

Alphas Deaf Mate Chapter 75

Reins

The power rolling off her even made me want to submit to her. Instead in front of her cupping her face trying to calm her as her eyes pressed shut as she was breathing heavy her hair turning silver I knew her eyes would be those crystal clear of Gems.

“Love you need to calm down, ”

“How, ” She breathed out, “How I saw him kill her,”

Her breathing was becoming faster and sharper she was starting to go into a panic so I tried talking to Gem.

Pressing my forehead to hers I opened my link to Gem as soon as I did I felt all the anger flood into me.

“Gem I need your help, you need to calm down,”

“She tried to hurt us, She hurt my human she wanted to separate us from our mate,”

“I know and we will find her I promise please your hurting her family your family,”

At my words I felt her anger slowly slip back as Autumn's breathing began to even out as her hair changed back to normal I heard them all stand behind us so her aura was lighting up releasing them from submitting.

Autumn's eyes flew open as she started at me wide eye when she realised what just happen.

“I'm so sorry!” She cracked out trying to hold it in.

Placing my hand on her cheek rubbing my thumb over her lip.

“It's okay love it was a shock to hear I don't blame you,”

She grabbed me wrapping her arms around my neck pulling me into a hug I felt her body quiver against me.

“Shhh, don’t cry love we will figure it out,”

Pulling back she peeked around me looking to her family.

“Can we take my dad out of her and back to the pack house with us were it safer,”

“Yes we can Doctor already said he can leave today I swear no one will hurt any of your family again I will not make that mistake again,”

“I know I believe that and it wasn’t your fault, I know you will keep us safe,”

The pride I felt at her words I leaned forward placing a soft kiss on her lips.

“Let me go get the paper work done you at a here and wait for me,”

She nods her head as I let go of her walking out the room.

Rachel

“I need him to follow my orders! Make the spell last longer this time!”

“I’m trying I told you once I’m don’t know enough!”

“Let me put it this way, Of you can’t figure it out there’s no point in me keeping you alive now is there,”

“You promised! I did what you want you said I’d go back to my sister!”

“Well things change your sister broke our deal so what is making me keep mine with you?”

“Please,” She sobbed out, “I’m trying but I don’t know how to make it a longer spell I haven’t practiced this spell before, my sister is better at these spells,”

“You have one day to figure it out,”

She wiped her tears walking to the little work area beginning to go through the things she had laying there.

Turning I walked out the room heading out the little cabin I needed air she was making me so mad I wanted to rip her apart,

She was messing with my plan I was running out of time. I knew that i***t Roberts would double cross me I could tell he was smitten by her looks just from how he looked a her pictures I knew he would try and keep her.

Now that stupid Alpha got what he deserved he was simple crazy.

I know I won't get Reins now but if I can't have him neither will she I wanted to be his mate be the Luna but instead that broken little girl got him how could the moon goddess do that to me I prayer to her everyday to make him my mate,

"Here, "

Spinning around I see her standing there she hold her hand out holding a vial.

"Give him this it will by some time till I can figure out how to make it last longer,"

Taking it from her I slip it in my jacket pocket.

"You better I need him to make sure this plan works, If you succeed this time I will let you go,"

She hung her head,

"I'll try my best I may need different herbs and things to make it stronger I think that's how I can make it last longer im not sure but I will try everything,"

Walking closer to her.

"You better," I growled at her,

She shook at my words I needed to keep fear in her if she learnt her full potential she could wipe me out with a snap of her fingers. I know she a hybrid she hasn't gotten her full power but her spells sometimes are stronger she hasn't learned to control it completely.

"I promise I will, "

She spun walking back in shutting the door I walked over placing the lock on the door.

Walking to the car I needed to get this into him before the other wears off and he's not under my control anymore.

Getting in I started it pulling out I grab my phone dialing his number.

"So soon?" His voice comes through the speaker.

"Yes what can I say I can't get enough of you," I put on my most flirty voice which wasn't hard he was good looking and great in bed, but he wasn't who I truly wanted but I needed him for information and plus I need a fall back person.

"So you gonna keep me waiting," I chime at him.

"Do I ever?" I could hear the lust in his voice and I grinned it hadn't wore off completely yet.

"No, but im feeling a little inpatient right now,"

"Oh don't you worry I'll have just the thing you need to satisfy your needs,"

"Hmmm, sound so good, I'll have the drinks waiting,"

"Nick lets go!" I heard someone yell,

"Coming,"

He must have covered the phone with his hand.

"I'll meet you in two hours," Then the line went dead.
