Her body was cold, but her heart was even colder. It was so cold that her entire body was trembling, and even her teeth were chattering.

When PEI Munian barged into her body, su Wanwan felt all the pain nerves in her body acting up. It was so painful that she spasmed all over. She had done it with PEI Munian so many times before and she also felt pain. However, none of them were as painful as this. It was so painful that her tears flowed out at once.

Fortunately, her eyes were covered by the tie, so PEI Munian could not see her tears. She bit her lower lip so hard that it almost bled, but she was willing to let out a cry of pain.

After a long time, PEI Munian growled and finally stopped her movements. She laid on su Wanwan's body.

In the entire office, only the rapid breathing of the two of them could be heard. The air was filled with an ambiguous atmosphere, which was mixed with the sound of their breathing, making it even more charming.

Su Wanwan lay there, motionless. Her body was weak, but her mind was frighteningly clear. She was unusually clear-headed throughout the whole process. She was so clear-headed that she felt the pain that PEI Munian gave her, the pain that she gave her, and the despair she gave her.

Su Wanwan relaxed for a while. Her fingers moved slightly and she felt that her body had recovered a little strength. Her lips parted slightly and her voice was cold. She said word by word, "are you done?"

PEI Munian's eyes, which were still a little unfocused, slowly focused. He propped up his body and looked at su Wanwan.

Under the light, su Wanwan's fair skin was blue and purple, and traces were everywhere. It could be seen how crazy he was just now. He looked at her face again. It was as pale as paper, but her lips were extremely red and there were deep bite marks on them.

PEI Munian's Black pupils suddenly contracted, and there was endless frustration in her eyes. He never wanted to hurt her, but it was always Yingluo who couldn't control himself and hurt her, Yingluo.

PEI Munian's throat instantly became dry and hoarse. He opened his mouth, wanting to say something, but no words came out.

Su Wanwan raised her hand and removed the tie from her eyes. Her eyes suddenly saw the light and she squinted uncomfortably. After she got used to it, she propped up her body and then her big eyes met PEI Munian's Black eyes.

Su Wanwan suddenly smiled and gave PEI Munian a sweet smile.

PEI Munian could not help but be stunned and even forgot to speak.

However, in the next second, su Wanwan raised her hand again and, without hesitation, slapped PEI Munian's handsome face.

The crisp sound echoed in the silent space.

Su Wanwan's eyes were glistening with tears, but she forced a smile. The hand that she used to slap PEI Munian clenched a little tighter. Then, she pushed PEI Munian hard, pulled up her clothes, and ran out.

Su Wanwan ran out of the PEI's group building in one breath. The rain outside had already lightened, leaving only a drizzle. She raised her head and finally dared to shed tears.

She did not hail a taxi and walked straight into the rain, hoping that the rain would wash away her body and PEI Munian's breath.

Because his body had once been tainted by Xi Zhiwei. She was disgusting, really disgusting!

Su Wanwan's hands trembled as she picked up her bag and took out the birth control pill from inside. She poured the medicine out and stuffed it directly into her mouth. There was no water, so she swallowed it dry and swallowed it down.

However, the nauseating feeling that came from all over her body still made her vomit uncontrollably. In her mind, as long as she recalled what had happened earlier, and how PEI Munian and Xi Zhiwei had done the same thing, she would not be able to control herself. She would squat on the ground and vomit violently.
