Although only a few days had passed, the company was already in a depressed state. The employees were all listless, as if they were waiting to lose. Su Wanwan glanced over and her heart couldn't help but ache.

Her hands unconsciously clenched into fists by her sides. She bit her lower lip hard and straightened her back.

Even if she lost, she would not lose. She would not admit defeat until the end!

Su Wanwan returned to her office and called Xiao Mei in. Xiao Mei briefly reported to her the company's situation these days. Su Wanwan nodded one by one. She hesitated for a moment but still opened her mouth, "ye, Grandpa, did you come to the company these days?"

Xiaomei nodded. yes, the chairman called for a shareholders 'meeting. Some of the old shareholders still give the chairman face. They are willing to sell their shares to the chairman. It's just that they don't have enough funds right now, so the chairman is thinking of a way.

"How many shareholders are supporting us?"

I've done some calculations. If we buy all the shares that support the shareholders, plus the shares in your and the Chairman's hands, we have a chance to get more than half.

Even if they won, they might not win. They had to surpass the PEI family group's shares.

Su Wanwan asked again, "did you find out how many shares the PEI family group has now?"

"About thirty-fifty percent."

"Oh?"

Su Wan didn't expect this result because she had previously calculated all the shareholders on their side, including the shares in her and grandpa's hands, added up to about 60%. The rest were individual investors. With the PEI family group's mobility, they should have acquired all of these long ago. Why is it only 30% now?

there's still 10% of the shares in the market that you haven't collected?"

Xiaomei shook her head. No. According to my investigation, a mysterious man spent a lot of money and snatched ten percent of the PEI family corporation's shares from them. That mysterious man has those shares!

"A mysterious person?"

that's right. No one knows who he is. He just appeared out of nowhere and dared to go against the PEI family corporation. I wonder who he is!

"Is that so?" Su Wanwan opened her eyes in surprise and couldn't help but feel curious about this mysterious person.

She wasn't as curious as Xiaomei about how he dared to go against the PEI family's corporation, but she was curious about how he spent so much money to buy the SU family's corporation, which was at the peak of the storm and everyone was eager to sell their shares. What was he thinking? You have money but no place to spend it?

Although su Wanwan didn't have a solution, it was better for the shares to be in the hands of the mysterious person than in the hands of the PEI's group. If she and the PEI's group were evenly matched, this 10% of shares may be her reversal point, so she said to Xiaomei, "Go and find out who this mysterious person is."

"Alright, I got it!"

After Xiaomei went out, su Wanwan leaned against the back of the chair and supported her forehead with one hand. She had a slight headache. The most important thing right now was still money. Without money, everything would be in vain. What should she do?

Su Wanwan thought again and again. Her eyes unconsciously swept to her desk. There was a photo on it. It was her family photo, father, mother, sister, and her.

Su Wanwan's eyes couldn't help but soften. She reached out, took the photo, and gently stroked her parents' faces.

If they were still around, they would definitely have a way. Her father was the most handsome and intelligent man in the world, and nothing seemed to be able to stop him. And her sister, she had inherited his intelligence and handsomeness.
