

Deeply 311

311 I need to give her a status (7)

She knew everything. There was no free lunch in the world. Su Wanwan's eyes couldn't help but be vigilant. Could it be that the man was really plotting something?

Assistant Chen looked at su Wanwan's appearance and knew that she had misunderstood. She smiled and said, "it won't be anything illegal. Our Sir is a law-abiding citizen. Don't worry.

"Then what's going on with Yueyue?"

"Sir said that he will tell you in the future."

In the future?

Su Wanwan frowned, thought about it, and asked: "Then can I ask, who is he?"

Assistant Chen's answer was still official. Sir said that you will know in the future.

".....?" It was really mysterious.

This time, su Wanwan was really curious. Who exactly was this man? he spent so much money to buy back the shares and just gave her the right of agency. He was too generous. Was he a stranger or an acquaintance?

It was just that she also knew that the assistant in front of her was so tight-lipped that she probably wouldn't be able to find out anything, so she could only shut her mouth. However, this unknown condition more or less made people feel a little uneasy. Su Wanwan pursed her red lips and couldn't help but add another restriction to this condition. the thing I agree to must be something within my ability, is that okay? "

"Of course." yes! assistant Chen agreed readily.

Su Wanwan was completely at ease. Moreover, it was equivalent to her earning. She got 10% of the shares without any effort.

Su Wanwan took the document, grabbed the signature pen on the table, and signed her name on the last page. When she signed, her eyes subconsciously glanced at the signature of the first party and only wrote the letter W.

This W is this Mister's name? Why was it so strange? Even if it's an English name, it shouldn't be just one letter, right? or is this just his code name?

Su Wanwan signed the document, closed it, handed it to assistant Chen, and said softly, "please thank this Mr. Wanwan for me. I hope to meet him when I have the chance. I can thank him in person.

"Alright, I'll pass on the message for you."

After su Wanwan left, assistant Chen tidied up the documents and also left the room. However, after she left the room, she directly walked to the door of the suite opposite and knocked on it.

About ten seconds later, the door was pulled open and assistant Chen walked in respectfully. She looked at the handsome man and said, " Boss PEI, it's done.

As she spoke, she handed him the document in her hand.

PEI Munian took the document, opened it, and saw su Wanwan's signature. It was delicate and dexterous. He looked at it, and the corners of his lips unconsciously curved into a very shallow arc, his fingers gently touching it.

Although assistant Chen had not been with PEI Munian for as long as assistant Wu, it had still been a few years. This was the first time she had seen Big Boss with such a gentle expression. However, she did not understand.

He was the one who wanted to acquire SU group. Why did he order her to secretly spend a large sum of money to buy back 10% of the shares and then help su Wanwan?

Assistant Chen could not suppress his curiosity and asked, " boss PEI, why are you helping miss su? If she gets this 10%, the PEI family group will lose."

Why?

PEI Munian closed the document and slowly walked to the French window. He lowered his dark eyes and looked down. He could vaguely see the beautiful and slender figure walking out of the hotel happily.
