

Deeply 770

770 Force out his true heart (10)

Shen Ziwei was the adopted son of the SU family. His grandfather had suddenly brought him home one day. No one knew his identity or background, and his grandfather had never explained anything to him. He had always stayed at home.

Even though he was the young master, he was still not in a proper position and was living under someone else's roof. Shen Ziwei's words and actions were cautious and reserved. He treated people politely and did not have the temper of a young master, so the family quickly accepted him. The servants also liked him very much.

When he came to the SU residence, he was about ten years old, about the same age as her sister and her, just a year or two older. In addition, he had a gentle temper and was good-looking. Her sister and she did not have much resistance, so she quickly fell in love with this little brother and treated him as family.

However, even though Yueyue had lived with them since they were young and treated them like family, they were not real family. Grandfather valued blood relations so much, so how could he let a non-family member inherit the SU family?

All kinds of thoughts were spinning in her mind. Su Wanwan opened her mouth and wanted to ask clearly, but she couldn't ask so directly, afraid of hurting brother Ziwei's heart.

She chose her words carefully, trying to figure out how to say it. Shen Ziwei seemed to have read her mind and spoke on her behalf. "are you trying to ask why Grandpa let an outsider like me inherit the SU family business?"

Although this was indeed what she was thinking about, outsiders were teasing her.

Su Wanwan shook her head repeatedly. "brother Ziwei, don't misunderstand. I've never treated you as an outsider. In my heart, you're my biological brother!"

Shen Ziwei smiled. "Wanwan, we're not really a family. My surname is Shen, not su."

"Brother Ziwei, please."

don't worry, Grandpa doesn't really want to give SU group to me. He just wants me to manage SU group for the time being. When our little brother grows up, I'll hand the company over to him.

".....?"

That's right, she should have thought about it earlier. Grandpa was such a scheming person. How could he give up the company so easily? everything he did was for the prosperity of the SU family from the beginning to the end. Even after he passed away, he had already laid out a way out in advance.

To be honest, brother Ziwei wasn't the only outsider. Her own granddaughter was an outsider too, right? Otherwise, he wouldn't have let brother Ziwei inherit the company. He was probably worried that she, a woman, would side with her child and fight for the company if they had one.

As long as she got married to brother Ziwei, her children would be part of the SU family. Then, the company would be given to Xiao Zeze, and they would still be her children. They would all belong to the SU family anyway, so it didn't matter.

Su Wanwan tugged at the corner of her lips but couldn't smile. Grandpa, you're really making people feel vexed in the end. Xiao Zeze is my younger brother, how can I not treat him well? Can we still snatch his things?"

our Grandpa is always like this. He always has a clear goal in everything he does, but he won't give up until he reaches it, right? "

Su Wanwan raised her eyes and looked at the faint smile on Shen Ziwei's face. She pursed her lips, hesitated for a few seconds, and finally opened her mouth. brother Ziwei, then do you really want to follow grandpa's wishes and marry me? "

but Yingluo, how Can We Get Married? the person you like is clearly Yingluo.

Before su Wanwan could finish her sentence, Shen Ziwei interrupted her with a smile, " Wanwan, Grandpa raised me. No matter what he asks of me, I will do it!
