

Dark Ages 871

Chapter 871 - The flag does not fall, step into space and time 1

boom!

A planet exploded and turned into an endless fire, lighting up the darkness of the starry sky and seeing the dense army of galaxies.

These legions are all forces from various strong tribes, and they want to destroy the arrogant force that breaks up the dimensional barriers.

“attack!”

“Destroy the human race!”

A single order was issued, and the strong men of all ethnicities ordered the attack. Even the emperors with powerful races began to send more legions.

I saw that an interstellar wormhole on the starry sky was constructed, leading to this star field, and countless interstellar army gathered.

For one purpose, they annihilated humans on earth, and brought this power back to the three-dimensional and even lower-dimensional interface.

Bang!

Suddenly, a horrific beam of light penetrated the Milky Way and hit the star field where the solar system is located.

Suddenly, strong light illuminate this star field, and energy from a certain imperial family bombarded and hit the solar system.

However, the surface of the solar system fortress has a layer of strong horizontal energy blocking, blocking this dimensional force.

“I want to destroy the human race, just forget it!”

With a loud drink, I saw a horrible battle flag slamming into the starry sky, the banner fluttering, and the bright red flag was like a sea of blood in the starry sky, full of fiery and anger.

The five red stars shone with a radiant glow, illuminating the starry sky, which was an immortal battle flag created by Qin Tiange in the past.

This pole belongs to the immortal war banner of the Huaxia people. It brings together the immortal spirit of the entire Huaxia and even the entire earth.

Huh!

The battle flag waved, splitting the dark starry sky, chopping the dimensional blow, and smashing the terrible power.

The hunting war flag fluttered above the stars and inserted above the fortress of the solar system, exuding immortal warfare, as if it represented the spirit and warfare of the entire earth.

“The flag does not fall, and the expedition continues!”

Qin Tiange stepped on the starry sky, stood on the edge of the battle flag, and looked down at the entire area around the solar system. His cold face was full of evil spirits.

I saw his ancient sword pointing, revealing an astonishing murderous power: "Order, destroy all enemies, and Huaxia is not afraid of any race or enemy."

"Those who commit my tribe will be beaten!"

"kill!"

At this moment, the earth's human beings formed an entire body in an instant, all claiming to be the Huaxia people and an ancient branch of the human race.

The Huaxia tribe has completed a fusion of the earth. As long as they belong to the earth's human beings, they belong to Huaxia.

Under the Huaxia Immortal Battle Flag, this power was finally condensed, the first transformation was completed, and the internal unity was unified.

What Qin Tiange wants is not a loose earth-human alliance, but the strength of the entire ethnic group.

The solar system expands and moves constantly, and the huge energy structure inside it supplies the entire solar system energy to turn into a fortress and go to war.

The entire solar system is a fortress of war. Instead of shrinking from the pressure from all sides, it responded instead.

Everything is for survival and dignity!

"Fire!"

Boom Boom ...!

With an order, horrific beams of energy exploded, bombarding the interstellar army.

The tragic interstellar war, for the first time, faces threats from galaxies from all ethnic groups, which is a severe test for the Chinese people on the earth.

"Human race, the taboo is broken and must be killed."

At this moment, the sound from the battlefield of time and space, there are terrible strong can not sit still.

Seeing Qin Tiange breaking the taboo of the sky, the strong men of all races could not tolerate him to continue like this.

boom!

Time and space rupture, from the depths of time and space, a terrible strong shot, directly locked Qin Tiange, several powerful forces of time and space, to drag him into the space and time battlefield.

Seeing the pressure from time and space, Qin Tiange's eyes were cold, looking deep into space and time, he saw dozens of terrible figure unions.

“Want to drag me into the battlefield of time and space?” Qin Tiange said with a word, his eyes radiated two beams of terror.

He sneered coldly: “Since you want me to enter the battlefield of time and space, then I will set foot in time and space and kill all enemies as you wish.”

Click!

As soon as the words fell, Qin Tiange burst into time and space, stepped into the crack, and rushed into the endless space.

There is a battlefield, which belongs to the space-time battlefield. There are many time-space-level strong men of various ethnic groups who do not want Qin Tiange to exist.

In this case, it will affect the entire battle situation, and he must be dragged into the space-time battlefield, so that this human force can be easily destroyed.

boom!

Punching through the barriers of time and space, Qin Tiange stepped into time and space step by step, exuding a pressure from all over his body.

The opponent wanted him to enter the battlefield of time and space. Qin Tiange had no intention of entering now, but leaving the group was still a threat.

In this case, set foot on the battlefield of time and space and kill all enemies, this can solve the threat from higher creatures.

“Arrogance, kill him!”

Sometimes the space-level great creatures roar, and unite the digital space-time strong, directly across time and space, and come together to kill Qin Tiange.

There are eight full-time space-time powerhouses. Except for one body, there is a two-dimensional strength breath, and the rest are one-dimensional space-time powerhouses.

Faced with the eight space-time powerhouses, can Qin Tiange cope?

boom!

Qin Tiange suddenly slashed, a frontier in front of time and space was startled, and one-dimensional strength turned into a shield to block.

With a bang, the one-dimensional shield collapsed, and a strong palm split on the opponent’s face door.

Blood and water splashed into the space-time tunnel. Looking at Qin Tiange’s strength, he wound up a time-space creature, and the rest of the strong were all angry.

“Jack!”

“Just kill him!”

The eight space-time powerhouses roared and were extremely angry. They gathered a dimensional force into a killing and split into Qin Tiange.

At this moment, in the face of the forces of space and time gathered by the eight parties, the tunnel was shattered by these forces.

Qin Tiange waved his fists and thundered. The terrible space-time turbulence swept through the mighty area, and this area of time and space collapsed on the spot.

Bang bang bang ...

Deep in space and time, a fierce battle begins, and eight space-time creatures come together to kill Qin Tiange.

But as soon as they started, those time and space-level powerhouses were frightened, because Qin Tiange was too strong.

His physical body is completely not afraid of any space-time power, no matter one-dimensional or two-dimensional power, only the soldiers screaming on it, and he can't hurt.

"how come?"

"Immune to time and space?"

These time-space-level strongmen were shocked, and watching Qin Tiange not have any time-space power, as if immune to these forces.

In fact, it is not immunity, but these space-time powers are all swallowed up by his brutal crushing.

That's right, it's devouring, the horror inside Qin Tiange, outsiders can't understand the situation, 60 trillion cell black holes, connecting endless time and space, and consuming the power of time and space dimension all the time.

Can a little borrowed space-time power kill him? Stop joking, it's like Qin Tiange himself is a gate of time and space. Why fear the power of time and space?

"kill!"

Qin Tiange drank coldly, smashing the mighty space and time in front of him with a punch, penetrating some kind of barrier, and hitting the body of a very strong time and space.

With a squeak, blood and water sprayed, broken bones flew across, and the time and space-level strong man could not withstand such a fierce fist, and directly defeated.

"Dead!"

Suddenly, a cold voice came from behind, and the only two-dimensional space-time strong attacked.

One finger condenses the two-dimensional force, and completely cuts this space-time into a two-dimensional space-time mirror.

Yes, it is a mirror, which was cut out, and Qin Tiange's figure was condensed and fixed in this mirror.

"Hahaha, are you crazy?" The space-time strong laughed, waving his hand to collect this space-time mirror.

As a result, his face froze, because the mirror was immobile, he could not collect it, and he could not even control it.

“It’s just a two-dimensional mirror. Look at me breaking you.”

Suddenly, there was such a sentence in the mirror, and the cold words made the space-time powerful men around them startle.

I saw that the original figure in the mirror slowly turned around, looking at the two-dimensional space-time powerhouse.

“Impossible!” Such a scene frightened these space-time powerhouses and was sealed into two-dimensional space-time. How could they still move?

Qin Tiange’s eyes were stubborn, and he hummed, “Nothing is impossible, it’s you sitting in the well watching the sky.”

Huh!

A split with a palm, a loud noise, and the two-dimensional mirror surface shattered on the spot. Qin Tiange stepped out of the shard of Mantian dimension, intact.

“Come, calm him down!”

The eight space-time powerhouses who were present were horrified and hurried to gather the time and space power and rushed to Qin Tiange.

One-dimensional space-time particles, singularities flicker, turning into horrible silk threads.

The two-dimensional space-time mirror surface, constantly blocked, densely packed, seems to be trapped inside Qin Tiange forever.

Endless time and space, layer after layer of mirror blockade, obviously Qin Tiange scared these time and space-level strong.

However, these were useless and could not stop Qin Tiange’s footsteps. As he walked step by step, the one-dimensional lines broke and the two-dimensional mirror broke apart wherever he passed.

“Dead!”

A cold word came. Suddenly, a time and space strong man had a stiff face, looked down, and his heart did not know when it was gone.

“No ...” He growled in horror, waiting to fight back, and a murderous surge came behind him.

With a bang, the entire body exploded and turned into fragments, and all flesh and blood was swallowed up by Qin Tiange.

“Space-time level, it tastes good ...” Qin Tiange ate a sneer after he ate, his white teeth radiating a terrible light.

The remaining seven space-time powerhouses were frightened, and they couldn’t believe what kind of monster the opponent was, even they didn’t have any time-space power.

“Together, lead three-dimensional chaos and exile him.”

Suddenly, the two-dimensional space-time powerhouse roared, and the seven space-time powerhouses suddenly joined forces, opening a horror rift, and a higher-dimensional space-time force emerged from the inside.

It is a three-dimensional power, which contains a more terrible force of destruction. It directly crushes two-dimensional one-dimensional, kills everything.

The torrent of three-dimensional space-time swept through, engulfing Qin Tiange, and finally sprang into the endless stream of space-time as the space-time self-repaired.

This is exile. Qin Tiange was directly banished into the unknown space-time plane. There is no clear space-time coordinate. Don't even think about returning.

Even if it returns, it will be thousands of years or even tens of thousands of years. When he returns again, everything will be cold.

“Hahaha, good!”

“Go, destroy that tribe!”

Seeing this, the seven space-time powerhouses laughed and turned around, about to step out of time and space and destroy the human power of the solar system.

“Why do you want to leave now?”

But soon, an indifferent voice came, which made these seven space-time powerhouses stop in a footstep, turning their faces in horror, looking at the space-time area behind them.

There, the chaotic three-dimensional turbulence surging and surging, the space-time barrier was broken by some force brutally.

Chapter 872 - Cruel, swallow time and space

In the chaotic flow of three-dimensional space and time, a mighty force surging, Mao Long broke the endless space and time, broke the barriers and blasted out.

boom!

I was shocked to see that a person waved his fist to break through the barriers of time and space, and stepped out of the space and time of exile step by step.

The three-dimensional space-time frame blocked and suppressed, and wanted to exile him to endless space-time, but it was a pity that Qin Tiange punched him.

Let your time and space change, and I've blown it out with one punch. This is Qin Tiange's physical arrogance and horror now.

Huh!

Suddenly, a three-dimensional, three-dimensional space vibrated, and a bang, was blasted by Qin Tiange's punch from the inside.

Others have stepped out of the turbulence of three-dimensional space-time and came to the group of time-space-level powerful men.

“How come?”

A group of space-time powerhouses were horrified. It was incredible that Qin Tiange stepped out intact.

Can three-dimensional exile stop him? So, how powerful is the other party, isn't it beyond them?

“No, this person must have realized the power of more than three dimensions, go quickly.”

The remaining space-time powerhouses were frightened, thinking that Qin Tiange had realized the power of three dimensions.

In fact, it was they who scared themselves. Qin Tiange swallowed the gate of time and space, drawing the power of time and space in the endless black holes in his body.

In essence, Qin Tiange is still a one-dimensional powerhouse in time and space, but he can use more than two-dimensional power.

Because he swallowed the gate of time and space, it is equivalent to the black hole in the body connecting endless space and time, which can attract one-dimensional and two-dimensional power into the body and continue to train.

At present, it is only the two-dimensional force into the body quenching stage, there is no surpassing the three-dimensional force.

As for why you are not afraid of being trapped by a three-dimensional cube, or even exiled, kidding, can you exile a spatiotemporal door?

Qin Tiange is a living space-time gate, and any force that exiles space-time is invalid.

“Want to leave, late!”

Qin Tiange Lengheng stepped through the dense one-dimensional line of time and space, and collapsed one side after another two-dimensional mirror.

“Damn, why aren't you afraid of the power of three-dimensional space-time?” A time-space powerhouse growled suddenly as Qin Tiange caught up.

He continued to make one-dimensional lines, countless singularities converged, and turned into a terrible space-time strangulation force.

It is a pity that these forces hit Qin Tiange's body, but they made a crisp clang.

boom!

In response to Qin Tiange's fierce blow, his fist hit the face door, leaving a deep punch on the spot, and his bones were broken.

A violent blow almost made the time and space strong person reimbursed. If he was not strong enough, he might be killed in one punch.

“Ah” came with a scream, the other space-time powerhouses looked at it, and suddenly the heart shrank suddenly.

Seeing Qin Tiange stepping on the time and space strong Tian Ling, the power erupted, and for a moment, the time and space creature was directly reimbursed.

The headless corpse was shattered and smelted by Qin Tiange and devoured, it was really fierce and scary.

“You, dare you devour time and space creatures?”

“Aren’t you afraid of attracting judges?”

The group of time and space-level powerhouses was stunned. Qin Tiange swallowed two time-space-level powerhouses in a row. It was nothing before, but now they look dared. Doesn’t it mean that the other party is not afraid of the judge?

Qin Tiange turned around and swept through these terrifying space-time creatures, disdaining: “Judge? Let him come, as long as he is not the master, whoever comes will fall equally.”

“So arrogant!”

The remaining six space-time powerhouses were shocked. Qin Tiange was arrogant and confident, and even said that the judges would all fall.

In addition, Qin Tiange said that the masters of these six space-time powerhouses were frightened and a little hairy.

Has Qin Tiange met the Lord of the Realms? Otherwise, how could he have such conceit?

“Fight with him!”

“Send a message and let the judges resolve him.”

Soon, the agreement of the six space-time powerhouses must be desperate, otherwise they may really be killed.

Even they can’t compete, they must attract the judge, otherwise no one can really fight this monster.

“Building time and space, battlefield channels!”

Suddenly a loud rumor came, Qin Tiange slammed two meters, watching the six space-time powerhouses explode in unison, and burst into space and time.

There is an endless world connected there, desolate, full of chaotic airflow, which is completely chaotic time and space.

“Time and space battlefield?” Qin Tiange muttered word by word, seeing the mystery of the vast space and time.

It is the space-time battlefield. The six space-time powerhouses originally came down to believe that they wanted to obliterate Qin Tiange, and they never swallowed two.

Now I have to open the passage of time and space battlefield, this is to lead Qin Tiange into the battle of time and space battle.

“You are strong, and you have the ability to enter the battlefield of time and space.”

The two-dimensional space-time strongman sneered, stepped into the space-time tunnel and entered the space-time battlefield directly.

The remaining five space-time powerhouses set foot in the space-time battlefield, in fact, they did not want to do so.

But Qin Tiange put too much pressure on them, killing the wrists of two space-time powerhouses in horror.

Forced by this threat, the six space-time powerhouses cost a lot of money and directly linked the space-time battlefield into a channel.

As long as you enter the space-time battlefield, it is temporarily safe, because you cannot enter it.

The inexplicable law of time and space restricts the time and space-level strong to come out, step into it, and must live there forever.

Unless you can break through the restrictions of time and space and break this taboo, you can't do it, and you can only leave the space and time of battle if you break through the higher level.

"I thought it was safe to escape to the battlefield of time and space?" Qin Tiange snorted, showing an ironic smile.

I saw that his body suddenly shook, and there was a strange wave around the space and time inexplicably.

Click!

With a crisp sound, the six space-time powerhouses were bewildering, looking for sound, and even saw that the channel they had built directly collapsed.

The space-time tunnel collapsed, and the side connecting the space-time battlefield disappeared, leaving the six space-time powerhouses cold.

"No, no, no!"

Sometimes the space creature screamed in horror. Seeing that it was about to step into the space-time battlefield, it just collapsed and disappeared.

"It's over!"

The six space-time creatures, all with cold hands and feet, felt the horrific killing intention from Qin Tiange.

Qi Qi turned around and she really saw Qin Tiange already standing in front of them, his eyes showing the cold chill.

"Now go on the road!"

As soon as Qin Tiange's words had fallen, people had disappeared, and a muffled sound came, and five space-time powerful men looked for their voices.

“Uh,” the outermost time and space-level strong man, constantly spitting blood in his throat, a stream of blood containing the meaning of time and space is constantly pouring out.

He was frightened, a hole was punched through his neck, a hole was exposed on his chest, both sides were transparent, and his heart was gone.

“what”

Another scream came, and the four space-time powerhouses saw in horror that a companion not far away was inexplicably covered by the whole body; the waist was cut into two quarters.

Qin Tiange’s figure emerged, his eyes stared sternly at the remaining four space-time powerhouses, scaring them all to take a step back.

“You” someone opened his mouth and wanted to scold. As a result, he couldn’t say the next sentence.

His head soared in time and space, clicked and crushed into powder by the storm of time and space, and completely fell.

It is not clear whether another was killed or how they were killed. Even their consciousness can be clearly reflected. However, they may feel that they cannot make effective actions.

“Time, time is deprived of time and space.”

Finally, the two-dimensional space-time powerhouse screamed in horror, and found the secret, inside the space-time around everyone.

Being deprived of time is tantamount to having no time and being still and nothing, so these space-time powerful people suddenly feel dull and unable to move.

“I now understand that you are not dead unjustly.” Qin Tiange’s indifferent tone came, step by step towards the remaining three space-time powerhouses in front of him.

The three strong are all space-time, a powerful creature that understands two-dimensional power.

He can easily manipulate the two-dimensional space-time power to trap opponents, and even pinch countless creatures and even civilizations.

It is a pity that in front of Qin Tiange, this power has no effect at all. Qin Tiange, who has been subjected to two-dimensional force training all the time, how can he fear these forces?

“Dead!”

Bang!

The two one-dimensional space-time strongmen had no time to scream, and their heads were smashed by Qin Tiange.

In the end, the two-dimensional space-time powerhouse was terrified, almost guilty, and almost scared to death.

He couldn't move, his consciousness could turn, but his body was still and suppressed, and in the space and time around him, the power belonging to time was deprived.

Qin Tiange directly deprived of time, here is tantamount to a world where absolute time is still.

“This seat is dead and won't make you feel better.”

Suddenly, the two-dimensional space-time strongman growled, his eyes were insane, and his body suddenly burst into a terrible source of power.

It was the source of time and space, which was directly ignited by him, and the power of the source of time and space was drawn out, and Qin Tiange was to be drawn into the water together.

“Dead, die with this seat, ha ha ha ha”

The two-dimensional strong laughed frantically before his death, watching his body burn, and the power of the time and space that erupted was vast and obliterated.

“It's impossible!” However, his face was stiff, the laughter came to an abrupt end, his eyes were raised, showing an incredible luster.

Chapter 873 - Mysterious 10-dimensional, draw on the origin of time and space

“impossible!”

A scream came, the two-dimensional space-time strong was terrified, his eyes were raised, and he couldn't believe the scene he saw before he died.

I saw that the source of time and space that he had ushered in came out of the mysterious space and time, and it seemed like it would kill everything.

The origin of time and space drowned Qin Tiange and continued to obliterate, forming a terrible obliterating force.

But strangely, Qin Tiange's body has not been wiped out, but has become stronger and stronger, as if he is absorbing the power of this time and space origin.

Not to mention the two-dimensional space-time powerhouse, Qin Tiange himself was stunned, but he did not expect that the other party directly ignited himself, attracting the origin of time and space.

“Hahahaha” saw this, even if calm as Qin Tiange could not help but laugh out loud.

He almost burst into tears and looked at the raised two-dimensional space-time powerhouse in front of his eyes. He had to be grateful.

“Stepping through the iron shoes and finding nowhere, no effort is needed. Thank you so much. I didn't expect that you were so good before you died. Send me a source of time and space.” Qin Tian Goha laughed.

“Er you” The two-dimensional space-time strong man didn't believe what he wanted to say, but unfortunately he couldn't say it anymore. The whole person disappeared completely and turned into nothingness.

When he died, the gods were destroyed at the cost of bringing in the origin of time and space, which was a terrible power.

This kind of power claims to be beyond the nine dimensions of space-time, and the rumor hides the original power of the tenth dimension of space-time.

Nine-dimensional integration is the tenth dimension, the hidden higher-dimensional power of time and space, which can obliterate any strong person in time and space.

It is rumored that the space-time strong can only understand the power of the nine dimensions, but there is such a rumor that there is one dimension above the nine dimensions, which is called the tenth dimension of time and space.

The power there is the power of the origin, and no one can understand the power of the tenth dimension, because that is the energy that destroys all time and space.

But what made this two-dimensional space-time strongman never think that the ten-dimensional origin that he had incurred at the cost of extinction of the gods could not obliterate Qin Tiange.

boom!

At this time, the mighty ten-dimensional time and space originated, constantly trying to obliterate Qin Tiange.

Strangely enough, this ten-dimensional force could not obliterate Qin Tiange, and was actually consumed by the 60 trillion cell black holes in his body.

Yes, Qin Tiange's body instinctively absorbs the power of these time and space origins.

Even in the body, the heart of time and space began to shine, and a force of swallowing up erupted, madly grabbing this source of power from the legendary ten-dimensional time and space.

This power seemed to have been prepared for him, and was simply absorbed.

The rumored erasure of all time and space did not happen to him, but instead brought endless opportunities and benefits to Qin Tiange.

"Big chance, great fortune, hahaha" Qin Tiange, while fleeing the source frantically, swallowed and laughed fiercely.

Too unexpected, this two-dimensional space-time powerhouse did not hesitate to bring about the origins of time and space, the ten-dimensional power, but could not obliterate him.

This was really unexpected. Qin Tiange did not expect the other party to be so good, and sent a ten-dimensional space-time origin directly.

"Swallow!" Qin Tiange opened his mouth and released endless phagocytosis. The 60 trillion black hole cells in the body seemed to explode, directly bursting out the strongest phagocytic force to draw endless space-time origin.

This opportunity should not be missed, otherwise it is really difficult to have a chance to see the origin of the ten-dimensional space-time origin, which is simply opening the door to the tenth-dimensional space-time origin.

“Good guy, great guy!”

Qin Tiange, while devouring madly, was grateful to the two-dimensional space-time powerhouse. He was really a good guy.

He thought about it, such a good person would be just a dozen more.

Buzz

Time and space are boiling, and the chaotic dimensional power seems to be shaking and shaky under the tenth dimension of space and time.

The whole space and time caused great uneasiness and turbulence, as if the ten-dimensional origin would crush all space and time in one fell swoop.

Qin Tiange has long since disappeared, and his body is plunging into the endless ten-dimensional source of power, looting wildly.

This ten-dimensional origin of space and time, instead of being unable to obliterate Qin Tiange, opened a door to the mysterious ten-dimensional origin of space and time.

Swallowing the gate of time and space, Qin Tiange could have attracted the power of one to nine dimensions of time and space, but never felt the existence of the tenth dimension.

But now some people have attracted the power of the tenth dimension of time and space, which opened Qin Tiange to the more mysterious tenth dimension of time and space.

He devoured the tenth-dimensional space-time origin, which is equivalent to building a passage to the tenth-dimensional space-time origin in the black hole in the body.

How can we not be excited about such a good thing? Qin Tiange snatched together, devouring most of this ten-dimensional space-time origin, and finally went back into the ten-dimensional tunnel to draw the more vast source of power there.

boom!

As a result, the ten-dimensional time and space origin felt the threat, and a terror shock broke out immediately, and then the power was disconnected.

With a bang, all the ten-dimensional space-time origins were swallowed up, and the source of that power was cut off directly.

Seeing this, Qin Tiange felt a little regretful, but showed a smile of satisfaction.

“Very good, I finally captured the secrets of the ten-dimensional origin time and space. It turned out that the ten-dimensional origin time and space really existed.” Qin Tiange said to himself, his heart was extremely shaken.

He didn’t believe this rumor at first. Now, at first glance, the good guy really has the tenth dimension of origin.

This time, he completely opened the door to the tenth-dimensional mysterious origin time and space.

I have just devoured many ten-dimensional space-time origins, and have already begun to construct a channel to communicate the ten-dimensional mysterious origins in the body.

As long as a little time passes, Qin Tiange can run through this ten-dimensional channel, attracting the endless power of ten-dimensional time and space.

At that time, even if the Nine-dimensional Powerful is coming, it is not his opponent. This is why Qin Tiange is happy.

Moreover, the ten-dimensional origin of time and space has a more mysterious power. As long as you understand this power, it is only a matter of minutes to become the master.

It is even possible to go further and become a higher-level existence that is far beyond the Lord of the Realm. That is what Qin Tiange values most.

Huh!

Suddenly, time and space broke apart, and a beautiful figure came out from inside, and it was Li Luo who came.

She had many scars on her body. Obviously, this battle made her a little bit embarrassed, but she could come back to prove that her opponent was dead.

“How?” Qin Tiange asked with a smile.

Li Luo bowed his head and said softly: “Six one-dimensional strong men, two two-dimensional strong men were assassinated and their bodies were here.”

“well!”

Qin Tiange laughed, it was a bumper harvest, and then he gathered the corpses floating around in the sporadic space and time.

These are the time and space powerhouses killed by this time, even those with Li Luo killed, the bodies of more than a dozen time and space powerhouses.

These corpses are still useful. Since Qin Tiange obtained the tenth-dimensional space-time origin, he has no plan to devour these time-space corpses.

“Li Luo, you return these corpses to the solar system biology department, and tell your ego to thoroughly understand the mysteries of time and space and build weapons of time and space.”

Qin Tiange threw all the body to Li Luo and took it away, but instead of leaving here, he looked towards a certain area.

Before he had sensed it, there was a familiar breath, the breath that had led his daughter purple clothes away.

“Purple Clothes” Qin Tiange murmured to himself, his eyes revealing a horrible murderous power.

The inability to confront in the past, watched as Ziyi was taken away, and now, finally, felt the breath of the space-time creature.

“The accounts of the past are settled today.”

Qin Tiange talked to himself, stepped into the chaotic flow of space and time, and shuttled in the intersecting lines of space and time.

He walked through the mirrors of space and time, through the layers of space and time, and came to a mysterious space-time area.

Here, there is a terrible breath hidden and extremely familiar. It was on the earth that Qin Tiange watched as Ziyi was taken away by the other party and was powerless.

“Where is the visit?”

A word of indifference and coldness came in front of time and space through a kind of deep and hoarse slaughter.

This voice and breath, Qin Tiange will never forget, at first the other party took away Ziyi Sheng across endless time and space.

Until now, Qin Tiange had not sensed the breath of Ziyi, which made Qin Tiange extremely annoyed.

“Come to kill you!”

Word by word, Qin Tiange stepped into this mysterious time and space, filled with horror and vitality, and locked a horror figure in the mist.

That man turned out to be a three-dimensional strong man of time and space. The body was densely surrounded by three-dimensional three-dimensional, layered, seemingly right in front of him, but there is endless space and time.

“boom!”

A burst of explosion spread, dense dense faults appeared in time and space, isolated Qin Tiange’s area, as if to block the suppression and bury him.

A tyrannical breath permeated, two gas engines collided, and the war broke out.

Chapter 874 - 3D Demon Corps, kill directly

A loud noise came, time and space burst, endless undercurrent boiling roaring, separating the two terrible figures.

The two men collided with each other’s breath, agitating time and space, and terrible coercion swept through, causing shock and turbulence around them.

“The Huangquan clan, the corpse of time and space, the old account, it is time to liquidate it today.”

Qin Tiange uttered this sentence word by word, revealing endless killings, his eyes lit up a fierce evil spirit.

“Is that you?” On the opposite side, the terrible thing slowly emerged, and the dense space and time surrounding it were isolated.

It is the former Huangquan corpse strongman who led purple clothes away, the space-time demons, the yellowish pupils emit faint demon light, the corpse is surging, and shocks time and space.

A terrestrial corpse, how terrible it is, and a terrestrial corpse that understands three dimensions.

This kind of thing is very fierce, it can't be found in time and space. If Qin Tiange is not so impressed with this breath, the powerlessness and hatred have been in his heart.

Suddenly I sensed this breath, and immediately locked it up, and came directly, to calculate the old account of the past.

"I never thought that a little human race of the past would grow to the point where it is today."

The corpse of time and space speaks to himself, the dark yellow light glows in the indifferent eyes, the vicious air is exposed, and the killing heart has risen.

This space-time demonic corpse of the Huangquan tribe never imagined that a little cricket ant of the past would grow to this step.

What's more terrible is that Qin Tiange's growing up time is too short, almost the blink of his eyes in his eyes has grown to the point where he is now.

How could such a monster not be shocked, and an extremely powerful killing was born in his heart.

"In the beginning, if there was no obstructive force to block it, this seat would have killed you as an ant." The corpse said fiercely.

His yellow eyes were staring at Qin Tiange, his muscles and skin were faint with dark yellow corpses, and the strange patterns were intertwined and spread, exuding the breath of three-dimensional space.

The three-dimensional space-time demonic corpse is terrible, but Qin Tiange has no fear, but shows a will to kill.

"Today, kill you!" Qin Tiange stepped forward swiftly, waving his fist through the endless time and space.

The rumbling sound rang in time and space. The style of the punch swept through three dimensions and penetrated thousands of times.

Although this punch didn't hit the demon corpse, it shocked him. Looking at the three-dimensional three-dimensional barrier that almost collapsed in front of him, there was a hint of suspicion in his heart.

"Punch through a thousand layers of three-dimensional space-time, you are the one who this deity has ever seen most want to kill."

The demon corpse moved, and there was a will-killing will in his words, and Qin Tiange threatened it.

This is the one that the demon corpse has seen the most, and Qin Tiange has made it feel the threat of terror.

"kill!"

In response to Qin Tiange's punch, the 60 trillion black holes erupted as hard as he could, and turned it into a punch.

Click! Click!

The barriers of time and space shattered, and the fist penetrated through the thousand layers of three-dimensional space and time, directly penetrated the defensive barriers and banged on the body of the demon corpse.

Just listening to the muffled noise, time and space collapsed, and there, the huge demon corpse was blown out with a punch.

Qin Tiange was hit by a powerful punch before he could dodge, as if that punch contained some great power that penetrated time and space.

“Very good, how many years, you let the deity be injured for the first time, and today you can’t keep it.” The corpse bowed his head and said to himself, looking at a shallow punch on his chest, although it was just a little trauma, but it was enough. Let him move.

It has been sinking into space and time for many years, and it has forgotten it. It has not been injured for many years. Now it was hurt by Qin Tiange’s punch, which naturally angered it.

“Dead!” The demon corpse turned around with a single palm from the depths of time and space.

Qin Tiange snorted, came up into the air, and struck through time and space and hit him directly.

The two fists struck each other, and a loud noise was heard from Chong Long. Time and space produced faults and dense cracks staggered.

Time and space boiled and roared, turning into a billowing torrent, and the terrible collision almost caused the destruction of time and space.

“Boy, you can die.”

Suddenly, an indifferent voice came and saw the demon corpse gently waving and pointing.

With a bang, I saw a mighty loess road running through time and space, and directly pulled Qin Tiange into it.

“Huangquan Road, funeral time and space!”

The murmur sound came, and the endless meaning of death pervaded the road of Huangquan, and the terrible force of eradication came surge.

The kind of words seemed to follow the rules, and the road was endless. A horrible skeleton caught Qin Tiange, trying to drag him underground and bury Huangquan Road.

“It’s ridiculous, all the way, want to bury me?”

Qin Tiange snorted, his body shook, and the surrounding endless bones crashed into powder.

As he walked step by step, a terrible force came from under his feet, and the whole Huangquan Road collapsed continuously.

Click! Click!

Qin Tiange's footsteps passed, Huang Quan Road collapsed, time and space were subverted, everything was extinct, and the most basic space-time particles were constantly wandering.

Let Huang Quan be endless, I can break it by myself, no force can bury his body.

“broken!”

Walking and walking, Qin Tiange suddenly issued a low roar, the rolling waves shook time and space.

A loud bang came, and the sound wave passed by, Huang Quanlu collapsed, and he was shattered.

“Well?” In time and space, the demon corpse was stunned, his eyes glowed with faint yellow light.

Qin Tiange even shouted Huangquan Road, stepped out of time and space, walked through layers of three-dimensional, and came to the demon corpse.

“Dare to face this seat, you are the first.” The corpse said quietly, as if with an arrogant look.

Qin Tiange sneered, dismissing: “You are so arrogant, no one dares to face you, how dare you say that?”

“The Lord is in front of you. You must lie on your feet like a dog and lick their toes. If you are a strong three-dimensional space-time strong, dare to say that nobody dares to face you?”

Qin Tiange's words were full of irony, making the corpse in front of him look blue and white for a while, and his heart became angry and angry.

“Don't talk about the master, the four-dimensional **** is here. How dare you say you can kill each other?”

“Do you dare to challenge those strong men in the five-dimensional space?”

“Six-dimensional, seven-dimensional, eight-dimensional, nine-dimensional, and the overbearing creatures in it, now you roar over them and try to die?”

Qin Tiange said more and more ironically, feeling that this demon corpse felt good about himself. Did he sit in space and time for too long and his brain rusted?

Feeling invincible when you understand 3D? Listening to this, the face of the corpse turned black and became the bottom of the pot. Naturally, it did not dare to yell at the space of more than four dimensions.

Dare to do so, it is estimated that there is a violent four-dimensional space-time strong immediately to suppress him directly.

“Strong words, this block killed you.”

The demon corpse was provoked, and the leisurely expression disappeared, replacing a sloppy killing intention.

Bang!

The two blows came in an instant, and Qin Tiange's fists waved, which easily resolved the opponent's punch.

“Block time and space, kill!”

Qin Tiange suddenly drank, his strength broke out, and his fist penetrated through the dense three-dimensional space-time.

He had been stinging for a long time before, in fact, in order to prevent the demon corpse from escaping, he secretly arranged time and space isolation to completely cut off the escape opportunities for both.

“Dammit, you slap this seat?” The corpse was furious, looking at the blocked time and space around him, and immediately knew that he had been deceived.

It was blocked by an inexplicable force, and a vague book floating above them was faintly visible, which was the book of time and space.

“In order to kill you and avoid the escape of your true spirit, I guess I talked nonsense to you for a long time, and now you can die.”

Qin Tiange's eyes flashed intently, one step through the shattered three-dimensional space-time, and punched in front of the demon corpse.

He launched a lore, without mercy or even nonsense, and came straight up to be the strongest punch.

Boom!

The corpse roared and slapped with a single palm, and the two collided with each other, causing the destruction of time and space, but they were suppressed by the book of time and space.

A powerful punch is not something that the corpse can resist. How terrible is the power of a 60 trillion cell black hole?

Just hearing a bang, the demon corpse was defeated, his arms were exploded, his flesh was blurred, and his body was cracked.

“Why is this power so terrifying?” The corpse flew continuously, looking at the blasted arm in shock.

Look at the body, there is a violent amount of violence from Qin Tiange, constantly tearing and destroying the body of its demon corpse.

“kill!”

Qin Tiange Li Xiao, launched a fierce **** felling, punched with one punch, the power seemed to vent like crazy without money.

The 60 trillion black holes connect the power that erupted in time and space The brutal force of the whole flesh has broken the body of the demon, flew flesh, broken the bones, and even failed to recover.

The three-dimensional space-time demons, the hatred of the past, today turned Qin Tiange into a cruel and frightful fight.

“Stop, don’t you want your daughter anymore?”

Finally, after a tragic brutal beating, this space-time monster screamed in horror and threatened.

This made Qin Tiange’s fist stop, only three centimeters away from his face, and his fist broke into the sea.

“Purple clothes” Qin Tiange murmured with his head down, and suddenly looked up, saying, “I don’t want to repeat the weakness of the past. If you don’t die, I can’t think well.”

“You” the corpse shouted in horror.

flutter!

As soon as the words fell, Qin Tiange suddenly looked up, his eyes flickered with two beams of horror, and a fist burst into the door of the demon corpse with a click.

Chapter 875 - Ziyi's news, confrontation judge

With a click, his fist penetrated his head and struck through.

Qin Tiange stood there, looking at the demon corpse that was pierced through his brain, the other party was not dead.

“You, it’s impossible so strong, why?” The corpse said intermittently.

It doesn’t believe why Qin Tiange is so arrogant, he just can’t stop it, and the three-dimensional space-time power can’t defend that punch.

His body was tempered by three-dimensional space-time forces, and even a dense three-dimensional defense layer was built.

But this three-dimensional space-time can’t stop Qin Tiange’s punch and is passed through.

“Lonely, die!” Qin Tiange spit out indifferently, his arm trembled, and his head smashed.

When an aura of light flew out, it was necessary to tear away time and space, and it was the true spirit of the demon corpse, which was fast.

Hum!

But soon it was crushed by a force, and a mysterious book floated, suppressing its true spirit.

“I have been prepared for your true spirit to escape.” Qin Tiange said to himself, shaking off the blood on his fist.

He stepped forward, raised his hand to suppress, and pinched the real spirit of the demon with his five fingers.

“Do you dare?” The demon screamed, the true spirit kept burning and shaking, and a force of three-dimensional space and time poured out to prevent Qin Tiange’s suppression.

Unfortunately, this force could not stop Qin Tiange at all, and the five fingers squeezed hard, and the rattling sound continued to come.

On top of the demon corpse, layers of three-dimensional space-time barriers are constantly cracking, making Qin Tiange Sheng burst.

“Swallow!” Qin Tiange sternly, holding the real spirit of the demon corpse, swallowed directly into his stomach.

“Ah ... you violated the law of life, you must not die ...” The real spirit of the corpse screamed, faintly, and finally went out completely with a bang.

This three-dimensional space-time demonic corpse was bombarded by Qin Tiange in this way, and the real spirit couldn’t run away, which he swallowed in one go.

There was a puppet in the sea, and the true spirit of Qin Tiange poured out, constantly destroying the true spirit of the corpse, devouring and absorbing the energy and memory inside.

The majestic memory of the true spirit allowed Qin Tiange to plunder as much as possible, leaving no trace of even a mysterious force in the true spirit.

The true spirit of Qin Tiange, surrounded by densely packed ground truths, is another mysterious ground book.

Under this kind of strength, the protection of the demon corpse’s spirit is virtually useless, it collapses at once, and all secrets are captured.

After swallowing up the opponent’s true spirit, Qin Tiange gained a huge information memory in addition to a three-dimensional space-time monster corpse true spirit energy.

The secrets about the Huangquan Corps and even its own are revealed one by one without any secrets.

In the end, Qin Tiange found the secret of the Huangquan corpse, and even found information about where the purple clothing was.

“Huang Quanxing, isn’t it in the galaxy?” Qin Tiange held on to the memory of the demon corpse.

Because originally thought that Huang Quanxing was in the Milky Way, but now it is not the case.

Huang Quanxing is not in the Milky Way, but another huge galaxy, and the Huangquan Corps is completely overlord there.

A galaxy hegemon, Huangquan Corps, is the superhegemon of the Huangquan galaxy.

“It turns out that Huang Quanxing is not in the Milky Way, but a large galaxy farther away from the Milky Way, the Huangquan Large Galaxy.” Qin Tiange muttered to himself, with a heavy heart in his heart.

Because, according to the memory of this demon corpse, it was learned that the former purple clothing was taken to Huang Quanxing, isn't it a vast universe of galaxies.

The distance between the Milky Way galaxy and the Huangquan Galaxy is more than 3 million light-years away. If you do not have a forceful approach, you may have difficulty going there.

“Purple, wait for me, I'll pick you up soon.”

Qin Tiange stood silent for a long time before looking at the dead headless corpse, still moving, his arms shaking regularly.

Seeing this, Qin Tiange understands that if this demon corpse is not destroyed, a brand new will will be born again after tens of thousands of years.

The demon corpse is a strange existence. The people of the Huangquan corps will regenerate a new spirit even if they die.

This is the horror of the corpse. After the death, the corpse is buried, and a new spirit will soon be born, and then crawl out of the grave.

The corpse clan, respected by Huang Quan, belongs to the corpse emperor family, and it is difficult to kill or even compete.

This is not just that the corpse of the opponent is arrogant and immortal. It is rumored that the corpses of some Huangquan people simply cannot be killed.

After experiencing countless birth consciousnesses and repeated tempering, the corpse was completely transformed into an alternative immortality.

Zombies have always been a special group in the universe. As long as they are corpses, no matter zombies, zombies, or any corpses, they all belong to corpses.

This time when the former corpse demon corpse was killed, a three-dimensional space-time powerful demon corpse, Qin Tiange's mind was mastered, and he finally cut off a puppet in his heart.

But Ziyi's news became a hurdle, which made Qin Tiange feel depressed and a little irritable.
boom!

Suddenly, Qin Tiange raised his hand and smashed the tyrannical demon corpse, and on the spot refined it into an energy to devour it.

If you want to continue to give birth to spiritual intelligence, that is impossible. The only end is to be swallowed by Qin Tiange.

He didn't know how many creatures he devoured. Anyway, he has devoured the strong one along the way, and constantly improved his physical potential and heritage.

The effect of this is obvious. Qin Tiange feels that his body's potential has reached an endless level.

As for how strong it is, he doesn't know. He only knows that he will devour all the way to grow, there is no harm anyway.

“Ok?”

Just after swallowing the original energy of this demon corpse, Qin Tiange frowned suddenly, his eyes staring at somewhere in time and space suddenly.

The isolated space and time slowly dispersed, and saw a terrible force directly bombarded.

“Look for death!” Qin Tiange snorted, raised his hand and collapsed the spacetime in front, breaking through the barriers.

With a bang, the inexplicable force collapsed and dissipated on the spot, and there was a collapse in space and time, and dense faults staggered.

Qin Tiange is standing on the fault of space-time, looking at the height of space-time, where a terrible breath is exposed.

“Hide and hide, get out!”

Suddenly, Qin Tiange yelled and punched directly into the space and time.

The violent power runs through time and space, and the turbulence in the depths of time and space draws a terrible power.

“presumptuous!”

With a cold drink, an existence from the depths of time and space directly hit through here.

That mighty force, from more than four dimensions of time and space, seems to be directed at Qin Tiange himself.

boom!

The two forces collided in space and time, and the area of space and time showed signs of collapse and countercurrent, which gradually subsided.

When the chaos subsided there, a terrible breath permeated, and the stronger man of time and space shot Qin Tiange.

“Blatantly violated the law of life and dared to take action against this seat. You have been included in the court trial list.”

“Look down immediately and go back to trial with this seat!”

Indifferent words spread through every corner of space-time, one-dimensional, two-dimensional, three-dimensional, four-dimensional space-time, with a strong breath awakened.

As soon as this word came out, the whole space-time was almost boiling, and many strong men in space-time were awakened.

“Judge of the life court!”

“Who brought the judges?”

A horror sounded in time and space. A strong man saw the situation here. The voice came from the judge of the life court.

That's right, the one who wants to kill Qin Tiange is the judge?

“Judge?”

Qin Tiange stared at his eyes, staring at the dim shadow in the higher dimension of time and space. The figure didn't look real, but he could feel the horror of the other side.

Extremely strong, this is the first feeling of Qin Tiange, the judge is very strong and terrifying.

It feels that the judge is an invincible existence, and it can be killed at any time and space level.

“Eight dimensions, or nine dimensions?” Qin Tiange thought silently. The strength of the other side surprised him.

He once killed an orderer in the court of life, capable of one-dimensional time and space.

Unexpectedly, in another institution of the life court, the judges were so arrogant and terrible that it is no wonder that they can be called to try thousands of people.

“If you want to get me back to trial, it depends on whether you have the ability. Try it?”

Qin Tiange didn't panic at all. Standing in the spatiotemporal fault, looking at a higher dimension of spacetime, his eyes showed a firmness.

These words shocked and silenced some strong men who were hiding time and space.

Who is this man who is so arrogant that he doesn't look at the judge?

“You will pay for it.”

A faint voice came, with a trace of cold killing, and the judge was angry.

How do you know Qin Tiange sneered and said, “Don't talk big, let's just project together. You can kill me if you dare to come, let me bury it, come on, let me see the ability of the judge.”

Quiet!

The whole time and space fell into a dead silence. The strong men from all sides were quiet and their breath was gone.

They were completely stunned by the words, and for the first time they saw someone talking to the judge like this, it was the provocation and contempt of Chi Guoguo.

Surprisingly, the judge was silent, and after a long while the breath faded away.

“This seat, remember you.”

The judge disappeared, leaving only such a sentence, which made people astounded and left?

“Sure enough?” Qin Tiange's pupils froze and secretly hummed, guessing what.

He swept around time and space, inexplicably evoking a smile, turned and stepped out of time and space, disappeared here.

The situation here spread across all time and space in an instant, many time and space powerhouses were surprised and speculated, why did the judges flinch?

The judge was unclear. This time when he appeared in the dialogue encountered by Qin Tiange, his silence receded, but like a seed of restlessness, buried in the hearts of countless strong men and women, and gradually took root.

“Time and space battlefield? A prison cage is almost the same, a prison cage breeding time and space creatures, sadly ...”

In the space-time tunnel, Qin Tiange said these words to himself, but the strange thing was that it spread throughout the whole space-time, and the radiation was extremely far away.

The whole space-time was suddenly shaken, and a wave of fluctuations pervaded. Many space-time creatures heard this soft murmur.

“Cage ...”

“The farm of space-time organisms ...”

Such words are constantly stimulating countless powerful beings in the space-time battlefield, and each one is becoming restless.

In space and time, a breath of restlessness began to emerge, and it became more and more intense, as if there was a torrent waiting to erupt.

Chapter 876 - Shock, attracting hundreds of millions of people back

In the depths of time and space, there are many powerful creatures hidden in the layers of time and space.

“Just now, why didn’t the judges start?”

A question came out that made many space-time creatures sway, and they all smelled a different kind of breath.

The judge did not take any action against Qin Tiange, but left without a word, as if he could not suppress Qin Tiange.

This situation made many creatures confined in space and time have their minds.

“Locked in time and space for countless years, isn’t it time to go out?”

“We are like creatures in a prison cage, captive in time and space.”

“Who is willing?”

A low roar came from deep in space and time, and all the creatures of all ethnic groups confined in space and time could not sit still.

The battlefield of time and space, to put it plainly, is a space-time cage, which restricts the cages of the time-space-level strong of all ethnic groups.

There are thousands of living beings in the universe, and all the powerful civilizations in space and time are here, restricted.

The life court has issued a life decree, and the space-time level must not step out of time and space. This kind of rule has always existed.

And in the battlefield of time and space, there are still judges of the life court, just like prisoners.

“The judges are different, time and space have changed, and our opportunity is here.”

“Subversion, break this cage of time and space.”

Deep in space and time, some terrible strongmen began plotting to break this space and time cage and release all the space and time creatures imprisoned here.

These are all time and space strong men from all ethnic groups. Being confined here is simply a torture and suffering.

In time and space, to put it nicely is a battlefield, and to put it ugly is a space and time cage.

As for Qin Tiange’s confrontation with the judges, he did not usher in the so-called crackdown, and even the judges left directly.

This shows that those who are strong in time and space have caught a trace of strangeness, and the judges must be different.

Even the court of life is likely to be unable to control all dimensions of time and space. Perhaps this is the only opportunity to escape from the cage of time and space.

Qin Tiange noticed an undercurrent that was brewing in time and space, but didn’t care.

At this point, he returned to the starry sky where the fortress of the solar system was located, overlooking the fierce star wars below.

The entire solar system fortress is in a ***** battle and is being stormed by the densely packed interstellar army.

To grow up in the flames of war, in order to adapt to the ***** cosmic laws of the 10,000 nations, if human races want to rise again, they must withstand this blood and fire war.

Qin Tiange did not intervene, but watched quietly, the entire solar system fortress flickered with energy, artillery fire roared, and beams of terror energy whistled.

Bang bang

The entire star field shook, dead stars burst, and even large nebulae were blown into nothingness.

In the astral field, a huge army, killed with a war star, wants to destroy this human force.

Dare to kill into the four-dimensional solar system, attracted the anger of all races, direct thunder means to destroy the solar system.

There will be death when there is war. Many soldiers in the Solar System Human Legion have died in the starry sky and bloodshed.

This is unavoidable, and only survival and adaptation to this galaxy race can survive.

boom!

Suddenly, Qin Tiange waved and threw out a corpse. The huge corpse looked very broken, but exuded a terrifying atmosphere.

This corpse is the corpse of a space-time creature, terribly terrifying, and suddenly smashed into the starry sky, smashing several battle stars.

“this is?”

“The corpse of the space-time strong?”

When the strong man of all races saw this corpse, he suddenly looked terrified, and looked at the huge corpse in horror.

Seeing this, the army and strong men of all ethnic groups were frightened, stopped the attack directly, and quickly retreated.

The corpse of a time-space-level strong man, traversing the starry universe, exudes strong weather, deterring the army and the strong of all ethnic groups.

Where this corpse came from was naturally thrown out by Qin Tiange. The purpose was to tell the solar system people that the space-time class would not fail to kill.

At the same time warn all races, even if the space-time level can not subvert the human race of the earth, come one dead, this is the end.

“Back!”

“Temporarily evacuate!”

Soon, the legions of the various ethnic groups evacuated one after another, daring not to act rashly. The body of a space-time powerful man was enough to deter everything.

This proves that this tribe has the ability to kill the space-time strong, it is incredible, and naturally cannot take risks.

Before, sometimes the space-level came down, but no one knew the specific results of the battle. Now, when I saw a space-time creature, the body was immediately frightened.

“The earth’s human heritage is still too weak, the foundation is a bit thinner, and a larger heritage must be accumulated.”

Qin Tiange said to himself, looking at the solar system ’s human base, it is a bit thinner than that of other ethnic groups.

This fight must be finished, thinking, Qin Tiange felt that it should be brought back to the previous people.

In this way, better integrate into the Huaxia tribe, become a stronger ethnic group, stand proud of the starry sky, conquer the hundreds, and grab more resources and living space.

“Say yourself, get ready, and lead other people back.”

Qin Tiange made a decision and immediately decided to bring in other people, such as the people in the Fairy Nebula.

Qin Tiange was ready to set up an altar there, and now it's time to get back and integrate into the Huaxia tribe.

This can not only strengthen the heritage of the Huaxia people, but also integrate them well, so that other people can integrate into the Huaxia people faster.

“Altar, build time and space, open!”

Suddenly, Qin Tiange threw out one of the altars, and the runes in the sky flickered, directly opening the space-time channel between the galaxies.

Instantly, millions of light-years away from the Fairy Nebula, in a small river galaxy, countless human races and purple spirits suddenly saw the altar light up.

“Everyone, come back!”

A voice came from the altar, faintly saw Qin Tiange's dim shadow, appeared on the other side of the space-time tunnel.

Seeing this, the elders and the heads of the Ziling clan immediately exhilarated, knowing that it was time, and since Qin Tiange had led them past, it was tantamount to settling down.

“All peoples, move now!”

With an order, soon the human race and the Ziling race came in, and the densely packed human race quickly gathered.

The primitive people who have already been integrated into the human race on the entire planet have begun to gather from all sides and enter the passage on the altar.

A month later, the planet was completely empty, and no figure remained. Only the barren planet was left.

In the end, the altar turned directly into a tunnel of time and space and disappeared.

At the same time, the Xingluo royal family, the formerly controlled star masters, have received news, and the order from Qin Tiange was conveyed.

Soon, the human slaves in the gods and mines were quickly gathered and left the space-time tunnel above the altar.

Densely packed, hundreds of millions of human slaves entered the tunnel of time and space with anxiety.

The result came to know that this place turned out to be an ancestral land of the human race, and many of the older generations could not bear the old tears.

“All people, you are free.”

With a bland voice coming, I saw that Qin Tiange raised his hand gently, and seized the seals of countless human races.

These slave seals, even if they invaded the blood marrow, were captured one by one and gathered in the palm of Qin Tiange.

“From this moment, no one can enslave our people.” Qin Tiange said sternly, pinching with five fingers.

With a click, all the slave seals were crushed, completely releasing these formerly enslaved people.

“Oh God, we are finally back!”

“It’s my clan emperor!”

“The Emperor! The Emperor!”

At this moment, those who returned to their own clan and gained freedom came to realize that Qin Tiange, the emperor, had led them back.

The return of hundreds of millions of ethnic groups and integration into the Huaxia ethnic group immediately increased the overall heritage of the entire Huaxia ethnic group by dozens of times.

The number of ethnic groups returned this time is huge, and hundreds of billions of ethnic groups have been returned.

As for some people who have n’t been quoted yet, or even suffering, Qin Tiange thought, find a time to get them back.

In this way, the heritage of the Huaxia tribe can be increased, and the human power of the earth’s ancestors can be further enhanced.

“Secretary, I’ll leave it to you here. I’ll go to the Broken Star and check it out. The various ethnic groups are afraid to come for the time being, but we cannot relax our vigilance.”

Qin Tiange brought in his own self and explained directly that he had to go out and visit the Broken Star.

He was still uneasy, always worried about the broken star, why did he suddenly lose track?

“The master is assured, I have already glimpsed the mysteries of time and space Maybe in the near future, I can help the master to build a time and space guard.” I said with a playful expression.

Qin Tiange laughed dumbfoundedly, and flicked her forehead and laughed: “You, first think of how to break through the space-time level, because your situation is special, I can’t give you any advice.”

“Yiji knows, the master is assured, and soon he is the time and space-level powerhouse.” Xiji said with confidence, not worried at all.

Qin Tiange shook his head and didn’t say much, took Li Luo, and the two of them tore apart the space and time stepped into it, disappeared here in a blink of an eye.

This is to go to the Broken Star to see exactly what went wrong, why is there somehow no information?

The Broken Star, what happened at the time, made Qin Tiange's shuttle accident at that time, which led to the wrong place.

Back now, Qin Tiange is going to check it out, otherwise he is uneasy.

Huh!

Soon, the two stepped out of time and space and blinked into the forgotten star field where the broken star was.

Chapter 877 - Trace the origin, the secret of the disappearance of the broken star

A lonely star field, known as the Forgotten Star Field, there are very few creatures here, even few passing.

Because there is no vitality here, there is only eternal silence, a withered planet, a broken star field, and it looks like a grave in the sky.

No one had expected that there would be a remaining force of the human race here, the Broken Star, which is the place where the human race of the earth once set foot in the starry sky.

However, such an ascending and broken star of the earth's human race disappeared mysteriously.

"Here, what happened?"

Qin Tiange and Li Luo came here, strolling in this dead star field, constantly walking, watching the broken stars.

The broken pieces scattered in the starry universe, telling the misery of the past, like a starry grave.

There is a sense of unwillingness here, as if the immortal resentment is still wandering above the stars.

"It was destroyed." Qin Tiange stopped on a broken star shard and stared quietly.

He felt a terrible wave of power, and it was still here. It was destroyed by inexplicable power here.

And where is the power, and who is it that directly destroys the frontier base stations of the Earth human race here?

The Broken Star, which is the base point of the ancestors of the earth to the four-dimensional starry sky, is now inexplicable.

There is no life breath, only eternal silence, endless sorrow permeated in this starry sky.

When he came here, Qin Tiange realized that things were not as simple as he thought. Someone directly destroyed the broken star.

"Who destroyed the Broken Star on Earth's outer base?"

Qin Tiange stood on a dim starry sky, where there was a thick interstellar dust and debris everywhere.

The fragments of the stars, the debris of the universe, are everywhere, and even some metal fragments can be seen, and the remains of the city are floating in the starry universe.

The huge fragments of the city are enough to see that in the past, the heyday here was a protective force for the earth's peoples.

The strength left over from the last era is not to say how strong it is, but at least it can protect the earth's ancestors and not destroy them.

But this force suddenly disappeared, as if being wiped out of the universe by students.

“The location of the Broken Star, right here”

In the interstellar dust, Qin Tiange and Liluo stood there, looking down at the empty starry sky, the dim star field, there was not a perfect star.

Some are just thick interstellar dust, as well as various fragments, proving that here was where the broken star was.

In addition, Qin Tiange also saw some traces of the pattern remaining, apparently the dense array of broken stars arranged in the past.

But now it's broken, as if the entire broken star was broken into pieces by the universe.

“Huang, there has been a fierce battle here.” Li Luo said with a serious expression.

There was a terrible war here. The most weird thing is that even if the broken star is in a war, it is impossible to erase it.

Does the strong human race here have no resistance, or are they killed if they can't resist at all?

Qin Tiange was silent, looking at this thick interstellar dust, his eyes continued to flash a trace of cold light.

“No matter who does it, I have to look at it, otherwise, I feel uneasy.” Qin Tiange said to himself, his expression was firm.

He wanted to see who did it, and why it suddenly destroyed the human forces outside the earth and broke the stars.

The Broken Star has always been the background of the energetic people. The oldest background is from a guardian force left over from the previous era.

It is now destroyed. As a humanoid leader and one of the emperor candidates coming out of the earth, you must figure it out.

“Time goes back, reunion.”

Qin Tiange suddenly waved his hands, playing silver signs, completely covering the starry sky.

Suddenly, a grey door opened from behind him, and the endless force of time and space poured out.

He wanted to use the power of time and space to look back at the past and see what secrets were hidden in it.

The secret of the broken star must be investigated, otherwise Qin Tiange always feels a thorn stuck in his heart.

Bang!

The starry sky trembled, endless space-time power poured in, and it was laid down in a mighty way, covering this star field.

The dead starry sky suddenly glowed with vitality, and the marks and traces continued to gather.

It was a scene that happened in the past. It was recorded in time and space and was traced back by Qin Tiange, condensing the scene of the past.

Click! Click!

With a crisp sound, fragments of broken pieces quickly gathered and reunited into a planet, extremely huge.

That planet, exuding a strong breath of life, is the only planet in this field that has life.

“Broken Star!”

Qin Tiange looked solemnly. Looking at the picture reunited, the huge star was the broken star.

Compared with the sun, this planet is more than a thousand times larger. The huge stars are shrouded in dense lines, and the defense is extremely amazing.

Back to the scene of the broken star in the past, as Qin Tiange increased the output of time and space power, finally, a complete picture was displayed in front of the two.

The secrets of the past are right here. Playback one by one is like the images recorded in time and space, and replay the scene that happened.

Qin Tiange saw from the picture that there were a large number of strong men hidden in the broken star.

Even, he also felt the breath of space and time, which is the most amazing discovery.

Sometimes the broken star of the space class is still ruined or even wiped out inexplicably?

He looked more and more dignified, looking at the starry sky scene that traced back in front of him. Inside the broken star, there were many strong human races gathered.

The star master will not say it, just say the space-time strong, there are ten strong space-time strong here.

Although the atmosphere is a bit chaotic, it is likely to be the remaining space-time strong, willing to sacrifice some repairs in order to sit in their own broken star.

But it's enough to see how powerful it is. Why are ten space-time powerhouses still sitting on the broken star?

“Hwang, look!”

Suddenly, Li Luo pointed to the corner of the picture, where a starry sky outside the broken star, a ripple emerged fiercely.

Immediately afterwards, a large group of arrogant people emerged from the inside, those who looked extremely old.

These people, without exception, are all time-space-level powerhouses, and one by one, the horrors of breath come directly here.

Headed by a hazy young man, he brought a group of space-time strong men to the broken star and directly entered the broken star.

This group of people are human races. The young people looked at the fog and could not see the lineup, but they could see the arrogance of each other from the breath.

He was wearing a purple royal robe, with a high-minded breath, standing high, as if he were a born emperor.

boom!

Soon, a huge shock came from the broken star, and then the roar shook the sky, and the starry sky shook.

There was a fierce battle there, and the Broken Star immediately burst from the inside.

With a bang, the broken star just shattered from the inside, dissipated into a ray of light, and became cosmic dust.

“Lagerstroemia, dare you?”

“kill!”

Shouting and killing shattered the starry sky, a strong man broke into space and time, a fierce fierce battle took place, but no matter how Qin Tiange increased his strength, he could not trace the source of the real fierce battle.

It is faintly visible that dozens of space-time powerhouses have teamed up to destroy the entire broken star and become cosmic dust.

Here, there is a large part of the heritage of the earth’s ancestral peoples. Countless people live here and are directly buried.

Resentment, endless resentment roars, countless hordes of resentment gathered, unwilling, growl at nothingness.

These people were suddenly overthrown, without any preparation at all, and directly turned into cosmic dust.

boom!

The picture suddenly disappeared, all the images lost their effect, and the desolate silence was restored here again, with a hint of resentment and sadness.

Qin Tiange was silent. He hadn’t moved for a long time. In retrospect of the scene just traced back, the broken star disappeared, and the people there were terribly dead.

“Huang” Li Luo gave him a worried look.

She looked at Qin Tiange, who was silent, standing there, exuding a breath of terror, and under the seemingly calm surface, in fact, a horrible storm was brewing.

“Purple MSI?” Qin Tiange bowed his head and said to himself, unable to hear any mood swings.

However, Li Luo felt the coldness of her body instinct, as strong as she could not help but shiver, it is not difficult to imagine how angry Qin Tiange was at the moment.

The mystery of the destruction of the broken star has been traced back by Qin Tiange. What really angered him was that it was his own people who destroyed the broken star.

From the ancestral home of Ziwei, the group of old immortals, and the young man wearing a purple emperor’s robe, must be the Emperor Ziwei. The old people behind are obviously the background of Ziweixing, a group of old things.

They ruthlessly destroyed the broken star, destroyed the ancient heritage on the earth, and killed a force of their own family.

Why is it too urgent to fry with the same root?

Qin Tiange closed his eyes and felt a trace of resentment floating in the interstellar dust, which was the resentment spirit from the millions of people who died of the broken star.

It is an unbearable fact that this group of people started to directly destroy the broken star.

“Very well, since you don’t miss fellowship, don’t blame me for being ruthless.”

Qin Tiange’s eyes were closed tightly, and he said to himself, word by word, exuding an icy murderous power to freeze his soul.

“Purple MSI” Qin Tiange suddenly opened his eyes Two beams of cold mans frozen the starry sky in front of them, turning them into ice.

He turned, tearing time and space, and led Li Luo to leave this lonely starfield directly, without continuing to stay, there is no need to check.

In fact, it is clear that Ziweixing ’s strong human race destroyed the broken star, which is equivalent to destroying a ray of kindness in Qin Tiange ’s heart.

Huh!

Back in the star field where the solar system is located, Qin Tiange said nothing and found his busy self.

“Send troops, follow me on the Tianhe continent and into the chaos continent.”

Qin Tiange gave a stern and direct order, preparing to lead troops to the Chaos Continent of the Tianhe continent, where it will become the territory of the Chinese people of the earth.

The Terrans of the Earth began to dominate the Chaos Continent, where the chaos of hundreds of peoples killed together, and the chaotic era of disorder was about to end. The Terrans were to smooth out the chaos order and start to reorder the chaos.

A killing is about to take place. Whether it is a killing of a hundred, ten thousand or all human races, the calamity has been brewing, and an inevitable battle.

Chapter 878 - China moves into chaos, reorders

Chaos Island, the edge of the central area, a powerful energy permeated, and then came out of it a formidable legion.

These legions were neatly walking, their military capacity was neat, and there was a silent killing air.

“Kill, clear all threats within 5,000 kilometers.”

A cold drink came, and I saw that ten large legions exploded and headed the way, and they were actually ten fighter armies.

Each one has 100,000 people, the pioneer opens the way, and the neat million elite army behind spreads out, clearing the area of 5,000 kilometers.

Battle flag hunting, killing the sky, the elite battle group from Huaxia descended on the chaotic continent of Tianhe mainland.

When Huaxia entered the chaos continent, it was necessary to clean up the chaotic order, reorganize the chaotic order, and establish a place of order belonging to the Huaxia tribe.

“The order of the Emperor, with a radius of 5,000 kilometers, is listed as a closed area in China.”

With a loud drink and spread, I saw ten huge legions killed, and everything they saw was frightening.

Suddenly, ten huge legions were killed from here, their origins are unknown, and they are extremely arrogant and terrible, crushing all enemies with an unstoppable force.

“Damn, where is this Terran Army from?”

The movement here caused a huge sensation within thousands of kilometers, and many creatures of various ethnic groups were surprised.

Watching the ten powerful armies that suddenly came out, the flag hunted, the swords and guns were set up, and the sky was cleared.

They were silent, seeing the enemy crushing directly, without any words at all, as if a killing machine without words and emotions.

In fact, this is an artificial army of gods created by ourselves. It is a super legion created by the fusion of living race genes.

Naturally, these strongest legions came to the forefront. In order to clean up a safe territory belonging to China, Qin Tiange was ruthless.

Rumble!

The shock came, and creatures of all ethnic groups within 5,000 kilometers found that they were suddenly hanged by an inexplicable army.

Before he understood what was going on, he was horrifiedly suppressed, and even crushed in the past, the chickens and dogs did not stay.

It is a kind of sweeping. There is no soul left here. The hundreds of souls have been slaughtered and crushed.

A tyrannical creature roared and launched a rebellion. As a result, it was suppressed by the strong from Huaxia.

No matter how strong they were, they were crushed by the army relentlessly. They didn't have any emotions, but just executed Qin Tiange's orders faithfully.

Even the real immortal guard did not dispatch, and the entire 5,000 km radius was quickly cleared.

Hundreds of people are not allowed to enter here, and even all kinds of horrible creatures have been ruthlessly killed. One does not stay, and the area is really emptied out.

boom!

When the place was emptied, a huge city suddenly flew out of the mist, and the rumbling unfolded directly into the central area of Chaos Island, causing a severe shock.

The city is extremely large, with a square area occupying thousands of kilometers, it is simply a behemoth.

The city gate is soaring, with three quaint characters written on it, Huaxia City.

Huaxia City is exactly a battle city created by Qin Tiange, in order to take root in Chaos Island and level up the order of Chaos Island.

This is the most important basis for China to enter chaos. As a leading battle city, it must have sufficient defense capabilities.

A battle city built in Qin Tiange's heart is naturally not to be underestimated, even the time and space-level strong can not break through here.

It is made of various starry sky metals, and even made by smelting three ore stars by Qin Tiange.

Looking at the sudden appearance of a horror battle city, it attracted the attention of all ethnic groups in Chaozhou, and even stared at it.

“Huaxia City?”

“Is this human?”

For a time, the emergence of Huaxia City caused an undercurrent of all parties in Chaozhou, and all ethnic groups began to move.

On Chaos Island, there are all kinds of murderers, all fierce, although some people are surprised to dare to enter Chaos Island.

However, seeing the human race so brazen, naturally angered many powerful forces, and some forces of various ethnic groups began to gather to prepare to destroy this so-called Huaxia City.

The Huaxia City, which covers thousands of kilometers, looks huge, but it is a drop in the sea in the whole Chaos Continent.

As for the larger cities than Huaxia City, the strength of the various ethnic groups here is not weak, or even huge.

The Tianhe continent, however, has hidden space-time and even higher-level creatures, which is not simple here.

In fact, Qin Tiange had already noticed this when he came here for the first time, but he could not change his original intention.

Chaos Island is a piece of fat in his eyes, and it is bound to take down the entire territory of Chaos Island.

For this reason, Qin Tiange did not hesitate to invite the eighteen sages who stole the time and space to sit in Huaxia City.

Eighteen space-time powerhouses, sitting in Huaxia City, have injected the firmest backing for Huaxia here.

“Every sage, Chinatown will be given to you.”

Huaxia City, in front of the Leader’s Mansion, Qin Tiange looked at the eighteen strong men in front of him in a serious look in front of him.

They are the eighteen sages, including Li Bai and Sword Demon. After their successful breakthrough, they will naturally sit in Huaxia City.

“My emperor is at ease, there is us here, and nothing is lost.”

The sword demon took the lead, and his eyes revealed two horrible destruction swordsmen, even breaking up the barriers of time and space.

But Li Bai said a heavy word, he said, “My lord, if you go to Ziwei Star, I hope to bring us.”

“Yes, my former comrades-in-arms, life and death are unknown, this blood debt must be recovered.”

“The enemies of the Broken Stars must be reported.”

The eighteen sages were furious, because Qin Tiange had told them everything about the broken star, and even showed that kind of retrospective picture.

This naturally irritated the eighteen sages, and never thought that Ziwei Xing would actually do something to his own tribe.

And directly destroyed the broken star, that is the heritage of the earth’s ancestral land for countless years.

“Everyone, it’s enough to go to Ziwei Xing. If you find the old guys, you can always lead your sages to go and kill them.”

Qin Tiange was expressionless, and in his tone was a lore of will. He couldn’t change it, apparently he had the heart of lore.

That kind of hate is not a fake, but a real pain, which was supposed to belong to the earth, but was destroyed by the Ziwei star family.

How much hatred is this? This is the same family, but it has destroyed the foundation of the earth’s ancestors. It is an invincible hatred. Not killing is not enough to calm the inner anger.

When you destroy my roots, I will destroy your entire hope. This is Qin Tiange's determination. Ziwei Xing has been listed on the list of kills.

Of course, it is limited to those old things and the strong Ziwei star. Don't even try to escape one, Qin Tiange will not allow them to continue to live.

"Here is for you, sacrifice yourself, you break through as soon as possible, and hope that Ziwei and his party will have your fighting power." Qin Tiange then looked behind him.

Xiji Qiaosheng stood out and nodded fiercely: "Master rest assured, Jiji will not let you down, only time and space level, trivial."

She said that Qin Tiange was assured that he was an independent life form derived from artificial intelligence.

Naturally there is confidence, that proves that she has absolute certainty, how to step into the pole of time and space, that is her own way.

"Li Luo, follow me to the Chaos Chau restricted area, where there is a threat that must be removed."

Later, Qin Tiange looked towards the center of Chaos Island, just behind the Huaxia City, where the Chaos Island restricted area.

When he came here before, Qin Tiange had felt a threat and was hiding in that area.

Now that the Huaxia tribe is going to dominate the chaos continent, the threat must be resolved, and no factor can affect the Huaxia dominating the chaos continent.

"Okay!" Li Luo was very straightforward without any hesitation.

As for the remaining You Ji, Fei Rou, Jing Shan, and Ruby, Qin Tiange has other arrangements.

"You Ji, Fei Rou, you go to Zizhou, and set up a business there. By thunder, gather a group of fierce gods from Chaos Island, and go to Zizhou to open up forces. I need you to build a large enough eyeliner. I need people of all races Information intelligence, can it be done? "

Qin Tiange stared at the two with serious eyes, made arrangements, and arranged an intelligence task for You Ji and Fei Rou.

"Relief the Lord, You Ji, Fei Rou must complete the task."

You Ji and Fei Rou directly led the order, and both left and went to gather a group of fierce gods from Chaos Continent, preparing to start preparing a huge intelligence agency.

What Qin Tiange wants is the information of all universes For this reason, he would not only spend huge amounts of materials, but even gather a group of fierce gods of various races by means of thunder.

“Jingshan, Ruby, you two stay in Huaxia City, practice well, familiarize yourself with the work in the dark, and have tasks for you in the future.” Qin Tiange finally made arrangements.

Jingshan, ruby, have a talent, born to walk in the dark, as if born to walk in the dark.

That was a born assassin. Qin Tiange had already seen it, so he hadn't made any arrangements, and now he finally made arrangements.

“Yes!” Jingshan and Ruby had no opinion.

After making arrangements, Qin Tiange took out an old treasure map, his eyes flickered a little.

“Go and explore the chaotic restricted area.”

After Qin Tiange finished speaking, his eyes flickered a little, and they left Huaxia City with Li Luo and stepped into the restricted area in the center of Chaos Island.

Known as the tombs of all ethnic groups, no matter what race enters it, there is no doubt that no one will come out alive.

Chapter 879 - Chaos Restricted Area, Graves of Ten Thousand Nations

The mist shrouded and the tantrum rolled, as if the beginning of chaos had come.

Desolate land, bones buried everywhere, stepping on it can all be heard, and it sounds extremely embarrassing.

Crunch!

A man and a woman walked slowly, stepped on the broken bones, and stepped into this restricted area known as the tombs of various ethnic groups.

“Hwang, there's something wrong here, I always feel something wrong.” Li Luo frowned, feeling wrong.

In principle, according to her current practice, Qin Tiange is not clear about the specific strength, and there should be no threats.

But when he stepped in here, Li Luo felt a throbbing feeling, as if something terrible was hidden inside, which could threaten her.

“Maybe, this is why I am here. There is a big secret hidden in this restricted area.” Qin Tiange looked serious and solemn.

He also felt the slightest threat, coming from this grave of tens of thousands of people, the chaotic restricted area.

What makes Qin Tiange curious is what exactly is here and why it can pose such a powerful threat to him.

Moreover, there was a faint faint tinge of induction, as if there was something in it that resonated with him.

This is incredible. There are not many things that can resonate with Qin Tiange. First of all, the resonance is very weak, and it is impossible to detect what it originated from.

He looked down at the retrieved treasure map, which was actually a route, with broken information on it, which scattered the secrets hidden in the chaotic restricted area.

As for what it was, he didn't say anything at all, and even the person who minted this treasure map did not know what was in it.

Maybe it's a conspiracy, and it has been created to attract countless strong people into it.

"This thing is useless." Qin Tiange said, crushing this old treasure map with one hand.

He didn't believe this thing, and intuitively told him that behind this treasure map acquisition was something that wanted to attract powerful people of all races to come and peek into the secret here.

This is a conspiracy. The so-called treasures are definitely in the restricted area. Needless to say, but the people behind the scenes are not at ease.

The Chaos Forbidden Zone is located in the center of Chaohe Island in the Tianhe continent. It is not unreasonable to claim that the tombs of all ethnic groups are here.

Because any strong person who comes here, no matter whether it is a black hole level or a star-level level, or even rumored that space-time level stepped into it, they cannot get out.

Why, when you come here, you will understand. After Qin Tiange stepped in here, he clearly felt the power of time and space isolation.

Here, it is not even possible to relate the dimension of time and space, and it is impossible to talk about the power of mobilizing time and space, or even break the time and space.

In this way, the space-time level is not just a bigger ant, ready to be killed at any time.

"Be careful, the space-time here appears inexplicably blurred, as if there is a force to isolate the space-time dimension." Qin Tiange warned a word.

Li Luo nodded, indicating that he had sensed that the air was isolated, as if full of strange powers.

This is like a spatiotemporal space, which is isolated in the endless space-time dimension and cannot mobilize the power of space-time.

Of course, this is not important to Qin Tiange, because in his body, 60 trillion black holes are connected to dense layers of space-time dimension, which can draw time-space power down all the time.

This is the difference between Qin Tiange and his strong foundation, otherwise it would not be easy to suppress the space-time strong.

As they walked, they watched the surroundings carefully and vigilantly. The more they walked in, the more powerful the mysterious power was.

Even after arriving in the central area, Qin Tiange was surprised to find that it was no longer possible to fly in the air.

And the most terrible point is that the space-time dimension is completely isolated, and the possibility of mobilizing the power of space-time is completely lost.

“Somewhat wrong.” Qin Tiange stopped and looked dignified.

His eyes kept flashing with strange light, glanced around, and he always felt as if it was no longer in the Tianhe continent.

After thinking about it, Qin Tiange expressed his guess: “Li Luo, have you noticed that we seem to have entered another time and space?”

“It seems that we are no longer in Chaos Island?” Li Luo said in surprise.

Qin Tiange bowed his head, it really felt like this, it seems that it is no longer in Chaoshou area.

This is amazing. If it is not in Chaos Island, then where is it, not in the central area of Chaos Island?

“It is indeed a forbidden area known as the tombs of thousands of ethnic groups. There are terrible sights everywhere. It seems that we are right.” Qin Tiange smiled without surprise.

It would be a fool to let other strong people of other races know that someone who has entered the tomb of the ten thousand nations in the chaos restricted area can laugh out.

But Qin Tiange is not stupid, because he has absolute self-confidence, and the 60 trillion black holes in the body connecting the nodes of time and space have not been affected.

This is enough, this is enough to allow Qin Tiange to come and go freely in this restricted area, and even directly hide into time and space and leave here.

“Walk and see what the secrets of the Chaos Forbidden Zone and the graves of all races are.”

Qin Tiange smiled, took Li Luo into the depths of the fog, stepped on the bones of various creatures, and walked in the restricted area like a flat ground.

Since entering here, the two have not encountered any attack, not even a little dangerous.

But how did the skeletons of the various races here form, and how did the strong men of all races die here?

Qin Tiange is curious, because he hasn’t encountered any attack or danger since he has been here for so long.

“No attack, no danger, so how did these bones come?” Li Luo asked, curiously.

She looked at the dense bones beneath her feet, all creatures of all races, and even some strong bones remained intact, exuding a strong breath.

“This is the skeleton of a space-time creature. It died in here with the breath of space-time power.”

The two came to a huge skeleton and stared quietly at the huge biological skeleton in front of them, a time-space-level creature.

This creature died here, but it was weird, no scars were visible, the bones were intact and there were no scars.

Such a weird scene, how can we not be scared, the time and space-level powerful people have died here inexplicably, why did they die?

“It is the obliteration of the will.” Qin Tiange soon obtained a surprising conclusion.

The space-time creature in front of him was killed by his will, and there was no resistance at all.

How terrible is the power of the will that can obliterate the true spirit of time and space? Qin Tiange said that he still can't easily destroy the true will of a space-time creature.

It was an obliteration that could not be resisted. Qin Tiange stated that he could kill the other true spirit, but he could not crush the will without resistance.

It was as if suddenly a force of will swept through, penetrating the other's true spirit and directly killing it.

“Is it the Lord?” Li Luo frowned, looking a little cautious.

The power of the will level can easily destroy the space-time creatures. Perhaps only the Lord can do this.

Because the Lord of the Realm has embarked on the level of immortal will, and opened up a kingdom of God in the spiritual realm of the dark universe of the universe, and the will is immortal.

This existence has been able to easily use spiritual ideas to destroy low-level creatures and even directly destroy the world.

“The Lord may be.” Qin Tiange thought for a while and shook his head to himself.

He didn't make a judgement because it was impossible to draw a conclusion as to what existence was killing the space-time creatures who entered here.

The two continued to go deeper, and gradually found that there were fewer and fewer living bodies left here.

But every creature skeleton is extremely powerful, at least it is a powerful creature of space-time level.

Seeing this, even the fool understands that this restricted area has ushered in many space-time powerhouses in the past.

Unfortunately, these space-time creatures have fallen here, and it is no wonder that no strong person has continued to enter here.

It turned out to be a tomb of thousands of people. Even space-time creatures were buried here. I have to say that the chaos restricted area is terrible.

“Hwang, look there”

Suddenly, Li Luo stopped and pointed at the rolling mist in front of him, standing a terrible corpse.

On this corpse, most of the flesh and blood remained uncorrupted, and even bright blood was flowing.

Looking at this huge corpse, humanoid creatures are standing there forever, but their skulls are inexplicably missing.

The headless corpse stood there, with its feet rooted in the desolate soil, standing still, exuding a desolate breath.

“This creature was extremely powerful during its lifetime. Judging from the breath that remains, at least it is the eight-dimensional power of space-time.” Qin Tiange stared at it from the distance and finally reached this conclusion.

A space-time, eight-dimensional, powerful creature that died here is simply shaking people’s hearts.

Who can kill the eight-dimensional strong? It is hiding in the eight-dimensional space-time, and even the body has begun to produce a time-space transformation.

At this step, the body is like a dense space-time combination.

All the forces hitting the body are isolated by the one- to eight-dimensional space-time barriers, and they can’t even break the other person’s flesh level.

Qin Tiange is still in the flesh and blood of this headless corpse. Seeing dense space-time crystals, that is a defensive barrier formed by the entanglement of space-time dimensions, as if a body constructed from time and space.

How can such a tyrannical creature kill? Even the nine-dimensional space-time powerhouse is not necessarily able to easily kill the eight-dimensional space-time powerhouse.

Because the two are actually not far behind, the nine-dimensional strong can easily rebuild the eight-dimensional space-time strong, but it is easy for the other party to escape.

Now, in front of him, the body of an eight-dimensional strongman in space and time stood up, and surprised Qin Tiange while being a little vigilant.

“Here is the power of the will”

“Huh? Be careful!”

Qin Tiange didn’t finish his words, his face changed suddenly, and he drank aloud, his eyebrows suddenly burst into endless golden light, covering the two people’s bodies.

boom!

At this moment, an invisible mysterious wave swept from the core of the restricted area, and Qi Long swept across Qin Tiange and Li Luo.

Chapter 880 - Immortal remnants

boom!

The two figures ran straight across the ground, plowing a deep ditch, and stopped until they reached 10,000 meters away.

The golden light shone, and the runes were beating, constantly emitting powerful energy, blocking the horrible idea sweeping.

Qin Tiange had a dignified face, staring suspiciously deep in the restricted area, and watching the long ditch, green smoke, plowing from the plows under the feet of the two, extremely terrifying.

“The strong idea fluctuates. One blow almost made us unable to resist. What is it?” Li Luo looked serious, staring at the core of the penalty area.

There was mist rolling and surging, and nothing could be seen at all, only a horrible wave of thoughts caused fear.

It was very sudden just now. If it wasn't for the threat of Qin Tiange's instinct, the two characters would be enveloped by the true character of the book.

It was a shock from the level of thought. It was a one-shot lore and almost explained here. It was really appalling.

No wonder the creatures who came here, even the space-time level, fell, and even the eight-dimensional space-time creatures were wiped out.

“The emperor, is it the master?” Li Luo asked solemnly.

Qin Tiange shook his head without saying a word, his eyes twinkled with light, the golden symbol beating, looking into the fog in the restricted area.

He vaguely caught a terrible wave of will, the endless feeling of being like a sea, and terrifying.

“There is something terrible inside, and that idea is obviously an attack of self-instinct. It was just a blow. If we can't stop it, we may be robbed of our spiritual will.” Qin Tiange said solemnly.

He felt the impact of the idea, with a kind of devouring conviction, directly killing the real spirit of the living creature, devouring it.

Fortunately, there is a true copy of the ground book, blocking the recent blow, otherwise the consequences are unthinkable. If you think of it like this, there is a horrible thing hidden in the chaotic restricted area.

“But” Qin Tiange blinked his eyes slightly and said, “Just a shock that made me feel another familiar atmosphere.”

After speaking, Qin Tiange himself was amazed. What was there that made him familiar?

This feeling has no origin, it seems like a familiar instinctual induction from the real spirit, as if his things were inside.

Thinking of this, Qin Tiange was even more determined to enter into a look, even if he had an unknown terrible will, he could not stop his footsteps.

“Go, let's go in, don't leave my area of three feet.” Qin Tiange said, walking with a serious face.

The two walked down the gully, step by step towards the core of the restricted area, stopped at the place where they were attacked before.

Hum!

At this moment, Qin Tiange's eyebrows burst into golden light, and the golden symbols were constantly beating out, turning into a light shield covering the two people around the three feet.

After being fully prepared, Qin Tiange and Li Luo both stepped into it, and the moment they stepped into that area, it immediately caused endless mist boiling.

Bang!

There was a sudden loud noise, and a terrible shock came, as if stepping on a step to startle something terrible.

The rumble was magnificent, sweeping all directions, smoothing out the surrounding fog, and saw a terrible wave of ideas sweeping across.

“The ground book is a true word, suppress!”

Qin Tiange drank violently, a golden symbol that had already been condensed, broke away from his hands, and slammed up.

With a violent collision, Qiong continued, and the continuous wave of ideas fluctuated really well.

The two forces collided, making a terrible howling sound, like the sound of immortal blond hair.

Qiang Qiang Qiang

The ground-character's true character flickered, and it constantly collided with a terrible will, colliding with each other, and finally disappeared.

The two annihilated each other and had the same strength, but they didn't want each other, so Qin Tiange's face changed slightly.

The earth book is a true character. He has always been the nemesis of the will of the true spirit, but he did not expect to be blocked by the opponent this time.

Although it is said that he is at the current level, the power of the ground truth is probably not the strongest.

But it is enough to show that the will is extremely terrifying, and it is incredible to block the repression of the true character of the book.

“Be careful, that will can block the soul of the book of the true meaning, it seems that this thing is not small.” Qin Tiange looked serious.

However, he did not flinch, but walked in step by step firmly, because the sense of familiarity inside it became stronger and stronger.

Even in the end, his true spirit had a fierce shock, as if something had attracted Qin Tiange's true spirit.

You know, Qin Tiange's true spirit, which belongs to the mysterious book, can cause the real spirit to shake. What is it?

"Is it so?" Qin Tiange jumped in his heart, surreptitiously guessing what he had, and couldn't help being excited.

If the guess in the heart is true, then this time is right, no matter what the danger, Qin Tiange decided to get that thing.

Hum!

At this moment, in the center of the restricted area, the fog was roaring and it was constantly tumbling, as if being affected by some force.

Then, the endless mist gathered and turned into a terrible image, killing Qin Tiange and Li Luo.

This is the transformation of ideas into various fiendish creatures, one with a terrible fierce vigor, who wants to devour Qin Tiange and Li Luo.

Huh!

"Roar!"

Roaring and shocking, the restricted area of the feature film was boiling, and all kinds of hordes were slaughtered, making people overwhelmed.

Qin Tiange's eyes were stern and he snorted coldly, and he flicked his fists and directly hit him.

There was a thumping of throbbing sounds. At the core of the restricted area, Qin Tiange and Li Luo teamed up and broke up one after another terrible evil image.

The arrogant force exploded their illusory bodies, but could not destroy the weird thoughts.

These horrible creatures gathered from thoughts, like killing undead, can explode the illusory body, but can't extinguish that terrible thought.

Huh!

Suddenly a gurgling came, Qin Tiange surging will, turned into a sky knife to slay a ferocious shadow.

With a loud scream, "Xie", the fierce shadow completely disintegrated, and even a weird thought was cut off.

Qin Tiange was not happy, because he had just struck, but he fully united his 80% of his spiritual will and turned it into a skyknife.

Such a blow was worthy of beheading and killing a ferocious shadow, and it is conceivable that the will is terrible and overbearing.

The other side is just an idea, and it is incredible that it can withstand the willpower of Qin Tiange.

"kill!"

Qin Tiange drank swiftly, and began to kill, without any scruples, and directly wrapped his will with the densely packed earth books to kill him.

He will turn into his own appearance, wielding the golden war sword, and slashing one after another terrible shadow.

Finally, when all the murderous things turned into thoughts were killed, the forbidden zone fell into a weird calm.

“Be careful, the will is awake.” Qin Tiange reminded Li Luo cautiously.

He sensed a depressing breath, coming from the fog in front of him, rolling like a tsunami.

There was a breath of ancient arrogance, and a terrible will seemed to be awakened by stimulation.

“I”

Suddenly, a low voice murmured, only a word, but the impact of boundless spiritual will.

The rumbling sound came as if the sky was falling apart, and it came like a tsunami and starburst.

“town!”

At the critical moment, Qin Tiange gave a loud shout, and the endless golden symbols poured out in his brows, turning it into a golden seal to suppress it.

With a loud bang, the restricted area exploded, and the powerful impact pushed Qin Tiange and Li Luo both out, and 蹭蹭 蹭 continued to retreat for hundreds of meters before stopping.

That overwhelming idea swept the restricted area, causing huge movements, causing countless lives to panic.

“That’s it?” Qin Tiange’s pupils shrank, looking at the core area of the restricted area, where the will had just burst out.

There was a terrible light floating there, emitting a supreme will, sweeping the sky, unstoppable.

Feeling the violent fluctuation of this spiritual level, Li Luo was moved by it and looked at the group of things in shock.

“An incomplete idea?” Li Luo screamed in horror.

Because this is really amazing. Just a mutilated idea has such terrible power?

Qin Tiange’s gaze was serious, and staring at that group of things was exactly a mutilated idea, not even the true spirit.

Not even the residual spirit is just a thought, or it is incomplete, and it is immortal, and it looks like it is recovering, and it has such terrible lethality.

Terrifying!

How terrible is the complete true soul if it is the complete mind or the master of the mind itself?

“What a terrible idea is immortal, can it be recovered? Who is it?” Qin Tiange’s face was dignified, and his golden heart continued to be released.

The ground truth is building a strong defense, blocking the constant impact of the idea, a wave is higher than a wave, endless, constantly bombarding the golden energy aperture.

Qiang Qiang Qiang

Qin Tiange held a golden symbol in both hands, constantly withstanding the terrible impact of the idea, and a terrible howling sound came from every collision.

The vast ideas and constant bombardment made Qin Tiange feel a strong threat like never before.

It wasn't this idea that made him care, but a mysterious piece floating under this idea.

“This thing” Qin Tiange's pupils suddenly opened, bursting into a brilliant light.

At this moment, Zhenling issued a strong call, almost excited to rush out by himself, but fortunately Qin Tiange suppressed the impulse.

A mysterious fragment, a terrible mutilated idea, what are they?
