### Chapter 451 The reason for becoming Gambino

“The Sheng family is doing some inhumane experiments inside! They use robbery and deception to get people in as test subjects.”

...

When Gambino said this, he asked Shan Rong, “Do you still remember that there used to be a beggar downstairs? we used to see him a lot. When Momo was half a year old, we carried her out to play. The beggar stared at Momo and said, ” “This lady will be blessed in the future.” In those years, we all believed in this. We felt that people like beggars, although their lives were hard and they didn’t have a fixed place to live, they had experienced a lot and were very knowledgeable. You were very happy and often sent him things.”

“I remember.” Shan Rong nodded. but he disappeared after that. During that period, many beggars had disappeared. It was said that they were sent to other places to rectify the city’s appearance. The last time I saw him, I asked him what I would do if he was sent away. He asked me if I could be a good person and give him a set of clothes that you didn’t want. He asked me to find a place to take a bath, change into those clothes, and find a job. Then, he wouldn’t have to be sent away, Yingluo.”

Gambino nodded and said, “you told me before.” But when you prepared the clothes, he was gone.”

“Yeah,” Shan Rong looked at him. why did you suddenly mention this? ”

“Because I saw him when I got to the lab.”

“What?” Shan Rong was shocked.

“Almost all the missing beggars are there. They were snatched away by the Sheng family, and since they were beggars, no one would care. Although I have cancer, I’m a very important experimental subject for them. Because I have cancer cells in my body, I can let them do many related experiments!”

Gong mo and dan Rong were so shocked that they couldn’t speak.

This kind of thing couldn't even be acted out on television!

"In the beginning, they used me to test anti-cancer drugs. However, my illness acted up very quickly, and I won't be able to do it after about half a year. They've started to dissect me alive!"

hiss ... Shan Rong and Gong mo gasped and leaned close to each other, feeling a chill run down their backs.

"That's their main job. The group of beggars almost all died from this. I, who had a terminal illness, lived longer. Just as I was about to die, another person came to the lab. That person is Yingluo in my current body."

Shan Rong and Gong mo leaned back in fear.

"The head of this body is injured, but the other parts are intact. "As for me, the cancer cells have spread all over my body, but my brain is fine. They're fantasizing about brain transplant surgery!"

"You succeeded?!" Gong mo was shocked.

If that was the case, it would definitely be a miracle in the history of medicine!

Heart transplant surgeries were very common nowadays, and as long as a matching heart could be found, it could be performed. It all depended on whether they had the money and whether they could afford the risk of dying on the operating table.

However, no one had even studied brain transplant surgery before-some people might have thought about it, but it was unlikely to actually experiment on it, let alone use it in actual treatment!

Therefore, if someone were to succeed in this experiment, it would definitely shock the world!

Gambino sighed, 'I'm not sure. Looking at my current situation, it seems like I've succeeded. However, how could things be that simple? After I was numbed, I didn't know what happened. When I woke up, I saw my own body, hehe!'

#### Chapter 452 Taking turns to control the body

Shan Rong covered her mouth and looked straight at him, tears welling up in her eyes.

...

"A broken corpse. I didn't even think that it was me. Because I'm still alive! It could be someone who looks like me, or they made a clone of me. It was a laboratory, after all, and anything could happen.

It took me a long time to understand what had happened. But I find it unbelievable. How can a brain transplant be so easy to succeed? It was in a small laboratory in the Sheng family!

I was lying on the experimental bed, being observed by them and recording all kinds of data. Gradually, I felt that there was another person's thoughts in my mind. It was the original owner of this body. That's why I feel that they definitely didn't change their brains, at least not the whole brain. Maybe a part of it was changed, like the memory center, because my memory has been completely preserved."

At this point, Gambino paused for a moment and looked at them. "Who do you think I am?"

Shan Rong was stunned, "you're stunned, you're stunned!"

I have Gong Xing's complete memories, his thoughts, and his feelings. I feel like I'm Gong Xing! Gambino said seriously.

Gong Mo suddenly asked, "Zhenzhen, where's the original person in your body?" Didn't you say that he still has his own thoughts?"

“He’s gone,” Gambino said, “ when we were in the laboratory, the competition was fierce, and we almost took turns to control the body. However, I was suppressed by him for a while, so I could only pretend to disappear. I don’t know what happened after that, but when I woke up, I was already in Italy. At that time, I didn’t sense him and thought he had disappeared. A few years later, I caught a bad cold and he came out again while I was unconscious. For the next ten years or so, up until now, he had not appeared again. Perhaps that’s just a remnant of his thoughts, and he won’t come out again.”

After saying this, he looked at dan Rong and Gong mo quietly.

Shan Rong shook her head, “this is too unbelievable!” How could such a thing happen?”

“You don’t believe me?” Gambino felt disappointed.

“I’m stunned.” Shan Rong shook her head. “It’s not that I don’t believe you.” You know so much about me and Gong hang, and it’s impossible for a third person to know about those things other than us. You should be his Yingluo, but I still find it too unbelievable!”

“It doesn’t matter. I didn’t even want to accept it back then, so you can take it slowly.” Gambino laughed lightly. I’m already very happy to be able to see you again and talk to you!

“Then why didn’t you come and find me earlier?” Shan Rong asked.

“I’ve changed my race and now you’re looking down on me. There’s no use in coming early.”

Shan Rong was startled. That made sense.

Gambino smiled bitterly. I thought that I shouldn’t disturb you anymore. I’ve become like this. I left so early, and you might have gotten married again. I shouldn’t have gone. However, we’ve come so far to meet each other, and we’ve actually met in the capital! Later on, I found out that you were still alone, so I had the idea to use a new identity to continue our relationship. Who knew you’d be cowardly!”

cough ~”Shan Rong coughed lightly. you can’t blame me. You’re pestering me every day like a lunatic. No normal person would dare to agree to your request!”

The conversation just now had gone too smoothly, but now ...

Fine!

A foreigner!

This was her husband who had already erected a Cenotaph?

I'm sorry, I can't accept it at once.

She coughed and said, "we'll discuss this later!" What if you're just making it up?"

it's not made up, Yingluo, " Gambino lowered his head and said dejectedly.

"If you're not making it up, what about the laboratory? Does it have something to do with Nan Xuan?"  
Gong mo asked anxiously.

She recalled the book "corpse Language ". Gambino had written in the beginning that human bones were found in an abandoned prison. Perhaps he didn't want to write about a prison, but a laboratory.

Sheng nanxuan had made up a story for her about a quiet little town in the South, such as Nanjiang. There was a factory that had been abandoned for many years. It was finally going to be demolished to build a new building. When the excavator was driven there and dug up the ground, it found many human bones.

He described it in such detail!

It was a quiet little town in the South, and it was specifically pointed out to be a town like Nanjiang!

The abandoned factory-the herb garden in shengshi pharmaceuticals-was originally a factory of shengshi pharmaceuticals. It was abandoned because a new factory Park was built! Due to various reasons, they could not be sold, so they could only recycle the waste and use it to plant herbs!

Therefore, both of them knew the secret of the laboratory and knew that many people had died in the experiments there!

How should they deal with the dead?

Of course, the Sheng family could not disclose what they had done. They had to deal with it in secret. Did they bury the bodies around the laboratory? So that was why Gambino and Sheng nanxuan had the same 'idea'?

Because they all knew! They knew the crimes the Sheng family had committed and wanted to announce it to the world!

However, Gambino was an experimental subject, so he knew.

What about Sheng nanxuan?

Gong mo recalled the human bones he had encountered on the night of his third year in high school. He recalled Sheng nanxuan's words, " I grew up underground. he seemed to have understood the key point.

Since Sheng nanxuan had taken her there, he probably did not know that someone was buried there. She believed that he would not scare her like that!

He should be able to see the laboratory from there, but he didn't know that the bones were buried there.

"He's also an experimental subject there." Gambino's words confirmed part of her suspicions. I vaguely heard someone mention that he was born there. In other words, his mother was an experimental subject there."

Yingluo is the second young master of the Sheng family! Gong mo shouted.

Suddenly, she remembered that he was the Sheng family's illegitimate son and Liu Xuelan was not his biological mother!

who knows what happened? " Gambino laughed bitterly. I've never seen him in the laboratory, but Gambino was afraid.

He pointed at his own body and thought, I should have seen the original 'brain' of this body. When I first met him last year, he hinted that he was my Savior. He might have been the one who helped Gambino escape from the laboratory."

now that he's been captured, will he be in danger? " Gong mo stood up immediately.

"I've come to find you guys for this matter."

Chapter 454 I'm a monster, right?

Hearing this, Gong mo became extremely anxious.

...

According to what he said, Sheng nanxuan would really be in danger?

Gambino said,"I've been investigating the laboratory all these years." According to my investigation, the Sheng family did not have the funds or the technology to build such a laboratory. There should be a mysterious organization behind them that specialized in such illegal research. Now that they've captured Sheng nanxuan, they might even use him as an experimental subject."

"How can that be?" we have to save him! Gong mo shouted. When he was captured, Liu Xuelan gave him an injection. I don't know what she injected into him, but he fainted immediately!"

“That’s probably an anesthetic.”

“What if it’s not? Since they were doing such a terrifying experiment, who knew what kind of illegal drugs they would use? Fang Yang and the others didn’t know how serious the situation was, so they thought it was just a normal kidnapping. Something bad might happen!”

“That’s why I rushed over.” Gambino said, “tell the people outside to let me bring some people over. Otherwise, I won’t be able to help. They’ll listen to you now.”

“I’ll go with you!”

“I, I, I, Wanwan.” Dan Rong also wanted to do her part.

“Mom, don’t join in the fun!” Gong mo interrupted her, “ you stay here and look after the child. I will go with Gambino!”

Shan Rong looked at Gambino, and Gambino smiled at her. “Wait for me to come back, then we can catch up.”

Gong mo picked up the child and kissed him. He then stuffed him into Shan Rong’s arms. “We’ll be back soon.”

“Nothing must happen to you!” Shan Rong grabbed her.

“Don’t worry.” Gambino held her hand and said seriously, “ it’s my turn to protect her.”

Gong mo was stunned and looked at him with mixed feelings.

He, Yingluo, was her biological father?

No, he was not. His body was not, but his mind was.

So he hadn't fulfilled his responsibility as a father for more than twenty years. At this moment, he finally wanted to protect her?

Gong mo should have been moved by this, but facing a face that was completely different from his own race, she actually felt that it was ridiculous.

She did not know how to face him like this. She let go of dan Rong, turned around, and walked out.

Gambino looked at her back and sighed. He lowered his head and wanted to kiss Shan Rong.

Shan Rong took a step back with the child in her arms and looked at him warily.

He paused and smiled wryly, "as expected, none of you believe me."

"No, it's not that I don't believe you." Shan Rong said awkwardly.

She couldn't help but believe the details he had told her. However, Gong hang didn't look like this. She couldn't accept it at once.

"I'm a monster, right?" He said, "I've lived for so many years after stealing someone else's life. Now that I can see you and Momo again, everything should be perfect.

He lowered his head to look at the child and smiled. and him. He never thought that he would have a grandson.

He lowered his head and kissed the child's forehead. Then, he kissed Shan Rong and said in a low voice, "Wait for my return."

With that, he walked out of the room.

Gong mo was negotiating with Zeng Shuai, but Zeng Shuai wouldn't let her take the risk no matter what. She didn't bother to explain so many reasons, so she only asked, "Are you going to listen to me or not? Are you thinking of rebelling when nanxuan isn't around?"

Zeng Shuai wanted to bang his head against the wall. I wouldn't dare to even if you gave me a hundred guts! I'm doing this for your safety, don't you want to harm me!"

"Are you really that useless? can't you even guarantee my safety?"

Zeng Shuai wanted to jump off the building. there's always a what-if! If you're hurt, how am I going to explain it to the BOSS?"

Chapter 455 Catch Sheng Dongyi

"Saving people is more important. Don't waste any more time." Gambino said, "I've brought enough people with me. With your people, can't we protect a woman?"

...

you ... CEng Shuai pointed at him and said hatefully, "fine! If anything happens to Madam, you can use your life to pay for it!"

"Even if you don't say it, I will also use my life to pay for it." Gambino placed his hands behind his back and walked straight ahead.

"What does he mean?" Zeng Shuai was stunned and looked at Gong mo.

Gong mo pursed his lips and didn't say anything.

She understood what Gambino meant.

It was because he was Gong hang, her biological father. He hadn't done anything for her in the past twenty years. If something happened to her right under his nose, he wouldn't be able to answer to Shan Rong or himself. He was afraid that Wanwan would have to pay with her life.

Gong mo sighed and said to CEng Shuai,"let's go." We have more people, so things won't be too bad."

When they went downstairs, Gambino's car was already waiting for them on the road.

Gong mo walked directly to the car. Zeng Shuai shouted, "We have our own car!"

However, time was of the essence, so he did not argue with her and followed her to Gambino's car.

He sat in the front passenger seat while Gong mo and Gambino sat in the back.

Gambino glanced at him and said,"inform the people who went there earlier to find Sheng nanxuan in the laboratory."

Zeng Shuai was stunned and looked at him in surprise, saying, "According to the information we received earlier, boss is indeed in the laboratory. However, he shouldn't have woken up yet."

Based on his understanding of Sheng nanxuan, if he was awake, he would have fought his way out without waiting for anyone to save him!

Gambino frowned when he heard that.

"Will he be alright?" Gong mo asked hurriedly.

"Let's hurry up!" Gambino said, "tell the people from before to hurry up as well!"

Zeng Shuai became nervous when he heard that and immediately informed Lin Lei and Fang Yang.

Fang Yang said, " we can't enter the R & d Center without a password or fingerprint. We're afraid of blowing up the BOSS with explosives. We're catching Sheng Dongyi and Sheng Zhongtian. They can go in!

"Capture? Where are they?"

he's gone. I'm chasing after him. Lin Lei will stay in the R & d Center to crack the password!

"Alright, Madam and I will be there soon!"

why did you bring Madam here? " Fang Yang was shocked.

"Aiyaya, it's a long story!"

then be careful on your way here. Sheng Zhongtian and Sheng Dongyi might run away separately.

"Understood." Zeng Shuai hung up the phone.

Because he had projected his voice out, Gong mo and Gambino had also understood the situation.

Gong mo immediately looked outside the car.

"Pay attention to the people and cars coming from the other side," Gambino instructed his men.

Zeng Shuai was shocked,"they have a plane!" Don't tell me he's using the plane to escape?"

"Don't spout nonsense!" Gong mo was startled.

As soon as she finished speaking, she saw a car coming towards her at a very fast speed.

“Be careful!” She hurriedly said. That seems to be Sheng Dongyi’s car!”

Zeng Shuai immediately ordered his men to pay attention. A moment later, two cars approached and Gong mo shouted, ” “That’s right! It’s Sheng Dongyi’s car!”

“Stop him!”

Zeng Shuai and Gambino had their headphones on and kept in contact with their subordinates, giving orders at the same time.

The car that had been following them suddenly sped up, overtook them, and rushed straight at Sheng Dongyi’s car. They surrounded the other car and then hit the brakes.

Bang! Bang!

Sheng Dongyi’s car collided with one of the cars.

The car that Gong mo was in also stopped. She, Gambino, and Zeng Shuai all got out of the car hurriedly.

Their men had already dragged out the people in Sheng Dongyi’s car, who happened to be Sheng Dongyi and Sheng Zhongtian.

Chapter 456 I believe him

Sheng Dongyi and Sheng Zhongtian had fled in a hurry and had not even fastened their seat belts when they got into the car. Both of them had injured their foreheads from the collision.

...

“Tie him up and bring him to the back of the car!” Gong mo said to Zeng Shuai.

“Gong mo!” Sheng Dongyi suddenly shouted.

Gong mo glared at him with eyes full of loathing. He then turned around and got into the car.

Sheng Dongyi was shocked.

He had thought that she would more or less be unable to forget their past relationship after two years. He didn't expect her eyes to be so cold, as if he was her enemy.

Gong mo got into the car and looked at him coldly.

His men dragged them to another car, and for safety's sake, CEng Shuai went to look after them personally.

Gambino returned to the car and asked the chauffeur to start the car. He then looked at Gong mo. “He's your first love, right?”

“No.” Gong mo denied it. my first love was Nan Xuan. But I've completely forgotten about him a few years ago. Otherwise, I wouldn't have dated Sheng Dongyi, and I wouldn't have developed feelings for him.”

“Forgotten?”

Nanxuan made me forget that he knows hypnotism.

ah! Gambino was slightly stunned. I see.

"I completely forgot about him in those few years. I don't know how unforgettable it was in the past, and then I fell for someone else. Now that I think about it, everyone else is a joke. They can't compare to him at all!"

Gambino paused for a moment and said, 'he's pretty good to you. That's good too, it's reassuring."

Gong mo was stunned and looked at him.

He smiled. I was worried that he would hurt you since he's just an experimental subject. I don't know what kind of experiments he's done on his body. However, I'm sure he won't hurt you, right? "

"Of course he won't!" I trust him more than I trust you! Gong mo said with certainty.

Gambino's expression froze, and he was a little hurt. "Is that so?"

"I'm sorry." Gong mo didn't want to hurt him either. I'm not familiar with you.

"It doesn't matter. At the very least, you have some trust in me, right?"

Gong mo was stunned. She had never thought about it that way. However, if he were her father, he would definitely be trustworthy.

"If you're really Yingluo and my father, of course I'll trust you," she said.

"That's good." Gambino consoled himself. I owe you And Your Mother Too much. I don't dare to expect you to believe me completely.

Gong mo didn't want to continue this topic. He turned to look out the window and said, " "We're here! That's the industrial park, I know where the R & d Center is!"

The car drove to the entrance and rushed in despite the security guards 'attempts to stop it.

Under Gong Mo's guidance, they soon arrived at the R & d Center.

When Fang Yang learned that Sheng Dongyi had been captured, he had rushed back with his men and was waiting for them outside the door.

As for the employees who came to watch the show, they ignored them. Those people didn't know what was going on and didn't dare to get close. They kept pointing and talking. Seeing their boss and young master being carried out of the car in a sorry state, everyone immediately scattered.

Someone wanted to call the police, but when the police heard that it was shengshi pharmaceuticals, they answered the phone and did not go to the police.

"How is it?" Gong mo walked to Fang Yang's side and asked.

Lin Lei cracked the password of one door and blew up two with explosives, but he didn't find the BOSS.

Hearing this, Gong mo turned around and looked at Sheng Dongyi and Sheng Zhongtian. "You're saying they can?"

"If you can't, then chop it off!" Fang Yang said viciously.

.....

In the underground laboratory.

Liu Xuelan's forehead was covered in sweat as she faxed the DNA results to Carter.

Chapter 457 You've been transformed

Back then, in the laboratory of Shengshi Medical Company, she had handed over all the information of the experimental subjects to Carter. She did not dare to keep any information for herself.

...

In that information, the DNA data of the experimental subjects was necessary. Therefore, after the DNA report was sent over, Carter only needed to find the data from that year and compare it to find out if Sheng Nanxuan was N022.

After the information was sent over, she waited nervously.

On the medical bed behind him, Sheng Nanxuan's fingers moved.

At this moment, she turned around and was slightly shocked.

She glanced at the computer and saw that Carter was not in front of the camera at the moment.

She heaved a sigh of relief. It was good that Carter didn't see him, otherwise he might feel that he was incompetent.

She quickly walked to the side, picked up the anesthetic she had prepared, and carefully walked toward Sheng Nanxuan.

She walked to the bedside and a fierce look flashed in her eyes. She raised the syringe and stabbed it at Sheng Nanxuan.

Sheng Nanxuan suddenly opened his eyes. She was shocked and paused for a moment before continuing.

Sheng Nanxuan clenched his fists and pulled hard. The belts that were tied to his hands and the bed snapped!

The next second, he raised his hand and grabbed Liu Xuelan's wrist.

you ... Liu Xuelan looked at him in shock, then at the broken belt.

Sheng nanxuan's other hand also pulled upwards. His body shook violently. Not only did the belt on his hand break, but the belts on his feet and waist also broke.

He flung Liu Xuelan away, and she fell heavily to the ground.

Sheng nanxuan raised his hand, grabbed the belt around his neck, and easily tore it off.

The tranquilizer in Liu Xuelan's hand flew to the foot of the wall. She endured the pain and got up from the ground.

Sheng nanxuan had already gotten out of bed. He pushed the bed back and it slid to the wall.

"You've been modified!" Liu Xuelan retreated warily.

It was impossible for an ordinary person to pull off a belt.

Back then, one of the major projects of the laboratory was to use various drugs to modify the physique of the experimental subjects and increase the potential of humans without limit.

Many of the experimental subjects had been injected with drugs and had speed and strength that didn't belong to humans. It could be said that they had become superhumans, or rather, they had superpowers.

However, the side effects of the cormorant drug were huge. Almost all the experimental subjects would die from a brain hemorrhage within a short period of time after obtaining the ability. Therefore, the experiment on that project was declared a failure.

But now, she knew that she had succeeded!

At least, it worked on Sheng nanxuan!

He had incredible power, and it was very likely that he had other abilities!

“What’s going on?” A voice suddenly came from the computer.

Liu Xuelan and Sheng nanxuan looked over and saw Carter.

Carter suddenly blocked the camera with the document in his hand.

Sheng nanxuan’s eyes narrowed. He knew that he did not want him to see his face.

However, he had already seen it!

From the looks of it, this person could be found on the surface. Otherwise, there was no need to be afraid of others seeing his appearance.

“The potential activation experiment was successful on him!” Liu Xuelan said.

“Bring him back!” Carter turned off the video.

Liu Xuelan was stunned and looked at Sheng nanxuan.

Sheng nanxuan raised his eyebrows and walked toward her.

Liu Xuelan was afraid. Because she was just an ordinary person, and Sheng nanxuan had been transformed by an experiment. No one knew what he had become!

She quickly turned around and ran towards a door.

She ran to the door and placed her palm on the fingerprint sensor on the wall. The door opened.

She turned around and glanced at Sheng nanxuan. Seeing that he was still walking slowly towards her, she heaved a sigh of relief. She immediately went through the door and slammed it shut.

Chapter 458 Shot!

She quickly ran to a wall and moved away the map of human organs hanging on the wall, revealing a round switch.

...

She pressed a button, and the wall slid open, revealing a fingerprint sensor.

She pressed her finger on it, and the fingerprint verification passed. The sensor slid to the side, revealing a small storage cabinet.

Inside, there was a gun.

.....

When Sheng nanxuan saw the door close, he chuckled and walked over unhurriedly.

He pushed the door. He knew it was hard to open, but it was not difficult for him.

He took a step back and kicked the door hard. With a bang, the wall shook, and a few specks of dust fell from the wall to the ground.

The door loosened a little, but it didn't fall. The middle of the door was dented by him.

He understood at a glance that the steel bars around the door should be embedded in the wall. If he wanted to kick it down, he would have to fall down the wall with it.

However, this wall also had steel bars inside.

He didn't want to test if he had the strength, because even if he had the strength, he would still suffer from external injuries.

He couldn't bear to let himself get hurt. Gong mo would be heartbroken.

He looked back and wanted to find some tools to help when he suddenly heard a sound from outside the door.

He squinted his eyes and guessed that Fang Yang and the rest had arrived. He turned around and walked over.

The door opened halfway.

Sheng Dongyi was kicked into the room.

He stopped in his tracks and looked up. Fang Yang and Lin Lei had walked in.

"BOSS!" The two of them cried out in surprise.

"You guys are so slow!" Sheng nanxuan frowned.

The two of them lowered their heads, not daring to refute.

nanxuan ... Gong mo ran in.

Sheng nanxuan was shocked and quickly hugged her. "What are you doing here?" "What are you guys doing?" he scolded Fang Yang and the rest.

"You don't need to care about them!" Gong mo cupped his face in his hands and made him look at him. I know you're afraid that something will happen to me, but I'm also afraid that something will happen to you!

"I'll be fine." Sheng nanxuan grabbed her hand and looked at her affectionately. He kissed the back of her hand.

Gambino looked around and asked,"that woman isn't here?"

Sheng nanxuan glanced at the next room.

When Fang Yang and the others saw this, they picked up Sheng Dongyi and went to open the door.

She placed Sheng Dongyi's palm on the fingerprint sensor, and with a clang, the door opened a little.

The door had just been kicked by Sheng nanxuan. The steel bar inside bent and was now stuck.

Fang Yang did not know about the situation. He lifted his leg and kicked the door open.

"There's no one!" He exclaimed when he entered.

"There must be another exit. She escaped." Sheng nanxuan let go of Gong mo and walked over.

Gong mo looked around and saw that there were experimental equipment everywhere.

Could it be that the Sheng family was still conducting experiments on living people?

She frowned in disgust at the thought of this possibility.

Sheng nanxuan looked around the room next door. Liu Xuelan was not there.

He turned to look at Sheng Dongyi and smiled. "Her son is here. She won't leave him behind."

As soon as he finished speaking, he suddenly heard Gambino roar, " "Be careful-"

Sheng nanxuan was shocked and ran out in a hurry. He saw a bullet fly in from outside and hit Gong mo in the head.

At the critical moment, Gambino pounced on Gong mo.

Sheng nanxuan could tell that Gambino's speed was also faster than ordinary people. Otherwise, he would not be faster than a bullet.

The bullet hit Gambino's back, and fresh blood immediately spurted out.

Sheng nanxuan's face was full of anger as he ran out of the door.

Chapter 459 Do you believe I'll kill her?

No one saw his movements clearly. They only saw a blur and a black shadow flashed in front of them.

...

Sheng nanxuan ran out of the door and saw Liu Xuelan running along the corridor.

From the looks of it, Liu Xuelan had taken advantage of her familiarity with the place to circle around from another exit and took the opportunity to shoot at them.

Sheng nanxuan could not imagine what would have happened to Gong mo if Gambino was not around!

She would die!

He knew!

He saw clearly that the bullet was flying towards Gong Mo's head.

Liu Xuelan was digging out the flesh from his heart, making him regret it for the rest of his life!

Although nothing had happened, he wanted to kill Liu Xuelan when he thought of that possibility!

There was a distance of more than ten meters between the two of them, but it only took a second for him to stand in front of her.

Liu Xuelan was shocked and raised her gun at him.

He reached out and grabbed the gun, so fast that she could not react.

By the time she came back to her senses, she realized that her gun was gone. She could only turn around and run away.

Although she would run into the laboratory with a large group of people, this was her only choice.

Besides, she had to make this choice because her child was still inside!

Sheng nanxuan glared at her viciously and walked towards the laboratory.

Liu Xuelan ran into the laboratory and was kicked to the ground by the bodyguard at the door. She was kicked to shengzhongtian's side so that the couple could reunite.

"Xue LAN!" Sheng Zhongtian supported her.

Liu Xuelan clutched her chest and coughed. She looked up to search for Sheng Dongyi.

Sheng Dongyi was standing on the other side. At that moment, everyone was focused on Gambino's injury, and no one noticed him.

Liu Xuelan gave him a look, and he took a look-

Gong mo was helped up by someone. Then, everyone went to help Gambino. There was no one beside her, and her entire back was facing him.

Sheng Dongyi took a scalpel from the lab table and quietly walked toward her.

He walked behind her and grabbed her.

ah! Gong mo shrieked.

Everyone was shocked. They turned around and shouted, "What are you doing? Stop!"

Fang Yang and the rest broke out in cold sweat. They did not expect Gong mo to be in danger at the last moment.

"Get out of the way!" Sheng Dongyi roared, " otherwise, don't blame me for being rude!"

ah! Ah! Ah! Gong mo groaned and looked at Gambino. save him first! Ah!

Blood Gambino's back was bleeding profusely. When he heard her words, he struggled to smile and fainted.

ah ... Gong mo was shocked. His lips trembled as he shouted, "Daddy!"

"Get out of the way!" let us go! Sheng Dongyi shouted.

"Has no one ever taught you that you can't do the same thing twice?" Sheng nanxuan's voice came from outside the door.

When Fang Yang and the rest heard that, they heaved a sigh of relief, as if they had found a life-saving straw. "BOSS!"

Sheng nanxuan walked in with his gun raised, a cold smile on his face.

Sheng Dongyi was shocked. He suddenly held Gong mo tightly in front of his chest. "Do you believe I'll kill her?"

"I do!" Sheng nanxuan said, " but I'm here. You can't do it.

stop teasing me! Sheng nanxuan's hands trembled. He did not doubt his words at all. we are a family. I did not want things to turn out this way.

"You're wrong. In fact, it's because you can't tolerate me that things have come to this."

Sheng nanxuan leaned against the wall and walked in. Sheng Dongyi saw him and controlled Gong mo to walk out.

The two of them circled the person in the middle in an anti-clockwise direction. Sheng Dongyi wanted the person in the middle to act as a shield, but the person in the middle was squatting on the ground to rescue Gambino. Once Sheng nanxuan fired, his head would still explode without any obstacles!

Chapter 460 breaking ties

Of course, he could pray that Sheng nanxuan did not have such accurate marksmanship.

...

However, Sheng nanxuan had given him too many surprises. He did not dare to take the risk.

Sheng nanxuan glanced at Gambino on the ground and said to Fang Yang, "Let's Save the People First,"

Fang Yang ordered someone to push the medical bed that Liu Xuelan had kidnapped Sheng nanxuan on over. He placed Gambino on it and pushed him out of the laboratory quickly.

Half of his men also left with them.

The other half could finally focus on Sheng Dongyi.

Sheng Dongyi broke out in a cold sweat. He said to Sheng nanxuan, "You don't want Gong mo to get hurt, do you? As long as you let go of my parents and me, I will let her go."

"Three for one, you really know how to do business." Sheng nanxuan continued to walk in.

"I think even if it's a hundred, you'll still trade, right? You like her so much." Sheng Dongyi forced a smile, which twisted his face.

"You're right." Sheng nanxuan lowered his hand.

Sheng Dongyi heaved a sigh of relief and shouted, " You guys go first!"

Gong mo looked at Sheng nanxuan and felt that his choice was not wise. However, he saw Sheng nanxuan's lips curl up into a cold smile.

He had already walked to the side of the experimental table. He turned around and picked up a scalpel.

Sheng Dongyi looked at him warily. Seeing that his hand was hanging by his side, he was not so nervous.

Sheng Zhongtian and Liu Xuelan supported each other as they stood up. Liu Xuelan said, " "Let's go together!"

Sheng Dongyi nodded and walked toward them with Gong mo.

Sheng nanxuan's hand moved and the scalpel suddenly flew towards him.

It was too fast!

Sheng Dongyi didn't see the other party's movements at all. Suddenly, he felt a sharp pain in his hand. He couldn't help but let go of Gong mo and throw away the scalpel.

Gong mo immediately ran forward. Sheng nanxuan jumped onto the experiment table in the middle of the room. He strode over, raised his hand, and fired at Sheng Dongyi.

With a loud bang, Gong mo shrieked in fear.

He jumped down from the experiment table and pulled her into his arms.

ah! Sheng Dongyi screamed.

Everyone looked over and saw that he had a scalpel in his right hand-thrown by Sheng nanxuan-and a bullet in his left knee-shot by Sheng nanxuan.

He hugged his knees and rolled around on the ground.

“Dong ye!” Liu Xuelan ran over while screaming.

Sheng Zhongtian was dumbfounded by this sudden change and could not react in time. He slowly looked at Sheng nanxuan. Sheng nanxuan suddenly raised his gun and pointed it at him.

ah ... Sheng Zhongtian’s legs gave way and he fell to the ground in fear.

Gong mo hurriedly grabbed Sheng nanxuan’s hand. Nanxuan!

“Don’t be afraid.” Sheng nanxuan kissed her on the forehead. I won’t kill him.

Gong mo was stunned for a moment and let go of him.

Suddenly, he fired a shot at Sheng Zhongtian. The bullet flew past Sheng Zhongtian’s ear, and Sheng Zhongtian was scared out of his wits.

Sheng nanxuan said indifferently, “I’m indebted to you for raising me. I won’t kill you today. It’s my way of repaying you. However, this spear was disrespectful, so we broke off all ties. From now on, when we meet, we will be mortal enemies.”

Sheng nanxuan looked at Liu Xuelan again. Liu Xuelan looked at him with hatred. “Kill Me if You Can!”

Sheng nanxuan fired a shot at her, but it still did not hit her. Instead, it hit the ground.

“I’ll still say the same thing. I’ll spare your life today to repay my kindness. If you dare to provoke me again in the future, I’ll definitely kill you.”

After saying that, he turned the gun to face the ceiling, his fingers moving quickly. With a few clicks, the gun broke into several pieces and fell to the ground. Even the unfinished bullets were unloaded.

“Let’s go!” He hugged Gong mo and turned around without looking back.
