

Dark Ages 78

Chapter 78 - 0 people are far away

I sent away the blood-clothing ten-star assassin from the past. Qin Tiange looked strange. I wondered why the beauty was called blood-clothing.

“Assassin Alliance, Ten-Star Assassin’s Bloodcoat, Mysterious Assassin King, Weird Assassin ...” Qin Tiange thoughtfully, flashing thoughts in his heart, plans one by one.

These are the plans that quickly formed in my mind after seeing the blood cloak and confirming the identity of the other party, but it is temporarily impossible to achieve, but a seed has been planted.

At this time, Bloody walked out of the luxury car. She looked even more weird, and looked back at the closed luxury car. Thinking of the conversation between the two, no one knew what agreement had been reached between the two.

“A mysterious man, can’t see through, can’t guess, it’s dangerous!” This is Qin Tiange’s first impression, and even more confusing.

Wu Xieyi felt that this young man was full of mystery, even more mysterious and unpredictable than her boss, who was the most dangerous.

I stretched out my palm, two mysterious potions lay quietly, and the corners of her blood cloak were slightly tilted. She couldn’t help but get excited. Although there were many conditions, even very harsh, at least she got what she wanted.

Huh!

The carriage door opened, and she glanced back with a complex look, then the figure flickered out of the train and she left.

No one knows that a beautiful assassin on the train reached a secret agreement after discussing with Qin Tiange, and left immediately after getting what he wanted.

“Are you gone?” Qin Tiange looked out the window, and the flamboyant figure who jumped away knew that the blood cloak was gone. This was part of his temporary plan.

Fortunately, here is close to a small town, not far away, otherwise Bloody would dare to jump like this and would not be able to walk out of the forest, let alone complete the conditions she promised.

I watched her disappear quickly, Qin Tiange regained her sight, and the seeds had been planted. Whether luck could take root or not depended on luck. No one could predict whether she would get a harvest in the future.

“Improve your own strength first, everything is based on strength.”

After a moment of contemplation, Qin Tiange immediately cleared his mood and ran away from these troubles. The most important thing next was to improve his strength.

In the last days, only strong strength is the root and the capital for his survival.

If he wants strength, he must formulate more powerful medicaments at present, but the materials on hand are not complete. He cannot make medicaments by himself, but can only strengthen those one-star medicaments originally exchanged for.

“Well, it seems that when I reach the destination, I must find enough medicinal materials and materials as soon as possible to formulate more powerful medicaments.” Qin Tiange looked firm and secretly decided to wait for the destination and immediately began to search for materials and Medicinal materials, etc.

When he was born again, he was too clear that what he needed in the last days to survive was the absolute strength. Without it, you would not be able to survive, let alone build a huge base and form your own power.

Next, he blended two new enhanced hardened body preparations, each costing four one-star potions, one drop of life fluid, and a large number of blood sacs.

Murmur!

After drinking two potions of enhanced medicine, Qin Tiange’s body experienced a life-threatening process. The body was torn by violent medicine again and again, and then restored under the recovery of the fluid of life, and became stronger.

I drank two copies of the super-enhanced version of the medicine at a time, and my body was a bit overwhelmed. The pain of being torn apart is not what ordinary people can bear, and Qin Tiange’s will is firm enough, otherwise most people will be crazy.

“Just five times more?” After drinking two potions of enhanced version, Qin Tiange didn’t look well.

Next, he continued to take a super-enhanced version of the medicament. Although the drug is still fierce, the strength that can be increased has begun to weaken, and even after taking it, it has increased by less than one person.

He was too few, disproportionate to what he expected, and disappointed him. The power of ten people added before, plus the power of thirty people, now has the power of forty people, which looks extremely terrifying.

In fact, he is very dissatisfied now, because he has not reached the limit. At one star level, the physical fitness is rumored to be able to reach the theoretical limit of one hundred times, and it is still enough for 60 people to complete it.

But, how can these sixty people achieve the promotion? Qin Tiange, while adapting to the various physical qualities and indicators of physical soaring, was familiar with the combat qualities of strength and physical response.

After a short while, he became accustomed to the power of the surge, and after truly controlling his power, he bit his teeth and began to formulate blending potions again.

And this time, Qin Tiange made a ruthless doubling of the amount, with eight full one-stroke potions, combined with two drops of life fluid, plus the melting and mixing of twenty one-star brain

crystals, and finally added the blood sac. The ***** liquid in Qizhen has completed a more potent and potent enhanced potion.

Ding Ding Ding Ding ...

On his hand, a stainless steel metal cup was shaking constantly, and the potion inside was boiling, like a kind of boiled mercury. The blood was faint and the mist was misty, and it looked extremely terrifying.

Qi Qin Tiange's face was dignified, staring at the terrible potion blended out of this cup, full of violent medicine, and I was really afraid to explode.

He was worried that it would not be unreasonable. Once the blending agent is wrong, or even a key link is wrong, everything will be different, it may explode, and it may cause the medicine to fail.

Fortunately, he has a ten-star pharmacist's heritage. The pharmacist's knowledge in his mind lets him know that he has successfully blended.

However, he felt vaguely that this was already the limit, and the improvement of the efficacy of Yixing Pharmacy could only reach the current limit, and further things would happen bad things.

"It's a pity ..." Qin Tiange sighed sighing and had to give up the idea of continuing to strengthen the efficacy of the medicine. He originally thought about the quantity of ten pills and one star at a time.

The most important thing is that his current one-star potion is low, and there are exactly two hundred sticks left, but the blood sac is rare, only enough to prepare two more super-enhanced versions.

Mumble ... Drinking this super potion of medicaments, suddenly, it seems that you are not drinking potions, but explosives, boiling explosives.

With a loud bang, Qin Tiange's expression changed wildly, and a terrible energy burst into his body, cold and hot, which instantly frozen his half of his body, and half of his body even burst into a slight flame.

Well, it is Qi Yan, a ***** Qi Yan, the blood is burned. The other body, was frozen by a black ice crystal and looked extremely weird.

He was cold and hot, one ice and one fire, and two terrible energies opened wildly, sweeping the whole body, shattering the whole body with shocks, and the internal organs and the six organs burst first.

The blood, scalding, and cold blood quickly splashed out from the cracked wounds on the body, and the ground became red in a flash, turning him into a blood man.

Suffering from pain, the endless pain almost made Qin Tiange scream, but fortunately he was frozen by half of the cold energy and could not cry.

The energy of this explosion came fiercely, and the strength and physical fitness of the body finally increased swiftly again. The increase of one, two, three times, and quickly increased to four times.

In the end, when this terrible medicine passed, Qin Tiange was paralyzed, wrapped in a layer of black-red blood cocoons, his body muscles were intertwined with a strange pattern, flashing mysterious luster.

This is a star mark, forty-four ways, representing the power of forty-four people.

“It’s dangerous, I almost killed myself.” Qin Tiange was lying on the ground, breathing heavily, with a look of fear in his face.

I almost killed myself just now. The medicine is too violent. If he hadn’t strengthened forty times his physical fitness, he might have already exploded.

But fortunately, everything has passed, this time the adventure attempt has gained a lot. Although this time he improved the medicinal properties of the medicaments very violently, but caused the physical fitness to improve only four times. The efficacy of these medicaments is useless.

He has forty-four times his physical fitness improved, which has made his strength reach a medicinal limit. Forty-four times his physical fitness is forty-four people.

There is still a long way to go before the power of one hundred people.
