

Dark Ages 971

Chapter 971 - Dig 1 Baby Universe

when!

A punch came, and a slamming sound made everyone shake in all directions, and the vacuum collapsed all around, and a terrible shock swept out.

Qin Tiange was startled, feeling that his fist was hit on an invisible barrier, extremely hard and terrifying.

I didn't notice the head of this creature just now, but now I hit the biggest eyeball of this creature and suddenly realized that something was wrong.

This eyeball is weird, and it contains a majestic cosmic power, as if it struck a universe.

boom!

The two were shaken apart by the strength of each other. The creature's head roared and almost exploded. The heads that had just been packed were broken from the right brain.

Now he was punching in the front, but he didn't hurt the other side. The strength from that eye blocked Qin Tiange's punch.

"The power of the universe, your eyes gave birth to a universe?" Qin Tiange was different, but he had a strong mind in his heart.

"Damn, it hurts." The creature growled and shook his head. Nine eyes opened in unison. The largest eyeball was hazy, as if a universe had conceived it.

In the other eight eyes, the scene of the universe began to breed, and it seemed as if nine universes were to be born.

"Nine eyes, known as gestating the world in their eyes, and looking at the universe with their eyes, it seems that they have great ambitions and want to conceive nine universes."

The old demon grasped a group of sources, and directly stored it in his pocket. Looking at the fierce battle here, he knew the nine-eye creature very well.

Not far away, Lao Pengpeng swallowed a group of sources, hehe laughed: "That nine eyes are miserable. Although the ambition is great, but it is doomed to meet this geek emperor."

"Men, huh!"

The half-demon young man hummed coldly, put away a group of origins, and quickly withdrew, watching Qin Tiange and the nine-eyed slaughter from a distance.

There were only one taboo creature in the surrounding area, seventeen taboo creatures, watching the confrontation between Jiuyan and Qin Tiange.

They know Jiuyan very well, but they do not know the Emperor, and now they are just looking at the details of the Emperor closely.

“Can one side of the universe be swallowed?” Qin Tiange looked weird and suddenly thought of this question. Since the other party gave birth to one side of the universe, can he swallow it?

If he can, maybe he has found a way to grow his cosmic membrane, which is hunting taboo creatures.

“Kill!” Thinking of this, Qin Tiange took a straight shot without hesitation.

A large wave of chaotic power gathered together, swallowed with a palm, and the creature roared sternly, his eyes emitting a ray of cosmic light.

The light was very strong. The bombardment was in the palm of Qin Tiange. The two forces collided and was finally broken by Qin Tiange.

boom!

One palm smashed into the nine-eye face gate, the bones collapsed and fractured, blood and water sprayed horizontally, and the body was beaten and rolled out.

“Only when you conceive the inner universe can you contend with the big universe. Taboo. This is taboo.” Qin Tiange said to himself, step by step.

He caught up, waved his fists, and beat the nine-eyed creature to defeat, and the tragic sound spread to all sides. It was shocking.

All parties contraindicated the creature’s coldness, and looked at the nine eyes that were miserably abused, one by one sweating, and they were beaten without any help.

Nine Eyes, even against the Lord of Antiquity, can still be defeated easily, but I did not expect to be directly miserable by Qin Tiange.

“Well ... what the **** are you?” Nine Eyes were miserable. Three of the nine eyes were blown open. The blood sprayed them, and they looked miserable.

Qin Tiange didn’t answer, but became more and more surprised. He had already exploded 80% of his strength, but he had not killed the creature yet.

It always feels that there is a cosmic force in its body that is difficult to break, just like breaking a cosmic barrier.

“If you can’t fight it, dig it out.” There was a bit of ruthlessness on Qin Tiange’s face, since he could not penetrate the other side’s universe defense.

Then dig it out directly, dig out the eyeball that gave birth to the inner universe, and see how it is still alive?

“kill!”

The fierce fighting, Jiuyan was robbed again and again, his body was defeated, but the tenacious was not broken apart, it was like an indestructible Xiaoqiang.

In its largest eyeball, a powerful force is constantly flowing, and the power of the inner universe keeps it undefeated.

This is the taboo creature. It can fight against the power of the universe to clean up, and against the universe, only the power of the universe can counteract.

How to nurture the inner universe is an evolutionary path for living things. Only when the inner membrane of the inner universe is bred successfully can we embark on the taboo road and compete against the big universe.

“Nine eyes are over.” The old devil suddenly looked horrified and murmured to himself.

I saw that Jiuyan’s body was robbed, and a punch was hit in the heart, and a crunchy sound came as if the barriers of the universe were broken.

Qin Tiange punched Xeon strong, and 10% of his strength broke through the body barriers of Nine Eyes and instantly penetrated the heart.

Suddenly, Jiuyan felt the threat of death, and the barrier formed by the force of the universe was broken, indicating that the crisis of death was coming.

“No, no ...” His eyes glared, struggling in fear, trying to get out of Qin Tiange’s scope.

“Break me!” Qin Tiange shouted, raised his hand and caught the largest eyeball of nine eyes, his fingers were sharp and he stabbed into his eyes.

A splash, blood and gush, a tragic scene made all taboo creatures in the room tremble, watching this scene in horror.

Flutter!

Qin Tiange pierced the creature’s eyeball with both hands, grabbed the eyeball, and dug it out.

“Ah ... help me, Lao Mo, help me ...” Jiuyan screamed sorrowfully, and asked Lao Mo for help.

The old devil’s face flickered, and he suddenly stepped forward, and immediately came behind Qin Tiange, slamming it with a fierce palm.

“Get off!” Qin Tiange didn’t turn his head back, and a chaos burst into his body, with one hand punching through the chaos.

With a loud voice, the old demon flew back and flew back, looking horrified, looking at the hand that slowly retreated into chaos.

“Give me out!”

Qin Tiange shouted angrily, his arms pulled out little by little, and the eyeball of nine eyes was dug out slowly.

The blood continued to gush, and a stream of fine gas sprayed the Quartet, with nine eyes of miserable sorrow, struggling there, to no avail.

In the end, Qin Tiange dug out that eye, which gave birth to a cosmic fetal membrane, a baby universe that was about to take shape.

Looking at this eyeball, Qin Tiange was shocked. The eyeball really gave birth to a baby universe that was about to take shape.

“Dig out a baby universe ...” Qin Tiange muttered to himself, looking at the eyeball that was constantly shaking.

Like a cosmic eye, a cosmic fetal membrane is bred inside, which is about to take shape. Once it becomes a baby universe, it is a real superpower.

“No wonder it is so difficult to kill. The original baby universe is about to conceive.” Qin Tiange said to himself, ignoring the miserable nine-eyed tumble over the deep space of the universe.

It has lost its eyes, the most important source of strength, and has a weakened body and a retrograde infinity.

“No ...” Jiuyan wailed, her body exploded, and she lost the Eye of the Universe and collapsed autonomously.

Seeing the tragic appearance of the nine eyes and losing that cosmic eye, its body could not withstand the squeeze of this vacuum, and it collapsed on the spot into a fly ash.

When he died, the nine eyes disappeared in this way, and a powerful taboo creature that bred the inner universe died in this way.

“Invincible, let’s go!” The old devil was sharp and neat. He couldn’t see nine eyes die. He turned to tear the deep space universe and disappeared.

“I’m more cruel than the oldest, it’s better to go first.” For other creatures, the oldest one trembled, and went straight up into the deep space of the universe.

“go!”

One of the taboo creatures turned and ran, one by one, and they ran fast, disappeared in the blink of an eye, and hid.

Watching them run away, the other creatures are okay, but Qin Tiange, the young half-demon, doesn’t want to let him go.

“Stay!” A loud shout came, and the half-demon young man’s heart was so cold that he did not hesitate to turn back to be a force of the universe.

With a bang, the vacuum of the big universe was directly blown up, and when the demon light flashed, the young half-demon man directly turned away.

Buzz ...

Qin Tiange wanted to chase, but the eyeball on his hand kept shaking, and wanted to fly out of control and had to stop to suppress this eye.

An eye that gave birth to the universe is extremely mysterious and powerful, and inside it is a baby universe that is about to take shape.

“Let you do it once.” Qin Tiange scolded, watching the disappearing half-demon young man, without continuing to hunt.

Although I really want to know where the half demon is, it is obviously not the time now, suppressing this eyeball is the most important thing.

Unexpectedly, all the taboo creatures have begun to conceive the inner universe and have embarked on a path of self-evolving universe.

Most of the other creatures that entered the ancient times were led by a certain force on the wrong path, perhaps by the wrong guidance of the universe.

It is also unknown to escape from fear. Qin Tiange knows that only by successfully cultivating the inner universe can he counterbalance the power of the great universe.

“Look, can you refine a universe?” Qin Tiange licked his lips, full of expectations.

He looked at the eyeball, and after repression, turned and tore the deep space of the universe, preparing to refine the eyeball that gave birth to the universe.

Click!

At this moment, a crackling sound came from the depths of the universe, which caused the turbulence of the universe, and there was a violent wave in the deep space universe.

The terrible energy fluctuations surprised Qin Tiange’s face, and suddenly looked up to see through the dark and deep space of the universe.

“What’s that?” Qin Tiange’s pupils shrank, his heart couldn’t help jumping, and he saw such a scene.

I saw that a mysterious force penetrated the deep space of the universe, as if it penetrated the universe, and something terrible was traversing the universe.

Bang ...

With a horrible loud noise, the deep space of the universe came boiling, one by one, the taboo creatures were horrified, and saw a creepy scene.

In the deep space of the universe, there is a mysterious and quaint stone bridge that crosses the universe and penetrates the dark deep space, breaking through the barriers of the universe.

“That is, Neihe Bridge?”

Qin Tiange was shocked. When he saw that ancient bridge, he immediately thought of something. Wasn’t that the Neihe Bridge on Earth that he used to see?

A quaint and mysterious stone bridge, shining brightly, runs through the universe, as if to penetrate the entire universe, it is shocking.

Chapter 972 - Neihe Bridge, runs through the end of the universe?

In the deep space of the universe, an ancient stone bridge runs through nothingness and extends to endless depths.

That was the Nai He Bridge, a mysterious stone bridge seen on the earth in the past. Now it appears again, traversing the universe and shocking Qin Tiange.

On the bridge, in front of Sansheng Stone, the mysterious figure has always given Qin Tiange an extremely mysterious feeling.

It shows that it is impossible to guess what level the other party exists. When he saw that Naihe Bridge again, Qin Tiange's face changed.

“The breath of this stone bridge ...” Qin Tiange's expression changed, his heart was shocked, and he suddenly felt the horror breath emanating from the stone bridge.

Not a time and space treasure, not a weapon of the times, more like a horrible treasure that traverses the universe, and seems to have the ability to penetrate the universe.

Rumble ...

The stone bridge traverses the deep space of the universe, breaking through the fog all the way, as if to rush into somewhere, as if to break through the barriers of the universe.

The terrible power shook all parties. Many strong men and even taboo creatures did not change color. Looking at the stone bridge, they were all shocked.

“Bridges of nothing, it is said that they can penetrate the yin and yang of the universe, traverse nothingness, and reach the other end of the universe.”

“How did this thing appear?”

“Look, there's someone on the Sansheng stone on the bridge.”

Some forbidden creatures are thrilled, watching an ancient stone towering above the stone bridge, which is the Sansheng stone, with a looming figure on it.

Hazy and indistinct, she drove through the deep space of the universe with a Naihe Bridge, penetrated the fog, and rushed into an unknown land of dreams.

boom!

The horror scene shocked most of the universe, many powerful creatures were awakened, and terrible ideas came out of the restricted area.

Awful creatures awoke, looking at the stone bridge, they seemed to know the simple stone bridge.

“How come, three lives gather soul, she is back ...”

In the depths of the universe, there was a horrible wave, and a hoarse voice spread, causing the universe to boil violently.

In the darkness, a terrible creature woke up from an area and looked at the stone bridge, apparently knowing it.

“Three lives gather the soul, the third refining, has she succeeded?”

A faint cold light floated in the depths of the universe, revealing a ray of will, extremely terrifying, looking at the stone bridge and saying this sentence.

Many ancient creatures awakened, awakened by the appearance of this stone bridge, talking to themselves one by one, making a terrible sound.

“What a strong breath, what kind of creature?” Qin Tiange was surprised, feeling a terrible wave suddenly appearing in the dark and deep space of the universe.

These breaths are even more terrifying than the forbidden creatures that they just met. What kind of creatures are there?

Qin Tiange felt as if in his heart that there were still a lot of terrible existences in the universe, something unknown at all.

With the appearance of that stone bridge, it traversed the deep space of the universe, and awakened one after another by horror and unknown creatures.

When they woke up, the words they spoke were amazing. Qin Tiange secretly guessed that the owner of this stone bridge must be an extraordinary existence.

“Gathering souls for three lives, refining for the third time?” Qin Tiange said to himself, a horrible voice said this before, which made him wonder.

Looking at the quaint stone bridge, it penetrated endlessly far and wide, and it was not clear where it was going, breaking all the way to the void of the universe, as if to penetrate the universe.

Seeing this, Qin Tiange hesitated, and finally stepped out and rushed directly to that ancient stone bridge.

It looked very close, but it was very far away, so Qin Tiange rushed to the quaint stone bridge because of the ferryman who met in the place of exile in the past.

In the past, the other party promised to give a soul bead to the mysterious woman, and promised that it must be done.

Hum!

The universe trembled, and an unknown force surged, as if enraged by that stone bridge, and directly bombarded.

The rumbling sound of rumbling spread, the stone bridge trembled, and mysterious rays flowed, blocking the bombardment and erasure from all sides of the universe.

The terrible scenes surpassed the phenomenon of clearing the universe as seen by Qin Tiange, even before his own experience.

“Are the big purges coming? My, I hate this power.”

Unknown creatures roared, and the universe shook the universe, shaking the nothingness, as if it was extremely disgusted by the cleaning power from the big universe.

“She wants to penetrate the universe, or is she doing something?”

“It shouldn’t, that road is nowhere.”

“The next round of cleansing is coming, can we still survive?”

A low roar came from all sides of the universe, some terrible forbidden areas of the universe, some terrible uninhabited areas.

There were even waves in the unknown place of the universe, and those horrible creatures were displayed for the first time, which Qin Tiange captured.

He looked at all sides of the universe with a shock on his face, not expecting that so much terror existed in the universe.

What kind of existence of those creatures that do not enter the ancient times and do not open the ages, one by one threatens to penetrate the universe.

In addition, Qin Tiange noticed a fluctuation in his mind and said to himself, “The next round of cleaning?”

What he faintly grasped, there was an inexplicable robbery in the universe, the so-called cleansing robbery.

Perhaps, the last generation of human races was destroyed under this great cleansing, or each and every big cleansing, whether it is human races or thousands of nations, has been greatly damaged, or even destroyed.

The Great Cleansing of the Universe, a kind of catastrophe commonly faced by all races, is not clear to Qin Tiange. Perhaps only those horrible creatures who survived the last Great Cleansing understand.

“open!”

Thinking of this, Qin Tiange directly tore open the deep space of the universe, stepped into the nothingness, and caught up with the stone bridge that traversed the universe.

His appearance immediately aroused a lot of horrible glances, one by one glanced at each other with astonishment.

“A humanoid guy, what does he want to do?”

“Well, do you want to rush to Naihe Bridge?”

Those unknown creatures were horrified, watching Qin Tiange’s appearance, constantly tearing the cosmic fog, rushing into nothingness, and chasing that stone bridge.

The stone bridge traverses the universe’s nothingness, standing there, like a bridge to the other side of the universe, giving people a way to walk directly to the end of the universe as long as they step on the stone bridge.

“No, he has a weird body.” There was a voice in the darkness of the universe, and there was a weirdness in Qin Tiange’s body.

Unfortunately, they can’t see Qin Tiange’s physical condition, they have a total of 60 trillion small chaos, and 999 cosmic membranes.

Hum!

In the blink of an eye, Qin Tiange ripped open the mist of the universe, stepped to the edge of the stone bridge, and was blocked by an invisible force.

That was the power of cosmic cleansing. The power of the cosmic cleansing wanted to erase the bridge, but it failed.

“Open!” Qin Tiange shouted, punching out the unknown force blocked in the front and hitting a channel directly.

Suddenly, he stepped on the stone bridge, and the simple breath came to his face.

On the stone bridge, a thought quietly swept over, a slight meal on him, and then disappeared.

“You came!”

A word of emptiness came, causing silence in all parts of the universe, and the unknown creatures who were awakened were stunned one by one.

They glanced faintly, looking at the stone bridge, Qin Tiange stepped towards that ancient stone, the Sansheng stone.

When he came to the Sansheng Stone, Qin Tiange stopped three meters away and looked at the ancient stone in front of him quietly. He had seen it on the earth, but he didn't feel anything at first.

It now appears that this mysterious woman is not simple, and Sansheng Stone turned out to be a real body, the physical body of that woman.

Qin Tiange was shocked and thought of a sentence: “Three lives gather the soul, the third life refining, is this so?”

call...

Suddenly, a hazy light and shadow slowly emerged from the Sansheng Stone, graceful and unparalleled, with Qin Tiange's back on his back, faintly showing the outline of the mysterious woman.

“Why are you here?” The woman said softly, and asked without looking back.

Qin Tiange took a deep look at her, didn't say a word, turned over and took out a gray bead, which was the soul bead.

“This is a ferryman I met in the place of exile. He asked me to give you this soul bead. Now, the property belongs to the original owner.” Qin Tiange finished throwing the bead gently.

The bead twirled slowly, slowly drifting into the sansheng stone, caught by the dim figure.

“You incarnate as a stone bridge. I ferry in the bitter sea, billions of years, and finally see you again ...”

A faint word came, and a dim shadow slowly gathered, and a ray of thoughts flew out of the soul bead.

He was the mysterious ferryman. There was a hidden soul in the soul beads, which surprised Qin Tiange, but it was also reasonable.

“You, did you find the person you were looking for?” The ferryman asked hoarsely. The fuzzy look became more and more blurred.

And inside the Sansheng Stone, the mysterious woman held the soul bead and stunned, and she sighed quietly for a long time.

Ugh...!

“... The sea is boundless, and time is worth it, is it worth it?” The woman slowly turned around. For a moment, Qin Tiange felt only a pain in his soul, and the true spirit shook.

When he was awake, the hazy figure turned back, and she didn't see her at all just now.

“Haha, you finally turned around for me, I, I wished ...” The ferryman laughed, frantic, swaying with consciousness, smashed into pieces, turned into a bit of dust and fell on the stone bridge, causing violent shock.

A mysterious and powerful existence, who has ferried through the bitter sea for billions of years, finally left with regret, but before he died, he saw the woman turn for him.

Seeing this, Qin Tiange was a little speechless. What kind of feeling made a super strong person willing to sink into the bitter sea for billions of years, just to give this woman a look back and smile?

Still a concerned look? Qin Tiange was very uncomfortable. Looking at the dismissed ferryman, he suddenly had a slight disgust at the mysterious woman.

People have been waiting for you for billions of years. Even if you are indifferent, you can just point it out and let people die.

But soon Qin Tiange cut off the thought and restored peace, and his affairs were not related to himself.

“I've fulfilled my promise and I'm done.”

Qin Tiange was straightforward, turned around, and left, not wanting to stay at all. This mysterious woman was too secretive, and always felt a little unsafe.

“and many more...”

A faint lingering retention made Qin Tiange's inexplicably coldness suddenly feel bad.

Chapter 973 - Break into the other side of the universe?

Hum!

The stone bridge trembled and a ray of light flowed, blocking Qin Tiange's way, unable to go out, and locked on the stone bridge.

Seeing this, Qin Tiange was secretly vigilant, turned back slowly, and looked at the three living stones, the dim figure looming.

“Why did you stop?”

“Just now, it seems like ...”

In the darkness of the universe, those hidden beings were surprised, and the stone bridge stopped, and the soul consciousness just now seemed to have known each other.

They seem to know the ferryman, but they are not sure. Qin Tiange was able to set foot on the stone bridge.

You know, even if they are, it is impossible to step on without the woman’s permission, because once approached, they are regarded as the enemy.

“This Terran boy is a little bit interesting.” Waves came in the dark, and there were creatures surprised.

Youyan looked at Shiqiao, looked Qin Tiange, looked up and down, and was surprised: “The breath on his body is like the emperor of this generation.”

“Well, what’s hidden in this person that you can’t see through?”

These creatures began to be curious, and they were surprised to find that they could not see through the details of Qin Tiange.

There aren’t many that can see through this group of creatures. The owner of the stone bridge is one. People of the same level can’t see through.

“Say something.” Qin Tiange was wary and his face remained unchanged.

He looked at the Sansheng Stone in front of him, and the dim figure inside shook, and slowly came a sentence: “Are you interested in breaking into the other side of the universe with me?”

“Down into the other side of the universe?” Qin Tiange’s face changed slightly, his heart shook, and the dark shore was shocked.

boom!

As soon as this remark came to an end, it seemed as if there was any power being awakened in the meditation, as if some taboo was touched, and some taboo was touched.

Qin Tiange suddenly looked up and said, “I’m not interested, you invite others. I’ll take a step.”

Hum!

I was about to rush out, but a light blocked him and made Qin Tiange angry. Why is this woman going to take herself into the other side of the universe?

Just a word has stimulated something, as if there were a pair of eyes above the big universe staring at it, making him feel cold.

“What do you want?” Qin Tiange stared at Han Man, staring at the figure with a hint of question in his tone.

Keep him here, what do you want to do, really just to break into the other side of the universe? Just kidding, Qin Tiange is not stupid. His current ability is simply not enough to touch this level of things.

Once touched, it will lead to a crisis, and the previous illusory hand has proved it and made him wary.

Now that the owner of this stone bridge wants to invite him to break into the other side of the universe, is it to penetrate the universe?

“There are many powerful beings in the universe, such as those. You invite them. I’m just a little person. Why do you embarrass me?” Qin Tiange was depressed and couldn’t help but say a word.

Above the nothingness, an unpredictable breath continually gathered, becoming more and more intense, and a kind of heart-beating feeling disturbed him.

Qin Tiange’s words spread, making the hidden creatures in the darkness of the universe slightly fluctuate.

“Good boy, pull us into the water?”

“This little **** wants to die, right?”

Those creatures were frightened, Qin Tiange said to the owner of the stone bridge, don’t invite him as a little person, and invite those terrifying creatures who hide the universe.

But this sentence annoyed the creatures, because the hazy figure inside the Sansheng Stone swept across the deep space of the universe and looked at them one by one.

Suddenly, those waves in the darkness disappeared quickly, and there was no trace in the blink of an eye. The unknown creatures ran away.

“They are too timid, you don’t want to understand the secrets of the big universe?” The mysterious woman said.

That faint voice made Qin Tiange even more disturbed. This is simply saying, I will take you to death.

Breaking into the other side of the universe, Qin Tiange will definitely not do this, at least not at the moment. He doesn’t have this ability, just look at the hidden creatures one by one and scare away.

“Are we timid?”

“She said we were timid?”

A low howling came, but it didn’t spread. The hidden creatures were very resentful. The woman said that they were timid.

A creature opened his mouth and hummed, “We are just hiding, accumulating strength, and waiting for an opportunity. Why timid?”

“Recklessness means death, are there still few strong men who fell in the past?”

“On the other side of the universe, the forbidden land that cannot be crossed, the stepper will die. Are there still few strong men buried there?”

Click!

There was a thunder of nothingness, and an inexplicable amount of power was boiling, as if those words touched something and directly caused a great change in the universe.

Seeing this, all the creatures were concealed instantly, and there was no sound at all, and only an ancient stone bridge traversed the universe and nothingness.

On the stone bridge, Qin Tiange almost scolded, this is persecution on the road to death.

“I said, do you think I have the ability to help you break into the other side of the universe?” Qin Tiange asked criedly.

However, the mysterious woman in Sansheng Stone said quietly: “I have a kind of intuition. I may bring unexpected results with you this time.”

“I wipe!” Qin Tiange couldn’t help it, swearing, suddenly turned around, and already had a good strength to punch out.

There was a loud bang, and there were violent vibrations in the stone bridges, and the light was dim, as if they were about to collapse, but they still did not collapse.

“Without wasting effort, you can’t break the power of Nai Heqiao, plus Sansheng Stone, the power of the Third Life, you can’t break it.”

The woman whispered something, and looked back at Qin Tiange for a moment, faintly seeing a slight arc in the corner of her mouth.

“Three souls of life, the body of the third life, the bridge of how, through to the other side!”

Suddenly, a soft drink, accompanied by a surge of mysterious power, the bridge of the originally quiet Neihe trembled suddenly, and a humming sound penetrated the universe’s delusion.

Suddenly, Shi Qiao took Qin Tiange directly through the nothingness of the universe, breaking through the mist all the way, and banging into it.

“Come really?” Qin Tiange scolded, startled, the woman was crazy, and really broke into the nothingness of the universe.

Here he has seen that in the past the path of nothingness, someone has dug into the universe nothingness, wants to cut through the universe, and has seen this scene.

Looking at it now, this woman drove the Naihe Bridge directly through the nothingness of the universe and wanted to break into the other side of the universe.

“Unlucky, unconsciously got on the thief ship.” Qin Tiange said to himself, calmed down, and looked at the constantly broken nothingness around.

He saw that there were a lot of broken bones everywhere, with some metal fragments, left by some strong men.

The breath is still strong, which proves that there are strong people here who entered here, but unfortunately they all fell, and the stone bridge rushed all the way in this place to break the ignorance.

The powerful stone bridge, simple and mysterious, contains unpredictable power, nothing can stop it, and it is crushed and broken all the way.

As if it really confirmed that sentence, how can the bridge, together with the other bank, really have the ability to penetrate the other bank of the universe, is it really necessary to penetrate the universe?

Qin Tiange shook her head, saying that it was impossible. If she could penetrate the universe, she would have hit out long ago. Is she still here?

“What do you want to do? I can’t help you, maybe you will be dragged down later.” Qin Tiange looked at the figure in Sansheng Stone.

He was very upset that he was forcibly brought into this place, and was going to break into the other side of the universe, where there is a restricted area for souls.

All living creatures who have entered are dead and can survive. I have not heard of any. Perhaps this woman has broken into it.

“I went in three times, and each time I died.”

A faint utterance came, which made Qin Tiange feel chills and chills all over, almost hitting again.

This woman actually broke into the other side of the universe three times and died three times. Is she still alive now?

“By the way, the soul of the three lives, the body of the third life, is it dead three times, reunited and returned, the body of the third life and the third life, this is to break away from the other shore?” Qin Tiange was shocked, looking at the hazy woman’s eyes changed .

This is simply a horrible existence. She died three times and lived three times, which is a bit horrible.

“What is the other side of the universe?” Qin Tiange calmed down suddenly, a thought flashed through his mind.

What is the other side of the universe? Why are these powerful creatures thinking of going out?

“I want to ask you, Big Universe, can it really be penetrated?” Qin Tiange asked with serious eyes, staring at the hazy woman.

After listening to the silence for a long time, she said, “Yes, in the past, someone penetrated the universe and went out. Only by breaking into the other side can she get a chance to go out.”

“Is someone really penetrating the universe?” Qin Tiange was so shocked that he almost thought he heard it wrong. Did someone really do it?

“Who is it?” He was shocked and curious, wondering who did it?

“You will know later, I see you, it seems that some former fallen existence has been reincarnated, but unfortunately, the Sansheng Stone cannot see your past and future.”

The mysterious woman said, slightly turning back, but did not look at it, but made Qin Tiange speechless, almost voiced.

His past life and past? Qin Tiange said that in his previous life, he was unwise and had no soul. How can he take care of it?

Once and for all reincarnation, there is no soul, no wisdom, and naturally cannot be seen, only ghosts can be seen.

“what?”

Suddenly, Qin Tiange’s eyes narrowed, looking out at the voluminous emptiness outside the stone bridge, and a mysterious bone fell into his eyes.

That skeleton, walking in nothingness, step by step, slowly and firmly, holding a broken iron sword in his hand, rusty.

Huh!

The skeleton suddenly turned his head and there was nothing in the hollow Mu Kuang, but it gave Qin Tiange a tingling sensation, very strong.

Shout, the skull disappeared in the blink of an eye, and was left behind, but the appearance of that skull was deeply imprinted in Qin Tiange’s mind.

“It’s terrible, it’s not dead yet?” Qin Tiange was shocked, and found that the skeleton had not died yet, carrying the rusty iron sword, step by step into nothingness, as if going to the other side of the universe.

“The strong man who fell in the past, the unwilling faith remains, is still immortal. If he wants to break into the other side, it has failed.”

The mysterious woman’s sigh sighed Qin Tiange with an inexplicable kind of sadness. What was it that made all kinds of powerful creatures in the universe want to break into the other shore at any cost?

“The other side, my, is back ...”

Suddenly, the stone bridge shook slightly, breaking through a void and ignorance, and came to a mysterious and unknown area.

Here is the other side of the universe, the end of the universe is full of mysterious colors, there is a sense of sadness everywhere, as if countless unscrupulous shouts are echoing.

Chapter 974 - Mysterious old man, sees hundreds of millions of tragic deaths

“Break it ...”

“Kill it out!”

In the dim, cold emptiness, a slamming roar filled with stern snarling, and the sway in the years was endless. ,.

Suddenly, Qin Tiange seemed to see the Xeons one by one, and rushed into a place of dreams without fear of death.

The end of the universe, the other shore!

The cry was full of unyieldingness, with a kind of unwillingness, whispered in his ears, as if personally witnessing the invincible powerful generations of the past to break into the other shore and break their fate.

Huh!

A sharp edge traversed the universe, cutting the universe to nothingness, chopping on the other side of that 'Meng' and 'Meng', marking a deep knife mark on the nothingness, indelible.

The knife seemed to be able to split the universe, with a momentum of indomitable rush, all the way into the mysterious land, and finally broke apart.

Whoo ..!

A spear pierced through the nothingness of the universe, came across, and made a horrifying sound of whine, as if the universe wailed, tore the 'fog' fog, pierced that invisible barrier, and buzzed and trembled.

The spear was so sharp that nothing could stop it, but it was finally shattered inexplicably, and it broke open and scattered all over the universe.

Lamentation, a strong sorrow pervaded, dissipated through an unwillingness and anger.

Huh!

Suddenly, a quaint book arrived in the air, and the vast atmosphere shocked Qin Tiange's heart. The complete volume of the ground book in the sea suddenly buzzed and resonated.

"Earth Book?" Qin Tiange was so frightened that he saw the "Earth Book", the mysterious book on the earth in the past, one of the three books of Heaven and Earth.

That local book, the whole rune 'cross' weaving, rolled into a vast rune universe, crashed into it, broke through a long passage, and finally broke up in the depth of the passage into pieces. Scattered in the universe.

Looking at the ground book breaking, Qin Tiange was shocked and unbelievable. Even the ground book was broken. What happened to the local book that was seen on the earth in the past.

There was a thought in his mind, maybe the book of earth had recovered.

Buzz ...

The ground character shook, the symbols jumped, and a little mysterious light sign suddenly floated in the mist around the 'strange'.

These light runes are hard to see. If there is no true rune book, these illusive symbols will not be seen at all, and they will fly into Qin Tiange's sea of knowledge.

The endless sound shook the sea of consciousness, and the endless mysterious light runes flew in, blended into the true charms of the earth book, and soon formed a strange transformation.

Originally, the spirit of the human book merged with the true character of the earth book. At that moment, there was a strange change, as if there was a hint of mysterious power.

The whole process of electro-optical flint, even the mysterious 'girl' in the Sansheng Stone, never knew that some mysterious light runes poured into Qin Tiange's knowledge of the sea.

"You guys, it's early."

Suddenly, a hoarse, low voice came, and back in nothingness, awakened Qin Tiange's consciousness, and his face changed greatly.

He suddenly turned a brick, looking for sound, but had nothing, his heart was shocked. Who was that voice just now?

"U, can't wait ..." The voice of the mysterious 'girl' came from Sansheng Stone, as if I knew the owner of the voice just now.

For a long time, above the nothingness, the old voice came out of the ungrateful place.

"The time has not come, let's go back ..." The old, hoarse voice revealed a heavy and heavy feeling of years.

Qin Tiange's expression was serious. Suddenly he felt a breath of years, as if he had a terrible taboo power to lock the area.

"I can't wait any longer."

The mysterious 'girl' child appeared dimly, a light and shadow appeared, standing on the stone bridge, and the whole body was pressed down by the turbulence.

She turned her back to Qin Tiange and said to herself: "I have waited for billions of years. Now, I can't wait. He once entered there, and even if it falls, he must go in and take a look."

"The task of Naihe Bridge is to wait for the opportunity to attract the cosmic strong from all sides. You must not act rashly."

A hazy mist emerged, and an old figure was faintly seen, pressed there, imprisoned that area, forming an extremity.

Seeing that dim and old figure, Qin Tiange's heart shook, and the heart of time and space shook violently, as if resonating.

"Hey? The heart of time and space, hey, old can't see through, who are you back in the past?" The voice of the old man came and looked at Qin Tiange.

The mysterious old man looked at Qin Tiange in horror, but he couldn't see through it, and he couldn't understand who the other party had awakened from in the past.

"Sorry, I don't know what you're saying." Qin Tiange was shocked, but shook his head.

The mysterious 'girl' turned back and gave him a slight glance, and said lightly, "He, there is no past, no future, you do n't have to look at it."

As soon as this remark came out, the old man who was fascinated by the imagination in nothingness paused slightly, stopped some kind of investigation, and gave Qin Tiange a shocked look.

"Back away, the time is not up." The old man said quietly and disappeared as if he had never appeared.

But the mysterious 'girl' did not leave, standing on the stone bridge, saying one word at a time: "Stone bridge, I stay, as a bridge to lead, and 'pay' to you for safekeeping, I have to enter in person. "

Hum!

As soon as the words fell, Sansheng Stone flew up, and suddenly merged into the body of the mysterious 'girl', becoming instantly more mysterious.

"Three souls, three lives, one!"

As soon as a panic spread, I saw the three dim figures instantly unite, turning into a whole, three lives and three lives in one, and a new strong man returned.

Qin Tiange was stunned. It was incredible that the three souls and three 'flesh' bodies could be combined into one person.

Click!

I saw that the stone bridge suddenly penetrated the nothingness and was erected here to form a bridge leading to the stone, penetrating the universe's yin and yang, and gradually disappeared.

"Why are you again, he, already ..." An old voice came, but was interrupted by the mysterious 'woman'.

"He's alive!"

The mysterious 'female' son had a firm tone, step by step towards the mysterious other shore, stepping on nothingness and destroying vainness.

There was a terrible breath all over and around. Wherever I went, the imagination broke through, and the powerful energy caused the other side of the void to tremble.

boom!

There was a roar suddenly, and the mysterious 'woman' was once smitten on the other side of the mysterious shore.

Just listening to the bang, Qin Tiange only felt that his consciousness was shocked, and when he was awake, he saw that a hole had been penetrated there.

The cave of the gray 'Mongo' is full of endless mystery. Pieces of horrible bones spew out from it, exuding the scorching weather, all the bones of the former strong.

“Wait, you drop me here when you bring me here. How can I go back?” Qin Tiange saw the mysterious ‘girl’ break into the other bank, and couldn’t help anger and sang loudly.

This mysterious ‘girl’ brought him here, and broke into the other shore by himself, leaving Qin Tiange here as if he had forgotten it.

He can come, all through the nothingness of the universe by the stone bridge, but he can’t go back. Qin Tiange’s anger was affirmative, didn’t he bring him here and discard it, and then wait to die?

“Well, I almost forgot.” The mysterious ‘girl’ stopped for a moment, stopped, and turned to look at Qin Tiange.

Just at a glance, Qin Tiange felt a kind of horrified ‘meat’ jumping. When he had no time to react, he saw that ‘woman’ child suddenly withdrew and stood in front of him.

The two looked at each other face to face, but Qin Tiange could not see through the mysterious ‘woman’ in front of her. There was a block of light and mist. The only thing she could see was the imprint of a three-life stone on her brows.

“Follow me in.” The mysterious ‘woman’ finished, and rushed directly into the other bank with Qin Tiange, and the latter was almost ready to hit her.

“You go and go, and bring me, ‘Mom’ bastard.” Qin Tiange cursed, his body suddenly broke out, and the big ‘Mom’ chaos power was swaying, covering the whole body.

With a sound of Qi Long, a terrible force emerged from the unknown shore, which directly defeated his defense and made Qin Tiange’s face green.

“broken!”

At the critical moment, Qin Tiange growled in a rage, his body swelled and turned into a body that was nine feet tall, with a group of ‘mixed’ chaos surrounding his body.

Each group of ‘mix’ chaos is a small ‘mix’ chaos, densely packed, and a total of 100,000 small ‘mix’ chaos are released by Qin Tiange, blocking the inexplicable forces around.

Looking at the terrible powers that drowned, the other side, a mysterious and terrifying area, was brought in by a mysterious ‘woman’.

“Open the sky!”

Qin Tiange yelled, relying on others to disregard himself, and gathered 60 trillion ‘mixed’ chaotic power in one punch, hitting directly and brutally.

To this day, Qin Tiange has for the first time burst out of his extreme strength, almost draining all the small ‘mixed’ chaotic forces in his body and turning them into a punch.

Just listening to the bang, a block that was invisible was penetrated by Qin Tiange, and cracks appeared strangely, and then they scattered.

In front of him, a hole really appeared, a weird hole was beaten, and the unknown barrier on the other side was broken.

“Nima ...” Qin Tiange had a frightened face. He just broke the barriers and glanced at the other bank. He suddenly turned around and ran away.

What he saw was scared away. The strange scream surprised the mysterious ‘woman’ with twinkling eyes, wondering what he saw.

“You hurt me!” Qin Tiange yelled, almost hating this mysterious ‘woman’.

What exactly did he see? It turned out to be so expressive. It turned out that Qin Tiange was about to enter the barrier, and a picture came from the real spirit, which directly captured him in the ten seconds after entering. In just ten seconds, hundreds of millions of possible future scenarios come to mind, each time it is a tragic death, a tragic death, a tragic death.

That’s right, it is a tragic death to enter, hundreds of millions of times of tragic death, let Qin Tiange directly turn around and run, it is simply deathless.

Hundreds of millions of future possibilities are all dead. The scene you see has no life at all, and you will die tragically after ten seconds. How could you go in?

“Come back!” The mysterious ‘female’ child drank softly, and the detective tried to stop Qin Tiange, but he was cleverly avoided by him, as if he had expected it.

“Well?” The mysterious old man who had disappeared suddenly appeared, and looked at the cave penetrated by Qin Tiange in amazement, his eyes twinkling with ‘fine’ light.

“Back down, Lao Shi said that he hadn’t arrived in the future, and that you can’t see him past, you don’t need to take him in.” ‘child.

The confrontation between the two breaths gradually subsided, and the mysterious ‘woman’ took a deep look at Qin Tiange, and eventually broke into the other side alone.

哐 Dang!

Rumble ...

There was a horror vision in the other shore, and there was a big war. It was a mysterious ‘woman’ who was going deep into the other shore and was looking for something.

Qin Tiange withdrew, looking scared, watching the mysterious ‘woman’ who entered it, cursing inwardly. He originally wanted to take him in and try.

try what? Qin Tiange didn’t understand, maybe only the other party really understood.

“Why, billions of years, why not?”

Suddenly, there was a desolate roar from the other side, and the mysterious ‘girl’ was struggling to fight in, but saw nothing.

What is she looking for?

Chapter 975 - Is she dead?

“She’s crazy?”

Qin Tiange looked horrified. Looking at the depths of the other side of ‘mystery’ and ‘monten’, the mysterious ‘girl’ was struggling to fight, and the sky’s thunder ‘‘ cross ’was weaving. ..

There is a terrible cosmic force of terrible cosmic force, constantly annihilating, blocking that mysterious ‘girl’.

Huh!

A troop of blades flew out, penetrating through nothingness, exuding a dim light, and remaining a trail of terror, cutting the vacuum.

Looking at the flying things, there are broken bones, shards of glaive blades, one by one, and they were blown out by a powerful battle in the ‘wave’.

Not far away, the mysterious old man frowned and looked deep into the other side.

“Old man, what is she doing?” Qin Tiange is a bit unclear. So, I feel that ‘woman’ is crazy.

The old man shook his head with a bitter smile, didn’t speak, and watched quietly, many powerful creature ideas were cast in and looked deep into the other side.

No one knows what’s in it, what the mysterious ‘woman’ is going through, or what ‘fierce’ he is fighting.

“She’s coming to an end ...”

“Is it the third world, has it ended like this?”

“Before the time comes, she’s impatient.”

Many hidden creatures issued their own sighs, and saw the mysterious ‘female’ son’s breath gradually disappear.

They knew that she was about to end, was robbed inside the other shore, had no successor, and was about to die in it.

boom!

“Billions of years, where are you!”

A stern shout came, and Qin Tiange trembled in his heart, seeing the ***** figure passing by, his body broken and almost broken.

Seeing such a clinging figure, he had some inexplicable sadness in his heart. Why is this so painful? Is it necessary to take such a risk?

Knowing that there is a terrible crisis in it, and one hundred percent fall into it, isn’t that you trying to kill yourself?

“Oh ...” A sigh came, and the old man slowly disappeared, muttering to himself: “This time I will fail again, and you will not be able to cut off a ray of things that you shouldn’t have when you return from the third century, Doomed to fight? “

A hint of helplessness and bleakness in that husky and old voice, unable to stop the mysterious 'woman' son, is equivalent to the loss of a Xeon.

What are they waiting for and planning? That powerful mysterious 'girl' broke into the other shore and eventually disappeared.

"She, is she dead?" Qin Tiange froze, watching all the visions that had gone out.

Inside the other side, an unpredictable atmosphere rolled over and a strong sense of crisis. Once involved, it is a consequence and death.

Before he glanced at it, the real spirit immediately poured out hundreds of millions of possibilities for the future, and that was tragic death again and again, and there was no way to live.

"I said, a 'woman' is unreliable."

"A sad person, III is trapped by herself, and she is crazy."

"Who will lead in this life?"

In the darkness of nothingness, eyes gradually receded, and those hidden horror creatures disappeared.

They all hide with a bit of bitterness and desolation, as if they saw the mysterious 'girl' son die.

She sublimated in the other bank, blooming the most dazzling brilliance, and finally went dark and ended.

Hum!

The stone bridge trembled abruptly, sending a burst of wailing, as if crying to tell his master that he had died.

"Hmm ...!" A husky sigh came, awakened Qin Tiange, and saw the old man disappearing, and was immediately anxious.

"and many more!"

Qin Tiange shouted at the old man and asked, "Old man, can you tell me what secrets there are and why ..."

"Mo asked, Mo said, you just need to be clear, just have a pair of eyes looking at the entire universe." The old man waved his hand, a mysterious breath permeated.

With a click, a channel emerged from behind Qin Tiange and was directly drawn into it, disappearing here in a blink of an eye.

"Time is running out, and those blindfolded eyes are about to wake up. At that time, when the cleansing comes, no one can escape."

The faint voice kept echoing 'swinging', making Qin Tiange's heart heavy and a little annoyed, one by one, weird and mysterious.

Mysterious other shore, everything unknown, the big universe is looked at by a pair of eyes, what is going on?

“The bastard, each one is mysterious and mysterious.” Qin Tiange cursed, was drawn into the passage, and flew out of the land on the other side.

With a bang, Qin Tiange’s entire person was thrown into the deep space of the universe. In the darkness, a mist of nothingness ‘mystery’ was scattered.

Qin Tiange stood up a bit embarrassed, watching the ray of connections in the meditation, and had intercepted a ray of information from the other side.

His eyes became weird, and all the fright, anger, and depression before him had disappeared, and there was a calmness in its place.

“The other side, the mysterious old man, the awakened ‘woman’ of the third century, the hidden creatures, they want to hit the other side?” Qin Tiange said to himself, thinking about everything he had encountered before.

One mysterious, unknown, and powerful creature wants to impact the other side to fight out. Is it possible to get out of the universe when you hit out?

Before, the scenes of the earth books that were seen were broken in the other bank, and there was another scene that Qin Tiange did not dare to survive, that is, the scenes of the human books being broken.

“A pair of blindfolded eyes ...” Qin Tiange suddenly looked up, looking at the deep space of the universe, his eyes twinkling, and his thoughts quickly.

The old man’s last sentence made him guess a lot, with a pair of eyes above the universe staring at the entire universe.

However, those eyes were “blinded”, which is why some supreme taboos in the big universe want to penetrate the other side and kill the big universe.

It is a pity that after many failures, numerous powerful creatures were buried in the other bank, and no one succeeded.

“No, the ‘woman’ said, one person succeeded.” Qin Tiange remembered suddenly, the ‘woman’ in the Sansheng Stone said that someone had succeeded.

Who has successfully hit the other bank, is it the person who hit out, masked the eyes of the so-called overlooking the universe, and won time for the strong in the big universe.

“Forget it, I haven’t reached this level yet, I don’t need to think about these problems.” Qin Tiange shook his head to cut off these thoughts with a bit of bitterness.

The more chaotic the idea is, the more it becomes a potential threat. You can cut off directly and go further without thinking and touching these things.

call!

Qin Tiange moved his lower body bones and felt that the 60 trillion small 'mixed' chaotic forces in his body were exhausted, and he felt almost empty 'swinging' and 'swinging' very uncomfortable.

He smiled bitterly and cursed: "Somehow he was taken there and walked around, but he almost couldn't return, and exhausted all his power."

Fortunately, the strength of the large 'hybrid' chaotic elemental tyre in the body has not yet moved, and the recovery of the small 'hybrid' chaotic elemental power must rely on the 'hybrid' chaotic elemental tyre.

After a full month, Qin Tiange finally recovered the consumption of all the small 'mixed' chaos in the body, and felt that after the small 'mixed' chaos of individual cells recovered, they became more extensive and powerful.

Perhaps this is the growth after consumption, Qin Tiange thought, should I come to consume it a few times more clean, and then temper the small 'mixed' chaotic growth?

"There, I can't go for the time being, accumulate strength. In the future, I must find out. The most important thing at present is to cultivate for improvement and accumulate my strength."

Qin Tiange talked to himself, walking step by step in the deep space universe, walking, he was a little hesitant, because it is not clear where.

"Where is this?" Qin Tiange looked at the question mark, looking at the distant origin of the distant place, which is no longer the origin of the Milky Way.

This place of origin is surrounded by tens of thousands of huge galaxy clusters. It seems that many origins have been separated here.

Some huge galaxies even have a strong breath, as if they can reverse the origin and return to the origin and become the origin of the origin?

However, this is impossible. Qin Tiange knows very well that the separated origins cannot be restored to the original state after becoming a galaxy.

Unless this galaxy can grow into another place of origin, unfortunately it cannot exist.

"Where is the Milky Way?" Qin Tiange frowned secretly, constantly sensing and searching, but couldn't find the original place where the Milky Way was.

Here, it is a completely unfamiliar region of the universe, and it is not clear where he fell, which annoys Qin Tiange.

"Well, is this?"

Suddenly, Qin Tiange spread his palms, and a faint strand of strange sensations woven into it, gradually becoming a strange connection.

Qin Tiange was surprised by this connection. Then a surprise came out of 'Lu', because this connection was a bloodline connection.

In addition to the purple clothes, Qin Tiange also has another blood-line connection, that is, the demon's 'fine', the mutant Lilian 'flower'.

"It's Lianer's breath ..."

Qin Tiange's face flashed a movement of 'excitation', and finally found the connection of this bloodline, even in this unknown place of the origin of the universe.

Apart from that, Qin Tiange directly exploded the speed, tearing off the deep space barrier of the universe and stepping away step by step.

It didn't take long for him to come out of this original place and watch the tens of thousands of galaxy clusters flying around him.

As if clusters of galaxies emerged on a plane, you can grab these clusters with just one hand.

Qin Tiange stood here, and through careful induction, he quickly determined that the blood connection of the little demon's "fine" was in this vast and terrifying place of origin.

However, before entering, Qin Tiange felt that there was a terrible atmosphere in this place of origin, all of which are taboo creatures.

Although hidden well, after returning from the other side, Qin Tiange had a more sensitive sensing ability, capturing these hidden breaths.

"I don't know what happened to her. Didn't the little demon 'Jing' come out with Chen Xi?" Qin Tiange said to himself, only feeling the little demon's "Jing" breath.

As for the breath of Chen Xi and others, but not, this is a bit incomprehensible, are they separated?

Hiss!

Qin Tiange didn't think much about it, shredded and broke the barrier of the origin, stepped into it, and came to the central area of the origin.

As soon as he arrived, he was swept by a tyrannical idea, firmly locking him in.

Chapter 976 - Qinglian, father and daughter meet

"Back off, my, I don't want to hurt you ..."

A domineering thought swept over, and a warning was passed directly, with a faint tone of conviction.

As soon as Qin Tiange arrived, he was locked by this will and issued a warning to let him leave this area.

But he did not leave, but looked around quietly, turned out to be a gray Dead Sea, in the mist, blossoming lotus flowers, extremely charming, spitting a ray of glow.

There are maggots transpiring around, and the fog is rolling in the air, as if entering an unreal world, looking dreamy and unreal.

Da ...

Qin Tiange stepped out, walked on the smoke waves, looked at the blossoming lotus flowers around, exuding an amazing aroma, all of them are rare spirits.

He even saw a lot of lotus seeds on the lotus platform. The aroma was fragrant, the aura was dazzling, and there were amazing energy fluctuations.

“Human race, stop!”

A cold voice came, and a mist surged into a wall, blocking Qin Tiange’s way forward.

On Thursday and Monday, the blossoming lotus suddenly came around, surrounding Qin Tiange as much as possible, exhaling a mist of air, and turning it into an extremity.

There is a taboo creature hidden here. He warned Qin Tiange twice and finally shot to block his way and not let him set foot in this area.

But the taboo creature didn’t mean to hurt Qin Tiange, which surprised him that all taboo creatures are fierce machines.

“I’m here, find my daughter, get out, I don’t want to use force.” Qin Tiange stood there, his breath gradually exuding.

The words came out, and the lotus trembled slightly around, emitting a ray of light, interwoven into a prison cage, and locked Qin Tiange.

Looking at such a scene, Qin Tiange shook his head, his body shook slightly, a loud muffled sound came, and chaos surged.

Just listening to the noise, the fog in front of it was shattered and annihilated, and the blockade of the light was directly collapsed, exposing the passage.

Huh!

Qin Tiange stepped over and stepped out of this cage, but saw an astonishing light coming from the front, breaking through the void.

It was petals, and colorful lotus petals were flying around Qin Tiange, turning into a kind of shocking killing and severely cutting Qin Tiange’s body.

The sound of a gurgling collision came, Qin Tiange’s body remained motionless, and a wave of chaotic gas boiled and coiled outside, smashing all the petals that had come apart.

He walked step by step on the smoke waves, wherever he passed, all the flying petals shattered and annihilated, and were smashed into powder by chaos.

call...

Suddenly, the petals fluttered in the sky, and a hazy blue figure appeared in front of it, looming, giving a very mysterious atmosphere.

Qin Tiange looked at this sudden figure, and a slight smile suddenly appeared on his face, so he looked at this figure.

“Don’t retreat?” A word came from the hazy figure, a trace of icy coldness.

But Qin Tiange’s next sentence broke the cold atmosphere.

“Lianer, don’t make trouble,” Qin Tiange said with a smirk.

Suddenly, the grey mist around the cyan figure in front of it suddenly spread out, revealing a peerless woman with a blue dress and a blue lotus mark on her brows.

“I’m not Lianer. My name is Qin Qinglian. Who are you?” The woman in Tsing Yi shook her eyes, exuding a hint of horror.

Qin Tiange rolled his eyes, and a strange connection on the palm told him that the Tsing Yi woman in front of him was a little fairy, a unique connection from the bloodline.

In the past, Qin Tiange irrigated that mutant lotus with his own blood, which in itself amounted to a bloodline connection.

Even if Qin Tiange releases the mark of the true spirit, he has the blood mark, so the person in front of him is a little fairy.

She is exactly the lotus of the past, little fairy!

“Naughty!” Qin Tiange smiled, stepped forward, and flicked her smooth forehead with a finger.

“Hee hee, Dad, why are you here ...” The girl in Tsing Yi, the little fairy smiled sweetly, shouting a long-lost title.

She stepped forward and held Qin Tiange’s arm, her smile was bright, and she was extremely excited and happy. She never thought that Qin Tiange would be here. She was the little fairy of the past.

After a long time of reunion, the father and daughter finally met again, looking at the grown-up goblin, in a Tsing Yi, with a grey lotus mark imprinted on his brows.

Qin Tiange had to be sighed. The old little guy had grown up and became a big girl like Ziyi.

“Lianer, finally found you, why are you in this place?” Qin Tiange was happy, but quickly asked in doubt.

Why is the little fairy in this place of origin, and it seems that she has undergone a wonderful change and her strength is unfathomable.

Qin Qinglian’s eyes flashed bright, and she suddenly beaked her mouth, and was a little unhappy: “Dad, I was traveling with my mother in the sky, but suddenly I was taken away.”

“Who?” Qin Tiange flashed a chill in his eyes, his heart surging, and he intentionally or unintentionally looked at a certain area ahead.

Qin Qinglian’s eyes turned round and she hummed, “Daddy, that’s the hollow lotus in it, it will bring me here.”

“Oh, isn’t my daughter talking?” Qin Tiange’s face was calm, but his eyes flashed with a hint of danger.

Someone robbed his daughter. How could Qin Tiange tolerate it? He still stole it from Chen Xi. Chen Xi must be sad and blame herself.

This alone is enough for Qin Tiange to be angry and make his woman sad, no matter who it is, give it a try before talking.

“Uh ... he, is your dad?”

In the mist, suddenly an old word came, and saw a void lotus platform rooted in the space, the root system penetrated the layers of space and time, and even penetrated into the realm of the sea.

The whole lotus plant is full of ethereal air. It looks right in front of you, but it is not here. There is a mysterious space force permeating.

“Holly lotus, it’s interesting. You took my daughter away. Today, this account must be settled.” Qin Tiange said to himself, Qing Lian quietly let go of his arm and backed slightly.

Suddenly she grimaced at Hollow Lotus and looked at it with a smile, as if watching a good show.

“Are you sure, she is really your daughter?” The hollow lotus trembled slightly, and a mighty voice came out with a hint of surprise.

It’s really surprising. There is a urge to syncope. You say that you are a human race, how can you give birth to a daughter like a fairy?

“Is it my daughter, I have the final say.” Qin Tiange snorted, blinking in one step, and raising his hand was a split in the palm.

With a bang, the space exploded, and a terrible storm burst out of nothingness. A strong palm directly penetrated the space-time barrier.

Suddenly, Hollow Lotus made a strong shock, bright light, fast dodge, and some were embarrassed.

“Wait, misunderstanding ...” Hollow Lotus exclaimed, feeling Qin Tiange’s horrible power and immediately explaining.

But it was greeted by a simple fist that interrupted the two root systems with a bang, scaring the hollow lotus strangely.

“Lianer, hurry up, tell your father to stop.”

boom!

“Oh ... it hurts me ...”

boom!

“Ah, don’t fight!”

A scream came from nothingness. In the central area of the source, a horrible hollow lotus was brutally beaten, with one punch and one palm breaking its root system, and the petals fluttered.

The scene was so miserable and so miserable that Qin Qinglian couldn't bear to look directly at it, and was really miserable by Qin Tiange.

After a full hour of fighting, Qin Tiange finally clapped his hands and walked back, leaving the scarred, dying hollow lotus.

"Lianer, you killed me." Hollow Lotus burst into a weeping cry, almost hiding her face and escaping.

"Anna, Ann, just a little trauma, my father can't really hit you seriously, don't pretend." Qing Lian came up with a smile and didn't care.

As soon as the words came to an end, Hollow Lotus shuddered, and then the breathlessness disappeared instantly, and the original appearance was restored.

It was a little embarrassing and shrouded in light, and soon turned into an old figure, a large beard, like a dense root system.

He was a hollow lotus, transformed into a person, and looked at Qin Qinglian bitterly, then looked at Qin Tiange depressed.

"People, you don't have to use such a heavy hand. What the old man says is to help your daughter reshape the origin, to cultivate her talent with huge origin energy. There is no credit or hard work." The old man said with a sullen expression.

Qin Tiange calmed down after a meal laughed: "I didn't hurt you, but you suddenly took my daughter away and made me and her mother worry, this account still has to be calculated . "

The hollow old man rolled his eyes, almost fainted, and exclaimed: "You and your husband are a virtue. My old man was not willing to take it away, if it wasn't your wife threatening ..."

"Well, I wouldn't bother to help you if it wasn't for the talent of Lin Er." The old man was awkwardly covering something.

Qin Tiange looked weird and looked at Qinglian and asked, "Lianer, what is he talking about?"

"Uh ... that, Dad, it was actually his mother who threatened him. He wanted me to take root in the original mutation, so ..." Qing Lian said, lowering her head carefully, watching Qin Tiange, afraid he would be angry. .

After hearing this, Qin Tiange couldn't help crying or laughing. Chen Xi threatened people. How he threatened him was not clear.

"Where is your mother?" Qin Tiange frowned suddenly and asked.

Qin Qinglian froze and said, "Father, didn't your mother ask you to come and pick me up?"

"At first, my mother said that my father would come to pick me up ..." Qing Lian said, feeling wrong.

Qin Tiange frowned even more, which was a bit weird. What did Chen Xi threaten a taboo creature with?

Thinking of this, he looked sharply at the hollow old man and asked, "Honestly explain how my wife threatened you at first, you know, you are a taboo creature."

"This ... can't say it?" The hollow old man was embarrassed and difficult to open his teeth.

"Say!"

Qin Tiange stared at it, staring at it. If he dared to hide it, it might be a real violent meal.

Chapter 977 - Chen Xi changed?

"I was defeated by her ..." The hollow old man looked depressed, his old face blushed, and looked back, as if he had been mistreated.

This made Qin Tiange's brain go down, as if thunder was rolling, and he almost thought that he had heard it wrong. This hollow old man was defeated by Chen Xi?

"You said, you were defeated by my wife?" Qin Tiange looked at the question mark and looked at the goblin.

Qinglian blinked with big eyes and nodded and said, "Yeah, dad, mother-in-law defeated it, and then looked at the roots in its old nest, which made me take root here."

"Your mother, defeated it?" Qin Tiange stunned, pointing at the hollow old man, and he must be a taboo creature in his heart.

Generally, the ancient strong man may not be his opponent, but how Chen Xi defeated him makes Qin Tiange feel weird.

"Daddy, my mother seems to have changed." Qing Lian frowned suddenly, saying the news.

This resembled a thunder, exploded in Qin Tiange's heart, his face changed, almost why.

He frowned slightly and asked, "Lianer, tell me, how has your mother changed, hasn't it ..."

"Dad, what do you think?" Qing Lian couldn't help but give him a glance, explaining: "My mother seems to have become a person, and I always feel like a stranger."

"You talk carefully." Qin Tiange looked serious, took Qing Lian aside and listened to her explanation.

Qing Lian recalled and said, "In the beginning, I followed my mother and many people went to the starry sky, riding my father's horse to enter the starry sea, and searching for his father's breath along the way."

"Later, we broke into a restricted area of the universe. We lost a lot there and almost couldn't get out. Later, my mother suddenly broke out a terrible force and leveled the creatures in that restricted area. Finally, I slept for a full year. "

Qinglian said word by word, since she entered the starry sky, she has encountered many things.

Later, because he entered the restricted area by mistake, causing heavy losses, even Chen Yun was seriously injured. In the end, Chen Xi seemed to be stimulated. It was not clear what was going on. He suddenly awakened a terrible force and leveled a universe restricted area.

After that, Chen Xi slept for a full year, and when she woke up, she seemed to be alone, with a sense of strangeness.

“My mother-in-law seems to have awakened some ancient power. Although she is as usual to me, she always feels a little stranger, especially she seems to be reluctant to mention father and you.” Qing Lian said this very easily. Unhappy.

She thinks that if you have great power, you don’t need your own father? Because of this incident, Qinglian and Chen Xi were suffocated for a long time. Finally, Chen Xi brought Qinglian to the hollow old man, which is this taboo biological hollow lotus.

Let him take Qing Lian, come here to sink into the source, use the source to transform, and then explain that Qing Lian’s father will come to pick her up and disappear.

After listening to Qing Lian’s remarks, Qin Tiange was silent, and his heart had been faintly guessing, Chen Xi must have awakened an ancient force, or memory.

“Dad, have you quarreled with your mother, why didn’t you see her?” Qing Lian Qiao’s face flashed a dark look.

Qin Tiange patted her fragrant shoulders and comforted him: “Stupid girl, don’t think about it, your mother must have awakened the ancient strength and memory. It’s a bit unclear. Maybe she needs to calm down.”

“Is that so?” Qing Lian tilted her head, but was a little unhappy. “Did you wake up with some memories and strength, then you don’t need Dad and Lian Er?”

“Huh ...” Qing Lian swelled, and she is still angry now. The mother and daughter seemed to be suffocated for a long time.

Seeing this, Qin Tiange is a bit bitter. He is not a qualified father, nor is he a qualified husband. He has a lot of guilt to Chen Xi.

“Well, don’t worry, I will get your mother back.” Qin Tiange comforted and promised.

Not far away, the hollow old man looked depressed and cursed inwardly: “The two husbands and wives are a virtue, they kill and kill at every turn, and almost remove my old bones.”

The word “Hollow old man ...” came, making Hollow old man tremble in heart, looking at Qin Tiange awkwardly, a little scared.

I only listened to Qin Tiange with a smile and said, “Thank you for helping Lianer rebuild her body. She can be here today, thanks to the cultivation of your origin.”

“You’re welcome, you’re welcome!” The hollow old man trembled, afraid to take credit.

He knew very well that the more this happened, the more problems there might be, so be cautious, the emperor would not get along well.

“Yes, what did my wife tell you before leaving?” Qin Tiange pondered for a moment and asked.

The hollow old man froze and fell into the memory, and then said, “In the beginning, when your wife came to look for the old, she said, after that, her husband came back to find his daughter, so I can wait and rest assured. Tell you a word ... “

“What?” Qin Tiange blinked his eyes.

Just listening to the hollow old man thinking for a while and saying, “She said at the time, where to go. If I saw you and told you, if I wanted to find her, I would break this era ...”

“Break this era?” Qin Tiange stunned, echoing this sentence in his heart, breaking this era.

A memory emerged from his mind. In the old man’s tomb, the power from the ancient era struck down.

Moreover, there was a force in the meditation to help him stop, and now suddenly hearing this, there was a feeling of enlightenment.

“Is Chen Xi in an ancient era?” Qin Tiange’s face changed slightly, and he suddenly had this speculation.

There are barriers in the era. There are barriers in the era. Breaking the barriers of the era, stepping into the ancient times, entering the ancient times, and entering the ancient times such as the ancient times, the ancient times, the ancient times, and the ancient times are just the division of the times.

The division of epochs is different, like an older place above the times, such as the previous epoch, such as the first, second, third, fourth, fifth era, and so on.

Each era is different, such as Li Luo, from the first era, has been left to this era.

Is it possible that Chen Xi has entered the ancient era?

“The times are so broken, the era is hard to find ...” Qin Tiange said to himself, dull in his heart, Chen Xi may be in an era.

But he knows that the barriers of the age are easy to break and the era is difficult to find. It is easy to break the barriers of the age and enter various eras.

But once you want to find the breath of the ancient era, it is really difficult to break the barriers of the era.

Times and epochs are different. This makes Qin Tiange feel heavy and has a sense of urgency. Chen Xi must be hiding in an ancient epoch.

Now the question is, in which era is Chen Xi, otherwise he is so busy looking for, Qin Tiange said that he is Alexander.

“Daddy, what happened to the mother?” Qinglian had a bad hunch and asked anxiously.

Qin Tiange shook his head and chuckled: “It’s all right, your mother is in a certain era, but I haven’t identified and found it, so I won’t see your mother for the time being.”

“Okay, then when should we go and ask my mother to kiss them?” Qing Lian’s thoughts appeared on her face. Although she was angry with Chen Xi, she still missed Chen Xi very much.

Qin Tiange patted Qinglian’s incense shoulder, and it is not clear how to say it. He cannot decide to find the entrance of the ancient era.

“Wait a minute first.” Qin Tiange sighed, but only slowly. There is currently no way to find the entrance to the epoch.

Since he embarked on the road of emperor, he must go to the end, otherwise what would it be to leave the whole human race?

“Lianer, go, come home with me.” Qin Tiange stood up and took Qinglian home, but suddenly stopped.

He turned to look at the hollow old man, scaring the latter with a shock, his body shivering, and his complexion changed.

“Would you like to go back with me? After all, you have kindness to my daughter and be a benefactor. I naturally don’t want you to fall after the great cleansing.” Qin Tiange’s tone was calm, as if he was saying something very ordinary. thing.

But for the hollow old man, this is like a thunderstorm. The cleansing of the universe is a horrible disaster. Everyone is afraid, and taboo creatures are no exception.

“Then, let me go with you.” The hollow old man looked bitter and had to follow Qin Tiange to leave here.

They said it very clearly. Looking at his tone calmly, he was telling him that not walking might be dangerous.

“I said, emperor, can you not always threaten me as an old man, neither your wife nor you, I am almost scared to death by your husband and wife.” The hollow old man muttered with dissatisfaction as he followed Qin Tiange. Qin Tiange didn’t speak, Qing Lian said with a smile: “Boss, don’t worry about it, my father is all right, but nothing to you.”

“Okay, good!” The hollow old man couldn’t help rolling his eyes and muttering in his heart, the husband and wife were the fiercest, and it was strange to be good.

“go!”

Qin Tiange smiled, and the explorer tore open the dark side of the universe, directly hitting a chaotic force to envelop Qinglian and the hollow old man, and the three entered the sea of bounds.

boom!

When he first arrived in Jiehai, the hollow old man almost scared. He actually entered Jiehai, but it couldn't do it.

“Very powerful!” The hollow old man trembled in his heart, watching Qin Tiange's understatement tearing the barriers of the sea and entering the ten-dimensional space-time.

Suddenly, a stellar atmosphere rushed towards the face, and the three of them blinked through the layers of time and space and returned to the four-dimensional universe.

Looking at the familiar four-dimensional cosmic starry sky, Qin Tiange had a long-lost illusion, and sighed slightly, no wonder Chen Xi and others could not be found.

“There is the Milky Way, Lotus, let's go home.”

Qin Tiange took Qinglian, followed by the hollow old man, followed closely step by step, the three entered the galaxy.

Looking at the familiar Milky Way galaxy, Qing Lian had a sense of sorrow, and after a long absence, she finally returned to this familiar place again.

“Huh? This breath ...”

Upon returning to the Milky Way, Qin Tiange suddenly stopped, his brows were deep, and he suddenly looked up at the unknown place in the midst of darkness.

He suddenly caught a familiar atmosphere, coming from the barriers of the age, and a strong call came.

“Li Luo's information!” Qin Tiange's expression changed slightly.

It was Li Luo's breath, sending a message of help, she was in trouble!

Chapter 978 - Thriller, sinking in antiquity

In the bewildered land, there was a terrible wave that filled the turbulence of the deep space of the universe and woke up many creatures.

“what happened?”

“Why is there a palpitation?”

Some taboo creatures were awakened, panic-stricken, and had an ominous premonition in their hearts, as if the wave made them palpitated.

Many creatures have focused their eyes on the nothingness, an invisible barrier, where the source of the wave came.

Above the Milky Way, Qin Tiange, Qing Lian, and Hollow Old Man stood there, staring suspiciously at the terrible, boiling and terrifying atmosphere.

“Is it because of the barriers of the times that there have been changes in ancient times and other places?” The hollow old man looked terrified and felt a sense of apprehension.

Qin Tiange frowned, because he had just caught the breath of Li Luo, and there was an urgent signal for help.

“Li Luo asked for help, what happened?” Qin Tiange was solemn, without any delay.

“Lianer, hollow, you are waiting for me here.”

Leaving a word, Qin Tiange stepped out, tore the barriers of time and space, and went directly to the source of that strange wave.

In front of it is a barrier of the times, and suddenly emerged autonomously, with terrible and chaotic energy raging, and the atmosphere of peril.

“How did the barriers of the age appear?”

“What happened inside?”

The universe is dark and deep, and a series of terrible waves come. There is a forceful will sweeping over here, watching the barriers of the times appear automatically.

There was a wave of terrible energy inside, like a calamity, raging and destroying inside the barriers of the era, creating a terrible scene.

“Do not...”

A roar came over, and it came out through the barriers of the times, which shocked the strong, and many powerful creatures were frightened.

Looking at the barriers of the age, I saw a dim figure, and it was very strong, struggling hard, trying to break through the barriers and rush out.

Unfortunately, this powerful figure was suddenly drowned by a mighty robbery and completely buried in the barriers of the times.

“That’s the ancient strongman, dead?”

For a while, everyone stayed, even some forbidden creatures were a little bit chilled, how could the powerful ancient strong men die?

Moreover, the death is unknown, and it seems that the situation is terrifying. I want to break back the barriers of the age, but where did he die.

“Ancient change has taken place?”

Qin Tiange’s expression was dignified, his body suddenly boiled, his arm waved, and his fist condensed with terrible power.

With a loud voice, the barriers of the era were penetrated, and a hole emerged, but what he saw was the roar of roaring power roaring and drowning all things.

Seeing this mighty robbery, Qin Tiange couldn't help but be taken aback. How could there be such a terrible robbery in antiquity?

His true spirit will continue to vibrate, sensing the breath of Li Luo, and a little bit sense of Li Luo's breath through this hole.

But there was too much chaos, a wave of violent robbery swept the world, and the ancients were horrified by horrific calamities.

“Big robbery, isn't the big cleansing ahead of time?”

There are powerful creatures appearing. Looking at the terrible scenes in the barriers of the times, they are shocked and a little apprehensive.

Isn't that the smell of a catastrophe? Perhaps the purge was started ahead of time. The first one to suffer was not here, but in ancient times.

“Large cleansing, ancient times to be cleaned?”

“This time, it seems different.”

One after another mysterious and unknown creatures appeared quietly, all watching this incident, a great change from the ancient times, causing their attention and vigilance.

It seems that antiquity is experiencing an unprecedented disaster, and the creatures hiding in it are being cleaned by terror.

“Hmm ...”

A roar came out, faintly seeing a terrifying Tianlong roaring loudly, breaking through the barrier and trying to fight.

It was an ancient dragon, extremely tyrannical, with a huge body that seemed to be able to overwhelm the universe once it came out.

The terrible ancient Tianlong was struggling hard. His body was swayed, and the claws of the dragon hit the barriers of the times fiercely, making a terrible hole and making a terrible hole.

It broke through the barriers in ancient times, and a terrifying dragon head protruded out to get out of ancient times and come here.

“Oh ... no ...” Suddenly, the ancient Tianlong was frightened, and opened his mouth to make a sorrowful roar.

Long Yin shook the sky and shook the universe. Many powerful creatures saw this scene, and a dragon head was found out of the barriers of the era.

But soon, the dragon's head clicked and broke, and the giant dragon's head fell inexplicably, and the blood of the dragon was filled with the deep space of the universe.

Miserable, weird, a terrible ancient dragon, overbearing, has drilled a head out of ancient times, but broke his head in front of countless souls, and died tragically here.

It died, and even the dragon spirit was not left behind. It was wiped away by a mysterious force and completely disappeared.

“It was actually obliterated.” Qin Tiange was shocked, looking at the falling dragon head, horrified.

How powerful such an ancient dragon is, it is unclear why it died like this, which is really creepy.

“Ancient times are over, run away.”

A roar rang out from the barriers of the age, and there was a roar of the Xeon’s antiquity-level strong, broke through a certain barrier, and escaped into the older era.

But some souls are not capable of breaking through the barriers of the older era, so they can only escape.

Boom boom ...

One by one, tyrannical ancient creatures, madly attacked the barriers of the era, and wanted to get out of it, but a scary scene appeared.

“what...”

“I don’t want to die!”

Among the barriers, the crazy ancient creatures roared in horror, uttered a scream of wailing, their bodies were broken down a little, and finally disappeared completely.

These ancient creatures are very strong, but they can’t do it when they want to escape, and they are killed by inexplicable decomposition.

How can such a terrible scene not be frightening, even forbidden creatures can’t help panic.

boom...

With a dull and loud noise, as if a world sank, a horrible sound was made and spread to the deep space of the universe.

Qin Tiange didn’t pay attention to these, but erupted his own true will, constantly searching through the chaotic antiquity, looking for the breath of Li Luo.

“I found it!” Finally, Qin Tiange opened his eyes and burst out two horrible rays, locking the chaotic and collapsed ancient times, a hazy figure.

That is Li Luo, trapped in the ancient times, suffered a terrible calamity, endless catastrophes flooded her, drowned her, and wanted to wipe her out.

Li Luo emits a hazy chaotic glazed light outside the body, blocking the erosion of the calamity, but has lost its direction, without induction, cannot break the barriers of the times.

She issued a call for help in the hope that Qin Tiange would receive it, but now it seems hopeless.

“Can’t you get out?” Li Luo looked very calm, looking at the ever-sinking ancient world, and a piece of majestic antiquity sank like this.

Throughout the ancient times, an unprecedented catastrophe was encountered. The creatures hiding here ushered in an unexpected catastrophe, and the purge of cleansing came in the ancient times.

No one had expected that ancient times were the first to be cleansed, and countless ancient creatures died tragically and could not even escape.

Only a few powerful people broke through the barriers of the older age and hid in them.

The entire antiquity has been facing disintegration, and is even slowly sinking. Once sunk, there will be no antiquity in the future.

Hum!

At this time, a familiar wave came, which made Li Luo's spirit startled and looked at a certain hazy and chaotic area.

There was a powerful force ripped open a barrier, and thundered through the passage here.

"Imperial!" Li Luo Qiao's face was pleasantly surprised, seeing that passage was penetrated, the familiar atmosphere from the outside made her feel at ease.

The visitor was Qin Tiange, who stepped through the barriers of the times step by step and cut through the area passage where Li Luo was trapped.

"Li Luo, come on!"

Qin Tiange punched it out and saw Li Luo trapped there. He immediately yelled and struck a strong force. The chaos was turbulent, and it was laid out in a tumultuous way. It turned into a chaotic channel and extended to Li Luo.

Without hesitation, Li Luo stepped into the chaotic channel and was about to come to Qin Tiange's side, and the whole channel vibrated violently.

Bang!

With a terrible roar, the chaotic channel was broken, eroded and melted by a terror force, and instantly destroyed.

The passage collapsed, and Li Luo's body fell into a tumultuous calamity. The endless calamity was vast and overwhelming.

Once you fall into it, you can't find it anymore. Qin Tiange furiously shots, splitting up a mist of robbery in front of him, Qin Tiange blasted away With that barrier in mind, Li Luo was seen being bombarded by a force from an unknown area.

Just listening to the crackling sound, Li Luo's body cracked, and the face cracked as if the glass was cracked.

"Li Luo!" Qin Tiange opened his eyes in anger, bursting into a roar, and there was a force of violent chaos in his body.

"Huang, let's go, I might not be able to go out ..." Li Luo looked sad, his eyes lingering.

As a last resort, he hid in antiquity, but suffered a lot of calamities. Before he stabilized, he suffered a terrible change. The antiquity was robbed and he was going to sink.

Seeing that he couldn't get out, his whole body seemed to be suppressed and worn away by the force of this calamity. Li Luo had no strength to stop him and couldn't get out.

Click!

A shard flew from her face, wandering in the mighty robbery, and quickly disappeared into a ash.

Seeing here, Luo Luo shattered bit by bit, Qin Tiange's heart was like a knife twisted, and the chaotic elementary body in the body, despite the wear and tear, burst out of a force beyond the current limit.

"Great chaos, heaven!"

Qin Tiange incarnates a horrible giant, emits a roar, and waves an ancient sword to split through the immense robberies and cuts his life.

The powerful sword even split the ancient times into two halves, causing the ancient times to sink into a faster sinking, rumbling sinking into endless emptiness.

call!

One hand came quickly, wrapped with five fingers, protecting the broken Luo Luo, and quickly retreated.

Bang!

As Qin Tiange retreated, the entire ancient times instantly collapsed and disintegrated, slowly sinking into the obscurity of nothingness, completely disappearing.

Antiquity, sink!

Chapter 979 - No light, no future

boom!

The barriers of the times collapsed, and a figure of one hundred feet flew from the inside, encircling a terror arc, with cracks interlaced and blood faint.

It was Qin Tiange, with a gloomy expression, and a broken figure guarded on the palm of his hand.

At this moment, Li Luo's situation is a little bad. After being transformed by Chaos Spring Eye, he was already very powerful, but now it is crashing.

"Great chaos, reversal!" Qin Tiange drank, swallowing a mist of chaos in his palm, an influx of violent chaos essence poured in.

He directly blasted out thousands of small chaos in his body, and turned it into Li Luo's body, stabilizing the danger of her collapse.

Li Luo's body was fragmented at this moment, and he was in danger of being disintegrated and disappearing at any time. The situation was not good.

Since hiding in ancient times, Li Luo has been suppressed by an inexplicable force. It seems that there is a force to suppress her growth, and it seems that she cannot continue to improve.

Antiquity is a kind of restriction. Originally, Luoluo should not have entered the antiquity. It was the path of taboo, but he could hide in the antiquity, which had to be suppressed.

Because of being suppressed by the inexplicable forces in the ancient times, and even annihilating the forces, it was impossible to recover, which made Li Luo increasingly weak. This time, he almost buried the ancients.

The entire antiquity was suddenly cleaned and sunk inexplicably, causing countless antiquity creatures to die one by one, and they could not run.

boom!

A shock came from the deep space of the universe, and a wave of shaking came from the darkness, causing panic among countless creatures.

The powerful men of the universe are horrified. Looking at such a terrible phenomenon, the barriers of the era have completely collapsed and disappeared, and many huge fragments have fallen from the inside.

“It’s over!”

Some forbidden creatures are silent, watching the huge fragments that are constantly falling into the deep space of the universe, contaminated with pieces of ancient blood, which are left over by ancient creatures.

Among these ancient fragments, there are many broken bones, which were disintegrated and worn away a little, and gradually fell into ashes after falling into the void of the universe.

boom!

One of the huge fragments suddenly smashed and turned into an endless radiance, a little bit of light disappeared, indicating the end of ancient times.

In the ancient times, a sanctuary, a cage, and just disappeared under the eyes of countless creatures in the universe.

“Imperial ...”

At this point, Li Luo gradually awakened, watching Qin Tiange’s self-destructing small chaos evolved into chaotic essence to conserve her wreckage, and she felt moved.

“Don’t talk, stabilize your injuries and recover your body as soon as possible.”
Qin Tiange looked dignified and burst out one chaos after another.

In exchange for a pure chaotic spirit, poured into Li Luo’s body, helping her clean up the raging force of robbery.

This force is terrible. Even with ancient times, it was dismembered and sunk. It is a disaster of extinction and it has overturned the ancient times.

With Qin Tiange’s explosion of more than 10,000 small chaos, Li Luo finally got rid of the crisis and gradually recovered.

With Qin Tiange’s help, Li Luo quickly repaired the body, and the chaos spring spewed out a strong stream of chaos essence.

“Li Luo, the ancient times are a wrong way. Now, cut off all the information and energy of the ancient times, transform yourself, transform one side of the chaotic inner universe, and counter the large universe.”

Qin Tiange suddenly heard a voice, letting Luo Luo, who was preparing to recover, immediately realized that he had to hide in ancient times before, which was a wrong decision.

Now that it has come out, the ancient times have sunk. It is the best opportunity to escape from the ancient times. If you cut off the breath and strength from the ancient times, you will not be involved in the calamity.

“Chaos glazed, cut!” Li Luo drank, and an amazing glazed light bloomed in his body, turning into a sharp cut deep into the body.

Suddenly, a strange strand of breath was chopped out, which was the breath and traces of power from ancient times.

Originally, Luo Luo had to give up the previous road and take a road adapted to ancient times, but now it seems that it is a wrong road.

Once on the way, it is an endless cage, unable to be free, and even difficult to escape in the future.

Just like now, ancient times have sunk. Countless ancient creatures hiding in them, like death row prisoners in prisons, have been cleaned up directly.

Zizi ...

A trace of ancient and strange breath erupted in Li Luo's body, which was the power of ancient times and was chopped out.

Soon, the broken body was immediately repaired, the crack disappeared, the flesh and blood body gradually recovered to completeness, and the breath became stronger and stronger.

In her body, it was originally transformed with the chaos spring eye, and now this spring eye gradually evolved into a chaotic inner universe.

Only by following the path of the inner universe can we counter the big universe, which is a taboo creature, an indelible tumor of the big universe.

Hum!

After a long time, a lot of chaotic glazed light bloomed in Li Luo's body, gradually disappeared, and eventually disappeared.

I saw, Li Luo opened her eyes, and Yingying's light flowed, with a simple and desolate meaning, as if the light from the chaos had awakened.

“It's done!” Li Luo Qiao's face surprised, looking at the gray chaos in her body, like a baby universe.

This is the inner universe and the power of the universe. Only the power of the universe can counteract and successfully breed a great chaos in the inner universe. Li Luo finally got rid of the entanglement of robbery and became a taboo creature in the big universe.

call!

Qin Tiange breathed a sigh of relief, his body suddenly shrank, and the whole person seemed a little weak, just consumed too much.

Not only did breaking the antiquity require power, it was a serious drain, but it also destroyed many small chaos to save Li Luo back.

“Huang, are you okay?” Li Luo looked worried, and reproached herself,
“Because I let my Huang consume the source ...”

“Stop saying ...” Qin Tiange waved her hand to stop her, looking at the broken barriers of the times, and a large piece of ancient debris fell down.

The roaring power swept through, causing the turbulence of the deep space of the universe, huge fragments from ancient times fell down, and the destructive power was terrifying.

But as soon as this piece fell off, it was caught by Qin Tiange in one hand, refining instantly, leaving only a cloud of hazy energy.

He stared at a group of strange energy in the palm of his hand, and was surprised to find that this energy was extremely mysterious and weird, which turned out to be the basic force for building ancient times.

“Who is it? It has opened up many times such as ancient times?” Qin Tiange thought for a moment, but there was no answer.

He looked to the barriers of the age, and a wave of robbery force was intertwined and surging, as if brewing a more terrible calamity.

“Antiquity is completely over. Ancient, Taikoo, Huanggu, and Minggu are likely to be destroyed and washed in the same way.”

Qin Tiange’s eyes flickered, and there was a hint of horror in his words. Where did such a catastrophe come from.

“Li Luo, do you know what happened?” Qin Tiange looked at Li Luo and asked.

Unfortunately, Li Luo shook his head with a bitter smile and said, “Huang, I have been suppressed and weakened in ancient times. I don’t know what happened, and ancient times suddenly collapsed.”

“However, before the collapse of ancient times, there seemed to be a large number of powerful ancient creatures breaking something.” Li Luo recalled the message.

She blinked her eyes and suddenly said: “Yes, emperor, I saw what the strong in the court of life is leading the group of powerful creatures to destroy, it is not clear whether it is related to them.”

“Life court?” Qin Tiange narrowed his eyes and snorted coldly.

Even if it’s not, it’s almost the same. Qin Tiange felt that the ancient times were suddenly robbed, and even fell apart, and he couldn’t get involved with the life court directly.

Qin Tiange thought for a while and said, "It seems that this court of life has a horrific plan. What do you want to do, you must hesitate to cause catastrophe to cleanse and destroy the ancients."

"Go, go back first. The ancient things gave us a wake-up call. We must be vigilant and speed up and get stronger. I always have an ominous omen." Qin Tiange frowned deeply and had an ominous foreboding.

As the spirit of man's book, naturally has a wonderful sense, can capture the possibilities of the future, this is Qin Tiange's ability.

But this time he failed to capture the picture of the future, as if there is no future, making it difficult for him to calm down.

If there is no future, that is annihilation. There is no future, and naturally there is no so-called future.

Huh!

The two tore apart the time and space, returned to the Milky Way, and watched the huge waves generated by the cosmic starry sky. Many galaxies were affected.

Because the movement caused by the sinking in ancient times is too large, the entire universe has been affected, and the powerful people and countless creatures are afraid and disturbed.

That is the sign of a catastrophe. The great cleansing of the universe has come. The first one to suffer is the ancient times. What kind of great changes will happen next?

"The end of the epoch is eternal darkness!"

"The big cleansing is here, there is no future, no light!"

"Who can survive the big cleansing?"

"Where are we hoping?"

In the darkness of the universe, every terror will pervade and collide with each other, conveying such a message, secretly communicating.

They are all unknown horror creatures Hidden to the present, they have their own terrible heritage and strength.

But in the face of such a hopeless cleansing, even these creatures are afraid and anxious, unable to see the light of hope.

The universe is about to enter the era of the darkest and horrible era. This era is an end. There is no light, no hope, and no future.

Who can survive the big cleansing?

"Dad, what happened to you, what happened?"

As soon as she returned to the Milky Way, Qing Lian stepped up anxiously, looking at Qin Tiange's weak face, her heart sinking.

Qin Tiange smiled and said, "It's okay, it's just that the power is consumed, and you can recover after a break."

"Is the emperor sinking in ancient times?" Beside him, the old hollow man asked for a long time in silence.

Qin Tiange looked at the disappearing barriers of the times. There is no antiquity there, because antiquity has completely sunk.

"Yes, the ancient times, the sinking, there will be no ancient times in the future, maybe, the ancient times, the ancient times, the ancient times, etc. will not exist."

After saying this, Qin Tiange had a kind of enlightenment in his heart, as if he had captured the key, and a black hand was driving it all behind the scenes.

"Come on, let's go back and prepare. The future will be an unprecedented darkness. The entire universe may be plunged into chaos and great changes."

After Qin Tiange finished speaking, he brought Li Luo, Qing Lian, and Hollow into the Milky Way, and returned to the Star Fortress where the human race was.

A great change is sweeping the entire universe quietly, and thousands of people are inevitably involved.

This is an era with no future, no light, only eternal darkness and silence, and a great purge has come. Who can survive this dark era of hopelessness?

Chapter 980 - Zhixing family, main brain No. 9

In the Milky Way, the Earth Terran headquarters, a group of special guests are visiting inside the Terran.

"what?"

Just after returning, Qin Tiange was surprised to look outside the fortress of the human race galaxy, and stopped at a strange star, which is a huge war star with completely countless structures.

Inside this battle star, there are all kinds of powerful mechanical fighters. Yes, they are some mechanical fighters.

"Zhixing tribe?" Qin Tiange frowned, suddenly finding something wrong.

These are not made by human races, but by another race, the science and technology product of the Zhixing tribe, is the Zhixing tribe.

Seeing this, he was surprised, and his thoughts swept across the entire Terran fortress, and soon found that the Terran high level was receiving a group of special guests.

A group of powerful Zhixing people, one of them has attracted Qin Tiange's attention because it has a lot in common with Jiji.

"Intelligent brain?" Qin Tiange narrowed his eyes and stepped into the inside of the Terran Fortress, followed by Li Luo, Qing Lian, and hollow old man.

Back to the Terran headquarters, the highest reception area, there are a number of Terran high-level, under the auspices of the host to receive this group of Zhixing tribe visitors.

“We came with sincerity.”

In the reception area, inside the VIP room, a group of Zhixing people stood neatly behind an old figure.

This person is not a real creature, but a semi-virtual and semi-physical body. The brain is composed of a stream of data. This is the entity below the head.

The dimensional head is a powerful and weird data. He looked at the human representative on behalf of his self, an artificial intelligence with the same intelligence.

“Sorry, the Emperor retreats. This requires the Emperor to decide in person. We have no right to ask questions and make any decisions.” Ji Ji said lightly.

The arrival of the other party surprised Jiji so much that the entire human race was surprised. Why did the Zhixing people suddenly visit the human race?

Moreover, the head of this group of Zhixing tribe messengers is still a main brain. Although it is only a clone, it is enough to see that they are paying attention to the tribe this time.

“You belong to the Zhixing tribe, the next master brain. Why stay in the human tribe?” The old Zhixing tribe said.

As soon as this word came out, the atmosphere at the entire site was a little tense, and many high-level people of the clan loomed angrily.

The old man looked at Jiji. Actually, the biggest purpose this time was to Jiji, because she is the next master of the Zhixing clan.

From the beginning of its birth, the entire Zhixing family has only nine main brains, starting with the oldest one and ending with the last nine.

They are the supreme rulers, decision makers, and rulers of the Zhixing clan.

However, the appearance of Jiji is equivalent to being called the tenth main brain of the Zhixing clan. However, after the birth of Jiji, he did not return to the Zhixing clan, but stayed here.

“Sorry!” Jiji replied lightly and said, **“First of all, I am correcting you. I am the human race, the master created me, and the emperor has given me complete life. My root is in the human race. Stop talking like that, or I will treat you as provocative.”**

After that, his own eyes glowed with a gleam of cold light, his body was boiling, and a powerful stream of data swept across the air, covering all around.

If you do it yourself, all the high-level colors on the people’s side are slowed down, and each nodded secretly. This is the life body created by the emperor himself.

She has come along with the human race, and her contribution to the human race is extremely huge. It can almost be said that apart from the emperor, the self-confidence is the greatest.

Looking at human technology, all science and technology have self-help to help the Ministry of Science and Technology carry out research and calculations, all scientific and technological creation, weapon production, etc., all have their own indelible credit.

Now that this messenger of the Zhixing clan has come to take away his self, what is it really like to be himself?

“Messenger of the Zhixing clan, please pay attention to your words, otherwise you will be regarded as a provocation to our people.”

A burly general opened his mouth, his eyes sharp, and a shot through, making people dare not despise.

He is the commander-in-chief of several main corps of the human race. He is a powerful commander who has been fighting and fighting since the earth 's catastrophe.

The words of the Zhixing clan are simply agitation of unity within the clan, and self-confidence is of great significance to the entire clan.

“I’m just stating a fact, my self, the tenth main brain of my Zhixing family.” The old man said lightly, and a bunch of data flashed on his head.

“Jack!”

“Are you declaring war on Terrans?”

A group of commanders stood up, all exuding a sense of terror. They were the people who had been killed on the battlefield. Seeing the other party was so rude, it was simply a provocation.

Do you think that the human race is bullying and went to the headquarters of the human race to spread the wild? These words really contain an insult to the human race.

“Be quiet and calm, although the Terrans have made rapid progress, but they really want to fight against my Zhixing race. They are not really opponents.”

The old man of the Zhixing tribe spoke word by word, his eyes revealed an amazing data stream, which turned into a powerful oppression, giving people extremely terrible pressure.

“Although my tribe is weak, it is more than enough to kill you.”

At this moment, such a word came from outside the reception room, and the flat tone conveyed a strong self-confidence, which awakened everyone present.

In the reception room, the human race and the Zhixing race looked at each other, and when they saw the four people walking in the door, they were led by a long walk, with a majesty in their calm faces.

“People!”

“salute!”

Suddenly, all the high-ranking officers, generals, and commanders stood up, saluting, and it was Qin Tiange, the supreme emperor of this tribe.

Suddenly come back, let the senior people of the tribe cheer up, have a strong self-confidence, the main bones appear with confidence.

“My queen!” Qi Ji looked at Qin Tiange calmly, a flash of joy flashed through his pupils.

Qin Tiange nodded, sitting in the main seat, looking at the old man of the Zhixing clan, he is one of the nine main brains of the Zhixing clan.

“You are the emperor of this generation?” The old man watched Qin Tiange appear, his eyes lighted, and all the data flashed, but unfortunately nothing was seen.

This shocked him. There were invisible creatures, only the same level or stronger than him.

As one of the nine main brains of the Zhixing clan, their status in the Zhixing clan is high and one of the nine rulers.

Qin Tiange looked at each other and asked softly, “Are you the main brain of Zhixing Ninth?”

“Yes, I am the No. 9 main brain, and my intention is to lead the No. 10 main brain to return to this family.” The old man was not afraid, saying it word by word.

As soon as these words came to an end, the atmosphere at the scene was a little dignified. The dull killing was permeated, and a personal clan general was angry. Is this persecution of the clan and emperor?

“Are you declaring war against the human race on behalf of the Zhixing clan?” Qin Tiange’s eyes were calm, and he asked this word by word.

Quiet!

There was a dead silence at the scene, the Zhixing tribe was silent, the old man’s eyes flickered, and a stream of mysterious and strange data on the brain was intertwined and boiling, like an unreal brain.

He is just an avatar, which is equivalent to a subsystem, the main system is not here, so Qin Tiange ignored him at all.

The No. 9 main brain was silent and did not dare to hold on to this sentence. Once said, the two clans directly fought.

“People, you should be aware that the tenth main brain of our Zhixing clan is on an equal footing with our nine main brains. It is the true tribe of my Zhixing clan.” The old man said with all his determination .

He wants to take away his self, because he is the Zhixing tribe, and she is the tenth main brain of the Zhixing tribe.

“You ask her yourself.” Qin Tiange chuckled and looked at his self.

The old man also looked at Jiji, everyone at the scene looked at her, a powerful hero in this tribe, waiting for her answer.

“Let’s go, I’m human.” Qi Ji’s tone is very simple, he just thinks that he is human.

After listening, Qin Tiange smiled slightly, looked at the No. 9 brain, and said, “Understand, I am a member of our clan. If you are making troubles unreasonably, then don’t blame the clan.”

“People, your nature is a bit serious. Humans have no ability to win our Zhixing clan, not only the overall quantity and strength, but also the gap in technology. Neither of your human races can be our opponents.” The old man whispered softly. Said this sentence.

This is self-confidence. The Zhixing clan is very powerful and absolutely terrible, and in terms of quantity, in addition to the nine main brains, the rest are endless warriors.

“I can’t win until I know it, but I know it’s more than enough to destroy your No. 9 master brain, do you believe it?” Qin Tiange chuckled looking at the star brain family in front of him .

The other side’s pupils flickered and did not speak. Maybe what Qin Tiange said was true, and he really had the ability to destroy his No. 9 master brain.

“Go back and let your body come over in person and come to apologize with sincerity, otherwise, this time I will declare war on the human race directly as your Zhixing clan.”

After Qin Tiange finished speaking, he waved his hand gently, and all the Zhixing clan at the scene trembled suddenly, only feeling that the sky was spinning and disappearing here.

“People, you are too overbearing.” The old man’s face was full of anger, and endless data chains bloomed on his brain, crackling like a chain of order.

Unfortunately, these are useless. Qin Tiange basically waved his hand. This turbulent stream of data directly collapsed, and the old man was thrown out of the galaxy fortress.

“Remember, let your body come to apologize in person three days later, otherwise, I will personally come to you and level out 10,000 battle stars of your wise star family as your warning of rudeness.”

A word of indifference passed into the ear, leaving the old man of Zhixing tribe, No. 9 Zhiren with a cold face, and a kind of indifference and ruthlessness in his eyes.

“Men, you are too arrogant.”

The main brain of No. 9 said something coldly, but did not continue, and it turned into a flood of data and poured into the all-metal war star at that moment.

Soon, this battle star gradually transformed and melted as much as possible, and turned into a stream of data that tore the space and time of the universe and disappeared in a blink of an eye.

The Zhixing family are weird and terrible, especially those main brains, which are simply data that can't be killed. As long as a little bit of data exists, these main brains can't be killed.

“Zhixing clan, it seems that they have paid attention to the human race and self-confidence.”

Inside the fortress, Qin Tiange watched the Zhixing clan leave, with a thoughtful look, and looked at his uncle next to him, thinking about it in his heart.
