

## Dear Chief 100

Chapter 100: Astonishing! The Results of the College Entrance Examination!

There was no need to.

Not interested.

Gu Qiqi didn't treat these classmates who had suddenly come to curry favor with her well.

She wasn't Gu Xuexue. She wasn't someone who was passionate about letting people praise her.

Seeing that she was doing well, these dogs from the different factions came over to her. Had they forgotten those malicious words, ridicule and humiliation from just now?

This type of fence-sitter—once she realized that there was no benefit to be had—would become a poisonous weed that would bite back at her anytime!

Gu Qiqi looked over coldly but was unmoved.

Those students who were trying to curry favor with her could only withdraw their proposal of getting close to her and treating her to a drink in embarrassment.

Soon.

Someone had refreshed the official website of the college entrance examination results.

"The admission list for the Empire Medical University is out!"

"Who is it?"

"Is she our top student, Qiqi?"

"Eh..."

Everyone leaned over to have a look. Suddenly, they kept quiet.

The atmosphere immediately became very strange.

Since she had nothing to do and she had to wait for Xiao Ning to return anyway, Gu Qiqi turned on her phone and refreshed it.

Her college entrance exam results totaled 728 points. She wasn't only first in Qing Cheng, but also in the entire province.

The national rankings were not out yet, but they were probably at the forefront.

She was a straight A student.

This result was more than enough for her to attend Imperial Medical University.

What she had been most worried about wasn't her grades at all, but the fact that Gu Meifeng had changed her application form.

But now, that beautiful man had helped her hand in her application form and even received formal replies to confirm it.

She had nothing to worry about anymore.

But...

Gu Qiqi's delicate brows gradually knitted.

She didn't find the admission notice in the admission system!

She quickly opened the Imperial Medical University's website.

She checked them one by one from the list of hundreds of freshmen admitted!

She saw Xiao Ning's name—she was in the veterinary profession.

She even saw Gu Xuexue's name—she was in the forensic profession.

But from the start till the end, she didn't even see her own name!

Only 50 people had been admitted to clinical medicine—she wasn't included!

Pharmaceutical science, veterinary medicine, forensic science, imaging, anesthesia, oral cavity, ophthalmology... They even specialized in the nursing profession of nurses...

Her name wasn't in any of the professions.

She was actually not accepted into Imperial Medical University.

Everyone's grades were gradually revealed. Even the student with the worst scores had his wish fulfilled—he was accepted into an inconspicuous university.

Only Gu Qiqi didn't appear on the admission list of any university.

If she hadn't been on the first list of universities that was announced tonight...

Then, there was only the specialized school left.

For example, she managed to be fooled by Gu Meifeng into changing her application form in her previous life—that worst nursing school.

After so many twists and turns, was she going to repeat her mistakes?

She was still unable to become a doctor in this lifetime and could only become a nurse?

This wasn't normal.

What happened?

Gu Qiqi frowned and thought about it.

“Look! Gu Qiqi's results!”

Suddenly, a classmate screamed.

On the official website of Qing Cheng High School, a new notification was written in red.

The plagiarized name list for cheating in the college entrance examinations!

There was a list of nerdy students.

The most eye-catching words in the middle were undoubtedly “Gu Qiqi”!

“Gosh, Gu Qiqi cheated to get her results!”

“Her title as the top scholar was fake. Did I see wrongly?”

“Of course you didn’t see it wrongly. Her English score was 1.”

“A score of 1 means that the entire paper was plagiarized! All the subjects were counted as plagiarized according to cheating at the same time. The results are invalid!”

“So... what’s her total score?”

“There are a total of four subjects for Mathematics, Chinese, and English Science. That’s four marks!

Hahaha! What top student? What a bullsh\*t top student! What a top student with four marks!”

“You still had the cheek to act cool with us just now?”

“Plagiarized goods!”

“Shameless!”
