

Dark Ages 861

Chapter 861 - Earth, the forbidden area of the universe

Rumbling

The tsunami shook the sky, and the waves crashed hundreds of meters high, making it look like a terrible Jedi.

At sea, a figure stood in the sky, overlooking an ocean below, an endless storm swept through, and a huge vortex made a rumbling sound.

This is the last forbidden area of the earth. All humans who entered did not appear again and died in it.

“It turned out that hundreds of people’s relics are hiding here, and they want to build a wormhole in time and space?” Qin Tiange said to himself, his face cold.

He saw through the restricted area at a glance, and there were countless powerful beings gathered in it, and the rest of the hundreds of people were here.

Moreover, there are still some debris falling from the space-time battlefield, where many terrible things are suppressed.

These have been released by the hundreds of ethnic groups, and they are constructing a wormhole in space and time. They want to attract an army of hundreds of ethnic groups.

If they were allowed to go on like this, it really wouldn’t be called a huge threat to the earth.

However, since Qin Tiange is back, he will definitely not sit idly by and let this restricted area exist, that is a potential threat.

boom!

Stepping into the vortex, Qin Tiange passed through countless terrible formations and reached the bottom of the sea.

Hidden in this sea of death are hundreds of human beings, one by one.

There are even a lot of star masters, all of whom grew up on Earth, but have to cringe here.

Even if the people of the earth have lost their resources, they can still rise rapidly, making these hundreds of creatures have to shrink.

“When can we kill them, blood-washed the human race?”

“Human races are growing too fast.”

“I don’t want to wait for a moment.”

In the core of the forbidden zone, in a hall, a group of star-level powerhouses gathered to discuss when to kill.

Some of these stars are terrible creatures that have been released, and some have grown up.

It is a pity that none of them can set foot in time and space. Even the dozen or so horrified creatures released were strong in the past, and now they cannot continue to set foot in time and space.

Once you fall, you cannot find the door of time and space, and you cannot step into the dimension of time and space. There, it is the taboo of the fallen soul.

It is as if the hope of the promotion of the ancient souls was deliberately cut off. Unless those ancient creature realms were not regressed, once they retreated below the level of space-time, they would be blocked by the power of this era.

The era changes, a new generation replaces the old, this is the law of the whole universe, and each era has its own unique power system.

Ancient era creatures must be familiar, and even adapt to the power of this era to survive.

Or some ancient creatures, awakened, and want to restore the glory of the past, all must obtain the kind of recognition of this era.

As for why, no one knows!

“Don’t worry, the Terrans can’t get in. This is the Terran’s restricted area. Come and die one by one.”

Some Xeon creatures said with a sneer, they didn’t care at all, as if they were confident that this is the restricted area of the human race.

Before one came to die one, but now Qin Tiange is here, will he really die here?

“Come one dead?”

A murmur of words spread through the hall, shocking the twenty star powerhouses present.

“Who?”

Twenty star-level powerhouses stood up in unison, bursting into a terrifying atmosphere, sweeping the entire hall.

Unfortunately, no abnormalities were found at all, not even a shadow, but the voice just existed.

“You guys, looking for me?”

The words came again, and everyone turned their heads in search of prestige, and saw one step out of the space and stand in the center of the hall.

Seeing people, twenty star-level creatures were horrified and looked at him, couldn’t believe their eyes.

They didn’t feel anyone, but they saw him. What’s going on?

“Time, space-time class?” Some Xeon Shengling voice trembled, looking at the person standing in the hall.

He, exactly Qin Tiange, appeared directly here, his eyes glanced across the twenty star-level creatures present in the scene.

More than a dozen powerful creatures that were suppressed in the past have not died yet, but it is really difficult to restore them.

As for the other ones, the hundreds of creatures that invaded the earth in the past are some of the best, and they have grown to the star level.

This step is very strong, but unfortunately, after all, people should not come to hunt for the earth, this has become a deadly enemy.

“Human, Emperor?”

Finally, someone recognized Qin Tiange’s identity, and his face was horrified, and his instinct took a step back.

Hundred years later, the emperor Qin Tiange’s fierce power remains, and the weak emperor of the past has now grown to a point where they cannot detect it.

“Here is the forbidden area of the human race?” Qin Tiange said to himself, without having to deliberately feel how many human remains are buried here.

A trace of unwilling resentment filled the forbidden zone, telling the sadness of the people.

“Go on, kill him!”

With a roar, the twenty star powerhouses started to work together, almost without hesitation.

These star masters broke out without any reservations, and hit their respective strongest blows to Qin Tiange.

The rumble of energy broke out, and the black stars smashed down. The energy that seemed to destroy the sky was impossible to stop.

However, this energy was gradually extinguished by Qin Tiange, as if disintegrated and melted by some force.

“People, are they space-time?”

Some creatures were frightened, watching Qin Tiange unscathed, all attacks became invalid, and he couldn’t touch Qin Tiange’s clothes and disappeared.

In Qin Tiange’s body surface, these energies are directly decomposed without hiding a trace of terrible space-time power.

Not even his deliberate release, but an instinctual self-protection mechanism. How powerful is the self-protection of 60 trillion black holes?

“The era of the hundred races has passed. In the future, the earth will become the forbidden ground of the hundreds of stars and the universe, come one, die one, and die one pair.”

Qin Tiange uttered this sentence softly, and the sound of crickets was permeated, revealing the killing of the sky, and it was frightening.

This is a bit big, but Qin Tiange has this confidence, which comes from his strength and self-confidence.

Originating from the growth of the human race, in the future, the earth is a forbidden area for hundreds and even thousands of people, not a forbidden area for humans.

“Arrogant, thought the space-time class would be great?” Some Xeon creatures looked at Qin Tiange with a sneer.

Space-time level, in the past they all exceeded this level, but unfortunately fell down and could not continue to set foot on it.

Looking at these fierce creatures, Qin Tiange showed no mercy, not to mention nonsense.

Click!

One finger gently tapped out, and the entire hall suddenly became weird, and everyone, including the material here, was instantly locked into the space-time fault.

Those star-class powerhouses show fear and can move their minds, but their bodies cannot move, and even energy cannot move.

“broken!”

Qin Tiange spit out a word lightly, with five fingers spread out and a clenched grip, the entire hall, including twenty star-level powerful men, turned into powder particles and disappeared, completely dead.

The understatement of killing the twenty star masters simply wipes them out without any effort.

Qin Tiange stood in the void, looking at the disappearing hall, all star masters were completely wiped out.

“Here, there is no need for existence.” Qin Tiange said to himself, protruded a hand, and the sound of rumble spread throughout the restricted area.

Suddenly, hundreds of ethnic people looked in horror, and saw that the entire restricted area was inexplicably compressed by a force, and then turned into a singularity.

boom!

A weird singularity burst directly into a firework, completely disappearing.

The entire forbidden zone was gone, and it was wiped out by Qin Tiange directly, and all the 100 races were destroyed.

The empty nothingness was flooded by countless seawater and filled here, and it has become a normal sea area ever since.

Qin Tiange stepped out of the ocean floor and stood on the void Looking down at the vortex that is gradually extinguishing below, there is no such restricted area.

He breathed out slowly, looking at the starry sky, saying one word at a time: “From today on, there will be no restricted areas for people on the earth, but restricted areas for hundreds of stars in the sky and universe.

Huh!

After that, Qin Tiange stepped into the space and returned to the Supreme Leader’s Mansion.

“Yanji, here are some blood genes of various races that I got, and a blood of demon gods. You immediately start to see if you can build a demon army.”

Upon returning, Qin Tiange directly took out the genetic blood samples of various ethnic groups that had been sealed for a long time, as well as the strongest demon blood.

That was from the place of exile, which was stored by Qin Tiange, and was brought back to prepare to create the strongest artificial demon.

Qin Tiange has always been very concerned about the god-making plan, and is responsible by his own self. After seeing the strength of the Zhixing family, he naturally has this thought.

The earth, after returning from Qin Tiange, brought back countless materials and resources, and began to enter an era of rapid leap.

Chapter 862 - Killing MSI

With the huge resources brought back by Qin Tiange, the earth mankind finally got rid of the dilemma of being truncated and inherited resources.

Qin Tiange also came to the inside of the Shijie Beibei and saw the spirit of the Shijie Beibei.

“I’m going to Ziweixing. What do you think?”

In the internal world of Shijiebei, Qin Tiange looked at a hazy light and shadow in front of him.

With the huge fortune of the Terran race, she finally recovered a lot, and finally got a little ability.

However, in order to completely recover the Ten Calamity Monument, it must retrieve its body, otherwise it will always be restricted.

“My lord, there is a group of old antiques at Ziweixing. My body is tightly locked. It is not easy to retrieve it.” Bei Ling sighed softly.

She was all a little lost of confidence. To suppress a group of strong men from Ziwei Xing, to suppress the Ten Calamity Monument, it was simply greedy to a terrifying degree.

The practice of Ziweixing’s human race has touched the interests of the entire human race, and the entire ethnic group has been greatly impacted and suppressed.

How terrible and chilling it is to intercept the entire human race’s heritage resources to support Ziwei Star.

The other ancestors were suppressed from now on. Don’t think of rebelling against Ziwei’s rule. In that case, wouldn’t every generation of emperor have to emerge from Ziwei?

Ziwei Xing, known as the Emperor Star, many of the Emperors of the past came from there. It can be said that Ziwei Xing is an uncompromising emperor ancestor of the human race.

“You don’t have to worry about this. A bunch of old people are dying, they are almost decaying and they are still drawing human blood. They should have been turned into ashes.”

Qin Tiange’s face was calm, with a touch of serenity in his tone, and he already had a killing heart. Those old things are already ancient.

Keeping them is drawing the whole blood of the human race, which is the foundation of leveraging other people's ancestors.

Such people must not be kept. Qin Tiange has already made a decision long ago. There is only one word, kill!

"Huang, do you really want to face Ziwei?" Shijiebei asked anxiously.

Looking at the candidate for the Emperor of the Earth, the heart of the killing is very strong, and the fierce name He Hena was killed.

However, if the earth is to face purple stars, it seems a little asymmetrical. The two strengths cannot be compared at all.

Qin Tiange is naturally clear that he didn't let the earth's human race to kill Ziwei Star at all, that was the most stupid way.

All he has to do is to kill the old things of Ziwei Xing who dare to intercept heritage resources.

As for Ziwei's Ziwei Emperor, then you can see Zhenzhang under your hands to see who has the better means. There can only be one Emperor.

"Those old things must die, otherwise, how can the thousands of people on earth tell us what those resources should belong to us, and who will pay for them?" Qin Tiange waved his hand to stop the persuasion of Shibeil Beiling.

It is useless to persuade anyone, and no one can stop Qin Tiange's determination to kill those old things. Once blocked, he is the enemy.

He is going to destroy the old guys, completely exterminate them in space and time, and let them sink forever.

"You are ready, I will bring you into the Tianhe continent, and when I enter Ziwei Star with me, I will see, why do those old things dare to intercept the inheritance resources of the entire human race?"

Qin Tiange said, looking up at the void, his eyes looking through endless time and space, as if he saw something.

The spirit of Shijie Beibei was stunned by Qin Tiange's words, and his determination to kill all obstacles was unshakable.

Emperor, kill when you kill, blockers, and opponents will be crushed clean relentlessly, one will not stay.

"Yes, my queen!" The ten tombstone spirits blew out.

Since following the emperor Qin Tiange, she went all the way to darkness, no matter what the future, even if the smoke disappears, it is her own choice.

“Very well, allocate resources.” Qin Tiange nodded with a smile, then thought and proposed: “Actually, I hope you get rid of the original ontology and rebuild your body.”

“I’m talking about the transformation of real beings, like my own self, and transforming into my own true flesh and blood.” Qin Tiange looked at Shijie Beiling and expressed his opinion.

The Ten Calamities Monument has a huge contribution to the human race. This cannot be erased. It has inherited countless resources for the human race, which is equivalent to the human race.

She can’t limit her future, any spirit is qualified to become a real living body, and the Ten Stone Monument is no exception.

“Huang, do you really want me to get real life?” Shi Jie Bei Ling paused.

Because the emperors of all ages have a kind of mind, that is to control the ten calamities, always inherit the resources for the human race, will not let her out of control.

However, Qin Tiange said that she was to get rid of her shackles and even spawn a real life form, rather than a thing, under control and mercy.

“Inheritance, there is no sense here. From the moment Zizi Xing’s **** is together, the inheritance of the entire human race has no need to continue.” Qin Tiange said to himself.

His eyes were cold and he hummed, “Why do you continue to allocate the so-called inheritance resources to the people, if I am the emperor, there will be no resources left for the next generation of people.”

“If you want resources, you can get them on your own. After all, young children must learn to grow and survive on their own. They will rely on the resources accumulated by their grandparents. They will eventually raise a group of waste.”

Qin Tiange said something inexplicable in his heart, which meant that there would be no resources left to the next generation of people.

No matter whether he can truly dominate the entire human race and become the emperor, he will not leave any resources to the so-called people of the next era.

If they want resources, the younger generations will work hard to grow, obtain resources, and compete for resources, so that they can stand out in various cruel competition.

All races compete for cosmic resources. If human races rely on the resources accumulated by their grandparents to grow up, what is the difference between raising a bunch of flowers in a greenhouse and not thinking about aggressive waste?

“I brought back a lot of things. You can see for yourself, cast off the monument, condense the true body, and I will help you and restore your freedom.”

After Qin Tiange finished speaking, he turned away from the Ten Jade Monument Space, leaving Bei Ling alone in a daze in silence.

How many years? How many epochs have gone through, the human race has risen and fallen countless times, and the Ten Calamity Monuments silently allocate these heritage resources.

From generation to generation, she has been accustomed to this fate, but suddenly Qin Tiange said that she should get rid of the shadow and fate of the past and get a new life.

The impact was very great. The spirit of Shijie Beibei was extremely unsettled and set off waves of turbulent waves in his heart.

The clan emperor of all human races, no one is willing to release her freedom. Let's look at the rise and fall of the human race in countless times since several epochs. Who has given her freedom?

“Sister, the Emperor returned you freedom, aren't you happy?”

A seal seal flew, a hazy figure emerged, and the imperial seal of the emperor appeared, and it was strange to look at the stupid tablet spirit.

Shijie Beiling looked at her and sighed, “You don't understand, once you get used to it, it will be difficult to change, and even a little fear, can I really become a real being?”

“Spirit, just like you, should have had the opportunity to transform into life several times, but who is the emperor willing to let you go?” Shijie Bei said complexly.

The two instrumental spirits were silent, and experienced the replacement of the tribal emperor. Whether it is the imperial seal of the emperor or the monument of ten calamities, in fact, there are many opportunities to become a real life.

Unfortunately, no generation of emperors is willing to abandon such powerful artifacts, and can only obliterate their future and become their own artifacts to help.

This is the sorrow of being an artifact, and once the owner does not allow it, it will be wiped out by chance.

Even some ruthless masters will directly erase the consciousness of the instrumental spirit, completely losing their true will and becoming dead.

“For the sake of freedom, I was almost wiped out of consciousness in the past. Freedom is that we, as utensils, are the most taboo, and it is the hardest to be a free living body.” The Emperor Yin lost the murmur.

She remembered that once, she almost wiped out her will and became dead. That was the scariest time ever, and she never dared to have such a thought.

“But Everything is over. Sister Ten, I'm ready to be able to shed the body, and really change.” Ren Huang Yin Ling said with a touch of excitement.

When she blocked the gate of time and space, she had amazing transformation after she sank into the space and time. She was beginning to enter the last transformation. Once she dropped the body, she completely got rid of the fate of the utensils.

Hearing this, Shijie Beiling's eyes brightened, showing a touch of surprise and heartbeat, really heartbeat.

Freedom, everyone wants to get, especially those things like intelligence, most desire to get a truly complete life.

Qin Tiange did not restrict them, in fact, he had his own confidence, which was the physical self-confidence, and he did not need to rely on these external utensils too much.

“Master, there are two dark stars from the solar system, where there are powerful life and energy fluctuations.”

At this moment, as soon as he came out of the World of Ten Jade Monuments, he saw his own face came to him with a serious face and said this surprising news.

“Two dark stars?” Qin Tiange differed, looked up at the starry sky, and saw the outside of the solar system at a glance.

Chapter 863 - Starry Wandering Clan: Underworld

Outside the solar system, two dim stars kept flying, fast, and were rushing towards the solar system.

The dim star body is seeing a kind of dim energy rays, and it is faint to see the dense and dense countless creatures wandering inside the star body.

“Master, what race is that?”

On the edge of the solar system, above the Neptune star, Qin Tiange and Jiji stood above the nebula aperture, looking out of the solar system.

The two dim stars saw the densely packed creatures above, but did not know the origin.

Qin Tiange blinked his eyes and was surprised: “This is a dark tribe. I didn't expect this race to pass outside the solar system.”

“The Underworld?” Jiji was curious.

The Underworld, an infamous race, is excluded from the Starry Hundreds and belongs to the Starry Wandering Group.

Looking at the two dark stars, Qin Tiange chuckled: “The dark people are rejected by the hundreds because they have no place to live. They are all nomadic stars. When they encounter the weakness of each race, they swallow them up.

“If you encounter a strong one, you will just run away. They specifically select some lower civilizations to start with.”

Qin Tiange explained little by little that the underworld, among the universe, is one of the most famous nomadic stray nomadic groups.

They have no place to live. They do not have any ethnic territories. They treat the starry sky as a ranch, wherever they go.

When encountering a small civilized race, it is bound to be annexed by the ***** slaughter of these starry wandering ethnic groups and plunder all useful resources.

They are like mice in the starry sky, which hate and hate all races, and hate this kind of creatures most.

Because they have no foundation, they can't beat and run, and sometimes they will suddenly come back to **** and run again.

"It seems that there is another battle in the solar system, can you fight?" Jiji said to himself, looking at Qin Tiange, waiting for his order.

As soon as an order is issued, the transformation of the entire planet's nine planets into a battle star will immediately form a horrific lore.

Qin Tiange's eyes flickered, and he looked at the two dim stars, each of which was ten times larger than the sun.

Seeing this, Qin Tiange had an idea and laughed: "No hurry, let them enter the solar system, and then surround them to prevent them from escaping."

"Hidden clan, but even time and space can escape, and I have the ability to escape the suppression of the time and space strong, I'm curious." Qin Tiange was curious about this.

It is rumored that the Underworld has the ability to evade space-time suppression and even escape the tracking of the powerful.

This is very curious, what is the ability to make these starry wandering communities have such a great ability?

If it can be applied to the forces of the earth, it may improve the overall strength and ability of the people.

"Good!" Jiji immediately understood.

Outside the solar system, a terrible magnetic field permeated the impact of two huge dark stars.

Not long after, the two dark stars both rushed into the interior of the solar system, causing huge disturbances in the magnetic field in the entire solar system.

Suddenly, the two dim stars released a mysterious and strange power that disturbed the stable magnetic field of the entire solar system.

Qin Tiange hidden in the nebula was surprised, watching the mysterious waves released by the two dark stars, disturbing the magnetic field and locking the entire solar system.

This is a bit surprising, no wonder the Underworld is hated and disgusted by the Hundreds, not for no reason.

"Interesting, you can use the rules of space-time dimension to lock up the galaxy. Is this going to annex the energy of the entire solar system?" Qin Tiange said to himself, seeing the doorway.

These two dark stars have powerful abilities, and the hidden dark tribes inside are good, no wonder they can avoid space-time tracking and suppression.

However, in front of Qin Tiange, the two dark stars are still a bit low, and it is impossible to avoid him.

“Space-time fault, imprisoned!”

Suddenly, he drank and spread across the dark starry sky, and saw that the entire solar system was suddenly surrounded by inexplicable space-time faults.

The entire solar system was blocked at once and the surrounding starry sky disappeared, leaving only dense space-time faults.

“Oops, sometimes the air powerhouse sits in town and hurry up.”

There was a loud shout from the Dark Star. A dark powerhouse awakened, and immediately realized that sometimes the space-level powerhouse sat here.

They never even thought about it. The small galaxy on the edge of a small space is sometimes incredible.

Even more frightening is that the entire galaxy is surrounded by countless space-time faults, and even loses the possibility of escape.

“Not good, the dark interface loses its sense and cannot be separated”

“We are trapped”

The two dark stars vibrated, releasing powerful dim energy, looking extremely alert and nervous.

The dark tribe inside is terrified, because the ability to avoid space-time levels could not be used.

The dark interface cannot be contacted and is blocked directly. If you cannot reach it, you cannot escape.

Bang!

A roar came, and I saw that in the solar system, Mars, Jupiter, Saturn, Venus, and Mercury all moved together and broke through the void.

Surrounded by five huge battle stars, the five planets form an empty array, trapping two dark stars in a star array.

The five-element battle star is a bit small compared to the two dark stars, but it should not be underestimated, because it emits a terrifying light.

That was the energy ray of the Starkiller’s main cannon. The terrible energy that could destroy the galaxy scared the Underworld in the two dark stars.

“Why so many battle stars?”

“No, that’s the light of the Starkiller, the energy weapon of the Zhixing tribe, isn’t it? How come there are the products of Zhixing?”

The Underworld panicked. Above the two dark stars, the dense grey runes flickered to form a powerful energy guardian.

The Underworld strong was nervous, as if kicked into an iron plate, and even broke into a place that should not be entered.

Huh!

At this moment, a ray of light suddenly rose above the two dark stars, converging into a huge figure, which was the interstellar projection.

A hazy creature emerged, standing above the starry sky, and performing a strange ritual to the surroundings.

“Dear strong man, we have no intention of offending, but we accidentally broke in. We don’t know the rules here. We are not malicious.”

The Hidden Clan, softened immediately when the situation was unsatisfactory, there was no backbone at all.

When you encounter a weak one, you swallow it directly. When you encounter a strong one, you will be soft and beg for mercy.

“Dark, I’m curious. Do you really use the strange energy of the dark interface deliberately?”

A bland voice came, and a huge projection emerged, standing above the starry sky.

This projection is a hundred times larger than the sun. Standing on the starry sky, countless humans and creatures in the entire solar system can clearly see.

That was Qin Tiange, casting a projection directly, looking down at the projections of the two dark stars in front of him and the dark powerhouse.

“Misunderstanding, misunderstanding!”

The dark people’s projection was embarrassing, and a kind of terror threat was felt from Qin Tiange’s projection, which was a death threat.

This threat has not been encountered for a long time. In the past, it remembered that it had encountered such an encounter as it is today.

It was a restricted area facing the sky, and in the distance was shocked by a terrible wave.

Although it was a lot weaker this time, it was just as horrible. I couldn’t help panic and secretly regretted that I shouldn’t rush in rashly.

“Say, do you people have the ability to connect to the dark interface?” Qin Tiange didn’t have any patience.

It is rumored that the Underworld has the ability to connect to the dark interface and obtain a strange power that can evade and avoid space-time levels.

This matter is rumored and untrustworthy, but Qin Tiange is still very curious. If the other party does not say it, then it will directly swallow the true memory.

“Yes Yes, respectable strong, we do not rely on a capability, but a thing.”

The explanation of the projected fear of the dark people did not dare to conceal it in the slightest. Qin Tiange felt too scary for him.

This is just a starry sky. Isn't it here to die?

After listening to this explanation, Qin Tiange's pupils shrank, and he said word by word, "Give up that thing, I can let you go."

"This" the power of the dark tribe hesitated, but suddenly a terrible breath condensed on Qin Tiange's projection, and he was immediately frightened.

"Projection condenses strength? Oh my god, this is, this is only possible for great gods of six or more dimensions in space and time." He was horrified and immediately knelt down.

"Excuse me, I will give it up immediately."

The Underworld strongman immediately dispersed the projection, and the real body came out holding a mysterious thing.

"Well?" Qin Tiange couldn't help but utter a suspicion when he saw the thing.

Chapter 864 - 1 spray, mysterious

The Underworld Strong, a creature close to space-time, is carefully holding an object and offering it with both hands.

"That's it, we use it to get the power from the dark world of the universe," said the Underworld creature with a careful look at Qin Tiange.

He was holding a mysterious spray in both hands, yes, it was a spray, small and exquisite, looking like a work of art.

A spray that hides the secret of the dark world? Qin Tiange was surprised, his eyes kept looking at this little wave.

"This is the wave from the dark world?" Qin Tiange said verbatim.

His heart vibrated, and then he was pleasantly surprised that it was a mysterious wave from the dark interface of the universe.

It is rumored that the dark interface of the universe is an endless ocean of dark matter, in which only the spiritual will of creatures can enter.

The real body is unable to enter the dark interface. The dark world is also called a kind of spiritual fantasy world, just like the two cosmic worlds.

The material universe in which hundreds and even thousands of people live is called the positive material universe, and the dark interface of the universe is called the spiritual illusion universe.

It is rumored that at the extreme limit of time and space, understanding the power of the nine dimensions can break through the barrier of positive and negative universe with the power of spiritual will and step into the dark interface.

There, you can dominate the spiritual will, open up the world, open up a spiritual world, and become the master of the realm, known as the master of the realm.

The master of the world, the spirit lives forever, and the soul is immortal, but it can exist in the dark world of the universe until the dark interface is dry and thirsty.

“Where did you get this wave from the dark world?” On the palm of Qin Tiange, a dark wave floated.

It is like a water flower, blooming constantly, never stop, revealing a mysterious breath.

It was originally impossible to see, but I don’t know why this wave could be seen, and it could still appear in the positive material universe.

This is an incredible miracle, and it should not even exist, because the two universes cannot exist there.

“This” dark tribe hesitant, but immediately saw Qin Tiange’s icy eyes and immediately said it.

“It was obtained from a starry sky restricted area. In the past, we wandered into the starry sky. It was not clear how to stray into a starry sky restricted area. As a result, we almost couldn’t get out, and finally brought out this weird splash.” It explained quickly, carefully.

The dark powerhouse was terrified. Looking at Qin Tiange’s expression, it seemed that he had no intention of letting them leave.

“Look, can we leave?” It had to warn carefully.

As a result, Qin Tiange looked at him and said with a smile: “Of course, it is okay to go, but I heard that your dark tribe often plunders the resources of various ethnic groups, all rich and oily, are the richest races in the universe, aren’t they?”

“No, no, rumor, it’s pure rumor.” This, scared all the dark creatures almost fainted.

The underworld strongman even scolded in his heart: “Which **** messy news, are we underworld most wealthy among the universe?”

He wanted to cry without tears. This was too heart-warming, didn’t he trap the dark people in the dead?

If the Underworld is the richest, is it still necessary to snatch? In fact, the Underworld calculation is not the richest, but also holds huge resources.

Because the dark tribe strays the universe, it often loots all tribes, killing and plundering will not be less, and the family base accumulated is naturally extremely rich.

Just this branch of the Underworld, Qin Tiange believes that the resources in their hands must be huge, even richer than the current Earth race.

“I don’t want much. You can leave safely if you surrender 80% of the resources.”
Qin Tiange finished speaking word by word.

A smile arose from the corner of his mouth and said, “Of course, you can also refuse to pay. I prefer to see you resist, so that I can directly destroy you and swallow up everything and everything.”

“Uh”

This time, the dark powers were dumbfounded, one by one, stunned by Qin Tiange’s words.

Isn’t he robbing? Once upon a time, the dark people have always been playing the role of robbing other races. Now how do you talk about others robbing themselves?

“Three interest time considerations, I will refuse you after that,” Qin Tiange finished, his eyes were cold.

Four weeks ago, the five-element battle star sent out terrifying energy waves, and a wave of devastating energy waves came out, locking two dark stars.

The most terrible thing is that Qin Tiange really appeared, standing on the shoulder of the projection, playing with that delicate wave in his palm.

There are two people standing next to Qin Tiange, one of whom is self-confidence, whose strength cannot be guessed at all, because she is an evolution of artificial intelligence.

As for the other one, it is Li Luo who stepped out of time and space, his eyes revealing the faint glaze.

“Another space-time class?” The Underworld strong was terrified, completely frightened, a space-time class is scary enough, and now there is one.

Doesn’t it mean that there are at least two great gods above space-time level, and even more are hidden.

Thinking of this, the people of the Underworld are indignant and indignant, feeling that this time they really broke into a terrible restricted area.

“Time is up” Qin Tiange said sternly and was about to start.

“No, no, no, wait, let’s make it. Can’t we give it back?”

The underworld strongman immediately stopped, and served directly, and did not dare to resist at all, joking, and confronted more than two space-time levels, looking for death?

Soon, there were several strong horizontal figures flying out of the two dark stars. It was the power of the Underworld that came out with 80% of the resources of the Underworld.

Even they did not dare to conceal at all, and did not dare to change anything at all. Directly and honestly paying these resources was a huge resource that they had accumulated for thousands of years.

All the dark people want to cry without tears, this time planted home, I only hope that Qin Tiange this strong man speaks well.

“It’s all here.”

The eight dark and half-step time and space-level strong men respectfully sent the countless resources that their families have looted for thousands of years and sent them.

Looking at these huge resources, even Qin Tiange's heart could not bear the beating of his heart. It was too much, and it was really too much to surprise him.

“Good guy, the dark tribe, the nomadic robbing tribe of the starry sky, has accumulated such a huge amount of material, enough to develop into a huge strong tribe, no worse than the starry royal family.” Qin Tiange was astonished, all have to destroy these The Underworld is planning.

But think about it. In the end, I still dismissed this idea and let the long line catch big fish.

Since these dark people are so robbed, so maybe they can bring more benefits to him?

“Very well, you are very honest. You are in a good mood today. Let you go and go as far as possible.” Qin Tiange said with a smile, waving his hand, and the space-time faults scattered around him, revealing a passage.

There was the starless sky leading out of the solar system. Upon seeing the dark powers, the dark man immediately returned to the dark star and drove out two dark stars directly.

They did not dare to stay at all, for fear of Qin Tiange's return, they ran as fast as they could, and disappeared in a blink of an eye.

“Master, I think they must have a lot of good things in their hands. Why can't they just take them?” Qi Ji asked curiously.

Qin Tiange's eyes flickered, and he smiled inexplicably: “Yanji, you need to look a little longer, and the dark people will have that resource. If you keep them to continue to snatch, then part of it will be taken away at that time, right It is our best interest. “

“Furthermore, I have kept my mind and the power of space and time above two dark stars, and I can find this dark group at any time.”

At this point, the meaning is obvious. Qin Tiange is to let these dark people continue to rob the resources of various ethnic groups.

He was exploited here by 80% of huge supplies. The Underworld must be heartbroken, and they will surely rob the other races like crazy In this way, wait for them to rob enough supplies, Qin Tian Ge reappeared, weren't those supplies his?

Would it be better for the Underworld to ***** it?

“Secretary, let Shijiebei arrange and allocate these resources, and it is necessary to raise the human power of the earth by another level.”

Qin Tiange looked at the untold resources and couldn't help laughing, this time it was an unexpected gain.

But he thinks that the biggest gain is that strange wave, a water spray from the dark interface.

“Yanji, things are up to you for the time being. I have something to retreat for a while, Liluo, you follow me.”

After Qin Tiange’s explanation was finished, he took Li Luo to tear time and space, stepped into it, and disappeared here in a blink of an eye.

With that strange wave, he was ready to join forces with Li Luo to get a glimpse into the mystery of the dark interface of the universe.

What secrets are there in the dark universe? Master, what kind of form is it?

Chapter 865 - What is the Lord? Dark secret

One flower, one world, one leaf, one bodhi, is about three thousand worlds, meaning endless.

But combined with the current practice system, the body world can exist, because condensing a star is equivalent to a star world.

Once a creature is born on these inner planets, it is tantamount to being a creator, and dare not imagine.

From the beginning of cultivation, the star core is condensed and continuously collapsed into a true star. This is a star star.

Cultivating upwards is to continue to collapse that star into a black hole celestial body, and continue to supply extremely dark energy, which will evolve into more stars and transform into galaxies.

This is the black hole level and the star master level. Cultivation is like relying on the mystery of the universe and the law of the evolution of all things.

The human body is a universe. These words exist with one finger. Only after real cultivation can we understand that the human body can exist in a universe.

Then the problem came. Qin Tiange has cultivated to this day, and the stars in his body are already densely packed all over Dantian.

There is a chaos in the center and countless stars outside, with the 999 super-large black holes constantly morphing into huge galaxies.

The super galaxy centered on the black hole is full of 999 terrifying galaxies. How terrible is that?

Even if the black holes in the veins and acupoints in Qin Tiange’s body are completely transformed into galaxies, will it be a scene of gods and horses?

Not to mention that he now has 60 trillion cell black holes. If all of them turned into a galaxy, I would feel horrible.

So, is our real universe a world of horror creatures?

“Li Luo, you say, is the universe an existing body world?” Deep in space and time, Qin Tiange’s idea came with a fluctuating discourse.

Li Luo looked shocked, didn’t answer, and was silent because she couldn’t give an answer at all.

She wasn’t sure. The more you practice, the more chilling you feel, as if you have the illusion of being captive in the universe.

It is as if there is a Supreme Master in the bottom, looking down at the universe, and staring coldly at the universe.

It's like looking at the stars and galaxies in your own body. If there is a creature inside, it must be a gesture of looking down.

Qin Tiange often feels this way. If there is life in his body, will he have a feeling of looking down?

If you look at the galaxy world of your body, it is naturally a gesture of standing high and looking down with cold eyes.

“Huang, we haven't been able to reach this level yet, or don't delusional, otherwise it may attract the attention of the deep.” Li Luo warned cautiously.

This is not unreasonable. At a certain level, if it is mentioned or even mentioned, there must be a sense.

Qin Tiange looked solemnly, looking at the endless time and space, mentally unclear what he was thinking.

“Strength” After a long time, Qin Tiange sighed.

Later, he cut off the thoughts about these things in his mind and cut off as many as possible before calming down.

“This wave comes from the dark world.” Qin Tiange said to himself, watching a wave floating in his palm.

This is a strange form. It is constantly stirred like water and turned into a spray. It is amazing.

Even more amazing is that the origin of this wave is the wave in the spiritual ocean of the dark interface of the universe.

One flower and one world, rumored that the dark interface is endless, and a spray of waves represents a spiritual illusionary world.

Once a person's spiritual will breaks through the material universe and enters a dark interface, he can open up a spiritual world with supreme spiritual power.

Only by opening up the spiritual world can one become above the level of time and space and set foot in the world.

Master, open up a realm, not the material world, but the spiritual level of the dark interface.

“Open up a realm and achieve the master of the realm, this is the mystery above the level of time and space.” Qin Tiange said to himself, and the two kept studying this strange wave.

This spray has become a variety of spray forms on its own, but in fact it is a mass of water, the water from the spiritual sea of the dark world.

Dark matter is invisible, but it exists. It is a spiritual thing, not the present matter.

“Come, you and I work together to take a peek at the secrets of the dark interface and see what secrets there are in the world?” Qin Tiange looked serious and began to explore the secrets of the dark interface.

First, Qin Tiange took out a particle, which was sealed with a creature that was encountered in the restricted area, the ghost of the sky.

This thing is rumored to have the ability to penetrate into the dark interface, it is an illusion body at the material and spiritual level.

With this, Qin Tiange’s medium to glimpse the dark interface, look at the mystery of the Lord of the Realm, and glimpse the secret of the Dark Realm.

The roar of “嗷” came out, full of spiritual shock, but was smashed by Qin Tiange and Li Luo.

A star-like space-time star-level ghost, capable of shuttle between the dark interface and the material interface barrier, was refined by Qin Tiange and Li Luo.

Zizi

A mysterious force came in, and a phantom origin emerged, and the entire huge starry ghost was refined into a small clump origin.

The origin of this group was divided into two by Qin Tiange, one was swallowed by himself, and one was swallowed by Li Luo.

Qin Tiange wants to unite the power of Li Luo, the two of them have a peek into the dark world, and if they want to peek into the secrets of the dark world with spiritual strength, there must be a medium, and the ghost of the starry sky is just right.

But it still lacks a key link, and does not understand the specific information of the dark world, but now there is a spray from the dark world.

“swallow!”

Qin Tiange drank, opened his mouth and swallowed the gloomy wave, and the mysterious dark wave was swallowed up.

Suddenly, Qin Tiange and Li Luo began to gather a faint cloud of smoke above the heavenly spirits.

That is the imagination of the spiritual idea, which is constantly impacting a certain mysterious area, and it is necessary to directly break the barriers between reality and the dark realm.

In the dark, an invisible barrier blocked the mental and mental impact of the two, that is, the barrier of the dark interface.

The naked eye is invisible here, even less than the true time and space limit, and it is impossible to discover and touch without realizing the nine-dimensional power.

However, Qin Tiange took a shortcut, and with the help of the ghost of the starry sky, he took the wave of the dark world as a guide to directly find the dark barrier.

“This is the dark barrier?” Qin Tiange looked serious, and his hazy body floated here.

Aside, Li Luo had a serious face, and both of them were covered with imaginary spiritual thoughts, and they were coming to the dark barriers.

“Start, break it!”

Qin Tiange drank, and the spiritual will of both of them suddenly stunned, and an unparalleled arrogance broke out into a magic wave in front of them.

Suddenly, both men’s spiritual will was fully integrated into that spray, and they rushed into the dark barriers instantly.

Click!

Strange to say, this barrier that can block spiritual will, but not the passage of that spray.

It was something that originally belonged to the dark world. Naturally it would not be blocked, and it was easy to pass through.

The endless darkness, the cold world, is filled with an absolute solitude.

In the sense of will, Qin Tiange felt an unprecedented tranquility and peace, as if he had found his destination.

Through a wave of waves, Qin Tiange and Li Luo saw a shocking scene. The boundless ocean, the turbulent waves, the roaring roar, and a spirit-level rumbling sound came out.

Rumbling

Will shakes, Qin Tiange only feels that his consciousness is impacted by that kind of vibration, and his consciousness is a little confused.

This is the dark universe of the universe. There are no boundaries, no edges. It is rumored that the universe is as big as it is.

The dark sea that belongs to the positive material universe is boiling. This is a spiritual world. The sea is boundless and the waves are rolling. Every wave seems to contain a world.

That is the spiritual world opened up by the Lord, dense and endless. Of course, Qin Tiange saw a more terrible scene.

“Is the spiritual illusion realm, is it above the master of the realm?” Qin Tiange looked at a huge distant wave in surprise.

There is a boundless world in it, like a real kingdom, like a kingdom of gods.

In the kingdom of God, there is a breath of terrible horror that transcends the level of time and space, and even transcends the lord, which is the existence above the lord.

“Here is the Dark Sea Can you ingest the waves of the Dark Sea?”

At this time, the small wave hiding by Qin Tiange and Li Luo completely integrated into the endless ocean of the dark sea.

No one was able to find the two stowaways, Qin Tiange woke up to see if the waves from the dark sea could be absorbed?

This is the power of the spiritual level. If it can be absorbed, or even used by him, it may be a completely new discovery.

“Try it.” Thinking, Qin Tiange thought, a small drop of dark sea water from the dark sea.

boom!

Suddenly, the spiritual will exploded, as if it were ground-breaking, directly blasted by that drop of dark water.

“Imperial!”

Li Luo was taken aback, playing a forceful will, suppressing the broken spirit of thought, and not letting Qin Tiange’s will spread.

But then, a strange scene appeared.

Chapter 866 - Crazy, bounding sea tide into the body

Qin Tiange’s will was blown up. Strangely, these wills did not dissipate. Instead, they turned into flashes of thoughts, glowing a little bit of light, looking as if they would go out at any time, but they refused to go out.

His will was arrogant and turned into countless thoughts, constantly floating in the strange ocean, the waves of the world, flapping one after another, to completely destroy these thoughts.

Huh! Qiang Qiang Qiang

The idea counterattacked, sending out bursts of maggots, like the immortal **** gold, sent out an immortal sound, unwilling to extinguish.

The idea was unwilling to go out, but was constantly washed out in the strange waves here.

Every thought is like a consciousness. Qin Tiange feels that he has transformed into tens of millions and countless himself.

That feeling is like turning from one person to countless individuals all at once, the idea is chaotic, and some are unclear.

Li Luo next to him was already so tense that he kept calm all around and didn’t let Qin Tiange’s thoughts drift away.

Otherwise, once beaten by the mighty ocean waves, the smoke may disappear without rising.

No matter how strong his will is, it is impossible to counteract the terrible waves of the territories here, which belongs to the real masters.

Qin Tiange hasn’t reached this level yet, but he sneaked in with the help of a starry sky ghost and a wave of will in the sea.

Once sinking into the boundless tsunami in the boundless sea, it will inevitably sink, eventually be wiped away and completely die.

“This is it?” Suddenly Suddenly, Li Luo looked at the countless thoughts that fluttered and flickered, and suddenly the more and more were gathered, as if from the source of the connection in the underworld.

Soon she understood that this was the countless consciousness that Qin Tiange scattered into the body, pouring out of each cell, quickly passing through the bridge of understanding the true spirit of the sea, and directly coming to the dark side of the sea.

With the influx of more and more consciousness, Qin Tiange’s true spirit gradually undergoes a wonderful change.

The real spirit of Renshu suddenly collapsed, and turned into countless strange particles and poured into the dark sea.

The numerous countless thoughts suddenly burst into a ball, and finally interwoven into a simple and mysterious scroll.

It was a book of human beings. The real spirit came, and came directly to this mysterious universe, which was incredible.

“Huang, this is your true spirit?” Li Luo froze, looking at the volume of countless thoughts of a volume of books.

It turned out that Qin Tiange’s true spirit was first shown to her for the first time, and then she came to realize that Qin Tiange was the spirit of the mysterious book.

Huh!

The real spirit trembled, sending out a strange maggot, and then a burst of horrific suction erupted, suddenly rolling into the waves of the big circle.

Grunting, Zhen Ling swallowed the wave, buzzing with a fullness, as if eating support.

Gradually, the true spirit disappeared, and finally Qin Tiange’s spiritual will body condensed and resurrected again.

“Hoo, almost hung up.” Qin Tiange exhaled slightly, some palpitations, and almost thought he was hanging.

If the real inspiration was threatened, he responded directly and autonomously, came here, gathered all the spiritual will, and then resurrected with the help of a wave of waves.

“Huang, are you okay?” Li Luo frowned and looked at him worriedly.

Qin Tiange shook his head and looked at the turbulent waves around him.

He whispered, “Li Luo, I seem to have glimpsed the secrets of Jie Hai, these waves are the universe spirit sea.”

What is the universe spirit sea? It is the opposite of the true material level of the universe, the material and spiritual levels, and the two universes are opposed to each other.

The physical universe is called the material universe world, while the opposite universe is the spiritual universe at the spiritual level.

The positive and negative universe, one Yin and one Yang, represents a kind of truth, as if this is the true face of the universe.

But Qin Tiange suddenly felt that the universe was conscious? If there is consciousness and life, is it a terror?

“Spiritual sea, can it strengthen spiritual will?” Li Luo frowned, feeling unable to absorb the terrible waves here.

Rolling waves, like a turbulent sea, this is the spiritual sea of the universe’s dark world, boundless and extremely terrifying.

Qin Tiange explained: “It cannot be absorbed normally here. Only by opening up the spiritual world by supreme will, and then relying on this world to draw on the spiritual source in the sea, can the spiritual will be provided.”

It turned out that if you want to break through the space-time level, you must start with the spiritual level. The only way is to break the dark world, enter the spiritual sea of the universe, open up the world, and become the master of one world.

Then rely on this world to absorb the power of the spiritual sea, and nurture the spiritual will to grow.

“The Lord of the Realms, to open up a kingdom of God as the master of the realm, to open up the Three Realms as the master of the three realms, to open up the Six Realms, to evolve the Six Realms to be the masters of the six beings, and to open up the Nine Realms is the Supreme Supreme of the Nine Realms.

Qin Tiange said to himself, his eyes were burning, and he had seen some secrets of Jie Hai, such as how to break through here, and how much the Jie Master exists.

The main level of the realm is a breakthrough and extension above the level of time and space. It is a realm on the road to the pursuit of spiritual immortality.

The space-time great gods endlessly searched, and finally found the secret in the dark interface of the universe, thereby opening up the spiritual world, known as the kingdom of God.

Some people open up a realm, it can only be regarded as the weakest realm master, while some strong open up a realm and become the realm of the realm.

And some more terrible creatures opened up the Six Realms, evolved the six reincarnation, and became the six masters.

What’s more, by virtue of Supreme Will, it split the realm of the realm and evolved into nine heavens and ten places to achieve the Supreme Supreme of the Nine Realms.

This tyrannical existence, even if the physical body is decayed, but the spirit is still immortal, as long as the world does not dry, he will not die.

“However, the spiritual sea in the dark world is not calm, many masters conquer each other, the spiritual world collides with each other, and it is swallowed up.

The killing is no less than the hordes of people in the material universe, and even more horrible.” Tell the secrets you have.

Just swallowed a wave, and obtained a strange information, a basic information about the interface of the spirit of the sea.

Through these, Qin Tiange has gained more, has a higher vision, and sees the mysteries of this level.

In the dark universe, the killing is even more terrible. Once the spiritual world is destroyed by other realm masters, and even the spiritual will is devoured, it will truly disappear from the universe.

“Huang, do you want to open up the world in the spiritual sea?” Li Luo asked as if he had guessed something.

For now, neither she nor Qin Tiange is enough to open up the world in the spiritual sea.

Moreover, the development of the spiritual world here, or the development of the Divine Congress, has attracted a lot of attention and attention.

If there is a mighty lord of the realm, even hiding in the side, and waiting for Qin Tiange to open up the realm of the sea, he will start to devour the kingdom of God, which is tantamount to a deadly disaster.

“Not in a hurry, and I have no plans to open up the world in the sea.” Qin Tiange’s eyes flickered slightly, with a strange luster.

What he wants is not to open up the so-called spiritual kingdom world in Jiehai, but to draw the boundless spiritual sea of Jiehai.

“You and I peek into the mysteries of immortality. The will of the true spirit is scattered into the body, which is equivalent to each cell already containing a complete body of will.”

Qin Tiange groaned and stated his intention, because every cell in his body contained a complete idea.

Once the true metamorphosis is complete, even a single cell can be resurrected completely. This is a kind of metamorphosis obtained after peeking at the immortal mystery.

What Qin Tiange is doing now is not to open up a spiritual kingdom in the sea of spirits, but to introduce the strange waves of the sea of spirit into the body and fuse cells into a strange world.

“The emperor meant that the spirit of the primordial sea tides into the body and opens up the kingdom of God in the body?” Li Luo was startled, and dare to think about this thing?

Inducing the spiritual tide of the dark world into the body, it is the end to be completely obliterated and disappeared by the two positive and negative substances.

No one has tried it, without exception, but Qin Tiange still wanted to try this, wouldn’t he be trying to die?

“Yes, I don’t think it is impossible, but no one finds the right way to practice it.”
Qin Tiange said to himself.

He laughed: “Did you forget that we are hiding in this world wave flower, why can it appear in the material universe without being annihilated?”

Hearing this, Li Luo understands Qin Tiange This is to use this strange balance to break the taboo and lead the tide of the spiritual world into the body, not to open up the world here, but in the body Open up the kingdom of God.

Qin Tiange looked expectantly: “Think about it. Only the spiritual will of the universe’s dark world can enter. Once we open the successful kingdom of Poseidon in our body, can we freely enter and exit the universe’s dark world?”

This idea is terrifying. It is necessary to build a kingdom of will in the body and open up the spiritual world, so that the physical body can freely access the dark interface of the universe.

If it succeeds, then Qin Tiange will take a different path. Who can physically enter the dark sea?

“Li Luo, for me to protect the law, I want to lead the spiritual tide of the Jiehai into the flesh and wash the body.” Qin Tiange said with a serious tone, and sat directly cross-legged.

With a strong willpower, he invaded this strange wave, inside and outside, to understand the secrets inside.

It is very important why this wave can exist in the material universe without extinguishing it. Only after mastering it can we try next.

If successful, Qin Tiange has more confidence in his future.

Chapter 867 - Void and Real, Yin and Yang, Chaos Upheaval

The sea is turbulent, the waves are soaring, and in some places the tsunami is shocking, endless, and there are countless huge kingdoms of God hidden there.

These are the spiritual kingdoms of God. The world opened up by human will is called the kingdom of God.

It is rumored that the gods have a kingdom of God, but there is no way to record specifically. The only thing that can be understood is that the kingdom of God can live forever.

Why eternal life, because the kingdom of God is a spiritual world, where the spirit never extinguishes, naturally eternal life.

As long as the sea of kingdoms does not work and the kingdom of God does not die, the spirit will live forever. This is the mystery of the master of the kingdom, the kingdom of God, and the spirit.

The space-time class can be said to be a great god, who travels through the universe and the stars, but the master of the world is a true god, known as spiritual immortality and immortal will.

This level has transcended the material level and reached the level of spiritual will, which is incomparable.

Even some tyrannical realm masters can project the material universe with spiritual will and kill the enemies. The thought that the galaxy collapses is a means of destroying the sky and the earth.

The projection projection refers to the shadow projected from the spiritual level. The projection of the bounded master is the true projection of the gods.

boom!

A wave rushed over and was suddenly dragged into the real spirit by Qin Tiange's true spirit.

A spray the size of a basketball, looking very small, it is difficult to find such a spray.

Qin Tiange waited for a long time, and finally caught this smaller wave, and immediately poured into the true spirit.

With a buzz, Qin Tiange just felt like his true spirit was about to be exploded and couldn't withstand this spiritual tide.

A spray represents a spiritual kingdom that can be opened up in it. Whether the will can withstand it is a test.

"Immortal will, immortal spirit!"

With a roar, Qin Tiange's true spirit sent out a horrifying force to build a channel of true spirit will to directly introduce this spiritual sea tide into the body.

In the material universe, the chaotic zone of time and space, Qin Tiange's body suddenly shook, shattering the surrounding space and time.

Suddenly, a mysterious force poured into the body, and it came suddenly, as if it came at once.

Inside the body, the little wave suddenly produced a horrible change, and suddenly turned into an endless ocean, which directly drowned Qin Tiange's sea of consciousness.

At this moment, the sea of knowledge collapsed and was directly submerged by this horrific ocean, and even shattered and shattered.

A strange annihilation phenomenon has begun to appear in consciousness and even the body.

The body exists in the material universe, and the spirit exists in the dark universe. Matter and spirit are two opposing faces. Once they collide, they are equal to annihilation.

It's like a yin and a yang, the destruction of positive and negative matter, disappearing without trace.

However, since all things have spirits, since life has generated spiritual will and can exist in the body, why can't it lead the spiritual tide into the body?

The ability of the spirit to live in the body proves that there must be a balance in it. This is a mystery of the balance of yin and yang.

Crackling!

Qin Tiange's body cracked and began to show signs of disappearance, disappearing little by little from the center of his eyebrow, leaving nothing.

His physical body is annihilating himself, and an endless stream of spirits is emerging from the sea of knowledge, and an annihilation scene is taking place with the physical body.

If anyone saw Qin Tiange's scene at this moment, he would be horrified, because a good-looking person would annihilate by himself, and turned into a terrible and weird picture of nothing.

A hollow eyebrow was enlarged, and the beard and bones disappeared. Gradually, Qin Tiange's head disappeared and was wiped out into nothingness.

Immediately afterwards, a surging tide poured into all sides of the body, the hands and feet began to disappear, the internal organs and the bones of the body began to disappear one by one.

The tide of the dark spirit into the body has caused such a horrible scene that it cannot bear it, and the physical body cannot bear this power at all.

Could it be that the spiritual tide of Jiehai is too vast for the physical body to carry such a magnificent spiritual ocean?

boom!

Suddenly a muffled sound, Qin Tiange's remaining corpse was completely shattered and disappeared, as if completely dead.

It was completely empty, there was nothing and nothing existed, but another subtle and incredible cell was persisting tenaciously.

No, it's not one, but countless cells densely packed into subtle singularities, constantly enduring the impact and destruction from the tide in the dark world.

Qin Tiange's cells have all turned into black hole singularities. At this moment, the physical body disappears, but it is the body's autonomous defense of 60 trillion cells, spreading out into individual individuals.

The 60 trillion cell black hole, constantly exerting force, divided the tide from the boundary sea into 60 trillion parts, constantly annihilating and devouring.

Finally, after numerous phagocytosis, the remaining half of the cell black hole survived.

More than half of the cells quickly converged to form a whole. It was Qin Tiange's physical body that gathered and dispersed into sand, as if freely decomposed.

With a short click, the flesh appeared again, but this time the flesh returned from the group and resurrected from the edge of death, but it became a little different.

Absorbing the tide from the dark interface, Qin Tiange suddenly noticed that his body became a little erratic, as if it was between reality and reality.

"Illusion and reality, one yin and one yang, yin and yang balance, chaos is infinite."

Suddenly a low-pitched murmur came from Qin Tiange's body, and saw a strange scene appeared, the physical body became illusory, and gradually disappeared.

The true imagination, the flesh turned into an illusory individual, disappeared in the material universe, and disappeared completely.

At this time, the dark interface, Qin Tiange's true spirit suddenly shocked, from the inside a stream of strange black particles, which are black hole cells.

These cells began to merge into the body of the true will, and gradually outlined a real body.

Yes, Qin Tiange's body actually entered the universe's dark realm, descended directly here, and the real body crossed the barriers of the sea of the realm.

"Success?" Li Luo was stunned by the scene in front of him.

She had no idea that Qin Tiange had succeeded, completed the physical and physical changes, and passed through the dark universe of the universe directly.

Watching Qin Tiange's physical body gradually solidify into a real physical body, at this moment, the hearts of the two are undoubtedly shocked.

I really did understand that the shock was impossible to express the mood at the moment.

"Sure enough, everything in the world cannot be separated from the balance of yin and yang, the chaos is infinite, and the combination of yin and yang can be done." Qin Tiange said to himself, suddenly waking up.

His body has chaotic elements, which is originally the most primitive energy of chaos, including the yin and yang meaning.

The positive and negative interface of the universe, that is to say, there is a yin and a yang, the positive side represents material, and the negative side represents the spiritual sea.

If the two positive and negative universes merge, is it chaos? Before the positive and negative forms of the universe, was everything chaotic?

Chaos is the root of the universe. A mass of chaos created a big bang, and eventually formed the interface between the two yin and yang universes.

Dark matter evolves the positive and negative matter of the universe, annihilating each other positively and negatively to generate more energy. In various ways, the mystery of the origin of the universe may have begun to unveil Qin Tiange's mystery.

"swallow!"

Qin Tiange suddenly opened his mouth and swallowed a huge wave outside suddenly, inhaled into his body, even devouring the tides and boundless waves of the sea directly.

His approach seemed to anger the entire Jiehai, and the endless tide came in, drowning him completely, and his entire body was caught in the Jiehai.

Seeing this, Li Luo was still worried, but saw Qin Tiange float unscathed in the sea without borders, and was a little relieved.

"Chaos represents the end of everything. The positive material universe is equal to the positive evolution of the galaxy in the body. Does the dark sea of the spiritual sea equal the evolution of a creature's sea of knowledge?"

At this time, Qin Tiange suddenly thought of this problem, and suddenly felt a kind of chill in his heart, as if he had entered the spiritual sea of something.

Is the dark world of the universe the spiritual sea of something? Doesn't the positive material universe represent the Dantian galaxy world cultivated by living things?

And the spiritual world is not like a creature's sea of knowledge, which can only provide spiritual residence?

Thinking of this, Qin Tiange was covered with hair, and if that was the case, it would be a bit too scary.

"Anyway, swallow it before you talk." Qin Tiange gritted his teeth, no matter what, he was out, and now he has no ability to think about it.

Rumbling

Qin Tiange began to devour. Inside the flesh, the cells that were originally abraded were re-derived one by one, and a complete 60 trillion cell black hole erupted, launching endless swallowing power.

With the power of the flesh, he swallowed the boundless spiritual ocean, poured into the cells, and constructed independent spiritual oceans.

Each cell has a complete spiritual will that belongs to Qin Tiange, swallowing the boundless dark sea spiritual tide, and becoming a spiritual sea.

This is to transform a sea of spiritual world in the cell and then open up a dense mini cell kingdom with countless spiritual will?

boom!

Suddenly, the sea on the dark side of the universe suddenly shook, as if there was some terrible force pouring out, and it was going to crush Qin Tiange, a stowaway.

"not good!"

Qin Tiange's mind was suddenly alert, and he felt a power like he was about to wipe him out, and he immediately realized that his own attempt seemed to startle some mysterious power.

"Let's go!" His face changed slightly, and he stumbled into the strange spray without saying a word.

Together, Qin Tiange and Li Luo broke through the dark interface barriers and rushed into the positive material universe.

With a bang, there was an inexplicable collision between the barriers of the two realms, and a horrible force bombarded from the bottom, breaking through the holes of the dark barriers, causing the endless tidal waves to flood the positive material universe.

The sudden blow made Qin Tiange and Li Luo horrified. The spray was thus crushed by the students, and it exploded on the spot, causing great destruction.

Chapter 868 - Erase 1 galaxy

There was a violent explosion from the sea barrier.

With a bang, the entire barrier was penetrated and a hole was punched out, where endless tides of the sea burst and swept across.

As if the sky collapsed, the torrents rolled down like Tianhe fell into the material universe.

In the torrent of the mighty sea, a strange wave was okay, but was crushed on the spot by an inexplicable force.

Just listening to the gurgling sound, the waves crashed, and two wolverine figures rushed out of it, rushing back into the turbulent space and time of the material universe.

“Retreat!”

Qin Tiange shouted, pushed Li Luo away, and stood in front of him. The tides rolled in the sea and drowned him.

Behind him, Li Luo looked dignified, and looked at Qin Tiange, who was standing in front of him.

There is also a terrible power, whose origin is unknown, it is this power that will obliterate Qin Tiange.

“Li Luo, I filter the tide of the sea with my body, and you absorb it immediately.”
Qin Tiange gritted his teeth and whispered.

Seeing his body swell, blocking the billowing torrent, the endless tide of the sea, as if slamming into the waves.

In this way, he used the physical body as an obstacle, filtering the terrible power in the tide of the sea, as if he had been tempered.

A ray of strange waves overflowed from the body, and was seized by Li Luo to absorb it. This is to transform cells in the body.

Like Qin Tiange, they both want to transform the dark sea spiritual body in the body, and to open up the kingdom of God in the body.

boom!

Suddenly, a terrible force bombarded and struck from the mysterious sea of the dark world.

With a bang, Qin Tiange’s rude body crashed and flew into the endless stream of time and space.

Around, the tide of the violent boundary sea came out, and time and space were bumped into pieces. Both of them fell out of time and space and fell into the dim starry sky.

Click!

I saw that the starry universe suddenly collapsed, and everything disappeared at this instant, and there was no strange and oblivious annihilation.

The tide from the boundary sea directly annihilated with the cosmic material on the spot. The entire starry sky and hundreds of millions of kilometers were plunged into nothingness.

A huge galaxy with dozens of stars, the entire dim small river galaxy disappeared on the spot and was erased from the universe by mysterious forces.

Seeing such a terrible scene, Qin Tiange couldn't help but be frightened, but fortunately the two did not return to the Earth's solar system.

Otherwise, the entire solar system will definitely disappear in an instant, and you can't cry if you really want to cry.

“What a terrible power, what is it?” Qin Tiange's body returned to normal, cracks spread, and he was hit hard.

It was just too sudden, it was not clear where the blow came from, and even this force could not be measured at all.

Directly penetrated the barriers of the dark world to create a hole, and even broke through the barriers of the material universe.

The starry sky has been erased, and the endless tide of the sea is constantly flowing out of the huge cave.

The tide was like a river flowing in, destroying the sky and destroying the area where Qin Tiange and Liluo were located, a small river galaxy with dozens of planets.

Rumble ...

After a long time, the cave gradually narrowed, and finally disappeared without trace, and the tide of the sea from the roaring inside gradually subsided.

Around the world, there are still endless oceans, that is, the mysterious tide from the boundary sea, the storm of the spiritual sea.

“Suppression!”

Suddenly shouting, Qin Tiange rose to his strength and directly suppressed and isolated here, completely suppressing the remaining tide of the boundary sea.

As I saw, Qin Tiange stepped forward, folded his hands, and the boiling and roaring tide of the sea in the starry sky gradually gathered between his hands.

Click!

With a crisp sound, the endless tide of the sea was unexpectedly a strange wave by Qin Tiangesheng.

It was like a wave rolled up by the tsunami, billowing waves, and a rumbling voice of extinction came out, but it was locked.

Qin Tiange looked weird. Looking at this spray, he didn't know what he was thinking.

“The emperor ...” Li Luo flashed forward, her face full of dignity, and she didn't know what to say.

It was really dangerous just now, and the power in that medley actually penetrated the barriers of the interface of the two universes.

That terrible power, even now thinking back, is still a palpitation, too terrible and mysterious.

“No need to panic,” Qin Tiange said calmly.

He stared at a spray formed by his condensation and suppression, and said, “Look, is this spray the same as the wave we hid in before?”

“Well, it seems a bit the same.” Li Luo glanced and nodded slowly.

But Qin Tiange shook his head and said earnestly: “It’s not the same. This is what I condensed. Those remaining tides of the sea have been combined with certain particles of the material universe to form a unique energy body.”

“The weird balance of the two forces has a mystery that we do not know.” Qin Tiange said word by word.

After speaking, he looked up at the closed hole, his expression filled with grimness and solemnity.

“Huang, what happened just now?” Li Luo didn’t know why he was attacked suddenly.

Qin Tiange shook his head and said for a long time: “I don’t know. I only know that there is a force that wants to obliterate me.”

“Perhaps it was the inexplicable blow that was caused by our sneaking across the spiritual realm and trying to devour the mysterious spiritual tide of the realm.” Qin Tiange guessed.

After speaking, Qin Tiange looked down at his body. He was full of sores, and it was exactly like a honeycomb, with strange blood flowing out of the dense holes.

This blood contains a terrible energy breath and is rejected by Qin Tiange’s body self-protection mechanism.

“This kind of power ...” Qin Tiange intercepted a strange ray of power, carefully enlightened, and finally found nothing.

He was surprised to find that these strange energies were extremely scary and mysterious.

Who just attacked him and wanted to obliterate him, even at the expense of the barriers between the positive and the negative universe?

Everything shows that some things are taboo and cannot be touched. Once involved, it will cause terrible disasters.

However, Qin Tiange showed a smile and said to himself: “Although this has attracted inexplicable power to kill, we have seen great gains this time.”

He was right. Although Qin Tiange and Li Luo almost hanged under this obliteration, they still survived.

Moreover, each cell in Qin Tiange’s body has evolved into a small sea of spirit.

Once the spiritual evolution of the cells in the body is complete, finally, by virtue of the spiritual will in their own cells, a mini-dust cell mini-god kingdom is opened up.

A full 60 trillion cells of the kingdom of God were opened up. What kind of scene would it be? It would break the routine and even the ancient taboos.

It wasn't just Qin Tiange. Just now Liluo took advantage of Qin Tiange's body to filter the tides of the sea, absorbed and devoured refinery, and finally completed the initial transformation.

Her whole body cells, like Qin Tiange, have evolved a complete spiritual will.

However, the cells in Li Luo's body did not evolve into black holes, but in another form.

As for what it is, Qin Tiange didn't know. Li Luo followed his own cultivation path like him. The two paths were not the same, but in the end, they would have the same goal.

The road is closed, but the purpose and focus are the same. This is how Qin Tiange and Li Luo cross-reference each other, and then create their own path of practice.

"Okay, let's go back and settle this harvest." Qin Tiange glanced at all the materials that had been wiped around.

He had a heavy heart in him, as if he saw some secrets, but he couldn't tell them, but he had to bury them, even cut them off.

"Let's go!"

After Qin Tiange finished, he waved his hand to tear up time and space, and the two stepped directly into it and disappeared, leaving only this galaxy that turned into nothingness.

Shortly after the two left, there was a sudden volatility here, and the air was filled with terrible times.

Soon, this area of galaxy ushered in a large number of space-time strong explorations, watching the galaxies that were wiped out by each other and choked one by one.

"what happened?"

"The previous strength made me tremble."

"This galaxy has been erased by a terrible force."

One after another, the space-time powerhouses come, look out of space and time, and constantly observe this erased galaxy.

But none of them could see anything, they just felt a mysterious and terrible residual force, extremely terrifying.

Even at the level of time and space, they all felt inexplicable fear of this power, extremely disturbed, and quickly returned to the depths of space and time, blinking away.

For the unknown power, even the space-time class is extremely cautious and dare not dabble in this galaxy. After all, the kind of death palpitations is not so fun.

The higher the cultivation, the more afraid of death. This actually makes sense. If you live a long time, you will become more afraid of death.

Qin Tiange was aware of these attracted time-space powerhouses, but did not care.

For him, space-time is not the end, but a starting point, and he will embark on a higher level in the future.

This adventure to sneak across the realm of the dark world and peep into the secrets of the spiritual sea is his ambition.

Chapter 869 - Build a Galaxy Fortress

At the edge of the solar system, the starry sky ripples, and suddenly a crack in time and space opens, and two men and one woman come out from it.

“Come back.” Looking at the familiar solar system, Qin Tiange sighed inexplicably.

He looked at the solar system quietly, and suddenly felt that the solar system was not safe, and this ancestral land was not absolutely safe.

The previous two dark stars visited, and the underworld of the wandering stars came here, proving that the solar system is not safe.

Moreover, the invasion of hundreds of people has grasped the specific location of the solar system, and even the information secrets of the entire earth’s ancestors.

Thinking of this, Qin Tiange felt that his previous plan must be changed, otherwise there might be bad changes.

“Li Luo, how do you say to take the entire solar system away?” Qin Tiange said these words suddenly.

This proposal made Li Luo froze, and she frowned, “Even though the soul cultivates the stars in the body, changes the galaxy, and even changes the cosmic starry sky.”

“But really wanting to collect a star, or even a galaxy, is really difficult, because there is an inexplicable force to stop it.” Li Luo said this.

In the universe, all the galaxies and even the stars have an inexplicable power to block the collection of creatures.

Why? Think of the galaxies in your body. If there are creatures there who want to collect these planets, biological instincts have a power to resist.

Therefore, the stars and galaxies of the universe, no matter how strong or weak, you can destroy, but you can’t get into your own body.

You can even compress a star as a weapon, but you can’t put it into your body. This is the universally recognized eternal law of the nations.

“The outer universe, the human universe ...” Qin Tiange said to himself, his eyes flickered constantly, and he felt a kind of sadness.

Why did he suddenly have a sense of decadence, without any reason, feeling like a sadness pouring out of the blood from the heart.

“Huh?” Qin Tiange suddenly trembled, and the real spirit gave out a terrifying light, and a sigh, Supreme Will transformed into a heavenly knife to break these thoughts.

After doing this, Qin Tiange was shocked with a cold sweat. What happened to him, just now he would have the sadness. It was unpredictable.

I almost wiped out my will, in which case my future will be affected in some way.

“Huh, even chaosing my mind!” Qin Tiange snorted, his eyes revealing a very firm belief.

A moment ago, his mind and his will was almost wiped out. If he didn’t come to his senses, he would usually not see anything, but he would definitely accumulate the next invisible and terrible defect.

Although Li Luo didn’t know what happened to Qin Tiange, he felt that his spirit and spirit had become more condensed and firm.

At this point, Qin Tiange had understood what had just happened, because he had sneaked across the spiritual sea of the dark realm and absorbed the tide of the sea.

In his sea of consciousness, it has completely turned into a choppy endless sea of seas, where there is a whole new sea of seas.

And his true spirit will body is sinking in the realm of the sea, and is constantly being impacted by the tide, which can eliminate the willpower of a creature.

However, after Qin Tiange came to his senses, he was no longer affected. Instead, he became more and more determined. Under the tide of the boundless sea, he tempered the true immortal spirit.

“Dantian has become the universe, and the sea has become the sea, then ...”
Qin Tiange thought for a moment, suddenly hesitated.

He will look down at the Dantian world. The endless Dantian void and the rolling chaos in the center are exactly the chaotic elements.

Outside of the chaotic elementary birth, there are endless starry sky. A total of 999 galaxies orbit the chaotic elementary birthplace regularly, like the center of the universe.

With his thoughts, Dantian enveloped himself, and suddenly gave birth to a feeling of overlooking the universe.

Do 999 galaxies represent a small universe? If it grows perfectly, then it is a real big universe, isn’t he the Supreme Master of this big universe?

With this feeling, Qin Tiange suddenly looked up, looking up at the emptiness, would he also have a pair of indifferent eyes looking down at the universe?

“Huang, what’s wrong?” Li Luo felt wrong and stepped forward to ask.

Qin Tiange slowly retracted his gaze, lowered his head in thought, shook his head and said nothing, not at all.

This kind of speculation was useless, but it only increased his annoyance. He was a little irritable himself and had to cut these thoughts.

“It’s okay, you and I are ready to completely hide the solar system.” Qin Tiange looked up and proposed this idea.

That is to completely hide the solar system, prevent hundreds of creatures outside the starry sky from discovering, and keep them from coming to hunt.

“How to hide?” Li Luo was puzzled.

In the vast sky, it is very difficult to completely hide the solar system. First of all, you cannot collect these stars and the entire solar system.

Because there is some power in the entire solar system, as if the laws of the universe do not allow it.

If the universe stars and galaxies can be collected at will, the whole universe may already be empty.

Because you accept a galaxy, I accept a galaxy. How many strong people in the universe of starry sky universe, one by one, the entire universe is once again robbed.

The universe has truly perfect and autonomous laws. Creatures can destroy galaxies, but they can’t take away the entire galaxy.

Maybe some dead stars can be made into weapons, but they can’t be taken into their own body. They have some resistance.

Unless someone can break the resistance of this mysterious law, don’t think about it.

“Introducing time and space, or directly refining the solar system into a huge fort?”

At this time, Qin Tiange was in deep thought, and various ideas and methods emerged one by one, and the two of them began to discuss with Li Luo outside the solar system.

This will determine the future destiny of the solar system, whether to hide here or directly take the entire compression of the solar system as an object, of course the cost is greater.

However, if the entire solar system is made as a fortress, this is a plan that has been prepared before.

It was the earliest plan to turn the solar system into a galaxy fortress. Now it seems that the material resources in the solar system are not enough to build such a galaxy fortress.

Unless, bring together some of the galaxy resources and materials of the outer galaxy to create the solar system.

“Li Luo, you and I worked hard to bring back some of the dull galaxies around the solar system.”

In the end, Qin Tiange decided to use other galaxies to build the solar system and transform it into a galaxy fortress.

“it is good!”

Li Luo didn’t hesitate. The two stood outside the solar system, and started directly, opening up the space-time dimension and connecting the surrounding river galaxies outside the solar system.

boom!

In an instant, space-time shaking, the entire solar system violently shaken, attracting the attention of countless humans.

She soon received a rumor from Qin Tiange to prepare her to meet foreign stars. It was Qin Tiange and Li Luo who joined forces to attract the stars of the small river galaxy outside the solar system and even the material.

“Dark energy, on!”

Qin Tiange drank, and the black hole in his body suddenly burst into infinite swallowing power, drawing endless dark energy from the universe and pouring into the solar system.

With the influx of dark energy, the mass of the entire solar system is increasing, growing at an extremely rapid rate.

Dark energy can increase the mass of stars and galaxies, which is the only energy that the universe expands.

“Time and space tunnel, open!”

Drinking again, I saw a horrific spatiotemporal crack in the outer solar system that broke through the connection channel with dozens of dense small river galaxies outside the solar system.

I saw that these cracks suddenly sent out a horrible suction, covering the river galaxies, and then swallowed one giant planet after another.

These planets are all lonely planets. There is no life, but they have huge matter and energy.

With these, it is enough to build the solar system and turn it into a starry giant and galaxy fortress.

Only by ingesting enough material and energy can we complete this grand plan and build a fortress of the galaxy, which is only the ability of the strong star family.

Rumble ...

The solar system trembled, and countless people saw in horror that huge stars suddenly flew from the universe, constantly pouring into the solar system.

With the influx of endless dark energy, the mass and range of the entire solar system are constantly expanding.

This was Qin Tiange's ruthlessness. He used infinite power to attract infinite dark energy to expand the solar system, and even attracted infinite material and the planet.

The attracted matter and the planet are all pulled by a force, constantly colliding and merging, completely filling the solar system.

Qin Tiange is trying to build a fortress of the galaxy and take the solar system into the starry universe. Such a huge movement is naturally impossible to hide.

“what?”

“Someone is drawing dark energy and matter from the sky what do you want?”

“That location seems to be the ancestral land of the human race?”

At this moment, huge movements awakened a lot of powerful people in the hundreds, and even some powerful people who were hidden in time and space were shocked.

Earth, the solar system, fell into the eyes of the strong, but Qin Tiange didn't care a bit, instead he did everything, attracted dozens of small river galaxies, and finally merged into one, making the solar system a horrible galaxy fortress.

“This ancestral land of the human race wants to break through the barriers of dimension?”

“Really arrogant, break their delusions.”

Finally, several tyrannical races in the galaxy discovered the intentions of the solar system, and immediately ordered to destroy their delusions.

Even some fluctuations from the depths of time and space are vaguely condensed with horrible dimensional power, and a series of attacks from high dimensions are ready to bomb the solar system.

Chapter 870 - Break into 4 dimensions and everyone who comes is killed!

The endless dark energy of the solar system is pouring in, and the mass and range of the entire solar system are constantly expanding.

The human race and even various creatures in the solar system feel the most profound, as if in an ocean of energy, constantly absorbing endless energy.

Flowers and trees grew wildly, various creatures roared cheerfully, and humans breathed rich energy in excitement.

The extremely pure energy does not need refining at all, because this is the purest energy that Qin Tiange devoured and vomited with 60 trillion black hole cells.

With this endless amount of dark energy, the entire solar system is undergoing horrific changes, and the planet is even larger.

boom!

A roar came, and it was seen that dense and dense stars were drawn in, entered the solar system, compressed and melted into infinite matter, and began to build a huge fortress of the solar system.

Outside, countless symbols floating and flashing, flames burned, burned the entire solar system range, but did not harm every grass and tree.

The huge movement here has attracted the high-dimensional racial anger of the Milky Way, and directly opened the dimensional strike, aimed at the solar system.

“Turn on the dimensional weapon and destroy the ancestral land of the human race.”

“Bring them back to primitive times.”

The galaxy was almost alarmed, and the arrogance of the tribe's ancestral land was shocked by all ethnic groups, and it was necessary to rush into the higher dimension with the entire ancestral land.

That is to rush into the four galaxies from the three-dimensional world, it is simply to stir up the nerves of various races, naturally such existence is not allowed.

Buzz ...

The inexplicable vibrations from the Milky Way, energy converge, and the target is aimed at the solar system. A wave of energy from high dimensions is ready.

"The emperor, the high-dimensional civilization race wants to destroy us." Li Luo looked solemnly, admonishing the news.

Qin Tiange only glanced at the galaxy's range, and those areas where energy fluctuated did not care.

He sneered: "No matter who it is, we can't stop our determination to rush out of three dimensions."

"Don't care, continue to condense, attracting all the planetary masses and building the fortress of the solar system." Qin Tiange was very calm and did not care about the high-level blow from the four dimensions.

If that dimensional force cannot be blocked, the entire solar system will fall directly into the most primitive state, and even countless people will die tragically.

Such a terrible dimensional blow is a terrible disaster for the lower civilizations and it is difficult to stop.

"My sages, this is not when you are born."

Suddenly, Qin Tiange passed a word into the emptiness of time and space above his head, and he saw that in the depths of time and space, eighteen horror figures slowly subsided.

The eighteen sages were about to come out to help Qin Tiange, but were persuaded to go back and continue to dormantly.

Now they do not need to be exposed. In Qin Tiange's plan, there are no eighteen sages who break through the four-dimensional barriers. It is not necessary to use this knowledge.

"Yanji, ready to go to war!"

Qin Tiange drank coldly, issued the entire solar system war order, and broke through the dimensional barriers, then he must face a stronger enemy.

At this moment, humans in the solar system are facing the crisis of the destruction of the entire ethnic group, and it is likely that they will directly die in the starry universe with a little carelessness.

But Qin Tiange didn't have any fear. He broke out of extreme power directly, attracted infinite materials and dark energy, and finally expanded the entire solar system range by more than ten times.

Uh ...

The runes are full of sky, the sea of energy converges, and they are constantly branded into dense lines.

Various ancient arrays were played together by Qin Tiange and Li Luo, and they were interspersed endlessly, forming the entire solar system protection circle.

These ancient formations contain Pangu formations, ancient formations of various ethnic groups, and even some unknown secrets.

The whole process is very rapid, from the arrival of the planetary material from the alien galaxy, transforming the solar system, and building a galaxy fortress.

It's only been about ten minutes to complete the construction, the galaxy fortress structure has been branded, the lines are flickering, the runes are diffused and intertwined into a powerful defense.

boom!

At this moment, a high-dimensional energy bombardment from the galaxy arrived.

That energy seemed to penetrate the Milky Way and exploded above the Solar System, creating a terrible scene of extinction on the spot.

Everything is extinct, everything is destroyed, there is nothing to stop this force.

However, if you look closely, you will find that the surface of the solar system seems to have a thin layer of energy, and it can bear the high-dimensional blow.

“Time and space reversed, go back!”

As soon as a roar came, Qin Tiange tore open the sky with both hands, time and space broke, and that terrifying dimensional force burst into the space-time tunnel, and reversed directly.

With a click, in a certain area of the galaxy, a tyrannical race had just hit a high-dimensional blow, but it directly saw that the energy it had punched out inexplicably poured out of time and space.

boom!

Suddenly, dozens of stars were destroyed on the spot, and all the creatures there were landed in the most primitive state. Countless creatures died tragically, and the whole galaxy was disturbed by wailing.

“Reversing time and space?”

“Damn it, there are sometimes space-level powerhouses.”

This group was destroyed by a blow, but high-dimensional bombardment from their own group hit a galaxy in their own group.

With this attack, the galaxy was directly shot down in four dimensions, and almost all the creatures were destroyed.

Hundreds of billions of souls lived there, and they were directly destroyed, leaving only a small part of the miserable mourns.

It can be seen that the galaxy fell directly from the Milky Way and fell to the most marginal position, and even the strong ones there could not directly vaporize and disappear.

“The power of time and space, breaking the barriers and breaking into four dimensions!”

I saw a roar from the solar system, which alarmed most of the Milky Way, and countless strong thrillers, watching the ancestral land of the solar system actually move.

The solar system, accelerating directly from the edge of the Milky Way, the speed is getting faster and faster, and the whole body is covered with a gray light.

From a distance, it looks like a galaxy monster, slowly waking up, and approaching the four-dimensional barrier quickly.

Rumble ...

The solar system moved, getting faster and faster, and finally surpassed the speed of light, hitting a four-dimensional barrier.

Before waiting for the high-dimensional strikes of all ethnic groups, Qin Tiange directly attracted dark energy with supreme power, turned it into kinetic energy of the solar system, and rushed to the four-dimensional barrier.

boom!

Just listening to a violent collision, the four-dimensional space of the entire galaxy shook slightly, and a horrible explosion occurred.

The four-dimensional barrier exploded with a tremor, and then smashed in response, breaking the entire solar system.

Rumbles kept coming, and a central galaxy in the four-dimensional Milky Way galaxy suddenly experienced violent turbulence.

Dozens of stars there collapsed on the spot and were swallowed up by a galaxy that suddenly squeezed into it.

It was the solar system that came through, breaking through the four-dimensional barriers, penetrating the dimensional barrier, and rushing into the central region of the four-dimensional galaxy.

This place is very close to the Tianhe continent, and dozens of huge galaxies nearby have been attracted by inexplicable rushes.

“presumptuous!”

“Hit them back!”

At this moment, the major galaxies and strong men in the galaxy were furious, watching the solar system rushed into the four-dimensional barriers and occupied the starry sky, which was almost intolerable.

Along with the powerful dimensional attacks of all races to lock the solar system accurately, the rumbling voice of annihilation spread throughout the galaxy.

Suddenly, a brilliant light burst out of the Milky Way, which was the extinct light, bombarded by high-dimensional energy from all ethnic groups.

Hitting directly on the solar system caused a terrible big explosion, and the solar system rushed back to its original form.

Runes are as vast as sea, intertwined, and constantly destroyed in collisions and explosions, blocking these terrorist strikes from all ethnic groups.

The real test is whether the solar system can take root here, depending on whether it can withstand the terrible blows from all sides.

“The time has come to test our humanity, to show our determination to the stars, and no one can stop us from advancing to the four-dimensional path.” Qin Tiange raised his hands in imagination, and on the distant starry sky, a huge war star army Come together.

boom!

Suddenly, a terrible force gathered and compressed, and then the star field suddenly snapped down and turned into a mirror-like thing.

The Zhengzhixing Air Force Regiment was compressed into a two-dimensional mirror, and kept flying, and finally fell into Qin Tiange’s palm.

Qin Tiange’s face was cold, and he shouted, “Everyone who blocks us is no matter who they are, everyone who comes is killed!”

As soon as the voice fell, only a “bang” sound was heard. The five fingers directly crushed the two-dimensional mirror surface. A large army of galaxies sealed inside, dozens of battle stars directly exploded into powder.

“Kill everyone who comes!”

“Battle! Battle! Battle!”

The entire solar system suddenly boiled, countless humans roared and shouted, the strong gathered, ships of war fortresses, spacecraft carriers gathered, constantly shuttled inside the solar system fortress, gathered into a dense space army.

The solar system has been initially formed into a huge galaxy fortress, and the whole is a war fortress.

Inside, densely packed battle stars spread out in all directions, guarding the entire solar system fortress.

Various new types of weapons, anti-material weapons have already spread throughout human life, almost equal to the most common conventional weapons.

The most powerful weapon is a variety of rules and weapons of uprising. From the research of higher technology, my self has mastered many terrible weapons Especially with the countless resources brought back by Qin Tiange, The technology of the entire earth has long exceeded imagination.

“Comrades, this battle is endless!”

Qin Tiange suddenly pulled out the ancient sword, pointed sharply at the stars, and swore this battle, endlessly!

“kill!”

The killing sound was soaring, and the rumbling noises spread across the stars. The people of the earth finally set foot in the four-dimensional universe for the first time and witnessed countless hard-blooded killings.

From the beginning of the growth of the human race, the rise is unstoppable, and anyone who blocks it will be crushed relentlessly.

At this moment, it is not only the battle that belongs to Qin Tiange, but also the first step for the entire earth race to start the expedition to the sky.

“For survival!”

“kill!”

The human race broke into the four-dimensional galaxy, attracted the wrath of all ethnic groups, and a fierce galaxy war began.
