

Dark Ages 901

Chapter 901 - Sworn Trial

when!

A loud noise, like the roar of a bell, shook the whole hall of judgment, and some of the relatively weak emperors of almost all kinds almost lost their consciousness.

Everyone was horrified and saw Qin Tiange penetrate through layers of time and space, his fists banging on a book.

It was a book with bright light and magnificent power, like a ***** of supreme judgment.

“Book of Judgment?”

Qin Tiange’s body shook slightly, and the powerful anti-seismic force did not make him back, but it was all right after shaking.

It was the book of judgment, which was buzzing with a punch, and almost broke.

With a powerful punch, how could the burst of power be blocked by a book.

Click!

Finally, a crisp crackle came from the book of judgment, which made the judge’s heart pound and his eyes looked terrified.

The book of judgment wailed, turning into a beam of light flying back to the judge’s head, constantly shaking, and wailing.

On the book, two small cracks were created, and one fist print was clearly visible. It is not difficult to see how terrible Qin Tiange’s punch was just.

You know, this book of judgment, but one of the strongest treasures of the judges, is definitely the top time and space treasure.

“Damn, you ruined my treasure?” The judge was furious, even more shocked.

Someone who was able to beat his book of judgment with his flesh and blood was almost horrifying.

Who can use his fist flesh and blood to break his book of top time and space treasure trials?

“The so-called trial is just your word. Who in the world can judge me?” Qin Tiange said step by step, with strong confidence in his tone.

That’s not conceit, as long as he doesn’t die, no one in the world can judge him.

boom!

The powerful breath permeated, a majestic imperial majesty was pressed against the judge, and the supreme emperor’s authority greatly changed the face of the judge.

“Human race emperor?” The judge was startled, but soon gave a faint smile.

He looked up and down Qin Tiange with a touch of pity in his eyes, as if looking at a poor creature.

“Hey, hey ... you turned out to be a contemporary emperor?” The judges laughed, the laughter was extremely weird and terrifying.

Listening to this laughter, Qin Tiange frowned slightly, always feeling that there was some meaning hidden in the other person’s smile.

“Curious what I laughed?” The judge said with a grin: “You can never know, Emperor, each generation is the most miserable, pitiful ...”

Humph!

Qin Tiange snorted, walking step by step, disdaining: “No matter what you laugh, I will know when I swallow your true spirit.”

“Arrogance, see this one kill you.”

Li Xiao, the judge, with the book of judgment hanging over his head, suddenly stabbed into the depths of time and space, and slowly pulled out a horrible war spear.

Zizi ...

On top of the war spear, there was a ray of horror, and the sacred and supreme breath permeated, deterring the emperors of all races.

“Spear of judgment?”

“Brother Qin be careful!”

Shangguan Xian’er changed his face, and when he saw what was on the judge, he couldn’t help but exclaim.

That was the spear of judgment, but it was one of the most powerful means in the court of life. It was a weapon, but it was a combination of forces.

Only the judge can capture the spear of judgment from the deep space and time, and judge all creatures, the power is extremely terrifying.

It is rumored that under the spear of judgment, no creature can stop it, and it is unclear how many strong men fell under the spear of judgment.

Huh!

A while came, I saw Qin Tiange pulling out a simple sword from the depths of time and space.

“Spear of judgment? Watch me cut you off.” Qin Tiange faceless, striding across time and space, raising his sword and chopping.

With a bang, the ancient sword split on the spear of judgment, but the spark burst and the two were intact.

Regardless of the spear of judgment or Ye Qing’s ancient sword, they are all intact, as if they are all invaluable treasures.

“A good ancient sword. This is the imperial treasure of the emperor. It seems that you are indeed the clan emperor of this generation. Unfortunately, it is destined to end your tragedy.”

The judge sighed, but showed a sneer, as if the emperor of the human race was destined to end in tragedy.

For his words, Qin Tiange did not respond, and directly raised his sword to kill, splitting the strongest blow.

Click!

Qin Tiange lifted his sword in rage, cracked in time and space, and was chopped off by Gu Jiansheng. He was unparalleled and unstoppable.

Uh ...

The two men fought fiercely into a ball, and the aftermath of the powerful collision overturned hundreds of repressed emperors of all races inside the hall.

Looking at the battle in front of them, in fact, the two were fighting and colliding in endless spacetime, breaking the kind of aftermath of battle that came out of the barriers of spacetime.

“very scary!”

“The judge of the eight-dimensional space-time class was actually blocked by that person.”

The emperors of all ethnic groups have seen Qin Tiange. He didn't feel anything at first, but now he is scared to find that the other party is too scary.

The space-time eight-dimensional judge is actually blocked by him, and he is even inextricably linked.

In fact, people with insight can see that Qin Tiange is not blocking the judge, but that the judge is resisting Qin Tiange's onslaught.

Even Shangguan Xian'er saw a little bit. The judge was suppressed and beaten by Qin Tiange. It looked like it was evenly divided, but it was actually suppressed.

It was clear from the judge's face that he was shocked at the moment, constantly blocking Qin Tiange's onslaught, and he was threatened by every move.

Especially the pure power of Qin Tiange is so powerful that time and space are punctured by it.

Coupled with the sharpness of the ancient sword, the real combat power makes the judges who are the eight-dimensional strong in space and time can not help but be thrilled.

That is the power of him plus the book of judgment, combined with the spear of judgment, to barely block Qin Tiange's terrible assault.

boom!

Once again, the ancient swords quarreled, and the spear of judgment sent a hint of sorrow, as if it could not be stopped.

Seeing this, the judge's face changed greatly, and he was waiting to fight back. As a result, Gu Jian turned into a sharp spike toward his brows, and the crisis was intense.

Ding!

The judge held the spear of judgment sideways, blocking the sword, and clanging, the ancient sword's sharp edge swallowed, but struck the spear, blocking it.

Just as he breathed a sigh of relief, the judge was covered in coldness, making a secret noise, but unfortunately it was too late to try to escape.

Flutter!

With a muffled sound and blood splattering time and space, the judge quickly flew out to smash through the dense space-time barriers.

He covered his neck, the blood and water kept falling, and there was a hint of fear in his eyes.

Almost, he almost moved his head and moved. Unexpectedly, Qin Tiange's blow was just a false move. After the killing move was hidden, he almost let his head rise.

Even if the critical moment escaped, the judge's neck was severed with a huge gap, and the whole neck almost broke.

"Damn, you ..." The judge was shouting angrily, and was about to say something, but was forced back by Qin Tiange the next moment.

With a short whistle, Qin Tiange cut a sword over the judge's head, but was blocked by the trial spear.

This spear of judgment is extremely powerful, not an entity, but an energy body that has never been seen before.

The war spear transformed into energy can block Qin Tiange for such a long time, it can be said that it is unexpected.

Click!

But after all, it cracked. The spear of judgment was cut off by the ancient sword in the middle, and it clicked and crackled, alarming all parties.

"No ..." the judge yelled in horror.

He widened his eyes, watching the spear of judgment be cut off, and then the ancient sword cut through the skull and cut it all the way.

With a click, the judge's body was stiff, and a slight blood mark gradually appeared on his brows. The body clicked and split into two halves from the center.

The judge, the powerful eight-dimensional strong in time and space, was cut in half by Qin Tiange's sword, and even the power of self-healing could not heal.

That sword contains a force to open the sky, even the sky is split, let alone a person?

"The power of time and space, the eight-dimensional power, reunion!"

Suddenly, a roar came from the split halves, and they saw that the strange halves actually stood up against each other, and then merged quickly.

With a click, the two halves merged, but an open force remained above the wound, blocking his healing.

“Want to recover, die!”

At this point, Qin Tiange stepped in front of the judge, and the cold killing froze the Quartet, leaving the judge with a cold heart.

He felt the threat of death, and for the first time in countless years, he felt the death at hand.

Hum!

The book of judgment was blocked in front of him. Unfortunately, Qin Tiange slashed it with a sword.

Hearing only a “click”, the book of judgment wailed, and then completely collapsed and dissipated.

“Suppression!” After cutting the book of trial, Qin Tiange raised his hand and hit the judge’s Tianling Gai.

With a bang, the whole hall shook, time and space collapsed, and there was a collapse of the eight-dimensional space-time.

This space-time is outlined by the judges. The eight-dimensional space-time forms an independent and absolute space-time.

Unfortunately, it was penetrated by Qin Tiange and even collapsed. With a palm cover pressed against the judge’s Tianling cover, everything was still.

“No, this seat is the judge, do you dare to move me?” The judge was terrified and gave a terrifying roar.

He felt that Qin Tiange was about to kill him, the death threat was strong, and he was really afraid of death.

Unfortunately, his threat was useless, and the people Qin Tiange was going to kill would not keep him alive.

Click!

With the sound of a popping sound everyone’s heart was beating, the judge’s head, which was about to heal, was suddenly pinched.

The entire brain was directly pinched by Qin Tiange, and the judge of eight dimensions of space and time was pinched.

“No ...” When the head exploded, a frightening scream came, and a bright light burst out.

It was the true spirit of the judge, but it was blocked by a dense golden symbol and could not escape.

“You, you can die!” Qin Tiange’s eyes were cold, his voice just fell, and he crushed the true spirit of the judge on the spot and swallowed it.

boom!

Including the headless body of the judge, at this instant they were swallowed and refined by Qin Tiange to become the source, leaving nothing behind.

In the hall of judgment, there was a dead silence, and some judges who had not died looked at this scene in horror.

Judge, swallowed up!

Chapter 902 - See also soul obliteration

In the hall of judgment, a group of people stared at Qin Tiange dumbly, and they actually bombarded the judge and swallowed it.

At this time, Qin Tiange was standing on the hall of judgment, closed his eyes, and devoured the true memory of the judge.

The purpose of his coming here is to kill the judge and capture the other’s true memory.

Helping the civilizations of all ethnic groups in the Fairy Nebula to get rid of control is only secondary. The real purpose is to lead the judges of the life court.

The purpose is to devour the true spirit, intercept memory, and peep at the secrets of the court of life.

Now that he has killed a judge, naturally he cannot afford to miss this opportunity to peek into the court of life.

boom!

In the sea, a flood of memorable information came in, and was absorbed by Qin Tiange’s true spirit, peeping at the secrets.

Gradually, Qin Tiange saw some secrets belonging to the court of life. The judge’s status was very high, and he knew more secrets.

After learning the true memory of the judge, Qin Tiange understood the terrible and mysterious life court.

The entire universe and the civilizations of the peoples are under the control of the court of life. It is truly a cosmic giant, standing high and looking down on the peoples.

The more you know, the more dignified Qin Tiange is, because the foundation and strength of the court of life is really terrifying.

It is this judge, the eight-dimensional strong and powerful, who is a low-level existence in the court of life.

The position is considered very high. In fact, he can only manage a dozen galaxy civilizations, but he cannot be involved at a higher level.

When Qin Tiange learned most of the judge’s memory, a small part of the core secrets remained in the end, and he was about to break through the restrictions to learn.

This small part of memory is extremely secretive, and even has a powerful protection mechanism, with inexplicable energy limitations.

“This force is somewhat familiar ...” Qin Tiange stared at a small group of true spirits in front of the sea.

It was the deepest memory of the judge, hiding a huge secret, which made him care.

“open!”

Without hesitation, Qin Tiange sang aloud, and the true spirit rushed away, turning it into a sharp sky knife to split that layer of defense.

The crackling sound came, and the mysterious defensive energy cracked, revealing the hidden secrets inside.

Hum!

Just after learning the secrets inside, I was met with a terrible backlash of power, which directly destroyed this memory.

“Suppression!” Qin Tiange’s eyes flashed, and he sighed angrily, directly suppressing the knowledge of the sea, and held that crashing memory.

Suddenly, he directly captured one-third of the memory inside, and a terrible breath struck down from the meditation.

Qin Tiange’s face changed slightly, and he stared at the emptiness of the sea, where a horrible mouth suddenly opened.

Without any sign, the sea of knowledge was torn directly, and even an extremely terrible force descended directly.

“Soul obliteration?” Qin Tiange said coldly.

The sea of knowledge broke apart, and there was a force of soul obliteration coming in, from the mysterious time and space, even exceeding the limit of dimensions.

That kind of power belongs to the eradicating power of the soul level. He has encountered it many times and never expected to encounter it again.

“Wanting to obliterate my soul will, you are delusional.”

Watching the mysterious killing force coming in, Qin Tiange snorted, and the true spirit bloomed with infinite golden light, covered with dense golden symbols.

As soon as I heard it, the force hit it, forming a terrible obliteration, but it was blocked by the ground truth.

The soul obliterates the power, not knowing where it comes from, but wants to obliterate Qin Tiange’s soul consciousness, as if he touched a secret that he should not understand.

Inside the true memory of the judge, there is a shocking secret hidden in it, not only self-destruct, but even an inexplicable power of eradication.

boom!

With a shock, the golden symbols of the sky swept away as a torrent, and with a boom, the crack in the sea of knowledge was directly hit.

The golden symbols rushed out, smoothing the cracks there, and truncating the mysterious and terrible eradication force.

Isolated everything, the obliterating power disappeared, and the knowledge of the sea restored peace.

“Those secrets have been erased.”

Soon, Qin Tiange frowned deeply, feeling one-third of the secrets he had learned, and finally found that the main core secrets had been erased.

The strength just now was weird, and it came suddenly, and even erased the secret in the true spirit of the judge.

This made Qin Tiange very concerned, and he was dignified. What secret did the judge have in the end, why not heed the memory directly?

It was him who played the power behind to obliterate this secret, and prevented Qin Tiange from peeping at the information, which had to attract his attention.

“What secret is hidden in the life court?” Qin Tiange muttered to himself, watching the disappearing crack in the sea of knowledge.

He blinked a golden symbol in his eyes, saw through nothingness, and traced the origin of the mysterious power just now.

Unfortunately, in the end, nothing was found, only that the power was very advanced and came from a higher level.

“Is it the master or higher?” Qin Tiange was silent.

He killed the judge and thought that he could see more secrets. He never thought of the final core secret, but he still had the power of taboo.

That is a taboo. It cannot be touched. Once touched, it will lead to the power of eradication. He does not know who exerted it.

Everything shows that there is a huge secret hidden in the court of life, which is unknown to outsiders.

Although unfortunately unable to obtain the core secret, Qin Tiange got a lot of unexpected information.

For example, the life court is currently in a fragmented phase, with internal divisions.

“It seems that within any force, it is not monolithic.”

Qin Tiange thought for a long time, his eyes flashed a light, and then his consciousness returned to his body and he woke up.

When he woke up, he swept across the hall of judgment and saw those judges killed by Li Luo one by one and sealed the true spirit.

Soon, Li Luo came back and handed in the true spirit of the sealed hundred judges.

“Emperor, all the adjudicators count as many volts.” Li Luo’s voice was cold and uninteresting.

As if in her eyes, the hundreds of space-time arbiter is a fragile sheep that can be slaughtered at any time.

“Tough work.” Qin Tiange nodded, and then looked at Shangguan Xianer and others.

The civilization emperors of all races from the Fairy Nebula looked extremely complex to him, with a touch of awe.

You know, when they entered the hall of judgment and couldn’t even resist, they were blocked by the chain of order suppression.

But Qin Tiange was not affected at all. Instead, he killed the judges and killed hundreds of judges.

Such combat effectiveness is really scary. Even Shangguan Xianer is a little shocked and incredible.

“Thank you Brother Qin!”

Shangguan Xianer took the lead, respected and thanked, and had a new understanding of Qin Tiange for the first time.

Others came forward to thank each other, bitter in heart, it turned out that this strength was so strong.

“The judges are dead, but the crisis against your ethnic groups has not yet been resolved, and it is up to you.”

Qin Tiange looked at hundreds of blocked ethnic emperors in the hall and spoke the message.

As soon as this word came out, everyone’s complexion changed, and once the judges died, they just couldn’t make peace.

The only way is to fight the court of life. This time, even if they are subdued, even if someone wants to surrender, it is impossible.

Looking at the bitterness and anxiety of everyone, Qin Tiange kindly reminded: “In fact, you don’t have to worry too much. According to a message I got from the judge’s memory, the life court is too busy looking after itself.”

“Brother Qin, is this news true?” Shangguan Xianer asked in surprise, not to disbelieve, but to confirm.

Qin Tiange bowed his head with a smile: “Yes, something happened in the life court. It seems to be divided into three forces, and they are competing for status.”

“At present, there will not be too many high-level judges in the life court who will take care of your situation and can rest assured.”

“It is safe now, but it will be difficult to say in the future, so you are fully prepared. A powerful judge will not come, but a force to kill you will come down.” Qin Tiange finally awakened.

It is learned from the judge's memory that the separation of the various races of the Fairy Nebula has attracted the attention of the upper levels, and the power of adjudication has come.

It is a vanguard before the judge. If the emperor who can solve the tribe is the best, if not, there will be a second trial directly.

At that time, it was not a separate force, but a force that would directly destroy the various races of the Fairy Nebula.

War is not far away!

Everyone looked at each other and saw the dignity in each other's eyes. As the judge was killed, a **** battle was coming.

Whether the Fairy Nebula is destroyed or persisted in the **** battle, the achievement is higher, and it is out of the control of the life court, depending on each ethnic group.

Qin Tiange had no intention to help them, and all he wanted was obtained. As for the future, it depends on how these emperors of various ethnic groups did.

Hum!

Suddenly, a humming sound was heard from the Trial Hall. Suddenly the autonomous disintegration turned into a mysterious force that broke through time and space and disappeared.

The people who were originally trapped inside the hall reappeared in the central area of the Fairy Galaxy.

On the central continent, the volume of floating rulings suddenly burst and burned into ashes.

“Blatantly destroying the trial, killing the judges, you wait, the crime is so great!”

The verdict was burning, and from such a cold and indifferent word came out, as if there was a higher existence and everything was seen through here.

When everyone heard this, they felt very cold, only Qin Tiange showed a cold smile.

“Dare you come, I will kill you.”

A word passed back, shattering time and space, pouring into the emptiness of the deep, silence that voice.

Looking at the extinguished verdict, everything was calm again, and no voice came.

“Xianer, here's the thing, I should go.”

Qin Tiange retreated his eyes to look at Shangguanxian Er, the latter thought, and suddenly waved dozens of stars.

Inside the huge stars, there are dense and endless human races.

These are the people that Shangguan Fairy wants to come from the races of the Fairy Nebula.

“Brother Qin, this is Xianer’s promise in the past.” Shangguan Xianer’s eyes were bright and clear, and his tone was firm.

Qin Tiange looked at the hundreds of billions of people living in dozens of stars, with a smile on his face.

“Thank you!”

He said thank you, and then waved away the hundreds of billions of people and took them directly to the fortress of the Earth’s galaxy.

“You all say goodbye!”

“Take care!”

Qin Tiange looked at Shangguan Xianer, Nalan Feiyu, Nalan Jingyu, etc., and said goodbye one by one, and finally stepped into the space and time and disappeared.

Chapter 903 - Battle starts, time and space settle

On the earth, inside the galaxy fortress, in the palace of the Emperor, Qin Tiange and Li Luo returned to this place in an instant, inviting Jiji and all high-level meetings.

“You, the hundreds of billions of people I brought back this time, the integration may cause some confusion and shock. Everyone should do their own work.”

Qin Tiange said, slowly sweeping all the high-level officials present, thousands of people gathered here, all with serious expressions.

These people are the highest-level elites of the entire Terran race. They are managers and are responsible for the internal structural leadership of the entire Terran race.

Under Qin Tiange, the supreme leader and the current emperor, the entire human race was tightly twisted into one.

From the beginning, some of the earth ’s human forces incorporated, as well as opposition voices, but gradually disappeared.

Up to now, Qin Tiange has no objection in the earth race.

Just kidding, at the current level of Qin Tiange, the most powerful space-time level in the entire earth race is only eighteen ancient human sages.

As for the others, it is not that they left Earth earlier, and that they were gradually submerged by the tide when they went to higher galaxies.

“People of the people, plus the 380 billion people brought back this time, the number of people within our entire force has exceeded the 500 billion mark. In ten years, the total population will increase by a hundredfold.”

Xi Ji explained with a look of seriousness, a group of data appeared in front of all the seniors, watching each one intently.

These data are based on detailed calculations of the self-employed. The population of the entire earth's ethnic power has reached 500 billion.

Looking at it a lot, in fact, for the infinite cosmic starry sky, it is really a small sum of money.

Compared with other races, the overall number of people on Earth is like the difference between ants and elephants.

In terms of the galactic tribes alone, the smallest strong tribes are in the trillions.

There are even some strong races whose population is measured in trillions, and the human race cannot be compared at all.

The Terran race still has a long way to go, but Qin Tiange believes that, in terms of the current fertility of the Terran, it will not take thousands of years for the entire Terran's footprint to spread throughout the galaxy.

Everything is a matter of time. With this time to precipitate, the power of the earth's people will inevitably swell.

Even with the ancestors of other people's ancestors being incorporated into their own clan, it was a powerful fresh blood, which played a huge role in the growth of the human race.

"Accelerate development, whether it is personal strength or overall strength, accelerate growth." Qin Tiange made a decision.

He listed his plans little by little, and set a goal for all senior management.

Plans were issued one by one. With the integration of hundreds of billions of people, the entire Terran race ushered in a big collision and great integration.

At this time, the previous overall strength framework has been broken apart infinitely and become even larger.

In order to be able to support the population base of Qin Tiange to occupy the Milky Way galaxy, it is even possible to cultivate enough armed forces to conquer all ethnic groups.

Qin Tiange didn't hesitate to take the money. If he didn't have the resources, he would grab it. If there was no living space, he would grab the land.

The galaxy's Xinghai, and even the Chaos continent of the Tianhe continent, the forces of the earth's human race began to expand.

"Men, the news from the west expedition said that there was a strong blockade there, and a strong race blocked the starry sky."

At this time, Jiji opened a virtual light curtain, introducing the area west of the Earth's galaxy fortress.

There are dozens of small river galaxies there, but they are all blocked by a powerful race. Once the human race breaks through there, they will be violently killed.

Looking at dozens of small river stars on the light curtain, there are countless dense planets, and the resources and minerals are very rich.

“It’s time!” Qin Tiange said to himself, his eyes sharpened: “Order to form ten expeditionary corps and start interstellar expedition. This time, I won’t ask questions, and use that star field as a place to sharpen you . “

“Go, cast the invincible prestige of our people with the corpses of hundreds of people!”

“Furthermore, the decree will go on to smooth out the chaotic continent within ten years and reorganize the chaotic order. It will be our human race.”

Qin Tiange gave an order and turned around and left the conference room, leaving only his self and a group of forces at a high level.

Thousands of high-level personnel were aggressive, watching Qin Tiange disappear, one by one dumbfounded, and the war began.

What’s more, just leave things alone and leave them to these people to plan and execute.

For a time, all the senior staff, the warrior, all shook his head with a grin and smiled.

However, it is in line with the minds of those warriors from all sides. How can Qin Tiange embody his value?

As a general, the most hopeful thing is to establish glory and merit. Only war can reflect the value of a general.

There are almost no wars within the human race. Only the war against foreign nations and the conquest of the hundreds of stars can create immortal army gods and even war gods.

With the integration of hundreds of billions of peoples, the peoples of the earth have begun to flourish and their forces have continued to grow.

At the same time, the Terran Army started, opening up a battlefield above the starry sky, and the Chaos Continent of Tianhe mainland was caught in the sky.

Fighting at both ends is tantamount to conquering the chaos continent and even a large expanse of starry sky. It is to sharpen and grow and cultivate more human elites.

After making the arrangements, Qin Tiange, the emperor, ignored the matter and hid directly into the depths of time and space and went into retreat.

Yes, Qin Tiange and Li Luo are retreating deep in space and time.

“Li Luo, the true spirit of these arbiters, did you find any problems?”

In the storm of time and space, a man and a woman sat cross-legged, meditating quietly, as if wondering something.

Qin Tiange frowned, feeling a bit wrong. He and Li Luo had just swallowed the true spirit of hundreds of adjudicators and drew memories from it.

However, I always feel a bit wrong because some of the true memory of all the judges is missing.

“It seems that some memory has been erased.” Li Luo thought for a while and expressed his opinion.

Qin Tiange nodded and said for a long time, “It seems that there are more secrets in the court of life that we do not understand. Be careful of this institution.”

“However, this time it is not without gains. The Life Court is currently divided into three forces, except for a bit of the situation.

He talked to himself, and obtained many secrets from the true memory of the judge and those who judged him.

The life court is divided into three forces and is fighting for each other, as if fighting for supreme power.

According to those memories, it seems that the supreme ruler of the life court disappeared or died?

“Hwang, I think that the human race needs time to settle now, and it can’t be too publicistic.” Li Luo expressed his concerns.

Qin Tiange didn’t know why, but he knew better that it would be difficult to grow quickly without **** sharpening.

Although the war will bring endless damage and death is inevitable, but for the benefit of the entire community, this sacrifice must be sustained.

“At present, the ancestors of the major ancestors have not formed a unified situation, and I always feel that the potential threat of Ziwei’s ancestors has not been eliminated.” Qin Tiange said to himself, a ray of wisdom in his eyes.

He killed the Ziwei Emperor and seized great luck, but always felt that it was not that simple.

Think about it, a small part of the heritage of those Ziwei ancestral lands left over from the inheritance was killed, but there is still a large part?

Where are those huge facts, not around the Ziwei Emperor, and even Ziwei Xing did not find where they were hiding.

Moreover, the most important thing is that after engulfing the true spirit of the Emperor Ziwei, Qin Tiange did not find a specific trace of the disappearance of Ziwei Star.

In other words, the disappearance of Ziweixing has nothing to do with Ziwei Emperor. One hand took Ziweixing away and hid it.

“You are skeptical ...” Li Luo said in shock.

Qin Tiange nodded slightly, sneering: “The heritage left over from the ancient ancestors of Ziwei is not to be underestimated. It is likely that there is a higher level of heritage left behind.”

“And don’t forget, the emperor who ruled the universe in the past is not dead yet, but he is from the ancestral land of *Lagerstroemia indica*.”

After saying this, Li Luo understood Qin Tiange's meaning, and Ziwei's ancestral land still had more terrible insides alive.

What's impossible even that emperor is alive?

"We are safe to look at, but we are surrounded by enemies. Some levels we can't see, can't touch, or even touch. We look at us with terrible eyes." Qin Tiange said to himself with this concern and speculation. .

He always felt that it was uncomfortable to stare at the human race with more terrible eyes.

But without reaching a higher level, it is impossible to reach the secrets of that field. Therefore, the only thing that can be done is to continuously improve their strength.

"Li Luo, I am going to complete the training of the power of all dimensions of space and time, and finally open the ten-dimensional channel."

In the end, Qin Tiange stated his intention to retreat, that is to complete the training of time and space power in all dimensions.

He will temper the body with the power of one-dimensional to nine-dimensional space-time, complete the final transformation of the space-time level, and then open the most mysterious ten-dimensional space-time.

There are the most mysterious ten-dimensional powers in the legend, and the creatures that can open up the ten-dimensional space-time power are not that there is no, but that there are very few and few.

The universe is so big and strange. Qin Tiange dare not arrogantly say that no one except himself can relate to the ten-dimensional space-time. Nine-dimensional integration can peek into a mystery.

"The door of time and space, open!"

With a low drink and circulated in the storm of time and space, Qin Tiange's body suddenly trembled, as if turning into a space-time door.

In the body, the 60 trillion cell black holes suddenly burst into rumbling swallowing power, connecting one dimension of time and space, and continuously drawing on the power of time and space dimension.

1D, 2D, 3D, 4D, 5D, 6D, 7D, 8D, 9D.

The powerful and terrifying space-time power constantly poured into the body, and was absorbed and changed by Qin Tiange's brutality, devouring his own strength.

This practice has never been seen before, and what will happen in the future is that Qin Tiange himself cannot predict.

Qin Tiange and Li Luo began a long retreat. They must complete the precipitation of time and space and prepare for future breakthroughs.

Chapter 904 - Breaking 10-dimensional barriers

Deep in space and time, a terrible wave swept across, disrupting the entire space-time dimension and attracting the attention of countless powerhouses.

“There is chaos in time and space. What happened?”

“Did this wave, will anyone break the barriers of time and space and enter the dark universe of the universe?”

With this strange space-time fluctuation spread, some strong people hidden in the depths of each space-time moved.

They were shocked, perceived the wave, made a lot of guesses, and were shocked.

There are even speculations that someone broke the barriers of time and space, and the will penetrated the positive and negative universe and entered the spiritual world of the dark side of the universe.

“Who is it, are you breaking through?”

Some space-time powerhouses shook and even attracted those powerhouses that are more than eight-dimensional.

What they hope most is to break through the barriers of time and space, to break the positive and negative universe, and to rush the spiritual will into the dark sea of the universe.

Only in this way can we open up the kingdom of God in the spiritual realm, become immortal, and become the leader of one realm.

But many time and space-level strong are stuck in the nine-dimensional level of space-time, even some are in the eight-dimensional level.

It is extremely difficult to break through the boundaries of time and space, enter higher fields, and open up the kingdom of God in the spiritual world.

The confusion of the entire space-time has caused a lot of strong people who hide the space-time to pay attention, but it is a pity that nothing can be seen.

Even some nine-dimensional strongmen who have never appeared before are awakened and are constantly searching for the source of this fluctuation.

It's a pity that they didn't find anything, the source of this fluctuation was unknown, and even abruptly appeared.

The source of this fluctuation was Qin Tiange, who practiced in the depths of time and space, and spread from him.

Hum!

The surrounding space-time is chaotic, densely packed, layered, and the one-dimensional to nine-dimensional space-time barriers are constantly entangled, forming a mysterious endless space-time.

In Qin Tiange's body, each cell seemed to be separated by an endless amount of time and space, and looked very close, but it was very far away.

This kind of performance is the unique ability of space-time class, which can exercise the body with the power of space-time dimension to obtain a deep level of transformation.

The whole body, like endless time and space, any power that is struck is blocked and exiled by the dense barriers of time and space.

Even the power that is struck is broken up by the space-time dimension, which is one of the reasons why it is difficult for the space-level strong to challenge.

Star Master, even if the power is strong, the past power will be banished and crushed by the dimensional power in the space-time body, which is completely invalid.

Unless someone can break through time and space with their strength, like Qin Tiange's physical body, the power of 60 trillion cell black holes is enough to penetrate through time and space and break all obstacles.

This is also Qin Tiange's main force that can easily kill the space-time level. Any space-time level power is almost ineffective on him and is swallowed clean.

His body is like a gate of time and space, connected with the dense and endless space and time, you don't know the terribleness in him at all.

At present, Qin Tiange is constructing one- to nine-dimensional tempering of the body. Once the precipitation is completed, he can try to open the mysterious tenth dimension.

It is rumored that the mysterious ten dimensions can only open up a mysterious dimension if the space-time self-willing sacrifice.

It can also be called the tenth dimension of death. To open the tenth dimension, you must do it yourself.

Therefore, no one is stupid enough to open the ten dimensions, unless it is a thought of sharing the same, pull the enemy directly into the ten dimensions.

Once, a time-space powerhouse destroyed itself, opened the tenth dimension, and wanted to kill Qin Tiange.

As a result, instead of failing to kill Qin Tiange, he helped the 60 trillion black holes in his body directly connect with the mysterious ten-dimensional space-time.

With the continuous improvement of Xiuwei, Qin Tiange has a feeling that he can open the ten-dimensional barrier.

Once the black hole in the body is fully connected and opened the tenth dimension, it can attract the mysterious power of the tenth dimension, temper the flesh, and become the mysterious tenth dimension strong person.

Zizi ...

Suddenly, a trace of horrible arcs burst out in Qin Tiange's body, shattering the space and time around him and breaking the barriers of time and space.

This power is constantly flowing out of his body, densely packed with the forces of time and space from one to nine dimensions.

After completing the nine-dimensional tempering, Qin Tiange can be said to be now a terrible powerhouse of nine-dimensional space-time, which can be regarded as the peak of space-time level.

But his ambition is more than that. What he wants is to open the mysterious tenth dimension and attract the tenth dimension of power.

This power is mysterious. Once he succeeds, it is the true invincible power of time and space.

How amazing can it even be to fight against the leader and resist the cross-border attack of the leader?

collapse!

At this moment, a very mysterious cracking voice came out, and something in Qin Tiange's body was broken.

If anyone could see the scene in his body, he would be shocked and speechless. The dense cells would turn into black holes, condensing the power of intimidation, and penetrating some kind of mysterious barriers.

With a click, a mysterious barrier was penetrated, and a mysterious force from the tenth dimension rushed into the body.

Suddenly, Qin Tiange's body collapsed and he spontaneously turned into pieces of ashes.

The power of the tenth dimension, which burst out from the black hole of 60 trillion cells, directly destroyed these cells.

The powerful and mysterious ten-dimensional power, even after completing the nine-dimensional precipitation, Qin Tiange is difficult to parry.

But he was not a little flustered, the true spirit would not move, and he would not be moved by the ten-dimensional power to destroy his body.

Just as his entire body was about to dissipate, the chaotic primordial gushing out an ancient and primitive power, the power of chaos was vast.

In an instant, the collapsed body recovered as much as possible, becoming stronger, and the cells seemed to grow tenfold at this moment.

Dense, numerous cells turned into stronger black holes, directly smashing the ten-dimensional force that came.

Finally, under the 60 trillion black hole strangulation in the body, the ten-dimensional force was gradually conquered and integrated into the body cells.

Hum!

When Qin Tiange absorbed the ten-dimensional power, it was precisely a mysterious buzz in space and time.

Up to the nine-dimensional space-time, down to the one-dimensional space-time, this mysterious wave is spreading, attracting the attention of countless space-time creatures.

"No, this fluctuation is the tenth dimension of power fluctuation."

"His, someone opened the mysterious ten dimensions?"

"Who is it that opened up ten-dimensional time and space?"

For a time, the nine-dimensional powerhouse was shocked, and made a terrible roar, which alarmed all parties.

They were shocked and horrified to discover that the fluctuation was a force from the tenth dimension of mystery.

Unexpectedly, someone turned on the mysterious ten dimensions. What did they want to do?

When everyone wondered, the wave disappeared, as if it had never happened.

With the horror of time and space strong one wondering, guessing, looking, can't see the source of the fluctuation.

At this time, Qin Tiange was at a critical juncture, and if he did not get it right, he might disappear from it.

The secret power of the ten-dimensional spacetime is full of mysterious and mighty power, as if it can wipe out anything.

This power poured into the body, and almost collapsed his mighty body at first, but fortunately he persisted.

But after absorbing this ten-dimensional secret force, Qin Tiange suddenly felt that this force was already between the oblique force of the positive and the negative universe.

Ten dimensions, mind the positive and negative cosmic interface, in fact, it is a barrier between the two realms.

Can break this barrier, the spiritual will can enter the dark side of the universe, ordinary creatures can not draw ten-dimensional power at all.

Because the ten-dimensional power is a fusion of positive and negative matter, it is a mysterious phenomenon that tends to yin and yang, or an energy form.

The two positive and negative universes, separated by the tenth dimension, become powerful barriers that prevent the two universes from annihilating each other.

Only this power can make the positive and negative universes annihilate each other and disappear. This is the true meaning of the tenth dimension of mystery.

“It turns out that this is the mystery of the ten-dimensional power?”

For a long time, Qin Tiange woke up faintly, feeling the mysterious power from the ten dimensions, and gradually realized the secrets belonging to the ten dimensions.

After realizing this, Qin Tiange revealed a surprise in his heart, and suddenly understood why he was able to fix a wave in the spiritual world before.

It turns out that everything is a ten-dimensional force. The ten-dimensional framework is enough to accommodate the fusion of the positive and negative cosmic matter of yin and yang.

That is to say, Qin Tiange absorbed the strength of the mysterious ten dimensions, and was able to truly cross the positive and negative cosmic barriers physically.

It is an unimaginable achievement to descend into the spiritual world of the dark side of the universe in the form of the physical body. Entering the spiritual body of the physical body is equivalent to breaking away from a limitation of the universe, as if it is not restricted.

“Haha, that’s it.”

After comprehending thoroughly, Qin Tiange couldn’t help laughing, and felt that this time it was a great breakthrough.

The breakthrough sedimentation from one dimension to nine dimensions opens a mysterious tenth dimension channel, connecting the black holes of cells in the body.

As a result, he has absorbed the ten-dimensional power and obtained transformation. As long as he is willing, he can break the ten-dimensional barriers at any time and enter the dark side of the universe.

With this change, Qin Tiange said that the master is only a matter of minutes, not at all difficult.

But he did not make a breakthrough, because what he wanted was not to develop a kingdom of two or three gods, but to develop a kingdom of God in 60 trillion cells in the body.

Once this feat is completed, 60 trillion mini-god kingdoms, with erupting power, spiritual immortality, and eternal will.

That kind of absolute power has gone beyond the taboo field, which is tantamount to a path of no return.

“Huang, you broke through?”

At this time, Li Luo was awakened, watching Qin Tiange’s body exude a mysterious breath, and asked with surprise.

Qin Tiange bowed his head with a smile and said, “Yes, the ten-dimensional precipitation has been completed, the ten-dimensional time and space have been completely opened, and a breakthrough has been achieved.”

“Come, let you feel the mystery of the tenth dimension.”

He said, raising a ten-dimensional secret into the body of Li Luo, and letting her feel the mystery and power of the ten-dimensional. Luo Ming realized the tenth dimension’s true meaning and understood the tenth dimension’s secret power.

“Ten dimensions, against the barriers of the universe. If the physical body is tempered with ten dimensions power, can it descend into the spiritual world with the real body?”

Li Luo woke up, surprised and shocked, and finally realized the power of the mysterious ten dimensions.

“Have a good grasp and break through as soon as possible. I’ll go to the spiritual world.”

Qin Tiange gave an explanation, directly tearing the boundaries of time and space, and came to the ten-dimensional barrier between the two realms.

He was going to enter the spiritual sea, step into it again, draw the boundless spiritual tide, and transform the numerous black cells in his body.

Once the transformation is completed, it will be possible to open up subtle kingdoms of God in cells with countless spiritual wills.

Click!

Qin Tiange broke his ten-dimensional barrier with a palm of his hand and penetrated the mysterious boundary between the positive and the negative universe.

Chapter 905 - 999 universe embryos

Mysterious ten-dimensional, in front of the boundary wall, Qin Tiange broke the barriers of the two realms with a single palm.

Slightly!

The boundary wall collapsed, a terrible tide came in, rumbled, and swept across the ten-dimensional mysterious spacetime.

But this spiritual tide from the dark side was actually blocked by the fusion of the ten-dimensional mysterious power, and gradually evolved into the ten-dimensional secret force.

The unique ten-dimensional, mysterious power, can even neutralize the power annihilation between the positive and negative universes.

Looking at the tide of the spiritual sea being neutralized, Qin Tiange showed a touch of wonder, and his heart shook.

Only by experiencing it first-hand can you realize the power of the ten-dimensional secret force, which is simply balancing the positive and negative universe.

Everything has balance, and the universe is no exception. The force of balance is the tenth dimension.

There is a tenth dimension that prevents two positive and negative universes from colliding and annihilating each other. The tenth dimension is indispensable.

There is a ten-dimensional secret force, which can neutralize the positive and negative matter, and can prevent the positive and negative universe from colliding and disappearing.

“The universe is huge, there are all kinds of wonders, positive and negative universe, multiverse, layer upon layer, what is the real end?”

Qin Tiange watched the cave that he broke out with a torrent of torrents.

What he thought was, where is the end point of the universe, or the origin fulcrum? There are both sides to a universe, and there are even multiple universes outside the universe.

This feeling seemed to be endless. It was not clear where the source and end were, which made him feel a little heavy.

However, he quickly dropped these thoughts, stepped directly into the huge cave in front, and the real body entered the dark interface of the universe.

Bang!

Rolling torrents swept across, Qin Tiange came up against the current, rushed into the dark interface of the universe, and came to the spiritual world.

Coming here again has a different feeling. I sneaked in before, and now it is true to break the barriers.

The two have different circumstances and different feelings, as if they were a little bit scared before, but now they are right.

“Jiehai, the spiritual world ...” Qin Tiange watched the tide of the mighty Jiehai surrounding, surging.

The waves are raging, the waves are turbulent, and the sky is rolling against the sky, even on the waves of tens of millions of feet, there is a vast kingdom of God.

Theoretically speaking, every spray may hide a kingdom of God. Here in the spiritual world, a spray represents a spiritual world.

No one knows how many kingdoms of God are hidden in the endless world. Qin Tiange knows everything.

But this does not prevent him from coming here. It doesn't matter how many kingdoms of God exist here. He doesn't want these kingdoms of God.

“swallow!”

I saw that Qin Tiange opened his mouth and swallowed wildly, and his body's 60 trillion black holes suddenly began to devour.

Suddenly, the endless tide of the sea of the sea rolled in and was continuously consumed by Qin Tiange.

The kind of barbarous devouring is simply robbing, making him weird and feeling that he is robbing the other's spiritual will energy in the spiritual consciousness of others.

This feels very bad. Qin Tiange always has a sense of vigilance, as if the world is not so simple.

Looking at the dark interface of the universe, it looks like a creature's spiritual consciousness. Here it devours the spiritual tide. A little carelessness may lead to a terrible disaster.

But he has no choice but to do so, otherwise how to realize his amazing plan?

I want to open up 60 trillion spiritual realms in myself, and even re-evolve my own sea in the sea of knowledge to open up the kingdom of supreme gods.

This way, it is necessary to start from the dark interface of the universe and devour sufficient spiritual tides in order to transform its own spiritual world.

Rumble ...

The sea is turbulent, and hundreds of thousands of miles have turned into a vortex here. The endless waves are coming, endless.

Qin Tiange himself did not know how much energy of the spiritual sea was swallowed up, as if absorbing numerous tsunamis and even swallowing the entire sea.

Finally, at a certain moment, Qin Tiange experienced a strange transformation in the sea of knowledge, and the entire sea of knowledge gradually evolved into a brand new world.

Qin Tiange's consciousness shook suddenly when he knew the change of the sea, and the real spirit was blurred for a moment, and Hejian became a supreme existence.

That feeling is like looking down at the sea of his spiritual world, and becoming a unique and supreme existence.

At the same time, in the world of Qin Tian Ge Dan Tian, 999 huge galaxies suddenly shrank and collapsed to the center to a point.

In the end, with a bang, the 999 galaxy collapsed into a sudden explosion, like a big explosion, instantly tearing up endless Dantian.

There, it is completely turning into one terrible scene after another, as if the universe is being bred.

Immediately after that, the chaotic elementary tires skyrocketed, and an endless stream of chaotic spirits came out to join the Dantian Great Transformation.

Click! Click!

The entire Dantian is collapsing, turning into endless energy, accompanied by a spiritual tide emerging from the sea of knowledge.

Suddenly, the Dantian universe fell into oblivion, and the two kinds of matter and energy annihilated each other, generating terrifying energy.

The annihilation of the positive and negative universe has produced a terrible scene, such as the recurrence of chaos, and it seems that it is the Big Bang.

It is more like a new self-transformation of the universe. The evolution process of the universe is developing into the universe.

999 huge galaxies have disappeared, replacing the huge circles of gains and losses, as if they were embryos, surrounding the chaotic birthplace.

“Cosmic embryo?”

Qin Tiange's consciousness shook, and he was stunned by the changes in his own Dantian. The galaxy was completely blown up and turned into embryos.

Each embryo shrinks and seems to be beating, as if breathing, breathing like a cosmic membrane, drawing endless annihilation energy to strengthen itself.

This is changing the embryo of the universe, brewing a universe with one, the new universe has begun to enter the stage of placental transformation.

Seeing this, even Qin Tiange is dumbfounded. 999 cosmic embryos are gradually changing, and once they are transformed into a type, it is a cosmic membrane.

Wouldn't it mean that 999 cosmic fetal membranes are being bred in Qin Tian Ge Dantian. Once formed, it is equal to 999 new universes.

Grunt!

Qin Tiange could not help but swallowed his mouth, stunned, and suddenly realized that in the real universe, it is likely to be a living Dantian universe.

Thinking of this, he couldn't help the cold, and he could transform the cosmic fetal membrane in his body. Once formed, it would be a brand new universe.

The point is, he produced 999 cosmic membranes, and the scene was too shocking and terrifying.

The 999 universe fetal membranes surround the chaotic elemental fetus, as if forming a mysterious backing and connection.

The universe, chaos, and the two seem to form a strange and mysterious connection, supporting each other.

“Finally, the transformation has been completed. The next step is to open up the kingdom of God in the body.”

Feeling the transformation in his body, Qin Tiange's expression was extremely excited, and he completed his plan.

The sea of knowledge has transformed into a new spiritual world. The Dantian world in the body has completely changed, and 999 cosmic embryos have been bred.

The body's cells, full of 60 trillion black holes, are filled with immense spiritual tides, and they have the foundation to open up a small kingdom of God.

Inside each black hole cell, there is an independent spiritual will and soul thought hidden by Qin Tiange.

With the continuous cultivation and development, it won't take long for him to truly realize the black hole cells in the body and open up mini mini kingdoms.

Think about what kind of existence Qin Tiange will be then, and how powerful will it be?

Hum!

At this moment, a terrible wave came from the sea of spirits, and the immortal spirit in countless kingdoms of God awakened.

They all revealed their thoughts, and a series of dense and persecuted thoughts swept across the spiritual world, looking for the source of this fluctuation.

“Huh?” Qin Tiange's expression calmed and he felt the dense thoughts coming from all sides.

Regardless of many, at present Qin Tiange does not want to be exposed. Once people know that his true body has fallen into the dark universe of the universe, it may cause endless slaughter.

“Pause temporarily, wait for me to open up the kingdom of the gods in my body, and then come back to these main powers of the world.”

In this way, Qin Tiange's body quietly receded, clashed into two barriers, and returned to the ten-dimensional interface.

He stood in front of the ten-dimensional space-time barriers, watching the horrible mental thoughts sweeping across the boundary wall.

Those are the spiritual wills of the masters of the realm. They are awakened by the mysterious fluctuations one by one and look at them one after another.

“It was just a weird breath.”

“something wrong!”

“Who is it?”

One by one, horrible thoughts came out of waves, and the words from those fluctuations of thoughts shook the entire sea and caused huge waves.

The whole Jiehai boiled, and as the terrible Jiehu seekers, unfortunately nothing was found in the end.

However, Qin Tiange’s face was dignified, because he sensed several super-horrifying mental ideas, and even broke through the boundary wall and probed towards it as if he found something.

Fortunately, Qin Tiange concealed himself directly, integrated into the tenth dimension, completely disappeared, and only escaped those horrible spiritual detections.

“The immortal will, the immortal spirit, the Lord of the Realm, is really terrible.”

For a long time, Qin Tiange’s figure slowly emerged, his tone was serious, and his eyes showed a faint ray of glory.

A few horrible mental ideas just swept over and broke the wall, as if looking for something, it must be what change caused by his own breakthrough.

After a few glances, Qin Tiange’s mouth slightly tilted, and he said to himself: “Not in a hurry, wait for me to complete my transformation, and I’ll meet you in a while.”

After speaking, Qin Tiange showed nostalgia, tearing down the ten-dimensional barrier, and returned to the positive universe interface.

He stepped on time and space and arrived in front of Li Luo, just to see Li Luo who woke up to practice Shiwei.

“Li Luo, what’s wrong?” Qin Tiange returned and asked directly.

A bright smile appeared on Li Luo Qiao’s face, saying, “Hwang, Li Luo has fully grasped the ten-dimensional secret. The next step is to enter the spiritual world and directly extradite the spiritual tide into the body, and complete my next Step by step. “

Li Luo’s practice is similar to Qin Tiange’s, but different, so Qin Tiange doesn’t say much.

Qin Tiange knows this truth on his own way.

“Very well, you don’t want to enter Jiehai for the time being, because I caused a lot of movement just now, and I will go again later.” Qin Tiange warned softly.

“Okay!” Li Luozen obeyed.

“Let’s go, it’s time to solve the hidden dangers in the space-time battlefield. Where are many details of Ziwei’s ancestral land? It’s directly destroyed.”

Qin Tiange’s eyes suddenly became cold, and through the dense space and time, he saw a powerful background belonging to the Ziwei ancestor in the space and time battlefield.

Hiss!

The two violently tore apart the barriers of time and space and landed directly on the battlefield of time and space. The powerful killing intentions instantly caused an endless storm and shocked the powerful parties.

Chapter 906 - Super, Space Time Technology

Qin Tiange landed on the temporary battlefield, causing shocks from all sides. Countless space-time powerhouses are watching. Who is such a high-profile charge into the space-time battlefield?

And just as time and space trembled, in the sea of stars, the expedition of the Terran race began.

“Report the captain, you have reached the designated area.”

Outside a star field, a huge star fleet, densely guarded by a war fortress.

In the fortress, the captain of the fleet was a young officer, with a firm face and a calm face.

He stared at the light curtain ahead, where a message of a planet emerged, three light years away from the fleet.

Their fleet is only a small unit in the large army, a space fortress, 100,000 star mother ships, and 1 million space warships.

The total number of combatants is about five million, which is a team. Looking at it a lot, it is just a small team above the starry sky.

You are not mistaken, it is an independent squad, a combat squad dominated by StarFort.

“The target ahead, the blue blood tribe resource star, the mission target, destroy the enemy’s living force and occupy this resource star.”

Soon, the captain issued a combat instruction, and this mission was to destroy the blue blood forces in this planet and occupy the planet.

“Start the space jump and the units are ready to fight.”

The order was issued, and the interstellar fortress suddenly issued a strong wave, and the space was rippled, and then it slowly passed the space level with the huge fleet.

In a blink of an eye, the entire huge fleet pierced out of space, and instantly fell into the outer space of the blue blood resource star.

boom!

In an instant, the entire planet was shaken, and a strong alarm came, which alarmed the powerful blue blood garrison inside the planet.

“Turn on the energy cannon and destroy the blue blood space defense weapons.”

“Order, first to ninth mech units, land.”

“attack!”

The attack order was issued, and the huge fleet suddenly separated, making an attack around the entire planet.

Columns of light beams of energy exploded and hit the planet, blowing up the space defense facilities of the blue blood.

Those space defense weapons were all broken into pieces at once, and the sudden onslaught caused the blue blood to panic.

“Kill, for the human race, for the glory!”

Suddenly, from the Star Warship, countless huge mechas, a hundred-meter-high space mech, burst out suddenly.

This is the latest technology of the earth, and the combat power of the space mech is quite scary.
boom!

Like an ant-like mech legion, they burst into the planet’s atmosphere with a large number, at least one million mech armies killed the planet.

“Attention all units, open the energy wall of time and space!”

The mech control room, one by one, communicated, and saw that a layer of halo suddenly appeared outside the war mech.

That was the energy defense wall, but it was shocking that these energies were not ordinary energies, but a force of space-time dimension.

One-dimensional space-time lines, constantly intertwined and coiled, form a circular space-time defense barrier.

That is the latest technology of human beings on the earth, space-time technology, and weaving one-dimensional lines into a space-time defense barrier.

Boom boom!

Sure enough, with the blue blood tribe’s fierce counterattack, a powerful energy bombarded and drowned millions of mech legions.

However, when the light was gone, the huge number of mech legions were intact and none were damaged.

The astonishing scene made the strong of the blue blood tribe unable to change their colors, watching the tall war mechs come down, all of them struck against a circle of space-time energy barriers.

“Turn on the Light Time Blade and prepare for battle!”

The mech commander issued an order, and millions of mech soldiers pulled out their main weapons, a huge light blade.

It is not an ordinary light blade, but uses the latest space-time technology to collect and condense one-dimensional lines of time and space into a light blade.

Zizi!

The light-blade of time and space opened, and millions of mech warriors waved the light-blade, banging on the surface of the planet.

“Kill, I’m invincible!”

The mech landed and launched a ***** conquest, and the first real war against alien races began.

Millions of mechs were divided into teams, and cleared up. The defensive barriers of time and space were used. Any energy hit was divided by one-dimensional defense.

Powerful time and space light blade, no opponent can stop, even the star master is a bit frightened.

“kill!”

A black mech fell sharply, wielding the light blade, and swept directly across. Around, dozens of powerful blue blood star stars were turned into two on the spot.

Sweeping across the board, dozens of star-strength powerhouses died. It was really terrifying and even more terrifying. The mech driver was just star-studded.

“Damn, Terran, you are too arbitrary.”

There was a roar of star masters, and dozens of black hole-level strong men flying in the air, killing towards the humanoid mech.

One by one, black hole celestial bodies floated, and the rumbling suppression came down.

However, the mech warrior calmly and calmly, waved the time and space light blade, and simply split a black hole with a knife.

With a click, the black hole was split in half, and it couldn’t stop the terrible light blade of time and space.

“Ah ...” With the flash of light and shadow, a blue blood tribe black hole-level strong screamed and was cut in half.

The powerful, terrifying Terran Mech Legion launched a horrific slaughter as soon as it landed.

This is simply unstoppable. The star-level powerhouses are scared. The energy that bombarded them was blocked by the time and space barriers outside the opponent’s body without any damage.

Such terrible scenes scared the blue blood tribe. This is the horror of technology.

“Miscellaneous, why does the Terran have the space-time technology of the Zhixing race?”

“Hurry up, report to the emperor.”

“Withdraw, withdraw!”

Finally, the blue blood tribe realized that it was not good, and immediately evacuated in terror, unable to form an effective resistance at all.

However, when they wanted to evacuate, they found that the entire planet was surrounded by dense starships.

They couldn't run away, desperate in their hearts, watching the huge warships densely packed in the void, bombarded by beams of energy.

Boom boom ...

War is the most ruthless, without any mercy, either you die or I die, not to mention the interstellar war?

If the human race wants to rise, killing is inevitable, and if they want to obtain resources for development, conquest is indispensable.

“Record the performance data of all new space-time technology weapons and transmit them to your general, others, and kill me.”

Finally, above the interstellar fortress, the young and powerful captain put on a brand new armor, carried a battle blade, and led the army directly into the planet.

He wants to witness the victory of this battle, and to kill the blue blood tribe himself, none can be let go.

“Do not....”

The blue-blooded strong roared, seeming extremely unwilling, and bombarded a fighter armor entangled and was about to leave.

As a result, the head of the light blade split down and thumped. The star-level powerhouse couldn't even dodge, and died directly.

The blood splattered into the sky, and the faint blue blood splattered, bit by bit, looking particularly dazzling.

“kill!”

The general attack began, and the entire planet was caught in the flames of war, surrounded by dense starships.

Five million fighters came to the ground to fight. This battle lasted three days and three nights, and finally killed the living forces of the Blue Blood.

All the powerful resistance forces were wiped out, leaving only the blue blood people who were afraid to resist.

The war has come to an end, and the human race has almost zero damage.

In particular, none of the mech combat teams died, and with strong space-time technology support, no one could stop it.

As for the other combat corps, there was some damage, but not much, it was a perfect victory.

“Why, why do you people kill my blue blood?”

In a ruined giant city, there is a powerful blue blood tribe, covered with blood, glaring at the densely packed human warriors around.

He was sorrowful and angry, looking at the ruined city, where countless blue blood people died tragically.

“why?”

A sneer came out, and saw a general wearing a black armor, stepping up step by step.

Holding the light blade, he came to the blue-blood star master, and stared at him indifferently.

“Are there still few people who have died in the hands of the Blue Blood?” This general is the captain of the battle fleet.

His indifferent eyes, with the slightest intention of killing, raised his hand across the neck of the opponent.

“You, you guys, there won’t be a good end ...” The star-level powerhouse covered his neck, and then said intermittently, his body fell suddenly.

His head and bones rolled aside, and he died completely, and was directly hacked and killed by the strong captain.

He turned indifferently, looking at all the silent Terran warriors, holding up his blade, and roaring in the sky.

“Brothers, you say, why are we fighting?”

A roar shook the ruins of the city, and millions of soldiers raised their swords and shouted in unison.

“For the human race!”

“For glory!”

“For survival!”

One after another roaring, shaking the whole planet, the roar of millions of people shook the atmosphere.

Even inside the planet, this mighty roar echoed through an unyielding will and war.

Everything, for human race, for glory, for survival!

All the blue blood people were terrified trembled, their heads trembling, and they were deterred by the roar full of fighting spirit and warfare.

Terran, once again declare to the hundreds of stars, Terran, are back!

Didi ...

“Each fleet notices that the main force of the foreign race is found, and within three minutes, it immediately reaches the designated position to form a circle!”

Suddenly, a message came, shaking the fleet that had just completed the victory of the war here.

The captain's face was sullen, and he shouted, "Everyone, return to the team, and board the ship immediately!"

With an order, millions of ethnic legions quickly retreated and returned to the battleship.

The entire fleet evacuated within one minute, and even made a space jump within two minutes to complete the evacuation.

In a blink of an eye, the huge fleet disappeared, leaving only this scarred planet and countless horrified blue blood people.

Chapter 907 - Tragic star wars

In the dark and cold universe and deep space, densely packed stars slowly flew in, and there were shining stars.

These battle stars are extremely large, containing a terrifying war system inside, and are a powerful main force of a race.

A total of three hundred battle stars traverse the dark starry sky, emitting a blue energy circle, just like the halo on each star.

"Report, the latest news, the resource stars from 1 to 30, all fell, and were captured by the human race."

On top of the biggest battle star, the main team of the blue blood tribe, the highest commander, and a middle-aged man are listening to the news reported by his men silently.

He was expressionless, with a ray of icy murderousness in his blue eyes, and he didn't care about the repeatedly fallen resource star.

What the commander cared about was that the Terrans dared to wage war, and they were simply offending the Blue Blood.

Sure enough, as the human race took over the resource stars that belonged to the blue blood tribe, they even won a small river galaxy.

This time shocked the blue blood tribe's emperor. Under the anger, they sent the main army directly to overthrow the offensive power of the human race.

"Human race, this is to re-rise on the corpse of our blue blood tribe. We must not let them succeed."

The indifferent tone of the middle-aged people spread out, and surprised the surrounding blue blood strong men, most of them disdain.

The human race is weak, already endangered, and now they suddenly come out to do something, in their eyes, they are looking for death.

Many races believe that the human race is trying to die, and it is impossible to rise. Each race does not allow the rise of the human race.

But they neglected a point. It is not the entire human race that is attacking now, but the human power from the earth's ancestors.

This power alone caused enough headaches for the Blue Blood clan. Qin Tiange's order was to **** all resources of each ethnic group, destroy the power of each ethnic group, and sharpen their own power.

“Warning, warning!”

Suddenly, a harsh alarm sound came, which caused the internal vibration of hundreds of battle stars, and countless blue blood strong men were vigilant.

Looking at the source of the alarm, it was discovered that there were countless legions of troops hidden around the star field where they were located.

“No, we are in an ambush.”

“Damn, it's the Terran Legion.”

At this moment, inside the battle star, the blue blood clan seniors of all parties were furious, and did not expect to encounter an ambush here.

The reason they were angry and unbelievable was because the area belonged to the hinterland of the blue blood tribe. How could the enemy dare to penetrate here?

“Human race, bold or arrogant?”

The blue blood commander looked gloomy, looking at a picture in front of him, showing the scene around the starry sky.

In this star field, the dense interstellar fortress floats, and numerous star mother ships and space battleships gather.

In addition, there were two huge battle stars floating, apparently surrounding the galaxy.

The main force of the blue blood is surrounded by the human race!

“Ready to fight and destroy the power of the human race.”

The blue-blood commander gave a ruthless order, without any panic at all, what about the siege, and what ability did the people have to swallow them?

As the main force of the blue blood tribe, here is gathered the most powerful main force of the blue blood tribe.

With a force of 30 billion powerful elites and 300 battle stars, how do you fear the siege of the human race?

Moreover, this is the hinterland of the Blue Blood tribe, not too many light years away from the ancestral land of the Blue Blood royal family, and it is easy to welcome support.

boom!

In the star field, hundreds of millions of space battleships formed a dense formation, mainly space fortresses, surrounding the positive starry sky.

There are a large number of human races gathered here, with a total of at least 50 billion. They are the only army with the highest number and the strongest fighting force among the top Terrans of the Earth.

“General, the encirclement has been completed, but the blue blood has found us.”

At this time, in the Terran Legion, one of the two battle stars, the headquarters, and a group of senior generals were busy.

Among them, a tall, beautiful woman general in military uniform, was quietly looking at the virtual light curtain in front.

She is a self-confidant and one of the few top generals in the entire Terran Army.

And her commander-in-chief's legion, very few human beings, are all densely packed artificial people, even artificial intelligence.

That's right, the self-confidence is among the major legions of the Earth's human race, the artificial legion, the combat effectiveness has always been terrifying.

“Order to form a siege, open the space-time energy tower, build a space-time prison cage, and completely block this blue blood tribe.”

With the stern command of Jiji, I saw that in the star field, a powerful light suddenly appeared.

That was the splendor of time and space. One energy tower after another was erected, forming a kind of interweaving of light on the starry sky, gradually weaving into a one-dimensional space-time prison cage, covering the entire star field.

“No, it's a prisoner of time and space!”

“Damn, the Terran sometimes the space-level strong are involved in the war?”

There, the blue blood clan was shocked when they saw the starry sky blocked, and some angry growled, thinking that the human race sometimes joined the battle.

But in fact, this is not a space-time powerhouse, but a powerful space-time technology, a huge space-time cage built with ninety-nine space-time energy towers.

This technology, after understanding the mysteries of time and space, began to create space-time technology.

At present, the science and technology of the earth peoples are at a stage of rapid development, which is simply an expansion period.

A variety of space-time technology products were born, which changed every day, and even began to build a space-time shuttle tunnel.

Moreover, Jiji has begun to apply space-time technology to individuals, which is equivalent to improving the combat effectiveness of each soldier.

The space-time weapons created are all brand-new conceptual weapons with terrifying colors of time and space.

Not terribly powerful, but equally capable of using scientific and technological weapons in the terrestrial space. How terrible?

Once the Terran science and technology have completed the transformation and leap forward, when the whole has entered the space-time science and technology field, the potential of the entire Terran warfare is extremely horrible.

“Offensive, kill the main blood of the blue blood tribe, not one!”

When the construction of the space and time cage was completed, the self-imposed command was issued, and more than 50 billion robot corps were killed directly.

Countless battleships roared and fired directly, firing the strongest energy artillery directly into the closed area.

The energy-free artillery bombardment, horrible anti-matter bombs, marked a splendid fire on the stars.

Boom Boom Boom ...

An interstellar war has begun, one side is the Terran Robot Corps led by the self, and the other is the main legion of the Blue Blood.

The strength of the two is not much different, but if we really want to talk about it, we are still a little stronger on our own side.

Because Jiji has mastered the mysteries of time and space, has completed transformation, and successfully entered the field of time and space.

And the time and space technology she created, coupled with the intrepid robot army, combined with powerful technology, is much stronger than the main team of the Blue Blood.

“Fight back!”

“Kill, destroy the main human race!”

Over there, the Blue Bloods launched a counterattack, and at one time, a terrible energy of destruction erupted above the three hundred battle stars.

Divine cannon roared, hundreds of millions of energy artillery bombarded, hit the starry sky, creating a scene of extinction.

In the Xiaohe Galaxy, dozens of stars were smashed into powder on the spot by this sudden star war and turned into cosmic dust.

boom!

Dozens of hundreds of warships were blasted into pieces, powerful energy, causing great losses to the human race.

However, the Blue Blood's losses were even more serious because of the sudden attack and the ambush, the super technology of the human race was simply an endless stream of even endless anti-material weapons.

Coupled with some emerging space-time technology weapons, the 300 blood stars of the Blue Blood tribe were turbulent, and one of them was just bombarded by a space-time energy.

Click!

The battle star was bombarded by the latest space-time energy cannon, penetrated on the spot, and then exploded from the center, exploding into a firework.

“attack!”

Xunji gave an indifferent order, staring at the three hundred blood race stars, and suddenly issued a crazy order.

“Order, land, and rob the enemy of the star.”

The order was issued without anyone’s objection, because the soldiers and even the officers here are artificial intelligence made by themselves.

They are all artificial people, and the whole army is a whole. The first is to believe in the leader, the emperor Qin Tiange, and the second is to believe in oneself.

This is what Qin Tiange is most satisfied with, and can rest assured that he is leading such a terrifying army.

“Order, the Demon Legion will attack and besiege the blue blood lords.”

Another order was given, accompanied by a huge crowd of giant giants pouring out of the starry sky, roaring loudly and roaring the starry sky.

It was a demon warrior, the super demon created, and he himself controlled it, and directly launched the attack.

boom!

The tragic war began, the human army attacked madly, and the energy bombardment broke the defense of the blue blood tribe. The next step was a more violent landing battle.

It was a self-command, to capture the three hundred battle stars of the main team of the blue blood tribe, it was a great wealth.

As long as you grab it back and transform it a little, you can become a terrible war star belonging to the earth ’s peoples and enhance the earth ’s heritage.

“kill!”

With the two armies joining forces, their energy weapons have been extinguished, and the next round of hand-to-hand combat is launched.

The Blue Legion’s powerful legions opened up, densely packed, defending against the terrible human legion’s attack.

“what...”

“Kill kill!”

The crazy killing was staged. The blue blood race was crazy, and the human race was crazy.

The Terran Corps rushed up one by one without fear of death, completely indifferent, without any emotion.

There wasn't even any pain, which caused great pressure on the blue blood tribe.

A star war has caused hundreds of millions of deaths and injuries, but the two clan armies are still fighting fiercely, and no one will give in.

The blue blood tribe, the main legion's combat effectiveness is extremely tyrannical, and even has a variety of super technology, which has brought great casualties to the self-denial legion.

The two ethnic corps added up to hundreds of billions of soldiers, launched a ***** and brutal fight on this starry sky, and the starry sky broke.

The stars are broken, the stars are collapsed, countless corpses are floating above the universe, and the blood is constantly floating and converging, turning into a floating sea of blood.

The blue and red bloods were entangled with each other. Although the two ethnic groups suffered heavy casualties, they were still fighting.

“Order, turn on the weapons of time and space, and erase the blue blood commander.”

Suddenly, the uncle who had been watching the development of the war suddenly gave an order to erase the commander of the blue blood tribe.

“Turn on the space-time dimension to strike, one-dimensional energy recharge.”

“Aim at the target, lock in, fire!”

Bang!

With a roar, the entire starry sky shook, and small cracks in space and time gradually gathered into a huge vortex, like a black hole, full of terror.

Chapter 908 - Dimensional strike, the battle of space-time weapons

On the starry sky, a huge vortex suddenly formed, as if a super black hole was constantly spinning, releasing horrible energy waves.

A stream of super particles rotates, converges into a stream of super energy, and the surrounding space and time stretch infinitely.

That is the power of the space-time dimension. One-dimensional lines are constantly intertwining and converging, turning into a terrible energy wave.

boom!

With a loud noise, the entire starry sky was shaken, as if the sea of stars collapsed and everything was extinct.

Suddenly, a bunch of horrible one-dimensional particle light bombarded, and the target pointed directly at the only commanding star among the hundreds of stars of the blue blood tribe.

The one-dimensional particle beam bombarded, penetrated the starry sky, torn the barriers of time and space, and clicked. The powerful beam of destruction even penetrated the first two smaller guard stars.

The two battle stars disintegrated and turned into cosmic dust, and all matter and even energy were annihilated on the spot by the one-dimensional particle beam.

The intense particle beam hit the commanding star of the blue blood tribe, but was blocked by a strange aperture of energy.

Rumble ...

The one-dimensional particle beam exploded on the spot, turning into countless space-time particles that dissipated and completely extinguished.

The terrible blow penetrated two guard stars, but was blocked by the commander of the blue blood tribe.

“Didi, when the fluctuation of space-time energy is detected, it is judged to be a treasure of space-time defense.”

Here, in the command room, Ji Ji looked at his face calmly. After the empty particle beam disappeared, the appearance of the blue blood commander was revealed.

It can be clearly seen that the command star is surrounded by a dim space-time mask.

It was the splendor of the space-time defense Arcana that blocked the bombardment of the one-dimensional particle beam and was extremely powerful.

“Space-time defense is extremely precious. It seems that the main team of the Blue Blood tribe has good power.” I said to myself without any surprise.

It seemed that all of this was under her anticipation and control, watching the intact commanding war star, and her own order was given.

“Order, open the two-dimensional plane system, recharge the two-dimensional mirror weapon, and lock the command star.”

With another order, I saw the huge vortex on the starry sky, which suddenly burst into a stronger light.

Inside, there are dense lines of time and space, interwoven into planes, like mirrors and mirrors.

In the vortex, many two-dimensional mirrors of space and time are created, continually condensed and compressed into diamond-shaped mirrors.

At the same time, a group of strong men was shocked by the blue blood celebrity, and had just been bombarded by a one-dimensional particle beam, and almost died.

Fortunately, there are space-time defense measures here, otherwise they will be destroyed directly by that blow.

“Damn, the human race has mastered the science and technology in the field of time and space. That is the application of the space-time particle weapon, which is unique to the Zhixing family.”

“how is this possible?”

“Not good, the Terran will start a two-dimensional mirror attack, and quickly defend.”

In the command star, the blue blood tribe is strong, and the high-level parties are horrified, watching the terrible spatio-temporal fluctuations detected from the vortex, condensing the energy of the two-dimensional space-time mirror.

“No, defense is always the lowest means.”

Suddenly, the blue blood chief commander made a different decision, his face was gloomy, and he directly issued an amazing command.

“Turn on the space-time light wheel and destroy the opponent’s space-time weapon.”

With an order, the blue blood clan commanded war stars, and suddenly there was a terrible space-time fluctuation.

The circles of light converged and turned into a ray of light. The time and space fluctuated violently and the atmosphere was violent, shattering the surrounding starry sky.

“Mirror hit, fire!”

“The light-time wheel has destroyed the human race!”

The two races launched the Xeon space-time strike almost at the same time, and the power of the dimension burst out. From the two-dimensional mirror technology, it turned into a diamond-shaped strike and blasted the commander of the blue blood tribe.

And there, there was also a huge light wheel, the light wheel of time and space, emitting a faint blue light, and the powerful power shook this star field.

Click!

The two space-time forces collided with each other, the starry sky collapsed, and it broke apart, and a large area of starry sky was destroyed.

There, the rumbling rotation of the light wheel shattered everything and bombarded it with the force of destruction.

The diamond-shaped strike here is a terrible strike force constructed by countless two-dimensional mirrors.

boom!

Kakah Kakah ...

The light wheel and the diamond-shaped energy collided with each other, sending out a terrifying sound, destroying the sky and destroying the earth, subverting this starry universe.

There was complete destruction, the storm of time and space rolled up, and cracks spread staggered, even affecting the respective legions of the two clans, and suffered considerable losses.

The collision of forces from space-time level, the battle of space-time weapons, the blue-blood space-time light wheel, the powerful space-time treasure, the strong and weak against the space-time technology of the earth people

collapse!

Suddenly, the two space-time forces annihilated each other, and both disappeared above the starry sky, leaving only a large area of collapsed nothingness.

Two forces disappear at the same time, cancel each other out, regardless of victory or defeat!

“Stopped it?”

The blue blood tribe was furious, and the commander was even more shocked. He was blocked by the light and time bombardment of his own tribe.

And on the human side, I have looked at the light curtain of nothingness, silent, can't even the two-dimensional technology's attack method break through the defense of the other side?

“Then how strong are you to defend?” Ji Ji snorted, and suddenly picked up a special device to open it.

With a click, I pressed a mysterious button and saw that there was suddenly a huge vortex on the starry sky.

“Order, start multi-dimensional coagulation, build 3D blows, and destroy them.”

The last killer has appeared. This is the highest technology available to the people of the earth. Three-dimensional technology, multi-dimensionally condenses dimensional forces, and builds a three-dimensional force to obliterate opponents.

It can be said that this is already the highest scientific and technological means that the self and the earth people have. If it is not yet possible to destroy the other party, then they can only fight hard.

Hum!

With the two horror vortexes appearing in the starry universe, there was violent turbulence in this star field, which was extremely disturbing.

The commander of the Blue Blood tribe changed his face, watching the two swirling vortexes, and gradually gathered a terrible power.

The one-dimensional lines are intertwined, and the two-dimensional mirror structure is continually condensed together, as if to construct a more complicated and scary three-dimensional solid.

The dense space and time dimensions are interwoven and superimposed, and the horror effect produced is extremely terrifying, that is, the blue bloods are thrilled.

“Dimensional powers are superimposed, **** it, fast, turn on the light-time defense of time and space, and hide in time and space.”

The commander of the blue blood race was finally frightened, and immediately issued a defense order, even hiding in time and space.

But when the blue blood tribe wants to hide in time and space, the three-dimensional superposition on the human side is completed.

“Fire!”

With an order, a bang, the star field exploded, turned into a large fragment of time and space, and was destroyed on the spot.

On the positive starry sky, there is only a three-dimensional solid that is superimposed and interwoven, which directly swallows dozens of battle stars of the blue blood clan, including the command battle star, and is isolated on the spot.

“Do not...”

Countless blue **** strong men growled sternly, watching in horror that they were enclosed in a three-dimensional site superimposed in time and space.

Collapse ...

One battle star after another collapsed on the spot, turned into countless fragments, shattered by the particles of space and time.

Death staged, dozens of battle stars directly collapsed, and the countless blue blood races were killed on the spot before they could scream.

Time and space are immense, countless particles of space and time are intertwined and turbulent, crushing each battle star, and finally there is only one commanding battle star.

A ray of light emerged there, turning it into a ray of time and space, and the tenacious guardian battle star was not broken up.

But the light wheel of time and space couldn't stop it for a long time, the blue blood strongman and the commander in the command star were frightened.

“It's over!”

The commander of the Blue Blood tribe was indignant, watching the gradual cracking of the light wheel, and banging, the entire command star was torn apart and directly disintegrated.

The light wheel of time and space was crushed, and the entire battle star turned into countless dust. None of the blue blood people, including the blue blood commander, survived.

A single blow broke the guardianship of the time and space of the blue blood clan, eradicated dozens of battle stars, and directly destroyed the blue blood clan's commander-in-chief.

“The dimensions are superimposed, and the power is really not to be underestimated.”

Looking at the dozens of blue-blooded war stars that have been destroyed, he said to himself with no expression, thinking of more powerful technology.

Blue blood, the command star was completely destroyed, hundreds of battle stars destroyed dozens at once, completely chaotic.

“Order, the whole army attacked, landed, and robbed the blue blood tribe. The blue blood tribe did not stay.”

Finally, Xunji issued a general attack order to land and fight to grab the blue blood tribe’s battle star.

As for the blue blood tribe, there is no one to stay, and I don’t care about the life and death of these blue blood tribe.

What she wants are the remaining two hundred huge war stars. This is the real resource and harvest. The booty must be harvested.

“kill!”

The start of the general offensive, hundreds of blue blood stars of the blood race went crazy, firing continuously, a burst of destruction energy exploded.

This starry sky is completely in ruins. There will be no more stars in the future. Only a piece of cosmic dust is constantly floating.

The huge fleet of the human race attacked, the artillery fire roared, the space-time dimension energy wall was opened, and the blue blood tribe stormed into it.

“Mecha, land!”

“Devil’s Legion, kill!”

A relentless army legion broke into the battle stars. The mech legion and the demon army are the most cruel war machines.

Faced with their own army of artificial people, even the army of artificial demon gods the blue blood tribe could not form an effective resistance at all.

In this battle of interstellar ambush, after all, the human race won, and the main blood army of the blue blood was massacred.

Dense battleships came, and endless mech regiments poured out of the Star Fortress, landing on the blue blood tribe.

At this moment, the blue blood had not yet defeated, and was still thinking about resistance. Unfortunately, they were quickly killed by the terrorist legion led by their self.

“The general leaders of the major legions were rumored and told them that the main force of the blue blood tribe has been wiped out by our army and can be closed.”

Xunji sent a message. Instantly, the Terrans received news in other major legions.

“The blue blood tribe is over!”

“Close the net!”

“Let’s set foot on the blue blood tribe!”

When the news came, the other nine huge legions of the human race started, and ran towards the blue blood tribe’s ancestors.

Chapter 909 - Kill and level the blue blood

The Blue Blood family, the Milky Way galaxy, occupies nine small river galaxies, one large river galaxy, and its territory spans two thousand light years.

However, the situation of the Blue Blood family is not good recently. Nine peripheral small river galaxies have been captured, leaving only one large river galaxy ancestral land in the center.

Aware of the bad blue blood, they sent the first main army of their tribe. As a result, they were ambushed and destroyed by the humanoid army led by their own territories.

The news reached the blue blood tribe's ancestors, immediately set off a stormy sea, and the whole blue blood tribe shook up and down.

"Dash, who will tell the emperor, why is my strongest main army group destroyed?"

The blue blood tribe's ancestral land, the supreme royal family, an extremely angry roar came from the palace, which alarmed all parties.

Inside the palace, the blue-blooded emperor, a middle-aged and screaming roar, shattered a large number of precious spirits.

His face was gloomy, his blue hair fluttered, his breath burst, like a tyrant.

"Human race, human race again!"

"Nine small river galaxies have fallen, what did you eat?"

"A trivial deceased tribe, just made my blue blood like this. What do you want?"

The roar in the palace kept a group of blue-blooded seniors trembling, and kneeling in fear in the hall.

They didn't dare to say a word, because the blue-blooded emperor was angry on his head. Whoever dared to jump out might be clicked directly.

"Report ..."

Just as the Lanxue Emperor was furious, a soldier hurried outside, rushing in panic and reporting a message.

"Take my revenge, there are dense army of human races outside the ancestral land. There are nine legions, and they have surrounded their ancestral land."

As soon as this word came to an end, the pot was suddenly blasted, and the blue-blooded seniors in the entire hall suddenly changed color.

The blue-blooded emperor's face was congested, his blue eyes suddenly turned red, and the violent murderous intentions rolled up with a bang, and the reported soldier was pulverized to death on the spot.

The brutal, horrific killings permeated the palace hall, and the group of blue-blooded strong men who had been restless immediately fled down to be honest.

“Humans, dare to set foot on my blue blood ancestors, and order the clan to fight and destroy the human race.”

The roar of the emperor’s fury roared, stunned the star field, and awakened countless blue blood people.

Suddenly, the blue blood tribe’s ancestors were completely boiled. Countless blue blood tribe strong men gathered, legions gathered, and battle stars gathered around the ancestors.

The entire Blue Blood tribe moved and went up and down to fight.

“The first to ninth legions arrived in the designated area, please marshal instructions!”

At this time, outside the galaxy’s ancestor galaxy, a group of terrorist groups gathered here to surround the blue blood family star field.

These are the nine expeditionary corps of the human race, which came directly to settle the ancestral galaxy of the blue blood tribe.

Nine legions, even the artificial legion led by his uncle, are a total of ten legions.

Each legion has at least 20 billion soldiers, which can be described as the most powerful force on earth.

The nine legions together add up to a total of 180 billion soldiers. What a horror it is, it can be said that it has almost the entirety of the earth ’s peoples.

Coupled with the corps of robots led by Jiji, the number is the largest, but it can be described as how many, but Qiji is not seeking quantity, but quality.

“Order the major legions to open the space-time enchantment.”

At this time, the Tenth Army, the Cyborg Corps led by Li Ji came, and sweeping the battlefield, came directly here.

The arrival of his own legion immediately issued a combat order. First, the ten major legions opened a space-time enchantment together.

This is to isolate the ancestral land of the Blue Blood tribe from time and space, and completely stop the time and space-level powers from intervening here.

Even if the time-strengths intervene, they are not afraid of themselves, because the human race is not without the time-space-levels.

Regardless of the eighteen ancient sages, let’s say that we ourselves are already strong in space and time.

Moreover, Terran Technology has set foot in the field of time and space, and even if you fight against the power of time and space, you are not afraid of each other.

Time and space, dare to come, dare to kill!

Hum!

I saw that around the blue blood galaxy, ten powerful space-time energies suddenly emerged and turned into a beam of light shuttled back and forth over the galaxy, interweaving a huge mask.

That is the space-time enchantment. It is the space-time technology that you have mastered. You can create an enchantment that can defend and block a star field.

It can also be said that this is a cage of time and space, a very powerful scientific and technological method, which has made the blue blood seniors hairy.

“Time cage?”

“Fast, open up space-time defense, ready to ask for time and space details.”

Finally, the blue-blooded emperor was shocked and had to give an order.

This is in the face of the extermination of the genocide, and we can no longer afford to be sloppy, otherwise the blue blood tribe will be easily destroyed.

“Order, start the strike of time and space, and destroy the blue blood’s living power.”

At this moment, his own order was transmitted to the major legions, and a direct high-intensity bombing was about to take place.

It was a blow from the dimension of time and space. It was necessary to destroy the tenacious power of the blue blood tribe, to destroy the other person’s time and space and other means.

“Turn on the one-dimensional particle beam, turn on the two-dimensional mirror surface, and superimpose the dimensional attack.”

“The particle beam is heated, the mirror is superimposed, and the target is locked!”

With a voice command, the space-time technology mastered by the human race unfolded its tusks.

A wave of spatio-temporal dimensions converged, and from the ten sides, the positive galaxies were trembling.

The blue blood tribe’s ancestral land was surrounded by ten directions, which was simply the ten-square lore, and there was no possibility of escape.

“Fire!”

With an order, the positive tremor shook the positive river galaxy, and the ancestors of the blue blood trembled, and the planet burst.

Shifang lore, ten terrible dimensional blows, aimed at the ancestral land of the blue blood tribe, this is to subvert the entire blue blood tribe.

“Do not...”

The human race launched a dimensional strike. The terrible power from space-time technology shattered the outer periphery of the blue blood family galaxy, and countless stars were blown up.

It was direct destruction, no mercy, no matter what was in it, anyway, at the moment of the war, it became meaningless.

Boom boom!

As the planet exploded and supernovae exploded, this star field became extremely turbulent, as if plunged into destruction.

Countless mournful sounds came, and the countless lives of the blue blood tribe were smashed by the dimensions of time and space to wipe them out.

The one-dimensional lines are intertwined, the starry sky is cut, the two-dimensional mirror surface is swept, devouring countless substances, locked in the mirror surface, and then exploded and crushed.

As three-dimensional, the positive starry sky was cut into three-dimensional layers, and the blue blood galaxy was divided.

“Jack!”

“Who is wanton?”

At this moment, there was a terrible wave in the ancestral land of the blue blood tribe, which was a powerful breath from the space-time level.

The blue-blooded time and space strong roared and leaped into the sky, waving the space and time treasure to block those terrible attacks.

Dimensional strikes are generally difficult to defend, and only the forces in space-time can counteract.

“Roar!”

“Human race, you look for death!”

On the starry sky, several terrible figures suddenly appeared, and the huge body swelled up, guarding the blue blood tribe’s ancestors inside.

They are eight space-time powerhouses, each holding a time-space treasure, defending eight directions, blocking the dimensional bombardment from the human race.

These blue-blooded time and space strong men have huge bodies and stand up to the starry sky. They look like a terrible giant with long blue hair dancing and shining bright blue light, which is extremely dazzling.

“Blue Blood Trivia?”

I looked at the eight space-time powerhouses, with a cold face, without any panic or surprise, and even revealed a trace of terror.

“Go, release the latest Demon Squad and take back these space-time levels.”

With the order of Jiji, I saw a terrifying roar suddenly heard from a battle star.

“Oh!”

“Roar!”

The roar shook the starry sky, and the terrifying roar sounded as if to shatter this universe of starry sky, which was frightening.

I saw one giant troll rushing out of the battle star, traversing the starry universe, the body swelled and turned into a terrible big demon like the stars.

It was a man-made demon god. Nine demon gods appeared above the starry sky. The horrible body exuded gray and chaos magic.

Demon mighty, deterred the starry sky, attracted the eyes of the eight blue-blooded space-time powerhouses, terrifying.

“what is this?”

“What does the Terran hold?”

Those blue-blooded time and space-level strong men, watching the nine terrors roaring the starry sky, came step by step.

The gurgling noises spread across the stars, and nine huge demon gods rushed forward, one by one holding a horrible tomahawk, emitting the glow of hot particles of time and space.

It is a super-weapon created by space-time technology weapons. It was specially created by Nine Gods for nine people.

“kill!”

The instructions were issued, and the nine demon gods brushed their heads together, and the gray eyes burst into bright light, full of violent killings.

Nine horrible demon gods stared directly at the eight blue-blooded space-time powerhouses, snarling and rushing to kill them.

Bang!

The war began, and the terrible power of the artificial deities finally appeared for the first time in front of their own and foreigners.

Looking at the fierce fiendish demon, pressing the eight space-time powerhouses to chase and slam directly makes people stunned.

“Order, the whole army will attack and settle down the blue blood tribe’s ancestor!”

Seeing that the blue blood tribe’s time and space details were blocked, Jiji launched a general attack order and directly led his own Cyborg army to kill them.

“kill!”

“Peace the blue blood!”

A loud blast came from ten positions, ten human interstellar expeditionary units launched a fierce attack.

The general attack began. Ten expeditionary legions of the human race were to destroy the blue blood tribe and settle the ancestral land of the blue blood tribe.

From this moment, the dignity of the human race must be scrubbed with the corpses of the starry hundreds of people, regain the dignity of the human race, and establish the prestige of the human race!

“Kill! Kill! Kill!”

“Defend my family!”

The galaxy riot, countless blue blood clan counterattack, clan battle, it was a battle of life and death.

Terran war flag hunting, storming the blue blood tribe, instantly killed into a ball, the roar shook the sky, the killing sound shook the galaxy, shaking the starry sky.

Blood and bones continually spilled into the vacuum of the universe, and the flames of war raged through the entire galaxy. In this ancestral land belonging to the blue blood tribe, the two families launched a thrilling and fierce killing.

Chapter 910 - Stunning change, the star giant is here

The human race fought ***** battles with the blue blood tribe. Hundreds of billions of legions were fighting, and countless corpses floated above space.

boom!

A huge space mech exploded and turned into a sparkling firework, lighting up the dark starry sky, seeing a crowd of battleships crossing the starry sky, not breaking the fire.

The interstellar fortress glowed with bright light, the battle stars roared, and the flames of war raged throughout the starry sky. The fierce killing shocked the nearby galaxy race.

Just as the two races were incapable of killing each other, a large number of huge war stars suddenly emerged outside this galaxy.

Huge battle stars flew in, and soon approached the central galaxy of this blue blood family.

“Warning, outside the circle of war, unknown legions appear on the edge of the galaxy.”

Suddenly, an alarm came, shocking the self-consciousness who was leading the army’s onslaught.

She immediately opened the monitor set up outside the galaxy. On the screen, huge war stars suddenly appeared, approaching the galaxy.

There are more than 500 huge war stars, and you can see that you are frowning. The origin of this power is unknown, but it is definitely not a good thing.

The Terran is currently launching a total offensive phase, and they will be killed in a short period of time.

Once detached, the enemy may suffer from the back, which will cause even greater losses, and may even be annihilated in turn.

“Which race star is this?” Gu Ji looked serious, realizing that the problem was serious.

At the beginning of the war, the general offensive has already begun, and it is impossible to evacuate, because the two ethnic groups are now fighting together and cannot be separated from the war.

Now he suddenly broke into a huge army, which made his self realize that the visitor was bad.

“Didi, that’s the star giant symbol, and the giant’s war star.”

Soon, the detection system came to analyze that those battle stars had the logo of the star giant.

It was confirmed that the comer was the legion of the starry giant clan, and once it was more than 500 battle stars, it was regarded as a main legion.

“Star giant, the visitor is bad.”

Yan Ji’e frowned deeply, handing the combat command to the vice general, and she monitored the approaching legion.

At the same time, she quickly conveyed the message, and the commanders of the other nine legions of the Terrans immediately received the warning message.

“Star Giant?”

The commanders of several other legions were horrified. Looking at the monitoring screens from Zanj, it was shown that this galaxy had a powerful star giant battle group.

Moreover, according to the detection of his own energy, there are many space-time fluctuations hidden in this legion.

Even if it is not the strongest in time and space, it is likely to be a space-time level means mastered by the star giant.

In this way, the battle was a little confused, and the general offensive had just begun. Before the blue blood tribe’s ancestors had been won, a large army of star giants ran.

“Order, the major legions, select a part of the elite, and immediately rushed to the designated star area, I will personally stop this legion.”

Xun Ji quickly issued an order, and a large number of elite soldiers were brought in by the Grand Legion, and she personally blocked the sudden Star Giant Legion.

“Battle of the Devil, come out of the fight and follow me.”

Soon, he acted, leading the strongest Demon Legion directly out of the war and backing out.

The command was given to her lieutenant, a powerful artificial intelligence, and she herself led the most powerful demon legion to the galaxy.

boom!

Among the nine galaxy legions, one of their most elite soldiers was drawn out, and they were commanded by their own soldiers.

The two-billionth-strongest elite army gathered, leading by their own self, to the edge of the blue blood tribe's central galaxy.

At this time, hundreds of battle stars outside were densely arranged and turned into a strange formation.

More than 500 battle stars lined up in a formation, approached slowly, and a strong wave of energy came in, officially confirming that the visitors were bad.

“report!”

“The Terran has deployed some elites to stop.”

Inside a huge battle star, there is a group of powerful giants, looking at the human legion converging on the edge of the galaxy.

A hundred-zhang giant headed by him, wearing a set of battle armor, his eyes were cold and indifferent, looking at the assembled army of human races.

“Human races actually launched a total attack on the blue blood tribe's ancestors. It seems that they have a heart to kill the blue blood tribe.”

The commander of the giant clan talked to himself and could not hear any mood swings, only the twinkles in his eyes.

He suddenly sneered and said, “Are two billion troops, want to stop the strongest main battle group in his family?”

“Rush forward, send the First Army to attack, and destroy this part of the human army.”

The Commander of the Starry Giant Clan gave an order and saw that hundreds of battle stars were rumbling up and down without any intention of stopping.

Even from inside the battle stars, a huge number of giants suddenly emerged.

These giants are all elite warriors of the star giant family. The lowest one is the powerful existence of the star star.

The strongest Star Giant Corps appeared, and a full 20 billion battle group was killed to destroy the two billion blocking army of the human race.

“Sure enough, the starry giants are coming for our people, or they want to buy cheap.”

Li Ji looked indifferent, watching the tens of billions of starry giants rushing up, laying densely on the starry sky.

Here, only two billion people's elite forces have been gathered. Can they stop in the face of 20 billion star giants?

And not counting the five hundred giant battle stars, there are at least hundreds of billions of star giant warriors.

“I had expected other races to come in and pick up the bargains, but I did not expect to come.”

Ji Ji's face was calm, without any trace of panic and fear, but Zhizhu was holding it.

“Order, open the second layer of space-time enchantment, and block this group of star giants.”

With the order of Jiji, some last resorts that had been hidden outside the galaxy finally came out.

Hum!

A buzz spread across the sky, and a mysterious beam of light lit up on the cosmic sky.

These rays, with strong time-space fluctuations, attracted the attention of the powerful giants of the starry sky and looked slightly changed.

“Not good. That's time and space fluctuations. The Terran has used time and space level means.”

“Fast, activate time and space defense.”

The Star Giant was a little nervous, and immediately launched the space-time defense arrogant treasure, ready to meet the space-time strike.

But soon they found that they were wrong, and this time-space energy fluctuation was not an attack, but a kind of imprisonment or defense.

That was the second outermost concealed space-time enchantment. It was the second-hand preparation made by Jiji in case foreigners suddenly intervened, and it was used.

“Is it time and space?”

At this time, the star giant giants understand that this is a space-time cage, a powerful enchantment.

Outside the galaxy, another huge halo covers the area, completely covering the star giant battle group.

The space-time enchantment has powerful defense capabilities and imprisonment capabilities, confining all the creatures in it.

“Human, so cunning!”

Watching the formation of the space-time enchantment, the strong of the starry giant clan had to scold the clan for being too cunning.

The commander of the starry giant has always been very calm. Looking at the space-time enchantment, it is difficult to break in a short time.

Even if it breaks out, the human race has completed the total attack and annihilation mission of the blue blood tribe, and when the main force is drawn out, it can deal with the starry giant tribe.

“Fortunately, before coming here, my clan and the clan raised a proposal to send two main legions, otherwise this time they will really fall into the hands of the clan.”

The giant commander murmured to himself with a cold smile on his face, secretly rejoicing in his decision.

Before coming, he proposed to the Giant King of the Star Giant to send two main legions to pick up the bargain.

By the way, the human race and the blue blood race will be destroyed together. This is the intention of the star giant.

Moreover, the two main legions did not go together, and the other went in the other direction.

boom!

Sure enough, with his own side blocking this army of giants in the sky, but on the other side of the galaxy, a terrible shock suddenly came.

“Warning, a large number of unknown legions have been discovered in the southern galaxy group, belonging to one of the star giant’s main legions.”

Another alarm came, which changed the face that had been very calm, and looked at the screen displayed on the monitor.

There, another main army of the star giant came, seeing this, I knew that most of this time it will be halfway.

“The two main legions, the Star Giants, seem to be planning to destroy us together with the Blue Blood.” Fu Ji said to himself, his voice through a cold killing.

The plan of the Star Giant is very clear. While the human race and the blue blood tribe are defeated and wounded, they suddenly shot to destroy the power of the two races.

Two dogs fight, play off!

“You want to be a fisherman, you are going to be disappointed.”

Xi Ji Leng hummed, with a slight disdain. In fact, she had already done countless calculations for this situation, and had already expected countless kinds of situations.

Now, the main force of the two star giants arrives, and immediately let the self understand that it is time to use other legions.

“Order, open the quantum transmission gate, build a quantum space-time tunnel, connect the chaos continent, and attract other group troops to help.”

With the release of his own order, the prepared response plan was started immediately, and a wave of quantum energy collided. The particles of time and space boiled, breaking through the barriers of time and space, forming a channel.

It was a quantum portal, a space-time technology, and built a temporary quantum space-time tunnel to connect the Chaohe continent of the Tianhe continent.

You know, there is also half of the main human race in Chaozhou Island, and there are also ten huge army forces fighting there.

“Emergency mission, the 11, 12, 13.14 army, immediately went out to support the sky.”

In Chaozhou, the four major army units suddenly received emergency combat orders, and immediately assembled and stepped into the space-time tunnel constructed.

Suddenly, four elite group troops from Chaos Island came suddenly, and came to this galaxy from Chaos Island to participate in the battle.

Huh!

I saw a terrifying battle flag burst into the air, and a lonely dead star running through the edge of the galaxy, clicked there, the flag hunted, and the five stars shone, exuding a mighty war.

“war!”

A roar shook the starry sky, and saw four huge legions rushing out, divided into two branches and attacked the two starry giant legion main army groups outside the galaxy.

The Terran came again with four powerful elite legions, which changed the colors of the two Star Giant main legions that originally wanted to pick up the cheap.

“Cunning Terran!”

“Kill, annihilate the human race!”

Finally, the commanders of the two giants of the starry sky, and issued an attack order at the same time, to destroy these legions of the human race A sudden war has begun, outside the galaxy, two main forces from the starry giant The arrival of the Legion cheered the Blue Blood.

“It is the main legion of the Star Giant.”

“Our blue blood ally is here!”

“Kill!”

“Counter attack, counter attack!”

For a while, the entire galaxy was caught in crazy chaos inside and outside. The blue blood races were completely crazy and morale was high. They believed that the star giants came to support them.

The human race fought on both sides, and the galaxy faced the blue blood tribe that was madly fighting back. The outside of the galaxy was a huge threat to the starry giant race, and the pressure was greatly increased.

“Meet the brave to win on the narrow road!”

“Brothers, kill!”

All the incoming legions of the Terrans participated in the battle, and a fierce ***** battle began.
