

## Dark Ages 77

### Chapter 77 - Blood Clothing, 10 Star Assassin

In the luxurious workshop of the train, Qin Tiange closed the door and admired the strange mutant lotus flower brought back by himself alone.

After burying nine brain crystals, this lotus has become more and more amazing, the lotus leaves are crystal-like, carved like transparent emeralds, and a delicate lotus leaf has grown from the new one. There are ten lotus leaves around. With six budding flowers.

After absorbing two full one-star brain crystals, among the six lotus flowers, the smaller five lotus flowers gradually showed signs of opening, each blooming a petal with different colors.

“Grow up quickly, but I’ll wait for your lotus seeds to mature and make a potion.” After watching for a while, Qin Tiange said something with a smile to this lotus.

As a result, the lotus fluttered, and the lotus leaf gently stroked his arm, as if coquettish, as if a little pet was courting the owner, which was strange.

“Hah ... you will be coquettish, but you don’t know when you can really grow to ten stars, and then completely change the human form?” Qin Tiange smiled and stroked the lotus, his words were full of strangeness.

In previous life, someone once raised a deformed fairy, a mutant rose. The leprechaun that the rose mutated into was a real leprechaun, charming and full of strong temptation. I don’t know how many men fell for it.

However, the rose is prickly. The young man who raised the rose demon died on the belly of this fairy, and was not killed, but his body collapsed.

That young man, who couldn’t bear the claim of the rose demon, died in the end and became a laughing stock of a generation. I don’t know how many men are envious.

It’s a pity, since the young man died, I never heard that anyone could raise a flower demon, because most of the flowers and trees at that time had already mutated into fines and could not be captured at all.

I just answered that sentence, death under the roses, and being a ghost!

“Deeply absorb the dark energy of the crystal nucleus, grow as soon as possible.” Qin Tiange said with emotion, and then no longer care about this lotus.

He has buried nine crystal nuclei, including one Samsung Zombie Brain Crystal, which contains a huge amount of energy, which will definitely allow this lotus to mutate and grow to evolve to Samsung level.

Next, Qin Tiange took out blood sacs, which were dug out from the mutant bats, and prepared to use these blood sacs to collect the enhanced version of the potion.

After a period of adaptation, the body can already improve the next step. After the medicine has been completely absorbed, you can continue to take the enhanced version of the medicine. I do n’t

know if it is effective to use the blood sac of the mutant bats to make the enhanced version of the medicine.

First, he took out the one-star quenching potion. The two potions of the enhanced version had no effect. He secretly gritted his teeth and decided to try with four one-star quenching potions.

According to the acquired pharmacist inheritance knowledge, Qin Tiange knows that if he wants to continue to strengthen, in addition to more advanced materials, he must rely on a sufficient dose of medicine, that is, use more one-star medicine to synthesize stronger medicine.

“The blood sac is precious, the liquid of life ...” His face was solemn and serious, first he cut the blood sac, poured out the crystal \*\*\*\* liquid inside, and then poured a drop of one star of the liquid of life.

The combination of the three has a strong medicinal response in an instant. The ordinary medicinal properties have become more intense, more irritable, and seem to be full of destructive power.

This medicinal bursting medicine is generally not advisable, but Qin Tiange can't take care of it anymore, because he knows that the current strengthening speed of the body must be accelerated.

Looking at the new enhanced version of the medicament, there is a flash of green and \*\*\*\* luster, the medicine is extremely violent, once you drink it, the body will be torn by the horrible medicine.

“Life requires hard work, bite your teeth, and fight hard to get greater achievements.” Qin Tiange's eyes were firm, and he groaned and drank this new and enhanced version of the potion.

The entrance to the potion. At that moment, an extremely violent force exploded in the body and swept across, like Foshan flood and tsunami, constantly crushing and destroying the cells in the body.

Painfulness, endless pain came, Qin Tiange gritted his teeth, didn't hum, and squeezed his fists tightly to endure this violent medicinal shock.

There was a mess in the body, the internal organs were cracked, and even the bones were torn apart, and then quickly repaired under the strong recovery power of the fluid of life.

Only by adding the fluid of life can he withstand the damage and pain caused by this violent tearing. This is why Qin Tiange dared to try.

Peony is very strong, pushing it arrogantly, forcing all toxin waste in the body out, and even some weak cells were rejected.

New cells grow stronger and stronger, new bones are born, and they are more tenacious, just like steel can't be believed.

Muscles are stronger, strength is growing rapidly, and all aspects of the body's quality are improved at this moment, once again feeling the changes brought about by the evolution of the body.

I doubled, doubled, tripled, and strengthened five times. Physical fitness increased by five times, which is the strength of five people.

With the power of 30 people before, Qin Tiange's body now has 35 people, which is very scary and scary.

“Does the power of thirty-five people only enhance the strength of five adults?” Qin Tiange felt the physical changes carefully, and his heart was somewhat disappointed.

Only increased the strength of five people, but it is still good, at least it can be improved. As he was preparing to blend the next new potion, a knock came from the door.

Uh ...

I heard the knock on the door, Qin Tiange stopped, and looked at the door with doubtful eyes. He explained that Moda, Liu Ye and others were all right and don't bother him.

The door opened the next moment, and came in a charming, \*\*\*\* woman. Seeing this woman, Qin Tiange felt startled and secretly said, “Can't help it anymore?”

Tao Lairen was the woman who didn't even have a name, the charming woman who was suspected of a killer, and now she came to the luxurious workshop where Qin Tiange rested.

“You can't help it anymore?” Qin Tiange smiled and looked at the woman who came.

The woman smiled charmingly, with a variety of styles, plucked her forehead hair, and smiled softly: “You are so mysterious, full of breath that women can't refuse. I am a woman, of course, no exception.”

“Okay, don't tell me these false words. It sounds like I'm listening to a formula recitation. It's boring.” Qin Tiange was unmoved and interrupted her words lightly.

Then he laughed: “You said you don't have a real name, so what's your code name?”

The woman disappeared charmingly, her face was calm, her eyes flashed slightly, and she calmly said, “My code is ‘blood suit’. As for my organization information, I can't tell you, killing me is the same.”

“Blood suit?” Qin Tiange trembled in his heart, setting off a wave, but his face was calm and showed no trace of fluctuation.

Blood cloak, the name has been heard in previous lives, and even saw some information about the blood cloak. It was because I had seen it that this woman was not simple. I had doubts, but I was not sure.

Now listening to her, Qin Tiange immediately realized that he guessed well, and is a killer, but she did not expect that she was a ten-star assassin in the previous life, very famous.

In the previous life, Huaxia had a mysterious organization, known as the Assassin Alliance, whose main information is unknown. It only knew that it was a terrible assassin, called “Assassin King”. Although it is rumored that the Assassin King is only a king, many people think that the Assassin King is capable Assassination of an emperor, I do not know the truth.

Of course, it is rumored that in the previous life, the “Assassin King” became emperor shortly before Qin Tiange’s death. At that time, Qin Tiange was just out, and when he heard the news, he died in the mouth of a ten-star wild animal. As of now, listen to When it comes to the name of the blood cloak, I naturally think of these past life memories.

Assassin Alliance is extremely mysterious. There are two mysterious founders of Assassin King and Assassin Demon. It has four major killers, Dark Assassin, Blood Vest, Heavenly Hate, and Impermanence. The four most powerful Assassins.

Blood suit is one of them. I didn’t expect it to be the one in front of me?

“You came to me, is there something wrong?” Qin Tiange asked calmly.

Bloodcoat blinked a little, and when she said this, she said, “I came to you for what you gave to the little girl named Yin Yin. Is that definitely a genetic medicine?”

Qin Tiange understood, and suddenly smiled: “Oh? I have these treasures, but why should I give you? Is it possible that you have the confidence to \*\*\*\* from me?”

“I can do anything for you. Murder. If you do something for you that is not convenient for you, I only need the potion to increase strength.” The purpose of the blood cloak is clear. For that potion, at any cost.

Qin Tiange didn’t speak, leaning gently on the leather sofa, staring indifferently at the woman in front of him, this past ten-star assassin, the blood cloak in the alliance.

All of a sudden, the compartment was dead, and the atmosphere was a bit depressed. Even the assassin killer in the \*\*\*\* clothes felt heavy and uncomfortable.
