Xi Zhiwei thought for a moment. For su Wanwan, the thing that could stimulate her the most should be the child she lost, right? She had even tried to commit suicide because of that child.

Xi Zhiwei's eyes turned cold, but it disappeared in an instant. She smiled and said, "it's okay. I know that you have forgotten a lot of things after the surgery. When you recover, you may remember me. But it's good that you're like this. Let some sad memories stay in the past. It's a good thing that you don't remember them.

Sad?

Su Wanwan also knew this word because when PEI Munian went to the company and she couldn't see him, she would also feel sad. She subconsciously opened her mouth and asked, "what Yueyue is sad?"

Xi Zhiwei's hand touched her stomach as if she was feeling pain for her. She said, "you were once like me. You had a child, but in the end, you were sad.

Before she could say the word "miscarriage-" aunt Wu suddenly said, "Miss Xi, please have some tea.

Auntie Wu raised her voice on purpose and slammed the teacup on the table.

Xi Zhiwei was stuck in the middle of her sentence. She glanced at aunt Wu. Although she was extremely dissatisfied with her sudden appearance, she still forced a smile and said, "thank you.

Xi Zhiwei picked up her teacup and took a sip. When she swallowed, she realized that Auntie Wu had not left. She was still standing there.

Xi Zhiwei was stunned for a moment. aunt Wu, you can go and do your things. I haven't seen sister Wanwan in a long time. I want to have a good chat with her.

Auntie Wu was unmoved and replied, "Miss Xi, my job is to take good care of young Madam. She can't leave her side now. I have to look after her.

With aunt Wu's undisguised hostility and protection, the smile on Xi Zhiwei's face gradually faded. She really didn't understand what was so good about su Wanwan. Why was everyone protecting her and afraid that she would be hurt?

She had clearly been by brother mu Nian's side since she was young and had never left him. She had even given up her innocence. Xi Zhiwei's eyes swept over her stomach with a hint of hatred and pain. What she had given up was even more than that.

However, it was as if they were all blind. No one could see her, but they could only see su Wanwan, who had hurt brother mu Nian again and again!

Xi Zhiwei was extremely angry but she could not flare up. She suppressed her anger and still said gently, Auntie Wu, don't you have me now? I'll take care of sister Wanwan. You don't have to stay here and watch over her. Go and rest for a while.

Auntie Wu didn't give in at all. young Madam is very afraid of strangers now. She'll be more at ease if I'm here.

Aunt Wu's reply was airtight. Xi Zhiwei was so angry that she gritted her teeth. She stood there and she had no way to say those words to su Wanwan. She also had no way to provoke her. She could only put on a fake smile and mock her, " aunt Wu, you're so good to sister Wanwan.

When Xi Zhiwei and aunt Wu were talking, su Wan's attention had been on the word "child" that Xi Zhiwei had just said. In fact, she had never heard of this word before, but the strange thing was that she seemed to be very familiar with this word and could understand the meaning of this word at once. Her eyes unconsciously looked at Xi Zhiwei's bulging belly. In her mind, something suddenly flashed and her head suddenly felt a piercing pain.
