

Dark Ages 661

Chapter 661 - Mystery of the Broken Star, Forgotten Land

Wudang Mountain, Taihe Temple, two Taoist priests, one old and one young, came out.

The two were actually one of the eighteen sages, Zhang Sanfeng, and a young priest beside him was an unscrupulous priest.

“Teacher, someone is here.”

The unscrupulous Taoist said something softly, and looked strange, apparently sensing the breath of Qin Tiange, which he was very familiar with.

Zhang Sanfeng stroked his long beard, and arched a hand and laughed, “The emperor is coming, and the old road has a long way to go.”

“I’ve seen the leader!” The shameless priest saluted seriously.

“Haha, Zhang Zhenren, you are not invited, but don’t blame it.” Qin Tiange walked out of the space with a smile.

Qin Tiange smiled and nodded at the unscrupulous Taoist, and then looked at Zhang Sanfeng.

I saw Zhang Sanfeng bowing and saluting, and asked: “Princess, please inside.”

The three entered the main hall, where people had already gone to the building, and it was deserted for a long time. If Zhang Sanfeng had not returned, it would be ruined.

In the hall, the three sat cross-legged.

“I wonder if the Emperor came here to find the old way?” Zhang Sanfeng asked in doubt.

At present, Huaxia’s interior is relatively stable, and the threat of external forces has been reduced to a minimum. Those foreign pioneers have long been hidden on the Pangu continent, which is difficult to find.

This was feared by Qin Tiange’s killing, hiding, waiting for the main army of various ethnic groups to arrive, so Huaxia is still very safe.

Qin Tiange thought for a while and asked, “Zhang Zhenren, I want to ask, have you ever appeared in history, how did you come back, and how did you leave the earth?”

He came to ask about this question, especially Zhang Sanfeng, a Taoist ancestor, who is a household name. He founded Wudang at the beginning of the Ming Dynasty to promote Taoist culture.

It seems that this rumor is true. People were originally ancient ancestors of the Upper Era. They came back several times, but for preaching.

However, because the earth was blocked at that time, Reiki was almost thirsty, that is, the dark energy of the universe was inexplicably blocked, so it was impossible to cultivate.

The sages of all ages have tried to come back many times, trying to preach their ancestral lands, but they all ended in failure. Zhang Sanfeng wanted to be the last one.

“Well, it’s a long story.” Zhang Sanfeng sighed suddenly and said slowly: “These are no secrets. Lao Dao, like other sages, wants to return to the ancestral land to spread Taoism, preach and preach. The ancestors can cultivate and grow. “

“Unfortunately, because the ancestral land was blocked by an inexplicable force, the communication with the universe’s aura was blocked, resulting in the aura being exhausted and unable to cultivate.”

“Lao Dao came back three times in total, this is the third time, and finally saw the seal of the ancestral land broken, ushering in the era of cultivation.” Zhang Sanfeng said with a sigh of relief.

Recalling the past sages who spared no effort to return to their ancestors to do their best to spread the Taoism, but failed.

“Hundreds of princes, the sages of all ages have returned, without exception, no matter who returns to the ancestral land, they cannot bring their own tribe into spiritual practice, because there is no aura to draw them down.”

“Even if the cultivation resources brought back from the starry sky, only a small number of talented disciples can be cultivated, which has caused previous sages to give up their plans to return again.”

After hearing this, Qin Tiange was lost in thought, and did not expect that there were so many ancient sages returning to the earth’s ancestors, and the hundreds of ancestors may be the transmission of these ancient human strong men.

But unfortunately, the earth’s ancestral land was sealed, which blocked the communication with the dark energy of the universe, which led to the exhaustion of the aura and the inability to cultivate.

“Then please, real people, how did you leave the earth?” Qin Tiange is most concerned about this issue.

The earth is in a three-dimensional world, which is the edge of a high-dimensional world. How did their sages break through the barriers of dimensions and enter higher dimensions?

Is it really the broken void?

“Broken, soared!”

Zhang Sanfeng said two words, broken, soaring, really there is such a legend? But Qin Tiange frowned suddenly, because he felt that he couldn’t do it now, so he could barely shuttle in the solar system.

What’s going on with this broken fly?

Just listening to Zhang Sanfeng said: “Actually, the so-called broken and ascended means that after reaching the star level, he can cross the void.”

“As long as there are interstellar coordinates, you can swim in the sea of stars, but you also need a star guide as a guide.” Zhang Sanfeng said, taking out a thing.

This is a jade plate, which is engraved with dense symbols, which attracted the attention of Qin Tiange and the unscrupulous Taoist priests, staring at this jade plate.

“This is the star guide, which guides us to the bridge between the ancestral land and the broken star. On the side of the broken star, the sages have joined forces to build a large array of voids, which can lead the strong with the astrolabe to fly. Zhang Sanfeng’s explanation made Qin Tiange frown.

He took the astrolabe and examined it carefully, and realized the mystery in it. He soon discovered that this is a kind of traction. Once the priming is started, it will immediately cause the large array of voids on the broken star to start and open a starry channel.

“Zhang Zhenren, do you still have this thing, I want one.” Qin Tiange’s eyes flickered, and he suddenly said this sentence.

Zhang Sanfeng seemed to have expected that, taking out another jade plate with a smile, it was a brand new star.

“People, this is a brand new star star. In fact, when you are at the king level, you can activate the power in this astrolabe, which will lead the large array of voids on the broken star to attract people, but it is a bit dangerous.” .

Qin Tiange looked at this astrolabe and looked at him and asked, “Real man, why not build a large array of voids in the ancestral land, the two arrays are connected and directly open a permanent ascension door?”

“What?” Wuliang Taoist stared, looked at Qin Tiange, and was astonished that he had this idea. He deserved to be a leader, and the idea was different.

Zhang Sanfeng smiled bitterly and explained: “It’s not that you don’t want to build, but you can’t, because the force of the two formations is enough to cause the space channel to collapse, and it will be destroyed by strong foreigners.”

That’s right, once a permanent ascension channel is set up, it is clear to tell the Starry Clan that the ancestral land of the people is here, and then we can welcome countless masters of foreign races to come in.

“Is there no secret passage?” Qin Tiange frowned, somewhat dissatisfied.

At present, if Huaxia wants to develop rapidly, it must go out. Even if a few people go out, it is a breakthrough. Once they break through their own famous places outside the starry sky, and even gain a greater chance, it is a great opportunity for the earth. Good thing.

That’s why he wanted to ask these ancient human sages who came back to see if they could build a stable channel to the aliens.

“Yes, yes, the only hidden channel in all ancestors is Ziwei Star. This was created by the former three emperors using their own resources.” Zhang Sanfeng said bitterly.

After listening to his eyes for a moment, Qin Tiange hummed, “The former three generations of emperors must all come from the ancestral home of Ziwei?”

“Yes!” Zhang Sanfeng shook his head with a bitter smile, and said, “In the last period, there were three emperors, the first emperor in the early days, who was in office for 3.3 billion years, and finally died.”

“The second emperor, who lived 3.1 billion years, died in the end.”

“The third emperor, also the last emperor of our clan in the previous period, was killed in the catastrophe. My clan was almost destroyed under that catastrophe.”

When Zhang Sanfeng talked about the catastrophe of that year, he still had a guilty expression on his face. I can imagine how terrible the catastrophe of the past is.

The entire human race was almost extinct, and the remaining human races hid directly into the depths of the starry universe and hid.

Or, some of them have returned to their ancestral concealment, such as Ziwei Star, and there are a large group of old ethnic antiquities.

“That is to say, the three emperors of the previous period only constructed the hidden and fixed channel of Ziweixing to the stars, but the other ancestors did not?” Qin Tiange blinked his eyes and muttered to himself.

From this point of view, it is unfair for the emperor to use the resources of the entire human race to create the secret channel of Ziwei Star. How selfish is that?

Is it because he is from MSI? Is there no credit for the other ancestral land?

“Well, the Emperor said one and two, no one can change the decision, and opposition is useless.” Zhang Sanfeng sighed helplessly, his expression gloomy.

Qin Tiange thought for a while and asked, “Live, where is the broken star, and in what area is the starry sky?”

Wow!

After speaking, he directly hit a light curtain, and a vast starry sky chart appeared on it, in which the Milky Way was in a corner.

Zhang Sanfeng looked at this extremely complete starry sky map, his heart was inexplicable, his beard shook with excitement.

“Complete starry sky chart, oh my god, how is this possible?” Zhang Sanfeng looked flushed and shivered with excitement.

It's amazing, he didn't expect Qin Tiange to have such a complete starry sky map, it is incredible, because none of them are sages.

"This is how I devoured various powerful creatures, and even swallowed two foreign ancestor spirits, and forcibly extracted them from the memory of their true spirits." Qin Tiange said these words in a calm tone.

The calm tone chilled the unscrupulous priests aside, and a little cold sweat came from the back.

"My lord, look, the broken star is here, this is the star." Zhang Sanfeng calmed his excitement, pointing to a star in the Milky Way and Orion's arm.

Qin Tiange zoomed out and saw the star, surrounded by layers of strange nebulae, that is the broken star.

"1000 light-years from Earth, this is the broken star you said." Qin Tiange understood after seeing it.

His eyes flickered ~ www.mtlnovel.com ~ Staring at this area is completely the edge of the Milky Way, as if it was a forgotten place.

"My queen, the area where the Broken Star is, is a forgotten place in Tianhe. Few foreign creatures enter it, and the people who survived the previous period of our people are hidden there." Zhang Sanfeng said the secret news.

In the previous era, although the human race almost defeated the tribe, some of them remained in the corners of the universe.

The Broken Star is a force that left the earth's ancestors in the previous period, and remains in the forgotten land, waiting for the family to rise again.

"Thank you for your understanding, I will leave first."

Qin Tiange stood up and said goodbye directly. What he should know already knew that his purpose had been achieved this time.

This time I went back to study the star, and even see if we can build a quantum transmission channel between the two places.

The quantum transmission channel with a distance of 1,000 light years is an extremely difficult task. Once completed, the earth's humanity will be able to break through the dimensional blockade silently.

Chapter 662 - Top Secret Plan, Weasel Emperor

Shanghai, Ministry of Science and Technology.

Qin Tiange returned here and directly invited the highest person in charge of quantum technology, an old man named Puji.

He built the quantum transmission technology. He is the top in quantum technology in the entire Ministry of Science and Technology.

“Leader, what’s the matter with me?” Pu Lao hurried to the back room to meet Qin Tiange, the supreme leader.

After closing the door to the back room, Qin Tiange drew his own projection and began a secret talk with the three old Pu.

“Pu Lao, I came to you, there is something I want to ask you.” Qin Tiange said after a little silence.

He took out the star guide and said, “I want to ask, can our quantum transmission technology be able to perform 1,000 light-years of safe transmission?”

“One thousand light-years?” Pu Lao looked for a moment, almost did not respond.

Then he frowned, lost his thoughts, and smiled bitterly: “Leader, in theory, quantum transmission technology can be transmitted to any distance, but we have never done such an experiment. Is the goal of 1,000 light years too far away?”

“Not far, what I’m talking about next will involve a top-secret plan for Huaxia in the future.” Qin Tiange warned solemnly.

Fu Ji and Pu Lao looked serious and immediately listened carefully. The top secret plan was an absolute secret. It was an honour to participate in this plan.

“You see, this is a map of stars and seas, a part of the universe, a map of the sky, including the Milky Way, extragalactic galaxy and other 18 huge galaxies.”

Qin Tiange first opened a starry sky map and pointed to the Milky Way above. Among them, there is a star on the edge of the Orion’s arm. It is a broken star.

“This is the Broken Star, where the people from the last era of our human race are hidden. This is the place where those sages who had walked out of the earth were.” Qin Tiange’s words surprised Puji.

“And this jade plate is a star star, which can lead a person to the broken star, which is what the plan I will say next has an important role.”

Holding the star guide, he solemnly reminded: “At present, if we Chinese and even earth humans want to break through the three-dimensional solar system’s dimensional barriers and enter the four-dimensional galaxy, we must endure all aspects of danger and pressure.”

“Because the Hundreds of Stars have come to hunt our humans, we are currently in the attention of the aliens, and it is very dangerous to rush out boldly.”

Qin Tiange said that the concerns are not unreasonable. Among the hundreds of stars in the sky, the young juvenile legions came to hunt on the earth, which attracted the attention of the major races.

Once the earth annihilates the hundreds of armies that come to hunt, it will cause the attention and vigilance of all races in the starry sky. If the earth’s humans break out of the dimensional barrier,

will it usher in a greater blow, such as a super-dimensional blow, it will directly Mankind once again returns to the primitive era.

This is possible. In order to be safe, Qin Tiange still feels that he has taken a different approach and secretly built a cutting-edge base for a high-dimensional world.

Fang Ji turned his eyes and asked, “The host means, do you want to build a Chinese frontier base in this broken star?”

“Yes, this top-secret plan is to create a cutting-edge base for a four-dimensional world. We must do both things.” Qin Tiange said solemnly.

He went on to explain: “In the future, Huaxia will definitely be out of the solar system, but that will be a long time later. After all, our population base must meet the standards for out of the solar system. Otherwise, it will hurt if we lose too much. Move your bones. “

“The first phase of the interstellar development plan is the solar system. We must make all the nine planets of the solar system into powerful starry fortresses.”

“The second plan is to combine these completed star fortresses to create an interstellar fortress based on the solar system, which contains the major war fortresses such as the sun, earth, Mars, Mercury, Jupiter, Saturn, Uranus, and Neptune. “

Qin Tiange’s words shocked both Jiji and Puji. Just thinking about it, the entire solar system was built into a super fortress.

“Master, is that so?”

His own eyes flickered, and a quick calculation sketched with excitement, and soon, a picture was drawn on the virtual light curtain.

That was the original map of the solar system, but it was occupied by a giant, that is, the super galaxy fortress in the second phase plan, occupying the entire solar system space.

This galaxy fortress will encompass the entire solar system, all things of China and even human beings on the earth. There are nine planets inside, plus super weapons such as star stingers. This is enough to break out of the solar system and directly start the entire solar system into four dimensions Inside the space world.

“Gum, what about the third stage?” Pu Ji swallowed and smacked, then asked the next stage.

Qin Tiange smiled and shook his head. “The third stage is still being conceived. At present, as long as we complete two stages, we will be able to survive in the four-dimensional space.”

“Even if it doesn’t work, you can start from the frontier base of Broken Star, so Pu Lao’s task is to study the quantum transmission technology and see if I can

simulate distance transmission of more than 1,000 light years.” Qin Tian Ge solemnly made a request.

Pu Lao looked solemnly: “Leaders rest assured that I will do my best and I will produce a long-distance quantum transmission that can achieve more than 1,000 light years as soon as possible.”

“Very well, this plan is classified as top secret. Only the three of us know. As for the indicators and sub-tasks of the plan, they will be separated and dispatched for each department in the Ministry of Science and Technology to complete.”

Qin Tiange said, took out the star guide, and said, “Pu Lao, you take this star back and bring in the hands to conquer the technology inside. Thinking about it will have great inspiration for our quantum transmission technology.”

“Yes, leader!”

Pu Lao took Xingyin and left the back room. Only Qin Tiange and Xunji were left here.

“Dad yourself, you are going to prepare. I need a million star-level artificial warriors. After solving the main force of alien races this time, I will go to the broken star to see if I can build a quantum teleport. Door, at that time, I must build a star-level artificial warrior. “Qin Tiange stared at his self seriously.

The latter nodded earnestly, she said, “The owner is assured that the core of the current artificial energy is close to 40% of the sun. Once it exceeds 50%, it will have half the energy of the real sun and make a star-like artificial God warriors are definitely feasible. “

Qin Tiange bowed his head: “That’s good, you look at it and study the sun as soon as possible. In the future, we will create countless artificial suns to be used as the core energy of our second phase of the galaxy fortress.”

“Furthermore, apart from some scientific and technical personnel, I plan to use artificial **** warriors, except for some scientific and technological personnel. You’d better prepare me fully. By then, the army of artificial warriors I need will not be in the minority.” Qin Tiange warned again.

“Yes, master!” Qi Ji looked dignified, knowing that Qin Tiange had made up his mind. The top secret plan did not include other human soldiers, and even the Chinese elite forces did not want to take them away.

This was for confidentiality, because he didn’t want some people of the Broken Star to know that he came from Earth, and wanted to secretly build a huge frontier base there.

“You go first. I still have something to do. Let’s go first.”

After the final explanation, Qin Tiange rose into a black particle and disappeared in Shangjing, leaving Huaxia and even Asia.

This time, instead of appearing on Earth, he came to Mars and looked at several battle cities that had been completely completed.

“Battle City has been completed, and the next step is to carry out the next plan.”
Qin Tiange looked at the completed Battle City with a smile on his lips.

He looked towards the earth and murmured, “These battle cities are not the only ones I guard. They must be guarded by the entire earth.”

“Dear oneself, the second phase of the Mars battlefield plan has begun. Let the forces of all continents on the earth contribute a share of it. Think of it, they will not refuse to come to Mars.” stand up.

He did not build a battle city on Mars, but he wanted to connect these battle cities to the continents of the earth, and let the human forces of other continents come to guard a battle city.

For example, in North America, Europe, Africa, and so on, the major human forces must contribute their strength to the earth’s resistance to alien races.

The battlefield is on Mars. This is one of the most important reasons for Qin Tiange to open up the Martian battlefield.

“Understand. Began to open the quantum portal and the units evacuated.”

With the order of Jiji, technicians who had been hidden in all continents, some robots immediately constructed and opened a quantum portal.

Next, it was the movement here that attracted the attention of the powerful forces on all continents, and they sent people to check it out.

The results are self-evident. The discovery of this quantum portal, even when it is close to the most powerful forces on these continents, has attracted shock and speculation from high-level human forces.

Soon, as the major forces sent people to step into the quantum portal to check, the news came back as shocking, it turned out to be Mars.

Well, there are ten huge cities on Mars, surrounded by a huge space-time wormhole. When you see this, bright eyes can see it, and you can’t help the cold.

“Huaxia, it must be the Huaxia people.”

“Fack!”

In the North American Alliance, the president was angry, and with the appearance of the quantum portal, Mars entered the eyes of all major forces.

Huaxia has built a huge base on Mars, and even built a magnificent defensive city. With a total of ten, Huaxia has occupied four battle cities.

But the five huge battle cities that have been vacated are for the human forces from these continents to come. Will you come or not?

Qin Tiange used Yangmou to tell all human forces that he has stepped out of the earth. If you want to catch up, you must come to Mars.

When Mars comes and occupies these constructed battle cities, it must bear the impact of the main force of the alien army from the wormhole in space and time.

“Come on, go to Mars and occupy a city.”

Finally, the three deities of North America, South America, and Europe, the Gods of Africa, the major human forces, and the major forces in Oceania all sent people to occupy a city.

For a while, the human forces on Earth sent troops to Mars ~ www.mtlnovel.com ~ sending scientific and technological personnel to Mars to investigate, research, mine and so on.

For the first time, the human race has truly stepped out of the starry sky and completed the first great leap.

This time, it was a space race directly initiated by Qin Tiange. Human strength on all continents began to develop space weapons and other technologies.

Especially in North America, the scientific and technological strength was originally very strong, and now seeing Hua Xia even went to Mars to establish a city base without knowing it, it was simply frightening them.

As more and more humans on the planet gathered in the major battlefields of Mars, at a time, they were overcrowded, forming a huge momentum, and guarding this wormhole in space and time firmly.

When the alien creatures knew the news, they almost did not spit blood, and the space-time wormhole was surrounded by the earth's human beings. Would n't they just wait for the arrival of the alien army and then annihilate it in one fell swoop?

“Cunning King!”

“hateful!”

The anger of the major alien clan powers and vanguards hidden on Earth was frightened by the news.

Chapter 663 - The mystery is broken, the beast comes

The Martian battlefield was opened, and the major human forces on the earth hit here, occupying a battle city cast by Huaxia.

For a while, the people who came to Mars were both excited and shy, because everyone who came here saw the eye-catching wormhole.

“Fack, there are wormholes here, where did the alien civilization come from?”

“Huaxia people are so cunning, let's keep Mars?”

The human beings from all continents were shocked, and the fools guessed that the alien species that invaded the earth came from the space-time wormhole here.

Some people were surprised and wondered if they could go through the space-time wormhole to aliens? Some people can't help but try it, and the result is miserable. This is just a one-way wormhole.

Everyone who stepped into that wormhole in time and space was torn into powder by the chaotic energy inside, because the reverse entry was not a wormhole at all, but a terrible flow of time and space.

After the death of a large number of people, these unsuspecting people are honest, but there are still many people starting to study this wormhole here.

I don't care about these Qin Tiange, as long as they can come here, they don't want to guard the battle city.

Once they do n't keep it, the aliens will hunt down and see humans directly. There will be no emotion or compassion at all. Killing is the only solution.

“The Martian battlefield has been set up, and next, wait for the army of various ethnic groups to come.”

In the atmosphere of Mars, Qin Tiange quietly looked at the ten battle cities below. In addition to the four battle cities occupied by Huaxia, the rest were handed over to other human forces.

Can't you deal with a dozen alien races on Huaxia alone?

On the Huaxia side, not only are the strong human beings, but also all kinds of heterogeneous life, and mutant monsters have come.

In Qin Tiange's words, as a native life, naturally, there is something to contribute to the earth, and there are a lot of zombies mixed in it.

This is the current situation in China and even in Asia. Qin Tiange ordered that all the monsters that generate wisdom must be registered, and even zombies must be re-registered and included in China.

As a result, the monsters in the entire Asian region are panicking now. One mutant complains about it, but he dares not to resist, and can only obey or leave.

The strength of the Chinese leader, even the fierce name has already deterred these creatures, whether it is native creatures or alien creatures, dare not easily anger this one.

“Master, there is an emergency.”

At this time, Ji Ji sent an urgent alarm, so Qin Tiange could not help frowning, instinctively scanned the wormhole of Mars, and found no abnormalities.

He connected to his ego and asked, “What happened, did something happen?”

“Master, suddenly there is a huge space crack in the orbit of outer space, spewing huge energy from it, and various land fragments and meteorites.”

Qin Tiange's words made Qin Tiange startled, then frowned, the figure disappeared on Mars, and appeared again on the moon.

He didn't stop, soared directly to the moon, floating quietly above space, looking at the orbital position of the earth's space.

There, a huge black crack traversed tens of thousands of miles, constantly pouring out a large amount of material, including broken earth and rocks, and a huge meteorite.

The spouting material swept out like a torrent, sweeping constantly on the stars, flying around the earth's orbit quickly.

"The mystery is broken?" Qin Tiange frowned slightly.

He could see at a glance that the crack was created by a mysterious fragmentation, and the crack entrance emerged directly from space, and infinite material poured out from it.

These substances come from the mystery, which is the debris that spurts out of that broken mystery, and is doped with huge and complicated energy to form a torrent.

From the earth, you can also see a blue-black energy light pouring out, as if a Tianhe crosses the sky, making people stunned.

"Master, there are too many of these energies and substances. If it continues to pour down, the whole earth's near-Earth orbit will be wrapped by these substances." The figure of his own self emerged and came to his side.

Her words are not unreasonable. If this mysterious area continues to spew large torrents of material and energy, it will envelop the entire earth.

However, Qin Tiange was not worried about this. The only thing that concerned him was whether there were ancient and terrible creatures hidden in the secret realm?

"I felt a domineering breath, extremely terrifying, and seemed a little familiar." Qin Tiange suddenly said this sentence.

After listening to him, Qin Tiange was familiar with the secrets that he had entered, and even the powerful creatures he had encountered.

Looking at the huge crack that was constantly blasting with energy and matter, Qin Tiange fell into contemplation, and did not pass, but watched quietly.

boom!

Some oncoming huge meteorite were easily crushed into powder by the fugitives, and the two stood silently watching the huge crack in space.

The huge movement here has attracted the attention of countless powerful creatures on the earth. Some strong aliens were shocked to see this crack.

"That was the rift created by the destruction of the mystery."

"Well, I sense a tyrannical biological breath."

"This breath makes my soul tremble a bit. What is it?"

The powerful creatures of the alien family hidden on the earth were horrified, all watching the crack, all guessing what was in it.

Because they are strong, they feel that there is a tyrannical breath hidden in the cracks in space, which is extremely scary.

The breath became stronger and stronger, as if something was coming out of the crack, which aroused the vigilance of human forces.

Especially in China, some strong men and eighteen sages all focused on the crack.

“This breath is so familiar and terrifying. I seem to have seen it before.”

Wudang Mountain, the unscrupulous Taoist stern look, frowned, looking at the huge crack in the sky, can be clearly seen from the earth.

The cracks are getting bigger and bigger, with a length of 50,000 meters. The widest place is even 20,000 meters. It is a terrible space rift.

Watching the torrent of energy and material rushing out, it became more and more terrible, and a rumbling vibration was transmitted. Even some energy and material rushed into the atmosphere and burned a gorgeous flame.

“Xer, what’s wrong?”

Jingnan, the retired General Mu Hua stood beside Xue Nu and asked gently. He looked at the huge crack in the sky, feeling a little heavy, which might be another disaster.

Huaxia has experienced several disasters. Fortunately, a strong leader has carried it down, leading the Chinese people through dangers and growing stronger.

Now, seeing this weird situation, the retired veteran inevitably has some worries.

Snow Girl looked dignified and murmured, “I have seen the breath there, and I have a deep memory. Without him, I might not live now.”

Snow Girl recalled that memory, which was her encounter in the mysterious realm of meteorology. At first, she almost fell into it. If Qin Tiange had helped her at a critical moment, she might have died.

Suddenly I felt the familiar atmosphere, and the memories that she had deliberately forgotten came out again, and I was foolish for a while.

Mu Hua beside him saw her granddaughter doing this, sighing inwardly, with a bit of bitterness on her face, not sure how to comfort him.

“coming!”

In space, Qin Tiange looked dignified, staring at the 50,000-meter-long crack, and sensed a wave of life inside.

boom!

With a loud noise, the crack trembled constantly, the void shook, and a lot of energy and matter shattered into powder on the spot.

Suddenly there was a horror in the huge crack, which shocked all parties, and countless powerful men looked inexplicably there.

I saw the black space cracks trembling violently, slowly squeezing out a huge head from inside, occupying the entire crack.

With just one head, it was 50,000 meters, which filled the entire crack and even cracked it.

“Xinghai giant?”

On the earth, a loud cry came, and many foreign strong men were startled, and looked at the behemoth struggling to squeeze out the cracks in space in horror.

A huge head, covered with dense and dense scales, shone with a cold luster, and the tusks were filled with the rays of crickets.

Especially the pair of eyes that gradually appeared, staring at the earth in front of them, and a burst of bloodthirsty longing appeared, as if they saw the supreme deliciousness.

It is a giant beast of the sea of stars, a giant beast that feeds on the stars, swims the cosmic starry sky, wanders in the dark and silent star sea, devours one star after another.

“His, how could there be a giant star sea here?”

“God, it turned out to be a star sea monster.”

Powerful figures emerged, hidden in the atmosphere, and they were shocked to see the huge beasts that came out of the cracks in space.

The Xinghai Beast, which is the rarest cosmic creature, is an ancient species that lives in a dark and dead universe and constantly devours the stars to grow, which is extremely scary.

No one had thought that the earth was hiding a star sea beast. Seeing it here, both humans and strong aliens were shocked.

“Oh my god, what kind of monster is this?”

“Okay, so huge.”

On the earth, countless humans everywhere looked up at the scene in the sky, and a terrible head was drilled in the huge crack, which was extremely huge.

The whole head was a full 50,000 meters in length, and it just broke the space crack, slowly drilled out, and struggled to tear the crack that blocked it.

Huh!

Stuck by a crack in space, the giant beast of Xinghai struggled hard, opened its mouth and roared suddenly, shaking the earth, shattering the atmosphere, causing raging winds on the earth, and the ocean setting off a huge tsunami.

The horrible roar, scared countless creatures lying on the ground, trembling, afraid to get up, that prestige was simply appalling.

Many people were stunned by a roar, and even those powerful aliens hiding in the atmosphere were stunned by a roar and fell directly into the clouds.

“The immense amount of that great deity, this thing turned out to be troublesome.”

The unscrupulous Taoist was startled. When he saw the Xinghai Beast, his eyebrows jumped and his heart could not help tightening.

Everyone who saw this Xinghai beast in the secret realm was frightened, because the Xinghai beast in the secret realm was not as scary as before.

Now, when I see this giant monster in the sea of stars, the skull is 50,000 meters in size, it is a monster that swallows up the sky, and it is still underage.

“It turns out to be a juvenile star sea monster. Good guy, if you can catch it and tame it, it will be a great help.”

“No, the news must be passed to my prince and let him come as soon as possible. This is the only chance to catch the young star sea monster ~ www.mtlnovel.com ~ to spread the news.”

For a time, those hidden strong stars of various ethnic groups were inspiring and immediately relayed the news. They wanted to let the princes and other masters of this tribe come to capture the young Xinghai giants.

Unfortunately, they soon discovered that the earth was shrouded in a mysterious magnetic field, and all information could not be transmitted out of the solar system.

“Damn, I can’t deliver the message, what’s going on?”

The strong men of all races were furious. No matter how they tried, they couldn’t get the news out. The entire solar system was blocked by a mysterious force.

Huh!

At this moment, there was a roar from space, and the beasts of Xinghai struggled, and their heads were struggling with a click, and the space was shattered.

Rumbling

I saw that huge head gradually squeezed out, a pair of front claws grasped the sides of the crack fiercely, tearing hard, the huge body crushed the void and squeezed out the space little by little.

Chapter 664 - Xinghai Monster, Terror Defense

“Xinghai monster, a little trouble.”

In space, Qin Tiange looked solemnly, looking at the huge giant that was constantly squeezing out the cracks in space, he really did not expect it to be this thing.

The huge beast that I encountered in the mysterious realm of the meteor even appeared again. I wanted to eat all the edible things in the secret realm.

As the mystery shattered, this star-beast giant trapped in the mystery finally appeared, and emerged directly in the Earth’s space orbit.

“Master, the life of this Xinghai giant is too huge to exceed the star star. Is it necessary to use the star killer to kill?” His dignified expression, a small virtual light curtain appeared in front of him.

Above is the energy data that she detected. The energy fluctuations emitted by this star sea monster are terrible, surpassing ordinary star stars.

Qin Tiange frowned after hearing it, but shook his head: "The star-killer is a secret. It has not been fully controlled at present and cannot be used easily."

"I don't know if we can catch this Xinghai monster and tame it. If it is feasible, we will have another ace." He said with a hint of excitement.

He looked at the giant beast, rolled his eyes, and said a little silently: "My master Ai, that's a giant beast of the sea of stars. Can we afford to feed on the stars?"

Yeah, the star sea monster is based on the planet food. Even if it can catch it, judging from the situation of this young star sea monster, the appetite is wide open, which is the stage of devouring the planet and how to raise such a giant monster. ?

Moreover, whether or not confrontation is still a problem. It is really not that simple to try to bring in domestication, which may cause greater trouble.

Huh!

The beast roared and kept struggling. The forelimbs and two claws struggled to tear the space, allowing its huge body to crawl out.

The rumbling vibrations in the space continued to burst, and they were crushed and crawled out by the huge body of the Xinghai beast.

It has been staring at the earth, and instinctually feels like it can become an adult as long as it swallows the earth. By then, there will be nothing in the starry sea to deal with it.

The young Xinghai giant will first penetrate into the center of the earth, eat the nucleus, and then swallow the entire planet little by little. The adult Xinghai giant eats one bite at a time, which is simply terror.

"It must not be allowed to enter the earth, otherwise, once it penetrates into the center of the earth, it will definitely be a huge disaster for our planet, and it will even destroy the earth." Qin Tiange said cautiously.

He stared at the star sea monster that stretched out the first half of the body. The entire body could be 100,000 meters in length, and it was unknown how many kilometers.

In addition, the Xinghai giant was detained in the mysterious meteorite, apparently extremely hungry, and was full of thoughts of devouring the earth.

"Go, stop it!"

Almost instantly, Qin Tiange made a decision, and black particles poured out of his body, wrapped in a twinkle, and came to the Xinghai monster.

The bodies of the two were like a grain of sand in front of the Xinghai Beast, and they looked so small that they failed to attract the attention of the beast.

"Pangu blood, drive!"

When Qin Tiange drank, his body was boiling with pangu blood, his body swelled, and he instantly expanded into a giant giant. His breath was overwhelming, and he caught the attention of the giant star monster, staring directly at him.

At this moment, a hot glow burst out of his own body, and the artificial sun cores lit, and 300,000 bursts erupted at once, as if instantly turning into a sun.

“Look, what is that?”

“Two people, are they blocking the Xinghai giant?”

With the emergence of Qin Tiange and Jiji, he stopped the Xinghai beast. Although Qian Zhang’s body was not worth mentioning in front of the Xinghai beast, it attracted many people’s attention.

In particular, the self-erupted light seemed to be a dazzling sun, and the powerful energy fluctuations attracted the giant star sea monster.

Roar!

He opened his mouth and roared, suddenly aimed at Qin Tiange and his self-released a powerful suction, swallowed.

The giant mouth opened, like a black hole in black paint, a horrible suction broke out, and even Qin Tiange and his own body quickly sucked into its mouth.

Seeing to be sucked into it, Qin Tiange was furious, and his body broke out of a powerful force. He broke out of this suction and flew up to the head of Xinghai Giant.

One thousand feet, a body of more than three thousand meters, compared with the giant head of a giant star sea monster of fifty thousand meters, is basically a small witch.

Hum!

Seeing Qin Tiange waving his arm, a terrifying power broke out, and a fierce punch hit the head of Xinghai Giant.

Hearing only a loud noise, the head of the huge Xinghai beast was trembling, howling loudly, but it was unharmed.

Yes, the Xinghai Beast was unharmed, and Qin Tiange’s violent punch was withstood. He could not even break the defense.

Qin Tiange was shocked by his powerful defense, and was shocked in his heart, but he spurred Pangu’s blood, and the power of opening the sky inside his cells poured into his fist.

“open!”

With a loud scream, accompanied by Qin Tiange’s punch again, a loud noise from Qi Long seemed to be breaking new ground.

That punch contained almost all the physical power of Qin Tiange, as well as the power to open the sky. He punched a hole in the Xinghai giant’s forehead, and the debris flew out, floating in space.

The Xinghai Beast was injured, but it was just a skin trauma, and it only hit a deep pit of more than ten meters without hurting the opponent's flesh and bones.

Such an overwhelming defensive force was that Qin Tiange had to marvel. It was unthinkable that the defense force of the Xinghai Giant was so terrible.

“The sun flare!”

As soon as I heard the sound of Jiao drink, I was condensing the energy of 300,000 artificial suns, and immediately bombarded from below, turning into a light that hit the jaw of the giant star sea fiercely.

With a bang, the light exploded, and the beast's head was beaten high, exposing the lower jaw, where he was blasted out of a huge pit, but it only hurt the fur.

The most terrible thing is these potholes, which soon repaired themselves, with defensive power and even more terrible recovery power. It was simply indestructible.

Huh!

The Xinghai beast roared, the sound was rolling, the roar broke the space, and the body struggled to climb out, but it was too large and too long, and it was a bit of a hassle to squeeze space.

“Come again!” Qin Tiange drank swiftly, with an extra halberd in his hand, buzzed and swelled, grabbed him, and suddenly condensed his strength and smashed down.

With a bang, the Xinghai beast trembled and yelled angrily, apparently annoying it.

The ancient halberds contained huge powers, as if opened to the sky, but only exploded a few meters of pits, not even seeing blood.

“It's really hard, this defense is simply.” Qin Tiange was shocked.

This is almost half of his strength, but it only hurts a little bit of the skin, just like a small piece of cuticle.

嗷 At this point, the body of the Xinghai Beast has been squeezed out by one third, and watching it is about to burst out of space.

Qin Tiange's face was frozen, and ninety-nine grey stars trembled in his body, bursting out an overwhelming force, pouring into the body, integrating Pangu's physical power.

“open!”

A violent drink, shaking the starry sky, attracted the attention of countless people, and saw that Qin Tiange held up his halberd and slammed it down, condensing ninety-nine stars that were about to turn into stars.

With a rumbling sound, space shuddered, and powerful explosive force burst out, breaking the atmosphere and creating a hole.

Everyone stared blankly at the sky. The giant star sea monster was hit with a halberd and his head sank. His eyes couldn't help closing, and it seemed extremely painful and embarrassing.

Huh!

The monster screamed, and was finally beaten in pain. The entire head was smashed into a deep pit, and blood and water burst out.

The powerful force shattered the defense of the Xinghai Giant and hit it, but it was only a small scar, and it was nothing compared to its huge body.

In a blink of an eye, the scar repaired itself, and Qin Tiange's eyebrows jumped abruptly. He was extremely shocked.

“Sun particles!”

At this moment, the energy that had been accumulated by him had exploded, as if a sun exploded, setting off a horrible sun particle.

As I learned more about the secrets of the sun, I became more and more proficient at manipulating the artificial sun, even a little closer to the real sun.

Bang!

The horrible sun particles swept into a storm, accompanied by a punch in the jaw position of the star sea monster, causing horrible damage.

The powerful solar storm broke through the defense of the Xinghai Giant, hitting a blood pit, the blood and water continued to gush, and the shaman starry sky.

The scorching storm roasted the Xinghai giants in pain, and could not help but utter an angry roar, and the roar spread throughout the earth.

“Oh!”

A roar came, and all the animals on the earth were lying on their stomachs, terrified and afraid to move.

This is the terrible place of the Xinghai beast. Only one roar scared countless creatures to lie on the ground, that is, those ancient dinosaur species, the fierce beasts were frightened.

Bang

At this moment, the beast's body trembled and suddenly rushed out of two-thirds. The huge body quickly burst out of the cracks in the space and pressed there, making it hard to believe that the breath of terror was pressing on the orbit of space, making People can't help chilling.

The Xinghai beast completely appeared, rushing through the sky, swiping fast in space orbit, and swimming around the earth in a blink of an eye.

hiss!

“very scary!”

“It's over!”

“This star sea monster is out of sleep, and nothing can restrain it.”

Watching the Xinghai Beast completely sleepy on the legs, that terrible speed ~ www.mtlnovel.com
~ It took only dozens of seconds to make a circle around the earth, which is simply incredible.

Many people on the planet watched the giant stars and sea monsters constantly swimming in the sky, causing a strong response. Huge hurricanes appeared in the atmosphere. Tsunami was frequent and the winds raged, making countless people unable to bear the fear.

Huh!

After a few laps, the Xinghai Beast stopped and made a roar of excitement in front of the earth, like a child who loved food and rushed into the earth directly.

The earth, in its eyes, is a super delicious dim sum. It was washed into the earth's center and eaten it, and the entire earth will be completely played.

“Stop me!”

At this point, Qin Tiange standing on top of the Xinghai Beast sighed, and the halberd held up. The halberd aimed at the beast's forehead and slammed in.

With a click, the huge ancient halberds entered in unison, pierced through the forehead of the star sea monster, and caused great damage.

“Yi” screamed screaming, the roar shook, and the Xinghai Beast was angry.

Chapter 665 - Banned, locked into space

The beast was furious and furious, slaps a paw and slaps it over, hitting the uncle who was about to attack and stop directly into the earth.

Bang!

His body was smashed into the earth, passed through the atmosphere, smashed into the surface of the earth, and smashed into a large pit of several kilometers, setting off a terrible air wave rolling away.

The power of that shot was so horrible that countless people were scared and their backs were chilling, almost scared down.

In particular, some strong alien races know their own mighty power, but such power is still shot into the surface of the earth by the claws of a giant sea monster.

“It's terrible. Even a young star sea monster cannot be blocked by ordinary creatures.”

“The emperor is going to be unlucky.”

Seeing that Jiji had been hit into the earth, many alien powerhouses couldn't help but gloat, and wanted to see if Qin Tiange, the Chinese emperor, was being abused by monsters.

It would be more perfect if the beast could kill Qin Tiange, but unfortunately, they think too much.

“Sin beast, dare to presume?”

When Qin Tiange was beaten into the earth, Qin Tiange was furious, pulled up the halberd and stabbed it again, with a click, the blood and water spurted, pouring him red.

The beast was wounded again, roaring again and again, his body rolling continuously, rolling up above space, and trying to throw Qin Tiange above his head out.

But he grabbed the ancient halberd inserted into the beast's brain, and he was never thrown away. Instead, the more he rolled, the more the beast felt the pain.

Huh!

Finally, the monster saw that he couldn't shake Qin Tiange away, roared, and his tail swept towards Qin Tiange above his head.

That huge tail, like a meteorite slamming over, wiped out a terrible flame in space, slamming down.

哐 Dang!

Just listening to the loud noise, Qin Tiange dodged the blow, and the tail of Xinghai Giant banged on his head, causing blood to bloom.

His head shook, almost fainted, and hit himself by himself. The power was too horrible, and he was stunned by danger.

“Howling!”

The beast was furious, roaring and shaking his body, rushing into the atmosphere, and going directly into the earth's core.

At this moment, the uncle, who was rushing out of the ground, saw a lot of them, and broke out 400,000 artificial suns in his body, emitting strong light all over his body.

“Sun storm!”

Qi Jijiao drank, Qiqiao sprayed a scorching flame, and the body turned into a light, wrapped in a terrible solar storm and bombarded the monster's body.

With a loud noise and a burst of light, the beast's body was paused, and his body was injured by a punch of his own self, and blood and water spewed out, turning it into a blood rain.

The “嗷” beast roared, clawed his claws fiercely, and smashed his self into the ground, and then his body shook, rushing down violently, setting off waves of terror and shaking all parties.

Watching the giant behemoth rush into the earth's atmosphere, stir all directions, the clouds collapsed, the powerful subduction power caused a terrible shock, and the ground was sunken.

“It's over!”

Everyone was horrified. Looking at the Xinghai Beast that was diving down, they were all frightened. Many people rolled their eyes and fainted.

The giant beast was like a horrible meteorite, dived all the way, and made a horrible sound, like the scene where the meteorite hit the earth, burning with hot flames.

Its speed is very fast, it will rush into the earth in almost a few seconds, so that no one can stop this star sea monster from devouring the earth.

“Sin Beast!” Qin Tiange drank coldly above his beast’s head, his eyes screamed out two horrible silver awns, and he saw the Xinghai beast dived suddenly.

Then, Qin Tiange pulled out the ancient sword, and slashed a sword at the void in front of it. The mysterious sword marks crossed, and the space cracked apart, turning into a 10,000-meter-long space crack.

The “Xuan” giant monster that was anchored in the sea recovered. Due to its original speed and inertia, as soon as it recovered, it plunged into the 10,000-meter-long space crack.

Bang!

Kaka Kaka

With a loud noise, the space was smashed by one end, and the huge crack was squeezed open. The star sea monster directly plunged into the turbulent space, and disappeared on the earth in a blink of an eye.

It was almost a few kilometers away from the ground, but Qin Tiange cut a huge space crack with the marks of the sky, letting the Xinghai beast plunge in.

The broken space self-healed and gradually subsided. The place returned to normal. Except for a few large pits, the trail of the Xinghai Giant Beast was no longer visible.

It rushed into the turbulence of space, and was led by Qin Tiange to directly lose track and direction, and couldn’t find an intersection in earth space.

“Disappeared?”

On Earth, many creatures saw the star sea monster that suddenly disappeared, all stagnate, and didn’t understand what happened.

The process just was too fast, and before everyone responded, the Xinghai beast penetrated the space fault and disappeared on the earth.

“The emperor introduced the monster into the chaos of space.”

“It seems that the beast can’t kill the emperor.”

Watching the Xinghai Giant disappear, the aliens’ lives were extremely disappointed. I wanted to watch the Xinghai Giant kill the Emperor, but I didn’t expect to kill it.

It now seems that even if you want to kill the emperor, even the Xinghai Giant is not allowed, unless it is an adult Xinghai giant, or an adult Xinghai giant.

As for this young star sea monster, it is still a little bit worse, because it has never awakened in many abilities.

“嗷”

At this time, a horrifying roar came from the chaotic space, which seemed extremely angry, and the star sea giant roared, and his body rolled hard, showing extra irritability.

Seeing that they can enjoy snacks, but somehow rushed into the space and turbulent, which made the unconscious monster look very angry.

The Xinghai Beast has a huge and terrifying body, but does not have much strong consciousness. This is its only weakness.

These terrible starry beasts cannot produce high-level intelligence at all, only a kind of instinctual consciousness, manipulating the huge body to continuously devour.

Survival instincts drive them to devour the planet to sustain life and growth. This is the Xinghai Giant.

Rumbling

The space trembled and boiled continuously. A violent storm of space swept through, but it could not break the body defense of the star sea monster, which was extremely terrifying.

This is a young Xinghai giant. If it is an adult, don't try to trap it in this place, because the Xinghai giant can break up the space.

They are not just swimming in the Xinghai, some of the giants of Xinghai who have lived for a long time are tyrannical enough to travel through the space and time of the universe and travel across the high-dimensional planes.

“Master, do you want to trap it with the power of chaos here?”

At this time, the follow-up Jiji stood beside Qin Tiange, and the two stood on the heads of the giant monsters in the starry sea. Looking at the mad monster, Jiji couldn't help asking.

She guessed that Qin Tiange wanted to use this environment and space energy to imprison this terrible star sea monster.

“Yes!” Qin Tiange looked serious. He said, “After all, this is a young star sea monster. Once it can be restrained, there is a way to control and tame it.”

“This is the only opportunity not to be missed. Once the adult giant of the sea of stars, don't try to catch it, because you can't catch it at all.” His words seemed very excited.

There is no way, whoever thinks of catching a young Xinghai beast, the scene is a feeling of blood boiling.

Think about it, in the future, there will be a grown-up Xinghai beast as a mount, and you can travel around the Xinghai at will, and that scene need not be exciting.

“But how to restrain it?” Ji asked with a frown, worried.

Qin Tiange was not worried. He looked at the mad beast and laughed: “You are optimistic that in the chaos of space, you can lock it with the chaotic space here.”

As soon as the words fell, a powerful force emerged from Qin Tiange's body, a mysterious breath permeated, and the body of the mad Xinghai Beast suddenly burst out.

“Forbidden time and space!”

Suddenly, Qin Tiange gave a loud sigh, his eyebrows lighted up, a time-space taboo force that overlapped with time and space erupted, and the Xinghai Beast was stunned instantly.

Immediately afterwards, I saw the turbulent turbulence of the surrounding area suddenly rushing from all directions, turning into a prison cage of space, imprisoning the giant star sea monster.

“Time chain, imprisonment!” This is not over, Qin Tiange frowned, the heart of time in his brain suddenly burst into endless power, turned into a thick chain, combined with the power of chaotic time here to lock The Xinghai beast.

“Roar!”

The restored Xinghai Giant roared angrily, struggling constantly, straightening the silver chains, trying to break free, but found it was impossible.

It was furious, and the terrorist power broke out constantly, becoming more and more powerful, even if the time chain and the space prison were crumbling, they were about to collapse.

Looking at this scene, Qin Tiange’s face changed slightly, and he had to be shocked by the horror of the Xinghai Beast, couldn’t he even lock it?

“Pan Guxue ~ www.mtlnovel.com ~ Ran!”

With a loud shout, Pangu’s blood boiled and burned in Qin Tiange’s body, countless cells opened up, and endless power poured out, and the Pangu’s power to open the sky condensed.

“Quiet me!” With Qin Tiange’s punch in the head of the beast, the loud noise came, and the starry beast was sorrowful and mournful. His head was smashed with trembling. light.

There was a whirlwind of chain-linking sounds, and I saw time-chains passing through the body of the Xinghai Beast, invading countless blood vessels of the opponent’s body on the spot, spreading over, blocking the whole body up and down.

“Time goes backwards!” Looking at the time chain that is about to collapse, Qin Tiange did not hesitate to use time backwards. The broken chain healed on the spot and changed back to its original appearance.

Huh!

Finally, after several struggles without success, the blood vessels of the Xinghai Giant were all locked by the time chain, each blood vessel was locked, the energy was confined, and it finally quieted down.

A powerful young Xinghai giant was locked in a spatial fault by Qin Tiange in this way. When he couldn’t move, he could only let Qin Tiange slaughter him.

Chapter 666 - Earth Book Gold Paper, Slavery Spirit

Roar!

In the turbulent flow of space, a giant was locked there, unable to move, only a roar, and the sound of rolling waves set off waves of space.

The young Xinghai giant was locked up, imprisoned here, and looked very irritable, twisting his body uneasily, trying to struggle.

Unfortunately, it was futile. All blood vessels in the body were blocked by a chain of time, and energy could not erupt at all.

“Master, although you have restrained it, how can you tame it?” Li Ji stood on the head of the star beast, as small as a grain of sand.

Qin Tiange, who had recovered his original body, also seemed extremely small, and had to marvel at the terrible nature of the starry beast. His body was huge and the species that lived on the stars were different.

“Star monsters are not the same. Although they are huge and terrifying, they have a terrifying power, but they have only one fatal flaw: the soul is very weak.” Qin Tiange said this.

He said: “Some powerful souls, if they can find the true spirit of the Xinghai beasts, they can easily kill these Xinghai beasts in a single blow.”

“It’s just that the true spirit of the Xinghai Beast is extremely secretive. Because of its huge body, even some strong men cannot start against the Xinghai Beast because they can’t break the opponent’s defense.”

Listening to these explanations, Jiji vaguely understands that the star sea monster’s defense force is super terrible and it is difficult to kill from the outside. Even if it is in its belly, you don’t want to kill it.

Because the body of the Xinghai Beast is equally horrible, everything that is swallowed will be digested by the digestive system in an instant, that is not a joke.

The adult giant of the sea of stars, eating the planet is like eating jelly beans. It has a mysterious power in the body to hide the true spirit, and it can even defend the true spirit from being harmed.

Moreover, the internal defense is also rude and difficult to be killed, which is why the number of Xinghai giants is scarce and extremely rude.

“Perhaps, there is only one way to find and control the true spirit of the Xinghai Beast.” Qin Tiange held his chin and thought quietly.

He thought of a way, that is, the true soul of the earth book, this thing may be able to find the true spirit hidden in the body of the Xinghai beast, and complete control.

“Master, are you talking about the true soul of the book of the earth?” Li Ji looked slightly pleased, obviously thinking of this.

She has completed the transformation with the true soul of the book, and now I want to know that the true soul of the book may really be able to do this.

Qin Tiange nodded with a smile and said, “Try it out, maybe it’s feasible, after all, the book of land originally contains the supreme sense of soul and soul.”

Speaking of no longer talking nonsense, tapping his eyebrows, a ray of golden light emerged, and then saw mysterious golden symbols jumping out.

The moment the Soul Truth appeared, the Xinghai Giant was obviously more irritable, as if it felt the threat from the Soul Truth.

The trembling feeling of the true spirit made the star sea monster's eyes reveal the slightest fear, even fearing these mysterious symbols.

“There is a play!” Seeing this, Qin Tiange secretly rejoiced, grabbed a true soul, and slammed into the head of Xinghai Beast.

“Oh!” For a moment, the giant beast of Xinghai sent out a fierce roar, showing extra pain and fear, struggling madly.

The chain was rattling, but unfortunately, it couldn't break free, but only allowed those mysterious golden symbols to pour into his head.

The true soul of the earth book records the eternal and immortal true meaning of the true soul of the soul. At this moment, it is typed directly and rushes along the star sea monster.

The monster roared in horror. In a small area in its head, there was a fragile true spirit, which was the true spirit of the star sea monster.

Compared with its huge body, this group of true spirits is really very small, almost small to the point of being speechless. I can't figure out why such a small true spirit can control such a huge body. I have to say that life itself is A miracle.

“I found it!” Feeling the true spirit belonging to the Xinghai beast, Qin Tiange showed joy, and finally found the hidden true spirit of the other party.

It's not easy. Without the soul of the book, Qin Tiange would n't have found the true spirit.

Because it's too small, and it's hidden, wrapped in a mysterious force, it can't be sensed and seen at all, and it can't be found naturally.

The true spirit of the Xinghai Beast is hidden in the deepest part of the brain, and a small mass of mysterious material the size of a human fist envelops its true spirit.

It is this mysterious substance that hides the true spirit of the star sea monster, directly covering it, and even has a strong defense.

Uh ...

The soul really came, but was blocked by the mysterious substance, which caught Qin Tiange's attention and observed it with surprise.

This material is very mysterious, its origin is unknown, but it can prevent the soul from being true, it is incredible, making him very curious.

“What kind of substance is this?” Qin Tiange was evoked with strong curiosity.

Such a powerful and strange material can block the true soul of the book of the earth. I have to say that if we can master this mysterious material, will it not be able to hide our true spirit, or even defend it?

Qin Tiange was excited and did not expect an accidental discovery, but now is not the time to study this mysterious substance, the most important thing is to control the true spirit of the Xinghai monster.

“Uh ... hoo!”

The real spirit was touched, and the Xinghai Beast was frightened and violent, and kept roaring. It was very anxious and terrified, as if it felt the future destiny.

Qin Tiange looked at the obstructed soul, and frowned secretly, took out a piece of mysterious gold paper, and smashed it into the head of Xinghai Beast.

Suddenly, the golden paper passed through many obstacles and appeared directly in front of the mysterious substance, glowing with golden light, magically passing through the mysterious substance.

“嗷” The golden paper passed through the mysterious matter, and the star sea beast made a screaming roar, showing a thick unwillingness.

It sensed its true spirit, being locked by a force, and then mysterious golden symbols quickly imprinted on the true spirit.

A loud noise came, and gradually, the madly struggling and roaring Xinghai giant gradually calmed down, looking extra quiet.

The true spirit of the Xinghai Beast was directly controlled by Qin Tiange's page of gold paper, and his own thoughts and soul were truly incorporated into it to complete the control.

boom!

Blended with the soul's true charm, the real spirit of the Xinghai Beast suddenly burst into a powerful breath, and it grew rapidly.

Seeing this, Qin Tiange was surprised and found that the true spirit of the Xinghai Beast transformed himself with the true meaning of the soul, and gained a certain promotion.

Yes, the true spirit of the Xinghai Beast has transformed and become more powerful. It seems that it has evolved towards true wisdom, which is amazing.

“Interesting!” Qin Tiange looked amazed, looking at the true spirit of the giant Xinghai giant ten times full, surprised.

Soon, the true spirit of the Xinghai Beast stopped growing, surrounded by a mysterious golden symbol, Qin Tiange's idea was completely integrated into it, regardless of each other.

Now, this young star sea monster is completely controlled by him, which means that the true spirit is enslaved, and he cannot afford any resistance.

As long as he has an idea, the Xinghai Beast will obey unconditionally, and it will not even affect its future development and growth, but will cause the true spirit of the Xinghai Beast to continue to grow and grow.

“Roar!”

At this moment, the Xinghai Beast sent out a cheerful roar, seemed very happy, it felt the power and joy from its true spirit, and it was excited.

Its huge head even shook at Qin Tiange, and there was a hint of flattery in his eyes, making Qin Tiange smile dumbfounded.

The one who was still alive and killed a while ago is now transformed and is directly controlled by him, and he can't even escape his control ever since.

“Haha, it is.” Qin Tiange laughed.

Aside from the bright smile on his side, he looked at Qin Tiange charmingly, holding his arm, looking very happy.

She is glad that Qin Tiange has won a powerful Xinghai giant. With this thing, he will have an extra hole card in the future.

Wow!

I saw Qin Tiange waving his hand gently, and the power of time and space that had originally blocked the Xinghai Beasts surged in. They were absorbed by him, and he recovered his freedom in a blink of an eye.

With a bang, the body of the Xinghai giant shook, and the turbulent surrounding space was shaken away on the spot. With a loud roar, the power was even stronger.

The transformation of the true spirit has driven a certain transformation of the Xinghai beast, and the body has become more and more powerful and horrified, making Qin Tiange happy.

“Well, as long as it is properly cultivated, the future is a strong hole card.” Qin Tiange faced with a hint of excitement.

It is a good thing to obtain a young star sea monster, as long as it can grow up, it will be an extremely scary creature in adulthood.

“Congratulations to the master, but how is this beast arranged?” Jiji congratulated first, and then asked.

After all, this Xinghai beast is too huge, and how to arrange it is a problem. It is definitely not good to let the aliens know that he has conquered the Xinghai beast.

Qin Tiange thought for a while, and finally thought of the chaotic membrane in his body. Can the Xinghai Giant inhabit it?

With a hint of doubt and curiosity, Qin Tiange spurred the chaotic fetal membranes in his body, sending out a direct suction, covering the Xinghai Giant.

Huh!

In just one moment, the huge body of the Xinghai Beast disappeared and disappeared into a ray of light at his Dantian position.

Qin Tiange first froze, then moved his mind, looked at Dan Tian's chaotic membranes, and found a small thing that could not be smaller inside wandering cheerfully.

That is the Xinghai giant, swimming in the chaotic membranes, and from time to time opened its mouth to swallow the gray chaos, looking extra excited.

“Can it eat chaos gas?” Qin Tiange was stunned, staring a little.

Soon ~ www.mtnovel.com ~ Xinghai Giant digested a chaotic gas, then opened its mouth and slammed a huge torrent of material.

It contains countless minerals, some rare treasures, and the unification of the femoral brain sprayed out, allowing the chaotic membrane to absorb and swallow on the spot, and constantly grow, resulting in more chaos.

Roar!

Seeing more chaos emerged, the star sea monster roared excitedly, opened its mouth and swallowed another chaos gas to absorb, gradually, its body glowed with a gray light, and it fell into a deep sleep in the chaotic membrane. Absorbed the surrounding chaos.

Rumble ...

The sleeping beast of the Xinghai Sea, is it right? Open your mouth, spray out a huge torrent of material, let the chaotic membranes absorb evolution.

Such a strange scene made Qin Tiange laugh in his heart. He caught a Xinghai giant and really caught it. It actually increased the growth rate of the chaotic membrane.

“Let's go.”

Qin Tiange took a look, a smile filled his face, and left his chaotic space with his uncle.

Chapter 667 - Blue discrete stars, weird stars breaking into the solar system

Flowing out of space, Qin Tiange and Jiji appeared in outer space, watching the earth wrapped in countless debris and energy, like a thick sky.

“Master, these mysterious substances will form garbage. If not treated, it will affect the earth's absorption of dark energy, will hinder the increase of the earth's energy concentration, and will even weaken.

Looking at the current situation, I have calculated that the dangers of these secret materials and energy can not be seen now, but over time, it will affect the development of the earth itself.

This is not a joke. After the mysterious confinement of the solar system was broken, the dark energy of the universe poured into the solar system again, so that the earth and the entire solar system were rejuvenating.

Once the earth is surrounded by these mysterious substances, it blocks the dark energy tide, which will hinder the evolution of the earth's life.

“This is a problem, and a way to solve it.” Qin Tiange thought for a while, and decided to deal with these huge substances emerging from the mystery.

How big the meteoric mystery is, he doesn’t know, but now the gap in the space crushed and crushed by the giant beasts of the sea of stars is getting bigger and bigger, and the material coming out is endless.

On Earth, many people can clearly see the huge material in space orbit, many of which have fallen into the earth’s atmosphere, and even a shard of debris has fallen into the earth.

This scene is scary and scares a lot of people, but these materials burned up in the atmosphere after falling into the earth, and there is not much left.

“Master, these materials contain all kinds of chaotic energy. If they can be collected, they may be transformed into some super materials, such as those powerful super black crystals.” His own eyes flickered and gave a plan.

Collecting these materials can be used to synthesize special and powerful materials, build cities, or build space warships.

“Okay, I’ll leave it to you. You will work harder for yourself, and deal with these spouting masses. I want to be enough for us to be only the first batch of space warships or even space carriers.” Qin Tiange smiled. .

He asked his ego to deal with the material flowing out of these secret places. Only ego can do this. After all, it is the best way to produce countless robots to collect these huge materials around the earth. As for destruction, it is a waste and hard work. the behavior of.

“Okay, leave it to me.” Jiji smiled and nodded, but refused.

She knew that she had to do more if she had great ability. After all, her calculation speed was simply the strongest of the entire earth, and there was no one.

As a life form derived from artificial intelligence, self-denial is a miracle, and it is the most special life form.

“Well?” At this moment, Qin Tiange’s expression suddenly moved, and suddenly felt a strange breath, could not help looking.

I saw that in the dark universe, a faint blue light appeared, looming, it was not very real.

However, over time, this blue light became stronger and stronger, as if something unknown was approaching the solar system quickly.

I have also discovered that the twinkles of the data stream of twinkle data, fast calculations, and even mobilized the various nano-satellites arranged in the range of the solar system.

“Master, there’s something on the edge of the solar system.” Chang Ji’e frowned and said this message gently.

I saw that she opened a virtual surveillance picture, a nanosatellite surveillance picture launched on the edge of the solar system.

“What’s this?” Qin Tiange looked horrified, staring at the darkness on the surveillance screen, and a blue light flashed on it.

I quickly calculated, quickly zoomed in the monitoring screen, gradually enlarged the blue light ball, and found that it turned out to be a planet.

That’s right, it’s a star, a star with blue light, shining brightly. The star is surrounded by two apertures, emitting strong blue light.

“Master, this is a planet, a wandering planet in the universe,” said Ji Ji, looking dignified and his eyes blinking constantly.

She was calculating, and soon she solemnly said, “Moreover, it is a trouble for the solar system, and this planet is about to enter the solar system.”

Qin Tiange didn’t speak, staring at the picture on the light curtain, the huge planet, the calculated result, it was even bigger than Neptune.

The most terrible thing is that this planet is not an ordinary planet, but one of the weirdest objects in the universe, which is extremely scary.

“Wandering blue scattered stars?” Qin Tiange said solemnly.

He tells the origin of this planet, it is a weird blue discrete star, known as the vampire planet.

This blue discrete star is strange in that it can swallow the energy of other planets, grow and supplement itself, constantly absorb and continuously devour, and always keep itself young, as if it is an immortal star in the universe.

“How can the blue discrete star appear outside the solar system?” Qin Tiange wondered, staring at the monitoring screen cautiously.

That wandering blue discrete star has entered the asteroid belt outside the solar system. Every asteroid, meteorite, and interstellar dust has been swallowed up and swallowed up by them, and strengthened itself.

Seeing this, Qin Tiange doesn’t need to think clearly. Once the blue discrete star rushes into the solar system, the entire solar system’s self-system will be destroyed.

The eight major planets of the solar system must be engulfed by this blue discrete star, and even the earth is no exception. In the end, it will be swallowed clean. The energy converted into this blue discrete star will increase its life and mass and become more terrible.

“Master, it’s fast, and it won’t take you a month to get to the farthest Neptune region of the solar system.” I have calculated the speed of the blue discrete star.

After one month, it will be able to approach Neptune, or even the calculated route, not far from Neptune. By then, Neptune may be the first planet to be engulfed by the solar system.

“Master, this blue discrete star is a bit wrong. From the analysis of the information transmitted from the energy detection system of the nanosatellite,

the blue discrete star emits another kind of terrible atmosphere.” Su Ji suddenly said this analysis. Message.

Inside the blue discrete star, there is an inexplicable fluctuation of energy breath, which feels very strange, unlike the energy breath emitted from the planet.

Moreover, Qin Tiange feels that this planet is a bit strange, and can even wander in the starry universe, even swallowing other planets, plundering the energy of the planet, it is just a planet devourer.

“It’s really a trouble.” Qin Tiange looked at the monitoring screen and pondered.

What came this time was really a big trouble, even a crisis, and once it wasn’t tender, it prevented the planet from being much larger than Neptune.

Its mass is extremely huge, and its gravitational force directly attracts countless asteroids and swallows them clean.

On the surface of this blue discrete star, a layer of terrible blue flames burns, the temperature is extremely high, hundreds of times or even thousands of times more intense than the sun.

“Let’s go and see. If it doesn’t work, then use the Starkiller to smash it out of the solar system.” Qin Tiange said, the figure turned into black particles, and he disappeared with his own wings wrapped around.

The two are going to the edge of the solar system, where Neptune is, and want to see the blue discrete star that has broken into the stray sky of the solar system up close.

With Qin Tiange’s current ability, it didn’t take long to directly break through the space, determine the position coordinates of Neptune, directly tear the space to rush, and three days later arrived on Neptune.

I have to say that Qin Tiange’s current strength can actually travel to the Xinghai to the extent that he cannot break through the dimensional barriers of the solar system.

Neptune’s area is the coldest area in the solar system. Under such extreme conditions, two people floated out of Neptune’s space orbit.

The two of them are on one of Neptune’s five auras, floating quietly here, looking out at the bright blue light cluster outside the solar system, the size of a basketball.

“So strong light, heat can be felt here.” Qin Tiange frowned slightly, a little dignified.

The light and heat emanating from the blue discrete star was extremely scary. The hot light could be felt at such a long distance, not to mention what would happen if it approached?

“Master, the blue discrete star is extremely weird. It is unknown how it was formed. Moreover, the inexplicable energy inside this blue discrete star’s core, I suspect it is a kind of biological breath.” Jiji expressed his opinion.

After hearing Qin Tiange's frown, he asked, "You mean, there is actually a mysterious creature inside this blue discrete star, and the blue discrete star devouring other planetary energy is actually the internal organisms absorbing the planet's energy and matter. ? "

"Yes, the result of my calculation is this." Jiji nodded and admitted that the result she calculated was amazing.

Perhaps, the blue discrete star in the wandering universe is a terrible creature, which is grabbing the energy and mass of the stars to increase its own power.

It 's really possible. As the practice improves, Qin Tiange feels that some of the strong are terrible. Once he reaches the star level, he can travel to the stars.

The evolution and promotion of stellar stars are even more difficult. Will the blue discrete star in the wandering universe star sky be a creature above a certain stellar star and stealing other stars' energy and weight to cultivate in the universe?

"No matter what it is, it will not be allowed to enter the solar system, which will destroy our plan and even affect the entire solar system." Qin Tiange looked cold and stared at the blue planet.

The solar system was originally the most important part of Qin Tiange's second-stage plan. Once it was destroyed, the plan completely collapsed ~ www.mtlnovel.com ~ The arrival of this weird blue discrete star is bound to break his plan. Not what he wants to see, no matter what, can't undermine his plan.

"The Star Marshal was prepared to break it out of the solar system."

The next moment, Qin Tiange directly ordered the Star Cannon's main gun system to be used to destroy the blue discrete star with this hidden killer.

"Order, start the Starkiller, the main gun calibrates the space orientation, locks the target, and starts charging."

Inside the space mezzanine, a huge gray star slowly lighted out, and suddenly a huge pit was sunken on the surface of the sphere. The black paint was like a muzzle. It was quickly calibrating the spatial orientation and aimed to lock the blue outside the solar system. Discrete star.

Click!

I saw that on the edge of the solar system, above the five apertures of Neptune, a huge gap suddenly opened in space, exuding a faint atmosphere of energy from the inside, converging little by little.

It was the super energy condensed by a Star Cannon's main cannon, aimed at the blue discrete star that rushed out of the solar system.

Chapter 668 - Starkiller's Power

The glare converges, the super-energy main gun gathers energy, and the terrible energy fluctuations cause slight vibration of Neptune.

"So strong energy!"

Qin Tiange's face changed slightly, feeling the terrible energy fluctuations of the Starkiller's main cannon, and his heart was shocked.

He felt that if he was bombarded by this super-energy main cannon, it is estimated that he would be instantly destroyed, even without the ability to resist.

I have to say that the starkiller's powerful horror is indeed a terrible super weapon known to annihilate the stars and destroy the galaxy.

"Master, recharge is complete, and Blue Discipline has been locked."

Aside, I reminded myself carefully that Stargazer's main gun was fully charged and had to be fired, otherwise it might explode once the super-energy condensed for too long.

"Fire and break the planet."

Qin Tiange didn't hesitate at all, and directly ordered the fire. Instantly, he saw a burst of super energy burst out of the crack in the space above the aura of Neptune.

With a bang, space collapsed, causing Neptune's planetary ring to collapse, and even causing several satellites around Neptune to continue to vibrate and crack.

The terrible energy roared and turned into a horrific beam of light penetrating the nothingness, radiating away, and drawing a horrible light in the cosmic starry sky.

Hearing only a loud sound of "Bao Long", a super-energy beam of light bombarded the blue discrete star, hit it completely, and penetrated the blue discrete star on the spot.

A powerful super-energy beam of light penetrated the stars, bursting into horror, breaking the huge blue discrete star on the spot.

Huh!

A horrendous light suddenly burst out of the solar system, and the light from a planet explosion was extremely strong, exceeding the sun hundreds of thousands of times.

Powerful energy burst out and swept across, causing huge vibrations in the entire solar system, and the major stars appeared to tremble to varying degrees.

The recent Neptune directly caused a huge tremor. The satellites around it were deviated from their original orbits by the devastating shock caused by the explosion of this planet, and even huge cracks were created, and volcanoes erupted.

Bang!

Qin Tiange and Xunji were flying hundreds of thousands of miles on the spot by the aftermath of the powerful explosion. The powerful light and heat burst. The armor on his body instantly turned into ashes, pain all over his body, and the corners of his mouth were bleeding.

The energy generated by the explosion of the planet is quite scary, and the creatures in the entire solar system have sensed a huge tremor.

With the strong light shining on the solar system, it lit up the darkness. On the earth, countless creatures, whether humans or animals, or alien life, looked up, looking at the horrible blue light explosion, extremely horrified. .

“what happened?”

“What it is?”

“Oh my god, is it a planet explosion?”

For a time, countless humans and other races of life on Earth and Mars were shocked. Looking at the light that had not dissipated for a long time, all hearts were cold.

The huge shock just now almost made them think that the earth had exploded. Fortunately, the tremor was not very long, and it disappeared in a blink of an eye.

But that glare never disappeared. A brilliant blue light burst out in space. It was extremely hot and surpassed the sun hundreds of thousands of times.

“That was a planet explosion, outside the solar system.”

Some knowledgeable alien powerhouses looked horrified, guessing that it was the destruction energy generated by a planet explosion, just outside the solar system.

Fortunately, outside the solar system, if it explodes inside the solar system, it will definitely cause a huge disaster, and even directly cause a chain reaction of other planet explosions.

It was a long time before the terrible light faded and extinguished. Outside the solar system, the aftermath of the explosion finally subsided.

“Wow, is the power so terrible?” On the hundreds of thousands of kilometers away from Neptune, Qin Tiange and Junji merged together.

The starkiller’s power destroyed one blue discrete star with the same volume as Neptune and tens of thousands of times more mass than Neptune.

The two were pale, bleeding from the corners of their mouths, their armors and clothes disappeared, and looking at their embarrassed looks, Qin Tiange was a little embarrassed by his thick skin.

He knew he had grown up, and he did not understand the power of the Starkiller, and the power of the destruction energy that erupted from destroying the planet.

This is the first time I’ve met. It’s good to be a wolf howling. If you get closer, it is estimated that you will be killed by the explosion.

“Come on, this Starkiller is super scary. It seems to be cautious.” Qin Tiange took out a new set of armor with a bitter smile and put it on.

Xi Ji gave him a charming white look, showing his perfect curve in front of Qin Tiange, wearing his clothes slowly.

Qin Tiange touched his nose and laughed, “Well, you are your own self, have you calculated the power of the Starkiller this time, but why don’t you say it?”

“Are you there?” Xiji said with innocence, passing on his clothes, “Master, don’t do it wrong. This is the first time that Jiji saw the power of the Starkiller. How can I know?”

“Okay, the star-killer is really extraordinary.” Qin Tiange looked dignified, staring at the exploding light source outside the solar system.

That blue discrete star was completely beaten into countless pieces, wandering in the universe, most of them were rushing towards the solar system, and the speed was very fast.

These huge blue star fragments, with horrible flames burning on them, are transparent as if they were blue glazed.

The broken blue discrete stars still have some threats. Those huge star fragments are blasted faster, with terrible lethality.

These fragments are extremely high in quality, even tens of thousands of times the mass of steel, and are definitely a terrible star.

“These fragments are a problem, perhaps, to make the Xinghai Giants devour even more wonderful.” Qin Tiange thought of this as he watched a large number of broken star fragments that were constantly blasting.

I saw that he closed his eyes and sensed that inside the chaotic membrane in Dantian, the sleeping giant of the starry sea suddenly woke up.

“Come out, it’s time to eat.” Qin Tiange waved his hand gently, and saw a gray light emerge from it, flying out of it a small Xinghai giant.

Roar!

As soon as the Xinghai Beast appeared, it instantly swelled, and in a blink of an eye recovered the original huge body. Qin Tiange and Xunji both stood on top of it.

“Go, swallow those star fragments.” Qin Tiange pointed at the blue star fragments coming out of the solar system and issued an order.

The Xinghai Beast shined with his eyes, staring at the innumerable huge blue shards, looking very excited, without a word, roaring and rushing forward.

Its speed is extremely fast, and the species traveling the Xinghai can hardly be explained by reason. Just before the blue star fragments came in an blink of an eye, they swallowed the first piece, and a dozen kilometers of huge pieces were bitten by it. Swallowed.

Click!

The beasts of the Xinghai beast were closed together, and the sound of crunchy sound, the hardness and quality of the shards of stars that were tens of thousands of times higher than that of steel, was bitten and devoured by it.

Seeing this, Qin Tiange couldn’t help shaking his face, watching the Xinghai giant eat the smashed blue discrete star fragments, as crispy and delicious as eating sweet beans.

“Sure enough, eating stars is like eating jelly beans. This Xinghai giant is really amazing, and envy it has a good tooth.” Qin Tiange made a rare joke.

He smirked beside him, and giggled, "Master, you are naughty. I have never seen you so humorous, and I'm just kidding."

"Occasionally relax." Qin Tiange smiled indifferently, watching the giant beasts of stars and seas devour these huge blue star fragments continuously.

A scorching air wave, blue flames, extremely high temperatures, and even those glazed star fragments with terrible energy fluctuations.

After being swallowed by the Xinghai Beast, the breath inside it seems to be changing rapidly, the stronger it turns out.

"Swallowing up the fragments of these blue discrete stars, I estimate that this Xinghai giant can go one step further, perhaps to break through the infancy and enter the growth stage." Qin Tiange said with a smile.

He can see that this young star sea monster is about to enter the growth stage, at that time the strength is even more tyrannical and the body is even larger.

Sure enough, after the Xinghai behemoths devoured the fragments of most of the blue discrete stars, the body was blooming a mysterious light, and the body was gradually expanding.

It's getting bigger, and its already huge body is getting bigger and scarier as it devours the Blue Discrete Star.

"Huh?" Sui suddenly gave a suspicion.

Pointing at the dark void in front of her, she said, "Master, look, there is a strange blue shard there, like the core of a blue discrete star."

When Qin Tiange heard the news, he really saw a large number of fragments floating on the starry sky. Inside the huge blue glass fragments, there were a thousand-color-high primary color fragments that looked like a transparent blue star core.

Perhaps it is the star core of the Blue Discrete Star, but Qin Tiange couldn't help doubting it. With the blow of the star-killer, the star core should have been exploded long ago.

"Go, take a look." Qin Tiange thought for a while, and flung himself away from the back of the Xinghai Giant, flickering in front of that blue sphere.

This blue sphere with a diameter of hundreds of feet is crystal clear, and the blue liquid flowing inside can be seen faintly.

And ~ www.mtlnovel.com ~ The surface temperature of this sphere is extremely high, which is tens of thousands times higher than the surface temperature of the sun.

"What a weird thing." Qin Tiange looked stunned, and found a huge suction after approaching this tall sphere, to draw him in.

Moreover, the high temperature and strong light emitted by that sphere is simply not close to ordinary things.

"Master, there is energy fluctuations inside, I sense the breath of life." His own face changed slightly, and he suddenly said this sentence.

Qin Tiange squinted his eyes. In fact, he had sensed it. The huge sphere, suspected of star core, contained a powerful wave of energy, and the breath of life was revealed.

“Is there life?” He looked serious and slowly approached.

Nearly three kilometers away, Qin Tiange stopped, his eyes glowed with silvery awns, and he passed through the layer of crystalline material to see through the scene inside.

At this moment, Qin Tiange’s pupils shrank and he was shocked by what he saw. His heart could not help but tighten.

Chapter 669 - Mysterious life form of unknown origin

The tall star core, with blue liquid flowing in it, is extremely hot, tens of thousands of times higher than the core temperature of the sun, and Qin Tiange feels a scorching breath here.

The pangu blood was boiling in his body, resisting the powerful heat, his eyes were silvery, and through the transparent liquid, he saw a scene.

Inside, there was a hazy figure quietly curled up, which could not be seen, but could feel a strong breath.

It turned out that a living body was curled up inside, which was incredible. Inside the blue discrete star core of a wandering cosmic sky, there was a mysterious living body hidden.

Would n’t it mean that this blue discrete star devours the energy of other planets just to provide this living body?

“What kind of creature is this?” Qin Tiange looked cautiously, staring at the core of the huge star core, where a shadow curled up.

This mysterious life body looks like it is sleeping, curled up like a baby, and constantly draws the energy of those mysterious blue liquids.

“Master, this living body is very strong, but it feels very weak, really weird.” He said solemnly, muttering to himself.

She felt the mysterious life body, suddenly feeling strong and weak. It seemed to be very strong for a while, and seemed to be weak for a while, and she would die at any time.

“It should have been seriously injured.” Qin Tiange judged that the life inside seemed extremely severely injured.

The mysterious creature inside was seriously injured and fell asleep, drawing the mysterious blue liquid to recover itself, but did not wake up.

The most amazing thing is that the breath revealed by this mysterious creature is extremely ancient, even older than the remaining strong men from the previous era such as Yaochi Fairy, Zhenyuan and Li Bai.

Its origin is unknown, mysterious breath, as if caught in death, but it seems to be transforming itself silently, looking forward to Nirvana again.

“It wasn’t the breath of the previous period, but in what era was it?” Qin Tiange muttered to himself, his eyes flickered.

His eyes glowed with silver, and through the huge blue crystal nucleus in front of him, he watched the shrinking figure. The breath would be tyrannical, weak and weird.

Sang Ji looked wary and said, "Master, the mysterious creature inside is unknown, and I don't know whether he lives or is hidden inside a blue discrete star. No wonder the blue discrete star can swallow up the energy of other stars in the universe. It was originally this life's sake. . "

"It seems that its hands are broken, the position of the heart seems to be penetrated, and only half of the heart is left. The most deadly is the scar on the eyebrow, which hurts the true spirit."

Qin Tiange's face moved, and he suddenly saw the basic situation of the mysterious creature through the fog.

The figure looked extremely graceful, curled up, his hands completely shattered, and the wound drew infinite energy, but it could not be repaired.

The heart is pierced and only half of the heart is left. It also draws infinite energy, and there is still no way to repair it.

The most fatal was the broken eyebrow, which went straight to the true spirit. Looking at it, it should be that the true spirit was severely damaged, so he couldn't wake up.

"What race is she?"

After seeing the situation of this creature, Qin Tiange couldn't help frowning, guessing what kind of race the opponent belonged to.

Because he couldn't tell, what kind of race the opponent belonged to, as far as the information of the Stars and Clans he knew, there was no race like the creature in front of him.

She looked like a human, but not like it. A blue hair wrapped around her body, covering most of her body.

The most peculiar thing is that there is a weird pattern on her eyebrow, and it is curious to see that it is split in half with a scar.

There is a weird breath permeating her body, like an ancient life form from a long time, drifting in the universe for countless years, still unable to wake up, but not completely dead, making people have to shock her might .

"Master, what do you do?" Jiji said cautiously. "She has an unknown origin and is extremely dangerous. She is not human, so you must be careful."

Qin Tiange bowed his head without answering, staring at the shrinking life body, quietly thinking about how to deal with this mysterious life body.

Her origins are unknown, her race identity is not clear, she is not a human race, not the current Starry Hundreds, or maybe a powerful race in an ancient era.

It was all unknown, Qin Tiange seemed very cautious, and quickly thought in his heart, how to deal with this mysterious life body, was it killed or what?

“Master, kill it directly. After all, her history is too weird, and I always feel that once we wake her up, we are not opponents.” Suddenly his expression became serious.

What she said is amazing. It is a half-dead mysterious creature. Once she wakes up, can it really threaten Qin Tiange and her two?

It is possible that ancient life forms are extremely mysterious, especially the mysterious life form like the one in front of her, she is in a state of immortality.

She is the core of the blue discrete star, constantly drifting in the universe, devouring endless energy all the way, drawing on the vitality of other planets, and trying to repair the injury.

Once the wound was repaired, how terrible it was, Qin Tiange couldn't predict it, and it was harder to judge.

“Kill, or not?” Qin Tiange felt hesitant.

He wanted to destroy this mysterious life form, but he always felt that once the blue star core was moved, it would inevitably cause a terrible change.

Qin Tiange didn't believe that such a powerful and ancient creature was not fully prepared before falling asleep. Maybe once he broke the nuclear barrier, he would immediately cause a terrifying shock.

If he triggers the secret backhand set by the opponent, he said that he must not bear the price of terror, and this point must be cautious.

“Yanji, you say, throw her out of the solar system to survive or die, or do she control her true spirit directly now that she is in a state of immortality?”

Qin Tiange suddenly said this sentence, and a terrible thought occurred in his heart, that he wanted to control the true spirit of the mysterious creature in front of him like the true spirit of the giant monster of the sea of stars.

With the true soul of the complete book, Qin Tiange has a great heart and wants to control this ancient mysterious life.

When I heard it, I frowned, “Master, this is too dangerous. We should be careful and just kill her directly.”

“Are you sure the other party is not behind?” Qin Tiange glanced at Jiji.

He said: “Any powerful and ancient life will have a well-equipped backhand before falling asleep. Once encountering danger, these backhands may be triggered, and they may be put in danger instead of being killed.”

“It can't take the risk to control the other's true spirit. If it fails, it will directly anger and wake up this sleeping life body.” Xiji looked very cautious.

Qin Tiange bowed his head and thought, then looked at the sleeping mysterious life in front of him, and made a decision in his heart.

“Yanji, you back away.”

With a solemn command, he let his ego retreat, and he had decided that he would use the powerful soul of the earth book to control the mysterious life inside.

Qin Tiange did this in order to obtain the memory of the true spirit of this mysterious life form, and to understand some ancient secrets. This is the most important point.

As for the ability to control the other party, I didn't care about it at all. The only thing I valued was the vast memory and knowledge of the ancient creatures, and the secrets buried in the years and time.

"Master is careful!"

I have no choice but to quickly retreat when reminding the sentence, watching here from afar.

I saw, Qin Tiange quickly came forward, came to the blue transparent star core with a strong flame, reached out and pressed on the huge star core.

Zizi ...

The blue glazed fire spread, burning Qin Tiange's arm, as if to burn him to ashes, but was gradually absorbed and engulfed by a gray flame.

Looking at the flames of chaos, Qin Tiange was surprised, but didn't pay much attention, but stared at the mysterious life in the star core.

"I hope that the soul of the book is true, don't let me down." Qin Tiange muttered to himself, and suddenly a large stream of golden symbols poured out from the palm of his hand.

This golden symbol poured directly into the transparent star core, and immediately rushed into the heart of the mysterious life inside.

The golden symbols, one after another, flickered and flickered. They penetrated through the scars of the mysterious life body and went directly to the space where Haizhenling was known.

boom!

The moment when the rune of the true spirit entered, immediately triggered a series of channeling reactions. First, the sleeping mysterious life suddenly looked up, and pale eyes stared at Qin Tiange, sending out two beams of terror.

Hissing, the space was shredded, and Qin Tiange's eyes flashed with silver awns, blocking the two dreaded cold awns.

He stared at the mysterious creature who suddenly looked up and opened his eyes, and it turned out to be a female living body. He lost his arms, his heart was pierced and his eyebrows were split.

But she didn't die, and her pale eyes stared at him, making Qin Tiange's spine cold and unable to bear hair.

Uh ...

The eyes of the two collided, and the star core was constantly colliding, and a burst of sparks came out. Gradually, those golden symbols poured into the broken true spirit space of the other side.

When Qin Tiange moved his mind, he faintly captured a broken real spirit through those powerful ground book souls, which was very weak.

This is the true spirit of the mysterious life form in front of it. Although it is completely damaged, it can still erupt the horror force and tear Qin Tiange's thought body to pieces.

hiss!

"Good idea, a little idea can crush my will?" Qin Tiange looked at the mysterious life form in horror ~ www.mtlnovel.com ~ The other party is just the true spirit's self-defense instinct, emitting A trace of broken will can easily crush his intrusive consciousness.

Huh!

At this moment, the mysterious living body that originally opened the eyes gradually closed the hollow eyes, slowly lowered its head, restored the appearance just now, and did not die.

"Done or not?" Qin Tiange frowned slightly, suddenly wondering if it was successful or not, because he couldn't sense the change in the other's true spirit.

He seemed a little hesitant, and this time he wanted to control the other side, but there was such a weird situation. It was unclear whether it would be successful or not. It was a bit difficult.

"Come again!" Qin Tiange refused to accept, and did not want to give up. Seeing that he would live the other's ancient and huge true spirit memory, how could he give up?

Thinking, he continued to type a golden symbol. This time, hundreds of mysterious symbols were beating, all pouring into the opponent's eyebrows.

Qin Tiange ruthlessly wanted to take complete control of the other party and obtain ancient memories and countless secrets belonging to this mysterious life.

Chapter 670 - 2 entangled true spirits, swallow 1 first

With a snapping sound, Qin Tiange condenses the soul of the book, with his own willpower running through that mysterious life form.

boom!

As soon as he entered the other's true spirit space, he caused a huge reaction, arousing an ancient majestic breath and instantly waking up.

This power belongs to the willpower of the true spirit. It swept over on the spot, but was blocked by the mysterious symbol of the earth book.

"His terrible will!"

In the broken real spirit space, Qin Tiange's mood changed drastically, watching hundreds of golden symbols around him blinking constantly, and his consciousness was almost crushed by a strong will.

This is still under the guardianship of the mysterious power of the earth book, if the soul of the earth book is not the true guardian, he may not be able to face this terrible willpower.

What horrified Qin Tiange is that this is just a ray of will on the other side, it is incomplete and not complete.

A wisp of will has such power, and how terrible the complete will is simply to endure endless years.

Bang!

Qin Tiange's mind turned, manipulating hundreds of souls really shook, hit him fiercely, and a bang made a direct blow back this willpower.

He was wrapped in hundreds of golden symbols, and even a golden sheet of paper floated over his head. His body was wrapped and guarded by a complete ground book soul true charm, and quickly rushed into the other's true spirit space.

In front of it, there is a hazy figure floating in the broken nothingness, which is extremely weird, and looks extremely chaotic, as if incomplete.

"This is her true spirit?" Qin Tiange was dignified, his mind quickly approached, and he came to the other's true spirit.

The true spirit was shrouded in fog, and it could not be seen at all, but it could feel the chaos from the real spirit, which was strong and weak, very weird.

"Hey, something's wrong" What's even more weird is that Qin Tiange felt the breath of two true spirits, instead of one true spirit, it felt that the true spirits of two lives were entangled.

He was surprised to find that the other true spirit revealed two breaths, extremely chaotic, as if entangled, and seemed chaotic.

This discovery made Qin Tiange startled: "Is the real spirit of this ancient mysterious life body entangled with the true spirit of something?"

"Or, there is another true spirit of a terrible creature, who wants to devour her true spirit?" Qin Tiange thought of this again.

He was immediately vigilant, surrounded by hundreds of mysterious golden symbols, a golden sheet of paper over his head, dripping a mysterious light, blocking the terrible pressure from the chaotic spirit in front.

This pressure, if there is no true guardianship of the soul of the book, may have been crushed into powder on the spot, showing how terrible this true spirit is.

"Open!" Qin Tiange suddenly drank, holding a golden symbol in his hand and stabbing into the fog of true spirits oppositely, directly into it.

With a click, the fog shattered, revealing the appearance of the true spirit inside. The broken body was extremely embarrassed.

"presumptuous!"

The real spirit opened his eyes suddenly, two crimson rays burst out, radiated, and terrible willpower crushed.

Hum!

Hundreds of golden symbols trembled, emitting dazzling golden light, blocking this terrible crushing will.

Qin Tiange's eyes flickered, and the silvery mang gushed through the mind body, holding the opponent's horrible willpower.

"Broken!" Qin Tiange drank swiftly, wielding a golden sheet of paper directly to suppress it severely, with a loud bang, the huge will shattered and dissipated on the spot.

"who are you?"

On the opposite side, the true spirit looked like a mysterious creature sleeping outside, but his eyes revealed a wicked breath, which was incomparable.

Qin Tiange looked at each other up and down, calmly: "It doesn't matter who I am, and who you are, it doesn't seem to be the true spirit of this sleeping life."

"Ant, dare to run into something bad, how do you want to die?" The strange real spirit across the side said faintly.

After listening to the sneer, Qin Tiange looked up and down and said, "You just want a dead broken spirit, and you want me to die. You talk about it, how can you kill me?"

"Ignorant ants, you will regret what you said. Now ask for forgiveness, I can spare you, maybe I can make you my servant."

Strange words, weird real spirit, but let Qin Tiange sneer.

"You are procrastinating and want to devour the true spirit of this life form. Do you think I'm stupid?"

Qin Tiange chuckled, and as soon as his voice fell, he saw that he waved a golden symbol and rushed directly into the body of the opposite spirit.

"Ah, wanton, dare you?" The scream came, and the real spirit trembled, constantly struggling, and making a stern scream, which seemed extremely painful.

It is not the true spirit of the sleeping life form outside, but something weird that is eroding the true spirit of the ancient life form.

This discovery shocked Qin Tiange. What was even more shocking was that the two true spirits were both incomplete, entangled with each other, and wanted to devour each other.

At present, it seems that the inside of the two true spirits, or the mysterious creature outside, has fallen and is in the stage of being suppressed and devoured.

If Qin Tiange didn't show up, she might soon be swallowed up by the strange real spirit in front of her, and eventually occupied her body.

“Ah, what is this?” The weird true spirit was miserable.

Its true spirit was locked by the true soul of the soul, and then continued to suppress it, making it seem extraordinarily painful, and even the phenomenon of the true spirit breaking up.

The terrible symbol contains a mysterious power, which is specially used to deal with the true spirit. No matter who it is, the true spirit can suppress or even crush the control.

“Is this breath of true soul?”

Suddenly, the broken real spirit suddenly changed into a voice, and a clear voice of a woman came out, looking a little stunned.

That is the breath of another true spirit, which is the true spirit that belongs to the mysterious life sleeping outside, and this is her true spirit.

“Impossible books are legends, they don't exist at all.”

Another weird true spirit screamed and kept struggling, but could not get rid of the blockade of the true soul of the soul. More and more soul true souls came and imprinted on its true spirit.

Moreover, Qin Tiange hit a piece of gold paper and hit him with a bang, and the strange real spirit was hit on the spot.

The two spirits entangled and engulfed each other were finally separated and turned into a basket and a red two broken spirits.

“Is it really two true spirits?” Qin Tiange looked at the two true spirits that were separated, and was shocked despite being prepared.

It was originally skeptical. Now it seems that these two spirits are swallowing each other, both want to swallow each other, but they have not been able to destroy each other in the long years.

“Bad me, no matter who you are or what time and space you are in, I want you to die.”

On the opposite side, the **** strange real spirit issued a snarling roar, and a strange bloodline on his forehead flashed continuously, releasing a force of evil to block the soul of the book.

What it said made Qin Tiange frown, staring at the evil true **** spirit for a while, then turned to the blue transparent spirit.

“Thank you for your help!” That blue spirit is the mysterious woman outside.

Qin Tiange frowned, without a reply, constantly looking at the two ancient spirits in front of him, thinking in his heart that he would swallow them.

“Don't thank me, maybe you will hate it later.” Qin Tiange replied lightly.

The other party listened for a moment, clearly understood the meaning of his words, a trace of cold appeared on the hazy face, but quickly restored calm.

She said lightly: "It is true that you can obtain the soul of the earth book. It seems that you have a lot of opportunities. The immortal true spirit is just around the corner. Why bother to eat my broken true spirit?"

"I need your memory, the ancient and huge memory." Qin Tiange's tone was calm, and he stared at the **** true spirit.

Hearing this, the mysterious creature was silent, his head down and said nothing, he didn't know what he was thinking, but the real ***** spirit here seemed very irritable.

"You dare to swallow my true spirit, that is to seek death. Once you swallow my true spirit, you must be sensed by the subject who sleeps deep in space and time, and you are waiting to be hunted down."

The **** true spirit was very calm, his eyes revealed the **** murderous power, and he was not worried about Qin Tiange swallowing its true spirit.

Listening to its threat, Qin Tiange sneered, and did not move at all.

"Dead!" A low sigh, accompanied by hundreds of golden symbols, saw a golden sheet of paper pressed against the other person's head, spilling golden light over it, suppressing it there.

With hundreds of golden symbols wrapped around, the ***** real spirit was really panic. It was a threat to Qin Tiange, but he did not expect the other party to not eat this set.

"Don't wait, I can talk to you," the true spirit said quickly.

But unfortunately, Qin Tiange didn't listen at all, pierced his opponent's body with both hands, and the broken real spirit was penetrated.

"Ah, you're waiting for me to call you" A scream came, hundreds of souls around him struck the opponent's body, tearing its true spirit a little bit, and twisting it into a pure true power, Even with that ancient memory was absorbed by Qin Tiange.

The fierce roar gradually extinguished, and the ***** strange spirit was swallowed up by Qin Tiange Sheng.

"Well, the power of the true spirit, if swallowed, it is bound to repair a bit of my incomplete true spirit." Qin Tiange swallowed his mouth with a hint of surprise.

He felt that after devouring this weird real spirit, his broken real spirit had been repaired and recovered a little bit.

The true spirit of Qin Tiange is actually incomplete and incomplete. He is now slowly repairing himself. As long as he consumes more true spirit power, he can speed up the repair.

Ziz

At this time ~ www.mtlnovel.com ~ Zin Tiange heard a sound from the real spirit in his body. It can be seen that the dense soul's true character is repairing his strange true spirit a little bit.

After swallowing that weird real spirit, Qin Tiange turned and stared at the last blue real spirit, revealing a swallowing luster.

“Even if you swallow my incomplete true spirit, you won’t get anything. If you want to remember, I can make a copy for you.”

The blue true spirit said lightly, looking at Qin Tiange calmly, without fear, without any fluctuation, as if he didn’t care about death at all.

Qin Tiange’s eyes flickered, and he stared at the other word, “But I don’t know your details, I don’t know if the enemy is a friend, how can I believe you? I might as well swallow a hundred.”

“Enemies are friends, it’s up to you!”

She stopped talking, and looked at Qin Tiange flatly, her body covered with a mysterious blue light, the old secret lines staggered, and her breath was dignified.

The real spirit of the two collided, and the battle broke out!
