

Devil World 591

Chapter 591: Back to Japan!

Yue Zhong motioned for Li Ying to sit down, and observed her quietly.

Her skin was a healthy wheat colour, after cutting her hair short, coupled with her skinny frame and height of about 1.45m, she wasn't exactly a top-rate beauty. Compared to the beautiful women like Guo Yu, Chen Yao, and Hai Lan, her looks were different. She had nice features, and looked more valiant than beauty. She was a young girl with a different charisma and aura.

Li Ying could feel Yue Zhong's gaze and sat straight, meeting his eyes. Her eyes were filled with reverence and awe.

Within a month's time, Yue Zhong had led their forces to take down 3 of the largest factions in the north, and had slaughtered countless locals who had killed their fellow Chinese. His decisive and merciless ways caused his name to spread far and wide, and people like Li Ying held him in high regard.

He broke the silence and said: "Li Ying. From today on, you are the governor of my Country A faction. You'll be in charge of running everything here."

"Yes! Leader!" Li Ying did not hesitate and replied, before asking: "Leader, are you going back already?"

He kept his gaze on her, his voice became warmer: "That's right! I need to return to China. My roots are there. I need someone I can trust to help me oversee things here. Are you to the task?"

She immediately stood up with a serious expression: "Definitely! I will use my life to swear that as long as I live, I will definitely not let your efforts in building this place go to waste. Everyone here would be loyal to you, now and in the future."

Li Ying and the rest of the Youth Corp members were all ardent fans of Yue Zhong, and were willing to fight to the death for him. After all, they were all rescued from a cruel fate by Yue Zhong. Not only did he save them, he had helped them become powerful Enhancers, and led them in killing the cruel and barbarian locals. There was no doubt in their loyalty and respect for Yue Zhong.

"En!" Yue Zhong revealed a smile, and opened up a gold box. There were 150 vials of Evolving Liquid within. "This is my final gift to aid you, there are 150 vials of Evolving Liquid here. If a normal person consumes one vial, he or she would become an Evolver. Other than these, in this short span of time, there's nothing else I can do. You will need to rely on your own strength to consolidate your rule. At the same time, I hope that you can quickly eliminate other local factions and expand your power here.

"Yes! Leader!" Li Ying looked at the 150 vials and her heart was filled with excitement. She was clear about the meaning of an Evolver. With these 150 vials, she could produce a troop of 150 Evolvers. It would truly be a terrifying group.

After she received the box, she saluted Yue Zhong and replied: "Leader, please rest assure. I'll definitely set out to complete the tasks."

He waved his hands, and dismissed her.

After formally inducing Li Ying as the governor, Yue Zhong brought the 4 Thunder Fighters as well as the 7th Fleet and left Country A, making their way back to Japan.

There was still the mothership in Japan's waters, and an incomplete Sky Fortress. The moment Yue Zhong brought these back to China, his might would be consolidated.

This time, Yue Zhong had easily obtained victory over those 3 Northern Country A factions because he had the 4 Thunder Fighters with him. Each of them possessed a destructive might more than thrice that of a normal helicopter. Due to them, he had been able to crush the confidence of the locals, otherwise, he would have to pay a certain price as well.

The Thunder Fighters were terrifying, but they were still overshadowed by the fighter jets. The U.S Navy mothership had dozens of fighter jets. Adding on to the advanced radar scan of the 7th Fleet, they would be able to deal with the Thunder Fighters if the Kingdom of God decided to send more.

When Yue Zhong left, he brought Bai Xiao Sheng and his Evolver subordinates with him, causing the strength of the Country A faction to plunge.

However, Li Ying was a smart kid, she had immediately issued out some of the Evolving Liquid to 60 of the most loyal child soldiers, turning them into Evolvers. With them, it was enough to suppress any potential revolt.

At the same time, she didn't make haste to advance southward. Instead, she continued to clear up the smaller factions in the North, while training her troops and gathering resources. Her power was slowly reinforced, while expanding ever so slightly. Under her rule, the Country A faction began to stabilize and grow.

"Otto-sama. Welcome back."

The moment Yue Zhong stepped out of the Thunder Fighter, Shimazu Mina led the rest of the Japanese women in greeting him politely.

Tenpyo Saka was still wearing the bomb collar standing quietly while looking at Yue Zhong with a complicated gaze.

He smiled slightly and replied: "En, I'm back."

Muto Shin came up to Yue Zhong and reported: "Leader! Takama-ga-hara had sent an envoy to request an audience."

Yue Zhong was taken slightly aback. After pondering awhile: "People from the Takama-ga-hara? Let him come."

Soon, Muto Shin led a young man of about 27, 28 who grew a small moustache into the room. He was good-looking, and wore a crisp suit, giving others a favourable impression as he entered.

Inside the living hall, Shimazu Mina was kneeling by Yue Zhong's side in her kimono, helping to prepare some tea. Yue Zhong laid back on a sofa, relaxed. By his feet, Sakura Shiroyuki and Amano Asami were helping to massage his legs.

Even after becoming Evolvers, both of these beauties were still obediently massaging Yue Zhong, not daring to be the slightest bit disrespectful.

The young man bowed before saying: "Oda Meiwa from Takama-ga-hara greets Yue Zhong-sama!!"

Yue Zhong responded indifferently: "Out with it! You guys should have known my temper from your previous delegate."

Oda Meiwa chuckled as he suggested: "Yes! Yue Zhong-sama, our Takama-ga-hara hopes to enter an alliance with you. Both parties would trade and not antagonize each other. What do you think?"

Takama-ga-hara had strength, but they were just one of the many factions in Japan. The current situation was similar to the Feudal period of Japan. Furthermore, there were zombies and Mutant Beasts everywhere, threatening humanity.

Tetsuo Nendori was also a warlord, and could feel that Yue Zhong was tough to deal with. Hence, he changed his thinking, and wanted to ally with Yue Zhong. After all, Yue Zhong was Chinese, and would not be able to sway the majority of the Japanese to his side.

Chapter 592: Port Fang Cheng!

Yue Zhong thought for a moment, before replying: "Sure!"

Initially, Yue Zhong had wanted to deal with Takama-ga-hara because he felt their strength to be a threat to him. Now that they had suffered some losses, the threat level had receded somewhat. He wasn't willing to be engage in an all-out fight against them as well. After all, it was Japan here, not China. He did not intend to stay here for long.

When Oda Meiwa saw that Yue Zhong was agreeable, he could not help but sigh in relief.

Tetsuo Nendori might not necessarily have let go of his hatred of Yue Zhong, it was just that he needed time to retrain and raise up his troops. It was not wise to fall out with Yue Zhong at this point.

After coming to an agreement, Yue Zhong sent Oda Meiwa away.

Yue Zhong looked at Shimazu Mina and asked: "Is the Sky Fortress ready?"

She looked at him with a complicated gaze, while responding respectfully: "The construction is done!"

"Bring me there!"

"Yes! Otto-sama!"

Under her guidance, Yue Zhong came to that underground factory, this time it had thoroughly transformed into a city, with lights flashing at its sides. The whole body had a metallic luster, and there were a number of heavy cannons mounted on it. These cannons had been salvaged from the remainder

of the unusable Thunder Fighters. In addition, there were other heavy machine guns, semi-automatic rifles, and the entire sphere looked like something right out of a sci-fi film.

This was the main structure of the Sky Fortress. The Shimazu Clan had spent a large amount of resources to bring it to fruition. The fact that such a colossal thing could fly was a feat in itself.

Shimazu Mina pointed at it and said: "The manufacturing of the laser cannons have not been smooth. If we want to add in those side laser cannons, it might take another half a year, as well as more resources. Right now, other than the capability to fly, the Sky Fortress does not possess much combat strength. If you want to gain a huge warship, you might need to wait for another half a year."

Constructing this Sky Fortress had cost the Shimazu Clan huge amount of resources and manpower. They simply could not divert more to develop the laser cannons. Shimazu Mina had promised that because she had hoped Yue Zhong would help to lead her troops to attack the city and get resources. That way, she would be able to complete the rest of the Sky Fortress.

Yue Zhong looked at it with satisfaction, saying: "It's ok! I'll be returning to China tomorrow." He then asked: "Mina, are you willing to come to China with me?"

As long as the Sky Fortress could fly, Yue Zhong would be able to bring it and the manpower on it back to China. From there, he naturally would be able to use the blueprints to finish the rest and manufacture more.

Shimazu Mina's eyes flashed with some hesitation, before they shone with a resolve: "Otto-sama, Mina is unable to give up of Sakura Town, the base of our Shimazu Clan. I'll be unable to leave with you. Mina is willing to take care of Japan on your behalf."

"En!" Yue Zhong responded mildly. Her not following was not an issue. After all, the Sky Fortress was a huge haul for him.

While Shimazu Mina wasn't willing to follow Yue Zhong, Sakura Shiroyuki, Amano Asami, Ogura Reiya and Ida Kyoko were extremely willing to follow him.

After all, Japan was still in chaos right now, without the protection of an expert, even if the women were Evolvers, they might still end up as toys for other powerful experts.

Early the next morning, the mountain split open slowly, and the Sky Fortress began to float up into the sky. There was no mechanical noise, instead, it seemed to release some strange energy, allowing to fly noiselessly in the sky, as though it was an alien spacecraft.

Yue Zhong sat within and could not help but sigh with admiration: "Truly amazing."

Bai Xiao Sheng held 2 Indonesian beauties in his arms, as he kissed them both before chuckling: "This is the might of the anti-gravity energy converter. It has truly exceeded our expectations."

Yue Zhong mulled silently before replying softly: "This sort of technology should be beyond even 100 years in our future. The person behind this all is truly frightening."

Yue Zhong had been gaining strength constantly ever since the apocalypse started. However, the stronger he got, the more he felt the pressure of the person who had called himself 'God'. The humans were just like ants on this Earth, and could only struggle.

“So what. Since that person had called himself God, this sort of strength is reasonable. Boss Yue, let’s not think too much. Life is short. We should enjoy ourselves when we’re alive!” Bai Xiao Sheng chuckled, before lifting the chin of one of the beauties by his side and grinned lewdly: “Beauty, come, feed your Master some wine.”

The Indonesian beauty smiled seductively and lowered her head to take in some wine, before feeding to Bai Xiao Sheng through his lips.

After savoring the wine, he laughed out loud, saying: “Haha! Having a beauty feeding one wine, it truly is an enjoyment in this life! Boss Yue, let’s forget about your troubles. We should live on well!”

Yue Zhong looked at Bai Xiao Sheng and smiled slightly. He didn’t say anything, after all, everyone had their way of life. He did not want to stop Bai Xiao Sheng from living his.

In truth, other than being a lustful person, Bai Xiao Sheng was not a bad character. The main thing was, he had lack of ambition, and could be considered as loyal to Yue Zhong. After all, he had joined him in many conquests.

Sakura Shiroyuki walked over to Yue Zhong with a seductive smile: “Master, I want!”

Amano Asami also came into his arms with a fragrance as she grinned: “Me too!”

Reveling in the scent of these 2 beauties, Yue Zhong felt his blood rush, and he brought them to his room. It was time for him to relax as well.

Bai Xiao Sheng shot a lewd look and roared out in laughter, before pulling his own beauties towards another direction: “Hehe! Boss seems to be cut of the same cloth as me! Brothers, let us disperse for the night!”

Within the control area, there were numerous elite soldiers. Other than a few, most of them had a beautiful Indonesian lady with them. They had followed Yue Zhong in his conquest of Japan and Indonesia. Yue Zhong also wanted to reward them, and had given each of them a pretty Indonesian.

He never mistreated his soldiers who fought hard for him. He knew it was hard to control everything himself, and he needed loyal subordinates.

Hearing Bai Xiao Sheng’s words, the rest of the elites chuckled and brought their women with them as they left for their own rooms.

Yao Yao was sitting in a corner, hugging the Biological Armor that had Ji Qing Wu inside, and snorted in irritation: “Men are all the same, a bunch of dicks.”

On the sea, the mothership and the 7th Fleet were carefully making their way across.

There were countless behemoth-type Mutant Beasts in the sea, just a single Type 4 possessed the strength to annihilate them. However, there was Hai Lan with them, and while she could not control any Mutant Beasts of Type 3 and above, she could feel their presence.

At the same time, with the advanced surveillance and radar system of the 7th fleet, they could tell the position of any large Mutant Beasts, and avoid them carefully.

Since the apocalypse, only the USS Blue Ridge had ships with radar systems could possibly navigate the seas. Otherwise, the lurking danger was too much for any other ship to bear.

Even then, if these ships or cruisers were not careful, they could suffer under the attack of any Type 5 Mutant Beasts. There would not even be a chance to defend themselves.

After a journey of a few days, the group finally reached Guang Xi's Port Fang Cheng.

Yue Zhong had a sizeable faction at Guang Xi, however, the truth was that there were too many zombies in the region. Even after trying their best to clear as many as they could, they had not yet expanded to this particular port.

The Washington aircraft carrier and the Blue Ridge warships had to find a port to dock, and hence Yue Zhong had selected this port.

There were numerous ships of various sizes floating at the dock, packed like ants.

He surveyed the surrounding and smiled lightly: "This time, we've struck it rich!!"

This port was one of the largest in Guang Xi in the past, its volume of trade everyday reached staggering figures. After the world changed, few had made it in time to get on the boats to flee, and thus, many were left abandoned. There was sure to be a large amount of resources left here, just waiting for Yue Zhong to collect once they have conquered the entire area.

Furthermore, these ships and cargo freights would become Yue Zhong's. Although they couldn't traverse the seas right now, they were still useful near the coast. It was a huge treasure to him.

On the Sky Fortress, Yue Zhong emitted a howl, and Greenie swooped down from the sky, bringing him to the harbor.

"Where are the zombies?" When Yue Zhong landed, he surveyed the surroundings and frowned.

There should have been a large number of zombies around these parts according to their last report. However, the entire place was empty, and the lack of zombies gave Yue Zhong a bad feeling.

"Is it because of the sea Mutant Beasts?" He walked around a bit and could see traces of sea Mutant Beasts having come ashore. However, it didn't feel right. It felt as though all the zombies of the port had disappeared.

He pondered a while before using his walkie-talkie to give an order: "Zhao Tian Gang, bring the Sky Fortress back to Gui Ning City. Ensure that the experts are settled in."

"Understood!" Zhao Tian Gang replied respectfully and the Sky Fortress began to move towards Gui Ning City.

It was filled with the experts of various fields that Yue Zhong had collected in Japan. Adding on to the talents already under his wing, he would be able to produce a technologically advanced equipment like the Sky Fortress.

Chapter 593: Pressure!

Yue Zhong's aim was to make use of good talents regardless of who they were. Even if they were from other countries, he would still accept them under his wing.

Under his orders, Zhao Tian Gang led the experts from Japan, as well as the different ladies towards the direction of Gui Ning City.

The Sky Fortress made use of technology that was far beyond the current technology, the moment it pushed its speed to the maximum, it could reach Mach-1. Very soon, it disappeared from its original location.

Bai Xiao Sheng led 30 Evolvers down towards Port Fang Cheng, as they began to search the area carefully. Yue Zhong was also personally sweeping through the place.

Regardless of how they searched the place, it was like a dead town, without a single trace of any being. The resources left behind had not been moved much. In fact, they had chanced upon a large amount of rice and other rations, however, a huge bulk of them had gone bad. Being a port that was near the sea, the high levels of moisture caused the food to go bad even faster.

Bai Xiao Sheng asked Yue Zhong: "There's nobody! However, there are traces of some things being moved towards the north. There should be people there. Boss Yue, shall we go check it out?"

Yue Zhong said: "It's too strange here. I'm taking 8 men with me. You stay here to guard the place. Report to me if anything strange happens."

Bai Xiao Sheng replied seriously: "Yes."

Although Bai Xiao Sheng had an easy-going attitude and a flippant way of doing things, after one strong lesson of defeat, he learned when he should be serious.

Yue Zhong led the 8 elite soldiers as they searched their way towards the north. Port Fang Cheng was a huge port in Guang Xi, and he needed to control this place entirely, otherwise it would be difficult to develop a navy,

Even if the seas were more dangerous in the current apocalypse, Yue Zhong hoped to bring up a navy. It was still fine if they could handle the coastal areas.

"Put down your weapons, raise your hands, and surrender immediately! Or we'll take your lives!"

After Yue Zhong entered the city area, 20 men in strange clothes suddenly appeared. They held machetes, vegetable knives, and handguns, as they surrounded Yue Zhong and his men.

These militants eyed the equipment on Yue Zhong and his men with greed in their eyes.

Yue Zhong and his men were currently carrying assault rifles on their backs, with Tang Replica Blades at their waists. They had military gloves and boots and were truly armed to the teeth.

One young man wearing glasses stepped forward and warned: "You guys better not try anything funny. I know you're military, however, our Boss Zheng is a powerful Evolver. His level is 35 and he can even slaughter a L2 with a single strike. We just want your weapons, and not your lives."

Yue Zhong glanced at the young man with disdain and replied coldly: "Oh? So who is your Boss Zheng?"

"I'm right here!!" A burly man wearing a black leather shirt stepped out. His skin was tan, but his eyes were crossed, and he was hugging an alluring woman as he talked.

He spoke with his nose in the air, while grabbing a glass bottle in his right hand and he crushing it easily: "You guys must be soldiers! I will not make things difficult for you, just hand over your weapons."

This Boss Zheng crushed the glass bottle to exhibit his terrifying grip strength. An ordinary person would definitely not be able to perform a feat like this. Seeing this, the 8 subordinates with Yue Zhong laughed. Such a trick was way beneath their level.

"Kneel!" Following a loud roar, one of the subordinates, Zhao Zhang Xing shot forwards, pulling out his Tang Replica Blade swiftly and swinging it right before Boss Zheng's throat.

This Boss Zheng was only some Level 35 Enhancer, in front of Zhao Zhang Xing, an elite soldier with an Evolver status as well as the experience of countless battles, he was simply incomparable. He looked at the Tang Replica Blade in front of his throat, and his legs turned wobbly. He then knelt down while trembling: "It is I who have eyes but do not recognize Mount Tai!! I'm sorry! Please spare my life!! Spare my life!!"

If he were to face 8 ordinary soldiers, it wouldn't be a problem, but against Level 40 Evolvers, he was incredibly weak.

Another subordinate of Yue Zhong, Yang Gang stepped forward and barked coldly: "This person in front of you is Leader Yue Zhong, all of you get on your knees now, otherwise you'll be executed!"

These subordinates of Yue Zhong had grown used to forcing their enemies to kneel throughout their conquests. Forcing the enemy to humiliation was one of the best ways to attack their pride, confidence, and to quell any notion of resisting.

The moment Yang Gang shouted, all of the 20 militants immediately fell on their knees, as their bodies trembled like their leader who was held at knifepoint.

In this world, kneeling was no longer something that shameful. In fact, there were more cruel and brutal ways of doing things, and they knew that they were getting it easy already.

Yue Zhong eyed Boss Zheng and asked coldly: "What's your name?"

Zheng Bo Yan trembled as he spoke: "My name is Zheng Bo Yan. Leader Yue Zhong, I did not recognize Mount Tai and have offended you. I seek your mercy and kind pardon, please spare my life. I'm willing to do anything."

In this world, Zheng Bo Yan had seen many unreasonable experts. As long as someone offended them, his or her fate would be disastrous. Yue Zhong did not seem very friendly as well, thus he chose to submit.

Yue Zhong finally asked the question he was concerned with: “Zheng Bo Yan, do you know where the zombies of Port Fang Cheng disappeared to?”

“I do not know.” Zheng Bo Yan spoke hesitantly, before revealing all he knew to Yue Zhong.

He had been an Enhancer in a small town near Port Fang Cheng. Before the apocalypse, he had been an auto mechanic, and his body was in fine shape. After becoming an Enhancer, he had begun killing zombies and Mutant Beasts around the town, leading a solitary life. There were a few instances where he almost died to some powerful Mutant Beasts. Initially, he thought that this would be how his life would be like from now on. However, just a month ago, when he came to search Port Fang Cheng for goods, he realised that the zombies had disappeared. He then proceeded to move around in glee, collecting a number of small brothers.

The moment the zombies disappeared, all of the survivors that had been holed up and hiding like mice came out, forming all sorts of factions.

With over 800,000 people in Port Fang Cheng before the apocalypse, after an entire year, there were still over 20,000 people around these parts.

Due to the large shore area, there were plenty of resources lying about. As long as the survivors were careful enough to avoid the sea Mutant Beasts, they would profit tremendously.

Zheng Bo Yan led one of the various smaller factions of the gangs in Port Fang Cheng. The largest group was actually a triad that called themselves the Tian Yang Gang. with over 5,000 people. Their chief was a powerful warlord, and the rest of the factions were just small-time gangs.

Yang Gang asked: “Leader, what do we do now?”

Yue Zhong pondered before replying: “Let’s collect the smaller gangs first.”

With over 5,000 people in the Tian Yang Gang, it was a sizeable faction. If Yue Zhong wanted to conquer them, he would need to deploy some troops. Right now, he had only 60 Evolvers above Level 40. It was still too risky to make a move on them.

Of course, the Blue Ridge warships had the ability to just destroy the whole of Port Fang Ning, but Yue Zhong did not want a wasteland. He was naturally unwilling to utilize his navy might. If it was in Indonesia or Japan, then Yue Zhong would not have hesitated to blast his enemies out of the way.

He came to a decision, and 40 Evolvers were assigned to come over.

They were split into 4 teams, and went to contact the rest of the gangs littered all around the city. Some of these leaders of the small gangs were only about Level 10 or so, and could not even fend off an L2. To a powerful team of elite Evolver soldiers, they were basically nothing.

Under the constant roars and shouts of rage, the leaders of the small factions around Port Fang Cheng were either killed or forced to submit, and their power was consolidated under Yue Zhong.

In just one day, Yue Zhong made use of his absolute strength to conquer over 20 factions, and gathered them under his wing. There were a total of 700 people in his faction at Port Fang Cheng now.

Witnessing his overbearing and tyrannical strength, Zheng Bo Yan and those who had submitted the earliest were agape with shock. Yue Zhong had shaken the entire Port Fang Cheng the moment he arrived, and they were thoroughly convinced of his strength.

One young man held an invitation as he came up to Yue Zhong respectfully: "Sir Yue Zhong, this is the invitation from my Young Master. We hope that you can attend the banquet that he's hosting."

"Got it!" Yue Zhong received it, as his eyes flashed coldly before dismissing the youth with a wave of his hand.

"Seems like you want to act against me eh? Fine, let's see what capabilities you have." Yue Zhong held the invitation and laughed coldly.

Night, as darkness encroached the land, within a lavish 4-star hotel, a number of handsome young waiters and beautiful waitresses were weaving in and out the crowd.

Chapter 594: Forceful integration!

In that hotel, the guests were all leaders of the various factions of Port Fang Cheng. They had been farmers, fishermen, sailors and other ordinary characters. None of them had class, and their demeanor was boorish while their behaviour was crass.

Even for someone like Yue Zhong, his very being radiated an intense killing aura, but his etiquette was lacking when compared to scions.. After all, those socialites and sons of the famous and rich had a specific form of education, whereas he lacked that type of knowledge.

One particular tanned middle-aged man with a bald head and swollen eyes looked at another man with an eyepatch and 2 claw scars running down his face, and asked: "Brother Fang, do you think this Yue Zhong will come?"

The bald middle-aged man was called Long Jian An and he was the chief of the Rainbow Gang, one of the 8 prominent triads of Port Fang Cheng. As for the scar-faced man, he was called Fang Zhen, the leader of the Whale Gang.

Fang Zhen spoke somewhat savagely: "He will definitely come. If he wants to join our alliance, he will come. I've made it clear, that if he doesn't, our alliance will make sure to eradicate him. He's too dangerous!"

The 8 main triads of Port Fang Cheng were the Rainbow Gang, Whale Gang, Sea Sand Gang, Sea Waves Gang, Sea Wolf Gang, Coral Gang, Sea Fork Gang and the Sea Soul Gang.

As Port Fang Cheng was close to the sea, the leaders all opted to use sea-related names for their gangs.

Yue Zhong had appeared for only one day, and had already gained control over 700 survivors. If he was allowed to continue like this, the rest of the factions in Port Fang Cheng would be swallowed by him.

One skinny man that looked like a monkey, Chen Sha, who was the leader of the Sea Sand Gang, frowned and quipped: "What's the background of this Yue Zhong? How come there would be someone like this all of a sudden?"

Zhan Tian Yi, the leader of the Sea Waves Gang furrowed his brows and said: "Could it be the leader of Gui Ning City, Yue Zhong?"

Hearing those words, the faces of the leaders immediately turned dark.

Everyday, there would be a broadcast from Gui Ning City, inviting survivors to head there, at the same time, summoning the various factions in the Guang Xi region to submit to Gui Ning City.

Port Fang Cheng had received those transmissions as well, it was just that these 8 leaders were living comfortably and did not want to give up their power and control over to Gui Ning City.

Chen Gui He, the leader of the Sea Wolf Gang spoke slowly: "It could just be a coincidence! The world is vast, it's not strange for people to share names. It might not necessarily be him."

Hearing Chen Gui He's words, the 8 leaders slightly relaxed, they really didn't want to come to blows with the leader of such a huge faction.

"Yue Zhong arrives!!"

As Yue Zhong stepped into the hotel, the waiter at the entrance called out loudly.

Hearing the announcement, everyone swivelled their heads to look at Yue Zhong.

In just one day, one day! Yue Zhong had swallowed over 20 factions in Port Fang Cheng, this caused everyone to be apprehensive.

One vicious-looking man laughed savagely, before pulling out a gun and swiftly aiming at Yue Zhong: "So you're Yue Zhong? You've got guts! You actually dared to come alone. Good!! Good!! Your guts are something else, but too bad you lack brains. Today will be the day you die!!"

The vicious-looking man had a speed that exceeded a normal person by 6 times, and to the normal people present, his speed was incredible.

However, Yue Zhong's speed was even faster than his, and he grabbed the man's hand casually, before twisting it. He then turned the man's hand and placed the gun into his mouth before pressing the trigger.

With a loud gunshot, the fierce man's head was blasted, and his brains and blood splattered behind him.

Such a scene would have invoked countless screams and shouts from the witnesses. However, in this apocalypse, everyone had grown used to seeing death and conflicts. When the corpse crumpled to the ground, 2 waiters stepped forward and carried his body out.

At the same time, the gazes of the leaders present were filled with apprehension. The fierce man was a fast shooter, and there had been 15 leaders that had fallen at his hands. He was also a well-known expert in Port Fang Cheng. Such an expert was actually taken down by Yue Zhong in a second, and they were filled with shock.

Long Jian An tried to bark at Yue Zhong with a self-serving tone: "Yue Zhong. I'm Long Jian An, the leader of the Rainbow Gang. You came in here and immediately killed a leader. What the hell are you up to? Do you want to go against all of us here?"

His words immediately riled up the strong feelings in all of the leaders, as they stared at Yue Zhong with hate and prepared to attack.

"Fuck off!" Yue Zhong stepped forward and shot Long Jian An a glare, with his killing intent billowing towards the skies, pressuring Long Jian An.

Long Jian An instantly cowered, and he retreated a few steps involuntarily as his face was full of fear.

After forcing Long Jian An back with his gaze alone, Yue Zhong walked towards the stage under the gaze of everyone present, and stared down at all of the leaders of Port Fang Cheng like an emperor.

Yue Zhong gazed coldly at the leaders and spoke in a matter-of-fact tone: "I'm Yue Zhong! The leader of Gui Ning City with a million survivors! You have 2 choices now. Submit, or die."

When they heard his overbearing announcement, all of the leaders immediately became silent, it turned out to be actually him.

One middle-aged warrior with a full beard shouted: "Even if you are Yue Zhong, so what? This is Port Fang Cheng. It's not Gui Ning City. Your father, I am not convinced that you can do whatever you like. If you have the guts, you can kill this old one!"

"Sure! Go to hell!" Yue Zhong pulled out his Stinger and immediately fired a shot at the burly warrior.

Before the warrior could even react, his brain exploded, as red and white matter splattered all over the ground. The woman in his grasp turned pale, as the body crumpled to the floor, and brain matter dripped all over her clothes.

Seeing this, the faces of the leaders changed terribly.

Yue Zhong's speed had exceeded the sound barrier, almost everyone only saw a quick shadow. With this single move, everyone knew that they were no match for him in speed.

"Who else is still not convinced?" Yue Zhong viewed them with contempt as he drawled icily.

Long Jian An shouted out in a frenzy: "Do it! Everyone, let's join forces against him, we have nothing to fear!"

Before he even finished, Yue Zhong waved his hand, and the Stinger fired once more. Long Jian An's head then exploded like a watermelon.

However, his words had riled up the fighting spirit of the leaders in the hall, and they began to exhibit their skills, charging towards Yue Zhong.

Many of the leaders of the small and mid-sized factions were summoned by Long Jian An as help. If Yue Zhong was not willing to join the alliance, then they would all act against him. However, they didn't expect him to be this strong, and forceful, wanting them to submit to him.

Of the skills and abilities revealed, most of them gained Strength-type and Agility-type books. Hence, most of the leaders enhanced their respective stats and attacked Yue Zhong.

“What a bunch of fools, you truly do not know death. Since you guys are looking to die, I’ll grant your wish!”

Yue Zhong looked at the leaders and laughed coldly, before reaching out with his right hand to fire his Devil Flame. In an instant, dozens of fireballs appeared out of thin air. He then pointed at the leaders swiftly, and the fireballs shot towards the leaders.

The moment the devouring fire came in contact with any of the leaders, their heads were instantly turned to ashes.

Seeing such a terrifying scene, many of the leaders who did not act immediately turned pale, as their bodies trembled uncontrollably. It was the first time they had seen such a frightening person, who could easily eliminate dozens of people in a single move.

Fang Zhen of the Whale Gang immediately got on his knees and shook as he stammered: “The Whale Gang is willing to submit and obey any of the commands of Leader!”

Fang Zheng had not seen such a powerful expert like Yue Zhong before. Just with his power alone, it was enough to annihilate the whole Whale gang. He did not dare to provoke him anymore. The death of Long Jian An was still fresh in his mind.

“The Sea Fork Gang is willing to submit to Leader, and obey Leader’s commands!”

The remaining leaders began to kneel one after the other, and their bodies trembled as they swore fealty to Yue Zhong.

When Fang Zhen saw this, his heart was full of bitterness. He had wanted to oppress Yue Zhong, forcing him to join the alliance, before curbing his rate of expansion. Who knew that it would become a stage for Yue Zhong to forcefully suppress all of them instead, and force them to submit to him. It was simply trying to steal the chicken but losing the rice instead. (Idiom: seeking to gain some advantage but being taken advantage of in the end)

Yue Zhong looked at them kneeling and smiled slightly.

There were dozens of leaders who had been killed, including the chief of the Rainbow Gang. The smaller factions of Port Fang Cheng were thus thrown into chaos.

However, those who had chosen to submit to Yue Zhong were absorbed into his forces, and after accumulating these survivors, Yue Zhong’s faction thus grew into one with 5,000 survivors.

However, as there were too many factions, there had been conflicts between some of them. Yue Zhong had no choice but to address them and forcefully integrate the new troops. There was no way in the short future that he could advance further into Port Fang Cheng’s city.

Although he had swallowed a number of them, in truth, they had just submitted to him, and their hearts were not fully loyal yet. There was the possibility of revolt, so he needed to reorganize everybody.

“4 in the afternoon, meet you at the entrance of the shopping mall.”

As Yue Zhong was busying himself with the handling of affairs, someone delivered a message over. It was an invitation from the head of the largest faction of Port Fang Cheng, Lie Ming Yi.

At 4, Yue Zhong went alone towards the shopping mall of the city.

At the entrance, there was a man in black leather clothes, his stature was average, and his hair was short. He was good-looking, and sat under a large umbrella. There were 2 beautiful serving girls beside him, and he sat in front of a glass table, with a plate of fruits on it.

Yue Zhong came up to the table, and sat down, before looking at the man. He could feel a slight sense of danger from the man, one that could threaten his safety. It was evident that this man was also a high-level Evolver, and could be comparable to the weakest member of the Takama-ga-hara.

“Lie Ming Yi?”

“Yue Zhong?”

Both of them uttered out at the same time, before exchanging looks, with their eyes filled with slight amazement.

Lie Ming Yi fixed his gaze on Yue Zhong as he slapped his hands lightly: “Yue Zhong, Port Fang Cheng is under my territory. Can you leave? In exchange, I can send you 2 absolute beautiful virgins, 200 other virgins, 10,000 tons of rations, 1,000 tons of fuel, 1,000 tons of metal, and 500 tons of cotton. You troops can also move freely within Port Fang Cheng.

2 absolutely beautiful women with snow-white skin and stunning figures came up beside Lie Ming Yi.

Yue Zhong shook his head and rejected: “No way! I have to gain this place. Lie Ming Yi, you had best find someplace else to expand. I have set my sights on this place. Soon, my troops will come over to start running this place.”

The moment Yue Zhong gain Port Fang Cheng, he could start training up Enhancers. With the port, his navy could also dock there. This was extremely important to Yue Zhong, and he could not let go of it no matter what.

Lie Ming Yi frowned slightly before sighing: “Alright, I’ll leave then!”

He had only 5,000 men with him, and knew that the Tian Yang Gang had no means of dealing with Yue Zhong or his troops. Even he himself had no confidence that he could take out Yue Zhong alone.

Yue Zhong saw that Lie Ming Yi was willing to give in, and did not push for anything else.

He knew that Lie Ming Yi was a powerful expert. If he were to run, Yue Zhong did not know if he could kill him easily. Should Lie Ming Yi escape, then Yue Zhong would have an additional headache. He had a strength that Yue Zhong could not ignore, and thus, he did not force Lie Ming Yi like how he did the other smaller factions.

Lie Ming Yi suddenly spoke: “Yue Zhong, I know a place where a Novice Village exists, do you want to join forces and go check it out?”

Chapter 595: Recruiting Lie Ming Yi!

Yue Zhong's brows arched, his eyes flashing with surprise: "Oh! There's a Novice Village around here? Where exactly?"

The Novice Village had opened only about a month after the world changed. It can only exist if a person were to discover and own it. Other than Lei Jiang City, Yue Zhong only heard of another in the grasp of the Kingdom of God over at Europe. That was how they trained up a large number of soldiers.

As long as one could nurture an ordinary person into a Level 10 Enhancer, they could do a Job Change at the Novice Village and gain the Gun Specialization Skill as an elite soldier. They were much stronger than ordinary soldiers. In Japan, the elite troops of the Kingdom of God holding off over 5,000 soldiers of the Takama-ga-hara had left a deep impression on Yue Zhong.

If Yue Zhong could control a Novice Village, he could mass produce top-notch soldiers. Other than turning people into soldiers, he could groom talents in other fields as well.

In fact, he had considered bringing his troops to conquer Lei Jiang City the first thing once he went back to China. However, he never expected to gain some news on a Novice Village here at Port Fang Cheng.

Lie Ming Yi chuckled lightly: "Ning Xi City! There's one over there. I had gone through the Job Change there with some friends."

Yue Zhong frowned: "There should be many zombies over there right?"

Ning Xi City was about 50km away from Port Fang Cheng. Before the apocalypse, there had been a population of over a million.

After the apocalypse, all the major cities suffered the largest number of zombies. The smallest horde had numbered about 500,000. With such a horde, without a strong troop, there was no way of fending them off.

Even if Yue Zhong managed to gather all 5,000 survivors of Port Fang Cheng, he was not blindly arrogant to think that he could use them to eradicate the zombies of Ning Xi City. Even if he added on Lie Ming Yi's troops, it would be impossible.

Lie Ming Yi replied mildly: "Yea! The horde there is no joke. The hundreds of thousands zombies that used to be here had marched on towards there. There should be over 2 million zombies now."

"2 million?!" When Yue Zhong heard this figure, he frowned as he tried to do some calculations mentally.

The moment the size of a horde exceeded a million, it would be incredibly difficult to eradicate them fully. Even a faction like Yue Zhong would suffer a terrible price while doing so.

However, he had already obtained Yan Zhou, as one of the heaviest manufacturing industrial city before the apocalypse. After providing a huge supply of manpower, the entire city had produced a large

number of ammunition. At the same time, during Yue Zhong's absence, his people had discovered 3 armories. Now, he possessed enough manpower and equipment to fight against a million zombies.

Yue Zhong's tone became slightly heavier as he said: "I admire you very much, Lie Ming Yi. Are you interested in joining me?"

By now, Yue Zhong had over a million survivors, and his elite troops numbered more than 20,000. He could be considered one of the biggest warlords.

Although Lie Ming Yi was strong individually, in Yue Zhong's eyes, he was still barely a local thug leader. He wanted soldiers but there were no soldiers. He needed military fire but lacked them. The only thing that was worth evaluating was his personal strength.

In this world, a single person's strength was miniscule. Even a Level 81 expert like Yue Zhong could not possibly handle a horde of hundreds of thousands of zombies. The only way was for humanity to work together to form an army. That way, they can eradicate the zombies and restore some form of stability.

When Lie Ming Yi heard Yue Zhong's proposal, he hesitated before asking: "If I do join you, what kind of treatment will I get?"

By now, the notoriety of the Tyrant Yue Zhong of Guang Xi had spread far and wide. His exploits and defeated enemies were broadcasted everyday. Lie Ming Yi had also gotten word about Yue Zhong from an escaping survivor.

The number of experts under his wing numbered like clouds, his troops numbered over 20,000. It wasn't a force Lie Ming Yi could hope to contend with. When Yue Zhong proposed recruitment, he really had the thought of relying on him. However, it would depend on the price Yue Zhong was willing to pay.

Yue Zhong immediately offered a position of Major and Battalion Commander to entice him: "If you join me, you'll gain the post of a Major rank. Of course, everything of the Tian Yang Gang has to be handed to me. As for your brothers and your own possessions and women, they can be kept."

Yue Zhong had established his power, and any battalion commander post was extremely precious. It was a post where one could command a large army. Furthermore, with Yue Zhong leading, everyone would ride the wave with him. In the future, they would stand to gain much.

Gui Ning City had attracted numerous Evolvers to join and fight for Yue Zhong's cause. Even then, they would at most be lieutenants and captains. One could see the worth of a Major.

Lie Ming Yi was tempted. He had been ambitious and tried to raise the Tian Yang Gang, only to feel exhausted as time passed. Even a small gang had its troubles, the various power struggles within the gang itself. There was also the community of survivors that had to be looked after, as well as the problem with issue.

After Lie Ming Yi's faction had hit 7,000, it was hard to expand further. Just the consumption of ration was a troubling headache for him. Much of the food from Port Fang Cheng had gone bad and the amount he had left was only enough to last for another 3 months. Once he was forced to leave Port Fang Cheng, he might have to abandon some of the survivors.

He was passionate about fame and wealth, and decided to bargain: "Lieutenant Colonel. A Lt. Col. post. I'm a dual-attribute Evolver, and my level is 63. As long as you give me that post, I'll serve you. Tian Yang Gang will be all yours. These 2 absolute beauties are yours as well."

Yue Zhong revealed a smile: "Agreed!"

Yue Zhong felt that exchanging a position of a Lieutenant Colonel for the loyalty and service of a powerful dual-Attribute Evolver was worth it. He could offer such a position because his faction had expanded greatly. Furthermore, he had established some form of stability and society, plus his experts were numerous, that was why Lie Ming Yi felt comfortable throwing his weight in with him. If Yue Zhong had been alone, even if he was at Level 100, Lie Ming Yi wouldn't have chosen to follow him.

"Thank you Commander! No! Leader!!" Lie Ming Yi exclaimed in excitement. He had always wanted to be an officer when growing up, however, since the bureaucracy was too strict before the apocalypse, he didn't have the chance to even be a civil servant. Now that Yue Zhong was willing to, he was excited.

It must be clear that it was an honor to many Chinese to become officials and ranking officers. From Ancient China till now, it was a dream of countless heroes. Yue Zhong had formed some government in Gui Ning City, and Lie Ming Yi knew he had no chance of fending off Yue Zhong's army, thus he chose to submit, hoping to gain some merit, and earn some fame and riches for himself.

Lie Ming Yi managed to calm down, and immediately motioned for the 2 ladies beside him: "Xie Jing Yun, Wang Shuang Ru, why aren't you greeting your master?"

To someone who was excited about fame and riches, women held little allure over him. Compared to women, power was something a man should lust for. In fact, for the sake of a post, many had no qualms presenting their wives to other officials. Xie Jing Yun and Wang Shuang Ru had nothing to do with Lie Ming Yi, that was why he had no qualms giving them to Yue Zhong.

"We greet Master!" Both of them spoke up with a smile to seek favor with Yue Zhong, although not before a look of helplessness and bitterness flash past their eyes.

Humans during chaos could not compare to dogs in peace*. Both these women knew that the world had changed, and they were no longer females that were chased and sought after. If they didn't face reality, then they would just suffer a worse fate.

"En!" Yue Zhong swept his gaze past them faintly, but did not linger on them. Instead, he continued: "Lie Ming Yi, if you join me, there will be some in your gang that would not agree. What do you plan on doing?"

Lie Ming Yi chuckled in response, his handsome face revealing a slight killing aura: "Leader, rest assured, I'll handle it well. Those who aren't willing, will definitely not live to see tomorrow's sunrise."

Lie Ming Yi might have been able to converse nicely with Yue Zhong, but for someone like him to establish a gang like the Tian Yang Gang in this apocalyptic world, he wasn't some pushover as well. He would only speak courteously to Yue Zhong because of his strength. There was no way he could fight back.

He was also a man of actions, as he swiftly returned and announced his decision.

Immediately, chaos ensued. Not everyone was willing to follow, as some preferred their current lifestyles of drinking and eating, toying with women as they liked. They vehemently opposed joining Yue Zhong.

After slaughtering 8 of the dissident voices, the entire Tian Yang Gang swore fealty to Yue Zhong, and assimilated with his troops.

With Lie Ming Yi's submission, there were no other parties that could stand up against such a force. The smaller factions either chose to leave or join Yue Zhong. Soon, the entire Port of Fang Cheng as well as the city fell into Yue Zhong's control.

Evening time, Yue Zhong sat on Greenie's back, as it flew towards the direction of Ning Xi City.

A huge elite army had already set off from Gui Ning City upon Yue Zhong's orders. Along the way, they managed to clear 300,000 zombies, and camped about 50 km away from Ning Xi City.

Yue Zhong came specially to survey the place, and conduct a recon of his own to better understand the situation.

Chapter 596: Strange Blood Lotus!

Yue Zhong arrived in the airspace above Ning Xi City. When he looked down, he could see the entire city densely packed with countless of zombies.

In the dark, a ball of white light caught his attention.

He steered Greenie towards the location housing the source of the white light. He noticed two large queues around a large gate

Countless zombies were patrolling around that gate, of which, they were mostly evolved zombies. There were the large L4s and L3s, the fast and speedy S-types and Devourers, as well as the H1s that could shoot fireballs.

It didn't matter how strong a single expert was, charging headlong into this bright gate would only mean death.

Other than those evolved zombies, near the gate of light, there was also a monstrous organism of over 8m in length. Its body was covered in various barbs and tentacles. It had a pair of thick legs, and a pair of claws. Its body was ash-colored, and its head was an ugly visage of a snake-like form, its mouth filled with rows of sharp teeth. It stood there with a large bulging stomach.

"Level 98 Infected: Mutant Infected Womb. It possesses an incredible regenerative ability and powerful combat abilities. It is unaffected by the Z-Types' control."

Yue Zhong looked at the gigantic Mutant Infected Womb, as a chill came over his heart.

“What a terrifying monster! I think this must be the guardian beast of the Novice Village. Seems like I’d have to pay a huge price to attack Ning Xi City.”

A Level 98 Strange Beast was almost on the level of a Type 4 Mutant Beast. Without any heavy weapons, it would be easy for such a monster to kill over tens of thousands of people. Furthermore, compared to a Type 4 Mutant Beast, this Mutant Infected Womb could infect other people, and turn them into zombies.

As Yue Zhong flew around Ning Xi City a few times, he did not discover any place that he could utilize. He frowned: “Is a frontal charge the only way?”

Within Ning Xi City, the numbers of the zombies were really too many. Even if they could win the war, he would have suffered too much casualties. It would impact his other plans.

Yue Zhong’s strategy was to focus the majority of his troops on recovering the big cities, and make use of the resources and equipment in these cities to bolster his forces. Each and every huge city had over hundreds of thousands or even millions of zombies. Conquering each one was no easy task, without enough ammunition or heavy firearm, it would be impossible.

As he continued to survey from the skies, he noticed flocks of Mutant Giant Birds swooping down to swallow some of the zombies.

When a large number of them were gobbled up by the Mutant Giant Birds, having eaten their fill, the aerial beasts took to the skies again and disappeared behind a nearby mountain range.

Since the apocalypse, countless Mutant Beasts had increased in size. The large density of life in the seas had allowed the larger Mutant Beasts to eat their fill. On land, many of these Mutant Beasts treated humans and zombies as their food sources.

“I might be able to make use of those Mutant Beasts!”

Yue Zhong looked at the flock of Mutant Giant Birds flying, and directed Greenie to follow them.

Yue Zhong sat on Greenie and flew towards the mountain range. When he reached, he leaped down, and activated his Second Order Stealth. His body was instantly shrouded in a layer of energy, distorting others’ perception of his.

Under the cover of the night, Yue Zhong proceeded carefully towards the nesting areas of those Mutant Giant Birds.

Within the huge mountain range, there were numerous Mutant Beasts. As he walked carefully through the dense foliage, he could see spiders the size of discs, Mutant Wolves the size of tigers and lions. There were even huge mice as large as buffalos. Many had reached their Type 2 stage.

Under the cover of the Second Order Stealth, he evaded them and proceeded deeper into the mountain range.

The deeper he went, the larger the Mutant Beasts. Yue Zhong had even caught sight of some Type 3 Mutant Beasts. He held his breath, trying his best not to arouse their attention. His aim wasn’t to kill these powerful Type 3 Mutant Beasts.

All of a sudden, he heard an earthshaking roar. At the same time, numerous roars sounded out in succession.

When he heard that, his heart was shaken: “That sound, a Type 4 Mutant Beast?!”

Yue Zhong walked towards the source of the commotion.

In the dense forest, a fierce battle was happening between two powerful beasts. One was a bear-like monster about 6m, its body covered in a layer of black scales. It had powerful fists that could envelop an entire human body. Its claws were 1m long, and it was engaged with a beast that had the head of a tiger and body of a leopard. The other beast was covered in a layer of white scales, each of them incredibly sharp. There was a single horn on the head of the tiger-beast.

Although the bear-like monster was huge, it was incredibly agile. Each movement it made, there was a fleeting shadow left in its wake. Its speed had exceeded the Type 3 Lightning, and surpassed the sound barrier. With each slap, there would be a Mach-1 force behind its fists. Its strikes would punch through the scales of the tiger-like beast when connected, drawing blood.

The tiger-like beast’s speed was even more terrifying. It seemed even faster than the bear-like monster. Each time the bear-like monster drew blood with its fist, the tiger-like beast could launch 2 attacks in retaliation, tearing flesh from its enemy as well.

“Level 95 Mutant Beast: Type 4 Steel-Armor Bear.”

“Level 96 Mutant Beast: Type 4 White-Scaled Tiger.”

“What terrifying Type 4 Mutant Beasts!” Yue Zhong crept past them as he watched them going at each other, his heart full of shock.

The two of them weren’t exceptionally large, in fact, their bodies could not even compare to some Type 2 Mutant Beasts. However, their combat abilities far surpassed any Type 2 Mutant Beasts. If Yue Zhong had to go against either of them, he would not last more than 10 rounds, his defenses would be destroyed utterly by them, before being killed.

Yue Zhong looked at the 2 of them and held his breath as much as he could, not daring to make any rash move while in his Stealth mode.

The recovery of those 2 Type 4 Beasts was simply too sick, each time they dealt blows to each other, their vitality would cause the flesh and wound to recover at an incredible pace in front of their eyes. The battle got even fiercer the longer it lasted.

“Ah! Is that the lair of one of them?” Yue Zhong gazed about, surveying the surroundings, when he suddenly caught sight of a large den about 200m away from the Type 4 White-Scaled Tiger.

Yue Zhong gazed at the 2 beasts tearing into each other in a frenzy, and knew that the outcome wouldn’t be decided so quickly. He decided to go check out the den of the Type 4 White-Scaled Tiger.

He was extremely careful, as both beasts had their attentions on each other, he could make his way towards the den under the cover of his Second Order Stealth.

When he entered the den, he was hit by a strong stench. It was evident that the Mutant Beast lacked any hygienic habits. There were countless Mutant Beast bones littered all over the den. Some were even from Type 3 Mutant Beasts. Yue Zhong's heart raced and he immediately took all the sharp claws and bones into his Storage Ring.

Such leftovers, if turned into weapons, the sharpness could exceed even the Black Tooth Blade of Yue Zhong. However, the only thing was that those who used such handmade weapons would not be able to absorb the experience from killing any Mutant Beasts.

Even so, their claws and teeth were incredible treasures.

Yue Zhong absorbed over dozens of such claws and teeth before he arrived at the deepest recess of the den.

Within the deepest part of the cave, there was a blood-filled lake, and right in the middle, there was a blood-colored lotus that radiated. There were 4 blood-like lotus seeds budding, as the lotus flower continued to emit an alluring fragrance. It was apparently a precious item.

Not far from the lotus, there was a patch of grass, where a giant egg the size of a human laid. There were strange runes carved all over the giant egg, which was glowing and shimmering ever so slightly, as though it was breathing.

Beside the egg, there was a pile of nuclei. This was evidently leftovers the Type 4 Mutant Beast had set for its child.

Eyeing the blood lotus, the huge egg as well as the pile of nuclei, Yue Zhong's eyes lit up in joy: "Treasure!! These are all incredible treasures!! I've really struck it rich!"

He swiftly got out a glass basin, and stored the blood lotus, root and all into it. He then waved his hands and swept all the nuclei into his Storage Ring, before grabbing the giant egg and making a mad dash for the exit.

The moment Yue Zhong exited the cave, he activated his Shadow Steps, Bone Encompassing Armor, and let out a sharp howl towards the skies. The blood lotus and huge egg in his hands were biological lifeforms, and could not be kept in the Storage Ring, hence he could only escape.

The moment he exited, the Type 4 White-Scaled Tiger could smell the blood lotus. It turned to face Yue Zhong, and leapt through the air, shooting for Yue Zhong with a terrifying speed. It reached out with its claw and swiped at Yue Zhong's head with the speed of sound.

Chapter 597: Mutant Infected Womb!

The speed of the Type 4 White-Scaled Tiger exceeded the Type 3 Lightning. Even after Yue Zhong had undergone so many enhancements, he could not match its speed.

When the Type 4 White-Scaled Tiger moved, Yue Zhong's Danger Perception was pushed to the max, and a strong threat of death overcame him. With a thought of his mind, a Shield of Light materialized in front of him.

The Type 4 White-Scaled Tiger's claw smashed into the Shield of Light, and with a 'kacha', the shield disintegrated, falling to the ground in pieces.

Yue Zhong was horrified, and he quickly activated the other Shield of Light in front of the Type 4 White-Scaled Tiger.

With another swipe, the other Shield of Light was also destroyed, and only managed to obstruct it for a mere second.

In that second, Yue Zhong activated his Devil Flame, and a powerful flame that could devour everything spread out towards the Type 4 White-Scaled Tiger.

A light flashed past the eyes of the Type 4 White-Scaled Tiger, and it leaped above the terrifying Devil Flame tornado.

Just as it was about to launch another attack, the Type 4 Steel-Armor Bear suddenly appeared behind it and sent a claw smacking into its body, tearing a huge chunk of meat.

The Type 4 White-Scaled Tiger let out a piercing howl of rage, and its eyes seemed to burn with anger. It turned to smack the Type 4 Steel-Armor Bear once, leaving a huge scar on the body of the Type 4 Steel-Armor Bear.

In the air, Greenie turned into a shooting star and shot down, grabbing Yue Zhong, before shooting back into the skies.

The Type 4 White-Scaled Tiger saw this, and bellowed in rage. Its single horn shone with a white light, before firing a single beam of light at Yue Zhong and Greenie in the skies.

Yue Zhong's face fell, and activated the Bronze Spiritual Bell, covering himself and Greenie.

The white light slammed into the green shield from the Bronze Spiritual Bell, penetrating the protection, and pierced past Yue Zhong's leg, causing it to disintegrate. The white light continued past Greenie's body, causing a large hole, as fresh blood dripped.

When Yue Zhong's right leg was disintegrated by that white light, he almost fainted from the pain.

Greenie howled out in anguish, activating its innate ability, as it controlled the winds around it to reach the speeds of Mach 1.8, sending them towards the direction of Ning Xi City, disappearing in a flash.

The Type 4 White-Scaled Tiger howled out once more, but it was helpless towards Greenie in the skies. It was a tyrant of the land, and while it was a fearsome entity on the ground, it couldn't do anything to those in the skies.

Greenie bore the pain and landed nearby Ning Xi City while wobbling.

Yue Zhong jumped down with his remaining leg. He saw the gaping hole in Greenie, and was filled with heartache and fear. He had really risked too much, and underestimated the might of the Type 4 Mutant

Beasts. Without Greenie's help, even if there were 10 of him, they would have been killed by the Type 4 White-Scaled Tiger.

At Yokosuka Base, Yue Zhong had met many Type 4 Mutant Beasts, and their strength and power innate abilities had opened his eyes. However, they all had a weakness, which was when they came onto shore, they were not as powerful as in the seas. That was how he had managed to use the opportunity to kill 2 weakened Type 4 Mutant Beasts.

However, the Type 4 White-Scaled Tiger was still an absolute Overlord on land, its speed having exceeded the sound barrier. While its strength could not match up to those Type 4 Mutant Beasts of the seas, it was still something humans still couldn't contend with. It was a terrifying existence, and Yue Zhong was still lacking.

With Yue Zhong's current strength, he could easily kill a Type 2 Mutant Beasts, against a Type 3 Mutant Beast, he would still be in slight danger. It was basically impossible to face against a Type 4 Mutant Beast at this point.

Yue Zhong quickly pulled out a handful of Type 3 Nuclei to give to Greenie: "Eat them!"

After Greenie swallowed those nuclei, it curled up into a ball, and focused on recovery. Type 3 Mutant Beasts also had powerful regenerative abilities. It was just that the blow from the Type 4 White-Scaled Tiger had injured it greatly, and it needed to rest for sometime to regain its strength.

Yue Zhong pulled out a number of Type 3 Mutant Beast meat as well as Type 4 Mutant Beast meat and began to consume them.

As the large amount of high-level meat disappeared in his mouth, his Regeneration skill kicked in, and he felt an itch at his right leg. Flesh began to grow back at a visible rate, as a new leg grew out slowly.

After a day's time, Yue Zhong's right leg had regenerated. Greenie had also recovered from its grievous injury from consuming those Type 3 nuclei.

"I wonder who was the winner of that battle."

After recovering, Yue Zhong jumped on Greenie's back, and directed it to fly over the mountain range.

"Good! Seems like the Type 4 White-Scaled Tiger won! Quick, lower and fly towards Ning Xi City." When they neared the mountain range they saw a huge horde of Mutant Beasts galloping towards their direction. A terrifying killing intent was fixed on them, originating from within the horde of Mutant Beasts.

Greenie was also extremely fearful of the Type 4 White-Scaled Tiger. It hurried and flapped its wings as it flew towards Ning Xi City.

Among the beast horde, the Type 4 White-Scaled Tiger let out an enraged roar, and the beast horde increased its speed towards Ning Xi City.

Type 4 Mutant Beasts were considered Overlords on the land, and could control other Mutant Beasts. Having lost its treasure and its child, the Type 4 White-Scaled Tiger was thoroughly enraged, riling up numerous Mutant Beasts in a bid to kill Yue Zhong and to kill the rest of the puny humans.

The horde of beasts continued to charge towards the direction of Yue Zhong.

Yue Zhong leaped down from Greenie, and hopped onto his Swift Shadow Bike, before charging towards Ning Xi City. He needed to leave behind a trail for the Mutant Beasts to follow.

At the entrance of Ning Xi City, a large number of zombies were attracted by the blood lotus in his grasp, and they begun to move towards him.

Within the glass basin, there were also numerous Type 2 and Type 3 blood essences, and these were important evolving nutrients for the zombies.

Yue Zhong shot those staggering zombies a look, and activated his Bone Encompassing Armor, reaching out with his right hand, and shot a bone spike into the ground, sending him up onto a building.

The Mutant Beast horde that was chasing after Yue Zhong had also arrived, and as they charged through the zombie horde, they tore the zombies apart.

Yue Zhong saw that his plan was coming to fruition, and began to rush towards the centre of Ning Xi City. He needed to create the perception that he was hiding within Ning Xi City, and cause the Type 4 White-Scaled Tiger to attack the center of the city.

Watching Yue Zhong escape, the Mutant Beasts became furious.

A number of Type 2 Black-Scaled Boars charged through the zombie horde like tanks, sending them flying, as they continued to rush straight for the deeper parts of the city. The rest of the Mutant Beasts also continued forward, steamrolling over the numerous corpses.

With the sudden attack of the Mutant Beast horde, it enraged the zombie controller in Ning Xi City. Numerous L4s, L3s, S4s, S3s and other evolved zombies charged for the Mutant Beast horde.

The 2 mighty armies clash, and countless abilities were displayed from the Mutant Beasts, as both sides tore into each other, the body count rising constantly.

Mutant Beasts were invincible existences to ordinary zombies, but the evolved zombies possessed enough strength to threaten them.

As Yue Zhong weaved in and out on the roofs of the buildings, he was chased by a number of Type 2 Hunters, chasing him while crawling up buildings like lizards.

He had to stop from time to time, waving his Black Tooth Blade to kill them with a single slash. With his current strength, as long as he wasn't swarmed by them, he could still carve out a bloody path for himself.

Yue Zhong continued to make his way towards the center of Ning Xi City, while keeping his distance from the Mutant Infected Womb. That existence was simply too dangerous. Yue Zhong did not want to be assaulted by that freak.

There was no known data on the attack patterns of the Mutant Infected Womb, and to Yue Zhong, an unknown enemy was too dangerous. If he wasn't careful, he could possibly slip up, and might lose his life as a result.

However, the Mutant Infected Womb could feel the strong scent of blood from the clash between the zombies and beasts, and begun to move there.

It was large, but extremely agile. Its speed was even comparable to Yue Zhong. It continued forward like a tank, bulldozing over any unfortunate zombies in its path.

The Mutant Infected Womb soon came to the battlefield, and with a swipe of its huge tentacles, a number of the evolved zombies were slapped away, slamming into walls and their bodies broke down, their brains and innards splattering everywhere. It then shot out a tentacle with a sharp barbed spike at the end towards a 7m-tall Type 2 Black-Scaled Boar, and pierced its brain.

With its snake-like head opening its wide jaws, revealing countless rows of sharp teeth, the tentacle brought the Type 2 Black-Scaled Boar towards it, and chomped down on the Mutant Beast, fresh blood flowing everywhere. It munched and chomped, swallowing the Type 2 Black-Scaled Boar in a gruesome and horrifying manner.

Chapter 598: Clash of 2 Tigers!

The gargantuan Mutant Infected Womb began to devour the Type 2 Black-Scaled Boar in huge mouthfuls, with its stomach expanding rapidly for a short while, before deflating to its usual shape. The dozens of tentacles with sharp barbed tips were thrashing about constantly, turning a number of Mutant Beasts into meat paste, before sweeping their remains into its huge mouth to consume.

The Mutant Infected Womb was like an insatiable beast, swallowing large numbers of Mutant Beasts.

Fresh blood splattered everywhere, with dismembered limbs lying about. Its surrounding was like it had been struck by a disaster, and it didn't matter whether they were zombies or Mutant Beasts, as long as they were within its vicinity, they would be killed.

Yue Zhong observed this from afar, and was filled with shock: "It's freaking strong!! What a terrifying existence!!"

The tentacles flailing about were truly horrifying, with each strike easily smashing the heads of the Type 2 Black-Scaled Boars. With the defenses on Yue Zhong, even if he were to activate all of them together, it would at most be enough to defend against one strike from that Mutant Infected Womb before he would be smashed to death.

One Type 2 Mutant Poisonous Python of about 80m opened its jaws wide and fired a number of poisonous green fog in short bursts at the Mutant Infected Womb. Those green blobs of poison were the innate ability of the Type 2 Mutant Poisonous Python, and it could corrode even the toughest carapaces on Type 4 Mutant Beasts. When the poison landed on the body of the Mutant Infected Womb, it began to sizzle, and the flesh began to corrode. However, even though the poison corroded the flesh, it would recover at a speed visible to the eye. The corrosive ability could not match the speed of the flesh's regeneration.

The Mutant Infected Womb slapped out with its tentacles, and hit the head of the Type 2 Poisonous Python, smashing it into smithereens. Another tentacle pierced into its body, and dragged the entire corpse towards the mouth of the Mutant Infected Womb.

It was incredibly ferocious and anything it touched, would die. Mutant Beasts were consumed by it at a frightening speed. And all it was doing was using its tentacles to slap around. The Type 2 and Type 3 Beasts could do nothing to block the tentacles, and they were consumed immediately after being smacked. Its flesh and body was able to recover even under the innate ability attacks, with no visible wounds barely 5 seconds after the attacks.

Where it was currently occupying, the other evolved zombies tried their best to avoid. The other high-level Mutant Beasts were also frightened till they trembled when they saw what the Mutant Infected Womb was capable of.

Yue Zhong watched from afar and his scalp felt numb as well. This terrifying monstrous entity was even scarier than the Type 4 Flame Bird, and he didn't dare to approach it even with his strength.

As the Mutant Infected Womb continued to devour the Mutant Beasts, it grew a new tentacle with a sharp, barbed end, and became even more threatening.

As the monstrous freak of nature continued to devour the Mutant Beasts, a powerful beam of light came shooting from a distance, blasting into the chest of the Mutant Infected Womb. It penetrated the entire chest, resulting in a bloody hole the size of a fist. Some strange pus oozed out from the wound, and dripped onto the ground. The pain caused the Mutant Infected Womb to scream out in agony. This was the first time it had suffered a grievous wound.

Such an attack that could pierce the entirety of the Mutant Infected Womb was not a simple one. It caused the Mutant Infected Womb to scream in pain, and its attacks became even more ferocious. It began pulling in more Mutant Beasts into its mouth at a faster speed, before chomping and gobbling them up. Its flesh then began to heal at a visible rate.

The Type 4 White-Scaled Tiger could not watch anymore as it hid behind the mutant beast horde, and after it had fired that powerful white beam of light, with a single leap, it charged towards the centre of Ning Xi City.

"Damn it, its target is still me!" Yue Zhong was on top of a building, and he determined that the Type 4 White-Scaled Tiger was still not giving up on Yue Zhong, or rather, its offspring.

"What a pity!!" When he knew that the White-Scaled Tiger was aiming for him, he immediately took out the egg and threw it towards the Mutant Infected Womb. With his 12-times Strength, the egg shot towards the Mutant Infected Womb with a shooting-star like speed.

When the Mutant Infected Womb felt the incoming projectile about 20m away, it reached out with its large tentacle, and smashed its tentacle towards the egg. Instantly, the egg was smashed into smithereens, revealing a partially-formed White-Scaled Tiger fetus.

The tentacle then pierced into the fetus, and brought it into its mouth. As its sharp teeth clamped down, the fetus was directly turned into minced meat.

The Type 4 White-Scaled Tiger let out a piercing roar of grief and rage. It immediately pushed its speed to the maximum and charged right at the Mutant Infected Womb. Its powerful claws came swiping down on the body of the Mutant Infected Womb, clawing out a huge chunk of meat.

The Mutant Infected Womb retaliated by sending dozens of its tentacles smashing towards the Type 4 White-Scaled Tiger.

At this point, the Type 4 White-Scaled Tiger exhibited its insane agility. Its body continued to flash about, dodging every single one of those tentacles. At the same time, it would slash out with its claws, drawing blood every time.

The regeneration ability of the Mutant Infected Womb was on another level though, and even though the Type 4 White-Scaled Tiger was drawing blood with each attack, within 5 seconds, flesh would grow back and render the previous attack useless. Such a regeneration rate was beyond 10 times that of the White-Scaled Tiger.

The Type 4 White-Scaled Tiger single-handedly faced off against the Mutant Infected Womb, while the rest of the Mutant Beasts resumed engaging against the rest of the zombie horde.

Within the city, as both sides clashed against each other in an explosive manner, Yue Zhong activated his Second Order Stealth and watched the battle between the 2 titans at the centre of it all.

The battle between the 2 of them lasted an entire day. Even with such a drawn-out battle, the regeneration ability of the Mutant Infected Womb did not seem to slow down. In fact, it was still as active as when it first acted out, as though there were no signs of exhaustion. There wasn't a single wound on it, because every single injury would heal within seconds. However, the same could not be said for the Type 4 White-Scaled Tiger. It was getting exhausted, as a numerous injuries covered its body. The injured flesh was decomposing, and there was a putrid smell in the air. In a short period of time, it could perhaps dodge most of the attacks. But, in the span of the entire battle, it was still impossible for it to be resilient.

The Type 4 White-Scaled Tiger caught sight of a space, and immediately twisted its body to leap through. It used its sharp claws to propel itself up a large building, scaling all the way to the roof. It then turned to face the Mutant Infected Womb with its single horn, and fired the powerful and threatening beam of white light.

The devastating white light immediately shot through one of the eyes of the Mutant Infected Womb, penetrating its head, and dissolving the brain by ⅓.

Regardless of the biological makeup of any entity, the moment the brain was vaporized beyond a certain amount, there would only be death. However, the Mutant Infected Womb just screamed out in agony, and numerous tentacles rose like the waves of the sea to crash against the White-Scaled Tiger.

Having fought such an exhausting battle the entire day, adding on to its overdrawn energy for firing that devastating beam of light, the White-Scaled Tiger was almost spent. It could not defend nor dodge the incoming attacks of the Mutant Infected Womb, and it was sent soaring through the air for about dozens of meters. It smashed through one building, and if it wasn't for the scales on its body, it might already have turned into meat paste.

At this moment, the most terrifying scene was happening. Although $\frac{1}{5}$ of the brain of the Mutant Infected Womb had been vaporized by the beam fired by the Mutant White-Scaled Tiger, it was already beginning to regenerate slowly. The speed might not be as fast as how its fleshly wounds were healing, but one could still see the reforming of the brain matter.

Yue Zhong kept his gaze fixed on the Mutant Infected Womb throughout the whole process, and noticed that as the Mutant Infected Womb was regenerating, one of the tentacles on its body shrivelled up and dropped off its body.

“The brain is truly one of its weak points. However, this freak is too terrifying. It can even recover from such a degree of injury. Its tentacles should be part of its stored up strength and vitality. If I can’t damage the brain, then I must at least destroy the tentacles. It truly is a bitch to deal with.” Yue Zhong frowned as he assessed the situation, with the dozens of tentacles, this monstrous entity was truly threatening. He had to deal with those tentacles before he could utterly annihilate this Mutant Infected Womb.

The Type 4 White-Scaled Tiger leaped out from the rubble of the building in a breath, and it fired another beam of white light at the Mutant Infected Womb.

The Mutant Infected Womb twisted its body, and brought several of its tentacles up to block that attack.

The devastating white light penetrated the tentacles, and blasted through its head, before vaporizing more of its brain.

Chapter 599: Striking while the iron is hot!

The Mutant Infected Womb howled once more in extreme pain. It immediately adjusted its body and tried to flee towards the distance. It could feel the amount of danger the White-Scaled Tiger posed to it, it was more than enough to cause its demise.

The Type 4 White-Scaled Tiger flashed through the battlefield like a specter, latching on to the Mutant Infected Womb, firing its unique white light in multiple beams, causing numerous holes on the Mutant Infected Womb.

However, because the Mutant Infected Womb was moving constantly, it was extremely hard to hit its head. While most of the blows caused the Mutant Infected Womb to be covered in multiple wounds, none had hit its head again.

As the Mutant Infected Womb was escaping, its brain was still continuing to regenerate under its sick healing ability. The moment its brain was fully regenerated, it brought up its powerful tentacles and launched attacks back on the Type 4 White-Scaled Tiger like a torrential downpour.

Under the relentless assault of the Mutant Infected Womb, the Type 4 White-Scaled Tiger was once again sent flying into the air, its body riddled with wounds.

Yue Zhong stood on top of a tall building, and as he watched the Type 4 White-Scaled Tiger losing its advantage, he immediately barked an order into his walkie-talkie: "It's time, begin the assault!"

After giving that order, he then leaped onto Greenie's back, and they soared into the sky.

"Attack!!"

Under Yue Zhong's order, a number of artillery troops on standby began firing from outside the city.

Hong!! Hong!! Hong!!

Powerful shots resounded throughout Ning Xi City, as a large number of cannons lit up the sky when they came shooting down towards the hordes of zombies and Mutant Beasts, blasting them into pieces.

Yue Zhong's artillery troops had already undergone numerous training and exercises, and they had chosen the locations where the zombies and Mutant Beasts were concentrated. Each time a rocket landed, it would take out at least tens of thousands of zombies.

Under the fearsome volley of heavy fire, a number of L4s that were as large as houses were also not spared.

A large Type 2 Mutant Python was blasted apart by a round of 122mm cannons.

In the skies, 8 Thunder Fighters and the Sky Fortress came swooping over Ning Xi City, firing countless bombs, enveloping the large areas where the Mutant Beasts and zombies were clashing.

Amidst the explosions, countless zombies and Mutant Beasts were killed every second. This was the might of advanced weaponry and tactics of the human race.

The Mutant Infected Womb was also treated as a high-priority target, and the 8 Thunder Fighters fired numerous rockets at it, covering its flesh and body with numerous wounds.

Although the Mutant Infected Womb was terrifying, its effective attack range was only about 30m. Against those Thunder Fighters in the skies, it could only dodge and evade, while screaming out in pain.

The Type 4 White-Scaled Tiger was already heavily injured before, and it was caught in the blast of one 122mm round, sending it flying through the air again.

The loud explosions rang throughout the city, these were the ammunition that Yue Zhong had accumulated in Yan Zhou City these few months. He had also brought in any heavy artillery that they had found in their scavenging expeditions. These were all just to conquer Ning Xi City, and to fully gain control of the Newbie Village.

When Enhancers reached Level 10, through the Job Change option, Yue Zhong could gain a whole load of talents. By selecting soldiers, he could train up an entire battalion of elites. Some could also be groomed as doctors, then he would have healthcare. Some could become scientists, and his research and development team would be strengthened and grow.

Of course, it was not that once they went through the Job Change that they would instantly become experts of their chosen field. However, they would gain the advantage in their growths there. At the

very least, they could still become lower-level doctors or scientists, and to Yue Zhong, this was more than enough for the short term.

The terrifying explosions continued without stopping. Other than the huge door with the 2 lights, the rest of Ning Xi City was covered in explosions. Each blast radius was enough to take out hundreds and thousands of zombies. To experts who had to fend off horde attacks, such groups were difficult to entangle with, but to the powerful artillery, they were great targets.

Under the constant ravaging of the artillery, the zombies of Ning Xi City were at a loss. They could not see the enemy, and did not know what to do, only suffering the damage from the projectiles.

As for the other Mutant Beasts, having lost the pressure from the Type 4 White-Scaled Tiger, many started to flee out of Ning Xi City.

Yue Zhong did not deploy his troops to go stop the Mutant Beast Horde, in any case, he had only intended to make use of them to kill the zombies. To truly conquer Ning Xi City, it would still require Yue Zhong and his army.

The powerful heavy artillery continued throughout the night, consuming almost everything in the flames, as countless zombies and Mutant Beasts laid charred and dead across the city.

The entire city was currently clear and quiet, and the once-densely packed zombie horde had already disappeared, leaving behind only the charred bodies, some still burning slightly, as well as a few scattered groups that had somehow survived the night raid.

Hu Yi thus led the 1st Regiment right into Ning Xi City.

Under the lead of the 4 different commanders of the 4 Battalions within the regiment, they split up and began to clear the zombies. Many of the zombies had barely just stuck out their head at the commotion when they were already shot at by the soldiers. The evolved zombies were taken out by the Enhancers within the troops.

Just using heavy artillery would not be enough to handle the problem, as there were plenty of zombies that had managed to slip past the net. Thus they had to use the ground troops to wipe them out.

Every soldier of the 1st Regiment were veterans and elite soldiers, even more disciplined and stronger than the 5,000-strong Japanese soldiers of the Takama-ga-hara. They were like a power sickle that claimed the lives of the zombies as easily as cutting wheat, and as they marched on, there was almost no resistance to their advance.

Within the city, the zombies numbered about 2 million, but the majority of the evolved ones had lost their lives during the clash with the Mutant Beasts in the previous night, hence, all that was left were largely ordinary zombies.

Under the terrifying artillery fire, hundreds of thousands were incinerated and blasted to pieces. Even more were reduced from the million that had been left over. Furthermore, since most of the zombie horde was concentrated at the south side of the city, there was not much resistance in the north area.

When Yue Zhong noticed the troops entering the city, he immediately gave an order: "Let Bai He lead the 4th Long-Range Company to assist me."

The forces that were under Bai He were powerful and elite snipers groomed by Yue Zhong. They were all proficient in the sniper rifles, or possessed the Specialization skill.

Of them, Bai He had the Second Order Enhance Bullet skill, and Level 3 Sniper Specialization. He was the top sniper under Yue Zhong. In fact, he could almost rival the Gun Demon of the Takama-ga-hara. Compared to him, Bai He was just lacking in the fact that he wasn't a dual-attribute Evolver, however, his sniper skills would not lose out.

This 4th Long-Range Company was one of the trump cards kept by Yue Zhong. They possessed powerful destructive power from a long range, and at least 8 of them could shoot down a Thunder Fighter. Every single soldier of the troop could take down a normal aircraft. Their only weakness was close-combat, and they could not compare against powerful close combat experts.

Bai He led his 20 men as they swiftly proceeded towards Yue Zhong's location.

Meanwhile, Yue Zhong was riding Greenie as they soared through the skies, chasing after the Mutant Infected Womb.

The Mutant Infected Womb had been bombarded by the 8 Thunder Fighters, as a large number of rockets were fired at it constantly. However, it waved its tentacles constantly, smashing the rockets away.

Each of these rockets would explode the moment they were destroyed, and the powerful explosions would cause the tentacles to be blasted apart. However, each time, they would quickly regenerate.

It seemed that the destructive power of the rockets were still far away from that of the Type 4 White-Scaled Tiger.

If they wanted to take down the Mutant Infected Womb in one go, they had to have at least 50 Thunder Fighters firing countless rockets at the same time, bombarding it to death.

However, the moment they couldn't take care of it in one strike, it would be able to regenerate and resurrect itself. It truly was a difficult opponent.

Yue Zhong sat on Greenie's back as he flew up in the sky, over the Mutant Infected Womb, as he watched it regenerate time after time. His scalp went num, this Mutant Infected Womb was truly something else, even more fearsome than the Type 4 Flame Bird or the Type 4 Sea Mutant Beasts that he had come across.

Yue Zhong then quickly gave an order: "Ready cannons, co-ordinates XXXX."

Hong! Hong! Hong!

Under that order, the area of the Mutant Infected Womb was instantly enveloped by numerous heavy artillery, and it continued for a good 5 minutes, covering the entire space, destroying the surrounding construction and structures, causing dust clouds to rise.

As the dust cleared, Yue Zhong saw the tentacles shielding the brain of the Mutant Infected Womb, its body had been damaged badly under that barrage of rockets. Its dozens of tentacles also dropped off, yet, it was still not dead.

The Mutant Infected Womb had truly suffered greatly under that powerful volley of artillery fire, but, its overbearing regeneration was still kicking in, as its wounds recovered at a rate discernable to the human eye.

Chapter 600: The ovum of the Mutant Infected Womb!

Yue Zhong roared loudly: "Focus your fire, aim for its head!!"

The 8 Thunder Fighters immediately fired their powerful anti-tank missiles, their guided missiles, and all other rockets at their disposal, blasting the Mutant Infected Womb. Their machine guns were firing rapidly as well, and the volley of destruction came raining down on the Mutant Infected Womb, chipping away at its health.

A number of anti-tank missiles blasted the Mutant Infected Womb, destroying its tentacles, as tainted blood splattered everywhere.

The soldiers of the 4th Long-Range Company had also reached a high vantage point, as they unleashed their abilities and fired at the head of the Mutant Infected Womb. The bright beams caused many tentacles to break off, and revealed the grim and ravaged head.

The moment the Mutant Infected Womb revealed its head, Yue Zhong immediately expended 80 points of Spirit and 20 points of Stamina, condensing a Devil Flame Spear and fired it like a shooting star towards the head of the Mutant Infected Womb, causing it to burn.

Under the relentless burning of the flame, the flesh began to smoke, as large portions of flesh were incinerated and turned into ash. The Mutant Infected Womb could not take it anymore and howled in pain. However, it was still not dead, as its head continued to regenerate.

Yue Zhong did not dare to give it the chance to recuperate, and quickly condensed another powerful Devil Flame Spear and fired it once more.

The Devil Flame Spear shot towards the head of the Mutant Infected Womb like a shooting star, and once more, exploded in a powerful ball of flame, turning its regenerated flesh into ash yet again.

On the other side, Bai He had also executed his Enhance Bullet skill and had fired at the head of the Mutant Infected Womb as well, destroying part of it.

Beams of light shot from a distance, blasting numerous holes in the head of the Mutant Infected Womb, causing it to bleed non-stop.

The Mutant Infected Womb finally could not take it anymore and adjusted its body to flee once again.

Its speed was incredibly fast, surpassing even Yue Zhong. The moment it moved, there was no way for Bai He and his men to get a fix on its head.

The 8 Thunder Fighters were also giving it all they could, firing as many rockets and projectiles as they could, but they kept missing.

“Fuck!! We must not let it get away!” Yue Zhong looked at the fleeing Mutant Infected Womb and his brows furrowed.

The Mutant Infected Womb looked in an extremely pathetic and wretched state right now, but Yue Zhong was clear, as long as it was given enough time, this monstrous entity would recover yet again, at that time, it would be extremely difficult to take it down.

Yue Zhong had already expended 160 points of Spirit, and the 8 Thunder Fighters had no way of firing infinitely due to the lack of ammo, and having expended much of their rockets and projectiles on the Mutant Infected Womb.

If they could not take it down in this short span of time, Yue Zhong would have no choice but to bring his men and retreat.

Otherwise, if it charged into the 1st Regiment at full strength, it could easily decimate his entire elite force.

Yue Zhong whipped out the Electromagnetic Gun, and fired a shot at the freak of nature. A powerful electromagnetic charge was shot out and blasted a hole in the head of the Mutant Infected Womb.

The might of the Electromagnetic Gun was no joke, at the same time, its consumption was equally terrifying. Ordinary nuclei could only sustain one shot before breaking apart. Type 2 nuclei could support 10 shots before breaking. Type 3 nuclei could give the Electromagnetic Gun 100 shots.

Yue Zhong had used a Type 3 Nucleus and was firing constantly at the head of the Mutant Infected Womb. With his Shadow Steps activated, his Agility had exceeded that of the monster, and with his Marksmanship skill, of every 10 shots fired, 9 would strike the head of the Mutant Infected Womb.

The monster was assaulted constantly by Yue Zhong, and more wounds appeared on its head. After about 300m, being blasted once more by over a few dozens of rockets, it finally crashed into the ground.

The moment it stopped moving, a number of shots that had been Enhanced blasted into the head, ripping it further apart.

Yue Zhong rode on Greenie and arrived at the body of the Mutant Infected Womb, firing his Electromagnetic Gun without mercy.

He did not let up, instead, using 2 Type 3 nuclei to fire without stop, until the Mutant Infected Womb finally stopped twitching, and a huge orb of experience entered his body.

“Congratulations on achieving Level 82. You have gained 2 points of attributes to be allocated.”

When the orb of experience entered his body, and the sweet notification sound rang in his mind, he then heaved a huge sigh of relief. This terrifying existence had finally fallen.

For the sake of obliterating this monstrous entity, the 8 Thunder Fighters had utilized all their ammo, while Yue Zhong himself had almost expended all his Spirit, as well as 2 Type 3 nuclei. He even had the

support and help from over 20 other experts and their individual skills as well. He was finally able to kill the monster with all of these.

Had he been missing any of those subordinates or arsenal, he might not have been able to kill the Mutant Infected Womb. The regeneration of this mutated biological lifeform was truly insane.

Beside the corpse of the Mutant Infected Womb, there was a skill book as well as a blue treasure box.

He landed on the ground and grabbed both items.

“Third Order Skill: High-speed Regeneration. After learning this ability, you will possess the regeneration ability of some powerful Mutant Beasts. Learning it requires 400 Vitality, as well as Second Order Regeneration to be enhanced thrice. Learning this skill requires 3 skill points.”

“A Third Order skill, it actually is a Third Order Skill. It’s too bad it’s not a combat ability, but it truly is decent.” Yue Zhong kept the book into his ring, while shaking his head out of pity.

After killing the Mutant Infected Womb, Greenie swooped down and began devouring the flesh of the corpse.

The flesh and blood of High-level Mutant Beasts were essential for zombies, likewise, zombies were nutritious for Mutant Beasts. This was the reason why both sides would kill and hunt each other.

“Ah, what’s this?” Yue Zhong did not mind that Greenie was consuming the flesh of this Mutant Infected Womb, however, his face change when he came to the side of the corpse.

A strange, protruding portion of the abdomen area had been ripped apart by Greenie’s claws. It revealed a huge ovum inside the corpse, covered in strange runes. The runes were flashing, and it looked extremely mythical and strange.

Yue Zhong activated his Bone Encompassing Armor and wore the Sea MASK, before carefully stepping into the body of the Mutant Infected Womb. He broke apart the nerves connecting to the ovum, and pulled it out from the corpse.

Yue Zhong eyed the huge ovum as large as a human, his eyes disturbed.

The biological lifeform was evidently extremely weak, and Yue Zhong could destroy it in one punch. However, he was slightly reluctant to, as if he could subjugate the life form inside with his Beast Tamer ability, then it would be an additional boost to his strength. Yet, if it happened to a life form like the Mutant Infected Womb, then it would be a disaster to him.

Right as Yue Zhong was hesitating, with a kacha, the runes covering the ovum shattered, and juices spilled out everywhere, as the life form within jumped out and pounced towards Yue Zhong in a gust of wind.

Before he could respond, the life form had already landed on him, and he was utterly shocked, his face drained of color in fear. He had always prided himself in his speed, and could even handle the unbelievably quick Type 4 White-Scaled Tiger. Yet, this entity from the ovum had jumped on him before he could even react, and this scared him greatly.

Yue Zhong was about to conjure up his Devil Flames to incinerate the life form, when he opened his eyes to looked, and faltered.

That which was laid on top of Yue Zhong was actually a little girl that looked about 12, her hair silver and long, her limbs as delicate as can be, as though they could be broken with a just a snap. Her skin was extremely fair, her looks exquisite, and her eyes absolutely charming, so much that one could be lost in those eyes.

The little girl laid in Yue Zhong's arms, and stuck out her tongue to lick Yue Zhong's Sea Mask, smiling as she licked.

"High-intelligence Mutant Life Form, possess incredible evolving potential and extremely high intelligence."

Yue Zhong looked at it, and his scalp turned numb: "What's going on? That freakish thing could actually give birth to such a girl, is she human, or a zombie?"

Yue Zhong had slaughtered so many zombies, but he had never seen a pregnant one that was carrying an ovum, or one that could produce such a beautiful girl.

Yue Zhong tried to pry the little girl from his grasp, but the moment he placed her down, with a flash of her body, she leapt onto him again, smiling adorably.
