

Ditsy Wife 1331

Chapter 1331: Judy, a hidden danger

On the day that Gong mo and the others went to country Y, Sheng Yiting personally sent them to the airport.

...

Before they boarded the plane, Gong mo said reluctantly, "I don't even want to go, you're the only one who wants to go."

"It's good that you know. Come back soon." Sheng nanxuan looked at her with resentment.

She smiled and kissed him on the cheek. "Then I'll come back when shuangxue is done playing."

"Did she have enough fun?"

"Then, bring her back after two days!"

"Alright, let's wait a few more days." Sheng nanxuan didn't want to see his daughter unhappy. my daughter can't even play?"

Gong mojiao looked at him and kissed him fine at home

"Do you think I'll mess around?" He couldn't help but laugh.

"Of course you won't." Gong mo smiled. But I'm afraid you'll be sad if you miss me too much

Sheng nanxuan hugged her and pinched her butt.

Gong mo was shocked. He pushed him away and ran away.

Her face was still red after she got online.

Sheng shuangxue snickered, "mom and dad are flirting again."

Gong mo held her face and squeezed it hard. She screamed and threw herself into Sheng Yiting's arms.

Sheng Yiting said helplessly, "men and women shouldn't touch each other."

Sheng nanxuan only left after the plane took off. He went straight to the Ministry of Defense.

Judy and the others hadn't entered the country since they came to talk to the president last year. Now they were going directly to the Misty Island from their base.

Of the six, neo was the world's best hacker, responsible for information gathering and contacting customers.

Ever since they set off for bewildering Fog Island, China had been in constant contact with neo.

Sheng nanxuan walked into the defense minister's Office. Many people were discussing the rescue operation.

Sheng nanxuan listened for a while, then went to the control room to see

Queen's battle plan.

This was very possible!

Even if she didn't produce it herself, she wouldn't waste the things that she had obtained with great difficulty. She would just sell them to others.

"Let me see their information," Sheng nanxuan could not help but say. Seeing the photo on the computer, Sheng nanxuan was slightly stunned. He looked away and began to browse through Queen's great achievements.

After reading all six peoples information, he went back to the beginning, looking at Queen's photos.

"Judy," He said the name in a low voice.

She recalled that winter when she hugged the bone ash box and asked Gong mo with tears on her face, " Why did you have to kill him?"

Sheng nanxuan knocked on the table. He didn't expect Judy to be so capable that she had become the number one mercenary in the world.

It was a hidden danger.

If she still bore a grudge against Gong mo for Owen's death, would she hurt Gong mo?

Based on Sheng nanxuan's usual style, he didn't want Gong mo to be threatened. Even if it was just a small spark, he had to put it out in the cradle!

It would have been better if Judy hadn't appeared. Once she did, he should have killed her immediately to avoid any future trouble!

But now, she was on her way to save Yao Lei.

Sheng nanxuan sighed. One can't be too shameless and burn the bridge after crossing it!

If he was shameless enough, he should have taken advantage of this rescue operation to get rid of her!

However, that would really be too, too, too shameless!

Sheng nanxuan felt that he was not afraid of her, so there was no need to be so ruthless.

He hoped that she would take care of herself in the future and not do anything bad. Otherwise, he would not be polite when the time came..

Chapter 1332: Don 't ask too much, just do your job

Half of the people on bewilderment Fog Island were Americans, and the other half were J-nationals. Zhang Wei, an intelligence agent from China, was mixed in with the J-nationals.

...

The Chinese and the J-people were the same race, so it couldn't be seen from their appearance.

Zhang Wei was a native of China and had received training at a very early age. Later, he changed his identity and infiltrated J-country. No one could find out his background.

When he first arrived in J country, he was not used to J country's food, so he simply made Chinese food himself.

Of course, he didn't cook immediately. There was a process. First, he ate

Chinese food by chance and showed great interest. Then, he began to learn. After that, he didn't go crazy. He just kept a skill so that he could have a good meal when he was hungry.

However, in order not to expose his identity, he had been enduring it. He had only done it a few times in the first few years, but later on, he had not done it. He gradually sneaked into an important Department

in J country. He never expected that one day, he would be transferred to this never-before-heard bewilderment Fog Island because of this skill!

His job here was to cook Chinese food. He would have three meals a day, and each meal was enough for one person.

He immediately understood that there was a problem and began to ask, "Who wants to eat?"

"Don't ask too much, just do your job!" The person who brought him here said.

Hence, he did his job well and secretly investigated.

He was only in charge of cooking, and he didn't know who had eaten his food for several years.

Until one day, the kitchen suddenly turned upside down. A group of people came to visit, and he saw Yao Lei, who was being served like a VIP.

Yao Lei was in a daze and seemed to be mentally unstable.

At first, he didn't know that it was Yao Lei. Later, the cafeteria was rebuilt, and there was a need to mass-produce Chinese food. The entire bewilderment Fog Island began to become like Chinese territory, and he finally knew what was going on.

Then, he was dumbfounded.

It turned out that Yao Lei had a good friend who was a spy sent by J country when he was young. The spy was Yao Lei's classmate in high school in China. After Yao Lei was admitted to the National Defense University, the spy went up to him and became his best friend.

But Yao Lei did a good job of keeping it a secret. He didn't mention anything about the Army or work in front of this particularly good friend.

The spy didn't get much information from him, but he found that he was very talented in National Defense Research.

Yao Lei didn't talk about the state's scientific research projects to his good friend, but he couldn't help sharing his own thoughts.

At that time, he was often despised by others, so he didn't know if his thinking was right. Since his friend was also a military fanatic, the two of them often discussed it.

The spy heard his thoughts. Although he felt that he was a talent, it was not to the point of snatching this talent.

Gradually, Yao Lei was sent to Xiyuan for a National Defense inspection and then to the Navy for coastal defense Research. After a long time, he was engrossed in his research, and even his life's important matters were delayed, but he was still enjoying it.

Every time he went to a place, he was able to do it with ease. He had his own thoughts every time.

Yao Lei told his spy friend that he wanted to build the best aircraft carrier in the world. He was afraid that his friend would not believe him, so he carefully gave an example to improve it.

The spy thought about it and felt that Yao Lei's idea was very feasible! He was shocked to find that Yao Lei was a talent. With Yao Lei alone, who knew how many troops there were!

Therefore, during the coastal defense war, Yao Lei was found in the military camp, and J country captured him alive.

At that time, Yao Lei's hand had been blown off, and J country had even used cloning technology to create another arm for him.

However, Yao Lei had been blasted silly and lost his memory..

Chapter 1333: you pretend, 1 pretend, everyone pretend

J country unanimously believed that Yao Lei was pretending, and even a psychiatrist wouldn't be able to find out anything.

...

However, they didn't dare to take such a genius lightly. Whether he was pretending or not, they would just treat him as one.

Hence, everyone also pretended!

In the beginning, Yao Lei wasn't on bewilderment Fog Island, but in J country.

Even though Yao Lei was out of his mind, he still showed great hostility and caution.

Hence, a group of J country people pretended to be Chinese and staged a rescue operation, "saving" him to bewilderment Fog Island, and then said, "This is a

sanatorium in China, and we're all your compatriots, and we're treating you!

You're already home. Those people from J country can't do anything to you. Don't worry!

Yao Lei relaxed and showed his dependence and trust in them.

Everyone saw that there was hope!

Therefore, they put on a show and built a " sanatorium " in the middle of the island for Yao Lei. The sanatorium was surrounded by people from J country and the outer circle was guarded by people from M country.

Then, all the J nation people on the island spoke Chinese and pretended to be Chinese.

They had specially hired someone to make Chinese food for Yao Lei. Yao Lei sat in his room in a daze every day and rarely went out. As the treatment gradually took effect, it was already a few years later.

Everyone thought that they could trick Yao Lei into giving up what he had in his head.

Then, Yao Lei started to have a stroke.

He wanted to go to the cafeteria of the sanatorium and cook for himself!

At that time, he was the only one on the entire Island eating Chinese food. Wouldn't he be exposed if he went?

As a result) the entire Island was in chaos, and everyone tried to find a way to deceive it. After that, in order not to be exposed, everyone started to eat Chinese food.

Yao Lei had improved the food of the entire Island with his own efforts and was going to watch the flag-raising ceremony.

In order to get some useful research results from him, everyone had no choice but to accept it.

As a result, the Americans and Americans on bewildering Fog Island had to listen to China's national anthem and watch China's national flag rise every day.

In order not to let Yao Lei find out anything was wrong, they naturally did not dare to play their national anthem and raise their national flag. This made the group of people very annoyed. Did this Island belong to America or China?

Every time this happened, Zhang Wei would snicker in his heart.

In addition, Yao Lei was going to see the sea one day.

The M nation's Army surrounded Bewilderment Fog Island like a military fortress.

Yao Lei suddenly wanted to look at the sea. What should he do?

I can't let him find out!

So, the renovation work began on the island, changing the appearance of all the buildings to the same style as the sanatorium, with more flowers and plants, and some simple entertainment facilities.

Every time Yao Lei went out to look at the scenery, everyone would be in a mess. All the people of the M Nation would hide, and the people of J nation would go to work and play the role of doctors and patients-it was unreasonable that Yao Lei was the only patient in the entire sanatorium!

The fog around Bewilderment Fog Island was heavy, and it was impossible to see the sea level clearly. The visibility was dozens of meters on a sunny day and a few meters on a cloudy day. Otherwise, they would not have dared to let Yao Lei go to the beach.

He was a genius. If he could analyze the natural scene and find out where he was, wouldn't he know that he wasn't in China at all? How could she lie to him then?

After two years of this, Yao Lei was still stupid. Everyone brought the spy who had become his friend in China to accompany him every day!

Now, all of Yao Lei's work was in the hands of the spy..

Chapter 1334: Very angry, but keep smiling

The spy's real name was unknown. In China, he was called " Yang Shu. Everyone here had a stupid Chinese name, so he naturally wouldn't change it back to his real name.

...

According to Yang Shu, Yao Lei had gone to the Western Region for a National Defense inspection and was separated from the team. He was rescued by a local girl and the two of them developed a relationship.

After Yao Lei returned, he was no longer young. His superiors and parents were worried about his marriage, but he refused to get married no matter what. Yang Shu managed to get a little secret out of him. He said very honestly, "I'm already together with Zhuoya. It's just that it's too far away and it's not easy to get our marriage certificate, but we have heaven and earth as our witness, Zhenzhen!"

In any case, the two of them had already made an oath of eternal love and overturned rivers and seas.

I told you I'd go back to pick her up," he said, blushing. I'll marry her when I'm on vacation.

However, when he was on vacation, an unprecedented avalanche broke out in Western Plains.

Yao Lei told Yang Shu in a daze that Zhuo ya was there. The two of them rushed over in a panic. Zhuo ya's house was already covered in snow and was desolate.

From then on, Yao Lei was in a daze and refused to speak. He buried himself in his research until he was captured by J country.

Yang Shu had been observing him in the sanatorium for a few years and felt that he might have started to lose his mind ever since Zhuo ya's death.

However, he still had to try.

Since Zhuo ya was dead, she would do something for him.

Hence, one day, Yang Shu brought a girl to Yao Lei and said, " "This is the daughter Zhuoya gave birth to for you."

In the script that he had set up, Zhuo ya had died not long after in the avalanche, leaving only her daughter to be sent to the orphanage. If he hadn't found a way to check the list of refugees from that year and discovered Zhuo ya's name, he wouldn't have been able to find this child.

Ever since he had that child, Yao Lei's eyes had a little more spirit.

Everyone felt that Yao Lei would definitely be useful to them in the future.

Sigh, it's been more than ten years, I can't just give up, right?

Zhang Wei looked at this group of people coldly, not knowing what expression to make.

In fact, the people of J country and M country were also very troubled. Because of Yao Lei, everyone was acting like lunatics. They were almost going crazy. Everyone was very angry, but they still had to keep smiling.

However, this also showed that Yao Lei was very important to them.

Moreover, because Yao Lei occasionally went out to look at the sea, the soldiers of the M Nation had to hide. This was the best time to rescue him!

It was a pity that Yao Lei didn't follow a set pattern when he went out. Although Zhang Wei had given him this little information, he couldn't guarantee that the rescue team would run into him.

Zhang Wei wrapped his down jacket tightly and sat in the lounge next to the kitchen to watch TV.

The TV here could search for the channels of many countries, so they could keep up with the situation outside at any time, from international events to rural anecdotes. Occasionally, they would also watch a few celebrities 'fantasies.

Someone was knocking on the door outside, and he hurriedly stood up. When she turned around, the door had already been pushed open, and Yang Shu walked in.

Yang Shu was wearing a coat, and there were some snowflakes on his shoulders.

He flicked the leather gloves in his hands and ordered, "I'll cook for two for

Yao Lei today."

"Did the princess come to see him?" Zhang Wei asked with a smile.

Yang Shu hummed in agreement and turned to leave. When he reached the door, he turned back. "Don't call her" Princess, "in case you call her the wrong name in front of him."

"Yes!" Zhang Wei answered hurriedly.

Speaking of which, the person who was impersonating Yao Lei's daughter, Yao Yiyi, had an extraordinary background. She was the princess of J country, Miyi Ishida.

In the beginning, Yang Shu was shocked beyond words.. J country was really going all out for Yao Lei!

Chapter 1335: Her real identity is Yingluo

It was only later that he found out that Miyi Ishida was not a real princess, but an illegitimate daughter of the J country's Emperor. She had never been recognized by the royal family, and most of the royal family did not know of her existence. The reason she was willing to do this was probably to make a contribution to gain the attention and recognition of the royal family. Zywane had been here for many years. Although Miyi Ishida had been here a few times, he had not had the chance to meet her.

...

It was said that she was very beautiful, but her eyes were on top of her head and she couldn't see anyone. However, in front of Yao Lei, she was a cute and obedient daughter. Her acting skills were comparable to an Oscar-winning Best Actress!

Zhang Wei had finished cooking when the bell suddenly rang, and the people around him ran away in a panic.

Yao Lei wants to go out and enjoy the scenery. Everyone is going to act.

Zhang Wei felt helpless, if you all ran away, who would deliver the food?

The phone on the wall rang. Zhang Wei picked it up and heard Yang Shu's voice, "Dr. Yao is going out to relax later. Send the food over now!"

"But they've all left ..."

"You send it over!" Yang Shu hung up the phone.

Zhang Wei had to push the dining cart to Yao Lei's room.

When he walked to the door, he saw Yang Shu standing there.

Zhang Wei greeted him, and Yang Shu opened the door and went in with him.

The door was very heavy and completely soundproof. After opening it, he heard a girl's clear voice from inside."Dad, everyone is trying to find a way to treat your illness. If you remember anything, tell the doctor. This will help you recover. Also, you have to talk more with everyone. It's not good to be so quiet."

Yao Lei's hair was white. He was sitting at the table and playing games-two thumb-sized dinosaur models were knocking against each other. After they were knocked down, he would help them up and continue to knock against them, turning a deaf ear to the surrounding sounds.

"Lei, Yiyi, the food is here." Yang Shu said.

Yao Lei continued to play with the dinosaur, and Yao Yiyi, who was beside him, turned around helplessly.

Zhang Wei's pupils shrank when he saw her appearance. He hurriedly lowered his head, his heart pounding!

How could it be her? Her real identity was Yingluo.

Miyi Ishida did not miss his reaction. She squinted her eyes and smiled,"Put it down,"

Zhang Wei nodded, put down the food calmly, and looked at Yao Lei.

Yao Lei was still playing his game.

After zywane had left the room, Miyi Ishida said to Yang Shu, "I've never seen that person before."

"He's a chef. He rarely comes here." Yang Shu said, " your father likes the dishes he makes. He specially cooks for your father.

Miyi Ishida nodded. Seeing that Yao Lei was still not eating, she suddenly had an idea and said with a smile, daddy, I've brought you a hundred grains worth of desserts. I'll go get them for you now.

Yao Lei suddenly raised his head. His eyes lit up and he hurriedly nodded.

Baigu BA, a specialty food of Xiyuan, was invented by the indigenous ethnic groups and was now popular in the whole of Xiyuan. It was the kind of snack that Tong Siyao had brought to Sheng Yiting.

Yao Lei had eaten it at Zhuo ya's house before, and it was the most delicious thing he could remember.

Miyi Ishida stood up and said to Yang Shu, "Uncle yang, look. My dad only remembers my mom!"

"That's only natural," Yang Shu smiled.

When Miyi Ishida walked out of the room, Yang Shu glanced at Yao Lei and saw that he was still in a daze. He followed her out and asked in a low voice, "What's wrong?"

For her to suddenly act like this, it definitely wasn't because of some hundred grains father, but because of an important matter.

Miyi Ishida's face darkened and she said seriously, "There's something wrong with that person! Hurry up and take a look, don't let the wolf into the house!"

"What?" Yang Shu's expression changed..

Chapter 1336: This hesitation cost him his life

"You guys should have been more careful!" You dare to let a person who can cook Chinese food on the island? Aren't you afraid that he's a spy from China?"

...

“We’ve inspected this Kasaya from many different perspectives.”

“He wants to come, do you think you can easily inspect him?” Miyi Ishida sneered. When he first saw me, he was too surprised.”

Yang Shu thought for a while and said, “ he doesn’t seem to know about your other identity. It’s normal for him to be surprised.

Seeing that her face was still cold, he said helplessly, “ I’ll go take a look first. Your Highness, please accompany this Yao fellow for a meal.”

Miyi Ishida lowered her head and nodded. She went to the next room to get her hundred grains before going to find Yao Lei.

Yang Shu looked at her back and pouted in disdain. She was just an illegitimate daughter, so why was she so arrogant?

Zywane was too shocked. He had to let the Chinese know about Miyi Ishida’s identity!

Just now, Ishida Miyi seemed to have glanced at him. He did not know if she had noticed his unusual behavior.

Even if he could fool them, he couldn’t let his guard down.

Don’t take any chances! Even if he had to die, he had to spread the information! Otherwise, with this woman around, no matter how much effort he put in, it would all be in vain! Even if it would alert the enemy, it would be worth it to cut off her wings!

Zhang Wei had always had a safe and time-consuming process for delivering information. However, there were also exceptions. If the news was immediately spread out in an emergency, it would be immediately noticed by the people on the island, and then they would die without a burial place!

Zhang Wei took out his phone and was about to send a message.

Under normal circumstances, it was impossible for the island to send out any information. However, as an intelligence officer, he had his own ways.

He wrote the information in Morse code, and just as he was halfway through, the door was suddenly kicked open, and Yang Shu appeared at the door.

Zhang Wei's pupils shrank. He was finished!

He hesitated for a moment.

Because he had only written half of the information, he did not know whether he should calmly put down his mobile phone, pretend that nothing had happened, and then deal with Yang Shu and wait and see. Or should he send out this half of the information and then die generously?

This hesitation cost him his life!

Yang Shu's expression changed and he strode forward to snatch his phone away.

He dodged subconsciously. Yang Shu saw that he had a problem, pulled out his gun and pulled the trigger. The bullet went straight into his shoulder.

Zhang Wei's body swayed, but he was still standing in the same place.

Yang Shu was furious. It looked like he was indeed a spy. Otherwise, how could he have such great patience?

Zhang Wei's fingers were moving quickly. Yang Shu would not let him spread the news. He quickly fired a shot and hit Zhang Wei's wrist. Zhang Wei's phone fell to the ground.

Yang Shu had been a spy before and knew that spies had many skills. If they were left alive, they might leave clues, spread the news, and then cause a storm!

Naturally, he wouldn't let Zhang Wei live for even a second longer. He fired a series of shots, hitting Zhang Wei's heart, neck, and head.

Zhang Wei took the hit and fell heavily to the ground.

After he finished firing, he walked over. Someone else also came in from outside the door and looked at everything uneasily.

Yang Shu looked at Zhang Wei. Zhang Wei's eyes were wide open, and he died with a grievance.

He was lying on his side. Yang Shu raised his gun and fired the last bullet at his eye. Zhang Wei's face was instantly bloodied.

He turned around and said to the people at the door, "Call the princess over!"

Then, he put away his gun and carefully picked up Zhang Wei's phone.

He heaved a sigh of relief before the news spread..

Chapter 1337: Give them a surprise

After a while, Ishida Mirai rushed in. When she saw zywane on the ground, she was furious. "I knew there was a problem! You actually let him stay on the island for so many years. I don't know how much news you've spread! If there's a problem with the plan, how are you going to answer to my father?"

...

"It has already happened. Let's think of a way to remedy it." Yang Shu passed Zhang Wei's phone to her. what do you think we should do now?

Miyi Ishida looked at the Morse code on her phone and squinted. She quickly translated in her mind that the message was referring to her identity.

Fortunately, it wasn't sent out, otherwise, all his efforts would have been in vain!

She slapped Yang Shu across the face and said, "If it wasn't for the fact that you and that old man are old acquaintances and are of some use to me, you could have died right now!"

"Please punish me, Your Highness!" Yang Shu lowered his head.

"Why are you punishing me now?" Miyi Ishida glared at him and then glanced at zywane's body. now, immediately, search his things and see what information he has been spreading all these years!

"It shouldn't be much," Yang Shu replied. Ever since he found out about our plan for Yao Lei, he has never left the island. He has called home to ask about his well-being and written letters, all of which have completion records. His phone was monitored the entire time, and the material and content of his letters have been strictly checked. Even if there is any news that has been leaked, he can't say much."

Miyi Ishida nodded and deleted the Morse code on the phone. She put it down gently and said, "then you should check it properly. I'll go take a walk with the old man first."

Two days later

Yang Shu walked into Miyi Ishida's room and said respectfully, "Zhang Wei has probably spread the news of this location and Yao Lei's survival. China will probably send people to rescue him. You don't come here often, and he didn't mention you, so China probably doesn't know of your existence."

Miyi Ishida thought for a while and suddenly sneered. "If Yao Lei is rescued.

I'll be useless as a fake daughter. It'll be the same even if he doesn't say anything. Right now, the most important person is Yao Lei, isn't it?"

"Then let's do it now."

since China doesn't know of my existence, of course I have to give them a surprise "Miyi Ishida smiled seductively.

His wife was not around, and his children were not around. Sheng nanxuan realized that he was all alone. He was so lonely.

Although he had a lot of friends who invited him to play golf every day, he could not bring himself to do it.

Well, I'll go to country Y to find them. It's more comfortable to be with my wife and children.

They had taken his private jet away, so he could only ask his Secretary to book the tickets.

"Should we inform Madam?" the Secretary asked.

"No need, I'll go there directly."

"I'll pick you up tomorrow morning."

Sheng nanxuan grunted and hung up the phone. He was too lazy to pack his luggage. Anyway, Gong mo would buy a new one for him when he arrived there.

When he thought of this, he was extremely happy. With Gong mo around, she would make sure that everything was in order.

The next morning, Sheng nanxuan accidentally bit his tongue while brushing his teeth. He was instantly furious!

Then, he received a call from the Minister of Defense, saying that there was new news from the foggy Island that most of their spies had been killed.

Sheng nanxuan paused. He knew that today was an unlucky day!

It was the first time in his life that he bit his tongue while brushing his teeth!

After changing his clothes, he went to the Ministry of Defense. On the way, he received a call from his Secretary. "Not for the time being."

When she entered the conference room, she realized that the president had also arrived.

Chapter 1338: The rescue began

The Minister of Defense said urgently, "we just received news from our intelligence personnel that he has been exposed. Yao Lei has a daughter on the island." &Nbsp;

...

Sheng nanxuan frowned.

“The problem now is that he’s been exposed. The other party will definitely be on guard, but our people will soon arrive at the foggy Island. This way, they’re most likely walking right into a trap-should we call them back?” Everyone had their own opinions. Some agreed, while some disagreed.

Sheng nanxuan and the president did not speak.

There was no time to argue. Sheng nanxuan asked the president, ” “What do you think?”

The president pondered and said, “they’ve already gone. There’s no reason for them to come back.” This time, they had already alerted the enemy. If they returned without a fight, it would be even more difficult to succeed in the future. It would be our loss if the enemy decided to fight to the death and take

Yao Lei’s life.”

Sheng nanxuan nodded. the deposit has been paid anyway. They know it in their hearts. They know that this operation is dangerous. There’s no need to give up. Tell them the situation and see how they react.”

The Minister of Defense immediately went to do it and soon received a response.

“They said that they would also save miss Yao.”

Sheng nanxuan could not help but laugh. you are quite professional.

neo is on the line. They’re about to reach the island and have to cut off contact for the time being. They’re asking if we have any other orders.

“Tell them to be careful.” Sheng nanxuan said.

Outside bewildered Fog Island, Judy and her teammates were standing in the submarine under the calm sea.

The five of them had all changed their appearances. Otherwise, if others saw their true faces, they would offend J country and M country, and it would be inconvenient for their future actions.

Although it was easy to guess that Yingluo's group of four men and two women was Queen's team.

But so what? Just deny it if you didn't see his face!

Neo conveyed Sheng nanxuan's words to everyone. Judy smiled. you're quite humane alright, let's start the preparations!

They put on camouflage clothes and loaded their weapons and ammunition.

Judy said, " the purpose of this is to save people. Everyone must act quickly, accurately, and steadily. Get the people out of the island first. The rest can wait!

The remaining five did not have any doubts. The six of them set off together and split up.

After approaching bewildering Fog Island, the six of them hid underwater for a few hours.

it seems like we won't be taking a walk today, " Judy said as it was almost evening. we'll move at night.

Darkness was a natural protective color, and many things could be done quietly in the dark.

When night fell, the six of them split into three groups-Angel would take command on the shore, neo would destroy the circuit and network, the wolf King and silver Fox would go to the Arsenal to install bombs, and Judy and the chameleon would go to rescue people.

Yao Lei's room doesn't seem to have any surveillance cameras installed. I don't see him in any of the rooms, " neo noticed when he was destroying the surveillance cameras.

analyzing the layout of the building, target location selected. Judy said.

“Yes, I have.” After a while, Neo said, “B12, second floor.”

When they deployed their plan, they divided the island into zones and numbered it to make it easier for them to act.

The door’s closed, there’s no one at the door,” Neo paused for a moment. “Upstairs! I’ll see if it’s him first.”

They had only seen photos of Yao Lei when he was young, but he must have changed now.

After analyzing the facial bone armor, Neo felt that there was nothing wrong, so he took an image and sent it to Angel and the chameleon.

Angel was a surgeon, and the chameleon was good at disguising himself. The two of them were better at judgment than him.

“It doesn’t look like a problem. It just depends on whether you’re in disguise,”

Angel said..

Chapter 1339: The boss is the real beauty

I can’t make a decision like this,” the chameleon said. “If she’s really in disguise, I can tell at a glance when I see her.”

...

This was also the reason why he was traveling with Judy.

they don't know that we're coming today," Judy said. they probably won't make any preparations so early.

"The arrow has already been nocked and must be released. Even if they're prepared, we still have to act." Neo said, "someone was accompanying Yao Lei into the room. There's a surveillance camera in the room, and there's a girl with her back to the camera, so we can't see her face. From Yao Lei's expression, she should be his daughter."

Neo told Judy and the chameleon the location of the room, analyzed the girl's height and weight, and described her appearance.

Silver Fox said, "she's a little

"It's a waste of time if you can't see his face." Angel said, "he might be able to charm thousands of soldiers from behind and scare millions of soldiers from the front.

"Yes, yes, yes. You're the only beauty in the world."

"Where? where?" Angel said humbly, "boss is the real beauty!

"I'm not interested in being a beauty," Judy said.

"You're only interested in being a tomboy." The wolf Kings voice was heard.

"Have you two planted the bomb?" Judy asked coldly.

"I can't wait to blow it up right now, you guys better hurry up."

“F * ck!” Silver Fox shouted. What if you blow me up? I haven’t put it properly

then why are you guys still talking nonsense?! Judy gritted her teeth and asked Neo, “ how’s the situation around Yao Lei? ‘

“It’s not good for the operation with too many people. From their conversation, it seemed that Yao Lei would return to his room later and would have to wait for him to do so. I’ll analyze his daughter’s sound waves first. From the way Yao Lei addressed her, her name is Yiyi.” okay, ” Judy agreed.

After some time, Yao Lei returned to his room and received Yao Yiyi’s Soundwave.

Just in case, they had to use sound waves to determine Yao Yiyi’s identity during the rescue. Otherwise, if they didn’t see his face now, what would they do when the person changed?

After all, the island already knew that there were spies, so it was likely that they had taken precautions.

Neo also analyzed Yao Lei’s sound waves, just in case.

After Yao Lei returned to his room, Yao Yiyi went to the bathroom. Neo ignored her for the time being and focused on Yao Lei.

The people on the island were very polite to Yao Lei and did not dare to arrange too many people to monitor him.

After he returned to his room, there were only two people left at the door.

The others went back to their rooms to rest. When the lights in the sanatorium turned off, Judy and the chameleon began to move.

The two of them swaggered in as if they had entered a no-man’s land.

When they encountered patrols along the way, the two of them either dodged easily or killed them directly.

They knew that it was impossible to take him away without a sound, so they were prepared to fight a tough battle.

However, before they started, they had to save Yao Lei without attracting anyone's attention!

Now that Yao Lei was safe, they had nothing to be afraid of.

What she was afraid of was the rain of bullets and the need to protect him!

When he arrived outside Yao Lei's room, the chameleon took care of the guards and discovered: "I need your fingerprint and password."

"You just need to get the password." The chameleon pulled up the guard on the ground and pressed his finger on the sensor.

It was indeed useful!

If the people at the door couldn't open the door, what if something happened to Yao Lei inside?

Angel quickly got the password. The chameleon opened the door and stood sideways at the door. He could see the situation in the room and the corridor on both sides..

Chapter 1340: Yao Yiyi

Judy entered the room. The lights were still on, and Yao Lei was about to sleep.

...

Seeing her, Yao Lei was shocked and became alert.

Judy took a look at the chameleon, and the chameleon nodded. There was no trace of disguise on Yao Lei's face.

Judy pressed the microcomputer on her arm and smiled at Yao Lei. "We're here to take you home. We can still make it in time for tangyuan."

Yao Lei looked at her in a daze, as if he didn't understand what she was saying.

"Do you want to come with me?" Judy asked.

Yao Lei was silent for a few seconds before he nodded.

No matter where he went, it would not be worse than this place.

Only by leaving this Island could he possibly return to his country. No matter who she was or which force she belonged to, she was one of his people now.

"Can you walk?" Judy asked.

Yao Lei stood up.

"Where's your daughter?" Judy asked again.

"I know," He walked out and brought Judy and the chameleon to Yao Yiyi's room.

Through these three words, Judy saw the results of the sound wave analysis, which matched the data provided by Neo 100%.

Judy and the chameleon brought an infrared detector and carefully escorted Yao Lei upstairs.

Yao Lei stopped outside Yao Yiyi's room.

Judy gently knocked on the door, and a voice came from inside. "Who is it?"

Judy took a look at the sound wave analysis, but there wasn't enough voice to analyze it.

Yiyi-" Yao Lei called out.

"Dad?" Yao Yiyi was surprised. A moment later, she opened the door with a face mask on.

Yao Lei was shocked. Judy and the chameleon didn't expect this either and were speechless.

oof! Yao Yiyi pressed on her face mask and glared at Judy and the chameleon. She then turned and ran into the bathroom, shouting, " dad! Who are they?"

Judy took a look, and the sound waves matched. She said, " were going to take you and your dad out of here. Don't say anything and cooperate with us!

"Can I wash my face first?" Yao Yiyi asked, taken aback.

Judy said, "Yingluo."

"Not good!" Angel's voice came from the earpiece. hurry up, they seem to have realized that there's a problem with the system.

Judy pulled out her two guns and said to the chameleon, " "You go first and get him on the boat. If I can't keep up, come and pick me up!"

"Alright!" The chameleon pulled Yao Lei and left.

Yao Lei called out, "Yiyi-

"I'm here!" Judy walked into the room and pulled up Yao Yiyi, who was washing her face. that's enough. You can wash up when we get back!

"Where are we going? Who are you guys?" Yao Yiyi called out.

"Back to China!"

Yao Yiyi was taken aback. I-isn't this China? " she asked.

Judy glared at her. She was innocent and confused.

Judy pulled her out of the room, and she shouted, "I haven't changed my clothes!"

"You shut up!" Judy shouted in a low voice. With her shouting and wrangling, she attracted everyone.

Yao Yiyi didn't dare to make a sound. She lowered her head and whispered, " "I'll change my clothes then?" She was still in her pajamas.

Judy took a deep breath and pointed the gun at her neck. "I'll shoot if you keep talking!"

Yao Yiyi's eyes widened, and she didn't dare to say anything.

follow me! Judy retracted her hand. follow me!

She raised her guns and walked out. Yao Yiyi hurriedly followed behind her, her heart pounding with fear.

After walking for a short while, an alarm suddenly sounded, and Judy heard Neo say, "We've been discovered. Everyone, be careful. We've saved them,

retreat quickly!"

Yao Yiyi grabbed Judy and asked in fear, "What's wrong?"

"Shut up and follow me!" Judy quickly walked forward. You'll be fine. Don't be afraid!

Yao Lei's daughter was an excellent hostage, and those people would definitely not hurt her..
