Chapter 781: Old but Silly 2

Qian Shao said that Li Qing was young and impulsive.

Yes, he was indeed young and impulsive. He was terribly-behaved, but not bad, probably just a little silly. However, Qian Shao was a terrible person.

Wang Tianren was a brainless person, but Qian Shao was a man with a terrible heart.

“You said that you are here to become my disciples sincerely, so you are forcing me to accept you and then teach you? Why must I give you any reasons to turn you down?” Gu Chaoyan looked at Qian Shao coldly, “If you want to become my disciples, I will have to show the intention as well. Just because you are a bigger gang I have to accept you? What position do you have, for you to ask me to give you a reason?”

“Tam not accepting you, for no reason!”

“Tam running Xinlin Clinic, and you are asking me to share my medical skills with you? How important do you think you are?”

“Well, if you really want me to give you a reason, I can definitely teach you, if you share your own medical skills with everyone present. When I am the master of your medical skills, I can teach you all,” Gu Chaoyan said without showing any politeness.

As she finished saying these words, she looked at Qian Shao. “What do you think?”

That man had a terrible look on his face. He really had no idea what to say despite the anger inside his heart.

He had thought that a young girl like her, who had no family around, must be an orphan without anyone supporting her. However, she turned out to be such a piece of trouble!

He was the best at acupuncture, so Liuwei Hall, which was run by him, was an excellent clinic in the capital, and no other clinics were a match against him.

If he shared the medical skills with everyone present, then how would his clinic continue to stay open.

Well... he could trade his medical skills in acupuncture with the medical skills from the Xinlin Clinic as an exchange, but he could not possibly share it with everyone else. It was a terrible condition!

Qian Shao knew that it was not a good deal.

The other doctors were all looking at him in silence. Yet they all agreed with this suggestion.

However, no one stepped forward to make the proposal, because Liuwei Hall was still the leading clinic.

Li Qing, who had come back to himself, said to Qian Shao, “Uncle Qian, didn’t you say that you want very much to master the medical skills of this female doctor at Xinlin Clinic? She only needs to make an exchange deal, you can just say yes.”

Li Qing said this straightforwardly. He added after thinking for a while. "If this female doctor wants my medical skills, I can share them too."

The female doctor was right. Why would she teach them anything, when she was not their friends or family?

Making a deal sounded like a fair plan. It had to be a great medical skill if some dying man was brought back to life. It would be worthwhile if they could make a deal.

Li Qing looked at Qian Shao dumbly.

Qian Shao almost wanted to slap himself. He had thought that Li Qing was brainless enough to boost him in stealing the medical skills from Xinlin Clinic, but this Li Qing man was boosting him in an opposite way!

Gu Chaoyan looked at them with interest.

Well... Those doctors were all thinking about their own plan. Those who did not speak were planning to get medical skills from the two doctors to make a fortune.

And Li Qing

Chapter 782: Old but Silly 2

It proved what Qian Shao said – he was young, impulsive and straightforward. He was truly in the position to learn medical skills, and he even offered his own medical skills as an exchange.

"What do you think, Doctor Qian?" Gu Chaoyan asked calmly. "You kept asking for justice, and now you have got justice, yet you have started to hesitate. I still have a patient at my own clinic and I don't have time for you to consider."

"I am capable enough to cure a dying man who is terribly injured, and you are not as capable as me, so what are you hesitating for? I am in a disadvantageous position at the moment, but since so many doctors are present, I will have to accept the fact," Gu Chaoyan said with a smile as she glanced at the others.

The others nodded.

Qian Shao looked at Gu Chaoyan with reddened eyes. That was exactly what he had said – he was here with so many doctors making a sincere proposal. And yet this young girl used his words against himself.

He had not predicted that. No wonder Wang Tianren ran away – this girl was extremely difficult to deal with.

He would have other ways out, if he could not do anything about the situation today.

Qian Shao tried to press down the fury inside his heart.

He looked at Gu Chaoyan hesitantly. "My acupuncture skill has been passed down throughout generations, and my father is still alive, so I can't make a decision on my own. I need to speak with him back at home, so I can't say yes now."

Hearing what Qian Shao said, everyone present looked disappointed, but they did not dare to say anything more.

Li Qing looked helpless. He came here because his Uncle Qian insisted on this, and because he stressed that he was here with sincerity and that the doctor at Xinlin Clinic would definitely say yes, but now when the doctor asked him to show sincerity, Uncle Qian started to become hesitant.

Li Qing had to make a proposal to Gu Chaoyan. "Can I make an exchange deal with my family's medical skills?"

Qian Shao sized up Gu Chaoyan subconsciously hearing what Li Qing said.

He was looking forward to seeing how she would react.

If Li Qing's family skills could solve the problems, then the trouble would be saved a great deal.

"No." Gu Chaoyan replied without hesitation. "You can leave now, I have given you a chance already, but Doctor Qian doesn't want to take it, so that is not my problem any more."

Having said this, Gu Chaoyan started to walk towards the inner chamber.

Qian Shao's eyes widened because of anger. He stared at Gu Chaoyan. "You, you..."
However, he was carried out of the clinic by Xiu Jie before he even finished the words.

When Qian Shao was treated in this way, the others left the room of their own accord.

Qian Shao got so angry that his face turned totally red.

This young girl was so lethal and evil! She was blaming him for the whole thing, so the people present might have a bad impression on him even though they said nothing at the moment.

This young girl was setting him up! He felt as if he had just been beaten by some imperial children, but dared not say anything to the outsiders!

Inside the inner chamber

Sword One cheered her own Elder Miss.

Her own Lord Huai and Elder Miss were definitely the most "evilly smart" couple in the whole world.

'When the visitors were all gone, Gu Chaoyan finally got the chance to check the situation inside the inner chamber.

The patient was awake.

The pageboy who was watching over him, said helplessly, "Elder Miss, make him sleep please, he just doesn't want to close his eyes to rest."

Chapter 783: The Attacker

Xiu Jie found this pageboy and hired him. He was a very careful person who had no knowledge of medical skills, but he was very good at taking care of patients and was an obedient person. He was asked to feed the patient the medical soup Gu Chaoyan had prepared when he woke up and to make

him sleep. He obeyed what Gu Chaoyan asked him to do, but the patient did not cooperate. So he was feeling very helpless and worried.

Gu Chaoyan nodded and smiled briefly. "You have walked hard, go and take a break, Qing will be in charge of him later."

The pageboy cleaned up the stuff in the room and left. Gu Chaoyan looked at the man lying in bed.

He was badly injured and had just woken up. He should have been feeling tired and sleepy after drinking her medical soup, but he was still keeping his eyes open, refusing to close them and rest.

Gu Chaoyan understood him well.

He had just escaped from death. He had not expected that he would live. Since he could open his eyes, he would refuse to close them again, fearing that he would never wake up after he shut them.

He had a strong desire to live.

Gu Chaoyan looked at him and felt a bit helpless too, like the pageboy.

"You don't trust me, do you? I can rescue you from death, so I can also guarantee that you live on." Gu Chaoyan felt his pulse helplessly.

The man was obviously worried that Gu Chaoyan had misunderstood him. He said directly, "No, that is not what I mean, I just... I just feel that it is so great to be awake, and I would like to be awake for a little longer." Gu Chaoyan nodded and dropped the topic. She felt his pulse and found that all was well with him and he was recovering well.

"Your pulse is steady, so your inner injuries are gradually recovering too. What you need to do is to take good care of your outer injuries. So don't be greedy for your waking hours, take a good rest, so that you can recover well. It is getting late, I will have a few questions to ask you when you wake up again," Gu Chaoyan said calmly.

He put his hands into the blanket and got up.

Hearing that Gu Chaoyan had some questions to ask him, the man said quickly, "Elder Miss, please, ask me now. I can't be burdened with anything, or I won't be able to rest well."

Gu Chaoyan looked back at him. He looked like he was in a good mood.

She thought for a while and asked. "It's not a big deal, I was just wondering what hurt you?"

Gu Chaoyan tried to sound relaxed. She was worried that he would get frightened when reminded of the terrible scene. However, it seemed that this man was not frightened of what he had experienced. Instead, he started to recount what he had experienced.

"At that time, I was not fed well at home, so I thought about hunting something in the mountains. As I was walking along the path, I suddenly got grabbed by a very strange-looking thing. It did not seem to have the intention of killing me, it was just hurting me with its teeth. It had very sharp teeth, like a blade, but I truly did not get a good look at what it looked like, it moved too fast." The man kept recalling what he had experienced, but he just could not think of the appearance of the attacker.

The jaws were sharp like blades.

Gu Chaoyan frowned. She had no idea what could be sharp like a blade.

She shook her head.

"I got it, take a good rest now, please." Gu Chaoyan stressed and was about to leave.

"Hang on, Elder Miss!" The man stopped Gu Chaoyan suddenly..

Chapter 784: Not Leaving

Gu Chaoyan turned around subconsciously and looked at him strangely, wondering what else he had just thought of.

She looked at him in silence, waiting for him to say something.

Being looked at by Gu Chaoyan in this way, this man suddenly lost the courage to say what he was about to say. He felt a little shy and introverted. He almost believed that what he was about to say would be over the top. However, he still wanted to give it a try.

"Twas just thinking that Elder Miss, you are my savior who has saved my life. I hope that I can stay here and work for you when I recover. I don't need to get paid, I just need a place to live and food to eat," the man said.

Gu Chaoyan was startled.

Before she could answer him, the man explained, fearing that she would say no and think that he had thrown himself at the clinic. "I mean, I mean... if I am fully recovered, I can stay and work for you, if I am disabled... I will leave."

He looked at Gu Chaoyan sincerely.

Hearing what he said, Gu Chaoyan suddenly thought of how his brother said that he could go home if he made a full recovery and that he could just leave if he was disabled.

That was why Gu Chaoyan did not see any of his family these past two days.

So... did he hear the words at that time?

That was possible. Some people might still have awareness even when they were badly injured.

He could stay and work for her. That sounded okay.

"You can talk with your family first, and I will only keep you if you are an ethical person. We can talk about this when you recover, but for now, you need to rest." Gu Chaoyan said calmly, "And, what is your name?"

"Wang Dao"

Gu Chaoyan nodded, then she left.

There was an empty room in the backyard kept for special purposes at Xinlin Clinic. Now it came into use.

The pageboy hired at the clinic was a very hard-working person. Even if there was no one living in the room, he would always keep it clean. So Gu Chaoyan moved in without any trouble.

That made Gu Chaoyan believe that the pageboy was a very nice person.

After a while, she would give him the raise.

After she washed up, Gu Chaoyan laid down in bed. She kept thinking about what Wang Dao told her – what could that thing be?

Many animals had sharp jaws, but not as sharp as blades!

Gu Chaoyan fell asleep directly as she thought about this, and when she woke up, it was already the following day.

Gu Chaoyan did not sleep in since she spent the night at Xinlin Clinic. She had a terrible sleep and woke up early.

Gu Chaoyan combed her hair briefly and walked out of the room.

She asked the pageboy if Wang Dao had woken up. Knowing that he had woken up, she went to the kitchen and started to make the medicine.

‘The magical water was a good thing, but it could not be used all the time. He needed some other supplementary medical materials for his internal injuries, Gu Chaoyan thought that she would need someone with medical knowledge to work at Xinlin Clinic.

That person only needed to be able to make supplementary medicine. He did not have to be accurate on fire control, since Gu Chaoyan used relatively strong fire for the medicine making.

‘When she was done with the medical soup, she asked Qing to serve it to the patient.

She, on the other hand, decided to have some breakfast.

She had just gotten up when Xiu Jie entered. He showed a very helpless expression on his face. “Elder Miss, that Li Qing from the day before is here again. He is asking for you and doesn’t want to leave..”

Chapter 785: To Become a Disciple

Hearing that it was Li Qing who was at the doorstep, Gu Chaoyan was instantly reminded of the young and impulsive doctor the day before.

‘What was he doing here again? She had made it clear the day before that she was not going to take any of them as a disciple. She had thought that it would conclude the whole matter, but now that man was here again, asking for her.

She would not meet Qian Shao, if it had been him, but Li Qing was a little different. He was slightly arrogant, proud and impulsive, but he was, somehow, quite straightforward.

Gu Chaoyan sighed. "Let's go and check it out."

She was not busy with any other business, other than that she might have to postpone her breakfast.

Xiu Jie led Gu Chaoyan outside.

Li Qing was seated in the lobby of Xinlin Clinic obediently as he glanced about as if worrying that Gu Chaoyan would not want to see him. His eyes brightened the moment he saw Gu Chaoyan. He stood up directly and started to head towards her.

Gu Chaoyan waved at him, telling him not to approach.

Li Qing let out an embarrassed smile and went back to his own seat.

Instead of being equally arrogant as the day before, he looked a little uneasy. He had spent the whole night pondering over the matter.

When he came to the clinic with Uncle Qian the day before, he had acted over the top. He and the other doctors believed that they were the best doctors of the capital with both social background and medical competences. However, this lady doctor at Xinlin Clinic was alone, and he had thought that they could come and take care of her whilst she passed on the knowledge to them. The whole thing seemed very reasonable, but what they had forgotten was that doctors lived on medical skills.

They were stealing the livelihood from the lady doctor. So when the lady doctor asked Uncle Qian to make a deal with her by sharing the medical skills, she was teaching them a lesson – never to pass on what you did not want to to others.

Medical skills help people, and everyone should be part of the development. Therefore, he was here to apologize.

And secondly, he hoped to make a deal with her by exchanging his own medical skills.

Li Qing bashfully glanced at Gu Chaoyan, who was in the middle of drinking a cup of tea. She looked very calm as if nothing had happened. That made Li Qing even more embarrassed.

"L.. Lam here to apologize. I hope you can forgive me for being impulsive yesterday," Li Qing said as he randomly put his hands somewhere.

Hearing what he said, Gu Chaoyan threw a look at him and nodded. "You are forgiven."

Then she was about to stand up, but Li Qing shouted. "And one more thing! I really, really hope to be your disciple, your real disciple! I can share all of my medical skills as long as I can learn something from you." Li Qing looked resolute and sounded determined.

The Li Family had been active in the capital for many years.

Their Liufu Hall might be a small clinic, but the reason why the clinic could prevail in the capital for so long was because their medical skills were quite powerful.

Li Qing had thought for a long time when making the decision.

After he became her disciple, he and his whole clinic would come to pay her respect.

Gu Chaoyan looked at Li Qing.

She was actually quite surprised. She had not expected that Li Qing was here for that reason, and that he even wanted to offer the most precious things of his family as a bargaining chip.

He was looking at her in a begging way, but

Chapter 786: What Was That

However, Gu Chaoyan was not there to get disciples. That was because she was not a suitable teacher, and also, most of her medical skills were excellent because of the magical water. Magical water was a very special thing, and it was not something to be promoted. Therefore, she was going to have to disappoint Li Qing.

If everyone was able to master her medical skills, she would not need to open a clinic. What she needed to do was to open a classroom to pass on medical skills.

Gu Chaoyan slightly shook her head and said to Li Qing, "I am not married yet, and I don't need such a grownup son."

As she finished speaking she got up, then she headed towards her backyard. She took a few steps, before she turned around and looked at Li Qing who was still confused. "I don't take disciples, but if you have any questions, you are free to come to Xinlin Clinic and ask me about that."

Then she left for real.

Only now did Li Qing understand what happened.

Disappointed as he was, he found the whole thing reasonable. This lady doctor had already agreed to help him solve any problems he had, and that was enough for him.

Li Qing bowed to Gu Chaoyan's retreating figure.

Xiu Jie was still in the lobby, so Li Qing left after saying a few polite words.

ee

Gu Chaoyan went back to the backyard and started to eat breakfast.

Sword One prepared the breakfast, small yet very nourishing.

Gu Chaoyan was very full after eating some of it. Then she said to Sword One. "Sword One, I think Xiao Jin is coming back very soon, you can ask Sword Three to tell him that we have some other jobs for him. And tell him to find some orphans who can work for me. I think Xiao Jin understands what kind of orphans I would like to keep."

"Got it." Sword One answered.

Gu Chaoyan nodded.

There were too few people at Xinlin Clinic, and she had few employees she could use these days. She needed to train some as soon as possible. Time and tide waited for no man.

'When she was done with these small errands, Gu Chaoyan thought of what Wang Dao said about getting injured. She thought about visiting the place where Wang Dao was injured with Sword One

today.

Sword One hesitated. "Elder Miss, Wang Dao has had a terrible experience, you..."

"Get Sword Two to come with us, everything will be fine," Gu Chaoyan said with determination.

"Yes." Sword One replied.

She felt that the whole thing sounded very dangerous.

Subconsciously she had not expected that Elder Miss would take the risk, but Sword One understood that Elder Miss was a unique woman. She was not someone trapped inside the deep chamber. She was smart and capable and she had her own ideas and beliefs. Sword One was the servant, and should respect her order. Nevertheless, Sword One decided to protect her with all she had.

When Sword Two arrived, the three of them were ready to head to the place where Wang Dao got injured.

Wang Dao's home was located at the foot of a mountain that was located near the outskirts of the capital. Gu Chaoyan went there directly, as she remembered his description.

They spent some time on the road, but Sword One and Sword Two were both capable people in martial arts... So they soon arrived at the mountains.

It was a very ordinary mountain. No one would expect that monsters would appear in such a mountain, if not for what happened to Wang Dao.

"Elder Miss, look there!" Sword One exclaimed..

Chapter 787: A Long Story

Gu Chaoyan looked in the direction Sword One pointed. She saw that there were some blood traces on the leaves of the tree, and the blood had become hard.

Gu Chaoyan went further in that direction.

On the place where the blood trace was seen, there were broken twigs and leaves which had fallen to the ground. Apparently, there had been a fight there. The blood had become hard, and judging from how the blood looked like, it was left there a few days ago.

This was obviously where Wang Dao was injured.

After he got injured, no one else had been to this place, and Gu Chaoyan had heard from his family that they had reported the incident to the government.

However, the government did not get involved with this matter, but categorized this incident into the fact that Wang Dao had been attacked by some large animal in the mountains.

Gu Chaoyan shook her head slightly, then she took a look at the footprints.

There were a few small footprints that looked like Wang Dao's. Blood was over the place where he had been.

Gu Chaoyan made a further observation.

There were footprints without blood that belonged to human beings. It was a footprint larger than Wang Dao's. And it seemed that it was from a very weighty man.

The footprint was very deep.

She thought of what Wang Dao was like – he was very tall and weighty, so this man should be bigger than Wang Dao? And Wang Dao also mentioned that this man was agile... so agile that he could not even notice what it was.

So that was a very agile, weighty man?

Gu Chaoyan found the whole thing even more confusing. What on earth had injured Wang Dao? She just could not have a clue.

"Let's walk a bit further, alongside the footprints." Gu Chaoyan said cautiously.

Sword One and Sword Two exchanged a look and nodded.

They took each of her side. They were afraid that something would pop up and hurt Gu Chaoyan.

'Wang Dao was injured here, and it was not certain if that attacker had left or if there were many more similar things existing here. They were all unknown beings, and even if they were capable in martial arts, they were still anxious – their Elder Miss had to be safe.

Gu Chaoyan followed the footprints a bit further until there were no more footprints. There was a huge forest in front of them and they had no direction where to go.

Even in the mountains, Gu Chaoyan could not see any ordinary animals like wild rabbits. She found the whole thing strange.

Sword One was a bit worried, so she suggested. "Elder Miss, I think that we should take it as a long term issue and ask the hidden guards to take a look into this."

Gu Chaoyan nodded. She did not think that it was okay to continue, since they were not fully prepared today.

The day would be getting darker soon and they were not fully prepared. Both Sword One and Sword Two could fly around, but she could not, so she did not want to drag them down.

"Let's leave, and make a plan." Gu Chaoyan said calmly.

Sword One and Sword Two let out a sigh of relief.

The three went downhill and headed back to Xinlin Clinic, but they made some signs on the way there, so that the hidden guards from the Shadow Door could follow the signs as they were conducting the investigation.

When they returned to the Xinlin Clinic, it was almost dark outside.

Gu Chaoyan had become a little tired.

She had just walked in, when she saw Xiu Jie wearing a helpless expression on his face.

Gu Chaoyan looked inside and spotted Qian Shao there.

They frowned subconsciously..

Chapter 788: Qian Shao's Negotiation

She had already explained everything the day before, so what was he doing here again today?
Gu Chaoyan headed into the lobby, wondering what he wanted.

Apart from Qian Shao, who was seated in the lobby, some other strangers were present too. One of the strangers was dressed in an official uniform which did not seem to be like anyone from the governmental office. She had no impression of what official position this man might possibly be in, but...

Gu

Chaoyan did not think that Qian Shao and this man were up to any good.

Gu Chaoyan sized up the crowd in the room.

So did the crowd.

Qian Shao patted the arm of the man next to him, telling him to check out Gu Chaoyan. The man, who had been wearing a bitter expression on his face, smiled at the sight of Gu Chaoyan.

"Uncle, this is the lady doctor you talked about?" The man asked straightforwardly.

"Yes." Qian Shao smiled and nodded.

"I thought that she was an ugly one, but she looks so beautiful." The man looked at Gu Chaoyan with a pair of smiling eyes.

Gu Chaoyan had been frowning constantly. She looked at these people coldly.

This was her own clinic. And these people were so shameless that they considered themselves the owners.

Gu Chaoyan would have asked Sword One to drive them out already, if she had not been curious about what they were up to.

Gu Chaoyan took the seat opposite them and sipped the tea next to her. Then she looked at them coldly and asked in an equally cold tone, "What are you doing here at my clinic?"

Qian Shao smiled. He no longer looked as embarrassed as the other day when he was driven out of the clinic. Instead, a touch of pride dominated his face.

"Lady, I am here to discuss something with you." Qian Shao looked really confident as he spoke. Then he started to make the introduction. "This is an Officer from Dali Temple, and this is my nephew Qian Zhong."

"You may not have any idea of what Dali Temple is. Well, governmental offices only accept small cases, whilst major cases are taken over by Dali Temple."

"Officer Qian is part of our family."

"He heard about what happened yesterday and believed that you are a skilled doctor, so he insisted on coming here with me," Qian Shao said proudly.

There were many medical families in the capital. Their medical skills were passed down throughout generations.

The capable ones were hired to work in the court, thus giving the whole family a boost in social status in the capital. The reason why the Qian Family had some background was because there was someone working for the court in the family.

The officers enjoyed the highest social status compared to farmers and business people. That was why Qian Shao was so proud as he spoke of this.

He had not acted so roughly the day before, because he was not sure if Officer Qian would be willing to offer help, but now he was here dressed in his official uniform!

Then it basically meant that he was behind him!

So Qian Shao had nothing to fear.

He firmly believed that with Officer Qian around, he would be able to reach the goal of the previous day!

“Then you can leave now, since you have already checked the clinic!” Gu Chaoyan said softly, and decided to leave.

Seeing this scene, Qian Shao said directly, “Hang on.”

“I’m here today because there is one more important thing I would like to discuss with you.. You said that my family’s medical skills could be enough to make an exchange with yours, right? That is totally fine! However...”

Chapter 789: The Marriage

“However, our medical skills are passed down throughout generations, only to boys not to girls, nor to any outsiders. That is a rule set by our ancestors, and it has been going on for hundreds of years. We have been following the rules all the time.” When Qian Shao mentioned the rule, he showed a look of respect before he continued. “Well, for you Lady Chaoyan, we can make an exception. We can pass it on to girls, but we still can’t pass it on to outsiders.”

Qian Shao said this then showed a smile. He still looked quite proud at this point.

The two people, who were also from the Qian Family, nodded in agreement.

Qian Shao continued. “Therefore, I have just come up with a perfect solution.”

“Qian Zhong is my nephew, and he is a very excellent man in the younger generations. You two can get engaged, and after that, we will pass on our medical skills to you. When you master the skills, you two can get married officially.”

“Officer Qian can be the guarantor,” Qian Shao said proudly.

He had been discussing the marriage with his family the day before when Officer Qian mentioned that he could be the guarantor.

Therefore, Qian Shao believed that the whole thing would work out perfectly, since Officer Qian offered help.

The Qian Family possessed the highest social status in the whole capital among the medical families.

It would not have been possible for them to marry a girl without any parents, one who was working hard outside, even though the girl might be a capable doctor. They would never have asked their own son to marry someone like that. Qian Zhong was the son of the third concubine, and the third concubine had not been delighted, but after Qian Shao's endless talk and offered profits, the third concubine finally agreed.

However, even if they said yes, the third concubine had an even higher standard – they would only get married when the medical skills were successfully passed on.

Qian Shao had thought that it would not sound like a good deal, but when he thought of how Officer Qian could stand by their side, he did not think that it was a bad deal for someone like her. That was the best family she could get!

Having said this, Qian Shao looked at Gu Chaoyan, waiting for her to reply.

He was so confident that he failed to notice how annoyed Sword One and Sword Two had become. He was waiting for Gu Chaoyan to nod with a broad smile on his face.

'When Gu Chaoyan heard Qian Shao's speech... She laughed. She laughed very, very hard.

Qian Shao was such a tricky man who had made a full plan for him and his family. Ordinary girls would have fallen into the trap set up by the Qian Family.

However, Gu Chaoyan was different. When confronted with such a man, Gu Chaoyan was no longer as ill-tempered as before. Instead, she threw a look at Qian Shao with interest. Then she looked at the officer from Dali Temple.

She said calmly, "As far as I remember, officers from Dali Temple are allowed to wear uniforms if they are out for business, but the rules from the court say that officers are not allowed to wear the uniforms if they are not out for business. Now you are here at my Xinlin Clinic for private matters, so it seems that Officer Qian has breached the rules. I wonder if the head of Dali Temple has any knowledge about that. I suggest that Officer Qian should get changed right now instead of standing here."

Officer Qian looked at Gu Chaoyan with a complicated look.

Qian Shao ignored what Gu Chaoyan said. "That doesn't matter.. What matters is what you think of my proposal, Lady Chaoyan?"⁴

Chapter 790: The Qian Family?

Gu Chaoyan threw a cold look at Qian Shao and a touch of teasing flashed across her eyes. She looked at Qian Shao as if she were looking at an idiot.

She did not answer Qian Shao directly. Instead, she followed her own steps by looking at Sword Two and said, "Sword Two, the day is still bright, go to Dali Temple."

Sword Two immediately understood what Gu Chaoyan meant. He answered politely and left.

The reason why Gu Chaoyan asked Sword Two to conduct the mission was because Sword Two had been working by Zhou Huaijin's side and was fully familiar with how the governmental offices worked.

An officer from Dali Temple was not working for the folk. Instead, he came in his uniform and dealt with family affairs instead. He was even here trying to bring down young girls! He was not suitable to remain at Dali Temple. He was going to be a terrible officer for Dali Temple in the future, so he must not stay.

Obviously, this man had to leave.

Gu Chaoyan looked at Qian Shao and got fully prepared to deal with him. She said coldly in the lethal and arrogant tone that belonged to only her, "That is a terrible proposal."

"I am able to cure dying people, because I am more capable than you. You should pay full respect and gratitude to me if you want to learn something from me, but instead, you are dreaming about setting me up with marriage? Who do you think your family is, that you would dare to raise marriage proposals here at Xinlin Clinic?" Gu Chaoyan asked with a sharp tone.

Hearing her words, Qian Shao could not stay seated any more. His face had turned red. "You..." Qian Zhong had a terrible look on his face too. He was the bridegroom-to-be, so this lady meant that he was not a match for her?

Qian Zhong might not be the lineal young master, but it was easy for him to marry a lady with some background in the capital. How could he be belittled by a parentless girl here. He did not look pleased, but he did not throw his temper either. This girl was very beautiful, more beautiful than any of the other ladies he had met, after all.

Officer Qian next to them, on the other hand, did not show any expression on his face. He was watching the show with interest.

He had been working in the court for a long while and after spending so much time at Dali Temple, he had met many noble people.

This girl was tough, but he did not have to change his expression for that at this moment.

The process did not matter. What he attached importance to was the result.

Before Qian Shao said anything, he said voluntarily, "You are a very skilled doctor, Lady, but have you ever thought that if you marry the Qian Family, you will be protected by the Qian Family, and your clinic will go to a higher level. Well, if you think that your medical skills are worth a lot of money, we can definitely offer something better than this. The Qian Family is definitely able to afford anything you want."

Hearing what Officer Qian said, Qian Shao shut up despite his anger.

They were here asking for a favor, so he had to stay calm so that the deal could be achieved.

"Officer Qian, can't you understand what I said. I mean, your family is not good enough to have a deal with me in marriage." Gu Chaoyan looked at them coldly, talking sharply.

The three people from the Qian Family were startled, then Officer Qian laughed.
