Chapter 185 I want to prepare for the wedding (7)

Su Wanwan walked up, stood beside him, and gently called out, " Grandpa.

Su Zhenhua didn't look at her. He only hummed faintly and said, " "Do you know which building is the tallest in this commercial center?"

The sudden question made su Wan stunned. She blinked her eyes and reacted. Although she didn't know why her grandfather asked this question, she still answered truthfully, " it's the PEI family building.

"What about the SU family?" Su Zhenhua nodded and asked.

Su clan's cassock

Su Wanwan frowned and thought about it, but she couldn't figure it out. After all, the height of the SU family's building was very ordinary. It was only twenty-something floors. In this business circle, it was not eye-catching at all. She didn't know what the SU family's building was.

Su Wanwan didn't answer, so Su Zhenhua said directly, " I'm not sure, right? "

Su Wanwan vaguely felt that Su Zhenhua's words had a hidden meaning. She bit her lower lip and asked instead of answering, " Grandpa, why are you asking this for no reason? "

Su Zhenhua didn't answer her question and continued to talk to himself. do you still remember? When you were young, our su family's building was one of the tallest buildings in this business district. No matter where you look from in the city, you can see our su family at a glance."

"I remember."

Su Wanwan naturally knew about this. The SU family was at its peak for a time. Even as a branch of the SU family, they still had power and a lot of wealth. People in the circle respected them. No matter who it was, they had to give them some face.

However, ever since the SU family's second young master and Madam su had a dispute, for the sake of his wife, second young master SU's faction directly left the SU family, causing the SU family to split up. As for the SU family's eldest young master and third young master, they were not in the business world. Without second young master SU's main family, only Madam su was supporting them. The branch families began to show signs of decline. Later, Madam su passed away from illness, and the main family completely collapsed. The branch families completely lost their support and could only survive on their own.

At that time, his grandfather was in charge of the SU family, which was equivalent to him falling from his high position. No matter how hard he tried, he could not return to his peak. Later, as time went by, one by one, companies sprang up like mushrooms after the rain, and high-rise buildings rose from the ground. When her father inherited the company, it was still developing steadily. With the former prestige of the SU family, it still had a considerable status in the circle. However, after Yingluo's parents passed away unexpectedly, everything changed.

When su Wanwan thought of this, her eyes were a little sad and her heart was also a little sour.

“It’s good that you remember,” Su Zhenhua retracted his gaze from the window and returned it to Su Wanwan’s face. He said in a deep voice, “so I hope that our SU group can return to its glorious days and not be submerged in the midst of many companies.

Su Wanwan immediately understood Su Zhenhua’s meaning. The company’s current situation, even if it was developing well, he was still not satisfied at all. He wanted more.

As expected, Su Zhenhua said in the next second, “Your only chance is the marriage between you and the PEI family. How’s the wedding going?”

“.....?”

Su Wanwan had prepared a stomach full of words to convince her grandfather, but they were stuck in her throat. Her grandfather would never accept what she was thinking. From the beginning to the end, his goal and hers were not on the same level.

However, how could she bring up the wedding to PEI Munian now? Once she mentioned it, wouldn’t PEI Munian misunderstand that she was using him?
