

## Devil World 841

### Chapter 841: Genius Lai Wei!

"Hehe! This time, you'll definitely lose!" Lai Wei saw how easily Yue Zhong agreed to her conditions and revealed a crafty smile. She then walked to one side, looking towards a mature Winged woman, "Mama, lend me your Storm Battle Armor!"

The beautiful woman laughed lightly, and tossed the suit together with a Type 4 nucleus, before smiling coyly, "Lai Wei, I like this Yue Zhong too. Once he becomes yours, let him accompany me for 3 nights!"

Lai Wei stared back, after taking the armor, "No way! He's someone that caught my eye. If you want to play with men, go choose some others. He's mine!!"

Without any hesitation, Lai Wei swiftly put on the armor, standing on the stage, staring at Yue Zhong with a gaze full of battle intent, "Shall we start?"

Yue Zhong laughed lightly, "Bring it on!"

The moment his words landed, Lai Wei's eyes flashed with a glint. The nucleus behind the armor radiated brightly, and with a tap of her foot, 16 Shadow Clones dashed towards him.

"Type 4 Peak, what a fast speed, she's already a Type 4 Divine Warrior!"

Yue Zhong caught sight of the 16 Shadow Clones and was full of shock. His heart turned cold and he became serious, withdrawing his contempt.

Lai Wei was a genius combateer among the Winged Race, although her age was young, she had been through countless battles, and had reached the initial Type 4 Divine Warrior stage. With the enhancement of the Storm Battle Armor, she was even able to push herself to the peak of Type 4.

Her speed was extremely quick, every single shadow clone looking extremely life-like. It surpassed what Wayne was capable of. Yue Zhong had been able to discern the authenticity behind Wayne's technique but was unable to do so for Lai Wei's.

His pupils narrowed, and with a tap, he shot backward like an arrow, activating his Gravity Manipulation, as a powerful gravitational force spread outward.

He had just stepped back when he suddenly felt an intense sense of danger from above. A powerful hurricane came crashing down towards his head.

"From above?!"

Without lifting his head, he twisted his body slightly and channeled his Dark Dou Qi. With that tight space he had, he sent out a powerful fist towards the direction of the danger.

Both fists connected, and Yue Zhong who was less prepared was sent flying backward.

He twisted his body, his pupils constricting, looking up only to discover all 16 Shadow Clones flapping their wings and coming after him.

The Type 2 Gravitational Force was only enough to impede Lai Wei for barely a second. Due to the sudden change in gravity, they were caught unaware, but once they got used to it, it did not affect them much.

Yue Zhong eyed them and his gaze turned frosty before he suddenly charged towards them with a fierce killing intent.

Lai Wei's eyes flashed with shock but threw a punch without holding back.

"This is the real one!"

Upon getting close to them, Yue Zhong finally determined one of them to be the true body. There was a wildfire behind his eyes as he allowed the punch to reach his chest.

Her peak Type 4 strength burst out, almost bursting his chest open.

With the new armor, he was wearing made from the Type 5 Mutant Beast scale, together with his Body of Steel, it negated about 60% of Lai Wei's force, however, the remaining was enough to send his insides tumbling. He almost threw up blood, but he managed to suppress it.

"Hehe! I caught you!"

At the moment her punch landed on Yue Zhong, he opened his arms wide and grabbed her tight, as he sent a vicious knee strike towards her abdomen.

She received the blow and her eyes flashed with madness, kicking out the same way towards him.

He took a step closer and used his legs to block, causing her knee to slam into his thigh, from which a sharp pain shot through his body.

He hugged her tight and tumbled towards the ground, using his body to stick close and assault her.

Not willing to stand down, Lai Wei utilized the same fighting style and threw close punches.

Both parties were reduced to brawling together like hoodlums.

This is close-quarter combat, and not just skills or abilities. At the first instance of their clash, Yue Zhong had already determined that he was not a match for her without using some means.

Yue Zhong had been through countless combat and crawled through seas of zombie corpses and blood, his experience abundant. Lai Wei was not that far off as well, having fought her fair share of battles. She was also more talented in combat compared to Yue Zhong. Combined with the natural wings that their Winged Race possessed, it allowed their speed to be faster, and the flight ability. Utilizing the many means, they could gain an upper hand in close combat.

When the spectators watched this, they were stunned silly, who would have thought that 2 experts would actually be reduced to brawling like this.

Yue Zhong and Lai Wei's attacks were reaching an intense level, as Lai Wei twisted constantly in a bid to escape Yue Zhong's grip. As for Yue Zhong, he held her tightly, not allowing her to escape.

Both parties continued to rain blows, and Lai Wei was starting to throw up blood.

As for Yue Zhong, who possessed the Regeneration and Body of Steel abilities, he was like a bull that hung on. Although there was blood at the corners of his mouth as well, he was still brimming with vitality, with no trace of exhaustion.

"Damn it! Get the hell away!!"

As the battle reached a climax, Lai Wei's eyes flashed fiercely, as the Type 4 Nucleus on her back glowed. Her strength was pushed to the Type 5 realm, and she was starting to lose her rationality from her anger, intending to defeat Yue Zhong quickly.

"No, Lai Wei!!"

"Don't do it!! You can't use that power!"

"..."

Seeing the bright glow of the Storm Battle Armor, many of the upper-class Winged Race had huge changes in expression, frantically calling out to stop her.

Lai Wei was currently utilizing the strongest that the armor had to offer. She would likely lose control and go on a killing spree, and the same time, after the burst of strength, the Type 4 Nucleus would also crumble into dust.

"Sorry, this strength does not belong to you!"

Yue Zhong spoke coldly, with blood near his lips, before suddenly letting go.

Lai Wei's eyes flashed wildly and she shot up like an arrow, slashing towards his chest with her nails. At that instant, her claws slammed into his body.

'Yue Zhong' disintegrated, turning into dust and disappearing.

Her eyes widened in shock when suddenly, a palm came knocking at the back of her head, making her unconscious.

Although she had gained a boost in strength from the armor, she had lost her rationale, and to Yue Zhong, her current state was easier to deal with.

After knocking her out, Yue Zhong turned to Shailene and chuckled, "Beautiful Queen, this round is also my victory, no?"

Shailene looked straight back at him with a coy smile, "That's right! It's your win! Yue Zhong, I appreciate and admire you very much. Stay with us! I will make you my King!"

"Your Majesty!"

"Do reconsider, Your Majesty!"

"..."

Hearing Shailene's words, all the Winged Race immediately had expressions of horror as they tried to persuade her otherwise.

All along, the King's position usually belonged to the Winged Race, never a foreign race or species. To the Winged Race who valued their blood and tradition, they would never allow a human to become their King.

With Shailene's words, many of the male Winged warriors had ugly expressions. They were the best among the best, and based on tradition, the King would have been chosen from among them. Yet now, there was a human who was going to take that position, they could not help but feel ashamed.

"Shailene, don't mess around!"

At this time, Dorothy, Doreen and 20 other elites with Storm Armor, as well as a hundred Winged female warriors clad in beast hide came marching out.

Shailene looked at them and frowned, "Elders, what's the meaning of this?"

Dorothy's eyes flashed as she barked, "Your Majesty, we need to talk to the Storm Queen for the sake of our future. Please be silent."

Being admonished by Dorothy, the atmosphere turned frosty, as Shailene gritted her teeth, her hands clenched tightly.

Doreen smiled at Luo Qing Qing, "Storm Queen, please come with us."

Luo Qing Qing's facial expression suddenly changed, as the fruit juice in her hands landed on the ground. She stared up in shock, "You guys actually poisoned the food?!"

Hai Xi's face also turned, as she rushed up in front of Luo Qing Qing to protect her.

Luo Qing Qing turned to Shailene with a hurt look, "Shailene, you actually poisoned me as well?"

Shailene stared back in horror, "No!! Sis!! I did not do anything of the sort!!" She then turned to Dorothy and screamed, "Dorothy, Doreen, what's going on?!"

Dorothy eyed Shailene and barked, "Your Majesty, keep quiet! This has to do with the survival of our Winged Race!! It is the decision that we Elders have made for our sake!"

## Chapter 842: Type 4 Prehistoric Monitor Lizard!

Shailene's face turned bad, her eyes filled with a chilly gaze, "A unanimous decision by the Elder Council? How come I wasn't made aware of this?"

Under the gaze, the rest of the upper echelon all averted their eyes. Shailene was after all the Queen of the Winged Race. Keeping this matter from her was truly an offense.

Dorothy frowned as she chided Shailene with a tone as though rebuking a child, "Because you're always so headstrong. The Elder Council was afraid that you might be too agitated, that's why we kept it from you. Seems like our decision was right. Shailene, you're still too young."

In the eyes of Dorothy, Shailene was still a kid that had not yet grown up. Although they had chosen her to be the Queen due to her bloodline and heritage, she had basically zero authority.

Shailene stood up frostily, ordering with a majestic aura, "The decision of the Elder Council? What a joke. The Queen wasn't even consulted in this. Is my position as Queen a joke? Elder Dorothy and Elder Doreen, I hereby command you in my position as Queen to stand down immediately, and take out the antidote right now!"

Dorothy frowned, "Your Majesty, you aren't well. Doreen, go bring her back to rest."

Doreen flashed and appeared right in front of Shailene, her face filled with a warm smile, "Your Majesty, come, let's head back for a rest."

Shailene's eyes shimmered, as she gritted her teeth. She then turned to Luo Qing Qing helpless before apologizing in an exasperated tone, "I'm so sorry, Sis!"

Shailene only had the strength of an initial Type 4 Divine Warrior, whereas Doreen was near the peak. Furthermore, Doreen had experience under her belt, and Shailene was just not her match.

Luo Qing Qing spoke indifferently, "It's nothing to do with you, I've been careless."

She had not expected that as a Queen, Shailene could not even muster her authority. She had put too much trust in her character and was thus poisoned by her subordinates unknowingly.

Dorothy smiled, "Storm Queen, please rest assured, as long as you don't resist, we will not hurt you."

Luo Qing Qing retorted icily, "You guys want to hand me over to the Stegosaurus Kingdom. Shameless. To think that the Winged Race has fallen to such depths. Allying with you people had been blindness on my part."

Luo Qing Qing was after all an outstanding leader, having seen the strange actions of Dorothy, she could immediately guess their intentions.

In truth, if the Winged Race did not want to leave, and lead a vagabond life, the only choice was to submit to the Stegosaurus Kingdom.

A look of guilt flashed past Dorothy's eyes, in the end, she sighed, "It's us who have let you down. However, for the sake of our future, we have to do so. Men, grab her, and keep her in the prison."

The 20 Winged elites in Storm Armor charged towards Luo Qing Qing.

Right at this moment, a loud voice barked out, "Hold up! I have something to say!"

Everyone's attention fell on the owner of the voice, Yue Zhong.

Dorothy eyed him coldly, "What is it?"

He chuckled, pointing towards the entrance of the cavern, drawling indifferently, "I think, you guys are in for some trouble."

At this moment, alarms blared throughout the entire honeycomb city.

Hong!

Following a loud sound, a huge explosion rang out from the caverns, as dozens of Winged people flew out, their mouths filled with blood.

At the same time, hundreds more flew out from behind them, seeming to flee pathetically.

Dorothy's eyes flashed with shock as she screeched, "What's going on? How can our defenses fall so easily? What's happening?"

At the entrance of their caverns, there were plenty of defensive weapons. Even a Type 4 Mutant Beast would have to pay a huge price to try and invade. However, right now, their defensive line had been broken by some unknown force, this caused Dorothy to be shocked.

Right in front of them, a huge monitor lizard of about 10m, its entire body covered in scales came crawling in swiftly.

Yue Zhong activated his Eyes of Perception and received a flurry of information.

"Type 4 Mutant Beast: Prehistoric Monitor Lizard. It can easily scale mountain walls and possesses a tough hide. With its nimble movement and strength, as well as its innate poisonous ability, it is a formidable existence."

After Yue Zhong's Eyes of Perception was strengthened to the Second Order stage, as well as his physique reaching the peak of Type 4, the information he got from any Mutant Beast of Type 4 and below was a lot more comprehensive.

The Type 4 Monitor Lizard was covered with countless arrows stuck in its scale, as well as a huge bone arrow that had pierced through an area of its body. It was obviously enraged, and as it charged in, it began to crush and destroy a number of honeycomb structures.

The speed of the Monitor Lizard was extremely quick and deft, its charging speed reaching the sound barrier. In a few breaths, it had reached the center of the honeycomb city, and with every swing of its tail, it would cause a building to crumble, while the Winged warriors within would be forced to fly out.

The moment those Winged warriors flew out, they suddenly disappeared without a trace.

Seeing this, many others began to fly out from their own homes.

In just an instant, it was like a swarm of Winged people flying out of the honeycomb structures, looking like bees.

Since they were an intelligent race, while they might have some outstanding warriors, they would also have some cowards within them. A particular group made their way towards the entrance in a bid to get out of here.

To their horror, just as they reached the entrance, they suddenly disappeared in one fell swoop as well. Following that, another Type 4 Prehistoric Monitor Lizard leaped in from the entrance, entering the city.

Not long after that, yet another Type 4 Prehistoric Monitor Lizard followed suit.

Their numbers began to increase as they invaded and tore through the city. In just a few moments, there was a dozen of them.

They began to unleash carnage and slaughter everywhere they crawled. Their tails would swing into buildings, destroying them, and the moment the Winged people appeared, they would vanish mysteriously.

Even those that were flying at about a hundred meters in the skies, as long as they got near the Prehistoric Monitor Lizards, they would disappear without a trace.

Many brave Winged warriors flapped their wings, wielding their bows and firing at the Monitor Lizards. The arrows only served to bounce off the thick armors. A few stronger ones managed to land and pierce through, yet, those arrows were like toothpicks, not causing much damage.

Instead, the beasts continued to advance further towards the directions of the Winged warriors, causing them to disappear again. Such a strange sight was causing the rest to be bewildered and fearful.

Dorothy soared into the air, her face pale at the sight of hell within their homeland, "What's going on? How did these Monitor Lizards suddenly band together to attack us?"

These Monitor Lizards were smaller than those Type 4 Diplodocus and Triceratops, and their strength might not be comparable to those large ones. However, they had fast speed, astonishing defenses, and strange means. To the Winged Race, they were practically disaster.

Dorothy's eyesight was powerful, and she caught sight of a few Dino-warriors charging in from the entrance like ants. Her eyes flashed with despair, "Those are Dino-people!! Damn it!!! These are the troops from the Stegosaurus Kingdom!! They've come!!"

Yue Zhong's heart sank upon hearing those words, "Dino-people? Shit!! We're in a jam now!!"

Previously, Yue Zhong had managed to strike preemptively with the help of Mount Tai and Turtle. However, this cavern in the mountains was only about a few hundred meters away from the ground. If he were to summon Mount Tai, it would likely get stuck.

Hearing Dorothy's cry of despair, many Winged people had looks of shock and fear on their faces as well. They knew the savagery their enemies were capable of. Once they killed their way over, all that awaited was death.

Lars' eyes flashed with a strange glint as he pointed at Yue Zhong's party, "It's them!! Those humans must have lured the Dino-people over!! Kill them!! After that, we can present their heads to the Stegosaurus Kingdom to plead for mercy! They will spare us!!"

At Lars' shout, many of the upper-class Winged people turned to stare at Yue Zhong's party, their eyes filled with rage. Many of them raised their spears and let out howls of fury.

Chapter 843: Intense Battle!

Yue Zhong eyed them and barked out coldly, "A bunch of fools! Now that the Dino-people have already broken in, based on their nature, they will definitely wipe you all out! The only ones willing to help you guys are us!! What you should be doing is to fight against those beasts and Dino-people, not us!! You want to make enemies out of us as well?!"

After that, he turned to Lars with a heavy killing intent. This male warrior had tried his patience time and time again. If it was not for the upper-class Winged people all around, he would have acted to kill this Lars a long time ago.

Hearing Yue Zhong's words, the faces of the Winged people turned pale. They knew the nature of the Dino-people. With them, as long as they attacked, they would make a clean job out of it.

Lars could not help but retreat a few steps when stared by Yue Zhong. He continued to shout out loudly, "Don't trust him! As long as we capture these humans and hand them over to the General Ku Weili, they will let us go and discuss a peace treaty! We can become their vassal force!"

Yue Zhong's face fell as he barked out suddenly, activating his Art of Fear together, assaulting Lars, "You actually dare to collude with the Dino-army's Ku Weili and sell out your own race to them?! Speak! What did they promise you for you to betray your own people and become their dog?!"

Affected by the Art of Fear, Lars panicked even more as his face fell and he stammered, "I didn't!! I didn't betray our race!! General Ku Weili promised that as long as our race submits to them, he will accept us as their vassal!!"

Yue Zhong laughed coldly and swept a glance over the rest of the Winged elites "Everyone has heard it now! These Dino-people weren't led here by us, it was this fool of a trash that had revealed your location to the enemy!"

When Lars heard Yue Zhong's words, his face turned pale and he looked around, only to discover furious gazes on him.

He had come in contact with people from the Stegosaurus Kingdom before, it was precisely his foolish actions that led the Type 4 Prehistoric Monitor Lizards and Dino-warriors here.

Yue Zhong then looked at Dorothy, his tone solemn, "Elder Dorothy, you had best take out the antidote. You know clearly the Storm Queen's capabilities, with her help, we might have a chance to deal with those freaks."

Hearing his words, some of the upper echelons of the Winged Race exchanged looks, obviously in a dilemma. They had just used poison on Luo Qing Qing to seal her powers, now, they had to help her diffuse it. They were afraid of her anger and retaliation.

With a peak-Type 4 Divine Warrior strength, as well as the Storm Armor, if Luo Qing Qing chose to push her strength to the Type 5 realm and fought with the Winged Race, they would definitely suffer.

Dorothy flew down and handed a bottle over to Luo Qing Qing, with a sincere, apologetic expression, "It was my fault! I'm sorry! Esteemed Storm Queen, this was all on me. It has nothing to do with the Winged Race. If you want revenge, after this, I will hand myself over to you. However, I hope that you can let it slide for now, and help our Winged Race."

Although Dorothy was not an ideal governor, her foresight was decent. With the critical situation at hand, if all of them could work together, there was a chance to avert this disaster. If it were just the Winged Race, then the dozens of Type 4 Prehistoric Monitor Lizards were enough to wipe them out.

Luo Qing Qing downed the contents of the vial in one go, feeling her energy return to her. She shot Dorothy a cold look while speaking icily, "Don't worry, I'm not as stupid as you! I will help you, purely because the Winged Race is our ally. Our Storm Valley does not have the habit of betraying our allies!"

Immediately, Dorothy and the other various Elders felt a sense of shame.

"The battle is commencing!"

Dorothy quickly readjusted her emotions, and turned to the various Winged warriors and declared.

With that simple order, the various Winged warriors flapped their wings and left quickly to reorganize themselves and their troops.

In the city, each upper-class personnel was the leader of their own clan, because they were away, the rest of the warriors were caught unprepared and unorganized, that was why they were easily killed.

Once the leaders left, Yue Zhong swiftly came up to Dorothy and asked seriously, "Dorothy, are there any escape tunnels in your honeycomb city?"

This time, the Dino-army came prepared, Yue Zhong was not sure if there were any experts or trump cards they were prepared to utilize. If he could choose, he would rather flee.

Dorothy's eyes flashed as she replied bitterly, "No! We have never prepared anything of the sort!"

The entire honeycomb city was built up through the efforts of the Winged Race, and during the design process, they had not taken into consideration the possibility of needing an escape route.

Yue Zhong eyed the entrance and frowned as he cursed lowly, "Shit! So we can only attack? That's not such a good idea!"

Outside the cavern city, it was unknown how many Dino-people were lying in wait. Thinking about the possibility of facing another Mid-Grade Dino-General caused his scalp to turn numb.

Right at this time, the genius Lai Wei came up to Yue Zhong, shooting him a disdainful look, "Coward, are you scared? Dying on the battlefield is a given for us warriors, especially when dying to protect our homeland. It is the greatest honor!"

Yue Zhong turned to her, "The problem is, this is not my home! Lai Wei, you're a soldier that belongs to me now! Your life is already not yours but mine. Unless you're intending to go back on our bet!"

Lai Wei's pupils narrowed slightly, as she stepped forward, a resolute look flashing by her eyes, "Yes! According to our agreement, I'm your subordinate. However, this is my country, I'm a warrior of the Winged Race. I have to fight for my country! If I survive today, I will follow your orders. As of now, I'm still a Winged Warrior!"

After that, she immediately flapped her wings and soared towards the frontlines.

Yue Zhong watched his prize flying off and shook his head slightly. With a flash, he swiftly leaped after her. Lai Wei was not controlled by the Puppet Rune after all and still possessed her own thinking and fighting will. To her, protecting her home was more important than the result of the bet between Yue Zhong and her.

Han Zi Xuan followed tightly behind Yue Zhong. She was no longer one of the Storm 8 Greats, instead, his personal guard.

At the frontlines, a Type 4 Monitor Lizard was destroying countless structures, at the same time, the Winged warriors were disappearing mysteriously.

As the leaders of the respective clans returned to their positions, many of their subordinates flew out from behind, swarming the skies.

"Release the arrows!!"

Following the orders of the respective leaders, arrows rained down upon the Mutant Beast.

Facing the torrential arrows, the Type 4 Monitor Lizard displayed its ferociousness. The arrows bounced off its scales, and while many of the arrows shot by the Type 2 Divine Warriors managed to pierce through the scales, yet, they were like toothpicks on its back. Some of the stronger ones fired off by the Type 3 Divine Warriors managed to penetrate the skin, drawing the slightest bit of blood.

However, it was not enough to cause any major harm to the beast. It was still sufficient to enrage it, as its body flashed and charged towards the Winged warrior forces at the speed of sound. Everywhere it went, a large patch of the Winged warriors would disappear mysteriously.

"Beast! Go to hell!!"

At this time, 10 Winged warriors in Storm Battle Armor charged their suit with the Type 3 Nuclei on their back, pushing their strength to the Type 4 realm, as they aimed their bow and arrows at the beast and let loose more arrows.

10 arrows shot out like fearsome laser beams, piercing through the eyes of the Monitor Lizard, causing it to burst open in a gory rain of blood and flesh. It was the first time being injured gravely.

Some of the elite warriors knew the weakness of these Monitor Lizards, which were their eyes. In fact, the eyes were one of the weaker spots among most Mutant Beasts.

The Type 4 Monitor Lizard began to struggle in agony, twisting its massive body as it continued to rampage throughout the city.

Just as the 10 elite Winged warriors wanted to charge forth to hunt another, a black torrent shot out towards them from one of the Monitor Lizards below.

They quickly scattered, however, 4 of them were just a beat slower and were instantly wrapped by that black shape, turning into a puddle of liquid.

As for the remaining 6 elites who had just dispersed, one monitor lizard took the opportunity to pounce towards them.

Swish! Swish!

In barely a second, all of them disappeared without a trace.

"What a fast tongue!!"

Yue Zhong had caught sight of what happened and was shocked.

## Chapter 844: Morale!

The reason why the Winged warriors had been disappearing nearby the Monitor Lizards was because the speed of their tongues was extremely fast. In just a blink of an eye, their tongues could extend out and catch a number of Winged warriors into their mouths.

If it attacked suddenly, even Yue Zhong would not be able to evade that tongue. If a Type 5 Divine Warrior was caught unprepared, similarly, they would be dragged into its mouth.

"Lina!!!"

At this moment, a heartbreaking scream rang out from the skies, as Lai Wei turned enraged and channeled the power of the Storm Armor, drawing her bow.

A single bone arrow shot through space, slamming into the Monitor Lizard, blasting a fist-sized hole in its body.

However, its recovery rate was extremely powerful. The wound started healing at a speed visible to the naked eye. It leaped up and swiftly pounced towards Lai Wei, shooting its tongue out at her.

Lai Wei's combat experience made her a fearful opponent. She had seen the terror of the tongue for herself, and the moment the Monitor Lizard moved, she had already soared upwards.

The Monitor Lizard felt its tongue smack thin air, it was the first time it had missed.

Lai Wei's expression was pale, she had nearly been pulled into the beast's mouth.

However, with her experience, she had made the correct call and quickly flew backward while firing non-stop at the Type 4 Monitor Lizard.

"Effective range: 200m. Method of attack: tongue, poison, body. Its speed is fast. Lightning and Greenie would not be a match for it."

Yue Zhong observed quietly and made a quick assessment.

In such terrain, it was disadvantageous for Lightning and Greenie. If they were not careful, they could be held down by the tongue, and be corroded by the poisonous spit.

They were more compatible to fight in a wide area, bringing with them the element of surprise. These Monitor Lizards were their banes.

"Come on out! Turtle!"

With a thought, Yue Zhong activated his Beast Summoning Technique. A void appeared in mid-air, and the house-sized Turtle lumbered out.

The moment Turtle appeared, it quickly shot out a huge breath of frosty air towards the Monitor Lizard.

The Monitor Lizard's response was slightly slower and it was quickly frozen solid into an ice sculpture.

Yue Zhong shot forward, dashing towards the Monitor Lizard like a lightning bolt.

The Monitor Lizard had an immense strength and resilient life force as well. It shuddered strongly, causing the ice around it to crack, as countless parts broke off.

At the moment the ice shattered, Yue Zhong, who was in his light-gold Sun Armor, his strength pushed to the peak of Type 5 Realm, appeared on top of the Monitor Lizard's head, the Sun Battle Spear in his hands striking down viciously.

A bright burst of gold light shone outwards, piercing the head of the Mutant Beast, tearing it apart.

The Sun Battle Spear could utilize the energy from the user to become a powerful burst to attack enemies. However, while its might was tremendous, the energy consumption was likewise extravagant. If he continued like this, it would take another 10 times for his might to be depleted.

"Strong!"

"That was the human Yue Zhong! He's truly strong!"

"Powerful!!"

"We can win!! With him, we definitely can win!!"

"..."

Seeing how Yue Zhong destroyed the seemingly invincible Type 4 Monitor Lizard in a flash, the morale of the Winged Race soared from the depths of despair. They began to recover the will to fight. It was the whole point of Yue Zhong not holding back his energy to put on such a display.

Without any morale, most troops that had lost hope would find it hard to even fight with 70% or 80% of their strength. With a little hope, together with the notion of fighting for their home, these Winged warriors would be able to exert 120%.

Yue Zhong looked at Lai Wei in the skies and barked, "Go deal with the Dino-people! Let me handle these monsters!"

By now, a large number of Dino-warriors had also charged in right behind the Mutant Beasts. They were aiming to slaughter those missed by the Monitor Lizards.

After Yue Zhong's display of strength, all the Winged warriors regained their confidence and focus, instantly adjusting their emotions and charging for the Dino-warriors.

Arrows rained down upon the Dino-warriors without stop. These Dino-warriors only had Type 3 Divine Warrior strength, their bodies covered with Type 3 or Type 4 Mutant Beast hide. They were naturally struck down by the rain of arrows.

These Winged warriors had incredible archery skills, and although they were unable to deal much damage to those Type 4 Monitor Lizards, it was mainly due to the recovery skills of the beasts. Therefore, they were more effective against the weaker Dino-warriors.

As for the Dino-warriors themselves, they were elite warriors as well, retrieving their own bows and arrows to return fire on the Winged warriors.

The dense rain of arrows fell upon both sides, every passing second, another warrior would be killed.

With a powerful gust of cold air, another Monitor Lizard was frozen solid. Yue Zhong dashed forward onto the top of the ice sculpture, using his Sun Battle Spear to strike down viciously, piercing the head and absorbing the powerful life force.

At this moment, a sense of danger arose in Yue Zhong's heart. All of a sudden, a nearby Monitor Lizard appeared, opening its jaws to fire out its tongue towards him.

The speed of the Monitor Lizard was simply too fast. Even with his enhanced Type 5 realm, Yue Zhong was unable to dodge in time. Caught by the tongue, he was pulled quickly into the mouth of the Monitor Lizard.

#### Chapter 845: Survival from Danger!

The teeth of the Type 4 Prehistoric Monitor Lizards were extremely sharp, even a Type 5 Divine Warrior would be crushed to a pulp.

Even at that critical point, Yue Zhong maintained his calm and gathered his energy into the Battle Spear in his right hand. With all his might, he thrust towards the Monitor Lizard, causing a powerful golden radiance to burst out, slamming into the head of the beast, directly penetrating it.

Following its death, its mighty jaws began to close and the sharp teeth also came down towards Yue Zhong.

Yue Zhong flipped his hands and a Type 4 Nucleus energy shield appeared, glowing brightly as it conjured a powerful shield out of thin air.

This energy shield was precisely the efforts of one of the new Storm 8 Greats, Phoenixina.

The teeth of the Type 4 Monitor Lizard came slamming down on the shield, causing it to shudder slightly. However, they could not penetrate the shield.

Yue Zhong then swung his Battle Spear, slashing the tongue apart. He then dashed out of the mouth.

"Watch out!! Yue Zhong!!"

The moment he leaped out the mouth, Luo Qing Qing's shout traveled from the sky.

Yue Zhong felt an intense sense of danger and he twisted his body.

At that instant, a frightening salvo of arrows pierced through the sky, slamming into Yue Zhong. They ripped through the Sun Battle Armor, going through his body, causing him to soar slightly into the sky.

A Low-Grade Dino-General eyed Yue Zhong coldly while wielding his bow. That salvo of arrows was precisely fired by him. His accuracy was terrifying, and he was considered a top-notch archer in the Stegosaurus Kingdom. Many Type 5 Divine Warriors of other races and species had fallen at his hands. He was one of the experts that had joined on the expedition this time.

"Go to hell! Monster!!"

As the Low-Grade Dino-General was about to fire another salvo, Luo Qing Qing swooped down on him, her body covered by numerous wind blades. The storm immediately buffeted the Low-Grade Dino-General.

The Low-Grade Dino-General had his fair share of battles and with a tap of his foot, he retreated backward. He lifted his bow to slam into the Storm Battle Spear of Luo Qing Qing.

After donning the equipment, Luo Qing Qing was at a Type 5 realm. Her skills and powers were at a different level. With a flash of her spear, it thrust out in a series of after-shadows, disappearing from the sight of the Low-Grade Dino-General. The next moment, it suddenly pierced through his heart mysteriously, as countless wind blades exploded from the point of impact, slicing the Low-Grade Dino-General up into many pieces.

The Dino-people had stronger physiques and a regenerative power compared to humans. That was why Luo Qing Qing knew the best choice was to slice up their bodies before they could regenerate.

Luo Qing Qing had just killed the Low-Grade Dino-General when the other 18 of them let out howls of anguish and charged over.

The Low-Grade Dino-Generals had witnessed Luo Qing Qing's strength, that was why they chose to team up to deal with her. Every one of them had the strength of a peak-Type 4 Divine Warrior, while the best among them was half-step into the Type 5 realm. With all 18 of them working together, even a Type 5 Divine Warrior would find it hard to beat them.

Luo Qing Qing turned her gaze to them, her eyes flashing with a powerful desire to battle. With a tap of her foot, she directly charged towards 3 of them, intending to deal with them first.

The moment she moved, a number of powerful wind blades blew out around her, tearing the Dino-warriors into pieces. At that moment, on the battlefield, she showcased her true strength as the Storm Queen.

On the other side, Yue Zhong had been flung a distance away, bleeding badly.

Below him, 3 Type 4 Monitor Lizards dashed forward with all their speed, pouncing towards him. They opened their jaws and shot out their powerful and fast tongues.

In mid-air, a large void appeared, as White Bones leaped out, turning into an orb of light that enveloped Yue Zhong, becoming a sharp bone carapace.

The 3 tongues came swirling around Yue Zhong's body. In response, the bone blades on the bone carapace started to twist and grind, slicing up the tongues in a shower of blood.

Having their tongues broken, the 3 Mutant Beasts quickly retracted them, their eyes revealing a pained expression. Their tongue was their main tool for hunting prey. Even smaller Type 5 Divine Warriors could die in their mouths. Now that the tongues were destroyed, they were filled with fury towards Yue Zhong.

The 3 of them opened their stinky mouths and fired out poison towards Yue Zhong.

At the same time, on the frontlines, many Dino-warriors had raised their bows and were firing non-stop at Yue Zhong, their arrows raining down like water drops.

Yue Zhong's act of dealing with the 3 previous Monitor Lizards had caught the attention of the Dino-warriors, that was why they immediately focused fire on him.

The Type 4 Mutant Beasts were ferocious and violent, a preferred killing tool utilized often by the Dino-people. They were more important than how tanks and fighter jets were important on Earth. Having lost 3 to Yue Zhong, these Dino-warriors were enraged.

In mid-air, Yue Zhong had no way of evading. He could only activate his Gravity Manipulation and increase his weight by 8 times, his entire body descending downwards like a huge boulder.

Since the sky was filled with arrows, even as Yue Zhong was plummeting towards the ground, a huge number of arrows still landed on him.

Every one of the Dino-warriors had the strength of a peak-Type 3 Divine Warrior, their arrows made out of powerful Mutant Beast bones.

The fearsome arrows managed to pierce through parts of his bone carapace, before being stopped by the Sun Battle Armor.

However, the arrows still managed to bring with them a powerful force that was not weaker than the impact of a rocket, causing Yue Zhong's insides to shudder and his body wracked with pain. Fortunately, his Endurance was high, together with his Body of Steel, he was not too gravely injured. Even so, he suffered some pain.

With that move, he managed to dodge the 3 poison spit. Unfortunately, they landed on some Winged warriors nearby, and the affected Wing warriors immediately screamed out miserably as their bodies started to corrode.

The strength of the Monitor Lizards' poison was terrifying. Just the slightest bit of contact could kill a person. It was truly overbearing.

Dozens of arrows landed on Yue Zhong, making him look like a porcupine. With his Gravity Manipulation still in effect, he continued plunging towards the ground.

The moment he landed, a Low-Grade Dino-General appeared in front of him, sending out a powerful fist. He wanted to slam Yue Zhong back up into the sky. His fellow comrades would then be able to fire continuously to kill him.

Yue Zhong's eyes flashed coldly, and without holding back, he sent a powerful slap enveloped by Devil Flames towards the Low-Grade Dino-General.

The Low-Grade Dino-General was too close to Yue Zhong, and without any time to defend himself, he was consumed by the flames. He began to wail and struggle amidst the pain, while his Radiance of Life glowed to protect himself.

Yue Zhong's Battle Spear shot out like a dangerous dragon, piercing the head of the Low-grade Dino-General, allowing a large amount of Life Force to enter Yue Zhong's body through the God and Devil Imprint. It instantly calmed the turbulent blood and energy, at the same time, regenerating a little of his Stamina.

He flipped his left hand and the Electromagnetic Gun appeared. With a tap of his foot, he charged towards one of the Monitor Lizards, firing out multiple beams towards the numerous Dino-warriors gathering towards him.

Since his Firearms Manipulation had been pushed to the Second Order, his accuracy was multiple times better than any sharpshooter from before the Apocalypse on Earth. Within a hundred meters, as long as any Dino-Warrior had not utilized its max speed, they would be killed instantly by Yue Zhong.

The Winged Race was also helping to suppress the Dino-warriors from up in the skies.

In a few breaths, Yue Zhong had appeared in front of the Type 4 Monitor Lizard. The beast had its tongue destroyed earlier and it immediately charged towards Yue Zhong.

With a glint in his eyes, Yue Zhong aimed at the beast and fired multiple times.

The Electromagnetic beams were fired at its eyes, and one managed to blast it apart, as blood and matter splattered out on the ground.

Yue Zhong's speed was extremely fast; before the Type 4 Monitor Lizard had a chance to react, he had already fired through the other eye in a mad salvo.

Under the barrage of beams, the other eye also burst apart, as blood flowed out in a gory manner.

## Chapter 846: Dino-General Ku Feng!

After destroying both eyes of the Type 4 Monitor Lizard, Yue Zhong swiftly turned and dashed towards another direction.

To kill a single beast like that, with his current enhanced strength, it would take a huge amount of energy through the Battle Spear just to kill in one blast. However, it took up too much energy, and with such a method, Yue Zhong would be left exhausted after doing it 10 times.

Once he left, the Monitor Lizard let out howls of pain and fury, twisting its body around maniacally, crushing a number of unfortunate Dino-warriors nearby it.

In the skies, Lai Wei barked, "Don't attack the blinded Type 4 Monitor Lizard! Attack those damn Dino-warriors!!"

Those blinded Monitor Lizards were no longer a threat to the Winged Race for the time being. Instead, they became obstacles for the Dino-Warriors, slamming into them during their rampage.

Yue Zhong appeared in front of another Type 4 Monitor Lizard in a few breaths, in response, the Monitor Lizard also dashed towards him.

Yue Zhong cocked his Electromagnetic Gun and borrowed the enhanced speed of his Type 5 realm to fire at both its eyes.

After destroying them, he dashed off towards the remaining Monitor Lizard whose tongue had been sliced by him earlier. Utilizing the increase in speed, he also dealt with its eyes smoothly.

When he was done, he made his way towards the other Monitor Lizards which were still largely uninjured. One of them suddenly opened its mouth to shoot its tongue at him.

In response, Yue Zhong made use of the bone blades of the carapace to twist once more, slicing the tongue up as blood splattered everywhere.

At this moment, the Monitor Lizard suddenly fired a poisonous spit towards Yue Zhong.

His face turned drastically, summoning the energy shield once more in front of him.

The terrifying poisonous spit landed on his shield and emitted sizzling sounds. The poison was so strong to even corrode the energy shield produced.

The beast then seized the chance to pounce on Yue Zhong, opening its jaws wide to bite down viciously.

Other than the tongue, the bite of these Monitor Lizards was also terrifying, containing a tremendous bite force, coupled with its natural agility, few prey ever survived such attacks.

Yue Zhong tapped his foot immediately after the poison was spit onto the shield, retreating backward explosively. He knew the danger of tackling the Type 4 Monitor Lizards at close range, and if not careful, he could also be killed instantly.

The Type 4 Monitor Lizard clamped down on thin air.

Yue Zhong's pupils constricted and fired out a few more electromagnetic beams with his gun, blasting the eyes of the Monitor Lizard.

"Watch out! Sir Yue Zhong! Beneath you!!"

At this moment, Han Zi Xuan's scream sounded out. She was currently pushing the limits of her Storm Armor with the Type 4 Nucleus to engage the Dino-Warriors in combat. She had been dispatching them with some ease.

"Below? Shit!"

Sweeping his gaze, Yue Zhong realized that his surroundings had already been covered in the poisonous spit of the Type 4 Monitor Lizard. In fact, one of his foot was covered with it, and there was poisonous fog rising, a result of his soles being corroded.

With a thought, 2 balls of Devil Flames appeared at his feet, instantly burning the poison.

"Watch out!"

Right at this time, Han Zi Xuan let out another piercing scream in anxiety.

Yue Zhong felt his Danger Perception ringing incessantly, and he shot out 2 bone spikes to send himself up to the skies.

A shadow suddenly bolted out of nowhere, sweeping a kick towards the spikes, crushing the bones.

Yue Zhong raised his hands to fire a spider silk from his ring, latching on to a honeycomb structure. He then retracted the silk, pulling himself towards there, while sweeping his gaze below. He discovered a Dino-General with the visage and aura of a demon, covered entirely in sharp bone spikes, and a layer of black spikes. The Dino-General was charging towards him, his fist punching out at a terrifying speed towards Yue Zhong's heart.

That punch had no glow or special abilities attached, it was just pure speed, so fast that even Yue Zhong at his enhanced Type 5 realm could not evade!

"Mid-Grade Dino-General!!"

Yue Zhong's face fell, his eyes flashing with a fierce glint. He pushed his might, enveloping the Battle Spear in his arms and thrust out towards the incoming Dino-General. He wanted to use the tactic of causing mutual harm to fight it out with this Dino-General.

Every single Mid-Grade Dino-General had at least a peak-Type 5 Divine Warrior strength. It was because they were the strongest race on this planet, and had an advantageous physique. In terms of body constitution, they were even above the Flesh-Eaters and Vampires of the 2nd World.

Yue Zhong was not a match for such freaks. Although he had crawled through countless battles with zombies and beasts, these Dino-Generals were a different story altogether. They had gone on multiple conquests throughout the lands, their battle experience not losing out to Yue Zhong, in fact maybe even surpassing his. Only by risking his life would there be a chance to survive.

The eyes of the Mid-Grade Dino-General flashed coldly, as his Radiance of Life shone out, while he twisted at an impossible angle, dodging that critical strike of Yue Zhong. At the same time, he swung his tail to slam viciously into Yue Zhong's body, causing him to shoot back, smashing through the honeycomb structures.

With that single strike, Yue Zhong felt his chest area compressed as he spat out a mouthful of blood. His expression was pale, and his inner organs were in turmoil. The bone carapace was shattered in many areas, but fortunately, it had helped negate some part of the force, protecting the Sun Battle Armor. However, there was still a long, powerful gash right smack in the middle.

"Shit! That was painful! To think that there would be a Mid-Grade Dino-General."

Yue Zhong coughed out a few more mouthfuls of blood, thoughts flitting through his mind.

Hong!

With a loud boom, the Mid-Grade Dino-General had destroyed the wall of the honeycomb building and leaped in. His gaze immediately fixed upon Yue Zhong lying in a pool of his blood, and he dashed forwards without any mercy, throwing another punch towards Yue Zhong's heart.

The punch pierced through the chest of Yue Zhong, causing him to disperse into dust.

Beside the Mid-Grade Dino-General, the real body of Yue Zhong had been in Stealth, thrusting viciously with his Sun Battle Spear.

"Clone! Ability to hide in the shadows! You are Yue Zhong of the Vulture Valley?! You beast, you killed 20 of our Stegosaurus Kingdom's Dino-Generals. Very good, today I will tear you apart, using your blood to pay respects to my fallen brothers!! Remember, the one to kill you is called Ku Feng!!"

Ku Feng's eyes flashed viciously as he grabbed onto the Sun Battle Spear.

At that moment, Yue Zhong let go of it, causing the Battle Spear to be knocked away violently.

Yue Zhong seized that chance to enter within range, his fist covered with Devil Flames to punch out at Ku Feng's heart.

Ku Feng's gaze turned cold as he slashed out without losing his calm towards Yue Zhong's right arm.

The Devil Flame burst forth with more intensity.

"You're a Flame-based controller, this I already know. Seal for me!!"

With a loud bellow, the Radiance of Life from his body burst forth, enveloping the Devil Flames, pushing it back, before he clamped down violently.

With a loud crack, the bones of Yue Zhong's right arm were instantly shattered from the force of Ku Feng's grip.

Although Yue Zhong was considered a top-expert among humans, his physique astonishing and powerful, against these Dino-warriors who were even more freakish, he was still far off.

"Go to hell!!"

Since he gained the upper hand, Ku Feng let out a savage smile and tugged on Yue Zhong's right arm towards himself.

Yue Zhong's pupils constricted as a powerful blast of Devil Flame burst outwards from his body, before transforming into a flame dragon that enveloped around Ku Feng.

Ever since the Devil Flame was pushed to the Third Order, Yue Zhong's control over it had become extremely minute, its might had also increased by leaps and bounds.

Ku Feng stared at Yue Zhong, enveloped by the Devil Flames, and laughed coldly, before flinging him forcefully towards a wall.

Yue Zhong slammed into the wall, suppressing his pain as he fired out another flame dragon towards Ku Feng.

With a cold chuckle, Ku Feng disappeared from his position suddenly.

Yue Zhong felt alarmed and twisted around, his gaze sweeping the area. All of a sudden, a sense of danger welled up, and he quickly leaped to one side while curling his body tightly.

At the same moment, a powerful arrow shot out from a particular corner, slamming into his left shoulder with the force of a comet strike, directly piercing through his bone carapace, Sun Battle Armor, even the Type 5 Mutant Beast scale armor. After the 3-fold defense, it directly tore through Yue Zhong's Body of Steel, piercing into his bone, and shattered his left shoulder.

In the corner, Ku Feng was wielding his bow, his gaze cold. It was him who had shot that arrow. Against a fire-attribute expert like Yue Zhong, close quarter combat was disadvantageous. Thus, he had relied on his powerful archery skills to assault Yue Zhong. Among the Mid-Grade Dino-Generals, he was considered one of the best, having shot and killed a Type 5 Mutant Beast before.

## Chapter 847: Killing Ku Feng!

Yue Zhong rolled on the ground in agony, towards a building behind, as he hurried to activate his Second Order Stealth. In the blink of an eye, his aura disappeared.

The Stealth skill was extremely useful in battle. As long as Yue Zhong left the sight of Ku Feng, he could quickly make use of it together with his Shadow Clone ability to confuse his enemies.

Yue Zhong darted into the honeycomb structure, flipping his hands and laying a few remote-controlled bombs noiselessly at the various corners.

The humans of the 2nd World were versed in acts of terrorism, utilizing such means to attack the Saint Clan. Since their personal strength was lacking, making use of such explosives, they had dealt with some Type 4 Saint Clan members before.

With a tap of his foot, Ku Feng dashed towards the direction where Yue Zhong was last at. In a few breaths, he charged right into the honeycomb structure. He had already deemed Yue Zhong a must-kill target, at the same time, his strength was vastly superior to Yue Zhong, thus, he was not afraid of whatever means Yue Zhong might employ.

At the moment he entered, he suddenly felt danger, and he raised both hands to protect his head.

Hong!! Hong!!

Powerful explosions happened right in front of him, as the shockwaves and force enveloped him entirely.

Having gained an advantage, Yue Zhong did not dare stay, quickly turned around to flee the area.

Ku Feng was too powerful as a Mid-Grade Dino-General, and Yue Zhong did not think that he was capable of blasting this freak to death with just some explosives.

Before the dust could settle, a powerful figure loomed and dashed out of the area of impact. It was precisely Ku Feng. The powerful explosions that could cause even an armored vehicle to be blasted into bits and pieces only managed to cause some small wounds on him. His body was charred black, but there was no real harm done.

"Damn freak!!"

Yue Zhong eyed the uninjured Ku Feng and could not help but curse. It was likely that only these Dino-warriors were able to resist the impact of explosions and blasts without any damage. If it were him who was caught in such a frightening display of explosives, he would have been injured gravely as well.

Ku Feng's speed was incredibly disgusting. The explosions barely did anything to slow him down. He had almost leaped out right after the explosions, appearing in front of Yue Zhong, sending out a powerful punch.

Yue Zhong immediately covered his body with the thick, Dark Dou Qi. He threw out a slap of his own with all his might.

Ku Feng's tyrannical strength burst forth at that instant, sending Yue Zhong flying once more through another honeycomb structure.

He spat out another mouthful of blood, before pulling himself together to summon 3 Shadow Clones that separated in various directions.

With a cold glint, Ku Feng pulled out a handful of metal balls and threw them at all 4 Yue Zhongs, shooting towards them like cannonballs.

3 of them instantly disintegrated when struck, while the remaining true body was sent flying once more.

Ku Feng had a cold, mocking look, as he shot towards Yue Zhong in a beam of light.

Yue Zhong made use of the surrounding buildings to weave in and out, trying his best to shake off Ku Feng. However, despite his best efforts, the Dino-General was approaching ever so slowly.

"Ku Feng! Today will be your death day!"

After passing another 2 structures, Yue Zhong suddenly came to a stop, his eyes flashing coldly as he turned around. He then pressed down on a remote control.

Hong! Hong!

Following 2 loud explosions, Ku Feng was directly enveloped by the 2 planted explosives.

"Just with your broken toys? If you want to hurt me, you'll require at least a Type 2 Energy Bomb. These toys are too backward!! Fool!!"

In the huge cloud of dust, Ku Feng continued to dash towards Yue Zhong like a demon.

"If the explosives are useless, what about these?"

With a fierce glint in his eyes, Yue Zhong flung his right hand, as a powerful Devil Flame dragon shot towards Ku Feng.

"Stupid! Your control over fire is too weak!!"

Ku Feng looked at the Devil Flame dragon coiling towards his heart and laughed coldly. He tapped his foot and appeared to the right, easily dodging the strike.

Right at this time, a green shadow shot out from behind Ku Feng, the Storm Battle Spear in her hands gathered with energy, thrusting towards him. If it hit, even a Type 5 Peak Divine Warrior would be heavily injured.

"Storm Queen Luo Qing Qing, I never thought that as a ruler of a faction, you would resort to such petty tricks. You've really opened my eyes!"

Ku Feng swept his gaze towards the green shadow, twisting his body and lowered it to the ground. His right leg then came kicking at the Storm Battle Spear with a powerful force.

With that attack, the Storm Battle Spear was sent flying, while a powerful green energy beam shot to the sky, causing a deep hole in the mountain cavern.

At the same time, there was a strange change in Ku Feng's body. His tail that was covered with sharp spikes swung towards Luo Qing Qing's body, piercing through the Storm Battle Armor, slashing into her skin, and sending her flying dozens of meters backward. A large amount of fresh blood flowed from her wounds, and she looked miserable.

The Dino-people was one of the terrifying races with powerful combat skills among all the intelligent life forms that Yue Zhong had come across. Furthermore, on top of the Stegosaurus Kingdom, there was the other Tyrannosaurus Kingdom, Venatosaurus Kingdom, and various other Dino-races. These were existences that far surpassed the humans, even a peak Type 5 Divine Warrior from the human race might not necessarily survive a battle with a Dino-General of the same realm.

Afar, Han Zi Xuan's eyes turned extremely red, as she borrowed the power from the Storm Battle Armor to boost her strength, forcefully raising it to the Type 5 realm. She then unleashed her ice abilities, as a powerful freezing field covered Ku Feng.

Everywhere the freezing aura touched, they would turn to ice sculptures. Her moment of attack had been at the same time as Luo Qing Qing, thus when Luo Qing Qing was sent flying away with a kick, the terrifying freezing field had blown towards Ku Feng.

At that instant, Ku Feng was enveloped in ice, his whole body turning into an ice sculpture. The layer of ice was still thickening.

"Break for me!!"

With an angry bellow, a bright burst shone from his body, his Radiance of Life forcefully shattering the ice. Even the Type 5 ice energy was unable to keep him sealed for long.

The moment he shook off the residual ice, Han Zi Xuan stared with her eyes bloodshot, when suddenly, her body began to tear in multiple areas, as blood splattered everywhere. She then crumpled to the floor.

Han Zi Xuan was after all a peak-Type 3 Divine Warrior, after fighting beside Yue Zhong, she had fortunately raised her strength to the Type 4 realm. However, as she had just advanced not too long ago, she was still unused to her new condition, and could not maintain the Type 5 strength at all. Therefore, after unleashing a move, she was struck by the powerful backlash.

Ku Feng had broken away from the terrifying freezing field, but some of the cold had seeped into his body, slowing his movements a little.

Suddenly, another green shadow shot towards him, pouncing with force.

"Type 4 Mutant Beast!"

Ku Feng eyed the sudden appearance of Greenie and his face fell. His body once again shone with the Radiance of Life, while he tumbled to the side, barely dodging Greenie's claws.

One of the targets of Ku Feng and his troops sent here to the Winged Race city was Yue Zhong. They hated him to the bones for killing multiple of their fellow commanders. At the same time, they had researched into his abilities, knowing that he possessed a Type 4 Green Eagle. That was how Ku Feng could maintain his wariness and dodge such a strike from Greenie.

He did a roll, when suddenly, a shadow charged out from a building like a specter, opening its huge jaws towards him.

It was precisely another one of Yue Zhong's pets, the Type 4 Lightning, whose speed had surpassed Ku Feng, and adding on to the element of surprise, Ku Feng did not manage to evade and was bitten viciously on the leg.

The sharp teeth of Lightning pierced through Ku Feng's right leg, while it sent a powerful swipe towards his head.

Ku Feng was indeed tough and clear-headed. Even at a critical moment, his body burst out with a controlled Radiance of Life, and he forcefully severed his own right leg. His body then rolled to one side, swinging his tail towards Lightning's claws. That blow forced Lightning's claws away, at the same time, the sharp bone blades dug into its flesh, tearing huge wounds. Fresh blood burst out in splashes.

Lightning roared in agony and was knocked back.

As an Agility-based Mutant Beast, its Strength could not compare with some large Type 4 Mutant Beasts, however, it was still stronger than most Type 5 Divine Warriors. And yet, Ku Feng was able to send it sprawling away. This showed how overbearing his strength was.

Ku Feng himself rolled away, as Yue Zhong dashed over, his spear thrusting towards him.

Ku Feng's eyes flashed, as he grabbed the ground and whirled once, his sharp bone spikes slashing through Yue Zhong.

"Clone?!"

The Yue Zhong then crumbled, and Ku Feng was shocked. At that moment, the Sun Battle Spear shot out explosively from the sides, directly piercing through Ku Feng's body, as a powerful radiance burst out.

The moment he gained the upper hand, Yue Zhong shot forwards without hesitation, sending his Battle Spear through Ku Feng's head, directly removing it with a powerful slap.

## Chapter 848: Type 5 Metamorphosis!

With Ku Feng's death, a large amount of life force entered Yue Zhong's body. When the pure Type 5 energy coursed through him, it combined together with the God-Devil Nucleus that was constantly spinning and absorbing energy, slowly transforming it and making it bigger. Its size increased by a large amount.

The God-Devil Nucleus had just increased in size when a number of golden rays shone out, enhancing the various parts of Yue Zhong's body, down to the very minute cells.

"Congratulations, you have broken through, and are starting the Type 5 Metamorphosis. Once you are done transforming, you will become a Type 5 Divine Warrior. The Metamorphosis would take 24 hours, in this 24 hours, please do not use external tools to forcefully enter the Type 5 realm, otherwise, you might cause the metamorphosis to fail."

The system announcement rang in his mind.

"Type 5! I am finally going to become a Type 5 Divine Warrior!!"

When Yue Zhong heard that notification, he was filled with ecstasy, almost leaping into the skies with excitement

In this cruel world, the Type 4 Divine Warriors were still not considered true experts. Only when one was a Type 5 Divine Warrior would there be a chance to shine on the stage.

As for the human race, the Type 5 realm was an unreachable plateau, even Luo Qing Qing, the outstanding leader of the powerful Storm Valley faction was still merely at the peak of Type 4. As for Yue Zhong, although he lacked the resources, combat experience and skills compared to her, he had finally broken through the critical bottleneck.

This was mainly due to the God and Devil Imprint on him, without it, he could not have absorbed the life force from his defeated enemies, and would not evolve so quickly.

Remembering his status, he quickly calmed his emotions down, and flashed towards Han Zi Xuan, hugging her gently.

Han Zi Xuan was covered in blood, her face pale as she laid in Yue Zhong's arms. Her expression was one of relief, helplessness, and even joy when she saw Yue Zhong, smiling, "Sir! I'm sorry! Zi Xuan... is unable to carry out her promise... to serve you any longer!!"

Forcefully utilizing a strength that did not belong to oneself would ultimately cause a backlash. Yue Zhong had thus only pushed his strength to the peak of Type 5 realm. However, he would just suffer some minor injuries. This was because he would only utilize the bodily enhancement to fight.

"When you entered the agreement with me, you'll have to uphold it for life! I want you to live, you can't die!!"

With a flip of his hand, the fresh blood of the Type 9 Divine Warrior appeared in his hands. He pulled Han Zi Xuan's lips open and dripped 3 drops into her mouth.

The moment those 3 drops were ingested, a powerful Vitality and life force began to course through her body, healing her body at a visible rate.

"White Bones, go take her to the back!"

With a thought, White Bones disengaged from his bone carapace form, turning into a fragile skeleton that was riddled with injuries save for its legs.

White Bones nodded and carried Han Zi Xuan. With a single move, it grabbed the corpse of Ku Feng and dashed to the backend of the battle.

As he leaped, Ku Feng's corpse began to soften, turning into a pile of rubbery meat. His bones had been completely absorbed by White Bones.

The moment White Bones left, Yue Zhong turned and noticed Luo Qing Qing covered in blood, still battling the Dino-warriors in her Storm Armor.

She was not utilizing her abilities over the tornadoes, instead, purely using her spear techniques and strength to deal with the Dino-warriors. Each time she struck out with her multiple spear shadows, a Dino-warrior would find his heart pierced. She looked extremely ferocious and seemingly unaffected by her own injuries.

In a breath, over dozens of Dino-warriors had fallen at her spear. If it had been any human enemies, they would have long since lost their confidence and fled.

However, these Dino-warriors were different. The more ferocious she was, the fiercer their counterattack. They gathered together, and 14 of them lunged towards her.

At that moment, a salvo of arrows soared through the sky, buffeting the Dino-warriors.

It was precisely the aerial support troops covering Luo Qing Qing. With their help, she had routed a long way to launch a sneak attack of the dino-warriors.

After using her Storm Battle Spear to kill another 30 dino-warriors, her body suddenly glowed once, as her face turned pale, and she spat out a mouthful of blood.

Ku Feng was, after all, a peak-Type 5 Divine Warrior. When its attack had slammed into her body, her physique that could not compare to Yue Zhong had already suffered great injuries. Due to her rampage, it had aggravated her injuries.

One Dino-warrior roared out, "She's injured! Kill her!! Kill this damn human!!"

Luo Qing Qing eyed the 30-over Dino-warriors surrounding her, as their gazes flashed savagely and they pounced.

A cold look flashed past her eyes, as she readied her spear, and began to unleash a torrent of counterattacks.

The Storm Battle Spear continued to flicker in and out of the light, slaying a Dino-Warrior each time it appeared.

"Strong! This is truly the Storm Queen, she's amazing!!"

In the skies, the Winged Race saw how Luo Qing Qing was tearing through her enemies like a tiger through sheep. They were truly filled with shock.

Those female warriors knew the strength of the Dino-Warriors. The Winged Race had the advantage of the skies and had fired countless shots. And yet, they had only killed a dozen Dino-warriors. Those who could truly hold their own against the Dino-warriors might only be one or two of them. Also, only those Type 3 Winged warriors could possibly fire an accurate shot to kill a Dino-warrior.

Furthermore, those Dino-warriors were also firing at the Winged Race, and their 70% accuracy rate was even more terrifying, killing various Winged warriors. Some of them died instantly on impact when plunging to the ground.,

The Winged Race might have the advantage in their home, however, since the start of the battle till now, the number of Winged people that died at the hands of the Dino-warriors far surpassed the Dino-warriors that perished.

In a few breaths, Luo Qing Qing had killed another 30 Dino-warriors.

One Low-Grade Dino-General appeared before her, sending a powerful fist towards her heart.

Luo Qing Qing raised her spear in response, thrusting out in a series of profound movements, causing the spear to disappear, before piercing towards the heart.

The Low-Grade Dino-General had a fierce glint in his eyes, as he roared out in rage, his body bursting forth with the Radiance of Life. He did not evade or dodge, instead choosing to receive the blow while continuing his punch towards her. He was planning to die together with her.

These Dino-warriors were truly not afraid of death, and brutal in nature. They had no concern for their own lives, unlike humans.

At the same time, 6 Low-Grade Dino-Generals were rushing over, if Luo Qing Qing were to retreat, they would reach her and unleash a powerful attack.

Her eyes flashed with a ferocious glint, as the Storm Battle Spear penetrated the heart of the Low-Grade Dino-General in front of her. With force, she destroyed the heart in one go.

Under the protection of the Radiance of Life, although the Low-Grade Dino-General sacrificed his heart, his fist continued to slam into Luo Qing Qing's body, tearing apart her Storm Battle Armor, leaving a deep gash on her.

The Storm Battle Spear flicked upwards, causing the corpse of the Low-Grade Dino-General to be sent flying. However, her chest felt compressed, and her body was wracked with a sharp pain. She then coughed out another mouthful of blood, as she felt a wave of weakness, her body almost crumpling to the ground.

Luo Qing Qing grabbed the Storm Battle Spear and stuck it forcefully on the ground, supporting her body weight from falling.

2 Low-Grade Dino-Generals saw this and immediately pulled out their bows, aiming at her. 2 powerful bone-arrows that could pierce through even the hulls of tanks were fired at Luo Qing Qing's heart and head.

"Am I about to die?"

Luo Qing Qing supported herself on the spear, while blood trickled down the corners of her mouth. She eyed the 2 incoming arrows, her eyes a look of peace and pity. She had killed an unknown number of Dino-warriors and was certain that one day, she would also be killed in battle.

Although she could see the arrows coming at her, her body could not muster any strength. She had been kicked viciously by Ku Feng earlier, and in truth, her body was incredibly hurt. She had managed to hold out for so long because of the Storm Battle Armor. The physique of humans was still weaker compared to other intelligent life forms.

"No!! Your Majesty!!"

On the other side, Hai Xi let out a scream, she had just killed 2 Dino-Warriors, and was currently held down by 9 others, and could not leave.

Just as Luo Qing Qing was about to be killed by the 2 arrows, a shadow flitted past her, blocking in front with a large energy shield.

The 2 arrows bounced off when they struck the shield.

Luo Qing Qing looked at the man who had saved her life, speaking with an uncontrollable hint of resentment, "You're finally willing to come, Yue Zhong?"

She had seen Yue Zhong approaching Han Zi Xuan first instead of her after killing Ku Feng. This caused her to be filled with a strange, upset feeling that she did not comprehend. That was why she had started to go on a rampage without care for her injuries.

"Is this how you treat your savior? Drink this! It can help your injuries! Thanks for your help earlier!"

With a flip of his hand, a glass vial with a drop of the Type 9 Divine Warrior blood was passed to her, and he pulled out his Electromagnetic Gun, firing multiple beams at the Low-Grade Dino-Generals and Dino-Warriors.

Under the multiple blasts, the heads of the Dino-people were all split apart, as they turned into headless corpses. Some of them managed to dodge and dispersed. The electromagnetic beams were able to penetrate the bodies of the Dino-Generals, however, their speed was fast, therefore, it was harder to hit them.

When the Type 9 Divine Warrior's blood entered Luo Qing Qing's mouth, a powerful life force coursed through her body, regenerating her broken parts. Her pale countenance also regained some color. She looked at Yue Zhong who stood in front of her like a sturdy rock, focusing fire on the Dino-warriors and felt a strange emotion.

He continued to kill them while speaking solemnly, "Let's retreat! We're not their match right now!"

She eyed the droves of Low-Grade Dino-Generals and replied, "Even if we want to, they will not let us go!"

There were a dozen Low-Grade Dino-Generals charging towards them. If they joined forces, even Type 5 Divine Warriors would find it hard to deal with them. After all, these freaks did not fear death and were willing to exchange lives for lives. It was truly troublesome.

Yue Zhong suddenly barked, "If we can't fight them, we can call for help! Greenie, kill them!!"

In the skies, Greenie howled once and flapped its wings to generate its innate ability. Instantly, countless wind blades blew towards the Low-Grade Dino-Generals.

Their faces fell, and quickly channeled their Radiance of Life, trying their best to dodge the wind blades.

"Retreat!"

With a tap of his foot, Yue Zhong retreated explosively. During his retreat, his gaze was still fixed on those Low-Grade Dino-Generals. All of a sudden, he fired twice, the beams penetrating the heads of 2 Low-Grade Dino-Generals, and their life force was absorbed by him.

"Go take a good rest!"

After covering her retreat to safety, Yue Zhong left behind a single sentence, then re-entered the battlefield. However, this time, he chose to fire from afar, the Electromagnetic Gun in his hand reaping the lives of the Dino-Warriors.

## Chapter 849: The Lion Opens Its Jaws!

Inside the honeycomb city, Greenie swooped down from the skies, pouncing on one Monitor Lizard. It pecked down viciously, and its sharp beak went through the head of the Monitor Lizard.

At the same time, its claws dug into its body, causing fresh blood to flow out of the puncture marks.

The life force of the Monitor Lizard was still strong, allowing it to struggle furiously.

Greenie flapped its wings and soared into the skies, dragging the Type 4 Prehistoric Monitor Lizard with it.

On the other side, Lightning had also pounced on the back of another Monitor Lizard. It opened its powerful jaws to bite down on the neck of the lizard, tearing off a huge chunk of flesh.

The Monitor Lizard let out a howl of agony. Just as it wanted to retaliate, a powerful ice shard shot out and pierced through its body, injuring it heavily.

Inside the cavern city, Greenie and Lightning might not be a match for all of the Prehistoric Monitor Lizards, however, in a one-on-one clash, their strength was still above these beasts.

The remaining Monitor Lizards were being taken down by Yue Zhong's tamed beasts, while Turtle continued to crawl towards the Dino-Warriors like a tank.

A Type 4 Crocodile-Snapping Turtle might not be fast on land, its movement speed losing out to the Dino-Warriors. However, with its size, the Dino-Warriors were being forced backward.

Those Dino-warriors who had been shot by the Winged Races or were forced to hide behind cover, could not retreat in time and were squashed into meat paste by Turtle.

Many other Dino-warriors charged towards it, however, as they got close, Turtle would just open its mouth to breathe deeply, directly sucking the Dino-warriors into its mouth before it crushed them. It would also fire out ice shards from time to time, piercing the bodies of the enemies.

The huge weakness of Turtle was its movement speed. Its frontal assault might be strong, but its back, sides and behind were often exposed to attacks.

However, with Han Zi Xuan beside it to guard, any Dino-warriors that tried to take advantage of the weaknesses would be killed.

Once she was sent to the back to recuperate, Yue Zhong quickly replaced her position, swiftly appearing beside Turtle, cooperating with it to kill those Dino-warriors.

The remaining Monitor Lizards were quickly disposed of by Yue Zhong's tamed beasts. When Lightning and Greenie entered the fray of the Dino-warriors, the death toll of the Dino-warriors and Dino-Generals shot up significantly.

Dorothy and many other Elders began to don their Storm Battle Armor and charged into the fray as well.

While the Elders were arrogant and overbearing, not even respecting their Queen, they were outstanding warriors on the battlefield, each of them possessing powerful archery skills. Their aim was sharp, and they would seek out the Low-Grade Dino-Generals to take them out together with one another.

"Retreat!"

After many more Low-Grade Dino-Generals were killed and facing the combined assault of the 3 Mutant Beasts belonging to Yue Zhong, the Dino-Warriors were finally at a disadvantage. In this mountain cavern, the Winged Race had an advantage in terrain. With the help of the 3 Mutant Beasts, their morale was once again high, completely suppressing the Dino-Warriors. Since the main commander General Ku Feng had been killed by Yue Zhong, the rest of them could only choose to retreat.

Once the order was given, all the Dino-warriors quickly made their way out, leaving behind countless corpses.

"Kill!!!"

Dorothy and the rest of the Elders had joy on their faces, as they quickly flapped their wings to chase after them.

The elites of the Winged Race reached the entrance of the cave when suddenly, a rain of arrows fired towards the elite Winged warriors.

Under the salvo of arrows, many of the elites were nailed to the ground. The rest had no choice but to back up and retreat temporarily.

The huge tunnel was the only way out to the outside world, and also the only path of survival. Now that it was blocked, it was practically cutting off their only way to survive.

Dorothy led a few experts of the Winged Race to try and assault the entrance. However, with the Dino-warriors holding the fort there, they would be beaten back each time, with numerous Type 3 Winged warriors falling to the ground. Even Dorothy herself had suffered an arrow wound.

The Winged Race required space for them to display their abilities to the utmost. Although the tunnel was not exactly narrow or small, there was a limit to how much the Winged Races could fight with their abilities. Their advantage was minimized inside there, that was what the Dino-people had banked on.

However, that was the only way out for the Winged Race. After Dorothy's party retreated, the other warriors continued to send in batch after batch to storm the entrance, only to lose several of their people.

After multiple failures, the Winged Race surrounded the entrance, their faces grim, but they did not dare to charge in anymore.

The tunnel prevented the Winged Race from going all out, and while they might have numerous warriors, each time they launched an assault, they could only deploy a hundred or so. Any more than that would cause the tunnel to be jammed. Like that, they would not be able to display their advantage, and thus, they could only surround it helplessly, not knowing what to do.

As they were waiting, Yue Zhong came to them, riding on Turtle's back.

"Yue Zhong! You're here!"

The moment Dorothy saw him, her eyes lit up with joy, and she stepped forward and spoke warmly.

Many of the other Elders also looked at him with respect and a hint of envy.

Many of the younger female warriors had seen how Yue Zhong had single-handedly done so much during the battles earlier. If it was not for the current situation, they would have charged and thrown themselves on him.

Due to his efforts to deal with the Monitor Lizards, the Winged Race had managed to extract themselves from the crisis and beat the Dino-warriors back. Otherwise, they might have been wiped out.

Even Dorothy, who was filled with hate and disgust for him initially, had a 180-degree change in attitude.

Yue Zhong assessed the tunnel carefully while asking with a frown, "What's the defense like inside?"

Inside the city, there was only this tunnel. There were many heavy weapons inside, that could be used to defend against enemies intending to assault the Winged Race. However, once it was captured and held by the enemy, it was likewise a blockage that sealed the people within.

Dorothy spoke seriously with a slight bow, "The defense is tight, with over 15 Low-Grade Dino-Generals inside. With them holding the fort, it's difficult to breakthrough. We can only rely on you now. Please help our Winged Race! If you help us break out of here, our Winged Race would definitely not forget your mercy and grace!"

Since the Dino-race had sealed the entrance, what the Winged Race needed was powerful weapons capable of smashing and destruction. In Yue Zhong's arsenal, he had 2 powerful Type 4 Mutant Beasts that fit the bill, namely Lightning and Turtle.

Lightning was swift as the wind, it could maneuver inside the cave with no problems, hunting the Dino-warriors. As for Turtle, while its speed was slow, it was the one that could face the attacks head on and crush the enemy with dominating strength.

With these 2 massive beasts, combined with the elite warriors of the Winged Race, Dorothy had the confidence of breaking through. Otherwise, the only method left was to throw as many Winged warriors as she could, costing them their lives.

Yue Zhong eyed the tunnel and spoke indifferently, "2,000 warriors! I can help your Winged race get back this tunnel. But, after this, I want 2,000 of your warriors to serve me. If you don't agree, then the deal is off, you can try and take back the tunnel by yourself."

Hearing Yue Zhong's appetite, one of the Elders lost her cool, "What?! 2,000 warriors?! Do you know that we only have a total of 6,000 warriors in our Winged Race?! You actually want ⅓ of our forces, that is impossible!"

Dorothy's face also fell as she stared fixedly at Yue Zhong, "Yue Zhong, our Winged Race, and the Storm Valley have always been on good terms. Your actions now are simply robbing when the house is on fire, it's lowly and despicable!"

Yue Zhong laughed coldly and swept a glance at them, "Despicable? Just who was it that wanted to capture us to present to the Stegosaurus Kingdom? Wasn't the actions of your Winged Race despicable earlier? If it hadn't been for me, how many more of your people would have died?! I've already extended my kindness and mercy, there doesn't seem to be anything that I owe to you people right? I don't have the responsibility to fight so hard for you nor risk my life for you. I've just brought up a deal,

if you aren't willing, just forget about it! If you think that my actions are despicable, then Elder Dorothy, what would you make of your own actions?!"

Hearing Yue Zhong's cold sarcasm, many of the Elders flushed with shame.

## Chapter 850: Assault!

Dorothy bowed and apologized, "Yue Zhong, I apologize deeply for my disrespect and arrogance earlier. Now, our fates are all entwined together. If our Winged Race is wiped out by the Stegosaurus Kingdom, you guys will not survive as well. We should put aside our differences and dispute, work together and fight our way out for survival!"

Yue Zhong did not let up as he replied icily, "2,000 Winged warriors! Elder Dorothy, with my abilities, I might not be able to bring a dozen people out, but if Luo Qing Qing and I were to join hands, we can definitely bring our own subordinates out alive! If you don't agree, then feel free to fight for the tunnel by yourselves!"

One pretty Elder shot a glare at Yue Zhong, barking out, "We'll just attack then! Damn Yue Zhong, who do you think you are! Our Winged Race can take back our tunnel by ourselves! Sisters, come with me!"

After that, hundreds of elites charged up to the skies, dashing towards the entrance!

Dorothy's face fell as she barked, "Lai Li! No!! Come back!!!"

Just as the hundreds of elites flew up to the entrance, a number of arrows shot out like shooting stars, piercing many of them.

With screams of pain and misery, many of them fell to the ground in pools of blood.

The Elder Lai Li, whose strength was at the peak-Type 3 stage and was wearing the Storm Battle Armor, immediately received medical care. She had 6 arrow wounds on her, causing fresh blood to flow out constantly.

The Dino-warriors were not stupid as well, prioritizing the Winged Race members who had the Storm Armor.

With Lai Li's death, the rest of the Winged elites who had charged forth immediately retreated back in dismay.

In a bid to break through this time, they had lost a number of Winged elites, but not even a single Dino-warrior had been killed. The only result was that they had cost the Dino-warriors more arrows and stamina.

Seeing this, the faces of the Winged Race fell, their brows furrowing together. The tunnel was securely guarded by those Dino-warriors, if they continued to push forth like this, it would only be in vain. At the same time, they did not know what other means the Dino-warriors possess.

Dorothy's eyes flashed with a strange glint after some hesitation, before coming in front of Yue Zhong in defeat, saying solemnly, "Yue Zhong, please help us! As long as you get us out of this mess, we're willing to send you a thousand Winged elites!"

"Great Elder!!"

"Great Elder!! No!!"

The other Elders lost color in their expressions as they exclaimed out in horror.

The Winged Race were not many, with only 6,000 elite warriors. With the invasion of the Dino-people this time, they had lost over a thousand warriors. If they were to give another 1,000 over to Yue Zhong, their military might would be at an incredibly low point.

Dorothy's face sunk as she barked out, "Shut up!!"

The moment she lost her cool, all the Elders kept quiet. Dorothy's position among them was very high, with her thoughts and actions constantly for the people, many of the Elders had received her grace before.

Dorothy eyed them, "It is a critical time for our Winged Race now. If we can't get past this, then all 80,000 of our Winged Race would perish here. As long as Sir Yue Zhong helps us, protecting the lives of these 80,000 brothers and sisters, then what's giving a thousand of our soldiers to him? I believe that he would not mistreat them as well!"

Their technology was backward, and while their physique might be better than most humans, they still could not compare to the Dino-warriors. Their only advantage was that they could fly. Now that they were stuck here, even if they gave their all, and sacrificed the lives of thousands of people, they might not even be able to take back the tunnel. Dorothy saw this clearly, that was why she had no choice but to accept Yue Zhong's deal.

Yue Zhong replied indifferently, "1,500!"

Dorothy's eyes flashed with a begging look, "1,200!! Sir Yue Zhong, please! If you can accept this deal, you'll gain our friendship and the 1,200 warriors will definitely be your most trusted and loyal subordinates!"

Yue Zhong thought before nodding, "Alright!"

Earning 1,200 powerful Winged warriors was already a decent haul for Yue Zhong. Although they might not be able to defeat even 200 Dino-warriors on the battlefield, that was because they were by themselves, unable to utilize their advantages to the fullest.

If given to Yue Zhong, he could turn them all into powerful and lethal weapons. After all, he had many Sun Battle Armor as well as Type 3 nuclei. If he gave them all the Sun Battle Armor, he could form a powerful aerial unit.

Yue Zhong then came up to Luo Qing Qing, "Hey, I'll have to rely on your help later!"

Luo Qing Qing was able to push her strength to the Type 5 realm with the help of the Storm Armor. Coupled with her natural combat talents, a Low-Grade Dino-General could easily perish at her hands. In

terms of a frontal assault, Yue Zhong needed such a force at the forefront, after all, he had to maintain his Type 4 strength.

With just him alone, there was no certainty of breaking through the defenses of the Dino-warriors. The tunnel was too small and narrow for the large Mutant Beasts, therefore, he could not rely on Mount Tai.

Right now, Luo Qing Qing had already recovered fully with the help of the blood, ready to rejoin the battle.

A crafty look flashed across her eyes, as she smiled, "No problem, but after this, I want half of those Winged warriors!"

These Winged elites were extremely useful to any faction. They were proficient scouts and could take on Mutant Beasts that had no aerial capabilities.

Yue Zhong frowned and spoke softly, "I had saved you so many times, how can you this?"

Luo Qing Qing looked back at him and replied in a low voice, "That's another matter. This was what you taught me. Since you've saved me, I can ask for less. 300!"

Yue Zhong's face contorted as he bled in his heart, "200!! That's the most!!! Otherwise, forget it!"

200 Winged elites, if they were trained properly, they could become an entire special force on their own. If he had to give them up to Luo Qing Qing, he could not help but feel some pain.

Luo Qing Qing stared at Yue Zhong's expression in glee, and spoke with a bright smile, "Deal!"

"Move out!"

The moment the deal was settled, Yue Zhong did not hesitate to gather the elites with Dorothy's help. Turtle stood at the center of the formation and began to launch an attack on the tunnel.

Turtle had already channeled its innate ability right at the start, opening its huge mouth to breathe out powerful cold air. The cold air enveloped itself to form a huge, thick layer of ice.

The layer of ice weighed at least hundreds of tonnes, if that weight was on Lightning, it would crush it immediately. However, Turtle carried it and lumbered towards the entrance.

Although the Type 4 Crocodile-Snapping Turtle was slow, its huge body possessed a frightening strength. Other than a few other Type 4 Mutant Beasts, its strength could be considered one of the top.

When it appeared at the tunnel, countless arrows flew out once more, raining upon the layer of ice.

However, these arrows only managed to pierce through 20cm of the ice, and could not penetrate further.

The arrows fired by Low-Grade Dino-Generals were frightening, piercing through almost an entire meter before stopping.

As the rain of arrows shot out from the tunnel, landing on Turtle's armor, in a short while, it caused Turtle's back to look like a porcupine. However, it continued on its way, bulldozing over anything in its path.

"Strong! This Type 4 Mutant Beast is truly the best suited at besieging defenses!! Our Winged Race has hope!!"

Dorothy and the other Winged people saw how Turtle just braved all attacks as it advanced, their eyes filled with excitement. The rain of arrows that had cost them so much was being broken through easily, thus, giving them hope.

"Damn it!! Attack!! Route around that Mutant Beast!! Kill those fellows! That Mutant Beast is slow, as long as we kill those behind it, we can kill it!"

As one Low-Grade Dino-General roared out in fury, 12 others, as well as 200 Dino-warriors, leaped out from their covers, trying to run around Turtle.

This time, on their attack on the honeycomb city, they did not bring any heavy weapons. Therefore, they had no means of dealing with a moving fortress-like Turtle. The only way of victory was to use their military might against Yue Zhong and the rest, before kiting and wearing Turtle down to death.
