Chapter 1931: Could he be the benefactor who helped her escape?

He glanced at her and continued to eat.

Yu qinghuan looked at the food and bit her lip. She asked softly, "You're not afraid that they'll poison you?"

poisoning them is not good for their experiments. No. 1 picked up the steamed bun and stuffed it into his mouth.

that's right. Yu qinghuan thought about it and agreed. The experiments conducted in the laboratory were very detailed. Each injection was precise to the milligram. There were generally not too many additives in food. Even at a certain time, the test subjects were not allowed to eat. They had to use nutrient solutions to maintain their body functions.

She ate with ease.

The food was a little unpalatable, so she swallowed it with difficulty. After eating, she began to feel sleepy.

"There's sleeping pills," No. 1 suddenly said.

Yu qinghuan was shocked and looked at him.

He clenched his fist and angrily hit the bed, then the wall like a madman.

Yu qinghuan sat there in a daze, not knowing what to do.

When they fell asleep, those people would come to hold him down and take her out, and then they would still defile her in the middle of the night!

Yu qinghuan took a deep breath and thought, "I'd better wake up from this dream! I don't want it to happen again," she thought.

Slowly, the red cloth seemed to be sucked up by something, and it ran up with all its might. The surrounding seawater quickly formed a Whirlpool, and it became bigger and bigger, more and more powerful! She couldn't see anything at the bottom of the sea. A huge force hit her, and she felt her head hit hard. She woke up.

Yu qinghuan was shocked. She was covered in sweat as she looked up at the ceiling. She was still in Laboratory 1.

She looked around and saw number one sitting at the end of the bed with his arms crossed. He seemed to be asleep.

"I'm dead, Zhenzhen," she muttered.

She was already dead in the sea!

Which part of the dream was real?

Was it Zhuangzhou dreaming of the butterfly, or was it the butterfly dreaming of Zhuangzhou?

She suddenly had an absurd thought-could it be that everything was just a dream? Being raped by Sheng Zhongtian, giving birth to Sheng nanxuan, and becoming young and immortal were all just dreams!

In fact, this was the real thing? The dream had not happened yet?

When No. 1 heard her words, he opened his eyes and glanced at her, then slowly closed them again.

Yu qinghuan turned over and lay flat. She looked at the light on the ceiling, her mind in a daze.

If it was a dream, everything was too clear. She had met so many people and experienced so many things in her dream. Everything did not seem fake.

Yu qinghuan's eyes ached, and large drops of tears fell.

She suddenly understood that this was a reshuffling of life.

What he had experienced was real, and it was real now.

She's back!

She cried tears of joy.

Since he had to do it all over again, everything had to be different! After experiencing such a life, she had nothing to care about and nothing to be afraid of!

Clang clang clang clang clang

A sound came from outside. It sounded like a can rolling on the ground. Yu qinghuan immediately became alert.

Then, it rang two more times before it stopped.

Yu qinghuan was filled with doubts. She sat up and realized that number one was looking at her.

No. 1 put his index finger on his lips, signaling her not to make a sound, and then looked at the position of the surveillance camera.

Yu qinghuan took a look and realized that the surveillance cameras had been destroyed. Her heart began to beat wildly.

He was preparing to escape?

She laid back down nervously, not daring to make any noise. Her heart was filled with excitement.

Was he that lucky? He was about to leave this cage?

She did not meet him in her past life, so she did not have the chance. Could he be the benefactor who helped her escape? If she had met him in her past life, would her life have been completely different?

Such an exciting thought disappeared with the passage of time.

She waited for ten minutes, but there was no more sound from outside.

Yu qinghuan frowned. Could it be that there was no one and something had fallen on the ground?

She looked at No. 1. No. 1's eyes were closed, as if he was asleep.

She couldn't wait any longer and immediately sat up. No. 1 suddenly reached out and pressed on her ankle.

She jumped in shock and looked at him.

He placed his index finger on his lips again. She immediately understood that he had his own plans, so she could only obediently lie back down.

Seeing her like this, number one's lips curved up slightly, very satisfied. He retracted his hand and suddenly stopped, his eyes falling on her ankle.

Her skin was very delicate, and he felt a creamy touch. His fingers couldn't help but rub her ankle twice.

Yu qinghuan quivered. An electric current spread from her ankle, instantly numbing her entire body.

She suddenly looked at him. He paused, slowly retracted his hand, and closed his eyes again.

Yu qinghuan's heart was beating like a drum, and she was a little dumbfounded.

She didn't know what this feeling was about, but the feeling of being offended in her heart was instantly extinguished, even making her a little embarrassed to mention it.

Chapter 1932: Change the way of dying?

She slowly curled up into a ball and stared at the wall, her mind in a mess. Was this a field that he had never come into contact with in his previous life?

Clang clang clang clang

The voice came from outside again.

Yu qinghuan was shocked and turned to look.

Then, someone said,

no reaction. He seems to have fallen asleep.

those drugs have reacted to him. His willpower is stronger than ordinary people, but it's almost time for him to persist for so long. He definitely won't be able to hold on.

“But it’s been so long, the effects of number 17 should have worn off, right?”

“Don’t worry about her, she won’t be a threat.”

Yu qinghuan looked at number one. Number one suddenly glared at her and then closed his eyes. Seeing this, Yu qinghuan could only pretend to be asleep.

A few seconds later, someone walked into the room.

Yu qinghuan was very calm. She believed that number1 could solve this.

As expected, a scream was heard the next second.

She suddenly sat up and saw number one strangling the person’s neck.

Outside, there were screams one after another-‘he’s awake! Run! Quickly run!’

No. 1 dropped the person in his hand and rushed out.

Yu qinghuan jumped off the bed and followed.

Liu Xuelan stood at the entrance of the laboratory and shouted, ” “Hurry up! A new medicine!”

Yu qinghuan looked over and saw a man pointing a gun-like syringe at number one.

“Be careful!” She shouted at No. 1.

No. 1 grabbed a man and threw him toward Sheng Zhongtian, who was at the door.

Sheng Zhongtian was so scared that he hid behind Liu Xuelan. Liu Xuelan shouted to the people around her, "Hurry up!"

! Let's go out first!! Sheng Zhongtian pulled her and ran out.

Yu qinghuan was extremely anxious. She hated herself for not having the ability to help. She looked around, grabbed a piece of wood from the ground, and rushed to the nearest person.

That person was holding a syringe and was about to shoot at number one when she smacked the board over. The syringe slanted and the syringe flew out.

At the same time, number one jumped to the side and hit the needle.

Yu qinghuan gasped, and the wooden board in her hand fell to the ground.

No. 1 fell to the ground, pulled out the needle, and turned to look at her.

Yu qinghuan: "Yingluo! she really wanted to help!"

Liu Xuelan rushed over with a stick in her hand and smacked number one's head. Number one fell to the ground and fainted.

Liu Xuelan laughed coldly and threw away her rod. "Lock him up and record his observation!"

She turned around and walked out. Sheng Zhongtian asked, "What about number 17?"

Liu Xuelan stopped and looked at him. She sneered, "What's wrong? You can't bear to part with such a young and beautiful girl?"

“What nonsense are you talking about?” Sheng Zhongtian choked and hurriedly said.

Liu Xuelan snorted and turned to leave. Sheng Zhongtian glanced at Yu qinghuan and quickly followed.

Yu qinghuan sneered in her heart. The two of them could be considered a perfect match, but unfortunately, they were doing things like wolves, Tigers, and leopards!

The rest of the people tied number 1 up with chains and carried him out of the laboratory. Yu qinghuan was also carried away.

Not long after, the group of people arrived at the new laboratory. Yu qinghuan realized that this was the place where No. 1 had exploded and died.

Her heart skipped a beat, and she suddenly felt ominous.

It couldn't be that this time, it was just a different way of dying, right?

Everyone locked No. 1 up. This time, they even put iron rings on his neck and waist. The iron rings were connected to the wall by iron chains. He could lie on the bed, but he couldn't run more than two meters away after getting out of bed.

Yu qinghuan stood at the side, looking around.

Everyone was busy dealing with No. 1 and didn't have the time to care about her. After locking number one, someone finally noticed her movement and pushed her to number one's side. Then, they all left and locked the door again.

Chapter 1933: At least, she's still here

“What is number 17 doing here?” Someone asked.

“Department Director Liu, what you mean is ...” Someone whispered, “let’s stay here first. We’ll wait for number one to wake up so we can observe his reaction. It’ll save our people from being sacrificed.

Yu qinghuan was furious when she heard this.

He didn’t know what kind of drug they had injected into No. 1, but if No. 1 woke up and went crazy again, he might tear him apart.

She didn’t want to die at all, so she got up and sat at the foot of the wall, the furthest place from No. 1.

She began to think-she had to save herself.

Although No. 1 had the same experience as her, the two of them did not form an alliance. Furthermore, with number 1’s current situation, once he went crazy, he might not be able to distinguish between friend and foe, and the whole world would be his target for venting his anger.

The next time he woke up, he might break free from those chains again, and then he would be a piece of meat on the Tiger’s mouth, his life in danger at any time.

However, No. 1 was so powerful. If he was on the same side as her, he would be a very good teammate, and her safety would be guaranteed.

After about two hours, Yu qinghuan heard the sound of metal clashing and raised her head.

No. 1 was lying on the bed, his head and neck moving slightly. Clearly, he was beginning to wake up.

After a while, No. 1 suddenly sat up, and the chains on his body made a loud sound.

He was no stranger to this. He immediately used his right hand to grab the chain on his left hand and found that every finger of his was also locked by the iron ring.

He pulled hard, and his whole body made a rustling sound. Then, he felt the weight on his neck and waist. He looked down at his waist and reached out to touch his neck.

He jumped out of bed angrily and ran towards the door. After two steps, he was tripped by a chain and could no longer run.

ah-” he roared, looked up at the monitor, and gritted his teeth. Sheng! Middle! Heavens!”

“Ah ... Ah ...”

He shouted and stomped his feet on the ground, pulling the chain on his body.

Yu qinghuan hugged her legs and sat at the foot of the wall, looking at him with a cold gaze.

She had experienced too much, so it was hard for her to have any emotions about what was happening in front of her.

If it was another scene, she would only think: What did this matter? Compared to what I’ve experienced, what is it?

However, the scene in front of her more or less made her sympathize with the same person. After all, they had the same experience and the same enemy, but it was exactly the same.

She just wanted to escape as soon as possible and check if this person was qualified to cooperate with her.

Suddenly, number one stopped and turned to look at her.

He heaved a sigh of relief. At least, she was still there. When he couldn’t control himself, she could calm herself down.

Hehe, shengzhongtian must not have thought that she had become his secret weapon.

If those bastards knew about this, they would definitely make use of her for their own experiments!

Therefore, this matter must not be exposed!

No. 1 took a deep breath, gritted his teeth, and began to pull the chains on his body.

Yu qinghuan looked at him and saw that he was using the same amount of strength and magnitude with each blow. But gradually, his strength increased, and the sounds he made became terrifying. He seemed to be losing control. His skin started to heat up, and his veins slowly appeared.

Pa-

He broke the iron chain on his right hand and clenched his fingers into a fist. The iron rings on his fingers cracked and fell to the ground.

The veins on his body were faintly visible, and soon, all the chains on his body were shaken off. He turned around and pounced at Yu qinghuan.

Chapter 1934: Protect yourself and don't distract me

Yu qinghuan screamed and ran to another corner. She turned around and used her hands to block in front of her, shouting, "Wait a moment!"

No. 1 suddenly stopped, his eyes looking at her like a beast, and his teeth clenched.

Yu qinghuan's heart was about to jump out of her throat. She nervously said, "I'm not your enemy. I'm the same as you!"

She quickly turned her numbered bracelet and said, " "You see! It was the same! We're a team."

No. 1 panted heavily and didn't get close to her.

She thought that her words had worked and heaved a sigh of relief, but she was still a little scared.

Number one thought, "she's scared of me, so let's not go near her." In any case, he could still smell her body at this distance and calm his nerves.

The two of them " confronted " each other like this for more than ten minutes. No. 1 realized that he couldn't hold on any longer! This distance was too far. He needed more. He needed to hold her to calm down! Otherwise, his blood vessels might burst!

He suddenly jumped up and slammed into the door.

In the monitoring room, Liu Xuelan and Sheng Zhongtian were observing the two's reactions.

Liu Xuelan said coldly, "he's still rational, but his self-control may not be." When he couldn't take it anymore, even if he knew that No. 17 wasn't an enemy, he would still hurt No. 17. He won't be able to control himself."

Sheng Zhongtian said, "I should have brought No. 17 out." We don't have enough experimentals to begin with, so how can we waste them like this?"

Liu Xuelan frowned, knowing that he was telling the truth. She could only say, " if No. 17 is lucky enough to survive this, get her out. I don't want to waste her.

Sheng Zhongtian was secretly happy.

No. 17 was the woman with the best temperament, the most beautiful appearance, and the best figure he had ever seen. He couldn't imagine what kind of family she was born into. She was most likely living in luxury. The thought of being able to do whatever he wanted with a woman like her made him excited.

On the surveillance screen, No. 1 was smashing and kicking the door continuously. This door was reinforced, so it would not be easily destroyed by him.

He turned around and picked up the iron chains and iron pieces that had locked him up earlier, and began to smash them on the door.

Sheng Zhongtian laughed viciously, revealing a carefree expression. Smash it, smash it, smash it all you want, it won't break anyway, I just like to see your helpless look!

Suddenly, No. 1 turned to look at the camera, and his sinister eyes appeared on the screen, giving him a shock.

"He's trying to destroy the surveillance cameras again," Liu Xuelan frowned.

"Don't worry, director Liu. We've covered the surveillance camera with tempered glass. He won't-" the person beside him said.

As soon as he finished speaking, number one threw the chain in his hand at the camera. From their perspective, it looked like it was going to hit their faces.

Bang! Everyone was shocked.

However, the surveillance screen was not affected at all.

Number one suddenly pounced on Yu Qinghuan, picked her up, and jumped to the corner.

Yu Qinghuan jumped in shock and became nervous, afraid that he would hurt her.

He stopped and continued to hold her. He buried his face in her neck and took a deep breath. Then he turned around and jumped to the ceiling. He grabbed the light above and smashed it on the camera with an iron piece.

“Do you need help?” Yu qinghuan asked hurriedly.

He paused and looked down at her with a smile. “Protect yourself and don’t distract me.”

Yu qinghuan was stunned. No one had ever said that to her.

He turned around and continued to smash the camera. Yu qinghuan shouted, “If it can’t be smashed, it’ll be fine if we cover it!”

Chapter 1935: You’re one of them?

“What a smart girl. I like her.” He turned around and smiled.

“Yingluo,” was she being teased?

Yu qinghuan looked at him in a daze and suddenly thought of herself at this moment-if she had not experienced the next few decades, she would only be a young girl who had just entered society. She had a longing for everything, including love and a Prince Charming.

In the past, very few people had said that they liked her because she was born into a rich family and those people did not dare to say anything.

This was the first time someone had said that they liked her and even called her a girl.

She had forgotten that she was a girl and still thought of herself as an old witch.

In the surveillance room, Liu Xuelan frowned and asked, " why does he have to destroy the surveillance cameras again and again? "

"It's obvious that he doesn't want us to see his reaction." Sheng Zhongtian was shocked. he's trying to cheat?!

Liu Xuelan nodded,"this isn't a good thing for us." If we miss even a second of his movement, it will cause an error in the judgment of the experiment results, and we will not be able to grasp his situation."

"Then what do we do?"

"Let's go and take a look!" Liu Xuelan turned around and walked out.

In the laboratory, No. 1 finally broke the protective glass outside the camera. He then broke the camera and twisted the wire inside.

He jumped off the ground and landed in front of Yu qinghuan, saying in a low voice, " "Not only will I make them unable to see, I will also make them unable to hear. However, there are still a lot of them outside, so we have to be quiet."

Yu qinghuan nodded and looked at his limbs. She asked nervously, " "You encouraged us to come to a united front, right?"

He looked at her indifferently.

I know where to get out of here, " she said in a low voice. we can work together.

"You?" He suddenly became alert. how did you know? "

Yu qinghuan thought for a moment, then vaguely said, " "I've been there."

There was no way to explain her experience.

Moreover, it had been too long, and the words she had just said made her feel guilty.

She couldn't remember very clearly. She only had a deep impression of a few representative scenes, but she couldn't remember everything.

She could vaguely remember the way in. Back then, in order to investigate the truth, she had stupidly barged in and was imprisoned, never to be seen again.

She also remembered the road that was transferred to the FARC. The laboratory was underground, and they went to the surface through that road. Then, they were loaded into the car.

No matter what, as long as they were on the surface, everything would be easy.

Therefore, they had to find the exit to "go up."

"You're one of them?" No. 1 asked coldly.

Could it be an 'experimental potion' specially designed for him to soothe his nerves? She even wanted to play the emotional card with him?

Yu qinghuan looked at him in a daze. Why would he think that?

hehe hehe. he sneered. do you think I'll compromise just because of this? "

"You're mistaken." She whispered.

He suddenly pulled her to his side, lifted her to the bed, and pressed her under him.

Liu Xuelan brought her people to the operation room outside and asked the staff, "How is it?"

the surveillance cameras have been destroyed. There's no sound now.

Liu Xuelan frowned. Suddenly, Yu qinghuan's cries could be heard. "What are you doing? Let me go! Crazy! Let go! Ah!"

The group of people started to feel afraid as they looked at Liu Xuelan. "Chief ..."

"Let's wait for a moment." Liu Xuelan said, "get ready to evacuate. Quickly build another laboratory and change the wall to a one-way glass. It'll save us a lot of trouble!"

Hearing their words, number one suddenly let go of Yu qinghuan and rushed towards the door.

Chapter 1936:

Yu qinghuan immediately got up and pulled up her clothes.

Her mind went blank and she felt a little scared.

She had escaped from shengzhongtian's evil claws, but was she going to be defiled by this person again?

No. 1 pounced on the door and started to smash it.

"Let's retreat first and lock all the doors!" Liu Xuelan said from outside the door.

The group of people immediately retreated and locked the door.

In the corridor outside the gate, there was a barrier falling down every one meter. No. 1 could break one, but not all.

However, these barriers couldn't be activated anytime and anywhere, because they were too troublesome. As such, they were prepared in case the experimentals lost control. The experimentals would not be used unless they lost control or something unexpected happened.

Yu qinghuan knew that this was because the facilities here were not good enough.

When she arrived at the FARC, with the passage of time, the materials used to build experimental equipment were getting better and better. Even after the transformation, there were things that she couldn't do anything about. That was why they fled when the entire base camp was destroyed.

Glory World Medical company's laboratory was nothing, but she was nothing at the moment. As for the No. 1 Pixiu in front of him, he didn't know how far he could go.

No. 1 suddenly gave up on smashing the door and turned back.

Yu qinghuan was shocked. She turned over and sat up, leaning against the wall and looking at her warily.

He pounced on her and pulled her into his arms, lowering his head to kiss her.

Yu qinghuan's eyes widened and she pushed him away in a hurry, exclaiming, "What are you doing?"

"I'm kissing you." He held her face and smiled gently. His expression became gentle.

Yu qinghuan was stunned and hurriedly said, "don't be like this!" This isn't important, we have to find a way to escape! I'm not one of them! I'm a reporter, I barged in on my own! I remember the way here, I can really help you!"

Number one reached out and rubbed her lips, looking at her with his dark eyes, "I do need your help. You smell very good, Yingluo."

Oh my God! Yu qinghuan widened her eyes and looked at him.

“I think I can take any amount of medicine, as long as I have you,” he said in a low and hoarse voice.

Yu qinghuan pushed him away angrily. don't take me for a fool! Do you only remember the wind, flowers, snow, and moon when it's a matter of life and death?”

“I also want to escape.” He said softly, “ but what abilities do you have? Is it worth me working with you? You saw that I have some destructive power, so you want me to take you out, right?”

Yu qinghuan's heart skipped a beat and she felt a little guilty. Since he had seen through her, could she still use him?

“What bargaining chip can you offer?” he whispered in her ear.

f * ck! Yu qinghuan looked at him and gritted her teeth.

As long as he could escape, he was willing to pay any price! To their lives, everything else was worthless!

She gritted her teeth and said,“what do you want?” Take it!”

He was stunned and reached out to hug her. He took a light breath on her body and said as if in a dream, “You smell so good. You have the smell of spring water and dew,”

He let go of her, lifted her chin, and kissed her on the lips. He suddenly felt refreshed.

He had only wanted to kiss her once, but once they touched, he couldn't stop, so he hugged her tightly and kissed her hard.

Yu qinghuan was a little angry and frowned. However, compared to freedom and life, this was nothing.

She held back the anger in her heart and clenched her hands into fists, not resisting.

In fact, she had tried to resist.

In her previous life, she could destroy the magnetic field around her and cause abnormalities in the network and electricity. With a clench of his fist and a burst of strength from his entire body, he could send someone flying.

But now, she tried, but there was no reaction.

Chapter 1937: My name is Sheng lingren

From this, it could be seen that she was not his opponent, and there was no benefit in resisting.

Fortunately, his kiss was rather gentle.

Yu qinghuan had lived for more than half a century in her past life, but she had never experienced such tenderness.

She blinked and couldn't help but cry.

She was a girl, and her beauty remained at her Prime, but she had not experienced the most beautiful things.

No. 1 was stunned. He let go of her and looked at the tears on her face.

After a moment, he hugged her and patted her back gently. He comforted her clumsily, "Don't be afraid, I'm not a hooligan. When I get out, I'll definitely take responsibility. As long as I'm alive, I'll protect you."

Yu qinghuan cried even harder when she heard that.

He thought that she was crying because he had bullied her, so he said helplessly, "We're already here, what's there to care about? Staying alive was more important than anything else. I, Yingluo, really need you."

Yu qinghuan reached out to wipe her tears. She didn't care about this. He had already kissed it, so why did he still care about it?

However, she didn't expect that someone would say that he wanted to protect her. Furthermore, he had to be responsible for her.

"How long have you been here?" she asked.

He suddenly fell silent.

"It hasn't been long, has it?" she asked, as if she had been through it. If it's too long, you won't be able to comfort people like this. You'll forget everything, forget to kiss, forget to be responsible for a girl, even forget that as a man you should protect a woman, and as a woman you should be soft and gentle."

"You've been here for a long time?" he looked at her.

"A day is like a year in Xuanji, of course it's long,"

He leaned his head on her shoulder and looked at the dazzling light. "I'm Sheng lingren."

Yu qinghuan was stunned and looked at him. "Sheng?"

"Shengzhongtian is my younger brother."

"I never knew!" Yu qinghuan gasped.

In her past life, she had never heard of shengzhongtian having an elder brother!

“No one knows.” He laughed sarcastically. otherwise, he wouldn’t be so arrogant to me.

“What’s going on?” Yu qinghuan stared at him.

He didn’t want to mention this matter in the past, nor did he have the mood to think about it. However, as he leaned against her, he felt an unprecedented calmness.

“He and I share the same father but different mothers,” he told her. His mother was a mistress. After she got pregnant, she came to make a scene. My mother had a strong temper and was unwilling to compromise. She didn’t accept my father’s apology and took me abroad. We didn’t return for twenty years.

Three years ago, my father was in critical condition and asked me to come back. At that time, my mother had just passed away. She wanted to return to China, so I brought her ashes back and went to see the old man. After that, the old man insisted on leaving all his assets to me. Shengzhongtian was naturally unconvinced. After the old man was buried, he used an anesthetic needle to numb me and locked me up here.”

Yu qinghuan looked at him and said firmly, “We must get out of here!”

“En!”

“If I don’t go out, I might be able to live, but if you don’t go out, you will definitely die.” This was a fact that she knew in her previous life.

“You’re right.” He expressed his agreement, not because he knew the inside story, but because he felt that shengzhongtian would definitely not let him live. If he did not escape, he would die without a doubt.

Yu qinghuan and Sheng lingren started to come up with an escape plan.

This matter had to be done as soon as possible because they didn't know when they would be injected with the drug again, and what kind of reaction would occur after the injection. If he was unlucky, he might die on the experiment table.

"I don't have to be afraid," Sheng lingren said. Although it was very uncomfortable before, I felt like my body was going to explode every time, but ever since I have you--"

Chapter 1938: Don't act rashly

Yu qinghuan looked at him and said in disbelief, " "This is a matter of life and death, how can you count on me? What if I'm no longer useful?"

"Yingluo, why do you have to mock yourself like this?"

He was really counting on her. After she said that, he started to panic.

Because before she appeared, he thought he was going to die many times and she was his life-saving straw!

we need to be 100% sure. We can't pin our hopes on things that we can't figure out. Yu qinghuan said.

Sheng lingren was silent for a moment. you know that all objects emit a magnetic field, right? "

"Yingluo, yes." She seemed to understand what he was going to say.

"Maybe our magnetic fields match."

"You also said 'maybe'. It's just a guess."

but, Yingluo," he frowned. I'm worried that I don't have enough strength now. I can only wait for them to continue their experiments on me and then rely on you to calm down.

"But what if they change the medicine and make you so weak that you can't even truss a chicken?"

this Pixiu. Sheng Ling did not think of this. He thought that they would keep doing the same experiment on him.

He could not help but ask,"then your plan is Yingluo?"

She seemed to know a lot and had a plan.

At the thought of this, he frowned and suddenly grabbed her wrist.

"What are you doing?" Yu qinghuan cried out in pain.

"How do you know so much?" His face was full of anger and his body was full of killing intent.

Yu qinghuan was shocked. She knew that he was doubting her identity again. She couldn't help but struggle, but he held her even tighter.

She lowered her voice and said,"will you believe me if I tell you?" I don't even believe it myself!"

"Then tell me!"

She paused for a while before saying, "I had a dream."

"Dream?"

“I dreamed that you exploded and died without a corpse.”

His entire body quivered.

“Then I was transferred to another place called the SREC Center, a special Scientific Research Center. I’ve been through a lot of experiments, and my body has been completely transformed. Although I’m not invulnerable, my body’s potential has been fully developed, my recovery rate is super strong, my senses have degenerated, and I’m young and energetic.”

Sheng lingren looked at her in surprise.

“I’ve lived to 80 years old and I’m still alive. I look like a little girl in her 20s. by the way, this place was discovered one year, and dozens of skeletons were dug up. However, none of them were alive because they were shattered. Do you understand? No one will know even if you die! No one knows you existed!”

Sheng Ling’s body swayed, and she fell heavily against the wall.

He suddenly came back to his senses and grabbed her neck, roaring, “You’re lying! You’re lying!”

Yu qinghuan was pressed against the wall by him, and she almost couldn’t breathe. But she looked at him coldly, without any emotion.

His arm trembled and suddenly loosened a little.

What was that look in her eyes? It was so cold that she seemed to have seen through the whole world, as if she had really experienced those things.

A voice suddenly came from outside. Sheng Ling immediately let go of her and turned to look at the door vigilantly.

Yu qinghuan coughed and pressed on his shoulder, saying, “Don’t act rashly.”

Sheng Ling didn't say anything, but a powerful aura was emitted from her body.

He heard the sound of the door being unlocked. He rushed over and slammed the door.

Then, the sound of people running away came from outside the door.

Ten minutes later, the door was unlocked.

This was a remote door lock. It was obvious that the person outside had made all the necessary preparations before opening it.

Chapter 1939: Then wouldn't I be climbing up the social ladder?

Sheng Ling opened the door and walked out. She saw that the computer was still on in the operation room, and there were two servings of food on the table.

He grabbed the rice and strode into the small room, closing the door behind him. Then, he walked in front of Yu qinghuan and handed her the rice.

Yu qinghuan had not experienced hunger for many, many years. She couldn't stand being hungry for the past two days. She quickly took a portion and opened it, eating without caring about her image.

There were only two meals a day in the laboratory, and they were almost never full. They were often in a state of hunger. However, after a long time, hunger was nothing. The experiments were more painful.

After eating, she said, "you can't continue to be so impetuous. Otherwise, they'll be very guarded against you. They might even give up on you and kill you." You have to calm down slowly, but once you do, they'll definitely take me away immediately."

Yu qinghuan's body trembled as she spoke.

She looked at him and pleaded, "that will be our chance." Otherwise, if we're separated for too long, we won't be able to work together anymore. We don't know what the situation will be like, and we can't be telepathic. I roughly know when they'll change shifts and when they'll rest. As long as they're not on guard against you, you can take the opportunity to run out and pick me up, then we'll run together."

"But what happens after we run out? This is the Sheng family's territory." Sheng lingren said.

"You should be able to take me for a long distance. Although this place is remote, it's not completely uninhabited. As long as we don't get caught immediately, we can hide temporarily. When the time comes, I'll call my family and we'll be saved."

"Your home?"

I'm from the capital, " she said, lowering her eyes. my family is much higher than the Sheng family.

He furrowed his brows slightly and his eyes flickered. Then wouldn't I be climbing the social ladder?

This thought made him a little unhappy.

alright, " he said with a straight face, " we'll do as you say in general, but we'll have to consider the details carefully.

"Yes." She nodded and felt more at ease, but she couldn't help but look at him.

She had been saying that he would bring her along. Would he really bring her along?

Yu qinghuan bit her lip and suddenly had a ridiculous idea.

In the face of life and death, it was very likely that he would abandon her. She didn't believe it was the smell of spring water! Even if it was true, he could not possibly need her forever.

As time passed, he would slowly take control of his body, and by then, he would no longer need her. If there was a deeper connection, he would not abandon her.

Yu qinghuan's eyelashes fluttered, and she slowly lowered her eyes, her fan-like eyelashes casting a shadow on her face.

Sheng Ling looked at her and was stunned for a moment. She was shocked by her beautiful appearance, and her heart was beating like a drum.

He turned his head and thought ruthlessly, "if I can get out of here, I'll definitely take her for myself!" No, even if she couldn't go out, he was still hers!

Yu qinghuan rested like a normal person, sleeping for about eight hours a day. Sheng Ling's people had relatively little time to rest. He only needed to rest for three to five hours before he would be full of energy, or even over-excited.

After Yu qinghuan was tired, she lay on the bed and slowly fell asleep.

Sheng lingren looked at her steadily. Her heart was sometimes calm, and sometimes nervous. He reached out and touched her face. He smiled and turned to look at the door.

He had to get out! He told himself, even if it was for her.

She was such a wonderful person and shouldn't be here. This was hell, and it didn't suit her.

Chapter 1940: Sheng Ling's people-save me!

He closed his eyes, feeling a little upset.

This had nothing to do with the moon breeze couple. He only wanted to save himself and others. If they went out, they could slowly talk about romance.

After four to five hours, he became extremely tired and slowly fell asleep.

He was in a deep sleep when he suddenly heard a scream. He jolted awake and looked to the side-Yu qinghuan was gone!

He looked at the door and saw that it was open. There were a few shadows moving outside.

“Let me go!” Yu qinghuan screamed. Sheng Ling, save me!”

Sheng Ling immediately rushed out. When she saw the two men pulling her away, she immediately grabbed her and protected her behind her back. She shouted to the crowd, “Who dares to touch her!”

Everyone was stunned and did not dare to move.

Yu qinghuan hugged his waist in a panic and shivered behind him.

She leaned on his shoulder and looked coldly at Sheng Zhongtian and Liu Xuelan in front of her.

Sheng Ling Ren looked at the crowd like a wild beast waiting to attack. No one dared to get close to him and retreated.

Liu Xuelan was not willing to give up, and she gave the people around her a look.

Sheng lingren immediately carried Yu qinghuan and jumped into the small room, closing the door behind her.

Liu Xuelan stomped her feet in frustration.

“Brother, give her to me, and I’ll let you go back to country M!” Sheng Zhongtian shouted.

Sheng lingren was stunned. She turned to look at Yu qinghuan.

Yu qinghuan hurriedly shook her head.

“Why should I believe you?” Sheng Ling sneered at the door. If I give her to you, you’ll definitely lock me up immediately.”

Sheng Zhongtian wanted to say something, but Liu Xuelan pulled him back and said angrily, “Then you two can continue to be together!”

With that, she turned around and left.

Sheng Zhongtian hurriedly followed him and asked in confusion, “Didn’t you want to get number 17 out for an experiment?”

“What are you afraid of?” Liu Xuelan said with confidence, “ Sheng Ling’s berserk state will continue. Who knows when she will explode and die. As for Yu qinghuan, he might even kill her! If he was lucky enough to survive, this state would only last for three months at most. When the metabolism of the medicine was over, he would be as weak as a rabbit! They can’t beat us anyway! Besides, a man and a woman are alone in a room, what if something happens?”

“What is it?” Sheng Zhongtian quickly asked.

Liu Xuelan rolled her eyes at him, “you already have a son, don’t you understand?” I’ve always wanted to experiment on pregnant women, but it’s hard to find one. If the people from Sheng Ling got No. 17 pregnant, wouldn’t they be providing me with experimental subjects? I can’t ask for more!”

Sheng Ling was quiet for two days. Yu qinghuan asked, “Are you done?”

No. he shook his head. it's an interruption, unless they come to inject me with the drug.

"If they come, can you beat them when you're quiet?"

"I'll try," he said after a moment of silence.

Yu qinghuan furrowed her eyebrows.

He looked at her. I've said it before. As long as I'm alive, I'll protect you.

Yu qinghuan said irritably, "I just want to get out!" What's the point of me staying here if you protect me until I die?"

Sheng Ling was furious when she heard that.

He could understand her wish, but he ...

He was willing to protect her to the last moment, so how could she not appreciate it?

Sheng Ling's face was cold, and she did not say anything.

After two weeks, he went crazy a few more times, but because of Yu qinghuan's presence, he quickly calmed down.

Yu qinghuan asked, "do you feel any changes in your body?" I feel that the last two times you did it wasn't as intense as the first two times. Is it because the drug has lost its effect?"
