

Dark Ages 851

Chapter 851 - Secrets of the dark universe

On the continent of the Andromeda Galaxy, in the core area of the restricted area, four figures quietly appeared here.

The people who came were Qin Tiange and Li Luo. They left Xianchuan and did not rush to leave, but entered the core of the restricted area.

“Emperor, can Shangguan Xianer, the future fairy queen, become friends?”

In the restricted area, Qin Tiange and Li Luo half stepped in this terrible area, followed by Jingshan and Hongyu.

After hearing Luo Luo’s words, Qin Tiange looked inexplicably, and glanced at the huge fairy boat outside.

He said blandly: “She is a shrewd person. The Fairy is the overlord of the Fairy Nebula. If you are a friend, you might change the situation of the people here.”

“If you want to be an enemy, then you will meet again in the future, and there will be no race of the fairy race.”

This sounded very plain, but revealed a ***** killing meaning. If he didn’t understand how to make a choice, if he still wanted to be his enemy, the entire fairy clan would be destroyed by Qin Tiange at all costs.

Qin Tiange was ready to help Shangguan Xianer cut out the fire of fairy civilization and liberate the luck of all the ethnic groups under his control.

He did this to test the court of life, to see what secrets this behemoth that had stepped on the human corpse.

As for Shangguan Xianer, she can be called a friend and an enemy, depending on her own decision.

Qin Tiange didn’t worry about it at all, and didn’t even take it to heart. No one can predict what the future will be like.

Whether it is an enemy or a friend, it is the strength that is strong. This is also the belief that Qin Tiange has never given up cultivation or even laziness.

“This forbidden zone has an inexplicable power, and seems to lead to a mysterious place.” Qin Tiange stopped and looked carefully at the core of the forbidden zone, where there was an inexplicable atmosphere.

That kind of breath is very strange. It felt after the banned star ghost, and naturally came to find out.

Li Luo’e’s eyebrows were clear and reminded: “Huang, there’s something weird in it, so be careful.”

Qin Tiange bowed his head, spread his palm, and looked at the tiny particle floating, which was almost invisible to the naked eye.

Had it not been for this particle to emit a hazy light, it was really invisible at all, and this was the starry ghost of a space-time particle.

“Space-time level, from one-dimensional to nine-dimensional, is considered a strong person in the starry universe, but higher levels of life have already transcended time and space and have been able to break the dark interface of the universe.” Qin Tiange said in a word.

He stared at the starry ghost and said, “This starry ghost may open up a higher level of secrets for us.”

After listening, Li Luo was surprised: “Huang, do you mean, want to take advantage of the uniqueness of the starry ghost to peek into the dark interface of the universe?”

Jingshan and Hongyu were dumbfounded, with a frown on their faces, completely unable to understand what they were talking about.

But one of them is very clear, that is, Qin Tiange and Li Luo, turned out to be space-time strong.

Moreover, what excites them most is whether Qin Tiange is a human race or a candidate for the emperor of this generation.

After leaving the immortal ship, Qin Tiange had already demonstrated his identity, released the slave seal of the two, and regained his freedom. Naturally, Qin Tiange was increasingly recognized.

Human races are regarded as their own races, and they are candidates for the emperor of this era. Naturally, Jingshan and ruby are recognized and supported.

“My lord, there is danger here, or else, can I and Hongyu stay here to wait?” Jingshan hesitated and offered suggestions.

The two had insufficient strength, and entering the restricted area was tantamount to death. They did not want to drag Qin Tiange back.

How do you know, Qin Tiange shook his head and laughed: “Reassurance, I am not going to take risks, but I want to see that strange breath.”

“Dark interface?” Li Luo wondered.

Qin Tiange looked serious, nodded and said, “Yes, I sense a breath of dark interface. Although I have never seen a dark interface, and never touched it, it is certain that it must be the breath of a dark interface. “

The strange breath he sensed was the mysterious wave of the dark interface, which swallowed many tyrannical ancient creatures, and already knew a little about the dark interface.

Don't forget the soul pearl, but that soul has collected countless souls and memory information for countless years.

The dark interface is a mysterious interface of the universe, there is mysterious and unpredictable, full of endless dark matter.

It is rumored that if you want to make a breakthrough in time and space, you must start from the spiritual level. Only the spiritual will breaks time and space, breaks the dark interface of the universe, and enters the dark world.

There, it belongs to the spiritual world. As long as a soul can break the dark universe of the universe with spiritual will, it can find a way to break through the space-time level.

“Huh?” Suddenly, Qin Tiange frowned, his eyes flickered with suspicion, and he suddenly lost that sense.

He groaned and stared at the core of the restricted area. The wondering sensation disappeared, leaving him a little stunned.

After a long silence, Qin Tiange finally shook his head and sighed: “It’s a pity that the induction is fleeting, but we can’t get involved in that kind of field, let’s forget it.”

Then, he looked at the core of the restricted area, and finally waved to tear apart the one-dimensional space-time, with Li Luo and Jing Shan, Ruby, disappeared here in a blink of an eye.

Previously, she wanted to capture that wonderful induction and peer into the dark side of the universe, but unfortunately it still failed.

That kind of induction disappeared, not because it wasn’t fast enough, but because it hadn’t reached that level yet, it was already his terrible feeling.

In the dark world of the universe, it is rumored that the place where only the master can enter, the spiritual world is endless.

At that level, even if the body disappears, the spiritual will can still live in the dark interface, and even with the immortality of the spiritual will, it can be reversed.

This is the strong person who transcends the level of time and space, the kind of life that truly masters the power of rebirth and immortality.

Qin Tiange has not yet reached that level, so after the induction disappears, he does not stop and leaves directly.

Click!

At the edge of the mainland, at the transit station, a spatiotemporal crack broke suddenly inside and outside the giant city, and four figures emerged from the inside.

Qin Tiange brought the three of Luoluo back to this place, instead of going to the Nine Dragon Fairy, he came to a remote area.

Here he saw You Ji and Fei Rou who were already waiting here.

“Lord!”

You Ji, Fei Rou saw Qin Tiange and immediately stepped forward to salute, and the two hearts trembled, because from Qin Tiange and Li Luo, they felt a wave of breath that surpassed the star master.

Space-time level!

The two were startled, and they didn't expect to see each other for a while. Qin Tiange and Liluo had such a huge change.

"You Ji, Fei Rou, we are going to leave the Fairy Nebula and return to the Milky Way. What's your arrangement?" Qin Tiange opened the door and asked directly.

After hearing this, You Ji answered directly: "Lord, the establishment of the Chamber of Commerce has been initially completed, there is no problem, but it takes a little time to grow and take root here."

"Well, just ignore it for the time being, the two of you can clean up and go back to the Milky Way with me. This is temporarily here, with the focus on the Milky Way."

Qin Tiange said, meaning to temporarily put the business here to the Milky Way, where the core focus.

He hadn't expected that he would be able to return to the Milky Way so quickly. Before that, he wanted to go back to the Wormhole of the Fairy Galaxy of Shangguan Fairy.

But before swallowing the gate of time and space, Qin Tiange no longer needed these, he could break through time and space, step into one-dimensional space and time, and return directly to the galaxy.

Although the coordinates may be inaccurate, it can take at least a general direction to return to the Milky Way and even back to Earth.

"Lord, you can leave at any time."

You Ji and Fei Rou Shuangshuang said that there is no need to read more here, the foundation has been laid down, and only time to grow.

Seeing this, Qin Tiange was relieved. After all, if he wanted to lay a nail here, he would be in touch with the Fairy Nebula in the future.

"In that case, let's go."

Qin Tiange also simply, after finishing speaking, shattered the space-time barrier directly and opened a one-dimensional space-time tunnel.

Liluo, Jingshan, Ruby, You Ji, and Fei Rou stepped in one by one. Qin Tiange finally glanced at the Nine Fairy Realm, turned and stepped into it and disappeared.

Fairy Nebula, the journey has come to an end, and his center is still the Milky Way.

Where is the foundation of the human race, where is Qin Tiange most concerned, because his roots are there, on a remote planet in the Milky Way.

At this point, in the Nine Dragons World, Shangguan Xian'er, who had just returned, felt something. Looking towards this place, his expression changed inexplicably.

"he's gone!"

Shangguan Xianer murmured to himself, as if he saw Qin Tiange leave, and seeing him next time would be indefinite.

Thinking of this, she couldn't help looking at the location of the starry sky where the Milky Way galaxy was located, and she was out of nowhere.

Chapter 852 - Zhixing tribe, Tianhe continent

The Milky Way, with a diameter of 100,000 light-years, is located in the central Tianhe continent, where hundreds of ethnic groups converge, a land of 10,000 light-years, and there are more than 40 billion super stars around it.

Gathered here are four-dimensional strong civilizations and races, the closest to the central Tianhe continent, the more the outer ethnic strength is weaker.

The earth, located on the periphery of the Milky Way, is considered the lowest civilization. Only when it breaks through the dimension and comes to the area around 50,000 light-years around the central Tianhe continent of the Milky Way, can it be regarded as a truly powerful civilization.

At this time, in the Milky Way, 3,000 light-years away from the continent of Tianhe, a broken space-time tunnel suddenly opened in a broken Xinghe.

Four people came out of the tunnel, stood in the ruins of the starry sky, and looked at the dark starry universe in all directions.

“Here, the Milky Way?”

You Ji and Fei Rou were startled and looked at the starry sky. Although the entire galaxy could not see the whole picture, it could see a large number of stars, just like a sky hanging in the universe.

This is the Milky Way, and it was Qin Tiange and others who came back from the Fairy Nebula.

After ten days of one-dimensional space-time travel, I returned to the Milky Way.

“finally came back!”

Qin Tiange looked at the familiar galaxy, the Milky Way, and his foundation, and finally returned again.

At this moment, he seemed to be a foreigner, returning from the distant fairy nebula to his long-distance hometown, the Milky Way.

Although it hasn't returned to Earth yet, it is very close, at least in the same galaxy.

“Huang, this is located in the central part of the Milky Way, near the Tianhe continent in the middle of the Milky Way, and three thousand light years away.”

Li Luo breaks through the space-time dimension, draws a variety of information, and compares his own map of the starry sky to determine their location.

Qin Tiange's eyes flickered with a wave of ideas, looking through time and space, and seeing the vast continent in the middle of the Milky Way.

That is the central area of the Milky Way, known as the Tianhe continent, surrounded by a total of 40 billion super-large stars.

There are a huge number of races living here, and all kinds of starry creatures gather. Back here, Qin Tiange began to think about how to build a permanent channel connecting the earth.

After entering the space-time level, Qin Tiange has the ability to combine various formations to build a permanent passage to the earth.

As for constructing a permanent channel in the Andromeda galaxy, it is not that he does not want to, but that Qin Tiange currently does not have the ability to build a space-time channel that spans large galaxies.

“Go, find a planet and start building a space-time channel.” Qin Tiange looked around and said something.

Several people were about to leave. Suddenly, Qin Tiange and Li Luo Qiqi stopped and looked at the starry side in surprise.

There, there were faint horrible energy fluctuations, extremely intense, as if the supernova explosion was destroyed.

“So strong energy fluctuations, at least the main star level, and there are many, is there a race that is conducting an interstellar war?” Qin Tiange said his surprise and discovery.

Immediately, he and Li Luo nodded, and the two opened a space-time tunnel, walking into them with You Ji, Fei Rou, Jing Shan, and Ruby.

In an instant, they disappeared into this star field, came to a chaotic star field, and energy explosion came from everywhere.

boom!

Qin Tiange and others just stepped out of the space-time tunnel and stood in the dark and cold starry universe, and saw a huge star exploded suddenly in the distance, turning into a bright burst of energy.

The energy shock produced by the supernova explosion is clearly felt after a few light years, which is extremely violent.

The interstellar dust continued to dissipate, a large nebula was swept into nothingness by the shock wave, and several stars were threatened.

“There is a powerful race in the interstellar war.” Qin Tiange eyes faint, looking out a light year away, there are two ethnic armies fighting on the sky.

Dozens of huge battle stars split apart and turned into a huge array of starry sky. The rays of energy flickered, sending out beams of horror light constantly, running through the starry sky.

Opposite, there is also a huge number of mechanical fortresses, emitting a beam of terror energy light, and the sound of explosions on the surface of the battle star is heard.

“Zhixing tribe?” Qin Tiange was different. Looking at those huge mechanized war fortresses, each one looked like a star and was extremely scary.

These turned out to be the products of the Zhixing family, which belong to the Zhixing family and saw the existence of the Zhixing family for the first time.

The race in the opposite battle star is a strong civilization, composed of various creatures, and very powerful.

Qin Tiange was most concerned about the Zhixing clan, and he looked curiously at the massive war fortresses of the Zhixing clan. The densely packed war motherships sailed out, shuttled through the stars, and rushed to the opposite racial army.

Zhixing family, technology is very powerful, and the most terrible is their number, cloned creatures, carrying super technological weapons, how terrible?

The number of wise stars in the universe is the largest, because they specialize in collecting genetic information of various ethnic groups and storing them in warehouses, and then create stronger and more perfect clones. These are really terrible killing machines.

boom!

A battle star exploded suddenly and was blown up by students, as if a supernova exploded, lighting up the dark universe starry sky.

Qin Tiange and others stood here quietly watching the interstellar war. Inside the star of the war, a series of strong horizontal figures, black hole level, star level, kept roaring and fighting.

It is a pity that in the face of the endless clone army of the Zhixing clan, it is impossible to counteract it, and eventually it is overwhelmed by the human tactics.

The whole battle process took no more than an hour, and dozens of battle stars were thus burst above the stars.

The Zhixing clan just lost two or three star forts, which is enough to reflect the terror of the Zhixing clan.

“Li Luo, catch a star-level creature.” Qin Tiange whispered.

Huh!

Suddenly Liluo disappeared and disappeared. It didn't take long for her to return, carrying a strangely injured creature.

“Queen, find a surviving creature at the star level.”

Soon, Li Luo returned, throwing down the captured star-level creature, like a horrible ball of meat.

Two eyes, dense tentacles, and a scruffy mouth make up this strange creature.

Qin Tiange didn't care, he just pulled away the other person's true spirit, and drank his consciousness on the spot, and learned the memory information.

He soon understood that, getting the information he wanted, the original civilization was an alliance formed by nine powerful civilizations.

This alliance is fighting against the Zhixing clan, and the perennial war has depleted this star field.

“The Alliance of Immortals, formed by nine strong families, controls the entire Perseid galaxy cloud, and can compete with the major galaxies of the Milky Way.”

Qin Tiange said to himself, surprised quickly: “There is no hegemon in the galaxy?”

He was surprised to find that there were no hegemons in the galaxy. A dozen royal families conquered each other, and even the Zhixing clan participated in them, all wanting to become the hegemons of the galaxy.

What is even more strange is that there is no so-called civilization in the galaxy. The only way to become a hegemon is to defeat all strong races and set foot on the throne of Tianhe Hegemony.

The entire galaxy is the most chaotic. At least there is a fairy race suppressing it compared to the fairy nebula.

However, the Milky Way does not exist here. All ethnic groups are completely in the killing stage. Perennial wars have caused the Milky Way to have a vacant supremacy.

This led to the outbreak of war, and various races conquered each other, trying to annex each other or destroy each other and strengthen themselves.

“The Milky Way galaxy, without the heart of civilization, hasn't the court of life controlled the civilizations of all ethnic groups in the Milky Way galaxy?” Qin Tiange couldn't help thinking about this question.

Just as he was thinking, the Zhixing tribe over there seemed to notice the fluctuations in life over here, and immediately sent a star fortress over.

boom!

A huge star fortress jumped directly into space, pierced out of interstellar space, and pressed in front of Qin Tiange and others.

“It's a bit interesting, although we don't hide it deliberately, but we can find that the Zhixing clan is capable.” Qin Tiange looked at the star fortress that appeared and couldn't help laughing.

Several people did not worry, Li Luo raised his hand and pointed it out, and saw the star-like fortress freeze on the spot.

Not the kind of stillness, but it seemed to suddenly become a plane, like the star fortress in front of it suddenly turned into a painting.

Yes, it is a painting!

You Ji, Fei Rouge looked at the fixed star fortress, and after a closer look, she was surprised to find that the entire fortress was sealed in a thin space-time ~ Like a piece of paper, the Star Fortress is on the paper, just like a picture drawn.

Huh!

Suddenly, the paper shattered like a mirror, and it turned into countless powders and disappeared.

Even with that star fortress, it completely disappeared with the powder, and the two-dimensional space-time power directly destroyed the powerful star fortress.

Li Luo, who has mastered two-dimensional power, is incredible.

“Let’s go!”

Qin Tiange swept across the dense fortress of the Zhixing clan in the distance, said with a smile, turned around and tore into time and space.

Several people stepped into them one by one, disappeared in a blink of an eye, leaving only the star army of the Zhixing family to watch the interstellar dust floating here, and did not continue to send people over.

Leaving the starry sky, Qin Tiange and others came to the edge of the Tianhe continent and saw the vast Milky Way Center, Tianhe Continent.

“My lord, I feel the luck of my own tribe, and a tribe live here.”

An empty word came from consciousness, which was the voice of a prophet, reminding Qin Tiange of this discovery.

On the continent of Tianhe, there are some people living, which caused Qin Tiange’s curiosity, not much surprise.

“Go, look at Tianhe mainland!”

After speaking, Qin Tiange took Li Luo and others to step into time and space, passed through the thick sky of the Tianhe continent, and entered the mysterious and vast Milky Way central continent.

There are all kinds of living beings gathered here, and even various starry sky creatures hide and survive here, and the Tianhe continent is full of danger.

Moreover, the magnetic field here is strong and secretive. All the creatures entering the Tianhe continent, regardless of their strength or weakness, will be suppressed to a certain extent.

Chapter 853 - Terran from Ziwei Ancestor

Tianhe continent is divided into 3,000 continents and 100,000 domains.

A continent has a radius of one trillion kilometers, and a large area has a range of 10 billion kilometers, which is almost infinite.

Each continent has a different time. As for the three thousand suns, they circle around the silver heart, which is the Tianhe continent.

Surrounded by 40 billion super stars, Tianhe continent is a holy place for the entire galaxy.

Zizhou, named after a purple ocean, is vast in area and rich in products, and lives of all races.

In the very east of Zizhou, there are a group of people who are all human.

“The people here are very strong!”

Walking in a giant city, Qin Tiange and Li Luo were surprised to find that the people here were generally strong.

Star level can be seen everywhere, even in black hole level. As for the star level, there is a strong star power in the center of the giant city.

Looking at the people here, they all wear ancient robes, and their manners are no different from the ancient Chinese people.

The only difference is that the people here are from the same place, that is, the Ziwei ancestral land.

“Brother, it will be the 100th birthday of Emperor Ziwei in another three years. Are we going to return to Ziwei?”

On the street, two powerful young men in luxurious clothes are talking about themselves.

The two looked at each other as brothers from the same family, and they were also famous nobles in Ziwei Star.

“Second brother, when your second brother comes, we will go back. After all, our family still has status in Ziweixing. The emperor’s centennial birthday naturally invites our family. If we don’t go, we will lose a huge opportunity.”

The young man, called the elder brother, said calmly, both of them came from Ziwei Star.

Not far behind, Qin Tiange listened to the conversation between the two men, and couldn’t help feeling a slight wave in his heart.

Ziwei Xing, once knew a little on earth, did not expect that this ancestral land of the people has come to the Milky Way Tianhe continent.

Moreover, it seems that Ziwei’s people are extremely strong. Look at the people living here, most of them come from Ziwei.

“The Emperor Ziwei is the Emperor Ziwei?” Qin Tiange said blankly, speaking to himself.

Knowing the sea, the ancient sword continued to make a buzzing sound, the emperor’s seal emerged, sprinkled the dim light, and gathered into a figure.

The instrumental spirit came out, and the ethereal words came: “Master, the sister’s own body is in Ziwei ancestor, if it can be brought back”

“Moreover, some of my fragments are also in the Ziwei ancestor, perhaps in the hands of the Emperor Ziwei.” The words of the Emperor Yin Qi Ling made Qin Tiange silent and did not speak.

He walked quietly, with Li Luo beside him, guarding him inseparably, followed by You Ji, Fei Rou, Jing Shan, and Ruby.

They did not speak, remained silent, and quietly followed Qin Tiange through the streets of people.

“Huang, what’s your plan?” Qin Tiange stopped at a pavilion.

Li Luo looked at Qin Tiange without saying a word, and whispered inquiringly, his eyes showed a touch of luster.

“How strong are the old guys of Ziwei Zuxing, who control the inheritance resources and lifeline of the entire human race, it is no wonder that they can step into this Tianhe continent early.” Qin Tiange said softly.

He looked at a purple lake in front of it, sparkling, and there were strange purple gold fishes swimming in the water.

Qin Tiange’s thoughts fluttered, remembering the old stuff of Ziwei Star, controlling the heritage resources of the people, and drawing on the heritage resources of other people’s ancestors to strengthen himself.

This makes Qin Tiange unable to agree, that is to grow from the blood of other ancestors of the same tribe, which is equivalent to stepping on the corpses of countless members of the same tribe.

Looking at the situation of the people here, we know that the strong is unmatched. Although it is not as strong as those powerful royals, it is much stronger than the general race.

This is the essence of Ziweixing. You do n’t know if you are here. You will know how many ethnic heritage resources have been swallowed up by Ziwei ancestor.

“The Ziwei ancestor, that is the enemy inside us, whether it is human or not, but it has already moved our earth’s ancestors’ interests. We are bound to have a **** battle with the Ziwei ancestor.”

Qin Tiange looked up, staring at the stars, as if seeing the difficult rise of the earth.

The inheritance resources were all cut off by the old things of Ziwei’s ancestors, which made it difficult for the races of other ancestors to have opportunities.

If it weren’t for Qin Tiange stepping out of the earth and entering the four-dimensional world, it is still unclear, now that I have seen the powerful background of Ziwei Star, there is an immediate feeling of anger.

“Sister, the elders of the family sent a letter saying that the emperor was going to pick the concubine, let us go back and prepare.”

At this moment, an empty speech came from the pavilion not far away, which caught Qin Tiange’s attention.

He looked around and saw two beautiful and unparalleled beautiful women standing in front of the pavilion, looking at the stunning color of the purple lake.

One of the women in white, frowning slightly, said unpleasantly: “You want to be a princess so much, you go alone, I want to stay here and not go back.”

“I don’t care about family matters, but want me to run for the concubine?” The woman said, showing a slight disdain.

She didn’t say much, turned around and walked out of the pavilion, and was about to leave, but suddenly stopped and glanced over here.

Qin Tiange and her looked at each other, both eyes flashed a light, the difference in heart.

“Half-step space-time level.” Qin Tiange guessed secretly.

The woman on the opposite side, Emei's frown, left here with a question, because she couldn't see Qin Tiange's details.

"A hundredth birthday, choose a concubine?" Qin Tiange said to himself, a sneer evoked in the corner of his mouth.

He suddenly remembered how old he was now? Qin Tiange didn't remember a bit, simply didn't think much.

"Liu Luo, get ready. Let's go to Ziwei Ancestor in three years. I want to see what secrets there?" Qin Tiange said to himself.

Since everyone here said to go back, it proves that Ziwei ancestor has a channel with here.

Thinking of this, Qin Tiange made a decision to go to the Ziwei ancestor to see the people's heritage there.

He even wanted to take away the body of the Ten Jade Monument, and if possible, take away other fragments of the Imperial Seal.

"Huang, since Ziweixing's people have set foot on the Tianhe continent, we cannot fall behind here." Li Luo reminded softly.

Qin Tiange bowed his head, thought for a while, and finally made a decision to immediately build a permanent hidden channel to the earth.

"You guys talk, where is the best way for us to build the channel?" Qin Tiange asked softly.

Next, Li Luo was lost in thought, and You Ji and Fei Rou didn't speak, because they didn't understand at all, Jingshan and Hongyu didn't even speak.

The two were in a shocking stage, and it was enough to follow Qin Tiange to understand his identity.

But now I suddenly heard that there is another crape myrtle, it seems that the people are extremely powerful, and the crape myrtle seems to be extremely scary.

Another emperor, it seems that the competition between the human race and the human race will inevitably be extremely fierce, and it will even lead to a great fight.

However, both of them are extremely determined Following Qin Tiange, no matter what the future, he is the only one who will be identified as the true emperor.

After a long silence, Li Luo finally spoke, and said softly, "Huang, within the three thousand continents of Tianhe, Zizhou may be the only place where Ziwei is here."

"Well, I also think so, there is a permanent passage for Ziwei ancestor here, and in the past, Zizhou was the territory of Ziwei Star." Qin Tiange nodded slowly.

Just listen to Li Luo continued to say: "We can't build a passage here, this will attract the old things of Ziwei Zuxing."

“This group of old guys has completely become selfish. We will choose one of the three thousand continents as our frontier base.”

Listening to Li Luo’s words, Qin Tiange nodded and laughed: “In the three thousand continents, more than half are deserted and silent areas, which are regarded as restricted areas.”

“And many continents are extremely chaotic. The conquest by hundreds of people and the killing of all souls is the best place to be sharpened.” Qin Tiange said that he already had a choice.

“What is Huang’s plan?” Li Luo blinked, guessing.

Qin Tiange looked to the void and whispered, “We don’t have the huge resources of Ziweixing, so we will feed us with hundreds of flesh and blood.”

“Only in this way can we rise faster. Based on this foundation, we will be able to recover what belongs to us in the future.”

Having said that, Qin Tiange had a cold face and hummed softly, then turned around and left the Luoluo area with a few people.

He didn’t stay, let alone stay, but instead left the area of Zizhou and headed for an extremely chaotic and dangerous continent.

There, hundreds of people conquered and killed all souls. It was simply a killing place. It was a continent full of murderous things and killings.

Chapter 854 - Chaos continent, tunneling time and space

Chaos Continent is named for its chaos and chaos.

There is no order here, all nations kill together, bones spread all over the ground, wandering spirits in all directions, it is a death cemetery.

On the desolate land, the land is full of reddish-brown, dyed by the blood of thousands of peoples, exuding a strong smell, and the sky is filled with evil spirits.

boom!

In the distance, a violent explosion came, and a hill was razed to the ground on the spot, and the smoke was billowing. Vaguely, two fierce beings were fighting.

“Give up the treasure!”

With a roar, a twinkling horror slashed with a knife, and the void struck a dark crack.

He was extremely powerful and fierce, cracking open the void with a sword, cutting the earth and mountains.

Huh!

On the opposite side, a three-eyed creature had a cold face, and the third eyebrow blew a golden light, and clicked with a click.

This is the three-eyed tribe and the magic horn tribe. Both creatures are extremely scary. The powerful power of the star master has shredded the space.

Hum!

A black hole appeared behind the three-eyed creatures, while the young man from the opposite corner of the magic horns also spit out a black hole celestial body.

The two black hole celestial bodies suddenly collided together, and with a bang, the space was directly crushed, and space-time was distorted, and a space-time crack was hit.

Click! Click!

A broken voice came, and I saw a few figures walking out of the empty crack at that time. A young man, headed by it, was covered in fog and filled with chaos.

“Who?”

The youth of the three-eye tribe drank hard, and three eyes stared at the six people who came out of the cracks in time and space. It was Qin Tiange and others.

“Run to bother us, to find death?” The young heroes of the Devil Horns cried, waving the black hole celestial body to Qin Tiange without fear.

Watching a dark star pressed down, a powerful devouring force broke out and wanted to smash Qin Tiange’s six people.

“broken!”

Qin Tiange raised his hand lightly and pointed it out. There was no fireworks, but it contained some kind of rhyme.

Just hearing a click, the black hole celestial body suddenly shattered into powder and disappeared completely.

After smashing this black hole celestial body, Qin Tiange swept the two creatures here, a three-eyed tribe and a magic horn tribe.

“This is the chaos continent, a place of darkness and disorder, which exists only for killing.” Qin Tiange said to himself, ignoring the existence of the two star-level creatures at all.

Looking at Wu Shi, the young man of the three-eyed tribe stared at each other with a flash of dangerous light, but he stepped back cautiously.

“You’re looking for death?” The youth of the Devil Horns was screaming in anger, was smashed by a black hole celestial body, and was so angry that they stepped forward and waved a knife.

“Crack!” Qin Tiange spit out a word gently, a little at his fingertips, a snapping sound, and an inexplicable thin line across his body.

I saw that the magic horns strong body was stiff, and then produced a small blood stains, and finally the whole person was cut into thousands of squares neatly.

hiss!

Watching the tragic death of the Magic Horn tribe youngster, the strong-three-eye tribe took a sip of air-conditioning, terrified, and ran away.

No way, the understated one-shot spike is as simple as killing a chicken.

“Space-time class?” The three-eyed youth screamed, and ran away without looking back.

Click!

There was a crisp sound in the blink of an eye, and the three-eyed youths jumped, and saw a gap opened in the void in front of them, and a hand protruded from the inside.

“Ah,” the three-eyed youth exclaimed, instinctively trying to dodge, or even to fight back, but the other side was too fast.

The hand pinched the neck of the Sanyan tribe, dragged it into the cracks of time and space, and caught Qin Tiange’s face.

“No, don’t” The three-eyed youth yelled with wide eyes.

Qin Tiange pinched with five fingers and snorted, and the other side’s neck and the entire head burst into a mist of blood and died.

The two star-level creatures were killed lightly, and Qin Tiange took a good look around. In the fog, the red evil spirit was rolling, extremely terrible.

Chaos Island, blood red on the ground, withered bones scattered everywhere, broken weapon fragments everywhere.

“Huang, this was found from that three-eyed tribe.”

At this time, Ruby came to the front with a simple scroll and handed it to Qin Tiange, who found it on the Three Eyes.

Qin Tiange took a look and was surprised to find that it turned out to be an ancient map recording a certain area.

“This is a treasure map. It should be left by a strong man. I don’t know what is buried.” Qin Tiange said to himself.

Soon, Qin Tiange compared the route map on the scroll and found that the red dot area was not far from here.

With a little curiosity, Qin Tiange and Li Luo and others left directly and rushed towards the place on the scroll.

It didn’t take long for Qin Tiange to stop in front of a misty area.

“Weird here.” Qin Tiange felt weird when he first arrived.

The mists of the Quartet shrouded the evil spirit, and there was a terrible fierce gas in it, as if the terrible fierce creature was lying there.

Li Luo frowned slightly next to her, her eyes flickered with chaotic glaze, she saw through the fog, and saw a desolate and silent world.

“It is close to the central core of Chaos Island. There is a restricted area. Rumors are that no one can step in there and survive.” Li Luo said softly.

Qin Tiange nodded, watching the rolling mist and fierceness in front of him, his heart was being weighed.

“Forget it, we don’t have time to explore for the time being. Our main task now is to build a permanent space-time tunnel between here and the earth.” Qin Tiange thought about finally giving up the plan to enter.

At present, the most important thing is to build a channel, together with the earth dimension, to attract people on the earth to grow up here.

“In the chaotic continent, all nations kill together, darkness is disorderly, and it is extremely chaotic, which is just the right base for us.”

Qin Tiange thought about it and finally decided to build a permanent space-time tunnel here.

“Li Luo, get ready, we will build a passage near the core of the restricted area.”

“it is good!”

After making a good decision, Qin Tiange and Li Luo took You Ji, Fei Rou, Jing Shan, and Ruby with them, and began to find suitable places and spaces within the area known as the Wanling Forbidden Zone.

If you want to build a channel, there must be a place where the human race can survive here, that is, it is necessary to build a battle city.

After looking for a long time, finally, in the early morning three days later, Qin Tiange came to a valley.

This canyon is extremely large and vast, spanning thousands of kilometers, and the interior is simply another world.

After another three days, Qin Tiange carefully turned over the entire canyon and eliminated all sources of danger before starting to build a permanent space-time tunnel.

“let’s start!”

At the end of the canyon, it looks like a dark world. It was previously occupied by a group of terrible beasts, but it was unfortunately wiped out by Qin Tiange.

A little light emerged, illuminating the darkness at the end of the canyon. The two figures floated in the void, and their hands were constantly intertwined to depict something.

On the void, mysterious runes floated, imprinted on the void, and bursts of puppets came out.

That was Qin Tiange and Li Luo, and they worked together to build a permanent space-time tunnel to the earth.

If it could not be done before, but now there are only space-time levels left, the two can work together.

Moreover, Qin Tiange has obtained a large number of resources, which is just enough to build a permanent space-time tunnel.

With the release of countless materials, the runes smelted and transformed into a strange power that penetrated time and space.

Qiang Qiang Qiang Qiang

A terrible rumor came, Qin Tiange and Li Luo went together to excavate time and space.

Yes, it is to excavate space-time, and to excavate a space-time tunnel to the earth.

The two work together to cast and solidify after one inch of excavation. The continuous excavation goes deep into space and time, as if to penetrate through the space and time dimension.

This is a huge project. Without the power of time and space, it would not be possible.

Qin Tiange and Li Luo were just right, and they quickly cut through time and space barriers.

This busyness is a month later, and the entire space-time tunnel has not been excavated for a whole month.

It's hard to imagine how much energy and time would be required to build a permanent space-time tunnel?

There is even great danger, because you must discover the hidden space-time dimension when you excavate a permanent space-time tunnel, otherwise, once it is discovered by other powerful people, it will definitely be destroyed.

This is why Qin Tiange has excavated time and space in the core area of Chaos Island, the mass grave post in the Wanling Forbidden Zone.

Because here, the dimensions of time and space are chaotic and it is difficult to be found Even inexplicable magnetic fields suppress cover, which is just right.

Click!

Finally, today, a month later, Qin Tiange and Li Luo combined their forces, and finally broke through the barriers of time and space.

boom!

Suddenly, a mysterious wave came, and a space-time tunnel was cut through by Qin Tiange and Li Luosheng.

“It's finally done!”

Qin Tiange's face was a bit tired, and he spent the entire month using the power of time and space to dig up the barriers of time and space, which was finally completed.

In front of him, a dark passage floated, gathering with the darkness around him, hiding himself well.

Moreover, the magnetic field here is strange and changeable, and the space-time is chaotic. It is difficult to find a space-time tunnel hidden here.

“Finally set up a pattern to protect this place completely.”

Qin Tiange took a break, and after returning, he continued his actions. Before he finished the last step, he imprinted the pattern and hid it directly.

Next, You Ji and Fei Rou also joined in, playing one by one the ancient formations, and the ancient formations of the ancestral races.

In the place of exile, the two have mastered many ancient formations of various ethnic groups, and naturally can help.

Three days later, the entire canyon was completely lost at the end of the canyon.

The dense array of crisscross patterns formed a terrible defense, and even Qin Tiange and Li Luo directly disrupted the space and time here.

Even if it 's difficult for the space-time class to set foot here, it's a bit safe, and you're done.

“Okay, we should go back to earth.”

Qin Tiange looked at the success and showed a faint smile, nodded to Li Luo and others, and stepped into the space-time tunnel first.

In an instant, several people stepped into the tunnel and disappeared here.

Chapter 855 - Earth, leader returns

The solar system, extraterrestrial space, and horrible space fortresses flew in, forming a large array.

These space fortresses are extremely large, and there are even huge battle stars transformed from nine small moon-like satellites.

“Everyone, every level of combat readiness!”

Orders were issued, and in the Earth Human Operations Command, I looked at the virtual light curtain solemnly.

There was a space scene, but a dark space-time tunnel suddenly appeared somehow the other day.

This tunnel appeared too suddenly, causing a lot of movement in the entire human federation of the earth.

“General, the nano-robot has entered the space-time tunnel, but has suddenly lost contact with it. It is impossible to investigate the situation inside. Will it directly destroy this space-time tunnel?”

An officer came to ask, looking at his self, in a military uniform, and was the military commander of the entire Earth Human Alliance.

I stared at the virtual light curtain, the dark space-time tunnel, without saying a word, his eyes flickered constantly.

“It’s been a hundred years, master, is that you?” He murmured to himself, feeling a familiar breath in his heart.

In the space-time tunnel, there is a familiar atmosphere, and the only one familiar with himself is Qin Tiange.

Because Jiji was created by Qin Tiange himself, and even completed the transformation of her life level, she is naturally familiar with it.

“Wait first!” Heji hesitated, and finally ordered to wait.

The excitement in her heart seemed more and more unbearable, and she felt increasingly that the space-time tunnel was built by Qin Tiange.

A hundred years have passed since Qin Tiange left the earth.

In this century, many things have happened on the earth, such as the sudden riots in some restricted areas that have not been annihilated and killed.

All this caused huge damage, and finally the annihilation of these restricted areas after heavy casualties.

Finally, in a century, the human footprint of the earth has been throughout the solar system.

Even the nine stars of the solar system have been transformed into horrible war stars, which are completely human’s biggest killer.

“Drip, energy fluctuations detected, intensity, unknown!”

“There are unidentified creatures through the space-time tunnel. Please ask the major fleets to prepare for battle.”

An audible alarm came, and a wave of energy came out of the space-time tunnel, and a biological breath was coming out through the space-time tunnel.

Around the space-time tunnel, the dense space fortress began to gather terrifying energy.

The solar system, the transformation of the nine planets into a battle star, suddenly burst into a wave of energy destruction.

Even inside the interlayer of space, suddenly a trace of terrible extinction waves appeared.

Huh!

At the moment when the Earth Human Corps was ready for battle, six figures emerged in the space-time tunnel.

Headed by a young man, without hiding his true face, five people followed.

It was Qin Tiange and others who finally returned from the Chaos Continent of the Tianhe continent in the central galaxy to the solar system and the earth.

“Earth, I’m back”

A roar spread throughout the solar system, shocking countless people, looking at the source of the sound.

In space, six figures stood quietly standing in the air. Qin Tiange, headed by him, looked around suddenly. The situation was a little bit wrong.

“Well, it seems to be welcomed.”

Qin Tiange talked to himself, raised his hand, and looked at the sub-system that had been broken for a long time.

“Yanji, come and see me.” Qin Tiange said to the starry universe, and his voice spread so strangely.

Soon, a rapid lasing of a figure flew into the space, and several flashes came to Qin Tiange’s presence.

The man who came was just his own self, excited.

“Master, you’re finally back. I miss you so much.” As soon as I came up, I wanted to give a hug.

Qin Tiange’s mouth twitched, a force blocked her, and he did not give her a hug, which provoked his self-satisfied eyes.

“Are you welcome me back?” Qin Tiange asked with a smile, looking at the dense space fortresses all around.

There are three space fleets. Each fleet has eighteen space forts and tens of thousands of space carriers.

The sky battleships are densely packed, and a large space mech gathers, exuding a breath of terror.

All these are the details of the current earth. Finally, they have grown up in combination with technology. Finally, Qin Tiange was not disappointed.

“Our leader is back!”

“Welcome the leaders home!”

Suddenly, Jiji spoke a word that spread all over the place where humans in the solar system gathered and lived.

On Earth, including several other battle stars, countless humans cheered densely.

The leader, who had disappeared for a full 100 years, finally returned.

Some people also know Qin Tiange as a leader, but more people who were born in a century have no idea about this leader.

Although I have seen videos and pictures, but the real person saw it for the first time. After returning a hundred years later, Qin Tiange suddenly settled down.

The earth belongs to his foundation. As long as nothing is wrong here, everything will be fine.

“Self-confidence, while walking, introduce me to the current state of the earth.”

Qin Tiange took Li Luo and others to enter the earth with his self, and on the way, he introduced the current situation to him.

She recorded in detail all kinds of things that happened on the earth, which were all detailed and explained to Qin Tiange one by one.

“Master, ten years after you left, the leader’s wife, Chen Xi, took Chen Xun, Liu Xuan, Xun Xi, and left the solar system on the giant beast of the stars.”

Ji Ji said something softly, and looked carefully at Qin Tiange, who heard that he stunned and remained silent.

In fact, he had expected it before he left, and Chen Xi would not be honest to wait for his return.

Sure enough, returning to Earth again, Chen Xi and they have embarked on the road to the stars. In the future, when they will see each other, Qin Tiange himself cannot predict.

“Yi” Qin Tiange sighed slightly, and there was a ray of worry in her heart, as well as thoughts.

Chen Yan, Liu Yan, Long Xiaoqian, Xi Xi and others all followed Chen Xi to leave the solar system and set foot on the starry sky.

But fortunately, before leaving, Ji Ji prepared an army of thousands of artificial gods for Chen Xi, which was the most powerful group of artificial gods at that time.

“Master, the earth has completely occupied the solar system, and is currently drawing dark matter to build the entire solar system fortress.”

Speaking of it, I have released a virtual light curtain, which is the range of the entire solar system. The entire solar system is busy and fiery.

Countless engineering robots are building a huge fortress of the solar system based on the range of the solar system.

“Good!”

Qin Tiange nodded with satisfaction. The huge idea covered the entire solar system and felt the breath of countless humans.

Moreover, in the solar system, there are dozens of powerful breaths, and they are all star-level.

Yes, those breaths are all ancient human sages such as Li Bai, Sword Demon, etc., one by one, have been restored to the star level.

At the pole of time and space, Qin Tiange clearly saw that these ancient human sages who returned from the stray sky were all space-time level, and may even exceed this limit.

Perhaps, it cost them too much to reverse their return, causing Xiu to disappear as much as possible.

“Welcome the leaders home!”

The moment when I stepped on the earth, a cry shook through the clouds, and the sound of the waves billowed directly to the whole earth.

The earth now is already a behemoth, the huge sphere is just a giant, beyond the sun.

That's right, because the earth has drawn endless dark energy, its internal mass has begun to skyrocket.

Coupled with the emergence of the Pangu continent, it caused the earth to expand madly, squeezing the sun out of its original position.

Now, the largest planet in the entire solar system is Earth, and the other planet has been transformed into a war star.

As for the sun, it was locked near the sun by human beings and became an important source of energy for the earth.

Rumbling

The moment Qin Tiange returned to the earth, there was suddenly a horrible wave on the whole earth, as if the tsunami was rolling and the purple gas was millions of miles.

The purple air comes to the east, boundless, covering the entire eastern region of the earth, where Qin Tiange stepped in.

As soon as I came, I saw the sky full of purple gas, not to mention Qin Tiange, Li Luo, You Ji, Fei Rou, etc. were all holding back.

boom!

The purple air was so violent that it seemed like the ocean was rolling and submerging, and it instantly poured into Qin Tiange's body.

That was the luck of the people, the luck of the people, the majestic spirit of the people poured into Qin Tiange's body and heart.

At this moment, the fire of luck in the heart is skyrocketing, and as the air of boundlessness converges, it immediately ignites the blazing flames, and the civilized heritage of fire continues to grow and grow.

“Leader! Leader! Leader!”

For a time, all the humans in the solar system issued an exciting cry, even a roar.

This is Qin Tiange's prestige. Even if he has not returned for a century, his prestige is still beyond anyone's prestige.

Now, the 100-year-old Supreme Leader has returned, and the whole earth and human world suddenly boiled!

Chapter 856 - 18 sages sneak into spacetime

The earth, the Supreme Leader's Mansion, a group of breathy people gathered.

These people are the ancient human sages who came back at a great cost in the past. Li Bai, Jian Mo, Zhang Sanfeng and others sat quietly in the hall.

They were amazed. Looking at Qin Tiange who came back, they had already broken into the space-time level, and they were naturally surprised.

“My sages, I have no idea.”

Qin Tiange looked serious, sweeping over eighteen ancient human sages, everyone had a solemn face, and knew that there were major events.

“The emperor, please.” The old Taoist spoke, and everyone nodded.

I saw Qin Tiange groan for a while before slowly saying, “When I stepped into the starry sky, there was a little accident.”

“The access channel suddenly collapsed, causing me to stray into the place of exile, everyone, do you know what happened to the broken star?” Qin Tiange asked seriously.

As soon as this remark came out, everyone was shocked, and Li Bai and other people’s expressions changed greatly. They never thought that Qin Tiange’s journey to the broken star should have changed.

Moreover, what shocked them most was that Qin Tiange said that he had strayed into exile?

“A place of exile?”

The sword devil’s pupil shrank, and he said to himself, “Isn’t that place disappearing? Why is it still there?”

“Broken star, has something happened?”

For a time, the eighteen ancient human sages were all dignified, and all realized that the situation was a little bad.

A hundred years ago, Qin Tiange set foot on the starry sky and wanted to go to the broken star, but he did not expect a change in the middle, and he could not reach the broken star, and he went straight into the exile.

“A place of exile, can enter or leave.”

Thinking of this, everyone looked at Qin Tiange, his expression changed. Qin Tiange said that he had entered the place of exile and is now back.

Doesn’t it mean that he enters the place of exile and can come out again?

“My lord, there shouldn’t be a problem with Broken Star. There are many sages out there, and it won’t be a big problem if you figure it out.” Li Bai said softly.

The giant spirit not far away was dumbfounded, and said kindly: “Will it be a broken star that has been destroyed by the gang of hundreds of people?”

“Crap!”

Zhang Laodao scolded and said, “No one among the hundreds can destroy the broken star unless ...”

“Unless, the life court?”

The sword demon frowned, and said uncertainly, if the court of life is really this behemoth that stepped on the human race, it may really be destroyed in an instant.

Listening to their speculations and reports, Qin Tiange couldn't help frowning, because these sages didn't even have any sense.

It seems that the broken star is really out of order, leading to the destruction of the access channel and even loss of contact.

“Is it really the court of life?” Qin Tiange said to himself, eyes blinking constantly.

He had a hunch in his heart, maybe it wasn't the life court, it might be a powerful force that caused the broken star to change.

For no reason, Qin Tiange had a feeling in his heart that this was not a simple matter, and that he had something unclear in it.

“Well, you sages, was there any way to break the star again?” Qin Tiange was most concerned about this.

Although it is currently possible to shuttle galaxies by time and space, that requires an accurate positioning system, and at this time the broken star has lost its bearing.

Even Qin Tiange could not detect the location of the broken star with the help of time and space, that is, the broken star disappeared.

“Broken Star, gone!”

Soon, the ancient human sages successively induced by mysterious methods, and reached an amazing conclusion, the broken star disappeared without a trace.

Yes, this discovery is hard to believe, it is true, the broken star has disappeared.

“It seems that everything on the broken star has attracted the attention of some people. The accident that happened a century ago must be that the broken star is suffering a huge disaster.” Qin Tiange stood up and looked at the starry sky.

His eyes flickered with the light and shadow of time and space, and he kept tracing back and saw a blurry scene.

It's a pity that those clips quickly broke and disappeared, and had no useful value at all.

Seeing this, Qin Tiange couldn't help frowning and sighing: “It seems that I can only take the time to go to the star field where the broken star is located to check one or two to get the desired answer.”

“You, at present, I have constructed a permanent space-time tunnel on the Tianhe continent in the middle of the Milky Way.”

Qin Tiange then uttered the news, shocking Li Bai and others, and couldn't believe it.

Permanent space-time tunnel, that is not to say that it is built and built, it needs huge materials to support it.

However, Qin Tiange has these materials, not to mention the things obtained from Shangguan Xianer and Nalan Feiyu, but to say that the things he praised from the powerful set he killed all the way are enough to build a space-time tunnel.

Listening to Qin Tiange saying that together with Li Luo cut through time and space to build a permanent space-time tunnel, it was horrifying.

“My queen, in general, if you want to excavate a permanent space-time tunnel, thousands of space-time powerhouses must work together to achieve this.” The sword demon looked at Qin Tiange in amazement.

Because excavating the barriers of time and space requires more time and space than imagined, it is simply not something that one or two people can complete, but Qin Tiange has done it because he has gathered endless power of time and space.

After hearing this, Qin Tiange froze and laughed: “I forgot it, but this is not a problem. Now that the tunnel of time and space has been dug, everyone, I would like to invite you to sit on the chaotic continent of Tianhe mainland, where it is extremely chaotic. “

“Keep your order!”

Li Bai, Sword Demon, and others all stood up and arched their hands, expressing their unwavering responsibilities and inevitably going to sit there.

However, before going, Qin Tiange had another horrible idea, which was to make these ancient human sages step into the extremes of time and space.

“My sages, I have a plan, I don’t know if it is feasible.” Qin Tiange groaned and said his plan.

Everyone in the audience listened, shocked, and then stared a little, almost thinking that they had heard it wrong.

They heard Qin Tiange saying that they wanted to talk about their sinking into time and space, in order to restore their own cultivation, break through the current star master, and step into time and space.

This is cheating. The eighteen ancient human sages were completely sunk into the space-time dimension, which was sneaking into space-time.

“Is this feasible?” Sword Devil hesitated, uncertain.

Li Bai asked with a frown, “My lord, if you want to enter the dimension of time and space, you must open the door of time and space.”

“But the problem is that we have crossed the space-time door in the past, and that door has disappeared.”

“Yeah, in the past, anyone who stepped into the gate of time and space disappeared mysteriously and will not appear again.” Zhang Laodao also nodded and explained.

This is why they were stuck at the star level because they could not lead the space-time gate. The space-time gate of the past has disappeared.

In other words, Li Bai, the ancient human sages of the sword demons, can only stop at the star level in the future and cannot re-enter time and space.

It is for this reason that Qin Tiange came up with this method, using the gates of time and space devoured by him, to repair these former sages into the space-time dimension, so that they can get promotion.

This is equivalent to sneaking into time and space. With the help of Qin Tiange's own space-time gate, these people are sneaked into the space-time dimension.

“Anyway, let's try it over. I can open a space-time door and secretly bring you into it. It won't be recorded and counter-attacked by time and space.”

Qin Tiange spoke confidently, letting Li Bai and others face each other, and their practice was stuck at the level of time and space. Can they really use the power of others to sneak into time and space?

The so-called smuggling of time and space is the promotion to the level of time and space, but it is not recorded in time and space and there is no information about them.

“Okay, try it!”

In the end, the Eighteen Sages immediately agreed, and they are stuck here anyway. If you want to be promoted, you really can't think of any way, unless you can break through time and space.

But how much force does this take to break time and space to prove it? Don't make a joke. Throughout the ages, I have never heard of anyone who can do this.

“Li Luo, you stand by.”

Qin Tiange stood up, walked to the center of the hall, and spoke softly to Li Luo behind him.

Li Luo nodded, without saying more, watching Qin Tiange start to prepare, to talk about Li Bai they stole into the space-time dimension.

In the past, as long as you step into the space-time dimension, these ancient human sages can immediately return to the space-time level.

“The door of time and space, open!”

A low drink, accompanied by a beam of light rising from Qin Tiange's head, gradually converged into a door, which is the door of time and space.

This space-time door is exactly the space-time door swallowed by Qin Tiange, with an ancient sword stuck in it, and the seal of the emperor's seal is blocked.

In fact, it is no longer necessary to do so, but Qin Tiange let Gu Jian and Ren Huangyin draw infinite boundless time and space forces in the gate of time and space to obtain transformation.

Rumble ...

At this time, the space-time door slowly opened, revealing a chaotic space-time. The horrifying breath was revealed, making Li Bai and others dumbfounded.

“Unexpectedly, unexpectedly ...”

The sword demon was dull, looking at the space-time door, it was completely a space-time treasure. This was the entire time-space door devoured and refined.

I have to say that when we see here, everyone looks at Qin Tiange as strangely as weird.

The gates of time and space dare to swallow them. They are indeed monsters, and the Emperor is the Emperor.

“You, I have opened up one-dimensional space-time, there is no danger there, go, and restore your past practice!”

Qin Tiange suddenly screamed, struck a force of space-time dimension, rushed into the door of space-time, opened a dimension of space-time, it was a safe one-dimensional space-time.

“go!”

Seeing this, Li Bai, the sword demon, Zhang Laodao and others emptied, passed through the gate of time and space, and entered the one-dimensional world.

Smuggling, success!

Seeing this, Qin Tiange couldn't help laughing. Eighteen ancient human sages, once they had completed the restoration in the realm of falling, were eighteen space-time powerful men.

“Huang, did you expect it earlier?” Li Luo looked at Qin Tiange curiously, looking surprised.

Qin Tiange looked at the slowly closing space-time door and said with a smile: “I have seen some fragmented pictures, which are the fragments of countless possibilities in the future. In the end, I think that the chance of swallowing the space-time door is very successful. Large, it's best for me, so that's it. “

Li Luo was speechless, really speechless and a little bit crying, but surprised that Qin Tiange could capture countless possible future information?

“Li Luo, look here, I have something to leave.”

Qin Tiange said something suddenly, nodded to Li Luo, then stepped into the space and disappeared here.

Chapter 857 - Severe malnutrition, mystery

Pangu forbidden area, a figure appeared quietly, it was Qin Tiange, after leaving, returned directly to the Pangu forbidden area.

“Forbidden land in Pangu, it really is unusual.”

When he came back again, Qin Tiange's heart shook even more, because he could not understand the mystery of the Forbidden Land in Pangu according to his current space-time practice.

As a last resort, Qin Tiange could only honestly come to the Pangu monument, trigger the spirit in the monument, open the channel with blood, and enter it.

A hazy atmosphere of chaos surged and wrapped Qin Tiange's entire body, disappearing without a trace.

In the dimness, Qin Tiange's consciousness remained sober, but he heard a mysterious voice coming.

Curious about the source of the sound, he almost spit out old blood.

"Adult Pangu: adult body, blood vein concentration: 100%, warning: severe malnutrition, it is recommended to supplement nutrition immediately."

Listening to this message, Qin Tiange was dumbfounded and aggressive.

There is only one problem in his brain, is he malnourished? That's right, there are chaotic primitives, there are thousands of holes in black holes, and now every cell is morphing towards the black hole.

How horrible is one's strength? The physical body of space-time level is said to be severely malnourished?

"Severe, malnourished?" Qin Tiange said to himself, and was informed by this message.

However, before he could react, he saw the flash of chaos in front of him, and then his body was transferred into the vast sea of blood.

At this moment, Qin Tiange had no regard for why he was malnourished, because he had entered the Pangu blood pool without examination.

"swallow!"

Qin Tiange was mad, his body swelled up and turned into a million feet giant into the sea of blood.

Thousands of black holes in the body were opened in an instant, and even the whole body cells opened in an instant, turning out boundless phagocytosis.

Rumble!

The violent devouring force erupted, and the boundless sea of blood was swallowed into it, forming a vortex that surpassed a million feet, and the rumbling sound continued.

The entire Pangu blood pool was vast and immense, but at this moment there was a sharp shake.

Qin Tiange did not expect that he should be given the opportunity to enter the Pangu blood pool without being assessed, and severe malnutrition may be the reason.

As an adult Pangu, he was malnourished. This was not allowed. He was thrown directly into the Pangu blood pond to supplement his nutrition.

boom!

The boundless blood waves rolled, continually gathered from all directions, and the entire Pangu blood pool was turbulent.

A huge vortex of millions of feet, devouring boundless blood frantically, that is Pangu blood.

Qin Tiange does not know exactly what is here, but he knows that this is an opportunity, and if he misses it, it may be gone.

Before you came in, you still had to pass the assessment to get in. There was also a time limit. Now I do n't know why I can come in.

In short, Qin Tiange opened his body and continuously swallowed the boundless Pangu blood. The gray blood was full of terrible power.

The violent power poured into the body, and was continuously swallowed by black holes, swallowed by countless cells, and supplemented itself.

At this moment, Qin Tiange suddenly felt that his Pangu body really seemed to be malnourished.

Because with the absorption and swallowing the blood in the endless Pangu blood pool, a terrible ascension immediately formed.

That was a potential ascension, as if there should have been so much power, but it was empty and there was no corresponding power.

This is malnutrition, and finally figured it out, he is really a malnourished Pangu.

“Pangu with malnutrition?” Qin Tiange couldn't help crying and laughing, and finally converged and continued to devour.

Regardless of him, anyway, now he has the opportunity to supplement his nutrition, and he does not know what the Pangu tribe is.

Bang bang

In Pangu's blood pool, the boundless blood waves set off, the sea of blood rolling against the sky, and constantly pouring into the whirlpool.

Qin Tiange's consciousness suddenly became a bit hazy, immersed in a strange state unconsciously.

He seems to have transformed into an adult Pangu, and seems to have returned to the chaotic era of reckless disorder, seeing countless Pangu people.

Yes, he saw such a strange corner, some fragmented memories from the blood, the Pangu tribe.

“Pangu!”

A loud roar filled the ground, shaking the earth, breaking through the chaotic and chaotic world.

There, full of chaos, darkness, and blood, the Pangu tribe was born from such a turbulent era.

Unfortunately, these clips are fragmentary and even short-lived. Qin Tiange woke up with some regrets.

He felt that if he could be more immersed in these ancient chaos era fragments, perhaps he could find many secrets buried in the past.

During this process, horrible changes took place in Qin Tiange's body, boundless blood poured in, and violent energy filled every cell in the whole body.

Snapped!

A cell exploded, and then turned into a dark vortex, forming a black hole, which is a black hole in space-time singularity.

With the appearance of one cell black hole, other cells immediately exploded madly, and endless violent energy poured in, filled the cells, and eventually collapsed into cell black holes.

At this moment, Qin Tiange's body was like a horrible huge black hole mechanism, and dense black holes kept emerging.

Hundreds of cells collapsed into black holes, even faster and faster, thousands, tens of thousands, hundreds of thousands of cells collapsed into black holes.

The terrible changes are continuing. In the boundless Pangu blood pool, that violent energy is constantly flowing, and the speed of devouring is getting more and more terrifying.

Tens of millions of cells collapsed, hundreds of millions of cells turned into black holes, and the speed was still skyrocketing. The entire body seemed to have endless power, shattering the universe and breaking the chaos and obscurity.

Qin Tiange was trapped in the wonderful ancient scrolls, and he had no idea of his physical changes and how long he had passed when he woke up quietly.

“such a pity”

Qin Tiange sighed, with some regrets, because he couldn't continue to immerse himself in the memory fragment of the ancient and chaotic era of chaos.

If you can continue to be immersed in, maybe there is an unexpected receipt, it is a pity.

He looked around and found that the vast and immense Pangu Blood Pond suddenly became an extremely empty world with a certain sorrow in his heart.

Around, Pangu Blood Pool was still thirsty.

Yes, the Pangu blood pool was completely depleted, and a drop of blood did not exist, and he was swallowed up in the process.

Qin Tiange's mind sank into his body and saw a terrifying scene. Inside the body, dense cells became black holes.

It was a real black hole. All the cells became black holes, and the scene was extremely scary.

All cells have turned into black holes. What a horror scene is absolutely shocking and beyond imagination.

Qin Tiange is now a downright monster.

“Well?” Suddenly, Qin Tiange felt something wrong, and always felt something was watching himself.

He glanced faintly, constantly glancing around, seeing through the scene here, and finally saw the overall mystery of Pangu Forbidden City for the first time.

“That is?”

Qin Tiange’s pupils shrank and he caught a mysterious wave in an instant, which was a wave of ideas.

But just when he wanted to peep at one or two, that idea disappeared again, making him frown, and constantly thinking about that idea.

“Weird things” Qin Tiange said to himself, constantly glanced around, but unfortunately never found out.

Then he gave up and began to check his current physical condition, because he felt that his physical body was now too scary.

How many cells are there in the human body, and there are 60 trillion cells? If these cells have become black holes, what would be the situation?

Chapter 858 - Sixty trillion black holes, amazing secrets

Qin Tiange sinks into his body, looks at the current changes in his body, and is stunned by his current situation.

How many cells are there in the entire body? With a total of 60 trillion cells, what if they turned into terrible black holes?

That is a total of 60 trillion black holes. What is the situation at the same time? Qin Tiange himself was stunned by this sight, and did not expect that every cell in his body would collapse into a black hole.

Yes, in his body, every cell becomes a cell with the same space-time singularity, which can connect the space-time dimension.

In other words, at this moment Qin Tiange, all over him, is a huge black hole composed of 60 trillion black hole cells. He is constantly swallowing the power of time and space to supplement himself and strengthen himself.

He could clearly feel that he was getting stronger all the time. Although it was slow, he was really arrogant.

The power of one-dimensional space-time emerges frantically from the dense 60 trillion cell black holes, blends into the body, and trains to build a stronger body.

Perfect, overbearing, and horrible!

“Did you complete the collapse of the whole body’s cells and evolve the black hole cells?” Qin Tiange looked stunned, some could not believe it.

Because according to his expectations, it would take at least thousands of years to complete the collapse of cells in the body into black holes.

The energy needed for 60 trillion cells is too huge, it is so huge that it is impossible to imagine, and this great leap was completed without thinking about it now.

And just brain cells, there are tens of billions of cells, turned into black holes, forming singularities in space and time, densely connected to the heart of space and time.

Seeing this, Qin Tiange suddenly felt that the body's metamorphosis this time was extremely horrible. There was a tremendous horrible power hidden in his body, as if a fist can now blast the universe.

Of course, that's an illusion, but it's absolutely terrifying. Qin Tiange believes that he can easily break a piece of galaxy with one finger.

One punch can even knock out a small and medium-sized galaxy. Although I haven't tried it, this feeling can't be wrong.

boom!

There was a slight movement of the huge body, and there was a sudden turbulence from the void, and it broke apart.

Qin Tiange couldn't help but excite an excitement before he could not afford the space.

"Pangu Blood Pond is thirsty, destroys itself in the forbidden area, and starts the countdown"

While Qin Tiange was immersed in the joy of his physical ascension and transformation, a mysterious voice suddenly came and startled him.

At this instant, Qin Tiange's eyes burst into a burning light and once again captured the source of the sound, which turned out to be a mysterious and ancient idea.

"Wait, it just said, Pangu forbids self-destruction?" Qin Tiange recalled the message and was shocked.

Pangu self-destruct? Then he understood that the original Pangu blood pond was thirsty, and there was no need for this forbidden area to exist.

Qin Tiange looked surprised, guessing: "Can it be done, this is just a base for the Pangu to cultivate their people?"

boom!

A terrible shock came, awakened Qin Tiange, looked up, and the entire Pangu forbidden land fell into self-destruction and collapse, completely disappearing into the chaos of violent chaos.

Qin Tiange didn't move. He looked at all this with a serious look, and couldn't stop it. Pangu forbidden self-destruction, but that power could not cause him any harm.

"Huh? That's it." Qin Tiange suddenly squinted his eyes, and at the moment when Pangu forbidden self-destructed, he hadn't captured the mysterious idea once.

Qin Tiange directly and simply stepped out, a loud noise came, and the surrounding void continued to collapse and shatter.

That rude physical body is like a dying machine, and the space and time where it has passed has collapsed, and the physical body is rude to the extreme.

He came to a gray void, his eyes faint, staring at the chaos in front of him, hiding a mysterious idea.

That idea fluctuated slightly, as if there was a gaze, looking at Qin Tiange through the fog of chaos, and the two looked at each other quietly.

Qin Tiange was shocked. Inside Pangu's forbidden area, there was a secret hidden. There was a mysterious idea here.

What shocked him most was that he couldn't see through the other party or even capture the other party's history.

Moreover, I don't know what the idea is, which gives Qin Tiange a creepy feeling, which is very scary.

"Who are you?" Qin Tiange asked cautiously, his eyes burning, staring at the mysterious idea.

It's a pity that the other party didn't answer, and there wasn't even a fluctuation, as if it was just a mutilated idea.

But Qin Tiange was certain that the idea was conscious and he was watching him as if with a touch of curiosity and surprise.

"Don't say, then swallow you." Qin Tiange looked fiercely, and went straight to break the fog of chaos.

Five fingers covered the sky, rumblingly grabbed it up, tyrannical forces suppressed time and space, and caught that mysterious idea.

"Swallow!" Qin Tiange drank coldly and was about to start swallowing, but the mysterious thought suddenly spread out.

Snapped!

Suddenly a crisp sound, the mysterious idea was broken, suddenly disappeared, completely disappeared, and disappeared strangely under the suppression of Qin Tiange's palm.

Seeing this, Qin Tiange's face changed greatly, his heart was dignified, his arrogant will and strength swallowed up that chaotic area.

Finally, the slightest wave of broken thoughts was really captured by him and swallowed directly.

A little bit of fragmented information appeared in the heart of the sea, and the true spirit kept tracing the information of those fragments, but it was too broken.

In the end, those scattered fragments disappeared, leaving Qin Tiange dignified, unable to devour, even seeing only a little sporadic information.

The real spirit of the human book is constantly shaking, releasing a mysterious power of the true spirit, constantly tracing back, wanting to repair these pictures.

Soon, Qin Tiange saw a vague scene, but before he could see clearly, he was destroyed by an invisible force and completely lost his sense.

“His horror.” Qin Tiange saw a vague corner, and suddenly took a breath.

The spirit of his primordial spirit overflowed with a little cold sweat, thinking of the blurry scene that he just saw, he couldn't help crying.

He vaguely knew the secrets of the Pangu clan, which was a bit horrible, but he didn't dare to continue thinking, but instead blocked the consciousness of the sea, and even wiped out the breath just with the true spirit.

“I am not good enough. Once forced to peep, it will inevitably lead to death crisis.” Qin Tiange reminded himself cautiously.

The blurry scene in the corner just now, if he forcibly peeped, he might be directly obliterated by some terrible force.

This is a terrible thing, and that mysterious idea, what exactly is it, has become a mystery.

What horrible secrets are hidden behind the Pangu clan. Qin Tiange cannot learn this because there is a mighty block behind him, and even forced peeping will be erased directly.

That kind of heart-beating feeling can't be wrong, Qin Tiange had a fatal palpitation in the moment.

At his level, the more he finds himself small, the space-time level is not strong enough, otherwise he will not be afraid of that power.

“My road is still a long way.” Qin Tiange said to himself, looking at the Pangu forbidden ground that was constantly collapsed.

Everything and everything disappeared. The entire Pangu forbidden ground collapsed after the Pangu Blood Pond disappeared without a trace.

The mysterious voice in Pangu's forbidden area must be that mysterious idea, its origin is unknown, which made Qin Tiange very concerned.

What kind of terrible secret is hidden in the Pangu tribe, Qin Tiange felt a heavy shadow in his heart.

He got the pangu blood sloppily this point always felt unreliable, as if he was made.

Moreover, looking at the scene of the Pangu clan's forbidden land, how can it look like an artificial person? Is it possible that the Pangu clan was artificially created?

Qin Tiange shook his head, cut off these terrible thoughts, no longer thinking about it, calming his inner writhing and calming down.

Bang!

Pangu forbidden area completely collapsed, endless destruction storm swept, tumultuous, distorted time and space, but could not hurt Qin Tiange.

His physical body was extremely horrible. The energy of Pangu's self-destruction was not able to hurt him, but was absorbed and devoured.

This is Qin Tiange's strongest physical form at the moment. Pangu's blood is malnourished and directly supplements all nutrition.

Throughout the Pangu blood pool, endless energy was swallowed up, opening up 60 trillion cells around the body and turning it into a black hole.

Back this time, Qin Tiange has obtained tremendous benefits and his strength has been promoted to the extreme.

With 60 trillion cell black holes, and even connecting endless time and space, the power of swallowing endless time and space is flowing all the time, which is extremely horrifying.

Once he released his full strength, Qin Tiange said that he didn't know how powerful his current strength was.

"Forget it, go back first, the future strength is here, all secrets are clouds." Qin Tiange said to himself, and finally glanced at the boiling storm of destruction.

He opened his mouth and swallowed, and swallowed the energy storm that Pangu forbidden.

"Yi" Qin Tiange nodded slightly, then turned contentedly, squeezed the space in one step, and left here.

After he left, this forbidden space originally belonging to the Pangu tribe completely turned into a singularity and disappeared.

Chapter 859 - Locked up brutal

Pangu Tianzhu, a gray mist filled the boiling water, and then came out a young figure from the inside.

Qin Tiange stepped out, turned to look at the rolling chaos, and quickly shrank into a singularity and disappeared.

The Pangu forbidden land completely disappeared. After that, there will no longer exist the Pangu forbidden land, where it no longer exists.

"Pangu tribe" Qin Tiange muttered to himself, his eyes flickered constantly, and his heart was extremely unsettled.

Everything before was still vivid in my eyes, and the blurry corner I saw hidden the secret of the world.

A glance at the Pangu continent is vast and boundless, and there are countless ferocious prehistoric species.

Unfortunately, these prehistoric species have long been reduced to human meat, and dinosaurs and various ancient beasts have become human meat sources.

The entire Pangu continent can be regarded as a human meat breeding farm.

He had this intention in the past, but did not expect to return to the earth again, this place has become a human farm.

Those fierce ancient creatures, prehistoric dinosaurs, etc. have become human meat, and even humans have started artificial breeding of dinosaurs.

There are dozens of huge cities all over the Pangu continent just to feed the paleontology here.

“Oh?” Suddenly, Qin Tiange’s huge thoughts enveloped the entire earth, and he found that some areas contained huge crises.

Those ancient battlefield fragments that originally fell from outer space and time were transformed into restricted areas, and some creatures in the restricted areas were destroyed by Qin Tiange before recovery.

And there are some creatures in the restricted area that gradually recover over time. Even with the current human power, they can’t destroy them.

Now, there are still two areas on the earth that have not been wiped out, but have been sealed.

“Ferocious, not annihilated yet?” Qin Tiange said to himself, looking at Africa.

Before leaving the earth in the past, Qin Tiange suppressed the area. At that time, he was not very strong, but the brutal force sealed in the restricted area did not respond.

After leaving, the restricted area rushed out several times, but all were extinguished by human forces, and finally rushed back.

Every time, it caused great losses, which Qin Tiange did not expect. In the end, the ancient human sages sealed the area together.

“Do you let others sleep by the couch?”

Qin Tiange said to himself, stepped across the space and came to the African continent plate, looking down at an endless abyss below.

This is the Prison of the Prisoner. It used to be the seal of the ancient battlefield that fell from space and time, and sealed the ferocious family.

Roar

There was a horrible roar from under the abyss, looming and fierce, it was a ferocious roar.

Looking at the dense array of lines under the abyss, Qin Tiange knew that this was the seal of the ancient sages.

“Human race, kill kill!”

“Kill all Terrans!”

A loud roar came up, and through the seal, a terrifying roar continued to sound.

Those fierce are sealed, can not be broken, naturally resentment, once it comes out will inevitably set off a **** storm.

It is a pity that Qin Tiange is back. Naturally, these brutalities will not be allowed to continue to threaten human beings.

“Still thinking about exterminating the human race, it seems that you, those brutal ones, really can’t be kept.” Qin Tiange said to himself, but his voice came softly into the abyss.

Suddenly, there was a dead silence in the abyss. Those ferocious roars disappeared and went out, as if they were all in silence.

Qin Tiange’s voice revealed a kind of forest cold, so that the dense shadow under the abyss calmed down.

“The Emperor?”

For a long time, an angry roar came from under the abyss, and the prestige billowed, revealing the seal.

Immediately afterwards, an awe-inspiring majesty erupted under the abyss, and a terrible murderer struck through the air, breaking through the dense seal.

boom!

With an explosion, the ban was broken, and the brutality under the abyss was directly broken out with brutal force.

“Half-step time and space, unfortunately, you can only stop at this level, because in the past you set foot in time and space, now it is impossible to step into the time and space pole.” Qin Tiange said to himself, watching the rumbling below Fierce.

This breath is very strong, half-step time and space level, but unfortunately the other party can only stop here.

Because there is no spatio-temporal door, unless it can blast the spatio-temporal barrier with brute force, it can directly enter the dimension of chaotic space-time.

It’s a pity that such power is difficult to achieve. Therefore, although these gangs of brutality are overbearing, it is difficult to break through time and space.

“Roar!”

“Men, you finally came to die.”

As soon as a roar came, I saw black gas billowing, and a rumbling sound of a terrible creature rising into the air and floating in front of it.

It was a terrible figure, a human form, which looked indistinguishable from a human being.

The only difference is that the blood flowing inside them is fierce, so it is killing and full of killing power.

“Kill me?” Qin Tiange sneered, looking at the brutality in front of him, as if looking at this dead object.

After thinking about it, Qin Tiange said, “Give you a chance, surrender me, save your life, and even give you a chance to break through time and space.”

“Look for death!” The ferocious roar, hitting with a fist, the space began to collapse and collapse.

The Xeon punched a faint ripple in space and time, as if it could shake the barriers of space and time. It was extremely scary.

Qin Tiange was surprised. Seeing that this ferocious man could shake time and space with force, it seemed that it was really possible to use time to break the barriers of time and space.

Unfortunately, he didn't have the opportunity.

boom!

A finger point out, and a thud, blood and water spilled, and the minced meat continued to fall and scattered.

The ferocious choked, stunned and kept hammering, staring wide open at his right arm, the whole smashed into pieces and scattered.

Blood is constantly falling, fierce, and the power of killing is permeated. It is indeed the brutality known as the fierce family.

“You, what are you?” The fierce horror, stepped back slightly, and felt fear in his heart.

With a half-step space-time strike, Qin Tiange's arm suddenly exploded his arm. How terrible was that?

Qin Tiange downplayed it, even using only a little power. For his current level, the ants are below the level of time and space.

“Since you don't want to surrender, let's die.” Qin Tiange said blandly, with five fingers open and false.

“Ah no, forgiveness” The fierce horror, the blood suddenly stopped all over his body, and then a crunching sound came from the flesh.

Hearing only a “bang”, this resolute brutality was directly exploded by Qin Tiange.

The huge body was directly smashed, turned into a piece of minced meat and scattered, and was ingested by Qin Tiange and collected as much as possible.

“Roar”

“Herald, how dare you?”

Under the abyss, a roaring roar came, shaking the earth, a terrible fierce horror emptied, and rushed up from the abyss.

Watching these brutal and fearless kills come up, Qin Tiange stepped into the abyss without any nonsense, and waited for these brutalities to appear and killed them directly.

boom!

A loud noise, accompanied by a wave of blood rushing into the night, tens of thousands of feet tall before falling down.

Under the abyss, a fierce barbarian kept exploding. As Qin Tiange walked step by step, no one was able to stop wherever he went.

Bang bang bang

Pointing to kill, the fist is brutal, the palm is cracking, Qin Tiange moves with destruction.

If he hadn't suppressed most of the power, it might be just his real movement, and the entire earth might have collapsed.

The 60 trillion black holes in the flesh were simply shocking and shocking, not to mention the earth, the solar system was blown up.

Not to mention that his body is full of endless space-time power, how terrible?

"Roar!"

The prisoner's depths, the roar continued to come, but with a trace of fear and panic, the scream of roar shocked the entire earth.

Regardless of humans or other creatures, they all looked here, seeing the prisoner god's abyss, and constantly flew out a huge maggot's head.

It was a brutal brain, one after another flying up high, hanging there, and the fierce blood kept falling, shocking the world.

"King of people, you slaughter my brutal race like this, do you think the space-time class is invincible?"

At the bottom of the abyss, such a terrifying voice came, and the terrible breath exceeded imagination.

Qin Tiange shattered the last brutal head and looked for it. His eyes were cold and he saw the scene under the abyss.

There A horrible image of the evil spirit stood quietly at the bottom of the abyss, surrounded by dense thick chains, locking his fierce body.

"The former strong, brutal, how much strength do you have?"

Qin Tiange walked towards the other side step by step without expression, ignoring the surging ferocity and came to the front.

The two looked at each other calmly, sparks of sparks splattered, and the void tearing their eyes apart.

"You are strong, I admit it!"

For a long time, the fierce man spoke slowly, and said this sentence blandly, and even admitted it.

"However, you think about it. Killing me will inevitably lead to a war in space and time. You have to think clearly." The fierce man sneered suddenly, full of threats.

After hearing this threat, Qin Tiange sneered: “What is the time and space war with me? If you are an enemy, kill it.”

As soon as the “you” voice fell, Qin Tiange slashed it with a palm of his hand, so powerful that the venomous man was so shocked that he swallowed it all back.

Chapter 860 - Break the time and space, and hit the enemy

With a click, fierce blood spurted, and thousands of empties continued to slide down, revealing fierce vigor.

After all, that fierce brutality was stabbed by Qin Tiange with one palm, and he ignored the threat from the other.

Hum!

At the moment when the ferocious died, a wave of time and space suddenly appeared on his headless body.

It was a tyrannical force of the former time and space level that survived and formed a strange sacrifice after death.

“Time and space sacrifices?” Qin Tiange looked at these strange obituaries, constantly interweaving, and turned into a kind of sacrifices.

At the time and space level, if the strong man directly launches a certain secret method before death, it can trigger the time and space ritual.

This is a terrible and secretive technique that can drag the formulated people into the battlefield of time and space.

That is the battlefield of the time and space powerhouses, where all are battlefields and killing places of time and space powerhouses.

That’s why it’s called the space-time battlefield!

The former ferocious threat before death, once Qin Tiange’s killing him will inevitably lead to space-time war, that is what he meant.

Click! Click!

The crackling sound kept coming, and the sacred sky and space rituals shattered the barriers of time and space, which directly caused a terrible suction.

This suction is terrible. The suction from the space-time battlefield can drag a strong person in space-time into it.

“Want to drag me into the battlefield of chaos in time and space?” Qin Tiange snorted, staring blankly at the crack in time and space.

The endless suction from there was acting on him, trying to drag him into the battlefield of time and space.

Unfortunately, no matter how that suction erupted, Qin Tiange could not be dragged into the cracks of time and space.

Orders are tangled up, trying to pull him into the space-time plane and enter the battlefield belonging to the space-time class.

However, Qin Tiange's body is not moving like a mountain, like a world that cannot be shaken, so standing there can't be shaken by the force of time and space.

"How can you help me?" Qin Tiange spit gently, his eyes emitting two beams of horror.

With a bang, the order of time and space collapsed, turning into countless fragments and being absorbed by Qin Tiange's body, leaving nothing behind.

Then, there was a breath in the crack of time and space, and a word came out.

"Disrupting time and space, with heavy guilt, immediately enter the battlefield of time and space, otherwise you will be regarded as resisting the law of time and space."

The cold and indifferent voice came from the depths of endless time and space. It was a quake, but it was unfortunately stopped by Qin Tiange as much as possible, preventing it from emitting here.

Qin Tiange's black hair fluttered like a black cloth constantly flying, emitting a horrible air of vitality.

"The law of time and space?" He said word by word, then sneered, and said, "Do you have the ability to catch me?"

"presumptuous!"

A loud bang came, and the sound of that anger turned into a horrific killing, which was suppressed directly.

In the depths of endless time and space, there is a terrible dimensional force that surpasses the one-dimensional force and turns out to be a two-dimensional force.

It was like a mirror-like force, rumbling across, everything was absorbed into it.

That is, some worlds and planets have been sealed into a two-dimensional interface at once, and turned into a kind of picture of a mirror and water moon inside.

"Two-dimensional power, do you want to kill me?" Qin Tiange drank violently, all over him.

Apart from that, Qin Tiange waved his arm, and his fist slammed up.

哐 Dang!

Just listening to a loud noise, the two-dimensional world mirror surface shattered on the spot and turned into countless fragments and dissipated in the depths of time and space.

One punch blasted the opponent's time and space dimension, Qin Tiange completely relied on the power of the physical body to blast the power of time and space dimension.

That fierce power, beyond imagination, can completely shake the barriers of time and space and even break time and space.

“Come without indecent assault, you can also try me!”

As soon as Qin Tiange’s words came to an end, the whole person burst into a terrifying atmosphere, his fists condensed a violent force, and the power of 60 trillion black holes broke out into a deep space.

The rumbling noises kept coming, the space-time collapsed, and various space-time faults appeared.

The illusive fist shadow continued to push up, unstoppable, and time and space collapsed layer by layer.

boom!

Only a dull sound came from the depths of space and time, accompanied by a wailing roar, which seemed particularly miserable.

The strong man who had just shot, was struck by Qin Tiange’s fist in an endless time and space.

“Dare to disobey the laws of time and space, and you should be guilty of sin!”

The fierce roar came, full of anger, and was even hurt by being punched by a fist across endless time and space.

However, in response to him was a more fierce punch, Qin Tiange suddenly took a step, and his fist banged deep into space and time.

There was a crackling sound, and after a scream, the space and time were completely calm.

Everything disappeared, and the spatiotemporal faults that were broken up layer by layer gradually recovered.

That huge cave, which stretched endlessly, was penetrated violently by Qin Tiange’s punch.

“Go!” Qin Tiange sang, and there were no more sounds or waves from there.

Finally, the air fault was completely repaired at that time, and the broken holes and cracks disappeared in a blink of an eye.

Deep in the space-time battlefield, terror waves came, and many space-time strong were shocked.

Because some people even contended the law of time and space, and directly injured the law enforcement officer across endless time and space.

“Bad and scared!” Qin Tiange snorted, looking at the cracks in time and space with a trace of dissatisfaction.

He just fought against a strong man across endless time and space. This is his first victory.

Previously, the moment Qin Tiange was taken away by his daughter, Ziyi, was angry.

He doesn’t like the space-time level, but now he will be ruthlessly bombarded by those who dare to come out.

“The battlefield of time and space, sooner or later, it will be leveled there.” Qin Tiange said to himself, looking at the time and space behind him.

There are eighteen horrible figures hidden there, and it is the eighteen ancient human sages who sneaked into space and time.

They are madly drawing on the power of the space-time dimension, recovering the practice that was cut off in the past, and are stepping into the space-time pole.

With this power, Qin Tiange believes that there must be a guardian force in the future space-time battlefield.

“When my people build up enough power, whoever blocks the people, no matter who they are, will fall under the iron hoof of the people.”

Qin Tiange watched the transformation of the eighteen sages silently, and began to plan for it, and the future road has begun.

It takes time to grow up, human race, and now there is no shortage of time. The only thing missing is resources, endless resources.

Qin Tiange looked up and looked at the starry sky, where there are endless resources waiting for the human race to obtain.

Where it comes from, it is naturally snatched from the hands of the Hundreds and Ten Thousands. For the sake of the human race, it is necessary to bury the Hundreds.

Those who stepped on the human corpses in the past must be liquidated one by one, and the human race must step on their corpses to rise again.

The rise and fall of all the races of the universe, and all of them stepped on the corpses of his race, without exception.

“Wong, where did that power come from?”

At this time, in the depths of time and space, Li Luo, who was protecting the law of the eighteen sages, appeared quietly, and asked with a serious expression.

Just after the fierce battle, Li Luo in the deep space and time naturally sensed it, which is still the atmosphere of Qin Tiange, and naturally attaches importance to it.

Watching Li Luo appear, Qin Tiange laughed: “It’s okay, it’s a strong man from the space-time battlefield. He wants to drag me into the time-space battlefield.”

“Time and space battlefield?” Li Luo frowned, looking at the endless space and time, lost his thoughts for a while.

After a long time, she nodded slowly, and said, “Huang, you still have less shot at present. If there is anything, I can do it for my emperor.”

Li Luo is worried that if a stronger presence is attracted by Qin Tiange, it is not good.

In this regard, Qin Tiange did not care, but still nodded.

“I will pay attention to myself. It will take some time for the eighteen sages to recover. After all, the former Japanese source was beheaded, and that will take time to complete.” Qin Tiange said softly.

Li Luo bowed his head turned back to the dimension of time and space to protect the law of the eighteen human race sages, waiting for their return.

Once the repair of the Eighteen Sages is completed and the time and space level is restored, it is an extremely powerful force.

Eighteen space-time levels are enough for Qin Tiange to plan a big plan.

“Wait a second, you can’t be in a hurry.” Qin Tiange said to himself, glanced at the dimension of time and space, and turned away from here.

As for the brutality, he was killed by him long ago, and this restricted area has never existed on earth.

Qin Tiange stepped out of the prisoner’s abyss, stood in the void, and looked at the direction of the boundless sea, where there was also a restricted area.

“The last exclusion zone is resolved, and the planet is completely threat-free.”

Qin Tiange said to himself, with a few horrific killings in his eyes, the last restricted area should be resolved.

With that said, he stepped forward and came to the top of the Wuhai Sea, where a restricted area remained unresolved.
