

Dark Ages 991

Chapter 991 - Danger? Break it

A trace of mysterious breath overflowed out of the body, intertwined into a net, blocked Qin Tiange as much as possible, and did not leak.

A strange breath permeated, and a cosmic fetal membrane in the body was formed, and suddenly a baby universe was born.

Suddenly, Qin Tiange became different, as if there was a feeling of breaking away from the shackles of the universe, as if the big universe could not restrain him at this moment.

“It feels like ...” Qin Tiange froze, feeling unreal.

As soon as the cosmic membrane of the body was formed in the body, he had such a feeling, which made him have an unreal consciousness and became vigilant.

Qin Tiange carefully sensed that it seemed that he could break the **** of the universe and break away from the universe with only one leap.

“Is it true, or ...” Qin Tiange bowed his head and thought, turning his mind sharply, constantly thinking whether the situation was true or false.

Still, Qin Tiange is wary of the existence of something he is not clear about. It is impossible to condense a baby universe and just be able to escape the control of the universe.

boom...

Suddenly, a faint roar from the emptiness of the nether world attracted the attention of many hidden powerful creatures and looked up.

Those who are hidden in the universe’s famine, looked at the source of the shock in surprise, one by one.

“This is, the universe cage?”

There was a whisper from the Xeon, staring at it with scorching eyes, and a deep passage gradually emerged.

The channel of nothingness breathes an unknown breath, as if you can step out of it, you can escape the shackles of the universe.

“Will that Terran go in?”

A low voice came looming, and he looked at Qin Tiange quietly, guessing whether he would step into that passage?

Just as the Xeons of all parties watched Qin Tiange, he suddenly looked up and stared at the inexplicable passage, revealing a trace of coldness.

“Huh, that’s the way it is.” Qin Tiange snorted coldly, talking to himself, with a scornful smile on his lips.

That channel is a trap, a trap set up by the universe. Once a creature can’t help but seduce, it rushes directly into it. Then, it’s not the outside of the universe, but the cage of the universe.

This is specifically for those creatures that have just broken through and completed the birth of the inner universe. They have not stabilized themselves and have a sense of restlessness.

Once the will is not firm, the belief is not enough, and bewildered by this self-feeling, then it is possible to step into it and be locked in forever.

“The big universe cage is the strong one who has just broken through the universe. Why didn’t I finish the gestation of the chaotic primitives before, but I didn’t feel this way?” Qin Tiange was a little surprised, and he was extremely puzzled.

Before the breakthrough, the chaotic elementary fetus completed its incubation and turned into a chaotic primitive universe. Why didn’t it have this feeling?

He didn’t know this, but now he has swallowed up the inner universe origin of the opposite universe powerhouse and let a cosmic membrane in his body complete the transformation, but he has this weird feeling.

“It seems that there are a lot of powerful beings imprisoned in it, if it can be released, maybe ...” Qin Tiange blinked his eyes and kept thinking.

He didn’t move, standing here, looking at the empty channel, gradually disappeared.

Without being tempted or trapped, you will be able to survive tenaciously in the universe. Any negligence may lead to all disasters.

If the universe were so easy to break away, there would not be so many Xeons of various races willing to lie dormant for countless years, planning for countless years.

“Being free from the shackles of the big universe depends on your own powerful power. Only by breaking the real shackles of the big universe can you be free.”

“If so, there are so many cosmic creatures hidden here?” Qin Tiange scorned and said to himself.

These words seemed to stimulate something. Suddenly, the illusory channel disappeared and replaced with an unknown gaze, locking Qin Tiange himself.

Chills!

Qin Tiange only felt that his hair was standing upright. He had a strong sense of crisis in his heart. If it didn’t come, he moved straight out.

“What’s going on?” Qin Tiange looked in horror, there was nothing there, but it gave him a feeling of being watched and locked.

It’s weird. Qin Tiange’s strength is surging, surging in his body, and it will erupt at any time.

The sense of crisis became stronger and stronger, as if there was a gaze watching him, as if examining, and as if measuring his threat.

“what?”

“Eye of the Unknown?”

“Even this thing was drawn, it seems that this strong human race has attracted the attention of that thing.”

“interesting!”

As the universe famined, a horrified look came over. They saw the strangeness of Qin Tiange and seemed to be locked by something.

After careful induction, I immediately realized what it was. It was an unknown eye, watching Qin Tiange.

The so-called unknown eye is an invisible eye, looking down at the world, examining the threats inside the universe, and calculating the degree of threat.

The eye of the unknown, the origin is unknown, the specific unknown, or even nothing, because no one has seen it.

It is clear that there are such an invisible pair of eyes watching the internal situation of the entire universe, and all living creatures are under the scrutiny of these eyes.

“Dangerous!” Qin Tiange’s face changed slightly, his heart contracted, and he felt the strongest sense of crisis in history.

It seemed as if he could fall down in the next moment. This feeling made him very upset. When he was furious, he simply made a move that shocked all parties.

“Whatever it is, if it threatens me, destroy it!”

Qin Tiange thought in his mind that any threat must be strangled in the cradle, and he could not even let any existence threaten himself.

Now that a threat is sensed, you can’t wait for the other person to threaten yourself, but take the initiative to destroy the source of that threat.

“kill!”

With a violent drink, Qin Tiange suddenly broke out, and if a meteor was generally irradiated on the nothingness, he blinked and struck his arm before the inexplicable wave.

Suddenly, the strong players from all sides were shocked and looked at him in horror, even they took the initiative.

boom!

Just hearing a roar, the terrible loud sound shocked the universe, and the power of the two inner universes merged into one, poured into fists, and penetrated the void.

Clicking crunching, something unknown shattered, and the horrible punch broke through the misty land and shattered the unknown eyes.

Qin Tiange broke out and broke into a fight. He directly and simply launched an Xeon punch, which contained the strength of the two baby universes in his body.

The damage caused by the fusion of the two forces of the universe is simply amazing, as if to break through the barriers of this big universe, it is shocking.

Hum!

The strange buzz came, like the sound of the anger of the universe, and the unknown was provoked, sending out horrible waves.

However, since there is no reservation whatsoever, Qin Tiange's fist has just fallen, and the two infant universes in the body burst into full force.

"Kaitian!" A low roar spread, and Qin Tiange broke the unknown breath with a punch, and went all the way through, into the unknown place.

This punch shook the barriers of the universe, as if to break through, causing a great deal of movement that caused the strong of all parties to move.

"A strong punch, is this the human race that has just completed the inner universe?"

Some Xeons were horrified, looking at Qin Tiange, as if something was felt, a look of shock appeared on his face.

"No, that's not the power of one universe, but the two inner universes."

"hiss..."

The strong people hidden in the Quartet, without exception, took a breath of air and gave birth to two inner universes. How much perseverance is needed?

Unfortunately, they do not know. There are 998 cosmic fetal membranes in Qin Tiange who have not been conceived. If they knew, they would be scared.

"broken!"

The roar spread to all sides of the universe, attracting a lot of attention, and the terrible fluctuations coming from the wasteland on the edge of the universe made many strong people startle.

As that violent wave subsided, some unknown and powerful creatures began to speculate about what happened.

Only those strong men who are in the desert can really see that Qin Tiange has penetrated the unknown breath and broken that strange look.

In the legendary Unknown Eye of the Universe, looking down at the eyes of the universe, he was broken by him.

"It turns out that those eyes can be broken."

"No, those eyes are blinded, otherwise, this human race will probably be miserable."

The parties were shocked and speculative, but they were unable to shake Qin Tiange's heart at this moment, and had a strong self-confidence.

Breaking the source of the crisis and threatening to be destroyed by the students are of great significance to Qin Tiange.

"It turned out that the power behind the big universe is not insurmountable." Qin Tiange said to himself, with a firm belief in his heart.

In a recent contest, he vaguely touched a secret that he had never seen before. Behind the scenes of the universe, there was a force preventing the separation of all living beings.

And this power is mysterious and unknown. No one has seen it for a long time, and it is not clear how terrible it is.

Now that Qin Tiange has run into it, he has also fought directly, breaking the source of the threat and breaking the sense of threat.

From this he touched some kind of secret. It seems that the power behind the big universe is not unbreakable.

Otherwise, how did the old "disk" get out of the universe?

Everything is because of the power, having the power of the two inner universes, has given Qin Tiange a little chance to infest the ultimate mystery of the universe.

If all the cosmic membranes in the body have been conceived, does that mean that he has enough power to break the cosmic constraints and successfully break out?

"The birth of the inner universe requires the origin of the universe, and the fastest way to obtain the origin of the universe ..."

Qin Tiange talked to himself His eyes glowed with gloom, one by one swept across the dark and broken land, the Xeon beings hidden in every corner of the desert.

These are all cosmic strongmen who have successfully bred the inner universe. At this moment, Qin Tiange has become the target of attention.

Because only by killing these same cosmic powerhouses and digging out their inner cosmic engulfment, can the origin of the cosmos be strengthened and its own cosmic membrane be strengthened.

"Hey, there are a lot of cosmic creatures on the other side." Qin Tiange suddenly gave a sneer, letting the creatures paying attention here shiver inexplicably.

Dangerous, extremely dangerous feelings pervaded my mind, making those hidden universe-class Xeons amazed and unknown.

"No rush, come one by one."

Qin Tiange converged the killing intention in his heart, and the whole person recovered his calmness, stepped out of the void, and returned to the wasteland on the edge of the universe.

Step by step, he walked towards the broken frontier and began a **** hunting road. This time, the goal is exactly the universe-class creatures, the top batch of Xeons.

Chapter 992 - Block, horror old man

Borderland, a chaotic area, a breath of terror, there is a terrible breath hidden here, pieces of bones floating around.

These broken bones are the strong ones who died here in the past. Like a Jedi, those who come will die.

“Why, is there a strong sense of crisis?”

In the mist, a low voice came, causing turbulence around him, as if a sentence could make this void vanish.

Vaguely, we can see a huge figure sitting there, with a supreme breath on his body, as if representing a universe.

It is a cosmic powerhouse. The inner cosmos is brought up and shrouds the oppression of the big universe, giving people a supreme feeling.

However, this cosmic creature has sensed an inexplicable crisis, as if a threat is approaching.

Unfortunately, it can't figure out what it is. It can only be stunned, be alert, and guess whether it has attracted unknown attention?

“Ok?”

Suddenly, the creature was awake, and a burning light burst into his eyes, penetrating the chaotic area in front of him, constantly scanning.

It seemed as if it had found something, its eyes were dim, and finally it locked an area, staring at it there, the source of the crisis was there.

“Come out, the deity has seen you.” It spoke, a tone of caution and alertness.

There was a crisis hidden nearby, but here it was. The strong men who came here were buried here.

The strong men who had fallen here in the past, even two powerful creatures of the same level, unfortunately died in his hands.

Rumble ...

As its voice fell, a dull vibration came, and there was a gray mist blowing all around, covering all directions.

Suddenly, it turned into a primitive chaos, and a prison cage was formed instantly.

“Not good!” The creature thrilled, a mighty force erupted in the body, and great cosmic force erupted.

With a bang, the two forces of the universe collided, causing terrible movements, but unfortunately they were isolated by one primitive universe.

“Come out, want to attack the deity, are you looking for death?” The creature growled, two huge heads pierced through the mist, and four eyeballs swept around.

In the end, it locked a hazy figure and stepped on the waves of chaos.

“Is it you?” The creature’s pupil dilated and looked at him, startled.

The visitor turned out to be the Qin Tiange tribe, who had watched it before, and now it is coming. No wonder the danger was felt. It turned out that he wanted to kill him.

“The strong human race on the other side, why did you break into the realm of your deity and want to find death?” This creature was very irritable and roared angrily.

The wave was boiling, but was blocked by the original chaos, and it was released without any other strong players of the same level paying attention here.

Qin Tiange came quietly to solve this creature of the same level, but also a cosmic creature on the other side.

When he came here, he swept around and saw pieces of broken bones, some of them exuding the smell of humanity, indicating that there was once a tribe of the dead who died here.

Although it is not cosmic, it is also infinitely close. Perhaps, came here to be killed by the Xeon creature on the other side.

“Kill you, no reason!”

Qin Tiange’s eyes were calm, without a wave, and his words were calm and calm, as if it was a trivial matter.

Does it take a reason to kill it? If it is needed, it is that I grow for my own cosmic membrane. I can only do it by killing it and swallowing the other’s universe.

“kill!”

A violent kill came, and the creature took the lead, and the chaos boiled with a strong blow, and the Quartet collapsed.

Containing the power of the universe within one party, the damage caused is unimaginable, even the primitive universe has been shaken.

boom!

A fist hit and blocked the opponent’s blow. Qin Tiange waved his fist strongly and launched a horrific lore.

Boom boom ...

The fierce collision and some fierce battles shocked the other party and found that Qin Tiange had two cosmic forces in his body, which is equivalent to having two inner universes.

“Abominable, there are actually two inner universes. Do you want to swallow the deity?” The creature growled, and two heads slammed into it.

With a loud noise, Qin Tiange raised his hand and slashed on one of his heads. The sound of cricket was endless and the sparks splattered.

With the palms of two cosmic forces, the creature's head roared, almost exploded, and it felt like his consciousness was blurred.

“kill!”

Qin Tiange drank violently, without any reservation at all. He directly played Xeon power, gathered all the cosmic membranes, and merged into the new baby universe that was successfully bred.

In addition, the 60 trillion small chaotic forces in the body exploded together and poured into the chaotic elemental tires, and the two cosmic forces seemed to have surged.

boom!

One fist broke open the other's palm, Qin Tiange came out with his fist, his powerful fist wrapped in the strength of the two inner universes, and struck one of the creature's heads.

I heard only a click and a crunch, and chaos exploded. A huge figure ran across. The blood was chaotic, and a head was smashed in half. It looked miserable.

“Oh ... it hurts!” The creature screamed, only to feel almost dead, and half of his head was blown.

It is conceivable that just how strong Qin Tiange's punch was, the strength of the two inner universes merged with each other, and the terrible kill caused by this is that this creature cannot stop it.

“Cosmic diaphragm, open!”

With a roar, the creature was enraged, released the inner universe, and turned directly into a cosmic diaphragm, protecting it around the body.

It is in its own universe, and a broken head is quickly repaired and restored to its entirety.

However, even if it released the inner universe, it could not stop Qin Tiange's fist.

“Great chaos, heaven!”

Qin Tiange yelled, punched his arm and punched the diaphragm of the inner universe, and a hazy fist burst into a primitive terror.

The explosion of power from the great chaos, the rumbling penetrated that layer of mysterious and powerful universe, as if breaking through a barrier.

At the moment that runs through this universe's diaphragm, Qin Tiange has a wonderful understanding, as if at this moment he had a new understanding and understanding of his own power and ability.

Epiphany, at this moment, he suddenly entered the epiphany, and his strength suddenly turned into an unprecedented feeling, pouring into his mind and into his fist.

For a thousandth of a second, Qin Tiange woke up from his epiphany, his eyes shining through an unknown light.

“Originally, this is the power of” pan “, not my power.” Qin Tiange said to himself, suddenly came to understand.

He has been using the power belonging to others, not his own power, that power comes from the “disc”, and now he finally broke through this powerful barrier.

Originally, with the power of the owner’s “pan”, it was difficult for Qin Tiange to break the influence of the other side, because that was the only supreme existence that broke through the universe and successfully escaped.

But I did not expect that a punch punched through a diaphragm of the inner universe, as if verifying the scene in which the supreme strong man penetrated the universe.

Qin Tiange saw the power of others and realized his own power, so he got rid of that terrible influence and realized himself.

Hum!

Within the body, the chaotic elemental turbulence boils, and a newly formed baby universe erupts. The two forces are entangled with each other and become the most primitive force.

This is the power that belongs to Qin Tiange. It is grasped by hand, without any preparation at all, as if it was an instinct.

boom!

Qin Tiange’s punch with his arm raised and his unremarkable punch contained the realization of the true self, with an unstoppable power in the ordinary.

Just hearing a click, before the fist arrived, the cosmic diaphragm directly broke, and a hole was punched out, and inexplicable fear came to my heart.

With the fist running through, a sudden sound, the creature’s head burst instantly, inexplicably exploded into pieces of minced meat, and turned into countless broken pieces.

A strong and weird punch contains horrific killings in the ordinary, a punch punches through all obstacles, and the universe diaphragm is instantly penetrated and cannot be blocked.

“You ...” The creature was inexplicable, looking at the punctured universe diaphragm, realizing that death was coming.

Without saying anything, he was blown into the door by an ordinary fist, and instantly penetrated through it without any hindrance.

Qin Tiange smashed the last head of the creature with one punch, opened his five fingers, and instantly pierced the opponent’s heart.

There is a group of universe origins, like a group of fetal membranes, containing a complete baby universe, and one side is transforming into a long, young universe.

“Refining!” Without hesitation, Qin Tiange simply crushed with primitive chaos, refining the origin of the universe inside.

Suddenly, a strong cosmic origin poured into the body, and a powerful wave of nutrients was injected instantly, feeding one of the cosmic membranes.

Hum!

A strange buzz came, and another universe took shape, and the birth was successful in an instant, giving birth to a complete infant universe.

Three full universes were born, and Qin Tiange had an impulse to break the big universe, but he was suppressed.

“Continue, give birth to all the inner universe.” Qin Tiange’s face was calm, without joy and sorrow.

But at this moment, Qin Tiange stopped for a moment, suddenly looked up, his eyes flickered with two beams of terror.

“Come out.” Qin Tiange spit it out lightly, his eyes showing the coldness.

As the voice fell, a ripple rippled, and a hazy figure appeared quietly.

It was an old man, a mysterious old man, who was the mysterious old man who was on the other side. He came.

“Young people, it’s enough.” A hoarse voice came, and the old man issued a warning sound.

After hearing this, Qin Tiange squinted his eyes and hummed, “I call you an old man, that is to respect you, don’t rely on the old man to sell the old man, others can kill me, why can’t I kill?”

The old man frowned, and said hoarsely, “Young man, you don’t know that the top powers in both universes have an agreement. Can’t you kill each other before the agreed period?”

“What was that before?” Qin Tiange sneered, his eyes flashing coldly, and he looked directly at the old man.

He is the terrifying power of the universe on the other side. Now, coming out to block Qin Tiange’s hunting path is equal to blocking his way of preaching.

Obstructive testimony, don’t wear it together!

“Young is impulse. Honestly go back and wait for the opportunity to come.” The old man spoke indifferently, his voice hoarse, but there was no doubt about it.

Hearing this, Qin Tiange understood, his expression gradually cooled down.

Humph!

He said lightly, step by step, “No matter who you are, what role you play, but if you stop me from proving, that is the enemy.”

“Dead enemy, kill!”

With a violent drink, accompanied by Qin Tiange’s punch, he just broke away from the puppet of the former strongest and stepped out of the shadow of the other.

But the old man was terrified, and fluttered with a flutter.

boom!

The fists hit each other, Qin Tiange's body flew thousands of miles, and the old man's body was struck back and forth by the power of that punch. Both stopped at the same time, and his chaos was boiling.

They both looked in horror, staring at each other with a look of shock.

“You ...” The old man was terrified.

Qin Tiange showed a touch of surprise, the punch he had just made, but it contained the power of the three inner universes, which turned out to be evenly divided.

I thought I was crushed, but I didn't expect to be tied, but it was a little weaker. The old man was terrified, and there was a mature and chaotic atmosphere in his body.

In his body, a perfect and mature chaos was born, but there was a sense of aging, and the stamina was not enough.

“Primitive Chaos!”

“Mature great chaos power?”

Qin Tiange, the old man spoke at the same time, and made a surprising discovery. The other party was a strong man who gave birth to the original great chaos and had to be shocked.

The old man was silent, his pupils flickered, and he from the universe on the other side seemed to be high above him, manipulating the situation of the two top powerful men in the universe.

But now he is running out of a young and powerful human race, and also the strong of the universe on the other side, which makes him not want to see.

The two were silent, gazing at each other, intertwined with each other's breath, and an astonishing murderous power was revealed in the gray eyes.

Chapter 993 - Reversing the cut years back to the top

boom!

The two momentums interweaved and clashed, shattering nothingness, disturbing the borderless areas, and attracted many powerful eyes.

Qin Tiange confronted a horrible old man, and the two of them murdered in their eyes, directly approaching each other, and they had already moved to kill.

“Young man, stand back.” The old man said cautiously, with a solemn expression.

For the first time, he felt the pressure from this young human race, which was extremely strong. If he was not careful, he might fall today.

Qin Tiange shook his eyes and hummed, “Old things, relying on the old to sell old, the universe on the other side can't control the things in the big universe here. If you are troubled, kill you.”

“Arrogant, the old man sees how strong your great chaos is.” The old man was angry and was irritated by the words.

“kill!”

With a loud drink, the two did not agree with each other and started to fight. Any nonsense was superfluous and hit the other party directly.

Qin Tiange is even more powerful. He comes up with a punch, with a touch of the true most powerful in ordinary, chaotic and hazy, wrapped in fists, penetrates nothing.

boom!

The two fists fought with each other, and the violent chaos blasted from both of them exploded, overturning the area of thousands of miles, and the chaotic frontier was even more turbulent.

Both Qin Tiange and the old man, are the Xeon Shengling who gave birth to the primitive chaos in the body, and the primitive chaotic power in the body swept up.

Boom boom ...

One punch and one palm contains the power of great chaos. The four sides collapse, the edge trembles, causing the thrill of many powerful creatures.

I saw that Qin Tiange waved his fists, and the whole man was wrapped in gray chaos. His fists kept smashing the chaos in front of him, making the old man's face red and red.

The opponent has a mature large chaotic universe, which is already very strong, but after all, he is old, and the chaos in his body is twilight.

Huh!

A punch in the face door, the old man's front teeth collapsed and flew out, the cracked air penetrated through the nothingness and disappeared, and the blood was dripping.

The strong old man was actually injured by Qin Tiange and lost an incisor, so that the strong people from all sides concerned here were all shocked.

"His, is this injured?"

"The people on the other side are fierce."

"Two primitive great chaotic universes, a decent master finally appeared on our side, but it is a human race."

The universe is deserted, and powerful figures emerge, hazy, and all races are watching the fierce battle here.

All parties were stunned. Many on the other shore were shocked by Qin Tiange's mighty power. The old man on the other side of the universe was very strong, but was hurt by suppression.

The old man is horrible, the mature chaos is terrible, but the power behind him is not as powerful and young as Qin Tiange, naturally he is not as strong as Qin Tiange.

"kill!"

A roar shook all over the place, and the old man's pupils shrank, and he saw a fist wrapped in a grey and simple light.

With a bang, blood stains splattered, and two teeth flew down again, hitting nothingness and being badly wounded.

Once again, the old man pushed 10,000 meters across, with a gloomy expression, and hummed:
“Sure enough, it’s still young. Old age has proclaimed himself young in order to reduce the years.
Do you think old age is too old to kill you?”

“Old things, you have too much nonsense, watch me kill you!” Qin Tiange struck back, stepping on top of the old man’s head.

With a bang, his foot was blocked by a fist, and the powerful chaos slammed open. Qin Tiange’s figure fell down, his expression surging.

“Forcing the old man to kill you in years!” The old man was so angry that the second Buddha ascended to the sky, and suddenly roared loudly, a gush of chaos radiating from his body.

This glory turned into a chaos sky knife, chopped in his body instantly, with a click, there was something broken in the old man’s body.

It is the traces of time. Since the time was cut, the traces of time on his body have been completely cut out, and the youth of old days has been restored.

Hum!

Since the sword was cut, the old man suddenly turned white and black, very dense, and the old face suddenly became smooth and full of vitality.

Suddenly, from an old man to a middle-aged man, the whole body breath became more powerful and horrible, and the breath became more pressing.

“Regaining youth, killing you as well.” Qin Tiange stepped forward without moving, his fist blasted away with the will to kill.

No matter how the other party becomes young or whatever, it is impossible to change the killing intention that erupts in his heart and to block his way of preaching is the enemy.

boom!

The two punched him in an instant, and when he was young, the old man was extremely horrified. His strength seemed to chop off the twilight breath and burst into a strong vitality.

For a while, the two broke into a ball. You came and went, and the fists hit each other’s face and body, causing severe trauma again and again.

Click!

Qin Tiange was smashed into the corner of his eye with a palm, and instantly burst. The blood was sprayed back and then flowed back, and he recovered in a blink.

And his punch was hammered fiercely in the eyes of the younger middle-aged man, and his eyes were blown open.

“Well ... the old man slaughtered you.” The old man’s eyes burst, his pain and face can’t get through, his heart was furious.

He roared step by step, the palm of his hand condensed a large gray chaos, the mature primitive chaos suppressed.

In the face of the old man's wrath, Qin Tiange looked cautiously, but without any fear, he directly raised his arm and fisted up.

With a loud bang, the two fists collided with each other, and the impact force twisted the house into a crumb and collapsed into nothingness.

Bang!

I only heard two muffled sounds, and then two figures flew across, blood stained, and they were extremely embarrassed.

The old man's face door collapsed, the bridge of his nose was completely broken, and the blood flowed down, with a touch of gold and silver.

On the other hand, although Qin Tiange himself was severely wounded, he recovered in the blink of an eye, as if he was not injured.

"Kill!" Qin Tiange Li Xiao, regardless of his injury, is a kind of desperate fight, and the old man secretly screamed with a punch and a palm.

The more frightened in his heart, the more shocked by the Vietnam War, feeling that the power in Qin Tiange's body seemed endless and inexhaustible.

Bang Bang!

Three consecutive punches hit the old man's face door, heart, shoulders, three blood flowers burst, and broken bones penetrated, the scene was extremely tragic.

The old man was wounded again, and his breath was weakened. He looked like he was recovering from middle age and saw signs of aging again.

"Damn, forcing the old man to sublime himself to kill you?" The old man growled angrily, and raged wildly.

He wanted to continue to cut himself, but unfortunately Qin Tiange didn't give him this opportunity, and stepped over nothing to reach the old man.

boom!

The fist was violent, and the fist blasted the old man's body, catching up one step, and the fist fell like an ice cannon.

The powerful force shattered the old man's great chaos defense, and his fist furiously shattered his flesh and blood, and collapsed a little.

Cracked through the bone, a ray of chaos shines out, and a mature primitive chaos is bred in the brows.

Seeing this, Qin Tiange's eyes were scorching, and when he raised his hand, he would dig out the original chaos of the opponent.

"Chaos Sky Sword, Cut My Time!"

At the end of the crisis, the old man growled loudly, and a chaos soared into the sky, turning it into a gray knife and chopping himself.

With a bang, there was an astonishing crackling sound in the body, and a strong chaotic force burst out.

The really young and powerful breath erupted, and Qin Tiange shook away instantly, and he retreated, staring at Qin Tiange far away.

“Forcing the old man to return to the strongest posture, you must die today!” The old man was driven mad, his eyes flashed with mad murder.

I saw a burst of powerful chaos in his body, the old and broken body, quickly repaired, and became extremely young and powerful.

This is really young, the highest peak of combat effectiveness is shown, shocking all parties, attracted the shock of many Xeons.

The old man recovered his former peak combat power and was forced into this by Qin Tiange. We can see that he is powerful.

“Roar ... boy, you can die!” The old man who restored the peak state howled, killing a mature primitive chaos.

That powerful force caused great oppression to Qin Tiange, and he was dignified, and was ready for a **** battle.

Huh!

Just at this moment, outside the edge of the wasteland, there was a fierce squall in front of the other side, and then a buzz came, and a simple stone bridge came across the wasteland.

With a bang, Shiqiao hit the strong old man directly and flew out, which broke his Xeon blow.

“How is the bridge?” Qin Tiange squinted his eyes and looked at the stone bridge that had been shot out suddenly, even knocking the old man into flight.

Although it was not injured, it was scary enough to make the old man look distorted and almost blew his lungs.

“Dash, you want to stop the old man?” The old man roared angrily, his body boiling.

The stone bridge dared to stop him, that is, the master behind him was blocking, otherwise the stone bridge would not appear on his own initiative.

The ancient simple stone bridge, crossing in front of Qin Tiange, has a faint atmosphere, like a desolate and lonely woman, looking at the other side.

“Get out, I want to kill this old thing.”

Qin Tiange stepped through nothingness and came directly to Shiqiao, his voice was calm, and an unquestionable belief was revealed.

The old man blocked him from preaching then killed, even if it was blocked by the stone bridge, he couldn't stop his lore.

Hum!

The stone bridge trembled slightly, emitting a hazy light, without blocking Qin Tiange, but a powerful force came out to directly trap the old man.

“Dashing things, dare you?” The old man was furious, shaking the bondage, his face changed suddenly, and he felt bad.

Nai Heqiao actually helped Qin Tiange suppress him, making the old man angry, without saying a word, there was a spirit in his chaos.

With a bang, Xeon Baoguang was revealed, and a bone spear swept across the sky, breaking the shroud of the stone bridge, colliding with each other, and sharing the autumn colors equally.

There is a cosmic treasure that is the old man's treasure of sermons. It is unmatched in strength and contains great chaos. It has never been used.

Huh!

At this moment, above the nothingness in the distance, the terrible energy waves from the various sides of the universe sent a wave of precious light to the sky, which swept through the nothingness.

Chapter 994 - Atonement, 30 unowned universes

Qin Tiange's pupils shrank, and looking at the Xeon Baoguang, they were all universe-level treasures, sharp and engrossing, and the extinction of light locked him.

boom!

The chaos in his body boiled, and he did not hesitate to shake his arm and punched him with a thunder, and Mantianbao's light broke apart.

After breaking the lock, Qin Tiange calmly swept the Quartet, and some of the universe's Xeons hidden in the borderland appeared.

“Back off, we don't care about your fault.”

A word of indifference came, shocked the parties, some Xeons in the opposite universe could not sit still, the old man seemed to be defeated by Qin Tiange, now Shiqiao came out to do something, naturally can not sit idly by.

“I dare to kill anyone who comes!”

Qin Tiange sighed coldly, fiercely and powerfully, step by step towards the old man, showing a lore of killing all over him, how could he kill the enemy without killing this old man?

Seeing Qin Tiange being so strong and determined, the old man couldn't help changing his face. When he felt the strength of the young peak in his body couldn't support it for a long time, his complexion became more gloomy.

If this continues, it will definitely defeat the North, and even be crushed by Qin Tiange, it is possible that he himself will fall here.

After living a long time, I am even more afraid of death. The old man's spirit has gradually been wiped out by the years, and he is no longer ashamed.

"Wait, as long as you stop hunting the most powerful of the two universes, the old man will give you ten uninhabited inner universes as compensation." The old man finally spoke, his breath weakened, and he regressed.

Qin Tiange sneered: "You are old, afraid of death, and the ten inner universes want to send me, why don't I kill you and swallow up your mature big chaotic universe?"

"You ..." The old man was angry, and the most powerful of the universe across the shore was even more angry, directly showing his figure, his breath was oppressed.

"Boy, stop now!"

"Stop!"

A loud anger rebuke came, and those on the other side of the cosmic Xeon who were hiding in the edge of the desert appeared one after another, carrying a universe-class treasure to stop Qin Tiange.

However, Qin Tiange looked calm and walked towards the old man constantly. His whole body was growing stronger and his faith remained unchanged.

"Twenty unmanned inner universes ..." The old man's face was somber, and his breath became weaker and weaker. Once dragged on again, there might be huge trouble.

It is a pity that Qin Tiange has not changed, his eyes flashed, and suddenly he stepped through the void and hit the old man with a punch.

"Thirty inner universes, this is the bottom line. Otherwise, you will never be overwhelmed by the falling today." The old man roared frantically, his eyes were red, and his head was smoking.

call!

The powerful fist finally stopped one meter away, the powerful fist wind swept around the nothingness, Qin Tiange stopped, his fists slowly spread out his palms, and looked at the old man in front of him quietly.

"Jack, here you are ..."

The old man's face was unpredictable, he gritted his teeth and turned his hands to take out a bunch of strange origins, which are one by one cosmic membrane.

They are all unincorporated inner universes, apparently collected by him, and directly surrendered thirty inner universes.

"Thirty inner universes, buy you a life, let you once today, and dare to stop me from preaching again, even if the whole universe is blocked, I will kill you."

After Qin Tiange said indifferently, he rolled over the thirty dim inner universes without a master, turned directly, took a step, and disappeared into nothingness.

The whole process is too fast to react, as if the will of the lore just now is false.

In fact, this is not the case. Qin Tiange is not stupid. Looking at the horrible figures around to intervene, there are only eighteen universe-level strong men who can be sensed.

The point is, these are the creatures of the universe on the other side, the oldest of the universe over there, a group.

But what about Qin Tiange's universe? Look, a block on a stone bridge appeared to help Qin Tiange.

This had to make him vigilant, even if no one of the most powerful of the universe came out, it is obviously biased or even hostile towards the human race.

Moreover, Qin Tiange threatened them so strongly that he did not want to come out instinctively, which made Qin Tiange's mind flash a lot of thoughts, and finally extinguished his determination to kill the old man.

You can kill him, but it will inevitably detonate the Xeon Soul of the universe on the other side. Once besieged by these cosmic powerhouses, plus a horrible old man who has stepped on the peak, Qin Tiange will not fight hard unless he is a fool.

Just strong, that is, to persecute this old man, to take more advantage to calm down his inner anger and loss.

When the old man said ten inner universes, he really surprised Qin Tiange, and then he said twenty, which was even more terrifying.

This old man has accumulated so many inner universes and never absorbed them? However, it is normal to think about it. His inner universe is in chaos, and he is about to die in his old age. He keeps these universes to maintain his inner universe.

Suddenly, he took out thirty accumulated inner universes, which was a huge force. Qin Tiange closed it when he saw it, and broke through before he said it.

The rice had to be eaten bite by bite, and it was a good thing. Naturally, leaving here, only a group of face-to-face cosmic powerhouses were silent.

"Is this gone?"

"It's changing too fast?"

Some people were dissatisfied, but it was too late to catch up, because they had just arrived and hadn't had time to block this area, Qin Tiange rolled away thirty unincorporated inner universes and left.

Seeing Qin Tiange disappearing, the old man's face was iron blue, and a spit of blood drew down his throat, but he dared not spit it out and swallowed it.

"You can get out, too." The old man was angry and almost burst into anger.

As the voice just fell, the quaint Naihe Bridge buzzed, penetrated the edge of the wasteland, returned to the other shore, and quietly floated there.

The old man's face was distorted, but he turned black, shattered nothingness, stepped into it and disappeared.

The group of Xeons on the other side, who had been here to help, stayed behind each other, then dispersed and returned.

Qin Tiange played with the old man, basically figured out the opponent's card and card, and even caused a lot of problems.

For example, a large number of Xeons appeared on the other side of the universe to help the old man, but none of them stood out on this side of the universe.

Qin Tiange had some suspicions in his mind, but he was prepared for it.

“On the other side of the universe, it seems that the top powerhouse is more ...”

In a hazy emptiness, Qin Tiange sat cross-legged and hid here, completely isolating his own breath.

His eyes were faint, and he looked out at the edge of the desert, and in the broken and chaotic area of all sides, the most powerful ones were hidden.

He had just ran out, and he remembered them one by one, and a sneer smile arose in the corner of his mouth, and he sneered secretly.

“When I have digested these thirty unowned inner universes, I will come to you one by one to settle accounts, and dare to run out, then you will regret it.” Qin Tiange snorted to himself, and then chaos sprang up behind , Blocked all around.

Then, he took out a group of hazy light clusters, like a small universe, this is an unowned inner universe, large and small, with different strengths.

Some are dazzling, some are extremely holy, some are dark and deep, some are flaming, all kinds of different inner universes, and the great cosmic forces that they nurture are different.

Qin Tiange looked at them one by one, and his face was a little unhappy, and he hummed, “There are actually eight inner universes that are broken, old things, and this account is written down first.”

It turns out that of the 30 inner universes, eight of them are the most powerful but broken. Twenty of the remaining 22 inner universes have just been born.

It seems that there are many cosmic-level strongmen who died in the hands of the old man, or the number of the most powerful man who fell on the edge of the desert.

These inner universes are all left after the death of the Xeon. As for why the old man did not devour these universes, he kept them.

One is that he had been swallowed up all the way, and entered the mature chaos, but it caused the chaotic universe to age prematurely.

This is the price, so in the universe, when many Xeons absorb other people's inner universe, they are careful. After absorbing one, it will precipitate for a long time.

This is to give the inner universe time to digest, or even grow up, otherwise it will lead to the early exhaustion of the inner universe and step into death.

Once the inner universe dies, that creature dissipates with death.

"Hey, unfortunately, I don't taboo these." Qin Tiange sneered suddenly, because he did not taboo these.

Looking at the 60 trillion small chaos, 999 cosmic fetal membranes, all waiting to be fed, how could it be taboo to break too fast?

"Begin, Refining Devours!"

Qin Tiange's expression was serious, and he began to devour and refine these unincorporated inner universes. Fully thirty unincorporated inner universes were locked by the chaotic primitives.

Gradually, the primitive assimilating forces showed a terrible side. These were the inner universes, which were originally unowned, and they quickly broke through the outer barriers.

Immediately afterwards, a vast universe of origins poured into Qin Tiange's body and was absorbed and refined by 999 cosmic membranes.

Originally, a cosmic fetal membrane has been successfully bred. Now there are 998 cosmic fetal membranes left, which are being absorbed insanely.

But Qin Tiange deliberately selected thirty of the cosmic membranes, and ninety-nine percent of the universe's origins flowed into the thirty cosmic membranes.

This is to completely nurture, once Qin Tiange's strength is successfully transformed into 30 baby universes, Qin Tiange's strength will inevitably step into a terrifying situation.

A person has the power of thirty-one inner universes, plus the primitive chaotic universe, what kind of scene would it be?

Hum!

Just listening to a strange buzz, Qin Tiange exuded a mysterious breath, one side of the cosmic membrane formed, giving birth to a baby universe.

As more and more sources are devoured, more and more cosmic membranes begin to take shape, enter infancy, and become baby universes.

The birth of a new baby universe has caused Qin Tiange's body to undergo some kind of metamorphosis, and all gene cells are reorganized at this moment.

One, two, three, four, ten, twenty, more and more inner universe in the body began to take shape and turned into baby universe.

When all the uninternal universe was swallowed and refined, Qin Tiange burst into an unparalleled atmosphere, terrifying.

Huh!

Two beams of laser light burst out, tearing chaos, penetrating the emptiness, and shocking the Xeon of all parties.

Chapter 995 - Break into the depths of the other side

Two beams of tears ripped through nothingness, sweeping across the borderlands, alarming a violent breath fluctuation.

“Who is who?”

“What a terrible look!”

Suddenly Xunsheng was surprised, and just felt a glance, and his horror seemed to look down.

It's a pity that this gaze came fast and quickly, and passed away quickly. There was no root of the tribe, which naturally caused the suspicion of many powerful people.

Qin Tiange regained his sight, his eyes dazzled with a ray of coercion, and there were 30 inner universes in his body.

Thirty babies' inner universe, plus a big chaos, this power is hidden in the body, and a vast force of the universe is pouring out, tempering Qin Tiange's body.

Click!

Qin Tiange's body collapsed, and even some could not bear the terrible power of the thirty inner universe, and was directly cracked.

The cracks spread and criss-crossed, but Qin Tiange was calm, because the cracks had repaired themselves as soon as they cracked.

It is unclear how many times the rupture repair has gone through, and finally, when the body withstands the strength of the thirty inner universes, it finally stabilizes.

“A big chaos, thirty baby universes, good ...” Qin Tiange smiled confidently.

He saw that in the body of Dantian, a large gray chaotic universe was floating, surrounded by 999 cosmic membranes, of which 30 full inner universe forces had been formed.

How terrible is the power of the thirty baby universe? Qin Tiange is not clear, because he only knows his current self, and is considered a true big universe taboo.

“Well, I forgot to leave two unowned inner universes to make cosmic-level artifacts.” Qin Tiange suddenly remembered this.

Qin Tiange already had an idea in his mind that he had not left a few unmanned inner universes before, so that he could create some cosmic treasures.

That's hunting!

Huh!

With one step out, Qin Tiange disappeared without a trace, and reappeared in a corner area at the end of the wasteland.

There is a breath of death here, a terrible power spreads, and it is daunting to dare to approach it.

Qin Tiange was hidden in a cloud of fog, quietly watching the black gas rolling in front of him, and the breath of death was intertwined and diffused.

call...

Suddenly, a mist of chaos blew from nothingness, tumbling and rolling over, constantly covering this area.

And in the fog, a horrifying creature was lying on a ruin to rest, and it was not clear that the crisis was coming.

When Qin Tiange stepped up, the cosmic Xeon across the shore finally woke up.

For a moment, two eyes glanced over, staring at Qin Tiange, a little shocked: "It's you, what are you doing here?"

The creature was a little terrified, because before he saw the miserable old man himself, he jumped out and stopped Qin Tiange.

Qin Tiange had originally thought that he had disappeared without a trace. He never dared to come out, and came to him in a blatant manner.

"Kill you!" Qin Tiange's eyes were cold, his intention to kill was erupted, and he was swept across by it, instantly covering the strong on the other side.

The severe crisis made the other side horrified and had to dodge, but was still caught up by Qin Tiange.

"Death universe!"

A roar came, and saw that creature roared with a burst of power, and its powerful ability directly covered the range of several kilometers.

Black gas billowed and was blown out by Qin Tiange in one breath.

"Dead!" Qin Tiange whispered, raising his hand and shaking his arm was a slap, and the power of the thirty babies' universe shook the edge of the desert, and there was a faint horror feeling to break the diaphragm of the big universe.

"No ..." The creature roared in horror, struggling, and a side of the inner universe full of death came crashing into the air.

With a bang, the universe of death was instantly suppressed, and Qin Tiange patted the creature's head with a strong palm.

Just listening to the squeaking, the creature's entire head was shattered.

It was killed by a single palm, his head was gone, and naturally only a headless body and a true soul light remained.

boom...!

Qin Tiange raised his hand with five fingers and grabbed, the biological body was directly refined, and a mass of cosmic membranes emerged.

Seeing this inner universe, Qin Tiange chuckled, erasing his inner consciousness and turning into an uninternal universe.

“The first one!” He put away the inner universe and looked to the other side of the wasteland to himself, with one step, the whole person disappeared without a trace.

Qin Tiange came back again and quietly hunted down the Xeon Shenglings on the other side of the universe, all of which had run out of bad things.

He had secretly remembered these breaths before, and now with these breath inductions, he can easily find the opposite universe strongman who ran out of bad things before.

boom!

“Ah ... how dare you?”

There was a violent vibration in the misty nihility. There was a battle in the wave, but it was blocked by a wave of chaos.

Just listening to the screams of screaming and screaming, a horrible creature was faintly beaten and scarred.

It was a gigantic creature on the other side of the universe, extremely powerful. There were two inner universes in the body, one in the heart and one in the brows.

The two inner universes broke out, but they were not as strong as Qin Tiange's, and they were blown away with one punch and one blow.

boom!

Qin Tiange split his head in the palm of his opponent's head, flesh and blood flew, his head and bones shattered, exposing his brain, and still beating slightly.

The creature was miserable, and the pupils showed endless fear. The two inner universes were already very powerful, but were penetrated by Qin Tiange.

“You, why are you so horrible?” It screamed in horror, and saw Qin Tiange flash forward, came to the front, and stared directly at each other.

Qin Tiange said, “Because, that's how scary I am.”

puff!

As soon as the voice fell, a hand penetrated its new house and dug out a group of things that were beating.

It was a beating inner universe, dug up by Qin Tiange, and the powerful pain caused the creature to pass out.

But when Qin Tiange pierced into his eyebrows with one hand, the pain of tearing up the real spirit directly stimulated his consciousness and watched his two inner universes dug out.

“Ah ... I'm not willing ...” A loud roar, the Xeon creature on the other side shouted the last sentence of his life, his body smashed into a pile of powder.

Another Xeon was killed, and this creature gave birth to two inner universes. It is no wonder that it can cause wind and rain in the desert.

Unfortunately, Qin Tiange was killed now, and two inner universes were dug out, plus the previous one already had three inner universes.

“carry on!”

Qin Tiange spit it out, his footsteps disappeared here, and he continued to look for the most powerful man on the other side in the chaotic area of the border.

He wanted to breathe out all the cosmic fetal membranes in his body. If an inner universe can support one fetal membrane, he must kill more than 900 cosmic-class Xeons.

More than 900, Qin Tiange said Alexander, can he accomplish this feat himself?

But soon he realized that his thoughts were too simple, because the Xeon creatures that had been hidden in the borderlands suddenly disappeared.

That’s right, it just disappeared, one by one, mysteriously disappeared. It was hidden here originally, but all of a sudden ran clean.

“Ran?”

On nothingness, Qin Tiange stepped on a hazy mist, surrounded by pieces of broken bones, proving that there was once a terrible creature hidden here.

But now it’s gone. Not only here, but the Xeons in other places disappeared as well.

Qin Tiange didn’t believe in evil, closed his eyes, and a huge spiritual will swept across, sweeping constantly in the broken area of all sides.

After a long time, he stopped because there was no discovery and he really ran away.

“You ran away, and you weren’t on the edge of the desert, so you just fled back to the universe on the other side?” Qin Tiange frowned deeply, watching the deserted areas of the desert.

The frontier desert that was quite lively at once became dead silent, and no other Xeon creature on the other side remained.

However, there are those Xeons who have a few original universes. Unfortunately, Qin Tiange’s eyes disappeared one by one, and he disappeared in a blink of an eye.

“Interesting, even hiding.”

Qin Tiange was amused secretly that these two Xeons, who had been hidden in the edge of the universe, even ran away one by one.

Obviously what news notifications were received, and they were directly hidden one by one, so that Qin Tiange could not find it, and he could not kill the other side of the universe.

“It should be the old thing.” Qin Tiange snorted, thinking of it, stepped back and stepped out of the universe.

Suddenly, a barrier was broken, and a wave rippled near the other shore, and a figure emerged from it, which was Qin Tiange.

He came directly to the other side, his eyes glanced coldly around, and constantly checked, thinking an inch across the nothingness.

Unfortunately, he did not find the trace of the old man. There is only one quaint stone bridge across the void of deep space in the universe, connecting the other shore.

“Will you rush into the opposite universe?”

Qin Tiange stood in front of the other bank, thinking quietly, was he going to rush into the universe on the other bank to hunt down the most powerful ones?

But he soon gave up, because the glance in the meditation became stronger and stronger, as if locked him again.

And this time is different, Qin Tiange has completed the birth of thirty inner universes in his body and seems to have some strange metamorphosis.

He vaguely saw a mysterious place, there seemed to be something hidden in it, but unfortunately he wanted to look carefully but found that he couldn't do it at all.

“what?”

Qin Tiange, who was contemplating, suddenly made a suspicion, his eyes burned, and a fascinating light bloomed, locking the other side in front.

I saw Inside the mysterious and strange shore, there was a dim light passing by, and it would not have been possible to capture it if it had not just broken through.

Qin Tiange looked surprised and said, “The light just now seems to be flying over an inner universe?”

Amazing, there is an inner universe flying in the depths of the mysterious other shore, which aroused Qin Tiange's curiosity and attention.

He stood here, pondered for a long time, and finally waved his arm and hit the barriers on the other side.

boom!

The power of one punch broke the sky, and the powerful punch directly penetrated the other side, and a hole was blasted out, and the dark rift went straight to the deepest side of the other side.

Without hesitation, Qin Tiange stepped into the deepest part of the other side, where the former master of the Hehe Bridge and the mysterious woman entered.

“He, go in ...”

When the shadow of another person disappeared deep in the other bank, the disappearing old man appeared again, his eyes faint, staring at Qin Tiange, who walked deep into the other bank, his face was cold.

Chapter 996 - Your master is dead

On the other side, a figure rushed into it, punched through the barrier, and entered the deepest point. Just now Qin Tiange saw the glory of a universe without a subject, and was surprised, and decided to go into it to find out.

He did not have that ability before, but now it is different. In the body, thirty babies in the universe have been formed, and together with the big chaotic birth, it is thirty-one.

boom!

A powerful shock came out, which caught the old man's attention, and his pupils stared deep into the other side, faintly seeing a vague figure, fighting fiercely with some invisible things.

The terrible fighting caused a raging sea, and a terrible shock swept across, causing a violent shake on the other side.

"It's so strong. He's so much stronger than before. Has he digested those unowned inner universes?" The old man looked shocked and looked at the blurry figure with great complexity.

That man was Qin Tiange, waving his fist, struggling to kill in the depths of the other side, and it was not clear what he was fighting fiercely.

Anyway, as soon as he stepped in, Qin Tiange suffered a terrible calamity, and he fought alone in the depths of the other side.

This battle lasted for three days. After the third day, Qin Tiange's figure had disappeared deeper on the other side.

Only faint sounds of terrible collisions and clashes were heard, and then pieces of broken bones burst out.

A torrent of torrents rushed out from the other side, radiating away from the sky, causing a terrible scene.

At this moment, many powerful people in the big universe were shocked, and those other cosmic creatures who had fled the borderland appeared one after another.

They looked at the other side, the looming figure, bloody, and the fierce battle continued.

"What's in the other bank?"

Some Xeon were fussy in their hearts. Looking at the deep gray shore, they could see nothing, let alone what was inside.

In short, the strong people who entered it, without exception, all encountered great calamities, where they worked hard to fight and fight, just didn't know what they were fighting.

Even if someone came out alive from there, it was too taboo or even kept silent.

This caused the mystery of the other bank. I wanted to know that I had to enter it by myself, but one of the hundred who broke into the other bank was alive.

"On the other side, don't say it. Only by personal experience can you understand."

“Want to know, you can call in yourself.”

Several ancient Xeon spoke with such secrets and taboos. Anyone who entered the other bank, no matter who they were, would not mention a word.

These strong men silently watched Qin Tiange's figure, and gradually, even the figure could not be seen, and completely disappeared.

He penetrated into the depths of the other side, and with his own strength, he stumbled deeper into the other side.

What did Qin Tiange go through? One day, two days, three days, four days, time passed little by little, and the rift on the other side has not disappeared.

It proves that Qin Tiange hasn't died there yet, otherwise the entrance to the other side that was beaten must have healed directly.

“It's been nine days, and not dead yet?”

“His ... The time the old Lord entered in the past, it seemed like he had been seriously injured after only three days of support.”

A living creature exclaimed, uttering a secret that few people knew, immediately attracted countless lights, and looked at the old man.

The mysterious old man, who once entered the depths of the other shore, successfully entered it and then shot out, and experienced three days and nights of horrific killings in it.

When he entered, he was incredibly young and strong, but when he came out, it looked like this old and decayed, and no one knows what he experienced in it.

boom!

Suddenly, a strong shock came, alarming those who arrived, looking up one by one.

I saw that there was a powerful breath deep in the other shore, roaring out, and rolling out endless unknown matter.

“kill!”

I only heard a roar, and stunned the Quartet. Then, a horrible figure rushed back and forth in the depths of the other side, and waved his fists almost to collapse.

That man was Qin Tiange. There was no perfect place on his body. His flesh was blurred, but he was fighting hard.

boom!

Suddenly there was a muffled sound, flesh flew out, and then a shadow of a flesh-smeared person came across, smashing into the edge of nothingness.

Everyone was stunned, looking at the broken figure floating above the ethereal mist, covered with blood, almost inhuman.

“He, isn’t dead?” The old man’s pupils shrank, watching the flesh-shaded figure, and the killing intention born in his heart extinguished instantly.

I saw a cloud of chaos in the flesh-shaded figure, quickly repaired the body, and recovered in a blink of an eye.

Qin Tiange recovered to completeness, slowly stood up, his eyes glanced flatly across the Quartet, watching the Xeon who suddenly emerged.

“Hey ...” Qin Tiange suddenly showed a sneer, letting the Xeon creatures watching around him feel cold and inexplicably cold.

Immediately, Qin Tiange swept past the old man indifferently, without turning a word, he just turned around and disappeared.

No one knows what he experienced, what he saw, and what he gained?

Seeing Qin Tiange’s departure, the powerful men from all sides watched quietly, and retracted their eyes and sights.

Even the old man, with a trace of complexity, was about to leave the area on the other side, but suddenly saw the silent stone bridge suddenly emit a buzz.

Hum!

Shiqiao trembled, suddenly activated, and penetrated the universe directly, disappearing into a ray of nothingness.

Seeing this, the old man froze, but couldn’t figure it out, and turned away without thinking too much.

.....

Above the unknown, the figure was hidden there, blocked by a cloud of chaos.

There was a young man sitting in the chaos, looking at the ancient stone bridge that flew over, his eyes glowing with a strange sheen.

“Your master, dead.” After a long silence, Qin Tiange said this slowly.

As soon as this word came out, Shiqiao suddenly burst into wailing, as if he couldn’t believe the cruel ending, the woman in the mysterious Sansheng Stone was dead.

That’s right, in Qin Tiange’s view, the other party is indeed dead, deep in the other side, as to why it is certain.

Qin Tiange groaned for a moment, then suddenly said, “I found a flower on the other side, which blooms in the endless depths of the other side. It is rooted in nothingness, bright and red, and stained with the master’s efforts.

Hum!

Shiqiao wailed, revealing an endless sorrow, turned into a light penetrating chaos, and blinked in front of Qin Tiange.

Looking at the leaving stone bridge, Qin Tiange's face was complicated. He did not deceive each other, but he really saw the deepest part of the other bank, and he opened a flower from the other bank.

“There are so many powerful men who fell on the other shore?”

At this time, Qin Tiange's face was serious, and strange rays of light flew out, continually circling around, like a shrinking model of the universe.

That's right, these are the ownerless inner universe, which Qin Tiange collected from the other side. Although experiencing a series of dangers, everything is worth it.

However, Qin Tiange found that most of these inner universes have been exhausted, and many of them are broken inner universes.

But there are a lot of wins. For nine days, Qin Tiange actually ventured to intercept these unincorporated inner universes scattered in the depths of the other shore.

This time he collected a total of 109 unincorporated inner universes, of which only 11 were complete baby universes.

The rest is either broken or depleted. Obviously, there is not much cosmic origin, and the melting may not be very satisfactory.

Qin Tiange didn't care about this, but his eyes glowed with faint light, and he felt an excitement in his heart.

Because he was deep in the other side, he saw more and more unincorporated universes floating around and collided with each other and destroyed.

“First refine and absorb these unowned universes before talking.” Qin Tiange secretly decided to improve his strength first.

At the deepest side of the other side, he failed to break into it, and was hit directly by a powerful force.

“Refining ~!”

With a low drink, the universe floating around and surrounded by the dense and unfocused Lord shivered, making a humming sound, as if knowing his next destiny.

Qin Tiange smelted the broken inner universe one by one, and the exhausted inner universe was refined one after another into the origin of the universe.

In order to strengthen himself, Qin Tiange eats everything, and now he eats the inner universe without one.

If he hadn't found these unowned inner universes hidden deep on the other side, Qin Tiange would still have to find out how to find the inner universe to strengthen himself.

Well now, deep in the other side, there is enough inner universe for him to break through himself and complete the transformation and growth of all inner universes.

boom!

Inside the body, an influx of primordial origins poured in, and the vastness, accompanied by the refinement of the 109 undivided inner universe, poured into the body into endless sources.

Suddenly, the cosmic membrane in Dantian became extremely agitated, sending out bursts of intense vibration.

With the devouring of the vast universe, the cosmic membranes in Qin Tiange's body gradually entered into shape, and a whole baby universe was born.

Thirty, forty, forty-eight, fifty from the beginning, and finally the universe stopped in fifty.

All the sources are exhausted, Qin Tiange also slowly wakes up.

Huh!

Two rays of light torn chaos, as if seeing through the barriers of the universe, Qin Tiange saw a blurry picture.

He stared at the blurry set of pictures, as if he saw lonely cages being locked between the two universes.

"The barriers of the epoch ..." Qin Tiange's pupils shrank and he whispered to himself, and immediately understood what it was.

Unexpectedly, after breaking through fifty baby universes in the body, he was even allowed to see a slight blurry scene, the picture information from the era prison cage.

"Wait first, wait until I have a hundred inner universes."

Qin Tiange murmured to himself I felt that once he successfully condensed the baby universe in a hundred individuals, something would happen.

As for what it is, he doesn't know. The only thing he can do is to make a breakthrough all the way to complete the formation of the baby universe in one hundred individuals.

"carry on!"

Qin Tiange stood up, stepped out of the chaos, stowed the chaotic elementary tires, and walked through the nothingness in one step, before coming to the other side again.

With a bang, Qin Tiange punched through the barriers of the other bank without hesitation, stepped into the depths of the other bank, and walked into it again.

"what?"

"That kid in again?"

"Is my brain crazy?"

When the news of his entry spread, both sides of the universe caused huge waves, and the Xeons shook each other inexplicably.

Qin Tiange once again penetrated deep into the other side.

Chapter 997 - Flowers on the other shore at the end of the universe

Boom!

The other side trembled and was punched out of a hole by a man's brutal fist. He rushed in.

That man was Qin Tiange, who once again penetrated into the depths of the other shore, causing shock and thriller on all sides, almost thought he was wrong.

"Did in again?"

The old man was startled and almost got to his tongue. It was really amazing. Qin Tiange just escaped after a serious injury, but it did n't take long to hit him again.

What he wanted to do was to make such a terrible move, which made people even more shocked and moved.

"This guy is not afraid of death."

"Suddenly entered."

The strong men from all sides moved, watching the terrible shock coming from the other side, and a strong wave of energy swept out.

The sky was broken, and fierce fierce fighting took place there. Qin Tiange once again penetrated into the depths of the other shore.

boom!

Deep in the other side, one person waved his fist, gathered the power of fifty inner universes, broke all obstacles, and plunged into the endless distant depths.

Deep in the other side is the end of the universe, and it is rumored that as long as it is broken, it can successfully break away from the shackles of the universe.

Qin Tiange came here not to fight out, but to the wandering, unincorporated universe in this mysterious area.

These unowned inner universes are powerful men who fell after entering here in the past. When the body collapsed, the inner universe became the unowned thing and wandered here.

Hum!

Probing out with one hand, Qin Tiange seized a dim light and took a closer look, and there was a baby universe inside.

Although it is broken and the light is dim, it still contains a huge universe origin, which is exactly what Qin Tiange wants.

I came here for these unowned universes. Qin Tiange searched one by one to collect and suppress these unowned universes.

Huh!

Suddenly, there was a strange magpie in the nothingness ahead, and before seeing what it was, he saw a sky knife slashing at the door.

Qin Tiange snorted, raised his hand to point and kill, and when the sound was crisp, the sky knife crashed and disappeared.

Before it was over, horrible sharp blasts came in, opening the universe into nothingness, splitting the chaos and obscurity, and killing Qin Tiange.

In the face of such a terrible lore, Qin Tiange was very calm, just splitting out with one palm, and the light of chaos crossed the void.

Click! Click!

A clear sound of cracking came, and the glory of chaos swept past, sweeping all the sharp edges into pieces.

Qin Tiange looked around, and suddenly there were dim figures in the nothingness around him, strange and unpredictable, and his breath was violent.

“Well, are these puppets again, is there something new?” Qin Tiange took a hint of dissatisfaction, his voice scorned.

As soon as the words fell, others had disappeared, and then appeared to have stood behind a shadowy and weird figure, a palm running through the back of the other’s head.

puff!

The five fingers, like the front, penetrated through the back of the figure, and directly knocked the other’s head down.

Qin Tiange held a fuzzy head in his eyes, sharp eyes, and swept across all the strange figures.

These people are the most powerful people who have entered here in the past. They are of all races, and the will to fight has become a puppet, blocking the creatures entering here.

“Kill!” Qin Tiange drank violently. The first hurdle was the puppets that these former strong men had formed. As long as they were killed, they could rush to the other side of the river.

The banging noises kept coming, and Qin Tiange incarnates after-images, punching each other with fists, striking the weird crickets and collapsing.

One fist and one palm, with fifty internal terrifying forces, were not what these puppets could stop, and they were brutally crushed by Qin Tiange.

It was another killing. It had been killed once before, and now Qin Tiange had come in again, naturally he was mentally prepared.

boom!

With a punch, a figure burst, Qin Tiange took off in the air, rammed all the way, and smashed into an unknown area, spanning past.

Here, there is a mysterious and unknown force everywhere, blocking the creatures that enter here, and it is faintly visible that the remains are scattered everywhere.

Qin Tiange’s figure kept on breaking, all the way through the impediments, violently into the deepest imagination.

“Just there ...”

Suddenly, Qin Tiange’s expression shook, his eyes glowed with strong rays of light, looking through nothingness and ignorance, looking at an area.

I saw a mist of mystery in the mist, which was extraordinarily weird, as if there was a person there.

Qin Tiange looked serious, approaching it step by step, and the more he felt forward, the more horrible the pressure felt, as if there was a dead end in front of it.

But he didn’t hesitate to walk over, he had entered here before, but because of his first entry, he was too many accidents and obstacles.

It’s different now. Under the skyrocketing strength, fifty inner universes broke out, and nothing could stop him.

Coming here again, Qin Tiange’s expression became serious. Before that, he saw a picture from a distance, and was hit hard by inexplicable power.

Entering here again now, Qin Tiange is ready to see if that picture is real?

boom!

With one punch, the fog in front rumbled, and the punch crossed, unstoppable, and a horror cave was hit.

Along the hole that was punched out, Qin Tiange stepped over and came to the end, seeing the mysterious scene I saw before.

The deepest part of the dark shore is as if there is the end of the universe, with an endless weird breath.

“Sure enough ... it’s the other shore flower!” Qin Tiange looked serious, his eyes flickered, staring at a flaming flower at the end of the other shore.

The other shore flower, another one blooming at the end of the universe, is charming, mysterious, full of sadness and shocking.

Qin Tiange looked at the other flower rooted at the end of the universe, the petals were stained with mysterious blood stains, the atmosphere was simple, and a strange strand of magic flowed, which belongs to the mysterious woman of the owner of the stone bridge.

“Is she dead?”

Looking at the other flower, Qin Tiange was silent, with a question mark in his heart, was the mysterious woman dead?

He looked at the fascinating flower on the other side, and the breath emanated from it seemed to be the mysterious woman itself.

“Eh?” Suddenly, Qin Tiange looked at the opposite side of the other plant in surprise, as if there was a similar flower blooming in the dimness.

The hazy mist formed a bizarre diaphragm, like a diaphragm between two worlds, separating the two sides.

“The universe on the other side?” Qin Tiange said to himself, looking at the other side of the flower in amazement, faintly seeing a similar flower.

Qin Tiange thought a lot and was surprised that the two flowers on the other side were similar but different.

“Here is the end of the universe? You can break away from the constraints of the universe by hitting it?” Qin Tiange looked at the other side of the flower, the hazy area, exuding an unprecedented breath, exactly like the universe diaphragm.

In other words, this is the place closest to the universe’s diaphragm, the end of the universe, and the deepest side of the other side.

Qin Tiange looked there, his face was unpredictable, and he was struggling and weighing. Should he call now?

The power of the fifty inner universes already has a super-horrorous foundation. Perhaps, it can really be successfully defeated with this power.

But almost instantaneously, Qin Tiange gave up the idea and cast off an unrealistic thought in his heart.

It doesn’t matter if you can kill it, it’s just that Chen Xi and others haven’t found it yet, the Terran hasn’t arranged it properly, and he’s not even ready to go out.

Hum!

At this moment, a strange buzz came, and Qin Tiange gathered a huge hole above his head, cracked and cracked, and suddenly found an illusive hand to suppress it severely.

Looking at the empty hand that was suppressed in an instant, Qin Tiange snorted, as if he had anticipated and prepared for it.

Before, I was hit hard by this sudden blow. I almost hung here. Fortunately, he was strong enough, otherwise he would really fall.

“broken!”

Qin Tiange drank, punched his arm with a punch, and there was a gray light on his fist, simple and mysterious, and a blow penetrated the nihilistic hand.

Listening only to the explosion of “Boom,” the Void Hand collapsed, and Qin Tiange exploded with a punch, turning into an illusion of energy that disappeared.

However, before this was over, I saw the emptiness around me, and suddenly there were terror waves, one invisible hand after another, crushing directly to Qin Tiange and erasing it.

The unknown obliteration from the big universe, the coming machine is fierce, as if Qin Tiange is facing the power of the whole universe at this moment.

How terrible is the full power of the big universe? Even Qin Tiange had to stand still and wait tightly. The universe within fifty babies broke out.

boom!

“Break me!”

Qin Tiange snarled, his fists kept waving, bombarding one invisible killing hand after another, blasting these invisible forces.

With the help of crisis induction, he blasted all these obliterating forces from the end of the universe, blocking the great universe of obliteration.

Buzz ...

At this point, a strange buzz came from the end of the deepest part of the universe, as if something was gradually waking up.

Feeling this breath, Qin Tiange’s face changed slightly, because he knew the true origin of this breath.

“Is it?” Qin Tiange stared angrily, staring at the deepest end of the universe, a horrible breath gradually woke up.

His arrival seemed to anger the sleeping unknown creature, and in the past, the man behind the hand where the book was crushed.

Quacks, his fists squealed, Qin Tiange’s face was cold, and he was thinking quickly what was going on?

“Retreat first!” Qin Tiange finally thought about it, and without stepping forward arbitrarily, it was tantamount to face the unknown black hand directly.

It’s not anxious yet. The cosmic fetal membranes in Qin Tiange’s body haven’t been conceived yet. Naturally, they have to go step by step, and everything will be easy when the strength is improved Bang!

Thinking of it, Qin Tiange turned and punched to break nothingness, grabbing the wandering inner universe directly here, no longer approaching the deepest end of the other side of the universe.

“Look, come out!”

Ten days later, there was an explosion inside the other shore, and someone was slammed out of it and came out alive.

That man was Qin Tiange, who was really alive and killed, causing the Xeon of all parties to startle his eyes.

Although he looked a little embarrassed and looked seriously injured, the record was enough to shock the world. He successfully broke into the depths of the other side twice and was able to kill him alive.

“Go back first.”

At this point, Qin Tiange stepped out of the other bank, and his eyes were quietly swept across the Quartet, and suddenly he decided to return to the Terrans once again.

When you think about it, Qin Tiange steps into the stone bridge, disappears in the blink of an eye, and disappears into the wasteland of the universe.

Chapter 998 - Create universe

The Milky Way and the Human Race Headquarters have been a little bit different since the return of their uncles. The first is technology, which seems to show explosive growth overnight.

Swallowing a think tank's self-consciousness is just like a terrible virus in the universe, which continues to spread and grow, becoming more scary.

The nine main brains of the intellectuals have been reinvented in the think tank, that is, all intelligent programs of the entire intellectual family have returned to the think tank and reorganized.

This allowed Yanji to achieve perfect control. The entire Zhizu was under the control of her rule, and the nine Zhizu masters were no exception.

At this moment, a figure of the Emperor's Palace quietly appeared, and it was Qin Tiange who came from the other side.

"Yanji, Li Luo, Qing Lian, come and see me!"

As soon as he returned, Qin Tiange sent a message to the three, and soon, the three of them, Li Ji, Li Luo, and Qing Lian arrived quickly.

Seeing Qin Tiange coming, the three people were shocked. It was obvious that Qin Tiange seemed to be different after returning after going out this time.

It always felt as if he did not exist in the universe, and seemed to be able to break away from the universe at any time.

"Master, you seem to have changed." Xi Ji said in doubt.

Qin Tiange looked at the three and laughed: "Sit, I'm here to come to you for something, and I will leave for a while."

"This is the Inner Universe I got from the depths of the other bank. You have two for each of you." Qin Tiange took out six hazy Inner Universes.

Seeing the mysterious light of these six regiments, whether it was Li Ji, Li Luo, or Qing Lian was shocked.

"Inner universe?" The three's expressions changed dramatically, and they suddenly realized something.

I saw Qin Tiange nodding his head slightly and explained: "In the big universe, the most top batch of creatures is to condense their inner universe and compete against the big universe."

"And on the edge of the desert, there are many Xeons on the other side. I killed a lot before. Now these are obtained from the other side."

To explain briefly, Qin Tiange divided the six non-inner universes, including Jiji, Liluo, and Qinglian each.

“You refine and absorb the origin of the universe, and strive to nurture your inner universe as soon as possible, so that you can be among the top powerful.” Qin Tiange explained.

Watching the three men understand, he stepped out of the palace of the Emperor directly, disappeared into the Milky Way, and blinked into the Huangquan Galaxy.

The corpses have not yet been completely unified, but because a brand-new corpse force is lifting up too fast, it has caused the whole corpse to show signs of one-sidedness.

In the Huangquan galaxy, in the imperial palace of Ziyi, a figure appeared quietly, without alarming anyone, came to the palace of Ziyi.

“Father?” In the sleeping palace, Ziyi, who was already asleep, suddenly woke up and was surprised when Qin Tiange arrived.

She rushed forward, and her father and daughter haven’t seen each other for a long time. Naturally, she had a lot of things to say to Qin Tiange, and she wanted to tell her experiences and experiences.

Qin Tiange listened quietly, and quickly understood the situation of the entire Huangquan galaxy. The original Huangquan corpse and the corpse emperor had declined.

The forces of several corpse kings were about to move, but unfortunately they were divided one by one by Ziyi, and then annexed and strengthened themselves, which became a two-point situation.

“Here is for you, get it as soon as possible, stop playing.” Qin Tiange warned softly, let Ziyi stop playing.

He took out two hazy cosmic origins, which he personally refined, because Ziyi could not be refined at present, Qinglian could do it.

“Well, I know my father.” Ziyi nodded slightly, a little embarrassed.

She originally wanted to play for a while, and then won the entire Corpse Royal Family in one fell swoop, unifying the Huangquan Corps.

But now her father says that time is running out, and that he knows some secrets that he didn’t know, he immediately wakes up, and he lacks strength.

“Well, Ziyi, you practice well, put aside the corpse as soon as possible, and raise your strength.” Qin Tiange stayed for a while, then got up and left.

Watching Qin Tiange leave, Ziyi’s eyes have a strong dissatisfaction, but this may be the only situation.

“Father rest assured, Ziyi will live up to your expectations.” Ziyi said to himself, and went back to practice with two cosmic origins.

After leaving the Huangquan galaxy, Qin Tiange broke through the galaxy and came to the fairy nebula next to the Milky Way.

Looking at the Fairy Nebula, which has changed a lot, Qin Tiange did not hesitate, and directly probed against the Fairy Galaxy.

With a bang, the entire Fairy Nebula trembled, and then slammed into the galaxy.

Feeling the variety of the fairy galaxy, especially the fairy emperor Shangguan Xianer, was shocked to see the entire fairy galaxy colliding towards the Milky Way.

“what happened?”

“what happened?”

“Why is the Fairy Nebula crashing into the nearby Milky Way?”

In the entire Fairy Nebula, the strong men are horrified, because they found that they could not move at all, and they could not escape the suppression of that hazy force. ,

In the Fairy Nebula, countless creatures are terrified. They are rushed into the galaxy by inexplicable power, and it is strange that they are not afraid.

boom!

With a violent roar, the two huge galaxy clusters collided directly with each other, as if from a distance it seemed to be directly destroyed.

But if you take a closer look, you will find that there is a mysterious power in the two galaxies, which perfectly and smoothly merges the two galaxies into one larger galaxy body.

“Oh my God, the Milky Way and the Fairy Nebula are fused with each other?”

“Quickly, start emergency defense.”

The fusion of the two major galaxies caused chaos in the races of the two galaxies. One after another, they were scared to death.

You know, the two galaxies suddenly merge, there is a danger of mutual annihilation, the probability is more than 80%.

But this time the galaxy merged, the Milky Way and the Fairy Nebula, the fusion of the two major galaxies was completed at once, there was not much feeling at all.

This is the fear. Who is leading all this behind, the strong men of all ethnic groups are disturbed, but they do not understand that the strong men in the world are even more afraid.

“Consecrate yourself, improve breakthroughs as soon as possible, and accelerate the growth of your own strength.”

Qin Tiange looked at the fused two galaxies and quietly transmitted it to his self, and turned around and directly tore apart the starry barriers and came to the other side of the starry sky.

Back in the desert, Qin Tiange did not continue to break into the other bank, but found a no-man's land to hide there.

What he is going to do is naturally to create his own cosmic treasure and complete the transformation of his weapon.

Groan!

When a sword yin came, Qin Tiange pulled the ancient sword out of nothingness, looked at the simple sword body, and saw through at a glance. The ancient sword was actually below the universe level and could not be broken.

An internal sword spirit is very old, but it has been sleeping for countless years, and its breath is very weak. It seems that if you want to wake up, you need to break through the level and achieve the cosmic treasure.

“Universe-grade treasure, I hope you don’t let me down ...” Qin Tiange said to himself, taking out a complete universe without a subject.

He lifted the ancient sword and inserted it directly into the universe. The strong swordman tears away the origin of the universe and tempers it to engulf himself.

Seeing this, Qin Tiange nodded with satisfaction. As long as the absorption of the origin of the universe is completed, he will be able to completely transform, break away from the current trance, and achieve a cosmic treasure.

Such a treasure has been able to cut off the shackles of the universe, with great power, and truly has terrible lethality.

“People’s Seal of the Emperor!” Qin Tiange frowned a little, and suddenly a hazy figure flew out, which was the instrument of the Emperor’s Seal.

Looking at the floating unmanned universe, Human Emperor Yin Qi Ling was pleasantly surprised: “Thank you master, I’m nearing the breakthrough. As long as I absorb this universe’s origin, I will be able to break away from you and become truly cosmic.”

“Very good, ten calamities, this is yours.” Qin Tiange nodded, took out an unowned universe and threw it to the ten calamities.

It was originally a human race bearing device, but suffered a series of changes, which led to the road today, and fortunately had the opportunity to come again.

“Thank you, Emperor!”

Shijie Beiling bowed his salute slightly, a touch of excitement appeared on his face, holding the share of the origin of the unowned universe with both hands, and returned to the chaotic birthplace.

The imperial seal of the emperor and the monument of ten calamities have completely broken away from the shackles and shackles of the past, and have achieved a higher and wider stage.

“The Book of Time and Space ... should be called the Book of the Universe.” Qin Tiange flipped through his palm and took out a book, mysterious.

This book is the book of time and space. No, maybe it will be called the book of the universe, because Qin Tiange intends to make it a cosmic treasure.

“Refining!” With a low voice, Qin Tiange directly melted the two broken inner universes and poured them into that book.

In the original book of time and space, the word space and time gradually disappeared, replaced by two quaint big characters, the universe.

This is the Book of the Universe. It began to breed and evolve a small universe. Once it is formed, it is a true book of the universe.

Buzz ...

Qin Tiange continued to smelt the origin of the universe into the book of the universe. The word "cosmos" on the cover became clearer, more mysterious and mysterious.

As if it represents a universe, which contains the power of one universe, it can suppress all directions and lock all living things.

"It's time to continue to practice Qin Tiange looked at the book of the universe that is gradually taking shape, and then took out one hazy light group.

It was one inner universe after another, brought out from the deepest side of the other side, and came out a little less the second time, only to obtain dozens of unowned inner universes.

Although at the deepest side of the other shore, there are many unowned universes floating at the end of the universe, Qin Tiange doesn't want to get involved there now.

"Looks, it's not enough." Looking at some of the origins of the universe, Qin Tiange frowned and began to think about the next plan.

While absorbing and refining the origin of the universe, thinking about what to do next, how to quickly shape all the cosmic membranes in your body.

He always felt that something big would happen in the universe, just like the breath that was about to wake up was felt deep in the other side.

"Speed up, not enough, just kill it!"

Qin Tiange's eyes flashed fiercely, closed his eyes, smelted dozens of clusters of the universe's origin, one by one to conserve the universe's membranes in his body.

Chapter 999 - Command universe

The melting and absorption of dozens of clusters of the universe's origin, Qin Tiange has created a whole new baby's inner universe, which was successfully bred.

Adding the previous fifty inner universes, there are now ninety-nine inner universes. If the original chaos is counted, that is exactly one hundred.

A hundred inner universes appeared, and Qin Tiange completed the moment when the universe was born and shaped, and the entire human body collapsed into pieces of flesh.

The annihilation for no reason, as if the body cannot withstand so many internal universe shocks, cannot lock these internal universes, and is about to collapse.

Seeing the impending collapse, Qin Tiange didn't panic at all, regardless of how his body's flesh fell off and changed.

Gradually, the flesh that had fallen off quickly flew back, rolled back, and turned into a brand new flesh and blood, which made the body more perfect.

A body that can carry a hundred inner universes is naturally overwhelming, and it is impossible to imagine its arrogance.

It can only be said that Qin Tiange's current body wants to be injured unless there are a hundred internal universe forces erupting at the same time.

“Finally, one hundred inner universe births have been completed, and the next step is to enter the epoch channel and bring Chen Xi back to them safely.”

Qin Tiange stood up and felt a strong excitement in his heart as he felt the inner universe of a hundred shaped babies in his body.

This is a huge transformation with great significance. The acquisition of a hundred baby inner universe is tantamount to having a powerful capital against the unknown big universe.

Then, Qin Tiange intends to go to the epoch passage, searching for the breath of Chen Xi and others, and wants to find his own woman back.

Chen Xi, not here, but in the ancient era, Qin Tiange has been aware and guessed.

Now that the strength has undergone a huge transformation, we must be familiar with it for a period of time before we can continue to make breakthroughs, or we will lose more.

For this reason, Qin Tiange decided to enter the ancient era and retrieve his own woman Chen Xi, and by the way find everyone else one by one.

“Huh?” Qin Tiange was about to leave, his eyes narrowed, and he suddenly stared at nothingness.

I saw a ray of light coming from inside the emptiness, extremely fast, and blinked in front of me, lasing.

This light steadily stopped three feet away in front of Qin Tiange, humming and shaking, emitting a hazy and powerful breath.

Qin Tiange looked at the thing floating in front of him and was surprised. It was a token, full of light, showing a strong and supreme breath.

“Law of life?” His eyes narrowed, and he looked at the token in amazement.

It was completely unexpected that the token that suddenly flew over turned out to be a decree of life, representing the highest body of the life court.

The Court of Life, the true hegemon of the two universes, controls the tens of thousands of living beings in the two universes, and has ruled each of the two universes for countless years.

Seeing the emergence of this decree of life, Qin Tiange looked serious and stared at the shining token.

Soon he discovered that there are many of the same tokens, which are blasting towards the edge of the universe, and even the corners of the two universes.

“Life Decree!”

“Is there another round of choice?”

All parties in the universe were alarmed, and some Xeons looked at the laws of life that penetrated the universe, conveying a sense of consciousness.

That is, under the law of life, all living beings and powerful people in the universe must abide by it. This is the terrible aspect of the life court.

Hum!

At this moment, the entire universe was boiling, and the law of life suddenly appeared, bursting the entire dark universe and falling into boiling.

Many hidden taboo creatures, some Xeons, have received their own life laws, a token.

Those who have obtained the token prove that they can participate in this high-end conference on the universe held by the court.

“The court of life, who controls the lives and deaths of the two universes, has to guard against it.”

Looking at the token in front of him, Qin Tiange took a look in his hands and felt a strong will hidden inside.

But unfortunately, this will was swallowed up by Qin Tiange in an instant, and nothing was left, so that the Soul Eater was eaten clean.

“The court of life I don’t know what ghosts to do.” Qin Tiange was very curious, this is ordering two universes.

For the court of life, Qin Tiange has always been unfavorable. Whether the other party is from the opposite universe, the main thing is that it controls the universe.

Whizzing!

In the nothingness, a series of strong horizontal figures appeared quietly, one after another, taking the lead, waking up from their deep sleep, and coming out of the autism.

They all have the characteristic that no matter what they are doing, they must let go of their own affairs, appear with the law of life, and follow the route provided on the law to their destination.

“Quick, the decree is born, the opportunity is here.”

“The time has come, who can finally break the end of this universe?”

Some Xeon creatures stepped out, one after the other, and caused rapid turbulence within the universe.

The strong men of all races were surprised, and looking at the strong men of their races, they felt a sense of pride and worship.

With the emergence of powerful men from all sides, hiding the cosmic vacuum, and those hiding in the edge of the cosmos are no exception, and they have become the object of this life law.

But Qin Tiange obtained this for the first time. Looking at the shining decree, he had a weird speculation in his heart.

“The court of life, want to manipulate the two universes and races, and even tear the barriers of the universe with the force of the two universes’ collision and killing?” Qin Tiange blinked his eyes and thought quickly.

He had already vaguely understood that this decree was a road guide, as long as he followed the road guide to reach the designated position.

“A big change is coming, and darkness is coming!”

Qin Tiange stood up, looked at the vast universe, and said to himself, he didn’t know what he was thinking.

He seemed to have a sense of darkness covering the entire universe, and a hopeless darkness would devour all light.

Uh ...

The universe was empty, and suddenly it struck through an astonishing light. A closer look revealed that it was the strongest party hidden in the universe.

Some forbidden creatures, some Xeons, and two of the world’s top batches of creatures have all been born, one after another appearing.

With the emergence of a life decree, which caused the entire universe to boil and no longer be able to calm down, all the nations have a sense of tension and crisis.

“Go and see.” Qin Tiange looked at the life decree in his hand, crushed it gently, and turned away into a ray of light.

With a smile, he followed this path step by step to guide the light, passed through the vast void of the universe, straddled the obscured region, and reached the junction of the two universes.

“Haha, it’s a new round of options.”

“Before the Great Purge, if we can complete the integration of the two cosmic forces, bring together the forces of the two cosmic beings to kill, and tear the cosmic barriers, we can successfully get rid of the constraints.”

“Yes, several epochs have been prepared and accumulated. This time should be successful?”

Just passing through a hazy diaphragm, I heard such exhilarating voices coming from groups of forbidden creatures.

When Qin Tiange came here, he was surprised to find that all the creatures who came here were the weakest creatures, which had condensed the cosmic membrane.

And the top batch is the cosmic class. The creatures that have bred and transformed the inner universe are the top creatures of the universe.

“the host!”

“My lord!”

At this time, more than a dozen familiar figures flashed quickly and stood in front of Qin Tiange with a look of amazement.

The comer was his self-confidence, and with nine masters of the wisdom family, came to him in a respectful salute, which immediately attracted the attention of the powerful parties around him.

“Well, what happened to the Zhi people?”

“The brains of the Nine Majors, it looks like they are in awe of that woman, isn’t it ...”

The strong players from all sides speculated that the performance of the nine main brains of the Zhi people was a bit astounded, and it was even unknown.

Instead, Li Luo brought Qing Lian, the hollow old man arrived, and a purple figure came to the front, hugging and smiling with Qing Lian.

“Dad, father!”

Qinglian and Ziyi came, and the breath in the body was emitted, and the innate universe was formed. I have to say that I have no talent.

With the origin of the universe, it is not a big deal at all, and Qin Tiange is finally satisfied and not disappointed.

“Father, what’s going on, why did the Court of Life suddenly summon so many cosmic strong men to come?” Qing Lian was puzzled.

Others are just as confused and unclear. Unless it is a taboo creature who has come before, it is impossible to know the secret.

But there are few people who have been here before and can survive to this day. Only a few of the ancient and tyrannical creatures survive.

Qin Tiange found many ancient species here, some of them are very fierce and even extremely mysterious and weird.

“Watch the changes first, and see what the life court is doing.” Qin Tiange said softly, looking up at the center of the area.

There was a vapor covering it, as if it was covering something. Unfortunately, Qin Tiange’s eyes could not be blocked.

In the fog, there is a majestic temple hidden in the sun, with a brilliant light, the supreme breath, and a sacred breath over all beings.

The temple does not know how many miles it is, and how many kilometers it is wide. In short, it can’t see the edge, and the main entrance above is carved with some mysterious ancient characters.

“Temple of life?”

Qin Tiange said to himself, and read the meaning of the above typeface, which is the highest temple of life court, the temple of life.

Inside this shrine, there are several areas, including the Judgment Hall, the Judgment Hall, and other areas, exuding the highest and mysterious atmosphere.

boom!

At this moment, there was a roar in the fog The powerful breath was revealed, the light was bright and the world was shining.

The Temple of Life slowly appeared in front of everyone, with a mighty might, endless divine power, with a terrible breath that surpassed all beings.

“You guys, please enter the temple!”

A faint voice came through, revealing a sacred will that ignored all beings and overthousands of people, making people uncomfortable.

“Command the universe to prevail over all beings!”

Qin Tiange said to himself, stepped into the temple of life, followed by Luoluo, Jiji and others, one by one with a serious expression and extremely vigilant.

The forbidden creatures from all sides arrived, and quickly entered the majestic temple of life.

This is the highest temple of the life court, which represents the highest authority of the entire life court, the center of all rights.

Life court, what do they want to do? Qin Tiange stepped into the gate of the temple, and while he was vigilant in his heart, he secretly wondered what secrets the court of life was planning for?

Chapter 1000 - Chief justice

In the temple, there is a strong power permeating, as if facing the supreme heaven, overriding all races and judging all beings.

This is the life court!

It surpassed the two universes, ruled the universes, judged everything, and truly achieved supremacy.

This alone is enough to alert Qin Tiange. Regardless of the appearance of the court of life, there must be a huge hidden inside.

But now Qin Tiange has enough confidence, no matter how strong the life court, as long as he does not surpass the universe, there will be no problems.

As long as it can't exceed the limits of the universe, don't worry, it's nothing more than a powerful universe-level creature.

At the cosmic level, everyone is almost the same. They are practicing in order to continuously expand the inner universe. Only when the inner universe is constantly stronger can we surpass all beings.

As soon as they came in, Qin Tiange and others saw that in the vast hall, rows of huge seats floated in various areas of the Quartet.

“Entrants, seats are arranged according to strength.”

Suddenly, a bland voice came, shocking all Xeon who entered here, and came to realize it.

This is to gain status by strength. In the entire temple, there are countless seats densely packed, some of which are close to the top of the temple and high above.

Those seats exude an air of supremacy, attracting the eyes of countless strong people, all of them heartbeat.

“That’s my seat!”

There was a Xeon Shengling violently drinking, rushed quickly, and sat directly on a bright seat.

Seeing this, all the Xeon who couldn’t help couldn’t help but burst out of speed and strength, and began to compete for the place here.

Especially the highest area in the hall, where the seats are the most attractive, one by one, the huge thrones, exuding soaring heavenly light.

“Interesting!” Qin Tiange sneered, his eyes staring at the top of the hall, the highest position above all the positions present.

It depends on the situation, that is to surpass the living beings of all ethnic groups, and to command all parties to be strong, it goes without saying.

Humph!

“To surpass all beings, the strongest in the court may not have the ability.”

Some of the Xeon were dissatisfied, and they could not get used to the life court. Now when they look at the good guys, they are simply telling them that this is ruling them.

As long as you acknowledge these actions, you are accepting the rule of the life court and must be managed.

In this way, for the strong, how can they not be angry, as the most powerful, have their own pride and temper.

“I’ll take that position!”

Some Xeon couldn’t help but stepped out and came to the highest throne in an instant, and sat down.

However, at this moment, a powerful force erupted from the throne, and a thump hit his body, and the whole boom flew out.

“Emperor, grab?” Li Luo asked dignifiedly as he watched the powerful creatures on the scene chasing away the parties.

Qin Tiange dismissed: “The court of life is the most powerful person who wants to subdue the two universes and wants to truly order all beings.”

“It’s just a seat. What can it represent? You can deceive yourself. If you want to order all living beings, you can just use force to subdue it.”

Qin Tiange’s words stopped many powerful creatures nearby and stopped fighting for seats.

Originally, I still had thoughts. Now when I heard Qin Tiange's statement, I soon realized that the court of life is the most powerful man who wants to rule the two universes.

"It turned out that life court meant it."

"Clan orders?"

"Dominate all beings?"

One by one, the Xeons stopped, their faces changed, and suddenly they were a little uncomfortable, feeling uneasy in their hearts.

The strong have dignity, especially the most top creatures in the universe, all of them are very arrogant, and now it suddenly feels like someone wants to rule them, which is a little uncomfortable.

Cosmic level is currently the strongest group of creatures in the two universes. Whoever has the same identity and strength, but the inner universe has strength and weakness.

But wanting to truly rule these cosmic creatures is simply delusion. What is the purpose of the life court?

"You, ten minutes, please sit down."

Suddenly, a bland word came from the hall, just the mysterious voice just before entering.

Hearing this, Qin Tiange's eyes flickered, and suddenly he looked up to look the highest throne, where a hint of strong breath was revealed.

"Hide your head out, get out."

Qin Tiange was extremely upset, and he said nothing. He directly raised his arm and punched violently without any regard.

He gathered his strength and turned into a horrific punch, and the entire temple shook fiercely, and the space buzzed.

boom!

A strong punch came too suddenly, resulting in no one and no strength to stop the punch in the past.

Everyone could only watch Qin Tiange punch with a punch on the throne, a loud bang, bright light, and endless brilliance.

"presumptuous!"

A furious yell came, and a hazy figure appeared in the endless light, his hands were intertwined, and a beam of light blocked the punch.

Unfortunately, Qin Tiange's punch was too horrible, and the strength of one hundred inner universes broke out, which is not what this figure can stop.

I only heard a bang, the light shattered, and the endless radiance dispersed, revealing the scene there. The original throne was torn apart and dissipated into powder.

“You ...” At the throne position, a tyrannical figure with a stubborn look on the face of Tieqing, stared at Qin Tiange with an endless murderous intention.

This is an old man with dim eyes and a terror of oppression, as mysterious as the old man who stood before the other side.

When he saw the old man, Qin Tiange’s pupils shrank slightly, and he was surprised: “What does the old man guarding in front of the other bank have to do with you, why do I feel that your two systems are similar?”

“That’s my brother!” The old man blinked his eyes and said the sentence.

Immediately after the words fell, we saw waves rippled, one after another looming figures appeared behind the old man.

This old man has a strong breath, and there is a chaotic gas in his body, exuding a terrifying breath.

“The breath of the primitive chaotic universe ...” Qin Tiange’s pupil blinked, looking at the old man in front of him.

There is even a primitive chaotic universe in his body, which has to be said to be truly shocking and unbelievable.

Huh!

At this time, a number of Xeon figures appeared, Qi brushed up behind the old man, each with a cold and serious face, his eyes full of killing.

“See Chief Justice!”

A group of Xeon Qiqi paid their respects, and with respectful eyes, Qin Tiange was shocked, looked at the old man, and finally understood the identity of the other party.

It turned out that this old man was one of the founders of the life court, the chief judge.

“It turns out that you are one of the founders of the life court, the chief judge!” Qin Tiange said lightly, sweeping the crowd of arrogant figures.

These people are all cosmic powerhouses, hidden judges in this temple, one by one.

Sure enough, it is indeed the court of life. The immense heritage contained in it is not comparable to one or two races.

There are several founders of the life court, and the old man in front of them is one of them, the chief judge.

Qin Tiange thought, and asked, “What does the old man standing in front of the other bank have to do with you?”

“He?” The Chief Attorney glanced at Qin Tiange lightly and said quietly: “That’s the chief judge of the court!”

“That’s it!” Qin Tiange understood, looking at all the taboo creatures stopped around, as well as the Xeon of all parties, looking at this side.

They were horrified, and they felt horrified and surprised at the confrontation between Qin Tiange and the chief judge.

“Chief Attorney, take this unpunished tribe directly and plead guilty.”

Suddenly, an unexpected voice came and caught everyone’s attention.

I saw a cosmic creature with an overbearing breath, and even asked the court of life to take down Qin Tiange and plead guilty.

“Look for death!” Qin Tiange’s eyes flashed coldly, and before he even started, he saw a human figure passing by.

That was the number one. The mysterious number one master directly pinched the creature that just jumped out.

“Dead!” No. 1’s cold sentence, seeing the five fingers pressed hard, and the rattling sound, the creature was dissolved into a stream of data and swallowed up before it could scream.

A cosmic creature, just under the eyes of countless strong men of the same level, was pinched to death by the brain of a No. 1 master, as if pinching a ant.

Not to mention that outsiders were shocked, even Qin Tiange was surprised. Looking at the number one, he really paid attention to the other side.

“Yanji, this number one is not easy.” Qin Tiange wore a sentence to Xunji, who knew she laughed.

I only listened to my own smile: “Master, No. 1, but was involved in the construction of the life court and was one of the founders.”

“Oh?” Qin Tiange was surprised, quite surprised, and then nodded suddenly, perhaps this was the most normal.

“One, don’t you have to do this, right?” The chief judge frowned, somewhat unhappy.

How do you know that No. 1 glanced at him lightly, but didn’t say a word, and went directly behind his self, standing quietly, like a statue.

“You ...” The Chief Justice was furious. Everyone was the founder, but the Chief Justice was the supreme law enforcement officer of the entire life court.

He glanced deeply at No.1, quickly retracted his gaze, then looked in a certain direction, and saw the ripples there, and came out of a shadow of the old man.

The old man who guarded the other side came and went directly to the Temple of Life and stood beside the chief judge.

The two old men and the two founders have successfully bred the primitive chaotic universe, which is extremely mysterious and powerful. This is one of the reasons that they can really order the life court.

“You guys This time we are convening everyone, presumably you have guessed.”

Seeing that the people were almost there, and didn't care about the seat or something, the Chief Justice directly opened the door and said the reason for convening the two universes.

Inside the hall, the strong are divided into two camps, in stark contrast, one is the big universe where Qin Tiange is located, and the other is the Xeon creature of the opposite universe, which divides the poles.

“Is it a matter of choosing the main force?”

The old man nodded after hearing it, saying one word at a time: “Yes, it is precisely to choose the main race of the two universes this time, and to be the main force of the killing of the two universes this time.”

“This time, I am waiting for the last chance. Before the big cleansing comes, we will bring together the forces of killing and robbing the two universes, and tear the constraints of the cosmic barriers and kill them.”

“If you miss it, you won't have it again!”

Words and sentences were amazing, so that all the Xeons present were slightly changed. Qin Tiange even blinked his eyes, thinking quickly about the plans of these Xeons.
