Chapter 106

Reins

Needless to say, I was lost for words. When Gem spoke of why I was her mate, I don't know how to describe the feeling that washed over me, but then when she said I was king, it was a bucket of cold water dropped on me,

"I'm sorry did you say I was king?" I asked her. I saw a smile break out across her face, her eyes were crystal clear. Her hair had some silver in it. We all know that she looks like that when Gem is present.

"Yes, I did. What do you think happens when one mates a royal?"

I opened my mouth to say something. Anything but nothing came out.

"Is there like a ceremony that has to be held?" Oscar asked.

"No, we don't want it to draw attention to us, but it's just natural for him to become. Once we mate, there will be some differences and changes that will happen. With the next full moon,"

looking for safety."

"Differences?" I asked her.

"Your wolf will be larger and stronger," Ryker said. "Also, you will be faster and we can link further apart than normal linking,"

"Bigger. His wolf is already large due to him being Alpha," Nicked chimed in,

"That doesn't sound too bad. But what about the others you spoke about? What happens when they come looking?"

"Pretty much all you can do now will be doubled and be stronger than before," Ryker said as he looked at me,

"They are our people, they will want to be near their leaders. Not to fight, there aren't many. As I said, there are some they will be

"But how will they know? It is not like we can send a message or post something," Nick again chimed in, earning him a slap on the head. "Dude!" He looked at Oscar while rubbing his head. Oscar just rolled his eyes.

at her full powers."

"No, you don't have to do anything. Once the next full moon comes, we will all feel the shift of power because then Gem will be

I looked at Autumn, who seemed to be having a private talk with Gem.

"No, but you will need to be away from people when the moon is at its highest. You will both shift and there are some other things

"Is there something we need to prepare for?"

that I'm sure Gem is telling your mate now, but the look on her face."

Looking at Autumn, he was right. Her cheeks were beet red,

"Hey you alright," I asked as I grabbed her hand, snapping her out of her little talk,

was a s****1 thing and she didn't want to say it out loud,

She looks at me. " Did she tell you ?" "Who and tell me what?" "Gem! She said," We have to, um"

She stopped looking around at everyone who had their eyes on her waiting for her to finish.

"We have to mate in wolf form and she all bugged out about it, Gem's voice popped into my head.

I laughed out loud. I couldn't hold it in. I felt her slap my arm. Leaning over closer to her, she tried to hold that" I'm mad at your stare, but I grabbed her chin with my thumb and finger, tipping her head towards",

"We have to what?" I kind of had a feeling I knew but just how she was scampering and she was embarrassed. Which meant it

She punched my chest, causing another laugh to leave me,

"That sounds like a fun night." I pecked her lips, "Oh my god Reins!"

"I don't know what you are all talking about but I heard that!" Kelly covered her ears.

"Neither do I! She is my sister," Zach says as he covers his ears too.

She pushed against my chest laughing. I just fell back against the cushion,

council members to deal with, plus we haven't even told our parents yet what we have just had dropped on us. This changes a lot," Zach points out,

"Well you leave the two idiots that are part of my council to me, they will pay for their crimes here, both of them."

"Alright, so we now know Autumn and Gem is the reborn Queen, and Reins is the king, but now what? I mean we still have the

"Okay, that takes one problem out of the way, but with her being Queen, this changes everything for her. " Zach seemed worried.

"When is the full moon?" Autumn asked,

"Great! No worries here." Autumn slapped her hands on her knees,

cause you two to be possessive over each other."

"What exactly happens during the full moon?" I figured I'd ask just to know what would be happening/

"Um, I think in two days? Hang on ill look," Kelly pulls out her phone and starts clicking on the screen, "Yep two days."

you know how fast rumors spread."

"Anything else?"

"Yeah. For the first few days, you may want to stay inside, away from people, just because you two will be fully bonded, it will

"It's a lot like any full moon really. You will shift, Then go for a run. But you two will get a strong surge of energy that will rip

through you. It will cause a lust-filled drive to find each other and, well, you can figure the rest out, but like said earlier, you may

want to be alone so people don't see your wolf. It is a dead giveaway for them to know what you are, and people like to talk and

"But aren't we already bonded? We mated and marked each other," Autumn asked, looking a little confused.

and let him know,"

"Yes, but this is on the full moon. This is when your wolf will become mature and all her power comes forward. That's also when your mate will begin his transformation as well."

Autumn let out a sigh. I could tell she was starting to get over whelmed but I really needed to know what would take place, so I

"Look, this is a lot at once. Why don't we call it a night and tomorrow we can pick back up, Ryker, would you like to stay till after the full moon just so we have someone with the knowledge to help if need be?"

"Sure. I mean my mate is staying with her parents for a while, so I don't need to be back. Just let me call my second in command

"Good, I'll have Aunt Anna and have her show you to a room."

"Zach, why don't you and Oscar head out? I'm sure Ariel and Gracie are worried," Autumn says as she turns to look at her brother.

"Don't you dare tell me you are gonna text her when you can link her! And no, you are not going to be staying, you are going home to your mate Zach,"

knew how to help and protect her from anything or any surprises,

He gave her that I'm older than you look but she raised her eyebrows at him, daring him to say something,

He stood then kissed the top of Autumn's head, giving me a bow, then walking to Ryker, he shook his hand, then headed for the door,

"Fine, I'll go, but not because you told me, too, but because I'm afraid she will turn me into a frog."

"It's fine, I'll stay for a little longer, he says to her while he reaches in his pocket for his phone,

"Alpha," he said as he bowed to me as he walked by,
"So whipped!" Nick chuckled, "Nick!" Autumn yelled at him, "What its not a bad thing, but I would love to see Zach as a frog."

Oscar touched Autumn's shoulder and she gave him a glance over her shoulder. With a little nod, he walked away,

"You guys go as well. It's getting late. We will meet up tomorrow." I looked over my shoulder at the three still standing there,

Turning on their heels, they all walked out. Just then Aunt Anna came in.

"I sure can, Alpha," She looks at Ryker, " And you had better have better manners this time around,"

"Yes Alpha," they say, but then look to Autumn.

"Go ahead guys, I'll see ya tomorrow,"

"You wished to see me, Alpha?"

Ryker stood up, offering her his hand, "I do apologize for my behavior earlier today. It wasn't nice or proper of myself to act like that."

"Yes, would you please show Ryker to a guest room? He will be staying with us for a few days."

With that, he turned, following Anut Anna out of the office. Finally, it was just me and her.

"Reins someone could walk in there's no door!"

"I know, isn't it exciting?"

I grabbed her, pulling her into my lap, making her straddle my waist,

Smiling, she shook his hand, "Alright young man, this way please."

Leaning up, I started to place kisses along her jaw. Moving to her neck, I nipped her mark. She tilts her head back, leaving a soft moan out. She grinds her hips against me,

He turned to look at us, "Alpha Luna, Good night,"

She gets close to my ear, rubbing her lips on the top as she slides down, right next to it, '

"Maybe I like it more when you make me scream. Mr Alpha,"

"Mmm, I like hearing your moans, little mate,"
