

## Dark Ages 941

### Chapter 941 - Power of the Universe

An unknown galaxy. Most of the galaxies have been destroyed. It belongs to a destroyed galaxy zone, and there is not much life.

From some broken planets, we can see the glory of the past, there was once a tyrannical race.

But this group seems to have experienced the extermination of the clan. No trace of life can be seen here, and only the traces of broken civilization prove the former prosperity.

Huh!

In the center of the galaxy, above a semi-disabled master star, Qin Tiange and Li Luo came out of the cracks in time and space and came here.

Looking at the scene of the ruins, the two didn't pay much attention. After roughly scanning the majority of the galaxy without any signs of life and threats, they immediately stopped in a ruin.

“Huang, the stronger the depression, the more I can't hold myself back, the power is coming.”

On the ruins, Li Luo's expression was a little flustered, and for unknown reasons, she had an invisible force to affect her mind.

To this extent, Li Luo can say that he has never been afraid, but at this moment the mind and consciousness are not controlled, and a kind of fear emerges from the mind.

Unfamiliar fear made her unable to calm down, not the fear of her own birth, but caused by some force.

“Suppress your body with the kingdom of the sea god, immortal will, never invade!”

Qin Tiange drank, awakened Li Luo, and all the small kingdoms in his body suddenly gathered and turned into a sea of circles.

There are also terrible scenes in Li Luo's body. There are many kingdoms of God. Although they are not as scary as Qin Tiange, they are absolutely terrible.

In addition, she borrowed from Qin Tiange's practice method, created her own invincible path, calmed down, suppressed herself, and immediately restored her original calmness.

“Chaos glazed, suppress my body.” Li Luo shouted, and a wave of chaos glazed with light permeated him, suppressing himself.

She originally transformed with the chaos spring eye given by Qin Tiange, and evolved into the oldest and most primitive chaotic life form, naturally mysterious and powerful.

boom!

A wave of chaos sprang up and shrouded here, as if it had evolved into a truly violent chaos, the world was not open, and the world was obscured.

I saw that there was a strange ray of glazed light shining in the chaos, full of mysterious colors, constantly interwoven and converging, and transformed into a set of battle clothes and cymbals to protect Li Luo.

After doing this, Li Luo Qiao's face was completely stable, her heart suddenly calmed down, as if the inexplicable panic just disappeared.

"It turned out that there was a power effect that made me fear and disintegrate my sense of resistance." Li Luo said to himself, waking up.

Her eyes were cold and a little bit of anger, and she was affected. It was not clear what affected her.

"How, did you feel that power coming?"

At this time, Qin Tiange was arranging a dense array of super arrays around him, and a series of patterns penetrated into the starry sky, even piercing the space-time, entangled, completely blocking the space-time.

He even took out the Pangu seal and typed it out directly, covering the place, and completely integrating into the dense array of ancient formations.

"Huang, the robber from the unknown is getting closer and closer, and I have felt that power, coming soon." Li Luo said with a serious expression and solemnly.

She sensed that her calamity was coming, and it was fierce, as if she had formed a terrible cleanup and eradication force for her.

This is the eradication mechanism from the big universe. It cleans up the threat inside the universe. No creature can escape, it can only hide in a more ancient era, and become a prisoner of the era there.

The so-called Lord of the Times, from Qin Tiange's point of view, are prisoners in each era, unable to obtain freedom, and restricted there.

"Ready, I will use the chaotic element to stop you. If it is not possible, then you will break the barriers of the times and hide in the ancient times." Qin Tiange looked at the void and said to himself.

In fact, he has no idea whether he can succeed or not, and whether he can block the eradication force from the instinct to clean up from the universe. Everything is unknown.

Li Luo nodded solemnly and said, "Hwang, I'm ready!"

When she saw that she was ready, Qin Tiange smiled with a bowed head and comforted: "Don't be nervous, if it doesn't work, go to the ancients first."

"Okay!" Li Luo nodded, and closed his eyes, adjusting his body and mind to the best state.

She is preparing to unite the power of Qin Tiange to try to fight against the so-called eradication and cleanup of the universe.

“Chaos, born!”

Qin Tiange drank, and a chaos of light flew out of his body, which instantly shrouded the space and time in which the two were, and turned into a chaos.

This is the chaotic elemental fetus, which belongs to Qin Tiange’s strongest and most precious treasure, and has even merged and turned into a unique treasure like a semi-life treasure.

“Hidden!”

The next moment, Qin Tiange concealed all the formations and even the Pangu seal, and even the chaotic elemental tires disappeared.

Having done everything, the two waited quietly, waiting for the kind of disaster that made all the powerful people in the universe talk.

Huh!

Surely, Li Luo opened her eyes, and two chaotic liuguang tore through time and space, looking through the unknown place above nothing.

She changed her face slightly and exclaimed, “Hey, here it is!”

boom!

As the voice just fell, the area where the two were located was suddenly erased by some invisible force.

In the center of the originally broken galaxy, the main star company with dozens of nearby stars turned into particles and disappeared at the same time.

“Stand up!”

Almost a thousandth of a second, the dense array of lines intertwined and stood up, completely isolated and shrouded here.

Countless ancient formations are intertwined, the Pangu seal is shaking, and the two strong guards of prohibition are trembling constantly, making a terrible buzzing sound.

I can’t see any force attack, I can’t feel any energy explosion, but I can see the dense lines around it burst, then melt and disappear.

Weird!

The terrible scene Qin Tiange couldn’t help changing his face, and looked at the countless patterns laid out by himself with shock.

Not to mention breaking, it is the ten masters who came here in person, and the joint bombardment could not break the formation here, let alone the Pangu seal.

boom!

With just a blink of an eye, all lines were destroyed and disappeared, completely annihilated by an invisible force, unable to stop it.

In the end, only the Pangu seal was still stubbornly resisting, but it was slowly being worn away.

“What power is it?” Qin Tiange was frightened, and he struck a chaotic spirit to secure the Pangu seal.

Nine chaotic stones trembled with the chaos of God’s light, all the Pangu symbols beating, exuding ancient desolate power, blocking this weird eradicating force.

The two are intertwined. After all, the Pangu seal was lost, and it was worn away a little. Seeing that it was about to be destroyed, Qin Tiange gritted his teeth and recovered the Pangu seal.

Bang!

The Pangu seal disappeared, everything around it was completely annihilated, all sights disappeared, and the entire galaxy disappeared in an instant and was wiped away.

And even with time and space are broken layer by layer, the intertwined innumerable patterns can not be blocked for a long time, a breath will completely disappear.

“Huang, give up, let me break into the ancient times, this power is too terrible, it will affect you.” Li Luo was shocked, a little shocked, but had to propose.

She didn’t want Qin Tiange to be affected by her own robbery. In that case, it was definitely not what she wanted to see, so she decided to give up and break into ancient times.

However, Qin Tiange didn’t speak, his eyes flickered, staring at the gray chaos around him, and an invisible force was eroding the chaotic birthplace.

Moreover, this force wanted to destroy the chaotic elementary child and wipe out the weird baby chaos of the chaotic elementary child.

“Want to erase the chaos?” Qin Tiange looked dignified, feeling that the diaphragm outside the chaotic Yuantai was eroded.

Feeling the threat, Chaoyuan Yuantai voluntarily counterattacked, and a mysterious and primitive amount of wild violence emerged, which blocked the force of eradication from the universe.

Click!

When the two forces collided, the slightest aura of light emerged, and the power that was not seen suddenly flashed.

It was this moment that allowed Qin Tiange to capture the mystery of that power instantly.

Moreover, as all his spiritual wills merged into the chaotic birthplace, he felt the two forces confront each other and gained more insights from it.

Gradually, Qin Tiange saw through this mysterious coat of power, and finally knew what kind of power it was.

“The power of the universe?” Qin Tiange exclaimed, startled.

It turns out that this power is derived from the power of the universe. No wonder it can wipe out everything. It was originally a power of the universe.

Seeing this, he understood why Chaos Elementary Tire can block this force, and Chaos Elementary Tire is strictly a brand new universe.

Although it is just a baby's chaotic universe, it definitely has its own great cosmic power, that is, the power of great chaos.

Qin Tiange grasped this kind of power, and realized the mystery, he could not help raising a bright smile.

“Li Luo, immediately use the power of the origin of Chaos Spring Eye, you completely transform all the power of your own kingdom and even all of your body into the power of great chaos ~ [www.mtlnovel.com](http://www.mtlnovel.com) ~ Qin Tiange voice eagerly warned.

Although it is not clear why, Luo Luo still trusted Qin Tiange with 100% confidence, and directly condensed and transformed all the strength of the whole body. Based on Chaos Spring Eye, he transformed into a brand-new great chaotic power.

Although very weak, with this power, Li Luo no longer fears the obliteration from the power of the great universe.

boom!

Next, Qin Tiange sensed the vibration of the chaotic elementary fetus, as if he was about to break the barrier. He knew in his heart that the chaotic elementary fetus had just become a baby chaos after all, and his ability was limited.

Eventually, he withdrew the Chaos Yuan to protect himself, and stared at Li Luo tightly, being enveloped by a primitive and ancient power.

boom!

Li Luo's body was suddenly blown out, and a ray of blood was hanging from the corner of his mouth, apparently just hitting it hardly.

“Can't you stop it?” Qin Tiange looked dignified, looking at Li Luo with pain in his face, as if he was being crushed by the power of the entire universe.

“I can't stand the emperor”

Li Luo tried his best to roar, and felt that he couldn't support it, as if he was fighting against the whole universe, he couldn't resist it at all.

“Into the ancient times!”

Qin Tiange drank, and finally let Li Luo give up and enter the ancient times. This was a helpless move, because he couldn't compete with the entire universe.

“open!”

A loud drink, accompanied by Luo Luo's exhausted strength, burst through time and space and broke through the barriers of the times.

Li Luo flashed past, stood in front of the barriers of the times, turned around and took a deep look at Qin Tiange's last look, his eyes were full of perseverance.

“My lord, you take care, Li Luo, waiting for you in ancient times” she said a word, and finally stepped into the cracks of the barriers of the era and disappeared.

Chapter 942 - Metamorphosis

Bang bang ...

In the deep space of the universe, in the center of the destroyed galaxy, a figure is under pressure to kill it.

That was the obliteration of power from the big universe, as if the entire universe was full of hostility, and Qin Tiange, the threatening virus, was to be eliminated.

Watching Luo Luo break the barriers of the times and step into ancient times, he had to hide in and escape the pursuit of the universe.

Qin Tiange was heavy in his heart, but he still failed. He couldn't compete with the mysterious robberies. The cleanup from the big universe was really terrifying.

This is like the mechanism of the human body self-cleaning garbage. It comes from the big universe self-cleaning, and some threat-filled creatures are cleaned up as garbage.

Although this kind of cleanup cannot be prevented, it can still be avoided, and it is a helplessness to temporarily hide in the ancient times.

Bang!

At this time, Qin Tiange looked serious, because the terrible catastrophe had not disappeared, Li Luo, the lord, left, but he was still there.

Because he intervened to help sharpen, it was tantamount to directly making that force an object to be cleaned up, and directly turned his spear at Qin Tiange.

“It's so strong, can't even the power of chaos be stopped?” Qin Tiange was shocked, feeling more and more terrible pressure.

That pressure, as if the entire universe was on his body, did not destroy his feeling of vows.

Outside his body, a ray of invisible power continued to erode, splitting Qin Tiange's body and flesh, trying to obliterate him.

Uh ...

A clear whistle came, a spark of sparks erupted on the surface of the body, and unknown forces were eroding his body.

Qin Tiange's eyes flickered, endless power poured out from his body, and 60 trillion \*\*\*\* kingdoms rumbled together, pouring out a supreme power.

This force eventually transformed into a more powerful force under the oppression of the universe, and was successfully transformed with the help of the chaotic yuan.

Click!

Suddenly, a kingdom of God exploded in the body, crashed, and then a chain reaction was triggered, and the cell kingdom of God collapsed one by one.

Under the terrible oppression of the universe, the countless kingdoms of God in Qin Tiange collapsed one by one, and the speed became faster and faster. Finally, the total of 60 trillion kingdoms of God collapsed.

puff!

With the collapse of the kingdom of God in his body, Qin Tiange opened his mouth with a spit of blood and was severely wounded, as if his body was on the verge of fragmentation at this moment.

The situation is critical. If it is not good, Qin Tiange may fall into the personal robbery belonging to Li Luo.

**“Broken is rebirth, chaos is infinite, and great chaos evolves.”**

Qin Tiange gave a loud scream, his flesh exploded, and turned into countless powders. The gray chaos gushes out, instantly converges, and restores his original appearance.

At this point, in his body, all the broken cell kingdoms became a single source of fusion, becoming a stronger source.

That is the origin of the Great Chaos. All the kingdoms in the body are smelted, instantly integrated with the chaotic primitives, and collapsed together, integrated into every cell of Qin Tiange.

Almost instantly, the original 60 trillion cell kingdom of God suddenly transformed into little chaos.

Coming from the inside of the cell, it is full of the origin of chaos. It has become a chaotic world of small cells, and a large force of chaos has emerged.

Metamorphosis, seeking change in death, Qin Tiange ventured to use the cosmos of the universe to crush the unbreakable cell kingdom of God in his body, and finally metamorphosis was completed.

**“Ha!”** With a loud drink, the mysterious surroundings suddenly exploded, shattered by a cloud of primitive power.

Qin Tiange growled and screamed, as if an ancient taboo creature was born, free from the oppression of the universe.

**“Finally, the final transformation has been completed, the kingdom of God has been destroyed, a brand new real world has been transformed, and the cells in the body are chaotic. This is what I want.”** Qin Tiange said to himself, a hint of ease and confidence appeared on his face.

It is precisely this opportunity that he will use to crush all the cell kingdoms in the body, and even the vast kingdoms in the sea.

In this way, Qin Tiange completed this adventure plan, using the power of the great universe to complete the transformation, and successfully derived the cell chaos.

Each cell is surrounded by a piece of chaos. The complete and newborn chaos is transformed from the chaotic elemental fetus combined with all the kingdoms of God.

In the sea, the original kingdom of the sea \*\*\*\* has completely transformed, turning into a huge and vast chaotic sea.

There is real chaos. It belongs to the main body of chaos, a chaotic baby growing up.

boom!

Along with the complete transformation in the body, Qin Tiange felt a brand-new force flowing out, and the slightest chaotic gas interweaves itself outside the body, forming a perfect defense.

It was the original power from the great chaos. It was violent and full of destruction. It was extremely scary. Even the power of the great universe was difficult to erode.

“Finally, the transformation has been completed, and it has become a great chaotic force.” Qin Tiange looked with deep emotion at the deep space of the universe, and inexplicable forces bombarded all around.

At this moment, Qin Tiange has not been afraid of this force’s obliteration and repression for the time being, but he still cannot counter it.

Confronting the entire universe, that’s what the fools do. Therefore, Qin Tiange’s body shook, and chaos filled with chaos.

In the end, all his breath disappeared, as if he was not in the universe and lost his goal, and this inexplicable force gradually disappeared.

Qin Tiange blinked his eyes and secretly said, “Self-cleanup from the big universe, once the target cannot be sensed, it will dissipate.”

He seemed to understand something, and why the universe of creatures, after this step, had to hide into the ancient times, such as ancient times.

Because in it, the power of the big universe seems to find no cleanup target and disappears naturally.

Qin Tiange, at the moment, successfully evaded this kind of power, and under the concealment of his own great chaotic power, he successfully escaped the cleanup of this inexplicable power.

“My robbery hasn’t come yet.” Qin Tiange frowned suddenly, feeling a little weird, and his robbery hadn’t come yet.

The power just now was just a robber of Li Luo, because he was blocked by the side and was cleaned up.

Now that the great universe cleaning power disappeared after being concealed, it is strange that his belongings have not been sensed yet.

“Unfortunately, if the metamorphosis is a little faster, Li Luo will not have to hide in ancient times.” Qin Tiange sighed suddenly.

He looked at the emptiness, and there was the place where Li Luo had broken through the barriers of the era.

If Qin Tiange’s transformation was successful earlier, maybe Li Luo would not have to hide in the ancient times, but unfortunately nothing will happen.

Hum!

While he was silent, there was a buzzing above the nothingness, and strange waves continued to emerge.

“Huh?” Qin Tiange raised an eyebrow, his eyes flashed with surprise, and he suddenly caught a breath from the ancient times.

In the barriers of the age, above the emptiness, suddenly a familiar breath came down, passing a message through the barriers of the age.

“The emperor ...” Li Luo’s voice came from the unknown place, awakened Qin Tiange, and immediately walked away.

In the blink of an eye, Qin Tiange passed through the dark and unbounded, stopped in front of the unknown, and stared at the strange ripple in front of him.

It was a mysterious barrier, the barrier of the times, and the breath from the ancient times was being passed on a little bit.

Huh!

The next moment, a hazy figure emerged quietly, projected, and stood in front of Qin Tiange.

“Li Luo?” Qin Tiange was different, and looked at the figure in surprise, which was Li Luo who had just entered ancient times.

I saw, Li Luo said with a very excited expression: “The emperor, finally saw you, for five hundred years, I can finally successfully project here for five hundred years.”

“Uh, five hundred years?” Qin Tiange froze, a little stunned, never thinking that Li Luo had just entered ancient times, and it was 500 years since he blinked?

“Li Luo, what kind of place is antiquity?”

Qin Tiange didn’t care about this, but was curious, in ancient times, what kind of place was it? Is it an ancient universe?

Hou Liluo shook his head and smiled bitterly: “Huang, you are right, ancient times is a prisoner. This place is not the universe, but a continent. It is called the ancient continent. An ancient and mutilated world. “

“Tell me something in detail.” Qin Tiange came to his senses and looked at Li Luo seriously.

“Good!” Li Luo nodded, and immediately said: “The emperor ~  
[www.mtlnovel.com](http://www.mtlnovel.com) ~ the ancient continent is actually just one ...”

boom!

As soon as the words fell, without being able to speak, Li Luo was bombarded by a terrible force, and the projection shattered on the spot.

Suddenly the accident changed Qin Tiange’s surprise, and his expression changed greatly. He watched the change with shock.

Li Luo's projection was destroyed directly, consciousness was impacted, and the original barriers of the era disappeared instantly.

Qin Tiange's expression was dignified, because the breath of Li Luo disappeared, and the sudden force just interrupted Li Luo's remarks.

It was as if what Luo Luo was going to say touched a certain taboo, and being unable to say it attracted mysterious power to block it.

"Li Luo, I hope you are fine ..." Qin Tiange flashed anxiety in his heart, hoping Li Luo was fine.

Qin Tiange had serious doubts about the antiquity, and even had terrible speculations. Can't even tell the secrets about the antiquity?

"Ancient ... epoch ... big universe ..."

Qin Tiange stood here, whispered to himself, thinking in his heart what Liluo had just said, which caused mysterious forces to disturb him before he said it.

This was terrifying, and Qin Tiange felt depressed and covered with a shadow, very uncomfortable, as if he had some power to control everything.

"Well, it's still not strong enough. Whatever it is, only strong is fundamental."

Qin Tiange watched for a long time, and finally turned away from this dark and unbounded unknown place, and walked away directly, and returned to the deep space of the universe.

Standing on the empty starry sky, the original galaxy has been completely erased, and nothing is left.

"Go back to the Terran Headquarters first."

After a long silence, Qin Tiange murmured, turned to tear open the interstellar space-time, stepped directly into it and disappeared.

Chapter 943 - Terran takes off, unstoppable

Milky Way, Central Tianhe continent, Chaos continent.

The original scene of 10,000 people killing together, the chaotic order of killing everywhere has gradually disappeared, but now it seems orderly, as if the order was reorganized by an invisible force.

The chaotic killings here have gradually subsided. In the whole Chaos Continent, all races and spirits are frightened, and most of them fled here.

The remaining souls have been conquered, yes, they have been conquered.

The entire Chaos continent has fallen into the hands of the human race, and more and more people come here, occupying the entire continent firmly.

In the center of Chaos Island, a vast battle city stands there, with a scarlet five-star battle flag emanating from the sky.

In the city, a hall is towering, floating in the center of the city, exuding a hazy light, powerful coercion permeates.

There is an invisible force gathering in the sky, which is the luck of the human race, which is extremely surging. Ever since it occupied the entire Chaos Continent, the luck of the human race has become even more powerful and tenfold.

The Emperor's Hall was shrouded in chaos throughout the year, and outsiders could not enter at all, and even the high-level people could not approach it.

This is the mansion of the supreme man, Emperor Qin Tiange, who cannot enter without him, even if the high-level people of all races can only work in a hall in front of the Emperor's Hall.

Huh!

At the Emperor's Hall, a figure quietly appeared, looking down at the entire Terran Battle City, and a surge of fortune continually gathered.

“Human race, occupying Chaos Continent, yes.”

As soon as he returned, Qin Tiange saw this scene and was satisfied with it. He was very pleased with the current development of the human race.

Before, the blue blood tribe was leveled, and this family was uprooted from the galaxy, and obtained all the resources and details of the entire blue blood tribe.

That time was a huge harvest. With Chaosou completely taken over, the entire human race can be said to be completely stable.

However, there are still many killings and chaos in the fringe of Chaos Continent, which are often attacked by various ethnic forces.

For example, Qin Tiange now sees the edge of Chaos Island, a frontier battlefield set up by a human race, and is launching a \*\*\*\* killing.

Rumble ...

On the battlefield on the edge of Chaos Island, two armies are fighting, a fortress stands there, and numerous human warriors, wearing mechs, are constantly attacking.

The army on the opposite side is a coalition from various ethnic groups. They don't want the human race to be too mad and want to suppress the arrogance of the human race.

It is a pity that in the face of the current human race, the coalition forces of all ethnic groups could not attack it at all, but were frustrated by the endless stream of scientific and technological weapons.

“Jack!”

“A bunch of waste, waste!”

The commander of various ethnic coalition camps roared angrily and felt very embarrassed. After playing for so long, they still failed to suppress the flames of the human race, but instead encouraged the flames of the human race.

Up to now, the coalition forces of all ethnic groups are also very difficult to ride a tiger.

“Commander-in-chief, the Terrans have mastered the advanced technology of the Zhixing race, which has caused heavy losses to our army. Let’s retreat.”

Some people put forward suggestions and immediately obtained the approval of most of the leaders of all ethnic groups. After all, they were hit successively, and the ethnic groups suffered heavy losses.

On the Tianhe Road, all ethnic groups have no ability to curb the rise of the human race. Chaos continent is unbreakable, and it is impossible to fight it.

Moreover, even the strongest in time and space are afraid to move wildly, and dare not enter the hinterland of Chaos Continent, because the human race has a terrible heritage to sit in the town.

Especially the space-time science and technology forces scared the creatures and powerful people of various ethnic groups into fear.

“Withdraw, the army of all ethnic groups cannot continue to be consumed.”

In the end, the coalition commander ordered the withdrawal, and with no alternative but to retreat, otherwise it might be completely destroyed by the human race.

Look at the battlefield on the edge of Chaos Island, where a large number of warships gather, one kind of terrible scientific and technological weapons, the densely packed war mechs, and the coalition forces of all ethnic groups are getting furious.

The human race is not only a continuous improvement of individual cultivation, but also that the overall scientific and technological strength has become a powerful heritage.

From the perspective of various ethnic groups, the human race is the technology that has mastered the Zhixing clan, which is the one that most hates all ethnic groups.

“All ethnic groups have retreated.”

At this point, a young commander at the Terran side saw that the coalition forces of various ethnicities had retreated, and a hint of surprise was immediately revealed.

He waved his sword and issued a counter-attack order: “Order the troops, encircle in all directions, and completely eat this hundred ethnic coalition forces.”

“kill!”

“Blow the horn and launch a counterattack!”

A roar came, and then the counter-offensive horn sounded, dull and full of horns, and with the roar of war drums, the Terran Army launched a fierce counter-attack.

Suddenly, in the entire battlefield, a crowd of human races suddenly emerged, surrounded in all directions, as if well prepared.

“It’s a trick!”

Seeing this, the coalition forces of the ethnic groups immediately understood that the plan was successful and that the tribe designed them to come and attack, in fact, a plan to besiege them.

“Human race, you are too presumptuous!”

Hundreds of powerful men roared, rising into the air, exuding soaring air, causing chaos and collapse in the space and time around them.

They were more than one space-time powerhouse, and dozens of time-space powerhouses rushed out to earn time for the evacuation of the hundreds of coalition forces.

“Order the time and space team to capture time and space creatures.” Then, at this moment, the commander on the human side suddenly issued an order.

I saw a small team of thirty people suddenly leap out. This team was very special. Everyone was wearing a strange armor.

On top of their armor, they are surrounded by dense space-time lines. On the armor, they are even imprinted with two-dimensional mirrors, three-dimensional and three-dimensional.

The cold weapon in their hands is the most advanced space-time technology blade. It uses space-time folding compression technology to compress and compress one-dimensional lines and two-dimensional mirrors into one weapon.

“Open the Space Time Gun Lock and start capturing!”

With the team captain’s order, everyone took out a strange gun and issued a chain to the space-time creatures over there.

Wow!

Strange chains came around, and as they continued to intertwine, they entangled themselves with those space-time creatures.

That is space-time lock, the latest technology, a means to capture space-time creatures, as a weapon against space-time.

“Chain chain?”

“No, rewind!”

The group of time-space-level strongmen was horrified, watching the dense space-time locks crossing, blocking the surrounding space-time, intertwined into a prison cage.

At this moment, all the time and space-level powerhouses were frightened, watching the squad around, and took out some strange things one by one.

I saw that all of them took out the same thing as a small iron cage and suddenly threw it. The fist-sized cage suddenly opened, and it thundered over it.

“Time cage?”

The screams came, and those of the hundreds of time and space-level powerhouses panicked, and the peoples even mastered this technology to create this independent space-time cage.

The space-time prison cage, which collects the time-space dimension power, is folded and compressed to form this terrible cage, just to capture these space-time creatures.

“Fire!”

Thirty soldiers of the squad instantly changed a strange firearm and opened fire on the space-time creatures in the cage of time and space.

Bang bang ...

The bullets traveled through time and space, tore flesh and blood, and penetrated into the bodies of those time and space-level creatures. They could not even block them.

Terran, the mastery of time and space technology has matured and has been completely applied to all aspects of war. For example, the current bullets are all time and space bullets.

What is a space-time bullet? This kind of bullet has a terrible lethality. It can tear apart the barriers of space-time dimension and penetrate the defense of space-time creatures.

Even the bullets will explode a second time in the body, forming a dense space-time acupuncture that penetrates the bodies of space-time creatures and locks their flesh.

“not bad!”

Looking at this overwhelming capture, Qin Tiange was compelled to admire, watching that the human race started to capture the space-time creatures of hundreds of people for research.

In this regard, Qin Tiange has to admire that the current technology team of Jiji and Terran is already very strong.

“Central Chaos, the bottomless pit, find some time to see.”

After Qin Tiange glanced at the Emperor’s Hall, there was a mysterious and terrible bottomless pit sealed there, and he could not enter at the beginning.

Back now, I just want to solve this unknown hidden danger, find a time to solve it here, there is no force in the whole Chaos Continent that can threaten the human race.

“The chaos continent is basically stable. The next step is to grow and meditate, to accumulate strength, and to wait for enough power to conquer again.”

Qin Tiange said to himself, watching the whole situation of Chaos Island ~ [www.mtlnovel.com](http://www.mtlnovel.com) ~ there is no power to threaten the foundation of the human race.

As for the other continents, ethnic groups can be unstable, and it is impossible to mobilize for the sake of the human race. It is not possible to join forces for a while.

Even if the Galactic Hundreds are united successfully, the Terrans already have the ability to cope, and by then no need to be afraid.

“The forces are taking off, and the rise of the human race is unstoppable. No one can stop the rise of the human race. Now let ’s take a look at the human race galaxy fortress.” Qin Tiange said to himself, and found that there was no problem here. .

In a blink of an eye, he returned to the galaxy fortress where the earth was, and looked at the bulging galaxy fortress.

The galaxy fortress, previously only the size of the solar system, has gradually grown into a behemoth at this moment, and has been built into a large river galaxy-level fortress.

The dense star battleships, the space fortress flew out, sailed into the deep space of the universe, and explored the universe.

This is to prepare for expansion, explore more galaxies and resource stars, explore more potential threats, and prepare for the human race.

“Master, are you back?”

Suddenly, a space crack appeared in front of him, and a pretty figure came out.

Seeing that Qin Tiange would come, Jiji was very happy, but he almost missed it, but he could not help it.

“Go back first, then talk.” Qin Tiange nodded with a smile, and returned to the galaxy fortress with his uncle.

“Master, you came back just right, we are negotiating to prepare for war, and then take down the ancestral land of a strong tribe.”

Back in the conference room, Jiji directly said the news, and the crowd was crowded with high-level human races, and they were discussing whether to continue the war.

Terran, do you want to sound the clarion call again?

Chapter 944 - Call for plans, new discoveries

In the conference room, there were a large number of high-level management, and the generals of all parties gathered together, everyone looked sorely at the emperor who returned.

“Do you have any plans?”

Qin Tiange nodded, and sat down and asked, what plans do they have, at this time is not a good time to start a war.

When I saw myself standing up and opening the central light curtain, she said, “My lord, look here. This is the ancestral land of the Star Giant.”

In his words, he introduced a huge galaxy on the virtual light curtain, which is the ancestral land of the star giant in the galaxy.

“Star Giants?” Qin Tiange said to himself, and immediately understood everyone’s thoughts.

Before conquering the blue blood tribe, I once encountered the main army of two star giants to come in to intervene, but was eventually destroyed.

Qin Tiange didn’t have time to pay attention to this before, but now he wants to come. Isn’t it the best time to lay down the ancestral land of the star giant?

With the loss of two main legions, the Star Giants obviously suffered a great loss of strength and great vitality, which is a good opportunity to uproot them.

“Yes, it’s the Star Giant.”

The commander of an interstellar legion stood up, his straight body, his eyes filled with a burning war.

He explained, "Men, although the resources acquired by the Blue Blood tribe's ancestors have not been digested, the loss of the Star Giant is a good opportunity to lay it down."

"So, I and all the commanders agreed that this is the only opportunity to settle the giants of the stars, and I implore the Emperor to order."

"I beg the Emperor to order!"

A group of generals stood up together, each with a serious expression, and clamored loudly, hoping that they could win in one fell swoop while the Star Giants suffered heavy losses.

Looking at the scene, there are hundreds of powerful generals, all of which are the strongest of the human race, or a group of generals growing up.

Qin Tiange didn't speak, and looked at the virtual light curtain quietly, with detailed information listed on it, and each planet was introduced, extremely detailed.

He wondered: "How do you get these details?"

On the virtual light curtain, detailed information about the starry giants is listed, and even there are not many stations on each planet, and the strength is very detailed.

At this point, Qin Tiange had some suspicions, and sure enough, he smiled: "Person, this is the information from the Information Intelligence Center that you directly control."

"Furthermore, there is information held by our internal information department. The collected information is combined to obtain such detailed intelligence."

After Ji Ji finished speaking, Qin Tiange basically understood that he was under the control of the intelligence center under his control, and he asked You Ji and Fei Rou to execute it.

"Well, what are your thoughts and plans for this battle?" Qin Tiange nodded, looking at all the generals who were doing it.

At this moment, a middle-aged commander stood up, his face was solemn, his eyes were bright, and his body was filled with an iron-blooded general.

"The Emperor!" He solemnly said after saluting: "At present, the Star Giant has three main legions and eight scattered legions, and their strength is still not to be underestimated."

"According to our plan, three main corps must be deployed and a temporary joint corps must be formed to complete this plan."

After speaking, he sat down and remained motionless. Everyone at the scene looked at Qin Tiange, the highest leader of the human race, Supreme Master.

To this day, Qin Tiange can say that within the human race, when the order is issued, the level of prestige is up and down, and no one can surpass it.

“At present, the three main army groups of Chaos Island can extract one main force, and the remaining two main army groups are selected here at the headquarters.”

Qin Tiange pondered for a while and then made a decision, a main army, transferred back from Chaos Island.

As for the remaining two main legions, they were selected by the galaxy fortress, and the last temporary joint legion actually said that it was a chance for those who have just integrated into the ancestral land of the human race.

That’s right, it is to give those people from the same ancestors a chance to integrate themselves, a chance to show themselves, and even move towards higher opportunities.

Qin Tiange thought for a while and said, “The fourth Expeditionary Corps cannot be called the United Army Corps, let alone the Provisional Army Corps.”

After hearing this, all the senior executives present, the commander-in-chief, and the generals of war, etc. showed contemplation, and soon understood what he meant.

“I mean, to form a brand new main army, select from those who have just returned, and the strong will be selected.”

In a word, the powerful people in the ancestral lands that have just qualified to enter are excited in the conference room.

The next sentence made them even more excited and almost cheered.

I only listened to Qin Tiange with a smile: “The people who have just returned need an opportunity for performance and meritorious service. They also need to show themselves to the people and contribute to the people.”

“So, I decided to set up two new main legions, and the commander was selected by the newly returned tribe.”

When the words came out, the scene was shocked, and then a group of strong human races who just joined here couldn’t help but be excited, and some of them started to cry.

“Thank my emperor!”

A group of strong men stood up, bowed respectfully, and then learned the salute of the generals present. There is no way. People here are saluting, not saluting.

Salute to soldiers has become a habit and instinct, and people who have just joined in have begun to embrace it.

“You guys, I just asked the formation of the legion, but if the combat effectiveness is unsatisfactory, or if something goes wrong, I will blame you.” Qin Tiange swept across the audience with a serious face, his eyes full of majesty.

He only asked the formation of the two legions, and only looked at the results, but if the two teams were not able to fight after the formation of the legions, or even there was a problem, they would blame everyone on the scene.

“Yes!”

“Guaranteed!”

Everyone was astonished, stood together, and made a guarantee that no one dared to take it lightly or even use caution.

Qin Tiange, the emperor, is definitely the most popular among the entire human race. No one has the prestige. Although he has become a human emperor, he has never been lonely in front of his people.

Because it is not necessary, he has enough ability and prestige to control the whole mind of the people, and there can be no problem.

“Very good!” Qin Tiange nodded with satisfaction. He said, “The battle plan, you negotiated it out, and then passed it to me. Waiting for the formation of the two new legions is the time to send troops to conquer.”

“Everyone, be ready to prepare for the war. This time, take down the ancestral land of the Star Giant, and wipe this tribe out of the galaxy.”

Qin Tiange stood up after speaking, the powerful evil spirit permeated, shocking, letting people understand his unquestionable determination.

Since the Star Giants dared to intervene before, it was the enemy. In Qin Tiange’s eyes, only the dead enemy is a good enemy.

“Yanji, you discuss it yourself, I still have something to do.” Qin Tiange finished, nodded to everyone present, turned around and disappeared in the conference room,

He did not stay, because it is not necessary, as a emperor, as long as he controls the entire human race, and the battle plan is not made by his emperor.

If everything is to be done by his emperor, then what would be the general, the staff, and the commander in chief?

In this regard, all the generals and even the commanders present were not surprised, but they were relieved one by one.

Because Qin Tiange did not limit their ability, and did not interfere or even hinder the performance of these generals, but just left them.

In fact, as long as Qin Tiange sits firmly in the back, he does not need any action at all, and the entire human race is full of talents. No matter what he does, he will have a detailed plan.

As long as he nods and approves the plan, then execute it, or if he has any plans to issue an order, the people below will complete it immediately.

As the emperor Qin Tiange, as long as there is still one day, there will be no problem with the entire human race. Unless he dies, there may be chaos inside.

“Well, the Emperor has agreed to the plan, and the next step is to discuss the deployment of the battle plan in detail, everyone, let us speak freely.”

After Qin Tiange left, Xunji was the commander-in-chief of the Robot Corps, and his wisdom was even more frightening.

She was able to stand here, not by accident, nor by virtue of Qin Tiange’s own relationship, but by her practical ability.

Self-denial, not only is his own strength terrible, but also the legion and technology he masters.

Next, a group of commanders, generals, and staff began discussions, expressed their opinions, and worked out a detailed battle plan. UC Reading [www.uukanshu.com](http://www.uukanshu.com)

Qin Tiange himself came to the scientific research center and met Du Jing who was busy.

“Busy every day, won’t you take a break?”

As soon as she arrived, Qin Tiange saw Du Jing doing her research intently, and she was dissatisfied and distressed by the tiredness on her face.

“You’re back?” Du Jing was startled, but saw that Qin Tiange was full of energy at once, and his fatigue was swept away.

Seeing this, Qin Tiange was helpless and smiled bitterly: “You, the current team is so big, why do you want to do everything?”

“No” Du Jing smiled slightly and shook his head. “I know very well that I can’t fight. Only with this ability, I can’t hinder you.”

Du Jing said, looking at Qin Tiange with both eyes, he said seriously: “I don’t want to be a burden, and in such an era, without any ability is a useless vase.”

“Don’t say this. Come and see. I recently discovered a very strange substance.”

Soon, Du Jing took Qin Tiange to a laboratory and introduced it to a space-time vessel in front.

Qin Tiange looked surprised. The half-meter-high vessel was folded and compressed using space-time technology, and contained a mysterious substance.

“What’s this?” Qin Tiange couldn’t see and asked softly.

Du Jing, with a bright smile, said, “This is a strange substance that I have extracted from time and space based on the time and space comprehension and mystery you explained.”

“Strange matter?” Qin Tiange was curious and couldn’t help looking at the mysterious matter in the vessel of time and space.

The material in the vessel, like a living cell, is extremely powerful. It constantly splits and reorganizes, and then splits and reorganizes. It never stops, and it has a strong and immortal vitality.

Chapter 945 - Unknown substance

Inside the small vessel, a strange substance was blocked, and it looked like a cell. Ordinary people don’t even want to see it.

Only the powerful can see a substance in front of them, and after being extracted.

If it is not extracted, even Qin Tiange has not seen this substance at all, and it is a little stunned.

“What did you find?” Qin Tiange looked at Du Jing and asked seriously.

This is a substance captured from space and time. It is very mysterious, its origin is unknown, its role is unknown, and its danger is even unknown.

Du Jing helped her glasses and explained carefully: “In fact, it is a coincidence that we are increasing the speed of extraction and quenching of crystals.”

“Because the time crystal is the combination of time chestnuts extracted from the chaos of time and space, we are currently building a super time acceleration device, and the current plan is to build a hundred million time house.”

Listening to Du Jing’s introduction, Qin Tiange understands what this plan is, which is the one hundred super large time houses being built.

This thing can speed up time. The past 100 years in it and only one day outside it are enough to accelerate the speed of scientific research and cultivation.

The house of time is found in the hundreds of stars. Each race has the technology to extract the crystals of time, and the race is no exception. It has been thoroughly mastered and skilled.

“Then how did you find this material?” Qin Tiange pointed to a little mysterious material inside the vessel.

Du Jingqiao’s face became serious, she said, “That’s right, aren’t we trying, can we extract time crystals with higher purity and stronger energy?”

“After that, we strengthened the extraction technology of time crystals, and even made some changes. As a result, in the chaotic space and time, we unintentionally discovered and successfully extracted this substance.” Du Jing said with a serious face.

“This substance is weird, its source is unknown, its ability to use, its dangers, and other information are unknown, and we know nothing about it,” she said.

Speaking, Du Jing turned on the virtual light brain next to him, and listed a set of information data. The above shows a row of unknown information.

Du Jing introduced: “You see, no matter how we research at present, we can’t get any information about this substance, so it is unknown to us at present.”

“So, just locked it in this laboratory, I was afraid of the unknown danger.” She stopped after looking at Qin Tiange.

Speaking of which, we can basically understand that the source, ability and unknown danger of this unknown substance are unknown.

Everything is unknown and strange, it makes people vigilant.

“Unknown matter?” Qin Tiange was curious, and thought constantly glanced at this strange but mysterious unknown matter.

At the moment of the first contact, Qin Tiange obviously felt a repulsion and a deep anger.

That’s right, it’s anger, as if it’s your own consciousness and temper, and being scanned by your mind reveals a feeling of anger.

“Interesting!” Qin Tiange was surprised. Looking at this substance, under a strong will, he saw this substance like a cell, which is constantly dividing and reorganizing.

This process is fast, and it never ceases, as if it is an endless, eternal material.

“That’s right!” Du Jing thought of something, saying: “We have done some experiments, such as bringing out this unknown substance, and as soon as it leaves the space-time barrier, it disappears without a trace.”

“Also, even if it is preserved with time and space technology, it can only be kept for three days, and finally disappears mysteriously.”

Du Jing said this with a dignified face. She said, “When this unknown substance was discovered, it felt a bit unstable in the space and time of the universe, and it seemed to have some turbulence. Moreover, we did this unknown substance two days ago. Extracted once. “

“Two days ago?” Qin Tiange froze, remembering that he was dealing with the sort of cleanup from the big universe with Li Luo two days ago.

With this in mind, he thought, looking at this unknown substance full of scrutiny, as if guessing something.

“You said that when this unknown substance was discovered and extracted, there was some kind of energy fluctuation in the space and time of the universe?” Qin Tiange asked softly.

Du Jing bowed his head and said, “Yes, according to our monitoring, the spatiotemporal turbulence and the spatiotemporal dimension produced different degrees in different degrees, and there was a kind of energy fluctuation.”

“We can only detect this energy, but we cannot find it, so it is not clear what it is. In this case, we successfully found this unknown substance.” She explained this.

Hearing this, Qin Tiange was at the bottom of his heart, thinking secretly, is it because of the energy of the cleaning up of the universe, perhaps this material is related to the energy of cleaning up the universe?

But it was just his personal guess, and he didn’t know the real situation. Moreover, this unknown substance could not be saved and it would disappear soon.

Strange and unknown matter, full of mysterious and uncertain factors, has great vigilance when fascinating.

“Let me check it out.” With a little thought, Qin Tiange decided to take a look at this unknown substance.

He should take a good look at this unknown substance, and maybe, instinctively, this unknown substance may bring him a benefit.

Qin Tiange practiced to this point, and was very confident in his own feeling, so he took out the unknown substance in the vessel directly without hesitation.

As if a singularity in space and time is generally small, it is isolated by a powerful force in space and time and locked on the palm of the hand.

Then, a huge influx of thoughts poured directly into this unknown substance, wanting to know the myriad unknown secrets hidden inside.

Snapped!

Suddenly, an unknown substance the size of a cell suddenly disappeared miraculously, without a trace, as if it had never appeared.

Seeing this, Qin Tiange couldn't help but hesitated. He observed carefully that it really disappeared mysteriously, but didn't find out how it disappeared at all.

Weird!

“It seems that this unknown substance hides a great secret.” Qin Tiange said to himself, disbelief, and took out a little unknown substance again.

This time it was taken out more than half of the previous one, and the cohesion was locked in the palm of the hand. This time it even joined the power of the great chaos that had just transformed.

At this moment, the unknown substance on the palm no longer disappeared, but was locked firmly on the palm.

“Huh?” But the next moment, Qin Tiange issued a suspicion, staring at a little unknown substance above the palm of his hand.

I saw that the substance, which was like a cell, suddenly became extremely docile, and then autonomously integrated into the palm of his hand and entered his body.

Seeing here, Qin Tiange's inexplicable coldness did not expect that this unknown substance would be incorporated into the body autonomously, which made him somewhat surprised and caught off guard.

But when he wanted to get rid of this unknown substance, the 999 cosmic fetal membranes in his body suddenly vibrated together, issued a suction, and instantly swallowed up this unknown substance.

That's right, Qin Tiange can see very clearly, that little bit of unknown substance is swallowed up by the cosmic fetal membrane in the body.

“Swallowed?” Qin Tiange froze, looking at the 999 cosmic membranes in his body, and swallowed this mysterious and unknown substance.

What surprised Qin Tiange most was that after swallowing this unknown substance, he felt a strange change in the cosmic membrane of his body.

It’s very faint and can’t really sense where the change comes from, but Qin Tiange determined that his cosmic fetal membranes had grown a little.

“Is this the substance that can make the universe grow?” Qin Tiange couldn’t help whispering, looking at his cosmic membrane over and over again.

After finding that there was no problem, he dropped his doubts and finally looked over the remaining unknown substances.

“One more time.” Qin Tiange thought about it and decided to take another risk. He wanted to know exactly what this unknown substance does.

“What did you just do?”

At this time, Du Jing was a little nervous, pulling Qin Tiange’s arm, his face was pale, and he looked at him with a little fear.

Because Du Jing saw that Qin Tiange was trying to absorb this unknown substance, it was simply too dangerous.

“Rest assured, I have my own points.” Qin Tiange smiled and comforted, with strong confidence.

Since the cells in his body have completely transformed and evolved from the kingdom of God to chaos, it has become different, and confidence comes from strength.

Consolation Du Jing ~ [www.mtlnovel.com](http://www.mtlnovel.com) ~ Qin Tiange once again took out the unknown substance, this time all of it was taken out, suppressed on the palm.

Hum!

Suddenly, there was a slight shock in the body. In Dantian, 999 universe fetal membranes issued powerful suction at the same time.

This time it was actively swallowed, and the unknown substance was directly absorbed and completely gone.

“Sure enough, could it be absorbed by the cosmic membrane?” Qin Tiange was shocked and looked at the cosmic membrane in his body.

There are 999 cosmic fetal membranes, and a new universe is bred inside, which is a new incomplete baby universe.

The so-called incompleteness is that the embryo has not yet been formed, and the embryo has just formed.

If the internal breeding is completed, it will be a real baby universe, and the scene will be absolutely shocking.

How terrible it is to breed 999 universes in the body, it is just a monster, a taboo of the universe.

“Are you okay?” Du Jing looked nervous, and regretted introducing Qin Tiange to this unknown substance.

Seeing that he swallowed and absorbed all this unknown substance, he was a little worried, and secretly blamed himself.

“I’m fine, don’t worry!” Qin Tiange smiled and comforted: “This unknown substance seems to promote the growth and evolution of the universe.”

After absorbing this unknown substance, the cosmic fetal membranes in the body really grew a little, as if there was an additional life feature.

Yes, the cosmic fetal membranes have really entered the incubation stage and have a life feature, as if the universe is a living embryo.

“Is the universe alive?”

Qin Tiange suddenly set off a stormy sea, and suddenly caught a trace of secrets from the body’s cosmic membrane.

Chapter 946 - Saint: Liu Yan

Within the body, changes in the cosmic fetal membranes, a ray of induction that never came before, made Qin Tiange’s heart shake.

This kind of induction seems to be some kind of information, the information from the universe, but unfortunately it is too little or too little, not even a piecemeal information source.

However, Qin Tiange has a feeling that this may hide the unknown secrets of the universe and fill him with expectations.

“Du Jing, what does the research department think of our big universe?” Qin Tiange suddenly asked softly.

When Du Jing heard this, he froze on the spot. Speaking of it, mankind has known and guessed about the universe since ancient times.

Especially under the development of modern science and technology, all kinds of theoretical guesses have emerged endlessly. In the era of great changes, the research and speculations on the universe have not stopped, but have become more rapid and diverse.

“Big universe ...” Du Jing muttered to himself, and then smiled bitterly: “At present, the more we master advanced technology, the more we grow up, we feel a kind of fear.”

Yes, she said fear, a fear of the universe. It comes from unknown chants and fears, as well as various assumptions and guesses.

Unknown can be frightening, but at the same time there is an excitement that stimulates people to continue to explore the mysteries of the universe.

For example, the current Ministry of Science and Technology of the human race has divided a department to specialize in studying the mysteries of the universe and exploring the truth of the entire universe.

Du Jing didn't speak, and suddenly opened his personal light brain and transmitted a stream of data to Qin Tiange. This is the current understanding and speculation of the entire universe about the universe.

Qin Tiange looked at the huge amount of information transmitted, and constantly extremely inside the information, and saw the current understanding and speculation of the universe by the Ministry of Science and Technology.

One of the speculations made him attach great importance!

**“Everything has a spirit. In theory, the planet, galaxy, and even the entire universe may be alive.”**

This sentence made Qin Tiange's heart extremely shaken, and as he guessed and knew, the universe was alive.

In other words, the big universe is a super-living body, and the internal stars and even the souls of all races are nothing but parasites in this super-living body.

Therefore, there is the existence of the cleanup of the universe and self-cleanup of the internal parasites. This is the universe's self-defense system to clean up threatening creatures.

**“Yanji, transmit to me all the information researched by the human race technology.”**

Soon, Qin Tiange directly connected to her self and asked her to transfer to him the current scientific and technological research information of the entire human race.

**“Yes, my master!” Jiji replied, transmitting a huge amount of information directly, endless.**

This information includes all aspects of the scientific research results of the entire human race, and even the knowledge of various secrets, space-time, dimensions, the universe and so on is transmitted.

Qin Tiange closed his eyes, silently absorbed and organized this huge amount of knowledge, and began to enrich his knowledge.

After absorbing such a huge amount of knowledge, Qin Tiange took only ten minutes to complete his absorption. Combining his own understanding and understanding, he let his soul have a sudden and cheerful consciousness.

**“Originally, there are so many secrets that I don't know, I haven't found, it turns out ...”** Qin Tiange said to himself, his face was filled with an epiphany.

Du Jing saw that Qin Tiange's eyes were suddenly generous and bright, and a ray of light flashed, as if he had gained some kind of epiphany and understanding.

At this moment, Qin Tiange can confidently say that the knowledge he possesses is definitely the strongest and most terrifying person in the current generation.

Knowledge is also a kind of power. With incredible knowledge, you can change everything and even subvert everything.

“Yanji, is the current education system perfect?” Qin Tiange frowned suddenly, asking this question.

However, Xunji said with a bitter face: “Master, you want to exhaust yourself. You are also engaged in scientific research and fighting with the artificial army. The education system is not under my control.”

After hearing this, Qin Tiange shuddered and felt a little embarrassed. It was a natural habit.

“Master, you will ask the first saint, Liu Yan, now.”

With his own words, with a hint of weirdness, Qin Tiange’s heart was tight and he couldn’t help showing a bit of bitter smile.

Liu Ye has been engaged in the education system of the human race, with the cooperation of several ancient human sages to create a new education system for the entire human race.

This system, combined with the environment of the universe’s expeditions, cultivated a batch of outstanding next-generation talents for the human race.

First of all, the most important thing is strength and cultivation. In the context of the Great Universe’s conquest, if the human race is not strong, then don’t try to win the living space belonging to the human race.

Therefore, the strength comes first, followed by education in various systems, such as the cultivation system, the science and technology system, and various divisions.

In general, the entire human race is now consistent, both internally and externally, and has been developed around the strength of this tribe and the seizure of its own interests.

The big environment has long been that peoples must unite and take the ethnic group as a whole to seek a way forward in the starry universe.

“Liu Ye, I haven’t seen her for a long time ...” Qin Tiange said to himself, making Du Jing beside him roll his eyes.

She was obviously a little bit dissatisfied: “It turns out that you haven’t seen me since you came back, so what do you run to me for?”

“Hurry off and get angry when you see me!” Du Jing looked angry and turned away and left, really angry.

Du Jing was clear about Liu Yan. He initially followed Qin Tiange all the way and silently gave himself for him without regrets.

From the beginning of the end, Liu Ye can say that he has never given up, and even Qin Tiange has never seen her without complaining.

The reason why Du Jing was angry was because she now understood that Qin Tiange had not seen Liu Ye once since returning, and felt very angry.

Other girls are waiting for you silently, paying so much for you, you don't even have to look at it, come to her, wouldn't it make her angry?

“Women ...” Qin Tiange shook his head with a bitter smile, sighed, didn't say much, turned around and stepped away from the research department.

The next moment, he came to the highest human institution of humankind, a transformed planet, which is the highest institution dedicated to cultivating the next generation of humankind.

The entire school is transformed from this planet, which is not smaller than the earth before the transformation, and it is extremely large. How many billion students can it accommodate?

On the surface of the entire planet, a light of wisdom is shrouded in a breath of knowledge, constantly interwoven and gathered, and various wisdom sparks bloom and collide on it.

Seeing this situation, I have to say that the current human race is absolutely not spared in training the next generation.

It can be said that within the human race, it is a pool of talents that shine stars, and all kinds of wizards pop up like mushrooms.

“This is the breath of the saint ...” When he came here, Qin Tiange instantly captured an unusual breath.

It was a vast and great feeling, as if willing to sacrifice to give himself, to give everything for the sacred mission.

There is a sacred breath permeating the stars, like a saint who is indoctrination of the nations and assists the king.

“Liu Yan ...”

Qin Tiange's expression was complex, and he clearly felt that this sacred breath belonged to Liu Yan's breath.

For a long time, he hasn't seen Liu Ye. In the past, when he married Chen Xi, Liu Ye seemed to be awakened, as if he had given up his children's private affairs and embarked on the love of a saint. road.

The kind of love that transforms you as much as you want to dedicate your life to the family.

.....

At this time, in the huge classroom of Huaxia's highest school, Liu Ye, who was giving a lecture, suddenly thought, a touch of induction, and a bland and holy face suddenly appeared a slight fluctuation.

“Classmates, that's it for today's class.”

She looked at the time and just ended the lesson. After leaving, she left the classroom and walked out of the planet in silence.

Liu Ye, wearing a white Confucian robe, has a slim and compact figure, and is graceful and unparalleled. He is the first female saint recognized by all teachers and students in Huaxia College.

Moreover, she was naturally permeated with a dim holy light, pure and immaculate, without any trace of impurities. Anyone under this light would have peace of mind and shining wisdom, as if facing not one person, but one Saint.

Looking at Liu Yan who came up step by step, stepped on holy petals, and the light of wisdom flowing around was mysterious.

This is the Holy One, educates all peoples, has infinite merits, gains the blessing of the entire human race and luck, and even has some unknown power.

Liu Yan ~ [www.mtlnovel.com](http://www.mtlnovel.com) ~ actually embarked on the ancient path of the saint. Perhaps, it was the first blow that made her realize and embark on this path.

**“You’re back?”**

When he came to Qin Tiange, Liu Yan’s bland face was immediately bland, and immediately a hint of excitement appeared.

Her temperament suddenly changed, and she suddenly fell from a kind of blasphemy saint, and became a little woman with flesh and emotion.

Qin Tiange looked at Liu Yan, thinking that she had given up her emotions and embarked on a lonely and rugged path of the Holy One. I never expected that she was still her and never gave up.

**“I came to see you.” Qin Tiange blurted out this sentence.**

As soon as the words fell, Liu Yanqiao’s face filled with a bright smile, very innocent, as if she had just met her.

She looked at Qin Tiange silently, the former sacredness, too indifferent feeling in her eyes disappeared, and replaced by a strong affection, without concealing it.

This made Qin Tiange’s heart shake, and then he suddenly realized that Liu Ye didn’t abandon the relationship, but it became more and more precipitated and became extremely intense.

**“Well, these years, you have been wronged.” Qin Tiange instinctively reached out and gently stroked Liu Ye’s thin and pretty cheeks, flashing a trace of guilt and touch in her heart.**

Liu Yan shook his head and smiled softly: “You can come, I’m very happy, there is no grievance, this is my choice, I don’t regret it!”

Without regret, the three words were deeply imprinted on Qin Tiange’s heart, and his cold heart melted.

**“Go, I’ll accompany you to relax on the cosmic stars.”**

After Qin Tiange finished speaking, naturally holding Liu Ye’s little hand, they both stepped outside the starry universe and strolled in the deep universe starry sky.

## Chapter 947 - Into the Chaos Abyss

In the Milky Way, on the star field outside the Tianhe continent, two men, one man and one woman, are strolling around, as if they were relatives of a fairy.

The two were Qin Tiange and Liu Ye, strolling in the starry universe. They didn't talk much, but they had a sense of tranquility and fulfillment.

"God, I should go back."

Walking and walking, Liu Yan suddenly stopped, raised his face and looked at Qin Tiange, the smile on his face has always been so bright, never beautiful.

Qin Tiange looked at her and laughed: "It's been three days, and you are in a hurry to go back. Don't you want to play for a few more days, just take a vacation."

Liu Yan smiled brightly, holding Qin Tiange's arm, and said gently: "I want to be by your side every day, but it is obviously impossible."

She looked at Qin Tiange and laughed, "You are the emperor, the emperor of the entire human race. You have a lot of things to do, and your burden is the heaviest of all people."

"So, I don't want to be your stain, and I don't want the man I love to be gossiped. You are the most perfect man in my heart." Liu Yan said, somewhat foolish.

For a long time, she didn't see Qin Tiange. This time his sudden appearance surprised Liu Ye.

However, she knew that she could not occupy Qin Tiange for too long, because he was the emperor of the entire human race, not her.

This said, Qin Tiange said that he was embarrassed. What kind of perfect man is he? He felt that he owed a lot of people and had a bitter heart, so he couldn't be willful when he chose this path.

"I understand your mind. You can come to see me and be with me for three days. This has made me very happy, really." Liu Yan smiled very sweetly, and the mood at the moment was really beyond words.

Perhaps this is a little bit of extravagant desire in her heart, which makes her feel very happy.

"I owe you." Qin Tiange sighed, with a deep sense of guilt in his heart.

I'm a little too indifferent, I'm too hard-hearted, and I used to pursue too much interest.

Qin Tiange owed a lot of people for his benefit, even if he approached Chen Xi from the beginning, it was all for his own benefit.

"You didn't owe me. It was too much for me. As long as you can take a moment to look at me, you will be very satisfied."

How could a woman not want her beloved man to accompany herself, but Qin Tiange was destined to not be able to accompany her all the time, not only because he was on the road to emperor.

In short, Liu Ye felt that Qin Tiange's sudden arrival this time had shown his inner decision and was naturally satisfied.

“You are the emperor. Many things cannot be separated from you, Tian Ge. You should go to your business, and find Chen Xi as soon as possible.”

Liu Yan said, and kissed Qin Tiange’s face lightly, his face flushed slightly, and he let go of Qin Tiange.

She stepped back step by step, with a happy and moving smile on her pretty face, which was brilliant.

“Tian Ge, I’m going back and come to see me when I have time.” Liu Yan said, his smile gradually converged, and his breath gradually changed.

Gradually, a sacred light shrouded it, and Liu Yan’s temperament changed once again, as if he had become a blessed saint without any emotions.

Seeing this, Qin Tiange trembled in his heart, Liu Ye seemed to have a split personality.

“You ...” Qin Tiange watched Liu Ye’s changes, his capacity changed slightly, and his personality split, which means that Liu Yi split into two consciousnesses.

An indifferent saint, an attachment that maintains an obsession and refuses to forget and give up.

Liu Yan smiled indifferently, bowed slightly, then tore the space and stepped into it, blinking and disappearing above the starry sky.

She returned to Huaxia’s highest university to continue her career and work. Perhaps, Liu Ye has completely turned into two divisions.

One is a deep love and attachment to Qin Tiange, and the other is a sacred mission to herself and to her career, which prompted her to make this change.

Qin Tiange watched Liu Ye return to Huaxia Academy, and was silent by himself. Liu Ye’s changes were not clear for good or bad.

He couldn’t interfere with this, only knowing that Liu Ye was currently in a very delicate balance.

“She, what kind of path is going on in the end?” Qin Tiange said to himself, could not help frowning, and looked at the Chaos Continent of Tianhe mainland.

.....

Huh!

Chaos Island, in a hall near the Emperor’s Hall, a figure suddenly opened his eyes, exposing a hint of air.

“My queen, what is it about summoning your subordinates?” Gu Xianxian, Zhu Zi saluting with respect.

I saw in front of him, a figure emerged from the cracks in space and time. It was Qin Tiange who came to this ancient hall.

“Do you know the changes of Liu Ye?” Qin Tiange frowned, looking at Zhu Zi, he was the master of Liu Ye.

Zhu Zi’s thoughts suddenly realized, and she laughed: “My queen need not worry, Princess Liu will embark on the road to the most ancient holy sage, and she is about to undergo transformation, there is no danger, please ask my lord to relax.”

“Is that so?” Qin Tiange nodded slowly, in fact, he was not clear about the path of the so-called saint.

Since Zhu Zi said that Liu Ye is okay and is about to undergo transformation, it means that it is a good thing and he doesn’t have to worry too much.

And with him watching, naturally there will be no problem. At present, Qin Tiange has imprinted his will in Liu Ye and Du Jing’s knowledge of the sea.

He had thought about Chen Xi and others before, but now it’s weird that Chen Xi and theirs can’t sense it, which makes Qin Tiange worry.

“Well, since it’s okay, let’s go now.” Qin Tiange nodded, turned and stepped out of the hall, disappeared.

Watching Qin Tiange leave, Zhu Zi finally showed a gratifying smile and murmured: “Rogue, your feelings have finally been brought to fruition, and you are at ease for the teacher.”

He said hahaha with a loud laugh, turned around and walked out of the hall, came to the place where Li Bai and others, and drank Li Bai and others to drink, which made Li Bai’s faces look strange.

Because this Zhuzi, but dripping wine does not stick, this is simply to make Li Bai and their group of old friends look at each other.

.....

Farewell to Zhu Zi, Qin Tiange looked at the situation of the entire chaotic continent. At present, a main army has been transferred out of this place and returned to the galaxy fortress on standby.

For the entire Chaos Continent, there is no major war at present, and minor wars continue, but it does not affect the overall layout of the human race. It does not matter.

“Human race, the current situation is very good. The rising trend cannot be stopped. The next step is to dominate the entire galaxy and look at the original galaxy.”

Qin Tiange is standing above the Emperor’s Hall, looking at Chaozhou Island, overlooking the entire Tianhe continent, and even the cosmic starry sky.

He seemed to see the vast and mysterious original galaxies, including the Milky Way, the subject of hundreds of huge galaxies relying on the original.

“In the future, the human race will once again reach the peak of the universe.” Qin Tiange said to himself, turned and walked into a restricted area behind the palace of the emperor.

It was blocked by him and listed as a restricted area, and no one was allowed to enter it, because a weird abyss was sealed there.

Now that Qin Tiange has dealt with some internal issues of the clan, after planning and making arrangements, a hidden danger here must be resolved.

What secret is there in the abyss that can't go away, and this failure to clear may be a potential threat.

Soon, Qin Tiange came to the seal and looked at the mouth of the abyss, which was still mysterious and unpredictable, with a trace of inquiry in his eyes.

“Inside, what is there and where does it lead?”

Qin Tiange said to himself, and suddenly sighed, because there was no individual around him, he always felt a bit uncomfortable.

However, he remembered Li Luo, who had been with Li Luo before, and had been used to her company for a long time, and felt uncomfortable after suddenly not being around.

“In ancient times, Li Luo, I hope you are safe.” Qin Tiange glanced at the emptiness, cast aside his thoughts, and stared at the strange abyss in front of him.

In the ancient times, Li Luo could not go now because the human race could not let go. For the time being, the human race had not grown to the point where he could let it go.

There are still many things that have not been completed, Chen Xi and others are still missing. These things need Qin Tiange to solve them one by one, otherwise it is impossible to go to ancient times.

Even if the universe is cleaned up, Qin Tiange is still gritting his teeth and insisting. He must leave his mind as soon as he finishes his mind.

boom!

At this time ~ [www.mtlnovel.com](http://www.mtlnovel.com) ~ Qin Tiange stepped into the abyss, and a mysterious force blocked it, as if everything could float there, unable to enter it.

Qin Tiange could not go down before, but now he feels a little different, as if this strength has become weaker.

“Sure enough, the strength is strong, and any resistance is not a problem.” Qin Tiange chuckled and fell into the abyss.

With his arrogant power now, the weird resistance here cannot continue to stop him, and he rushed down the abyss all the way.

Under the dark abyss, a strange breath permeated, and a mysterious and unpredictable resistance continued to flow underneath, trying to rush him out.

However, under the development of Qin Tiange's powerful power, this power has played a very small role and cannot affect and prevent him from entering the abyss.

Rumble ...

The abyss is endless, as if the bottom is not bottomed, and all the way down, there is still no induction at the bottom.

And as it went down, the resistance was more horrible. Qin Tiange had to get up here and rush all the way down.

“Not yet at the end?”

After a long time, Qin Tiange looked dignified, because at his speed, it should have crossed a galaxy by now, but why is it not in the end?

Under the mysterious abyss, the chaos of air filled with chaos, becoming richer and more violent, full of resistance to destruction.

When he came here, Qin Tiange really realized that the abyss was not simple, as if it was leading to a mysterious and unknown place.

Time passed little by little, one day, two days, three days, a full month passed, the abyss was still bottomless, and Qin Tiange was completely shocked.

What is hidden in the strange and mysterious chaos abyss?

Chapter 948 - Someone cut through the universe?

boom...

Under the endless abyss, a horrendous torrent rushed out, violent, and impacted Qin Tiange's body, trying to beat him out.

This torrent is very strong, don't say the general time-space-level strong, that is, it can't be blocked and can be erased directly.

“So strong rapids, where do they come from?”

Qin Tiange frowned, watching the horrendous rapids constantly flowing, flowing from the endless abyss, as if endless.

Instead of paying attention to these rapids, he noticed the situation here, and as he went down, the narrower the abyss became.

What's more, the original material channel disappeared, and was replaced by an illusory channel, as if artificially cut out.

The gray and empty channels are intertwined with chaotic air, and the terrible rapids underneath are endless.

There seems to be someone who has excavated here with great power, as if to cut through something, which makes Qin Tiange's heart inevitably shake.

Who is making such a mysterious passage here?

“Who did it artificially, and why?”

Questions after question filled Qin Tiange's brain, so he didn't understand why it was such a bottomless tunnel.

He walked along the endless passage all the way, breaking through the billowing rapids, the gray mist, and the chaotic anger constantly interwoven.

Gradually, he sensed a horrible ray of air in the tunnel, and an illusive piece around him was cut through by some force.

When he arrived here, Qin Tiange was really shocked, because he felt a strong threat from this trace of air machine.

The remaining air machine can give him a strong danger. This is incredible. Who is cutting this mysterious channel?

Qin Tiange reckoned that here, the entire Tianhe continent has been cut through, but why haven't you seen the end?

Moreover, if the Tianhe continent is cut through, you should see the starry universe, why not, but the endless void.

The most terrible thing is that when he came here, Qin Tiange could not sense the existence of the starry sky, and could not sense the existence of time and space.

The space-time dimension, the starry universe, seems to have lost track here, as if everything is nothing and nothing.

Zizi ...

Around them, a strange strand of breath circulated, and the grey void was pierced by some force and turned into such a channel.

Qin Tiange went slower and slower along the way, because the forces ahead were more terrible, with inexplicable obstacles, and even threatened him.

“Ok?”

Suddenly, Qin Tiange stopped, a flash of suspicion flashed on his face, and his eyes were ray of light, seeing through the fog in front.

In the fog, a hazy afterimage floated there, looking away as if lying alone.

When I got closer, I suddenly realized that it was a wreck, lying quietly in the mysterious tunnel.

“A wreckage ...” Qin Tiange came a short distance, staring at the wreckage, the wreckage of a creature.

The whole skeleton is very broken, the arms and bones are still shining with an immortal light, and a big hole is broken in the skull, which is fatal.

There was a hazy glow on and around this skeleton, and a trace of immortal light flowed out, as if it had maintained countless years without decay.

With curiosity, Qin Tiange reversed with the power of time, carefully sensed, and then came to an amazing conclusion.

This skeleton has existed for more than 100 million years. Under such a long period of erosion, it has remained immortal?

“One hundred million years ago, someone came here and died inexplicably.” Qin Tiange said to himself, looking at the wreckage, his heart flashed inexplicably.

What’s hidden here, who did the excavation? But looking at the endless tunnels ahead, there is still no end to sight.

Obviously, this bone was not excavated before birth, but maybe the strong man who came down to detect it fell here.

Ding!

With a bounce of his fingers, the wreck made a clear sound, as if the immortal \*\*\*\* gold, made Qin Tiange feel astonished, guessing the strength of this life.

“At least it’s the Lord, why did he die here?” Qin Tiange frowned, looking around with some vigilance.

It’s a pity that there is nothing more than the illusory fog, and there isn’t even a trace of why this wreck died.

“What’s outside the passage?”

At this time, Qin Tiange had such a problem, what would be outside the excavated tunnel?

With doubt, he stood in front of a void barrier and touched it lightly with his hands, and his voice came with a terrible power that eroded Qin Tiange’s flesh.

On the palm of his hand, flesh and blood was inexplicably eroded by a large piece, which made him astounded. This is a super-evolved body after metamorphosis.

Inside the body, 60 trillion small chaos, the whole body is full of the original power of the large chaos, has even been corroded a large piece of flesh and blood.

Although the blink of an eye recovered, Qin Tiange couldn’t help being vigilant. Here, weird and unpredictable everywhere, it was not clear where he was.

“Did anyone want to pierce the universe?”

Suddenly, Qin Tiange flashed such a thought in his heart, and could not bear the chills. If the speculation came true, it would be terrifying.

Someone, how scary is it to want to pierce the universe? Even today’s Qin Tiange does not have this ability, let alone cut through the universe, it is impossible to find the edge of the universe.

Now, he suddenly saw a terrible secret. There were Xeon taboo creatures, who were breaking the barriers of the universe, trying to cut through the universe and get out.

“His, a little scary.” Qin Tiange shook his head, crossed the wreckage, and continued to move forward.

He wants to see who has excavated here, and if he guessed, there are creatures who want to pierce the barriers of the universe.

Along the way, Qin Tiange looked more and more dignified, because he found more and more bones on the road.

“These bones must have been at least the master-level creatures, and they all died here. Why?”

As he walked away, Qin Tiange couldn't help horror. Here was a broken or complete biological remains.

Some are huge, but compressed here by inexplicable restrictions, and some of the remains are intact and exude a mighty spirit.

None of these is proof that when the Xeon entered the mystery, they all fell into this mysterious tunnel.

The passage to the unknown is as if it is going to the edge of the universe, and it is like breaking through the barriers of the universe to the unknown.

Gradually, Qin Tiange saw some fragmentary bones floating out of nothingness, crystal clear and exuding a sense of terror.

Some even surpass the breath of the Lord of the Realms, exuding an ancient desolation meaning, revealing the great breath of the times.

Hum!

Qin Tiange saw a piece of broken bone flew past the nothingness beside him, and he grabbed it suddenly and caught it back.

This broken bone is a finger bone, crystal all over, and glowing with black and yellow, the remaining power is extremely horrible, as if a scary creature from the era.

“The Lord of the Times have fallen?” Qin Tiange secretly warned that this phalanx belongs to a legacy left by a strong man in ancient times.

It seems that there are age-level creatures who have come here, but unfortunately they fell and the broken bones wandered beyond nothingness.

Beyond nothingness, there are terrible unknown forces that can erode all flesh and blood and even kill all living things.

In such a terrible place, someone can excavate such a tunnel and keep it. How much strength can it take to complete it?

Qin Tiange said that he couldn't do this now, so he paid more attention to the secret here. How many shocking stories in the world?

Moving forward, through a large raging fog in front of him, Qin Tiange saw a few fragments drifting past him.

Some are a truncated sword, and some are a small halberd. Various fragments of various weapons are scattered here, showing a hint of sadness.

Weapons have spirits, and there is still a trace of sharpness and killing intentions when broken, and there is also a kind of sadness.

Creature falls, weapons are broken, everything here is telling about a tragic calamity of the past.

The more he looked, the more Qin Tiange felt that it was not so simple here, as if he had come to some kind of mysterious battlefield.

This channel actually cut through an unknown battlefield and passed through. The remaining great power can still maintain the stability of this channel.

“Here, where is it?” Qin Tiange said to himself, with a serious expression.

Because he is convinced that ~ [www.mtlnovel.com](http://www.mtlnovel.com) ~ is not in the starry universe or Tianhe continent, and has come to an unknown area.

Someone cut through an unknown area, filled with an unknown area of mysterious death, like cutting through the universe.

When he arrived here, Qin Tiange felt the danger. From the unknown nothingness from the outside, a trace of unexplainable power threatened him.

Inside the passage, there was a trace of terrible power invading it, putting Qin Tiange under tremendous pressure, and the flesh and blood body was being eroded by a strange power.

Zizi ...

Outside Qin Tiange, the body's surface was flashing with strange sparks, which was eroded by some force and collided with a gorgeous spark.

He looked dignified, and immediately realized why the wreckage here came and was wiped out by this unknown force outside.

I don't know how long, when Qin Tiange felt that he could not bear that power, the passage seemed to be over.

“No, this is not the end.”

Standing in front of a void with no way forward, Qin Tiange stopped for a long time, and suddenly felt that this was not the end, but a broken road.

The road was disconnected, unable to move forward, and there was a mysterious and unknown void blocking the way.

“The road ahead is broken, cut through it.”

Qin Tiange looked for a long time, and finally made a decision, that is to cut through this blocked road.

He wanted to see what was the end of the road?

“The power of great chaos, Pangu Kaitian!”

Suddenly a roar came, and saw Qin Tiange pulling out a mysterious ancient sword from nothing, gathering the power of great chaos transformed from all over the body, and splitting the sword of the strong Kaitian.

A sword opened to the sky, Jian Mang shred the nothingness in front, and split into the unknown eternity.

#### Chapter 949 - Digging in nothingness

With a click, the emptiness in front was cut open, and the horrible swordman seemed to tear the barriers between heaven and earth and cut off emptiness.

boom!

However, at the moment when the current side was split open, an unknown force surged and swept across, flooding Qin Tiange.

The force from the unknown nothingness was full of destruction and fierce violent, and almost made Qin Tiange unstoppable.

Qiang Qiang Qiang Qiang

In the nothingness, swordsman flying flying across Rao, gray swordsman blocked these terrible unknown torrents.

Qin Tiange waved the ancient sword and kept chopping, resisting this terrible and unknown force.

“It’s so strong, so weird!” Qin Tiange blocked, and the power of chaos in the body boiled and roared, turning it into a diaphragm-like defense, blocking the impact.

He lifted his eyes and saw that inside the cracked rift was the path leading to the unknown nihility, and the blocked road was ahead. As long as the unknown nihility was broken, the passage in front could be connected.

Seeing this, Qin Tiange gritted his teeth and waved the ancient sword, and his whole body suddenly broke out, turning it into a strong sword.

boom!

A sword splits and nothingness bursts. A sword from the top of Qin Tiange’s pole finally splits the nothingness barrier ahead and runs through the blocked road.

With a loud bang, the road link that was originally blocked, a strange amount of power came in, blocking the erosion of nothingness outside the channel.

This power is the remaining power. It belongs to the power left by the unknown digger. It is terrifying.

After many years, this residual force still keeps the channel from being eroded and destroyed, which is incredible and has been miraculously preserved.

“I’m better!” Qin Tiange sighed, feeling that he was inferior to the other party.

This is for sure, to dig up such a mysterious and unknown path to nothingness, it is impossible to guess the secret here.

It’s not even clear why the other side is digging such a road, is it really going to cut through the big universe and escape?

If so, it would be terrifying!

Qin Tiange didn't think much. He dropped his thoughts and stepped away. The road ahead had been split and he moved on.

However, he found that the further forward, the more unstable the passage of nothingness, as if it would break at any time.

Moreover, in some places there have been cracks, terrible unknown forces pouring in, blocking the way forward, and being in danger of falling.

No wonder the creatures that came in mostly fell, leaving the remains here. It turned out to be in various dangers.

Even Qin Tiange had to be cautious and extremely vigilant, with a gray membrane covering his body and body to block that weird unknown force.

All the way forward, Qin Tiange finally sensed that this road was about to reach the end, maybe all the secrets were there.

The closer to the end, the more unstable this unknown road is, the chaotic and violent power tears everything on the road.

The broken bones are constantly being shredded into powder. Even the lords of the era from the ancient times can not be maintained, and the remains are broken up and dissipated.

Qin Tiange also saw a stubble with flesh and red signs on it, looking at it and not yet decaying.

But the corpse of such a powerful creature is still turned into fly ash under the strangulation of nothingness.

“Roar”

Suddenly, there was a roar, if any, in front of me, and she was completely utterly empty, which aroused Qin Tiange's vigilance.

That roar, with extreme unwillingness, with a trace of immortality, still wandering in ignorance.

“Immortal faith falls with unwillingness, and the remaining obsessions are unwilling to go away.”

Qin Tiange's eyes flickered, staring at nothingness in front of him, there was a terrible roar, as if to smash this nothingness of the world.

Unfortunately, such a powerful creature is still falling, leaving only a little unwillingness to persist.

“Where is my road?”

Suddenly, a sorrowful roar came from nothingness, as if an unsuspecting roar from the Xeon creature.

The emptiness boils, an invisible will, turns into a terrible shadow, and can't be wiped out and disappears, and is still struggling there.

The terrible ghost is an ancient creature that has never been seen before. It is terrible, and the breath can bring a shadow of fear.

It struggles in nothingness, and refuses to disperse, as if it is eternal and immortal.

“What kind of creature can’t get rid of that Xeon obsession?” Qin Tiange looked in amazement and couldn’t guess how strong the other party was.

Before his death, how strong this creature was, Qin Tiange couldn’t guess, because he hadn’t reached that level, it wasn’t clear at all.

All I know is that such a creature is in a terrible and unknown nothingness, and a ray of Xeon strong faith still refuses to disappear and cannot be destroyed.

After watching it for a while, Qin Tiange became more vigilant and kept moving forward. When he passed the illusory idea struggling outside, he instinctively felt it came over.

The two looked across from the inside and outside of the channel, and two faint rays of light passed through, which made Qin Tiange’s instinctively cold chill, and his hair was blown up.

“Hou” suddenly, the creature roared and rushed as if to rush into Qin Tiange’s sea of knowledge.

“court death!”

Seeing this, Qin Tiange gave a violent drink, and his brows glowed with endless golden brilliance, and mysterious symbols turned into torrents and struck over that phantom.

With a bang, the terrible ghost image was directly hit back into the nothingness, and the stern roar shook the whole passage.

Humph!

Qin Tiange snorted coldly, glanced twice, and turned directly to move on, without continuing to consume it here.

He wants to see, what is hidden at the end of this unknown road, why is there such a strange and mysterious road?

Beyond nothingness, the shadowy angry roar, but unfortunately could not rush in, and was strangled by endless nothingness of unknown force.

However, that phantom cannot be destroyed, and the real scary horror creature is too terrible.

If it were not for this unknown road, with inexplicable strength remaining, it might have collapsed and disappeared long ago.

This makes Qin Tiange full of admiration for the creature who dug this path, who is so terrible?

Click! Click

At this moment, on the road of nothingness ahead, a shattering sound came, shocking.

A closer look reveals that tiny cracks appear densely on the road of nothingness, which is a kind of nothingness crack.

This crack, with a terrible breath, will be slashed and cut by it once it is encountered, even Qin Tiange cannot bear hair.

Unknown nothingness, where does it lead to the end of the universe?

With questions, Qin Tiange carefully avoided the dense voids and continued to advance, depending on what happened.

Finally, after a lot of dangers, Qin Tiange came to the end of this unknown road and saw such a scene.

Ding Ding

Suddenly, there were faint and crisp sounds in front, like the sound of crickets of gold and iron fighting, very pleasant.

The further forward, the stronger the sound, and even at the end, as if with some magic, the true spirit of the tremor was disturbed.

Qin Tiange's expression was serious, he firmly suppressed his true spirit, the ground text was truly magnificent, and it turned into a golden mist covering the whole body, blocking the unknown force.

Soon after, Qin Tiange came to the end of nothingness, the end of the unknown road, and reflected a horror figure.

boom!

When he saw this figure, Qin Tiange suddenly exploded, as if a thunder exploded in the sea of knowledge, rumbling.

A horrible figure, back to Qin Tiange, arms like \*\*\*\* iron, constantly digging in the nothingness ahead.

The desolate back is lonely, eternally lonely, and uninterruptedly digging nothingness.

“Who is he?” Qin Tiange looked horrified, looking at the figure in front of him who was cutting nothing, full of shock.

It can be seen that it was a humanoid creature, with his back facing him, as if a worn robe was weathering at any time.

However, the breath revealed from this figure is extremely terrifying, a breath never seen before, a terrible taboo creature.

“This is just a mark of the past.” Qin Tiange was frightened, and saw that the man was not real, but a mark.

That's right, at the end of the road of nothingness in front of you, the figure that never cuts out nothingness is not real, but a piece of imprint, the imprint of a long time ago.

It is incredible that a period of imprint can be maintained to this day.

What's even more incredible is that this imprint is still there and is still digging through the void, as if to penetrate through this vain world.

“False World”

“No one can stop, I, I will cut through all the cages”

There was a muffled murmur, and from that imprint, as if from a long time ago, the terror existed and was being dug a little bit.

He has soaring will to cut through this cosmic cage, it seems ~ [www.mtlnovel.com](http://www.mtlnovel.com) ~ he seems to have found a way, really cut through this void.

“Falsehood, cage?”

Qin Tiange set off a stormy sea, watching the never-ending figure was actually a brand.

Perhaps this existence has already fallen, he failed, leaving only an immortal mark, and continuing to dig.

But that is false, the imprint is the imprint, like an image, it is a reflection of his past beliefs and obsessions.

It was as if he was replaying his whole life’s attachments, digging up nothingness, trying to cut through all the cages.

“Well”

Suddenly, the silent figure excavating nothingness suddenly stopped, stopped the excavation, and slowly turned around.

Huh!

For a moment, Qin Tiange only felt that an unprecedented crisis had enveloped him, and before he could think about it, he saw two horrible rays of will tearing through the years.

It was a real will shock that came from the endless years ago, and that will directly tore through the years.

boom!

The whole unknown road exploded, and every inch collapsed, unable to withstand the impact of this terrible willpower.

Qin Tiange was directly smitten by this horrible will, and flew across nothingness along the unknown road.

“You, finally awake” At the moment when he was beaten, Qin Tiange murmured such a low voice.

In the end, he saw the figure turning around, and gave him a weird faint smile.

“Who is he?”

Qin Tiange was shocked and full of doubts, but was struck by that overbearing will. The last sight he saw was that a figure that bored nothingness was directly killed by an unknown force.
