

## **Dark Ages 951**

Chapter 951 - King of the Giants

Roar!

“Defend your ancestral land!”

“Giant Glory!”

On the starry sky, a roar roared and shattered Xinghe, and the dense starry giants roared into the sky, vowing to defend their ancestral land.

The star giants are very powerful, and their power is not only reflected in the body, but also in that belligerent character.

The belligerent clan is extremely powerful, and at the moment when the war began, the clan felt the pressure from the starry giant clan.

“Sure enough, it is a militant race.” Li Ji looked at the star giants gathered indifferently, and there was a icy killing in his face.

She sneered coldly: “Although it is very strong, but who are we people afraid of in terms of belligerence?”

“Order, open up the time and space dimension strike, and erase the giant space-time defense force.”

With her order, the army that controlled the weapons of space-time level immediately opened the blow of time-space dimension.

One-dimensional beam, two-dimensional compression, three-dimensional three-dimensional artillery, and one terrible space-time technology weapon kicked off the war.

Rumble ...

The entire starry sky collapsed in a moment, inside the giant galaxy, the powerful defense circle directly tower defense collapse.

With just one dimensional strike, the space-time defense force of the Star Giant was completely disintegrated and instantly destroyed.

The space-time technology from the human race is not just for fun, but for a real lethality and a powerful war spirit.

“attack!”

Watching the whole space-time defense enchantment shattered by the entire galaxy, the commanders of the five major regiments immediately launched a general attack and killed them directly.

For a time, the giant galaxy was caught in the flames of war, and miserable wailing sounds kept coming, and the roar shook the galaxy.

“Human ants, kill!”

“Kill all Terrans!”

“Kill! Kill! Kill!”

The Star Giants are crazy, and these giants are insane as soon as they start fighting, like a terrible killing machine.

The belligerent heart, the war intentions burning, is like losing his sense of reason, just clear killing.

In the eyes of the star giants, the humans are tiny ants, who can pinch a large group of weak races and dare to challenge the giants.

I have to say that once the Star Giants fell into battle, one by one seemed to lose their minds, as if they were the strongest, which confirms that sentence. The limbs are developed and the mind is simple.

This is the Star Giants. They are powerful and terrible, and their fighting power is terrible, but the flaw is that once they fight, they will lose their reason.

This is a typical situation without a mind. A race cannot be perfect. It has a powerful body and combat power, but it has lost its wisdom evolution accordingly.

The stars and giants, the evolutionary path is the body and strength, extremely tyrannical, picking the stars by hand, palms and stars, and stepping on the starry sky, how powerful is that?

But they can easily lose their minds, just like now, countless star giants roar, with red eyes, killing them regardless of them, blocking the army of human race.

However, the Terran side is not only powerful and powerful, but also has strong scientific and technological weapons.

This kind of battle is really without any pressure for the human race. A group of giants who lose their minds will be destroyed one by one.

“Roar, Terran, you will pay for it.”

In the center of the galaxy, a particularly huge giant roared loudly, and that roar shook a large area of the galaxy, and even caused several planets to explode.

It was the Star King of the Giants. It was extremely powerful, with red eyes showing fiery anger, like a bloodthirsty giant.

He stepped up and stepped on the starry sky, sending out a loud bang, shaking the galaxy, and the mighty power swept past, making the stars dim.

“The Emperor of the Giants?”

An indifferent voice came to the attention of both parties, and after looking around, they saw a huge ghost suddenly appearing above the galaxy.

This phantom just appeared, immediately causing the five main army of the human race to boil up and down, the war will soar, and the morale is high.

“The Emperor! The Emperor!”

The emperor came to the battlefield, and morale skyrocketed, causing the five major legions of the human race to fight high and low, as if they were fighting chicken blood one by one.

This is Qin Tiange's prestige within the human race. Just a projection onto the battlefield can stimulate the morale of the entire army, and the fighting power erupts.

Looking at the huge imaginary image, which was pressing over the galaxy, the starry giant clan could not help but be horrified and looked at the huge emperor projection.

"The emperor?" The emperor of the giant roared, making a terrifying growl at the huge projection above the galaxy.

He growled: "Mr. Emperor, you are just here, watch my Emperor kill you."

boom!

As soon as the words fell, the giant's emperor waved a terrifying giant and hit him. Wherever he passed, Xinghe collapsed and space collapsed.

The horrific blow even broke through the barriers of time and space, and even the chain of time and space that was blocked almost broke.

It is conceivable how strong the giant emperor of this starry giant clan is, that fierce power is simply shocking.

boom!

However, such a powerful blow was shattered directly by Qin Tiange's projection, and the giant soldier snorted and was blown out.

Even the Emperor of the Giants stepped back, stepped on the broken starry sky, and the Wolverine stopped, with an incredible look on his face.

"How is that possible?" The Emperor of the Giants looked at Qin Tiange's projection in horror, disbelieving: "You are just a projection, how can you defeat the true emperor?"

The projection of the Emperor defeated the true body of the Emperor of the Giant in one hit. This is incredible, because it is extremely difficult for the projection to have such power.

But Qin Tiange's frivolous blow defeated the giant's emperor. How could he not be shocked and frightened?

"Roar ... I don't believe it!"

The Emperor of the Giants roared and waved the giant soldiers. The huge body slammed and rushed out of the galaxy.

Looking at the King of the Unbelievable Giant, Qin Tiange's projection had no expression, his indifferent eyes glowed with faint light, and his intentions were surging.

"The emperor of a family, die!"

Qin Tiange spit out the words lightly, his body suddenly swelled, his huge palms went out, and his five fingers spread out, covering the starry sky.

The horrible palms, the five fingers covering the starry sky, as if it were going to grab the entire galaxy in it, it was frightening.

“Roar ...” The Emperor of the Giants roared loudly, waved the giant soldiers and slammed, the giant \*\*\*\* soldier broke apart.

A powerful blow could not shake Qin Tiange’s hand, or the projected hand, and pinched his fingers fiercely.

With a click, the giant’s emperor was pinched, and Qin Tiange’s five fingers grabbed his entire body, pinching it in his palm and lifting it above the galaxy.

The huge body is constantly struggling, and the emperor of the giant is terrified. How to struggle cannot escape Qin Tiange’s palm suppression.

“No, it’s impossible. There can’t be such power in projection ....” The Emperor of the Giants growled in panic, seeming uneasy.

He didn’t believe this was true, why could a projection easily defeat him, and even pinch his true body, even without the ability to resist?

“Why is this?” The King of Giants kept roaring and struggling, but felt a whistle of rattling sound from his body, his bones wailing.

Around the huge body, the stars are as small as marbles. You can imagine how terrible the giant emperor of this starry giant family is.

The stars in front of him were as small as marbles, but such a terrible existence was pinched by Qin Tiange’s projection and could not escape.

“Imperial ...”

“Let me go!”

Suddenly, a roar came from the Star Giants, and sometimes powerful giants in the sky rose into the sky.

They killed in anger, to rescue their giant emperor, they did not even notice that the power of the two was not in the same grade.

Dozens of space-time giants had arrived, but before they approached Qin Tiange’s projection, they saw powerful figures blocking the way.

“presumptuous!”

“Dare to attack the emperor, kill!”

One after another Xeon figure, a powerful breath erupted, all belong to the space-time class of the human race, a dozen ancient human sages all stopped the star giants together.

Terrans, not without the time and space-level powerhouses, are increasing at a horrible rate. In addition to the ancient human sages, the high-level forces of the new generation of Terrans have gradually come into being.

With the internal development of the human race, more and more powerful people have emerged, which has become the cornerstone of the human race and laid a firm foundation for the human race.

“Huang, the giants have successfully separated and plundered ...”

At this moment, above the galaxy, a word came from Qin Tiange’s consciousness, which was a prophet hidden in the river of Qiyun.

She came with a reminder that she had completed the lucky differentiation of the Star Giant, and she could kill the giant emperor.

“No, no, you are taking your own luck?”

Finally, the giant’s emperor felt wrong, and suddenly found that his own luck and even that of the entire giant race were being rapidly divided.

There is a mysterious force that is splitting the luck of the giant clan. A swarm of plundering and devouring makes him horrified to death, can he even capture the clan?

“Very good then you’re useless.” Qin Tiange smiled slightly, his eyes looking at the giant emperor cold.

Feeling the cold eyes, the Emperor of the Giant was cold, his eyes were in fear, and he was about to warn his family, but found that it was too late.

“Ah ...” With a screaming roar, countless giants looked up inside the galaxy, and they saw horribly that the giant’s emperor was crushed by Qin Tiangesheng.

Slightly!

With a crisp sound, the body of the King of the Starry Giant exploded and was exploded by being pinched, and turned into countless pieces of flesh and sprinkled on the Galaxy.

The tragic scene stunned countless giants in the sky, and had no idea that the emperor of his own house was pinched to death by the other party.

“Do not...”

“The clan emperor is dead ...”

A mournful roar, full of anger and disbelief, countless giants went crazy, watching their own family emperor pinched to the other side, how could they not be furious?

Especially the group of space-time giants, looking at each other in horror, looked at the countless pieces of flesh and blood, and the spirit of the giant’s emperor remained in it.

Unfortunately, the giant emperor died and was pinched to the galaxy by the projection of the emperor Qin Tiange.

“The Emperor of the Giants is dead, level the giants!”

With an order, the entire galaxy’s interior was boiling, and the main army of the five human races broke out with unparalleled fighting power and rushed madly.

“My lord has orders to settle down the giants!”

“kill!”

The army of human races went crazy, their morale skyrocketed, and their fighting force continued to thrive, killing the star giants one after another.

The supposedly powerful giants of the starry sky were crushed by the army of human races, and they broke down again and again. They were pinched to death from the giant emperor, and their defeat was already doomed.

Chapter 952 - Ancient giants

The giant galaxy, which was supposed to be a flourishing and powerful galaxy, was now in a fierce battle.

The giant giants, who were originally powerful, are now facing the crisis of extermination. They are attacked by the five main forces of the human race from five directions, defeating the star giant army.

“Roar!”

“No one can destroy my star giant.”

There are horrifying giants roaring, the galaxy is shaking, and the huge body, the scout can pick up a star, which is extremely scary and terrifying.

Such a terrible starry race was defeated by a small army of human races, unwilling to believe that this race would be destroyed.

A giant giant shouted, his eyes were red, and he became mad, and he had completely lost his due mind.

The giants who fell into madness were besieged by the human army one by one, and the huge corpses lay above the starry universe and kept floating.

“Ah ... why, why?”

I saw two space-time giants roaring unwillingly in the space of the galaxy, pierced through flesh and blood by the chains of time and space, blocking the body.

boom!

The giant growled and struggled, but still couldn't escape the fate of being captured.

They were captured, captured by a powerful space-time team of the human race, banned there, and completely turned into prisoners.

“Cut off the right wing and take down their last line of defense.”

At this moment, a huge virtual shadow pressing on the galaxy, suddenly probed with a finger, and gave such an order.

With the order of Qin Tiange's Emperor Xingying, he saw some powerful weapons that had been hidden in space and time, suddenly showing his ugly face.

The beams of time and space converge, and the power of the dimensions constantly fluctuates, causing panic among the starry giants.

The blow from the high dimension of time and space is extremely horrible. Once it cannot be defended, it will cause a complete collapse and overthrow.

Click!

I only heard a click and crisp sound, time and space exploded, and endless torrents poured out in the dimensional space.

The power of space-time technology is to use any force in the space-time dimension as a weapon to destroy all enemies.

With a bang, almost instantly, the defense line on the right side of the giant galaxy collapsed on the spot, and numerous giants mourned and disappeared.

“Do not...”

The commander of the giant clan turned his face and made an angry roar, watching the last line of defense of the clan completely collapse, and could not help but blow out a spit of blood.

“what...”

The screams circulated throughout the stars, shaking the parties, making the giant clan horrify and realize that their clan was finished.

The defense line collapsed, followed by an endless army of human races, and the fighting force of the main army was not blown out, but killed.

Except for the two main legions that have just been formed, their combat effectiveness is slightly weak, the other three main legions are extremely terrifying.

In particular, the man-made army led by his own self was invincible and unstoppable, and even the powerful star giant was shattered ruthlessly.

“kill!”

“Full attack!”

In the galaxy, outside the ancestral territory of the giants, dense army groups of humans gathered to launch a fierce total attack.

At this moment, the defense of the Giants completely collapsed, and there was no war, and the scene of a great defeat had already formed, that is, the commanders of the Giants could not stop them.

“It’s over!”

“My clan is over!”

One by one, the giants of the clan are looking at the collapse of the galaxy defense, and the ancestral land is directly exposed to the army of the clan.

It was like a lamb waiting to be slaughtered, waiting for the Terran’s butcher knife to fall, countless giants fearing, shivering in the ancestral land.

Fear is spreading. The powerful and violent Star Giant, this warlike and strong tribe, is completely defeated by the human race.

“Titan, great god, I implore you to return to save the perishing tribe.”

On the starry sky, countless giants suddenly knelt down and bowed to a huge idol in the ancestral land.

That is the belief of the Star Giant, which is rumored to be the oldest and most powerful giant of the ancestral land of the Milky Way Giant.

This galaxy giant tribe was created by that giant god, and laid the foundation of the grand foundation. It is the sole belief of the galaxy giant tribe.

Now, this group is facing the crisis of destruction. All the giants kneel down and worship in front of the idols, as if they are begging the supreme faith, the creators of the giants of the galaxy for help.

“Offensive, destroy the last belief of the giants.”

Seeing this, Qin Tiange’s Emperor Xing Ying suddenly waved his hand without any mercy at all, but instead issued a killing order to cut off the last belief of the Star Giant.

Even asking God to return is useless. No one, whether God or the devil, can stop his determination to settle the giants.

boom!

The Terran Star Fortress made a roar, and the huge battle stars broke the space and jumped out, directly starting the last round of bombardment.

A variety of space-time technology weapons burst out, pouring down like money, this is to test these various new weapons with war.

The latest antimatter bombs that can penetrate the barriers of time and space can blow up super-explosive points in the dimension of time and space and even super weapons that can penetrate the realm of the sea.

Various taboo technologies were pulled out and thrown directly to the giants. These weapons were tested and even the last thoughts of the giants were destroyed.

Rumble ...

The entire galaxy was plunged into a big bang, and a terrible storm of destruction swept away, directly engulfing the galaxy of this starry giant.

There, storms of destruction swept across, crushing the starry sky, devouring huge stars, and destroying the galaxy.

Even the time and space were destroyed, and the vicinity became a Jedi completely, and even became a terrible restricted area.

“Sadness, the performance of some weapons is still insufficient. In the future, the ultimate weapon program will develop a super taboo weapon that can penetrate the barriers of the universe.”

Qin Tiange said something lightly, so that Jiji immediately recorded it. Various weapon performance parameters, destructive power, various development prospects and future development ideas were all planned out.

He needed a weapon, a super-taboo weapon to break through the barriers of the universe, which was the idea that came from seeing that path of nothingness before.

Someone excavated the nothingness of the universe, which made him think about creating a super taboo weapon that can penetrate the universe.

Since artificial power cannot cut through the universe, it will create super weapons that can penetrate the universe, and even weapons that can penetrate cages.

This is the future plan decided by Qin Tiange, developing taboo weapons, accumulating enough strength and scientific and technological knowledge to prepare for this step.

“Roar...”

Suddenly, an angry roar came from the center of the explosion, and the roar shattered the tumultuous torrent of extinction and completely dissipated.

With just one roar, the various annihilating energies that the human race hit in the past were extinguished, and Qin Tiange’s attention had to be said.

“Well?” Qin Tiange’s projection gave a suspicion, his eyes glowed with dim light, staring at the giant ancestral land in the center of the galaxy.

There was a sudden burst of horror in it, ancient and powerful, full of violent killing intentions, as if a horror \*\*\*\* had awakened.

“Suddenly summoned back?” Qin Tiange looked at the ancestral land of the giants gradually emerging.

At this moment, the ancestral land of the star giant is dilapidated, but it still can not be destroyed, and it is being firmly protected by a huge arm.

Then, a horrible thing slowly stood up in the center of the galaxy. The body occupied the galaxy space and stood in the dark universe, full of oppression.

“Who dares to destroy my ethnic group?”

The giant man opened his mouth and roared, and the galaxy trembled. Countless stars were blown apart. The big planets collided, as if they were smashed by marbles.

The roaring roar swept through, like a cosmic storm, blowing the human army into chaos, and many people were shouted into powder on the spot.

“town!”

At the critical moment, Qin Tiange’s Emperor Xuying suppressed this noise, which did not cause much damage, but made him look ugly.

“Giant God?” Qin Tiange looked indifferent, his eyes staring at each other quietly, his huge body turned slowly, his eyes held against him.

The two looked at each other, collided with each other, shattered the starry sky between the two, and the space broke apart.

“Human race, Emperor?”

The giant \*\*\*\* opened his mouth, dragged the starry sky giant ancestor’s land in his palm, and revealed an ancient charm on his body. He turned out to be beyond the terrible existence of the Lord of the Realms.

“I said, Jie Hai has been shielded by me first. Any giant leader is being strangled by my body, why can there be a strong one to come?” Qin Tiange said to himself, the more excited his expression was.

He stared at the horrible giant in front of him, smirking: “It turned out to be a willpower projected from ancient times.”

Qin Tiange saw it. The giant \*\*\*\* who looked at the horror in front of him was actually an idol dedicated to the ancestral land of the giant tribe. As a result, the giant tribe was awakened collectively, and a belief was projected from ancient times. Based on idols, turned into a terror.

“Now that you know, isn’t it fast to roll?” The giant \*\*\*\* glared at his huge eyes, and the killer flashed, but roared violently.

Unfortunately, Qin Tiange sneered, shaking his head and saying, “I’m curious about the ancient times. What is the situation in the ancient times, swallowing your will, may give me a lot of answers.”

“You ...” The giant god’s face turned wild, and he was stunned by this remark. Qin Tiange suddenly launched an attack before he could say anything.

With a bang, a huge arm slashed up into the air, but the illusory palm contained extremely terrifying power.

The crunching noises kept coming, and the giant \*\*\*\*\* was chopped with one palm, his body slumped back and looked very embarrassed.

“A deity wants to be prestigious, die.”

Qin Tiange shouted, and the ghost suddenly shook and turned into an entity. His fists gathered a force of great chaos.

Just listening to the bang, the giant god’s body was defeated again and again, and cracks spread and crisscrossed. In the end, even the resistance was exploded.

“Jack!”

After the bursting of the giant god, a horrible will, a bright light, penetrated an unknown place, the glory from ancient times suddenly came, mysterious ripples began to ripple out.

In the midst, a huge divine figure suddenly appeared in the unknown place. It was a horrible figure from the ancient times, and looked through the barriers of the times.

“People, you look for death!”

A roar from ancient times shattered the galaxy, roaring this starry universe, causing countless souls and strong men to panic.

All the powerful men brushed over and saw the terrible giant shadow that had emerged from ancient times. It was an ancient giant.

Chapter 953 - Break into the barriers and fight against the era

An ancient \*\*\*\*\* appeared, and Wei An’s body could clearly feel the terrible oppression across the barriers of the times.

“Lord of the Ages, Elder Titan?”

The horrors of all parties, watching the terrible giant shadow that straddled the nothingness, is the master of the age, the ancient god.

He looked down through the barriers of the times and looked down at the galaxy universe. The terror coercion pervaded and shocked the strong.

“Human race, it was the human race.”

“The Starry Giants have been destroyed?”

“No wonder the ancient giants are attracted. It turns out that the Star Giants are about to be destroyed.”

For a time, all the races in the Milky Way galvanized, swarming with arrogant thoughts, immediately realizing that the cause and effect of the incident were immediately shocked.

They were shocked that the human race suddenly started to conquer the star giant, and they were even about to flatten the ancestral land of the star giant.

In the end, it led to the highest faith that founded this group in the past. The founder of the galaxy giant family, the ancient giant \*\*\*\*\* appeared.

“Slay my people, destroy my roots, Emperor, you die!”

Just listening to a horrible roar, the entire galaxy shook, the stars and moon were dim, and the big stars were inexplicably broken and destroyed.

The roar shook Xinghe, shook the universe, and the galaxy was shaken endlessly. The terrible power was incredible.

“His, terrible, is this the Lord of the Times?”

“The ferocious \*\*\*\*\* from ancient times, should the human race be finished now?”

In the Milky Way, some powerful royal families couldn’t help but drew air-conditioning. Looking at the terrible giant shadows in the barriers of the times, they felt that the human race was almost finished this time.

At present, there are no era-level strong men in the ancient race. Even if they do, it may not be known by the emperor Qin Tiange.

In other words, this generation of people did not go out, and rarely recognized or helped this generation of people. Is this the biggest crisis of the people?

In fact, it is not that no one has entered the ancient times, Li Luo is one, but Li Luo seems to have encountered something in ancient times and cannot help here.

Qin Tiange does not need to help, because he is not afraid of the Lord of the times, and even hopes to appear, so that he will have the opportunity to understand the secrets of ancient times.

“Let’s stop talking nonsense.” Qin Tiange snorted, and the huge shadow was standing in front of the Terran Army, disdainful: “If you have the ability, go across the barriers of the age and fight with me, and quickly go back and hide without ability.

“Roar ... to death!”

Boom!

The giant roared, one arm came across the nothingness, clicked through the barriers of the times, ran directly across Xinghe, and blasted to Qin Tiange.

Where the giant hand passed, the galaxy crumbled, everything was destroyed, nothing could be saved, and it was completely destroyed.

In the face of such a terrible blow, Qin Tiange’s imagination stunned, and a wave of chaos spewed out, turning it into an entity that struck nothing.

Huh!

With the two arms hitting each other in the air and hitting them together, a terrible sound of a big collapse of the universe was heard instantly, and the dim star river was dim.

The entire Milky Way galloped slightly at this moment, and a large number of nearby dead stars broke apart, turning into cosmic dust.

The power of the two caused extinction, and the terrible calamity swept through, but was quickly confined to a range and gradually disappeared.

When everything is calm, look at Qin Tiange’s Emperor’s virtual shadow and shake it a few times, changing dimly, as if to disappear.

“what?”

In the barriers of the times, the giant \*\*\*\* was horrified and looked at Qin Tiange’s unreal figure, a little shocked and unbelieving.

Qin Tiange blocked his blow, not only blocked it, but what struck him the most was that the opponent was just a ghost.

Projection, one emperor’s projection can block the blow of the Lord of the Times, and the blow across the ages is easily blocked.

“The Lord of the Times is just a little stronger. What prisoner qualifications are there for prisoners imprisoned in ancient times?”

Qin Tiange’s body was shaking, the dim shadow gradually solidified, his face was cold, and his eyes were filled with chaotic mist.

With a confident smile on his face, he said, “Across the era, most of them are blocked by the barriers of the age. What else can you do to kill me?”

That’s right, the Lord of the Times was locked in the ancient times, struck down through the barriers of the times, and looked strong, but was blocked by a large part.

Unless he dares to hit the barriers of the times and risk his own death, don’t try to kill Qin Tiange.

“Good boy, no wonder dare to move this group of people, it seems you have a little pride in capital, but this is not your arrogant capital.”

The ancient giant shouted, his arms stretched, and a thunder broke through the barriers of the times. Both arms penetrated directly into the starry universe.

He stretched out his arms, spread his fingers, and seized and tore apart Qin Tiange’s Emperor Xuxing.

“You want to kill me, you are not qualified!”

Qin Tiange drank, rising into the air, hitting his two arms with a punch, violent chaos surged.

With a loud bang, his fist smashed into two horrible arms, and the horrible force tore up the surrounding galaxy, and the universe was turbulent.

Bang Bang!

With dozens of punches in a row, Qin Tiange hit the two arms out of the barriers of the times.

The Emperor’s Xingying, powerfully defeated the two arms of the ancient giant god, but he collapsed before the emptiness.

“A phantom that can beat the power of this seat one after another. You are the first. I don’t know how strong your body is?”

The ancient god, watching Qin Tiange’s Emperor Xingying spread out, had to admit the strength and terror of the other party.

With just one phantom, you can fight against the ancient giant \*\*\*\*\* across the barriers of the age, how strong is his body?

“Want to know, as you wish!”

Suddenly a faint utterance was worn, all parties were horrified, and after looking at each other, they saw a dark figure in the ten-dimensional spacetime of the dark side of the universe.

The man walked down step by step, his face was cold and grim, his eyes showed a confident style, and his body was surrounded by a strong chaos.

The person who came was Qin Tiange. The true body came, walked directly into the emptiness, stood in front of the barriers of the age, and looked at a terrible giant in it.

“Do you dare to come?” The ancient giant roared and stared fiercely at the coming Qin Tiange himself, really not convinced.

How confident is the other person to dare to come in, or is he so arrogant?

“Men, are you confident or arrogant?”

“Do you really want to fight against the age-old powerhouse of the ancient giants?”

The strong men from all sides were amazed. They did not know much about Qin Tiange, the emperor, and knew very little, and hardly any information came out.

It is only clear that the human race suddenly rises along the way, and even originally thought that this generation of Emperor Ziwei was the Emperor Ziwei, but never thought that Ziwei Emperor was completely silent and fell.

Then the emperor came out, and took the human race all the way to hurt the four-dimensional galaxy, which directly opened the era of human expedition.

Now it is even more necessary to destroy the star giants, and attracted the founders of the tribe that created the galaxy giants, an era-class powerhouse.

“Come to kill you!” Qin Tiange’s tone was flat, without a trace of fluctuation.

He walked up step by step, and suddenly there was a breath of horror all over him, a force that had never been seen before.

The primitive power, the power belonging to the Great Chaos, is roaring, sweeping the void, shaking the barriers of the times.

Rumble ...

Feeling the shock of the barriers of the times, the ancient giant \*\*\*\* was shocked, and there was a horror in his wide eyes.

He did not expect that the Emperor could shake the barriers of the times with his own momentum, as if he could break the barriers of the times at any time and step into ancient times.

“Ancient giant god, come down for a battle.” Qin Tiange shouted, the figure stopped there, and the mighty fierce force pressed against the barriers of ancient times.

The giant \*\*\*\* shook, the parties were horrified, and watching the powerful and invincible emperor directly went to the ancient giant \*\*\*\* to fight.

“Look for death, I really don’t dare to kill you?” The ancient \*\*\*\* was so angry that he roared against the barriers of the age.

Unfortunately, he was angry, but he didn’t dare to step out of the ancient times, as if he was afraid of something.

Seeing this, Qin Tiange couldn't help sneer, humming: "Since you dare not come to fight, I will go in and kill you."

boom!

Then, Qin Tiange waved his arm and punched him directly in front of an invisible barrier.

That was the barrier of the times. The ancient barrier was penetrated by Qin Tiange with a punch, and a huge cave was knocked out.

"kill!"

A furious killing shocked Xinghe, and the galaxy's strong races were frightened, and saw Qin Tiange really broke the barriers of the times and entered into it.

He really broke into it, without any ambiguity. He even thought he was talking about it, and never thought he would act.

"Hoo ... you're looking for death!"

The ancient giant \*\*\*\* was furious, roared and waved his arms, and wanted to destroy Qin Tiange among the barriers of the times.

Once he passed the barriers of the times, it was a very shameful thing. He didn't dare to come out and kill Qin Tiange, but was rushed in by the other party to kill him. It was simply a shame.

"kill!"

Among the barriers of the times, the two most powerful men finally killed themselves. Although they didn't dare to come out, the ancient giants still ganged up with Qin Tiange in the barriers of the times. The two were fiercely powerful, The terrorist forces that erupted each beyond imagination, leaving the strong men of all races in the galaxy watching.

Especially those hidden masters, with dim eyes and shock, felt the terrible and powerful of the era.

Even more horrible is Qin Tiange. Is he an era powerhouse? No, he is still at the level of the Lord of the Realms. No, to be precise, he has transformed from the kingdom of the Lord of Gods into a power of the world.

In other words, Qin Tiange has broken through the main level of the world, but it is not an age because he has not stepped into the barriers of the age.

Without the unique ancient powers of ancient times, it is not an era-level powerhouse, so Qin Tiange is not strictly an era-level powerhouse.

But he was able to fight against the ancient giants, and the two played a good match, even against the ancient master.

boom! Boom ...

The galaxy shook, the galaxies of all races were horrified, and they looked at the constantly collapsing galaxy universe, and the galaxy was greatly affected.

Inside the barriers of the time, the two Xeon figures fought fiercely, and they continued to fight hard. They almost broke the vacuum of the universe again and again, but stopped.

The ancient giant \*\*\*\*\* was afraid and did not dare to step outside, and Qin Tiange did not take any care of it, he was exactly going to kill the terrible strong man of ancient times.

An age-level powerhouse has many secrets. Qin Tiange wants to kill each other and obtain the secrets of ancient times.

Roar!

Finally, the ancient giant \*\*\*\*\* couldn't stand it, and was tormented by the great chaos power on Qin Tiange's body, and his body almost collapsed.

“kill!”

Qin Tiange screamed, his arm trembled, and he fisted through the nothingness. His gray power would penetrate the barriers of the age and bombard the ancient god.

Chapter 954 - Crushing the Galaxy Heart

When a loud noise came, the nothingness collapsed, exposing the scene inside the barriers of the age.

“what...”

A scream of horror spread out, and the strong men from all sides were embarrassed and looked there, faintly seeing a huge giant being beaten out.

The huge body crossed the barrier and smashed heavily into it. A huge blood hole was exposed above the door, which was blasted with a punch, and his head was almost smashed.

The ancient giants from the ancient times were hit hard by Qin Tiange.

“Roar ... I'm tearing you up.” The giant growled, his pupils were red, and his eyes were violently fierce.

He rushed quickly, grasping Qin Tiange with his arms fiercely, and wanted to tear up the human tribe here.

when!

When Qin Tiange raised his hand, he just smashed it with a slap, and the giant body leaned back, bearing an incomparable force of terror.

His face was horrified and somewhat distorted, and he couldn't believe he felt the unprecedented power, primitive and outrageous, unable to stop him.

How strong the power from Qin Tiange's body is, the power of 60 trillion small chaos combined, that is devastating.

“kill!”

Qin Tiange drank, stepped forward, raised his hand and smashed in front of the other side, scaring the giant to raise his arms to block.

Listening only to the sound of a “click”, the entire arm was bent directly to the bone, completely scrapped, and cut off by one palm.

The blood splattered, the giant mourned, and the intense pain made his face almost twisted, like a rampant troll.

“Abominable!” The giant roared, his broken arm quickly repaired, rushed on in nothingness, and plucked a horrible giant knife and slashed it down.

It was a terrible war blade, with an epoch-making atmosphere, old and powerful, and its edgyness was unstoppable.

“The best treasure of the era, the power is good.” Qin Tiange nodded admiringly, looking at the horrible giant blade that fell off the head, not worried at all.

His energy boiled, a wave of chaos gathered in his fists, a wave of his arms, and a thumping punch.

He simply punched him without any evasion, instead using flesh and blood to fight against that horrible blade.

Huh!

With a punch, the sparks shattered and shattered into nothingness, and the barriers of the times have shivered, as if to break apart.

The two forces collided, and as a result, the ancient giant flew out with a blade, and the giant blade buzzed, and there was a trace of cracks on it.

With just one punch, the epoch-level soldiers were cracked. How much strength was needed, Qin Tiange’s physical body and even the power were terrifying to a terrifying degree.

“Impossible!” The ancient giant was horrified and watched his warblade be cracked with a punch to crack a tiny crack.

The other person is physical, the flesh and blood body is so horrible, it is much more horrible than the ancient giant who claims to be the strongest physical body.

Click! Click!

At this time, a crunching sound came, awakened the ancient giant, looked up, and saw Qin Tiange step by step to break the barriers of the times and walked up.

He was like a demon, and wherever he passed, nothingness could not bear the breath and strength that spilled out, and was torn by a wave of chaos.

“You, how dare you?” The ancient giant was terrified and stepped back slightly, already having fear.

There is no way, Qin Tiange’s power displayed is too horrible, can’t be shaken, can’t fight.

One punch, one move, and one move all carried the power of 60 trillion small chaos, which still did not use the largest chaotic power of the initial baby chaos.

Once used, it is likely that Qin Tiange directly broke the barriers of the times and entered the ancient times, but he did not do so.

Because he doesn't want to enter the ancient times for the time being, there are still many things to be done here, and naturally he won't enter the ancient times.

boom!

Qin Tiange stepped forward, waved his arm and punched him, but the ordinary punch contained a terrible power beyond imagination.

The fists passed, the barriers of the times broke open, the chaotic will of violent chaos came, and the bang threw down the ancient giants.

A loud noise came from Qilong, and the giant body of the ancient giant lay there directly, and was knocked down by Qin Tiange.

His face was distorted and extremely painful, and he could not help wailing and screaming with screams.

In the ancient giant's body, there is a violent and primitive power that is destroying his body, internal organs, bones, etc.

puff!

A spit of blood spewed, mixed with some visceral fragments, and the eyes of the ancient giants were filled with intense fear, smelling the threat of death.

He never thought that he would be hit into such a miserable situation by Qin Tiange. In fear, he had no war heart.

“Roar ... you can't kill me.”

The ancient giant roared suddenly, his body crashed into the ancient fog, his eyes disappeared and disappeared.

He ran straight, frightened by Qin Tiange, and produced a shadow. He turned and disappeared into the ancient fog and disappeared into the barriers of the times.

“Want to run?” Seeing this, Qin Tiange was a little dissatisfied, and flashed for a moment, coming up to explore the side of the barrier with one hand.

There is an ancient era, seeing the endless fog, can not see at all, but looking for the instinctual sense to penetrate the past.

“Ah ... abominable emperor, you wait ...”

There was a sorrowful sorrow among the barriers of the age, and the voice of the ancient giants gradually disappeared, completely disappearing.

Qin Tiange was waiting to stop the other side, but unfortunately he couldn't do it, unless he hit it, directly crossed the ancient fog and entered the ancient times.

Hum!

The barriers of the times shook, and a mysterious force blocked it. Qin Tiange could not help frowning, and eventually retracted his arm without entering it.

The ancient giant ran back to the ancient times in this way, did not dare to show up again, and was almost scared to death by Qin Tiange.

“Unfortunately, let him run away.” Qin Tiange stood there with regret, watching the rolling mist ahead, the breath from ancient times rushing towards his face.

There was a strong temptation, as if urging him to step into ancient times and leave here, but Qin Tiange ignored it and retreated.

Because he won’t come out again, he may be left in the ancient times. This is not the result he wants to see. It is not the time to go to ancient times.

“broken!”

One palm broke the barriers of the times, Qin Tiange stepped out of the barriers of the times, and a storm of extinction broke out in the cracks behind him.

It was a terrorist force from ancient times, and soon extinguished by itself, completely restored to its original state.

“hiss!”

“The Emperor is not dead!”

“Looks like the Giants were beaten away.”

At this moment, all the powerful men who watched the war were frightened and couldn’t help but drew air-conditioners, and couldn’t believe watching Qin Tiange coming out.

He was intact, without any scars, as if just after a fierce battle he had not caused him any harm.

The ancient giants of the age can’t hurt Qin Tiange? In fact, they couldn’t see clearly. Qin Tiange was not unharmed, but recovered at the moment of injury.

The 60 trillion small chaos in the body, the self-healing ability is simply horrible, even the injury is not serious at all, and it is almost repaired at the moment of injury.

“From now on, there will be no star giants in the Milky Way.”

Qin Tiange walked down to nothingness, looked down at the entire bleak galaxy, and said this sentence indifferently.

Suddenly, the entire galaxy boiled, and the strong men of all races and groups trembled, and drew their gazes, afraid to continue watching.

Qin Tiange, the emperor, drove away an era-level ancient giant from ancient times, and it seemed to be a victory.

No one can do anything for the epoch, who can stop the human race, who can stop the emperor?

“Human race! Human race! Human race!”

In the galaxy, there was a loud roar, and the shouts of countless human warriors instinctively exhaled their inner excitement.

They saw Qin Tiange's safe return, proving that the ancient giants that had just ran out were no longer threatened, and the destruction of the starry giants was a foregone conclusion.

A terrifying belief glowed throughout the entire human race. At the moment Qin Tiange defeated the ancient giants, the whole family had unprecedented cohesion, luck and tide.

boom!

At the same time, there was a slight shock inside the Milky Way galaxy, and the heart of the Milky Way suddenly flew out autonomously.

The heart of the galaxy flew to the human race, to the position of the emperor Qin Tiange.

"Well, life court, do you really think you are one thing and want to control our people?"

Looking at the heart of the galaxy flying, the light is bright and holy, revealing a desolate and ancient civilization.

The heart of the civilization belonging to the Milky Way galaxy came by itself and wanted to let Qin Tiange imprint his own civilization's fire in it.

Once imprinted, that human race is an out-of-the-box galactic overlord. Unfortunately, Qin Tiange has long understood the mystery, and naturally it cannot be as he wishes.

"Oh my god, it's the heart of the galaxy. Is this your choice?"

"Is the human race the lord of the galaxy of this generation?"

"impossible!"

"My tribe is the lord of the galaxy In the galaxy, the major royal families are angry, and some of the royals have made unwilling growls, thinking that their tribe is the lord of the galaxy.

Each of the royal powerhouses watched the heart of the galaxy fly by themselves, and wanted to choose Qin Tiange as the current generation of galaxy overlords.

They are unwilling, but they cannot stop, because the heart of the galaxy has the ability to autonomously, and now the performance is proof that the human race and the emperor have been selected.

"A broken heart of civilization wants me to be a puppet?" Qin Tiange sneered, looking at the heart of the galaxy floating in front of him.

The dazzling heart of the galaxy emits a strong light and is full of temptation, as if it can become the supreme supremacy of the galaxy.

"Suppression!"

Suddenly, an unexpected scene appeared. Instead of controlling the heart of the galaxy, Qin Tiange directly shot to suppress the heart of the galaxy.

With a humming sound, the heart of the galaxy feels bad, and it is going to retreat immediately. As a result, it has been completely blocked by Qin Tiange.

“Presumptuous!” The galaxy’s heart trembled, and a whisper of rebuke was heard inside.

“Break it!” Qin Tiange snorted, but turned a deaf ear, and raised his hand to slap on the heart of the galaxy with a click, and the heart of the galaxy was crushed in an instant.

“It’s just here that I have my heart of civilization.” Qin Tiange said to himself, crushing the heart of the galaxy, directly refining the source inside and letting his heart of civilization be swallowed up.

“Bold!”

There was a sudden roar from the broken heart of the galaxy. Behind the scenes, I felt that the heart of the galaxy was destroyed and immediately became angry. A terrible will broke through the nothingness and struck directly into Qin Tiange’s knowledge of the sea.

Chapter 955 - Killed another family

boom!

Qin Tiange’s body shook, his eyebrows glowed with golden light, his eyes shone brightly, and an overbearing will came.

It was from behind the heart of the heart of the galaxy, who was going to crush Qin Tiange’s will, and was blocked out of the sea.

Humph!

Qin Tiange snorted coldly, his eyes flickered with two beams of horror, and the original chaotic powers poured out, crushing the opponent’s will arbitrarily.

Suddenly, the heart of the galaxy completely collapsed, and the controlling will inside was crushed and disappeared into a fly ash.

“The court of life will uproot you sooner or later.” Qin Tiange said to himself, a holy light burst into his heart.

It came from the heart of civilization in the body, directly engulfing the galaxy heart fragments, refining and absorbing clean, successfully engulfing the galaxy heart.

At this moment, the strong men of all races in the galaxy are silent, staring at it all. They could not believe that Qin Tiange, the emperor, did not accept the autonomous choice of the heart of the galaxy.

He did not accept becoming the hegemon of the galaxy, but crushed the heart of the galaxy, which was an outrageous and terrible method.

“What a terrible man!”

“Don’t even care about the heart of the galaxy, what does he want to do?”

In the galaxy, the royals of the various royal families were frightened, and their eyes turned to Qin Tiange’s eyes became frightened. How can they not be afraid?

He was disdainful of the heart of the galaxy and the hegemon of the galaxy. His heart was so big that he feared all races.

Even more frightening is that he directly swallowed the heart of the galaxy, which is equivalent to robbing the source of civilization inside the heart of the galaxy.

This approach is simply the face of the life court. This is a direct confrontation with the life court, and there is no hiding at all.

“Human races are indeed uncontrolled races. It is not unreasonable to be able to rule the universe in the past.”

A powerful royal family sighed, and heartily saw a brand new human race rising step by step towards the cosmic starry sky, staring at all races.

The new human race, under the leadership of the emperor Qin Tiange, seems to be heading for an extremely rugged road, full of sounds of killing, and the never-ending war is coming.

Faced with such a strong human race, people of all ethnic groups are trembling, and the various ethnic groups in the galaxy are boiling. The ethnic groups are uneasy and panic.

Roar...

“Do not...”

“The star giant is immortal ...”

Suddenly, a wailing came from the giant galaxy, countless giants screamed, and gave out an unwilling roar.

They were horrified and looked at the ancient giant who had created the giants of the galaxy. They were frightened by the emperor and fled, and they were desperate.

Moreover, seeing the powerful offensive of the human race, the last ancestor of the starry giant race can no longer be maintained, and the entire galaxy has fallen.

The giant stars fell and were taken down by the human race. The rebels hanged relentlessly. One who did not stay, all the rebellious giants were crushed.

In the end, the starry giants of the sky, a large royal family of the Milky Way, were beaten by the human race in this way, leaving only a small piece of ancestral land, floating alone in the galaxy.

Around the ancestral land of the Giant Star family, the dense army of human groups gathered together, and the surrounding area was completely leaked.

“My clan, are you finished?”

“No, my giant clan is a strong clan in the universe. It is impossible to end this way. The ancestral land here is gone, and there are tens of millions of giant ancestral lands.”

“Yes, my Giant is immortal!”

Some giant clan strongmen roared and sent a desolate roar, full of sadness, but could not change the ending of the annihilated race.

The starry giants of the galaxy were directly erased by the human race. Following the blue blood race, another strong race of the galaxy was erased.

“kill!”

At the beginning of the final offensive, the main army of the five human races attacked the ancestral land of the giants together, shattering the giant’s last line of defense on the spot.

Suddenly, the entire giant race collapsed, countless star giants died tragically, and were crushed ruthlessly by the human army.

The wailing sounds spread across Xinghe, and all races were frightened and anxious, watching the starry giants that were ruthlessly slaughtered and crushed, one by one.

One of the galaxy royals, the Star Giant, was destroyed in this way, uprooted, without mercy at all.

The human army’s frontier is getting stronger and stronger, and it has sharpened a difficult power of the ten thousand nations. Once it continues to grow, it will be a nightmare for the ten thousand nations.

In the past, the heyday of the strong and strong, the ruler of the universe, the human race once again set foot on the stage of conquering the universe.

This time, the emperor led by him was very powerful and did not have any blocking force. Even the life courts that currently control the universe’s people have begun to match up.

“Human race, you kill so much, you won’t end well!” Some giant races finally roared, and cursed before they died.

“Good end?” Qin Tiange smiled suddenly, coldly.

He said word by word: “By bowing your knees, you can have a good end. Is it good to be enslaved by your ethnic groups?”

“Kill, not one!”

Qin Tiange waved his hands indifferently, and directly issued a lore order, one who did not stay, and the stars within the Giant Giant clan, regardless of young and old, were directly killed.

This is a major hostile race that slaughtered the human race and enslaved the human race. It has always been a deadly enemy with the human race.

It’s unclear how many humans died in the hands of the star giant, it’s impossible to count. Since it is the enemy, then kill it clean.

“kill!”

“No one!”

The order conveyed that the five major legions directly launched the bloodiest slaughter. The ancestral land of the star giant was completely slaughtered by the main legion of the five major clans.

“what...”

“Human race, don't die!”

“You will regret it.”

Countless giants screamed and were crushed among the mourns. One by one, the bodies floated in the galaxy, which stained the deep space of the universe.

After a whole month, no more star giants were alive inside the galaxy, completely slaughtered, and the real one remained.

The killing that lasted for a month, the direct killing of Xinghe became scarlet, killing all the galaxies of the galaxy, trembling, panic and panic.

Watching the human races slaughtered the entire star giant, which killed the giants and killed them in the galaxy.

Inside the empty giant galaxy, a blood-red, densely packed corpse floated in the galaxy universe, floating in the galaxy.

An unstoppable grudge, curse, and all kinds of grievances permeated the galaxy and could not disperse.

That was the resentment from the Star Giants. The entire group was killed. It was really uprooted and cut off the grass.

“Star giant, it's over.”

“Human race, can't stop it.”

The races of the galaxy are silent, and the races who saw this war, without exception, have all spontaneously raised a fear, fear of human race.

They did not expect that the human race once again destroyed a strong race, or was it uprooted, the blue blood race, and the star giant race were destroyed. Next, which race is coming into the dust?

As the races of the galaxy were uneasy and frightened, the Terrans had begun to clean the battlefield and pack up their trophies.

In the galaxy occupied by the entire Star Giant family, the resources are extremely rich, and various precious resources are endless. They are simply rich in oil.

Having won the entire giant race, and obtained their family resources and heritage, naturally brought unimaginable benefits to the human race.

There are too many resources, and it takes a whole year to complete the cleanup. During this period, many races are eager to move and want to rob.

However, Qin Tiange swept over with only one glance, and all the races in the galaxy were completely dead, and none dared to rise up.

The previous scene is vividly remembered. The ancient giants almost succumbed to the barriers of the times when they ran out. If they had not run fast, they might have died.

Moreover, the heart of the galaxy automatically chooses the master, and it is crushed and crushed by Qin Tiange, and the force of civilization inside is arrogantly captured.

Every scene proves that the emperor's means are fierce and horrible. Once they jump out, the Terran may directly launch a new round of extermination.

After a full three years, the entire galaxy was evacuated, and all available resources were blasted away by the human race, and returned to the family from the built quantum portal.

Since then, this expedition's extermination battle ended perfectly, and the star giant was uprooted and erased from the galaxy.

The tribe has achieved the fruits of victory, and is accelerating the digestion of this huge resource that is coveted by all ethnic groups, turning into an overall strength.

"This battle victory has performed well as the five main legions, and the reward system has been issued. You can see for yourself."

In the human race galaxy fortress, in the highest conference room, generals gathered from all sides. Many people looked enviously at the commanders of the five legions. The victory of this war and the great gains made many internal generals jealous.

As a reward, it must be extremely generous. At least 30% of the resources have been taken out and distributed as rewards.

"The two strong clans have been destroyed in succession. At present, the human clans seem to be strong, but in fact they are strong and strong, and they must be well precipitated and developed for a period of time." Qin Tiange directly pointed out that at present, the human clans will not be able to go to war any more, otherwise they will die.

The ability to destroy two powerful galaxy races in a row is already the limit of the overall human power. If there is another war of extermination, it may not be facing one family, but the entire galaxy.

"Okay, the rest is left to you to deal with. Discuss it yourself."

After Qin Tiange said, he got up and left the conference room, leaving the remaining matters to the parties to discuss and handle.

He only needs to grasp the main direction, and the rest are thrown to the current high-level parties of the people to implement.

Leaving the conference room, Qin Tiange went to the highest institution in Huaxia and met Liu Ye and Du Jing.

From time to time, Du Jing would come to Huaxia College to give lectures. Today happened to be a lecture, and they were a little happy to see Qin Tiange coming.

"I'm going to leave for a while and come with you."

As soon as Qin Tiange came, he indicated that he was preparing to leave for a period of time, and may not return for a long time.

Hearing this, Liu Ye and Du Jing were filled with perseverance, but did not show it.

Three days later, Qin Tiange left the human galaxy fortress, and no one knew his whereabouts. Only Liu Ye and Du Jing knew vaguely what he was going to do.

After this war, the human race front is flourishing, and the galaxies are afraid to move arbitrarily. The next stage is a very stable development period.

When Qin Tiange saw that the human race was temporarily stable, he immediately left and went to other galaxies to find the traces of Chen Xi and others.

After all, Chen Xi, as her real wife, is the queen of the human race and must be retrieved.

“Chen Xi ... Where are you?”

On the vast sky, Qin Tiange traveled through several galaxies alone, but found no trace of Chen Xi and others.

He looked at the immense expanse of deep space, and his heart was filled with a deep thought.

Chapter 956 - Disappearing mystery

The vast universe is infinite, and it is even harder to find someone looking for a needle in a haystack. ..

Just one galaxy is enough for you to find. If you do n't have enough strength to cross the Galaxy, you may never find the person you are looking for.

Qin Tiange traveled through several galaxies around the Milky Way, and still did not have a little bit of news from Chen Xi and others. Even his former pets, the Xinghai Giant, could not sense it.

“You, where are you?”

Dark universe, deep space, a strange nebula, Qin Tiange stood there, staring at the dark and cold universe.

He was thinking, Chen Xi and others left the earth, not in the galaxy, and where is it? Why is there no sense of induction?

After searching for so long, after searching the nearest huge galaxies around the Milky Way, Qin Tiange realized that Chen Xi and others might be somewhere he could not sense.

In the entire universe, there are countless places that Qin Tiange cannot sense. For example, some restricted areas of the universe cannot sense.

If Chen Xi and others enter a restricted area of the universe by mistake, they may be isolated there, and maybe they ca n't come out. The most important thing is that Qin Tiange is worried about the safety of Chen Xi and others.

After traveling through several galaxies, Qin Tiange locked his eyes on some restricted areas, focusing on sensing the breath of Chen Xi and others to see if there was any residual information.

Soon he came outside this weird nebula, where he sensed a faint sense of familiarity, which belongs to Chen Xi and others.

This proves that Chen Xi and others have been here before, leaving a trail of breath. Fortunately, Qin Tiange is strong enough to capture this little breath.

“Chen Xi has been here.” Qin Tiange’s pupils flickered, staring at a large weird nebula in front of him, enveloping it for dozens of light years.

From here, the huge nebula looks like a scary creature’s head, more like the shape of a human face.

Inside the nebula, there are all kinds of cosmic dust and radiation ‘radiation’. The powerful radiation ‘radiation’ must be avoided even by the star level, otherwise there is danger of falling.

But there is a problem, how Chen Xi came here. It is 100,000 light years away from the Milky Way, and from the Milky Way to here, there is no breath of Chen Xi and others.

Only here, a trace of Chen Xi’s breath remained, and some familiar breath remained, which Qin Tiange captured.

“This is a restricted area of the universe, why Chen Xi have been here?” Qin Tiange walked directly into this weird nebula with a touch of dignity.

Inside the nebula, this interstellar air and cosmic dust are permeated. All kinds of intensely radiated ‘radiated’ energy, ‘mixed’, ‘chaotic’ are extremely dangerous.

Once such a huge nebula has some external force, it can transform into a huge galaxy.

But this nebula is extremely weird. There is extremely unstable radiation ‘radiation’ energy everywhere, and all kinds of abnormal energy are extremely violent and restless.

Especially near the central area of the nebula, where there is simply an extinction field, where the cosmic material begins to become distorted.

Walking in such a strange nebula, Qin Tiange seems to be a little cautious, because the magnetic field here is weird, the space and time are ‘mixed’ and ‘chaotic’, and even some places are even isolated from time and space.

It is indeed the place known as the restricted area of the universe. This is the death restricted area for living things. You must have enough strength to come here, or you will die if you step into it.

For example, Qin Tiange now feels that if the star-level powerhouse comes in, he must be torn directly into powder by various strange magnetic fields and radiation.

Even further inside, the space-time level is difficult to survive, and even the energy of space-time is annihilated by inexplicable suppression, as if space-time does not exist.

Hiss!

Suddenly, a weird electric arc was drawn beside him, which appeared extraordinarily prominent and weird inside the dark nebula.

Even more frightening is that this arc passed, but Qin Tiange’s body armor was directly turned into a fly ash and disappeared.

There was a sting in the body. Although not strong, it was enough to kill a star-level and even a time-space-level strong.

“What a weird energy, what is it?” Qin Tiange watched the armor on his left arm completely turned into ashes, a little stunned.

In particular, the body was scratched by an electric arc, and a kind of needle-like tingling came directly, but there was no injury.

With Qin Tiange’s strong physical qualities, he is not afraid of these energy erosion at all. The 60 trillion small ‘mixed’ chaos in the body is not a matter of play.

A strange, dense arc lingers in the nebula ahead, like a thunderstorm in the interstellar, the sound of crackling came, making it ‘hair’.

Walking in it, the human body is like a magnet, attracting thousands of strands of weird arc-sized coils to hit it.

Most people must not be able to bear it, but Qin Tiange resisted the impact of these arcs, and soon walked through this strange and dangerous area.

When Qin Tiange passed through this weird arc area, and saw the pieces of semi-finished galaxies in front, some small galaxies were being bred.

Unfortunately, the galaxies here all have a feature, that is, semi-finished products, which have failed to breed, as if they failed to breed.

“Strange place ...” Qin Tiange stopped and looked at the weird and dead emptiness in front of him, and the failed galaxies hung in the nebula.

After thinking about it, Qin Tiange finally condensed a mighty power of time and space, which instantly reversed the time here and traced back the past scene.

“Time and space reversed, time imprinted, now!”

With a low drink, accompanied by the silver ‘color’ light sweeping out, strange changes suddenly occurred in this nebula, and the blurry pictures began to play back.

Qin Tiange used his own strength to go back to the past scenes and constantly check to see if the morning dawn had actually come here.

“Huh?” Suddenly, Qin Tiange’s eyes lighted up, staring at one of the pictures, with a group of vague figures back on it.

The one headed by it is Chen Xi, who has long been thinking about it, with many people, riding a star sea monster through this nebula.

“Chen Xi, surely I’ve been here.” Seeing this, Qin Tiange’s heart was ‘excited’ and a smile appeared on his face.

Finally found the traces of Chen Xi and others. They used to come here, riding a giant star sea monster, and penetrate this strange and unpredictable nebula, a universe forbidden zone.

In the picture, Chen Xi and others stood on top of the giant star sea monster, constantly passed through the nebula and entered the central area of the nebula, and disappeared mysteriously in an instant.

Seeing this, Qin Tiange was stunned because he only saw Chen Xi and others going in, but he didn't see them coming out.

“Did Chen Xi fall into this restricted area?” Qin Tiange flickered with a trace of uneasiness and peace, and the whole person passed through the cosmic dust.

He went directly into the central area of this nebula, and thick dust and mist drifted in the interstellar space, converging into a strange and scary nebula material.

In the central area, there are more terrible ‘mixed’ and ‘chaotic’ energies, all kinds of energies are available, and even the time and space here are annihilated with each other and cannot be maintained.

Click!

Stepping into it, Qin Tiange immediately felt a horrifying strangulation force coming, as if interstellar lightning struck the body, causing a huge shock.

The powerful radiating arc penetrated into the body, and was quickly chopped up and chopped up by a small number of small ‘mixed’ chaos, but it did not cause any harm to him.

“Somewhat wrong.” Qin Tiange frowned suddenly and said to himself, always feeling something wrong.

But he couldn't see through it, as if there was some kind of power barrier, extremely ‘mixed’, ‘chaotic’ and weird.

When Qin Tiange entered the center of the nebula, traced the breath of Chen Xi, and looked back to the scenes of the past, and saw Chen Xi and others mysteriously disappeared in this area, and never appeared again.

“open!”

The impenetrable Qin Tiange blasted the center of this nebula directly and broke any barriers there.

When he blasted off the center of the nebula and came here, the whole man froze because there was nothing here, empty and empty.

Moreover, the breath of Chen Xi and others disappeared here mysteriously, without a trace, as if never before.

There is nothing in the empty area of nothingness, and even the face matter and energy are non-existent areas.

This is the most central area of the nebula, with nothing, which makes Qin Tiange unacceptable for a while.

“No?” Qin Tiange said to himself, his eyes became heavier, and the icy rays of light swept across nothingness.

He couldn't feel the breath of Chen Xi anymore, and even traced back in time and space, he could not see the trace of Chen Xi and others.

In the past, Chen Xi and others have been here, but disappeared mysteriously, completely disappeared from this strange nebula.

“Why disappeared?”

Qin Tiange was dignified and had a bad feeling. Chen Xi and others had been here, but they disappeared mysteriously and could not find any trace.

And it's not clear how it disappeared, because there is nothing here, not to mention the breath and images that were branded in the past.

Qin Tiange's pupil glowed with silver 'color' light. Continuously glanced here, but unfortunately I did n't find it.

He said to himself, “Here, there seems to be something there before. When Chen Xi came here, they disappeared mysteriously. Is there a passage here?”

Only this kind of speculation is possible, Chen Xi, they used to be here, but they disappeared mysteriously. The only explanation is that there is a certain channel here.

After turning the positive nebula inside and out, Qin Tiange finally determined that Chen Xi had mysteriously disappeared here.

Seeing this, Qin Tiange was inevitably worried and worried about the safety of Chen Xi and others, but there was no way.

“There seems to be something missing here. As a restricted area, it shouldn't be. Is it related to Chen Xi's disappearance?” Qin Tiange made a judgment in his heart.

While he was meditating, in a corner of the nebula's center, a strange 'wave' came suddenly, which caught Qin Tiange's attention.

“Well? This 'wave' movement is ...” Qin Tiange froze, suddenly hurried, turned and stepped across the interstellar space, and came to the place where the 'wave' movement originated.

Here is a subtle spot, which is filled with a stream of 'mix', 'chaos' and space and time, 'chaos', full of weird 'color'.

“Singularity in time and space?”

Qin Tiange was surprised. Looking at the slightly strange spots in front of him, it was a singularity in time and space. He never thought that there was a strange singularity in time and space.

Inside this space-time singularity, there was a space-time line that caught Qin Tiange's attention, and a hint of guess flashed in his heart.

“Go and see.” With almost no hesitation, Qin Tiange's body directly turned into a ray of light and disappeared into this strange space-time singularity.

Chapter 957 - Looking down at the galaxy, erasing Group 1 at will

A deep universe deep suddenly flashed a strange singularity, getting brighter and brighter, and finally a ray of light bloomed. . .

This light flew out of the singularity, instantly turned into a person, stood in the starry universe, and stopped for a while.

“This is ...” Qin Tiange stunned, stepping out of the singularity of time and space, suddenly stunned by the sight in front of him.

What I see is a deeper and deeper universe, as if all senses are clearer and stranger.

In his eyes, the distant cosmic starry sky is no longer the shining point of the planet, but a large nebula-like vortex.

One by one, each vortex emits different light, and some are huge and bright, exuding an ancient atmosphere.

What shocked Qin Tiange was that these one-to-one interstellar swirls that looked the size of a basketball and the size of a washbasin turned out to be one galaxy after another.

That’s right, these are galaxies. One by one, as large as the Milky Way, or even larger galaxies, appear in his eyes intuitively.

It’s as if you are looking at a cosmic plane. The galaxy is located on this plane. It is very clear and intuitive. It seems that all galaxies have been shrunk to a higher level to see these galaxies.

“The Milky Way ... The Fairy ‘Girl’ Nebula, Hell Galaxy, Huangquan Galaxy, Extreme Cold Galaxy, Lieyang Galaxy ...”

One galaxy after another, very familiar, so that Qin Tiange can see through at a glance. Including the Milky Way, there are thousands of galaxy clusters in front of the universe.

He felt as if he was standing in front of a cosmic portrait, admiring the swirling galaxies above.

This feeling is shocking, as if suddenly rising from a low level to a high level, looking down at the vast galaxy.

Yes, it is with a sense of overlooking, like the original galaxy, compressed into a small vortex, floating in that narrow cosmic space.

Qin Tiange’s eyes flickered and he was surprised. Looking at the thousands of galaxy vortexes around him, he was in a universe of space, which was a four-dimensional space.

Originally looking at the four-dimensional universe, it seemed as if it was endless. But once it came out of the four-dimensional universe and looked at the original galaxy, it felt very small, as if it had been shrunk into a four-dimensional cube.

In fact, it is not shrinking, but the vision has escaped from the four-dimensional universe and has risen to a higher dimension of the deep space of the universe. Perhaps this is the five-dimensional universe.

The universe here refers to cosmic space, not to represent the entire universe, but to various levels of space in the universe. Four-dimensional space accommodates large galaxies such as the Milky Way.

So, what is the capacity to come out of the four-dimensional space?

Qin Tiange looked ahead. Above the vast deep space, there was a vast and ancient world with a breath of ancient primitiveness.

The region he belongs to belongs to a vast and ancient world, or an unimaginable continent.

The universe continent, or the place of origin!

“Place of Origin?” Qin Tiange said to himself, with a kind of enlightenment in his heart, and immediately knew where it was.

He didn’t expect that he actually came to the place of origin, got in from a weird space-time singularity, and then came out of the four-dimensional deep space and came to a higher level of five-dimensional deep space.

Four dimensions contain huge galaxies like the Milky Way, and five dimensions are the origin of galaxies. There are dense clusters of galaxy light clusters floating around, and galaxies are bred in them.

Qin Tiange saw a huge galaxy like the Milky Way surrounding the place of origin. He had a vague glance from the four-dimensional deep space before, but it was not clear.

At that time, he felt that there was a diaphragm, and he could not see it clearly. He did not understand it before, but now he discovered that it was a diaphragm at the universe level.

“From the origin, you can easily look down at all galaxies.” Qin Tiange said to himself, looking down at those galaxy clusters that have become smaller.

With a whim, he suddenly reached out a hand, penetrated some sort of diaphragm, and penetrated into the four-dimensional galaxy from the five-dimensional space.

boom!

Suddenly, a violent shock suddenly came over the Milky Way, the space and time cracked open, and a huge opening was ripped open in the universe.

Sudden changes have caused all ethnic groups in the galaxy to boil. Nervous preparations are no exception to human races.

Hum!

As the races became nervous, a hand suddenly burst out of the huge cracks in the sky, rumbling to the galaxy.

This hand, which covers almost the entire galaxy, is frighteningly large, revealing a breath of looking down on the world and dominating the life and death.

“Oh my God, what is this?”

“Who will tell me what is this?”

The galaxies were terrified and looked at the horrifying giants that were constantly being squeezed down, covering the entire galaxy, as if they were to pinch the entire galaxy with one hand.

The strong men of all races are afraid. All the races in the galaxy have opened up their strongest heritage, and the terrible energy is rumbling to vent.

The galaxy's various races directly started, and took out the most powerful hole cards of each race. The super weapon ran through the galaxy and hit the mysterious giant hand.

“Warning, unknown origin, unknown energy, start highest combat readiness.”

Within the clan, countless strong men and various high-level parties became nervous, and saw the horrifying giants that were squeezed down over the Milky Way, covering the entire Milky Way.

At this moment, the galaxies inside the galaxy played their strongest power almost simultaneously. Countless strong people gathered their energy, and the power of the whole family broke out.

Rumble ...

For a while, a horrible explosion occurred over the Milky Way, which attracted the attention of many nearby galaxies, and saw the weird and terrible scenes of the Milky Way.

Everyone was stunned. The galaxy's various ethnic groups joined forces to bombard the mysterious giant hand, but were crushed by a force never seen before.

Hum!

The giant hand suddenly trembled, quickly zoomed out, and suddenly grasped fiercely towards a Hanoi galaxy in the Milky Way.

With a loud voice, the galaxy was completely caught and exploded, and the entire galaxy was completely collapsed. A strong galaxy family living in it collapsed on the spot.

A powerful ancestral land inside the galaxy was caught on the spot by that hand and pinched on the galaxy starry sky, making all parties dead.

Rumble ...

After exploding the galaxy, the mysterious giant hand quickly retracted, curled up with the sound of rumbling vibrations, and disappeared into the mysterious rift in a blink of an eye.

The entire Milky Way galaxy fell into silence, and the races were frightened. Looking at the galaxy that was erased, it was a ancestral land of hundreds of peoples. A powerful race that originally lived here was killed in one shot.

“Mum!”

It took a long time for the strong men of all races in the galaxy to wake up, secretly swallowing saliva, and getting cold in their hearts, they were scared to death.

A powerful race was so obliterated. Should it scare people like this?

“In the end what happened?”

“Where did that hand come from?”

People of all galaxies are trembling and are afraid. The existence from unknown regions directly wipes out a powerful race in the galaxy.

After inspection, the galaxy's ethnic groups were horrified to discover that the one that was erased was one of the royal families in the galaxy, the Silver Star family.

**“Silver Star, is destroyed.”**

This discovery not only scared the major royal families in the Milky Way, but also caused some turbulence within the human race and entered the state of readiness for promotion.

All races in the galaxy are nervous, and Qin Tiange, who is in the five-dimensional deep space, is shocked, staring at his palm, just grabbing it can be described as thrilling.

He just felt as if the four-dimensional space could be crushed at will, and even the galaxy could be crushed with one hand, which was terrifying.

**“A five-dimensional person, can you crush a four-dimensional galaxy at will?”**  
Qin Tiange felt cold, but in fact he thought too much.

He has this kind of ability, because he has 60 trillion small ‘hybrid’ chaos in his body. Who can compare this kind of power?

Even if other people are in the five-dimensional space, looking down at the four-dimensional space, they can't erase the terrible degree of a galaxy with one hand.

At most it is to plunge into the four dimensions with one hand and directly crush the stars, or directly destroy the creatures in the four dimensions, unless someone is as powerful and terrifying as Qin Tiange.

**“Is this how it feels to look down on a low-latitude civilization in a high dimension?”** Qin Tiange said to himself, and his mood suddenly changed.

Now looking at the subtle galaxy universe, I suddenly find it really small, as if I can erase the four-dimensional galaxy at any time I actually broke away from the four-dimensional galaxy universe and came to a higher level of five-dimensional deep space. Here This is the origin of the galaxy. Qin Tiange lifted his eyes and looked at the vast ancient continent in front of him, the place of origin.

This is the origin of galaxies. The separated clusters of origins have evolved into galaxies.

The more galaxies that have been bred, the larger and more powerful the original place, and the original place where the Milky Way is, has produced more than 1,300 huge galaxies.

With the five-dimensional origins that Qin Tiange has seen so far, it is unbelievable.

The size of the universe, the division of the space dimension, and the progressive progression of layers, as if standing higher, you can overlook all beings, and even one day out of the universe, and then overlook the entire universe.

**“Sure enough, the big universe is a progressive cage, no matter where it goes, it is the same.”**

Qin Tiange couldn't help but reveal a bitterness of ‘Exposure’ and secretly shook his head. He felt that the universe was a prison cage that was too big to conceive, and it was holding thousands of people in the universe.

“Enter the place of origin first.” Qin Tiange said to himself, looking at the vast place of origin.

From the outside, the place of origin is like a vast and immense whirlpool, with layers of galaxy space ‘covered’ outside.

In these galaxy spaces, there are huge galaxies, such as the Milky Way, and Qin Tiange is located between the galaxy space and the place of origin.

Huh!

The speed of Qin Tiange’s unfolding, directly breaking through the deep space, turned into a ray of light and rushed into the haze of the original place.

Qin Tiange faintly saw that in the fog of the interstellar ‘fog’ is the source of mystery and vastness.

And what is the secret of the origin of the galaxy in the rumors?

Chapter 958 - The power of the origin, the nutrients of the universe

The place of origin, like a cluster floating in the deep space of the universe, is surrounded by thousands of galaxy clusters. It is extremely huge and mysterious.

The origin of the galaxy is here, as if it were the cradle of the galaxy. The origin separated from here has evolved into galaxies.

From a macro point of view, this higher level of the universe’s deep space has a densely populated source.

A large number of galaxy clusters surround these original places, which form the cosmic starry sky.

The layers are layered, like the division of the universe, which is very clear, from the planet, the Dao Xinghe, to the galaxy, and even the original place of origin.

Each layer represents the primitive low space, and upward is the cosmic deep space of higher dimensions. Standing in the high space, you can look down on the lower galaxies and planets.

The mysterious place of origin has a fog of galaxies on the periphery.

This fog, looks like a rolling chaos, filled with a violent and devastating atmosphere, extremely terrifying.

boom!

In the fog, a figure quickly broke through the chaotic fog of the galaxy, all the way to the place of origin, and wanted to enter.

Qin Tiange is fast, but he feels that the place of origin is far away, as if it is out of reach, we can see how far away it is.

Uh ...

Through the grey interstellar fog, Qin Tiange’s body was impacted by this strange galaxy aerosol, sending out a rustling sound of golden iron and iron fighting.

Chaos fog has violent lethality. It must bear the terrible impact when entering here. Once it can’t stop the galaxy fog strangling, it may fall here.

Qin Tiange's brow froze deeply, and he always felt in it, as if there was a diaphragm limitation. It seemed more difficult to withdraw.

"There is an inexplicable force blocking it. Can it go in or out?" Qin Tiange's difference was a little surprised.

He always felt that this place was similar to the place of exile that had strayed in the past, but it was definitely not a place of exile.

However, Qin Tiange guessed that perhaps the place of exile was the origin of this level, or a fragment of the origin.

Otherwise, why is it no longer in the four-dimensional starry universe, it is likely to be the five-dimensional universe, deep space, in the original world.

"No wonder I haven't heard that creatures with origins come to low-dimensional space. I want to have this kind of barrier to prevent the emergence of creatures in origin."

Qin Tiange stopped suddenly, glanced at the chaotic fog rolling around, his expression was more and more dignified, and he felt that he could not retreat.

At this point, we have penetrated into the void between the land of origin and the fog of the galaxy. Here, a mysterious force permeates the way out.

"Is this the power of the source?" Qin Tiange suddenly lighted his eyes and immediately made a guess.

He speculated that this power might be the power from the source, known as the power of the source, blocking the creatures from coming out.

It can be entered, but it is difficult to come out. The place of origin is like a larger prison cage, trapping the various living things in it.

Thinking of this, Qin Tiange's face is not good, how can I feel that every prisoner is the same, and I feel very uncomfortable.

However, he looked at the fog all around, and the place of origin ahead was different from those ancient times such as ancient times?

For example, among the barriers of the age, how did the ancient times, the ancient times, and the ancient times, such as ancient times, form and exist?

"The place of origin still has the cleanup of the big universe. You can avoid this cleanup by hiding in the ancient times. It seems that the so-called ancient times such as ancient times were created by man to avoid the cleanup of the universe.

Qin Tiange's pupils became brighter, as if he had realized a secret, and it seemed to see the origins of those ancient times, perhaps the refuge opened by the Xeon.

The big universe cleansing represents the whole big universe's self-cleaning will. Cleaning up and erasing all threatening creatures is the same as computer antivirus.

And all kinds of powerful creatures are like viruses in the universe, and the power of cleaning up is like a force of antivirus, and the two cannot be reconciled.

“The power of the origin, mysterious and unpredictable, what power does it imply?” Qin Tiange said to himself, carefully comprehending the mysterious power here.

A mysterious force from the land of origin, known as the power of the origin, blocks off this land of origin.

In the fog, there are strong particles of energy, floating constantly, intertwined into an invisible diaphragm, blocking any creature from going out.

Judging by Qin Tiange’s induction, this force can prevent the world leader from going out. As for the era-class powerhouses, they have hid in various eras, and no one dared to come down.

Unless you can stop the cleaning and eradicating power of the universe, you can stay in the universe without being cleaned up.

But what can be done is almost no, or yes, but no one knows.

Zizi ...

Qin Tiange stood in the mist of nothingness, continually condensed and captured a ray of mysterious particles, this energy is unique.

It does not belong to any form of energy, cannot be absorbed, cannot be seen, and can only feel its existence, as if it were a source of galaxy power.

The transformation of galaxies is inseparable from this mysterious source particle of energy. Perhaps the huge matter and energy clusters separated from here eventually evolve into galaxies.

The source energy caused Qin Tiange’s curiosity and attention, but he couldn’t find it if he wanted to see it.

“What is the source of curious energy?” Qin Tiange said to himself, surprised.

On his palm, there was a ray of mysterious energy lingering. He could not see it, but could clearly feel the particles of energy, constantly colliding, and making noisy sounds.

This energy is full of rage and destruction, it seems to be able to erode and destroy all things, with a breath that has never been seen before.

call...

At this moment, a strong burst of air came from behind, and ripples rippled in nothingness, which caused Qin Tiange to explode instantly.

“Dangerous!” He frowned, and immediately understood that something was attacking him, and he didn’t even want to turn back and just punch him.

There was a bang, and the fog shattered, revealing a sturdy cricket creature that was blown out with a punch.

Qin Tiange was surprised. He looked at this dazzling creature, five meters long, and looked like a monster with tentacles.

What surprised him was that he hadn't blasted the monster just with a punch. Although it was a hasty punch, it also contained 50% of his strength. The monster struggled and threw his mouth again and again.

hiss!

There was a hissing sound, and the fish was blown at his face. Looking at the creeping monster, Qin Tiange punched the opponent's jaw without hesitation.

Hearing only a bang, the monster's entire head exploded, completely smashing, and punched the opponent's head with a punch.

Losing his head, this monster rolled and struggled in the mist, and gradually lost its voice and died completely.

**“What kind of monster is this?” Qin Tiange was surprised, because here is a vast and empty galaxy fog, where is the monster?**

With a little curiosity, Qin Tiange stepped forward and looked at the monster carefully. He was covered with a tentacle-like tentacle, dancing without wind, and the current flowing around his body was very strange.

Especially on the back, the strange crystals flickered, revealing an ancient and mysterious energy breath, which caught Qin Tiange's attention.

Click!

The digging hand dug out a crystal, the size of a thumb, and the body is transparent. Inside, there are strange flowing energy particles flowing in it, and the breath is unique.

**“Essential power?” Suddenly, Qin Tiange found that this crystal contained a kind of original power.**

It is the kind of energy particles diffused here, the original energy particles, known as the power of the original. I did not expect that this monster has such a thing on its body.

Qin Tiange's consciousness penetrated into the space-time line here, constantly capturing some scattered information, and quickly got a little information.

**“It turned out to be a beast of origin, feeding on particles of origin energy, living in an endless sea of stars outside of the origin.”**

Knowing the origin of this creature, Qin Tiange couldn't help showing a surprise, because this kind of original beast feeds on particles of original energy, and a kind of original crystal condenses in the body.

It is the row of bright crystals on the back of this creature, which is the original crystal, with rich and pure original energy.

The original energy in this crystal can be absorbed, which naturally excited Qin Tiange and directly swallowed up.

Zizi ...

A wisp of strange and pure energy poured into the body, and suddenly the 999 cosmic membranes in the body suddenly trembled.

Strong suction came, and the energy in the entire original crystal was immediately swallowed up, becoming a nutrient for the cosmic membrane.

“The power of the origin, the nutrient of the universe, is the case.” Qin Tiange suddenly realized that he understood the power of the origin.

The so-called origin is the most primitive force from which the origin of the great universe can support the growth and development of the universe.

Seeing this, Qin Tiange smiled, looking at the dead creature’s back, with a dozen original crystal nuclei.

Dig it out directly and immediately absorb the energy in it. Soon, Qin Tiange found that all the cosmic membranes in his body had obviously changed a little bit and gained a little growth.

He was inevitably excited, and finally found the nutrients for the growth of the cosmic fetal membranes in the body. The source of the power is Qin Tiange’s next goal.

It is a pity that the original particles permeated here cannot absorb and refine. Only the crystals formed by this bizarre biological filtering can make him successfully absorb.

“It seems that in this void space outside the Land of Origins, there are a huge number of Origin Beasts.” Qin Tiange swept around, his powerful will was compressed by some force, and he could only detect the area of one light year. .

In this area, he sensed the breath of many of these creatures, it was very secretive, and it was really neglected without careful consideration.

Before, he just ignored this kind of thing. I didn’t expect that there are such strange creatures here. I have to say that the creation of the universe is magical.

“hiss...”

Suddenly, the emptiness of the original silence boiled, the fog surged, and dark shadows quickly gathered, densely packed, innumerable.

Chapter 959 - The birth of the universe, from the sky

phone-reading

In the origin of nothingness, a group of weird creatures gathered together, as if attracted to something to stimulate, frantically rushed to an area.

There, the chaos and fog boiled, the galaxy clouds rolled and surging, revealing a hazy figure, it was Qin Tiange.

He directly exhaled and swept across a light-year-long area, which caused the boiling of countless original beasts in this area, as if infuriated.

Dense, endless, it makes the scalp tingling, chilling back.

In one light year, how many original beasts there are can be regarded as hundreds of billions of scary beasts.

“I’m going, so many?” Qin Tiange himself was startled.

Looking at the original beasts coming in densely around, large and small, some of them are huge, like a star.

Some are small, as big as the one just killed, densely packed, screaming and rushing up.

He had no idea that there were so many original beasts hidden here, even the space-time powerhouse would be scared to death when he saw such a scene.

The lord of the world has to turn around and run away, there is no way to contend. This source of strange beasts has powerful weird power, and its defense and power are amazing.

Because they are terrible beasts that grow up from the original energy particles as food, full of lethality, but without self-consciousness.

This is a group of unconscious fierce creatures, but there is one point. Any other creature, no matter what it is, will attract the siege of the original strange beast.

“Roar...”

The growl sounded out of nothingness, causing a huge wave, the source of horror and strange beasts, rushing up, drowning Qin Tiange completely.

At this moment, if an outsider sees this scene here, it must be frightening. Hundreds of billions of original beasts are densely packed together, and they continue to growl and growl, like crazy.

Qin Tiange, who was surrounded by the center, was unusually calm, waving his arms, blasting one after another of the original strange beasts.

Come and kill one, he has no soft hands, and directly starts the \*\*\*\*\* slaughter. His whole strength erupts, and the mist is scattered.

boom! Boom boom ...

A series of violent explosions came, and the chaos was raging and raging, sweeping all directions, engulfing a strange and powerful source beast.

Gradually, the original monsters gathered here were swallowed up by the piece of chaos that suddenly developed.

The wailing spread, many instinctual beasts’ instinctive fears turned around and ran away, as if there was something to fear them.

In the middle of the chaos, Qin Tiange killed until he was a little disgusting, too many, hundreds of billions of original monsters, could not kill.

Fortunately, he was strong enough to release the chaotic primitives directly, suppressing these original strange animals in the chaos and rolling.

In just ten minutes, hundreds of millions of original beasts were crushed by the amount of wild chaos, leaving only strange crystals.

After dozens of hours passed, Qin Tiange used time and space to do his best to smash these original beasts and stopped the killing. There is no other original beast alive here. Even the most powerful original beast fell on In his hands.

“Huh, it’s finally finished!” Qin Tiange secretly squeezed a sweat, and for the first time faced such a large number of creatures alone.

However, he was killed by him, one who did not stay, killed as many as possible, leaving only dense and strange crystals floating in the chaos.

“swallow!”

Qin Tiange didn’t stop at all, swallowed his mouth, swallowed and absorbed all the original crystals, and refined the power of the original.

With a bang, the 999 cosmic fetal membranes in the body sent the strongest shock, launched a horrible suction, and devoured the majestic source of power.

With this majestic source of power, the cosmic membrane of the body finally produced a rapid transformation and growth.

A kind of growth that can be seen by the naked eye, the cosmic membrane has rapidly expanded from the size of a table tennis ball to a basketball-sized cosmos membrane.

The 999 cosmic membranes in the body have finally grown, entered a period of rapid transformation, and began to breed a brand new universe.

In other words, the universe in Qin Tiange’s body has begun to enter the incubation period, and it is truly conceiving a whole new universe.

咚 … 咚咚咚 …

A strange vibration came from the body, radiating the Quartet, as if causing some mysterious resonance.

It is the fetal movement from the universe, like the fetal movement of the universe, constantly beating, and gradually forms a balance with the cosmic fetal membrane in the body.

The inner and outer universe fetal movements maintain balance, and the mysterious rhythm permeates. Inside the body, 999 universe fetal membranes suddenly swell and shrink, consuming endless energy.

“Cosmic birth rate?” Qin Tiange looked surprised, seeing 999 cosmic membranes in his body suddenly come alive, as if breathing.

That’s right, the cosmic membrane is breathing, and life is generally breathing, and it’s up and down, and it keeps a state of fetal breathing very regularly.

With the ups and downs, the cosmic membranes swallowed the power of the origin, spit out a whole new force into the body, melted into the limbs, and tempered Qin Tiange’s body.

At this moment, Qin Tiange felt that his body had become stronger and stronger, and the 60 trillion small chaos issued a strong cheer, and was absorbing the mysterious energy spurting out of the cosmic membrane.

The strange scene formed a delicate balance, making Qin Tiange feel suddenly suddenly stronger, much more overbearing than before.

“The emergence of the birth of the universe represents the birth and birth of a new universe. As long as it continues to grow, it can truly become a real and huge baby universe.”

Qin Tiange stretched his arms, moved slightly, and the nothingness around cracked and cracked apart, unable to bear his powerful strength.

Shu Chang, an unprecedented feeling of relaxation, seems to be detached from the big universe, and has achieved his own independent small universe.

The cosmic fetal membranes in 999 individuals have completed the transformation of the fetal breath, which is equivalent to having vitality and becoming a truly new model of the universe. The most primitive baby cosmos is beginning to conceive.

“The power of the source is really fascinating.” Qin Tiange was so impressed that it felt like he was here.

Next, Qin Tiange became more and more curious about the origin of the place. Is there also a rich source of power to let him absorb and grow?

With this excitement, Qin Tiange didn't hesitate this time, and went directly across the endless empty misty zone.

Along the way, he continued to slay and crush the original beasts he encountered. At first, he was fine, and he could obtain many original crystals.

But gradually, there are fewer and fewer original beasts, as if they have fled, and they dare not approach the area where Qin Tiange is located, not even one of them has ever appeared.

Seeing this situation, Qin Tiange was actually speechless, but there was nothing he could do. Although the original beast had no consciousness, it had a crisis instinct.

Hundreds of billions of original beasts have been killed. If they are known, they must be scared to death, because these original beasts are difficult to kill.

But Qin Tiange has this ability. The power of chaos directly crushes these strange beasts, capturing the crystals to absorb and expand the cosmic membrane of the body.

However, in the end, these original strange beasts were scared away. None of them appeared again, and they passed through this crisis-filled source of nothingness.

“finally reached!”

I don't know how long in the past, on this day, Qin Tiange suddenly felt a strange wave and saw a huge sky mark in front.

This sky mark runs across nothingness, and the hazy diaphragm blocks the whole place of origin, forming a unique and powerful defense layer.

If you want to enter the origin, you must enter through this fissure in the sky to enter the origin.

Huh!

Qin Tiange stepped forward and walked directly into the rift hanging in the mist of nothingness, blinking away here.

After much hard work, they finally crossed the fog of the galaxy, walked through the nothingness of the origin, and entered the mysterious origin.

Huh!

Just stepping out of the crack, before Qin Tiange had time to look around, he felt a huge gravitational force and pressure coming, and the whole person hit the vast continent below like a shooting star.

“Good strong gravity and magnetic field ...” Qin Tiange cursed, bursting out his whole body power to block this terrible magnetic field and gravity.

But the effect was not good. The whole person seemed like a shooting star across the sky and hit the vast continent.

Qin Tiange felt like a fireball, and under the rapid friction of this mysterious magnetic field produced a terrible high temperature.

The energy and high temperature generated in this magnetic field are surprisingly horrible. They can burn Qin Tiange’s body surface, which is fine.

Qin Tiange felt that the speed of his fall at this moment was extremely horrible, ten times beyond the beam of light, breaking the mysterious magnetic field here.

“That is...”

“Heaven falls to treasure!”

In the place of origin, countless creatures looked up and looked at the continuous falling light. The intense light was full of hot breath. Many powerful creatures immediately thought that it was heaven falling to treasure, outside the place of origin. It is surely the treasure that landed in nothingness.

boom!

With a loud roar, the mainland was slightly shaken a few moments, and the towering mountains were instantly turned into dust.

Thousands of kilometers around turned into flying ash, and was hit into an extremely horrible crater, bottomless, braving the thick flames and fire.

The movement here attracted a large number of powerful creatures, and the creatures of various ethnic groups in the vicinity immediately rushed here to see what happened.

Uh ...

After a long time, a black silhouette appeared under the big pit, and the mouth full of black smoke appeared extremely embarrassed.

This man was Qin Tiange. He did not expect to make a free fall, and was almost cut into powder by the mysterious magnetic field during the landing process.

Fortunately, he is strong enough. If he is an ordinary master, he may be torn directly into a powder, not to mention falling down.

“Here is the place of origin?”

Qin Tiange Zhen scattered the scorched mud all over his body and changed into a brand-new outfit. Then he looked around in surprise and suddenly took a deep breath. The cosmic fetal membranes in the body all cheered.

The air here is filled with a trace of the power of the origin, which can be absorbed, it is shocking and incredible.

“Ok?”

Suddenly, Qin Tiange frowned, swept around, and found a strong breath coming towards him, apparently attracted by the movement he made.

“Forget it, leave first.” After thinking about it, Qin Tiange’s figure flickered, disappeared in a blink, and did not stay here, but left directly.

Not long after he left, a large number of powerful creatures came here, all in a daze around this abyss-like crater, with nothing inside.

This book comes from

Chapter 960 - This zombie comes from the earth

The vast earth, the ancient mountains are soaring, there are no peaks, and deep trenches, filled with wild and primitive atmosphere.

The place of origin is extremely mysterious. After coming here, Qin Tiange felt very difficult to fly out, as if it were isolated here.

Time and space can’t be sensed, the only thing that can be slightly sensed is the dark side of the universe, and there is still a weak sense in the boundary sea.

With this induction, Qin Tiange was assured that as long as he could sense the existence of Jiehai, he could break the Jiehai and return directly to the Milky Way from Jiehai.

It is just that Qin Tiange feels that he has the source of power that he needs, so he intends to stay here for a while.

The main thing is that he wanted to find the traces of Chen Xi and others, but after coming to the place of origin, Chen Xi’s breath disappeared.

“Don’t feel it, or Chen Xi aren’t in their place of origin at all?” Qin Tiange pondered the question while walking through the air.

Since walking out of the singularity and coming to high-dimensional cosmic space, he has lost the sense of breath such as Chen Xi and disappeared.

“Roar...”

There was a strange roar suddenly in the wasteland ahead, as if the beast was roaring, Qin Tiange, who did not care, suddenly stopped and stopped.

Hearing the low growl, he couldn't help but snorted, recalling the memories of the past.

“This is ... the roar of the zombies?” Qin Tiange blinked his eyes and suddenly looked down at the wasteland below.

Others were looking at it from a high altitude, looking at the endless wasteland, the yellow sand filled the sky, and swept across.

In the sand, every figure was wandering in the wasteland, aimless, and looked a little weird.

After seeing these figures dangling in the wasteland, Qin Tiange couldn't help feeling a rush of excitement, it was a zombie.

That's right, this is zombies. How long have you not seen zombies? Since Chen Xi and others left the earth, all the zombies were taken away by that jade corpse and followed Chen Xi to leave the earth.

Zombies on the entire earth were taken away and became the most powerful force under Chen Xi's hands. This is a little relief for Qin Tiange.

After entering the galaxy, I have not seen the presence of zombies, but there are some shadows of corpses, such as the Huangquan corpses.

But they are not zombies. They are a kind of mutant corpse from the earth, different from the Huangquan corpse.

“How can there be zombies here, isn't it ...” Thinking of something, Qin Tiange couldn't help feeling excited and quickly fell on the wasteland.

As soon as it appeared, a group of wandering zombies in the wasteland was immediately shocked, and a roar was immediately made at Qin Tiange.

Among them, several zombies are about to flash like lightning, with their bones and wings, and their breath is extremely powerful, at least they are the standard of the corpse emperor.

Bang Bang!

The five powerful corpse rushers rushed out of the building, struggling to get up and lying on the ground.

The five corpses were terrified, and they opened their mouths and growled, and the zombies crowded around them immediately and surrounded them.

There are millions of zombies in the entire wasteland, which makes Qin Tiange curious. Why are there zombies here?

Moreover, the evolution of zombies here seems a bit different, much stronger than the original zombies on earth.

Just the powerful zombies he sensed, some reached the star level, and even a space-time zombies was hidden in the deepest part of the wilderness.

“Step aside!”

Qin Tiange said something lightly, and did not kill these zombies, because it reminded him of the memories of the past, as if he had returned to the beginning of the earth disaster.

Surprisingly, the dense crowd of zombies receded at once, all eyes flashing with terror.

Qin Tiange swept over the powerful corpses and asked, “Tell me, how did you become zombies?”

“...”

The five corpses looked at each other, one of them looked gaunt, and the empire-level zombies full of scales asked carefully.

“Dear strong man, are you a human race?” The zombie looked at him with anticipation after speaking.

All the zombies looked at Qin Tiange with a look of anticipation.

“Yes, I am a human race. Tell me, how did you become zombies?” Qin Tiange felt more and more that the zombies here were probably related to Chen Xi and others.

Sure enough, the first emperor zombie was so excited that he shed two lines of green tears, and it cried.

“I am as human as before, but someone helped us become this way after the war.”

“We have long since died, but we have become like this, no longer a human race, we can only hide in this wasteland.”

After listening to the words of these zombies, Qin Tiange stunned and realized that they are the people in the place of origin.

However, after the battle, they turned into zombies. The key is that who turned them into zombies?

“You guys, have you seen her?” Qin Tiange waved his hand suddenly, playing a light curtain, a person appeared on it.

A woman is exactly like Chen Xi.

Seeing this figure, all the zombies shook their heads without knowing Qin Tiange.

But soon he raised his hand and waved, Chen Xi’s appearance disappeared, replaced by another figure, wearing a jade body of jade armor.

“never seen it.”

This group of zombies shook their heads blankly. One of the first emperor-level zombies pointed at the middle of the wasteland and said, “We are the zombies in the wasteland.”

“Correct!”

A group of zombies nodded, pointing at the center of the wasteland, where a powerful breath, space-time zombies was hidden.

There can be time and space here, and then Qin Tiange’s expectations are unexpected, because space and time are blocked and isolated here, and it is impossible to enter space and time.

So why can creatures break through time and space? With a curiosity, Qin Tiange stepped out and disappeared in one place, and blinked to the central area of the wasteland.

Here stands a huge building, towering and grand, like a castle, at first glance it looks more like a Western building.

Seeing this Qin Tiange is a bit stunned, isn’t this an ancient castle building in the west of the earth? He stepped into this huge castle step by step, feeling the powerful atmosphere of time and space inside.

“Who dares to disturb my \*\*\*\* to rest?”

A bland voice came out of the castle with a ray of anger, as if a \*\*\*\* of time and space was angry.

Qin Tiange’s expression was weird, because the other person spoke English, yes, it was English, a language that has disappeared on the earth now.

Immediately afterwards, a figure slowly came out of the ancient castle, wearing a Western noble robe, exuding a sense of nobility.

He was pale, his eyes were blue and cold, and he stared at Qin Tiange fiercely.

“You are from the earth?” Qin Tiange looked at the people who came out of the castle, and spoke a Chinese sentence.

As soon as this word came out, the western youth on the other side froze and looked at Qin Tiange, his expression became more and more weird, firstly stunned, then shocked, then his eyes widened silly.

“You, you are the supreme leader of humankind on earth?” The western youth was startled, looked at Qin Tiange in horror, and instinctively remembered a person.

That’s right, he remembers that Qin Tiange, who is Huaxia, the world ’s supreme leader of humankind, actually appeared here?

“You really come from the earth.” Qin Tiange was surprised, came directly to the western youth, and looked at each other up and down.

Qin Tiange looked weird and asked, “I ask you, how did you get here and answer truthfully, otherwise I don’t mind searching your consciousness.”

“Um, I came with the Supreme Corpse Master.” The western youth zombie look flashed a little fear.

Instinctively, he sensed the horror in Qin Tiange's body, death threats shrouded his consciousness, and he was scared to death.

He wailed in his heart: "Let me not live, I can meet this terrible earth leader when I hide here, has the earth conquered the universe?"

This western youth can really fantasize, but it is also that he is here to dominate the king, and Qin Tiange's sudden appearance in front of him is naturally quite shocking.

"The corpse master? Are you talking about her?" Qin Tiange frowned and waved an unreal figure, the jade corpse.

After seeing this, the young western zombies nodded immediately and said fiercely, "Yes, yes, that is the great corpse owner, she led us here with the leader's wife."

"Where are they?" Qin Tiange looked excited and finally found the news of Chen Xi. They have been here.

But he was quickly disappointed, and the young western zombies warned carefully: "I don't know where the cadaver and the leader's wife are, I was left here."

"What, left here?" Qin Tiange froze, feeling a little lost.

Just listening to the young zombies in front of me saying, "Yes, after we first came here, we experienced many tragic wars here. In the end, the leader's wife and corpse owner suddenly disappeared mysteriously with the large army, and disappeared overnight. Only some scattered members are left, and I am one of them."

At this point, he became bitter and mourned: "I was just a little corpse king at the time, I didn't know more high-level secrets at all, so I didn't know what happened."

"Then how did you break through the space-time level?" Qin Tiange frowned slightly, staring at the western zombie in front of him.

The latter looked embarrassed, and said, "I am also very ignorant. I only know how to eat, because zombies eat fresh flesh, but when I came to this wilderness, I found a huge corpse buried here, so I was hungry. Eating, eating and eating turned out to be this level."

After listening to Qin Tiange, he was speechless. Zombies were really eating food. When they saw raw meat, they ate it. Anyway, it was the temptation of flesh and blood.

Shaking his head, Qin Tiange sighed: "Forget it, take me to see where is the corpse you said?"

"Okay, leader, please follow me."

This zombie immediately became a gentleman, and took Qin Tiange politely into the castle, and saw a large group of beautiful zombies along the way, making him unable to help vomiting.

"Your life is so moist ..." Qin Tiange said with a smile on it.

The zombie was embarrassed, scratching his head and grinning bitterly: "Leader, my name is Antu, these are all my maids."

"Here it is, just below the ground."

Soon, Antu took Qin Tiange to the deepest part of the castle, where there was a passage to the underground.

Only when I entered it did I understand that the underground turned out to be a huge underground palace. It seemed that this zombie had spent a lot of energy to get it out.

“what?”

As soon as he stepped into the underground palace, Qin Tiange was surprised to find that there was a fluctuation in the power of the source, which was very strong, even because of other curiosity.
