359 I'd rather you hate me v

After PEI Munian finished speaking, she no longer paid attention to su Wanwan and started eating. His movements were elegant, and he ate in a refined manner. Although he was not in a hurry, it still made people hungry.

Su Wanwan didn't have much of an appetite during this time, but for the sake of the baby, she had to force herself to eat. It was rare for her to have a time when she wanted to eat.

Su Wanwan glanced at the dishes on the table. Although she didn't want him to look down on her in front of PEI Munian, she changed her mind. They were going to divorce anyway, why should she care about how he looked at her? The most important thing for her now was to take care of herself and the baby. Otherwise, who knew how long he would drag this on.

Su Wanwan thought about it and coughed lightly. She then walked to the dining table, pulled out the chair furthest away from PEI Munian, sat down, and picked up the bowl and chopsticks.

PEI Munian seemed to be focused on eating, but in fact, he had been observing su Wanwan from the corner of his eyes. Seeing that she was struggling and hesitating in the same place but still sat down to eat, the corners of his lips raised without a trace and a smile flashed in the bottom of his eyes.

He knew that she must have come over without eating dinner, so he had prepared a table full of dishes in advance. She didn't know how to take care of herself, so he could only put more effort into it.

The two of them ate in silence, and only the sound of bowls and chopsticks hitting each other could be heard in the entire room. PEI Munian saw that su Wanwan was almost done eating, so she stopped eating, took a paper towel, and wiped the corners of her lips.

As soon as PEI Munian stopped eating, su Wanwan also put down her bowl and chopsticks. She took a tissue and wiped her lips. Then, she looked up and stared straight at PEI Munian. now, can we talk about the divorce? "

"Of course."

PEI Munian got up and walked to the sofa. After sitting down, he picked up the warm tea on the coffee table and took a sip.

Su Wanwan followed him and sat on the sofa opposite him. She took out the divorce agreement again and placed it on the coffee table, saying, " for this agreement, I've written that I'll leave the marriage with nothing. I've also written down the money you invested in our company before. I'll slowly return this money to you. You can take a look at the agreement. If you have no objections, then sign it. "

As su Wanwan spoke, she pushed the agreement in front of PEI Munian and took out a pen from her bag. She even opened the pen cap and put it in PEI Munian's hand.

PEI Munian glanced at her. Then, his black eyes fell on the divorce agreement. He raised his hand and flipped through it with interest. su Wanwan, don't take a share of my assets. You also want to return the money from before to me. This means that we don't owe each other anything, right? "

Su Wanwan straightened her back. yes, our marriage shouldn't have started. Then let's go back to the beginning.

"Return to the starting point?"

PEI Munian repeated su Wanwan's name in a low voice and smiled, but her smile was very cold. su Wanwan, you want to not owe me anything and want to return to the beginning. You still owe me one thing, right? "

su wanwan's eyes narrowed. " you, what do you mean? "

PEI Munian lifted her eyelids and stared straight at her, her eyes devoid of any warmth. you're pregnant, aren't you? You're divorcing me with a child? is this called going back to square one?"

Pregnant

Su Wanwan was stunned and her pupils suddenly contracted. How did PEI Munian know about her pregnancy? Su Wanwan's head suddenly hurt and a fragment flashed in her mind. Ran ran seemed to have said that she was pregnant?
