

Dark Ages 781

Chapter 781 - Promotion

When a round of black sun floated, the open mouth would swallow Qin Tiange and Li Luo.

At this moment, a purple light radiated not far away, and with a loud bang, the black sun burst out, and two eyes burst into anger, tearing that purple light.

“Philip Rouge, do you want to die?” Chan Zhao shouted a deep roar, exhaling a savage gasp.

It stared at a group of purple mists not far away, and it was the ancient creature Philippine, named Philip Rouge.

It was strange that she blocked the candlelight, and it made the candlelight angry.

“Candle photo, your brain is rusty?” Fei Yan sighed softly.

She shrouded in purple mist and hummed, “Dare you fight fiercely here, is it to bring us all to be buried with you?”

“Did you forget where this is?” Fei Rou looked stern, and his eyes were full of anger.

She warned: “Here is the heart of the devil. Once the fierce battle awakens the demon’s remnants, you and I will be buried here. If you want to die, don’t drag us down.”

Humph!

Having said that, she drove the purple light to disappear, penetrated into the fierce blood of the demon god, and continued to absorb the blood of the devil to cleanse her body.

Leaving a candlelight alone, his expression changed, and he groaned, but he dared not move any more, because once the fierce battle would cause the spirit of the demon here to wake up.

You fight in the heart of someone else, that is the act of seeking death, and the candlelight is the same as the ghost who wanted to swallow Qin Tiange and Li Luo before.

But stopped by Fei Rou, it stopped, and stared at Qin Tiange and Li Luo who were still practicing, and finally turned around and flashed, disappearing.

Huh!

When it left, Qin Tiange, who was practicing, suddenly opened his eyes, and two horrible gray rays tore the void, causing turbulence.

Next, Li Luo woke up at the same time, opened his eyes, a ray of chaotic glazed light slowly emerged and then disappeared.

“The emperor, it seems that the Philip is intentionally helping us.” Li Luo said with a strange expression.

In fact, the two had just woke up just now, and they were about to join hands to kill the candlestick, but suddenly another breath came, which was Fei Rou.

Before Qin Tiange started, she blocked the candlelight by hand, which surprised him. Why did she try to block the candlelight?

“What’s her purpose?” Qin Tiange was expressionless, but he didn’t really care. If she didn’t do it just now, Qin Tiange and Li Luo could not kill the candlelight directly.

However, she was right, after all, it was in the heart of the devil, and ran to the heart of others to fight, that was a death-seeking behavior.

Chaos Demon, even if it has been dead for countless years, it is still horrible, and once it is difficult to get in, people will be buried.

Therefore, Qin Tiange did not rush into action when he saw the candlelight stopped, just because he was worried about stimulating the immortal true spirit of the chaos demon to wake up.

Earlier, after consuming the chaotic blood, he absorbed a trace of the demon fragments of the true spirit of the demon god, Qin Tiange obtained a little bit of broken memory.

Understanding the horror of the Chaos Demon, he had to be cautious. This kind of thing must not be messed up, but it was still in the heart of others.

“Li Luo, how much chaotic blood did you absorb?” Qin Tiange stood up and asked suddenly.

Li Luo moved her body, and the surrounding space immediately caused a trace of turbulence, as if she could not bear the force of her body.

“A total of 3,900 drops of chaotic blood have been sunk into my heart and become a source of energy. The inexhaustible supply of energy in the future will give me chaotic essence.” Li Luo answered his question truthfully, without concealing it.

After listening, Qin Tiange nodded and laughed: “The chaos spring eye is the chaos treasure. When you merge it, it is a chaos spring eye. When you absorb all the chaos blood, you may be able to make further transformation.”

“Thank you, Emperor.” Li Luo blinked his eyes slightly and said thank you, somehow.

However, Qin Tiange understood that he bowed his head with a smile and didn’t say much. Before, Chaos Yuantai was released by him and wrapped in two people. He was not drowned and strangled by the chaotic blood.

Don’t look at him and Li Luo who are very strong, but face the demon blood of Chaos Demon, it is not enough to see, there is really no counterbalance without chaos.

“It’s a pity that the chaotic blood seemed to be hidden.” Qin Tiange looked around with regret, and the chaotic blood disappeared.

It was plundered by a whole third of Chao Yuanyuan's tires, and disappeared without daring to come out again.

The true spirit of the Chaos Demon does not awaken, and the chaotic blood of its origin is an energy, which is absorbed normally.

If the true spirit of Chaos woke up, Qin Tiange would not want to absorb even a trace of it, and it would be good to not be killed on the spot.

"Go, continue to absorb, and see if you can find the chaotic blood of the devil's origin." Qin Tiange said, his body flickered and stepped away.

Li Luo followed closely behind. In the heart of the Chaos Demon, the two refined and absorbed the blood storage of the Demon while looking for the chaos blood before.

Unfortunately, it took a long time to find it, which made Qin Tiange feel as if he was afraid of being swallowed and plundered.

However, being able to plunder a third of the original demon blood of a chaos demon, Qin Tiange's harvest is extremely rich.

One third, what is that concept? Just look at the small chaotic elementary tires that have fully grown in the body.

This energy allowed the chaotic elementary tyre to take shape directly, complete the first metamorphosis, and become a truly complete chaos on one side, which is the infancy.

In other words, Qin Tiange has a baby chaos in his body, and his strength is that Qin Tiange himself is not clear.

It is his own growth that is just as amazing. The body has 720 trick points and has truly completed metamorphosis, all condensing into a black hole.

There are 720 black holes, which connect up and down the body, forming a perfect whole, and the power erupted is enough to shock the world.

After completing the 720 trick hole black hole condensation, Qin Tiange's physical body jumped from the black hole level to the star master level, and it is not an ordinary star master level.

This is the power of the physical body. Once the 720 black holes in the body erupt at the same time, the physical power is easy to pick the stars and the moon.

"Hwang, something is wrong."

As they were walking, Qin Tiange stopped and looked calm, Li Luo Qiao's face appeared dignified.

The two felt something wrong, and it seemed that there was an ancient and vast breath in the heart of the demon god.

"It's the breath of the true spirit!" Qin Tiange looked away, and immediately realized what the breath was, the breath of the true spirit.

He is most sensitive to the true spirit breath, and all of a sudden it is the ancient and powerful true spirit breath.

Zizi ...

In front of the blood of a violent demon god, there were a horrible sound bursting out of Qin Tiange's attention.

The two looked at each other, quickly stepped forward, broke through the demon blood, and came to a void, where the chaos filled the air.

“That's ...” Li Luo's pupils shrank, letting out a horror.

Qin Tiange squinted his eyes and stared into the chaotic mist in front of him, and a hazy aura emerged.

It was a mass of true spirits, and ancient ancient spirits densely packed around were absorbed and devoured.

Not only these ancient remnants, but also the true spirits and souls of all kinds of living beings were torn off and even absorbed by the group of horrific auras.

“The true spirit of the devil?” Qin Tiange's back chilled, and a quiet voice spoke.

Li Luo Qiao's face changed slightly, and the two looked at each other, and they saw the color of surprise in each other's eyes.

It is the immortal true spirit of the chaos, which is devouring the living souls of ancient peoples and even the ancient remnants.

“It's about to wake up.” Qin Tiange's complexion changed slightly, and suddenly felt that the demon **** could not wake up, but the true spirit was about to wake up.

Seeing this, he said nothing, grabbed Li Luo and turned to crack, and ran away.

There is no way, you can't run without it. Although he says that he has the true spirit of the book, he can fight against the immortal true spirit of the demon, but look at where it is.

This is the heart of the demon god. Once the demon immortal true spirit wakes up, there is no way to heaven and no door to the ground.

As for suppressing the immortal true spirit of the devil in advance? Qin Tiange felt that even if he held the ground truth, he might not be able to fight each other.

boom!

Just after leaving, the whole demon god's heart came with a violent vibration The endless and immortal ancient breath slowly woke up.

“not good!”

At this moment, the other ancient creatures who are washing the flesh dominated, one by one, awakened one by one, feeling the ancient and immortal breath, and all of them felt hairy.

“The demon is awake?”

Candlelight, Youying, Fei Rou, Zhu Jian and other ancient creatures dominated their faces in horror, one by one screaming, turning and blasting away, escaping and escaping.

A group of people escaped, but saw that two people in front of them were faster, and distanced them far. Looking closely, it was Qin Tiange and Li Luo.

咚 隆 …

Suddenly, a horror roar came, as if the sky was falling apart, it was a heartbeat sound, and the demon heart began to beat slowly.

“run!”

Qin Tiange’s expression changed slightly, and he drank a little, and 720 black holes erupted in his body. He took Li Luo and burst out of the ocean of the blood of the demon **** with a punch and smashed into the barrier of the heart of the devil.

Chapter 782 - Strong kill

boom!

With a punch in the flesh and blood of the heart barrier, Qin Tiange felt a shock force came, his face changed slightly, and he was penetrated.

The real spirit of the devil is awakened, the functions in the heart of the entire demon are recovering, and the arrogant defense is hard to explode.

“Open!” Qin Tiange drank, snorted, and lifted the ancient sword and chopped it down.

With a click, the flesh and blood of the heart barrier was cut open, Qin Tiange and Li Luo both rushed into it and disappeared.

That crack was repairing quickly, and he saw that healed.

“Break me!”

The candlestick that rushed out from behind and other ancient creatures dominated Qi Qi broke out, and Shengsheng opened the healing crack and rushed in.

At the front, Ye Qing waved the ancient sword, bursting out of his strength, splitting a blood path, and killed him from the heart of the demon.

With a bang, a hole opened outside the demon’s heart, and two silhouettes rushed out from the inside. They burst out and disappeared in a blink of an eye.

Later, Zhu Zhao and others rushed out one after another, panicking one by one, forcibly rushed through the guardianship of the chaotic fog and rushed out of the scope of the demon heart.

咚 隆!

At this moment, a roar came from the devil’s heart, beating autonomously, and gradually exuding the ancient and terrifying magic.

The real spirit of the demon awakened, and the chaotic ancient demon who had been sleeping for countless years, woke up.

The heart was beating, and a huge stream of demon spirits poured out, sweeping across it, as if the sky was falling apart.

With a bang, the ancient array was directly defeated by the ocean of the blood of the deities, which instantly dispersed these dense arrays of ancient arrays.

One by one, the ancient formations blocked the veins of the demon gods, and they were defeated by the blood of this raging demon god.

Seeing the blood of the demon that swept through the mighty deities, Qin Tiange and Li Luo looked dignified, and felt that things were big.

The chaotic ancient demon who has been sleeping for countless years, the true spirit that has devoured countless souls at this moment has finally awakened.

“Power of Pangu, Chaos Strike!”

Suddenly, Qin Tiange held up the ancient sword with both hands, and slashed fiercely against the **** seas and the awakening flesh and blood barriers above his head.

A sword opened to the sky, clicked and crunched, the flesh and the sea of blood on the head split apart, the sword rushed into the sky, shattered the ground barrier, and went straight to the sky.

Qin Tiange and Li Luo both jumped into the air, rushed out of the ground, came to the air, and saw the entire place of exile in chaos.

Rumble ...

The sky is falling apart, the exiled land is in chaos, the earth is sunken, and cracks are spreading and crisscrossing. In the void, hundreds of people in the chaotic sea soar into the sky and kill the guardian.

Underneath the ground, ancient arrays are running, and the eruptive force has stirred all parties.

Unfortunately, these ancient arrays were smashed by the waking spirit of the demon gods, and they burst apart.

Boom boom ...

A loud noise kept coming, and Qin Tiange saw that the towering beams of blood-colored energy beams collapsed.

The ancient array was broken and the energy dissipated, causing considerable damage, and even leading to the extinction of the whole earth.

Roar!

A roar came from the void, and he saw that the rebellious monster that had entered the guardian area uttered a terrifying roar.

“It’s going to wake up, kill it now.” The horror giant roared, his voice billowed, and all the powerful men of the hundred races thrilled.

Because the thing it said woke up, from the era of chaos, the ancient demon who had slumbered for countless years was awake.

“The master is awake, so wait to become the master’s refreshment.”

In the mist of void, a terrifying creature roared and waved a handful of powerful people.

Seeing this, Qin Tiange knew that he had to be killed, otherwise he would probably become the dim sum of the awakened chaos demon.

“Go, kill it.” Qin Tiange rose into the air, his breath erupted, and he showed without reservation.

A bang punched, the void and fog cleared, and a guardian creature was knocked down by a punch on the spot. The powerful and violent power almost shattered the world.

Qin Tiange made a strong punch and shocked all parties. One by one, the guardian creatures looked at each other, staring directly at him.

“Another bigger ant.”

“Just kill him!”

One of the guardians drank coldly, raised his hand to press it, and pushed down the rumbling cover to kill Qin Tiange here.

I haven't seen Qin Tiange's hands yet, but he saw a chaotic glazed light rushing and hit him with a punch.

Boom!

With a muffled sound, the huge hand collapsed into countless fragments in the air, the blood blew to the west, and a scream was heard screaming.

“Roar ... Damn it!” The creature roared, but was severely hit by Li Luo's double fists, which severely hit its arrogance.

Qin Tiange, expressionless, stepped away step by step, and directly entered the area where the guardian was.

He stared at Yin Mang, saw through the void, saw an exit, and was firmly guarded by two tyrannical guardians.

“What are you waiting for, the demon is awake, and if he doesn't kill him again, everyone will be buried here.”

A roar came from below, and they saw a strong breath that directly joined the battle.

It was dominated by paleontology. They rushed out and rushed directly here to kill the exile.

Because the Chaos Demon woke up and sincerely awakened the dim sum for others, the one was funny.

“kill!”

Qin Tiange Li Xiao, regardless of these ancient creatures and strong people of hundreds of races, directly waved his fist and rushed to that exit.

There was a broken chaotic passage. The gray mist inside filled him, but he felt that it was the only exit.

Om. . . Void shivered, one punch shocked the world, hundreds of black holes erupted in the body, the power of the physical body could shake the sky.

Just hearing a loud bang, the indifferent slaps of the two guardians sank Qin Tiange's punch.

However, the two guardians looked horrified, their bodies receded slightly, and he was beaten back with a punch, and his arms were numb.

boom!

Qin Tiange exploded as many black holes inside his body, a terrorist force formed a terrible field outside the body, distorting time and space.

As soon as his fist moved, there was a buzzing in the void, and as the wave hit, the space shattered and could not bear such wild fist.

“Kill him!”

The two guardian creatures were furious, and they started working together, striking down with both palms, and a loud noise came.

Hearing only a bang, the palm of one of the creatures was penetrated, flesh and blood flew, and Qin Tiange rushed out from the back of the other's palm.

“Dead!” Qin Tiange's figure flashed, and his body suddenly swelled in the void, turning into a giant giant.

A thumping fist slammed, a guardian's face door collapsed, blood and water sprayed wildly, and a scream of sorrow alarmed all parties.

“Roar ...” The other creature roared and waved a punch, and the horrible punches caused dents in the void.

Qin Tiange turned around suddenly, waving his arm to punch up, two fists hit hard, one big and one small.

With a click, the two collided at the center, and the space within a few kilometers of the square shattered into pieces.

“Space confinement!”

With a loud drink, accompanied by Qin Tiange's sudden display of the power of space, then the surrounding broken space was directly transformed into a space prison to suppress the guardian creature.

Then, he stood up and punched the opponent's face door with a punch, and his left eye burst with a pop, his eyes cracked.

“Ah ... how dare you?” The creature screamed An eyeball was burst, blood and blood sprayed, and it was miserable.

He waved his arms in anger and shook his arms, trying to catch Qin Tiange, but he was cleverly avoided, and came to the other's back.

“Let’s die!” Qin Tiange’s eyes were stubborn, and he fisted in the back of the other’s head. With a loud sound, his eyes scattered, his brain cracked, and a brain mixed with blood and sprayed in all directions.

The domineering guardian was actually smashed by Qin Tiange’s head, killing a guardian on the spot.

That mighty power has stunned the other guardians, one by one can’t believe the other’s power is so fierce?

This is still obliterated by Xiu Wei, what awful it would be if Xiu Wei recovered?

“Ah, dare you!”

A loud roar came, and the strong men of all races looked up, and saw in horror that one of the guardian creatures fell down.

The other one was being struck directly by Qin Tiange’s forehead and slammed into his forehead. When the heavens and the earth collapsed, bone fragments spattered, and a hot brain rushed tens of thousands of feet high.

Chapter 783 - No way out, despair!

With a loud noise, the parties looked in horror, and saw a guardian’s brain explode, his brain falling apart and tens of thousands of feet falling.

Strong and invincible!

Qin Tiange came up and directly demonstrated the strongest combat power, erupting into an extreme force, completely erupting without reservation.

He hit two guardian creatures by surprise, and the two taboo forces of time and space were released directly, causing the two guardian creatures to be robbed and their heads blasted.

Banging. . .

The huge corpse fell, setting off shock waves, which made other guardians aware of Qin Tiange’s fierce and terrible.

Qin Tiange stepped on the void and stood in front of the gray and broken channel, feeling the vitality from the inside, that is, the exit.

“Go on, kill the exile!”

Seeing this, those hundred powerful men were pleasantly surprised, all rushed into the air, and rushed to the gap where Qin Tiange was located.

However, Qin Tiange frowned deeply and did not enter, but stared for a long time, feeling faint in his heart.

collapse!

At this moment, Li Luo, who was fighting fiercely in the distance, was beaten down by the three guardians, waking up Qin Tiange.

Suddenly he turned his head and saw Li Luo's body smashed into the place of exile, two guardian creatures banged on her body.

"Look for death!" Qin Tiange was furious, and 720 black holes erupted in his body. Wan Zhang's body almost tore the space, and he reached out with both hands to protect Li Luo's body.

With a bang, the two guardian creatures struck down, hitting Qin Tiange's arms, and the powerful force rushed him out of this fragmented world and fell into exile.

"The emperor ..." Li Luo Qiao's face changed slightly, watching Qin Tiange's arms slightly bent, his flesh broke, but healed quickly.

He was expressionless, eyes horrified, staring at the two terrible guardians in the void.

Before he was able to kill two, it was the other side's contempt, and he was caught off guard before being successfully killed.

Click!

Suddenly, a terrible loud noise came from below, and the place of exile began to sink, countless mountains fell, and the blood waves were towering.

"Go, kill it!"

Qin Tiange drank, joined hands with Li Luo and rushed into the fragmented world again, just seeing the hundred strong men who rushed to the exit before, rushing in crazy one by one.

"what..."

"Trap, this is a trap ..."

Those hundred races of creatures just rushed in, but the screams came out, shocking all parties, and many strong men looked at them in horror.

All the creatures rushed into it, regardless of their strength, were shattered by a terrible force inside.

"That's fake, trap!"

The ancient creatures, such as candlelight, looked horrified, watching the broken channel devouring and strangling these invading hundreds of souls.

No one left, all died in it, completely swallowed inexplicably, and the true spirit never came out.

"Sure enough, the channel is fake ..." Qin Tiange stared at the broken channel solemnly.

That was not an exit, but a fake trap. No wonder other guardians were in no hurry, it turned out to be a trap.

"Hahaha ... if you can't go out, go ahead and contribute a little bit to the resurrection of the Lord."

Some guardian creatures laughed wildly, arms stretched out, banged down, and a large group of hundreds of creatures were shot down and exiled.

Among the hundreds of powerful men, eight island owners joined forces to deal with three guardian creatures, while the other rebellious giant was frightened.

“It, it woke up ...” The huge creature roared, panicked, and seemed to be afraid of something.

It waved its arms frantically and hit the eight guardian creatures guarding it, where it was firmly guarding a dark crack.

“The real exit is there, go up and call out.”

Youying’s eyes lighted up and suddenly felt something. There, the only real exit was the crack.

That was the gap to the outside of the exile, the only way to live, firmly guarded by eight guardians.

“Go on, kill it!”

The candle shouted, turning into a terrifying black sun, soaring into the sky, killing directly.

Dominated by other paleontology, eight island masters rushed in and killed them.

They could see that there might be the only exit, because that mutinous creature was rushing there frantically.

“Suppress them!”

Suddenly, twelve huge and terrifying creatures rushed together to block there, uniting eight guardian creatures over there to block the rushing hundred strong.

“Kill kill!”

Hundreds of creatures roared, and there was a chaotic battle there. One by one, powerful creatures rushed away, and they were either shot or pinched.

None of them can cross the defensive circle, even the eight island owners, even combined with the ***** of paleontology, plus the huge creature that rebelled.

They were unable to reopen the blockage of the guardian creature and were beaten down again and again.

“Emperor, do you want to do it?” Li Luo looked serious, inquiring about the chaos there.

Qin Tiange’s eyes flickered and he didn’t move, because he always thought it was not that simple. If it was really an exit there, it would be impossible for no creature to rush in there for countless years.

“No, I think there is a problem. There may not be an exit there. The exiled place is blocked. How can there be an exit?” Qin Tiange suddenly expressed his opinion.

It seems that the pervasive breath there is the way of life. In fact, this is the most dangerous, because you do not know at all whether it is the way of life.

Like the previous channel, the hundreds of creatures that rushed in were inexplicably broken and devoured.

“There is no exit, so how to go out?” Li Luo frowned, looking dignified.

Qin Tiange shook his head and looked at the continuously exiled land below. The whole land seemed to be awake, and something terrible was coming out.

He knew that the chaotic ancient demon who had been sleeping for countless years was awake, which was a dangerous sign.

Once awakened, and they did not kill them, it will become a dessert in the mouth of the awakened devil, this is the end that cannot escape.

“Roar!”

“Get out!”

Shouting roar came, ancient creatures struggling to fight, hitting the defense line there, trying to kill the past and rushing into the crack.

However, the twenty guardian creatures and their terrible ones guarded them firmly, repulsing and even killing all sentient beings.

Shocking again and again, a broken corpse fell from the void, revealing unwillingness, and screamed violently before death.

“Where is the way to go?”

“I’m not willing ...”

Some formidable creatures, powerful people of hundreds of people, issued unwilling roars, were killed by the guardians at high altitudes, and fell down.

There was a rain of corpses up and down in the void, mixed with flesh and blood fragments constantly falling, a ***** battle of hundreds of people, the battle of survival that impacted the exile, but people saw no hope.

“Ah ...” Finally, an island owner’s body was ruined, and he was screamed and knocked down into the sky, fell into the tumbling exile, and was swallowed on the spot.

Seeing this, all the hundreds of creatures, all the powerful ones, were all terrified, and the place of exile was fully awake, as if incarnate as a horrible ancient demon, devouring countless creatures.

Hundreds of strong men growled in sorrow and anguish. How to kill them and what is the way to go?

“Master, fast, thirty thousand miles in the east, there is a weak area.”

Suddenly, an anxious voice came from my mind. It was the voice of the Emperor Seal, and a reminder came.

Qin Tiange froze, frowning and asked: “Are you sure? Is there really an exit there?”

The emperor's weapon eagerly said, "Master, I have no time to explain. From there, I feel the breath of my sister, and the energy blockade is the weakest."

"Ten Calamities?"

Qin Tiange's eyes flashed, and Li Luo passed through without hesitation, lasing past, and rushed towards the void of 30,000 miles in the east.

"not good!"

"Stop them!"

Seeing Qin Tiange and Li Luo rushing in the direction, they immediately stunned the guardians, two of them turned wild, and whispered.

This shout was not good was immediately awakened by the ancient creatures and the powerful people of the hundreds, and the creature who was rebelling and terrified.

"Is both of them?"

The ancient creatures such as Candlelight, Youying, Fei Rou, Zhu Jian dominated the shock, then suddenly came to their senses.

Huh!

They immediately gave up here and turned directly to the other side, apparently the real exit.

Otherwise, these guardians won't panic when they see the movements of Qin Tiange and Li Luo, that is the real exit.

"Roar!"

Eight guardian creatures broke out, crashed into the space with a bang, and passed directly through the void to appear in front of Qin Tiange and Li Luo.

"roll!"

Qin Tiange and Li Luo both angered, killed and flashed, and screamed loudly. They simply waved their fists at a constant speed, throwing their fists at a huge creature blocking the road ahead.

Chapter 784 - Ancient Demon Woke Up

With a loud voice, the front guardian flew straight out, his chest ruptured and punctured.

Qin Tiange and Li Luo joined forces. Even the guardian could not stop the powerful force, and was beaten to fly.

"Roar ... the ants are wanton!"

The other guardian creatures roared and blasted together, making a powerful blow, causing the space to collapse and the entire broken world to be destroyed.

Faced with a full blow of seven guardians, even if Qin Tiange and Li Luo had some palpitations, they went forward without hesitation.

"Power of Pangu, Chaos Strike!"

“Luri is dead!”

Two wailing sounds spread to all sides, letting the powerful and ancient creatures of the various races dominate one by one.

Seeing Qin Tiange and Li Luo both erupting, a wave of chaos surging, converging into a confused chaos, turned into a shock and hit the world.

With a bang, the light was extinguished, and all matter was annihilated, where it turned into nothingness, and space and time lost their meaning.

A powerful blow collided with each other’s horrific forces, causing a great collapse.

Rumble ...

Several guardians flew down in huge figures, were lifted up by tyrannical forces, their faces were distorted and growled wildly.

“open!”

There was a loud drink in the nothingness. Just like the sky, I saw a soaring swordsman tearing the nothingness and killing the land of destruction.

Qin Tiange was embarrassed, his bones were deeply visible, and Li Luo was not much better. The two were severely wounded, but they killed the encirclement.

“Ant, get off!”

A roar, accompanied by a giant wing swept away, a guardian creature spread a pair of huge wings and swept fiercely.

Qin Tiange waved the ancient sword and chopped it up. The gray sword light tore the giant wing of the sky, chopped off a bit, and the blood was spilled.

“Ah ...” the ancient beast snarled and snarled loudly, and a huge fierce bird crossed over, blocking the way.

“Don’t roll, then die!”

Qin Tiange Li Xiao, the chaotic elementary body suddenly broke out in the body, a strong force emerged, the power belonging to a chaotic world broke out for the first time.

Hum!

The ancient sword buzzed, and it was cut gently with one sword. The void was still and everything was silent. There, a giant bird of this day was stiff, his eyes were dim, and the true spirit was cut by a sword.

Just listening to the slamming noise, the covering bird exploded, turned into the blood of the sky, and awakened the other hundred powerful men.

“So strong!”

Ancient creatures such as candlelight were horrified. Looking at Qin Tiange’s strength, one sword wiped out a guardian bird, which was really scary.

I saw, Qin Tiange and Li Luo rushed out of the siege, and slammed into a gray, broken void, and came to this area.

“Stop them!”

The beaten guardians finally rushed in, and other guardians rushed to surround Qin Tiange and Li Luo directly.

“On!”

At this time, the paleontology rushed from below, the powerful of hundreds of people, all exploded, and each rushed up.

They could see that Qin Tiange seemed to have found the exit, and it seemed that this was the real way of life, although he did not see any passage.

However, they felt that these guardians were very nervous, because this was the weakest place for the blockade energy in the entire exile.

Bang!

The chaos began, and here was a melee. The guardians, ancient creatures, and powerful people of one hundred races rushed and besieged the guardians.

Qin Tiange and Li Luo are at the center and are under greater pressure. Those outside the hundred races are going to kill them, and these guardians are going to block them.

Two forces raged, making them look like a boat in a boiling storm.

“Master, in front, that space of nothingness is the weakest point, and the only way to live is here.”

The words of Emperor Yin Yin from the sea, Qin Tiange’s eyes flashed, and small silver and black particles were constantly intertwined, looking through the void node.

Time and space crisscross there, space is chaotic, mixed with a mysterious and terrible energy to block the world.

However, the energy is the weakest here. If you want to go out, you must punch out here to have a vitality.

Hum!

At this point, one of the top and left wielding a giant hand was hit, and the two guardians shot swiftly.

Faced with the lore of the two guardians, Qin Tiange was extremely calm, and the ancient sword hummed with a wave of chaos, turning it into a terrible kill.

“Cut!” A sword fell, and the sky opened a gap, and the two giant hands broke off in the sky immediately, and the blood spilled into the sky.

Qin Tiange succeeded with one sword, his body turned into a gray hole, and he passed through obstacles all the way and came to the node with weak space.

“Roar!”

“Stop him!”

Several guardians screamed, Qi Qi gave up strangling the strong of the hundreds and turned to Qin Tiange.

“Li Luo, you stop it.” Qin Tiange did not reply, his body suddenly released a breath of horror.

Inside the body, the chaotic elemental vibes constantly shake, 720 black holes erupt in unison, and endless power gushes out, turning into terrible killings.

He held up the ancient sword, a sword soared into the sky, stirred the parties, and awakened the guardians, all of them turned wild.

“Open sky, Chaos Strike!”

With a low roar coming, Qin Tiange’s body muscles swelled, he lifted his sword and slashed with a click, the world broke apart.

It is a sword that is extremely sublimated, and contains Qin Tiange’s strongest current strength.

With a “Zi” sound, the force that blocked the exiled land was cut off, revealing a trace of sky that lasted for a long time.

“Roar!”

“That’s the exit!”

“Kill!”

Seeing this, the strong people of the hundred races roared, and the ancient creatures roared, and the million-dollar giant rushed up fiercely and smashed the guardians blocking the road with a powerful body.

Suddenly, hundreds of souls burst into endless power, even those guardians could not stop.

That was the desire to survive, and the power that erupted was beyond imagination, unable to stop it, and Shengsheng broke the blockade.

Because there is an exit cut out by Qin Tiange, that is the road of life, leading to the road outside the place of exile.

Hum!

At this moment, a strange buzz came from the place of exile, and then the void stood still inexplicably.

Hundreds of creatures were all settled, their faces were mad, they were screaming, their movements were completely static.

Click!

Suddenly, a loud noise was heard, and a terrifying hand, Huer, protruded from the place of exile. With five fingers covering the sky, all creatures were contained on the palm of the hand.

“broken!”

Just as everyone was terrified, a roar screamed, and then the inexplicable force suddenly burst out, and the force of imprisonment was broken.

“what...”

“Run!”

Everyone resumed operations, frightening explosive forces fled, but still could not run out of the palm of the terrorist giant.

The rebellious giant roared with horror, eyes full of fear, endless, and a million feet was like a stone being pinched in front of the hand.

collapse!

With a crisp sound, the creature was crushed by the giant hand without screaming, and even hundreds of creatures were crushed into a blood mist by one hand.

Only the moment when the restraining force was broken, several ancient creatures dominated and the strong escaped.

“This ... this is, the demon ... the devil?” Chan Zhao shook with horror, almost shaking.

If it hadn’t been for the force that had just been broken, they would have been pinched to death on the spot.

“Master, it is the great master who woke up!”

Those guardian creatures were inspiring, bowing down respectfully, with great reverence, like a believer kneeling there, completely ignoring the remaining dozen or so escaped powerful beings.

“Chaos Demon?” Qin Tiange’s expression was horrified The restraining force just now could hardly be broken.

If it had not been forbidden by time and space, he might have explained it just now.

Demon, wake up!

The remaining paleontologists, the three hundred island owners, and Qin Tiange and Li Luo all looked at the giant hand in horror.

Covering the sky and covering the stars, there is nothing to survive under one hand, even if the million-dollar giant is pinched by one hand, it is shocking!

Hum!

Suddenly, the giant hand opened five fingers, and all the hundreds of souls in the palm of his hand disappeared, and were crushed and devoured.

Five fingers cover the sky, encompassing this world, there is no dead end, and even the guardian creatures who worshipped are included in it.

“It’s over!”

Ancient creatures such as candlelight, yin ying, and fierce roar were terrified and unable to move. Under the giant hand, time and space were enveloped and everything was still.

Chapter 785 - Life and death 1

Booming, five fingers covering the sky, enveloping it, covering all the creatures, even those guardian creatures were shrouded in it.

“Ah ... forgiveness, forgiveness ...”

Some guardian creatures screamed in horror, their bodies were anchored, then cracked and cracked, blood and water spurting, bones shattered, and the entire body collapsed inch by inch.

It died, was killed directly by that hand, turned into a torrent of energy and sucked into the palm of his hand, and saw the other guardian creatures horrified.

“The Lord will kill us?”

“No, I don’t want to die.”

The other guardian creatures were frightened, and all of their internal forces broke out, each of them bursting out of their full strength, and they even broke through the force of suppression.

Each of the guardian creatures originally blocked Qin Tiange and other people and the power of hundreds of people. As a result, the chaotic ancient demon woke up and even swallowed them.

This frightened these guardians, and each one broke out and rushed directly to the weak node.
boom!

A five-finger, one-click grip, eight guardian creatures burst on the spot, turned into a torrent of energy and poured into the terrible palm of the hand, devouring it.

Seeing this, whether it is the guardian creature, or the ancient creatures such as Candlelight and Youying, they are all horrified, each igniting their own power, turning madly and erupting, and concentrating their powers on the terrible heavenly giant.

With a bang, the sky was falling apart, and a flood of energy swept across all directions, shattering the entire broken void.

Five fingers prodded the torrent of energy, shattered the space all the way, wrapped everyone in it, wrapped in palms.

Holding this fragmented world in the palm of his hand, it collapsed everywhere and the world was destroyed, creating a doomsday scene.

“Forbidden time and space, open!”

With a low drink, Qin Tiange released the space-time forbidden area and enveloped Luoluo to isolate the terrible restraint.

The two forces collided, but were blocked by Qin Tiange, seized the opportunity of that moment, turned and waved the sword to split the Xeon sword.

Click!

The sky was cracked, and there was a hole there. It was a void passage outside the exiled land, which was cut apart by him.

“Go ...” Qin Tiange drank lowly, wrapped away from Li Luo, and rushed into the crack.

As a result, the five fingers were slowly closed and closed, banging up the road and blocking the way of Qin Tiange.

I was caught in the palm of my hand, and the huge fingers were closed together, as if the heavens and earth were closed. Once caught in the palm, don't try to escape.

“Work together and blast it away!”

Qin Tiange roared suddenly. Around, the panic-stricken ancient creatures as well as those originally guardian creatures burst out, condensing and burning their respective strengths.

At the moment Qin Tiange broke the imprisonment in the space and time, Xeon blasted out, hitting fiercely on the five huge fingers closed in front.

Boom ... Kaka Kaka!

A terrible explosion came, energy collapsed, and an endless storm of extinction swept away, almost flying off those ancient creatures.

Qin Tiange gritted his teeth and carried the energy shock, staring forward, the five covering fingers were blocked.

The powerful torrent of energy, the rumbling venting, shook the two covering fingers, revealing a gap.

“It is now!” Qin Tiange shouted, a burst of dark particles erupted all around, and disappeared wrapped in Li Luo.

“Kill it out!”

The guardians screamed, but the Lord they believed in swallowed them, which made these guardians unable to bear the killing.

Instead of being killed, it would be better to kill them directly, and everyone regrets that they should not wake up this terrible thing.

Chaos ancient demon, that is a terrible creature that eats the sky, either they eat the Pangu tribe or the Pangu tribe eat them.

boom!

“Ah ...” A creature screamed, the huge body was smashed on the spot, and smashed there by a force.

This time can scare other creatures, all panic, screaming and rushing to kill the gap.

Slowly closing your two fingers, and watching the sky and the sky close together, it's really a matter of rest, no matter how difficult it is to escape.

The rumbling sound came from behind itself. If you look back, you will definitely see the endless chaos in the palm of the hand, which swallows up the heavens.

If the palm evolved in chaos and engulfed the heavens, the palm of this chaotic ancient demon directly encompassed this fragmented world and grabbed it in the palm.

Qin Tiange turned into black particles, almost rushed over, but hit a terrible wall at this moment.

Click!

The **** that were blasted off suddenly closed and clicked, and the world was dim, which made Qin Tiange bump into it and bounce back.

“Li Luo, heli chopped it!”

Qin Tiange was furious, and his body skyrocketed, reaching 20,000 feet, but once again shrank back to his original height.

But at this time, his body was particularly strong and breathy, chaotic flames boiled and burned, and the power of chaos in the body almost exploded.

“open!”

A roar, accompanied by the desperate efforts of Qin Tiange and Li Luo, the two strong forces merged into a shocking sword.

With a click, the ancient sword fell, as if it opened up a world, Jianmang cut through the darkness, cut off the dark and dark sky, and exposed a bright light.

boom!

I saw that the little finger above the five fingers of the celestial giant's hand suddenly broke, and was cut by a bar by a horrible Jianmangsheng, revealing a gap.

Then two small figures rushed out, as if the ants and the mountains were small and invisible.

“Roar...”

Just rushing out, I heard a terrible roar coming, shattered the world and shattered the space, as if time and space were distorted.

Qin Tiange's expression changed greatly, and he looked down in horror, and saw that the original place of exile was gone, completely disappeared, and replaced by a horrible monster that burned with gray flames.

It is a chaotic ancient demon. The whole body does not know how many kilometers, and the planet is as small as an ant in front of it.

The dormant, awful creature awoke, holding it with one hand, and the severed little finger revealed a gap, and it was growing quickly.

“what....”

A scream came from there, and a shattering roar spread all over the world, shaking the world.

In the palm of the hand, the guardian creature was sorrowful and mournful, and the body burst one by one, turning into flesh and being swallowed.

In the ancient creatures, those ancient creatures that have been bathed in the blood of the demon gods dominate one by one and can stop the chaos.

But they were equally frightened, escaping frantically to the gap cut off by Qin Tiange, where they were healing.

The broken fingers gradually grew out, and the speed was very fast, and the gap gradually closed, leaving those creatures with a look of despair.

“Hou ... Youying, this seat opens a way for you, for me live!”

Suddenly, the candlelight screamed a loud roar, and the sound came, and it saw that its entire body was expanding and turned into a black horrible black sun.

Endless black light erupted, and a ray of solitary rays burst into pieces, turning into endless power and enveloping Youying, bursting out and bursting out.

“Candle photo ...” You Ying screamed sadly and joyfully, watching the candle photo that shattered into nothingness, and that round of black Shenyang gradually extinguished until it disappeared.

“Ah ...” At this time, the other ancient creatures screamed, and the body of the demon who had been washed out suddenly couldn’t bear it. The body bleed out, and then began to collapse, screaming sternly.

They were desperate, struggling, rushing towards that gap frantically, watching Youying send the gap under the self-destruction of the candlelight.

“No ...” A huge cricket rushed up, roaring loudly, and was pressed down with that closed finger severely, snapped apart, and died on the spot.

Despair Endless despair is full of the hearts dominated by these ancient creatures, all crazy, but unfortunately no one wants to explode like a candlelight.

A loud bang came, and the last crack slowly closed, and the light gradually disappeared, and the undead ancient creatures dominated into the abyss of despair.

“what...”

Zhu Jian made a scream, the huge body snapped and cracked, and the real spirit flew out in horror.

The other creatures exploded one by one, and the world was crushed, not to mention that these ancient creatures exploded one by one and eventually fell miserably.

“Hundreds of thousands of years, are you going to die after all?” Looking at the death of his original companions, Fei Rou’s face suddenly showed a smile of relief, his body was crushed by that force.

Click!

As she waited for death, she suddenly found a hand in the space in front of her and grabbed her and dragged it into the space.

There was a sudden roar, and the entire palm world was completely destroyed, turning into a primitive torrent of chaos and being swallowed up.

Chapter 786 - Living Sacrifice

boom!

The void was smashed, the five fingers pinched the whole broken world, and the faint light brought out by a solitary urn was staring at it with horror.

Suddenly she saw the void not far away. Qin Tiange pulled out of the space with one hand and pulled out a figure, which was Fei Rou.

Fei Rou looked stunned and looked at Qin Tiange in front of him: "You, why save me?"

Qin Tiange looked indifferent, and said, "Return your love to block the candlelight in the heart of the demon."

"You and me, Liang Qing!"

After speaking, he would no longer pay attention to the complex face of Fei Rou. This was the kind of grace she had planted before, because she blocked Qiao Tian to kill Qin Tiange and Li Luo.

In fact, if she didn't take the shot at that time, the candlelight would probably be swallowed and killed by Qin Tiange, but it would inevitably awaken the chaos ancient demons in advance, which might be more dangerous.

"Thank you!" Fei Rou said, looking back directly.

I saw that You Ying was being sent out by a magpie of the sun, which was sent out by Zhu Zhao since she had exploded herself.

However, when Qin Tiange looked at the radiant sun rays outside You Ying, he suddenly showed a faint smile.

"Interesting, the yin yang, the yin yang, if the two are yin and yang, if they can be merged into one body, they will inevitably be transformed into a ray of chaos."

Qin Tiange made Li Luo look over there.

She blinked her eyes slightly and laughed: "That candlestick was uneasy and did not die at all. What is this trying to do?"

"What else can you do to blend and devour Youying and achieve your self." Qin Tiange said dismissively and didn't pay attention.

He stared diligently, staring at the giant hand, and slowly withdrew, where the place of exile completely turned into a chaotic, gray mist rolling over, wrapped in a super scary thing.

It was a chaos ancient demon. Born in chaos, it was chopped and killed here by the Pangu tribe, and slept for countless years without dying.

boom!

With a shock, several people in Qin Tiange were shaken away by the mighty air, looked at in a terrifying look, and saw a huge ancient demon slowly stand up.

The huge body, even if the sun was in front of it, was as scary as a tiny ant facing a planet.

This ancient demon is even larger than the entire solar system. The terrible demon power shook the space and time around him, making Qin Tiange, Liluo, and Fei Rou feel uncomfortable.

However, there are huge cracks on the body of this ancient demon, the blood flowing back and forth, especially the right arm is completely lost.

Half of his head was gone, half of his brain was exposed, and a gray mist filled the air, shattering the whole nothingness by it.

Ancient demons are overbearing and extremely scary!

Around Qin Tiange and others, there is nothingness and obscurity, like a chaos that has not yet opened up. Here lies a world of nothingness and emptiness.

Without stars, without the universe, it is a void and empty world. Behind Qin Tiange and others, there is a Tian mark that was split by him, and there is the only escape route.

“Let’s go!” Qin Tiange looked dignified, turned around and brought Li Luo flashing, and rushed into that passage.

Here, you can’t stay, you can’t face such a horrible chaos ancient demon, staying is to die.

Huh!

Fei Yan quickly followed, and over there, the uneasy Youying radiated from the same place. The body was enveloped by Zhiyang Zhi, which was a little bit integrated into her body and merged with her Zhi Yin Zhi.

This strength strengthened her strength and cultivation, and surprised her, but sighed in her heart to think of candlelight to sacrifice herself and let her survive.

boom!

At this moment, the ancient demon turned his head slightly, and a single eyeball was shining through the gray light, locking Qin Tiange and others who had penetrated the crack.

It opened its mouth and growled, and Void collapsed, and the remaining arm pierced up fiercely, and stabbed into the Void Channel with a click.

“Not good!” As soon as he stepped into the crack, Qin Tiange felt uncomfortable. There was a huge collapse in the entire space crack, and every inch collapsed.

That hand actually broke the space directly, grasped the area completely, and locked the time and space.

“What should I do?” Fei Yan was terrified, really scared.

Even if she has lived for hundreds of thousands of years, she has to be frightened. In the face of such horrible chaotic ancient demons, what a sense of powerlessness.

On the other hand, Youying's situation was a bit wrong, as if the fusion of the sun rays that belonged to the candlestick was too smooth, making her feel uneasy.

But now that the crisis is coming, she doesn't have much, and has to grit her teeth and come to the side of Fei Rou not far away. The four looked ugly when they looked at the collapsed channel around them.

Is it really impossible to escape?

"Master, I can't feel my sister's breath."

At this point, a word came from Qin Tiange's mind, and the imperial seal of Emperor Yin could not sense the breath outside.

The place of exile is an obscurity of nothingness. Here is a chaotic ancient demon buried here, suppressed by the Pangu tribe.

Now that the Chaos ancient demon is awake, can the Qin Tiange Pangu people deal with it? Do n't be kidding, that 's not a grade. Qin Tiange is like a newborn Pangu.

And that chaos ancient demon is exactly a chaos ancient demon that grows up, unless it is an adult Pangu tribe.

"There is no other way. The time and space where we are is caught by the ancient demon and cannot be separated. The only way ..." Qin Tiange looked at the time and space that collapsed around and knew that he couldn't kill him.

However, there is another way, but it is very dangerous, and that is the only way.

Hum!

Qin Tiange turned his hands, and a small boat appeared in the palm of his hand, the whole body was dark, exuding a breath of time and space.

This is a small boat obtained at the mysterious sea of bitter beings, which is the space-time treasure of the ferryman.

"Do you want to sacrifice time and space to treasure with real flexibility?" Li Luo saw the boat, his face changed greatly, and exclaimed.

Fei Rou and Youying both came over, their eyes flickered, and they looked at Qin Tiange in suspicion. How could they really offer time and space to treasure?

True spirit, is n't it a dead offering?

Qin Tiange chuckled, a little frown, and suddenly took out the breath of an ancient true spirit, an ancient remnant.

These ancient remnants were all ancient remnants that had previously been captured and suppressed in the desert of God Eater, and have not been swallowed up.

Before absorbing an ancient true spirit that was infinitely close to complete, Ye Qing true spirit returned to its original appearance.

These ancient remnants have been suppressing, and now they are just taken out.

“No no no ... you can't do this ...”

“Damn, you want to sacrifice my true spirit alive?”

The old remnants were terrified, screaming, and made unwilling roars, because they realized what Qin Tiange was going to do, and sacrificed them live.

Fei Rou, You Ying Qi Qi backed up, looked at Qin Tiange in horror, even using dozens of ancient remnants to live offering.

“Sacrifice!”

Qin Tiange drank, and scored dozens of ancient remnants directly into a living sacrifice into the whole dark space-time boat.

Suddenly, a black light soared into the sky, permeating the Quartet, and fixed the collapsed time and space directly.

What does the living sacrifice time and space treasure mean? That is to directly destroy this time and space treasure, sacrificing time and space, in exchange for a strong force to reverse the time and space This is the only way Qin Tiange can think of at present. To escape from the palm of the chaos ancient demon, you must Do this.

“what...”

A scream came, and an ancient remnant collapsed, turned into a flood of energy and rushed into the black boat, directly igniting the core of space-time Arcana.

With a bang, the boat suddenly smashed, sacrificing time and space, distorting the space-time region of the world on the spot and tearing the space-time barrier.

Roar!

Outside, the chaotic ancient demon suddenly issued a terrifying roar, and nothingness collapsed. A horrible energy broke out in the huge palm, turning the sky and tearing the power of time and space.

It clasped its five fingers and fought hard, and that time and space collapsed, but it was torn by a force of time and space explosion, and five fingers were cracked by a light of time and space.

For a moment, the light penetrated the chaos of time and space and disappeared, leaving only the crazy roar of the chaotic ancient demon, and wielding one arm to continuously hammer the space and time barriers, but unfortunately, there was no such light that disappeared.

Chapter 787 - Fairy Nebula, dark energy comes in

The Fairy Galaxy, known as the Fairy Nebula, is a four-dimensional higher space-time, adjacent to the Milky Way, more than double the size of the Milky Way.

There are countless starry races living here, various four-dimensional strong races are set up, and the races that can step into the four-dimensional time and space are all first-rate starry races.

At this moment, in the nebula on the edge of the Fairy Nebula, in a lonely river galaxy, a bright light suddenly appeared.

It was the twisted light of time and space, which flashed away, causing several nearby dying satellites to collapse into powder.

A gray half-celestial body suddenly cracked a gap, and the thick interstellar dust was torn and turned into a scary sky mark.

Click!

With a crisp sound, four figures fell out of the fissure, smashed into the interstellar dust, and stirred up waves.

One of the ancient purple beasts was like a fox but not a fox, but the hair was scorched and generally looked dull. His eyes worked hard to break away, and a trace of purple blood flowed from his mouth, which seriously injured his coma.

Not far away, a dreary halo faded, and there was a faint figure sleeping and seriously injured.

On the other side, a man and a woman fell into the interstellar dust and were wrapped in thick dust. It was clear that the young man's body was broken, cracked, and dazzled by the power of time and space, unable to heal.

The woman, like a glass, was lying quietly in the interstellar dust, trying to open her eyes, looking tired at the figure not far away.

"The emperor ..." Li Luo struggled, her body was scarred, but she was the least injured, because Qin Tiange was protecting her in the chaos of time and space.

"Huang, are you okay?" When I came to Qin Tiange, I saw him climbing up, his bones clearly visible, and the power of time and space still eroding his body.

Qin Tiange shook his head slightly, glanced at Fei Rou and You Ying dozens of miles away, looking at the two unconscious.

He stood up, looking at the thick interstellar dust around him, covering the place, forming a thick sky.

Standing on the thick interstellar dust, he found that it was a half-destroyed dead star with only half left.

"We finally escaped." Qin Tiange spit out a dust, which is interstellar dust, which is very toxic.

He looked at his wounds everywhere and smiled bitterly: "I almost buried him in the hand of the chaotic ancient demon."

"If it weren't for the space-time boat, we might not be able to get out." Qin Tiange shook his head and sighed, only to destroy a space-time boat to escape.

This is too expensive, but even if he does it again, life is the most important.

“Hwang, I just checked it out. This is a small river galaxy. We are in the interstellar dust. It should have been caused by a war.” Li Luo glanced around and said his guess.

Qin Tiange didn't say much, took out the cosmic starry sky map, immersed his mind in it, and slowly sensed where he was now.

Although the ancient starry sky map is not the same as it is now, as he continues to devour the real spirit and memory of the creature, he gradually draws a complete starry sky map.

This kind of star map is actually a kind of self-positioning. When it reaches a certain level, it connects to the universe and can immediately make a positioning star map for itself.

Of course, the premise is that you must have such a complete star map, otherwise, even if you know your location, you do not know where you are.

The universe is too big, the rumor is infinite, and it is expanding all the time. This is the wish to explore the limits of the universe, and now Qin Tiange's ability is a delusion.

“Originally, we are in the nebula of the edge of the Fairy Galaxy. Here is a small, silent galaxy, with interstellar dust everywhere.” Qin Tiange opened his eyes and muttered the news.

He already knew where he was, it was the closest galaxy in the Milky Way, the Fairy Nebula.

“What about the two of them?” Li Luo suddenly pointed at the unconscious Fei Rou and You Ying.

Qin Tiange glanced and stopped paying attention, and said, “You don't need to bother, you can save them. It is kind enough to save them. They are brought out by the creatures in the same place of exile. Don't bother, we need to find a place to repair the injury.”

Speaking, Qin Tiange directly emptied, broke through the thick interstellar dust, and left here directly.

Li Luo looked at the fainted Fei Rou and Youying, and slightly shook his head and sighed: “This is the end of your two races betraying the human race. In the past, your two races were separated from the human race and their exile was considered a kind of retribution.”

“Today, it can be regarded as benevolent to save you from coming out.” Li Luo said as he flew into the air, caught up with Qin Tiange, and left here.

In the thick dust, Fei Yan tried to open his eyes, watching Qin Tiange and Li Luo who left, and finally closed his eyes and fell asleep.

She was so tired that her injury almost killed her. Fortunately, Qin Tiange finally used his strength to bring the three out.

boom!

On the half-broken star, Qin Tiange struck a thick interstellar dust with a punch, stepping on a meteorite, his body flickered, and landed on a huge floating meteorite not far away, and quietly looked at the starry sky. universe.

For a moment, Li Luo came to his side, and the two stood there, silently looking at a huge galaxy in the distance.

It was the Milky Way, and it was very close to see it, but it was very far away. They are now on the edge of the Fairy Nebula.

Two million light years away from the Milky Way, what is that concept?

“We can’t go back for the time being.” Qin Tiange sighed suddenly, staring at the Milky Way in a daze.

Now, he can’t go back for the time being. The galaxy has fled far away from here, and if he wants to go back, he must have the corresponding space-time shuttle means.

“Repair the injury first, and then restore the repair that was originally worn out.” Qin Tiange suddenly cleared his mood and did not continue to struggle.

He sat cross-legged, sitting directly above the starry sky, releasing the horrible black holes in his body.

Bang!

Suddenly, a terrifying twisting force came from the starry sky, and a huge black hole was formed within a thousand kilometers of the circle around Qin Tiange’s area.

Let Li Luo Qiao’s face not far away frantic, looked at Qin Tiange in horror, could not believe it.

“What a terrible twisting force, how many black holes are there in the emperor’s body?” Li Luo was frightened.

Such a cultivation method is simply unheard of. It will directly create a black hole in the acupuncture point and even each cell of the body to swallow the sky.

Such a cultivation situation is too terrible, distorting the space, tearing the dark matter layer of the starry sky and directly absorbing the endless dark energy inside.

From the rumbling loud sound, in the dark matter level of the sky, a vast mysterious energy came out, which was the dark energy of the universe.

Black holes can absorb the dark energy of the universe. This is why creatures become more terrible after being trained at the black hole level. They can directly consume dark energy from the level of dark matter.

“Dark energy?”

Qin Tiange was amazed. For the first time, he was exposed to this mysterious energy. Inside the body, black holes let go of the horror and swallowed endless dark energy into the body.

Full 720 black holes began to devour, and there were faults in his space, a dark energy poured out, submerged into the body, and continuously filled with the empty energy in the body.

Powerful, full, and the unprecedented sense of reality, Qin Tiange was addicted, and finally got out of the place of exile, obtained the supply of energy, and is being restored quickly.

The ninety-nine stars that originally disappeared began to accumulate little by little, and I saw that around Qin Tiange, interstellar dust within thousands of kilometers gathered suddenly.

When Li Luo saw this, he immediately fled and left. The scene of Qin Tiange's cultivation was too grand, it was like a natural black hole in the universe devouring everything.

Interstellar dust, meteorites, nebulae, all kinds of energy have been absorbed, including the light has been absorbed Rumble came, starry sky shaking, this deadly small river galaxy has a slight vibration, powerful Absorptive power devours all nearby interstellar dust.

Huh!

Suddenly, Qin Tiange heard a violent gurgling, and then a strange wave radiated out, as if a planet had formed.

In his body, a gray star appeared, and then, another star condensed and formed. Under the endless supply of dark energy, it absorbed various substances in the universe and condensed directly into a star.

The stars in the body recovered one by one, and ninety-nine gray chaotic stars appeared again.

However, this is not the end. In the chaos of Dantian in Qin Tiange's body, endless dark energy is constantly flowing, starlights are emerging, more and more are gathered, and even new star cores have begun to form.

Qin Tiange broke his original limit and condensed a new star again, which he couldn't believe.

The endless universe of dark energy enters the body, and one brand new star after another is formed in the body.

Chapter 788 - Repair for a breakthrough, 999 stars

In a lonely galaxy, a strong suction erupted, space was distorted, and a mysterious substance and energy continued to flow.

It is the dark matter and dark energy of the universe, which are constantly drawn out and sucked into the body, condensing stars.

Moreover, the black hole in Qin Tiange's body was devoured madly, and endless dark energy entered the body, and a part of it poured into the body, transforming and strengthening the body.

Every cell in his body is constantly absorbing dark energy, and even absorbing the chaotic vitality from the chaotic elemental tires in Dantian, constantly compressing and compressing, as if it is going to become a cell black hole.

Once the cells of the body are turned into black holes, Qin Tiange will inevitably transform into a terrible fierce creature, shaking the world and being invincible.

Another part enters Dantian, condensing the stars, one by one, getting faster and faster. The densely packed stars float in Dantian, continually rotating around the chaotic primitives, like a galaxy.

Chaos elementary tires are constantly gushing out of chaos, transforming and washing these stars, turning them into chaotic stars.

And these stars emit energy one by one, autonomously pouring into the chaotic elementary tires, supplying the elementary tires to grow, forming a mysterious cycle with each other, promoting mutual growth.

Hum ...

At this time, Qin Tiange's body lit up one star after another, which was a large number of stars condensed from the body.

Ninety-nine stars have been restored from the beginning, and now more than 800 stars have condensed, and they have not stopped.

Li Luo, who had retreated to the distance, had a dignified face, and a gleam of admiration in his eyes. Such a practice would not be able to wipe himself out.

Qin Tiange is actually taking a risk. If the body can't bear the collision of the two forces of the black hole and the stars, it is tantamount to seeking his own way.

The body pits turned into black holes, and Dantian contained a chaotic elementary fetus. Hundreds of real planets are now even condensed.

That's not false, but real stars, once released they are real planets.

Dark matter and dark energy condensed into a planet directly in Dantian. Not to mention Li Luo's shock, Qin Tiange himself was frightened.

Not afraid, but thinking of a possibility, will the universe be a dandan in the body of a certain organism?

He could condense such a mighty and terrifying power into stars, and the stars in the universe that did not make sense did not come together.

The idea is a bit scary. Is the universe a Dantian of life? The stars are all cultivated from that, so thinking about it is a bit scary.

Qin Tiange just threw it behind his head and devoted himself to practice, because now is the most critical time.

There are more than 900 stars in Dantian in his body, and the number is still increasing, but he cannot stop when he wants to stop.

However, the black hole in his body was a bit out of control. This discovery made him a little scary, and Yuan Shen felt a icy cold.

The black hole is out of control and swallows the sky!

But he was worried that it was superfluous, and finally stopped when the stars in the body condensed to 999.

The 720 black holes slowly slowed down, gradually becoming less violent, and the absorbed dark energy was supplied to the cells in the body for absorption.

Ninety-nine stars were condensed, and in a flash, a mysterious buzz came out of Dantian, prompting the lonely galaxy around.

Click! Click!

In the Xiaohe galaxy, several dead planets suddenly burst, turned into a powder substance and poured into Qin Tiange's body, then he slowly woke up.

Hissing, the dark void in front was torn, Qin Tiange awoke, stood up, his body stretched slightly, and immediately caused space waves.

"This is a powerful and fulfilling feeling." Qin Tiange could not help but show a faint smile.

The restoration was restored, and even 999 stars were condensed, which was almost enough for a thousand planets, which is just a small galaxy.

Now he is the strongest star master!

This is not as simple as a simple planet, but there are two identical satellites condensing near each planet and orbiting these stars.

And those stars, revolving completely around the chaotic elementary birth, it is absolutely centered on the chaotic elementary birth. Qin Tiange's Dantian is a galaxy.

"Congratulations, Emperor Xiu, make another breakthrough."

Li Luoshen stepped forward, whispered in congratulations, with a hint of surprise in his tone, and was glad that Qin Tiange Xiu had made a breakthrough.

Qin Tiange smiled and nodded, was about to speak, and suddenly turned his head to look, and saw the original unconscious You Fei and Fei Rou slowly woke up.

"Finally survived ..." You Ying said to herself, and suddenly sighed.

She remembered being trapped in the place of exile for hundreds of thousands of years, and silently planned to escape from her there. There was a sense of gain and loss when she was truly separated.

Especially before, she could run out or sacrifice herself before letting her escape.

"The emperor, these two paleontological groups were once ancient subordinates of the human race, but unfortunately they have betrayed the human race." Li Luo said lightly.

Qin Tiange glanced and shook his head: "It used to be once, and the people's clan has disappeared, and it almost destroyed the clan in the previous period."

"You can remember the past glory, but you cannot indulge in the past without knowing the current situation."

He said to himself, looking at the starry universe, the vast sea of stars, the vast galaxies, the endless universe.

Human races, if they want to stand on top of the hundreds of stars, must endure endless suffering.

Will the hundreds of people allow the once strong to rise again? That is impossible. Instead, they will try to destroy this race. The human race is a strong race that every hundred people will try to exterminate.

Because the human race is not only terrible to reproduce, but also has endless growth potential. Moreover, the human race is warlike, which is a race that all the races are extremely afraid of.

“How is your cultivation and how much is it recovering?” Qin Tiange asked Xiang Lili with a smile.

Li Luo chuckled, and raised her hand to gather a strong force, so that Qin Tiange clearly felt her cultivation and strength at the moment.

“Yes, it seems that you are back to the peak of the past, and it is just around the corner.” Qin Tiange praised him, and was glad that Luo Luo Zhen Ling and Xiu Wei recovered.

As the two were discussing and preparing to leave, a painful scream came from there.

“Ah ... candlelight, you dare ...”

The screams pierced through the darkness, letting Qin Tiange and Li Luo follow the sound, and saw a trembling cold circle trembling constantly, sending out a terrible wave of energy.

It was Youying, and she seemed to encounter something, and there was a continuous glow of hot light in the aperture.

The black light with endless blazing, the energy of candlelight, he was not dead yet.

“That candlelight is about to begin to swallow the Yuying fusion. Qin Tiange said calmly, the corners of his mouth slightly tilted.

He naturally saw that the candlelight hadn't died at all, and it seemed like a sacrifice to sacrifice himself to send Youying out.

I saw the interstellar dust, two forces, one to the sun, one to the power of entangled with each other.

That is the candlelight of the sun, and the light of the sun, the yin and yang are entangled with each other and devour each other.

“Candle photo, you fierce, even cheated me, want to devour my origin?”

You Yingqi's anxious and deafening voice came out, with a rage and sadness, she was deceived.

She was touched before, but unexpectedly, when she was seriously injured, the candlelight hidden in the Zhiyang Zhiyuan began to show her fangs.

“Hahaha ...”

When a loud laugh came, I saw that a strong light permeated, the violent burst of the solitary sun burst, flooded the Quartet, and was unrivalled in strength, capable of melting everything.

The surrounding interstellar dust has melted, and the meteorite has been melted into a scorching magma and scattered.

“Yuying, you don’t have to resist, you are badly wounded, you can’t be your opponent. Come on, you and me, one Yin and one Yang, will inevitably become the origin of chaos and promote higher-level chaos.

Zhu Zhaozhao’s voice came out, making Fei stunned not far away. This turned out to be a scam. Zhu Zhaozhao didn’t die at all, but hidden the true spirit waiting for the opportunity to move.

“You’re so cunning, I’m trying to trust you so much.” Youying’s voice was a little weak, seeming intermittent, and seemed to be weak.

She has no ability to resist, and can only allow her energy and origin to be fused and let the candlelight devour, even the true spirit cannot resist.

Because she is in the midst of serious injuries The only hope is to trust others, but who can help her here?

“Philip Rouge, help my sister ...” Suddenly, You Ying sent out a call for help, and the cold fog disappeared, revealing her body.

Youying, eyes with a touch of desired light, looked at Fei Rou, but the latter looked at her with a bitter smile.

“I can’t help it. I can’t heal my serious injuries. How can I help you?” Fei Rou shook his head bitterly, making Youying despair.

“Hahaha, Youying, don’t bother to worry about it, no one can save you here.” The voice of Chan Zhao came from her body.

These words made Youying even more desperate, and a mysterious mark on the brows was exuding a bleak light, which was the breath of Yin Yin.

“Maybe someone can save you ...”

Just when she was desperate, waiting to die, or even trying to destroy herself, the voice of Fei Rou came.

You Yingmeng’s wake came, suddenly turned her head and looked over the interstellar dust, where a man and a woman were standing.

Chapter 789 - The name of the true spirit, You Ji

“help me...”

A call came, through the thick interstellar dust, to Qin Tiange and Li Luo’s ears.

Li Luo’s eyes flickered, he didn’t speak, he didn’t move, because Qin Tiange wouldn’t care if he didn’t speak.

Qin Tiange was expressionless, his eyes calmed like water, looking at the faint gleam of begging, which was a peculiar ancient creature.

Taiyin Youying, rumored to be a kind of ancient beast, born from the yin dynasty, metamorphosed by wisdom, difficult to be born, a small number, but very powerful.

“I, You Ji, are willing to give everything, please, save me ...”

Finally, You Ji revealed her real name, which was the real name engraved on her true spirit, and the name that was born from the day of her birth.

Some beings are unique. The names are not taken by themselves, not by others, but the name of a real spirit, also called a real name, is derived from the true spirit on the day of birth.

Generally speaking, such creatures are very taboo about others knowing their real name, Youying is one.

Candlesticks are also one, and no one knows their real names, because grasping the real names will have a great chance to control these life forms.

It's strange, but unique. What's even more weird is that once you control the true spirits of these life forms, you will form a unique imprint of the true spirit that will never be separated from the world.

Even if the true spirit is reincarnated, the real name that accompanies it will not change, so it cannot escape the shackles of the branded true spirit.

Youying, in order to ask for help, even told Qin Tiange his real name, that is to submit to, willing to be controlled by the true spirit.

“I hope you don't regret it.” Qin Tiange said lightly, and his eyebrow suddenly burst into a ray of light.

There was a click, and Shengguang penetrated the air, hitting Youying's eyebrow instantly, and rushed into it.

“Ah ... how dare you go about it?”

An angry scream came from Youying's knowledge of the sea. It was the sound of a candlelight, which attracted Fei Rou's surprise.

She saw that Youying's expression was stiff, her eyes were dumb, and the mark on her brows was shining with gleam, and there were three true spirits in it.

One of them, the Xeon-Yang, is the true spirit of the candlelight, taking the yang of the Sun to burn everything.

The other is exactly the opposite, from overcast to cold, extremely weird.

The third force came from Qin Tiange, who was his true spirit, and rushed straight into Youying's eyebrows.

“Yuying, Youji, you gave up your freedom, willing to be a slave and not let me devour you to merge?” Candlelight growled, looking angry.

Knowing the sea, the endless cold mist filled and billowed, and there was a round of dark sun.

The true spirit of the candlelight emerges, and wants to devour the gloom and glory, and the yin and yang unite, and the chaos and the infinite to achieve the chaos.

Unfortunately, You Ji gave up her freedom and willingly offered the name of the true spirit to ask Qin Tiange to save her life.

“Freedom?” You Ji’s true spirit was horrified for a while, and she said quietly, “It’s been 580,000 years, and I have been imprisoned for hundreds of thousands of years. I can’t get away easily, but now you want to devour me, I can How to do it?”

“I would rather be enslaved than to be swallowed by you. You deceived me, and I want you to die directly.” You Ji voiced a faint voice, apparently a resentment against candlelight deception.

Even if he was controlled by Qin Tiange from now on, he should let the candlelight fall into all dangers and never die.

“Do you really want to help her?” The real spirit of the candle shook slightly, emitting endless hot black light.

He looked at the true spirit of Qin Tiange, dimly, hidden in chaos and fog, unable to see through.

“To the yang to the yin, to evolve chaos, I’m curious ...” Qin Tiange said gently, and Huer raised his hand, a ray of golden light pervading his palm.

It was a golden symbol, and the true character of the earth book appeared in the palm of his hand. As Qin Tiange’s figure flashed quietly, he was tapping on the true spirit of the candlelight.

boom!

“Ah ... what’s this?” Chan Zhao screamed, screaming in shock at You Ji, and then sneered.

She looked at the candlelight coldly and was suppressed by Qin Tiange’s palm, and even had no chance of rebellion, she let the golden symbols suppress them, and then slowly eroded them.

“Roar, ground book, this is the true sign of the ground book ...” Before Zhao Zhao died, he sent a miserable sorrow, regret, and endless regret filled his last thought.

If it does not show up quickly, if it does not show up quickly, or even temporarily hides in You Ji, Qin Tiange simply ignores her and Fei Rou.

He was about to leave, but at this time he couldn’t help but directly swallowed up, resulting in such an irreparable defeat.

You Ji, would rather give up freedom than want to be swallowed. Candlelight deceived her, and even designed to devour unity while she was seriously injured, which angered her.

Click!

In the end, the last strand of candlelight was obliterated, leaving only the power of a pure and incomparable spirit of the sun.

Qin Tiange withdrew the true letter of the ground book and looked at You Ji, who was not far away, and her real name was imprinted on the core of the true spirit.

“Let’s absorb it, let me see, Zhiyang Zhiyin, can it really transform Chaos Promise?” Qin Tiange said lightly.

He stepped aside and looked at You Ji carefully, who was in a mixed mood, with a hint of loneliness flashing on his pretty face.

“Be careful, I have no intention to control you. To me, saving you is just incidental. I want to see if the two powers of Zhiyang and Yin can really transform chaos. I will not save you if I fail.” Frown and yelled.

Upon hearing this, You Ji looked at him with a stunned look, then converged, throwing away all thoughts, and Huer flashed into the refined Sun-like Spirit in the candlelight.

boom!

She swallowed directly. The two forces were originally opposite, but strangely produced a strange fusion.

Qin Tiange’s eyes flickered, staring at the Zhiyang Zhizhi and Zhiyin Zhiying are merging with each other, intertwined into a trace of gray light.

“Chaos?” He squinted his eyes, amazed, and really merged into a ray of chaos.

This is true. Qin Tiange’s true spirit kept boiling, and he realized a kind of chaotic mystery.

The unique mystery of chaotic beings can only be derived and realized from this ancient power if they are successful.

Qin Tiange’s Pangu’s body is derived from the power of chaos, and naturally has the meaning of chaos. Now, at first glance, there is a sudden and enlightened enlightenment.

“So it is!”

For a long time, Qin Tiange woke up from that kind of wonderland, just seeing the You Ji who had swallowed up, and she was standing in front of him with her head down, her face flushed with blush.

When she said her real name, she gave the real spirit to Qin Tiange without reservation. This was the most precious thing of such a creature, and even surpassed her body.

“Thank you ...” You Ji thanked gently.

Qin Tiange shook his head and said, “Don’t need to thank me, I got the answer I wanted, hello.”

As he turned around, Zhen Lingguang disappeared into You Ji’s sea of knowledge, tearing the space back to his own sea of knowledge.

Qin Tiange slowly opened his eyes and glanced at You Ji who was waking up, thinking thoughtfully.

“Let’s go, we should look for the way to the Fairy Nebula.” Qin Tiange said, turning around and stepping over, disappearing here.

Li Luo looked at You Ji and Fei Rou in the lower room and shook his head, turned around and disappeared without a trace, leaving You Ji and Fei Rou in silence.

“He didn’t accept the imprint of my true spirit?” You Ji said to herself, staring at the place where Qin Tiange left.

Qin Tiange did not accept the imprint of her true spirit and said her real name, as long as he could control You Ji immediately, but he did not do so.

“Congratulations, sister You Ji, hundreds of thousands of years, I still know your real name for the first time.” Fei Yan laughed and sighed.

You Ji’s eyes flickered, and she suddenly sighed and said nothing. In fact, she didn’t have much joy in her heart, but she had a deep sense of loss.

I am determined to give the name of the true spirit, but unfortunately the other side does not accept it, it is tantamount to disdain to control her. This is like a deep sense of frustration. Isn’t he good enough?

“Sister You Ji, he doesn’t kill us, then ... shall we follow?” Philip Rouge’s eyes turned and he suddenly said this sentence.

You Ji stunned, then awakened, and the two flew together, chasing quickly along the breath of Qin Tiange and Li Luo.

Chapter 790 - Red giant, the remains of civilization

“Hwang, they’re following ...”

On the starry sky, Qin Tiange and Li Luo stepped on a giant meteorite and flew towards the distance.

Behind Li Luo’s eyes, two figures were struggling to keep up, absorbing the dark energy of the universe while recovering.

You Ji, Fei Rou, and the two kept up. Actually, it was because Qin Tiange didn’t kill them, and this is a strange star field, and they didn’t understand it at all.

It hasn’t appeared for hundreds of thousands of years. Naturally, it is best to follow Qin Tiange and Li Luo.

“Don’t bother, find a place, we let the tribe out and let them recover as much as possible.” Qin Tiange didn’t read it, but said this sentence.

Li Luo nodded her head slightly, indicating that there were millions of people and hundreds of thousands of Ziling people on the glass star in her body.

Huh!

In the back, You Ji and Fei Rou struggled to catch up, while recovering their cultivation and injuries, the ancient souls were already strong, and now they have finally recovered their injuries.

And, as they absorb the dark energy of the universe, the repairs that were never worn out are recovering frantically.

Boom ... Boom ...

In the back, there was a constant violent vibration. Apparently, You Ji and Fei Rou had made a breakthrough, which caused the galaxy to vibrate.

Qin Tiange looked back in astonishment, and saw that their breath became more arrogant and terrible. It was indeed the place where they were suppressed and exiled for countless years.

Originally strong, after getting out of there, it became more horrible. Xiu Wei was recovering step by step. The speed was that Qin Tiange felt thrilled.

“Is this too fast?” Qin Tiange was surprised and had to shake his head to marvel.

Li Luo thought it was normal and laughed: “Hwang, these two people are still useful. We are going to enter the Fairy Nebula, maybe they will be your help.”

“Maybe.” Qin Tiange nodded without thinking, two ancient creatures, suppressed for hundreds of thousands of years, and finally liberated.

Watching the two of them broke through quickly, broke through the star level, went straight to the black hole level, and even grew crazy.

In a blink of an eye, both You Ji and Fei Rou both broke through the star master level, which slowly slowed down and became the star master.

This is already very scary. From inaction to breaking through the star master directly, the process is less than ten minutes.

However, at the star level, the growth of the two slowed down, and even gradually stopped the breakthrough, and it was impossible to break through.

Because above the star is the space-time level, this level must understand the power of space-time, from one-dimensional to nine-dimensional space-time, must understand, in order to shuttle space-time to achieve the great **** of space-time.

They were exiled for hundreds of thousands of years. They were ancient creatures that were not in the space-time level before exile. They never reached the space-time level. How to understand space-time?

Just kidding, in the place of exile, time and space are blocked, and I want to realize that you are dreaming.

“Huang, there is a giant star in front of you.” Soon, Luo Luo pointed to the dark starry sky ahead to remind him.

Qin Tiange looked up, and he really saw a huge red star. From here, he had the size of a fist.

However, the star is still far away. As it gets closer, the star is getting bigger and bigger.

Qin Tiange estimates that this planet is at least tens of thousands of times the sun, and is simply a superstar.

“It is a derivative red giant star with extremely powerful energy.” Qin Tiange saw through the evolution of this star at a glance.

The red giant is the result of the evolution of the star to the later stage, and the energy begins to explode, or it is slowly silent.

Huh!

At this point, the two following figures caught up, and both fell on the meteorite where Qin Tiange was, standing behind him.

“You Ji, Fei Rou, meet Lord!”

You Ji and Fei Yan looked at each other, stepped forward, and knelt on one knee.

Qin Tiange turned around, looked at the two, and laughed: “Everyone in the universe, longing for freedom, but you are desperate to respect me, is it worth it?”

You Ji and Fei Yan glanced at each other, looked at Qin Tiange, eyes firm, nodded Qi Qi.

“For us, it’s worth it!” You Ji looked at him seriously.

She had a very firm expression and said her own voice: “My real name has been said. Even if you don’t accept it, that’s my oath of true spirit and it can’t be erased.”

“Philip Rouge believes that it is safest to follow you.” Philip Rouge turned into a human figure, a girl with a purple-haired silver pupil.

But she is different from the Ziling clan. There is a purple symbol on her brows, which is a unique mark of the true spirit, a unique symbol of ancient creatures.

“Get up, give you another chance, leave, and feel free. I hope you won’t regret it later.” Qin Tiange said quietly.

The loyalty of the two star-level ancient creatures is a good thing. There is no reason to refuse. Previously, you refused to enslave You Ji in the air. That is respect for life.

Qin Tiange had controlled the real spirit before, and Phoenix and Goblins and White Tiger were, but in the end they released their real spirit.

“We don’t regret it!”

You Ji, Fei Rouqi Qi Qi arched hands, solemnly swore, will not regret after making a decision, otherwise they will not catch up.

After hearing Qin Tiange’s smile, he bowed his head and said, “Okay, since you have decided, follow it.”

Aside, Li Luo’s mouth slightly tilted, and his eyes flashed a light, feeling that You Ji and Fei Rou were still savvy.

“Here ...” At this point, Qin Tiange turned around and looked at the growing red giant.

The scorching waves swept through, and the temperature on the red giant was very high, but for Qin Tiange, there were no problems at all.

“Lord, I have detected the smell of an ancient altar on this red giant star, which seems to be some kind of altar to worship the gods.”

Behind him, You Ji suddenly said this sentence, which surprised Qin Tiange, because he and Li Luo did not sense it.

This made him start to take this You Ji seriously. His talents and abilities are really different, which may help him a lot.

“Can you be sure where?” Qin Tiange asked first.

You Ji looked slightly pleased, because Qin Tiange believed her words, and that was a recognition of her ability. Without doubt, it was recognition.

As a subordinate, what I am most afraid of is the mistrust of the Lord, which is quite dangerous and even helpless.

Qin Tiange believed her directly, which made You Ji feel at ease, and she finally gained initial approval.

“Master, there ...” You Ji sensed a little, immediately pointed a direction, and flew away with a gloom.

Qin Tiange didn’t say much, stepped forward, rushed directly into the halo of the red giant star, and flickered to the position pointed out by You Ji.

Uh ...

Immediately afterwards, Li Luo, You Ji, and Fei Yan arrived at the same time, and the four looked at the broken scene around them, somewhat surprised.

There used to be civilizations here, and there are traces of broken buildings. Although broken, some broken rubble can be seen.

“There used to be a powerful civilization, and this red giant may be the master of that civilization.” Fei Rou said softly.

She continued: “But it seems that this place has been destroyed, the entire civilization has fallen into extinction, there are no survivors who have escaped, and there is still a sorrow of the destruction of civilization on the planet.”

Qin Tiange was surprised. He gave her a embarrassed glance, and lowered his head and whispered: “Lord, this is a talented ability of Fei Rou. You can feel the message of civilization’s rise and fall.

“Information about the rise and fall of civilization?” Qin Tiange was really surprised. Looking at Fei Rou, he suddenly asked: “At the time of exile, did you rely on the breath of this civilization to find me?”

Philip Rouge raised his head and said seriously: “Yes, Lord, at that time, Philip Rouge felt a surging message of civilization, flourishing day by day.”

“The emperor, the Philip, are strange beasts of the ancient period, the guardian family of civilization, can feel the rise and fall of racial civilization information.” Li Luo Chuan Yin explained.

Qin Tiange stunned and laughed: “Great, this can tell you, doesn’t it mean that no civilization can escape your eyes?”

“It’s not like this.” Philip Roan smiled bitterly, explaining: “In fact, my ability is really chicken, I rarely use it, because it has no effect at all. Whatever you see and feel, the rise and fall of civilization are actually Uncertain is like seeing the future, full of variables. “

Qin Tiange nodded slowly, but seriously warned: “Philip Rouge, your ideas are biased, there is no ability in the world, only the ability to ignore, not use, or even detect.”

“You should value your talents. The innate ability of any creature is unique and unparalleled. Do you not even believe in your ability, how can you become a strong one?”

Qin Tiange’s words were tantamount to slamming his head, trembling Philip and roaring, he never calmed down for a long time, he felt a sense of sudden realization.

Yes, she was born with that kind of ability. Was it really useless, but it wasn’t. Qin Tiange thought that any ability was useful, and could even evolve into an extremely powerful ability.

“Thank you for your guidance!” Fei Rou thanked him earnestly and convinced him.

Qin Tiange shook his head and didn’t care. The four walked to the center of the ruins in front, where You Ji pointed out.

Sure enough, when he came here, Qin Tiange really saw a broken ancient array, which was an extremely ancient altar, some kind of altar that came to worship the gods.
