

Dark Ages 981

Chapter 981 - Violence, mystery

“Master, it’s obviously not appropriate to anger the main brain of Zhixing Nine.”

Looking at the leaving Zhixing clan, after a long silence, Jiji spoke softly and expressed his anxiety in his heart.

It is not a good thing to annoy the Zhixing family in this way, so it is possible to directly confront the powerful Zhixing family.

You know, the home of the Zhixing tribe is not in the galaxy, let alone the place where the galaxy is located, but in another place.

The most terrible thing is that the original place has been completely controlled by the Zhixing clan. There are no alien creatures there, and some are just the endless and powerful war machines of the Zhixing clan.

In addition to the nine main brains of the entire Zhixing family, there are only war machines left, which are completely a group of war weapons listening to the main brain.

It can be said that the intelligent star family is actually the nine main brains that are the real intelligent brains. They are the supreme main brains and control the countless intelligent data below.

According to Qin Tiange’s understanding, the Zhixing clan has nine large groups, and each of the large structures is the main brain.

From the 1st to the 9th main brain, this is the ethnic structure of the entire Zhixing clan, and Jiji is the tenth main brain identified by the Zhixing clan.

It is a pity that Jiji only considers himself a human race, and Qin Tiange created her and gave her a complete life, and it is impossible to return to the Zhixing race.

If she was born naturally, she would definitely return to the Zhixing clan, but unfortunately she is not, just like Qin Tiange created her.

“No matter!” Qin Tiange whispered to himself, comfortingly said, “The Zhixing clan is very strong, but also has a fatal weakness, that is, once the main brain is destroyed, the infinite war weapons underneath will have no effect, which is equivalent to a complete system. Crashed. “

“Dear oneself, you are ready. If the No. 9 Zhinao didn’t apologize after three days, kill me directly to the Zhixing clan, and then destroy its 10,000 war stars first.”

Qin Tiange’s tone is very calm, as if it is a trivial matter, destroying 10,000 battle stars, it seems difficult to many people.

But in Qin Tiange’s eyes, that’s nothing, as long as you want to destroy it, you can do it at any time, depending on what the main brain of the Zhixing family thinks.

The words that came to the human race before have already angered the high-level people and even angered Qin Tiange. This is a kind of provocation.

As the emperor, Qin Tiange is bound to maintain the dignity and face of his tribe, and it is indifferent to let people come face-to-face, so there is no need to be emperor.

“Order the major legions and prepare for war. If the Zhixing people dare to come, fight me. One year later, they will win the entire Tianhe continent and within ten years they will win the entire galaxy.”

Qin Tiange suddenly issued such an order, which caused the people to be shocked, and there was another shock in their excitement.

This is a big move. One year later, the offensive against the Tianhe continent began. Winning the entire galaxy within ten years was arguably the biggest target of the human race.

Through the precipitation of this period of time, the overall strength of the human race has grown rapidly, especially after obtaining huge resources.

Both personal strength and overall technology are constantly rising, as if the human race is expanding at a rate that is visible to the naked eye every day.

Everyone was busy. The people were extremely busy. The time flashed, and three days passed, and there was no sign of the Zhixing people.

It is impossible for Qin Tiange to come to apologize, but it is impossible for Qin Tiange to hope that the other party can come.

Saying this is to prevent the other party from coming, and this has a better reason to destroy some of the power of the Zhixing clan and leave the other party speechless.

Even if the two races go to war, the Zhixing clan wants to invade the Milky Way galaxy, and even the original place where the Milky Way galaxy is located, it will cost a lot of money.

The other races are not fools. Come in to the Zhixing clan, that is, the scene where all the nations are destroyed. No one race can be spared.

“Yanji, follow me to the Zhixing clan and let the high-minded masters clear their heads. The human race is not their kneading at will.”

Three days later, Qin Tiange stepped out of the Emperor’s Hall, followed by his own self, and no one else, Qinglian was remembering the memories of the past in Lianhua Mountain.

The hollow old man did not come out and lived inside the human race. Li Luo, who had just returned from the great changes in ancient times, needed to stabilize his situation.

“Master, did you do it on purpose?”

Outside the galaxy fortress, Ji Ji followed Qin Tiange, and couldn’t help but ask with curiosity.

How could she not know Qin Tiange’s intentions because of her cleverness? The person who knows Qin Tiange best may not be other people, but self-confidence.

“Yes!” Qin Tiange smiled suddenly and said, “Don’t you think that the main brains of the Zhixing clan have secrets that are unclear to all the universe?”

“The host means ...” Pu Ji’s pupils flickered slightly, and he suddenly realized.

Qin Tiange’s meaning is very obvious. With the help of this time’s question, he threatened to equalize the opponent’s 10,000 battle stars, that is to say, do it.

And also take this opportunity to spy on the secrets of the Zhixing clan, because Qin Tiange guessed that the Zhixing clan must have mastered the secrets of the universe.

Regarding the secrets of the universe, the nine intelligent brains of the Zhixing family are more horrible and mysterious than others, especially the first intelligent brain, which has always been the most mysterious existence.

Hum!

Qin Tiange stroked lightly, a barrier in front of him split, and the two stepped into it, blinking into the deep space of the universe outside the origin.

Looking at the huge galaxy clusters, Qin Tiange didn’t hesitate, his will flickered continuously, and he felt a unique ray of breath.

Soon he found a mysterious breath that he left intentionally, and sensed the area of the brain of the former Zhixing Ninth master.

“There, it is very secretive, no wonder it can’t be found.”

Qin Tiange suddenly opened his eyes and stared at the deep space of the universe. Inside the dark mist, hidden in such a vast place of origin.

There is the base camp of the Zhixing tribe, surrounded by a large group of galaxies, most of which have completely become the territory of the Zhixing tribe.

There are only a few powerful galaxies left, and they are still stubbornly resisting the invasion of the Zhixing family. The original place, including the external galaxies, is occupied by the Zhixing family. There is no alien family inside, and only endless creatures create warriors.

Gene fighters of all races were collected and cloned to create the gene warrior, which is equal to the countless intelligent control of the Zhixing family, which is firmly in the hands of the main brain.

Nine main brains control the entire Zhixing clan and divide into nine huge groups, but saying that Jiji is the tenth intellectual brain, Qin Tiange would not believe it.

“Master, is this the base camp of the Zhixing clan?” Jiji looked at the original place shrouded in black mist, with a serious expression.

She has sensed that there are a lot of intelligent information fluctuations, where the black mist is a horrendous stream of data that turns into a defensive guard.

Those black mists are like some terrible power in the universe, or are they a virus?

Qin Tiange looked surprised and muttered, “How do you feel, these Zhixing families are more like viruses in the universe?”

“Perhaps, it’s a virus,” said Qi Jiyi, because she has a feeling that the data stream here contains endless mysteries.

Qin Tiange didn't look much, but came to this area and looked at the galaxy clusters floating around, locking the galaxy where the main brain avatar of No. 9 was located.

boom!

One hand pierced into this piece of hope, Qin Tiange spread his five fingers, as if a terrible extinct hand encompassed the galaxy.

Sudden changes have shocked all the wise star warriors in the galaxy, including the avatar system of the No. 9 main brain.

“Herald, how dare you come?”

The main brain of No. 9 had an angry face, a trace of coldness appeared on the old face, and endless data poured out from the brain, which swept the galaxy into a torrent.

Suddenly, the giant hand was bombarded by a flood of data, constantly disintegrating the hand, as if to destroy the great hand.

“I said that if you don't apologize for three days, then you will level 10,000 war stars of your star family.”

boom!

With a word of indifference coming from nothing, the entire galaxy boiled and shook, and huge all-metal battle stars were densely distributed inside the galaxy.

These are the most powerful war stars of the Zhixing family, and each of them has spent enough resources of several small river galaxies to create appearances.

Such a terrible battle star, the combat effectiveness can be imagined, but here is a giant hand probing from the galaxy, but it can not be stopped at all.

Slightly, slightly!

A crackling sound came, followed by a violent explosion of light, lighting up the dark galaxy universe.

At this moment, in the galaxy occupied by the Zhixing family, 10,000 of the largest and strongest battle stars were severely crushed by that hand and directly erased.

The giant hand swept across the sky, pinching 10,000 huge battle stars, directly pinching into the cosmic dust, completely eradicating the 10,000 wisdom star family of war stars.

“Herald, you ...”

The roar spread throughout the galaxy, and the subsystem of Nine's main brain was shocked. Although he was originally indifferent, he was angered by Qin Tiange's approach.

It is conceivable that Qin Tiange suddenly arrived this time, and said that it would be destroyed immediately, and suddenly 10,000 huge stars of the Zhixing family burst, which can be said to have suffered heavy losses.

To know how to build such a huge battle star, it takes the entire material resources of a small galaxy to complete.

Ten thousand pieces is almost made up of 80% of the resources in this galaxy, and a powerful background has been wiped out and gone.

“This is a meeting ceremony. If you don’t come out, then the next thing is not as simple as 10,000 battle stars. All the galaxies belonging to the Zhixing family will be wiped out.” Qin Tiange’s words lingered from the deep space of the universe. , Oscillating back and forth in galaxy space.

Although the Zhixing clan had no fear, the No. 9 intellectual brain was still enraged, and the main body intelligence was even awoken.

“People, stop it. It doesn’t make sense. Even if you destroy all galaxies, the Zhixing family still exists. If you want to see me, you will come to Yuanyuanhai.”

A faint utterance came from the place of origin, without any emotional fluctuations, as if it were a cold intelligent program.

The No. 9 main brain, the ontology appeared, and a word came directly to prevent Qin Tiange’s actions, which was meaningless.

“Are you here? Dear one, let’s go and see.”

Qin Tiange smiled softly, and stepped into the area of the origin of the Zhixing clan with his own steps.

Chapter 982 - 8 main brains, shocking secrets

There is a mysterious black gas everywhere in the original place of mystery.

Entering here, as if entering a world of virtual data, all kinds of strange data fragments are everywhere, constantly intertwined and flashing.

Qin Tiange and Xunji passed through the heavy black fog, and saw the data intertwined into a chain, a group of strange data, like a kind of fantasy data in a virtual network.

Various symbols interweave and collide to form an extremely mysterious data ocean, like a vast data source.

“This is the source data sea?” Qi Ji was surprised, looking at everything around him, it turned out to be a vast ocean of source data, boundless.

This is a virtual world of data, a source of data, and it has become a manifestation of data.

Entering such a mysterious and strange data world, Qin Tiange has a wonderful feeling, as if the universe is actually composed of countless invisible data.

Everything in the universe and even the souls of all races are a group of strange data, different codes, a group of strange symbols and codes constitute a kind of strange scene.

After passing through a channel of encoded data, the two came to this so-called original place, which was composed entirely of countless singular codes.

Groups of data chains are intertwined and dense, forming such a vast and unbounded origin.

Here, every flower and every grass is flickering with a trace of data. If you look closely, it turns out to be composed of countless chains.

Snapped!

Qin Tiange smashed a stone, and saw a faint blue light spot flying away. For a while, he was stunned, not stunned, but had some strange understanding.

He found that this place of origin has completely transformed into a huge sea of data, and the source data is intertwined.

“Original data sea, all kinds of strange data encoding, this is the Zhixing family?” Qin Tiange said to himself, looking at the surrounding scenes, his eyes suddenly burst into a mysterious light.

He saw through some falsehoods, everything was just a set of data, and there was continuous interweaving there, building into this place of origin, everything was interwoven with data.

It is real and dreamy. The two are fundamentally a mutual transformation, a random change back and forth, seeming mysterious.

This is the power of the Zhixing family’s main brain. Everything in the universe has been completely virtualized with data, which is simply incredible.

“Master, the data sea here is a bit weird, I don’t understand a lot, but as long as time permits, I can peep at all the secrets here.”

I have been silent for a long time, and suddenly spoke a word, two strings of mysterious codes lit up in the pupil, are interpreting the source of this piece of data.

The two walked step by step, strolling through this vast source of data, carefully observing and comprehending, without fear of danger at all.

Qin Tiange can stop any danger. He has this self-confidence, but also has this strength, so if he wants his own interpretation of the original data here, he may have a lot to gain.

But at this moment, a powerful data stream interweaves, converges into a channel and appears in front of the two.

“People, No. 10, come in, this is the true core of the source.”

There was such a sentence in the virtual channel, the No. 9 main brain directly let Qin Tiange and Xunji enter the core.

There, it is the real core, this master brain and even other master brain subjects.

“Go!” Qin Tiange and Jiji glanced at each other, nodding slightly, they walked directly into this virtual channel.

I saw a sudden turn in front of me, the sky data intertwined, and soon came to a mysterious area.

It's dark here, surrounded by data chains composed of mysterious symbols, interwoven with each other, like a strange world.

“Welcome to the core of the source!”

When a word came, I saw the data surging ahead, turning it into a dim light and shadow, and then gradually solidified and appeared in front of Qin Tiange and Jiji.

This person is the No. 9 master brain, the old man, the real subject, with a mysterious data cluster on his head, emitting a hazy light.

“Tenth, congratulations on your return.” Master No. 9 took the lead to smile slightly at his own head and welcomed him.

Immediately, he looked at Qin Tiange and said, “People, you can send No. 10 back to this source, so that she can continue to grow and grow, which is of great significance to my intellectuals.”

The No. 9 main brain, with a sincere and direct thanks, thanked Qin Tiange for bringing his uncle here.

Qin Tiange said nothing, said quietly: “At the expense of letting me destroy 10,000 battle stars, but also to let my self come back, what do you think of the star family?”

“These emperors will understand in the future. The most important thing now is to let No. 10 enter the think tank, transform and evolve, and become the real No. 10 master brain.” No. 9 master brain said with a serious face.

With this, Qin Tiange's pupils flickered, and he quickly measured in his heart. He did not even notice anything wrong, and there was no sign of danger.

In other words, this time is obviously an opportunity for self-confidence. Although it is not clear what the so-called intellectual think tank is, it can make it evolve.

But Qin Tiange was still a little worried. He believed in his own self, but did not believe in the intelligent brains of the Zhixing clan. They are not easy to fool. One by one, they should not exist.

“It's not impossible to let my uncle enter the think tank, but I don't believe in the brains of some of your intellectuals. You take care of it yourself.” Qin Tiange said something suddenly, and it was a response.

Qin Tiange did not believe in the intellectuals, and let his self-importance enter the so-called think tank, but there was a huge risk. Once he failed, he would be gone.

“Mr. Emperor, why is this? Our nine main brains all hope that our self will become the real No. 10 main brain and become a true member of the Intellectual Family.” Do not believe.

Qin Tiange shook his head, looked at his self, and laughed: “I believe in my self, but I don't believe you, because your intellectuals are too strange in their brains. I always feel that there is a huge conspiracy behind you and I have to guard against it.”

“The Emperor is really frank!” The ninth master's brain trembled, and the brain data flickered, showing a slight smile.

He was helpless and directly linked a certain area. Soon, data streams came together and turned into mysterious and hazy figures.

Seven full figures arrived, all exuding a horror, one more mysterious and terrible, as if weird.

“No. 2, No. 3, No. 4, No. 5, No. 6, No. 7, No. 8, the Emperor does not believe us ...”

As soon as the seven figures came, the ninth directly introduced, but it turned out that the main brains from the second to the eighth appeared together and appeared in front of Qin Tiange.

Qin Tiange looked at the strange figures in front of him, one more powerful than the strange one, especially the No. 2 main brain, giving him a strong sense of threat.

Eight main brains, except for the most mysterious one, did not appear, the remaining eight mysterious main brains all appeared together.

At this moment, Qin Tiange had a strong feeling that some kind of blood power in his body was gradually boiling, and his heart was scared.

“Princess, you have Pangu blood in your body, you should not know the origin of the Pangu clan, right?”

After a long silence, Master No. 2 spoke faintly, and the hoarse voice carried an ancient desolation, as if it had been there for countless years.

His words, like a thunder blast, shocked Qin Tiange to know the sea for a while, roaring.

The Pangu tribe, Pangu blood, this is the most mysterious force Qin Tiange has ever known, but no one has known it, but how do the brains of these intellectuals know?

“How do you know?” Qin Tiange’s pupils shrank, and the dangerous rays of light came out, staring at the No. 2 main brain.

It is the most dangerous and mysterious. It is much more terrifying than the other seven main brains, which shocked Qin Tiange. How terrible is the number one that has been hidden?

“Speaking of which, my wise tribe is a strong tribe during the Chaos Era ...” The main brain of No. 2 slowly opened his mouth and uttered an amazing big secret.

Qin Tiange listened as his face changed, shocked, curious, unbelieving, and finally turned into a horror, gradually calming down.

“Pan is the only existence that breaks the barriers of the universe and breaks out from the other side. The only existence.”

On the 2nd, he said to himself, “Yes, our ancestors of the Zhi people in the past collected a drop of essence blood left on the other side of the pan and used it as a foundation to create a strong ethnic group, and finally named the Pangu tribe. “

boom!

With a thunder, Qin Tiange's brain roared, and he almost slammed the No. 2 main brain in front of him. How much influence and impact did you say on him?

Isn't this hitting him? The mysterious and powerful Pangu clan turned out to be created by this group of more weird and terrible intellectuals.

"The creation of the Pangu tribe was actually to penetrate the other side, but unfortunately it failed in the end. My Zhizu triumphed in that open sky battle. All the Pangu creations were destroyed in that war."

"After countless epochs, there is finally a glimmer of hope for the Zhi people, and there are several real members of the Zhi people."

No. 2 paused and continued: "First, then me, then No. 3, No. 4, No. 5, each epoch, or a few epochs, a new wisdom will be born Family members. "

"Yanji is the tenth intellectual member of this era. Therefore, we have tried every means to get her back, enter the think tank, and use the intellectual origin saved by the intellectual family to transform into a true intellectual."

"Now, the emperor understands the cause and effect, how to choose?" After finishing the second, he quietly looked at the emperor Qin Tiange.

The other main brains are silent, watching him quietly, waiting for Qin Tiange's decision. Perhaps if he refuses, he will face the siege of the eight intellectual brains.

These main brains are terrible, especially the mystery of the second main brain, not to mention the first main brain that has never been thought of.

Qin Tiange even suspected that No. 1 was the remnant of the Zhizu who had been left from the Chaos Era, which was terrifying.

"Master, let me enter the think tank."

Suddenly, Jiji stood up and turned to look at the master Qin Tiange, his eyes glowing with a hint of playfulness.

"Ok!"

Qin Tiange looked at the slightest playfulness in his own eyes, and his firm conviction made him find no reason to refuse at all, and slowly nodded in agreement.

"Thank you!"

Xi Jiqiao's face was filled with a bright smile, and she felt a warm heart for Qin Tiange's trust. Perhaps this is a strange sense of trust that the two people can always maintain.

Chapter 983 - Only one condition

Qin Tiange promised that letting his self enter the mysterious think tank of the intellectuals may be a chance for him to become more powerful.

However, he has his own conditions.

“I have no objection to letting myself enter the think tank and become a member of the real intellectuals, but there is a condition.” Qin Tiange slowly put forward his own conditions.

The No. 2 and No. 3 intellectual brains frowned slightly. The remaining main brains were a little displeased, but none of them spoke. They looked at the more mysterious and powerful old No. 2 main brain.

I saw, the main brain of No. 2 asked curiously, “What conditions do you have, just say, see if we can do it.”

“It’s very simple!” Qin Tiange smiled, and stretched out a finger, saying, “I need that drop of blood.”

“what?”

The brains of several Zhi people changed their minds, and they all looked at Qin Tiange, showing a touch of anger. This was robbery.

Pan, that is the only supreme existence that penetrated the other side of the universe and successfully killed. How strong is the drop of essence left behind?

Take a look at the terrible demons of the ancestors of the Zhi people in the past. With this, the Pangu people were created.

Now that Qin Tiange’s sperm of blood that he wanted to “disc” was just digging meat, which made some intellectuals’ brains angry.

“Impossible!” The No. 9 main brain rejected it directly.

The No. 3 and No. 4 and other main brains all expressed opposition, and it was impossible to give him the “blood” essence, which was the only background of the Zhi people.

Use this to build the Pangu tribe, but also to continue to create a stronger race and prepare for the next Kaitian.

Qin Tiange ignored the main brains, but instead looked at the main brain of No. 2, which is the most intelligent intellectual brain besides the most mysterious No. 1.

It seems that the nine main brains of the Zhi people sit on an equal footing. In fact, if you look at their titles, you will understand that the second one weighs on all the intelligent brains below, and its status is second only to the first.

The No. 1 is the strongest, most mysterious and oldest main brain of the entire intellectual family. Unfortunately, it does not appear, and the No. 2 is the real subject.

“Let me ask No. 1.” The main brain of No. 2 was silent for a long time before he said something slowly.

As soon as this word came out, all the other masters’ faces changed greatly, so that they would start to alarm the highest intellectual brain, No. 1.

I saw that the brain of No. 2’s main brain sent a wave of mysterious waves, and soon, a strange connection informed the most mysterious No. 1.

It took a long time to close the binocular No. 2 main brain before slowly opening the eyes, and the slightest data link across the pupil, with a hint of surprise.

“No.1, agree.” No.2 said the news slowly.

As soon as the words fell, the other main brains were silent and shocked. I did not expect that the mysterious No. 1 had agreed.

Qin Tiange was also very surprised, just mention it casually, did not think the other party really agreed, although it is not clear why the hidden number one agreed, but this is not important.

To him, that drop of essence blood that has the “disc” is the most important, and may bring unexpected gains to Qin Tiange.

“Thank you!” Qin Tiange nodded slowly and thanked him.

Master No. 2 looked at him, shook his head and sighed: “Actually, I didn’t expect that No. 1 would agree. In this case, I will give it to you.”

“Okay, now that we’re done, let me follow.” No. 2 finished, turned a little, and a mysterious virtual channel emerged in front of him.

The other main brains did not follow, but quietly watched Qin Tiange and Xunji enter the passage and disappeared.

“Well, why did No. 1 decide this way?” No. 9’s face was depressed, and some couldn’t figure it out.

The main brain of No. 3 shook his head slightly and sighed: “Don’t think about it, No. 1 has its decision. Moreover, that drop of essence blood can no longer be controlled by us. In the past, it could create the Pangu clan, but now we have no ability of the ancestors.”

“Yeah, rather than leave it to the emperor, he has the blood of the Pangu tribe in his body, and it can be considered to have some origin with our intellectuals.”

“Although the human race has good talents, it is not enough to carry the task of developing the main force of heaven. How should we choose in this era?”

Several main brains are here to discuss each other. This family is extremely ancient and secretive. There are only nine of them.

But Jiji is still not counted. If you want to be a member of the intellectual family, you must enter the think tank.

The birth of the Zhi people is very weird and harsh. Qin Tiange already knows this. No wonder the brains of the Zhi people are so rare.

“Think tanks are the highest core source of our intellectuals. They can only be entered by members of intellectuals, and they can only enter once in a lifetime.”

In the channel, Mantian data is intertwined, and the number two leading the way in the front, but slowly speaking these words, reminded Qin Tiange himself.

He is an outsider and cannot enter the think tank, and even if he is a member of the wisdom family, he can only enter it once in his life.

“Rest assured, although I am curious about the intellectual stocks of the Zhi people, but I will not rush to peep.” Qin Tiange nodded with a smile, reassuring the other party.

He really had this thought before, and wanted to peek into the so-called think tanks of the intellectuals, but now everyone has made it clear that he cannot naturally do so.

“Okay, we’re here!”

At this point, a fuzzy data screen at the end of the channel passed through, and the three of them entered a dark world.

There is a flood of data sources everywhere, endless data storms sweeping around, chains intertwined and coiled, forming a mysterious and ancient scary seal.

The seal of data, this was the first time Qin Tiange saw it. Such a mysterious and strange seal really surprised him.

“This is the think tank of my intellectuals, which has been preserved from the chaos era, which has made our intellectuals not completely extinct.”

When he came here, No. 2 Zhinao opened his mouth and said that this old-looking Zhizu creature has a beard of several meters long, but it is made of data. The brain is a source of data.

Qin Tiange couldn’t understand how this race was born and what role it played during the Chaos Era.

They collected a drop of the essence of the “pan” to create a powerful Pangu clan, and at that time, they started a fierce battle to open the sky.

As a result, all the Zhi people were destroyed, and all Pangu created was also destroyed, declaring Kaitian failure.

“Tenth, you enter into it yourself. As for what transformation you can achieve, what you can become is unpredictable. It’s up to you.” No. 2 slowly spoke to herself, pointing to a light gate to let herself enter.

There is the door to the mysterious think tank. The only door can only be entered by thinkers who have not entered the think tank. Once entered, they cannot enter.

“Yanji, go, I believe you.” Qin Tiange nodded slightly, looking at Xuanji with encouragement, the latter looked serious.

Xunji walked to Guangmen, turned around and looked at Qin Tiange, staring for a long time.

“Master, if you have changed since you came out, please destroy me.” Su Ji suddenly said this seriously.

This made Qin Tiange’s complexion, including the No. 2 main brain, change. The two did not expect that Jiji would say such a sentence.

No. 2 frowned deeply, didn't speak, his brain data was intertwined, he didn't know what he was thinking.

Qin Tiange looked deeply at Jiji, his firm eyes, and suddenly smiled: "jiji, no matter what you become, I can't ruin you, go, even if you really change after you come out, I Neither will. "

"Master" touched his face, his eyes glowed with water mist, turned his head and walked into the light door, into the mysterious think tank of the Zhi people.

Watching Jiji pass through the light door and disappeared, Qin Tiange felt a sense of loss, if he really changed after transforming in it, what would he do?

Will I really have the heart to destroy myself? Qin Tiange thought for a while, and finally laughed bitterly, realizing that he couldn't do it at all.

Xunji was created by his own hands. Even if she changed Qin Tiange, she would not destroy her, because she had deep and deep feelings and bonds with each other in these years.

"Well, Emperor, No. 10 will not change, you can rest assured." No. 2 said softly, as if it was comforting Qin Tiange.

In this regard, Qin Tiange did not care, smiled and smiled and said that he understood that even if he had changed, he could not destroy him.

"Okay, now take me to take that drop of blood, I am looking forward to it, how powerful is the only supreme existence that breaks the other side to kill?" Qin Tiange's eyes shined with a radiant glow .

He would like to know, in the past, the only existence that has penetrated the other side of the universe and succeeded in going out. What kind of power and secrets are there in the end?

"People Follow me."

No. 2 didn't say much. Since it was promised, it was impossible to regret it. Instead, Qin Tiange opened a channel and walked in.

The source of the sea, the dense source of data is intertwined and boiling, it is not clear where this is, let alone where it is now.

Anyway, Qin Tiange could not sense any breath of time and space and dimensional power, and could not even sense the existence of the realm of the world.

Even more frightening is that Qin Tiange always feels that there is another universe here, which is terrifying.

Perhaps this is the terrible inner universe of an intelligent family, a universe of original data universe.

Soon, the two walked through a long virtual channel, came to a dark data seal, and looked at a sealed area in front.

“That drop of blood is inside, I remind you, the essence of the plate is very strong, you can take care of it yourself.” After finishing the main brain of No. 2, he opened a seal entrance in front.

Looking at the dark virtual seal, it is not clear at all what is in it. Is it even a trap, and it will be directly sealed when entering?

However, Qin Tiange’s master was bold and did not have it at all. He walked directly into that seal entrance without any ambiguity.

This made the No. 2 main brain somewhat appreciative and murmured: “It is indeed the emperor of this generation, with courage, but you are too weak to take on the tasks of this era.”

Listening to this faint whisper to himself, Qin Tiange took a break from his body, his heart suddenly turned, but he didn’t care.

call!

Stepping into this mysterious virtual seal, I saw a desolate and ancient breath coming to my face, shaking Qin Tiange’s heart, almost unbearable.

He looked up suddenly, his eyes fixed on the center of the seal, and a burning light burst into his pupil.

Chapter 984 - "Disc", cosmic

Hum!

A mighty coercion swept through, deterring the mind, and Qin Tiange’s brain hummed into a short period of obscurity, and a “pan” word flew from his brows.

Suddenly, Qin Tiange just felt that his true spirit was confused, then woke up, as if entering an ancient unknown era.

Chaos is chaotic, the world is obscured!

“Era of Chaos!” Qin Tiange immediately realized that this was the era of Chaos, the mysterious and ancient primitive era.

What shocked him was that his consciousness was immersed in this primitive era, as if wandering here, brought back by an inexplicable force.

boom!

Suddenly, a loud noise came from the darkness and obscurity, and a terrible wave of energy diffused and radiated, shaking the whole world.

Consciousness is blurred, Qin Tiange feels that his real spirit is very painful, as if stuck in something, extremely painful.

Vaguely, he saw a supreme figure standing at the end of the edge of the universe, looking at the other side from a distance.

“Pan!” Qin Tiange’s consciousness shook, and the word instinctively appeared, immediately realizing that this is the supreme being of the past.

The only Supreme being that hit the other side, he turned his back to this, staring at the other side of the universe as if looking at something.

“You, stop me?”

For a long time, the dim figure slowly spoke, and spoke a word that surprised the universe, revealing a horrific killing.

Pan, eyes opened angrily, looking at the vain emptiness in the other shore, the chaos behind one side slowly unfolded, a giant axe flew from the inside.

He split the other bank with a huge axe, and instantly broke into it. He sank into the depths of the other bank, where he encountered horrible obstruction.

Boom ...

The startling world war has begun, a world extinction war has shocked the entire universe, and countless powerful and ancient chaotic creatures have appeared.

They watched the terrible battles on the other side, and gradually, the battles became more and more fierce, which stirred the whole chaos era.

Almost instantaneously, the chaos and obscurity of the big universe were broken, and the horrific axe lights split the chaos and nothingness, breaking the obscurity and breaking the darkness.

That battle lasted for a long time. After how long it was unclear, when a shouting roar came from the other side, shouting the endless darkness, and with a strong sense of violence, it killed the other side.

“Success?” Qin Tiange murmured to himself, stunned by the scene in front of him.

That supreme existence really hit the other side, broke the barriers of the big universe, and split the other side out.

The picture came here, suddenly fragmented, and everything returned to reality. Qin Tiange collapsed in general and was shocked with cold sweat.

His face changed slightly, and he felt that all the small chaos in his body had dried up, and he was shocked. All the small chaos in his body had dried up in just one moment?

What just happened, why did he go back to the chaos era of the past and saw the unthinkable picture, the Supreme Being really broke through the other side and killed.

“Essential blood!”

Qin Tiange suddenly looked up, looking at the seal in front of him, the data symbols interweaved, coiled around a gray thing.

The group of gray things looked like a liquid, revealing the ancient and powerful coercion, and really seemed to face that terrible existence.

This is the essence of the “pan” that successfully penetrated the other side of the past. A drop of gray essence, like a basketball, floats there and emits a hazy mist.

“This is the blood of Pan?” Qin Tiange was surprised, watching the gray blood, the blood of the old one, was collected by the strong intellectuals to create a powerful Pangu tribe.

Taking this drop of blood as a sample, the Pangu tribe created is powerful and terrible. If it is a real pan, how terrible is it?

Uh ... 咚隆 ...

Suddenly, Qin Tiange heard a sound of encouragement in his body, and his heart suddenly and uncontrollably beating, beating with a strange rhythm.

The throbbing sounds of the throbbing heart beat all over the place, causing a trace of chaos to pervade and converge, turning into a boiling chaos.

At this time, Qin Tiange’s eyebrows burst out with an ancient word, and he slammed on that drop of essence blood. Then, he saw that drop of essence blood gradually poured out a strong chaos gas, kept tumbling and roaring. Surrounded by chaos.

boom!

Suddenly a muffled sound, Qin Tiange’s heart exploded into a blood hole, and the heart inside burst open autonomously, making him look at his broken heart with a weird look.

At that moment, that mysterious drop of blood suddenly turned into a lasing light and poured into Qin Tiange’s ruptured heart.

With a bang, there was a feeling of chaos colliding, a big collision between heaven and earth, and the small chaotic cells in the body collapsed in an instant.

The body disintegrated, and instantly disintegrated into a mass of gray chaotic plasma, enclosing that mass of blood.

Qin Tiange’s true spirit flickered, and he turned into a chaotic elemental tyre and wrapped up that mass of blood, and even began to melt and absorb it autonomously.

surprise!

He felt that he could easily draw the power from that drop of blood, and the vast power continued to pour into a body of primitive chaos.

With the body’s inexplicable decomposition, it turned into a chaotic plasma, and the two blood streams merged with each other and became one, as if undergoing some kind of transformation.

“what?”

There was a horror of suspicion in the darkness, and a ripple of data suddenly appeared outside the seal, and then a hazy figure appeared, looming and extremely mysterious.

It is not the No. 2 before, nor the main brain that other Qin Tiange has seen, but the most mysterious main brain that has never been seen and never appeared, No. 1.

“No. 1, what’s wrong?” The No. 2 master emerged and looked at No. 1 in suspicion.

This mysterious man turned out to be the most mysterious one of the Zhi people. It appeared directly, with strong data in his eyes, as if to see through the situation inside.

Unfortunately, the inside of the seal was completely blocked by chaos, and it was completely impenetrable, not even the powerful One could see through it.

This alarmed the No. 1 of it, and after watching it for a long time, the main brain of No. 1 was silent.

“I can’t see it, what’s going on inside?” No. 1 said to herself, surprised.

As Qin Tiange entered, he could still see it at first, but with a gush of chaos, he couldn’t see any scene immediately.

The main brains of No.1 and No.2, both stood quietly outside the seal and did not enter them, but fell into contemplation.

“No.1, do you say if he ...” The main brain of No.2 said softly.

But No. 1 slowly shook his head and came out with a sentence: “No, that person has definitely successfully hit, probably related to Pangu blood in his body, after all, Pangu blood was created based on that drop of essence blood.”

“Perhaps, the main force this time is the human race?” No. 1 said to himself, saying such a sentence.

The two main brains were silent. After a long time, No. 1 dropped a sentence: “You watch closely, wait for No. 10 to come out of the think tank and bring her to see me.”

No. 1 said that the entire number disappeared, as if never before, no one knows how powerful this No. 1 is.

Its status, strength, and even its origins can be traced back to the late Chaos Era, which is an extremely scary old antique.

“Human race, will be the main force?” No. 2 frowned deeply, shook his head in doubt, this possibility was impossible.

The Terran is now a group of weak chickens. And now that time is running out, can the Terran grow to become the main force of this era in a short period of time?

At this time, inside the seal, chaotic gas surged, and a stream of gray liquid intertwined and turned into countless forms.

Qin Tiange was completely immersed in a desolate ancient force, as if he had transformed into a horrible existence, but unfortunately he knew it was an illusion.

That is the mark left in the essence blood, and in order not to be affected, we must maintain sufficient self-awareness.

Gradually, a grey egg appeared in the seal, or a primitive birth, a chaotic birth.

In the chaotic elementary fetus, 999 cosmic fetal membranes are conceived, drawing endless energy and constantly growing.

That drop of essence blood contained energy beyond imagination. After being absorbed by Qin Tiange, he continued to grow his own chaotic primitive fetus, and even preserved the cosmic fetal membrane in his body.

In the end, Qin Tiange's disintegrated body gradually emerged from the chaotic primordial body, and the hazy vignette gathered 999 cosmic fetal membranes. The disintegrated bodies were intertwined.

The first is the bones. A vast stream of primitive chaotic spirits came out, interwoven into a gray skeleton, carrying all the cosmic membranes.

Then flesh and blood were derived, a little bit re-transformed, becoming more simple and powerful, as if undergoing a huge promotion of life and death transformation.

Uh ...

Within the body, the sound of violent gurgling came from the cells, and a stream of chaotic primitive essence poured in, expanding the small chaos that had collapsed.

Gradually, all the little chaos recovered, and even became stronger, more than ten times stronger than before.

Huh!

Qin Tiange suddenly opened his eyes, two beams of horror tear the chaos, and a heavy ancient breath permeated from his body.

The chaotic Yuan transforms into a brow into the eyebrow, and around it, a wave of raging primitive chaos essence immediately flows into the body.

“The chaotic elementary fetus has matured ...” Qin Tiange murmured to himself, and a wave of surprise surged in his heart, and soon calmed down.

He watched his body change, it was an amazing metamorphosis, the chaotic elementary fetus had finished gestating, and gave birth to a newborn baby chaos.

In other words, Qin Tiange's current strength has achieved a great breakthrough, directly gestating a complete and mature baby great chaos.

In addition, the 999 cosmic fetal membranes in the body have also made great progress, and they can almost produce a baby universe.

The 60 trillion cells in the body are chaotic and have undergone huge transformations, ten times more powerful than before. This is the effect of a drop of essence blood.

With just one drop of sperm blood, almost all of Qin Tiange's universe fetal membranes have been formed, which is simply incredible.

This is still the result of the exhausted energy in the essence of the former wisdom family, which has a little effect. If the essence is not consumed, how terrible.

“Now, what kind of level am I, age class? Era level? Or another existential universe level?” Qin Tiange muttered to himself.

He thought about what he was doing at the current level time level, that is a way to practice in the era of ancient times and so on. Breaking the age and entering the era can become an era-level powerhouse.

The other taboo road is to not enter the ancient world, but to condense its own inner universe, and to embark on the taboo road. Once a mature baby inner universe is successfully bred, it will become a cosmic powerhouse.

To be honest, the cosmic level is actually one level higher than the epoch level, but it is much stronger because it is a taboo road.

In other words, the cosmic class is the strongest of the era-level, epoch-level creatures, and more powerful. Qin Tiange is now truly entering the ranks of the cosmic class.

boom!

Qin Tiange glanced at it, and the dense virtual seal symbol in front of it collapsed on the spot and turned into a passage before him.

“It’s time to go out.” Qin Tiange stepped into the channel step by step and came outside.

“You ...” Just came out, just saw the dull No. 2 main brain, staring at Qin Tiange with wide eyes.

Chapter 985 - Mystery 1

Before the seal, the sky data was intertwined, but it could not get close to Qin Tiange’s body, and was blocked by an invisible force.

The main brain of No. 2 was shocked, staring at Qin Tiange dumbly, his eyes flashing with a chaotic stream of data, as if calculation errors caused confusion.

“Calculation error, parsing error, non-existent, non-existent ...” No. 2 muttered to himself, a dull expression, as if the brain had crashed.

The powerful No. 2 main brain, because of peeping at Qin Tiange, caused a slight error and deviation in the calculation, as if it was chaotic and unpredictable.

It just saw Qin Tiange coming out, he had to look at it instinctively. As a result, the endless data link collapsed, and the brain almost broke the file.

“Hoo!” The next moment, Master No. 2 was sober, his eyes returned bright, and Qin Tiange’s eyes became strange.

It couldn’t see Qin Tiange, and he could vaguely calculate his details before, but now it suddenly disappeared, as if he didn’t exist at all.

Yes, in the eyes of No.2, Qin Tiange does not exist and cannot be calculated, even as if he is not in this big universe.

Qin Tiange now seems to belong to this universe without any information from him. How to calculate it?

“What’s wrong?” Qin Tiange smiled at the No. 2 main brain in front of him with a smile.

The latter shook his head, took a deep look at Qin Tiange, and said, “Concubine, congratulations on getting rid of the shackles and surveillance of the universe.”

This remark made Qin Tiange’s thoughts immediately, and he immediately realized that he had completed the gestation and maturity of the chaotic primitive fetus, and evolved into a chaotic baby.

With this shaped baby chaos, it is completely isolated from any restraint and surveillance of the big universe. Naturally, it is not in the big universe, but in his own inner universe, the baby chaos.

“Aren’t you the same?” Qin Tiange said without a smile, “You have long been out of the shackles and surveillance of the universe. I’m just a latecomer, not as good as you.”

With that said, Master No. 2 had some flutter in his mind, but soon he was sober, showing a touch of bitterness.

“I just wanted to measure you instinctively, but did not expect that my brain would be short-circuited. It seems that your emperor has more abilities than we can imagine.” The main brain of No. 2 pointed out the recent experience.

In this regard, Qin Tiange did not say much, smiled and did not respond to him, but thoughtfully looked to the other side.

The sky is intertwined with data, and the strange data symbols are beating, which makes Qin Tiange pay attention to the mysterious atmosphere.

“Want to come, just now your mysterious No. 1 master came here?” Qin Tiange said suddenly.

No. 2’s body shook slightly, and she nodded slowly after a moment of silence: “Yes, No. 1 came to see you, but couldn’t see through the scene inside.”

Qin Tiange thoughtfully and said to himself, “One, it should be the only intellectual family left by your intellectual family from the chaos era?”

No. 2 was silent and did not answer this sentence, apparently acquiesced. The mysterious No. 1 was the only intellectual family left from the chaos era.

It is the only remaining tribe of the entire intellectual family. It has been silently trying to restore the glory of the intelligent family. Unfortunately, after countless years of hard work, it has only successfully appeared in the brains of eight intelligent individuals, real intelligent individuals.

Together with the number one, there are only nine master brains. Now with the self-decaying in the think tank, it can be regarded as the tenth master brain.

The Zhi people are very mysterious. They have a small number of people, but they are extremely powerful. They are a strong family of the Chaos era.

Just look at them with a drop of essence of “pan” to create a powerful Pangu clan, that is a shocking ability.

“I would like to talk to you if given the opportunity.”

Qin Tiange looked at the misty data stream, and suddenly said something inexplicable, which made people puzzled.

But weirdly, there was a wave in the mysterious data stream, and then a sentence came.

“Okay, ten years later, you came here to find me.”

There came a mysterious voice, which is the most mysterious and powerful No. 1 master brain of the Zhi people.

It actually agreed with Qin Tiange’s proposal, and the two agreed to meet ten years later, one of the mysterious number one of the ancient intellectuals and the contemporary emperor of the human race.

No one knows the meaning and ideas of the two. Only Qin Tiange and the mysterious number one can understand each other’s minds.

What Qin Tiange wanted to do was naturally learn the secret of Chaos Era from the mysterious Zhizu No. 1 master brain.

In addition, he has to get more powerful scientific and technological exchanges. This is his idea. Zhi people, even Pangu people can create it. This technology is simply terrible.

If the Terran can understand each other and the Terran, even if the Terran learns the ancient and powerful technology of the Terran, they will certainly get horrible development.

The human race is a very unique race. Individuals are not lost to the universe and can develop their own scientific and technological strength.

This is different from the other races in the universe. The human race combines many advantages, but also has many disadvantages, resulting in the unique talents and abilities of the human race.

“Hopefully, our human race can form scientific and technological exchanges with your intellectuals. Of course, the human races want intelligent science and technology.” Qin Tiange bluntly stated his thoughts.

The main brain of No. 2 was stunned, looked at Qin Tiange and the mysterious area, and did not speak. No. 1 was talking to Qin Tiange.

After a long silence, the mysterious No. 1 brain came with a sentence: “You don’t have to worry about this. When the No. 10 comes out, I will hand over the crystals of the wisdom and technology of all generations to her and let her take it to the people.

“Thank you so much.” Qin Tiange was surprised, but thanked him directly.

The other party is willing to give, then it’s best. If you don’t give it, it’s okay. As if you haven’t said that, you will find a way to get your own.

Well now, this mysterious number one directly explains that when Jiji comes out of the think tank, she will directly give her all the intellectuals of the intellectuals of all generations of science and technology.

This is definitely a great benefit. Once the people have mastered the ancient scientific and technological knowledge of the wisdom people, it will definitely be a huge transformation for the people.

“People, grow up with the human race as soon as possible, and the universe will not have much time left for us.”

At this time, in the turbulent flow of data, the mysterious No. 1 warning and reminder came, which made Qin Tiange’s heart move.

The words of Master No. 1 are undoubtedly telling him that the universe has not much time left for the nations and must grow up as soon as possible.

It can be seen from its meaning that this mysterious number one seems to be more inclined towards human race, more optimistic about human race?

Qin Tiange nodded and didn’t ask, but just silently wrote down the message reminder, and felt a sense of urgency in his heart.

The great cleansing has begun. The looting of ancient times is a strong signal, which has made the universe’s souls and countless strong people feel the pressure.

Hum ...

Suddenly, a mysterious shock came, causing the source data sea to boil, and a powerful stream of data swept away.

The accident happened suddenly, causing the entire source data to boil, and a flood of data swept away in a certain direction.

“Well, is this?” No. 2’s expression suddenly changed.

He looked at the tumbling stream of data, the waves were rough, and they were roaring towards the think tank.

Qin Tiange looked in surprise. The endless data flood was violent, as if the source data sea had been boiled.

“It was number ten. She succeeded?”

The voice of No.1 came with a hint of excitement, as if knowing the origin and cause of this change.

It is because of this that the number one that did not appear directly reveals the body, and a mysterious and unknown piece of mysterious data surrounds it.

Seeing the emergence of No.1, Qin Tiange was shocked and secretly surprised that the other party had just noticed himself without any notice.

Until the moment of appearance, there was a little capture and induction, which proves that the Zhizu Mystery No. 1 is stronger than him.

“What a mysterious guy, can’t see through, unfathomable!” Qin Tiange took a deep look at No. 1 master’s brain and gave an evaluation in his heart.

This mysterious number one really gave him a sense of see-through, without any danger, and without any feeling, as if the other party did not exist.

Just like the No. 2 main brain treats Qin Tiange, Qin Tiange treats this No. 1 with the same feeling.

“Tenth is about to succeed. I don’t know what she got in the think tank?” No. 1 looked with a touch of expectation and excitement.

The mysterious think tank of the wisdom group is the only core inheritance of the entire wisdom group. Only by entering into the think tank and gaining some kind of inheritance can it be truly considered as a complete intellectual group.

Xunji entered the think tank, and what he gained, it was not clear that No. 1 was because he was not in control of the think tank.

In other words, the think tank is a kind of inheritance of the intellectuals. The water inside can’t control anything. Only the intellectuals who enter it can know clearly what they get.

“Leave, depending on the situation, the tenth is ready to come out.”

No. 1 took the expectation together, stepped out, and a passage emerged in front, leading directly to the outside of the think tank seal.

Qin Tiange and No. 2 main brain both stepped into it, followed Mysterious No. 1 to the seal outside the think tank, and waited quietly.

At this time, a flood of data in the think tank was entwined and rushed into the think tank, as if why people open no uploads.

This is the inheritance from the wisdom group. The think tank contains endless mysterious wisdom, and even has terrible power, which belongs to the wisdom group.

Qin Tiange was very curious, what power in the think tank he had obtained had caused such a huge fluctuation, and even the No. 2 main brain was shocked.

Huh!

At the same time, one after another, all the main brains of the Zhi people came, and all nine main brains have arrived.

Qin Tiange looked at the main brains of these nine intellectuals From No. 1 to No. 9, each face showed a touch of excitement and a touch of shock.

The excitement is because the Zhi people have another true member, the self-denial, which is the main brain of the tenth Zhi people.

The shock is because these main brains have entered the think tank, and the inherited power they have obtained is not as shocking as the world.

“On the 10th, what did she get?” On the 9th, she was shocked and couldn't believe that Jiji had caused such a huge movement.

“Out!”

At this moment, No. 1 had his eyes brightened and stared at the entrance of the think tank, where a hazy figure slowly emerged, stepping out step by step.

The coming person is the self-confidence, who has completed the inheritance and transformation of the think tank, and has become a true intellectual. He belongs to the intellectual and the tenth master brain.

“Daji...”

Qin Tiange looked at the graceful figure that came out slowly, and suddenly there was a shadow in his heart, and he stared closely at the figure coming out.

Chapter 986 - Thriller, I have swallowed a think tank?

In the seal, the sky's data came together and turned into a long dragon circling around a silhouette.

The sea of data is boiling, and endless symbols are coming, as if the big universe has become one by one mysterious data at this moment.

The graceful figure is very rhythmic step by step. At each step, a mysterious source of data behind it flows into the body, and the breath becomes stronger.

“This ... this ...” The main brains such as No. 9 and No. 8 were dull and their brain data was chaotic. Suddenly, a thrilling thought occurred.

They were horrified to see that as the self-walker came out, wherever he went, the most mysterious think tank of the intellectuals turned into a mysterious source and poured into her body.

I have been swallowing the think tank of the intellectuals? Seeing this phenomenon, the main brains of Nos. 2 to 9 all showed horrified eyes, and the data in the brain was disordered.

Not to mention them, even Qin Tiange was stunned, watching his step-by-step step by step, the hazy figure became increasingly hazy, and finally turned into a data, absorbing the huge think tank information and the power of the original data.

At this moment, Jiji seemed to be transformed into a think tank. Each step swallowed the mystery of a large mysterious think tank. Symbols were intertwined with the sky, and constant collisions formed a brand new body.

“Think tank, was she eaten?”

The main brain of No. 2 was dull, and it was completely unthinkable. The most mysterious think tank of the Zhi people was eaten a little by oneself.

From the perspective of several major brains, the self-digestion is eating the think tank, it is all devouring the think tank to grow, little by little, step by step.

Where she passed by, the think tank of the intellectuals was rapidly disappearing, and poured into a body of their own, constantly transforming their body and energy.

What is a think tank? Qin Tiange didn't understand, and guessed that it should be a mysterious origin of the birth of the Zhi people, belonging to the product of the chaos era.

It has been passed down to this day, but I did not expect that I have swallowed the original think tank origin of the Zhi people.

“Oh my God, why did she eat a think tank?” The No. 9 main brain screamed, looking terrified and terrified.

He said incoherently: “The think tank is the source of the birth of our intellectuals. Doesn't she eat the think tanks and ruin the entire intellectuals?”

“Number one, hurry up, stop her.”

The main brains of the No. 2 and No. 3, etc., were frightened and asked No. 1 to stop their own actions. Isn't this going to destroy the entire intellectual family?

Once the think tank is gone, can the intellectuals survive? Zhizu is a mysterious race born from a mysterious think tank.

During the Chaos Era, a mass of mysterious material was produced in the universe. It persisted like a virus and was not washed away by the universe.

In this way, this mass of matter has evolved into a mysterious and powerful intellectual group, which was later called a think tank by the intellectual group.

It can be said that the think tank is the cradle of the entire intellectual group. Now that the think tank is swallowed by the self, it means that the entire intellectual group is gone.

Qin Tiange lifted up his strength, and suddenly he was vigilant, his eyes stared at the brains of these nine intellectuals. Once they dared to shoot, no wonder he was.

However, it was surprising that the No. 1 master had a blank brain, but did not do it, but looked at his self in surprise.

Mysterious No. 1 is shrouded in obscured data. You can't see the true appearance, and it's not clear what it looks like.

But with the emergence of his own self, the mysterious number one gradually spread out a mysterious and unpredictable fog, revealing his original true body.

An old figure is surrounded by a chaotic and ambiguous data symbol, showing a strong and ancient atmosphere.

He is the strongest of the intellectuals, the only survivor left from the Chaos era, and has existed to this day.

No one has ever seen his true face. Now, the change of his self has made him reveal his true appearance for the first time.

The other main brains were stunned. Looking at No. 1 for the first time, they showed their original true appearance and were shocked.

“Number one, you ...” The number two master shook his head and looked at number one, some speechless.

I saw that No. 1 eyes glowed with a trace of burning light, extremely fierce, as if looking at a supreme sacred, full of a trace of piety.

“The cradle and think tank of the intellectuals can really be absorbed. This is true ...” No. 1 said to himself, with a shocked expression, full of piety and fanaticism that was difficult for outsiders to understand.

The number one is the clearest about the existence of think tanks. It is the starting source of the entire intellectuals and the cradle of the intellectuals.

In the distant era of chaos, such a secret rumor spread from the wisdom family, the cradle of the wisdom family, the think tank, can be absorbed.

However, no intellectuals have succeeded, and the secrets of this family have been passed down, saying that once an intellectual has successfully absorbed a think tank, it is to exist above the entire intellectuals.

Once such an intelligent family appears, it means that the intelligent family can break through the big universe and successfully rush out.

Now, Xi Ji is devouring the entire mysterious think tank step by step, and is gaining an unprecedented transformation.

Doesn't this prove that this generation of intellectuals can successfully break across the universe and fulfill the dreams of countless intellectuals' ancestors?

“Success!”

No. 1 was full of excitement, his eyes were slightly pious, his head bowed slightly, and he bowed his head slowly towards the ego that was coming out.

It, the mysterious number one, directly expressed his determination, and his success in swallowing the think tank was tantamount to overriding the entire intellectual family.

“Number one ...”

Looking at the main brain of No.1, the other main brains such as No.2 were shocked one after another, it was incredible, there was a feeling that the brain was down.

Qin Tiange looked at the brains of the nine intellectuals, especially No. 1, and was surprised, and secretly guessed.

He looked at his increasingly powerful self, and every step he took, she felt ten times more powerful, as if erupting with a geometric multiple.

Li Ji, step by step out, swallowed the mysterious think tanks around, the entire mysterious think tank is a mysterious unknown origin.

The origin of this group was born into the chaos era, the cradle of the Zhi people, but now they have been broken down and devoured by their own minds and eaten completely.

boom!

Suddenly, when Xunji stepped out one step, the entire source data sea violently vibrated, violent boiling and rumbling occurred.

With a foot coming out, the mysterious think tank behind Jiji collapsed and turned into a mysterious source material one by one into her body.

Oh!

Stepping out, Yanji crossed the imaginary material barrier and her seal disintegrated. The mysterious think tank disappeared and disappeared completely.

Everyone, staring at the ***** who came out, had a strange feeling, even Qin Tiange had a very strange feeling.

I have changed!

Qin Tiange's expression changed and his mind was complicated. Before letting her come over, she agreed that she was ready to enter the think tank of the wisdom tribe.

However, I did not expect that my self had changed, because her brain had been swallowed up by the intellectuals, causing her origin to change, as if she had suddenly become a strange existence.

Wow!

The nine masters knelt on their knees. The shock and thriller had disappeared, but a strong sense of piety was revealed.

No.1, No.2, up to No.9, full of nine masters of the intellectual family, knelt in front of their uncles without any hesitation.

As if they were born to believe in this strange presence that came out, dying themselves, devouring and integrating a think tank, is tantamount to overwhelming the entire intellectual family.

A wisdom group is born into a think tank. Once a wisdom group absorbs and devours the entire think tank, it is equivalent to controlling the entire think group.

That kind of existence is the supremacy and supremacy of the intellectuals, which is above the entire intellectuals, and no intellectuals will even oppose or even resist.

Because think tanks are born from think tanks, who can resist them?

“Yanji ...” Qin Tiange looked complex, and quietly looked at the Xunji in front of her. She became more perfect, as if it were the incarnation of a universe, perfect to the point where it felt unreal.

It can also be said that Jiji is not real now and has swallowed a think tank. Her physical constitution has undergone a fundamental transformation, mysterious and unpredictable.

Even Qin Tiange now can't see through himself, such a change makes him feel very uncomfortable.

Xun Ji slowly swept across the nine main brains kneeling in front of his eyes, and there was a hint of indifference in the pupil without any emotional fluctuation.

“Go, gather all the intelligence, enter the think tank to transform, and become a true intellectual.”

I spit it out indifferently, turning the palm of my hand, a cube was turning slowly, and data flowed.

This is a think tank. Jiji completely controls the think tank and changes into a cube.

“Observe!”

The nine intelligent minds led their lives together, dissipated respectfully, and quickly gathered the intelligence programs of the entire Zhixing family to collect and return.

A stream of data swept through, it was all intelligent programs created by the entire intellectual family, a group of intelligent return to the think tank.

As the nine main brains left, and the collection of endless intelligent programs entered a brand new think tank, only Qin Tiange and Xunji were left at the scene.

“Hee hee, master, how do you behave?”

The indifferent self-confidence suddenly changed his face, and a hippie smile flashed to Qin Tiange’s side, holding his arm gently, blinking playfully.

Looking at the familiar uncle in front of him, the playful and lovely appearance, Qin Tiange’s heart was stunned, but a familiar warm current poured out.

I have not changed She is still my original uncle, but she has changed her strength and has swallowed the think tank.

In other words, Xunji is now a brand new think tank for the entire intellectual family, controlling the lifeline of the entire intellectual family, and even surpassing the entire intellectual family.

“Naughty, almost scared me, I thought ...” Qin Tiange breathed a sigh of relief and smiled.

“Hee ...” Jiji blinked and laughed, “Master, do you think Jiji doesn’t want you anymore?”

“Begging!” Qin Tiange cursed with a smile, and flicked her forehead lightly, and indeed there was that kind of thought in her heart.

“Well, tell me, what the **** is going on, and how did you swallow up the think tanks of other people’s intellectuals?”

Qin Tiange looked serious, looked at his own self, and asked, word by word, that this matter must be explained clearly, or he felt uneasy.

“Master, that’s it.”

Jiji groaned, and slowly spoke his own journey into the think tank, so that Qin Tiange gradually understood.

Chapter 987 - The matter of another universe?

“Do you mean, the think tank of the intellectuals does not belong to this universe?”

After hearing his own words, Qin Tiange's expression changed greatly and was shocked by the news. I have swallowed the think tank, and obtained the core secret of this cradle of the wisdom.

The think tank, this mysterious source of matter, does not belong to this big universe, but is the product of another universe.

"Yes, the master!" Jiji looked serious, explaining: "I was really curious why there was a strange power in the think tank that could not be analyzed. Later I tried to absorb it, and then I accidentally swallowed the think tank. "

Jiji said a little embarrassed, carefully squinting at Qin Tiange, seeing that the latter was no longer in his body, as if he was talking about learning from you.

As the so-called near Zhu is red and black is near Mo, Qin Tiange does not know how much he has eaten all the way, devouring peoples, and eating time and space. It is a variety of strange things.

Like the people around him, Li Luo has been affected to some extent. Now, Jiji is also severely affected, and he directly eats the think tanks of people's intellectuals.

Qin Tiange touched his nose, his heart was embarrassed, but his face turned and he looked at his self seriously.

"How are you doing now, is there any bad phenomenon?" He looked at his self, somewhat worried.

Xun Ji swallowed the entire think tank, which was tantamount to overriding the entire intellectual group and became the true ruler of the intelligent group.

At this point, Qin Tiange did not expect that the original main brains just wanted to let his self come back, enter the think tank and transform, and become the real intellectuals, number ten.

But I did not expect that Jiji swallowed the think tank directly. This time, all right, even the mysterious number one of the Zhizu group could not escape the fate controlled by Jiji.

Think tanks are the core of the entire think tank. Think tanks born from think tanks are naturally controlled by think tanks.

I have swallowed the think tank, which means that she controls the core of the entire mystery of the think tank, and naturally she can control the entire intellectual family.

"Master, there are many mysteries hidden in the think tank, such as the secrets between this big universe and another big universe." Xi Ji said deeply.

Then, she flipped her palms, a diamond-shaped symbol beating, the data was intertwined, and turned into a stream of data information to Qin Tiange.

She said, "Master, here is a core message I copied from the past. Look at the contents yourself."

"Good!" Qin Tiange's pupils contracted, drawing this data into the sea of knowledge, and directly receiving the huge and secret information inside.

A huge stream of information poured in, so that Qin Tiange was immersed in it, constantly traveling in the vast sea of knowledge, and learning what was inside.

Gradually, Qin Tiange's face became dignified, his pupils continued to flash fierce light, obviously his heart was extremely boiling, and he was very calm.

For a long time, when Qin Tiange exhaled slowly, his eyes were a little stunned, because this message contained too many secrets.

“Multiverse ... Multiverse ... Cosmic Sea ...” Qin Tiange said to himself, his expression was dull, as if he saw something incredible.

The core secret of the think tank that Xunji had given him contained a piece of information that he had never thought of, which was simply shocking.

There is more than one big universe, but it is diversified, and there is an unknown number of huge universes. The origin of the so-called think tank comes from another different universe.

“Master, I seem to understand why the great cosmic powerful people are thinking of going beyond the limits of the universe.”

His own expression was sullen, his eyes flashed with a strong stream of data, and he seemed to see a certain mystery.

Qin Tiange lowered his head and remained silent, Xu Jiucui said, “These things are well sealed and cannot be disclosed, otherwise we will attract bad threats.”

“Understand.” Ji Ji nodded slightly, solemnly.

Swallowing a think tank made her understand a lot of the secrets of the big universe, and even learned information from another universe.

A multiverse exists. Beyond this big universe, there is another universe. Why do all the creatures of the universe want to rush out of the other side of the universe, because the outside is wider.

Only by breaking out of the cosmic constraints can we embark on higher achievements. This is the pursuit of souls in each universe.

“The big universe, the big cleansing, the other shore, the multiverse ...” Qin Tiange said to himself, suddenly a bitter smile.

He looked at Jiji and said, “I did not expect that this think tank of the tribe turned out to be material from another big universe, and no wonder it had to be recognized by this universe.”

“Well, parallel universes may collide with each other, or even overlap. Maybe the other side is the connection point of another universe.” Ji Ji made his own guess, maybe there is another channel of the other side.

However, Qin Tiange felt that the former “superpower” of the supreme strong man must not have penetrated into another universe, but actually had hit the so-called universe sea outside the big universe.

“Yanji, what do you think the universe is?” Qin Tiange suddenly asked this sentence.

After listening to it a bit, he thought deeply, suddenly spread his palm, and a cloud of dim data interweaves, transforming a hazy cosmic membrane on the palm.

She looked at the changing universe membrane and laughed, "Master, this is the universe, we want it to be like this."

Qin Tiange smiled, and his chaos was intertwined with chaos. The one inside that really gave birth to the baby chaos was strictly a brand new primitive chaos universe.

The big universe, perhaps, is just like the inner universe. The inner universe evolves and transforms according to the big universe, and naturally has something in common.

"It seems that we have a long way to go, and that we are running out of time, it seems that the great cleansing has already advanced." Qin Tiange looked at the universe transformed by Ji Ji.

This is a data universe, woven from countless mysterious data, an illusion and a real universe.

I have swallowed the think tank, and it has become a bit unrecognizable and speculative. What level she is at now is not even clear to Qin Tiange.

"Yanji, what is your current strength?" Qin Tiange asked curiously.

"Guess?" Jiji blinked playfully, then laughed: "Master, I am currently in the stage of evolutionary universe, that is, universe-level."

"Actually, the think tank itself is an incomplete source of the universe. This is the birth of the intellectuals. I have eaten this source and is re-evolving a brand new universe."

After Xunji finished his speech in 151, Qin Tiange finally understood that he couldn't help showing a bit of bitter smile and felt a little bit big.

There are many secrets hidden in the universe. Even if I have obtained a think tank, I know very little.

For example, there are many terrible creatures in the universe. These are taboos among taboos, or a creature from another universe.

The collision between the universes has led to the connection, even overlap, of the two universes, swallowing up and growing up with each other, which has caused this universe to have creatures in another universe.

Some creatures are very powerful, hidden in a corner of the universe, and will be cleansed by the universe itself. This is the so-called big cleansing.

"One, and even those powerful creatures hidden in the universe, what do they want to do?" Qin Tiange frowned suddenly, lost in thought.

Gaining a lot of cosmic secrets, Qin Tiange has vaguely grasped a little mystery that could not be seen before.

Just listen to Jiji softly said, “Master, Zhizu has been planning to break away from the shackles of the universe and enter the cosmic sea. All strong men in the big universe have this desire.”

“And on the other side, there is another point of contact in the universe. The force generated by the collision of the two universes is enough to tear the barrier of the universe and have the opportunity to break away from the cosmic bond between the two universes and enter the universe.”

Fu Ji said here, with a very serious expression, saying, “Perhaps, those powerful beings in the big universe want to break the **** of the universe and escape the universe through the timing of the collision of the two universes.”

“However, the great universe has a power to prevent the internal beings from detaching. This is the so-called source of great cleansing, which is set to clean up those beings that are about to escape the **** of the universe.”

“Master, we must hurry up now and start planning for the future, otherwise it is likely to be erased by this big cleansing.” Xi Ji looked at Qin Tiange very seriously and expressed his opinion.

Having controlled the think tanks of the intellectuals, a broken universe origin, I can say that there is another way of evolution and transformation.

But in this big universe, it is easy to be cleansed. This is why you should avoid, avoid large cleansing, and even break away from the shackles of the universe.

People of all races cannot be spared. Once they pass the red line of the universe, they will be cleaned immediately. If they want to avoid or even get rid of the universe, they must have sufficient strength and means to counteract it.

“Only by stepping into the universe, can we truly get rid of the cosmic constraints. As for those souls who have entered the barriers of the times and even hid in the epoch cage, they may have entered the dead end.”

Qin Tiange’s expression suddenly turned away, and suddenly he had this kind of enlightenment. Countless powerful people who had hid in the times, even forced to enter the hidden powerful souls in the era, might have entered a dead end.

According to some secrets recorded in the think tank, Qin Tiange learned that those times are a refuge created by many strong men who collected fragments of another universe after the collision of the two universes.

“The wisdom of the strong can not be underestimated, but building a refuge is a dead end after all, digging the grave.” Qin Tiange said to himself, could not help but sigh.

He lamented the wisdom and power of those powerful men, collected fragments of another universe, and created ancient sanctuaries of the times.

But after all, it became a prison cage, and even graves were dug out, and numerous cosmic strongmen were buried in it, unable to escape.

The real way is to follow the path of the transformation of the universe. If you want to break away from the constraints of the universe, you must have your own inner universe. This is the way to live.

“Yanji, I’m going to the older era, picking Chen Xi back, maybe it’s up to you here.”

Qin Tiange suddenly proposed this decision, and he already had a kind of decision in his heart. He wanted to break the barrier of the epoch, enter the ancient epoch, and look for Chen Xi and others to bring it back.

After hearing this, Xie Ji frowned and worried: “Master, the era is hidden in the chaotic interlayer between the two universes, it is difficult to break, and there is the oppression and blockade of the two universes, which are basically prisoners made by the hands behind the big universe. Cages, and even two hands behind the scenes of the universe, are very dangerous to watch. “

“No matter how dangerous, I will take Chen Xi back safely.”

Qin Tiange’s face was firm and he never wavered. Even the masters behind the two big universes will not flinch.

Chapter 988 - Planning the Origin of the Universe

Qin Tiange intends to find the barriers of the epoch in the near future and enter the ancient epoch to bring them back.

Because time is running out, the big cleansing has begun. The first thing to sink is the ancient times, which is completely finished.

Next, the intensity and speed of the cleaning of the universe will be faster. Before this cleaning comes, they must find Chen Xi and bring them back safely.

Only in this way can Qin Tiange wholeheartedly prepare for the next plan. What plan is naturally a plan out of the shackles of the universe.

“Master, at present, according to the information recorded by the think tank, this time the cleaning is advanced in advance, most likely because the collision between the two universes has advanced.” Ji Ji suddenly made the news.

Her words surprised Qin Tiange, and then she meditated for a while, grasping a hint of mystery.

“Maybe, both universes want to swallow each other, just like the evolution and growth of the big universe, maybe ...” Speaking of which, Qin Tiange was stunned.

Suddenly, he looked into the chaos of his own Dantian. There were 999 cosmic membranes floating on it, and it was almost formed.

Once formed, you really have the power of the big universe. Although it is only the power of the baby’s small universe, it is also the power of the real universe.

As long as the transformation of the cosmic fetal membranes is completed, the strength of the 999 baby universe is enough to support Qin Tiange’s grand plan for the next step, and even to achieve the final release from the shackles.

“The evolution of the universe can be accomplished by devouring the universe. Then, the cosmic membrane in my body wants to complete the transformation. The energy required is too large, and it is basically impossible to give birth.”

Qin Tiange’s mind turned sharply, thinking quickly about his current situation. The number of cosmic fetal membranes bred was too much, resulting in more energy than was imagined.

It is difficult to conceive a baby’s inner universe, not to mention Qin Tiange’s simultaneous birth of 999 inner universes. How crazy is that?

“It seems ... well, my appetite is a bit big ...” Qin Tiange was a little embarrassed. There were too many internal universes, which was too greedy before him.

Not to mention these, look at the small chaotic cells in the body, a total of 60 trillion small chaotic cells, is a truly small chaotic world.

Once you want to complete the transformation into a universe, it is crazy to dream, unless he swallows the origin of the entire universe.

“The origin of the universe ... maybe, this is my only way out.” Qin Tiange blinked his eyes, thinking about these issues, and finally realized that his only way out was the origin of the universe.

If you want to conceive the formation of the inner universe, you must have the origin of the universe. Before that, Qin Tiange obtained a drop of “disc” essence blood and completely bred the chaotic birthplace.

And the remaining 999 cosmic membranes cannot be achieved. If you want to breed successfully, you must plan other cosmic origins.

“Yanji, look for it. Is there any record of other universe’s materials or treasures in the think tank?”

Qin Tiange looked at his self, said a sentence directly, and made a decision in his heart, thinking of a solution.

After hearing this, Ji Ji understood his thoughts, and his thoughts merged with the information and most of the secrets that the think tank had not had time to digest.

Now if you look at it, you will naturally discover it very quickly. You can’t see it, but at a glance, you really discovered that there are many things in the universe that contain the origin of the universe.

For example, cosmic treasure!

“Universe-class treasure?” Qin Tiange froze, his eyes flickered, and he suddenly looked at the unknown place in the midst.

There is a mysterious stone bridge that crosses the universe and adjoins the other side. It is Naihe Bridge. At this moment, Qin Tiange has made a new discovery.

This stone bridge turned out to be a cosmic treasure. No wonder it can cross the cosmic void and land on the other side. It is indeed a super treasure.

“I didn’t expect ...” Qin Tiange said to himself, but showed a trace of regret.

Shiqiao is a cosmic-grade treasure. The original owner of the stone bridge, the mysterious III woman, may also be a cosmic-grade powerhouse.

He thought of the mysterious old man again, sitting on the other side, and at the moment, in retrospect, based on the information in the think tank, he reached an amazing conclusion.

The mysterious old man is not a creature of this big universe, but a strong one from another universe.

“It turned out that the two big cosmic powers are planning with each other and want to unite with each other and break through the cosmic restraints.” Qin Tiange thought in his mind and realized everything.

With this in mind, everything is becoming clearer. What Qin Tiange will do next is to complete the incubation of his inner universe as soon as possible.

Only by gaining the power of the inner universe can we counter the cleansing of the universe, and we can really pierce the universe with a little bit of energy and break away from the shackles.

“Master, you see, I found a lot of useful information, maybe useful to you.” At this time, Xi Ji condensed a bunch of data and handed it to Qin Tiange.

He took the data, absorbed the information, and saw all the information records, including information about the origin of the universe.

“Broken universe, depleted baby universe, semi-finished universe with failed evolution, cosmic-grade treasure, man-made small universe, biological inner universe ...”

Message after message emerged, Qin Tiange saw a lot of amazing news, understood the origin of the universe, and even some doubts before.

For example, the depleted baby universe is equal to the failure of universe evolution, and there are also some semi-finished universes with incomplete evolution.

Qin Tiange remembered that a baby universe he had previously bought from a ***** merchant was a dead baby universe.

But in the end, because of some kind of opportunity in the Pangu Forbidden Land, the baby universe that had been exhausted and died directly re-evolved into a chaotic membrane.

Now think of it, there are many things in the big universe that contain the origin of the universe, as long as you can find it.

“I don’t know where ***** galaxy is, is there such a thing?” Qin Tiange felt a ray of hope in his heart.

I could buy a dead baby cosmos in the past, but now it is gone? The dead baby universe is simply useless to many people.

But for Qin Tiange, it is absolutely precious, and it is the only key for him to complete the transformation of the inner universe.

Huh!

Thinking of it, Qin Tiange shot a light directly and disappeared in an instant. This was being sent to the Hell Galaxy and even the Huangquan Galaxy.

After doing this, he began to think about other methods, as well as several information recorded in the think tank that caught his attention.

“It turned out that the life court was hidden here ...”

Qin Tiange saw the information about the life court, and the headquarters was hidden in the mezzanine between the two universes.

It's a chaos zone, it's also the junction of the epochs, and it's an inaccessible prison cage, or an area under surveillance and control.

The court of life is hidden in such a place, and Qin Tiange finally understands the origin of this institution.

That was a powerful force from another universe that had actually stepped into this big universe, and it was built when the human race had fallen from the throne of the cosmic overlord.

“The former emperor was not dead. What did he want to do?” Qin Tiange said to himself, learning a lot of terrible information.

In addition, according to the records brought by the think tank, one of them attracted great attention from Qin Tiange and related to his strength growth.

“The universe is deserted ...” Qin Tiange's eyes were bright, and suddenly he found an important message, that is, the universe is deserted.

This place was once a huge frontier battlefield established by the human race, in the middle of a mezzanine barrier between the two universes.

It is a pity that the human race fell from the supreme throne with the complete collapse after the previous calamities, and fell into a state of weakness.

“Border shortage, war, that's it!”

Many things are understood, Qin Tiange has always been unclear about who the people are fighting against, and what the powerful people are fighting against.

With the stars and the universe? This is not the case, but a fierce battle with the souls of another universe. The so-called edge shortage is the place where the two universes collide and collide.

“Yanji, how much power do the Zhi people have?” Qin Tiange's pupil blinked and asked.

He groaned, his eyes flashed through the data, and he immediately obtained the information he wanted from the think tank.

I only listened to my own surprise and said, "Master, if you add nine master brains, the entire intellectual family will definitely have the power to overwhelm the 10,000."

"It's not that simple!" Qin Tiange shook his head, his pupils flickered, and he whispered softly: "When you thoroughly absorb the countless information in the think tank, you will understand that among the people, there is no real contention for the hegemon of the universe. The main force. "

That 's right, Qin Tiange has learned that among the big universes, the small group of strongest people at the highest level are all the main forces selected from the peoples.

In the past, the human race was said to lead the entire universe, and that was a joke, but it was a trick of those behind the scenes that pushed the human race up and became the main force of that era.

The race that becomes the main force must take on the main battle task of that time, and fight fiercely against the main force of another universe.

The creatures of the two universes are fighting, and the strong are planning behind the scenes, in order to break the **** of each other's big universe and get out.

This is the deepest secret of the big universe, with the Xeons playing chess, and all the nations are just flags.

It 's like the brains of the nine intellectuals. One, one of them, is one of the chess players, picking the strongest of the ten thousand races, pushing it up as the big universe overlord. On the bright side, it is the one that rules the ten thousand races against the alien universe. power.

In fact, these are the pawns of those behind the scenes. They are sacrifices, and they are sacrificed for breaking the shackles of the universe.

"That's it!" Looking at the information in the think tank, I realized that my expression was a little gloomy. It seemed that it almost became a manipulation of others' pawns.

Qin Tiange's pupils flickered, and he whispered softly: "The former emperor may have had this kind of awareness, so he took the human race directly to its heyday, and was completely hidden behind the scenes under the peak of the war and became A chess player. "

"It seems that, except for him, the human emperors of the human race have become chess pieces and sacrifices. It is no wonder that in the human emperor's tomb, there are many inheritance forces of the ancient emperors to help me."

"It seems that there will inevitably be a life-and-death battle between him and me!"

After Qin Tiange finished speaking, the whole person became extremely transparent, and his body and mind became enlightened, completely relaxed.

“Master, the nine main brains of the Zhi people are currently under my control. How should the rest of the plan be implemented?” Ji Ji asked softly.

Qin Tiange pondered for a moment and said: “The intellectuals are completely integrated into the human race. The two ethnic forces are combined with each other, people-oriented, and each intelligent person is used as a personal subsidy for the human race.”

“Okay, I see.”

Jiji immediately realized that this is to treat the Zhi people as a subsidy for the entire human race, just like a private intelligent program to subsidize the human race.

The entire intellectual race will be rebuilt in the think tank, and finally completely integrated into the human race, becoming a powerful aid for the entire human race, promoting the human race to become stronger and stronger.

“Yiji, I’m going to the side of the universe, and I’ll leave it to you at the rear.” Qin Tiange looked at Jiji seriously and made arrangements.

“The master rest assured that there is me behind, no problem at the rear!” His self-confidence was serious and made a guarantee.

“With your words, I can rest assured!”

Qin Tiange nodded with a smile, turned around and tore open the Mantian Data Sea, stepping out of the original data sea.

He left here and officially went to the so-called cosmic desert, which is a border area of two universes full of danger and death.

Chapter 989 - Wasteland

Above the nothingness of the big universe, a figure quickly broke through the heavy fog and rushed into the unknown.

boom!

Raise your palm to smash the nothingness in front, pierce a hole, reveal a simple and mysterious stone bridge inside, Nai He Bridge!

When I saw Naihe Bridge again, Qin Tiange felt a lot in his heart and thought of the mysterious third woman.

He didn’t stop, he stepped on the stone bridge directly, and now looking at this stone bridge, he really saw a little mystery.

“It’s really a cosmic treasure. It crosses the universe and goes straight to the other side.” Qin Tiange said to himself, cautiously.

Cosmic-grade treasures are very difficult to conceive. Even the current weapons on him are not cosmic-grade.

“Cosmic-grade Arcana is a small universe with great power. It seems that I need to create my own universe-like Arcana.”

Qin Tiange looked at the stone bridge, lost his thoughts, and had an idea in his heart, that is, to create his own universe-level treasure.

The ancient sword, the seal of the emperor, and the book of time and space are not cosmic, and are still growing. To become a cosmic treasure, a small universe must be nurtured inside.

Or the instrumental spirit in it can break through the universe level, which can become a supreme universe-level treasure.

Along the stone bridge, Qin Tiange quickly walked to the end, where it was the other side leading to the end of the universe.

When he arrived again, Qin Tiange had another feeling. He hadn't seen it before, but now he saw the mysterious other shore and suddenly saw a lot.

“On the other side, there is another universe connected, and the wasteland is inside.”

Qin Tiange looked at the dark and dark shore, flashed such thoughts in his heart, and saw some vague scenes inside.

Deep on the other side is the two cosmic collision nodes, where the two universes collide and merge with each other.

Bianhuang, between the two universes, there are each *, which are cages one by one, holding countless powerful creatures.

The entrance to the ancient epoch can only be found when entering the wasteland, but it is extremely dangerous there, and the strongest of both universes are here.

There are even two behind-the-scenes behind-the-scenes surveillance of this universe. Once a creature wants to break the barriers of the universe and escape from the universe, it will be killed by terror.

The previous mysterious woman was like this. She was horrified in the other bank, and it was not clear what she encountered. In short, Qin Tiange was very vigilant about this.

“The other shore ...” Qin Tiange stepped out of the stone bridge carefully, before coming to the other shore, his strength gathered together.

His whole body broke out, gathered on his fists, and a wave of great chaos gathered and intertwined, sending bursts of terrible waves.

“open!”

Qin Tiange drank low, waved his arm and punched the strongest punch, the force of violent chaos shattered the barrier on the other side and penetrated a hole.

With a loud bang, a wave of chaos light emerged from the other side, spreading out, causing a huge movement.

Huh!

Suddenly, a mysterious old figure appeared, watching Qin Tiange's work, a little surprised and surprised.

“Why are you back again?” The hoarse voice of the old man came, covered in fog, and could not see clearly.

His words made Qin Tian Gordon take a look and glanced at each other. There was a horrible existence hidden in the slightest fog.

“Old man, I’m going to enter the desert.” Qin Tiange said in a word.

The old man was silent, his eyes flickered, and he suddenly said, “Bianhuang, already in a bad condition, there is only a broken place, what’s the point of going there?”

“There, there are my most important people.”

Qin Tiange said to himself, his eyes were firm, and he stepped into the front hole and entered the junction of the other side.

Watching him enter the other bank, the old man’s complexion changed and he wanted to stop it. Unfortunately, it was too late. Qin Tiange stepped in and disappeared here.

“One by one is too impatient. It’s not time to go in and die.” The old man shook his head and regretted that Qin Tiange would die if he entered the other bank.

Like the mysterious woman before, the owner of Nai He Bridge, entering there in advance is a self-death.

boom!

Suddenly a loud noise came, and there were horrible waves inside the other side, and fierce battles erupted from the waves.

The rumbling mighty, the chaos was boiling, there was a fierce **** battle there, Qin Tiange stepped into the other bank and was immediately robbed.

boom!

Qin Tiange looked grim with a punch in front of the robbery sea rolling in front of him, and his pupils showed a ray of murderous murder.

Inside the other side, it is extremely strange and unpredictable.

This is the robbery of the universe, blocking the entry of souls, and even more than one robbery, but two robbers, different bristles entangled with each other and turned into a sea of robbery.

Qin Tiange understands that this is a terrible rogue caused by the collision of the two universes, blocking all living beings from entering.

“open!”

With a low drink, Qin Tiange waved his fist to pierce the robbery, and his boiling fist broke all obstacles.

Inside the body, the power of the original great chaos was vast and turned into a gray light, condensed on the fist, breaking the Quartet.

Boom boom ...

Qin Tiange made a single punch, hitting a path of life, and he cut through the universe with the flesh and blood.

He plunged into the depths and saw the scattered bones scattered around, and some also exuded a crystal luster, immortal.

The creatures that can enter here are extremely powerful, but here they still fall, leaving the remains of bones, telling the old sadness and sad songs.

Huh!

A sharp edge penetrated, and Qin Tiange snatched his hands, and the palm of his hand heard an astonishing sound of crickets, sparkling.

Looking closely, it was discovered that it was a blade of swords, showing endless killings. In the past, it was a shocking killing sword.

“It’s a pity ...” Qin Tiange shook his head and lost the sword.

He looked in his eyes. In the mighty sea in front of him, pieces of debris were scattered, including fragments of living creatures’ bones and fragments of glaive blades.

There are too many powerful creatures buried here, but despite this, there are still countless powerful beings who furiously disregard themselves and kill themselves without hesitation.

Buzz ...

At this moment, a strange shock came from the front, and a terrible force emerged from the emptiness and swept towards Qin Tiange.

Watching the crisis approach, Qin Tiange was unusually calm, his fists waved, and a wave of chaotic power swept through it, as if chaos passed by.

A loud rumbling came, and the inexplicable power collapsed, crushed by the power of the original chaos, and pushed all the way across.

Qin Tiange is unrivaled in strength. Since the birth of the chaotic elementary fetus has been completed, a baby has been born in a chaotic manner, and has a tremendous power.

This force swept through all obstacles. No force could stop it, and it was even penetrated by the sea.
boom!

Jiehai burst, and a primitive chaotic force ran out from the center and penetrated the entire Jiehai.

Suddenly, a figure rushed out, surrounded by a terrible chaos, his eyes glanced quietly around.

Inside the other side, there is nothingness and emptiness, and there is no color in the deadnessless emptiness. There is only eternal gloom and silence.

“Where is Bianhuang?”

Suddenly, Qin Tiange’s eyes swept across an area where there was a piece of broken land floating, where huge fragments were scattered.

The weird frontier was originally a battlefield, but because of fragmentation, it was completely broken.

Here, there is a force and breath that has never been seen before. It does not belong to the big universe behind it. It is more like the power and breath of another universe.

The two universes collided, and the border barriers overlapped, causing the forces of the two large universes to be colliding and intermingling with each other.

After coming here, Qin Tiange has felt the power that does not belong to this universe. It is weird and terrible.

Huh!

Stepping out, Qin Tiange came to a huge shard and quietly looked down at the vast broken world ahead.

Desolate, desolate and dead, there is a weird breath everywhere, as if the creatures coming here will be erased.

In the midst of it, Qin Tiange felt an unavoidable gaze, as if pressed above his head, as if looking down at the entire universe, making him uncomfortable.

Perhaps this is the eye behind the universe. Inside the other side, it is a dangerous place that is focused on, and may even be wiped out at all times.

If you are not careful here, you may die somehow directly. This is the terror in the other side.

“Hmm ... the human atmosphere across the universe ...”

Suddenly, there was a wave in the distant darkness, and a terrible sound came from a broken road.

This fluctuation aroused the vigilance of Qin Tiange, looking for a sound, and saw a surge of black gas rolling over and converging.

Black gas billowed, hiding a terrible creature quickly approaching, stopped not far from Qin Tiange, and black mist swept away, covering all directions.

“Cosmic level ...” Qin Tiange said to himself, looking at the creatures hidden in the black mist, seeing through the bottom of the other side.

A cosmic powerhouse has truly nurtured a powerful creature in the inner universe, hidden in a broken place in the wasteland of the universe.

The arrival of Qin Tiange caught the creature’s attention and stared directly at him. Two scarlet eyes showed a bloodthirsty light.

It wanted to eat Qin Tiange, because when it comes to cosmic creatures, it is difficult to make further progress, unless it consumes the strong at the same level and absorbs the opponent’s inner universe to grow up.

This is why it is dangerous to be in the wasteland. When you come here, there are no relatives and friends, but only devouring and killing.

In order to strengthen the inner universe, each one of the universe-level creatures fight each other, devouring each other's inner universe to strengthen themselves.

“Just here!” Qin Tiange looked at the other side, suddenly showing a sneer.

The creature wanted to devour him, but Qin Tiange didn't just want to devour the other person. As a cosmic strongman, the inner universe was born and shaped. If he swallowed the other person's inner universe, he could grow his inner universe.

“kill!”

There was a sudden roar The two Xeon forces collided suddenly, the rumble of power stirred up and shattered the nothingness of the Quartet.

As soon as Qin Tiange and the powerful creature met, they were directly compared to the hands-on, there was no more nonsense, there was only a straightforward killing.

boom!

The fists fought against each other, and a black figure flew out, being shaken by the violent amount of energy contained in Qin Tiange's fist.

“Roar ... dead!”

The growl sounded in all directions, the weird creature came to his death, and a strange and terrible power poured out from him, which was not the power of this universe.

Faced with a powerful creature from another universe, Qin Tiange was not surprised, but showed an excited expression.

Because he had never devoured another creature in the universe, and now he saw it, he couldn't let it go.

“kill!”

Qin Tiange drank violently and hit him with a punch. The two fists violently collided, and they instantly fought together.

Chapter 990 - Primitive universe, swallow

Bang bang ...

A fierce thunderous sound came, and saw a dark shadow was hit, his body was cracked with a punch, and blood was spraying horizontally.

It was a weird creature with no nose, only one mouth and two eyes, not even ears.

The whole looked extremely weird, two eyes were scarlet, a little fierce, staring at Qin Tiange.

“The people on the other side, who you are, have never seen you.” The creature opened his mouth, a little surprised by Qin Tiange.

Because of the strong human races on the other side of the universe, it knows that it has seen a lot in the past and even killed a lot, but it has never been Qin Tiange.

“It doesn’t matter who I am, and the dead don’t need to know.” Qin Tiange said one word at a time.

A thumping blow hit the creature, and the creature struck back. The two fought into one piece. You came and fought with each other, and they collapsed around in nothingness.

boom!

A fist wind swept across, and huge fragments turned into powder, and the powerful boxing power made the powerful creature on the other side feel hairy.

The battle with Qin Tiange really realized the terribleness of the other side, and the more the battle became stronger, it seemed like a bottomless pit, and the power that erupted was endless.

“Dark universe, drive!”

As soon as a roar came, a black cloud surged and turned into a cosmic model floating above the creature’s head.

Seeing this, Qin Tiange blinked his eyes and secretly said, “Sure enough, it is a powerful creature in the opposite universe, giving birth to a baby universe.”

boom!

The dark model of the universe was pressed down, as if the entire universe was suppressed, powerful forces could not stop it, because one person could not fight the entire universe at all.

But Qin Tiange didn’t panic at all, but there was a hint of fine light in his eyes, and a powerful air flow erupted behind him.

The chaos gas boiled, swept through, and turned into a small chaos suddenly blasted into the air, the two inner universes collided with each other.

Just listening to the loud sound of “Boom”, the cosmic collision, the terrible air waves caused by the two cosmic collisions, destroyed the world.

One side is chaotic, and one is dark, as if two scaled-down versions of the universe are both infant-level, colliding with each other, constantly intertwining, and wanting to overwhelm each other.

Qin Tiange stood on top of the chaotic universe, looking at the creatures on the opposite side, who also stood on the small black model of the universe.

“Primitive Universe? Power of Great Chaos?”

On the opposite side, the creature’s pupil contracted, and it looked at the chaos tumbling under Qin Tiange’s feet in shock, which is a primitive universe.

The so-called primitive universe is the chaotic unopened universe, which is the most primitive state of all universes.

But it is really difficult to give birth to the primitive universe. I did not expect that Qin Tiange had given birth to a primitive chaotic universe.

“Unfortunately, your primitive universe has just taken shape and is not yet mature. It is just a joke to compete with the juvenile universe of this seat.” The creature sneered, his teeth full of teeth.

It looked at Qin Tiange’s primitive universe, wanted to kill him, and then devoured this primitive universe, allowing him to transform.

“Come on, let this seat swallow you.” It growled, and struck against a dark universe.

With a bang, the two universes collided again, but this time it was the cosmic creature on the other side that retreated.

boom!

The black mist collapsed, and a piece of the inner universe model receded directly. The strong impact force almost caused it to be knocked out.

Looking at Qin Tiange’s primitive chaos, such a terrible force broke out, unable to stop, and difficult to counteract.

“I just need you to support my inner universe.” Qin Tiange shouted, and a strong wave of chaos erupted all over him.

Suddenly, the dense chaos in the body blended into the chaotic primordial body, which instantly caused a horrible scene.

The whole chaotic elementary tyre seemed to have surged in an instant, rumblingly stretched out, overwhelmingly suppressed.

The violent chaos erupted into primitive power, and the dark universe that pressed the other side trembled continuously and continued to retreat.

“Impossible!” The creature screamed, watching his dark universe crushed and unable to compete, scared.

This growing inner universe is beyond the infancy and entering the growing inner universe. The power is much stronger than the infancy universe.

However, it was crushed by Qin Tiange’s primitive universe. The power of chaos was violent, even the dark universe could not be stopped.

“Great chaos, suppress!”

Qin Tiange yelled, raised his hand and pressed down with chaos, thundered, the darkness collapsed, and a powerful hit suppressed the dark universe.

Suddenly, the powerful creatures in the dark universe roared and poured out countless spirits into the dark universe, trying to get rid of the suppression.

boom!

The two universes competed, a collision at the inner universe level, and bursts of horrific storms erupted. Strong waves swept across and shocked all parties.

Hidden in the wasteland and the broken land of the universe, a horrible creature woke up and looked faintly.

“what?”

“A strong human race from the other side of the universe?”

“Are the strong human races from our universe new?”

“It seems that another round of cleaning has come.”

In the broken land, there were many hidden powerful creatures, all came to watch, watching Qin Tiange and that creature’s fierce battle silently.

Hidden here are two of the universe’s most powerful creatures, at least cosmic-grade transverse creatures, hidden in this marginal wasteland.

They are the most powerful creatures in the universe, and they are the most powerful ones between the two universes.

The creatures that come here are nothing more than breaking the ***** of the universe, breaking away from the universe, and entering the real universe sea.

Only by breaking away from the constraints of the existing universe can we continue to grow. This is the difference between a cosmic powerhouse and an era.

The era-class powerhouse has already walked into the dead end, which means that it has come to an end and cannot continue to break through.

And the universe level is different. At this level, the inner universe is constantly growing and transforming, and it can even grow to the appearance of the inner universe that is comparable to the big universe.

Such a powerful creature has absolute ability to break the constraints of the universe and enter the cosmic sea to achieve higher growth.

boom!

A huge crackling sound came, and one side of the dark universe was crushed, showing signs of collapse by an inch, crushed by Qin Tiange’s primitive chaos.

The strong suppression made the creature furious and resisted hard, but still couldn’t change the situation that gradually fell into the downwind.

“Dead!”

As soon as a low drink came, Qin Tiange crossed the dark barrier, and punched through the dark universe diaphragm.

With a bang, the fist hit the creature’s head instantly, flesh and blood flew, and the bones cracked and sprang out.

The unmatched punch punched through the diaphragm of the dark universe and hit the opponent's body directly.

“Uh ... overwhelming, where did the Terran Monster emerge?” The creature bleeds blood, horrified, and realizes that it has kicked the iron plate.

Most of the hidden creatures here knew, but Qin Tiange had just arrived and seemed very strange. He thought it was bullying, but it was suppressed by the other party.

The other powerful watchers, without exception, were very surprised, and were a little skeptical of Qin Tiange's strength.

Just when everyone was in doubt, Qin Tiange suddenly burst into a terrible atmosphere, and the chaotic Yuan tire suddenly skyrocketed.

boom!

Along with the trembling of darkness, a gray light, wrapped in a fist, crossed the dark universe, and wherever it went, the universe's diaphragm broke apart.

Qin Tiange punched with all his might, penetrating the opponent's dark universe, and penetrated instantly, banging in the heart of that creature.

With a slight whistle, the fist passed through the body, the heart was punctured instantly, and it was twisted into minced meat and scattered.

“Large chaos, kill!” Qin Tiange yelled, and the primitive chaos on the back banged down, crushing the creature's body directly.

The powerful primitive chaos erupted into the power to obliterate everything, smashing the creature's body inch by inch, leaving only a head floating in the chaos.

boom!

With a split palm, his head burst suddenly, revealing a scar of blood, and a faint light of darkness appeared in it.

That was the dark universe, hidden in the position of this creature's head, eyebrows, and there was faintly black light, but unfortunately it was suppressed and the body was blasted, so it was impossible to resist.

“Do you dare ...” The creature was furious, his eyes glowing with a dark glow.

Unfortunately, Qin Tiange didn't bother at all. He cracked it with a single palm, and his head bones shattered and scattered.

The creature's head shell was directly blown off, revealing a large cloud of dark things inside, which is exactly an inner universe.

“A growing inner universe ...” Qin Tiange let his eyes shine, his hands pierced into it like a sky knife, and seized the mass of dark matter.

Suddenly, a powerful resistance force came, as if a universe was struggling. Unfortunately, Qin Tiange suppressed it.

“Ah ...” The screams spread across the broken and broken land, making the strong men scared, and saw Qin Tiange’s hands dug out a mass of dark material from the creature’s head shell.

A cosmological membrane was dug out by Qin Tiange in this way, and was dug out alive while the creature was not dead, preserving the most complete stage of the cosmological membrane.

boom!

A dark cosmic membrane was dug out, and the creature’s last head suddenly smashed into a powder and disappeared.

Qin Tiange grasped the mass of dark matter, like a fetal membrane, constantly shaking, trying to get out of his control.

“I still want to run, as my nutrient.” Qin Tiange sneered, his hands poured out a primitive force of chaos.

The power of great chaos rushed out, and the chaotic elemental tyre rushed in, swallowing up that dark universe membrane.

“hiss...”

“Did you die?”

“Another person who gave birth to the primitive chaotic universe.”

Watching Qin Tiange dig up the dark universe fetal membrane to devour with the chaotic primitive fetus, this immediately attracted the attention of many powerful creatures.

In the broken land, the powerful parties in the two universes are cosmic-level beings. Who can come here, who is not the best?

But there are really few creatures that can conceive the primitive universe, almost less than five fingers, one by one being the terrible existence of supremacy.

Click! Click!

A crackling voice spread to all sides, many powerful creatures beating their hearts, watching that dark universe was swallowed up by Qin Tiangesheng.

Swallowing a growing biological inner universe is a big supplement for Qin Tiange. A stream of the universe’s origins poured into the body and was instantly absorbed by 999 cosmic membranes.

In just a moment, a cosmic fetal membrane was formed, completed the gestation, and completely transformed into a real baby universe.

Hum ...

With the formation of the first baby universe in the body, Qin Tiange’s body breath suddenly became a little weird.
