

Dear Chief 661

Chapter 661: Bai Mori's Bloody Mouth

Gu Qiqi watched coldly as the interrogator knelt down in a sorry state in front of her.

She curved her lips lightly. "Don't give me such a big bow! There's no need to kneel, kowtow, and apologize. Since you've decided to let me go, I'll be more tolerant. I won't bicker with you."

The jailer held his stomach and moaned in pain. "You... Who said that I was going to let you go..."

Gu Qiqi was surprised. "Aren't you in a hurry to unlock my shackles and hand me the keys?"

Her fair fingers shook. Indeed, there was a key in her fingers.

The prison guard was scared out of his wits!

The shackled keys had always been in his pocket. When did he pass them to Gu Qiqi?

Even a Godly Thief would not be so capable as to touch his pocket with shackles without being discovered, right?

At this moment, even he was a little stunned. Did he involuntarily hand over the key when he slipped just now?

Crack!

In a flash, Gu Qiqi moved her wrist and the shackles fell!

She walked out of the door smoothly.

Bai Moli panicked. "We can't leave. Stop her!"

The remaining two prison guards ran over and tried to stop her, but they fell to the ground before they could take a step.

The two of them felt that their feet were wrapped in vines, but when they looked down, there was nothing. It was very strange.

Besides, this was a prison. Where did the plant vines come from?

Unless... he had seen a ghost!

Instantly, the two men were so frightened that they hugged their heads and trembled!

Seeing that the men in the room were useless, Bai Mori gritted her teeth and went forward personally. She held a scalpel in her hand and chased after Gu Qiqi. "Gu Qiqi, you're a fugitive if you walk out of this door! Everyone can kill a fugitive!"

With that, his eyes revealed a fierce glint. There was no elegance, gentleness, or knowledge!

Gu Qiqi faced her coldly. Her tone was calm but filled with strength. "Who said that? My blood proved that there was no poison on the spot. My shackles were opened by the prison guards personally. Even when I wanted to go out, the prison guards knelt down and opened the door for me, begging me to go

out. When did I run away? Even if you're blind, this surveillance camera is not blind. So don't lie with your eyes open..."

Gu Qiqi pointed at the camera.

There was a record of everything that had happened. It recorded how these people had fallen or slipped their own. However, what was not recorded was how she had let the seed grow into vine moss in a second and disappear again.

The surveillance cameras could not record such a short moment!

Bai Moli choked.

Gu Qiqi seemed to be right!

She instinctively felt that something was wrong, but she could not retort at all.

But how could she be willing to let Gu Qiqi leave like this?

She made up her mind. She would stab Gu Qiqi first before thinking of ways to destroy the surveillance cameras.

Malice surged from her heart. Bai Mori didn't stop in her tracks and rushed straight at Gu Qiqi.

Gu Qiqi didn't move and raised her eyebrows lightly.

In the blink of an eye, Bai Mori landed heavily on the ground!

What was worse than everyone was that the scalpel in Bai Mori's hand stabbed her own mouth!

"Ah!"

With a scream, Bai Mori's tongue was cut by herself!

His mouth was filled with blood.

Gu Qiqi frowned and shook her head. "I really don't like people who are too ugly... It affects my mood."

With that, she stepped out of the door!

Bai Moli knelt on the ground and opened her bloody mouth. It hurt immensely. She mumbled and could not say anything properly. She was so angry that she almost fainted.

Chapter 662: Choosing A Woman or The World?

In the presidential conference room.

Gong Jue set up an array formation on the sand table. The Empire was golden, while S Nation and X Nation were black.

The golden robot model was like a dazzling ray of sunlight that surrounded the black enemy firmly north of the northern mountain range. It protected the safety of the Empire and prevented the enemy from stepping into the country.

He placed the last chess piece down and said with a strong aura, "Just follow my strategy and use my intelligent robot. Those bastards won't be able to do anything! I don't have time to talk to you. Hurry up and bring my woman over. What kind of tortoise efficiency does your presidential palace have? Why did it take so long to bring someone over?!"

Gong Sheng was silent.

Gong Jue looked up and met his complicated gaze.

Gong Jue gradually became vigilant. A bad thought rose in his heart. "D*mn it, Gong Sheng, you b*stard. Are you hiding from me and trying to cheat me? I'll guard the country for you while you cut off my escape route?"

Gong Sheng pinched his glabella.

In the entire world, only his unscrupulous brother would dare to shout at him and say that he was a "b*stard".

However, he had used some tricks to delay Gong Jue and ordered his subordinates to interrogate Gu Qiqi.

He had nothing to argue with.

Gong Jue was right.

He charged ahead while he cruelly cut off his retreat route and ordered people to deal with his woman.

But... he had to deal with that woman!

Gong Sheng's eyes darkened. He suppressed his tone and placed the blood test report in front of Gong Jue.

"Look for yourself. It's not that I'm not letting her go, but the evidence is right here. She's indeed a vicious person. Think about it from another perspective. If you sit in my position and you are the president, can you ignore your conscience and only consider your own family? Can you disregard the safety of the citizens and casually let a vicious person out?"

Gong Jue glanced at it in annoyance and immediately exploded.

He slammed the table.

The table that had been cracked by him previously was completely broken now!

The teacups, microphones, documents on the table... They shattered and rolled on the ground.

Gong Jue kicked away the chair and stood up. His angry face carried a cold aura. "Gong Sheng, have you gone to my head with your scheming? What is this nonsense about changing positions and me being the present president? I respect you and call you Brother. If I don't care about you, you're nothing! Let me tell you, no matter how big the world is, it's not as important as her. If a man can't protect his woman, how can he protect the world?! I, Gong Jue, risked my life to protect the Empire because I don't want to throw my woman into the tiger's den!"

There was a crack in Gong Sheng's expression.

Gong Jue's words were rough, but his emotions were intense and sincere, causing people to be moved.

Even someone as calm as him could not help but be moved.

However, he still said coldly in the end, "But she's poisonous."

No matter what, she was ultimately toxic. She was unfavorable to her country and the world. Thus, no matter what emotions he had, he couldn't show sympathy.

Adults shouldn't be emotional.

"Gong Sheng, you're a f*cking machine! No, you're even inferior to the intelligent robots under me! I've finally seen through you today!" Gong Jue said ruthlessly, "One day, when your woman is caught, I want to see if you can also talk about the world in a dignified manner and use her life to exchange for peace!"

Gong Sheng was speechless.

Perhaps there was no need to worry about this because to worry about this complicated problem, there had to be a woman first. Then, they could talk about choices.

Right now, he only had his country and his people.

Perhaps Gong Jue was right. He was a machine without emotions.

Chapter 663: An Expert Who Played A Pig To Eat A Tiger!

Gong Jue slammed the door shut and left.

Before he left, he said something even more ruthless, "Gong Sheng, you better pray that she's fine. Otherwise, I'll f*ck up your family and country!"

That uncontrollable violent aura and the coldness in his eyes made Gong Sheng feel that this younger brother was really unfamiliar for a moment.

That wasn't his younger brother. That was simply a fierce beast whose cubs had been snatched away in the jungle!

Where did that cold and heartless chief of the Empire go?

He started to feel a little curious. What kind of person was that woman who changed Gong Jue?

Could it be that not only was she carrying poison on her, but she also had knockout powder on her?

After Gong Jue left, Gong Sheng tugged at his tie.

Although the scheming plan succeeded, he wasn't happy at all.

Thinking about the knockout powder, the ridiculous things that happened in the presidential suite at the Empire State Building in the evening couldn't help but surface in his mind...

He definitely couldn't be swayed by a woman like Gong Jue.

Furthermore, he couldn't abandon his family's business for a woman.

He had to solve this accidental problem quickly. He couldn't let this woman change the trajectory of his life at all and affect any of his decisions.

He picked up his phone and called Head Secretary Zhong. "The waiter who went to the presidential suite in the afternoon to deliver coffee. Find her and deal with her."

It was concise.

Head Secretary Zhong had always been by his side. Even his room was in the entourage room next to the presidential suite. Thus, he knew about what happened in the afternoon.

Upon hearing this, he immediately nodded professionally. "Yes, I'll do it immediately. After finding that girl, should I report her details to you first?"

Gong Sheng was silent for a second.

Then, he ordered without any emotions. "There's no need."

==

In the First Prison.

Prison Cell Number 8.

Gu Qiqi was strutting out of the open cell door.

Gong Jue was aggressive as he kicked away the bodyguards and jailers blocking the way in the presidential palace and barged into the cell.

The two of them bumped into each other!

Gong Jue was furious. The moment he saw Gu Qiqi, he gave her a strong hug. He wanted to hug her immediately!

"Stupid woman, what did they do to you?"

Even the drug test report was out so quickly. With Gu Qiqi's personality, she would definitely not agree to the other party's blood test so easily. Presumably, Gong Sheng's people had done something?

Hmph, you dare to use tricks on my woman? I'll return it tenfold!

Gong Jue's voice was filled with a cold aura. Although he had not stepped into the cell yet, Bai Mori and the prison guards who had fallen in the cell at this moment could clearly and deeply feel that powerful aura filled with murderous intent.

Master Jue was here!

Master Jue, quickly come in and see what kind of cripples your woman has turned us into? We haven't done anything to her at all. You must see it with your own eyes!

Your woman is a little demon. Wherever she goes, she can cause us to collapse without even making a move!

However, they didn't have the chance to voice the sadness and anticipation in their hearts.

In the very next second, Gu Qiqi struck first!

Her soft and sticky voice was like the most moving and adorable wood thrush in the forest. She complained word by word impolitely.

“They’re arresting people randomly! They’re slandering me for having poison in my blood!”

“They’re injecting me with random things. Look, what a big needle!”

“They want me to admit defeat. Look, my face is swollen and my hands are green!”

“They clearly didn’t die after being stained with my blood, but they insisted on sending a fake report to the president to deceive everyone!”

“Oh right, they also said that my boyfriend is too ugly, and no one wants me even if he lets me out. They said I deserve to go to prison for the rest of my life and be a guinea pig for them to get injections every day...”

Chapter 664: You Definitely Can’t Provoke This Woman!

Everyone was petrified at this scene!

Gu Qiqi’s accusation made them doubt life for a while! Everyone’s hearts collapsed!

Prison guard 1 thought to himself, “Please, Miss! We did catch you, but we didn’t inject you randomly, okay? Only Professor Bai drew your blood and stabbed you once. The needle shouldn’t be as big as your finger, right?”

Bai Mori thought, “Gu Qiqi, you b*tch! I did slap you, but why didn’t you say that you returned ten slaps to me? Also, how is your hand bruised? That vicious slap of yours didn’t look like your hand was injured at all.”

Prisoner 2 thought, “We really didn’t say that your boyfriend was too ugly. We didn’t even know that you had a boyfriend. Who is your boyfriend?”

Could it be... Master Jue? Master Jue!

Master Jue was Gu Qiqi’s boyfriend?

F*ck, why did it feel like the sky was about to collapse?

Everyone was stunned by Gu Qiqi’s vicious ability to complain.

Where was the girl who was clearly cold and indifferent a second ago? Why did she become a vicious woman who twisted the truth in front of Gong Jue?

Bai Mori even scolded that b*tch countless times in her heart. Gong Jue had eyes, IQ, and brain. He definitely wouldn’t be charmed by a b*tch like her, right?

In the very next second.

Gong Jue picked Gu Qiqi up by the waist. Frowning, he strode into the cell. "Who gave you the courage to bully my woman?!"

Bai Moli gritted her teeth. Gong Jue actually believed it?!

Gu Qiqi nestled in Gong Jue's arms smugly. She pointed at the ground with her finger. "He, he, and her... They're all ganging up on me! They stabbed me with black needles, threatened me, and even slapped me!"

"Master Jue, we really didn't... This is a misunderstanding, this is definitely a misunderstanding... Although we initially tested that Miss Qiqi's blood was poisonous, we quickly overturned this wrong conclusion. Miss Qiqi was not poisonous! She was definitely not poisonous! We apologize to Miss Qiqi!" The prison guard struggled as he was on the verge of death. He knelt on the ground and kowtowed to apologize, trying to redeem himself.

At this moment, he was extremely regretful. Why was he so stupid as to interrogate Gu Qiqi for a raise?

He definitely could not provoke such a woman!

She was awesome, and so was her backing.

Once he accidentally provoked her, she would not give him a way out.

Indeed, Gu Qiqi was cold towards this kind of kowtowing and begging. Her big black grape-like eyes revealed thick sarcasm. "Won't we know if there's a misunderstanding after looking at the CCTV? The palm and the thick needle should be clear in the CCTV, right?"

The prison guard sat on the ground dejectedly.

Oh, yes. There was definitely only the scene of them bullying Gu Qiqi in the surveillance video. But now, all of them had fallen down in a sorry state. It had nothing to do with Gu Qiqi at all... After seeing the video, Master Jue would only be even more angry!

"We were wrong! We really know our mistakes! There's no need to look at the recording. We admit our crimes! We admit our crimes! We'll listen to your punishment!" The prison guards were so frightened that tears flowed down their faces.

Gong Jue was a living King of Hell who killed without blinking. If he did not beg for mercy now, would he regret it when his head fell to the ground?

Unfortunately, things didn't go as planned.

Special Assistant Lu was already holding an ultra thin mini Pad and followed the two of them into the room. "Master Jue, this is the surveillance camera footage for tonight. I've already pulled it out..."

It was the scene of Bai Mori slapping Gu Qiqi and injecting her with the thickest needle.. The others were laughing and watching!

Chapter 665: Lifting Her Leather Boots and Kicking Bai Mori

Gong Jue's eyes turned red!

In the video, Gu Qiqi's small hand was pale. The scene of her being pricked by needles and being ruthlessly pinched made him furious!

Gong Jue roared, "Catch them all! Let the lawyers handle them!"

The prison guards clutched the floor in despair.

Master Jue's legal team was a very scary group of lawyers. If they provoked them, they would be sued until they were bankrupt and left with nothing.

Bai Mori was even more shocked.

She did not expect Gong Jue to protect Gu Qiqi again.

The last time, he had jumped into the lake to save her.

This time, he actually wanted to bring her to jail to stand up for Gu Qiqi...

She was anxious and wanted to explain to Gong Jue.

However, her mouth and tongue were cut by her own knife. At this moment, her mouth was filled with blood, and she could not say a complete sentence.

She looked up and grabbed Gong Jue's pants. She wanted him to look down at her pitiful state. Perhaps, he would sympathize with her and realize what Gu Qiqi had done to her.

But Gong Jue didn't even look at her. He raised his leather boots and kicked her troublesome hand away.

It was like kicking a rotten worm.

He heartlessly ignored her.

How cold!

Bai Mori's fingers were about to break from the kick of the leather boots. She gnashed her teeth in pain and suddenly remembered that she still had an ugly face that was stained with blood. Her mouth was wide open...

In an instant, she withdrew her hand in a panic and covered her face. She desperately searched for a crack in the floor to hide...

But who cared about her?

Gong Jue was even stingy by bestowing her with a disdainful look!

Gu Qiqi was even more comfortable nestled in Gong Jue's arms. She enjoyed the man's broad and sturdy chest and the warmth that came from his powerful arms... She didn't have the time to pay attention to a defeated opponent who was lying on the ground!

Soon, Special Assistant Lu brought people in and dragged Bai Mori and the rest away.

The bodyguards and prison wardens of the presidential palace tried to stop him while trembling in fear. "This... This is against the rules, Master Jue. Master Jue, please leave some face for our livelihoods. At least settle the procedures before bringing them away..."

"What procedures! Haven't you arrested Master Jue's woman for the procedures?" Special Assistant Lu's words made those people stare blankly and speechless.

The fact that Gu Qiqi was a poisonous person was completely discovered by accident at the last minute. They were in a hurry to interrogate her after they caught her. Where did they settle the procedures?

In order to not let the citizens panic, they even sealed off all the external news.

Only one person who was not afraid of death was still muttering with a long face, "But the prison guards and Professor Bai made a huge mistake. It's so exaggerated to take them away. We won't say anything about it. It's not good to spread it outside..."

"Hehe, it's their fault..." Special Assistant Lu sneered." They framed and tried to harm the genius students of the medical school and the number one genius doctor in the future of the Empire. They tried to make our Empire's high-tech industry lose its most important support talent. They didn't respect the position of the Empire's technology industry to protect the country and jeopardized the Empire's safety..."

Special Assistant Lu casually recited a long list of crimes.

The warden and bodyguards were so frightened that they could no longer object or stop him.

Oh my, if these people are suspected of being involved in so many crimes, they should be taken away quickly. We don't want to interfere in such a troublesome matter!

Gong Jue left with Gu Qiqi.

Assistant Lu escorted these people to the Imperial Capital base and imprisoned them. Even Bai Mori was no exception.

Chapter 666: Master Jue Tortures Even His Biological Brother

Late at night.

The various media outlets in the Empire exploded with news.

First, it was the subordinates of the Empire's presidential palace, then the first prison guard and others... They were suspected of capturing innocent medical students and were sent to jail. They used inappropriate methods to interrogate them and were sued by the Gong Corporation's lawyers. They would be sentenced to 20 years in jail.

This news didn't cause much of a stir.

After all, it was common to deal with one or two people in various countries.

However, the sensational news attracted the attention of all the gossipers.

The famous female Professor Bai, who was young, beautiful, and from a prominent family in the imperial medical field was implicated. She was accused of violating the ethics of the medical profession. In order to vent her anger, she gave false evidence to the innocent victims and poisoned them with needles in an attempt to frame them.

The matter was exposed and the evidence was conclusive. She was imprisoned!

This female professor's teaching job was stripped on the spot. All the universities and research institutions in the Empire were not to hire her for the rest of their lives!

It was nothing for the people from the President's Office to be punished, but this female professor was one of the top beauties in the empire's medical field.

A beauty was punished and sent to prison, depriving her of her illustrious teaching position. It was simply shocking.

What was even more shocking was yet to come!

The Empire's Chief Gong Jue directly submitted a presidential impeachment order to the cabinet meeting and requested the Empire's President to publicly apologize for this matter!

There were two reasons.

Firstly, the Empire's president wasn't strict with his subordinates. If the captain of the guards and the jailor made a mistake, the superior should apologize!

Secondly, they allowed doctors without moral standards to participate in the interrogation, causing brainless rumors of poisonous people to spread in the empire. They should publicly deny the rumors and atone for their crimes!

This impeachment case caused an uproar in the entire empire!

One had to know that Gong Jue was accusing his own brother!!!

The president had been working hard for many years in the vice-president position and had always enjoyed a clean reputation. He had never made a single mistake and was deeply respected by the people.

Not long ago, when the presidential election was held, it was even rarer for the cabinet to win all the votes. The number of votes from the people crushed their competitors by ten times and dealt a heavy blow to them!

Now, his first public apology was actually forced by her biological younger brother!

The citizens and media were flabbergasted to see that the respected President Gong Sheng—who was on the late-night live broadcast—had actually really, really bowed and apologized!

Only Special Assistant Lu and the rest who knew the inside story looked at the television screen and their hearts twitched endlessly. Chief, you won't even let your own brother off when you torture scumbags for Young Lady Qiqi!

Ten thousand miles away.

S Country.

At the General's residence.

General Teuton stared at the satellite monitor screen without blinking.

When he saw Gong Sheng bow slightly in front of the television camera, he laughed out loud thrice. "Gong Sheng, you have such a day too! I love watching brothers fight among themselves!"

The subordinate reminded him softly, "General, according to the news that the Empire released today, it said that poisonous people don't exist... But Fu Mao and Ring A haven't sent back the news for so long. I wonder if something happened?"

"Stupid! Of course, there are poisonous people. This was despite Gong Jue's actions to hide the poisonous person! "Do you think that I'm stupid?"

"General is wise! Then... is that vicious person that the female student from the medical school mentioned in the news today?"

"Nonsense! Of course not!" General Teuton had a dark look on his face as he crooked his nose. "The more you hide it, the more problems there will be. That female student was just a cover. Bai Mori is the real vicious person!"

The subordinate was dumbfounded. "Ah? This..."

Chapter 667: A Certain Man's Attitude When It Was Her Period

"Idiot! If there wasn't really a problem with Bai Moli, why would Gong Jue put her in prison and put her under house arrest! What do you know? This is called disguised protection! Only by locking her in prison can everyone not come into contact with her, including the assassins and spies we sent out!" General Teuton concluded firmly.

"General is indeed wise and powerful. I was stupid and ignorant. I never expected Gong Jue to have such a shameless, dark, and deep scheming mind... But this woman was protected by Gong Jue. Our chances of contacting her have been cut off. How are we going to extract her poisonous blood..." The subordinate flattered him but was worried.

General Teuton snorted coldly. "What are you worrying about?! The World Medical Competition is imminent. The experts from the various countries' medical world will gather in the Empire. I will send out my last trump card!"

"Trump card?! General, are you really going to send that person..."

The subordinate shivered.

Legend had it that Fu Mao and Ring A were ranked second and third on the S Nation's killer rankings.

The eldest, who was ranked first, was sent to assassinate Gong Jue last year. In the end, he returned in low spirits and was seriously injured until now.

However, very few people knew that at the top of the S Nation's killer rankings, there was another ace killer who was hundreds of times more powerful than the first!

“As long as we can snatch Bai Mori over and use her poisonous blood to develop the most powerful poison weapon, we can kill that group of short-legged yellow-skinned people in the Empire. I’ll do whatever it takes!” General Teuton growled. “Hurry up and make the arrangements!”

==

At the same time.

At the Bai family’s residence.

Bai Yeyuan stepped out of the bathroom. He was wearing a loose bathrobe at his waist, and his fringe was still dripping with water.

At this moment, he wasn’t wearing a suit. He looked like he had shed his usual gloom and coldness and looked more human.

He glanced at the latest news on his phone.

His thin lips curved up slightly. “Gong Jue really can do anything for that woman... Even Bai Mori was thrown into jail. Tsk...”

Only Gong Jue, that simple and crude guy, would do such a thing.

If it were him...

Why would he need to have such thoughts towards a woman? Wouldn’t she wrapped around his finger?

He threw down his phone and hooked his finger around the finger of the little girl lying on the bed.

Xiao Ning was wrapped in a small blanket and shivering. She was caught off guard by his finger and her eyes shrank. “Wuwuwu, my stomach hurts. I think my period is coming...”

Bai Yeyuan squinted. “Little Lemon, do you think that I don’t know which day your period starts and ends?”

Xiao Ning wanted to cry but had no tears. Why was it that even an excuse was exposed? Those scenes in the novels were indeed lies! Men wouldn’t believe such an excuse!

Bai Yeyuan walked closer to the bed and untied the belt on his sleeping robe. “You’re becoming more and more disobedient... A lying child has to eat carrots...”

Xiao Ning immediately felt terrible.

She knew what the carrot that Bai Yeyuan was talking about was!

Wuwuwuwu, she was once very pure and had principles, okay?

What was more shameful was that after Bai Yeyuan’s many teachings, she actually understood it in a second!

Suddenly, she remembered that when Bai Yeyuan was looking at his phone just now, he seemed to have said that Bai Mori was in jail.

What was going on?

She hadn't seen the news yet and didn't know the ins and outs of the matter.

But this didn't stop her from making up a ready-made good excuse!

"Aunt Bai Mori is in jail. Do you want to bail her out? It's so late at night. The jail must be very cold and sinister..."

Chapter 668: You're Looking Down on Your Man's Stamina

Xiao Ning's big and pitiful eyes were filled with tears as she looked at Bai Yeyuan expectantly.

Uncle would definitely bail Bai Mori out, right? No matter how bad Bai Mori was, she was still a member of the Bai family. Uncle valued the family's reputation the most. He should go personally, right?

This way, she could escape tonight!

Although the only thought in her mind when Qiqi was taken away was to save her at all costs...

She even took the initiative to call Bai Yeyuan and beg him to pull strings to let Qiqi out. She didn't hesitate to agree to all his conditions and did whatever he wanted her to do.

But at this moment, facing Bai Yeyuan, who had just come out of the bathroom and was filled with a man's aura, she belatedly realized what terrifying condition she had given the demon.

Oh my god! He would do anything to her!

How was Bai Yeyuan going to torture her tonight?

Her small body definitely wouldn't be able to take it, right?

Xiao Ning didn't regret saving Qiqi at all, but she started to regret mentioning the stupid condition. Wasn't this digging a pit for herself to jump into?

Fortunately, Bai Mori was in jail. She finally had a chance.

Little Uncle, Little Uncle, I beg you to save that b*tch Bai Mori...

However, Heaven didn't fulfill her wishes.

The heavens especially liked to go against weak people and make things worse.

Bai Yeyuan said without a care, "Bai Mori? She has been doing too many stupid things on her own recently. She deserves to be thrown into jail. Wouldn't it be better to let her stay in jail for a few days to receive a lesson and reflect on her stupid actions?"

"But..."

"There's no buts. If the Bai family can't even suffer this little setback, then we can just die in jail."

"Little Uncle, she's a girl after all..."

“Girls have to be obedient and not run around... Don’t covet a man you shouldn’t covet. Naturally, you won’t be taught a lesson. Little Lemon, are you not obedient and want to go back on your promise today?”

Xiao Ning’s heart skipped a beat. “N-No.”

“Now that Gu Qiqi is fine, I’ve done what I promised you. Shouldn’t you show me your sincerity? You said that you would do anything, right?”

Xiao Ning bit the blanket and was about to cry. “I... I don’t know what to do...”

Bai Yeyuan curled his lips into a smile. “It’s okay. There’s a first time for everything. How about you try how the carrot tastes?”

Xiao Ning wanted to die.

Bai Yeyuan gasped. “Little demon, who said you don’t know how to do it? You’re not more seductive than you know...”

Xiao Ning was speechless.

An hour later.

Xiao Ning begged for mercy. “It hurts too much. I... I can’t anymore...”

Bai Yeyuan scolded, “Little Lemon, be professional!”

Xiao Ning was speechless. She had never heard of anyone being professional when doing such things!

A scheming and gloomy man like Bai Yeyuan definitely didn’t mean it literally.

What did he mean by being professional?

Ah!

Xiao Ning felt like she was going crazy!

Her ears had been caught off guard by a certain shameless man!

Three hours later.

Xiao Ning was already weak. “Wuwuwu, can we stop now?”

Bai Yeyuan panted softly. “You’re looking down on my stamina.”

Thus, the despised man used double the time to continue proving his valiance!

==

Thousands of miles away.

In an African tribe that was about to roast someone alive, Bai Lang treated a patient with the malaria virus.

He saw the news of Bai Mori going to jail on his phone and Gong Sheng being forced to apologize publicly. He was so happy that he jumped up from the bed.

He couldn't help but walk around the simple and narrow tent.

Chapter 669: Gong Jue gave her a scare!

"Hahaha, finally, someone is worse off than me! Now, do you know how crazy Gong Jue was to protect that woman? Hahaha!"

But as he laughed, a trace of sadness surged into his heart.

Why was he hiding so far away and still being tortured by this little demon from thousands of miles away?!

He reassured himself that he was very strong and wouldn't cry!

==

At the Gong family's old residence in the Imperial Capital.

It was rare that the lights were still lit in the middle of the night.

Gong Qing and his wife waited in the living room. Songsong quietly brewed a pot of kung fu tea with her own hands as if she was using the tea to calm her emotions. Gong Qing paced around the hall anxiously. Even Old Master Gong, who rarely came out, was sitting in a wheelchair and was pushed out by a servant.

Other than Baby Gong, who was locked in his room watching the surveillance cameras to look for his Sister and had finally fallen asleep from exhaustion, the rest of the Gong family members were basically all present.

"Where's Gong Sheng?"

"He just finished dealing with the press conference. With such a big matter happening tonight, he still has a lot of work to catch up on. He's so busy that he's tired. He's probably sleeping in the presidential palace tonight and won't be coming back."

"Where's that brat Gong Jue?"

"Do you think he will return home at such a time? After doing such a wicked thing like pulling his own brother down with him, he still has the cheek to return?"

Just as Gong Qing was certain that Gong Jue would definitely pretend to be very busy and not return to give them an explanation at all...

Ding-Dong!

The doorbell rang.

The servant opened the door.

The sound of Gong Jue's unique and sturdy military boots traveled in from outside the courtyard.

“That brat actually dared to come knocking at this time. I must break his legs!” Gong Qing’s anger surged.

He never expected Gong Jue to have the courage to return home immediately! He knew that they would be very angry!

“This is my house. Why can’t I come home?” Gong Jue’s cold voice traveled over. “Also, Gong Qing, pay attention to your tone. Don’t embarrass me in front of people!”

As the tall man walked in with an imposing aura, the petite girl in his arms instantly petrified everyone in the living room.

It was already shocking enough that Gong Jue dared to return home immediately.

But he actually didn’t come back alone. He even brought a girl with him!

This was simply a bolt from the blue.

The teacup in Songsong’s hand trembled and she nearly spilled the tea.

Gong Qing finally understood what Gong Jue meant by “don’t embarrass yourself in front of people”. It seemed that Gong Jue felt that his father was too embarrassing in front of his woman, right?

This unfilial son was simply asking for a beating!

“This is the Gong family. Not everyone can enter! Especially messy women! I won’t acknowledge her!” Gong Qing’s face darkened.

Hmph, he would never admit that he would not agree to their relationship with a woman of unknown origin. It was useless to bring her home!

Songsong gently pulled Gong Qing’s lapel.

“Brother, cut it out. That girl looks clean and delicate. It might not be what you think. Listen to the child first before you make a conclusion...”

“Listen to him? What truth can he say?! Hmph!”

Gong Jue glanced at Gong Qing coldly and raised his chin proudly. “You’re overthinking. I’m not here to ask for your permission today. I’m bringing her to introduce her to Grandpa. Grandpa, this is Gu Qiqi, the wife I’ve chosen.”

Chapter 670: What Wife? Which Grandson Chose Her?

Gong Jue’s words, “the wife I’ve chosen,” instantly stunned everyone in the Gong family.

The servants covered their mouths and bit their tongues to control themselves from screaming. Oh my god! Was this the future Young Madam?! She was so small! In the arms of the tall and mighty Master Jue, she was simply a weak little bird. Was she an adult yet? They never expected that Master Jue would like such a type...

Old Master Gong and Gong Qing’s breathing stagnated. The old master, who was nearly 80 years old, nearly couldn’t breathe.

Songsong looked at the two of them in a daze and the teacup in her hand fell to the ground.

Clang!

The sound of a teacup falling to the ground woke everyone up.

Gong Qing was the first to reprimand her. "Bastard! What wife? Who agreed?"

Trembling, Old Master Gong moved the wheelchair two steps forward. His old face scrunched up as he stared at Gong Jue and Gu Qiqi. His tone was also somewhat angry. "Little brat..."

This was the first time in Gong Qing's life that he was on the same side as his father, Old Master Gong. He couldn't help but say even more sternly, "Look, no one in the family agrees! Gong Jue, take her away and get lost immediately! Not everyone can enter the Gong family's door!"

Amidst the objection, Gong Jue raised his eyebrows and remained unmoved. "Are you sure? If I leave, I won't return again. You better think carefully!"

Gong Qing was speechless. Did he fail to threaten his son? Was he being threatened by his son instead?

Behind him, Old Master Gong couldn't wait to express his opinion. "Little brat, little brat..."

An old man in his eighties was not in good health. His legs had been paralyzed for many years, and he could not even speak clearly.

Gong Qing moved aside and pushed Old Master Gong's wheelchair forward.

He did not believe that Gong Jue would dare to talk back to him. How could he have the face to talk back to his 80-year-old grandfather? That was too disgraceful!

As expected, Gong Jue said politely, "Grandpa, tell me."

After calming down for a long time, Old Master Gong finally said in a hoarse voice, "Rascal, why didn't you bring such a good granddaughter-in-law to me earlier? Do you think I'm blind and can't see clearly?"

Gong Qing was speechless.

Everyone was speechless.

Old Master, you really gave everyone a godly twist!

Once Old Master Gong opened his mouth, he couldn't stop the car. He looked at Gu Qiqi from the left to the right and was extremely satisfied. "This child is filled with wealth. Her skin is good and her eyes are bright. She's neither fat nor skinny and she exudes a spiritual aura. She's too amazing! Her aura suits our Gong family! Oh my, my precious second grandson has good taste!"

Gong Jue curved his lips. "Grandpa, you have good taste too."

The grandfather and grandson hit it off immediately, but Gong Qing was furious.

His biological father was actually opposing him. The Old Master actually acknowledged the daughter-in-law he had yet to agree to?

Was the old master stupid? He didn't even investigate this woman's background and casually agreed?

Gong Qing lowered his voice and frowned at Old Master Gong. "Do you know why Gong Sheng was impeached tonight, Old Master? It was this vixen who appeared out of nowhere and made Jue'er lose his mind. She actually instigated an internal strife between the brothers! She made outsiders laugh at her for nothing! How could such a troublesome woman enter the Gong family? Old Master, think carefully!"

Gong Jue said calmly, "As the president, it's shameless not to apologize for a mistake. That was the reason he became a joke, right? There wouldn't be anything to laugh at if he admitted his mistake."
