

Deeply 1011

1011 Niannian is gone (3)

Su Wanwan opened her big black eyes and looked at Shen Ziwei. Tears kept falling from her eyes and she cried silently. Her eyes were bloodshot and her eyes were swollen.

Shen Ziwei's gaze swept across her face. Seeing her in such a sorry state, his heart ached.

The clear slap mark on her face was simply shocking. If assistant Wu hadn't informed him today and he hadn't arrived in time, he didn't know how much Su Wanwan would have suffered.

"What a silly girl."

Shen Ziwei patted her head and fastened her seat belt for her. "Come back to the SU residence with me first. I don't feel at ease leaving you alone in your current state."

After closing the door, he quickly walked to the driver's seat, opened the door, started the car, and drove away.

—

Mr. PEI had sent a transit flight to pick up an authoritative doctor from abroad. When they arrived at the hospital, they did another examination on PEI Munian. Due to the serious impact of the car accident, PEI Munian had suffered injuries in many parts of her body. The most serious injuries were her head and heart. The broken glass of the car window had pierced her head and chest. If not for the timely rescue, she might have died on the spot.

The surgery had cleaned up the broken glass and stitched up his wound, but because he had lost too much blood and was stuck in the car, the pressure had pressed onto his brain, causing a lack of oxygen, so his brain was in a dormant state, so he could not wake up.

Mrs. PEI listened to the doctor's words and couldn't understand the professional terms at all. She only asked anxiously, "then my son, ran ran, won't be unable to wake up, right?"

Before he could finish his words, his hoarse voice started to choke up again.

Mr. PEI hugged her and said, "don't be anxious. Let the doctor finish first."

The doctor paused and continued, "if he is allowed to continue sleeping like this, it will indeed lead to brain death. However, when we checked, we felt that young master PEI's will to live is very strong. He should have something or someone he can't let go of. This is very important for him to wake up. So, Mr. And Mrs. PEI, if young master PEI has anything or someone he can't let go of, please tell him more or let that person accompany him. Perhaps it can stimulate him to wake up."

Things and people that you can't let go?

Almost in an instant, only Su Wan's figure appeared in the minds of PEI's father and mother. Although they were unwilling to admit it, their silly son had always been happy and sad because of Su Wan.

However, Su Wanwan caused her son to become like this. Why should she still be here to accompany him?

Mrs. PEI shook her head violently. no, I can't let that woman have the chance to get close to mu Nian again. It's all because of her that mu Nian is in this state. The car clearly has a problem, but she still made him drive it. I don't know if she did it on purpose. If our mu Nian were to be killed, she would be able to inherit mu Nian's assets and expand her su Corporation.

"I wonder if she'll do anything if she's allowed to accompany mu Nian!"

Mr. PEI's brows were tightly knitted. He had never thought about this. Maybe the car accident was just an accident. It was just that they were too sad, so they found su Wanwan, the target of their anger. But after Mrs. PEI's reminder, he had to be vigilant.

If su Wanwan, this woman, had planned to kill their son, then it was too terrifying.

Xi Zhiwei, who had been listening to their conversation quietly, blinked and suddenly said, "uncle, Auntie, I have an idea.
