

Deeply 438

438 Uninvited guest (8)

Ever since su Wanwan woke up, because she had been recuperating, she had seen very few people. Basically, she only saw PEI Munian, the doctor, the nurse, and aunt Wu.

Suddenly, a stranger appeared in front of her. Although her body had recovered well during this period of time, and she was getting used to this world and felt more secure, she was still a little timid in the face of strangers.

She curled up on the sofa and looked uneasily at Xi Zhiwei, who was getting closer and closer. Her hands unconsciously clenched.

When Xi Zhiwei walked over, she had guessed su Wanwan's various reactions, but she didn't expect that she would be afraid of her stuttering.

Her face was obviously filled with uneasiness and wariness. She stared straight at her, but her eyes were flickering. Her red lips were tightly pursed, and her clenched fists showed that she was nervous.

They've known each other for so many years. Every time she met su Wanwan, she couldn't take any advantage of her. In front of her, she always had that proud sense of superiority. She never thought that one day, su Wanwan would also be afraid of her!

It seemed like Wanwan's brain had really degenerated like a newborn baby after her surgery, just like what she had investigated?

Xi Zhiwei sized up su Wanwan without a trace and then smiled. sister Wanwan, I'm here to see you. How's your recovery? "

As Xi Zhiwei spoke, she sat down next to su Wanwan.

Su Wanwan reflexively moved to the other side of the sofa and opened up the distance between the two people. However, she understood a little of what she said and slowly nodded. I, I'm fine.

Xi Zhiwei was a little surprised to see su Wanwan speaking with such difficulty. Her situation seemed to be worse than she had imagined.

However, did she really not remember anything?

Xi Zhiwei's eyes narrowed and she could not help but continue to probe, " sister Wanwan, you don't have to be afraid. We used to be good friends. I'm Wei Wei. We used to go to the same university. Do you remember? "

The nurse had taught her the word "friend" before. Su Wanwan understood what it meant, but she looked at the strange woman in front of her and had no impression of her at all. Su Wanwan slowly shook her head.

Xi Zhiwei didn't let go of any expression on su Wan's face. She looked at it carefully, trying to find traces of lying. However, her eyes were always clear, with confusion and confusion. It didn't look like she was pretending.

Looking at su Wanwan's current appearance, Xi Zhiwei was somewhat gloating. Su Wanwan, who was once so proud and confident, had become so fragile and timid. She had lost all the light she once had. In front of her, she no longer had any superiority.

However, she hated it. Even though she had become like this, the heavens were still treating her well. She had forgotten everything, so naturally, she had forgotten her hatred for PEI Munian. Thus, she could now stay by PEI Munian's side in peace.

All the things that she had worked so hard for had suddenly turned into nothing. She couldn't help but clench her hands tightly, and her eyes became even more sinister.

If she could not remember anything, then she would always be with PEI Munian and she would be rejected by brother Munian like before, never having the chance to approach him.

No, absolutely not!

It was also possible for people with amnesia to regain their memories. Generally, they would recover their memories after suffering some kind of stimulation.
