors were terrified, turned and screamed and ran away, and the power of the self-eruption surpassed the ancestors of the first generation, reaching the terror power that can only erupt from the stars.

At this moment, the self-confidence released endless energy, as if a star was about to explode, and that terrible energy wave collapsed the surrounding space.

The power of super starburst, even the self-control, can not be controlled, only to vent to the thirteen generations of ancestors.

boom!

The horrifying starburst force was released, the nothingness was penetrated in the front, the space was clicked and collapsed by the earthquake, and the thirteen generations of ancestors became molecular structures without even responding.

The violent starburst energy directly broke into the sky and penetrated the atmosphere. The blast hit the moon and instantly exploded a 10,000-meter crater. The entire moon was shaken by the powerful thrust from its original orbital number. Ten meters.

“Star power?”

I was so furious here that the outbreak of super energy scared countless powerhouses, especially the two masters of the forbidden zone, the ghost master and the ghost mother, who were shocked.

Only two of them know that the stars beyond the ancestor can soar the stars and cross the universe without any influence.

This level can only exist in the universe, because once it explodes, it is equivalent to the super energy of a star.

One punch and one palm is enough to destroy the stars, which is quite horrible. I did not expect that I could burst out of infinite energy close to the star.

“Damn, kill her now!”

The ghost master was furious, watching the energy released by his own body still getting stronger, and even had the terrible degree of breaking into the star star, he couldn't sit still.

The ghost master and the ghost master dominated the forbidden area and directly gave up Chen Xi and others, tearing up the space instead, and they both broke out into the Xeon power and severely suppressed the erupting self.

Bang ...

In the area where Jiji is located, the earth is sunken within a few kilometers, everything is burned, and endless light and heat are released. Many people can't open their eyes.

With no expression on her face, her armor was burned to ashes, leaving only a raging flame burning, intense light and heat released, and the space was burned through.

“I can't control this energy. Just after releasing 180,000 artificial suns, can't I control it?” Jiji calmed down.

It is indeed artificial intelligence, without a trace of panic, but quickly calculating how to control this out of control energy.

In the body, she directly compressed a full 500,000 artificial suns, and just released 180,000 energies at the same time, she lost control. This made her miscalculate.

“The ghost master and ghost mother come just right, and use their power to release the uncontrolled stellar energy in the body and test the star data for the master.”

Watching the ghost master and the ghost mother come to kill her and want to kill her, he was not shocked, but calculated the best solution very calmly.

I saw that her body was almost burned to ashes. If it were not for the two immortal characteristics of immortal bone and immortality, it would have collapsed instantly.

boom!

As soon as Jiji soared into the sky, he threw a punch at the two energies and made a loud noise, and the combined force of the ghost master and the ghost mother was blown out.

With a click, the surrounding space of the ghost master and the ghost mother collapsed on the spot, and then, the uncle drew a punch and released endless energy into the starry sky.

A fierce battle broke out among the three powerful men. The bigger and more fierce they were, the fists fought, and the space was shaken a bit, as if the power of a star explosion.

“Super starburst, kill!”

Suddenly, I have a cold drink, the whole person is like a sun, even brighter than the sun ten thousand times stronger.

Suddenly, her body melted, but at the most critical moment, she released all the energy of the 180,000 artificial sun bursts in her body.

Rumble ...

An endless light burst out of space, as if a star exploded, and the intense light stabbed many creatures on the earth, unable to look directly.

What's more terrible is that this explosion of energy almost shattered the atmosphere. The terrible explosion seemed to have died of a star, and a full 180,000 artificial sun burst. All the energy was released, and the space was blown up.

“what...”

A scream came from the center of the explosion, and a huge murderous figure floated above the starry sky, his body was broken and his body was almost blown up.

Not far away, half of the ghost mother disappeared, turned into ashes, was burned through the body by infinite light, and was screaming screamingly.

The ghost master and the ghost mother were suffocated by the blow of their own self. They could not avoid it at all, and were directly burned to serious injuries and died.

If the two forbidden areas dominated the two terrible creatures that survived the ancient times, they might have been killed directly this time.

However, even if it does not die, the ghost master and the ghost mother are the two masters of the forbidden zone. Their bodies are blown and rattered, leaving only a little broken body, poor and miserable.

Looking at such miserable ghost masters and ghost mothers, everyone couldn't help the cold, especially those of the ancestors of the alien races, who were all terrified and ran straight.

There is no way, the power demonstrated by Jiji is too horrible, that is, beyond the ancestral level, reaching a horrible level, star power can travel the stars.

This kind of strong man, with one punch and one style, is like the power released by the explosion of the stars, which is really destroying the sky. It is not a myth that raising hands to pick the stars.

“horrible!”

“This tribal branch is terrible.”

“Go, leave first, and wait for Grand Marshal to lead the army.”

For a time, the ancestors of the ancestors who watched the battle were all terrified, turned around and ran away, afraid to continue.

Due to the sudden outbreak of Jiji, the entire battle situation changed drastically, and the two masters of the forbidden zone, the ghost master and the ghost mother, were seriously injured by her.

But she couldn't be better, and her entire body was gone, completely destroyed by the energy released by the hundreds of thousands of artificial suns.

Even so, with hundreds of thousands of artificial suns that ignited other artificial suns that had not been burned and released energy in the body, they burst out.

Rumble ...

The power of a super-star explosion has destroyed the earth and the earth, and the earth has been affected. Many creatures have been stabbed in the eyes by terrible strong light, and have been knocked down by the shock wave generated by the explosion.

The powerful explosion smashed the atmosphere and rushed into the earth, affecting a large area and causing a lot of movement.

“Ah ... the power of Stellar?”

In space, the ghost master, who was already dying to death, screamed and roared in horror, blew his own body directly, wrapped in the true spirit, and escaped through the air.

“You wait ...” The scream of the ghost mother screamed, and she also exploded her broken body in an instant, and the energy escaped wrapped in the true spirit.

If you don't escape, it will be completely destroyed. This explosion was too powerful. Hundreds of thousands of artificial suns were ignited and released, and then a brain leaked out.

The glare ceased for a long time. When everything in space became calm, there was no ghost master, no ghost mother, and no self-existence.

She disappeared, was instantly torn by the energy of hundreds of thousands of artificial energy cores, and the calculation was wrong, and this was the price.

“I'm self, I'm self ...”

At this time, on the battlefield of the Pangu mainland, Chen Xi stared blankly at the horrific explosion light, and the space was lit.

When everything subsided, she immediately connected to her self, but unfortunately, her self had no response, there was no response at all, which made her heart sink.

“I have an accident.” Chen Xi looked a little gloomy.

Fu Ji, but Qin Tiange's personally edited artificial intelligence has made a tremendous contribution to Qin Tiange and Huaxia.

Even her meritorious value surpassed many people. If she died, it would be a huge loss for Huaxia.

“Kill all the ghost soldiers!”

Suddenly, Chen Xi roared, and the anger and frustration in her heart needed to be vented, and she shot directly into the Yin soldier team.

Headed by her, dozens of Huaxia masters broke into the fragmented shady soil and lost the two masters of the ghost zone and ghost mother to the restricted area. This battle can already be said to have won half.

Huh!

At this moment, a gurgling came from the space, and then a huge battle flag passed through the space, banging into the body of a ghost ancestor and bursting on the spot.

A battle flag hunting, herringbone crickets, killing through the sky!

“All the battle flags have passed through my territory!”

A low roar came, the heavens and the earth moved together, and the space shattered and shattered, and a mighty army came out, which was the soul of 100,000 ancient wars.

The head is a general, holding a battlefield and sweeping the battlefield. No evil spirits can stop wherever he goes, even if the ancestor-level ghost ancestors were killed on the spot, and then swallowed.

“Human war banner, the emperor’s immortal guard?”

An exclamation came from nearby, and then a soul turned and fled, watching the 100,000 emperor’s immortal guard appear, representing Qin Tiange’s return.

Huh!

Sure enough, A figure emerged from the broken space, with a strong breath, sweeping the entire battlefield, crushing countless Yin soldiers, and being slain on the spot.

Qin Tiange Han faced, and carefully held a broken head in his left hand. It was the head that was left after his body was crushed. On the right hand, he was holding two groups of crazy struggling energy groups, which were the true spirits of the ghost master and the mother, and were screaming and madly struggling.

“The ghost master and the ghost mother have already fallen asleep, and the victory belongs to our Huaxia, compatriots, kill all the enemies that hinder the rise of Huaxia!” Qin Tiange Senran ordered, instantly bursting the entire battlefield.

“It’s the leader!”

“The leader is back!”

“Kill!”

For a while, there was a roar of excitement roaring throughout the battlefield. Hundreds of millions of Chinese warfighters broke out in horror, and morale skyrocketed.

The tyrannical ghost master and mother ghost have been destroyed. What else can stop China’s footsteps? The Chinese people swear to all major alien invaders that no one can stop the footsteps of China’s rise.

Chapter 629 - The strongest under the stars

The Yin soldiers were defeated, and they were defeated by the Huaxia army. In the end, the broken Yin soil was beaten into powder.

Bang ...

With a human war flag inserted into the shade of the earth, the whole shade of earth collapsed instantly and disappeared completely.

Without the supply and blessing of the Yin soil, the number of Yin soldiers dropped sharply, and then was directly submerged by the hundreds of millions of Huaxia army, strangled clean, and none remained.

A sudden war finally came to an end. Countless Yin soldiers were hanged, and even the evil spirits, including the ghost emperor, the ghost emperor and the ghost ancestors, were annihilated. The victory belongs to the Chinese nation.

“Those who commit me against Huaxia, though they will be strong!”

Suddenly, a roar came from the battlefield, and immediately exploded countless Chinese people, everyone shouted, surging blood, roaring skyward.

That slogan, “Those who commit me against China, though they must be strong!” Shook the entire Pangu continent, shook the earth, and made the pioneers of all ethnic groups tremble.

The powerful ghost master and mother ghost were defeated, and the remaining true spirits could not escape, and Qin Tiange caught and suppressed them in the palm of his hand.

All the Yin soldiers were killed, the Yin soil was destroyed, the Yin soil that came down from the ancient battlefield of the Tianwai Terran, and the soul-eating restricted area was finally completely destroyed.

After this war, the prestige of Huaxia will tremble all ethnic groups and make those pioneers of all ethnic groups who came to the earth tremble and dare not come again.

“Yanji, do you have to work so hard?”

At this moment, over the battlefield, Qin Tiange looked at a broken head in his left hand and couldn't help sighing.

This skull was left behind by his own self, and was protected by his last critical moment, otherwise it must have been torn into powder by the energy of the hundreds of thousands of artificial suns.

What makes Qin Tiange speechless is that Jiji dare to lock hundreds of thousands of artificial solar energy cores into the body's acupuncture points and use them as a source of energy, making her bursting energy infinitely close to that of the star-strength strong.

This phenomenon and its horror, but I have no way of manipulating this terrible energy, beyond too much, can only get out of control, and eventually caused myself to die out.

Even after being rescued by Qin Tiange, he still suffered huge trauma, severely damaged his intelligence, and was completely paralyzed at this moment.

“Hengxing, the first step into the cosmic starry strong, self-confidence, thank you for all your attempts for me, rest assured that I will make you fully recovered and even stronger.”

Qin Tiange looked up at the starless sky and muttered to himself. In fact, this is all for Qin Tiange, paving the way for his future promotion, it is a new attempt and challenge.

The evolution from one to ten stars, then the king became the king, the emperor, the emperor, the second ancestor, the first ancestor, and the first ancestor. These are just the highest levels of a race on the planet.

But above the ancestor, what level is that, and how powerful is it? Qin Tiange didn't know much about it, even couldn't understand it intuitively, but Jiji tried to take the initiative to see what he called the higher rank of the so-called surpassing the ancestors of the early age and the ranks of star power.

Only by becoming a star, can you truly cross the void, travel the Xinghai, and become a true star power.

Below the stars, they can only be powerful men on the ground, dominate the ground on the ground, but they cannot step into the starry sky and travel the Xinghai.

“Me, are you the strongest under the stars now?”

Suddenly, a smile appeared on the corner of Qin Tiange's mouth, and he looked at the starry sky and said this.

The strongest under the stars!

Qin Tiange can now kill the first ancestor, regardless of the second generation, the first generation, or the first generation. It can be considered the strongest under the stars?

“Brother Ye ...”

At this moment, a weak voice came from the battlefield. Qin Tiange turned his head and looked away, only to find that Xi Xi's figure was crumbling, his breath was weak to the extreme, and his nose and mouth were bleeding.

“Xi Xi!” Qin Tiange flashed forward, catching Xi Xi's body lightly, frowning, “You used the genetic origin to force action, it was seriously damaged, and the true spirit was backwashed by the river of life.”

“Brother Ye, you said that I could do it, and I did it now.” A smile appeared on Wan Xi's pale pretty face, very happy.

Qin Tiange sighed in his heart, sighed in secret, when he first met Xi Xi, he thought of using her only. Now thinking, he seems to be too utilitarian.

Qin Tiange was so unhappy that she was such a pure young girl who was pure and honest with him and trusted him. Was she too selfish and thought of using everything?

“Brother, what happened to Xi Xi?” Long Xiaoqian was extremely anxious.

Qin Tiange looked up and comforted her by nodding her head: "It's okay, with me, she will be able to recover soon, but your cheap daughter Yi Yi, it seems to be a bit serious."

Then, Qin Tiange took out a group of true spirits, which are powerful true spirits belonging to the ghost mother, and even if damaged, still exudes a powerful breath of energy.

"Do you dare ..." The ghost mother was furious and roared, desperately trying to explode the true spirit, but was locked up by Qin Tiange with time and space.

With no expression on his face, Qin Tiange directly crushed the true spirit of the ghost mother, smelting on the spot, and crushing all the impurities and harmful conscious bodies inside with the force of time and space.

In the end, there was only a pure source of the true spirit, ancient and majestic, extremely vast, divided into two strands, one large and one small.

A large source of true spirits allowed Qin Tiange to enter Xi Xi's eyebrows, restore and repair her damaged soul, and restore her injuries.

The small one, as Xiao Yi's ration, restored her injuries that were damaged by forcibly borrowing her own strength in the future, and repaired them one by one.

"Uh, it's delicious ... Uncle, Yi Yi still has to eat."

I saw Xiao Yi, hiding in the sachet, suddenly poked out her head, snoring, and yelled at Ye Qing with a sweet smile.

Qin Tiange froze and looked at Yi Yi strangely. This little guy, every time he saw him before, shouted at the bad guy, but now he changed his voice to his uncle.

"No, you have eaten it, and quickly go back to sleep to digest it." Qin Tiange said with a smile.

Xiao Yi Yi muttered her mouth, retracted unhappy, and went to sleep. Long Xiaoqian was surprised when watching Xiao Yiyi's changes, because she always taught Xiao Yiyi not to call Qin Tiange the bad guy, but the result was not effective.

I never thought about it, but after giving her a bit of true energy to eat, she changed her mouth. Maybe this is the nature of a child. Whoever treats her is kind.

"Brother Ye, I'm back." At this moment, Xi Xi stood up slowly, permeated with a strong breath.

She felt that the true spirit was unprecedentedly powerful, absorbing most of the true spirit energy of the ghost mother, and obtained great benefits.

"It's okay. I'll leave it to you afterwards. I'll go back to save myself."

Qin Tiange glanced over the battlefield and saw that there was no threat. Then he left directly and wanted to go back to save his self.

After all, Jiji currently only has a broken head. If he is not treated in time, he may never return.

"Brother Ye, go!"

“Brother, just leave it to us here.”

Xi Xi and Long Xiaoqian nodded earnestly, watching Qin Tiange disappear into the void and disappeared. The two looked at each other and rushed into the final battlefield.

There are still many ancestors who have not been killed there. This time, the masters of the evil spirit clan were surrounded by human masters and madly besieged.

Qin Tiange was not required for the final finishing work, but he turned into a black particle and disappeared in the Pangu continent, and returned directly to the headquarters of Shangjing Base.

Qin Tiange quietly emerged from the back room of the Ministry of Science and Technology. This secret room was completely sealed off. There was no doorway, and only Qin Tiange could enter easily.

“Yourself, come out.”

When he came to the main engine room, Qin Tiange shouted, and saw a light and shadow appearing in front of him. It was his own figure, but it was not the subject, but an intelligent son of his own.

“Master, the subject is badly damaged. All the sub-avatars must be assembled to restore the subject’s intelligence.” Xun Zizi said blankly.

Qin Tiange nodded and ordered: “Immediately recall all sub-avatars and work together to repair your self-maintenance.”

“Yes!”

The avatar immediately issued instructions, and immediately, the princely avatar system at the major bases in Huaxia returned immediately and directly integrated into the subject’s intellectual brain.

In the main room, his broken head suddenly floated, and a stream of data emerged around him, quickly circling around him, gradually turning into a small piece of data.

Data liquefaction is like a real ocean of data, and it looks amazing.

“Don’t you want to be a real soul?”

Suddenly, Qin Tiange murmured to himself, and smiled, “I will complete you today, and let you become a living being with the true spirit.”

As he said, he turned the palm of his hand, and a piece of golden paper emerged, which was the last page torn from the mysterious book.

“It’s the first time to create a true spirit, self-sacrifice, this is my gratitude for your selfless help to me.”

After Qin Tiange finished speaking, he struck his own broken head into a golden symbol, and mysterious symbols beating one after another crazy into his own intelligence.

Suddenly, a wonderful rhythm emerged, as if a trace of true spirit was born in the ocean of data.

“Not enough!” Seeing here, Qin Tiange frowned, and took out the true spirit of the ghost master without saying a word, crushed directly, did not listen to his warning, and directly smelted his true spirit into the ocean of data .

Suddenly, the sea of data boiled, and there was a wave of true spirit. The true spirit wave, as if a brand new soul was printed out by the ocean of data.

Gradually, the head floating in the ocean of data recovered miraculously, and the flesh and blood of the disappearing body was being printed out quickly.

This is a miracle. It is the creative process of life. The self-recovery has been restored. Moreover, the intelligence has completely transformed into a real being, and the first true soul has been transformed.

“Thank you, master!”

Ji Jiyi opened her eyes, her eyes were dazzling with tears, and she naturally knew what Qin Tiange had done, created her own true spirit and even her soul, and became a real life.

Chapter 630 - Watered with 0 family blood, first heard of the life court

Life is a miracle!

The birth of Jiji is a miracle, and now another miracle is created, that is, she successfully gave birth to the true spirit, which belongs to the natural life of the universe.

“Congratulations, congratulations!”

Qin Tiange nodded with a smile and looked at his perfect rebirth self-rebirth. It was considered that he had completed the first rebirth in the true sense. Only with the soul and spirit can he be regarded as a real life.

Xiji walked slowly, hugged him gently, and laughed: “Master, Jiji can feel the temperature of the master, it is real, and the real sense of the soul breath is wonderful.”

Qin Tiange shook his head, pushed her away, and warned solemnly: “Remember, you can’t put so many artificial energy cores in your body in the future. Once it explodes, you’re finished.”

“No, the owner is assured that I have obtained the most reliable data after trillions of trillions of calculations, and there will be no problems.” I said with a smile on my face.

She didn’t remember these words at all, but thought, continue to try, to successfully break this limit, and then she can have a powerful force to follow Qin Tiange instead of being distanced.

Seeing that she didn’t listen to her own advice, Qin Tiange smiled bitterly: “Well, pay attention to yourself, don’t kill yourself, then I won’t make a second self.”

Xi Jiqiao blushed, and smiled softly: “The master doesn’t, he is the only one. There will be no other **** in the world, and I will not die unless the master you die.”

She buried her head gently in Qin Tiange’s arms and mumbled, “Master, unless you are dead, your own self will always exist. If your master falls someday, the meaning of your own self will be gone, and you will follow The master disappeared together. “

Snapped!

Qin Tiange patted his ass, and cursed with a smile: “A good future is waiting for us, you say this frustrating word, please fight!”

“Master, Jiji is serious.” Jiji was photographed and looked at him shyly.

Qin Tiange couldn't help crying and said, “Okay, hurry up and do business. This battle has completely established our reputation in China. Pioneers of all races will not come over for the time being. We must seize the time to develop and give them before the arrival of the alien troops. I have accumulated enough knowledge. “

“Yes, master!”

Ji Ji immediately became serious, quickly entered the working state, and carefully implemented Qin Tiange's next plans and orders.

Saying goodbye to his self for the time being, Qin Tiange disappeared into the secret room of the Ministry of Science and Technology and appeared directly in the highest conference room of the Shangjing base.

Here, a large number of high-level Huaxia leaders have gathered, all of them are in charge of the bases, all are here, waiting for his leader to appear.

“You worked hard!”

Qin Tiange emerged quietly, scaring everyone present, and seeing that it was his leader who was relieved, and at the same time, he was even more awed by the leader.

He's out of control, so powerful, he never knows how strong he is. Anyway, Qin Tiange's combat effectiveness has been extremely terrible.

“leader!”

A group of people saluted Qi Qin Tiange, the supreme leader of Huaxia, and the most mysterious and powerful one.

Qin Tiange nodded, and he said slowly after everyone was seated: “This time, you are indispensable for the unification of Asia. You will count the achievements and rewards of the major legions.”

“At present, China has just unified Asia, and many of them are still unstable. Please go back first and work hard to stabilize your respective regions. Be sure to be unbreakable.”

“Three days later, post-war rewards will be distributed uniformly, and you only need to receive your own rewards at the Heritage Stone Tablet.”

“Party!” Qin Tiange said, turning around and disappearing without waiting for everyone's response, leaving a group of senior officials at each of China's major bases.

Even the older generation generals such as Qi Shao and Mu Hua were speechless and full of black lines. Before they announced, the leaders ran away?

“What is it called!”

Mu Hua smiled bitterly and pulled away the same dumb Lieutenant General Qi Shao. These old generals had originally wanted to retreat and enjoy their old age.

But Qin Tiange left after talking, and didn't let them talk at all. Now, a group of veteran generals complained. They are all old bones and wouldn't let go to spend their old age?

“Submit the resignation to the leader, let's step back.”

“Yeah, now Huaxia depends on those young people. Look at this war, what can we old bones do?”

Qi Shao, Mu Hua, Xia Ming and other older generals laughed bitterly, and presented the resignations directly to the Supreme Leader.

They are about to withdraw and give the opportunity to the young strong generations, so that they have more stages to play and make more contributions to the Chinese nation.

Three days later ...

The sweeping of the war was completed, and there was no other foreign race dare to set foot here in Pangu mainland, the vast area to the east.

With the war of China in the First World War, foreign pioneers and even the ancient beasts of the Pangu continent dared not set foot here, which is completely a foreign restricted area.

“leader!”

Over the Pangu mainland base, Qin Tiange appeared, watching the densely packed army inside and outside the base, all of whom participated in the battle this time, the number exceeded 100 million.

Looking at all the Chinese compatriots who were trembling and fighting, Qin Tiange was satisfied that this was the true blood of the nation, which was sharpened by blood and fire, and was unyielding and never compromised.

“My fellows, we are victorious!”

Qin Tiange gave a loud shout. Suddenly, the scene was soaring to the sky, countless people shouted loudly, and the terrifying sound shook the entire Pangu continent, frightening many foreign pioneers who thought that the human race had come and was nervous for a long time.

“Damn Terra!”

The Pangu continent, Tianzhu Mountain in all directions, and the outlines of the cities began to be built. Here are all the locations of the pioneers of the alien race.

Listening to the horrific sound waves coming from the east area, the imposing momentum, the flesh and blood, swept across all directions, the kind of unyielding will, and made the aliens tremble with fear.

In particular, this time destroyed numerous Yin soldiers, destroyed the Yin soil, and killed two ancient demons and powerful creatures Ghost Master and Ghost Mother, which created a strong name for Huaxia.

The slogan “Those who commit me against China, though they must be strong!”, Echoed constantly in the minds of their respective creatures, showing the unceasing will to kill the sky, making them trembling.

“Hurry up the city and build the interplanetary gate to bring in big troops.”

Those foreign pioneers commanded, and the ancestors of the ancestors ordered one by one, all of them were iron-faced, and felt very shameless, because they were scared away.

What’s more shameless is Dongli, who was completely abused by Xiao Yi and escaped after burning a star core.

As for the millions of half-monsters he brought, they have already fled away, hidden on the vast Pangu continent, and dare not venture into the area of the Huaxia Pangu mainland base.

“Dad, this is the captive captured by Lianer!”

At this point, the little fairy stepped on Qinglian and happily came to him. I saw that she waved Nine Lotus Terraces, threw eighteen generations of ghost ancestors, raised her small face, and looked at him with expectation in her big eyes, as if waiting for Qin Tiange’s praise.

Qin Tiange was surprised. He was somewhat surprised to see that the goblins had suppressed eighteen generations of ghost ancestors.

“Hahaha, it is indeed my daughter. Good, Lianer, you are doing well.” Qin Tiangehaha laughed and patted her shoulder gently.

Hearing his father’s compliment, the little fairy was excited and waved her fist and said, “Daddy, how do these captives deal with?”

“the host!”

At this time, the twelve fairy-tale females quietly emerged, came to Qin Tiange, and threw away twelve ancestor-level ghosts.

These are the twelve second-generation ancestors, all suppressed by the twelve-day daughter.

Qin Tiange looked at the ancestor Li Gui, who was caught by the twelve-day girl in front of him, and the eighteen generations of suppressed ancestors. A smile appeared on his face, which scared the ghost ancestors.

“Aren’t we lacking resources in Huaxia?” Qin Tiange said lightly, and then laughed: “The ancestors of these foreign races are all treasures, and the blood of the ancestors is the most precious, so they are suppressed and squeezed out Blood of the first ancestors, as a reward for all participants in this battle. “

“Every participant can get a drop of ancestor blood as a reward for participating.”

As soon as this word came out, hundreds of millions of participants in the entire base and even outside were boiling, countless people were excited, their faces flushed, and their breathing was quick.

The blood of the first ancestor, what a precious thing, is to extract the whole body essence blood of the first ancestor class creature as a treasure medicine, once taken, it can accelerate the blood vein gene return to the ancestor itself.

The meaning of Qin Tiange's words is to use these captured ancestors to drain the blood of their ancestors and provide them to the Huaxia people for training.

If you do n't have resources, grab them. You must not only grab the resources of the alien clan, but also use them as a source of strength to train your own strong men.

"Leader! Leader! Leader!"

The wave of cheers rose higher than the wave, and the atmosphere of all people reached its peak. The recognition of Qin Tiange became more profound and even more respectful.

Only such a leader can bring huge benefits to the entire ethnic group and allow everyone to enjoy the resources they deserve.

"No, you can't do this."

"You violate the rules of the life court. The judge will not let you go."

The ancestors roared in horror and struggled, but unfortunately they couldn't escape the lotus repression of the little fairies, and they couldn't move at all.

Qin Tiange stared blankly, staring sharply at him, and murmured, "The court of life? Is there really such a cosmic institution?"

But he said indifferently: "No matter who it is, I can't stop the rise of Huaxia and the entire human race. Take it, don't let them die, let alone commit suicide. Give me the endless blood of the ancestors in their bodies Squeeze them out and feed them as the source of the ancestor's blood until we don't need them in China. "

"Yes!"

The leprechaun and the twelve-day girl immediately stayed the suppressed ancestor-level evil spirits, ready to squeeze the blood of the ancestors in their bodies, and distributed them as a reward to the 100 million participants.

One hundred million, one drop per person, isn't it going to blow up one hundred million drops of ancestral plasma? Thinking of this, some ancestor-level ghost ancestors rolled their eyes on the spot and fainted.

"Pass me an order In the future, whenever we encounter hostile alien aliens who are above the imperial rank, they will be arrested, and our next generation of Huaxia will need these alien resources to grow up." Qin Tiange Lightly issued this order, showing endless fierce blood, extremely bloody.

This is to use the life corpses of extraterrestrial races, water their own next generation to grow, nourish with alien blood, and grow from the nutrients of alien races.

“What a terrible Chinese leader!”

“It’s too cruel, is it wrong for us to come here this time?”

Some strong foreigners watched the situation here in secret, and saw Qin Tiange’s fierce decision. They were all terrified. They watched the 30 ancestors being raised as the source of the blood of the ancestors.

What’s more terrible is that Qin Tiange issued a decision that made the hundreds of people in the starry sky cold, that is to suppress the strong of the one hundred, and to use the blood of the one hundred people to irrigate their next generation to grow.

The terrible decision stunned the aliens, and made all the alien aliens who are currently hiding on the earth tremble. In the face of the fierce East Asian ethnic group that gradually grew up, the aliens couldn’t help shivering.
