

Dark Ages 761

Chapter 761 - The Spirit of the Book of People

Huh!

There was a very crisp sound of gurgling in the real spirit space, and the whole real space trembled, as if the end of the world.

In his consciousness, Qin Tiange felt that he had become something else. Yes, it was an ancient book.

He seemed to be a book, and after many years, Hurr one day, a force of terror fell from the sky, bombarded on the book, and broke with a click.

“Spirit should not exist”

At the moment of fragmentation, Qin Tiange’s entire soul came with severe pain, and then faintly heard the hazy words, shocking him to wake up suddenly.

The rumbling sound, the sea boiled, Qin Tiange’s will reorganized, and he turned into a figure.

“The scene just now” Qin Tiange looked dignified and frowned, remembering that he had just been immersed in that wonderful state.

He suddenly remembered that he became a book, and then experienced countless years, one by one, the universe was born and destroyed.

But one day, it was suddenly broken.

Thinking of this, Qin Tiange immediately flashed to the real spirit space, and he felt inwardly, because he faintly felt that it was a memory fragment from the depths of the true spirit.

Sure enough, when he came to the real spirit space, Qin Tiange froze and looked at the true spirit that belonged to him in front of him.

Buzz

A strange ray of light shrouded in front, and a buzzing light came from inside, as if celebrating his rebirth.

There, the true spirit of Qin Tiange, finally completed the restoration and showed his original appearance.

A quaint book, hazy, gives a sense of mystery and mystery, very weird.

The cover of the book is branded with a quaint font. I don’t know what kind of text, but I can clearly understand that it is a “human” character.

“Book of people?” Qin Tiange murmured to himself before reaching the book, gently reaching out his hand.

Shocking, the dim and radiant diffused, covering Qin Tiange’s will and body, integrated into the book on the spot.

Suddenly, a piece of information from a long time ago came in pieces, and the memories belonging to the true spirit finally unfolded to him for the first time.

The repair of the true spirit is initially complete, but it is internally incomplete, complete in appearance, and internally incomplete. This is the true spirit of Qin Tiange.

For a long time, “Spirit of the Book of People”, Qin Tiange’s voice came from that book, and the illusory book revealed traces of ancient vicissitudes.

Gradually, this book changed into Qin Tiange’s appearance, but with a mysterious scroll on his forehead.

That’s human books!

Qin Tiange was shocked, sluggish, and almost choked. The true spirit of his own book turned out to be the soul of a book.

After repairing the appearance of the true spirit, Qin Tiange obtained scattered information, which was a subtle spiritual memory that existed before the book of man.

The human book has its own soul, but the birth process is very difficult, it can even be said to be very dangerous, it is a miracle.

However, this book has just produced spiritual wisdom, but it has led to the destruction of the world, which was directly broken by unknown forces and dissipated.

The spirit of the surviving people’s books was somehow brought into reincarnation by some mysterious force, reincarnation again and again, but unfortunately it was ignorance from generation to generation.

Everyone who reincarnates the spirit of the human book is a person who has not yet learned the tricks and is wise and dusty, which means that he is a fool.

Moreover, each life has a life span of only thirty years, and the aura of consciousness is exhausted, and it is reincarnated again.

Qin Tiange was speechless, looking at his true memory, reincarnation from time to time since the chaos era, but all are a fool.

What’s more unacceptable to him is that he has no parents, and the reincarnation comes completely out of thin air.

That’s right The reincarnation of the human spirit appears in battlefields one by one, where there is a war of human races, there will be a baby there.

Every time, the human race found that there was an extra baby on the battlefield, and took it back to raise it in a strange way. As a result, he grew up to be a wise man.

Thirty years later, he died inexplicably, and then continued his reincarnation. After the next reincarnation, the human spirit finally broke through the thick dust of the true spirit, and the spiritual wisdom sprang up.

And this man, Qin Tiange, has gone through countless reincarnations, made a fool of countless lives, and was the only one who was born with wisdom.

“Would you like to play with me like that?” Qin Tiange was speechless, flipped his palms, and a multitude of books appeared, herringbone breathed the ancient and vicissitudes.

Renshu, one of the three books of the heaven and earth, turned out to be his mysterious, and Qin Tiange finally realized his true spiritual origin, which is exactly the ray of wisdom that was originally born of human books.

It is a pity that it was broken and shattered, and the body was shattered. What made him chill is, who broke the books and didn't want them to produce wisdom?

Seeing this result, Qin Tiange cried and laughed

Chapter 762 - Mysterious ferry

“Hwang ... you are awake.”

Li Luo Qiaosheng was standing in front of him, and his body was perfect. It was not only that the repair was completed. It was a reversal from the origin and completed the reorganization of life.

Qin Tiange was amazed, looking at the reorganized Li Luo, the entire body was filled with a vicissitudes of ancient charm, the slight chaos of gray lingering, making her even more mysterious.

The eyes of Chaos Spring have been fully integrated and become the source of her strength, which is equal to her successful reversal of the origin and the achievement of chaotic beings.

“Congratulations, you have a new life.” Qin Tiange laughed openly.

There was no half-dead breath on Li Luo, but he was full of vitality, endless and powerful.

This is the fusion of the eyes of the Chaos, and she has obtained a new metamorphosis. She is completely different from the past.

Li Luo stepped forward and bowed down gently: “The emperor, Li Luo can be reborn, thanks to the emperor's gift ...”

Qin Tiange shook his head, lifted her up, and laughed: “You don't have to say these words. You can recover again and even get a higher level of transformation. It is your chance and my chance.”

Li Luo's eyes glowed brightly, flashing a touch of gentleness, and then he returned to normal, and the slight chaotic glazed light enveloped the body, covering the true content.

She was reborn, and Qin Tiange's understanding of the roots of her true spirit was a major change and important to him.

With the supreme combat power of Li Luo, Qin Tiange can plan with greater confidence. He has mastered many things. He used to see flowers in the fog, but now they are clearly visible and even within reach.

“Now that we are recovering, let's get ready, buried hundreds of people, and play the place of exile.” Qin Tiange's breath turned, becoming extremely heavy.

The true spirit is complete. After sinking into the chaotic membrane, Qin Tiange's feeling to Li Luo becomes more mysterious.

Huh!

The bodies of the two were shrouded in mist, and a fascination came, and the Pangu seal flew back to Qin Tiange's chaotic fetal membranes to continue to conserve.

The forbidden space of time and space disappeared, and the two reappeared here. The thick dust was rolled up and dispersed with a breath.

"This place is a little weird ..." Li Luo swept around, feeling that there was something wrong here.

The two evacuated dozens of meters, and looked down, all directions were thick with dust and could not see anything.

Before coming here, Qin Tiange didn't pay attention, and now if you take a closer look, good guy, this is completely an ashes cemetery.

"Where are there so many ashes?" Qin Tiange frowned, sweeping the endless gray dust, all ashes of living beings.

It feels like an ashes cemetery. The thick ashes lay on the ground, revealing a trace of eerie.

Strangely, there aren't any bones here, some just these weird ashes, as if weathered.

"There's a breath over there, go and see." Qin Tiange thought about it, and the figure swept away.

Li Luo followed him closely, and the two of them walked towards a strange breath felt there, and soon saw a boat in the ashes.

Yes, the boat!

"That's ..." Qin Tiange's pupils froze, staring at the small wooden boat, with a thin figure on it, rowing a broken paddle for a moment.

A small boat, a weird rower, rowing paddles in the endless ocean of ashes.

"This man has a strange breath and can't be captured." Li Luo flashed, blocking Qin Tiange in front of him, watching the figure who was rowing constantly.

He was weird, wearing a tattered robe, and couldn't see Zhenrong. The only thing he could see were two boneless hands.

In front of the man, a green lamp was lit on the bow of the ship, and a faint fire swayed, exuding a sense of sensation.

"Young man, do you want to take a boat?"

Hur, the boater spoke up, and said this insidious word, which made people goose bumps.

Qin Tiange squinted and laughed, "Senior, does it make sense to row on these ashes?"

"Here is the sea of suffering for all beings. Don't even think about flying out from here."

The voice came quietly, even Qin Tiange's will could not capture any breath, it was really weird.

After the recovery of the true spirit, Qin Tiange was unable to capture the breath of the other party for the first time, and even had an absurd feeling, as if he was telling the truth.

"The sea of sufferings of all living beings?" Li Luoning frowned, and Huer said, "The emperor, there is a sea between heaven and earth, and it is said that the sea of living beings is bitter, big and infinite, and small like dust. No one has ever seen it, because the living beings have Buried in the sea of bitterness. "

"Is the sentient being bitter?" Qin Tiange's eyes glowed with a glimmer of light, the pictures flickered past, quickly flowing into the mind.

Suddenly, Qin Tiange saw a lot of pictures. It was he and Li Luo who were constantly flying here, but he couldn't fly out of the ashes, the endless strange ocean of ashes.

The sea of suffering is extremely weird!

Qin Tiange's expression became more and more dignified, because as he captured the future information with the true spirit of his self-book, he did not leave the picture here.

No matter how he tried, even rushing into the ocean of ashes, he still couldn't escape this strange place.

Here, there is nothing but endless ashes, no, there is a weird boat, a weird ferryman.

"Li Luo, we have entered the sea of soul of something ..." Qin Tiange suddenly said the discovery.

Qin Tiange has seen through, here, not the place of exile, but the soul of something.

Or, he appeared with Li Luo before and landed nearby, unclear why he was pulled into this ocean of souls?

"Senior, what do you mean by trapping us in the sea of souls?" Qin Tiange jumped into the boat instead of being in a hurry.

Li Luo stood beside him, staring at the weird man with vigilance, but surprised the other.

"Well?" The weird rower was surprised, surprised. "I didn't expect that you wouldn't even try to fly out?"

"And, how do you know this is the sea of souls?" The man in the tattered robe slowly raised his head, two glimmers of light came out, terrifying.

Qin Tiange smiled softly: "Here is your knowledge of the sea. Do you want to devour us or what do you want to do?"

The man in the black robe was silent, and the two glimmers of light in the black robe kept blinking.

Qin Tiange was not in a hurry. He looked at him quietly, his eyes were weird with strange light, and the pictures continuously flickered into his mind.

This is to capture the future picture. Although the true spirit is to be consumed, it can be recovered with the chaos gas supplement.

Qin Tiange feels weird here. He must use his ability to just wake up to capture future information and see what this guy's history is.

“Hmm ...” For a long time, a sigh came.

The man in black robe said: “You, the most special creature I have ever seen, looks like a human, but you have her breath ...”

What does this black robe man make Qin Tiange stumble? Who is she?

“Who are you talking about?” Qin Tiange frowned, his eyes flickered, and he had a little speculation.

I saw that the black robe man stopped rowing, looking up at the void, and said to himself, “I have fallen into the land of exile for three billion years.”

After hearing this, Qin Tiange almost sprayed his face with saliva. For three billion years, why didn't you die?

“Have you seen her?” Huer, a man in a black robe, looked at Ye Qing, the two rays of light seemed a little hot.

Qin Tiange asked: “Who is she, who you say?”

“Three lives, three lives, three hundred lives, one hundred years reincarnation”

The man in the black robe muttered to himself, and said emptyly, “I have been with her for one billion years before the Sansheng Stone, but after all, I still can't move her heart.”

Sansheng Stone? Qin Tiange's mind flashed a flash of lightning, a peerless figure appeared in his mind, and just looking back, let him inscribe eternity is she? Qin Tiange shook his heart, looked at the man in black robe in front of him, and immediately guessed his identity.

At the beginning, he broke into the ghost gate and saw Nai Heqiao, the dimly peerless back on the Sansheng Stone, and in retrospect he still felt a kind of palpitations.

“I have seen her once, do you know her?” Qin Tiange was silent for a moment, and then said this.

The man in the black robe heard his body tremble, his voice trembling, “She, oh ... forget it, billions of years, I'm about to turn into a pile of dead bone.”

“You incarnate as a stone bridge waiting for him for countless years, and I ferry in the bitter sea, waiting for you countless years, the former love has cooled, the old love is about to fade away, I can't give you eternal love ...

The man in the black robe said, suddenly his body was flooded, a trace of dust flew up, and the body turned into a little ash and dissipated.

Qin Tiange looked stunned, watching the scene blankly, and the Heipao people sat down.

Chapter 763 - Soul beads of all beings

On the boat, the strange black-robed man turned into fly ash, and he sat down.

Qin Tiange froze, staring blankly at this black robe man turned into flying ash, and finally revealed the true appearance.

Withered and exhausted, from the inside out, the soul and body were completely exhausted, and everything was exhausted.

“I can’t wait for eternity,” the black robe man said, as if whispering, telling of his bitterness of waiting for billions of years.

A love that has waited for billions of years, a love that has been brewing for billions of years, how strong?

Unfortunately, it is unrequited love. The person he loves is waiting for another person.

People incarnate in Shiqiao, waiting for their infatuation, made Qin Tiange shake his mind, it is difficult to feel and realize this kind of unrequited love that spans billions of years.

“Young man, can you do me a favor?”

Suddenly, the man in the black robe spoke this sentence, with a plead of pleading, and his eyes were tinged with hope.

Qin Tiange nodded slowly and said, “You said, if I can do it, I will help you complete it.”

The man in the black robe smiled, and he smiled bitterly: “I have spent countless years in the bitter sea and collected a ray of soul power from countless souls, just to help her find the person she is looking for. I would like to know that person. Who can make her incarnate as a stone bridge to wait for countless years without wavering. “

“I’d like to know who can make her wait so hard and not willing to look at me.” The voice of the black robe man was a bit lonely, and the billions of years of hard work could not change the attention of his lover.

Can you imagine? Qin Tiange feels that he is unimaginable. How can this love be sustained?

“This bead gathers the soul power of all beings that I have collected for countless years. If you see her again in the future, I hope you will help me transfer it to her. Maybe there is someone she is waiting for, maybe not, but I have no time Wait for her again. “

The man in black robe said, a light flew from the heart, it was a gray bead, showing an endless soul breath.

Qin Tiange reached out to take over the bead, and immediately felt the endless huge soul power in it, and was horrified in his heart.

Hidden in this bead is the soul breath of all beings that the black robe man has ferried in countless years in the bitter sea.

Inside, there are immensely vast soul power, and even countless sentiments of sentient beings.

The feelings of his life, after his death, let him collect them and silently pay for the person he loves in his heart.

“You can feel the countless memories in it. There are strong, weak, hundred, ten thousand, and even all kinds of unknown and annihilated biological information. You can absorb these.”

The man in black robes paused before saying, “I just hope you can give this thing to her.”

“Rest assured, if he can see her again in the future, I will transfer it to her.” Qin Tiange finished, waved his hand, and stamped the broken encounter with the power of time and space combined with the true power of human books. record it.

After doing this, Qin Tiange looked at the Heipao people and said, “I have recorded our encounter and I will see her again tomorrow, and I will pass it on to her.”

“Ha ha ha ha thank you young man, my wish is gone, this boat is useless to me, I will send it to you.” The man in black robe said that the whole body was turned into a ash and dissipated.

He disappeared and he was completely seated, and there was no such person in the world. Qin Tiange looked at the ashes flying around, silent, with a strong shock in his heart.

Beside him, Li Luo’s eyes flickered, witnessing such a strange scene, a unrequited love fell in love with a woman, but people waited for another person.

One willingly turned into a stone bridge, waiting hard, one willing to sink into the sea of hardships, after many years of waiting, silently giving, but after all, could not get the heart of a beautiful woman, even if she didn’t get a glance.

Qin Tiange felt a stunned feeling. Suddenly, was this black robe man a little too persistent?

Knowing that someone has the best love in your heart, you are still waiting stupidly, knowing that it is impossible but still stupidly seeking, does it make sense?

Maybe it makes sense to him, but Qin Tiange feels that he won’t, maybe he doesn’t have the terrible attachment of the black robe man.

“The love in the world is the most grindsome.” Qin Tiange muttered to himself, thinking of his wife on the earth, Chen Xi.

And those who have always loved him silently, suddenly feel that they are not as good as this black robe ferry man’s attachment to love.

“Li Luo, do you think there is eternal love in the world?” Qin Tiange suddenly asked.

Li Luo flashed a little light beside him, but there was a gentle flash in her pupils, but she shook her head gently and said nothing.

Qin Tiange laughed at himself, looking at the soul bead in his hand, which gathered the memory information of countless souls, and even contained a ray of soul power.

Collected billions of years ago, what a terrible force it was, even Qin Tiange had the idea to swallow it directly.

But he promised people to do what he wanted to do. He put this soul bead and pressed it into the chaotic membrane, so that the true spirit could draw the memory and information of countless souls inside, and turn it into his own details.

“This boat” Heipao people sat and left this boat.

The dark-colored boat was covered with cracks, and a green lamp stood on the bow, giving it an extremely gloomy feeling.

Qin Tiange felt that the boat was not simple. It was an ancient and powerful treasure.

“A treasure of time and space can travel through the bitter seas of the world,” Li Luo said lightly.

Looking at the boat, Qin Tiange nodded, and then broke into his own will and imprinted it inside.

The process went very smoothly, without any obstacles, let Ye Qing directly grasp this strange boat.

Suddenly, after mastering this boat, Qin Tiange realized its role, and the only purpose was to shuttle the soul and bitter sea.

The bitter sea turned into ashes, in fact, under the ashes, there are endless darkness, known as the most terrible ocean in the world.

“Let’s go!” Qin Tiange took control of the boat, and his thoughts moved, and the green oil lamp on the bow flashed suddenly, glowing brightly, and burst through the mist.

In a blink of an eye, Qin Tiange and Li Luo sat in a boat and broke through the mist of the bitter sea. They rushed out of this terrible ocean and came to the other side.

As soon as the two were ashore, Qin Tiange had just stowed the boat, and Huer saw the surrounding landscape change for a while and disappeared instantly.

It reappeared. It was already a barren place that had landed originally. The surrounding wind and sand were long and the mist was surging. It returned to the place of exile.

Seeing this, Qin Tiange felt weird. Where did the bitter sea just exist?

Because after coming out, he can no longer sense the mysterious area. The only thing he can rely on is the small boat that directly breaks the world and enters the mysterious and bitter sea.

“The boat of time and space has crossed countless lives, but as a ferryman, he could not cross himself, and was eventually buried in the bitter sea.” Qin Tiange sighed inexplicably and turned to leave.

Li Luo's eyes flickered, looking at the void, his mouth slightly inexplicable, looking at his back, and following Qin Tiange's footsteps, he left here.

As Qin Tiange walked, he was meditating. Before that, the black robe had no breath, apparently reaching the limit of sitting.

Perhaps it was because I had seen the mysterious woman before, and a trace of her breath remained on her body that made this mysterious person feel and then dragged into the sea of bitterness.

This gave Qin Tiange the feeling of turning away from the clouds and seeing the bright moon, suddenly bright, and seemed to see another way out of the place of exile.

"Li Luo, you said, can you leave the place of exile by crossing the sea of pain with a soul boat?" Qin Tiange walked and asked suddenly.

After listening, Li Luo shook her head and explained, "Hwang, before, we should have been drawn into the sea of bitterness by our souls."

"Well, I feel the same way." Qin Tiange nodded, thinking about the situation in the bitter sea, it was really a soul idea.

Thinking of this, I had to give up this plan, and in the end, I still had to rely on force to fight it out.

"Huh?" Suddenly, Li Luo's frowned, and stared at the void not far away.

"Indulgent!" Li Luo sighed, and Huer flashed forward, splitting the rolling mist.

There was a bang, and there was a strong horizontal figure, so Qin Tiange could not help frowning after seeing it, followed the flashing body and flew into the air.

Chapter 764 - The Temptation of the Chaos Island Owner

Bang! In the fog, Li Luo split his two palms and hit a strong horizontal figure. The two hit each other and backed away.

Qin Tiange just arrived, saw the man, could not help frowning, from the breath of the other side was extremely arrogant.

Suddenly, he stared sharply, and then turned to look at the other side, without wanting to go forward with a punch.

When a loud noise, the black mist was cleared, and cracks came from the space. A strong horizontal figure was hit, revealing the true body.

Another powerful creature hides here, peering at Qin Tiange and Li Luo.

"Her emperor? Let me see how strong you are." The beaten creature sneered, and a blue vortex outside the body suddenly burst.

He pressed it down with a single palm and gave a strong blow, causing Qin Tiange's eyes to kill him and waving his fist up.

Just listening to the loud noise, the two retreated from each other, the powerful forces scattered, rolled up and the dust disappeared.

Qin Tiange looked at the creature on the opposite side, like a faint black hole, devouring everything and covering his body.

“The sea of chaos, the island owner?” He said to himself, looking up and down at the mysterious figure in front of him, guessing that the other party must be one of the eight island owners of the sea of chaos.

Sure enough, the other person’s figure hidden in the blue vortex paused and said: “The emperor is really extraordinary. Although I don’t know why an emperor will come to the place of exile, but before you slaughtered the hundreds of people Some are over. “

“Joke.” Qin Tiange hummed softly, stepping forward, and said, “My people have been suppressed and killed by hundreds of people for hundreds of thousands of years. Will you pay this blood debt?”

The man was silent. Qin Tiange was right. The human race has been oppressed and killed for hundreds of thousands of years. Whoever dares to bear the blood debt, then Qin Tiange killed the person first.

Even the island owner dare not say that he can take the blood debt.

Bang!

There, another powerful creature was flung out by Li Luo’s three fists and two palms, and hit and landed next to that creature.

The two creatures were heavy in breath, and the blue and black swirls swirled around them, covering both of them.

Qin Tiange and Li Luo stood together, and the body was filled with gray mist, forming a terrible gray vortex, as if two chaos storms.

The breath of the four people collided, and the terrible sounds of zizz were heard from the space. The overbearing momentum pressed the surrounding ground to shake.

“Say, you two island owners, come and peep, do you want to fight with us?” Qin Tiange’s tone was indifferent, breaking the atmosphere of silence.

On the opposite side, the creature in the black whirlpool sneered: “People, don’t go too far, you know, in this place of exile, there are not only hundreds of souls, but some hidden in the ancient era. Those creatures. “

“Yes, they are all hidden under the ground. You should know that the secret of the exile is not so simple. If you want to go out, don’t make too much noise.” A warning came from the blue swirl.

“Before, the two of you have alarmed the Guardian and broke our plan. If we do something again, it is said that no creatures of the ancient era will come out and wipe you out.” The warning of the two island owners made Qin Tiange squint his eyes Without saying a word, he didn’t know what he was thinking The creatures of the ancient epoch, Qin Tiange knows, among the magic blood under the

ground, there are many terrible things hidden. These creatures have never appeared, and have been tempering their bodies underground, living with the magic of magic blood, becoming even more horrible.

“Finished? You are here, is this what you mean?” Qin Tiange said suddenly, looking at the two island owners.

On the opposite side, the two mysterious and powerful island owners suddenly felt a palpitation and did not want to retreat individually.

boom!

Sure enough, as soon as they retired, they saw Qin Tiange and Li Luo both exploding, each hitting a Xeon punch.

The powerful momentum and horrific pressure made the two island owners look dignified. If they did not dodge in time, they might be wounded by a blow.

“Look for death!” In a blue whirlpool, the living being was angry. He condensed a faint blue light, and turned it into a black hole to split into Qin Tiange.

Qin Tiange got up, waved a punch, and made a snapping sound.

Chapter 765 - Line up and release chaotic elementary tires

The chaotic capital, the remnants of the human race and the Ziling race live here, and no other race exists except the two races.

Throughout the chaotic land, all hundred cities were empty, and the creatures of all races ran into the sea of chaos. There are no creatures of all races here.

Back here, Qin Tiange and Li Luo entered the underground crack directly, and enough practice space has been excavated by the side of the demon blood pool.

“Huang, if this tribe can bring out the place of exile and return to the starry universe, the suppressed cultivation will inevitably skyrocket.” Looking at the hundreds of thousands of people and the purple spirits who practiced, Li Luo said his view.

The souls in the place of exile were all crushed and suppressed, creating a powerful backlog. Once out, it will inevitably soar into the sky.

Because the beings here have sharpened their respective backgrounds and bodies to a very scary level, they have developed a potential.

Once you go out and lose that powerful puppet, Xiu Wei will leaps and bounds, even forming a terrible scene.

What makes Qin Tiange care is that those creatures that have been suppressed for countless years are okay if they go out?

Xiu Wei has been polished to the extreme. If released, he will definitely become one of the terrible powerhouses. Xiu Wei is terror.

“That’s why I want to bury hundreds of souls, and letting them go out is a huge obstacle to the rise of our people.” Qin Tiange said lightly.

His idea was to bury the hundreds of souls in the exile, and how to bury them was dependent on external forces.

And the best external force in the exiled land is those mysterious guardians who guard the exiled land, and used these forces to bury hundreds of souls.

“Before entering the area, I have faintly felt that there are hidden exits in the four directions of southeast, northwest, and northwest.” Li Luo sent a message to Qin Tiange to remind him.

She had penetrated into the fragmented area before, and felt four exits, where the entrance to the place of exile was hidden.

Otherwise, there will be no mysterious creatures guarding it, which is why Qin Tiange and Li Luo ventured into it.

“Wait a minute, can’t wait.” Qin Tiange exhaled lightly and said, “Besides, I just want to use the magic blood here to temper the flesh, and even let all the people and purple spirits complete transformation.”

“It’s better, we work together to arrange an ancient array, draw the kind of magic energy in the tempered magic blood, and train the human race to expand the potential.” Li Luo thought for a while, blinking his words.

She possesses an ancient array that can extract refining energy, and maybe be able to refine the pure magic energy in the blood of the demon, and provide it for the cultivation of the human race.

Qin Tiange fell into meditation and found many such ancient formations and methods from the many ancient memories that he devoured.

“Okay, speed it up, and we strive to play this weird place as soon as possible.” Qin Tiange finally agreed.

The two made a decision and acted immediately. Qin Tiange first sank into the blood of the demons and realized the ancient formations and methods. Li Luo took the lead in constructing the ancient array she knew, and used the power of magic blood to arrange the next super array.

boom!

Suddenly, the blood of the devil rose up, a figure vacated, and the elders and Ziji who practiced here were shocked.

When they looked at it, they found that Qin Tiange spread out separately and continued to cultivate, hurrying to practice every moment.

“Let’s go!” Qin Tiange stood up in the air, standing above the cracks in the Demon Blood Pond, his hands hulled out a ray of light.

He was in the formation, and using the energy of the magic blood, he traced the ancient array marks under the ground, interweaving into an energy-hardened battle.

“What is the Emperor doing?” Zi Ji was curious and looked at Qin Tiange and Li Luo who were busy.

I saw that the two had imprinted the dense array of ancient formations here, intertwined with each other, forming a large array of terror.

With the endless energy of the magic blood, the large array slowly turned into a terrible phenomenon. Rumble sounds kept coming. Under the ground, a mysterious energy was extracted, the blood of the devil was boiling, the energy of the silk was refined, and it floated in the air.

These energies are increasing, and in the end, they turn into a black and gray energy mist, which makes people absorb and temper the body.

“Old Elder, Ziji, you are responsible for leading the clan to come in, absorb these pure magic energy in this area, and temper your body.” Qin Tiange arranged the lines and explained the dull elder and Ziji. The two then turned around and sank into the fissure of fiend blood.

Li Luo disappeared with the same incident, leaving the elder and Zi Ji facing each other, shocked and happy in their hearts.

“It turned out to be the energy of the ancient array to train, okay. In this way, our people will practice faster.” The elder was excited.

He and Zi Ji immediately acted, and went out to bring in the clan, all of them went into the fissure of the underground blood pool to cultivate.

As for Qin Tiange, he took Li Luo to go deeper into the magic blood, and washed away along the direction of the blood flow.

“Li Luo, wait for you to protect me, I will release something, and use it to endless demon blood here to contain it.” Along the way, Qin Tiange made this request to Li Luo, wait, he Ready to release the chaotic membrane.

That is to use the infinite energy here to directly devour, so that the chaotic membrane can strengthen itself with the help of the demon energy here.

“Okay.” Li Luo bowed his head, and as Qin Tiange, the two rushed directly into the fork where the demon blood rushed.

Going up against the current, they smashed through the demons and rushed into the more wild and violent area.

boom! As soon as he entered the room, Qin Tiange felt a force of energy sweeping in, the blood of surging demons surging like a tide of extinction.

Qin Tiange waved his fist, directly broke this torrent of demonic blood, rushed forward, and came to a wider world of blood seas.

Blood is full of unstoppable magic blood. The dark blood of magic blood is extremely horrible, chaotic and violent, full of destruction and destruction.

“So intense blood, what kind of creature’s blood is this?” Qin Tiange looked at the boiling sea of blood around him, and was surprised.

What kind of creature is that having such terrible blood contains infinite energy, it is incredible.

“Maybe a chaotic creature,” Li Luo said with caution. Qin Tiange’s eyes flickered. Without hesitation, he rushed to a relatively quiet area, and saw a huge shadow lingering there.

Demon creatures, more powerful and violent than the outside, are filled with the desire for destruction. When they see the creatures, they will kill them directly.

It always feels that these demon creatures are like microorganisms in the blood vessels of something. People like Qin Tiange are invading viruses and are removed.

“Open!” Looking at the demon creatures flowing around, Qin Tiange had a somber face, drank aloud, and suddenly opened his mouth to emit a gray light.

This light is extremely strong, as if the light from chaos, the chaotic gas boils, directly rushes around, and turns into a gray chaotic area.

“Chaotic fetal membranes, come out!” Qin Tiange drank, a powerful breath erupted in Dantian, ancient and arrogant, and one side of chaotic membranes burst out of Dantian.

Suddenly, the chaotic membrane appeared outside the body, forming a gray vortex, which directly launched the horrible devour.

A loud bang came, and the demonic blood in all directions was drawn in, and the chaotic membranes gradually expanded and became bigger and bigger, as if a world were unfolding and devouring the sky.

Chapter 766 - Spread the stars and condense the black hole

Chaos fetal membranes were released for the first time, causing a great deal of movement. Qin Tiange was very surprised.

Looking at the continuously expanding chaotic membrane, it looks like a round egg, covered with a mist of aerosol, growing larger and larger.

Inside, it is completely chaotic, filled with the most primitive and violent chaos, which is equivalent to a growing chaos.

A rush of suction came, and the endless magic blood around him was swallowed up, and Qin Tiange was stunned, some could not believe it.

Li Luo was even more stunned, staring at this growing chaotic fetal membrane dumbfounded.

She did not expect that Qin Tiange had hidden such a world fetal membrane in her body, or an ancient chaos.

It is a chaotic world that is being cultivated. Once growth is complete, it will inevitably transform into a real chaos.

Just like a baby, it was conceived from the beginning, gradually formed, and then born, the chaotic membrane is in the incubation stage.

It lacks energy, it lacks endless energy, without energy it cannot be cultivated at all, or it is extremely slow.

Originally, it was stored in Qin Tian Ge Dan Tian, and it grew very slowly, but now it is released, and it has strange changes.

Around the rumble, endless magic blood was swallowed up. Kilometers, ten thousand meters, hundred thousand meters, hundreds of thousands of meters, and millions of meters, all the magic blood was stolen inexplicably.

Even the demon creatures that were originally wandering in this area were swallowed up by the chaotic membranes and assimilated directly.

Yes, Qin Tiange can see very clearly that the chaotic membrane has assimilated everything, whether it is energy or matter, or even those demon creatures, all swallowed up together.

“It turned out that the world needs to consume endless energy to grow, and even **** other world energy to strengthen itself.” Qin Tiange Huer realized.

With the change of the chaotic membrane, a trace of information came into the mind, and Qin Tiange, who controlled the chaotic membrane, seemed to be the creator and controller of the chaos.

He can control the power of the chaotic membrane as he wants, just like now, the power of the chaotic membrane is rapidly expanding.

Devouring, assimilating, and absorbing the endless blood of the demon ***** here, the chaotic membrane has been greatly improved and transformed.

The movement here has caused a lot of movement in the underground blood river, but it is not worth mentioning at all to the endless underground sea of blood.

Seeing this, Qin Tiange revealed a smile, which is even better, letting out the chaotic membrane directly to make it grow stronger.

“Go, follow me into the chaotic membranes and practice.” Qin Tiange laughed and walked away.

Li Luo awoke, suppressed the shock in his heart, and followed Qin Tiange into this chaotic membrane.

“So pure chaotic gas, the most primitive and violent power.” Li Luo entered the chaotic membrane, immediately shocked.

Looking at the chaotic gas boiling around, the heart was shaking, but it was full of joy.

“Find a place to cultivate yourself.” Qin Tiange explained, and he couldn’t wait to start the practice.

He stepped away, came to the center of the chaotic membrane, and fused with his true spirit. Suddenly, his body swelled up.

Lost the mysterious suppression of the place of exile, in the chaotic membrane, Qin Tiange was not affected at all.

“Rise!” He shouted, accompanied by a giant rising upright, standing upright and chaotic.

Qin Tiange transformed Pangu’s body, opened his mouth to swallow endless chaos, and strengthened Pangu’s chaotic power in gene cells.

Chaos is the ration of the Pangu tribe. Although Qin Tiange can absorb the magic blood outside, it is very laborious and impure.

Only by absorbing the chaos could he feel comfortable, and every cell made a sound of joy.

This is the first time that Qin Tiange has practiced using chaotic gas. After all, he didn’t want to use these chaotic gas to practice before.

It’s different now, the chaotic membrane is released, and the endless assimilation of the blood of the demon gods generates more chaos.

This allows Qin Tiange to have enough chaos to cultivate, improve his Pangu body, and even use the growth of the chaotic membrane to feed back and obtain greater transformation.

In the humming chaos, Qin Tiange sat cross-legged, his body was constantly trembling, a wave of chaos gas came in, ingested the cells of the body, and concealed in it a more powerful Pangu tribe power.

This time, the physical body, which had been slowly promoted, became faster. The chaos is the basis of the Pangu practice.

The loud noise spread, and the whole chaos shook. It was seen that Qin Tiange’s body formed a huge vortex, and a chaos storm was swallowed up.

At the same time, in the outer world of magic blood, the chaotic membrane became more horrible, swelling all the way, devouring endless magic blood, devouring countless demons and creatures.

Even those barriers that are suspected of being flesh and blood were absorbed by one by one assimilation, terrible devouring power, nothing can stop it.

A growing chaotic birthplace, which is bred with a world, a chaos that is taking shape.

Suddenly, there was a strange vibration coming from the chaotic Yuantai, a little agitation, as if breathing.

This fetal membrane evolved gradually, transformed into a primordial fetus, and really began to breed a little chaos.

The chaos in the yuan tire is boiling, but it is not enough, it can’t really take shape, just like it just came out, and it needs endless energy to fill and grow.

However, this yuan gave birth to a more terrible devouring force, which led to a strange change in the veins of the underground blood sea.

The flow of huge blood and sea veins changed, and they diverted and rushed here, forming a terrible undercurrent and rushing up.

It is a pity that no matter how much magic blood comes, it is absorbed by that chaotic elementary fetus, as if it were a bottomless pit.

Devour! Devour! Devour!

Chaos elementary is devouring, Qin Tiange inside is devouring likewise, Jane has reached the point of madness. As he devoured endless chaos, Qin Tiange's physical body was improving, he had just entered the black hole level, and it expanded rapidly.

Black holes, devouring all things, will eventually disturb the space and time, and even twist the barriers of time and space, so that souls can capture the mystery and power of time and space.

However, if you want to distort time and space, you cannot do it with a single black hole. Therefore, Qin Tiange combines various ancient cultivation memories and perceptions to directly promote cells as black holes.

First of all, in the major acupoints of the body, a black hole is condensed and compressed, and all acupoints are condensed into a black hole, then it can break through the black hole level and become a generation of star masters.

The star master creates a constellation of stars in the body, that is, the master of a domain, invincible, travels the starry universe, and can die for countless years.

At present, Qin Tiange has not improved his practice. The ninety-nine stars in his body still have no breakthrough. Instead, they are compressed by an inexplicable force, and become smaller and smaller, but the quality is gradually enhanced.

What he ascended was the flesh, condensing a gray vortex in each acupoint, like a black hole. That is to create black holes in the acupuncture points, and use endless chaos to create the black holes on the acupuncture points, practice them into a whole, and form a whole.

Hum! Along with the first acupuncture point, the first gray hole was successfully condensed, and a force of swallowing up the sky, endless chaos was swallowed into it.

Suddenly Qin Tiange's breath became more terrifying, swallowed faster, and even began to condense the next black hole.

Opening the acupuncture points and creating black holes is what Qin Tiange dared to think. Such a practice method is not good for annihilating his body.

But Qin Tiange was not satisfied. What he wanted was that every cell in the body formed a black hole, which began to devour, and that he devoured cultivation all the time, and that scene was scary.

Think of how many cells there are in a living body, how many cells there are in a human body, and each cell turns into a black hole, which is really shocking.

“The stars in the body are temporarily useless. When they return to the place of exile, they are suppressed and worn out. It is better to disperse and directly condense the black holes on the body’s acupuncture points.” During training, Qin Tiange aimed at the ninety-nine chaotic stars, Huer Made a crazy move.

“Scatter!” Suddenly he yelled, and in the world of Dantian, the ninety-nine stars suddenly dispersed, turning into an infinite energy, pouring directly into the major points of the body.

At an instant, Qin Tiange actually gave birth to ninety-nine black holes, which caused the vibration of the chaotic Yuantai on the spot, and awakened Li Luo during the cultivation.

Chapter 767 - 365 black holes, chasing star master

The sound of crunch and crunch came, awakened Li Luo during cultivation, looked around, and was stunned by the scene in front of her.

I saw, Qin Tiange’s body, suddenly cracked crack after crack, revealing a force to swallow the sky.

Suddenly, the chaos within a few tens of kilometers was completely absorbed by him, and then a terrible sound came out.

On the surface of Qin Tiange’s body, one black hole after another suddenly appeared, located in the acupoints of the body, connected like a vortex, and swallowed the sky.

“His, actually there are black holes condensed in the body acupoints. Is this to create black holes to strengthen the body?” Li Luo looked at Qin Tiange’s body in a shock.

There are a hundred black holes, and the branch is in each positive hole of the body. The powerful suction swallows the endless chaos and starts to create the black holes of other positive holes.

The human body has 365 positive holes. Once they have evolved into black holes, the whole body is like the power of 365 black holes combined, and the power that erupts is absolutely devastating.

Qin Tiange had to condense black holes in all the positive points in his body, or turn his points into black holes.

Even more ambitious, he wanted to turn every cell in the body into a small black hole.

In this way, every cell in the body will become a terrible black hole. By then, the entire human body will be an extremely scary super black hole.

Such a terrible thought, that is, Qin Tiange dared to do so, Pangu’s body was condensed out of black holes one by one.

Hum!

Another gray vortex condensed out in the acupuncture points, replacing the original acupoint effect.

The twelve internal organs of the five internal organs and the six internal organs run through the whole body. The fourteen meridians are covered with 365 positive points, and each positive point starts to devour chaos.

Gradually, one black hole after another was condensed out, distributed over the body's fourteen meridians, connected into one piece, causing the entire body to crack and collapse.

The power of black holes is too strong. This is not one, but aggregating 365 black holes together, causing terrible destructive power beyond imagination.

Li Luo Qiao's face was horrifying, and she retreated back and forth, away from the area where Qin Tiange was located, because it completely turned into a horror swirl.

The chaotic elemental fetus vibrated, intensifying its swallowing power, suddenly swallowing a stream of demon blood flowing from the ground beneath, turning it into chaos gas to supplement internal consumption.

Qin Tiange devoured it too crazy, and one black hole emerged. In the end, when the 365 black holes were completely condensed and formed, the chaotic Yuantai trembled suddenly.

still!

The chaos was still, as if the Yuantai had been stopped by some force, even the endless magic blood outside, the sea of blood within a hundred kilometers radius was fixed.

Li Luo was horrified, because she was stopped by that force and could not move. She could only watch Qin Tiange's body gradually collapse.

Yes, Qin Tiange's body collapsed, and the power of 365 black holes was too horrible, causing his physical body to withstand a direct collapse.

But strangely, the collapsed body was reorganizing itself, and it collapsed again and again, and it was born dead.

Huh!

With a rumbling, the collapsed body was reorganized again. This time, it did not collapse again, but exuded a strong and unmatched breath.

The original body was suddenly shrunk under the strong suction, and changed back to the original appearance.

At this time, Qin Tiange finally awakened from the practice, slowly opened his eyes, the grey breath was revealed, and his eyes were like two black holes, swallowing the sky.

"I almost hung up." Qin Tiange murmured to himself, thinking about his previous adventure, almost hung up.

365 black holes condensed and evolved, how terrible it was, and a little carelessness would be wiped out. Qin Tiange seemed to be fighting.

Fortunately, he succeeded, completed the evolution of the black hole in the inner positive hole, successfully transformed his physical body, grew again, and became more horrible.

"It's not yet the star master. It seems that there is still a little distance. If all 720 acupoints have been condensed and evolved into black holes, then you can

break through the star master level.” Qin Tiange felt his body slightly, and did not break through the star Main level.

This made him embarrassed. It was speculated that once the 365 acupoints on the fourteen meridians are condensed into a black hole, it is likely to break through the star level.

But unfortunately not, however, at present Qin Tiange’s physical strength, strength, and combat effectiveness erupted, catching up with the star master.

“Imperial, you” Li Luo flashed forward and looked at Qin Tiange hesitantly.

She felt an oppression, from Qin Tiange’s physical body, the horrible pressure had not been felt for a long time.

Qin Tiange smiled at her and said, “Sorry, you haven’t practiced too much just now.”

“No problem.” Li Luo shook her head and didn’t care, she frowned. “Hwang, this chaotic Yuantai has made too much noise, but it’s still put away so as not to be peeped by something.”

Qin Tiange thought for a moment, and his head agreed, and the two immediately came out of the chaotic elementary birth, just seeing the infinitely expanding chaotic elementary birth, devouring everything around him frantically.

Seeing this, Qin Tiange was startled, and Zhen Ling jumped out of his brows and rushed directly into the chaotic yuan.

boom!

Suddenly, the chaotic Yuanchao, which had been insanely soaring, immediately shocked, then clamored and shrank, and finally ran into an egg-sized rush into Dantian of Qin Tiange.

After doing all this, Qin Tiange was relieved. The scene just now was terrible. Chaos Yuantai seemed to be swallowing the entire place of exile.

“There is too much movement here, let’s leave first.” Qin Tiange glanced at the empty void hundreds of kilometers around, all swallowed up by the chaotic elementary.

He and Li Luo both turned around, flickered, and quickly left the area.

The movement here is too great, even creating an open area of hundreds of kilometers in radius, which has caused a lot of hidden paleozoic creatures to be alarmed.

Huh!

Not long after leaving, there was a hidden and powerful atmosphere here, all hidden in the periphery of this area, staring in suspicion at the emptiness here.

Here, there is nothing, magic blood, material does not exist, as if being wiped out by life.

“What happened, what happened here?”

When a suspicion came, a powerful creature looked at this empty open area and was very shocked. Such a scene has never been seen before, and naturally caused the vigilance and suspicion of these creatures, all guessing.

Unfortunately, they could not guess that Qin Tiange and Li Luo had left the area and returned to the fiery blood fissure under the chaotic capital.

“Huang, this time the movement is a bit big. Those hidden ancient creatures should have been a little alert, and the chaotic elementary fetus should not be exposed. Even in my era, countless strong men broke their heads to snatch.” Li Luo Chuansheng solemnly reminded Qin Tiange that the thing should not be exposed.

The chaos elementary is a growing universe or the most primitive universe, which can definitely allow many space-time and even higher existences to snatch.

“I’m awake.” Qin Tiange looked at the magic blood pool under the eyes, and laughed: “This time the gain is great Although it has been risky, it has really benefited.”

He was right, this time Qin Tiange’s benefits were too great, and his body once again obtained a horrible transformation.

Inside the body, on the fourteen meridians, one black hole after another, 365 black holes are practised into one piece. What kind of power is that?

Every move carried the power of 365 black holes, and it was terrifying to think about it.

“Well?” Suddenly, Qin Tiange frowned, and chuckled: “I didn’t expect that there could be creatures to follow here.”

When Li Luo heard it, she frowned suddenly, her eyes glowed with gray light, staring under the fissure of fiery blood, where an ancient creature traced here.

“I’ll suppress it.”

Qin Tiange said, sinking into the demon blood in one step, he was going to suppress the ancient creatures that could only track up.

The ancient creatures are very strong and have a lot of magical powers. They can trace the traces of Qin Tiange and Li Luo.

Chapter 768 - Underworld, 0 Eye Demon

boom

Under the blood of the demon, a huge bug came crashing into the body, the whole body was black, and the long body was covered with dense eyes.

Yes, this creature has eyes full on its body, its mouth is open, it has cavities inside, one of the largest eyes on the forehead is closed, and the two open eyes next to it are dark.

The other eyes were closed. It was not clear what these eyes did, but the two open eyes could trace Qin Tiange's trace.

boom!

Qin Tiange broke the magic blood and came to the front of the demon worm not far. Both of them took a look, stopped together, and looked at each other.

At the moment of seeing this monster, Qin Tiange's pupils couldn't help flashing a surprise, and looked at the huge monster that was thousands of feet long.

"Ancient creature, a thousand-eyed monster?"

Qin Tiange said to himself, recognizing the origin of this thousand-eyed demon worm, which is an ancient creature of the ancient period, extremely strange and unpredictable.

The division of epochs starts from the Chaos epoch, and the next epoch is the Pale Age, which is also called the first epoch.

Each epoch is divided into several epochs, each epoch spans a full 80 million years, several epochs, and countless epochs.

"What happened there before, related to you?"

Thousand-eyed monsters, two open eyes staring at Qin Tiange, and spit out a universal word.

It looked positive and locked Qin Tiange directly, thinking that the previous movement was caused by him or related to him.

Qin Tiange listened and squinted his eyes. At this moment, Li Luo came to his side and was surprised by the thousand-eyed monster.

"Huang, this is a paleontology from my era, the ancient Paleogene, is a powerful creature of the Cenozoic." Li Luo Chuan Yin said.

The thousand-eyed monster worm looked at Li Luo and wondered: "The previous movement must have been made by you two."

"How is it? How isn't it?" Qin Tiange's expression was flat, his eyes stared at the thousands of monsters indifferently.

The opponent's origin is ancient, and his ability is extremely strange, especially the densely closed eyes on his body, which have different abilities.

This terrible creature is a headache, because each eye of it has different abilities.

For example, the two eyes that are now open can even trace the tracks of Qin Tiange and Li Luo. They have to say that their abilities are strange.

"Hey, what's wrong, I believe there is a treasure there that can cause that kind of movement. You better not deny it, you can surrender it obediently. This seat can let you go." Thousand-eyed monster smirked.

After hearing this, Qin Tiange's mouth was raised, and he stepped out: "If you want, then you have the ability."

“Then kill you and take it again.” Thousand-eyed monster insect Li Xiao, opened his mouth and sprayed a horrible black torrent.

This torrent was extremely intense, that is, the nearby magic blood was melted into a faint mist.

The terrible black torrent swept through, Qin Tiange was not panic, stepped forward and pressed down with a palm cover.

With a bang, the black torrent rushing ahead was smashed into powder on the spot and completely dissipated.

“kill!”

Qin Tiange’s figure flashed, and when he came to the thousand-eyed monster, he raised his hand and banged in the past.

Hum!

Suddenly, one eye opened on the body of the Thousand-Eyed Demon, sending out a horrible beam of light, and the green mang roared.

Qin Tiange’s eyes smashed, his fists smashed, and the sound of violent clashes spread, and the blood around him was scattered.

A powerful punch smashed the beam of green light, and then slammed on the body of the Thousand-Eyed Demon Worm.

Rumbling

The demon worm flew out, stopped and turned around. There was a shock in the three open eyes.

It shouted angrily: “Good guy, no wonder it is so crazy. It turned out to be not weak. Unfortunately, you can’t break the body of this seat.”

The body of the Thousand-Eyed Demon is extremely powerful and its defense is beyond imagination. It has condensed its body for countless years, and it is impossible to break.

Qin Tiange made a punch just now, and he had gathered 80% of his strength, but he was still unable to hurt the other side, which was a surprise.

“It is indeed an ancient creature of the ancient Paleogene. It seems that you are not relying on physical strength. Although your defense is strong, you are truly capable of being above your eyes.” Qin Tiange came with confidence and confidence.

His words made the thousand-eyed monster sneer: “You know that the eyes of this seat are so powerful that you can’t be hurt by the body, then you must be obedient to death.”

Huh!

As soon as the words fell, thousands of horrible eyes opened on their bodies.

A hundred eyes were opened at once, the light was bright, and a monstrous light cluster condensed on the top of the monster’s head, colorful and full of destruction.

That is the power of the eye, as if it were talented, different, and Qin Tiange was moved by the fusion.

boom!

The light mass broke out, and a sudden shock came. Everywhere in the space, a crack like a hairline cracked.

The force was so strong that with the meaning of destruction, Qin Tiange narrowed his eyes, his arm slightly shaken, and a wild punch hit him.

The thunder screamed, his fist shattered the light of destruction all the way, and broke through the torrent to hit the past.

“What?” Thousand-eyed monsters were shocked, and an incredible light shone in one hundred eyes, and saw Qin Tiange bang over with his body.

At the tip of the eye, the opponent broke its blow, and the thousand-eyed monster sneered. In the central part of the body, one eye brushed open, and one hundred eyes opened again.

It was scarlet eyes, and the slight red rays gathered, and the sound of cracking in the space came over.

Two hundred eyes bloomed immensely, gathered into one, and directly bombarded them, the endless storm of endlessness.

“Break me!”

Ahead, Qin Tiange li Xiao, long hair fluttering, arms suddenly swelled, his fists wrapped up in a mist of mist.

A violent explosion came, and the light was diffused, extremely dazzling, and a storm of world destruction was generated around.

Qin Tiange penetrated into that energy, bombarded all the way, brutally penetrated this force, and rushed up.

“dead!”

With a low drink, accompanied by Qin Tiange’s killing, his fist smashed into the head of a thousand-eyed monster.

Hearing only a muffled sound, the eyes of a thousand-eyed monster worm sunk a fist mark, and his body flew thousands of miles on the spot.

The powerful punch gave it a punch, and the two open eyes on his head were blown away by the wild punch.

“Ah, roar!” Thousand-eyed monsters roared, screaming sternly, and one eye opened all over their bodies.

There are a thousand eyes on it, except for the one with the largest eye on the forehead, the rest are open.

The horrible sound of Zizi came, and the body of the thousand-eyed demon worms bloomed with countless brilliance. Together, beams of light condensed, colorful, and finally turned into a chaotic light.

“Chaos extinction magic light?” Qin Tiange stunned, watching the gray light that continually condensed, with the power of extinction.

It was the chaos extinction magic light, and the terrible light condensed by 999 eyes turned into such a power.

“Destroy the magical light, let’s die!” Thousands of eyes and worms roared, and the chaotic extinct magical light condensed out burst out inundated Qin Tiange.

This light was too fast to even dodge, Qin Tiange was overwhelmed by the extinction magic light on the spot.

“Hahahaha”

Seeing this, the thousand-eyed monster could not help but laugh loudly, looking very proud, in its view Qin Tiange was dead.

The chaos extinction magic light is almost its strongest blow. Many creatures are annihilated by this chaos extinction force and turned into flying ash.

Rumbling

The extinction magic light erupted, sweeping all directions, and the demon blood within dozens of miles was evaporated.

“This energy is very strong and tastes good.”

Suddenly, an indifferent voice came out, and the laughter of the thousand-eyed monsters came to an abrupt halt, and each eyeball widened and looked there inconceivably.

I saw a strong suction coming, tearing up the surrounding chaos extinction magic light directly and devouring it.

Chapter 769 - Dead Eyes vs. Eyes of Time

A figure slowly walked out, and wherever he went, all the magic light around the world was torn and devoured by the body.

Qin Tiange’s clothes were torn, but his body was unscathed. There was no scar at all. His strong body showed strong and horrible swallowing power.

365 black holes are in the body, and that absorptive power directly devours the extinction magic light into its own energy.

“How could this be?” The thousand-eyed monster glared at the dense eyes, and the horrible light flashed.

It felt incredible, and couldn't believe it. His almost strongest attack was easily swallowed up by the opponent.

That is the chaos extinction magic light, which can wipe out all living things, but was easily absorbed by Qin Tiange.

"It tastes good, is there still?" Qin Tiange stepped forward, a cold smile twitching the corner of his mouth.

On the body of a thousand-eyed monster, 999 eyes shine together, and the horrible rays of light gather with each other with different energies.

"I don't believe it. How many times can you stop?"

It sent out a loud howl, a bright light erupted in one eye, and the rumble converged into an extinct magic light, and the chaos magic light shouted.

That terrible light of extinction, as if from the power of chaos, directly hit Qin Tiange's body.

Suddenly, the extinct magic light was twisted and torn apart, and then swallowed into Qin Tiange's body.

All the chaos extinction light, even as it approached his body's three feet range, was twisted and devoured, and the powerful suction distorted the surrounding space.

Qin Tiange walked step by step, like a super black hole, engulfing the surrounding material, the annihilation magic light could not escape the distorted force capture, swallowed up after being disintegrated.

"Ah, I don't believe it!"

Seeing here, a thousand eyes of demons trembled, and a bunch of terrors of extinct demonic light bombarded, Qin Tiange was drowned by endless light.

It was terrified, not believing that its extinction magic light had no effect, and the madness erupted, it was not clear how many extinction magic lights had bombarded it.

When the light of the hundreds of eyes on it gradually faded, and no more chaos extinction magic light could be emitted, it finally stopped.

"Whew, die, are you dead?" Thousand-eyed worms panted, whistling.

It was exhausted, and the Xeon power burst out continuously, even if its talents were exhausted.

Ahead, within tens of kilometers, it was completely shrouded in endless extinction light, and powerful and terrifying energy shattered everything.

At the periphery of the extinct magic light, Li Luo has remained motionless, quietly watching the horrible shining center, where there is a huge black hole constantly devouring the surrounding extinction power.

The gray and terrible light erupted with the power of extinction, but unfortunately was distorted and disintegrated by a force in the center area, and the last one devoured.

“It’s strong.” Li Luo’s eyes flooded, looking at a figure standing in the central area, it was Qin Tiange.

Unscathed, he was devouring the exploding gray light around him, the twisted space around him, as if time would be twisted.

Qin Tiange closed his eyes and devoured madly. The other acupuncture points in his body were suddenly turned into a black hole.

One, two, three, and five full black holes reappeared, and a more horrifying engulfing force erupted, swallowing all the gray light around them.

Five more black holes were condensed, and it is conceivable how powerful the extinct demon light was just now, so that Qin Tiange once again condensed the five black holes.

“impossible!”

Thousand-eyed monsters widened their eyes, staring blankly at the unscathed Qin Tiange and walking out of the chaotic area.

His body passed, and the space around him was twisted, as if to be shredded, terrifying.

Even more frightening is that he devoured the magical light from the thousands of eyes and insects into his own energy.

“Any more?” Qin Tiange smiled at the corners of his mouth, his tone was very light, as if he was asking the thousand-eyed monsters on the opposite side, did he have such a huge energy?

After hearing this, the thousand-eyed monster had a chill in his heart, and the 999 eyes that were open had a dim light and could no longer perform his power again.

His eyes flickered and he yelled, “You can block the Xeon power of this seat. It seems that you can’t kill you without a hole card.”

Thousands of eyes smirked for a moment, as if not panicking, although he was scared but didn’t care, he was still confident.

Seeing this, Qin Tiange blinked his eyes and chuckled: “What more power, use it quickly, otherwise, you may have no chance.”

Qin Tiange was expecting that if there was a little more of this high-quality energy, he said that he could not really take this opportunity to condense more black holes.

Or, you can condense and complete 720 trick holes in one fell swoop and completely transform into a black hole, then you will become the star master.

“You smile, this is your last smile.” The cold words of the thousand-eyed monster came.

Then I saw those open eyes suddenly dim, then closed all together.

These eyes, depleted of energy, obviously have to fall asleep, and then continue to accumulate energy.

Ok?

Qin Tiange suddenly felt a crisis. The thousand-eyed monsters from the opposite side seemed to be brewing a power that could kill him.

“Open” came with a low roar, and the thousand-eyed monster worm was in the middle of his forehead, and the biggest eye that had been closed tightly suddenly opened slowly.

The eyes slowly opened, and a breath of death pervaded, as if this eye was dead once opened.

Kakaka

The eye opened a gap, and the space around it cracked on the spot. The blood of the demon instantly turned into ashes, as if annihilated.

Seeing this, Qin Tiange’s pupils could not help shrinking, and a strong crisis came from the real spirit.

“This is the power of death, straight to the devil’s eyes?” A loud exclaim came, Li Luo Qiao changed her face and recognized this power.

Over there, the largest one-eyed eye of Thousand-Eyed Insects opened, and a sense of death permeated, and a ray of light burst into the sky, blasting towards Qin Tiange.

Where this light passes, all things wither, all matter is turned into ashes, that is the breath of death.

Straight to the devil’s eye, kill instantly!

It is rumored that as long as this kind of magic eye is opened, any creature looking at it will be killed. That is the kind of ability that I tell you to die. You must die.

Crisis, a strong sense of crisis, made Qin Tiange’s eyebrows flicker, as if the true spirit was threatened.

Huh!

Suddenly a rush came, Qin Tiange’s eyebrows suddenly burst into a bright silver light, and gradually, a vertical mark appeared on the eyebrows.

A trace of silver awn was revealed, and the vertical marks slowly opened, revealing a horrible eye, indifferent, revealing eternal silver.

Huh!

Two silver rays and one gray ray came, and they clicked together, intertwined with each other, bursting into a terrible light.

Straight to death, with the light of death, annihilate all living beings. Qin Tiange’s eyebrows erected openly, revealing the vicissitudes of time.

It was the pupil of time, and a force of time poured out, condensing directly into a ray of laser light.

Instantly, everything within ten kilometers of the circle was stopped, but the dying magic light was still struggling.

The force that wiped out everything, under the repression of the power of time, was still madly circling the impact, trying to cover Qin Tiange to kill him.

“Time pupil?”

On the opposite side, the dying eyes of a thousand-eyed monster worm died awful, with a look of horror.

The silvery eyes are indifferent, ruthless, and the power of time is the pupil of time.

It scared, terrified: “How is it possible that the pupil of time has long disappeared and disappeared?”

Zizi

At this moment, the magic light of dying suddenly suddenly slowed down, shocking the eyes of a thousand eyes, and a stronger light was emitted from the eyes.

boom!

The dying evil eye exploded, the endless meaning of death swept through, the magic light was vast and directly bombarded.

Thousand-eyed monsters explode directly with the strongest ability to die directly, and pour out without reservation, because it knows the horror of the pupil of time.

Kakaka

One silver, one gray, two forces collided, nothingness collapsed, everything was extinct, and everything there was completely in annihilation.

Dead eyes, eyes of time, the strongest, weirdest, and scariest eyes in these two universes, are they stubborn and weak?

Chapter 770 - Death Upright

A gaunt of silver stalks across, everything is still, the light of death is gradually slowing down, and finally stops like a snail.

Straight to death is very scary. At first glance, life and death are fixed, but in the face of the more mysterious time, the pupil is still defeated.

The dying magic light was stopped by the force of time, and finally fixed there, gradually extinguished.

“Straight to death, it is weird and powerful, but I am waiting for you”

A word came, and saw Qin Tiange stepping forward, standing in front of the thousand-eyed demon worm, staring at the dying demon’s eye.

The pupils of time glowed with silver awns, enveloping the surroundings, stopping the thousand-eye monsters to stand still, unable to move.

It could only keep its eyes open, flashing with a terrifying luster, watching Qin Tiange's hand insert into the forsaken eye of his forehead.

Flutter!

"Ah" Thousand-Eyed Demon screamed, Qin Tiange pierced the dead-devil's eye on his forehead, and dug it out.

Blood and water sprayed dozens of feet, a horrible eye was dug out by Qin Tiange Sheng, and basketball-sized eyes showed a horrible light.

Qin Tiange sneered after digging the eye that was dying. "What you are waiting for is your eye. Now you can die."

Speaking, Qin Tiange pulled out the ancient sword and slammed it into the heavenly spirit cover of a thousand-eyed monsters. It clicked and crackled, and the ancient sword issued a horrifying strangling force.

"Roaring" Thousand-Eyed Devil snarled wildly, and his huge body struggled to suppress the pupils of time. He was crushed by Qin Tiange's sword and suffered heavy damage.

Qin Tiange vacated, suddenly a sword was cut down, a snapping sound, the powerful defense of the Thousand-Eyed Devil was broken, and the huge and stinging head was cut off directly with a sword.

Bang

After cutting off the head of the thousand-eyed monster, Qin Tiange's body broke out with a horrible swallowing force, distorting and disintegrating the whole body of the thousand-eye monster's headless body, devouring it.

In the end, only one head was left not far away, and the dim eyes on the skull were seeing a ray of death and unwillingness.

Thousand-eyed monsters were originally extremely powerful, and the eyes on their bodies were very weird. Inside the thousand eyes, a kind of extinct magic light was fused.

The most terrible thing is the eye of the dying demon. This thing instantly kills, as if it can kill the living creatures in a flash. It is terrible.

But in the face of Qin Tiange's pupil of time, he was defeated, and finally he dug out the strongest and weirdest eye.

"You can die." Qin Tiange stepped forward, raised his hand and slammed it with a bang, the eyes of a thousand-eyed monster exploded.

Inside, a true spirit burst out, trying to escape, but was pinched firmly by one hand and suppressed in the palm.

"Let me, let me go"

Qin Tiange sneered at the real spirit of the thousand-eyed monster that kept struggling and screaming. He did not hesitate to pinch it with five fingers, and clicked, the real spirit was crushed, and then swallowed.

Thousand-eyed monsters could have traced them with strange eyes, but they were swallowed up by Qin Tiange, and even the true spirit could not escape.

After killing a thousand-eyed monster and swallowing the other's true spirit, Qin Tiange closed his eyes and learned the huge memory information.

Soon, he found the origin of this thousand-eyed monster, and even obtained some other hidden paleontological information and regional locations under the ground.

“Li Luo, I'm going to retreat for a while.”

Qin Tiange suddenly opened his eyes and said something to Li Luo who came to him. Then he turned around and found a secret place to retreat.

Li Luo came to hide nearby and defended the law for Qin Tiange.

“Straight to death, it contains the rules of death, and its talent is extremely strange and powerful.” Qin Tiange said to himself, and took out the sealed eye.

This eye, with the strange breath of death, is a peculiar talent of a thousand-eyed monster.

Its ability is reflected in the eyes, or its ability is condensed into a peculiar eye.

Straight death is the most powerful eye of a thousand-eyed monster, and the power of death rules makes Qin Tiange stunned.

He grabbed that basketball-size eyeball, his eyes were silvery, and a little will rushed into that eye.

The invasion of the will, the kind of death mystery that wants to peek into the eyes of the dead monster, has a great inspiration for Qin Tiange.

Because this gave him great benefits for the mastery of the undead uprising. This was the reason that he found a thousand-eyed monster without killing them directly, but waiting for the other to open the strongest straight-dead monster eyes before killing the other.

Qin Tiange hits the attention of the dead eye. If he doesn't open his eyes, the power is not obvious and he can't peep.

Now, this open straight death eye contains a huge death mystery, and the power of that death rule is strange.

Strands of will poured into it, and suddenly they were annihilated by a terrible force, and their thoughts were wiped out inexplicably.

Qin Tiange was shocked, and tried again and again, and found that his thoughts could not penetrate the death eye, but was annihilated by the overwhelming force inside.

“Perhaps this is a good opportunity to sharpen the will of the true spirit.” Qin Tiange said to himself, immediately increasing the influx of ideas.

Finally, under the erosion of his huge spiritual thoughts, the energy in the eyes of the dying demon couldn't wipe out his thoughts at once.

The steel-like will, bright in thoughts, is as immortal as real gold. Under the repeated abrasion of the dying evil eye, it gradually grew and became stronger.

The sharpening of the will is very dangerous, and if it is not good, it will likely be wiped out of consciousness and even become a vegetative.

Qin Tiange not only wanted to peek into the death mystery inside, but also to sharpen his thoughts with the ability to kill the eyes of the dead to achieve immortality.

Qiang Qiang Qiang

A strange rumbling sound came, Qin Tiange's thoughts poured in endlessly, eroding the evil eye.

He uses the strange power inside to sharpen his mind body, and wants to achieve higher transformation.

Strange to say, under this weird power, Qin Tiange's idea of the will even slowly began to transform, crystal clear, and flawless.

And, as he collided with this force, Qin Tiange gradually captured the message of death.

He soon realized something, even immersed in it and unable to extricate himself, completely immersed in the strange and terrifying power mystery.

Huh!

After being eroded and tempered again and again, over time, Qin Tiange's idea of the will became more and more terrifying and tough.

From the moment it was wiped out at the beginning, to the last gradually supporting it, the time is getting longer and longer, and even now, the power in the eyes of the dying demon can no longer wipe out Qin Tiange's will.

Without the control of the host, the power of the dying evil eye can be limited, which is why Qin Tiange seized the opportunity to temper his will.

Click!

Suddenly, a crisp sound came from the eye of the dying demon, and the last line of defense in the eye was broken by Qin Tiange's forceful will and rushed into it.

In less than three seconds, Qin Tiange contributed to this dying demon eye, and he initially grasped all the secrets and information of this eye.

"So it is!"

After grasping the mystery of this eye, Qin Tiange suddenly realized that he had understood the mystery of this eye.

Straight to the devil's eye, to put it plainly is a rule of death inherent in this power, this power can make people's vitality cut off can even reverse life into the power of death, make people's vitality disorder, death grows , Directly violent.

"swallow!"

Qin Tiange gave a low drink, crushed that eye, opened his mouth and suddenly swallowed the powerful and strange death force contained in it.

This power allows Qin Tiange to realize the deeper power of death, and even achieves the power of terrible death with every move.

After swallowing the terrible power hidden by the magic eye, Qin Tiange fell into deep understanding.

Soon, he swallowed the power and opened his eyes slowly, his pupils faintly showing the light of death.

“Imperial” Li Luo flashed forward and stood in front of Qin Tiange.

Watching Li Luo appear, Qin Tiange moved his mind and laughed: “There are many hundreds of masters hidden under the sea of chaos. What plans do they seem to have, let’s go and see.”

Speaking, Qin Tiange got up, followed Li Luo to break the magic blood, and hurried in the direction of the sea of chaos.
