Chapter 80 - So big green snake

Qi Qin Tiange several people hurried to the cockpit, the train captain was shocked, staring at the front of the train with wide eyes.

At this time, the train was about to cross a river-crossing bridge, with a total length of 235 meters.

“Oh my God, what is that?”

As soon as Xu Gang came in, Liu Yan and others turned wild, staring at the river that was running under the bridge in front of them. A huge python rolled in the water, swallowed a large grass carp and swallowed it in twos.

The grass carp mutated after the disaster, with a huge body, three meters long, and its fat body was swallowed by the snake.

“What a big green snake.” Moda stupidly looked at the huge python on the river.

Everyone saw that it was a green snake, yes, it was a bamboo leaf green snake. Covered in blue scales, glowing with green light, just before the end of the world was just a thumb-sized green snake.

This snake is very toxic and generally small in size. It likes to be coiled on green-green plants. It is difficult to be found. Once bitten, it will die if it is not treated in time.

The green snake with bamboo leaves, known as the little green dragon, the green snake, but this one is too big. The thickest part of the whole body is like a large water tank, which is incredible.

“On the bridge, look at the bridge!” Long Xiaoya looked terrified and exclaimed.

Everyone looked up, and the next moment, the timid people were frightened, their faces were pale, and they were frightened.

On the Luan Bridge, thick green snakes are coiling around the railway bridge. Their thick bodies are full of buckets and their slender bodies are at least ten or twenty meters long.

These are all green snakes. They are entwined one by one. The triangular flat snake heads are lifted up, two red eyes are erected, there is a cold light, watching the train coming.

Hiss ...

The roar of snakes fluttered, and the roaring sound was terrifying.

The giant snakes that are all over the ground are still green snakes. A large group of huge green snakes are coiled on the railway bridge. They are bulging and feel like they have just eaten.

“Oh my God, how can there be so many green snakes?” Moda looked horrified, staring at the huge green snake that was constantly squirming around the bridge, speechless.

Each of these green snakes is one-star, and even some relatively stout green snakes have evolved to two-star levels. Not only are they huge, they are amazing in strength and speed.

“Tian Ge, what should I do?” Everyone looked at Qin Tian and looked at Qin Tian Ge.

The latter turned his eyes and said silently, “Why are you all watching me? Do you want me to kill the mutant green snakes?”

“Speed up, drive over!”

Qi Qin Tiange looked dignified and directly spoke to the captain of the train. The train entered the bridge, and alarmed the numerous green snakes coiled around the railway bridge.

At this time, all the survivors in the carriage saw the situation, one by one completely scared.

“Snake, so many green snakes!”

“Oh my God, what’s wrong with this world?”

In the carriage, a group of people panicked and screamed, leaving the windows one by one, afraid to approach. As the train passed the bridge, the countless cyan coiled up, the huge green snakes raised the head of the triangle snake, staring coldly and bloodily at the train.

Hiss!

Suddenly, a green snake of the thickness of a bucket made a hissing noise, and the triangular head held up suddenly slammed into the carriage and bit a young man in one bite.

The young man was still in a coma. He was stunned by Liu Ye’s slap. At the moment he was bitten by a giant green snake and woke up in pain.

“what...”

Li Ziqi was soberly stimulated by the pain, and found himself bitten by a huge green snake, frightened and screaming in panic.

He kept struggling, screaming in panic, “Don’t, don’t, save me, wife save me, wife save me ...”

In horror, he even asked his wife for help, so that the young and ordinary woman who was already heartbroken suddenly woke up, and saw his husband was bitten by a green snake, and instinctively rushed up.

“Husband!” She looked mad, and did not care about Li Ziqi treating him like that before, but rushed up regardless of his body, plucked a steel pipe and smashed it on the snake head.

With two bangs, the green snake let go of her mouth and snarled at her, a sick stench that made her faint on the spot. This was poisonous gas.

Seeing his wife fainted with poison, Li Ziqi not only ignored it, but ran away, let alone the desperate wife who came to save his hair.

Human scum is worthy of scum. When he was in danger, he called his wife and wife for help, and now he was rescued. He even escaped by himself to save his wife who had just desperately tried to save him.

This kind of person is a waste of food to live.

Uh!

As he took the third step, his body suddenly stiffened, his face shone with black light, his eyes flashed, he passed out on the spot, and was poisoned by the bite.

Hiss!

The huge triangular head of the Viper Green Snake reached into the car window, rolled its body onto the train, opened its mouth and bite Li Ziqi, who was stunned, and swallowed, scaring everyone in the carriage screaming and running away.

“Shoot!” A group of girls arrived. Although they were shocked at the size of the green snake, they calmly raised the steel crossbow and shot at the green snake.

The steel arrows fluttered, and a squeak of rustling came. A steel arrow pierced the green snake’s scales, stabbed the green snake, and caused it to bite half of the plum plum, and the snake head quickly retreated. Out.

“Husband ...” The unconscious young woman suddenly woke up, and when she saw her husband being swallowed and taken out of Shekou, she burst into a heartbreaking scream.

She ignored the danger, got up and rushed up, hugged her husband’s twitching legs, and was dragged out by the green snake.

“Stupid woman!” Seeing this scene, Wu Xiaoyu, who wanted to rescue, and others regretted it. She is really a stupid woman. She was hurt again and again without realizing it. Now, the couple can reunite.

Huh!

Suddenly, one side of the car window was smashed and broken, and a huge green snake head came in, scaring some people who were not running to slump on the spot, and there was a stinky smell coming from their lower body, scaring urine.

Look, the huge, flat triangular head, with cyan scales, looks like the thickness of a baby’s fist, and looks extremely terrifying.

Especially the cold snake eyes, full of bloodthirsty killing, without emotion, is really a cold cold-blooded animal.

Hiss!

This green snake reached in, almost half of its body entered the compartment, but the next moment, it was greeted by steel arrows shot on both sides. The sound of a steel arrow rushing into the flesh, the green snake was in pain. It had to roll straight, a stream of bright red blood flowing from the cyan scales, it was cold blood, and there was no temperature.

The giant green snake, the thickness of the bucket, rushed into the moving train compartment, and was shot and killed here by a group of girls with steel crossbow. The huge body was lying there, still involuntarily scrolling.

As the train passed the bridge, it stunned the dense green snakes on the bridge, and the train tracks were covered with such terrible green snakes.

“Crush the past!”

Qi Qin Tiange looked dignified, staring at the huge green snakes lying on the train tracks, and the green snakes were densely packed, watching the scalp explode.

The train rushed forward, crushing directly from these green snakes lying on the train tracks.

Boom ...

A huge shock came, and I saw the train crashing on the dense green snakes. The whole train shook slightly as if it had hit something.

For a while, the flesh flew in front of the car, many huge green snakes were knocked open, and some were even rolled over under the train, and the flesh was blurred.

Hiss ...

The snakes roared, some green snakes roared painfully, their bodies were crushed, and the train told the impact, coupled with heavy crushing, they knocked some giant green snakes on the spot, and their bodies were crushed all the way into two sections.

There were many huge green snakes hissing, one after another furiously coiled around, and launched an attack on the train.

“Ah ... be careful!”

Suddenly, a blue shadow in front of the car whistled, and the huge snake head slammed into the locomotive, and the shattered windshield was broken on the spot.

Suddenly, the huge snake's head opened his mouth wide and bit his mouth toward the nearest train captain, frightening Wu Xinlan's scream.
